TWO CENTS ON SATURDAY ONLY

MEIGHEN TO QUIT AS CONSERVATIVE LEADER

PREMIER HANDS IN RESIGNATION OF GOVERNMENT

Will Not Again Stand for Parliament, He Announces

BYNG ACCEPTS Mackenzie King Summoned to Government House by Governor-General

OTTAWA, Sept. 25.—Premier Meighen announced today that he did not intend to contest a seat in Parliament and that when the Conservative conference meets on October 11 he will retire from the leadership of the Conservative party.

OTTAWA, Sept. 25.—The government has resigned, shortly after 10 o'clock, by Premier Arthur Meighen, and was accepted by His Excellency.

Mr. Meighen was accompanied to Government House by three of the ministers in his late administration: Hon. R. B. Bennett, Hon. George E. Jones, and Hon. W. A. Black.

Right Hon. W. L. Mackenzie King was summoned to Government House at 11 o'clock for the resignation of the cabinet.

CABINET SLATE Apparently the cabinet slate, as previously forecast, is correct. There may be some changes to note when the final announcement is made, but if they will be few. The new ministers will probably be W. D. Baker, Hon. J. V. Bennett, Col. Robert Forke, Robert Forke, Bernard Hiltner and Peter Hennessy.

The members of Mr. King's former government who will re-appear in this one are Hon. J. A. Robb, Hon. Ernest Lapointe, Hon. C. A. Dunnington, Hon. Charles Stewart, Hon. W. R. Motherwell, Hon. J. H. King, Hon. J. C. Elliott, Hon. P. H. Carlin and Senator Dandridge.

Hon. J. E. Sindaly, who was in the King government without portfolio from 1921 to 1926, will probably be in this one also without portfolio.

LUIS FIRPO PLANS RING COMEBACK Will Try and Arrange Bout in Canada and Then go to United States

BUENOS AIRES, Sept. 25.—Luis Firpo, the Argentine heavyweight, seems decided to try again to win the heavyweight championship of the world. He made an announcement last night, saying that he was sending a cable message to Jimmy DeForest, his former trainer in answer to communication, stating that he intends to start serious training in the hope of regaining his 1923 form. He does not intend to sail from Buenos Aires before next March, and that he will try to arrange some fights in Canada and then go to the United States to take on heavyweights there.

WOLVES KILL SHEEP SAULT STE. MARIE, Sept. 25.—Wolves are destroying the sheep in large numbers in the Iron Bridge districts, according to word reaching here. Starting their incursions at an earlier date than is usual, the wolves are also reported to be making off with young cattle and farmers are mustering their resources to rid the area of the pests.

First Bobbed Queen To Visit America BUCHAREST, Sept. 25.—Queen Marie will have the distinction of being the first bobbed hair Queen to visit America. The Queen will leave for Canada and the United States next month. Queen Marie sacrificed her hair some time ago, after an attack of influenza. She found bobbed hair so convenient and comfortable that she has virtually decided to continue to wear her hair short.

Result of Florida Hurricane Assumes More Serious Aspect Today

Ancient Skull Received At Ont. Museum

TORONTO, Ont., Sept. 25.—A human skull, said to be 2,000 years old, has just been received here by the Royal Ontario Museum from its agents in London. The skull, when unearthed in 1836, in the case of Thermopylae in Greece, by the late Lord Nelson, was encased in a bronze helmet. Previous to its attainment by the Ontario Museum officials, it had been a part of the Kensington Park, Norfolk, collection.

PLYMOUTH PAPER BUYS OLD CHAPEL

Will be Preserved; First Lt. Governor of Upper Canada Buried There

LONDON, Sept. 25.—The Western Morning News, of Plymouth has purchased a little derelict chapel on a farm in East Devon which is historic in intimate empire association. The chapel was built over a century ago, by Lieut. Gen. John Graves Simcoe, first Lt.-Governor of Upper Canada, whose remains lie beneath the building. Simcoe's house has been pulled down and the estate sold, but the purchase of the chapel, intended as a memorial to the first Lt.-Governor, is being carried out in connection therewith.

JUMPS 30 FEET INTO ONE FOOT OF WATER

Reason For Act Not Determined; Coroner's Verdict Says Accident

LONDON, Sept. 25.—Why Timothy Day, of St. Pancras, jumped 30 feet into a foot of water is a secret that will never be solved. He was 30 years old, and was entirely motivated, unless it can be explained by his last mumbled words, "I should love a dip." Day was only 30 years old, and he came to Southend for the week-end without telling his sister, with whom he lived. At Southend he met a friend, and they had four glasses of ale each before going to the pier. Day, according to eye-witnesses, was quite sober at the time. Suddenly he sprang up from the seat on which they were sitting, flung off his coat, and plunged over the side of the pier, a 30-foot drop into 12 inches of water. He died at the Southend Hospital from injuries received. The coroner returned a verdict of "accidental death."

MEMBER OF PEARY PARTY WAS SLAIN

News From Arctic Says Report of Drowning Was Erroneous

NEW YORK, Sept. 25.—A night dispatch from George Palmer Putnam, of the New York publisher, who is re-turning from the Arctic on the schooner Morrissy, the New York Times reveals that Prof. Ross Mearns, of Cornell, who was believed to have been drowned while on the Peary expedition to the North Pole, in 1909, was murdered by one of his two Eskimo companions. The facts are now revealed, the dispatch says, after 17 years.

Lake In Wales Moves Several Hundred Yards In 70 Years

LONDON, Sept. 25.—South Wales has a moving lake. Its pace is slow, but it is moving none the less surely. The lake is a mile and a half in circumference, and is amid the sandhills on the eastern shore of Swansea Bay. Kenig Pool, though only separated from the sea by a strip of sand half a mile wide, is fresh water. The twenty-

DISARMAMENT IS IMPERATIVE, CEGIL ASSERTS

British Delegate to League Opposes French Plan for Rush Meeting

GENEVA, Sept. 25.—American insistence that failure to bring about disarmament would put the League of Nations in a "dead alley" makes disarmament under league auspices imperative, Viscount Cecil of Chelmsford, British delegate to the league assembly, said today. Viscount Cecil opposed the French plan for a disarmament conference in 1927 on the ground that there was insufficient time to prepare for such a meeting. "Success is only possible through full preparation before the actual conference assembly," he said. "The preparation is now being made by the League of Nations. Everyone favors disarmament provided it is applied with all nations. The greatest disaster for the cause of peace would be the failure of the proposed conference. I personally am willing that it should be held next year, but I doubt if the time will permit adequate preparation."

FEW CHANGES DUE IN GOVERNOR'S STAFF

Major Sladen Likely to Remain as Secretary in Lord Willingdon

LONDON, Sept. 25.—Viscount Willingdon, who succeeds Baron Byng as Governor-General of Canada, left for Southampton today, accompanied by Viscountess Willingdon, to board the Empress of Scotland. Right Hon. L. C. M. S. Amery, Secretary of State for the Dominions, and other prominent persons were at the railway station to bid the couple farewell.

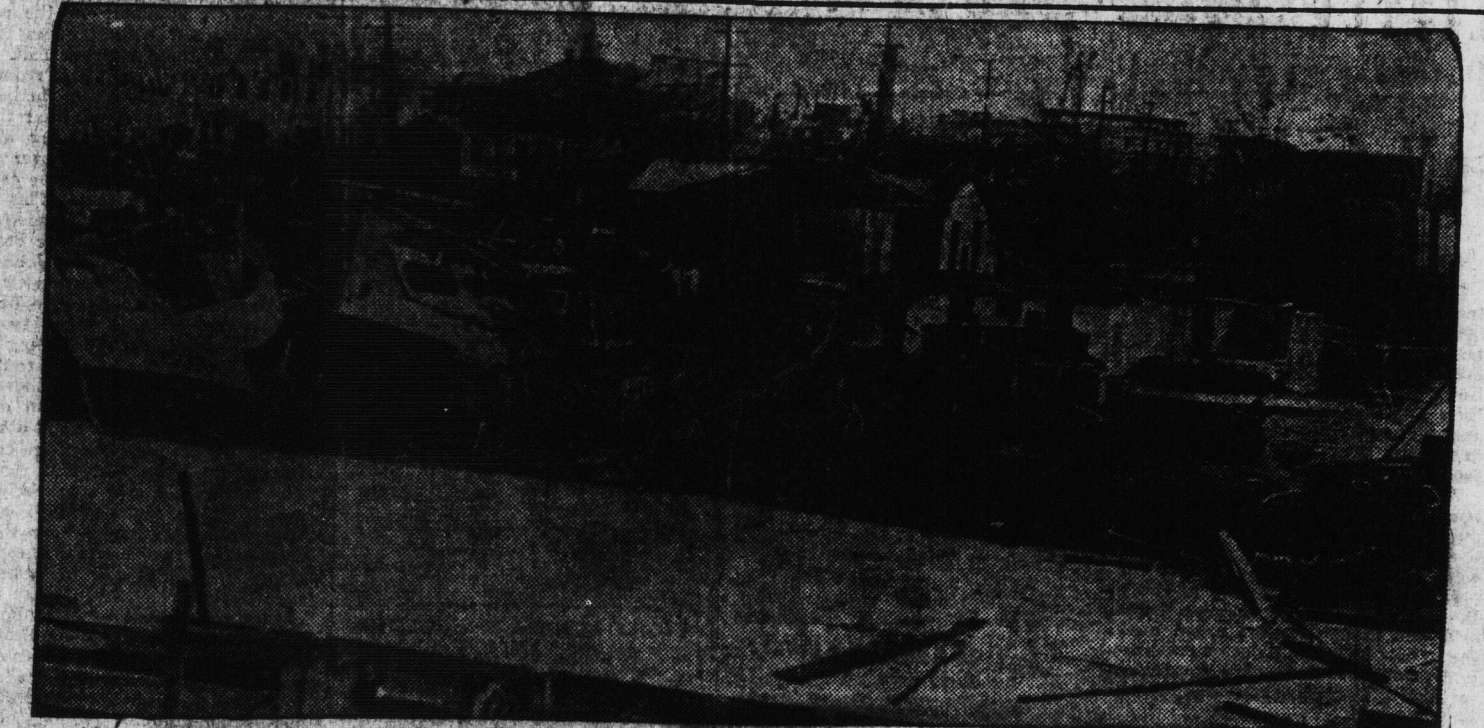

COUPLE WED AFTER 50 YEARS SEPARATED

LONDON, Sept. 25.—A man's love for a woman, lasting through 40 years of separation, was rewarded when Alex. Fraser, aged 71, was married at Salford to Mrs. Ryan, a widow, aged 68. Mr. and Mrs. Fraser were friends in childhood. For 40 years Mr. Fraser was abroad, yet through all this time he remembered the girl and woman friend of his early life. Six weeks ago he returned to search for her. Two weeks ago he found her, proposed and was accepted.

OFFER FOR CARUSO

An offer of \$4,000 has been made by D. W. Groves, of Milltown, Me., to John E. Kelly, Bangor, Me., for his fast pacer, Caruso, 2:07, raced on the Maine and New Brunswick circuit this season by Joe Johnson. Mr. Groves also tried to buy Peterkin, 2:10 1/2, for \$7,000.

First Pictures of Florida Storm Damage

Along the shore line of the Miami River the catastrophic Florida twister left a trail of wreckage and ruin of which this picture shows a typical section. Yachts, houseboats, barges and craft of all types were tossed from the water and left broken and battered as graphically shown above.

A street in Miami, Fla., after the hurricane. Wreckage from a building litters the foreground, palm trees are broken, other trees stripped of foliage, telephone poles down and wires broken. Disorder is everywhere. This scene is just one item in the property loss running to uncounted millions of dollars.

In the residence section of Miami, Fla.—since the storm. Homes were bowled over like houses built of cards. Here is a flattened out section of street, with a frame cottage knocked into a pancake design and a portion of the barn piled on top as if in antic fire. The scene is typical of miles of street in "the wonder city of the tropics."

Canadians Play Leading Part In Relief Efforts In Florida

MIAMI, Sept. 25.—Canadian Floridians who for the most part came through the cataclysm of last week-end, unhurt are taking a leading part in the work of looking after the injured and destitute and rebuilding the play city.

Mr. Renart, formerly of Prince Albert, Sask., who with his wife and son and daughter, weathered the storm at Coral Gables with a small monetary loss, has plunged into relief work, and is chairman of the Coral Gables reconstruction loan committee. This committee, instead of seeking gifts of money, more greatly "required" elsewhere, is floating a bond issue of \$250,000 to loan home owners in financial difficulty.

The number of applications for gross casework after the storm, minus assistance, Mr. Renart says, are surprisingly small and the average damage suffered by applicants is about \$800. Total damage in Coral Gables is set at \$1,000,000 and 240 out of 2,000 homes were damaged.

New Theatre For St. Stephen Planned

STEPHEN, N. B., Sept. 25.—An announcement has been made of a new theatre to be built here shortly by local men and incorporation has been applied for. A company has already been formed with P. E. McLaughlin, H. C. Purves, Roy Creamer, Howe Grant and Fred Waterson seeking incorporation as Windsor Theatre Ltd., with a capital of \$65,000.

RESTORATION PLANNED

Col. Fred J. O'Leary, formerly contractor in Montreal, Toronto and Saskatchewan cities, is putting in many long hours without sleep, organizing the restoration of Coral Gables, where he is president of the Realty Board and the Chamber of Commerce. He was at the beach on the night of the hurricane and lost his personal belongings. Making his way across the dunes, he saw the damage to the city, minus

EFFORTS MADE TO STOP THREAT OF COLOR WAR

Twenty-Two Negroes and Two U. S. Marines Held

MIAMI, Fla., Sept. 25.—The aftermath of the West Indian hurricane which devastated Southern Florida assumed a more serious aspect today than at any time since the storm broke.

Rehabilitation plans of officials, especially the conscription of negro labor, and Governor Martin's order to scores of families to evacuate the entire Lake Okechobee district, where the finding of decomposed bodies increases the possibility of an epidemic, are among the difficulties.

Strenuous measures have been adopted to stop race trouble threatened as an upshot of the wounding of two negroes and two marines and the forced labor of unemployed negro males.

22 NEGROES ARRESTED Twenty-two negroes, two of them wounded, are under arrest as a result of the first outbreak. The arrested also are under arrest in a hospital. J. D. Allen and E. L. Melbourne the marines, are said to have fasted upon two negroes in the colony section of Miami. The marines said the negroes were looting a grocery store. The negroes returned the charge. All the participants in the clash were wounded, and the incident threatened serious proportions, when officials sent two companies of troops, sixty police with riot guns and 25 deputy sheriffs to the scene.

A substantial force maintained order in the district throughout the night, arresting all armed persons. Twenty-five negroes were arrested.

ENGLISH BACKERS ARE AFTER TUNNEY

Wembley Owners Told New Champion Wants Purse Size of Dempsey's

LONDON, Sept. 25.—The Daily Express says the syndicate owning the Wembley Stadium sent messages to Gene Tunney and Jack Dempsey Friday inviting them to fight there on the evening of the next Derby Day, early in June.

The New York correspondent of the Express quotes Tunney as saying that his terms for a fight at Wembley would be a purse equivalent to that which Dempsey received for the fight Thursday night.

7 SICILIANS MAKE DASH FOR LIBERTY

Six of Aliens Held at Halifax Are Recaptured; Others Still Free

HALIFAX, N. S., Sept. 25.—A sensational break took place at Pier Two shortly before four o'clock this morning, when seven of the band of Sicilians who were landed at Mill Cove, N. S., last week from the Italian steamer Sori, escaped the guards and within half an hour six of the seven men were rounded up, three having been arrested on one side of the pier, two on the other, and another on the north side of the pier.

The remaining member of the gang made a mad dash towards the head of the pier and across Water street. He was hotly pursued by a detachment of the special guards from the building and the city police. Three shots were fired after the fugitive, who having considerable of a start and proceeding at a rapid pace, evaded the guards and made his disappearance up a side street. At 4:30 o'clock he was still at liberty.

POLISH CABINET DECIDES TO QUIT

Resignation is Outcome of Criticism of Ministers' Conduct by Diet

WARSAW, Sept. 25.—The Cabinet has decided to present its resignation, this action being the outcome of criticism by the Diet of the Minister of Interior and Minister of Education for the last quarter of 1926. It consisted itself by severely criticizing the policies of the Minister of Interior Lodzianowski and Minister of Education Sujowski.

Immediately after the Diet's vote yesterday, Premier Bartel called an extraordinary session of the cabinet which decided to support its two colleagues by announcing the resignation of the entire ministry.

POLICEMAN MISTREATED

The two eyes in the silent policeman at the corner of Union and Grand streets are reported broken.

J. N. B. HOPES ACADIA WILL STAY IN SPORT

Fredericton Institution Moves to Continue Inter-College Games

FREDERICTON, N. B., Sept. 25.—An intercollegiate football league still has the preference at the University of New Brunswick. This was the attitude taken by the majority of the undergraduate body at a meeting held yesterday for the purpose of discussing rugby prospects for the present season.

INVADER OF ARCTIC IS VISITOR IN CITY

Dr. P. Heinbecker Was With American Museum Greenland Expedition

Dr. Peter Heinbecker, who was an assistant at the Saint John County Hospital a few years ago and who was one of the members of the American Museum Greenland expedition which arrived at Sydney, C. B., yesterday morning, reached the city today and left for Westfield to be the guest during the day of Ralph Stephenson. Dr. Heinbecker expects to leave for St. Louis this evening.

Reception Is Given Yarmouth Pastor

YARMOUTH, Sept. 24.—A largely attended reception was held in the Central United Church last evening in honor of Rev. Gerald Rogers, who recently assumed the pastorate of that congregation, and Mrs. Rogers.

C. N. R. GROSS GAINS 4 PERCENT IN WEEK

MONTREAL, Sept. 24.—The gross earnings of the Canadian National Railway for the week ended Sept. 19, 1926, were \$1,419,922 as compared with \$1,384,280 for the same week in 1925, an increase of \$35,642 or 4 per cent.

DEATHS

HAWKER—At his residence, 256 Prince William street, on Sept. 23, 1926, Walter W. Hawker, aged 61 years, leaving a wife, one daughter, one brother and two sisters.
Funeral on Saturday from his late residence. Services at 3 o'clock.

After Lone Trek Across Congo, Girl Would Tramp Siberia

LONDON, Sept. 25.—"I don't like London, it's too thingy. I would go back to the Congo immediately, if I could."
A wisp of a girl, who has just reached London after a journey alone across Africa and through the Congo, made this remark recently. She is an Australian, Miss Doris Dinham, who stands a little over five feet high and confesses to weighing "about 85 pounds."

LITTLE AFFAIRS PROVE GREAT HELP

Children's Bazaars and Concerts Realize \$998 For N. B. Protestant Orphanage
That the little bazaars and entertainments held by children for the benefit of those in the N. B. Protestant Orphanage are a real help to the management in financing the expenditures for the care of those bereft of their parents is demonstrated by the announcement that the sum of nearly \$1,000 has been realized from these sources within the summer months.

TO BUILD THEATRE

F. G. Spencer Makes Plans For New House in Charlottetown
F. G. Spencer spent several days last week in Charlottetown, P. E. I., completing arrangements for the erection of a theatre on a property purchased by his company some time ago.

SHEPODY HAY CROP IS PRACTICALLY IN

HOPEWELL HILL, Sept. 24.—Not for years has the hay crop on the big Shepody marsh been so nearly all gathered so early in the season as in the case this year. A very few days will see the many hundreds of acres all cleared off and it is considered every ton is in good condition.

A Hearty Welcome

—always greets mother's delicious bran muffins. Mother smiles too, for she knows how good Tillson's Natural Bran is for all the family. Tillson's is just the natural cost of wheat grain, untreated and uncooked—that's why it is best for you.

The executor of the last will of the above named deceased having filed his accounts in this court, and asked to have the same passed and allowed, and order for distribution made, you are hereby cited to attend, if you so desire, at the passing of the same, at a Court of Probate to be held in and for the County of the City and County of Saint John, at the Probate Court Room, in the Pugsley Building, in the City of Saint John, in the City and County of Saint John on Monday the Twelfth Day of October, next, at the hour of Eleven o'clock in the forenoon, when said accounts will be passed and order for distribution made.

BIG PORT GAIN TO COME FROM DUNCAN REPORT

Liberal Pledge to Adopt Radical Recommendations re Freight Rates Helps All —Switches Coal Trade Here— So From Portland to Here.

"Saint John and other Maritime industries are bound to get a great boost now," said George McArthur, Liberal today in commenting on the good news of the Maritime Probe Report and Recommendations, laid before the Government yesterday. The President of the new Eastern Coal Docks, Ltd., finds the advance summary of the report offers his highest hopes for "winter trade improvement."

Letters to the Editor

REGARDING THE PETITION
To the Editor of The Times-Star:—Sir,—In your issue dated September 23rd inst., there appeared, at first person, a most interesting and important editorial there seems to be something evidently overlooked, perhaps it may have been unintentional, but the issue at stake: "Relief from overburdened taxation."

Shipping

SAINT JOHN, N. B., SEPTEMBER 25, 1926.

THE DUNCAN COMMISSION.

According to an Ottawa dispatch to the Montreal Gazette we are informed that the Royal Commission appointed to inquire into the case of the Maritime Provinces presented its report to the Government yesterday. Since our government is about to resign and another to take office consideration of the report will naturally be left to the incoming administration. Consequently no details are yet available, in fact we have only the faintest suggestion of what the report contains. As this report is one of vital concern to the Maritime Provinces and the result of much effort on the part of those who have seen the urgency of rectifying our disabilities it is but natural that fuller details are awaited with something approaching anxiety. What we have merely whets our curiosity and raises our expectations.

We are informed that there are numerous suggestions in the report for the betterment of our conditions and that some of the recommendations are very radical. Acute medical necessities are mentioned. We are told that the report does not deal with the effect of the tariff on conditions in this section although the Commission was prepared to do so. Superficially this would appear to leave a gap in the enquiry. Also it is stated that the report recommends a separate commission be recommended to ascertain what should be federal responsibility towards the Saint John Valley Railway. Recommendations that in the Maritime Provinces, as we are given to understand, included in the report.

But with so little at our disposal which to form a reasonably balanced opinion it would be manifestly unfair to attempt criticism. We commendation, indeed, any detailed commendation, we wait a little longer and hope for fuller details.

NOT SO DIFFERENT.

We are very prone nowadays to accept without argument the statement that we are entirely different from our forefathers. But are we? We look on this as an age of sophistication, an age of thrills. People must have thrills even if they are unpleasant thrills. We drop out of the running in the pursuit of a new thrill to be dubbed old-fashioned. Did not our grandfathers run after thrills? Possibly they were not the same, but that is merely a change of times. One reads of people, well-to-do and cultured people, who several years ago would sit up all night in order to secure a good place to watch the public hanging of a murderer. This is merely thrill hunting in another form.

The taste for thrills is easily acquired and most of us pursue thrills when we are young. But we do not always like it at first. The emotions roused by the first whisky or the first kiss may be pleasant, unpleasant, or mixed. But in most cases the thrill grows on one and, since over-indulgence is human, people are inclined to carry the search for thrills to excess. A surfeit of anything, whether cocktails or kissing inevitably brings enjoyment. The thrill palls. Boredom sets in and eventually those who sat up waiting for an execution experienced like feelings because one reads of numbers who fell asleep and only woke up after it was all over.

But when the desire for ordinary thrills passes it is an extremely dangerous period. Human nature may have thrills of some kind and it becomes a question then whether to look out for something more intense or for something more solid and quiet. In the first case there is danger of coming a cropper. In the second case we talk of a person settling down. We can see it going on all around and all the time.

We are not really different. Despite "critical remarks the good, the really enduring good things are still appreciated and furthermore they need not necessarily be modernized. For instance, the London Daily Telegraph has been marvelling over the unending popularity of Gilbert and Sullivan. Commenting on this a Western paper says:

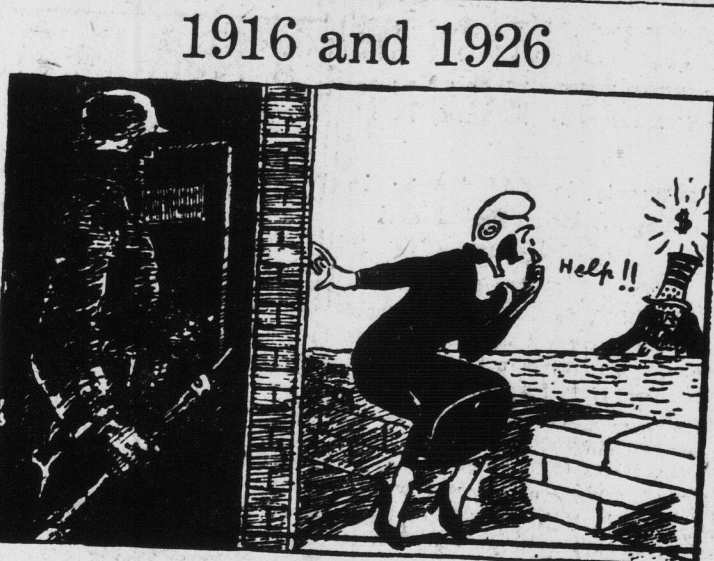

More than half a century after the formation of the Savoyard partnership it is safe to assert that Gilbert and Sullivan never will be missed, for the reason that they never will be missing. A "revival" of "The Mikado" or "Pinafore" is correct only in the technical sense that anything after the first run of a play is a revival. There can be no revival of that which is always alive, but varies only in the degree of its incidence on the public mind, ranging from a classic to a craze. If never in the history of the stage have words and music been so blissfully wedded, it was, in its very happiest moments, a marriage of opposites. The perfect songs in which Sullivan's tunes and Gilbert's verbal antics merge so perfectly afford, to the true Savoyard fan, less delight than those other combinations in which the serious, sometimes authentic, strains of the composer of "The Lost Chord" are mated to the irresponsible foolery of the "Bab Ballads." For the lords' entrance in "Iolanthe," Sullivan wrote bars that might have done for "Aida," but on them Gilbert has inscribed, "Bow, bow, bow."

DINNER STORIES

MR. JONES was at a dinner party. He was extremely shy and nervous, and never could summon up courage to speak because he felt his inability to say something neat. All the evening he had been trying to think of something nice to say to his hostess. At last he thought he saw his chance.

"What a small appetite you have, Mr. Jones!" she remarked with a smile. "To sit next to you," he remarked gallantly, "would cause any man to lose his appetite."

And now he wonders why he is never asked to the house again.

A German view of the French situation during war-time and now. —From Kladderadatsch, Berlin.

THE lawyer for the plaintiff had finished his argument, and the counsel for the defense stepped forward to speak, when the new judge interrupted him. His eyes were wide open, and filled with wonder and admiration for the plea of the plaintiff.

"Defendant need not speak," he said. "Plaintiff wins."

"But, your honor," said the attorney for the defendant, "at least let me present my case."

"Well, go ahead, then," said the judge wearily.

The lawyer went ahead. When he had finished the judge gaped in even greater astonishment.

"Don't 'beat all'!" he exclaimed. "Now defendant, win!"

Timely Views On World Topics

POLAND FACED BY STATE-WIDE DISINTEGRATION

By SIR JOHN FOSTER FRASER, Noted British Publicist, in The London Times.

THE next few months will be dramatic in the fulfilment of the story of Poland. There was joy in the heart of all Poles when, following the war, their dismembered country—which for a century had been divided between Russia, Germany and Austria—was restored to them. Freed from their shackles, they set about making Poland the most democratically governed nation in the world. Now there is something like despair. For the edifice first wobbled and then crumbled.

POPULAR GOVERNMENT is a precarious thing. It has been indefinitely prolonged in Poland, but it is now in a perilous place at Warsaw with a nominal and docile administration. An attempt to apply, and most of the Poles like it almost as though they missed the shackles which held them for so long.

During my recent visit to Poland I found that in the hundred years since the greatest crime in history was committed the Poles, who had been territorially separated, had also mentally grown apart under very different conditions of alien rule. The patriotic, the hunger for independence, had kept their kinship strong during the long years of bondage. When liberty came and unity was possible divergences developed.

Nature divergences. The Poles who had suffered badly under Russian and their own reactionary Austria—where they had been a habit possibly picked up from the Muscovite masters. Those who were under Austria, in the southern region, were illiterate, not badly educated, inclined to be lazy, but honest, hardworking, fairly prosperous, and had adopted much of the efficiency of the Germans. You can find no more striking and remarkable difference than by comparing the farms of the Poland which was under Germany and the grimy towns and slowly farming of Poland which was under the Knout of Russia. Russian oppression and deliberate withholding of education were, of course, chiefly responsible; but the fact remains. The different section are out of touch.

The Warsaw, Poles accuse those of

Queer Quirks of Nature

BY AUSTIN H. CLARK

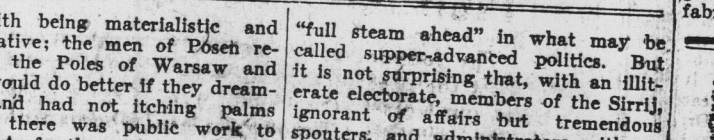

What would be more natural than that our forefathers, observing this conspicuous vivid yellow creature, should term it the "butter-fly"?

The name is usually supposed to have been first applied to the insect shown above, the common brimstone butterfly of Europe. The photograph is taken from one caught in Interlaken, Switzerland, many years ago. The brimstone is perhaps the most conspicuous butterfly of Europe. The males are of a most vivid yellow; the females are much lighter, of a greenish white.

The type is extremely common, abounding in and near woods in most parts of Europe, Asia and North America. You see it almost throughout the year. It passes the winter as a butterfly and so appears in the first warm days of spring.

Posen with being materialistic and unimaginative; the men of Posen report that the Poles of Warsaw and the rest would do better if they dreamed less and had not itching palms whenever there was public work to be done. As for the ex-Austrian Poles, they are lackadaisical and sadly ignorant of affairs but tremendous experience, and therefore, mainly competent, the whole system fell into disrepute. The air became thick with stories of graft, bribery and corruption.

Now it all depends whether within the next year Pilsudski, a dictator who likes to keep in the background while others obey his behests—will "make good." It is Poland going to stand, gain stability and become a useful European nation? My belief is that if the Poles keep steady democratic government should have been adopted, and that the order was

Brimstone Butterfly

"Full steam ahead" in what may be called suppressed-politics. But it is not surprising that, with an illiterate electorate, members of the Sirri, spouters, and administrators with no experience, and therefore, mainly incompetent, the whole system fell into disrepute. The air became thick with stories of graft, bribery and corruption.

Government System Falls.

It was natural that when Poland became an independent republic the most modern form of constitutional democratic government should have been adopted, and that the order was

Odds and Ends

Why She Wept

A certain village had had a succession of ministers who had a custom of retiring to the country. The last minister was about to leave, to hold a "retiring" office in the country. The retiring cleric would be followed by a group of his friends, he was from the thought that they were better men to take his place. At one time he and his friends were in the platform to try to console our distressed sister. He sat down beside her and patting her hand, saying that she would find that all was for the best. But the woman, through the tears, murmured, "I've been going to hear that speech you just made every three years. They all say the next man will be better. But it ain't true. They get worse and worse."

ABANDON SKIN KAYAKS

(Youth's Companion.) Eskimos of the Canadian Arctic are having power boats built for them at Edmonton, Alta., and delivered by way of the Athabasca and Slave rivers. Great Slave lake and the Mackenzie to abandon their skin kayaks, perhaps the most ingenious and primitive craft, for the oil-driven boat. So runs the world away; nobody will be different from anybody else.

RADIO ADVERTISING

(Brantford Expositor.) Sometimes advertisers are inclined to think that the cost of newspaper space is big. When compared with the cost of newspaper advertising is. The sixteen stations associated with WEAZ, New York, charge \$4,000 for an hour, \$2,250 for half an hour, and \$2,040 for ten minutes for what is called indirect advertising. The ordinary charge of WEAZ is \$480 an hour, and \$240 for ten minutes. After 6 o'clock p.m. the charge is \$600 per hour. However, in spite of these high figures prospective advertisers are standing with queues in hand and programs ready, seeking an opportunity to broadcast their advertisements.

SIGNIFICANT REMINDERS

(Montreal Star.) It will not be so easy as some think for Britain to recapture that vast foreign market in which she was pre-eminent before the strike began. Mr. Churchill says point-blank that no taxation will be impossible to reduce the miners to return to work once. To avoid the imposition of additional taxation to meet the deficiency created in certain directions through the strike. That is something the British public will not read with any feeling of satisfaction. It is likely to prove a powerful incentive towards a settlement. And the entire nation should be satisfied and suffer seriously, with prospects of no relief in the immediate future, through one industrial dispute, is not a condition the people will tolerate indefinitely.

POEMS I LOVE

"All For Love," by Lord Byron

JUST as the poets are forever interested in the mystery of death, they constantly look back to the golden time of youth and sing of its wonder. The same philosopher would not live in a period of perpetual childhood; but at least to keep the secret of the spirit of youth, is in every one of us, deny it as we may.

O talk not to me of a name great in story;
The days of our youth are the days of our glory;
And the myrtle and ivy of sweet two-and-twenty
Are worth all your laurels, though ever so plenty.

What are garlands and crowns to the brow that is wrinkled
By but as a dead flower with May-dew bespangled;
Then away with all such from the head that is hoary—
What care I for the wreaths that can only give glory?

O Fame!—if I'er took delight in thy praises,
'Twas less for the sake of thy high-toned phrases,
Than to see the bright eyes of the dear one discover
She thought that I was not unworthy to love her.

There chiefly I sought thee, there only I found thee;
Her glance was the best of the rays that surround thee;
When it sparkled o'er aught that was bright in my story,
I knew 'twas love, and I felt it was glory.

Just Fun

"DID that ad. you put in the paper yesterday get quick results?"

"I should say it did. I advertised for a night watchman and last night our place was robbed."

How high will Your Boy's Education Let Him Climb?

Public School Graduates earn \$45,000.00
High School Graduates earn \$78,000.00
University Graduates earn \$150,000.00

—Dean Everett W. Lord, Boston University, College of Business Administration.

FATHERS and mothers of Canada, think what it means to insure your boys and girls a good education, an asset they can never lose.

If you give your boy a Public School education only, you are probably condemning him to unskilled manual labor all his life. He may work up but the law of averages is against him. From the age of fourteen to sixty, the total earnings of the average Public School graduate amount to just \$45,000.00.

If you give your boy a High School education, he will earn \$78,000.00, according to the law of averages as worked out by Dean Everett W. Lord.

If, however, you send your boy to the University, he will earn \$150,000.00, by the age of sixty, if he maintains the mere average.

Therefore, consider now. Plan for your children's future while the years are still before you. Give them a chance.

The Mutual Life of Canada will insure the education of your children. We have a special policy for that purpose. Under its terms, you endow your children with an education, whether you live to see it or not, by simply paying an annual insurance premium.

Ask nearest Agent or write to this Office for a copy of "Child's Endowment Plan 'B'."

PREPARING FOR EVENING STUDY AT NEW SCHOOL

Vocational Committee Holds Meeting to Make Necessary Arrangements

OCTOBER 11 WILL BE OPENING NIGHT

Expect Enrollment Will be in Excess of the Accommodation

The first of the evening classes at the Saint John Vocational School will open on Oct. 11, and others will open later, it was decided at the meeting of the vocational committee yesterday afternoon, and registration will be carried on at the school from 7:30 to 9:30 in the evenings from Sept. 27 to 30 and from Oct. 4 to 7 inclusive.

TEMPORARY APPOINTMENTS

At the meeting temporary staff appointments were made or authorized to meet the unexpected needs of the large enrollment in the day classes and various matters of detail connection with equipment and organization were dealt with.

HOUSEKEEPING PROBLEM

The housekeeping problem for the school in cleaning and an assistant in running the heating plant was discussed and the matter was referred to a committee, consisting of Mr. Peacock, Mr. Carter, Mr. MacKinnon and Mr. Ingraham, which is to bring in a report.

THE CONTRACT

With regard to the pushing forward of the work on the Vocational School it was said the contractor would not receive his final payment until everything was completed.

How to Shampoo Blonde Hair to Keep It Golden Always

Blonde hair requires special care if you would preserve its natural golden beauty, keep the most attractive hair color and prevent it from turning gray or becoming faded.

HAIR CAME OUT IN COMBFULS Pimples on Scalp Itched Badly. Cuticura Heals.

"After having the flu my hair fell out so that I had to have it bobbed. I also had some pimples on my scalp and it itched badly. My hair was lifeless and dry, and when I combed it, it came out in combfuls."

Turn Back The Clock Tonight

ON SUNDAY the city returns to Atlantic Standard time after nearly five months of "Daylight Saving." Citizens are recommended to put their clocks back one hour tonight, as the change goes into effect at midnight, and tonight they have an extra hour to spend either in sleeping or in waking, as it pleases their fancy.

classes it was decided to have the instructor enter on his duties on Oct. 1, instead of Nov. 1. To meet temporary needs in the domestic science department, Miss Marjorie Sharp at a salary of \$100 a month, beginning in September, was appointed an apprentice teacher at \$80 a month.

IS WRONG, HE SAYS

He characterized this procedure as wholly wrong and said it was a shame and an outrage that the committee had to put up with it.

AUTHORITY GIVEN

Authority was given the director to organize the night classes at the Vocational School. Authority was also given Mr. Peacock to arrange for night classes in general education in King Edward School.

HOUSEKEEPING PROBLEM

The housekeeping problem for the school in cleaning and an assistant in running the heating plant was discussed and the matter was referred to a committee, consisting of Mr. Peacock, Mr. Carter, Mr. MacKinnon and Mr. Ingraham, which is to bring in a report.

Although There Are Too Many Divorces Today, There Were Too Many Martyrs in Grandma's Day — The Solution Will Come When Parents Train Sons and Daughters in the Technique of Matrimony.

A GIRL said to me the other day: "I am engaged to a splendid young man whom I love and who loves me, but I keep putting off my wedding day because I am afraid to get married. I read the ghastly statistics of the divorce courts. More than one marriage out of seven fails. I look about me and see disgruntled and quarrelling wives and husbands on every side. In all my acquaintance there are not six married couples who seem happy and satisfied, and who really love each other."

"Why is this? Why is marriage more of a failure now than it used to be? Why are the marriages of today so unhappy? Why are there so many divorces nowadays? Who is to blame?"

There are no more unhappy marriages today than there were yesterday, because the things that bring about matrimonial misery do not change. Taking it by and large, every generation has had just about the same quota of sagging, fretful, peevish, disgruntled wives. The same number of viragos who hampered their husbands, the same number of slovens. The same number of wastrel, extravagant spenders. The same number of slight ladies who cast roving eyes out of the home window. The same number of men who were bullies and brutes and grouchies and tightwads and drunkards and petticoat chasers. The devil has invented no new vices. He has not needed to do so. The old ones were perfectly efficient tools with which to break up all of the happiness and peace of marriage.

GRANDPA was just as disillusioned when grandma came to breakfast with her curl papers on, and without her stays, as John is when Estelle stoches into the morning meal in a soiled kimono. If grandma was a shrew with a perpetual-motion tongue, grandpa was just as afraid of her as Tom is of starting something with Susan. If grandma was a philanthropist, grandpa's heart broke over it, just as Mary's does when Bob hangs around the flippers.

The only difference is that in the past no matter what the wreck of the home inside, nor what the unhelpfulness, they kept the outer walls standing and in decent repair, while we smash the whole structure. Grandma suffered and was silent. The unhappy wife of today broadcasts her sorrows to the world. Grandpa left that he was in honor bound to stick to his matrimonial bargain, no matter what a losing one he had made. Now he breaks the contract, and compromises with the party of the second part by paying alimony.

GETTING a divorce simply wasn't done by our best people in those days. Society banned it, particularly with women. A woman was ostracized who divorced her husband, no matter how innocent she was, or how he had beaten and abused and insulted her. Now there are any way in which a divorced woman could earn her bread and butter, so she had to stick to her meal ticket, no matter if every mouthful she swallowed was salted with her tears.

Therefore there were few divorces. But that does not prove that these were more happy marriages than these are now. It merely shows that people endured more because they had to bear it. There was no open door out of matrimony as we have.

BUT human nature has not changed. Men and women are no wiser now than they were in our grandpa's time, and the reason that divorce is more common than it used to be is, first, because we look at it from a different point of view. We no longer regard it as a disgrace, but as a misfortune. And, secondly, because the economic independence of woman has broken the fetters that bound her to a fate often worse than death itself, and that made her the helpless victim of the passions of a brute if she happened to marry one.

The terrible thing about divorce is not the actual separation of a man and woman who find their marriage a failure, but the misery that goes before it. The broken dreams. The cruel disappointments. The tears. The long, dark brooding over wrongs. The quarrels. The speeches that stab like daggers. All the invidious bitterness that can well up from a wounded heart and poison a life.

I think that parents are largely to blame—really more to blame than the young people themselves for their children not being able to get along with their wives and husbands they marry. They are to blame because, although they know that their sons and daughters are practically sure to marry, do not train them for matrimony.

EVERY mother in the world knows the qualities that a man should possess to make him a good husband, which is something apart from being a good man. She knows that the man who is kind and considerate and generous; who takes the trouble to show his wife little attentions; who pays her compliments and makes her nice speeches; and who does something actively to make her happy, causes the cup of bliss of the woman to whom he is married to run over.

But you never hear of a mother impressing these facts on her sons or teaching them that they must make a fair divide of their money with their wives, or implanting in their consciousness a sense of their responsibility toward the girls they marry.

Every mother knows from her own experience how much forbearance, how much self-control, how much tact and diplomacy, what wisdom and subtlety it takes to get along with a husband; what sacrifices motherhood and wifehood involve, but you never hear of a mother teaching her daughters any of the technique of matrimony.

INSTEAD, pampered, spoiled, egotistic children who have had their selfishness cultivated to the nth power marry other pampered, spoiled, egotistic children who have had their selfishness cultivated to the nth power. And when these two undisciplined, strong-willed young creatures come in conflict there is no wonder that there is the sound of rending and breaking of marriage bonds and the crash of homes.

The only way to stop divorce is to rear the kind of men and women who have a sense of responsibility; who are unselfish and just and fair-minded, and who have learned to control their tempers and their tongues.

AND when you find that kind of a man or woman, you needn't be afraid to get married. DOROTHY DIX.

Chapeaux of Season of 1926-27 Display Character

By MME. LISBETH

THERE is a concerted effort among Parisian millinery houses to get away from the plainness and uniformity that has characterized millinery's appearance. The plain felt and velour hats that have been popular for so long have become the despair of the artist in hat design as their talents are wasted where there are no ribbons to fashion into clever bows and no velvets and satins to manipulate.

The models shown above are planned to show character and variety. All are from prominent Paris boutiques.

At the upper right is a model for the fall collection of Marguerite et Lemaire, in which the tam o' shanter influence is observed. It is soft and crushable, fashioned of brown velvet, the sole decoration being a buckle which clasps the down-turned top above the right ear.

Coral and ruby grosgrain and velvet are combined in a chic turban (center), with draped crown from the atelier of Mme. Agnes. Right, king blue velvet is stitched in loop effect with a wide band of lighter blue ribbon and a silver buckle. The turban's view from the side gives an interesting off-the-face effect. Designed by Jane Blanchot.

Elaborate stitching characterizes the hat of lavender blue velvet (lower left). Bands of stitching in contrasting colors form the motif of this hat from Feasted Vivat, which is also a crushable type so popular in this country. The stitching also edges the narrow turned-down brim.

The same house is responsible for the felt and velvet chapeau (lower right). The brim has a novel out-cut effect, the velvet defining the sharply turned-up brim.

Much metal is to be used this fall and winter, it is said, in the more elaborate hats. In one shop ostrich boas are displayed in conjunction with the hats.

and it is prophesied that they will be adopted by smart women for wear at afternoon affairs.

A new item that is noted here is that of the pin which is placed at the back of the hat instead of at the side or the front, where it has been used previously. On a great many of the models the pin is used at the back to catch down the drape of velvet or felt.

THESE are the methods employed by these very busy gentlemen who hop from their offices to the stock exchange, thence to lengthy luncheons and longer conferences, thence to a broker's office, back to exchange and back to their offices. Tens of thousands aren't half as busy as they think they are, but manage to get well confused before the day is done, and many affect great activity in means of impressing those about them.

BEHIND THE SCREEN

WHAT has become of the child stars of yesterday? Those cute youngsters who enjoyed great popularity during their early years. Children adored them and older folks gazed at their screen antics. During the past few years there have been but few child actors appearing in feature length productions. True, Jackie Coogan has made a name for herself. She is Virginia Lee Corbin, and as a player of happy roles she's not far behind the most outstanding exponents of that type of acting. It will be interesting to watch the race between her and Clara Bow for stolar honors. Her most successful picture this far has been "The Kismet Express."

All this is of interest because she is one of the few able to overcome the handicap of having been a child actress. Many of the other youngsters leave the screen at adolescence while others attempt adult roles and find themselves seriously handicapped by the judgement of a sometimes too critical public.

SEE-SAWING ON BROADWAY

IN A CITY so filled with activities and distractions as New York the percentage of absent-mindedness and forgetfulness is bound to be high.

Memory training schemes flourish by the hundreds and lessons in efficiency play for full class-rooms.

Dozens are the methods employed by these very busy gentlemen who hop from their offices to the stock exchange, thence to lengthy luncheons and longer conferences, thence to a broker's office, back to exchange and back to their offices. Tens of thousands aren't half as busy as they think they are, but manage to get well confused before the day is done, and many affect great activity in means of impressing those about them.

THE RHYMING OPTIMIST

SOFTLY the patterning summer rain touches the flowers and the grass; over the heads of the nodding grain; legions of raindrops pass. Falling in shining silver ranks into the fields of gold, falling on rivers' emerald banks, falling where buds unfold. Green are the branches of singing trees, green are the grass below, green are the cornfields' tossing seas, there where bright life today, flaunting its gold and green; gold where the daisies nod and sway, these vestments so brave and gay mist of the summer rain, 'telling Earth's splendours, come down today quivering the land again. Lances of silver pierce cloth of gold, Earth is made new again; beauties like Eden's own bloom unfold under the summer rain.

but who forgot to send out his circulars and hence never opened for business. There are many variations on this everyday Manhattan life.

THE notables of Broadway are, perhaps, far better known by the man-on-the-street than by fellow notables. The other day an actress of national reputation was in the midst of a rehearsal when the manager walked in with a rather shabby looking young man.

As an introduction was being attempted the actress started away. "Really, I'm terribly busy with rehearsals. I'm sorry but I can't meet everyone," she said.

"But," protested the manager, "this is a young man you should know."

"Who is he?" said the unimpressed actress.

"Oh," interrupted the young man, "I'm only the author of the play."

"He'll-I forgot to mail it."

OF COURSE you've all heard of the gent who ran the memory school.

A New Way to Banish Old Ills

A surprisingly simple method that conquers constipation, corrects skin and stomach disorders and brings new energy to thousands

NOT a "cure-all," not a medicine—Fleischmann's Yeast is simply a remarkable fresh food.

The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active, daily releasing new stores of energy.

Eat two or three cakes regularly every day,

one before each meal: on crackers, in fruit juices, water or milk—or just plain, in small pieces. For constipation dissolve one cake in hot water (not scalding) before meals and at bedtime. Dangerous habit-forming cathartics will gradually become unnecessary. All grocers have Fleischmann's Yeast. Buy several cakes at a time—they will keep fresh in a cool dry place for two or three days.

And let us send you a free copy of our latest booklet on Yeast for Health. Health Research Dept., L-118, The Fleischmann Company, 208 Simcoe St., Toronto, Ont., Canada.

"I'VE HAD STOMACH TROUBLE since I was eight years old. Nothing seemed to do me any good until I tried Fleischmann's Yeast. For twelve years now I've been taking the Yeast and so long as I take it regularly my whole system seems to work right. Before I took Fleischmann's I was quite an invalid. Now, for the last twelve years—since I have been eating the Yeast—I have felt perfectly well and younger than ever before, do my own housework, and walk up and down stairs as I never could when I was young."

Mrs. Minnie Neudham, San Francisco, Cal.

"AFTER SERVING THROUGH THE WORLD WAR I was taken dangerously ill with the flu. After recovery I continued to be troubled with constipation, headaches and dizziness. About six months ago I learned of the wonderful benefits to be derived from your Yeast when taken regularly. I formed the habit of taking your Yeast regularly in water. Now my constipation and dizziness have entirely disappeared and my digestion is perfect."

Arthur E. Frey, New York City

"I HAD A SERIES OF BOILS and infections on my face. For months I was under the care of a physician. Medical aid such as blood tests, tonics and serum treatment was given but with no permanent relief or effective result. Finally my doctor said, 'Try Fleischmann's Yeast.' I did. For one month I took two cakes a day and at the end of that time I could not wonderful results. I had had my last infection and soon regained my strength and vitality. Fleischmann's Yeast gave me a new lease on life. It is a privilege to be given the opportunity to express my appreciation for the results obtained."

Mrs. L. M. Sharlock, Denver, Colo.

"TWO MONTHS AGO I WAS TIRED OUT. I lost my appetite and my ambition and always felt tired when I woke in the morning. On the advice of a friend I began taking Fleischmann's Yeast. The tired feeling left me. The amazing rapidity with which Fleischmann's Yeast put 'pop' in me was surprising."

Bert W. Huson, Grand Rapids, Minn.

THIS FAMOUS FOOD tones up the entire system— aids digestion, clears the skin, banishes constipation.

THE EVENING TIMES-STAR, SAINT JOHN, N. B., SATURDAY, SEPTEMBER 25, 1926

SAINT JOHN MAN GOT NOTHING FOR INVENTION

Robert Foullis Devised First Steam Fog Alarm Ever Used

An interesting sketch taken from the records of the late Clarence Ward in the office of the Dominion Archives, Princess street, deals with Robert Foullis, inventor of the steam fog alarm. It follows: "Robert Foullis was born in Glasgow, Scotland, in 1796, and when a young man came to Halifax, where he followed the profession of a portrait painter. In 1822 he removed to Saint John and continued his painting. He seems to have been a man of many attainments for we hear of him as a steamboat engineer, portrait painter,

worker in iron, a surveyor and map maker, besides being well informed generally on scientific matters. "In 1826, Foullis opened an iron foundry in Prince William street, subsequently selling out to Thomas Everett. He then took up steamboat engineering and was employed by J. Ward and Sons to take charge of the new steamboat, St. George. The following complimentary reference to him in that connection is taken from the paper of May 14, 1826: "On Wednesday last the new steamboat St. George began to assert her mechanical powers to the admiration of all the surrounding spectators, and we feel it our duty to say that much credit is due to Mr. Foullis, the engineer, who put up the complicated yet compact machinery. She sailed for Fredericton this morning and we congratulate the public on having so commodious and superior conveyance to and from the seat of government."

INVENTS FOG HORN "The crowning work of Mr. Foullis' life was the invention of the steam fog alarm, the first of which ever erected was on Partridge Island, in Saint John harbor. For this great invention Mr. Foullis received neither emolument nor credit, for unfortunately his business capabilities did not equal his scientific attainments and the honor and profit were ditched away from him. It is

said that one to whom the plans were submitted, applied in his own name for permission to erect a steam whistle on the island, and an American engineer who had heard of it came here and studied the invention. "On his return to the States he had it patented in his own name and brought the matter to the attention of the American government, by whom it was generally adopted in their coast service under the name of 'Dobell's fog alarm.' As Mr. Foullis had not patented his invention he had no redress.

GOES TO ASSEMBLY "He then carried his claim to the House of Assembly and a special committee was appointed to look into the matter, with the result that by a resolution of the house Mr. Foullis was declared the inventor of the fog alarm, and a recommendation was made to the British government that the credit and reward might be given to him. This ended the matter. Mr. Foullis never received anything for the invention of an instrument of such great general use for the purpose of giving warning to vessels approaching the coast in thick and foggy weather. Mr. Foullis, like many geniuses whose inventions were of great profit and benefit to others, reaped no reward for his life long work. He died in 1866 at

poor man. His body is interred in the Rural cemetery, and no stone marks his last resting place. "During the period when the question of building a bridge was still being agitated, the ferry service between Saint John and Carleton was greatly improved. A steam ferryboat, the "Victoria," was built and placed on the route in 1840. Her engines were designed by Robert Foullis, the mechanical genius. To Foullis is given the credit of having made the first accurate survey of the Saint John river which is well known in the Crown Land office. He gives the distance from Fredericton to the Grand Falls by the river as 126 miles, 89 chains. The total from the head of the tide at Chapel Bar (about six miles above Fredericton) to the basin below Grand Falls he found to be 175, 8 in. In this distance he enumerated as many as 45 rapids. The height of the Grand Falls he found to be 74 feet perpendicular, and the descent in the gorge below 46 feet, 6 inches; making a total ascent from the head of the tide to the basin above Grand Falls of 129 feet 2 inches, the only formidable obstruction to navigation below Grand Falls being the "Medicinal Rapids."

Tiniest Station For Railway Employes

LONDON, Sept. 25.—Blackwell Mill, Derbyshire, disputes with stations on the Beantree line the claim to being the smallest station in England.

Blackwell Mill, which is on the London Midland and Scottish Railway, three miles from Buxton, has one of the tiniest stations in the world. A board bearing the name of the station. It has one train a week, no tickets are issued, and no fares are charged. The station, situated amid hills, dales, and deep limestone gorges, serves eight cottages, occupied by railway servants and their families, and every Friday morning an early train stops to take the women folk of the cottages to Buxton, where they return with their week's supplies.

Sting-Proof Expert Gives Demonstration

LONDON, Sept. 25.—An old man with a white moustache and a quiet smile stood unmoved in the Crystal Palace recently while bees crawled over his shoulders and down the arms of his coat. The scene was the National Exhibition of bees and honey. "There's a bee crawling over your collar—'He's going down your neck," cried one of the little crowd that had collected round the grime from which the insect on the back of his hand and stimulated it with a finger of the other. "The sting," he said, pointing "it's got it well in now." "Does it hurt me," not a bit, he immune."

Mr. and Mrs. W. F. Cassidy left Chatham yesterday on an auto trip to Fredericton and Saint John.

Mrs. Fred M. Crocker and Mrs. H. W. S. Allingham have returned to Saint John, after spending a week with relatives in Truro and Stewiacke.

Many friends of Miss Hilda Stanley, Misspeck, who has been ill at the home of her sister in Paddock street, will be pleased to know that she is able to return home.

St. Clair Sprague, of the King Sales Service, Minneapolis, Minn., is in the city on a short holiday, visiting his parents, Mr. and Mrs. H. B. Sprague, Mill street.

Carey W. McFeters, of Sussex, whose condition has been far from satisfactory of late, went into the Saint John infirmary on Tuesday last and was subject to a medical examination. He returned to his home yesterday.

The home of Mr. and Mrs. W. J. Edwards, 78 Queen street, was the scene of a merry party last evening when about 60 guests assembled and tendered a novelty shower to their daughter, Miss Helen Edwards, whose marriage will take place in the near future. Miss Katie Fox played the wedding march as little Miss Phyllis Edwards, sister of the prospective bride, wheeled into the room a basket decorated in white with white satin

Social Notes of Interest

His Worship Mayor White has kindly consented to be chairman for the concert to be given by William Houghton, actor singer in the Imperial Theatre on Tuesday night. The concert is being held under the auspices of the Women's Hospital Aid of the city, and its proceeds are to go toward financing maternity work which it is proposed shall be undertaken at the General Public Hospital. Mrs. J. J. Stothart, president of the Hospital Aid, is general convener for the arrangements for the concert, and Mrs. Walter Hall and Mrs. L. W. Mowry are conveners of tickets. It is expected that the concert will have very large patronage and invitations are being extended to the heads of various interested organizations to take seats in the boxes.

MUCH-NEEDED RAIN STRIKES YARMOUTH

YARMOUTH, Sept. 24.—Since 11 o'clock this morning Yarmouth has experienced its first real rain storm for several months. All through the afternoon it has fallen in torrents and this evening brooks and streams which have been dried for weeks are again flowing. In many sections the rain is a real God-send for in the rural sections wells have been dry and farmers have been forced to go to much inconvenience to obtain a water supply for their live stock.

Mrs. George Lander and Mrs. F. G. Lasdowne, of Sussex, who have been spending a month at Balmoral College, St. Martins, are in the city for a few days.

Among those who came from Sussex to Saint John to attend the band concert were Mrs. Irvine and Miss Katherine Prescott.

Mr. and Mrs. D. W. Harper, who have spent the summer months at Westport Beach, are returning to the city on Monday.

Mrs. John E. Sayre was hostess at a delightful but very informal tea at her residence in Rothesay on Friday afternoon in honor of her sister, Mrs. Geo. Wood, of Grimsby, Ont. The table, which was attractively centered with sweet peas, was presided over by Mrs. Harry Rankin and Mrs. A. J. Trueman, of Toronto, mother of the hostess.

Mrs. Arthur G. Ross was hostess at a small bridge at her residence, Windward avenue, Westmount, Wednesday evening in honor of Mrs. Frank L. Ross, of Saint John. A profusion of multi-colored sweet peas was used in the decoration of the drawing room and also centered the tea table.

Mrs. Stanley E. Elkin, who has been visiting her parents, Mr. and Mrs. Fanjoy, in Sydney, C. B., returned to the city early in the week spent a few days at the Admiral Beatty Hotel. Mrs. Elkin was later joined by her husband, who spent the week-end at the hotel.

Mrs. W. D. Foster returned to Saint John on Saturday after a pleasant visit with her sister, Mrs. C. M. Sills, in St. Andrews.

Miss Helen Scovell and Miss Marjorie Knight motored from Saint John on Sunday last and were greeted by Miss Kathleen Cockburn, St. Stephen. Miss Cockburn accompanied them on their return trip and is Miss Scovell's guest in Saint John for a few days.

Miss Lorene Evans left yesterday for Montreal to visit Miss Mildred Briggs. While in Montreal Miss Evans will attend the McGill reunion.

Frank Cawley, of Saint John, spent week-end with his mother, Mrs. Josephine Cawley, in St. Stephen.

Mr. and Mrs. W. F. Cassidy left Chatham yesterday on an auto trip to Fredericton and Saint John.

Mrs. Fred M. Crocker and Mrs. H. W. S. Allingham have returned to Saint John, after spending a week with relatives in Truro and Stewiacke.

Many friends of Miss Hilda Stanley, Misspeck, who has been ill at the home of her sister in Paddock street, will be pleased to know that she is able to return home.

St. Clair Sprague, of the King Sales Service, Minneapolis, Minn., is in the city on a short holiday, visiting his parents, Mr. and Mrs. H. B. Sprague, Mill street.

Carey W. McFeters, of Sussex, whose condition has been far from satisfactory of late, went into the Saint John infirmary on Tuesday last and was subject to a medical examination. He returned to his home yesterday.

The home of Mr. and Mrs. W. J. Edwards, 78 Queen street, was the scene of a merry party last evening when about 60 guests assembled and tendered a novelty shower to their daughter, Miss Helen Edwards, whose marriage will take place in the near future. Miss Katie Fox played the wedding march as little Miss Phyllis Edwards, sister of the prospective bride, wheeled into the room a basket decorated in white with white satin

streamers and adorned with a miniature bride. The basket contained many lovely gifts. After the parcels had been opened the streamers were pulled and the bride-elect was showered with confetti. Miss Edwards suitably expressed her appreciation of the good wishes and gifts. A pleasant evening was spent in dancing and music and dainty refreshments were served.

MISS MAUDE KIERSTEAD, of Manawagonish Road, will leave tonight on the Boston train for a month's vacation to be spent with relatives in Boston and New York.

MUCH-NEEDED RAIN STRIKES YARMOUTH

YARMOUTH, Sept. 24.—Since 11 o'clock this morning Yarmouth has experienced its first real rain storm for several months. All through the afternoon it has fallen in torrents and this evening brooks and streams which have been dried for weeks are again flowing. Women's Oldest

hygienic problem now solved a new and different way—true protection. Dispose of it as easily as tissue.

THE old-time "sanitary pad" is fast becoming a rarity. Millions are discarding it as a needless nuisance.

"KOTEX," a new and remarkable is now used by 8 in 10 better class women.

Discard as easily as a piece of tissue. No laundry. No embarrassment.

It's five times as absorbent as ordinary cotton pads!

You die, dance, motor for hours in sheerest frocks without a second's doubt or fear.

It deodorizes, too. And thus stops ALL danger of offending.

You ask for it at any drug or department store, without hesitancy, simply by saying "KOTEX."

Do as millions are doing. End old-fashioned ways. Enjoy life every day. Package of twelve costs only a few cents.

KOTEX No Laundry—Discard like tissue

HEARING OPENS IN N. S. MURDER CASE

Examination Delayed to Hear Wife of Prisoner, Now in Hospital

TRENTON, N. S., Sept. 24.—The preliminary hearing in the case of James Clow, charged with the murder here yesterday of Thomas McCoull, was continued until next Monday, upon representation of the prosecution that Mrs. Clow, who is in hospital suffering from injuries received the night of the tragedy, would be able to appear in person and tell what transpired.

TOWER'S FISH BRAND 'VARSITY' SLICKER 'The Rainy Day Pal' Most Popular and Practical Waterproof on the American Continent

GYPROC FIREPROOF WALLBOARD

Solid Rock —that saws and nails like lumber

GYPROC is a sheet of solid rock, 3/4" thick, 32" and 48" wide and 4 feet to 10 feet long—yet it is light, flexible and easy to handle.

It can be nailed and sawed as easily as lumber—unlike lumber, however, it contains all the properties of rock. Unaffected by heat, cold or dampness, it will not shrink, check or warp. Actually Gyproc is pure Gypsum plaster cast in sections. It can be applied by any one who can drive a nail squarely or saw to a line. Its simplicity in no way lessens its value.

Trim without delay. Gyproc does not have to dry. Gyproc is a ready-made wall ready for application. Each sheet has bevelled edges so that every section joins the other perfectly. There is no muss or dirt in handling it—no laths are needed—nail it right to the studs or joists. No plaster to dry, your trimmings can be put on immediately and it's ready for alabaster, paper, paint or panels as the case may be.

GYPROC IS MANUFACTURED IN CANADA, ENTIRELY FROM ROCK MINED IN NOVA SCOTIA, BY CANADIAN LABOR.

DEALERS: J. & D. A. Harquail & Co., Ltd., Campbellton, N. B. Tozer Brothers, Newcastle, N. B. James H. Neill & Son, Fredericton, N. B. Gandy & Allison, Ltd., Saint John, N. B.

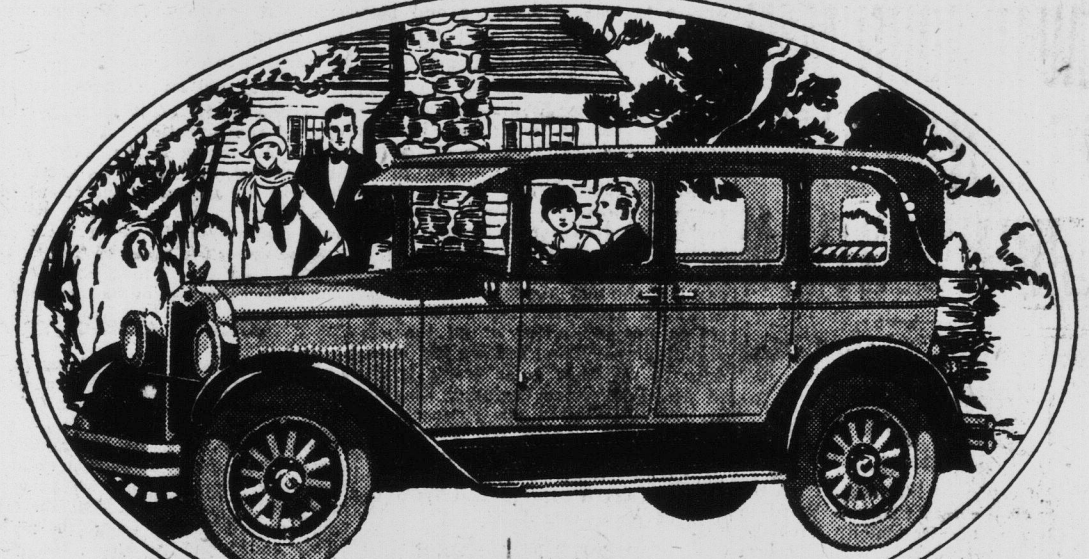

MONTREAL OFFICE, Canada Cement Bldg. MONTREAL FACTORY, Lakefield Ave., Montreal East.

We will help you solve your decorating problems on Gyproc or any wall surface. Direct your enquiry to our Decorating Department.

**NEW INVENTIONS
OF MANY KINDS
FILED IN LONDON**

**Doorknocker Is Aid to Radio
Fans; Kettle Which
Kindles Gas**

LONDON, Sept. 25.—Wireless enthusiasts should welcome the latest invention which has been received by the Institute of Patentes, in London. This is an attachment for the doorknocker. When the knocker is lifted a loud electric bell rings inside the door and a bulb lights up. The idea is that enthusiastic listeners cannot hear the knocker when they have the headphones on, but a bell is more penetrating. If they should miss the bell, the electric light is hoped, will attract their attention. This invention, which is the idea of an English

clockmaker, can either be fitted on the door or the bell, and the electric light can be installed in the living room.

KETTLE FIRE LIGHTER
Another ingenious idea is a kettle which lights the gas. Superficially it is an ordinary kettle, with a curious knob on one side. One puts it on the gas, and depresses the knob, which, in turn, strikes a spark of flint which placed at the bottom of the kettle, and ignites the gas. It is claimed that this kettle can be manufactured at a cost hardly more than that of the usual type.

Another inventor's forethought has provided for those who are bewildered by even the simplest addition or subtraction sum, a pocket calculator no larger than a card case. This neat little device enables one to add or subtract money with no more effort than is required to move a few tiny levers. One moves the levers corresponding to the amounts or numbers one wishes to add or subtract, and the answer appears almost magically at the top of the case.

TWO FOR MOTORISTS
For motorists there are two inventions. One is a lock nut, which in the opinion of a representative of the Institute is as near perfect as any he has seen, and the other is a spring wheel which dispenses with pneumatic tires. Instead of spokes, this wheel has

springs, and thus a solid tire can be used. At present the wheel is intended only for side-cars attached to motorcycles. The advantage of both these inventions will be appreciated by motorists—no nuts coming loose miles from anywhere when the spanner has been forgotten, and no punctures. There is the usual crop of freak inventions. One inventor hit upon an idea worthy of a cartoonist. This is a dandelion extractor, an elaborate apparatus for boring into the ground and removing offending dandelions. The other is a form of gear for heavy vehicles. It would necessitate supporting the weight of a ten-ton lorry on half a dozen ordinary air-filled rubber balls. The Institute has advised the inventor not to proceed further with his idea.

**WHY SUFFER
FROM RHEUMATISM**

"FRUIT-A-TIVES" HAVE HELPED THOUSANDS

Mrs. DAVISON
If you are made miserable by this painful disease, read this encouraging letter from Mrs. Louise Davison of Eau Claire, Ont.
"Some years ago, I had a severe attack of Rheumatism. I tried many remedies but received little benefit. A few months ago, I saw an advertisement of 'Fruit-a-tives' and decided to try them. After taking four boxes, I am now able to do all my own work besides putting in a large garden. I take great pleasure in recommending 'Fruit-a-tives' to anyone suffering from Rheumatism. 'Fruit-a-tives' is a genuine fruit medicine, made from fruit juices identified and combined with tonics. It frees the system of poisonous waste matters and purifies the blood stream. Try 'Fruit-a-tives' yourself and let them restore you to health and vigor. 25c. and 50c. a box—all at dealers.
The newest style wrinkle for women is the electrical dress, a good many husbands have found. It's usually charged.

**GOOD PATRONAGE
AT ORPHANS' FAIR**

City Cornet Band Plays Program—Additional Donations Are Received

The Orphanage Fair at St. Andrew's rink attracted many patrons last evening in spite of unfavorable weather. The City Cornet Band was in attendance and its program was greatly enjoyed.

W. M. Campbell reports that the financial returns have been encouraging. The rink presents a very attractive appearance and has entertainment and fun galore for old and young. The committees in charge are preparing for a great crowd this evening. A load of coal has been donated for the door prize.

Several valuable prizes were received yesterday. A radio set, with a retail value of \$125, has been donated by the Vaughan Electric Company. A smaller set, the gift of the Cosnar Farm, Gagetown, came in last evening. These two instruments will be given as a first and second prize in a drawing, tickets for which are on sale at the fair. Another interesting donation was received yesterday. This was a painting by the late Alexander Watson, famous Saint John painter. The scene depicted is one of Market slip, Saint John harbor. The following ladies, members of the Welsford L. O. B. A., No. 682, came to the city last evening and worked at the fair: The Misses Mabel McCracken, Alice Blanchard, Olive Willis, Theresa Willis, Alberta Johnson, Mrs. William Speight and Mrs. A. C. McDonald.

ICE CREAM BOOTH

The ice cream booth is under the patronage of True Blue Association and the following ladies are in charge: Mrs. H. Brown, convener; Mrs. Reed, Mrs. Jones, Mrs. Gilbert, Mrs. Paxton, Mrs. McLeod, Mrs. Bridgton, Mrs. Walls, Mrs. McLeod, Mrs. Carr, Mrs. Dixon, Mrs. Clark, Mrs. A. Brown, Mrs. Spinney and Mrs. Ward.

The prize winners last evening were: Ladies' bean toss, Mrs. Elmer Ingram; gent's bean toss, H. M. Han-

ton; bowling, J. Breen; ten pins, E. P. Fullerton; door prize, combined cake and bread box, won by ticket No. 867. This afternoon at 6 o'clock the L. O. B. A. members will hold a sale of brown bread and beans.

THE WIFE: I'll have some potatoes, please.
Grocer (absent-mindedly): Yes, madam. Shall I send them, or do you want to take them with you?

DATE CHANGED

Date of the dedication of the Memorial Hall of St. David's church has been postponed from Oct. 9 to Oct. 17, it was announced last evening. The change has been made as it was found impossible to have the building in readiness for the earlier date. A whole week of special observances will be held to mark the dedication and various organizations of the church will each have charge of the program for one day.

TEMPLE MEETS

The regular meeting of Loyalist Temple, No. 18, was held last evening with M.E.C., Mrs. George Gray, in the chair. A very interesting report was heard from Grand Lodge, read by Mrs. Myles Saunders. Plans were made to work at the Orphanage Fair. The next meeting will be held in three weeks and a social evening and cake walk were planned for that meeting.

Power costs less with a Fairbanks-Morse "C.O." Engine
These engines produce power at a lower cost than any other type of plant, figured on a basis of first cost, including interest and depreciation, fuel, attendance, and all other power plant expenses.
They operate perfectly on low grade fuel oils. Simple and rugged construction contributes to low maintenance costs. No skilled engineer is needed to operate them. Quick and easy to start.
The only moving parts in these engines are the pistons, connecting rods, crankshaft, oil pumps and governor, and these are enclosed and automatically lubricated.
Made in sizes from 7 1/2 to 350 h.p.

"The Love that Never Dies"

VOTE RESULTS HERE SEEN GOOD OMEN IN BRITAIN

Spectator Views Canada as Link Between England and United States

LONDON, Sept. 24.—The result of the Canadian elections offers an omen of the best kind for the health and strength of the Empire, the weekly paper The Spectator says, "and for the binding of the commonwealth of English-speaking nations."

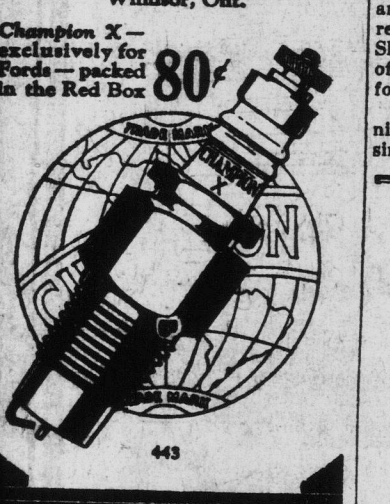

GOOD OMENS SEEN

The Spectator closes its list of good omens by noting that Mackenzie King realizes what can be and should be the special function of Canada within the English-speaking circles, for in an interview in the Daily Express he described the Dominion as an interpreter between two of the most formidable bodies of opinion in the world.

SERVICE

The service rendered by Ford cars and trucks and Fordson Tractors is well matched by the service of dependable Champion Spark Plugs, which have been standard Ford equipment for 15 years. To insure continued maximum power and speed in Ford engines, be sure that you install a full set of Champions at least once a year.

namely those of the United States and Great Britain. "We can assure Mr. Mackenzie King, The Spectator continues, "that despite a certain amount of foolish writing in the reactionary papers of this country, the better minds throughout the United Kingdom never have been alarmed, or ever momentarily disturbed, by election slogans or invitations to us to believe that if Mr. King and his party were returned to office it would not be long before Canada would cease to belong to the Empire."

NOBODY BELIEVES IT

"Nobody here whose opinion counts has believed in the picture of Mr. King crouching, knife in hand, ready to cut the painter, and equally little importance has been attached to the timorous, though doubtless often sincere, complaint that the huge population and vast extent of the republic to the south must lead to Canada's absorption."

Deaths

George Bettles Word was received here last night of the death of George Bettles, aged about 45, who during the winter port season, was head checker for the Canadian Pacific Ocean Service in Saint John. The death of Mr. Bettles followed an operation in the Royal Victoria Hospital. He is survived by his parents and one daughter. His home is in Montreal. He has many friends here who will regret to hear of his passing.

James Thompson

After a short illness James Thompson passed away on Sept. 23 at the General Public Hospital and many friends will hear of his death with deep regret. Mr. Thompson was well and very favorably known. He is survived by his wife and two daughters. The daughters are Mrs. Henry A. Meyers, of Wollaston, Mass., and Mrs. F. W. Purchase, Halifax, N.S. The funeral will take place on Sunday afternoon from Brennan's, 111 Paradise Row. Interment will be in Fernhill cemetery.

Mrs. Sarah Robinson

Just one week after the death of her husband, Mrs. Sarah Robinson, widow of Dr. Augustus Robinson, passed away early yesterday morning at her residence in Annapolis Royal, and her death was heard of with keen regret in her native city of Saint John. She had been an invalid for a number of years and was confined to her bed for nearly a year. Dr. Robinson died shortly after midnight on the previous Thursday and since Sunday, the day of her husband's

Give him all he wants SHREDDED WHEAT

Makes good muscle and sound teeth Builds sturdy boys and girls

funeral, she had gradually weakened. She passed peacefully away at 4:30 yesterday morning. Mrs. Robinson was the daughter of the late John Kinnear, of Saint John, and her mother was Sarah, daughter of Thomas Millidge, of Saint John, whose father was one of the Loyalist founders of the city. Mrs. Robinson is survived by three daughters and one son. The daughters are the Misses Grace and Helen at home and Mrs. W. P. Hibbert, of Vancouver, B. C. The son is Rev. Canon R. A. Robinson, rector of Sheburne, N. S., and formerly rector of Dorchester and Stanley, N. B.

The dominant position in motor oils reached on compared merit by the Saint John owned LOILOIL stands out as a remarkable case of Maritime success. The Saint John company owning LOILOIL have won first place in motor oil sales all over its territory. Hitch your wagon to a star and you soar high. We hitched up to what all experts admitted as the world's best oil and are mighty thankful for the intelligent response of our Maritime and New York motorists."

Fugitive Bankrupt Gets Year In Prison

NEW YORK, Sept. 25.—Jacob W. Uland, former president of the bankrupt Milton Watch Company, who voluntarily surrendered for trial last July after nearly two years' safety in Germany, where he was immune from extradition, was sentenced to a year and one day in Atlanta prison by Judge Harry N. Anderson in Federal Court for concealing assets valued at \$250,000 from the trustee in bankruptcy. Uland returned because he was homesick.

Princeton Athlete Killed In Smash-Up

DETROIT, Sept. 25.—Murray W. Sales, Jr., twenty-three years old, a son of the wholesale dealer in plumbers' supplies, and prominent in Detroit society, was killed when his automobile, traveling at 50 miles an hour, hit a street light post at Grosvenor Boulevard and the Seven Mile Road. Sales was to have returned as a Princeton University tomorrow as a junior. He played on the Princeton baseball team and the football team last year.

FIRM IN PUBLIC FAVOR NOW MADE BETTER THAN EVER

OVER the span of months and miles, in the hands of thousands of owners, Oldsmobile power and performance, dash and endurance, comfort and driving ease, demonstrated Oldsmobile's unchallengeable right to the now familiar praise. "The car you can recommend to your best friend—it asks no favors, fears no road."

Dual Air In this new Oldsmobile, a master cleaner eliminates the injurious particles from two-thirds of the air before it enters the carburetor directly—while the second cleaner, in connection with crankcase ventilation, cleans the balance of the air. Crankcase In all internal combustion engines, water is formed by condensation. Cold engines do not burn all of the fuel on starting. This water and liquid fuel pass into the crankcase and form crankcase dilution. Excessive dilution is eliminated by crankcase ventilation. It draws off water vapor and unburned fuel that may have passed into the crankcase. Crankcase ventilation improves performance and gives longer life to the engine and oil. Oil Filter An oil filter has been added to this Oldsmobile, prolonging still more the life of the engine and the useful life of the oil. Should the filter become clogged with sediment, the lubricating system functions in the common manner. All principal parts are pressure lubricated.

BUY OLDSMOBILE WITH CONFIDENCE J. CLARK & SON, LTD., Saint John, Fredericton, St. Stephen, Woodstock, Hartland. LOUNSBURY CO., LTD., Moncton, Newcastle, Chatham, Rexton, Campbellton.

KROEHLER LIVING ROOM FURNITURE

BARON BYNG IS OPTIMISTIC FOR CANADA

Tells Ottawa Canadian Club Dominion Has 3 Forces Needed for Success

OTTAWA, Sept. 24.—His Excellency the Governor-General has made farewell to the Ottawa Canadian Club this afternoon. "I leave Canada a blithe optimist," said Baron Byng, "not so much because of the physical resources of the Dominion, but on the mental side there is cause for optimism in Canada."

Canada was possessed of the three forces necessary to the success of any enterprise: the force to initiate; the force to carry it through and the suspended energy to meet emergency in the days to come. He had seen this combination at its best at Vimy when Canada's corps had faced its task with confidence and "without the slightest doubt of what Canada expected them to do."

"The sands," Baron Byng said, in closing, "have run out and my governor-generalship slips into its niche in history along with those of my predecessors. One more line is added to the chain of governors, one more old countryman returns home to live on the memories of his sojourn among you. If, as the philosopher says, 'Consciousness is made up of experience and memory' what a wonderful consciousness I must have built in the last five years; what a prolonged session of experience; what a mass of memories."

WELCOME RECALLED.
 "Never shall I forget the welcome you extended to my wife and myself the day we arrived, that welcome which had been extended from every city, town, village, hamlet and hamlet in your Dominion. It has been there that I have learned to appreciate and understand the nature and character of your destinies. It has been there that I have learned to believe in Canada, and from the day I first arrived to the present moment my faith has never wavered. As I extended my travels through the Dominion the more deeply my initial impressions were confirmed, but it was among you that they were first engendered."

LOYALTY IN BRITAIN.
 "It was here that I first learned that most satisfactory and encouraging sentiment that, since I came to see, throughout the continent, which I may describe as a loyalty and affection for the mother country, coinciding and running parallel with a cold common sense, an unwavering confidence in their ability to vindicate their national spirit, to elaborate their own destiny and to guard and embellish to the utmost the glorious inheritance with which they have been endowed by Providence."

CHANCE FOR SEND-OFF.
 This Canadian Club function gave to the business fraternity of Ottawa an opportunity to give the departing governor-general a send-off. It brought out one of the biggest crowds seen at a Canadian Club luncheon here. Representatives from Montreal, Toronto, Perth, Prescott and Brockville were there. The biggest dining hall obtainable was filled to overflowing and tables were laid down the corridors. Time after time the men were on their feet to cheer their "fellow member," as Lord Byng described himself. At the close of his speech the prolonged applause "forestalled" as the chairman put it "any vote of thanks I might have wanted to move." His Excellency stood at the exit and shook hands with everybody present. From a gallery Lady Byng watched the proceedings and heard the chairman, Dr. S. J. McLean, send through His Excellency the club's greetings and thanks for her interest in the city during the last five years.

At the head table, Rt. Hon. Arthur Meighen, who is to tender his resignation as premier to His Excellency, sat at the right of Lord Byng. To the left of the chairman was Rt. Hon. W. L. Mackenzie King.

HARVESTING GRAIN

N. B. Crop is Good But Ripening Slowly; Potato Yield Fair
 SHERIDIAN, Sept. 24.—The harvesting of ripe grain is in progress throughout eastern New Brunswick, but as there is much unripened grain in the fields the work is necessarily tedious and is likely to be spread over a month. The grain crop is good, but ripens slowly, due to a late spring, cool summer and much cloudy weather. The grain generally is of good length with the exception of barley.
 The potato crop is believed to be from fair to good. Few potatoes in Kent and Westmorland counties have been dug yet, but digging will probably start about Oct. 1.

Only One Canadian Casualty In Gale

MIAMI, Sept. 24.—Only one Canadian casualty as a result of the Florida hurricane has been reported to the Canadian bureau here so far. The casualty was at Dania, according to the report, but neither the name nor the extent of injuries were mentioned.
 It appeared today that numerous Canadians had suffered heavy damage to their property in the storm. While Rev. W. W. Sharp and his wife and five children, formerly of London, Ont., were reported safe and uninjured, Mr. Sharp's church at Dania was blown down and is a total loss. The furniture and roof of the parsonage blew away.

Seizure of Liquor Made At Bathurst

CAMPBELLTON, Sept. 24.—One of the largest seizures made in the North Shore district for some time was effected Thursday morning when Inspectors S. W. Dickie, H. P. Doyle and S. Polcy contacted 20 barrels of beer at Bathurst station. The shipment which was from Quebec was consigned to Mr. Buraglia, of Bathurst.

A HAPPY CHILDHOOD A MATTER OF HEALTH

Let Baby's Own Tablets Keep Your Children Well.
 Little children very quickly get out of sorts. By prompt treatment they can usually just as quickly be set right again. Most of their troubles arise in the first place from the stomach or bowels; that is why a good cleansing-out is the first thing prescribed by the doctor. Formerly castor oil was the means used to bring this about; now-a-days Baby's Own Tablets do the same work, but without trouble to the parent or discomfort to the little one. Children take Baby's Own Tablets happily because there is no nasty taste and because no gripping after-pains follow their use.
 As a specific for childhood indigestion, vomiting, constipation, colic, colds, teething pains, etc., there is nothing to equal Baby's Own Tablets. They never do harm and always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

In the Eyes of Others

Many men and women make wills with distinct instructions about the Monument.
 Others count on their left and kin knowing what to do—and doing it—without a word said.
 Some good people know they should arrange about a Monument for a certain plot looking as if neglected. They intend to see about it—some day. Just what year this "some day" will occur in becomes too easily no year at all.
 The Kane Monument catalog and guest card are at your disposal as helpful reminders and easy means of obtaining all desired information. The information you do obtain proves that one particular firm is in a special position to underquote all and produce safely guaranteed quality.
 "We are under a compliment to you when you give us this opportunity."

CANADA TO PAY \$35,000,000 IN NOTES OCT. 1

Bennett Announces Only Rigid Economy Makes Move Possible

OTTAWA, Sept. 24.—Hon. R. B. Bennett, minister of finance, has given notice that the 2-year, 4 percent notes amounting to \$35,000,000 dated October 1, 1924 and maturing October 1, 1926, will be paid in cash. Interest of these 2-year notes, it is announced today, will be paid at par at any branch in Canada of any chartered bank, or at the option of the holder, at the agency of the Bank of Montreal in the city of New York.

The principal is payable at the office

of the Minister of Finance and Receiver-General at Ottawa, or at the office of the assistant Receiver-General at Halifax, Saint John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary and Victoria, or at the office of the Bank of Montreal in the city of New York. Holders of these maturing notes should present them for redemption on the maturity date as they cease to bear interest on and after the first day of October next.

EXPENDITURES LIMITED

Mr. Bennett, in a statement issued today, says that it has been possible to make this reduction in the dead weight debt of the country by imposing the most rigid limitations upon expenditures during the last three months and by preventing smuggling, thereby insuring the collection of the customs and excise duties and sales taxes to which the country was entitled. On July 2 the total revenue collected from the beginning of the fiscal year on April 1, amounted to \$118,708,281.04, an increase of \$1,089,028.81 over the same period of the preceding year. At the close of business on Sept. 19 the total revenue collections of the country since April 1st amounted to \$200,888,754.35, an increase of \$8,689,028.81 over the same period of last year.

MORE MONEY COLLECTED

The increase in customs collected since the beginning of the fiscal year—the statement proceeds—is over \$8,377,099, of excise duties over \$2,845,000, and sales taxes and excise stamps over \$2,626,000. On July 2 last the total sales taxes over 60 days in arrears amounted to upwards of \$2,000,000.

On July 19 the Minister of Customs instructed that immediate action be taken to collect these arrears, with gratifying results.

The total income tax collected since April 1st amounts to \$47,977,897, a decrease of nearly \$8,400,000 over the

Manufacturers Finance Corporation, Limited
(Incorporated Under the Laws of the Dominion of Canada)

6%

Collateral Trust Gold Bonds
COLLATERAL INSURED AGAINST ALL LOSSES

Dated June 1, 1926.

Interest payable June 1st and December 1st, in Canadian or United States gold coin, at the principal offices of the Royal Bank of Canada in Toronto or Montreal, or at the Agency of the said bank in the City of New York, at the holder's option. Principal payable at the Trust and Guarantee Company of Canada, Limited, principal offices of the United States Mortgage and Trust Company, New York City, in Canadian or United States gold coin, at the holder's option. Redeemable in whole or in part on any interest date at the option of the Corporation on sixty (60) days' notice of 100% plus a premium of 1/2% on the amount of the redemption and the date of maturity, but not exceeding in any case 5%.

Bonds in coupon form in the denominations of \$100, \$500 and \$1,000, negotiable to the principal only.

TRUSTEE: The Trust and Guarantee Co., Limited, Toronto, Canada.

Insured Security
Payment of principal and interest of the collateral deposited with the trustee as security for this issue of bonds is insured (guaranteed) by the London and Provincial Marine and General Insurance Company, Limited, of London, England (Incorporated in 1860).

Following is a summary of the accompanying letter from Hon. J. A. McDonald, President of the Corporation:

HISTORY AND BUSINESS: The Manufacturers Finance Corporation, Limited, started business in Toronto, June, 1923, with a paid-up capital of approximately \$30,000, and has grown by the investment of additional capital and the reinvestment of earnings to a net worth of \$1,442,457.25 (January 31, 1926), earning and regularly paying full dividends upon its outstanding 8% Cumulative Participating Preferred Stock.

The principal business of the Corporation is a specialized form of commercial banking, supplementing the Commercial Banking System of Canada. It acts as intermediary between Banks and Manufacturers and Dealers selling on the instalment plan, by purchasing instalment lien obligations arising from the sale of nationally marketed products of stable value. Obligations purchased for the year ending 1923 (year of organization) amounted to \$48,104.13; and to \$1,593,230 for the year ending January 31, 1926 (13 months); year ending changed from December 31st to January 31st.

SECURITY AND ASSETS: These bonds are primarily secured by the direct obligation of Manufacturers Finance Corporation, Limited. The net assets of the Corporation after deduction of all liabilities and exclusive of good-will, after giving effect to present financing, will be \$2,043,487.25 (less expense of this financing), against this issue of \$600,000—security exceeding over three times the amount of bonds.

The security and safeguards behind these bonds may be summarized as follows:

- (1) The direct obligation of the corporation with net assets of \$1,442,457.25, exclusive of proceeds of this issue.
- (2) Deposit with and assignment to the trustee of \$125 of instalment lien notes for each \$100 of bonds issued. All notes are charged mortgages or conditional sales contracts assuring first liens on the articles sold until payment for them is completed.
- (3) The personal worth of the individual purchasers of the articles. The average loan outstanding being only approximately \$900 (insured unless diversification).
- (4) Endorsement of all lien notes by the manufacturer or dealer. All such endorsements are "with recourse," so that the endorser is fully liable.
- (5) Full insurance coverage against fire and theft.
- (6) PAYMENT OF PRINCIPAL AND INTEREST OF ALL LIEN NOTES DEPOSITED WITH THE TRUSTEE AS COLLATERAL FOR THIS ISSUE IS INSURED AGAINST EVERY LOSS BY THE LONDON & PROVINCIAL MARINE & GENERAL INSURANCE COMPANY OF LONDON, ENGLAND. THIS COMPANY WAS INCORPORATED IN 1860, AND IS NOW OVER 65 YEARS OLD.

EARNINGS: The net earnings for the fiscal year ending January 31st, 1926, amounted to \$124,213.22, as certified by Messrs. N. L. Martin & Co., Chartered Accountants, over three times annual interest on this issue of bonds, without taking into consideration the profits to be derived through the investment of the additional capital provided by this financing. These bonds are followed by \$1,152,810 of Preferred Stock issued and outstanding as at January 31st, 1926, upon which dividends of 8% per annum have been paid since issuance. Preferred Stock paid for on July 31st, 1926, amounted to \$1,560,450.

MANAGEMENT: The management of the Corporation remains in charge of those who have had over twenty years' experience in dealing with instalment lien obligations, and who have brought the business to its present stage of prosperity and efficiency. All officers and directors are financially interested in the Company through substantial investments in its securities.

PURPOSE OF ISSUE: The proceeds of this issue will be used for additional working capital for the development of profitable business now available.

ADDITIONAL LEGALITY: The books and accounts of the Corporation have been regularly audited by Messrs. N. L. Martin & Co., Chartered Accountants. All legal matters connected with this issue have been approved by Messrs. Nesmith & Fennell, Counsel, Toronto, Canada.

PRICE: Par and Interest, to yield 6%

Lewis Smith and it has been accepted. The Federation says it is rumored that Miss Nutter will be married soon to a young man engaged in banking in the west.

Two For Mayoralty In City of Bangor

BANGOR, Me., Sept. 24.—Two candidates, both Republicans, have appeared for mayor of Bangor at the coming election on Dec. 13, Mayor Charles D. Crosby not being up for re-election. John Wilson, lawyer, son of the late Hon. Franklin A. Wilson, member of the county Republican committee was first in the field. He will be opposed for the nomination by Archie R. Lovette, business man, for five years in the city government and much of that time on the finance committee. No Democratic candidate has yet appeared.

The Tobacco with a heart

Makers of many fine cars have corrected for their owners this costly error

To which motor car experts attribute 50 to 75% of all premature motor wear.

Wrong

COLD is causing costly damage to your motor—eight months of the year. It's the biggest cause, according to motor car experts, of excessive crank-case dilution, corrosion, foiled spark plugs, high gas consumption, rapid cylinder wear.

The dangerous "choke" habit

"Eliminate excessive use of the 'choke,' and you eliminate 50 to 75% of the cause of repair bills," say leading motor car service experts.

Flooding your motor with raw gasoline is a costly "warming-up" process. It washes cylinders and cylinder walls clean of the oil film of protection. Metal to metal contact follows. Scoring, pitting and rapid cylinder wear result. Gasoline consumption is increased at a tremendous rate.

Winterfront ends the cold weather damage

This important discovery will keep your motor at summer operating efficiency the year 'round—preventing the costly damage wrought by cold.

Right

COLD never in work of destruction as cold weather. That's when you need Winterfront. Makers of many fine cars provide Winterfront protection the year 'round—guarding their owners against the damage wrought by cold. At 60° Fahrenheit, have a Winterfront installed. Don't give cold a chance at your motor.

"6" Willys-Knight Big "6" and Willys St. Chair.

In ten minutes—you can have this vital protection—for a fraction of what it will cost to repair the damage cold will bring. Drive in for ten minutes when the temperature reaches 60°. That's when cold starts its work of destruction. Go out equipped to save yourself next spring's repair bill.

Winterfront regulates your motor temperature automatically, taking in just enough cold air to keep your motor at the correct temperature for most efficient operation.

It cuts the "warming-up" period to seconds—breaking up of the costly and dangerous "choke" habit.

Adopted by many fine cars

To give their owners year 'round protection against the costly damage cold will bring—makers of these fine cars have adopted Winterfront as standard equipment. Packard "8," Pierce Arrow, Packard "8" and Delaune.

Models for all cars priced \$29.25 to \$39.50. Special models for Ford, Chevrolet and Dodge priced \$19.50, \$22.95, \$25.95.

Gurney's New "250" Boiler
Get More Heat Out of Soft Coal

THE newest achievement of the Gurney heating engineers has literally turned old principles of combustion "upside down".

It gets better results from soft coal. It gets better results from any kind of fuel. It generates more heat units than does any of the former boilers, whether hot water or steam. And it is an economical boiler.

The principle upon which this new "250" boiler of Gurney's works is something like that of the old self-feeder, except that the draft is thrown directly into the fire, across the grates, and the smoke escapes without touching the unburned fuel above.

The result is more nearly perfect combustion, a greater mixture of oxygen, a greater consumption of coal gas, less smoke and less dirt—and more heat.

It is no trouble to run. A three-foot poker and a shovel are all you need to take care of the fire. And you certainly get the heat out of the coal!

Go to the nearest Gurney dealer and examine this "250" boiler. The men who handle Gurney boilers are equipped to explain every detail. And they back up Gurney products with fine service.

If you prefer to write us direct about this new boiler, Number 250, or any other piece of Gurney cooking and heating equipment, we will send you illustrated, descriptive literature. Use the coupon and signify in which of these Gurney products you are interested. Drop it in the mail today.

BIG RECEIPTS FROM WORLD SERIES ARE EXPECTED THIS YEAR

INCOME WILL AGAIN BE MORE THAN MILLION

Series Expected to go Six or Seven Games—Some Figures

NEW YORK, Sept. 25.—The million-dollar world series appears to be an established affair in baseball. Receipts for the last three major league classics have gone well beyond this mark and with the game's biggest park, the Yankee Stadium, available for part of the coming struggle, if the Yankees win, there is every prospect that the high tide of finance will continue.

1923 RECORD YEAR
The 1923 championship between the Yankees and Giants established an attendance mark of 300,460 in six games. It was made possible through the use of the game's biggest two enclosures, the Yankee Stadium and Polo Grounds, and isn't likely to be broken this fall.

Table with columns: Year, Attendance, Receipts, Fund. Lists data for years 1905 to 1924.

FOOTBALL TODAY.
The Trojan football squad are notified to be at the Allison grounds this afternoon at 4 o'clock to have a practice game with the Canucks.

Local Clubs Meet Next Week To Consider Special M. P. B. Meeting

Along The Sport Trail

By JOHN J. DUNLOP.

THERE is an impression among baseball men that if the Yanks do get into the world series—and the "if" is a big one—then they will be faced with plenty of southpaw pitching. The theory is that the Yanks, while a hard-hitting crowd, fare better against right-handed box artists than portlanders. Their two best sluggers, Ruth and Gehrig, bat on the left hand side although in fairness to these young gentlemen it must be stated they can smash most any kind of pitching.

MR. GENE TUNNEY, the boxer of a thousand epigrams and high culture, so far forgot himself Thursday night as to actually snarl at "Tiger Jack" in the fifth round. A man-to-man scarp soon wiped out the publicity veneer.

Now that Mr. Tunney has earned the right to boxing's biggest prize, what will he do with it? One of the things that aroused resentment against Jack Dempsey on the part of the average fan was his stand-off attitude when it came to defending his title. He had plenty of opportunity but preferred the easy life in the movies and that is probably what cost him his crown.

WHAT the Governor of North Carolina said to the Governor of South Carolina is not quite clear but what the Governor of Pennsylvania said to those who asked him to stop the big bout is rather definite. Mr. Pinchot said he would not stop the bout because he himself had bought ragside tickets.

No Game Here Today

The baseball game for provincial could not come to Saint John for the same reason. The Telegraph-Journal received a telegram from its Newcastle correspondent last night stating, "Captain of Newcastle team and the Newcastle boys will not take place."

BOWLING FANS ARE GETTING INTO SHAPE

Various Alleys About City Already in Use—The Prospects For Year

Now that the Dempsey-Tunney fight has passed into history local fans, who are likewise interested in bowling as well as the regular exponents of the game, have every opportunity to turn their attention to the alleys. The management of the different city alleys have been actively engaged during the past weeks in preparing for the winter season.

"HAIR-GROOM"

Keeps Hair Combed, Glossy Well-Groomed all Day
"Hair-Groom" is a dignified combing cream which costs only a few cents a jar at any drug-store. Millions use it because it gives that natural gloss and well-groomed effect to the hair—the final touch to good dress both in business and on social occasions.

After Shaving

Rub the face with Minard's mixed with sweet oil. Very soothing to the skin.

ST. LOUIS GOES BASEBALL MAD OVER GONFALON

Big Celebration Marks Victory of Cardinals Yesterday

ST. LOUIS, Sept. 24.—St. Louis went baseball mad late today when the news was flashed that the Cardinals had won over the New York Giants and thus had given the city its first championship since 1888. Fans cheered lustily, automobile horns honked, whistles blew and bells rang.

STARS START IN HALIFAX RD. RACE

Victor Macaulay, Johnny Miles and Clarence DeMar Among Contestants

HALIFAX, Sept. 24.—Victor MacAulay, five times winner of the Halifax Herald and Evening Mail modified Marathon, has signified his intention to enter this year's annual race which is to be held on Oct. 23.

RIFLE SHOOT TODAY AT CAMPBELLTON

Restigouche Rifle Club to Stage Annual Event at Tidhead

CAMPBELLTON, Sept. 24.—The annual shoot of the Restigouche Military Rifle Association for the provincial championship will be held on the club's range at Tidhead tomorrow, beginning at 8 o'clock in the morning.

FOR PROVINCIAL MEDAL

The provincial medal will be awarded to the marksman making the highest score in the 200, 500 and 600 yard match, and in addition cash prizes will be awarded to the riflemen making the highest shot in the various matches.

Peter Tanlac and Lee S. Winners in Name Races

SOUTH PARIS, Me., Sept. 24.—Harry Nevins, with the Aroostook campaigner, Peter Tanlac, and Frank Fox, with Lee S., were the winners in the circuit races here yesterday. Rain caused a postponement today but the card will probably be finished Saturday with the free-for-all feature.

SOME TROOPS OF BOY SCOUTS AT WORK ALREADY

Fall and Winter Activities Are Begun in Good Style

ASSOCIATION TO MEET ON MONDAY

Boys Write of Work Started in Troops and Packs

The Boy Scouts and Wolf Cubs of Saint John are looking forward with eagerness to the activities in scouting and cubbing for the coming season. Reports from troops and packs already opened for the season show they are out for even a more successful year than before. On Monday evening, at 8 o'clock the annual meeting of the Boy Scouts Association will take place in the Y. M. C. A. building and all those interested in scouting will be welcomed, including all Scout leaders of the city.

PLAN FIRST MEETINGS The following troops and packs will resume their meetings in the near future: No. 17, Trinity Troop, October 4; No. 18, Young Judean Troop, sometime in the week beginning October 4; Knox Pack, No. 1, Thursday, Sept. 30.

On October 4 the Rovers will resume their meetings with even more vigor than last year. As last year, they will be under the leadership of Rovermaster A. Anglin. Plans now already being made for the coming season's activities. The Rover meetings are held weekly in the River den on the third floor of the Board of Trade building, Prince Wm. street.

REPORTS FROM TROOPS

Victoria St. Baptist Troop met on Friday evening in its usual meeting place. It was the second meeting of the season, and further re-organization work was carried in. There were 48 boys present and the meeting and scouting activities were ably carried out under the supervision of Scoutmaster E. D. Howland and Assistant Scoutmaster L. G. Pincombe. Four patrols were formed and it is thought that it will be necessary to recruit more. Next week it is expected to settle down to fall and winter scouting activities. Scouting instruction and games were enjoyed.

NO. 5, ST. JUDES

The second meeting of this troop was held in the form of a hike. Eighteen boys were present including Scoutmaster T. A. Linton who was in charge of the hike. The hike was outlined very satisfactorily by Patrol Leader Murray Crossley. At 9 o'clock the scouts left for Duck Cove and proved their happiness on the way with scout songs. On arrival, a fire was built for cooking and while the boys were cooking, a presentation of a certificate to the boys participated in a scout game "Customs and Smugglers," in the woods nearby. The winners were Hubert Crossley, Frank McKee and Louis Thompson. During the evening the boys were visited by the First Star test for Wolf Cubs. The next meeting will be Thursday evening at 7 o'clock.

NO. 2, ST. PAUL'S PACK

Ten Wolf Cubs were presented at a meeting of the pack on Thursday evening when an excellent program was carried out under the leadership of Cubmistress J. Lyons. The meeting opened at 7 p.m. and from then till 8 p.m. the Cubs were very enthusiastic. The pack dismissed at 8 o'clock. Instruction on the flag was given by District Secretary W. E. Hoyt. This is included in the First Star test for Wolf Cubs. The next meeting will be Thursday evening at 7 o'clock.

NO. 19, ST. JAMES PACK

The season's activities opened on the 14th with 16 boys present. A start was made in the formation of six packs. Following were chosen, John Collins, (senior Sixer), George Lake, William Woodley, Charles Delaney and Leslie Inaney. The seconds chosen were David Campbell, George Logan, Thomas Laidlaw and Hedley Inaney. At this meeting the full membership list of these recruits and there is a waiting list. It is intended to make this year a banner year for Star tests, as there are good scout instructors and more attention will be given to minor details in cubbing. As a whole things are looking very fine and it is hoped to show excellent results very soon. To all other troops and packs in the city this pack wishes the best of scouting.

THINGS TO KNOW

To become a scout a boy must know: Scout promise and the 10 Scout laws. Scout signs and salute. The composition of the Union Jack and the right way to fly it. Use of the Scout staff. The following knots: Reef or square knot, sheet bend, clove-hitch, bowline, fisherman's, sheepshank and understand their special uses.

IS FINED \$10. William Layden, 41 Hilyard street, appeared before the court this morning for expecting on the Sheriff street sidewalk on the night of Sept. 20th. He was fined \$1.

THEIR CHILD DEAD. Friends of Mr. and Mrs. William B. Hayward, 164 Lanister street, offer sympathy to them in the death of their four months old son, William Frank, which occurred this morning. The funeral will be held on Sunday afternoon at 2.30 o'clock.

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and forces its way through the gorge of the Falls, creating a "Falls" at low tide the water in the Bay reaches so much lower than that in the river, that the fall of water is the Bay, and flows down river into the river, when the level in the Bay and River are about equal, the water disappears entirely, and the surface of a lake. To fully appreciate this wonder of the world it should be seen at all three stages.

THE BEST TIME TO VIEW THIS PHENOMENON IS TODAY (Daylight Saving Time).

TOMORROW High Tide 3.14 p. m. Low Tide 12.08 p. m. MONDAY High Tide 4.08 p. m. Low Tide 9.58 a. m.

ALMANAC FOR SAINT JOHN, SEPT. 25 A.M. High Tide 1.43 High Tide 2.14 Sun Rises 6.11 Sun Sets 6.33 (Atlantic Standard Time).

Local News

TO PICTOU CHURCH. Rev. Frank Baird has accepted a call to the pastorate of the Presbyterian Church at Pictou, N. S.

BIRTHS NUMBER 30. During the week ending today there were 30 births in the local hospital. The girls, including twins, being 19, and 11 boys. The marriages during the same period were 21.

ENGAGEMENTS. Mr. and Mrs. James B. Merrill, of 209 Rockland road, wish to announce the engagement of their daughter, Gladys, to Harry R. Ellis, of West Saint John, the marriage to take place on October 6.

COMPLIMENT PAID. The Fredericton Mail says: "The Saint John's Band of Saint-John completed its engagement at the Fredericton Exhibition Thursday night and home at a whole hour by motor. The music furnished by this organization was greatly appreciated and the band recognized as one of New Brunswick's best."

NINE DIE IN WEEK. Deaths in the sub-district of the Saint John board of health for the week ended today numbered nine, one being from the following causes: Erysipelas, septicaemia, enterocolitis, premature birth, broncho-pneumonia, cerebral meningitis, abdominal carcinoma, carcinoma of lung and tuberculous meningitis.

A. O. H. CARD PARTY. The Ladies' Auxiliary of the A. O. H. held an enjoyable card party in their hall in the dining room of the Y. M. C. A. The purpose of the club is to boost Canadian publications, and to boost Canadian authors, and to boost Canadian artists, and to boost Canadian industry.

Wed At Long Reach; Will Reside Here

A pretty wedding took place at 7.30 o'clock this morning when Rev. Mr. Peters united in marriage Miss Edith Taylor, of Saint John, and Mr. Charles C. Taylor, of Sheffield, N. B. The ceremony took place at the home of the bride, Long Reach, which was nicely decorated for the occasion with beautiful garden flowers.

The bride, who was given away by her father, Samuel White, was becomingly attired in powder blue georgette with a white tulle scarf, large black picture hat and pearl grey shoes and stockings. She carried a beautiful bouquet of Ophelia roses.

After the ceremony a wedding breakfast was served to relatives and immediate friends. The bride's table was attractively arranged with silver candlesticks and yellow candles and centered with a wedding cake. Delicate place cards marked the places of the wedding party.

The young couple left this morning on a tour of the province. The bride traveled in her wedding costume and a blue tulle pointed hat to the match. After their honeymoon Mr. and Mrs. Taylor will reside in Saint John. Many useful and pretty gifts testified to their popularity.

As Hiram Sees It

THE SETTLEMENT—The folks here is talkin' more about the elections now than they did afore they come off. They kin see things now that they couldn't see then. Quite a few tells Hiram Parks says the hull lot o' things you can't tell nothin' about till afterwards, such as he had a lightnin' rod put on his house—an then the lightnin' come an' burnt his barn. Now he's what you'd call a skeptic—although Sile Jones says it was a judgment on him fer gittin' that there lightnin' rod instid o' trustin' in the Lord. I bet Sile didn't trust in the Lord to keep his share. Well, sir, you stiff nor'easter blowin'—an' Kiplin's roarin' on the beach as loud as it does on the Bay Shore. We was readin' this one. Well, sir—we don't hev sitch things in old Noo Brunswick. We don't half appreciate the blessin' we hev, no, sir.

HIRAM.

STAND BY HOME MAYOR'S URGE TO BOOSTER BOYS

Rev. H. A. Cody Encourages Move to Support Canadian Literature

Speaking before the Saint John Branch of the Young Canada Boosters' Club, in the Y. M. C. A., last evening, Mayor Walter W. White entreated his hearers in an excellent address on the future of Saint John and the Maritimes. The audience was a group of boys, and everyone listened with great interest to His Worship.

Mayor White told the boys of what Lord Beaverbrook said to him a few weeks ago. "But the youth of the Maritime Provinces had greater opportunities now than ever before."

Mayor White asked the boys why they did not boost Saint John and the Maritimes, but Canada. "The Province of New Brunswick, and especially the City of Saint John, asks you to remain here, and help mould its future, and it is up to you to do so," said the Mayor.

FROM REV. MR. CODY His Worship read a short message from Rev. H. A. Cody, of Saint John, one of Canada's prominent authors. It impressed on the boys the necessity of boosting Canadian publications, which their club was organized to do. The message reads in part:

"If you look at a store where magazines are sold in this city, you will notice that nearly all are from the United States. You may, if you hunt long enough, find a Canadian magazine tucked away in some hidden place. You will often see a big display of noted United States publications which are of little value, and not a word about Canadian affairs."

"I have no quarrel with the United States. It is a wonderful country, where big things are being done because it is big and has such a large population, we in Canada are flooded with their books, magazines and newspapers, and so many of our own papers, and so many of our own writers, are of little value, and not a word about Canadian affairs."

Continuing, Rev. Mr. Cody compared the two countries. He said: "Comparing the two countries I find that we have nothing to be ashamed of in Canada, except, I might say, the way people treat our own magazines, newspapers and books, no matter how good, so many are not at all interested. They need to have their eyes opened, to see what we really have to offer."

FORM CLUBS HERE

The purpose of the meeting was to inaugurate the Young Canada Boosters' Club in Saint John. A large group of boys attended the supper which was held in the dining room of the Y. M. C. A. The purpose of the club is to boost Canadian publications, and to boost Canadian authors, and to boost Canadian artists, and to boost Canadian industry.

Byard Armstrong, one of the Boosters, gave a fine address, as did Frank Dushwood, president of the club. The club has not yet secured a full membership, but it is expected that in the next few weeks a number of boys will join.

Last evening Mayor White presented a gold badge to Frank Dushwood, president of the club. The badge was presented by Captains Fred Paxton and Lewis Rosenthal. Two silver medals were also presented to Hubert Crossley, secretary, and George Harper, team captain.

STRAWBERRIES IN THE MARKET AGAIN

Some Here From Sackville—Good Variety on Hand For Sunday's Dinner. Housewives visiting the City Market this morning were surprised to find local strawberries, again on sale. They came from the Sackville district and were offered at 25 cents a box. There was a good supply of vegetables and green stuffs offered. Egg plants made their appearance and were selling at 20 cents each. Vegetable marrow was quoted at four to five cents a pound and squash the same price. Sweet potatoes were three pounds for 25 cents. Tomatoes sold at 10 cents a pound and the hot-house variety at 15 cents. Cauliflower was 15 to 20 cents a head, celery three heads for 25 cents, cucumbers four for five cents each, and golden bantam corn 80 to 90 cents a dozen.

There was a good supply of green beans at 40 to 50 cents a peck. High bush cranberries sold at 80 cents a peck, while the rock cranberries were offered at 12 to 15 cents a quart. Eggs were off a shade, the extras selling at 55 cents a dozen, and the firsts at 50 cents. Dairy butter was 88 and real were quoted at 14 to 85 cents a pound, pork 25 to 35 cents, and lamb 20 to 30 cents. Chickens were 50 cents a pound, and fowl 40 cents.

OUT-DOOR MEETING

Y's Men's Club to Have Gathering at Belyes's Point This Afternoon. An outdoor gathering will be held at Belyes's Point this afternoon by members of the Y's Men's Club. They will leave the city at 2.30 o'clock, going by automobile, and will have supper at the point. A conference will be held to plan the work and activities of the club for the coming season. Fred Myles will give a report of the findings made at the Maritime convention held at Big Cove and Alfred Stearns will speak on the International convention held recently at Camden, N. J.

FINED \$100. Robert Hawker, licensed vendor, Main street, charged with not making a proper return of sales, was fined \$100 yesterday afternoon. He was defended by W. Grant Smith.
