THE CASE IN  
POLICE COURT

Theft of Three Alleged—A Variety of Cases Taken Up This Morning.

Herbert Morgan, charged with breaking and entering the garage of Fred McLeod in Metcalfe street and taking from there three tires valued at \$70, pleaded guilty. Fred McLeod gave evidence. He said he had left the city on a hunting trip and on his return last Thursday had missed the tires. He identified tires in court as those which had been in his garage. He said that a next time he saw the tires was in a vulcanizing shop. The garage was locked with a Yale lock and he had the key but it would be an easy matter to break into it without leaving any noticeable sign by removing a few boards. The accused was sentenced to three months in his best shop on October 29.

**Be Suspicious of Tender Gums**  
Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an and undermines bodily health.  
Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system.  
Medical science has traced many ill to these infecting germs in the gums weakened by Pyorrhoea.  
They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.  
So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently.  
And in preventing Pyorrhoea—it guards against other ills.  
Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps them white and clean.  
If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

**IF BACKACHE OR KIDNEYS BOTHER**  
Eat less meat and take a glass of Salts to flush out kidneys—Drink plenty water.  
Uric acid in meat excites the kidneys, maybe become overworked; get sluggish, jaundice, and feel like lumps of lead. Fourteen becomes cloudy; the bladder is acted, and you may be obliged to urinate at night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull, aching in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.  
Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then get into their normal action and be relieved of the acid of uric acid. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.  
Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, NOVEMBER 8, 1921

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd. a company incorporated under the Joint Stock Companies Act.

SMALL POTATOES
When the Conservative politicians are not seeking to deceive the people on the tariff issue, they are attempting to be little the Liberal leader or create prejudice against the United States.

AN ELECTION FORECAST
The Halifax Chronicle, reviewing the political situation all over Canada, doubts if the government will carry sixty seats.

THE TOUCH OF WINTER
The touch of winter which came on Thanksgiving Day was a source of delight to children, with its opportunities for coasting and snowball parties, but to many a family in need it brought a sharp reminder of the empty coal bin and the severe season to be endured without adequate provision therefor.

HERE'S A WALLOW FOR THE MONTREAL STAR
The Montreal Star, staunch supporter of the government though it would like to be, and is, as far as it can afford, so enthusiastic over Mr. Meighen's policy of insisting in season and out that he is a protectionist, has always been and will always continue to be a protectionist, and that no one who dislikes the peculiar system of irresponsible government which has been in vogue since 1896, and which he has not only associated during the last ten years either in or out of a protectionist, or for that matter, with a protectionist, but who is not a protectionist, will not be welcome in the valley of Eden.

AN IMPORTANT MEETING
The meeting of the Associated Charities and representatives of other organizations tomorrow will consider the whole question of organized relief during the winter. There is need of it. Only the other day a citizen discovered that for some weeks he had been giving himself a good deal of worry and expending much sympathy of a practical sort on an utterly undeserving family which has been the despair of churches and societies for some years.

HIS ONLY DREAM
Mr. Klinker was negotiating with a horse dealer. "I am," he said, "not so particular about speed, but I must have a gentle horse for my wife to ride. Will you guarantee this horse to be safe?" "Certainly," said the dealer. "He's a regular horse."

USE The Want Ad Way
It will be noted that thus far the Liberals have a good lead in the number of candidates nominated in New Brunswick. They will also lead on election day.

THE GOOD OLD DAYS

(To the St. John Mimesus Chorus.)
I see where they've started a staghorn school.
An' plan to take up readin',
An' learn to sing right by the rule,
Which I reckon's what they're needin',
But I bet there ain't nuthin' in this here town.

IN LIGHTER VEIN
Visibility Good
On her twenty-first birthday the heroine of the way, sitting cross-legged in the family circle, spoke of the cost of stockings. "I gave myself this pair as a birthday present," she said, "and they cost a guinea." Her father grunted and she went on to say that "it was money well spent, as at least a pound's worth is always visible."

PARIS BEGS FOR QUIET
Paris, the city of beauty, has become a city of dreadful tumult. It appears from the following editorial in a recent number of the Paris Temps: "The advance of automobilism is rendering Paris uninhabitable. Clocks can be heard no more; their chiming is stifled by the general tumult. We owe to the automobile the klaxons and sirens, also the terrifying explosions of departing machines. The autobus is terrible and the auto trucks are worse still. These mastodons, loaded down like Atlas, roll with a heaving noise, make the wheels rattle, weaken the walls and foundations of buildings, sow fright around their path, and threaten a whole quarter of the town at one time. We can't hear any more, or work any more, or get any rest. Even the night does not deliver us. The region of Paris has become a torture for those of delicate nerves, particularly for the intellectual, who need for their work a little retirement and quiet. What is to be done?"

NEW YORK POST ON WATSON CHARGES
(New York Evening Post)
There has been one way dealing with Senator Watson's charge of indiscriminate hangings of presumably innocent men during the war, and that was to give Watson the investigating committee he demanded. Not that we believe the Senator from Georgia has any basis for his accusations other than that of imagination which he has notably displayed in his past career. But the poisonous story is one that must be specially completely destroyed before it makes its way into the cycle of legend about the war, to be brought up every little while in public debate or to be whispered about behind the scenes by professional politicians or private malice and ignorance.

CEADARS OF LEBANON
The path by which I crossed the Lebanon in like, I think, in its features to one which you must know, namely, that of the Foorca in the Bernese Oberland," declares A. W. Kinglake in Esthen. "For a great part of the way I toiled rather painfully through dazzling snow, but the labor of ascending added to the excitement with which I looked for the summit of the pass. The time came. There was a minute in which I saw nothing but another heaven of fleecy clouds that floated along far down in the air beneath me, and showed me beyond the breadth of all Syria west of the Lebanon. But chiefly I clung with my eyes to the dim, steadfast line of the sea which closed my utmost view. I had grown well used of late to the people and the accents of far Asia . . . to silent cities and deserted villages, to tranquil men and women sadly aware and now that I saw the even plain of the sea, I leapt with an eagerness to your shores, and saw all the kingdoms of the West in that fair path that could lead me from out of this silent land straight on into shrill Marseilles, or round by the pillars of Hercules to the bay of London, or to the west. The group of cedars remaining on the path of the Lebanon is held sacred by a prevailing notion that the trees were standing at the time of the building of Jerusalem was built. They occupy three or four acres on the mountain's side, and many of them are ancient in way that implies great age, but except these signs I saw nothing in their appearance or conduct that tempted me to prove their contemporaries of the cedars employed in Solomon's Temple. The final cause of their preservation was explained to me in the evening by a glorious old fellow (a Christian scholar), who made me understand that the cedars were used for the construction of the ark in ancient times the whole range of the Lebanon had been covered with cedars, and as the fertile plains beneath became more and more infested by Government officers and tyrants of high and low degree, the people by degrees abandoned them and flocked to the rugged mountains, which were less accessible to their oppressors. The cedar forests gradually shrank under the axe of the encroaching multitudes, and seemed at last to be on the point of disappearing entirely, when an aged chief who ruled in this district, and who had witnessed the great change effected even in his own lifetime, chose to say that some sign or memorial should be left of the vast woods which once covered the mountains. Accordingly that group of trees (which was probably the last quarter of the point to which the forest had receded) should remain untouched as by the notion I have advanced, and which is probably the case, the cedars were preserved as a monument of veneration for a great national feature."

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, NOVEMBER 8, 1921

RECENT DEATHS

**Archie McEachern**  
Many friends will learn with regret of the death of Archie McEachern, formerly of this city, which occurred in the Massachusetts State Hospital, Boston, on Sunday following a brief illness. Mr. McEachern, who was a native of St. John, was the eldest son of Mrs. John McEachern, of this city. Besides his mother, he is survived by one sister and three brothers. The sister is Mrs. E. N. Stockford, of Hampton (N. B.), and the brothers are Donald, of Presque Isle (Mc.); John, of Montreal, and Henry, of St. John. He was a member of the Amalgamated Metal Workers' Union and was employed in that business in Boston. He was at one time in the employ of John E. Wilson, in this city. Donald McEachern left Presque Isle on Sunday to bring the body to this city, where interment will be made. The funeral will be held from the residence of his brother, Henry McEachern, 85 High street.

**Mrs. Mary E. Moody**  
The death of Mrs. Mary E. Moody, widow of James E. Moody, occurred at her home in Musquash yesterday after an illness of about two weeks' duration. Mrs. Moody leaves to mourn two daughters, Mrs. O. McNess, of Musquash, and Mrs. J. Cairns, of Sand Cove Road, Fairville; four brothers—James Gamble of Fairview, St. Martins; George, William and Charles Gamble, all of Musquash; and five sisters—Mrs. David Patterson, of Five Islands (N. S.); Mrs. David Hargrove, of West St. John; Mrs. Edward Moore, of St. John; Mrs. Simons, of Lyma (Mass.); and Miss Rebecca Gamble, of Duluth (Minn.). The funeral will take place tomorrow afternoon from the residence of her daughter, Mrs. O. McNess, Musquash, to St. Ann's church at 1 o'clock.

**Mrs. Edward Gallagher**  
The many friends of Mrs. Edward Gallagher will regret to learn of her death, which occurred yesterday morning at her residence in Hampton. She had been ill only a few days and, although her condition was considered serious her death came as a great shock to her relatives and friends. Mrs. Gallagher was a woman of gentle disposition and all who knew her will regret the loss of a kind friend. She is survived by her husband, one son, Edward, at home, and three daughters, Hilda, Katherine and Annie, all of this city.

**M. S. Benson**  
The death of M. S. Benson occurred at his home at Chatham yesterday. He was 73 years of age and was coroner for Chatham district. He is survived by his wife, two sons, M. S. of Toronto and F. W. at home; one brother, B. H. C. Benson, of Ottawa; and four sisters, Mrs. E. B. Crombie, Toronto; Mrs. D. T. Johnston, Chatham; and the Misses Mary and Sophie E. at home.

GEN. MACDONELL NAMED SENATOR FROM TORONTO

The appointment to the senate of Brig-General Archibald Hayes Macdonell, C. M. G., D. S. O., G. O. C. military district No. 7, was announced in a Canadian Press despatch from Ottawa last evening. When asked about the appointment last evening General Macdonell said that he had received word of it earlier in the day. He will succeed his brother-in-law, Hon. Claude Macdonell, who has represented an Ontario constituency in the upper chamber but who has lately resigned on account of ill health. General Macdonell said last evening that he regretted that the acceptance of the appointment would necessitate his leaving New Brunswick. He did not mention any definite date for his departure. The newly appointed senator after distinguished service overseas became

**DYED HER WRAP, SKIRT, SWEATER AND DRAPERIES**

Every "Diamond Dyes" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not streak, spot, fade or run. Perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. For fifty-one years millions of women have been using "Diamond Dyes" to add years of wear to their old, shabby waists, skirts, dresses, coats, sweaters, stockings, draperies, hangings, everything!

ENGLISH ADOPT NEW IDEAS  
Labor-Saving Devices Popular With British Housewives.

The great number of formerly well-to-do families in England who can no longer afford servants has created a strong demand for mechanical labor-saving devices, especially the cheaper grades, according to a report received here from the American Chamber of Commerce in London. Electrical devices because of their high cost have not attained much popularity, but there is a practically unlimited market for hand-washing machines, carpet sweepers and other small and low priced aids to housekeepers.

"The item of initial cost is an important one in Great Britain today," the report says. "It has been found that for the smaller and cheaper electrical devices there is a good market. Among these are the electric iron, which is now enjoying great popularity. Electrical heating equipment is not widely used because of the high cost per kilowatt for electricity. Electric heaters, therefore, are regarded as luxuries, as are toasters, cookers, kettles and other small not more than 1,000,000 houses in the United Kingdom that are wired for electric appliances. It is said that the American manufacturers have at the present time

The Women's Missionary Society of the Charlotte street Baptist church held its annual crusade meeting last night, when the special offering was taken and new members were received. Two new members were welcomed and Mrs. W. P. Hoyt, the president, was in the chair. The programme consisted of a duet by Mrs. McCluskey and Mrs. Weldon; a reading by Miss Nellie Rogers, and a report of the Halifax convention, given by Miss Hazel Clark. After the business session, the meeting adjourned from the vestry to the ladies' parlor, where refreshments were served.

BRINGS HAPPINESS

**HE WAS TIRED OF TEA**

The buyer of a leading wholesale grocery house in Nova Scotia had been snowed under with tea samples all his business life. All the glamour of tea had gone from him. Appeals from enthusiastic friends for him to try Blue Bird left him unmoved till a week ago. Then he tried Blue Bird Standard Label and said it was the finest tea known in Nova Scotia, at any price, and bought 5 lbs. for his home.

**OYSTER EXPLAINED  
BY FRENCH DOCTOR**

Absent from the Market in the Hot Weather Because that is Reproductive Season—They Have Their Ailments.

(New York Times.)  
Dr. Llaguet, a French scientist, delivered a lecture on the oyster, which is reproduced in the Journal de Médecine de Bordeaux, which throws a great deal of light on the habits, diseases and uses of this mollusk. It appears that, contrary to popular opinion, oysters are just as fit to eat in the summer months as at any other time. The real reason they are withheld from the market in the summer in New York and other sections is that summer is their reproduction season. In some sections of the south, notably in New Orleans, they are eaten freely all the year.

of view, inasmuch as various forms of parasites, chiefly worms, which cause disease. That in time this branch of medicine will be studied along the broadest lines is apparent to any one who covers current medical literature. Here would most assuredly belong the part played by the domesticated animals in the causation of human disease, and one may think of the oyster as domesticated, and as an occasional cause of disease as well as an immune carrier.

always been the rule of the edible oyster. Spawning thereby occurs in the late spring and early fall instead of in the summer, and this for one or another unexplained reason appears to be disastrous to the embryo.  
Llaguet, says the writer, describes at length the artificial culture of the oyster, which must be passed over, owing to the problems of most interest to the medical man. The oyster, he says, does not appear in the market during the summer, not because it is inedible but because it is the reproductive season. It is true that they are less savory during the hot weather, but that they can be eaten to any extent during this period with perfect impunity is well known to all authorities. At rare intervals and in response to special demands they have been eaten freely by the public during the hot months, as in 1900 when there was a World's Exposition at Paris.  
The oyster, says the writer, is a stimulant to the stomach, a true stomachic, which can increase the flow of pepsin and hydrochloric acid in those who are below par in this respect. It contains iodine, iron, phosphorus and lecithin and the medical practitioners near the great oyster industry of Archachon prescribe them in habitual dyspepsia and tuberculosis. Oyster shells is also given in affections characterised by decalcification. The two great practical subjects in connection with oyster consumption, ac-

**Good News For Coal Users**

**A BIT OF COAL HISTORY  
WITH A HAPPY ENDING**

In 1900, twenty-one years ago, Broad Cove Coal was first introduced to St. John householders. From then on, until 1918 it gradually gained in popularity. At that time it was by far the most popular coal for domestic use.

You will remember the Broad Cove coal of 1918 was a Coal well known for its free burning and non-coking qualities; a soft coal so free of soot that it was used in stoves and ranges without fear of soot trouble. Up to that time it was the ideal household fuel, either for open fires, range or stove use.

**Broad Cove Coal**

**IN STRANGE HANDS  
FOR TWO YEARS**

Then conditions changed. Control of the mine got into other hands. Mining operations were carried on with an idea of quantity. The quality seemed to be a second consideration. For these reasons we could no longer handle the coal. Retailers who did try to trade in it were compelled to take stone and slack or go without. Broad Cove eventually sunk so low that most dealers were afraid to touch it. Those who did try to supply the demand (with the genuine article) either lost friends or lost money by the quality of coal supplied.

**Now Back To Old Conditions**

We are now pleased to announce the return to the old order of things. Broad Cove is now being produced with the old-fashioned idea of quality in mind. It is now what it used to be prior to 1919. We are again acting as Wholesale Distributor in this territory and can confidently recommend the Broad Cove Coal as produced today to both dealer and consumer. To stop substitution of cheaper and inferior grades of coal for Broad Cove we would thank any consumer getting coal that is not satisfactory to inform us of the fact and the name of the dealer who supplied same. The following local retailers can now supply the genuine article:

Miss King, with her friends and other members of the family were at a hunting camp on the Hibernia road for the day, and on their return last evening were invited to the home of Mr. and Mrs. John F. Newman, where the friends had gathered. It was a complete surprise, and when Miss King was called on to cut the birthday cake and inspect certain pretty and valuable gifts of china, she found it difficult to give expression to her feelings. A very pleasant evening was spent in dancing and music, and the birthday supper was served about midnight.

**THE SKATING CHAMPS HERE**

A Letter from Frank White and an Explanation by C. A. Owens.

To the Editor of The Times-Star:  
Sir—You printed an article in your paper some days ago in regard to the Dominion of Canada Skating championships.

The article in question has caused considerable comments from many citizens generally and some of these comments, and justly so, as it would look from the article the Y. M. C. I. of this city had been the instrument through which the championships had been procured. The fact is, Mr. Editor, "and I hereby inclose letters from the president of the Amateur Skating Association of Canada, Jas. A. Taylor, corroborating the following statement:

"The Dominion of Canada Skating championships were awarded the City of St. John being solicited by the undersigned representatives of the A. S. A. of C. for the past twenty years.

"In asking for the championships I cited what had been done in past years by the citizens of this city in sending our boys to take part in the Canadian and International Skating Championships.

"Mr. Taylor stated this had been very much appreciated and he would support and use his influence to secure for St. John the meet. He called on me, and would recommend to conduct the races, in case he could secure them for us. I gladly recommended the Y. M. C. I. as I had been associated with them in all their ice meets in the past and I felt confident that institution could carry off the Dominion Championships with credit to themselves and to our city.

"The Y. M. C. I. knew I had asked this for them, and instead of communicating through me as was their custom in the past, and thus carrying off the championships which had been put through by Mr. Taylor, unknown to me they sent their letter to our secretary, who, evidently thinking I knew this, granted their request. Hence the published article, on reading which I immediately tendered my resignation. Mr. Taylor was not in Montreal at the time the letter from the Y. M. C. I. arrived and on his return received my resignation, which he flatly refused to accept, explaining to me there was a grave mistake and earnestly requesting the withdrawal of my resignation.

"The Y. M. C. I. knew perfectly well the sanction should and could only come through me, and why they endeavored to procure it in this manner over my head is a mystery to me, as I had always given them any sanction asked for, and endeavored to the best of my ability to make the meet a success by rendering any assistance asked of me.

"This institution has treated me with every respect in the past, and I appreciated the many courtesies shown me by that body, but in all large and influential societies and clubs there at times creeps in an individual or individuals who cause trouble.

"As this is the first time in the history of the Maritime Provinces a Dominion of Canada Skating Championship has been granted it behooves each and every citizen of this city to give their best efforts to make it a big success, and this can only be done by playing the game fair, and working together in harmony.

"Trusting this explanation will end all further street corner controversy and thanking you for your valuable space.

I remain,  
Yours truly,  
FRANK WHITE.

C. A. Owens, chairman of the Physical Committee of the Y. M. C. I., expressed deep regret this morning when this matter was brought to his attention. He said that there had been no discourtesy to Mr. White intended when they took the matter up with Mr. Taylor. They always looked upon Mr. White as that type of good sport who was a true friend of every institution that fostered sport. He explained that they had spoken to Mr. Taylor about the matter when he was in the city, and that he had assured them that he would use his influence and get Mr. Rubenstein to do likewise to have the meet staged in St. John.

"They had also promised to render all assistance possible in making it a grand success. It was due to this, Mr. Owens said, that they wrote directly to Mr. Taylor and unfortunately had overlooked the fact that the matter should have been handled through Mr. White. He said it was a case of thoughtlessness and had not been done for any motive.

**POLICE ARE EXONERATED**

Report on Investigation at City Hall.

Commissioner Thornton finds They Did Not Fail in Duty or Withhold Any Important Evidence from the Crown Prosecutor.

A report, clearing the police of charges of suppression of evidence in the recent trial of Edward O'Brien, acquitted by a jury in connection with the murder of Albert Norris, was presented by John Thornton, commissioner of public safety, at a meeting of the common council this afternoon. The report followed an investigation conducted last week by the commissioner.

The text of the report was as follows: Having been appointed by the common council on the 18th day of October to conduct an investigation into the suppression of evidence in the trial of Edward O'Brien, under the authority of section three of the Act of Assembly 28, Vic., Cap. 48, for the purpose of ascertaining whether or not there is any truth in a certain statement which appeared in the St. John Globe, and on the seventh day of October, 1921, I beg to report as follows:

The statement referred to was as follows: "Explanations Dr. Wallace, crown prosecutor in the recent murder trials, has made of why a witness with important testimony was called at the Spellman trial and not at the O'Brien trial, places the responsibility for this unusual proceeding on the police authorities. Apparently the crown attorney was not told of this witness until it was too late to get her evidence at the first trial. Apparently, when told, he was led by the police department to believe that her evidence was unimportant and valueless. Why the police failed to let the crown know of this witness in time for Dr. Wallace himself to see the witness, her testimony is now the mystery. The incident is worthy of something more than passing notice."

My investigation commenced on the 8th October last, and was concluded on the 1st of November instant.

W. H. Harrison, acting city solicitor, appeared, representing the city. Nine witnesses were examined, namely, Mrs. Marie Truscott, Detective Kenneth Donohue, William F. Godwin, Armstrong B. Clifford, Patrick F. Biddiscombe, John T. Power, Mrs. Mary Fleming, William B. Wallace, K. C. The evidence of the said witnesses is herewith submitted.

After careful consideration of all the evidence, and more particularly that of Mr. Wallace, the crown prosecutor, I have come to the conclusion and report that there is no evidence whatever to substantiate the charge that the police failed in their duty or withheld any important evidence from the crown prosecutor.

**ALLIANCE STAND ON METHODS OF RAISING MONEY**

Text of Resolution Passed at Recent Meeting Given Out Today.

The Evangelical Alliance met at the Y. M. C. A. this morning, with Rev. Dr. Hutchinson in the chair. The following resolution prepared by a committee has been sent to the Protestant Orphanage Home.

At the regular meeting of the Evangelical Alliance of the city of St. John, representing the Protestant people of the city, communication was received from the Baptist ministers' conference drawing attention to the fact that it is announced through the press that a public fair is to be held for the benefit of Protestant Orphans at which unlawful devices are to be used as a means of securing money. Public announcement state that there is to be in operation a lottery for an automobile, a wheel of fortune known as a "chocolate wheel", and prizes offered for the holders of certain numbered door tickets. We view with deep regret and sorrow that so worthy a cause should seek to support from the public by such unworthy methods, and which are offensive to the best sentiments of the people.

We therefore strongly disapprove of such devices being resorted to for the moral welfare of the community and tending to create and foster the habit of gambling. We would respectfully urge the organization having the fair in charge to remove all gambling devices from their programme.

This is submitted under steps convictions and with the hope and confidence that it will be received in a kindly spirit and acted upon for the good of the people.

J. M. Stephens, of the Bernardo Homes addressed the meeting regarding the work of the homes, and solicited the support of the alliance. The attendance was small this morning, due to the fact that the Anglican ministers of the city had another engagement.

EGGS FROM THE UNITED STATES

(Toronto Globe) With the advent of colder weather, supplies of new-laid eggs are becoming very light, and prices naturally are advancing. In fact, strictly new-laid are coming forward in such light supply that quotations on them are largely nominal. As will be remembered the Canadian hen commenced operations earlier than usual last spring and so no doubt considered herself entitled to a good rest this fall with the above result. Fortunately, however, the fruits of her labor during the spring and summer

months were carefully stored away and are not as large as last year owing to heavy sales which were made to Great Britain earlier in the season, and which are being made even yet. Whether these stocks of Canadian storage eggs will be sufficient to carry through until the season of production comes on again or not is a matter of uncertainty, but in any case there seems to be little doubt that a large part of our market at the present time is being supplied by the United States, and as long as supplies are available from that source there is little likelihood of a real scarcity. At the present time United States No. 1 storage eggs can be laid down here at several cents under the cost of No. 1 Canadian storage, and while it is ad-

mitted that the American egg is not quite up to the standard of the Canadian, at the same time it is a good egg and capable of supplying the local demand. Last year, it will be remembered, there was a considerable quantity of Chinese eggs brought into this country, but the venture locally was not an unqualified success. Some shipments turned out

well, while parts of others at least were hard to sell. So far this year there does not seem to have any more in this direction, although it might occur at any time. Meanwhile much depends on the weather and in case of a mild winter an early egg season might be seen again next spring.

**MUST NOT INTERFERE WITH SCHOOL TEACHER** (Toronto Globe) "No ratepayer has the right to go to a school while the school is in session and demand from the teacher anything relating to his child. Teachers must be protected from ratepayers," said Magistrate Brunton in the County Police Court

On a further charge of assaulting Fred Legge, secretary of the school board, Malloy was found guilty and sentence suspended. Malloy had demanded an exercise from Miss Janet Gillespie, which she refused to give. The teacher declared that Mal-

TRADE follows the SHIPS

LOW Transportation Rates have always constituted a determining factor in Trade Development. Water Transport has always afforded comparatively low freight rates.

That is why the ships that navigate the lakes and rivers of Canada always command full loads. As fast as steamboats are built, the tonnage is forthcoming to fill them.

Much of this tonnage is supplied by our great Western Wheat Fields. We also ship by water freight, our ore, our coal, our timber, and our manufactured products.

The "water link" provided by our lakes and rivers is of vaster proportions than any other inland waterway in the world. Taking full advantage of its natural

facilities and splendid harbors and canals, Canada Steamship Lines Limited has added to its fleet and expanded its business until today its freight and passenger business ranks with those of the greatest navigation systems in America.

The future of such a Company is clearly indicated by its past record, taken in conjunction with the glorious possibilities of the country which it serves. The raw materials and the merchandise that Canada depends upon for her prosperity will always take advantage of Canada's great inland water system and the boats that ply upon it.

Canada's future progress must inevitably provide prosperity for its greatest steamship line—there cannot fail to be still greater accomplishment in volume and in profit.

The Bond Issue to be announced by Canada Steamship Lines Limited will provide an opportunity for investors to share in the development of an organization which already has a record of splendid achievement and which is recognized as one of Canada's greatest enterprises.

**INSULTING THE FARMERS**

(Moncton Transcript.)  
The Montreal Standard observes in language characteristically chaste and classical:

"The cloven foot will out. Speaking at Mr. Czeraz's meeting the other night, the Hon. Mr. Manning Doherty uttered these words: 'The time is at hand when we shall all have to realize that the great dominant industry of Canada is agriculture, and we shall have to allow that idea to permeate our government.'"

"This is a roundabout way of saying the farmer must rule," opines The Standard. "It is the old doctrine of class interest diluted a little for platform use."

It is, of course, too bad if Mr. Manning Doherty, who, by the way, was known as a good Conservative in St. John, N. B., a few years ago, has shown that the farmers' political movement has a cloven foot. Mr. Doherty's discovery that the great dominant industry of Canada is agriculture may be alarming to some Tory scribblers, but it is hardly a novel discovery. Politicians of all sorts have occasionally referred to agriculture as the great industry of Canada, and government statistics issued even during the Meighen regime show that agriculture is the greatest industry of Canada. The Standard is in fact constrained to say that the 'old parties' have told the farmer that he was the bone and sinew of the country so often that he began to take it seriously. But it adds ungraciously: "Now, the farmer knows that the bone and sinew cannot get along alone, and that it may be advisable to take in a brain or two."

In The Standard's view the farmers do not possess a brain or two, and, if that is true, we must have some sympathy with poor old Ontario, governed as it is by a party without brains. The Montreal paper evidently has a poor opinion of the intelligence of the people of Ontario, which, by the way, is the chief stronghold of the Tory party and the high protectionist sentiment.

If the farmer would sit at the feet of the manufacturer and heed the high protectionist propaganda, he would be regarded as a saint, but because he is getting ready to apply a heavy boot to the Meighen government he is everything he ought not to be."

**THE WEST IN NEED OF MORE CAPITAL**

(Toronto Globe)  
The position of the west under the setbacks experienced in the latter part of the present season is naturally a cause for disappointment, though the cheerful attitude of the people as reflected by Mr. Phillips, of the Imperial Bank, in an interview, reveals again the unconquerable optimism of the people on the plains. These setbacks naturally reduce purchasing power, and delay the meeting of some of the obligations, but they do not seriously impede the progress of a great virgin part of the Canadian territory. An increase of 30,000,000 bushels of wheat over the previous year means that much additional surplus for sale abroad, even though prices are low, and the markets of Europe none too eager at present.

Present conditions in Saskatchewan have led to a strong appeal by Hon. C. A. Dunning, Treasurer of the province, in behalf of debtors which will provide vice versa to sell for the raising of money for farm loan purposes. In his appeal Mr. Dunning says:

"It would be foolish to pretend that times are good in the province, but times are bad over the whole world today, and Saskatchewan people have a well-earned reputation for sturdy optimism. The farmers of the province are not asking for charity, but for a loan of working capital for an exceptionally trying period, and every citizen of our province in city, town and country should do his level best to help. We all hope that the time is not far off when farming will not be such a precarious industry and farmers may be assured of a price for their crop that will make it more profitable to thresh even a light crop than to leave the sheaves to rot in the fields, but there is an immediate emergency demand for funds, which can be met in some measure if all the thrifty citizens of our province in city, town and country, give their wholehearted support to the present campaign. Surely, the men and women on our farms who have fought so gallantly against drought, rust, hail, frost, insect pests and market manipulation, deserve all the support we can give them. All that they ask is for capital that will make it possible for them to carry on the fight, and it is up to us to do our utmost to provide this capital so badly needed."

**but why Under-Clothing?**

Because clothing is made to cover the body and is worn for decency, appearance and comfort.

Above all, under-clothing is worn for protection against chills, cold and dampness, and to absorb the natural moisture from the body.

Under-wear might mean any kind of "wear" and does not necessarily fulfill all the above mentioned functions.

**Turnbull's UNDER-CLOTHING**

protects and comforts the most sensitive skin and keeps the wearer immune from chill and cold.

It has the softness and pliant buoyancy of finely woven super-wool with all the harshness taken out.

"CEETEE" (the Sheep Trade Mark) is re-inforced at all wearing parts. It is the only Canadian-made underclothing with this practical feature.

For man, woman or child there is a Turnbull under-garment at a price well within reason.

**Williams' HOLDER TOP SHAVING STICK**  
The Perpetual Stick in the Holder that Holds

EVERY Williams' Shaving Stick and the-Load is wrapped in a hermetically sealed fibre covering, which preserves its famous lathering quality. And every one also has the threaded metal collar, which grips it tightly in the holder so it can't wobble or fall out. No other shaving soap has the quality or convenience of the time-tested Williams stick. No other offers such economy, because, with the-Load when needed, the holder lasts indefinitely.

**DON'TS FOR SHOPPERS**

Canton, O., Nov. 8.—Stores have all sorts of rules and regulations for their employees, but it remained for the employees themselves to compile a set of "requests" for customers to observe while shopping.

Miss Helen Ramsdell, head of the retail selling classes being held in the Chamber of Commerce, has gathered some of the suggestions made by the "leeks" enrolled in her classes and calls them to the shoppers' attention:

"Don't run your hand with rings on through fine silk hosiery and take a chance on running the hose. This would mean a total loss to the store. The same applies to any knit goods or to gloves."

"Don't go to the movies in the afternoon and then do your shopping five minutes before closing time. Sometimes this is necessary, but do not make a practice of it."

"Don't have merchandise altered and then expect a store to take it back. The retailer cannot sell it again and it means a loss to him."

"Don't have garments sent out on approval and have your dressmaker there to copy them or come into the store with her and take up alot of the salesperson's time so she (the dressmaker) can get an idea how to have it made."

"Don't insist on being shown three or four bolts of ribbon or lace when you know you are going to use only a little. You thus deprive another customer of the merchandise she wants and the salesperson from making other sales."

"Don't let your children abuse the merchandise."

"Don't have C. O. D. packages delivered and then not be at home to receive them. This is quite an expense to the store."

"Don't interrupt a salesperson when she is waiting on a customer and demand attention. She is doing her best to serve every one."

"Don't try to return hose and say it has not been worn when the marks of the supporters can plainly be seen at the top."

**MANY SOUGHT HONOR.**

London, Oct. 21.—(Associated Press by mail)—More than 400 British women who lost sons in the war, applied for the honor of being the unknown martyr, who is to lay a wreath on the grave of America's unknown warrior at Arlington Cemetery on November 11.

At the morning service in St. John's (Stone) church on Sunday the pastor, Rev. A. L. Fleming, read a cablegram from D. Arnold Fox announcing his safe arrival in London.

**MERITED PUNISHMENT.**

Citizens must have been struck in the last few weeks in reading of the large number of prosecutions and convictions for, wilfully or by carelessness, setting fires to standing timber. There have been convictions also for refusing to assist forest rangers in putting out fires. In some cases this may seem hard on the individual, but, on the other hand

there has to be considered the loss sustained, not only by an individual or company, but also by the whole country in the burning of the forests. There is another consideration, also, namely the loss of life caused by forest fires. The record is not yet complete but it appears that at least two men lost their lives in forest fires this season. Then there were the numerous families burned out of house and home this year, the members of which suffered in health as well as in property. Fines and jail sentences are not pleasant things. There is no one who does not feel sympathy for those so dealt with, but once the people make in their minds that forest fires must stop fires will come to an end, and these punishments are one way in which public opinion makes itself heard.

**The Midget Greater Than The Giant**

Bigness is no indication of quality or value for that matter. The sixteen ounces contained in ST. CHARLES FRESH Milk (tall size) is the equivalent of 40 ounces (Imperial quart) of ordinary milk because Borden's remove 60% of the moisture, which is of no value and sell you only milk "with the cream left in." Truly "the midget is greater than the giant."

It is not an accident that more homes choose ST. CHARLES "with the cream left in" for their fresh milk supply, than any other. It is the preference of exacting, keen judgment. Freedom from troublesome daily milk deliveries, confidence as to its purity, economical because of its richness and lasting qualities—these are the reasons why ST. CHARLES should be the "daily milk" in your home.

**ENCOURAGEMENT OF TOURIST TRAFFIC**

Halifax Board of Trade Council Strong for Advertising Nova Scotia—A Clearing House for City Charities Proposed.

(Halifax Chronicle.) The attractions of this province, especially to the motorist and the means of bringing it to his attention was one of the several interesting subjects the Council of the Board of Trade discussed Tuesday afternoon. With the improvement of the roads it is believed an improvement in hotel conditions will soon follow and the fact that a greater number of American cars toured this province, the present year than ever before is a satisfactory feature to those who have been endeavoring to advertise the province.

New Brunswick, Quebec, Ontario and provinces of the west have spent large amounts in advertising in a suitable manner to attract the tourist, especially the motorist and recently an article appeared in the Montreal Star urging a greater expenditure in this respect and pointing out the large amount of money that must have been spent in the Province of Quebec by this class of travellers.

The State of Maine reaps a large harvest yearly and now that the highways through the New England States and New Brunswick make Nova Scotia accessible, the attractions of this province, especially the miles of lake scenery which is so eagerly sought after by the American traveller, as well as the seashore, will, it is believed in a quicker time than expected, bring an ever increasing number of this class of travellers.

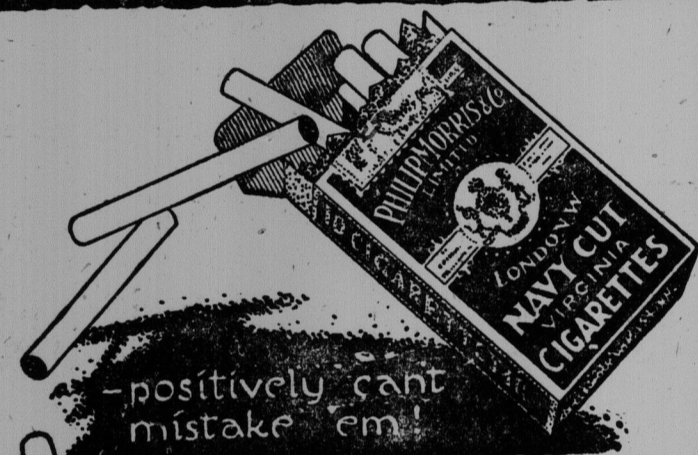

Nearly all present expressed their views and the following resolution was unanimously passed:

"Whereas, improved roads and more cars have made the beauties of Nova Scotia more easily accessible than formerly to the United States motorist, the Council of the Halifax Board of Trade is of the belief that this money spending class can now be induced to come to Nova Scotia in much larger numbers than heretofore, provided the attractions of the place are properly presented to them, and,

Whereas, this year the State of New Hampshire, it is said, had a revenue of many millions of dollars from its tourist traffic, although the attractions for the motorist in New Hampshire are not comparable to those of Nova Scotia.

Therefore Resolved the Council of the Halifax Board of Trade desires to place itself on record as being anxious to encourage any well considered effort which may be made to increase the present volume of motor travel from New England to this province, and would respectfully suggest that the provincial government take the matter of such encouragement under consideration at the very earliest opportunity."

A committee was named composed of A. H. Whitman, F. A. Gillis and F. E. Elliott, representing the council, who will add to their number, for the purpose of bringing the matter to the attention of the provincial government.

**SENTENCE GREEK DOCTOR TO PRISON**

Alleged Disrespect to Queen in Letter of Complaint on Behalf of Soldiers.

Athens, Oct. 17.—(Associated Press by mail)—At a time when all the hospitals in Athens are crowded with wounded from the Anatolian front, one of the ablest of Greek surgeons has been sentenced to forty days' imprisonment for alleged disrespect to Queen Sophia.

The Athenian press of all shades of opinion is up in arms against the sentence passed upon Dr. Polibus, Coriolis, who, in his capacity of honorary surgeon of the Greek army, committed the offence of writing to Queen Sophia from the front to call her attention to the fact that parcels containing candy and cigarettes sent to soldiers at the front by their relatives and friends hardly ever reached their destination. The papers that be, however, ignore this general outcry. Queen Sophie is at the head of the

Greek Red Cross and, indeed, of all the benevolent institutions in Greece. She never misses an opportunity for marking her interest in the soldiers at the front. It is contended that Dr. Coriolis could not have done better than bring to the queen's knowledge the many irregularities in the dispatch of parcels; but he should have communicated with the queen through her secretary. For this omission he is undergoing the sentence.

Dr. Coriolis took up his abode in Athens some four years ago and he married the daughter of the minister of finance in the Venizelist government. He is himself an ardent supporter of the late prime minister.

Thousands of Canadian Homes Now Use No Other Milk Supply

THOUSANDS of Canadian homes now buy milk ahead—a week's or a month's supply—with their groceries.

They keep Carnation Milk—on their pantry shelves—pure, rich "whole" milk, fresh whenever needed. You'll prefer to get your milk supply this way, too—once you try Carnation Milk.

Not only because it is handier, but also because it is economical.

The rich milk is delivered to the Carnation condenseries which lie in the heart of Canada's finest dairy counties.

Part of the water is removed by evaporation. Then the milk of creamy consistency is sealed in air-tight containers—and sterilized.

**It Keeps for Months—Always Handy**

Carnation Milk, therefore, keeps for months. Even when the can is opened it stays sweet and fresh for several days.

There is no waste—no problem of "left over"—with Carnation Milk.

There is no worry about milk delivery—winter or summer your grocer can supply you.

And Carnation Milk serves every milk purpose.

Use it as cream for tea, coffee, fruit or cereals. Chill it first, for whipping. Dilute it with at least an equal amount of water—for cooking or for table use. For drinking dilute with an equal amount of water, or more, according to taste.

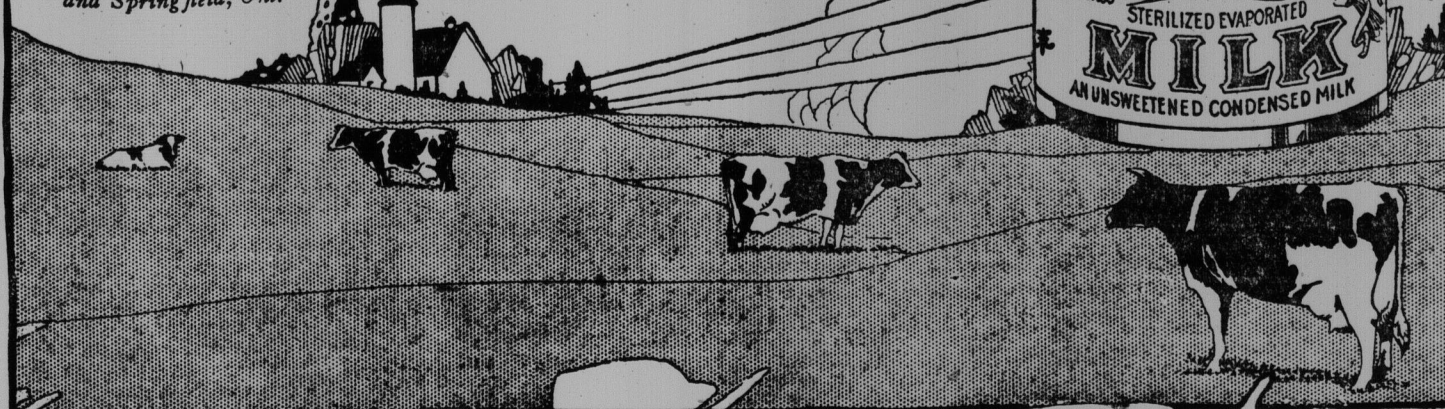

Order three or four tall cans (16 oz. size) or a case of 48 cans from your grocer—the Carnation Milkman. Phone him now!

### LONDON MAY HAVE A PENSION SCHEME

Plan, if Approved by the Council, will Go to the Rate-payers.

London, Ont., Nov. 8.—The special pensions committee of the city council, which for some months has been studying plans for superannuating civic employees, has received a report from ex-Ald. J. G. Richter, the committee's adviser, which will probably be recommended to the people.

The plan provides that the ratepayers would have to contribute \$100,000 as a nucleus for a fund which would thereafter be maintained by assessing the beneficiary employees from 3 1/2 to six per cent. on their earnings. The city would duplicate amounts so collected, the annual cost to the taxpayer for this fund being about \$10,000. After fifteen years,

#### SPORT AND HEALTH

Fort William Times-Journal.—Nothing would do more toward the solution of our social problems than providing for the nation. The way to do this may be beset with difficulties, but the true approach seems to be through the public schools. The cultivation of good taste in selecting our amusements would do something, but practical results will be more likely to follow the enlarged opportunities for good sports and healthful plays and a revision of our school programme in the direction of the English system, in which sports and play are an integral part of public school curriculum.

### REWARD FOR TRYING TO FOIL BANDITS

Two Employees of Bank of Hamilton, One a Girl, Given Watches.

Hamilton, Ont., Nov. 8.—For bravery shown by them when bandits visited the bank in which they worked, Miss V. K. Harris, of Toronto, an employee of the branch of the Bank of Hamilton there, recently visited by hold-up men, and Edward K. Pottinger, of the Sanford avenue here, were given gold watches by J. P. Bell, general manager of the Bank of Hamilton.

The presentation took place at the head office in the presence of the bank officials and employees. Illuminated addresses, the gift of the board of directors, were also presented to Miss Harris and Mr. Pottinger. Mr. Bell, in officiating, praised the two employees for their courage in doing everything possible to foil the bandits.

Col. B. O. Hooper, of the bank, said that in future revolver practice would be compulsory and that practices would be held twice a week. All employees who might need to use a gun must attend. An expert has been engaged to conduct the classes, he said, and special attention was to be paid to snap shooting.

In the main street Baptist church on Sunday, A. N. Stephens, of the Barnado Homes, spoke at the morning service and in the evening Rev. Dr. Hutchinson, the pastor, made feeling reference to the occasion as Armistice Sunday. Last evening a thanksgiving service was held in the church, conducted by Dr. Hutchinson. Members of the congregation took part.

Rev. Dr. Hamilton Wigle, of Mount Allison Ladies' College, Sackville, conducted the services in the Portland Methodist church in the absence of Rev. H. B. Clarke, who was in Halifax attending the dedication of the new Oxford street Methodist church.

Miss Morris Robertson, missionary from Japan, who is spending a short furlough at her home in St. John, gave an interesting address before the square Methodist Sunday school in the afternoon.

At the Central Baptist church a choir of fifty children led the singing at the evening service.

Rev. George Buchanan, of St. George, conducted the services in the Charlotte street Baptist church on Sunday and is to be preached next Sunday.

Rev. R. O. Morse, editor of the Maritime Baptist, occupied the pulpit of the Waterloo street church on Sunday.

Guy Fawkes Anniversary.

A united church service of the various Orange lodges of this city and the Sons of England was held on Sunday afternoon in the Queen Square Methodist church in commemoration of Guy Fawkes day. The various lodges formed up at the Orange hall in Simonds street and marched to the church in a body. The parade was headed by Joseph Daley, followed by St. Mary's band.

### The Most Useful Utensil a Woman Can Have in Her Kitchen

The fact that so many thousands of "Wear-Ever" Sauce Pans are in use in as many homes throughout Canada indicates what women in general think of this most handy utensil.

If you do not have at least one or two sizes of "Wear-Ever" Sauce Pans in your kitchen, you should get them immediately because of their general utility and most welcome convenience.

### "Wear-Ever" Aluminum Sauce Pans

You can use the "Wear-Ever" Sauce Pan for boiling milk, for cooking vegetables, for making sauces, fudge, icing for cakes, fillings for cakes, etc.

Dealers now have stocks of "Wear-Ever" Sauce Pans in the following sizes:—1 pint, 1 quart, 1 1/2 quarts and 2 1/4 quarts (Wine measure).

It is not enough that you know that utensils are made of aluminum before you buy them. There are degrees of quality in aluminum as there are in almost all other things for household use. Thickness of aluminum, flawless perfection of metal, hardness and density—these are things that are most important—that spell the difference between inferior and superior aluminum and that determine service.

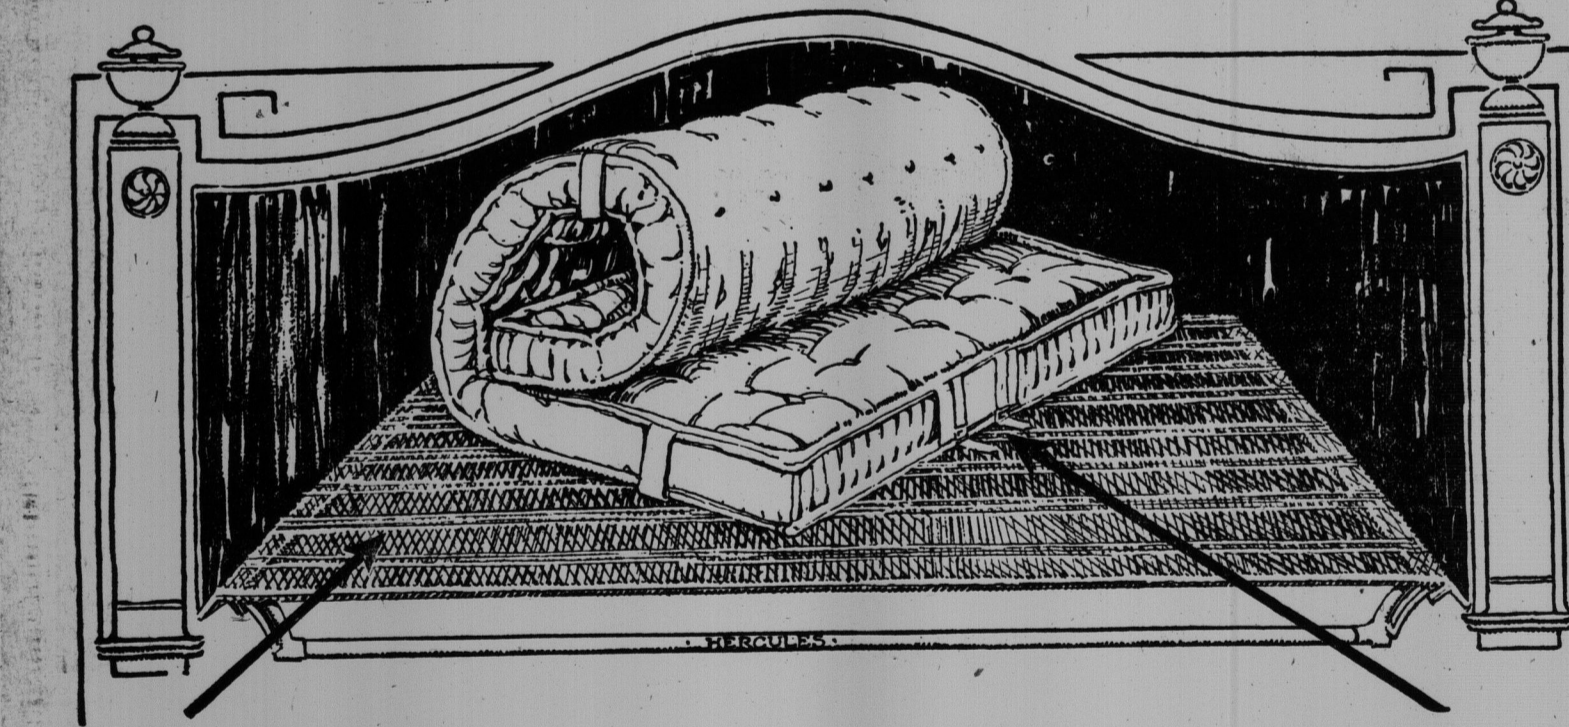

You cannot tell by looking at an aluminum utensil whether or not it possesses these most important attributes—but you can be sure that it does if you find the "Wear-Ever" trade mark on the bottom of the utensil.

Women are giving more thought to quality these days than ever before. They know that even though superior quality costs a little more, it is an economy in the end.

That is why the demand for "Wear-Ever" aluminum cooking utensils is growing greater and greater every day.

"Wear-Ever" utensils are sold by Department, Hardware and Housefurnishing Stores. Look for the "Wear-Ever" trade mark on the bottom of each utensil.
