DYING OF STARVATION BY THOUSANDS IN PETROGRAD

Middle Classes Victims of Bolshevistic Frenzy

CITY LOOKS DESERTED

Only Quarter of Former Population Remains and Conditions Are Described as Terrible, Hundreds Buried Each Morning

Stockholm, Dec. 5.—(By the Associated Press)—Fugitives from Russia who have reached here say that life in Petrograd is terrible. All middle class elements are excluded from public eating houses and are dying of starvation by thousands. Hundreds are buried each day between six and nine o'clock in the morning, no funerals being permitted later during the day.

Of a normal population of two millions, only half a million is left in Petrograd. The city looks deserted. Half of all the flats are occupied by red guards and their families.

Legations Nervous. Many widely known persons have been shot or have starved to death recently. Rumors of approaching Entente intervention have increased Bolshevistic hatred and resulted in frenzied persecution of the middle class elements. There is great nervousness in the neutral legations. The Polish legation has been looted, while the Swiss legation has been entered forcibly. The personnel of this legation has left Petrograd.

RESPONSIBILITY FOR TREATMENT OF PRISONERS

London, Dec. 4.—German officials guilty of acts which resulted in injury or danger to British prisoners of war should be held personally responsible, Lord Robert Cecil, former assistant secretary of state for foreign affairs, says.

This statement was made in a message relative to the attitude of the government on the subject of treatment of prisoners, which has been generally discussed since the signing of the armistice. Lord Robert says: "If we are satisfied that any of our soldiers or civilian fellow subjects have been ill-treated in such a way as to injure their health or endanger their lives, we should make it clear that we will personally hold the official responsible for the ill-treatment, and, if necessary, try him for his life. This should be done, he is Kaiser or any subordinate."

SPRINTS ADD INTEREST TO BICYCLE RACE

New York, Dec. 6.—With all the teams peddling more than 250 miles behind the record, interest in the annual six-day bicycle race here centered today on the figures being made under the French point scoring system. McNamara and Magnin led at 8 a. m. with 298 points. The race will end at midnight Saturday and the final prize winners will be determined under this system of awarding points for places won in the sprints, fifteen of which are run off every 24 hours.

Madden and Corry were second at 8 a. m., the 104th hour, with 240 points; Grandia and Hill were third with 184; Lawrence and Hanley fourth with 137; and Chapman and Halsted fifth with 133 points.

The eight leading teams had covered 1,798 miles one lap at the end of the sixth hour; three others were one lap behind, and the twelfth team was three laps behind. The record at this hour is 2,051 miles 6 laps, made by Fogler and Hill in 1914.

TRANSPORT WITH U. S. TROOPS ON BOARD IS FOUR DAYS OVERDUE

New York, Dec. 6.—The army authorities here announced today they had been unable to get in touch by wireless with the United States steamship Comtort since yesterday afternoon. The last wireless message received from the vessel, which is returning from Europe with American wounded troops, reported she was delayed by a heavy storm, but was not in distress.

It is believed by the military authorities that the Comtort's wireless apparatus may have been put out of commission by the storm. The ship is four days overdue.

Local Transportation Problems Presented

City Commissioners and Board of Trade Representatives Discuss Harbor and Railway Matters With Directors of National Railway System

D. B. Hanna, chairman, and other directors of the Canadian National Railway System arrived in the city this morning and inspected local facilities. After proceeding to East St. John to look over Courtenay Bay, they returned to city hall, where they held a conference with the city officials and a delegation from the Board of Trade.

In addition to the delegation from the Canadian National Railway systems there were present: Mayor Hayes and Commissioners Bullock, McLellan, Flanagan and Hilyard, L. R. Ross, terminal agent of the C. G. R.; R. W. Wigmore, M. P.; R. B. Emerson, president of the Board of Trade; A. H. Wetmore, H. C. Schofield, George E. Warwick and R. E. Armstrong.

Mr. Wetmore, on behalf of the Board of Trade, presented an address embodying their views on transportation matters. Board of Trade Views. The address presented on behalf of the Board of Trade was as follows: D. B. Hanna, Esq., Chairman Canadian National Railway, Dear Sir:—

In extending to you and your fellow directors a hearty welcome to the City of St. John, the Board of Trade, through its committee, would embrace the opportunity on the occasion of your first visit of submitting to you some suggestions as to the needs of the port from a railway standpoint. Before doing so we would impress upon you the fact that St. John possesses the geographical advantage of being the nearest winter port in Eastern Canada to the great Canadian West; that its doors are ever open and ever ready for ocean traffic. This important fact has been strongly emphasized during the past four years, when the value of its export traffic advanced from \$48,000,000 in round numbers in 1915, to over \$200,000,000 in 1916, and its imports from \$9,000,000 in 1915 to \$17,000,000 in 1916.

The Board of Trade, while appreciating the contributions in traffic the city has received from its connection with the Canadian Government Railway, is strongly impressed with the opportunity which this great transcontinental system affords for a vastly increased traffic, and it would bespeak the assistance and co-operation of your board of directors toward that end.

One of the prime necessities of the port of St. John is the harmonizing of its harbor interests through the medium of a federal Harbor Commission and the application by that commission of a well defined, carefully studied and comprehensive scheme of harbor development, and as this matter exercises an important bearing upon the present and future interests of the Government Railway, we would ask for the co-operation of your directors toward securing the consummation of this greatly to be desired scheme.

Connection with Tidewater. The board would strongly urge upon the attention of your directors the advantages which McGivney Junction and the Valley Railway afford for a more direct and rapid connection between the Transcontinental system and tidewater, and it would express the hope that the federal government will recognize the importance of taking over the control and operation of the Valley Railway so that the fullest advantage may be taken of this connection.

Government Railway Terminals. We would further present for your consideration the establishment of a more extended system of Government Railway terminals in the main harbor of this port along well-served and permanent lines. Something of this nature was promised the city when the creation of the government grain elevator, but national demands as the result of the war prevented its consummation. Now that the war is over and that Canada has entered upon a new period of reconstruction, it is the feeling of the St. John Board of Trade that no better beginning can be made on national reconstruction than in the development and improvement of the national ports of the Dominion and in supplying these ports with the most modern scientific equipment. The establishment of Government Railway terminals at the port of St. John would be a long step in that direction.

New Railway Station. A growing necessity in the city is the providing at an early day of a new railway passenger station. The present station building is not only far too small for the traffic which passes through it, but it is lacking in many modern requirements. When the Board of Trade some years ago urged the rebuilding of

EXPULSION OF GERMANS, PUNISHMENT OF KAISER, URGED BY LLOYD-GEORGE

Calls for Trial of Men Responsible for the War and Would Drive from Britain Enemy Aliens Who Have Forfeited Right to Hospitality of the Nation: Bolshevism a Poison

London, Dec. 5.—In the detailed re-statement of his policy, issued by the prime minister, Mr. Lloyd George, calling for the trial and punishment of the men responsible for the war, however high their place, he pledged the entire influence of the British government at the peace conference to see that justice was done. In declaring for the expulsion and exclusion of all enemy aliens from British soil, the premier pointed out that a considerable proportion of enemy residents in the United Kingdom during the war had abused their hospitality and thus had forfeited their right to remain. "The Kaiser must be punished," he said. "The Kaiser must be punished. It was a crime in the way in which it was planned and in the deliberate wickedness with which it was provoked. It was also a crime in the invasion of a helpless little state and in the wicked and most brutal treatment of that little state. Remember, the treaty of neutrality, the scrap of paper!

"Surely, the war was a crime. The fact that all these iniquitous things were done in the name of war and under the imperial edicts of an autocrat does not change their nature. The war was a hideous, abominable crime, a crime which has sent millions of men and millions of women to death and mutilation and has plunged myriads of homes into desolation. "Is no one responsible? Is no one to be held to account? Is there to be no punishment? Surely, that is neither God's justice nor man's. The men responsible for this outrage on the human race must not be let off because their heads were crowned when they perpetrated the deed. "The British government referred the question of the responsibility of the Kaiser and his accomplices to their legal officers some time ago. They invited a body of jurists in England to investigate the matter and they have

HUNS BUILDING AIRCRAFT FOR ATLANTIC TRIP

Giant Airplane and Monster Zeppelin—Transforming War Planes for Commercial and Mail Service

London, Dec. 6.—The Germans are building an airplane with which they intend trying a trip across the Atlantic and have a Zeppelin under construction for the purpose of crossing the Atlantic. The Zeppelin will carry a crew of three hundred passengers. It has nine engines and eight propellers. The correspondent says that almost immediately after the armistice was signed the Germans began converting their fighting planes on hand into commercial machines intended to link all the European capitals with Berlin, and dozens of planes built entirely of aluminum are being transformed for postal service.

GERMANY MUST RETURN THE LOOT

Paris, Dec. 6.—(Havas Agency)—Alienation or mortgaging of railways, mines or other undertakings in which the German nation is interested is forbidden by a decision announced by the allied conference being held at Spa. Foreign stocks belonging to Germany, as well as the gold in the Reichsbank come under the provisions of the decision. It is announced that negotiable instruments, documents, public records, articles of art and bills of banks of France and Belgium taken by the Germans during the war will be returned.

MARKET FIRM, BUT DULL

New York, Dec. 6.—(Wall Street)—Tobacco and sugar were the only features of interest at the firm but dull opening of today's stock market, several of the former issues enhancing substantially their gains of the previous day, while Beet Sugar added one and one half points to its 3/8 point advance of that session. Oils and miner equipment also rose from fractions to a point, but rails, shipping and steels displayed further irregularity with coppers and motors.

VANCOUVER ROCKED BY AN EARTHQUAKE

Buildings Shook so Violently That Occupants Became Sea-Sick—Washington Believes it Centred in South America

Vancouver, B. C., Dec. 6.—This city was shaken violently by an earthquake at 12:45 this morning. The tremors, which appeared to be from north to south, were felt for two minutes. A distinct rumbling was noticeable. Occupants of tall buildings were especially affected by the disturbance, many being reeled with nausea. The shock was felt in all parts of the city, many persons being awakened by the shaking of furniture and tumbling of dishes.

BEILIAN ROYAL FAMILY IN PARIS

Paris, Dec. 5.—(Havas Agency)—King Albert, Queen Elizabeth and Prince Leopold of Belgium were guests of honor at a banquet given by President Poincare at the Elysee Palace tonight. There were 200 guests present, including members of the French cabinet, Allied diplomats and prominent officials. At the close the Belgian sovereigns received the guests of the evening. Toasts of the utmost cordiality were exchanged by President Poincare and King Albert.

THE CASUALTY LIST.

In the official casualty list sent out from Ottawa today the names of the following New Brunswick men appear: Killed in action—H. Price, Lower New Brunswick. Died of wounds—P. Glencross, Richibucto. Ill—S. Francis, Chatham; R. Boyce, Bayfield.

ALLIED AND U. S. FORCES WILL OCCUPY BERLIN

To Exercise Temporary Police Supervision is Report Action Due to "Regrettable Incident"—Southern Baden Seeks Incorporation With Switzerland—German Colonies Want to Live Under British Rule

Copenhagen, Dec. 5.—Allied and American forces will temporarily occupy Berlin as exercising police supervision, according to a Berlin newspaper, which says that an American wireless despatch to this effect has been intercepted by the Germans. The newspaper says that Mannheim will be similarly occupied. The reason for this action on the part of the Allies is said to be a "regrettable incident during which a supervisor of a prisoner's camp shot three Frenchmen."

WOULD BREAK AWAY

London, Dec. 6.—Southern Baden is seeking incorporation in Switzerland, according to Baden newspaper, says a Copenhagen despatch to the Daily Telegraph. Baden is east of the Rhine. The famous Black Forest occupies a large part of Southern Baden. Want to Be British. London, Dec. 5.—Natives of Germany's colonies want to come under British rule, said Walter Hume Long, secretary of state for the colonies, speaking at Westminster tonight. "Our representatives at the peace conference should see that the case for our retention of those colonies is put forward in full strength. It will be a gross injustice to our great dominions to tell them that these colonies, which, in a large measure they conquered by their blood and valor, are to pass under the control of anybody but the empire to which they belong."

THRILLING TALE OF RESCUE FROM A SUBMARINE

Forty-Two Saved After All Were Believed Dead ON TRIAL TRIP

After Compartment Filled and Craft Sank—Officers Projected Through Conning Tower—Supplies Through Flexible Tube

London, Nov. 29.—(Correspondence of the Associated Press)—An extraordinary story of the salvage of a British submarine which went down in Geerlock Lock near the Clyde, has now been published. The submarine had seventy-three persons on board, including naval contractors and men from the yard where she had been built. The order was given to submerge and she had descended just beneath the surface when water began to pour into her and she descended stern down to a depth of fifteen fathoms. An inspection showed that the ventilating shaft had been left open and thirty-one persons in the rear of the vessel were immediately drowned. The forepart was shut off and the forty-two persons there were saved. How their rescue was accomplished when Captain Goodhart was in command is the story told below. Rescuers inserted, through a water flap, a flexible hose through which air, food and chocolates were passed. The entombed men asked, by means of Morse signalling, for playing cards, "to beguile the tedium of waiting," as one of them said.

SHELL MAKING NEARLY OVER

Phoenix Foundry Has Ceased Munitions Work—McAvity's Has No Definite Word on the Subject

The report emanating from Ottawa that December 14 will see the termination of war industry in Canada has caused considerable interest in this city, due to the large amount of shell manufacturing that has been going on here during the war. In conversation with the Times today, Allan McAvity, who is in charge of the McAvity Shell Works in Rothsay avenue, said that they have not yet received any official notice when work is to cease. He said they expect to run at least until the first of the year. Mr. Fleming, of the Phoenix Foundry, said that they have been closing their munition plant gradually for some time, and now have ceased the manufacture of munitions altogether. At the present time, he said, they are changing their equipment to suit their regular line of work.

TORONTO POLICEMEN TO SETTLE DISPUTE WITHOUT A STRIKE

Toronto, Dec. 6.—Toronto will not be faced with a police strike. This was the decision arrived at by the members of the union early this morning. According to President Scott, after hearing addresses by Mayor Church and others, who advised consideration of the citizens at large, it was decided to effect some amicable means of settlement between the men and board of police commissioners.

BALL PLAYER REFUSES TO JOIN BOILERMAKERS' UNION; 1,200 GO ON STRIKE

Mobile, Ala., Dec. 6.—Because of the failure of the Alabama Drydock & Shipbuilding Company to discharge Milton Stock, former third baseman of the Philadelphia Nationals, after his refusal to join the local boiler-makers' union, 1,200 boiler-makers' quit work at the plant yesterday. The company is working on government contracts. Chaplain is Dead. Boston, Dec. 6.—Rev. D. S. Waldron, chaplain of the Massachusetts House of Representatives here for forty years, died yesterday in his seventy-eighth year.

CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES.

If you know of some one who is troubled with Catarrhal Deafness, head noises or ordinary catarrh cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness.

In England scientists for a long time past have recognized that catarrh is a constitutional disease and necessarily requires constitutional treatment. Sprays, inhalers and nose douches are liable to irritate the delicate air passages and force the disease into the middle ear, which frequently means total deafness, or else the disease may be driven down the air passages towards the lungs which is equally as dangerous. The following formula which is used extensively in the dandy English club and should prove especially efficacious to sufferers here who live under more favorable climate conditions.

Secure from your Druggist 1 ounce of Parmit (Double strength). Take this home and add to it 1-4 pint of hot water and 4 ounces of granulated sugar; stir until dissolved. Take one tablespoonful four times a day. This will often bring quick relief from distressing head noises. Clogged nostrils should open, breathing become easy and hearing improve as the inflammation in the eustachian tubes is reduced. Parmit used in this way acts directly upon the blood and mucous surfaces of the system and has a slight tonic action that facilitates obtaining the desired results. The preparation is easy to make, costs little and is pleasant to take. Every person who has catarrh should give this treatment a trial.

A Simple Way To Remove Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about five ounces of plain, common liquid parvo from any drug store (this is all you will need), apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

WHEN YOU WAKE UP DRINK GLASS OF HOT WATER

Wash the poisons and toxins from system before putting more food into stomach.

Says inside-bathing makes anyone look and feel clean, sweet and refreshed.

Wash yourself on the inside before breakfast like you do on the outside. This is a very important because the skin pores do not absorb impurities into the blood, causing illness, while the bowel pores do.

For every ounce of food and drink taken into the stomach, nearly an ounce of waste material must be carried out of the body. If this waste material is not eliminated day by day it quickly ferments and generates poisons, gases and toxins which are absorbed or send down the blood stream, through the lymph ducts which should sack only nourishment to sustain the body.

A splendid health measure is to drink, before breakfast each day, a glass of real hot water with a teaspoonful of limestone phosphate in it, which is a harmless way to wash these poisons, gases and toxins from the stomach, liver, kidneys and bowels; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

A quarter pound of limestone phosphate costs but very little at the drug store but is sufficient to make anyone an enthusiast on inside-bathing.

HON. N. W. ROWELL ON RECONSTRUCTION

Hopes For League of Nations—Expects Labor Ministry in England in Few Years—Changes in Canada

In an address this week, Hon. N. W. Rowell dealt with the problem of reconstruction after the war. A report of one portion of his speech says: It had been the hope of democratic nations that a League of Nations would be formed as the result of the peace conference. In such a league Canada could join with full heart, and all lovers of democracy and peace would unite in the hope that such a league shall be formed to insure the peace of the world. He hoped that as a first contribution to that peace the Kaiser and his son would be imprisoned on some modern St. Helena there to remain as object lessons of the fate awaiting a man who placed his personal ambition ahead of the welfare of his country.

It was difficult to know just what the future holds for the nations participating in this war. Thrones had been overthrown by the ferment of democracy in Europe and he did not think the movement had ended with Russia. Whether Germany and Austria would be as serious enemies as was the Kaiser of the Czar he doubted, as he felt that the people of Germany and Austria were more thoroughly accustomed to autocratic rule and their revolt against it would scarcely go to the lengths of Russia. In some form or other the same ferment of democracy would find manifestation throughout the world, but any changes wrought in existing systems would be by peaceful, orderly means.

Referring to political conditions in England, he expressed the opinion that the Lloyd George government would be successful in its appeal to the people, but believed that at the next election after that a labor ministry would be placed in control with a strong radical platform.

The toiler had largely borne the burdens of this war, so far as the "active fighting is concerned and he would naturally feel that as a reward for his efforts in that direction he was entitled to a larger place in the industrial, social and economic life of the country than he had had in the past. This had been the case in Canada as established by statistics obtained from the Department of Militia and Defence a few months ago, which showed that of the Canadian enlistment to that time 65 per cent of the men were classed on their attestation cards as skilled or unskilled laborers. In Great Britain and France the proportion would probably run a trifle higher. And in Canada must look forward to a readjustment of the place labor has occupied in the administration of the country.

HEAD OF BULGARIAN GOVERNMENT WAS AGAINST WAR COURSE

London, Nov. 20.—(Correspondence)—M. Stambulsky, leader of the Peasants' party and head of the New Peasants' government in Bulgaria, was among those who sought to prevent King Ferdinand from committing Bulgaria to war on the side of the Central Powers.

At a conference of party leaders held with the king at the palace, M. Stambulsky spoke his mind freely, telling the king that he was leading the coun-

try to destruction, and that he would pay for his crime with his crown and perhaps his head.

To this the king replied that Stambulsky need have no concern for the royal head, but had better take care of his own. Later Stambulsky was imprisoned.

"Do you find that your farm hands are benefited by a course of reading?" "Yes," replied a farmer from Cornwall. "They're gotten about all there is from the scientific works on agriculture. When I want 'em to hustle for crops now, I make 'em read the war news."

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, DECEMBER 6, 1918

The Evening Times and Star

ST. JOHN, N. B., DECEMBER 6, 1918

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

RAILWAYS AND ST. JOHN.

The directors of the Canadian National Railways are cordially welcomed to St. John, which must be, because of its location, one of the great ports through which the traffic will flow.

AND THIS IN ST. JOHN.

There is need of legislation to prevent men from throwing upon the public the care of their children, or through their own laziness robbing the children of home comforts and proper training.

FALSE CHARGES EXPOSED.

The Standard prints today with a very bad grace a letter from Campbellton which proves that it made an utterly false charge against the Board of Education in regard to payment of teachers' salaries.

BANK CLERKS AND OTHERS.

A commercial man tells the Times-Star that he recently fell into conversation with a young bank clerk in a hotel in one of the smaller towns of the province.

Sidelight on the Sex.

Florence Bulletin—Don't try to fool a woman. She has a memory like a phonograph and can reproduce any talk you ever made to her.

About the Choice of Flour

It's always much the best to select a brand of well established quality. LA TOUR FLOUR has stood the test of time, meeting satisfactorily all requirements in thousands of homes.

BRITISH CROWN Assurance Corporation Limited of London, England. SECURITY EXCEEDS SIXTY MILLION DOLLARS. C. E. L. JARVIS & SON, GENERAL AGENTS FOR MARITIME PROVINCES.

CODFISH TALKS

have been diminished by millions of head. Years must elapse before the meat supply and the milk and butter supply of some of those countries can be restored to normal.

BOILED FRESH COD.

Wrap the fish in cheese-cloth and place it on the rack in a fish boiler with enough tepid water to cover. Add salt and a tablespoon of vinegar.

Food Board Plans

The health and strength of millions of people in the allied and neutral nations has been reduced by the lowered standard of living enforced by war rationing systems.

FOLLOWED HER SOLDIER HUSBAND TO ST. JOHN

John A. McLeod, a returned soldier and a former member of the local police force, was before the magistrate this morning on a charge of non-support. McLeod while with the C. E. F. in England was married in Bristol to an English girl. He lived with her there until within five weeks of the time of his return to Canada, which was early in March of this year. At the time of leaving he told her that he would send for her in June. His wife did not hear from him and so came to Canada to look him up. She arrived about five weeks ago, went to Fredericton and there learned that McLeod was in St. John. She came to the city and was met at the station by her mother who took her to the Edward Hotel. He did not remain and she stayed there until the following Monday. He paid her bill. He came and met her on Tuesday and they went to 92 Princess street, stayed there a short while during the evening and then returned to the Edward Hotel. He left that night, saying that he was going on duty as he was on the city detective force.

Mrs. McLeod reported her husband's actions to the police force and it was found that he had \$19 pay coming to him which was handed over to her. From this amount she paid her board bill. A short time before he had been dismissed from the force on account of being absent without leave.

A young woman was called to give evidence that McLeod had claimed he was a single man. She said that he had told her that he loved her and wanted her to marry him and go west.

Policeman Hopkins said that when McLeod filled out his application for the police force he stated in it that he was single.

The magistrate made a statement that he was troubled with heart disease. The magistrate advised him to close the books of his past life and start anew. He was remanded until tomorrow morning to give him a chance to think over just what he was willing to do. The magistrate impressed upon him that he would have to support his wife or go to jail.

Sudden Spurt in Buying Since The War Ended

Reaction From War-Time Economy Showed Immediately After the Armistice Was Signed—Prosperity Apparent

Washington, Dec. 6.—Reaction from war time economy is apparent in reports to various government agencies since the signing of the armistice. War savings committees in all parts of the country have submitted statements tending to show that persons who abstained from buying unnecessary clothes during the war have rushed to shops within the last week or two and bought according to pre-war standards.

Retail businesses report stimulation of business by peace news. In some cases the response was immediate, business showing a big jump within a day or two after Nov. 11. This reaction seems most marked among the wealthier classes.

Reports gathered by the Federal Reserve Board also show activity among wholesale houses to meet the demand of retailers. The wholesale business, however, is somewhat restricted by the desire of retail merchants to let their stocks run low, while waiting for prices to come down.

Building operations have taken a sudden start after the long enforced period of sluggishness during the war, and building materials are now beginning to flow away from former war enterprises toward peace-time building projects.

At least eight billions of dollars must be raised in the United States next year from war bonds or war savings. Officials argue that floating of these loans without corresponding saving in money and materials merely serves to inflate credit, and the practical result of this inflation is a general rise in prices.

The treasury now is seeking to develop means of continuing thrift propaganda throughout the next few years, to educate the public to the duty of paying off indebtedness before relaxing war time economy. In fact, students of economy in the treasury declare that unless the American people learn lessons of thrift which populations of England, France, Germany and other warring nations have learned during the last four years, the country will be in position during reconstruction of absorbing much more than its share of the world's available stock of food, materials and labor needed for the physical rebuilding of devastated portions of Europe.

Treasury agencies studying banks' conditions in industrial communities, particularly where war materials were manufactured, find that savings and checking accounts maintained by workmen do not have balances proportionate to their advances in wages during the war.

Annual Meeting of Provincial Red Cross — Mayor Hayes Elected President

Reports were also presented by Miss Clements, secretary; C. B. Allan, treasurer; Dr. McIntosh and Mrs. F. J. Harding for the sphagnum moss, and Mrs. F. R. Fairweather for the hospitals committee.

Lady Ashburnham read a most interesting account of the activities of the Ashburnham branch in connection with the military hospital at Fredericton, showing a splendid work accomplished there.

Miss Flewelling, supervisor of the home efficiency clubs, told of the interest these clubs had taken in the Red Cross. Officers were elected for the coming year as follows:

Patron—His Honor the Lieutenant-Governor.

President—His Worship the Mayor.

Vice-president—Allan FitzRandolph.

Organizing president—Lady Tilley.

Secretary—Miss Elsie Clements.

Treasurer—C. B. Allan.

Executive committee—Major-General H. H. McLean, M. P.; Lieut-Colonel T. G. Loggie, I. S. C.; Fredericton (Colonel) E. T. Sturdee, H. A. Powell, James H. Frink, Dr. Bourque, Moncton.

Colonel Sturdee was also elected as the fourth representative to the central council at Toronto, the other three being Lady Tilley, General McLean and C. B. Allan.

A publicity committee for the provincial branch consisting of Mrs. H. Lawrence and Miss Clements, was also appointed.

The matter of the Christmas stockings for soldiers and sailors in the military hospitals in the province was brought up, and it was decided that a stocking be provided for every man in hospital at that time.

CENTENARY MEN'S CLUB.

The Centenary Men's Club was organized last night at a meeting in the church school room and will meet fortnightly during the winter months for the purpose of social intercourse among the members, the discussion of current topics and to assist in the general welfare of the church. Preparations were made to hold an open meeting for which an attractive programme will be arranged. Notice of the meeting will be given at a later date. The officers elected were as follows: Honorary president, Rev. H. A. Goodwin; vice-president, W. A. Lockhart; treasurer, F. W. Coombs; secretary, M. G. Adams; and executive, W. E. Henry, E. B. Nixon and J. V. McLellan.

MISSIONARY SUPPER.

That the type of Christianity of pre-war days is not the Christianity to give to China and the other eastern countries and that Christians must take a more personal interest in mission work in order to get the best results, was the opinion expressed last evening by Dr. W. E. Taylor, lately of China, in a stirring address at the Mission Institute supper of the Anglican churches of the city, which was held in the vestry of Stone church.

Bishop Richardson spoke next, emphasizing especially the need of making the minimum salary of the mission clergy \$1,200 a year with an allowance of \$150 for horse hire. He made an appeal to the laity to back that suggestion up as the need was great.

NO BILLS FOUND.

In the circuit court yesterday before Mr. Justice Crocket the three cases in the criminal docket were given to the grand jury. No bills were found in the cases as follows: King vs. Frank Mc-

**Martin-Orme
Piano**

HERE are a few old hand-made violins in the world that are priceless because of their incomparable tone. They are the works of the masters. And it is just such earnest, personal, masterly planning of the sound-producing parts, which produces the rarely beautiful, sweet, singing tone of the Martin-Orme Piano. It reflects the genius of Owain Martin, inventor of the "Violoform" method of tone-production.

The sounding board, arched like a violin, is scientifically installed so as to permanently retain this arching under high tension. Like the works of the famous old craftsmen, each individual Martin-Orme Piano is carefully fashioned with true pride and sincerity. Only by taking time to make and perfect comparatively few pianos could such splendid enduring tone be achieved. It is that which elevates the Martin-Orme from the merely mechanically perfect,—to the truly artistic plane. We cordially invite inspection at our warerooms.

**Opening Night
At The Y.M.C.A.**

With a comprehensive programme of games, sports and other attractions the formal opening of the season's activities of the Y. M. C. A. took place last night and the members turned out in large numbers with their friends. On account of the recent influenza epidemic the opening had to be postponed several weeks, but the participants last evening made up for their long wait by entering all the more heartily into the evening's enjoyment.

President G. E. Barbour, of the Y. M. C. A., opened the programme at 8:30 with a brief speech. He mentioned the activities and growth of the association in the city and referred in fitting terms to those of the association who had deemed the king's khaki, many of whom had paid the supreme sacrifice for the sake of their ideals. In closing, Mr. Barbour read a letter of regret from Captain S. Stokes, Y. M. C. A. secretary, who was not able to be present on account of illness.

The members and their guests then adjourned to the gymnasium, where group games were played, after which, returning to the lobby, they were treated to an interesting address by His Worship Mayor Hayes. Mayor Hayes spoke in an interesting way of his journey around the city on Wednesday with His Excellency the Duke of Devonshire and his party.

After viewing a brisk basketball game in the gym between two pick-up teams, refreshments were served by the members of the Young Ladies' League in the lobby. An Edison phonograph, kindly loaned by W. H. Thorne & Co., was pressed into service during the evening, and Bert George entertained with several selections on the piano. After a sing-song before the open fire the gathering broke up.

Much of the success of the evening's entertainment was due to the Young Ladies' League and the social committee consisting of Messrs. McMarlane, Stephenson, Dickson and Farquhar.

**MILK COMMITTEE READY
TO PREPARE REPORT**

Commissioners Bullock and Fisher, appointed a committee by the city council to investigate whether the people of St. John were getting full value by paying fourteen cents a quart for milk, continued their hearing last night at city hall. Three witnesses were examined. W. H. Huggard, secretary, and F. E. Sharp, president of the Kings County Milk and Cream Producers' Association, attended. The former took objection to a statement made by one of the witnesses that when the producers made their recent demand for an increase, they threatened to shut off the supply if it was not paid. He said no such threat was made but that the producers had provided otherwise to get their price.

At the conclusion of the hearing Commissioner Fisher stated that he felt there was sufficient evidence now upon which to prepare a report.

Killed In Action

A Moncton despatch says that W. J. Clarke, of Cornhill, has received word that his son, Charles, was killed in action on Nov. 8. He was thirty-two years of age and enlisted in the 104th Battalion at Sussex. A brother, George, was recently severely wounded and his leg

amputated. Another brother, Herbert, is also serving overseas.

Loss Another Son.

Mr. and Mrs. Donald Glencross, of Upper Bexton, Kent county, have learned of the death of their eldest son, Alexander, of pneumonia, in a hospital in England, following wounds received in battle. Mr. Glencross enlisted in the early part of the war with the British Columbia Highlanders. This is the third son of Mr. and Mrs. Glencross, who has died in the last eight months. Robert

died in New York and James was killed in action at the front. There are still three of the family in the army.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

Information Re "Hearts of World"

Some Important Facts in Connection With Next Week's Great Cinema

Imperial Theatre has been engaged outright by the Canadian owners of the rights to exhibit "Hearts of the World" all next week, which will cause a suspension of the theatre's own programmes and policy for that period.

"Hearts of the World" cannot be appreciated as an epic of the late war until it is seen. It leaves a lasting impression and is still attracting thousands daily in New York, London and Paris as well as other important places on three continents.

D. W. Griffith, the master mind who directed this story by the noted French novelist, M. Gaston de Tolstain, had the protection of both the British and French armies thrown around his acts and actresses as they performed their parts inside the inner ring of battle and many actual conflicts were utilized as accompaniments to the telling

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

The sale of seats for "Hearts of the World" is now going on. In the afternoon the prices for the lower floor will be 60 cents and upstairs 25 cents.

"THE VOICE BETWEEN THE LEAVES"

Kiddies go into ecstasies of delight over "The Voice Between the Leaves" in the clever juvenile novelties, "Bubble Books" which, besides stories that hold children spellbound are a series of bright, pretty pictures, held, between the leaves, the song, and the voice in form a clear, distinct talking machine record.

A cordial invitation to hear the "Bubble Book" songs, and stories and examine the pictures, is extended to parents and children by the Albert Pianos, Limited, 7 Market Square.

In THE LITERARY DIGEST this week—December 7th—there is a very striking article consisting of translations from the German press showing how Germany hopes to gain big advantages when America and the Entente "start to squabble among themselves."

MAZZINI'S MESSAGE RECALLED

(Christian Science Monitor.) It was at a time of overturning and of tottering thrones on the Continent of Europe that Mazzini sent a famous message to the German people which may perhaps be remembered today in Germany. "To be free, O Germans," Mazzini wrote, "you need but remember that you were the free, the Franks! Have but one family, Democracy! Have but one name, the German Republic! In all your valleys and from hill to hill, let but one song be heard, the song of national independence, the old German Bardit, and you also shall conquer!"

MAKES DYING DEPOSITION TO EXONERATE FRIEND

Harry Short, aged seventeen, who was accidentally shot in Mrs. Lockhart's house, 445 Main street, on last Friday night, lies at the point of death in the General Public Hospital with slight hopes for his recovery. Yesterday morning Magistrate Ritchie and George A. Henderson, police clerk, visited the hospital upon request of the dying lad and took a deposition. William Dawson, his chum, in whose hands, it is alleged, the revolver was when it exploded, was present when the Short boy made his statement. It is understood the unfortunate boy attached no blame to Dawson, saying the affair was purely accidental. Dawson has been detained at police headquarters since the accident and it is said that he feels very keenly over the sad affair.

"Did Bill inherit his father's brains?"

"If he did they must be held in trust by somebody."

AS NATIVE OF ALBERT COUNTY.
Amherst News: In the death of Jas. Dixon, briefly referred to in the News a few days ago, Cumberland loses one of its most consistent and well beloved citizens. James Dixon was born at Hopewell Cape, Albert county, N. B., in 1838, the son of Mr. and Mrs. Robert Dixon, who were among the first settlers of that place. In 1869 he married his Ellen Crandall, the ceremony taking place in the Hopewell Cape Baptist church, the late Rev. Daniel C. Lawson officiating. Mrs. Dixon is a granddaughter of the late Rev. Jos. Crandall, who over 100 years ago founded what is now the First Baptist church, Amherst. In 1880 Mr. Dixon and family moved to Hastings, about six miles from Amherst, where he carried on a farm until 1910, when he retired and the Mrs. Dixon has since made his home with Rev. David W. Dixon, who has held several pastorates in Nova Scotia. In 1915 Rev. Mr. Dixon and family moved to Advocate, where he has since had the ministerial charge of the Advocate and Apple River churches. He was at his home that his father peacefully away on the 14th of November after four years of failing health. Mr. Dixon is survived by his widow, who, notwithstanding her eighty-three years, is still active and retains her full faculties; one son, Rev. David W. Dixon, and one daughter, Mrs. Gilbert B. Soldiers Still Need Comforts

The name of the Soldiers' Field Comforts Association is well known throughout the length and breadth of the land, but few who know its name fully realize the work which has been accomplished by it as it was pictured for those who had the great pleasure of being present at the Women's Canadian Club meeting in the Centenary Hall last evening.

her bearers she asked them to remember that peace was not yet, that there were still men to care for and that not until the last man had returned to Canada could the work of the association be relaxed. Mrs. G. A. Kuhring, the president of the club, was in the chair and supported on the platform by the vice-presidents, Mrs. H. A. Powell and Mrs. George McAvity, in a brief speech introduced the distinguished speaker.

DOUBLE TRACKING OF FIFTY SHIPS

Halifax, Dec. 5.—D. B. Hanna and the directors of the Canadian Northern left for St. John at 11 o'clock tonight after spending the day in looking over the terminals and after meeting the board of trade. Speaking this evening of double tracking the road, which is being urged between Halifax and Moncton, Mr. Han-

na said that this was essentially an economic operating question and it followed, therefore, if a company were to enjoy to the full the benefits of its gross income it must consider that question, not only in this province but at all other points on the system. The government's steamship programme meant, Mr. Hanna said, eventually the operating of a fleet of at least fifty ships, which will be put on as fast as completed.

WORLD PROHIBITION DECLARED CERTAIN

British Delegate to Columbus, Ohio, Meeting Says There Can be no Doubt as to Ultimate Outcome of Movement

"I am overwhelmed with the remarkable achievements of the Anti-Saloon League of America, and the Dominion Temperance Alliance," declared William Bingham, London jurist, who is one of England's two delegates to the conference on world-wide prohibition which has just closed in Columbus, Ohio. "What America has done England can and will do. The Scottish permissive bill will be operative in 1920. Under it, I am sure, many localities will vote out the liquor-traffic, and the benefits therefrom will be so great as to insure that eventually the entire kingdom will go dry."

"The close alliance between Great Britain and the United States in the war will, I am confident, bring about results in the temperance fight in our country. We shall be glad of the help of Canada and the United States in our own fight."

"There can be no doubt as to the ultimate outcome of the prohibition struggle not only in Britain but also throughout the world. The Canadians and Americans have led the way and the rest of the world will follow. The Anti-Saloon League has demonstrated its usefulness."

Canon S. A. Johnston of Birmingham, England, echoed Mr. Bingham's statement. The remarkable progress of the dry movement in the United States and the success attending league operations

the movement, it would next spread to England, thence to other civilized countries, Australia, it was pointed out, being even now nearly dry.

Robert A. Munro, a manufacturing chemist of Glasgow, Scotland, said that Scotland was sure to return a favorable vote on local option in 1920. He be-

lieved very many units would go dry, and that the temperance wave would soon spread throughout all Scotland and into England, Ireland and Wales. It was said by the visitors that a great deal of damage has been done to the liquor traffic in the United Kingdom through war legislation and restriction. It was conceded that London would offer a formidable opposition to prohibition. The British, Canadian and Mexican delegates all agreed that the Columbus conference was a splendid beginning of a great fight that sooner or later would drive the liquor traffic out of existence in the entire world. One delegate expressed the opinion that the consummation might require the efforts of fifty years, but more optimistic prophets forecast the doing away of alcoholic liquors within a score of years.

How Gray's Syrup Breaks Your Cough

In breaking up your cough and correcting the accompanying ailments, you will find that Gray's Syrup brings prompt relief in three distinct ways.

First—Immediately on taking Gray's Syrup the dry, inflammatory condition of the throat is eased. Swallowing becomes less difficult and the throat performs its natural functions in comfort.

Second—no matter how tight and dry a cough is, Gray's Syrup loosens it up. The cough rapidly diminishes under consistent treatment and does not again become distressing enough to continue to strain the throat and lung muscles.

Third—the phlegm which collects on the affected parts and clogs the tubes is quickly raised. The healing and soothing influence of Gray's Syrup coming into direct contact with the affected parts brings them back to their normal condition.

FARMERS HAVE NOT DECIDED AGAINST FORMING A PARTY

Toronto, Dec. 5.—"It is not in our platform that we are going to organize a party," said Mr. R. H. Helbert, president of the United Farmers of Ontario, on his return to Toronto today from a western Ontario trip. "The statement to the contrary made by some newspapers in reporting the recent Winnipeg convention was incorrect; there was only a recommendation made to that effect. The farmers of Ontario have not yet accepted the platform of the Winnipeg convention. It will be submitted to them and debated clause by clause at the coming convention in Toronto."
