ed defeat of Cossacks at Aiyangpien-men was the only news and almost the lute military equality of the Japanese Japan only topic of conversation in St. Petersburg last night. No official dispatches were given out last evening, but officers at military headquarters were reluctant at limitary meadquares dispatches.
They think it possible that the Japanese met General Mistchenko's command, which recently has been raiding in Korea. It is formed of comparatively raw recruits, though now tolerably hardened by three months' campaigning. It is conceivable that they might have been defeated, but not Rennenkamp's force, patrolling the Aiyang region, who are veterans of that old command which more serious reverse at Kinchou. A semi-official telegram from Mukden, dated to-day, says that owing to the impossibility of defending the position southward at Kinchou without the aid of the fleet the Russian defence at that

point was only of a demonstrative character. The defending force was armed with guns taken from the Chinese in 1900, and had little ammunition. The occupation of the position by the Japanese at a great cost to themselves does

St. Petersburg, June 1 .- The war office has received reports showing that the Japanese are falling back from Siuyen, southwest of Feng Huang Oheng, and in the meanwhile advancing on Saimatsza, almost due north of Feng Huang Cheng. Both movements are taken to indicate the continued desire of the Japanese to screen the operations be fore Port Arthur.

There is not the slightest foundation for the report that the Russians wil abandon their positions east of Haicheng. As regards the operations north of Feng Huang Cheng, the Cossacks have retired from Saimatsza with the additional loss of two officers and seven men wounded. Saimatza is now held by

a strong Japanese garrison. A dispatch from Kaichau, Liao Tung peninsula, dated June 1st, says: "A Russian who was wounded in the fight at the station near Vagenfuchu, May 30th, says that General Samsonoff attacked the Japanese near the railroad, a mile from Vagenfuchu station. The following dispatch from Viceroy Alexieff to the Emperor, dated May 31st, has been received: "Rear-Admirals Witsoeff and Gregoritch report that up to May 28th numerous Japanese mines had been discovered and exploded in the roadstead of Port Arthur. The Japanese evidently have replaced the fire ships, which they formerly used, by mines sown by merchant steamers in

their service. General Sakahoff has telegraphed as follows under to-day's date to the general staff: "According to the reports the Japanese commander in the action of May 30th near Vagenfuchu had three battalions of infantry in reserve. Our losses were 17 men killed and 23 wounded, and Lieut, Meyer and another officer, whose name has not been ascertained, wounded. The Japanese losses were very considerable. One squadron of the Thirteenth Japanese cavalry was annihilated in a hand-to-hand encounter, and another squadron, which came to its assistance, suffered great loss from the fire of our frontier guards and riflemen. APPEAL TO BANDIT LEADER. Chiefs of Tribes Seek to Persuade Raisuli to Release Messrs. Perdicarls and Varley.

Tangler, June 2 .- The Italian third-class cruiser Dogalt arrived here this morning.

A delegation of chiefs of the Angerra tribes has left her to make a personal appeal to Raisuli, the bandit, to release Messrs. Perdicaris and Varley "in order to prevent the debarkment and permanen occupation of Morocco by foreigners op-posing the Moslem faith, and the expulsion

of native Mohammedans."

This mission is considered important, as the Mohammedan chiefs unite in appealing to Raisuil not to endanger their religious supremacy in Morocco. The French government relies much upon the appeal to Mohammedan sentiment.

The natives are greatly excited by the arrival of so many foreign warships. They call all foreigners "Roumis," meaning infidels, and they fear the "Roumis" are about to make a united effort to drive out those who are of the Mohammedan faith. FATAL WALKING MATCH.

WEAK STOMACHS MADE STRONG

Some of the worst cases of stomach troubles on record have been cured by Nerviline, which restores this important organ to a healthy condition in a short time.

If you suffer from indigestion or a distressed feeling after meals; if you are subject to headache or billiousness, there is no medicine for your trouble that compares with Nerviline.

Polson's Nerviline

The reason NERVILINE is so good in stomach troubles is because it sweetens the stomach and strengthens its muscles and nerves so it can do its work properly.

Many of the country's de-fences were stated to be quite imperfect, and money belonging to the public has ted by those to whom imundertakings had been entrusted. According to one intelligent Japanese passenger, the machine guns used by the Japanese were specially constructed for the purpose of meeting the Cossacks. When the Jap read in a local paper of the repulses of the latter at Aiyang, he at once attributed them to the effectiveness of this weapon. The gun, he says, can be moved readily by hand in the field, and long before the war began men were secretly trained in the use of it. "Searchlights were then put out and the Russian war vessels faded away in the dark. It was 2 a.m. The skies cleared up soon after and the moon shone orightly. We followed the course of the latter westwards until it sank below the horizon. It was now near dawn, but very dark. We did not know in which direction we were going, and had to wait for the morning, in the meantime allowing the boat to drift. The morning ame, but we could not see the sun, owing to a dense fog, until 9 o'clock, when the direction became clear. We rowed with all our strength, but the fog became more and more dense, nothing be-

When we answered in the affirmative he began descend the hill, with rifle in hand. This was rather unexpected and we stopped. But the man told us not to be afraid, for he was a Japanese soldier, who had escaped from the Kinshu Maru. We congratulated one another on our afety. He also informed us that 37 soliders from the Kinshu Maru had anded on the island and were sheltered

KEEN COMPETITIONS LARGE ATTENDANCE

Some Features of the Programme - A Lengthy and Varied List of Events.

Wednesday was a gala day in naya ircles. In the afternoon the officers and nen from the ships in port gathered on the Canteen grounds, where a lengthy (Grafton). and varied programme of field sports was carried through with signal success. The elebration was terminated in the evening by a grand naval boxing tournament at the Philharmonic hall, the principal event being a contest between Wood-ward, of H. M. S. Grafton, and Roberts, of the Shearwater, for the lightweight championship of the fleet. Although the lasted only four, when Woodward threw up the sponge and his opponents was aunounced the victor.

attracted the greater attention. The weather was ideal, and a large number of Victorians were in attendance to witness the prowess of the sailors as athletes. Careful preparations had been made by those in charge, and it would be difficult to adequately describe the pic-ture presented at the grounds. Streamers of flags were stretched from end to end, and gaily fluttered in the gentle eeze, which served to temper the heat of the sun. Bunting had been used in profusion, and the pavilions erected in the centre of a temporary race track were enter into the spirit of the occasion.

Numerous side-attractions were also

in evidence. Scattered about the grounds were goats gaily decorated with flags, and bearing on their heads the name of the war vessels stationed at Esquimalt. They appeared quite oblivious to the noise of the crowd, and submitted to the aresses of the children who surrounded them with good grace. Probably the most interesting specimen of the ship's menagerie, however, was the bear "Jim," the favorite pet of the crew of H. M.S. Grafton. He was paraded before the admiring throng in all the glory of holiday attire, led by an attendant no less fantastically dressed. Bruin was not at all embarrassed on being the cynosure of all eyes, and appeared to be as tame as a well-domesticated cat, He object-ed, however, to take part in any race with other pets, and was consequently

scratched at the start. Every event on the programme was appreciated, judging by the liberal applause which greeted the victorious contestant. Punctually at 2.30 o'clock the officers arrived on the field, and the sport was commenced, the first race be ing announced by a fanfare of, bugles

Undoubtedly the most interesting of all the races was the obstacle event. aggregation selected from the crew of the Bonaventure, a hundred yard dash, open to officers, and the ladies' and officers' race were, perhaps, the other most notable features of the programme. The winners in each of these events were accorded an enthusiastic ovation.

At about 4 o'clock the invited guests

were entertained by the officers to re-freshments. This, needless to say, was an unqualified success, the delicacies provided being all that could be desired. Messman Steinhausen catered, and the service was exceedingly creditable, When the result of the last event had Goodrich, wife of Commodore Goodrich receive the awards they were the recipi ents of a few graceful complimentary remarks. SAYS THAT CITY

CAN TAKE WATER FROM GOLDSTREAM RIVER

Solicitor Advises That the Municipality Takes Precedence-Over Private Corporation.

An important report was submitted by the city solicitor at Monday's meeting of the council. In effect it was that the Shawnigan Lake Lumber Company for city had the right to take water from the Goldstream river and lakes, as the Esquimalt Water Works Company only get their right to this water subject to the city's prior rights. This was the most interesting item of business on the order paper. The meeting was unusually brief, terminating at 9 o'clock.

The city solicitor's report referred to

on the question submitted to me as to the legal position of the council as regards the street and Birdcage Walk, was also cartaking of water from Goldstream river and their statutory powers for obtaining a sup-tied as well as the motion of Ald. Grahame for a sidewalk on the south ply of water for the city, as follows: On the 21st February, 1873, an act was passed giving to the city of Victoria the

right to take water from all springs, streams, lakes or bodies of water situate amended in 1881 and again in 1892, but should be constructed farther in town, Within 20 miles of the city. This act was nothing has impaired the rights granted. The distance of 20 miles has, according to a well known rule of law, to be measured from the city limit in a straight line as if on a horizontal plane. The passing of this statute amounts to a record of all the ter. water within a distance of 20 miles of the limits of the city of Victoria.

The Esquimalt Waterworks Company ob-

tained a statute in the year 1885, and the right sought in that statute was to take water from Thetis lake and Deadman's river and its tributaries; whether this act was opposed by the corporation of the city of Victoria at the time or not does not appear. The waters dealt with were waters rights were "subject to any grant of rights, received until noon on the first day of Magoon is the best fruit for this water Clauses Consolidation Act deals with unrecorded water. These words are defined as meaning "fall water which for the time being is not held under and used in accordance with a record under this act or under the acts repealed hereby or under special grant by public or private act, and shall include all water for the time being unappropriated or unoccupied or not used for a beneficial nurses." In considering the Esquimalt Company's Amendment Act of 1892, and the City of Victoria Waterworks Act as amended 1892, it would seem that the effect of the Not Enough Evidence Against Him-Har statute is to give to each corporation the right to take water within the district named, Goldstream, Malahat and Highland

This, we regret to state, has been due in nearly co-operation by the friends and neighbors of those it was hoped to benefit., We have known, and even now are aware, of several cases where children are being brought up exposed to influences and example that will in all probability result disastrously to city of Victoria, and would prevail if this corporation desires to exercise its statutory rights.

AMBIGUOUS PLEA

Given in Police Court Tuesday Morning-Neighbors' Row Settled.

Tuesday's session of the police court was very brief: The prisoners' box was adorned by one culprit, a very jovial one for a certainty. He was charged with drunkenness, and when the stereotyped query was propounded to him he smiled cheerfu'ly and comprehensively and remarked: "Well, Your Honor, I admit I was drunk when the constable arrested me, I was none the worse for liquor."

This was surely extraordinary and easily fathomed. If the offender, whose name is Carew, was none the worse for liquor when the constable gathered him in he could not have been laid low by firewater. And yet it was hardly conceivable that the prisoner who had twice graced the prisoners' box would succumb so readily to soot liquid refreshments. Furthermore it was quite evident from his manner that he did not intend to convey the impression that he was literally "none the worse for liquor." The magistrate was puzzled, and not wishing to draw uncomplimentary inferences asked the debonnair occupant of the box what he meant. "Well. Your light of the box what he meant." Well. Your light of the box what he meant. "Well. Your light of the box what he meant." Well. Your light of the box what he meant. "Well. Your light of the box what he meant." Well.
