BOARD OF TRADE ELECTS OFFICERS

Annual Meeting Held Friday Evening Largely Attended.
—Steamship Matters

The annual meeting of the Campbellton Board of Trade was held in the Council Chamber Friday evening, Jan. 22nd, and was largely attended. President D. Murray, M. D., presiding. The election of officers, which created considerable interest was the first business taken up and resulted as follows:—
President—F. E. Blackhall.
Vice-Pres.—A. Martin, M. D.
Sec.-Treas.—John T. Reid.
Council—
W. F. Napier, R. K. Shives, P. M. Shannon, A. T. LeBlanc, Geo. St. Onge, D. Richards, A. C. Belle-Isle, John Harquail.
A vote of thanks was passed to Dr. Murray, the retiring president. The steamship service between Campbellton and Gaspe has been occupying the attention of the Board for some time. A committee was appointed at a previous meeting to get information on this matter, and this committee had sent out circulars to the business firms doing business along the route. Many replies had been received and all with the exception of one or two had condemned the service as rendered last season, and were in favor of going back to the twice a week service between Campbellton and Gaspe.
The committee, which is composed of Messrs. John Harquail, P. M. Shannon and F. M. Anderson, were authorized to have a strong memorial drafted and sent to the Department of Trade and Commerce, and to the county representatives and Mr. W. S. Montgomery.
After passing a number of accounts, the meeting adjourned.

SUCCESSFUL WORK OF RED CROSS COM.

Afternoon Tea and Sale Held Last Thursday is Well Attended. Results of Bean Contest

The afternoon tea, and supper and guessing contest last Friday, in aid of the Red Cross Work, proved a decided success, and the ladies in charge are to be congratulated on the handsome sum realized, which amounted to \$68.11.
For those who were interested in the guessing contest the correct number of beans in the large jar was 9648. Miss Margaret Gallagher was the lucky winner, carrying off the beautiful mahogany tray. Her guess being the nearest, 9740.
The prize for the small jar, which contained 1366, a lovely picture, donated by Mrs. Jas. W. Morton, was a tie between Mrs. J. H. Taylor and George Albert Russell, their guesses being the nearest, 1350.
It is the purpose of the committee to give more of these teas, and other ladies will be asked to take their turn to take charge.
The ladies wish specially to thank Mr. Peter Blyth and Mr. John T. Reid for their kind assistance in decorating and felt particularly pleased to have so many gentlemen for afternoon tea and supper.
A vote of thanks is also due the young ladies who volunteered to keep the room open and serve lunch after the closing of the rink.
More active workers are needed in this great work. It is the purpose of the committee to send a consignment of goods about the 1st of March, and ladies who have not already taken in hand with this work are requested to call at the rooms where work can be given them for doing at home. It will never do for us to lag behind other towns and we should strive to foster a spirit of emulation and do even at the women in other towns.—It is your duty to work.—You have nothing to do with your next door neighbor, let them look out for themselves.
"Act, well your part, There all the honor lies."
CURLING NOTES
Owing to the many deflections this year in the ranks of the single curlers, caused by reason of the war, matrimony and other evils, the Bachelor curlers are now facing a heavy defeat at the hands of the married men in this years series of games. The M. M. are now 25 points ahead with only one game to play, so it would appear as if the Bachelors will have to dig deep in the pockets and shell out the price of the oysters.
There is much rejoicing in the ranks of the M. M. this year as it is some considerable time since they had the privilege of eating off the Bachelors. An extra course of Turkey has been ordered and a special brand of cigars, not to speak of the change of the brand of Aqua.
The games for the Presidents Medals are now being run off, one game having been played.

ANNIVERSARY OF POPULAR PASTOR

Rev. E. P. Wallace Celebrates His Twenty Fifth Anniversary of Ordination

Tuesday, January 26th, was a red letter day among our Roman Catholic brethren, marking as it did the twenty fifth anniversary of the Rev. Fr. Wallace's ordination to the priesthood.
Rev. E. P. Wallace was ordained priest on January 26th, 1890, and was appointed pastor of the Church of Our Lady of Snows in September 1894, succeeding Rev. Fr. MacDonald, so that nearly 22 years of his priesthood have been spent in Campbellton. Many changes have taken place during the years that the Rev. Father has been in charge of this parish. At the time of his appointment the little church that the congregation worshipped in had a seating capacity of about three hundred, and although a school and hospital were in operation, the property was heavily burdened with debt. During the course of the years under the present pastor the church was enlarged to double the seating capacity, and the debt on the hospital was cleared off. In July 1908 the corner-stone of a large and splendidly equipped hospital was laid, the prop-

REV. E. P. WALLACE

erty representing an expenditure of \$30,000, but this in common with the rest of the town was swept away in the great conflagration of 1910. At a conservative estimate it is computed that property to the value of \$75,000, belonging to the congregation was destroyed at that time.
Undaunted by this great reverse, Father Wallace, supported by the loyal help of his people replaced the church with a temporary building, and rebuilt the present hospital and school. So well was the work arranged that those in charge were enabled to carry on the services of the Hospital, the school and the church almost without intermission.
The next important movement affecting the welfare of the parish was the procuring of the present church site at the corner of Central and Patterson Streets, including the present presbytery and outbuildings, involving an outlay of upwards of \$15,000. This site is one of the best in town for the purpose of erecting a church, overlooking the river get being in the heart of the town. Owing to the present unsettled business conditions, nothing has been definitely agreed upon as to the construction of an edifice, adequate to the requirements of the parish at the present date.
To meet the growing needs of this large parish the same services are held twice each Sunday, and this considering the need of two languages entails an immense amount of work and labour on the part of the incumbent, hence the enthusiasm with which this spontaneous movement to celebrate the 25th anniversary of this popular pastor and preacher was taken up.
At ten o'clock on Tuesday morning Solemn High Mass was celebrated at the church before a crowded congregation. The Rev. jubilarian was the celebrant and he was assisted by Rev. Fr. Sormany of Robertsville, a former classmate and dear friend, as Deacon, and Rev. Fr. M. J. Wallace of Louisburg, C. B. a brother of the pastors, as Sub-Deacon. The masters of ceremonies were Rev. Jos. Cormier, formerly of Campbellton now of Douglas-town, and Rev. R. Hawkes of Bathurst. His Lordship Bishop O'Leary, Auxiliary of Chatham, assisted in the Sanctuary, the following clergymen also participating in the celebration, Rev. A. A. Boucher of Dalhousie, Rev. Mary le Beuve, Superior of Carquet College, Rev. Fr. Finnegan of St. Thomas' College, Chatham, Rev. Fr. Pacificque, O. M. C. of St. Anne de Restigouche, Rev. Fr. Crumley of Blackville, Rev. E. S. Murdoch of Renous, Rev. Benedict Murdoch of Chatham, Rev. Fr. Robit and of Charlo, Rev. Fr. Whetton of Bathurst, Rev. Fr. Conway of Edmundston, Rev. Fr. Lantagne of Shives Athol, and Rev. L. J. Gede of St. Alexis.
English and French sermons were delivered by Rev. Fr. McLaughlin of Richibucto, and Rev. Fr. Boucher of (Continued on page four)

TURKISH INVASION OF EGYPT HAS BEGUN

German Survivors Say Kolberg Was Sunk as Well as Blucher. Air Craft Mistake

(Special to Graphic)
London, Jan. 28th.—The Turkish invasion of Egypt has begun. An engagement was fought on Tuesday, the place not mentioned and the Turks were driven back.
An official report was given out in Paris of a fierce sudden attack by the Germans on Tuesday night to the North east of Soissons. The Germans after a violent fusillade exploded a number of mines, destroying the Allies trenches. The enemy gained a foothold at LeCreute, but the French advanced at other points making satisfactory gains.
London, Jan. 28th.—German survivors of Sunday's battle arriving here say that the cruiser Kolberg was sunk along with the Blucher. The statement is also made that German air-craft mistook the sinking Blucher for a British ship and dropped bombs on her. This may account for the German report that one British vessel was sunk.
When sighted by Vice-Admiral Beatty's squadron, the enemy's ships were only thirty miles from the English coast.
London, Jan. 28th.—Negotiations were today concluded whereby Roumania borrows \$25,000,000 from England.
A confirmation of the recent forecasts that the Canadian parliament will be asked to agree to a war vote of \$1,000,000,000 at next session of parliament was made by Sir Geo. E. Foster at the Canadian Club, Montreal yesterday.
The Germans made a fierce effort near Soissons and gained some ground at great sacrifice of life, on the other hand the allies make corresponding gains winning ground from the Germans.
Petrograd reports minor successes over Germans and Turks, but no decisive engagement.

LIQUOR STORE IS BURGLARIZED HERE

N. Bernatchez's Store Broken Into Early Wednesday Morning. Goods and Cash Stolen

Early on Wednesday morning the wholesale liquor store of Mr. N. Bernatchez on Water Street was broken into and a quantity of liquor as well as cash stolen.
The thieves gained entrance by smashing the plate glass in the front door, and made a choice selection of four or five cases of gin, scotch whiskey, brandy and champagne, as well as ransacking the register and removing about \$18 in cash.
Information was conveyed to the police and yesterday afternoon they arrested two men on the charge of breaking and entering. A quantity of the liquor was found at the homes of the two men involved, and they appeared this morning before Police Judge Matheson, when the case was adjourned till tomorrow.

MUNICIPAL CONTRIBUTIONS

As will be seen from the reports of the County Council published in these pages, the Municipality of Restigouche has done splendidly in the matter of contributions to the Patriotic and to the Belgian Relief Funds.

The vote of \$250 per month to the Patriotic Fund marks the County Council as being fully alive to the necessities of the times, and should claim a high place in the honors in this province if not in the dominion. Very few public bodies or municipalities have made a grant of this size which means a contribution of \$3000 to the Patriotic Fund and \$1000 to the Belgian Relief Fund.

Restigouche can hold up her head among all the nations as having done her part and done it well, first in the number of volunteers, and the generous response to the various appeals, and now in the handsome donation from the County Council. No wonder we can step high.

STEAMSHIP SERVICE

Owing to the unsatisfactory conditions obtaining last year in the Gaspe service it behoves all the interested parties along the Bay Chaleur route to get in line with the purpose of the Campbellton Board of Trade, and insist upon having at least some kind of satisfactory service.

The request of the company to institute an extra service from Montreal should be fought strongly and efforts brought to bear to re-instate the former bi-weekly service from Campbellton to Gaspe. The Board of Trade, and the merchants here would gladly see the increased subsidy given for a service the same as in previous years, but they in company with the business men of the Gaspe coast will use every endeavour even to a delegation to Ottawa, to see that this Montreal end of the sailing is cut out. The subsidy was granted in past years for a service from Campbellton to Gaspe, and there has not transpired anything to change this rule laid down. This matter ought to receive the earnest consideration of every business man along the coast.

MASONIC MATTERS

At Monday evening's meeting of Lodge No. 52 F. and A. M., the District Deputy Master will make his official visitation. It is earnestly desired that every member of the lodge make an endeavour to be present, and the officers are requested to be early in their places on that evening. Refreshments will be served.

OBITUARIES

MRS. MATILDA MacNUTT

It was with deep regret that the news was received of the death of Mrs. Matilda MacNutt who died on Saturday morning at her home on Sugarloaf Street.

The deceased had been ailing for the last two years, but had been confined to the house for nearly three months. FOOLISH TO SUFFER FROM STOMACH ILLS

What's the use of suffering from heart burn and the other disagreeable things caused by Dyspepsia and Indigestion, when we offer you the privilege of using Rexall Dyspepsia Tablets entirely at our risk, with the distinct understanding that, if they don't relieve your stomach trouble and make your stomach comfortable and your digestion easy, they will cost you nothing. If they don't do all you expect them to, we want you to tell us and let us give back your money. We know what they have done for others, and what they are made of. That is why we have confidence in them.

Among other things, they contain Pepsin and Bismuth, two of the greatest digestive aids known to medical science. They soothe and comfort the stomach, relieve heartburn and distress, promote the secretion of gastric juice and help make the bowels regular. We believe them to be by all odds the best remedy for indigestion or dyspepsia ever made. We believe you will say so, too, once you have used them. If you don't, they will cost you nothing. Sold only at the more than 7,000 Rexall Stores, and in this town only at our store. Three sizes, 25c, 50c and \$1.00. Thos. Wren, druggist.

THE DEATH OF AGED CAMPBELLTON LADY

Miss Mary Bucknerfield Passes Away on Tuesday.—Funeral Held Today

On Tuesday morning there passed away at the home of Mrs. Barbara Wellington Street, one of Campbellton's highly respected and aged ladies in the person of Miss Mary Bucknerfield, who was in her 88th year. The deceased lady, who was much of an invalid following an accident met with some years ago, when coming out of church, retained all her faculties almost up to the hour of her death.

Miss Bucknerfield was born in England and came to Canada when eleven years old, and has resided here for nearly fifty years, coming to Campbellton with the late Oliver Arnold Barbaree as governess to his family, when he was appointed the first government agent here.

She was the first Sunday school teacher in Campbellton and was a past president of the Women's Auxiliary of the Church of England, and two years ago in recognition of her services was made a life member of the Women's Auxiliary of the Church of England in Canada.

Miss Bucknerfield was a staunch member of the Church of England, and was a highly educated lady and a great student.

The funeral was held today a large number of mourners being present. Services were conducted at the home of Mrs. Barbara, and later the church service was held in Christ church, both services being conducted by Rev. J. Purdie. Interment was made in Campbellton Rural Cemetery, the pall-bearers being Messrs. Thos. Wren, J. H. Wilson, W. F. Napier, Alfred Fraser, Thos. R. Busted and A. A. Andrew.

BATHURST STILL COCK OF THE WALK

Defeat Truro Last Night at Bathurst by 29 Points in Mc-Lellan Cup Game

Three rinks of Truro curlers played Bathurst on Wednesday for the Mc-Lellan Cup. One of the Truro rinks was able to score against their opponents, but the other two received a severe drubbing.

In the afternoon Stout for Bathurst went up against Matthews of Truro and finished with a lead of ten points, the score being 26 to 16.

In the evening Thibideau, the Bathurst "Heavy Big Chief" scored a most wonderful victory over Cox, keeping the latter's score down to 4, while he climbed to 26. It was all the result of magnificent curling. There were no very bad plays, no unusually good plays, and except for the very last end, no flukes, and no luck. It was just a question of the superiority of the Bathurst men at the game.

Mullins was ousted against the famous Temple, and it is considered that he did splendid work when he finished no more than three points behind his opponent.

The score follows:—

AGRICULTURAL CONFERENCE

SHARE IN THE WAR

The great demoralization of agriculture in Europe imperils the food supply of the British Empire and the Allies and makes it essential that the Dominions across the seas should increase their agricultural production in an effort to maintain the vast quantities of food supplies needed to ensure the ultimate victory of the Allies.

To this end the Dominion Government has arranged a series of Agricultural Conferences, to be held throughout Canada, to explain and discuss conditions in countries where livestock and agricultural production have been and will be affected by the war.

Agricultural specialists have been making a study of agricultural production throughout the world and are now prepared to place information before the farming community that will be of value to each and every farmer and to business men generally.

The duty and the opportunity of Canadian farmers to increase the aid and assistance which they have already given to the Empire in this war will be discussed by able speakers.

The call for Canadian farmers to attend these Agricultural Conferences comes to them from the Government of Canada, but, more than that, it comes to them from the entire British Empire. It is their duty, if at all possible, to attend the meeting in their district and to do everything in their power to assist in bringing about the object for which it is being held.

RESTIGOUCHE MAKES GENEROUS PATRIOTIC CONTRIBUTIONS

Municipal Council Votes \$250.00 Per Month For One Year or Until Close of War.

\$1000 FOR BELGIAN RELIEF

(Continued from last week)
Thursday morning
The council was called to order at 10 a. m., all the councillors being present.
Coun. Murchie moved the following resolution:—

Whereas considerable confusion has arisen in the Parish of Durham regarding the assessing and collection of rates in the said Parish for the year 1914, occasioned by the appointment of two sets of assessors and collectors, whereby in some cases ratepayers have paid rates to two collectors and some have paid more than they are entitled to pay.

And whereas it is desirable that matters on that behalf be adjusted and also that a special effort be made to collect the arrears of rates in said Parish.

Therefore resolved that the list of defaulters be placed in the hands of a Justice of the Peace for the County of Restigouche residing in said Parish to be named by the Councillors for the Parish and that the matter of adjusting the said rates be referred to said Justice and the Councillors of the Parish, who shall have power to refund to said ratepayers as have paid said rates twice who have overpaid their rates for 1914 any moneys due them in that behalf, the same to be paid out of any arrears of rates which may be collected by said Justice. In case the money collected by said Justice shall not be sufficient, then the said Justice and Councillors shall certify to the Secretary-Treasurer the names of the ratepayers to whom said moneys are payable and the amount due each, whereupon the Secretary-Treasurer is empowered and directed to pay the same. Any ratepayer who shall have underpaid said rates shall be credited for the amount paid to either of said collectors for the Parish and remain liable for the balance. The said Justice and Councillors shall present a complete report and statement of their action in this behalf to the Council in its next July session, provided always that so far as the collection of arrears of rates is concerned anything done along that line must be done between the present term and the twenty-fifth day of March next, and a statement of all such collections shall be furnished to the Assessors in order that they may be informed as to who continue to be defaulters to be entered in the assessment lists as such. Carried unanimously.

On motion of Coun. Dickie the Poor Commissioners were given an increase of pay as follows: Chairman to receive \$10.00 and Commissioners \$5.00.

The matter of the taking of Smith Lake property in the parish of Dalhousie, owned by the town of Campbellton was brought to the attention of the Council.

Coun. Alexander moved the amount of \$140.00 Poor and County rates and 40c Road tax now appearing on the Assessment roll of District No. 1, Parish of Dalhousie be struck off and that in future the Assessors of the different parishes of the county be instructed that any property of the Town of Campbellton lying within their Parishes for town purposes is not to be assessed. Carried.

The Public Lands and Building committee was given authority to have the Record Office put into proper condition, a new desk provided and a telephone installed.

Moved by Coun. Arsenau that Public Lands and Building Committee be authorized to have court room floor painted, Council Chamber and committee rooms renovated and stoves, pipes, etc. repaired.

The Auditor was voted \$25.00 for extra work during year in reference to Record Office.

Coun. Firth moved that the Revisors be paid \$40.00 instead of \$26.00 as formerly. Carried.

The lists of Parish officers as agreed to by the councillors from the different Parishes were passed.

On motion of Coun. Arsenau the lumber surveyors appointed be surveyors for the county. Carried.

The council then went into committee of the whole to consider the granting of funds to the Patriotic and Belgian Relief funds.

Moved by Coun. Harquail, seconded by Coun. Peters that the Secretary-Treasurer be authorized and he is hereby authorized to pay \$250.00 per month, commencing on the 1st of January, to the county treasurer of the Patriotic Fund, provided the war is not terminated sooner, and \$1000 to the Provincial Treasurer of the Belgium Fund as soon as legislation is obtained making it legal for him to do so. Carried unanimously.

Council adjourned until 10 a. m. Friday.

Friday morning.
Council called to order at 9 a. m. All present.

On account of increased work during the past year, the Sec.-Treas. was voted \$30.00 extra.

The Assessment Committee recommended an assessment of \$18,277.82 for all purposes.

This is an increase of about 25 per cent over last year, but is accounted for chiefly by the grants to the Patriotic and Belgium Relief funds.

The matter of the poor steamship service between Campbellton and Dalhousie to Gaspe coast points was taken up and after discussion the following resolution was passed:—

Moved by Coun. Peters, seconded by Coun. Bernard that Couns. Harquail, Montgomery and the Warden be appointed a committee to frame a proper resolution re the summer boat service on the Gaspe coast, expressing this Council's disapproval of the present service to Montreal and recommending the entering into a contract or amending their present contract so as to get a direct semi-weekly service between Gaspe and Campbellton, and that the Warden and Secretary-Treas. be authorized to sign same when so framed by the committee. Carried.

It was decided that Restigouche would no longer belong to the Union of N. B. Municipalities and no fee was voted.

After other routine business the council adjourned sine die.

DOUGLAS WILLIAMSON

(From the Gloucester Northern Light)
While returning from a trip down the coast last Thursday with A. J. H. Stewart, M.L.A. for a passenger, Douglas Williamson had the misfortune to lose his automobile by fire.

The car was making record time on the smooth icy surface of the road near Bass River Bridge, when Mr. Stewart discovered that it was ablaze underneath, and it was only a short time after that nothing was left of the car but a mass of twisted metal. It is understood that the machine was insured for an amount that will nearly cover the loss; although Douglas feels that he will have a hard time securing another engine that will be as satisfactory as the one destroyed.

A REAL NERVE AND BODY-BUILDING MEDICINE

We believe Rexall Olive Oil Emulsion is the best remedy made for toning the nerves, enriching the blood, building up wasted tissues, renewing health, strength and energy—the best medicine you can use if you are run-down, tired out, nervous and debilitated, no matter what the cause. It doesn't depend for its good effect upon alcohol or habit-forming drugs, because it contains none. It may not make you feel better in a few hours, but it will make you feel better, and through the blood, into the rest of the system. Pure Olive Oil and the Hypophosphites have long been endorsed by successful physicians, but here, for the first time, they are put into one preparation which, as a nerve-food and a builder of strength and health, we believe, has no equal.

If you don't feel well, begin taking Rexall Olive Oil Emulsion today, and build your health and strengthen your system against more serious illness. To convalescents, old people, puny children and all others who are weak, run-down or ailing, we offer Rexall Olive Oil Emulsion with our personal promise that, if it doesn't make you well and strong again, it will cost you nothing. If we didn't have the utmost faith in it, we wouldn't offer it with this guarantee, nor even recommend it to you. We are sure that once you have used it you will recommend it to your friends, and thank us for having recommended it to you. Sold only at the more than 7,000 Rexall Stores, and in this town only by Dr. \$1.00.

Thos. Wran, druggist.

CANADIAN EXPRESS CO.

ABOUT TO CELEBRATE FIFTIETH ANNIVERSARY

Within a few days, the Canadian Express Company as such, will celebrate its fiftieth anniversary, letters patent having been granted to the forwarding company under this name by the Federal Government early in February, 1865. The original name of the company was the British American Express, established in the early '50's, when it operated stage lines during the winter months, supplementing these with steamboat connections during the months when water navigation was possible.

The Canadian Express is therefore actually older than the Grand Trunk Railway System, on which it operates to-day, although the Grand Trunk was the second railway opened on this continent. As early as 1858 a branch office had been opened in Liverpool, and for many years this was the only express company with headquarters in America having offices in Great Britain. To-day, with European head-

WOOD ASHES AS A POTASSIC FERTILIZER

The ashes of wood have long been recognized as a fertilizer of very considerable value, indeed their use in agriculture is historic. In all countries, including Canada, practicing agriculturists have been highly prized, especially for clover, grapes and fruit trees and leafy crops generally, on sandy and light loams and it was only with the advent of the German potash salts that their use fell off, though, of course, their production in decreasing quantities of late years, owing to the disappearance of our forests, has been an important factor in making it more and more difficult for the farmer in the older settled districts to obtain them.

They are essentially a potassic fertilizer, ashes of good quality, that is, dry, unmixing with sand, etc., and un-leached, containing between 4 per cent and 6½ per cent potash—the average potash content being about 5½ per cent. This potash is in a soluble form and is immediately available for crop use; moreover the writer considers that it exists in these ashes in a condition (the carbonate) much more favourable for the nutrition of plants than that in the German compounds and should be worth at least 1 cent there per pound more than in the latter. There is in fact no better potassic fertilizer.

In addition to their potash they contain some 2 per cent phosphoric acid and from 20 to 30 per cent carbonate of lime, enhancing their fertilizing value and making them, in a sense, an all-round fertilizer required by crops. And, further, their correct acidity, a condition detrimental to the thrif of most farm crops. The German potash salts are of no value for neutralizing acidity.

Naturally, genuine wood ashes are somewhat variable in composition, depending partly on the nature of the wood producing them and partly on the care with which they have been collected and stored. Willful adulteration of a gross character has been occasionally detected in commercial samples. In addition of sand and other inert matter and leaching by being the most common forms of adulteration.

There is a general belief that ashes from hardwoods, as a class, are richer in potash than those from soft woods but our analyses scarcely confirm this impression. As might be expected, woods differ very considerably in their potash content and the ashes of twigs and boughs are much richer than those of trunk woods. Pine and other soft woods as a rule contain less ash than the hardwoods and are much lighter in character and it is this latter quality or property we think that has given rise to the common belief. This is not according to our results we can not find that weigh for weight the ashes of soft wood are much, if any, poorer than those from hard woods.

Our advice in these times must, therefore, be to conserve more carefully the home source of potash, not merely collecting the ashes from the house stoves but burning such brush piles, old roots, etc., as may result from the clearing of land, pruning of orchards, etc., and saving the resulting ashes. Storage in a shed or receptacle protected from the weather is essential to prevent deterioration.

From 25 to 50 bushels of wood ashes will furnish from 60 to 120 pounds of potash, the latter an ample dressing for every very light soils. They are no needed on heavy clay loams, indeed their use on such may destroy good tilth and do more harm than good. Their application is best deferred till spring, broadcasting, preferably on a quiet damp day, on the ploughed land and incorporating with a thorough harrowing.

For clover, corn and mangels, they will be found very valuable. Especially are they beneficial for orchards and for grapes on sandy loams. For turnips, mixed with one-third to one-half their weight of bone meal, they have similarly proved advantageous. But indeed there are few crops on light and gravelly soils, as also on vegetable loams, inclined to be sour, for which wood ashes cannot be employed with profit.

THINKING OF OTHERS

By Mrs. F. E. Blackhall.

Read at the W. C. T. U. meeting, Jan. 12th, 1915.

A wonderful subject with unlimited possibilities and with a world wide scope. We have only to look through the pages of history to understand how it has inspired men and women through all the ages. It is both a national and individual characteristic. For centuries it has been a constant source of dispute among logicians and psychologists whether it is possible to think without the aid of language. However, we need not be seriously concerned with this argument, as we have one of the most versatile of languages to aid us. Capel Loft, says: in his curious book on self-formation, that no person has ever written on the "Art of Meditation", he goes further than this, and says that not one man in twenty ever does think, by which he means that very few men think to any purpose or with any system. Most of the people in the world, take their opinions ready made from the newspapers or their neighbours, or in general from the fashion.

There is indeed a habit, for which two causes could be found of taking it for granted, that men cannot control their thoughts. It is said squarely, that the thoughts come or go wholly without the choice or power of the man. But this is not the theory of the great men, of the real leaders. They bid us control our thoughts, that is to learn to think, just as we control any other appetites. Paul tells us what we are to think of, and he goes on to the other matter, which is more dangerous and tells us what we are to think of. There are things which are not even to be spoken of, and with an allowable paradox, Paul tells us what they are. It is only writers of a lower grade who seem to take for granted that you must let thoughts go or come at their reckless pleasure, or by the mere chance of what may be the condition of the circulation of blood upon the brain. Such writers if they were pressed would have to say that you are not to undertake any control of bodily appetites, any more than you undertake the control of mental processes. But the truth is that man is master of mind, and the mind is master of body. This is the privilege of a child of God, and a true man asserts his empire and uses it. It would be impossible for him to begin all of a sudden in such control, if he had never used it before. But he can learn how to gain such control. He can have more today than he had last Tuesday, and of can have more next Tuesday than he has today. This is what is meant by learning to think. Thus a woman may train her memory to do better work for her this year than it did last year.

Thousands of women have first been inspired to think of others through their church sewing circle and missionary societies. Also the widely spread Women's Christian Temperance Union organizations, have had much to do with enabling her to find herself. Women of today, because they have been persistently thinking of the needs of others, have learned to write papers, address audiences, to preside over meetings, to organize committees, and it has developed in them a distinct responsibility in a great many branches of endeavor. And as our responsibility toward others develops within us, so will our capacities mature, and our field of usefulness be enlarged.

"Within thyself some dormant seedling lies just waiting for the tillage of thy will to aid its growth. From which some day may spring a harvest worthy of the reapers will. Within thyself there lies some dormant power. As potent as has ever come to light. But which awaits the coming of the hour. When thou shalt bring it forth before man's sight."

When we stop to consider the millions of different minds all recording different impressions, as Tennyson says: "Our clouded fancies doth suddenly take shape in some divine expression". And consider that all the institutions and organizations of our land are propagated for the purpose of helping others, it gives us some idea of the vital interest humanity takes in humanity.

So surely we will all admit that in some degree our lives should be occupied in considering the welfare of others, along with the consideration of our own welfare. In looking back over our past it will bring each one of us a sweet and abiding consolation to know that we have each made the world a little brighter for our having lived, and our fellow men a little happier because we have helped and given them our sympathy.

Life is after all, only a period for effort and accomplishment and nothing should be allowed to defer us from doing out level best in works of mercy and love. Every day brings its own obligations and every hour, they pass never to return for a moment. Emerson says: "What the idle and careless man throws away and loses forever, the diligent and thoughtful man stores away to hold eternally."

"For life is the mirror of King and slave, 'Tis just what you are and do. So give to the world the best you have And the best will come back to you."

REMARKABLE CASE of Mrs. HAM

Declares Lydia E. Pinkham's Vegetable Compound Saved Her Life and Sanity.

Shamrock, Mo.—"I feel it my duty to tell the public the condition of my health before using your medicine. I had falling, inflammation, female weakness, pains in both sides, backaches and bearing down pains, was short of memory, nervous, impatient, passed sleepless nights, and had neither strength nor energy. There was always a fear and dread in my mind. I had bad, nervous, weak spells, hot flashes, poor appetite. I had a place in my right arm that was so sore that I could hardly bear the weight of my clothes. I tried medicines and doctors, but they did me little good, and I never expected to get out again. I got Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I certainly would have been in grave or in an asylum if your medicines had not saved me. But now I can work all day, sleep well at night, eat anything I want, have no hot flashes or weak, nervous spells. All pains, aches, fears and dreads are gone, my house, children and husband are no longer neglected, as I am almost entirely free of the bad symptoms I had before taking your remedies, and all is pleasure and happiness in my home."

Mrs. JOSIE HAM, R. F. D. 1, Box 22, Shamrock, Missouri.

If you want special advice write Lydia E. Pinkham Medicine Co., (Confidential) Lynn, Mass.

Consider the helping of others from a purely selfish standpoint. Does it not develop character? Again Emerson says:

"Character is higher than intellect. A great soul will be strong to live as well as to think." And, (as we all know) character is not constituted by a brilliant dash now and then, it is what we make it, by the use of our powers in routine matters. When we see that the helping of others really is such a substantial and enduring harvest, for us, (as well as for those whom we have helped), it should inspire us to give of ourselves and our talents. Sir J. Stevens says, "That every man has in himself a continent of undiscovered character." So if we persist in the good work of giving others a helping hand, we shall discover depths within ourselves never before realized.

AGAINST THE RULES

The new attendant stood sentry at the door of the local picture gallery. Presently a visitor strolled up and was about to enter, when the attendant seized him by the arm and asked him for his walking stick. "My walking stick?" exclaimed the man astonished. "I have not got one." "Then you must go and get one," replied the attendant. "My orders are not to allow anyone to enter without leaving his walking stick with me."

POLICE NEWS

Last Wednesday the police laid a charge against three young girls as being inmates of a disorderly house on Gerrard Street. All three were found guilty and sentenced one to two months imprisonment, the other two to one month imprisonment. This is the second house of ill-fame the police have closed recently, another one which was generally believed to be a disorderly house being closed through a charge of illegal selling of liquor, being laid against the occupant.

Police Officer Culligan last week arrested a man named Mulsaki, a Russian Pole, near Jacquet River, charging him with stealing goods from stores in that district. This is the same man who caused the stir near Matapedia some time ago, when Chief Hughes and other officers found the camp of supposed German spies, in the woods there. Finger prints of Mulsaki have been sent to Ottawa, as there seems to be an air of mystery surrounding the man's movements.

When arrested he had a goodly sum of cash in his possession. It is conjectured he is a fugitive of some kind, and took great pains to make his escape when he was aware of the pursuit of the officers. It is said that he walked backwards for quite a few miles in order to throw his pursuers off his tracks. He appeared before Police Magistrate McAllister on Friday, who sent him up for trial.
