BRITISH PARLIAMENT OPENS; HISTORIC SESSION OUTLINED BY SPEECH FROM THRONE

Government To Bring In Measures Giving Home Rule to the Irish, Disestablishing the Church in Wales and Amending the Franchise Law.

Royal Address Proves Colorless and a Disappointment to Large and Brilliant Assemblage-King and Queen Lustily Cheered in Street.

[Canadian Press.]

London, Feb. 14.—The second session of the second Parliament of King George's reign was opened today by King George in person, with all the timehonored picturesque eeremony which always marks such occasions. No speech from the throne has for many years been awaited with such absorbing public interest, and the King himself showed that he realized the momentousness of the occasion by the emphasis he laid on the more salient clauses of his address while he was speaking.

A COLORLESS SPEECH.

Blank disappointment, however, was easily read in the faces of his hearers over the colorlessness of the King's references to the historic legislation mapped out by the Government.

The speech was a short one. In referring to the measures to be brought before Parliament, the King said:

"A measure for the better government of Ireland will be submitted to you "A bill will be laid before you to terminate the establishment of the Church in Wales, and make provision for its temporalities.

"Proposals will be brought forward for the amendment of the law with respect to the franchise and the registration of electors."

This was all the King had to say about the three measures, which if the become law, will radically alter the constitution and history of the United

NO REFERENCE TO GERMANY.

The King in his speech made no mention of British relations with Germany, and did not allude in any way to Viscount Haldane's recent trip to Berlin, about which there has been so much speculation.

The most interesting reference to foreign affairs was the clause in his address relating to China, when he said:

"I trust that the crisis in China may soon be terminated satisfactorily the establishment of a stable form of Government conforming with the views. of the Chinese people. My Government will continue to observe an attitude of strict non-intervention, while taking all the necessary steps to protect British life and property. I fully recognize that the leaders on both sides in Chinahave shown every desire to safeguard the lives and interests of foreigners resi-

TRAVELLED IN STATE.

The King and Queen travelled in state to the House of Parliament as Westminster, the procession consisting of the old stage coach with eight cream ponies, in which King George and Queen Mary were seated, preceded by five state earriages conveying the officers of the household. An escort of cavalry brought up the rear.

READY TO MEDIATE.

The King remarked that the British Government was ready to associate mands they made upon the Premier of the country, and not considered from itself with the other powers in mediation to bring and end to the war between Italy and Turkey, and was also striving, in conjunction with Russia, to enable Persia to re-establish order.

His majesty congratulated the international conference recently held at The Hague on the result of its labors to regulate the trade in opium.

He also briefly referred to the widespread labor unrest saying: "I firmly list that a reasonable spirit will prevail on both sides in order to avoid a velopment which will seriously affect the trade of the country and the wel

LUSTY CHEERS.

Popular interest was demonstrated in the occasion by the masses of people who gathered along the route from the palace to the parliament buildings, which was lined by the regiments of the Foot Guards. The crowd cheered lustily as King George and Queen Mary passed.

IN THE LORDS.

There was a brilliant assemblage in the House of Lords, which presented a handsome picture, the black dresses of the women, necessitated by the court mourning, only serving to throw into greater relief the bright colored robes and uniforms of the peers, state dignitaries, members of the House of Commons, and naval and military officers, who crowded every foot of the historic chamber.

GAS FROM COAL STOVE

Household Narrowly Escaped Asphyxiation.

Mrs. E. Anderson, 197 Richmond street, her daughter, and Miss Mary E. Spencer, had a narrow escape from asphyxiation this morning. They will be confined to the house for some days as a result of their experience.

When the family retired last night, the large coal stove was filled up, but nothing amiss was noticed. During the night Miss Anderson awakened in a suffocating condition. She got out of bed, but collapsed. Later she managed to make her way to a door, which she pushed open a little, allowing some fresh air to come in from the back portion of the house,

She was unable to move after this, but the fresh air coming into the room indoubtedly saved the lives of the three women.

This morning the neighbors, seeing no stir about the house, investigated and found them still stuified from the effects of the gas. The house was thrown open and a physician summoned. After considerable effort all three were revived. They are very ill from the effects of the poisoning, and

The people in the house think that he fell asleep with the gas burning. At a certain hour it was turned off, and coming on later, suffocated him. ELECTS EXECUTIVE

ston, K. C., and Papers on Trade Matters.

Toronto, Feb. 14. - The Dominion Wholesale Grocers' Guild concluded its annual convention yesterday afternoon with a long business session, which, aside from the election of officers for the coming year, was entirely devoted to matters of internal economy in the trade. The methods and objects of the Canadian Credit Men's Association formed the subject of a lengthy treatise by Mr. L. J. Ball, secretary of the newlyformed Ontario branch of the organization. The meeting went on record in respect to the latter address, with a resolution strongly recommending the advantage of the credit exchange

to all members of the guild. thought. Don't try to undermine your rival; it only comes home to

approval by the Dominion Canners, Limited, occupied the greater part of the session. The canners' contract this year contains a new provision, whereby the jobbers are to be guaran. teed delivery of goods amounting to at least 60 per cent of their previous season's orders, regardless of crop conditions, and most of the argument was waged around this point, with the majority of members seemingly favorable to the innovation.

New Officers Elected.

Officers for the ensuing year were elected by acclamation. They are as follows: President, Archibald Miller, Quebec; provincial vice-presidents-Quebec, Zeph Hebert, Montreal; Ontario, Thomas Kinnear, Toronto; Manitoba, Harry Gordon, Winnipeg; Alberta, W. Georgeson, Calgary; New Brunswick, W. C. Cross, St. John; Nova Scotia, R. M. Symonds, Halifax; British Columbia, Percy Wollaston, jun., Victoria. President Miller was installed in the chair by his retiring predecessar, Mr. Hugh Blain, of Toronte, who was made the recipient of a special vote of thanks from the guild, on the motion of Messrs. Beckett and Hebert. An address by E. F. B. Johnston, K.C., on "The Rights of Trade and Manufacturers," was the feature of the morning session of the convention. His remarks

were mainly devoted to an exposition of the law regarding trade combines, which, he said, were illegal only when they interfered with competition or wrongfully raised the price of articles. In the Grocers' Guild co-operation was the chief object to be attained, and such a combination as it entailed was entirely desirable, for its interests were in accord with those of the consumer rather than those of the producer.

DEPARTMENT OF ART FOR INDUSTRIAL SCHOOL

Classes Will Be Held on Monday and Thursday in Alexandra School.

A department of art and design has been added to the local Industrial School, and classes will be held on Monday and Thursday evenings. This decision has been reached by the committee in charge, and students will be

enrolled by Principal Beal at once. The need of an art school has long been felt. Not since the old Ontario School of Art and Design, conducted by the late John R. Peel, has there been such an institution. This school did much for the young people of London, and many of its graduates are today successful commercial artists and de-signers. The demand for the latter has enormously increased in the past few years, but London has no school from

which to supply the demand. Since the opening of the Industrial school Principal Beal has had so many nquiries that it was decided to open classes. The first session will be held on Monday evening next. There will e courses in freehand, perspective, plain and color shading, and plain and color design. Those who wish instrucion on these subjects should commun-

cate at once with Mr. Beal. The committee have secured Mr. David Wilkie to instruct the class. He this morning. The damage done to the dustrial school are well filled, and keen

WANTED-THE LOAN OF \$1,200 ON Telling Thrusts On Trusts By Guthrie Stirs Up Mr. Ames.

BAD DAY FOR THE GOVT.

The Opposition Proposals to Improve Tariff Commission Bill Rejected on Party Vote. Ottawa, Feb. 13. — On a straight

party vote of seventy-six to forty-two, Government majority of thirty-four. Mr Parliament tonight rejected Guthrie's committee amendments to the tariff commission bill. amendments called for the striking out of the clause placing the control of the commission under the Minister of Finance, and the substitution of a clause providing that it should be responsible and report to Parliament. A third amendment called for the striking ut of the clause referring to the proposed commission, the 'n'es tigation of the combines and mergers, as such inv stigation could better and more disinterestedly be performed by the courts and the machinery provided by the existing anti-combines act. Some stormy zenes characterized the close of the long debate. Mr. Guthrie described Mr. Foster's confession that the Conservative Governent of the past had fashioned its tariff on the rule-of-thumb system 'It was a humiliating confession, and venture to say accounts for the fact that times under such a regime were hard and the count J at a standstill. minister, however, presumes when he ventures to say Mr. Fielding followed similar system. No man is more strongly opposed to the present proposal than would be Mr. Fielding, were he here. The Fielding tariff was not made after the rule-ofhumb. It was formulated only after careful and critical investigation. And times were good, the country prospered, and Canada developed." (Liberal cheers.) Guthrie and Ames.

Mr. Guthrie called upon the Government to let the bill stand over for two or three weeks till the country had an opportunity to study it. He knew very little about trusts. Mr. Ames, interrupting, "Nothing

Mr. Cockshutt's Ultimatum. After a spirited address by Dr. Clark, the House was treated after midnight to an excited attack on the member for Red Deer by Mr. Cockshutt. "I know more about the eco-nomics of England than the member for Red Deer," he declared. "I took part in two campaigns there. In Britain all they do is try all kinds of quack nostrums under their Lloyd Georges and old wornout fables." He warned the House that the manufacturers had more power than they thought. "Is every industry in Canada to hide its head because the farmers say so?" Mr. Cockshutt shouted. workingman in the highly protected United States was, he said, better off than in free trade Britain. urged the Government to force the bill through, and not put up with further talk from the Liberals.

"There shall certainly not be a free trader on this tariff commission," Mr. Cockshutt warned; "cer-Ir we put a man like the member for Red Deer on that commassion, we would have a gun that

would not go off." Harried Mr. White. It was an uncomfortable afternoon for the young Minister of r nance in the House of Commons. When the discussion the vill appointing a tariff commission was resumed, Mr. Ames came gown to the front benches and usurped the conduct of the measure, to the amusement of the Opposition benches and the palpable displeasure of Mr White. Then he sought to assert himself by reading a report of a Montreal address to the Canadian Manufacturers' Association by Sir Wilfric Laurier, in 1908, and had, in consequence, to submit to the good-natured

raillery of the "Old Chief." Hon. Mr. Foster followed, and un dertook to explain the bill for the Finance Minister, a task the member for North Toronto seemed to thoroughly enjoy. And, more, Dr. Schaffthe Manitoba Conservative, came along with the declaration that during the Fenian Raids of 1866 and if the measure meant what the Liberals believed it did, or what Mr. Ames had said it did, he would oppose it, a declaration which brought Premier Borden to the rescue with sooth

ing words. Hon. Frank Oliver. Hon. Mr. Oliver completed the young minister's tribulations. The outspoken ex-minister charged that Mr. White, "represents in the cabinet the interests and the mergers, he is allied with that section of Liberalism which was Liberal so long as its Liberalism meant profit, but deserted as soon as its Liberalism meant merely The Government Refuses To

German scares and Russian rumors are apt to be forgotten amidst the noise of Ulster. But the Irish question is going to be metamorphosed at teast this year and in all probability will continue eternal only as a memory

A year ago there was similar excitement. The wild cry of revolution was raised gainst the Parliament bill by the reactionists, many of whom next time with a record, not merely were themselves ready for any revolution that might save their privileges. The storm-clouds dissolved and left not a rack tehind.

But political tempests are brewing again. The Welsh Disestablishment and Franchise bills would be explosive In ordinary circumstances, but the real fighting will be around Home Rule.

ACKNOWLEDGING THE CORN.

"Tons of cream that should be turned into butter and sold on the local market are exported every from the farms of the surrounding townships. Every day agents of different creameries and dairy porters scour the country and offer for milk and cream a price that to refuse would mean bad policy on the part of the farmer. So every he local market is cheated of hundreds of pounds of butter, a circumstance that accentuates the tendency to higher and ever higher prices."-

Frank M. Ryan, formerly was structural ironworker in Chicago. He was elected president of the International Ironworkers' Union in 1905, succeeding Frank Buchanan, of Chicago, now a member of Congress. As head of the ironworkers, Ryan had positions on important committees on the American Federation of Labor.

The Ironworkers' Union, which has headquarters in Indianapolis, has about 13,000 members, with 107 local unions in the United States and Canada. Soon after it became known his officers were to be indicted, Mr. Ryan asked the members of the union to establish a special fund of \$7,000 a month. is believed this fund now will be utilized for defense at the trials.

Medenham dreaded that the too-faithful Simmonds, car and all, would be found awaiting their arrival, and it was a decided relief when the only automobile in sight proved to be the state equipage of some local magnate dining at the hotel. Cynthia, apparently, had shared his thoughts so far as they concerned Simmonds.

As for Medenham, though he had carefully mapped out the exact line of conduct to be followed in Bristol while watching the radiant white arc of road that quivered in front of the car during the run from the Mendips, for a second or two he dared not trust his voice to ask the hall porter certain necessary questions. Unaided by the glamor of birth or position he had won this delightful girl's confidence. She believed in him now as she never again would believe in Count Marigny; what that meant in such a mo-

she never again would believe in Count Marigny; what that meant in such a moment, none can tell but a devout lover. Naturally that was his point of view; it did not occur to him that Cynthia might already have regretted the impulse which led her to utter her thoughts aloud. Her nature was of the Martian type revealed to Swedenborg in one of his philosophic trances. "The inhabitants of Mars," said he, "account it wicked to think one thing and speak another to wish one thing while the face expresses another." Happy Martians, perhaps, but not quite happy "Yes." But she was deeply puzzled by the mishap to the Du Vallon. Unwilling to think evil of anyone, she felt, nevertheless, that Fitzroy (as she called him) would never have treated both Mrs. Devar and the Frenchman so cavalierly if he had not anticipated the very incident that happened on the Mendips. Why did he turn back? How did he really find out what had become of them? What would Simmonds have done in his stead? A hundred strange doubts throbbed in her brain, but they were jumbled in confusion before that more intimate and insistent question

that more intimate and insistent question -how would Fitzroy interpret her eagermess to retain him in her service.

Meanwhile the Swedish seer's theory of Martian speech and thought acting in unity was making itself at home on the pavement in front of the hotel.

DON'T "QUACK" YOURSELF [By Cynthia Grey.]

It is marvellous that when intelligent doctors will give advice It is marvellous that when intelligent doctors will give advice will for a small sum of money that so many women will risk health and looks by "quacking" themselves.

As our Creator gave us minds to drive away unhealthy thoughts and fears, he also gave us the herbs that grow in the ground and the scientific minds of physicians to discover their relative benefits. If you have not sufficient faith and mind to heal yourself, do not look with contempt upon clever men and women

who have made a life study of medicine and surgery. Before risking any dangerous results it is wise to consult one of these able physicians.

Difference of constitution will cause different action of so named specifics, and a drug that is harmless to one constitution may cause serious trouble to another. There is absolutely no limit to the recklessness of men and women with drugs, especially those proper for the toilet. One woman was idiotic enough to believe that

carbolic acid would improve her skin, and used a lotion containing it, until her skin peeled and cracked and it took years of patient doctoring to restore it to its natural smooth condition.

Another woman found that a certain medicine kept her complexion clear, and used it until it produced gastric inflammation, which troubled her for years and made a clear complexion impossible. Electricity has been sadly overdone by imprudent women who thought that they knew enough to treat themselves, bought a small

battery and tried to use it as a bank of vitality. I have known singers almost to paralyze their throats by the constant use of electricity. And I have seen women and men become drunkards by the use of tonic wines, used as a temporary stimulant to the throat and

What crimes are committed in the use of cosmetics only druggists and doctors know. I should hesitate to put anything on my skin that I could not put into my stomach.

There is safety in water and salt for everyone, but an absolute knowledge of the purity of creams and lotions should be acquired before using them. Women know little of the importance of air and water to the steady deposits of fine elastic tissues in the body. Drugs should never be taken except in serious cases. Prevention is

Pay a good doctor a few dollars to assure you that what you want to use is right or wrong. There is much satisfaction in knowing what will agree with your constitution. Remember: Consult your doctor to avoid doctoring.

the round by 17 to 4. The half-time score was 2 to 2.

The locals did not extend themselves, seemingly being content to nurse along the margin acquired in the 11 to 0 game. The Red Ring forwards played little combination, resorting most of the time to individual effort. On the other hand the beaten team played a strong game on both defence and attack. The Oshawa lads checked very hard, in which department they were lamentably weak at home. It was the absence of backchecking which enabled Toronto Canoe to cinch the round in the game at Oshawa. The game was fast with few penalties imposed. Laird, of the winners, in endeavoring to stop a shot by Frechette, got his chin in front of the puck and received a gash which required to be bandaged before the game could be resumed. Sidley and Gooch played a fine defence game for the winners and started most for the rushes which resulted in scores. Frechette and Fair were prominent for Oshawa while Smith must have stopped forty shots which were "dead on." Weller was the best of the forwards. LADY MISSIONARY TOLD OF HER WORK

Woman's Auxiliary of Memorial Church Heard Address By Miss Wade.

It was the great pleasure and privilege of the members of the Woman's Auxiliary of the Memorial Church and the other Anglian churches in the city, who had been invited to be presfrom MissWade a returned lady missionary from Fihkein, China, in parish-room of the Memorial Church. when the women of the auxiliary of the Memorial Church celebrated the 35th tion as a missionary society. The meeting was presided over by Mrs.

a few words, irtroduced the speaker. Miss Wade spoke most impressively of her work and conditions in China. She expressed the fear that China might become agnostic. Students go away to study in other lands, and come back not heathen and not Christian. She spore of the dark side of family life in China-infanticide, with its horrors. Formerly, a baby girl was as liable to be destroyed as kept. They were buried alive occasionally, drowned, and paients would rather destroy a child than give it to a Christian to bring up. Now, there is a change, and missionaries cannot take in all of the baby girls who are prought to them Girls trained in the Christian schools are in great demand

for wives for the Chinese. Foot-binding, which many of us oped was an evil of the past, Miss by former administrations in Wade says is still practiced, and when she left China, the majority of the vomen had their feet bound. But there is a brighter side, which

Miss Wade touched upon. The spread of the Gospel, the work among the lind and lepers in Fuhkein and work among the women. The Bible appeals wonderfully to eastern minds.

At the close of this most interesting ddress, it was moved by Miss Kate Elliot, seconded by Mrs. Treleaven. that a vote of thanks be given to Miss Wade or her address.

It was also moved by Mrs. Waller, econded by Mrs. Richardson, that a ote of thanks be extended to the adies of Memorial Church for their cindness. Mrs. Sage, in conclusion, ongratulated this branch upon attaining their 35th anniversary, giving them praise for their missionary zeal, and afterwards pronounced the benediction. Refreshments were then served.

Germany Objects to Unions Between

Berlin, Feb. 12 .- Dr. Solf, the new Secretary of State for the Colonies has issued an order forbidding for the future all marriages between whites and natives, in the two Samoan Islands belonging to Germany. Children of marriage, heretorore legally contracted will be regarded as of white birth, but offspring of the other unions customary in the islands will be classed among the colored or native population.

The order comes as a culmination of a long agitation against mixed marriages, into which a large proportion of the white colonists, and even of the Imperial officials in German Samoa have entered, and which were tolerated, and even protected colonial office.

The institution is now regarded as danger to German prestige in the islands, and even as a menace to the future of the colony, as, according to

Last evening there were a large number present, many of the local police force being in attendance. First aid lessons, demonstrating how to apply bandages and splints in case of severe wounds, and other remedies, were taken up.

Many of the local manufacturing oncerns are becoming interested in the classes, and already several large firms in the city have sent some of their employees to the association for nstruction. The benefits of this instruction have been made apparent when accidents have happened in the actories, for, and in many cases, the fact that an association member one who is familiar with first aid work has been near by, has been the means of saving the life of the injured perthe association in this connection, and road. it is this that has directed the attention of many of the local manufacuring firms upon the association,

The King also had a long conference today with Winston Churchill, first lord of the admiralty, who recently addressed the home rule meeting at Belfast and the next day made a speech in Glasgow, declaring that Great

Britain must continue to maintain her naval supremacy. Mr. Churchill also outlined to the King the recent changes effected by the admiralty in the reorganization of

ASK MILLION TO THE HOME OF IMPROVE ROADS

Important Change In the Ontario Road Act Appears In the New Bill.

JUDGES TOO NUMEROUS

Leader Rowell Introduces Measure to Make Important Amendments to Judicature Act.

Toronto, Feb. 14.—The Ontario Government will ask the Legislature to approve of a further appropriation of one million dollars to assist in the construction of county roads. Provision for the appropriation is made in an amendment to the highways act introduced in the House by Hon. Dr. Reaume, Minister of Public Works,

The million dollars will supplerent that voted by the Legislature in 1901 when the Ross Government introduced the act to aid in the improvement of public highways. Of the amount set aside then, \$893,814 has been paid out to the counties entitled to receive grants under the good roads scheme, and the balance be more than taken up when the calls upon last year's road expenditure are made by the county authorities. To Centralize Management.

The bill brought before the House by Hon. Dr. Reaume yesterday makes no change in the act as amended in 1907, by which the counties were ento receive from the Government one-third of the total amount expended upon a county roads system. A new clause provides that the management of all road improvement under the highway improvement act eer, appointde and acting under the direction of the county council. foreman or inspector is to be placed in charge of any work when the superintendent cannot personally oversee, but no member of the county council shall be employed. The regulations of the department have taken this form for some time, but there was no means of making it compulsory upon the county councils.

Government to Control. Government secures a greater control over the county road system by an amendment which provides that when, according to the present act the county council may return the roads to the control of the townships, no change may be made except with the approval of the Government. Along similar lines is a section givthe Minister of Public Works power to change any country road originally approved of, but which by reason of altered conditions should not be constructed and maintained as

Chester Bogue, of Lambeth, Struck On Head By Falling Tree.

[Special to The Advertiser.]

Lambeth, Feb. 13.-While felling ree on his father's farm, a half mile north of this place, Chester Bogue, son of David Bogue, and one of the most promising young men of this village, was instantly killed by the tree falling upon him. The accident happened about four o'clock this after-

Chester Bogue, his father and the hired man had gone into the woods to cut down some trees. While felling one, young Bogue misjudged the position in which the tree was going to fall, and it toppled over nearly on top of him. He made an effort to get from under it, but a large limb struck him on the top of the head, and he

was killed instantly. His father and the hired man ran to the village for a doctor, but when medical ald was brought it was found that death had been instantaneous. Coroner Routledge viewed the remains and decided that an inquest was unnecessary.

Chester Bogue was about 30 years of age, and he leaves a wife and two small children. He comes from one of the best-known families in this dis Lord Haldane, the King presided at a trict, and his death came as a shock to the entire neighborhood. INSTRUCTIVE LECTURE

Given in Hyatt Avenue Methodist Church.

An interesting and instructive lecture was given in Hyatt Avenue Methodist Church last evening, when Rev. Mr. Barraclough, of Sarnia, spoke on the subject of "Siwashes of British Columbia."

Mr. Barraclough stated that the Siwash Indians were the most interesting of all the aborigines of America. They evidently were descendants of Asia. He explained that the Indian: of British Columbia were divided into even distinct nations, each with its own distinct language and customs. He described the manners and cruelties of the different races, together with their custom of erecting totem poles and their particularly weird dances. conclusion, the speaker dealt with the work of the Methodist missionaries amongst the Indians of that section. The lecture was much appreciated by the large audience in attendance. This evening Mr. Barraclough will lecture in Centennial Methodist Church on James Lockridge's Legs Were 'Life Among the Miners in the Klon-

Hugh Winslow, driver of a delivery wagon, who happened along at about the time the row occurred at a stable in a lane running between King and Dundas strets, near Ridout street, gave testimony for the plaintiff. Erenstein declared that he fought in selfdefence, and contended that Saddy was the aggressor. At any rate, both were badly marked about the face and head, and the story of the plaintiff appeared most plausible to the court. Erenstein was allowed bail, but will be sentenced in one week. Stanley Hallum, who was accused

of stealing a trunk and its contents, valued at \$25, from Wm. Miller, elected summary trial on Monday next, and was allowed out on bail until that James Franklin Kindrie, an Indian

lister, who has ben in four times in three months, was sent to the jail for a month. His option is a \$20 fine. LATE WALTER SHUTTLEWORTH

Walter Shuttleworth, the youngest son of Mr. and Mrs. J. R. Shuttleworth, of 322 Princess avenue, whose parents are now on a trip in Jamaica, died unexpectedly today of inflammatory heumatism. Efforts are being put orth to reach Mr. and Mrs. Shuttleworth by cable, but the information had not been conveyed to them this afternoon. The deceased had not been in perfect

realth for the past year, but the ailment was not considered serious until about one week ago. He was very popular in the city, and was only 21 years ofage. He had been engaged in business with his father here. Mr. Shuttleworth was a member of the Seventh Fusitiers, and was prominent in the young people's societies of the First Presbyterian Church. He was also known to local motorists. Besides his parents, he is survived by two brothers, Hugh and Edgar, both

Continued From Page One. Less than a year ago he was sentenced to three months at Philadelphia when convicted of pocket-picking.

It is the belief that the police have at last succeeded in breaking up a gang which operated periodically this city and on trains in Western Ontario. For months numerous complaints were made and about a year ago two men, who are thought to have been members of the same gang, were arrested here. The manner in which they endeav

ored to obtain the valuables of Mr. Herron was after the usual style employed by such crooks.

The Attempted Robbing.

Mr. Herron had, been visiting with his brother-in-law, Mr. John Lochead, of King street, and was at the Grand Trunk depot shortly after noon a week ago, when in boarding a train he noticed that two men ahead of him were rather awkward in their procedure. He paid no particular attention, however, but followed them into the car and along the narrow passage beside the smoking compartment. Just before he emerged into the main portion of the coach, he felt a hand in his hip pocket, and turning quickly, placed his back

New York, Feb. 14. — After an all-day session of the National Associaof Merchant Tailors of America, at the Hotel Astor, the 400 members present reached the following conclu-

"That the spring fashions shall represent long lines and striped materials. (This piece of news is intended

"The lines will follow the natural figure, no padding, no hip pegs, no double collars, and narrow, long revers for stout men. That men are slaves to fashion,

as much as women. "That the new Tuxedos shall be gray instead of black, to enable cre to distinguish one's friends from the

head waiter. 'That American men hate high silk hats and only wear them under cover of a c. Pitage at nightfall.

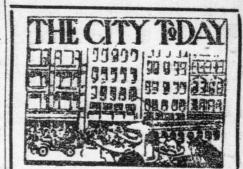

That Anterican men would prefer knee bleeches and English court costumes to the traditional dress suit, but they haven't the figure of the European court dandy or the army and navy men to enable them to wear it.

(Too many Americans are bowlegged.) "That it takes 46 varieties of garments to make a man. 'That the New York man is the best-dressed man in the country. "That the American man will wear European clothes in Europe, but is

ashamed to do so on Fifth avenue." "Yes, padding is no longer desirable in man's clothing," said Clarence A. McCarthy, of Chicago, president of the association. "It is out of date. The new lines for men will follow the hobble gown effect for women. Comfortable, of course, but perfectly natural.

"White vests for evening dress are tabooed, black velvet vests with handsome jewelled buttons are the thing. "Jet buttons will take the place of cloth buttons on evening dress suits. "The coat worn with a business suit will be almost two inches shorter this season. The prevailing colors will be brown, grey and blue."

Former Nurse at Victoria Hospital Is Making Sarnia Institution a Model.

[Special to The Advertiser.] Sarnia, Feb. 13. - The interior of the Sarnia General Hospital is being handsomely decorated, and when completed will present a very pleasing appearance. Miss Dulmage, formerly of Victoria Hospital, London, the matron in charge, deserves great credit for the changes being made, as it is largely owing to her good taste and execu-tive ability that the present work is being done.

It is expected that a large new elevator will be installed during the spring months. This would fill a ng-felt need and relieve the attendants of an unnecessary amount labor.
