### MICHAEL ACCEPTS IF PEOPLE DESIRE: CZAREVITCH DEAD?

Czar's Brother Willing To Reign Providing People Form New Government and New Laws Says Semi-Official Dispatch---Little Heir to Crown Reported as Dead of Scarlet Fever.

London, March 17-12:45 p.m.-Grand Duke Michael has accepted the throne of Russia, conditioned on the consent of the Russian people, according to a statement received here today from the semi-official Russian News

The statement follows:

'Grand Duke Michael Alexandrovitch, accepting the throne from his brother, declares that he does so only with the consent of the Russian people, who should by a plebiscite establish a new form of government and new fundamental laws."

Petrograd, March 16-Via London, March 17.-Unless improbable events occur, Russia has today become a republic. The outcome depends on how the manifesto of the new government is received by the six million soldiers at

CZAREVITCH DEAD?

Petrograd, March 16-Via London, March 17, 8 a.m. -The autocracy which has held Russia in its grip since the beginning of history fell today. The house of Romanoff, which has ruled the empire for 400 years, came to an end with the abdication of Nicholas II, perhaps the weakest representative of his line. Following on the heels of this startling development came the rumor tonight of the death of the emperor's little son, whose abdication was included in that of his father.

abdicated. This morning's report unofficially stated that the Czarevitch had died of scarlet fever which would make Grand Duke Michael czar in his own right if the geople let him. The first reports stated he would be grand regent. This would probably mean a limited monarchy similar to Great Britain.

### Unrest Against the Militarist Repression Is Violently Accelerated.

BY JOHN GRANDENS. [Special to The Advertiser.]

Berlin, March 17.-Germany is profoundly impressed by the Russian revolution. Newspapers today pointed to the conference of officials in Vienna as of extreme importance in view of the developments at Petrograd.

In this conference will be the Emperor Carl of Austria the imperial German chancellor, Von Bethman-Hollweg, Prince Conrad von Hohenlohe, formerly minister of finance, Count Czernin, Premier Clammartinitz and Count Tisza, and other important people.

[Special Cable to The Advertiser.] Amsterdam, March 17 .- Unrest in Germany against militarist repression of the people has been violently accelerated by the success of the Russian people in casting off the yoke of centuries. Even these elements of the German people who favor autocratic control of the Fatherland have been affected by the news from Petrograd, seeing therein the failure of German plans and the certainty that instead of Russia growing weaker as the war progresses she is likely to grow stronger with a new government animated by united determination to do its best against Germany.

German Government Alarmed.
German newspapers containing the chancellor's speech of Wednesday afternoon increased the impression among observers of German affairs here that the German Government itself is apprehensive of this unrest among the Teutonic people.

Bapaume has been considered from the first the British objective in the Somme operations, so far as any one place could be so classed. For months the progress of General Haig's armies has been measured in distance from Bapaume, as they drew closer and closer to it, creating a salient here and another there. rushing in the sides and forcing back the German lin THE GREAT RETIREMENT.

This movement, halted by the advent of winter with the British advanced line still several miles from the objective, has been greatly accelerated during CONFERENCE STILL ON line still several miles from the objective, has been greatly accelerated during several weeks past by the great retirement operation of the Germans on the Somme front, beginning late in February. From day to day, with only brief intervals, the retirement has been kept up, assisted at times by strong pressure from the British, until early this week the British forces stood at the very doors of the town, occupying the commanding ridge lying just to the west of it.

Its fall was then considered a matter of the choice of a time for the British.

OF VITAL IMPORTANCE. Bapaume is considered a position of vital military importance in this region of the Franco-Belgian front. It lies at the limit of the Artois hills, which afford support for the defence in attacks from the west and south, for beyond it lay support for the defence in attacks from the west and south, for beyond it lay the plains of Flanders, with Cambrai, Valenciennes and Bouai in view. Its capture, it has been held by military writers, will probably serve to make Peronne untenable and render St. Quentin an unsafe place for the shelter of the German

Bapaume is connected with Cambrai, 18 miles further east, by a railroad post-haste to New York yesterday afpassing through Marcoing, and also by a road of superior construction running direct line between the two towns. A PLACE OF BATTLES.

Bapaume, which had a population of 3,000 before the war, is a piace of historical note. It was the scene of a hard battel between the French and Germans during the Franco-Prussian war on January 3, 1871, the Germans after the struggle, falling back behind the Somme. Armies have struggled in or near it

## WILSON EXPECTS

Believes Mediation Will Be Successful in Averting Strike.

Moment Today.

(BY ROBERT J. BENDER.)

[Special to The Advertiser.] Washington, March 17. - President Wilson believed today there would be no railroad strike tonight. On the contrary, he believed the mediators he sent of the impending rall trouble to adjust their differences peaceably. Legal precedents presented by his advisers have been carefully studied, and it was the White House impression that the president would be enabled to take strong steps to check the strike. Whether he would be able to put the roads under full martial law was uncertain, though the precedents showed he has power to do that in event of any violence on the first present the imperations are salient which now becomes more pronounced than ever.

Apparently the British following up the advantage gained in the recent operations prevented this being done and as a result a German retreat on a much larger scale is expected by military writers. to do that in event of any violence on Details of the operations, with the

### ZEPPELIN BROUGHT TO EARTH AFLAME BY FIRE OF FRENCH

Air Raid Aimed at Paris Was Quickly Foiled.

Paris, March 17-10:40 a.m.-A zeppelin has been shot down in flames near Complegne. All of its crew were lost.

The zeppelin was sighted just before dawn, and was reached by French anti-aircraft guns at a great height, probably three miles. The airship caught fire and the wreckage, with the burned bodies of the

crew, fell outside Complegne. Complegne is 45 miles northeast of Paris, and is close to the battle-front, which the zeppelin had pre-sumably crossed.

TURNED BACK.

Paris, March 17.—A zeppelin alarm was sounded at 4:15 o'clock this morning by firemen who went through the streets of Paris blowing sirens. All lights were extinguished and airplanes patrolled over the city.
At 6 o'clock bugles were blown announcing that the danger was over. No details are yet available, but apparently the zeppelins turned back before they reached the capital.

Associated with Sir Adam as speaker will be Lieut. A. E. Baker, the blind hero of Ypres, of whom a Toronto paper said: "Upon the platform, erect and youthful, yet with eyes from which the sight is forever gone, sat Lieut. Baker. As he stepped forward there swelled from the hearts and lips of hundreds a welcome that only the knowledge of such a great sacrifice could call forth." Mrs. W. Hungerford is the chief soloist at the meeting.

RED CROSS AND C. W. C. A. WEEKLY SHIPMENT

Advertiser Illustrations.

A regular weekly shipment of Red Cross and Canadi an War Contingent Association supplies from Hyman Hall, the shipping headquarters for Western Ontario. One hundred large, specially made cases is the average shipment, though as many as 120 have been forwarded in one week this winter to St. John, N. B., en route to London, England. February, the shortest month in the year, the C. W. C. A. shipments alone were worth \$12,000, and the Red Cross at least double that amount. The goods contained in the boxes are of the very best quality. Each box contains 144 pairs of socks, valued at a dollar a pair, in addition to all the other valuable upplies.

Mrs. Donald McClean, convener of the shipping committee, and Mrs. A. T. Edwards, recording secretary of the Red Cross and C. W. C. A., are shown in the picture standing beside the packing cases.

These Will Immediately Begin Training Certain Nights Every Week.

Acting on the orders issued from Ottawa that 50,000 men are wanted in the militia for home defence to release the same number of men already enlisted for overseas service, letters will be sent out from local district headquarters, Wolseley Barracks, to the 7th Regiment at London, the 21st at Windsor, the 22nd at Woodstock, and the 25th at St. Thomas to mobilize for home defence.

These four regiments have been chosen from the regiments in Western Ontario to recruit up to war strength of 1,000 men each. Training Arranged. The men recruited will likely receraining two evenings and one afternoon when the

Recruiting for overseas service will be carried on as vigorously as ever, and the recruiting for home defence will in no way interfere with it.

Regiments Depleted.

Many of the regiments have been so depleted by enlistments that scarcely any trained officers or non-commissioned officers are left, and considerable training will be required before, a competent staff of officers and N. C. O.'s can be put in charge. Those who have had such training are urgently requested to offer their services.

It has been estimated unofficially that about 32,000 men have been enlisted in this military district (Western Ontario) gives the beginning of the war.

Net Enlistments 29,000.

### Talk Into Your Telephone!

To talk at your telephone or across it without regard to its distance from your lips, results in faulty service.

The right way is to give the number to the operator clearly and distinctly, to listen for her repetition and acknowledge it, and then to talk directly into the mouthpiece with the lips about half an inch from it.

Accurate connections, quicker service and better transmission will result.

Bishop Fallon's address in part was as follows:

"This is the Ireland, whose children for fifteen hundred years have carried the traditions of learning and the love of liberty across the seven seas and into five continents, who have borne their full share in the development of democratic self-government wherever it exists, and who have spared neither their lives nor their treasure in the upbuilding of Britain's world-wide empire; this is the Ireland to which, withbeen told and so we have believed, for the sanctity of treaties and the rights of small nationalities. When we cast about the British Empire and see the isolated cases of antiwar feeling, we must come to the belief, no matter how conflicting the reports, that within Germany there are countless thousands who would rebel against their fate if within them was the initiative of fiery courage that infiamed Russia and sent a czar and all his power of church and state into oblivion.

are the words used by the Chicago Herald to condemn the senators who filibustered the armed neutrality bill to death. Other papers throughout the United States are scarcely less harsh in expressing their feelings.

There can be little doubt that this vigorous phrase represents in a measure the wave of anger that swept the country and aroused the majority of the senators themselves to make a change in the senate rules, to make filibustering tactics in the face of a great international crisis impossible.

Whatever may have been the motives of the filibusterers, their action evokes much enthusiasm in the German press abroad. The Frankfurter Zeitung hails them as "fine Americans who remain uncontaminated by Wilson's blind devotion to England.'

In the United States, the Emergency Peace Federation bestows its admiration upon the filibusterers, and says that "we believe you represent a vast, though unknown, part of the Americans whose earnest desire it is that this country should not be drawn into the war directly or indirectly.'

In THE LITERARY DIGEST for March 17, every phase of the controversy raging over the senate's action is covered from every angle. Not only public opinion in America is shown, but that of Germany and

### FOREIGN TESTIMONY TO THE NEWS-VALUE OF THE DIGEST.

In a recent letter to the editor of THE LITERARY DIGEST a European reader of this uniquely serviceable news-magazine makes the statement that though the news in THE DIGEST is two weeks old when it reaches him, it is nevertheless so well presented and so impartially comprehensive in its scope that he is able to get a better idea of what is going on in Europe than by reading the press of that day in his own country, now at war. This piece of testimony is

very much to the point, as it makes clear the fact that only the unbiased observer can accurately assemble and present the facts regarding any great issue, be it war, politics, or religion, and that no partisan periodical can afford a fair or wholly reliable view of them. THE DIGEST is such an observer, analyzing, comparing, recording all news of interest, holding a brief for no party and for no school. It gives you the undistorted facts. Read it and be convinced.

Awful Fate of Kalser and Defeat of Germany In September Next Are Forecast.

[New York Sun.]

Don Sante Monti, a learned priest of Como, Italy, has a 17th century book containing a collection of letters, verses in Latin and Italian by uncertain authors and other documents.

Among other things, it contains a curious prophecy about the present war attributed to St. Malachy. It is well known that several works attributed to St. Malachy, Archbishop of Armagh, Ireland, who died in 1148, are probably

The war prophecy in the Como book is written in Latin in the same hand-writing as other documents, and in all probability it was copied from some earlier manuscript in the 17th century. There is no doubt, however, that the ophecy was written 300 years ago, and its interest is, therefore, undiished despite the fact that it is wrongattributed to St. Malachy. Of the receipts, \$864 came from outside chapters, leaving \$10,631.84 as the amount contributed by the London Daughters of the Empire alone—either personally, or through subscriptions of relatives and friends, or from entertainments. There does not seem to have been such an appreciation of the work we are doing as would induce unsolicited aid; and we have had to work for all the money we secured. Of our expenditure, \$6.485.15 has gone for the benefit of our own soldiers and sailors, \$3,402.97 for the distressed among our Allies, and \$60 for local charities.

"The plow is our hope," declared Right Hon. David Lloyd George, the Prime Minister of Great Britain. The tremendous significance of these words in the face of a world shortage of food must be a matter of concern to all. It points out the path of duty to men and boys unable to enlist in the army but capable of helping to increase production.

### Help the farmer increase production

At this supreme hour when ample food production is one of the indispensable means of victory, the country faces a serious shortage of men and boys on the farms. The Department of Agriculture emphasizes the urgency of every man and boy taking to heart this splendid opportunity for patriotic service.

Boys Decide now to help in the war. If you are between the ages of 14 and 18, and have good term record, you can secure promotion at school by enlisting for farm service any time between April 20th and May 20th.

Parents are urged to encourage their boys to enlist for farm service. The physical and moral welfare of your boy will be advanced by a summer spent close to Nature; an interest will be awakened in an important industry of the country that will be a help to him in his whole future.

Men The Department appeals to retired farmers, to men following no occupation (retired), to business men who can spare at least a portion of their time, to all men who can arrange their affairs so as to help some farmer. Every man is invited to enlist for farm service. Confer with your District Representative

of the Department of Agriculture, or write or visit Ontario Government Employment Bureau, 15 Queen's Park, Toronto. Ontario Department of Agriculture W. H. Hearst, Minister of Agriculture

Work of Pioneers.

Road-building has called into play all the ingenuity of pioneer battalions, composed not only of experienced British workmen, but of real pioneers from the prairies and mountains of Canada and the far lands of Australasia and South Africa. Road material is scarce in the stricken wilderness of No Man's Land, but the refuse of battle often serves the purpose during the first hours if a new forward move. Broken rifles, its of clothing, fragments of shells and ecasionally a few shells themselves that ail to explode are used in the foundation of new paths. The remains of a ecently-evacuated village bring great by to the pioneers, for that means a semporary supply at least of muchesired broken brick and stone.

One can but marvel at the foortist of and one can but marvel at the fortist of and end endurance which enabled men to "stick it" in the muddy depths of the valleys from which they have now emerged. Even the most shallow trenches were impossible places, and here men dug themselves in at outposts which marked the lowlands like so many graves. Graves they were in truth for scores of the khaki-clad soldiers who held them all through the black winter under the pelting fire of their enemy.

New York, March 17—Wall Street, 10:10 a.m.—Changes in the stock market at today's opening were restricted to fractions, mostly upward, except in Bethlehem Steel, new stock, which rose 15%. Rails were scarcely quoted, with C. P. R. unchanged.

10:30 a.m.—Ipcreased firmness ruled at the opening of today's market, most of the important gains of the preceding sessions being augmented, though only fractional. The one exception was Bethlehem Steel, new stock, which added more than 2 points to yesterday's substantial rise. United States Steel, shippings, Central Leather and some of the coppers and motors displayed underlying strength. The list in general was inclined to ignore the impending railway situation. Dealings in rails were correspondingly light, with an irregular trend, Reading scoring a moderate advance, with minor recessions in Pacifics and Atchison.

THE LOCAL MARKET

Produce was scarce on the local market today, and buyers did not turn out in very large numbers. Eggs, however, continued to go down, and the general retail price was only 35c a dozen. Crate lots brought only 31c a dozen. Butter was not affected, and the price remained at 47c a pound for creamery and 42c to 43c for dairy butter in rolls. Poultry was scarce and firm. Most of the offerings, however, were of good quality.

Trading in the American market was restricted, owing to the uncertainty of the rallroad labor conferences. Should this matter be adjusted in the near future, cotton will be found to be in as good a position as ever.

Recent reports from the southwest indicate that the drought has become quite serious, and may result in considerable abandonment. Mill consumption in this country continues on a very large scale, and we can see no reason for a permanent decline.

We continued to favor buying on breaks.

Vegetable offerings were scarce, and potatoes were unchanged at \$3.59 to \$3.75 a bag. Dry onions were steady at \$3.25 to \$3.75 a bushel. Lettuce was offered at 40c to 50c a dozen bunches.

Contrary to expectations there was no maple syrup offered.

Hay brought \$13 to \$14.50 a ton, and straw \$9.50 to \$10. Oats sold for \$2.18 to \$2.27 a cwt., and wheat for \$1.75 a bushel.

We continued to favor buying on buying on preaks.

Gilbert S. Pitkin, aged 57, one of the best-known insurance men in West-ern Ontario fell dead at his home, 528 Waterloo street, about 5:30 Friday evening. He had been ill for some time with heart trouble, but his death was entirely unexpected. Only a few min-utes after his demise his daughter, Mrs. George Bancroft of Detroit, arrived to pay a visit she had planned with her parents, and was terrible shocked to find him dead.

Mr. Pitkin was for over 20 years a resident of Petrolea. He was a son of the late Edward Rowe Pitkin, and was born at Ann Arbor, Mich., and a grand-son of the late Judge Gott, Mr. Pitkin studied law with his grandfather, but later gave up the bar to enter into com-mercial work. All railroadmen will be interested in the film to be shown at the Grand Opera House, three times dally, Monday, Tuesday and Wednesday. March 19, 20 and 21. The film is called "The House That Jack Built," and is a human interest story, based on the dangers of carelessness in railroading. The title of the story is taken from the Mother Goose Rhyme of that name. Jack Foster, the central figure in the story, is a fine type of railroad brakesson, the work of the story is a fine type of railroad brakesson in the conversation between two men, one of whom has lost his leg owing to home troubles having occupied his mind at a critical moment.

A friend induces Jack to attend a Safety First rally, at which unsafe practices are illustrated. Jack is so impressed with what he has seen and heard that on his return home he bends over the bed where his two children are sleeping, and determines to banish carelessness forever.
