Corinthian lodge, No. 330, A., F. and A. M., celebrated its fiftieth anniversary yesterday at an afternoon and an evening session in the Masonic temple. Guests of distinction were present from the city and from outside places, including members of the Corinthian lodges in Toronto and Peterboro and District Deputy Grand Master J. Birnie Smith.

At 2 o'clock in the afternoon, the golden jubilee festivities started when the lodge was opened in the first degree by Wor. Bro. Bennett. The first degree was exemplified with Wor. Bro. H. C. Ives as worshipful master and the regular officers assisted by past masters. At 3:15 o'clock a candidate was raised to the second degree, with Wor. Bro. LEADERS WANTED Rural District Work Draws Praise From Many

Delegates.

Splendid reports featured the opening session of the second day of the provincial W. M. S. of the Fresbyterian church. In every case the reports were comprehensive and very encouraging. As in yesterday's outline of the different presbyterials, an increase was shown in practically every department. Leadership was greatly stressed

The fact that leaders are not available was pointed out as a very serious condition in almost all the reports submitted. Without leaders the work cannot go on successfully, and a plea came from the presby-terials, asking for women who will increase the interest in the socie-ties. Mrs. J. McL. Smith of Parrie stated that her presbyterial needed leaders for the mission band" Several secretaries commented on the work in rural districts. In the London presbyterial and in the Lindsay presbyterial, this work is outstanding. Much is being done in the country for the women, and their work is progressing most favorably. The presbyterial of Algoma made

The presbyterial of Algoma made the first report of the day, which was submitted by Mrs. J. McIntosh.

The success of the W. M. S. in this district has been an uphill climb, but the officers have persisted, and at recent annual meeting 50 delegates were present, and this is splendid.

The presbyterial of Algoma made that the first supposed that Capt. Jackson, who suffered from shell shock, is a victim of amnesia and has returned to visit friends in England. Laughs At Proposal of East Londoners To Protect Rectory St. School.

Members of the board of education are not inclined to take seriously the proposal of east end residents to surround the Rectory street public school with a posse to prevent its demolition by the board.

Styling the plan as "perfectly, absurd and most extraordinary" Trustee Rev. R. D. Mess, M. M., points out that this is "a law abiding country surely and that the board cannot be thus prevented from carry-

ing on its legitimate business.
"There is no doubt about the legality of the board's decision to tear down the Rectory street school", de-clared Mr. Mess. "The decision was reached after serious consideration and the board is going ahead with its plan."
"Oh, pshaw", remarked Chairman

# OIL MEN FIGHT TO HOLD BOUNTY

Producers Threaten To Close Wells If Money Is Cut Off.

## **SURPRISED AT ACTION**

Oil producers in the Petrolia field have decided to make another appea to Ottawa for the retention of that section of the bounty which stands in danger of being removed at the end of June.

The first step was a meeting of producers called in the town hall, Petrolia, presided over by Mr. Greenizen, president of the producers' association. In his remarks he told of the steps that had been taken to get the dominion authorities to send representatives to the Petrolia district to secure information about the situation. This had been done, and Mr. Russell had visited the field and gone carefully over the situation, and Petrolia men were satisfied that his Petrolia men were satisfied that his report would be such as to strengthen their case. Considerable surprise has been caused by the fact that so far there is no evidence of his report having been submitted or considered. Dr. Hume of the geological department also visited Petrolia some time area and was prepared to make a reago, and was prepared to make a re-port on the effect of the removal of the bounty, which had been put on in the first place by Messrs. Fielding and Paterson in place of a duty on

Costs Are Doubled. The price of oil now is \$2.63 per barrel, plus 26½ cents government bounty, making \$2.89½. Nothing to Do But Keep House and Mind the Children.

A man and a woman have been have the harder life, men or women, and they have asked me to referee the fight. The man says that women have a soft snap because the husband has to earn the living for the family, while the wife has nothing to do but stay at home with the children. He says that the men to referee the fight. The man says that women have a soft snap because the husband has to earn the living for the family, while the wife has nothing to do but stay at home with the children. He says that the men to referee the fight. The man says that women have a soft snap because the husband armories. The meeting was well attended, business including the voting journey through the wildest regions of the world's darkest continent. And says that the man must work, no hospital. The chapter has decided to matter how tired and sick he feels, while if the woman doesn't feel well she can lie down and take a nap and let her work go until the next day, whereas a man's work must be done

He says that the man is worn and harried by the sense of his responsibilities, while a woman has nothing on her mind but her hat. Furthermore, he opines that a man has a perfect right to be fractious and cross and irritable home, because his business anxieties wear his nerves to a frazzle, but that women have nothing to worry them and consequently no excuse for nerves, and so when they are ill-tempered it is nothing but pure dev-

To this the woman replies that if he thinks being a woman is such an easy job he should try it for a while. She reminds him of the old adage that says that man works from sun to sun, but woman's work is never done, and she asks him what would happen when a hungry family came trooping in for dinner and found nothing to eat, and the woman of the house calmly reposing on a couch, because she didn't happen to facilities cooking that day pen to feel like cooking that day.

And she wants to know which is the more nerve-wearing proposition, working all day in a quiet office or store or shop, or working all day with three or four children shricking Twelve-hour duty, in place of the and fighting and quarreling under existing 20-hour duty for private foot, and a teething baby incessantly wailing. If anybody in the family is justified in being peevish, she thinks

it is the woman. I agree with the woman in her contention that women have the heavier burden to bear. Life isn't easy for either men or women, but woman's lot is so much harder than man's that when I hear that a girl baby has been born I

could weep tears of pity over her. Nature itself handicaps woman. It makes her of more fragile clay and more easily broken than man. gives her less physical strength than man, yet calls upon her to endure more. It makes her subject to all diseases of man and then adds few ailments of her own for good measure. It calls upon her to suffer

If a woman goes into business, she has to combat the preju against her sex, and not only do as good work as a man, but better work and more of it to get the same pay. She is less able physically to stand the strain of long hours and intensive application than a man is. Skirts, even if they are cut off to the knees, are a hindrance when you are trying to climb the ladder of success. Every working woman has to hold her job with one hand and defend her conracter with the other.

Any boy starting out to make his fortune has so much petter chance of winning out than a girl has that it is no wonder that she so often gets discouraged and decides that it is better to sit down and powder her nose and marry him when he has needed the goal then it is to try fortune has so much better chance of winning out than a girl has that reached the goal, than it is to try to compete with him.

The average domestic woman's life is infinitely harder than that of her husband. He works hard, but she works harder, for her day begins earlier than his does and ends later. The wife gets we and cooks breakfast and gets up and cooks breakfast, and wakens her family to come and eat it, and long after they are in bed at night she is still at work patching and mending and cleaning and pressing so that they may go forth decently clad the next day.

ORR-REEVES. On Monday, May 4, at high noon, a wedding of interest was solemnized at the home of Mrs. Jennie Reeves, Mitchell, when her youngest daughter, Hazel Beatrice, was married to Reland Orr, of Detroit, only son of Mr. and Mrs. Thomas E. Orr. of

ming.

The bride, who looked charming in a gown of French blue georgette and gold lace, carried a shower bouquet of carnations, and entered the drawor carnations, and entered the draw-ing-room leaning on the arm of her brother, Mr. John Reeves. The mar-riage took place under an arch of evergreens and daffodils. Miss Eileen Reeves, sister of the

bride, acted as bridesmaid, and the groom was supported by Mr. Lester Stokes, of Windsor. During the signing of the register, Miss Vera Orr, sister of the groom, wearing a lovely blue silk gown, sang "At Dawning." PORT STANLEY A. V. P. A.

A largely attended meeting of the A. Y. P. A. of Christ church, Port Stanley, was held last night in the parish room of the church.

A number of very interesting games were played and enjoyed by all the members. Preceding the recreation period a game of softball was indulged in. According to the manager, A. T. Gagg, the team promises to be a crack aggregation and the members are looking forward with interest to future games during the summer with London and St. Thomas A. Y. P. A. ball teams.

It was decided to accept the offer of St. Luke's A. Y. P. A. of St. Thomas to stage their play on May 20. The next practice for the bail team will be held on Saturday afternoon. A very quiet wedding took place at the rectory of St. Paul's Anglican church, Stratford, recently, when Esther Elizabeth, daughter of Mr. and Mrs. William Arthur, of St. Pauls, was united in marriage to William Alfred Mayne of Stratford. Rev. S. A. McDonnell performed the ceremony. Mr. and Mrs. Mayne will reside in Stratford.

### Mrs. Timmy, the Flying Squirrel, Saves Her Babies From Red Terror

By THORNTON W. BURGESS. Mrs. Grouse was not the only que who had made a home in the Green Forest on the other side of the old road. Even before Mrs. Grouse had moved over there Timmy the Flying Squirrel and Mrs. Timmy had chosen to make their home there, and for very much the same reason. They wanted to be where there was likely to be less danger while their family was growing up

was growing up.
So in an old home of Drummer the So in an old home of Drummer the Woodpecker, quite high up in a dead tree, they had made their home and there their babies had been born, four of them. How little Mrs. Timmy did love them! She was sure that never in all the Great World had there ever been such wonderful babies before. Being naturally that there ever been such wonderful bables before. Being naturally timid you can guess how she worried over those bables. She couldn't bear to leave them even long enough to get food, and always she hurried back sure that something had happened to them while she was away.

hours of weariness and turmoil. The cultivation of the habit of reading good literature was begun at home as was the cultivation of good manners. It began in infancy when the mother sang beautiful songs to her child or recited nursery rhymes.

The speaker pointed out that people often spent hours chasing celebrities that they might have a moment with them. Yet the society of good books was constantly open to them.

The meeting was held at the home

When she came out a few seconds later Mrs. Timmy had a baby in her mouth, holding him by the skin of mouth, holding him by the skin of the neck as you have seen a mother Cat carry her kittens. She jumped

But the little mother thought only of her babies and picking up another she hurried out and made the first long jump. By the time this one was safely in that they might have a moment with them. Yet the society of good books was constantly open to them.

The meeting was held at the home of Mrs. A. D. Robertson, St. James street, an important feature being the reading of Mrs. George MacDonald's report or the provincial chapter meeting in Hamilton. Plans for an evening meeting on May 19 were made, when Prof. Dorland of the University of Western Ontario will speak on 'World Citizenship." This meeting will be held at the home of Mrs. T. W. ### What Is the Next Step.

The case of Cecil Smith of Windsor has once more come into the limelight, and the supreme court has decided that profits which he made in carrying on operations as a bootlegger represent recognized by the law as taxable.

Mr. Justice Mignault, in giving his decision, which was agreed to by all the supreme court judges, pointed out that it was never intended recognized as taxable. He pointed out that "it is difficult to conceive of the minister requiring the expense incurred in making the gains, in the able as deductions against them, and, as to all information furnished by the wrongdoer, there would be a promise of secrecy for his protection."

This is in many ways the most remarkable and at the same time the most unthinkable case breaking the law.

### "Let Us Write Them a Letter."

City council ordered another letter written to the street railway company. This time it is to be penned by the city engineer, and he will inform the railway that they must restore the service taken off of Oxford and Normal lines. This letter-writing campaign is at least good for stenographers, the makers of paper and the postoffice department. While one section of the community will strive to pay off government debts by using beer and gasoline the city council will do its bit by way of excess postage.

The files of correspondence between council and traction magnates grow in bulk. It was on illegal operations, and therefore cannot be January 20 that the council went on record that the recommendation of his worship the mayor that the committee again meet with the London street railway at an early date with a view to further co-operation on street railway matters be that gains made from illicit trading could be approved and his worship the mayor be authorized to arrange a meeting."

Again on February 13 No. 1 committee recriminals to furnish details as to the profits ported "that the engineer be requested to confer derived from the commission of crime or with the street railway on the condition of the demanding of them the keeping of books or track paving and report." On the 17th of the records of their illicit and criminal operations. same month came harsh words from council that Furthermore, if the gains derived from crime "London street railway be notified that on and are within the contemplation of the statute, then after the 8th of March the fares of street railway service must be as defined by bylaw 916 and as employment of criminal agents, would be charge confirmed by the legislature of the provincial

parliament at its last session." Then came the series of letters arranging for more conferences with the idea of a compromise whereby the railway would keep its five-cent fare if it agreed to spend \$75,000 on road work. Then that has come before the courts. It is one of the another notice, legal to the last dot on an "i" cardinal principles of justice that those who and the correct crossing of a "t," went forth appeal for it must themselves be just. The that the old rates must prevail. More recent supreme court names a bootlegger as a criminal still was Alderman Smith's hectic plea for anand a wrongdoer, and yet he appeals to the legal other conference "where we could get our feet machinery that is erected for his punishment under the table with the street railway officials." in order to save the gains he has made from Lastly was the order passed by council on Monday asking the engineer to write once more that One can imagine what would happen if a tax- there be a restoration of cars taken off certain

Through all this the street railway company has remained where it was. It turned down the idea of a compromise, it entered conferences knowing what it was going to do, refused to reduce its rates, and has run its service as it has seen fit. The company has had the better of where it is, with the declaration of the supreme the argument all through because it knew court that gains from bootlegging constitutes definitely what it was going to do at every turn. money that was obtained by wrongdoing, and It had a policy of retaining the five-cent fare and conceding nothing. Until the city council is in a position to take a similar attitude and know law and common sense. Dr. Arnott is quite modest regarding his achievement. He said he preferred to say nothing of it. "I did not intend that anything should be published on it until after it had been placed before the association." he stated.

### Successfully Used.

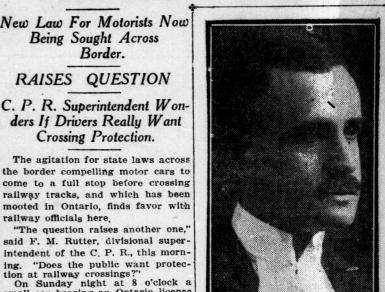

Asked with what success he had met with up to the present, Dr. Arnott said: "For the last ten years I have successfully treated the disease in my practice and that is what I am placing before the association. I would not do that unless I had something to offer. I would much rather not discuss it further. As a matter of fact it is no secret. The medical profession in London is familiar with scientific study of ulcers and cancer. For years he labored to bring about

a simple treatment that could be handled with ease and despatch by

Dr. Arnott describes the treatment claims to have used with success. Having made a satisfactory diagnosis, the one general plan is followed, whether the disease be gastric or duodenal. General management, continuous for one year, is as follows: The patient is given but two meals in the day and these are spaced five to six hours apart. Absolutely nothing but water is allowed between meals. The intention is to secure daily fourteen hours of physiological rest for the stomach and duodenum. Should there be a retention of food, the stomach is washed out with warm water, four or five hours after the second meal. Fatigue is to be avoided where living conditions will permit, and all are required to lie down for fifteen minutes immediately after leaving the table. The treatment, affecting as it does

only the diet of the patient, will not likely interfere with his normal everyday life. A strict observance of the rules affecting food and drink will practically effect their own cure.

## Golf AS CHAMPIONS PLAY IT

THOUGH SHOTS ARE SAME FROM EITHER SIDE

Should the left-handed player mains shots any different from the righ hander? By JOCK HUTCHINSON

British Open Champion, 1921
I can see no good reasons for a left-handed player making an attempt to play his shots differently from a right-handed one. The same principal to th right-handed one. The same prince loss would apply to a stroke no matt from which side the ball is hit. However, I suggest that beginners learn play right-handed, as it will becommore natural after a year's practic Play from the side that seems easie to develop rhythm and timing.

He spoke, this clean-limbed Apollo, He spoke, and I heard him say: "I intend—I hope you follow— To play, but I won't take pay."

Loud was the laughter and witty The repartee greeting this line; They'd heard the same old ditty, And took it just for a sign.

A sign that checks were not wanted, They might be a dead giveaway, Whereas cash gives no chance to be taunted As an amateur playing for pay.

The Hamilton pro hockey players were promised sweaters in the middle of the season if they finished on top, and despite the strike the This is the hockey version of "coals of fire."

"I didn't ask for any money," said Hugo Quist. "Nurmi," said Paavo.

SENIOR RUGBY.

Paddy Jones, in the Hamilton Herald, writes: "Confirmation of the Herald's report of Harry Boyett's decision to make London his home was received this morning when "Texas" walked into the Herald office to say "So long" to the members of the Herald sporting department. He will leave for the Forest City Tuesday morning. Harry expects London to be represented in the senior O. R. F. U.

Local officials are cagey about confirming any possibility of London playing senior rugby this year.

Yet with the start made last year in popularizing the game, it's not ar impractical idea to toy with on a cool spring evening. Western University does not find the jumps to Toronto prohibitive and carfare seems to be the most forcible argument advanced against London playing senior rugby. With Boyett here and also a few more possibilities, London would have a team, half of the players of which

had already performed in the three senior series, the Interprovincial, Intercollegiate and O. R. F. U. LACROSSE.

Lacrosse as far as junior and intermediate possibilities go has taken the count in London apparently. No game ever made a more gallant attempt than lacrosse essayed to get a footing in London. Or rather, it should be said, no more unobstrusive bit of real sportsmanship was ever offered in London than the ill-fated attempts of E. H. Johnston to revive the national game here. Almost lone-handed he struggled to get game a footing in London. It achieved a precarious foothold in 1914 when London went into the finals, but that was the crest.

To the everlasting credit of lacrosse, it was the heaviest sufferer in the war, confirmed by the records not only of interrupted competition in Canada, but by the fact that at the historic Dominion Day sports celebrated by the Canadian Corps at Tinques, France, in 1918, the lacrosse play-offs produced a standard of play that was its own eloquent testimony to the way in which the game's devotees had answered the call.

Attempts to revive the game here after the war did not achieve any success. T. H. Yull, in the same unobtrusive way, supplemented Mr. Johnston's still untiring efforts and financial support, but only to meet Meanwhile the game is flourishing in adjacent cities.

Sarnia is out with the announcement that in the shuffle for lacrosse

stars they have corraled on less than five good ones. Manager George Stevenson of the Tunnel Town expects to make his friends from Wallacetown step to town each time they meet, and as the Sugar Berg crew are not expected to be as strong as last season, without "Lanky" Weir. the two western rivals should have a battle royal each time they meet.

If group number two of the senior series fails to materialize it will likely force St. Marys into their last year intermediate section with Wallaceburg and Sarnia. Windsor, the fourth member of the 1924 party, have not yet announced their intentions.

CHIVALRY.

If girls will play softball, apparently they need not expect any chivalry from the men's teams in the matter of getting dates at the federal square.

The Men's city league with 21 teams feels that in being allotted only three nights as against two given to the Major Girls softball league, which has but four teams, it is the victim of mistaken chivalry on the

Therefore a delegation composed of George Sinclair, Roy Brisco and Dave Logan will bear down upon Mayor Wenige and inquire succinctly: "Why the this feminist movement on the Federal Square?" It seems that the city leagues took the initiative in getting the

Federal Square fixed up and had the bills sent to themselves. And while they haven't sworn a secret oath against the conventional doffing of hats to women-even lady softballers-they feel that this chivalry stuff can be carried too far.

Mayor Wenige, as the usual agile politician would do, will likely seek to hide behind the skirts. However, it will be poor cover, for the girls don't wear 'em.

Special to The Advertiser.

Petrolia, May 5.—Petrolia will boast of two lacrosse teams this year in the O. A. L. A. It was decided by the executive to enter teams in the midget and juvenile series. Pete Zimmerman has again taken charge of the youngsters and had twenty players out to last night's practice. There appears to be fine prospects for both teams, especially the midgets, who have entered the finals twice before against Hanover. They will endeavor to clinch the title this year. The juveniles were organized only last year, but with a little more experience they will give a good account of themselves. They will he grouped with the Sarnia teams again.

Old Neptune **Never Thought** Of This Idea

By AL DEMAREE.

Johnny Weismuller, world's champion water demon of the Illinois A. C. has his own private means of winning a race, over and above his training.

Johnny tells me that before ever race that before ever race that before ever race. We beg to call the attention of hese managers and owners to the vork of the St. Louis Browns in their irst seven games of the season. The Browns in these seven games, made a otal of 87 hits, an average of more than 12 hits per game, and scored an iven 50 runs but won only two of the even games.

There seems to be considerable to asseball beyond the base hit.

Managing a ball club is supposed to destroy a man's value as a player, but if Eddie Collins continues at the sace he has been setting since the itart of the season he is going to mock that supposition to the several vinds. Collins, one of the oldest layers in, the game from the standiont of service, is fielding as well is he has fielded in years. He still overs the same amount of territory and outguesses batters with the care.

Johnny's an obstinate sort. Perhaps that's why he has picked a collection of luck omens that most others consider bad luck. For instance, he believes that black cats, walking under ladders, and the number thirteen are good luck.

And his record seems good enough reason to believe they are. Weismuller is the fastest dash swimmer this country has produced.

### Roper Likely To Join Hams

Wetzel Expects Veteran To Be in Lineup Today.

Special to The Advertiser.

Hamilton, May 5.— The best news from "Buzz" Wetzel since he and the Hamilton Mint warriors established their camp at Battle Creek, arrived this morning, when "Buzz" himself conveyed the information that it was altogether likely that Clarence Roper, the Clippers' smart third sacker of last year, would be in the official line-up for the first game at Bay City tomorrow.

for the first game at Bay City tomorrow.

Wetzel couldn't say positively that Roper would play. But he did say that his presence was very likely, and to anyone who knows Wetzel this means that the hot corner guardian will be on the job. He of the soiled "unie" has been holding out for a little more money than the club could afford to pay, in view of the reduced salary limit, but he has evidently decided that a little is better than nothing.

With Roper back, Wetzel's aggregation appears strong enough to do hands some battle with the other five teams in the circuit.

orandparents relied on ENO Years before the C.P.R. spanned Canada, ENO's "Fruit Salt" had found its way across the continent. As years have sped, its sterling merits have become more and more widely acknowledged. Now there is not a corner of the civilized world where the morning 'dash' of ENO is not part and parcel of life as it should be lived. ENO excels because it is the one simple, pleasant and, above all, natural way to ensure internal cleanliness. You never wish you hadn't taken ENO, as perhaps you have wished with other laxatives. It doesn't do good to-day to leave you worse to-morrow. It excels, too, because of its purity, its unchanging high quality, its freedom from purgative mineral salts and sugar and flavouring matter. The rule of our grandparents— ENO's "Fruit Salt" first thing every morning—is as sound today as ever it was. Harold F. Ritchie & Co., Ltd.

Ralis and public utilities were the center of speculative interest, buying of the former being stimulated by publication of a report shoding that car loadings for the week ended April 25 established a new high record for the year, and exceeded those of the previous week by more than 36,000 cars.

Utah Securities soared 8½ points, Jersey Central 5. American Ice, Electric Power Certificates, Pullman, American Zinc preferred, Frisco common. Seaboard Alr Line, Chicago and Northwestgra, Missouri Pacific preferred and Texas and Pacific sold 2 to nearly 3 points higher. There were a few additional weak spots, Tidewater Oil breaking 4 points, Maxwell Motors B 3½, and Nash Motors 2½ points.

Call, money renewed at 3% per cent.

## Market Sidelights

Strength in the shares of Twin City comes concurrent with the report from Montreal that the Twin City Motor Bus Company, owned by the Twin City Rapid Transit Company, has filed petitions with the state railroad and ware-house commission for authority to operate six bus lines in and out of the Twin Cities, including an intercity line running on Lake street in Minneapolis, and Marshall and Summit avenues in Ist. Paul. t. Paul.
Officials of the American Auto Transit

Company, now operating the brown buses on the Lake street route said the move is "the opening of a battle for control of the line." At a meeting of the board of directors of the Vipond Consolidated Mines, Limited, held yesterday morning in Toponto. it was decided to proceed immediately with the deepening of the Shaft a further 300 feet below the 1,000-foot level. The question of the renovation of the mill is under construction. The directors of Keeley also met. It is announced that no definite decision was reached with regard to the sinking of a new shaft, but the matter is still under consideration.

STANDARD EXCHANGE Canadian Press Despatch.

Toronto, May 6.—Consolidated West Dome Lake and Hattle, with McKinley-Darragh, led the market on the Standard mining exchange today. West Dome recovered 1½ points at 13½, but Hattle sold steadily at ½, down ½, and McKinley-Darragh was a half point lower at 34½. Argonaut on active trading climbed 2½ points to 25¼. A point gain by Barry-Hollinger and three points by Mining Corporation were about the only changes registered that were not fractional declines.

New York, May 6.—The raw sugar market was quiet today, sellers were asking 2½c. Associated Press Despatch.

New York, May 5.—The raw sugar market was steady and unchanged today for spots at 4.27c, duty paid. Sales reported were 125,000 bags of Cuban and 18,000 bags of Porto Rican for June shipment at 4.30c.

Trading in raw sugar futures was more active. Price movements were irregular. New low records for the year were established at the outset, when prices declined 1 to 4 points under commission-house liquidation, but at the decline there was active covering credited to a large Cuban house, and prices rallied, closing 2 points lower to 4 net higher. May closed at 2.54, July 2.68, September 2.80. December 2.80. July 2.88, september 2.80. December 2.80. Refined sugar was unchanged to 10 points lower, list quotations now ranging from 5.50c to 5.70c for fine granulated, the inside quotation representing a new low record for the year. One refiner was quoting 5.50c, while all others were said to be accepting business at 5.60c. Business, however, continued light.

Canadian Press Despatch.

Toronto, May 16.—Activity in Smelters and bank stocks were the features of this morning's brisk session of the Toronto stock exchange. Large blocks of Consolidated Smelters changed hands and the stock climbed % to 70%, the noon close being at the high figure. The banks had an active session and prices were strong, Imperial gaining a point at 185 and Bank of Toronto % at 199%, Montreal holding unchanged and one or two others strengthening fractionally. There was no outstanding stock other than Smelters, except perhaps F. N. Burt, which receded % to 45. C. P. R. gained % at 145½, and Steel of Canada % point at 84%. On the weaker side Consumers' Gas dropped % at 168%. up %, after having sold at 166%.

Dominion Textile touched a new high at 76%, up a full lpoint. Asbestos issues were less active. The common fluctuated between 77 to 77%, and closed at 77%, off %, while the preferred showed a 2-point reaction to 103 on a small turnover.

# TICKET SELLERS' IDEA

Colored Singers Strike When Audience Is Segregated.

Canadian Press Despatch.

Winnipeg May 5.—Wheat prices continued their gradual and yet persistent climb here today. With export demand almost totally lacking and pressure light, the bullish sentiment was construed as a sign that the trade was still influenced by reports of acreage reduction in the United States.

The market acted stubbornly throughout the session, the fluctuations being comparatively mild. May delivery, which closed at \$1.72½, advanced 2½c from Saturday's close. Shortly before the end of the session the nearby future soared to \$1.73½. July gained 1½c at \$1.66½, and October was up ½c at \$1.33. Today's jump represents an advance of 20c in the price of wheat since the beginning of last week.

Trade volume was light, with selling chiefly confined to "longs" who were taking profits on the bulges. Liverpool cables closed 1½d down, and seaboard reports stated that a very moderate business had been worked during the holiday, with bids out of line and the foreign buyer showing no interest.

On the coarse grain markets rye displayed the outstanding strength, and after advancing 8½c, closed 4½c higher. There was good buying of this commodity by exporters, while some spreading was worked by the trade. Oats reflected an easier tone but demand for barley and flax improved slightly.

Cash wheat failed to improve its postion. Cash oats continued in demand for all grades. Barley, rye and flax experienced a quiet spell.

Washington, May 6 .- Negro delegates to the quinquennial convention of the international council of women were pledged today to attend its remaining sessions despite a disturbance occasioned last night when two hundred negro singers refused to appear in a musical program be-cause of segregation in the audience

of negro visitors.

The negroes left in a body when Sallie Q. Brown, former president of the national association of colored women, speaking for the singers, an-nounced cancellation of the engage-ment. Officials of the council expressed regret over the incident, and disclaimed any responsibility. It developed that a ticket-seller, who said he had received no orders in the matter, sold the negroes seats in only one section of the convention

### EGG MARKET REVIEW

Inspector Jollat, of the Ottawa police, is convinced that Uffett either was able to get out of the district or has friends helping him to hide. The police are endeavoring to find traces of a man called Bob Smith, believed to be an uncle of Uffett, and question him.

Police were engaged last night in following up dozens of reports of men answering the description of Uffett. The reports came from all parts of their district and by their very number and variety were stamped false, although police investigated carefully each and every one.

If Uffett has been able to get out of this locality police hope that he will be picked up somewhere on a charge of vagrancy and recognized.

### The Process that makes Canada's **Finest Tires**

THE latex web cord treatment, patented in Dominion Royal Cord Tires, is the most forward development in tire making Canada has known.

This exclusive process does away with cross ties, thus eliminating destructive internal friction and heat.

The cords are individually saturated in natural liquid rubber (latex) and then united in a perfectly flat even web. The absence of any irregularity removes the last cause of friction. Heat is eliminated—adding to the life of the tire, This exclusive process adds nothing to the cost.

## Church Union Discussed By Presbyterian Women In Heavy Business Session

Mrs. McEvoy Declares Church Has Unparalleled Opportunity.

COMMITTEES REPORT

Raising of \$269,000 1924 Broke All Records of Giving.

Excitement hovered over St. Anirew's church yesterday afternoon, when the many delegates of the Provincial W. M. S. of the Presbyterian church met for the formal opening of their eleventh annual convention. Though straight business was the forecast of the session, many an odd group discused the important question of union, and many an opinion fell from lips on each side.

The evening session was devoted almost to work being done by the Canadian Girls in Training groups throughout the province, and some interesting facts were placed before

the assembly. that the meeting in this city this year, and in St. Andrew's church, was very significant, as the St. Andrew's W. M. S. was celebrating its jubilee year. She extended a warm welcome girls, who had graduated from this to the many visitors, and said: work, tell what it meant to them. "Though we cannot virtually offer Miss Madeline Roddick gave the to the many visitors, and said: "Though we cannot virtually offer

# The Operation I Avoided-

IF there is one thing more than another a woman dreads, it is a surgical operation, and to be told that one is necessary is very disheartening.

Hospitals are grand institutions, and undoubtedly many operations are necessary. However, we have received hundreds of letters from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after an operation had been deemed advisable.

Every woman who suffers as Mrs. Coffman did naturally wishes to avoid an operation if possible, and the remarkable statements which she makes in her letter will be read with interest by women everywhere.

Mrs. Coffman's Letter Follows:

Sidell, Illinois.—"I was a nervous wreck. I was suffering from a pain in my left side which was noticeable at all times, but sometimes it was almost unbearable and I could not even let the bed clothing rest on my body at night. I had been sick for seven years, but not so badly until the last eighteen months, and had become so run-down that I cared for nobody and would rather have died than live. I couldn't do my work without help and the doctor told me that an operation was all there was left for me. I would not consent to that so my husband brought me a bottle of Lydia E. Pinkham's Vegetable Compound and begged me to take it. I have taken fourteen bottles of it and I feel ten years younger. Life is full of hope. I do all my housework and had a large garden this year. I never will be without the Vegetable Compound in the house and when my two little girls reach womanhood I shall advise them to take it."—Mrs. Ida M. Coffman, R. R. No. 2, Sidell, Illinois. Alberta Woman Avoids an Operation

Provost, Alberta.—"I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I should have an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now I have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. Adams, Box 54, Provost, Alberta.

Existing highways are crowded, particularly the few that are permanent. Others break down under the ever-increasing volume and weight they are forced to carry.

Meeting this situation face to face we realize that the longer our road building programmes lag the worse off we become. Fuel costs and road repair costs mount. Driving discomfort intensifies. Increased Fighting Between French and Riffians Believed Only Prelude.

Associated Press Despatch Melilla, Spanish Morocco, May 6 .-The fighting between the Riffiang and the French is reported to be increasing in severity, but the present engagements are believed to be but a prelude to greater conflicts which will develop as Abd El Krim throws more men across the neutral zone separating the Spanish and French

The French are said to have been successful in the fighting thus far being aided by native contingents in the French area, and the advices 1eceived here say the Riffians have been driven back into their own

country in some places.

The French aviators have done effective work in bombing the tribesmen from entrenched positions and inflicting severe punishment by means

New York City.—"The day I started taking Carter's Little Liver Pills," says Mr. John A. Perry, "my habitual bad breath and

bad stomach stopped. I strongly recommend them to all those afflicted with these nasty troubles. I assure you that my own case was a bad one, causing me untold embarassment, and Carter's helped me right from the start." Bad breath comes

from sour stomach and can usually be relieved quickly by Carter's Little Liver Pills. They are wonderful for constipation, sick-headache and in-digestion and they physic the system in a mild and gentle manner, no bad after effects. At all Druggists.

# BY BELGIAN SETTLERS

Offer of \$300 Yearly Too Little-They Hunt Jobs For Themselves.

Twenty-five Belgians who came to London in anticipation of landing good jobs on Middlesex farms through the Ontario immigration department, laughed loud Belgian laughs and scurried from the office to hunt jobs for themselves yester-

John Farrell of the immigration department told the newcomers that \$300 a year was the best he could 3300 a year was the best he could offer them from district farmers.

They were amazed and hurt at the small stipend mentioned, and held a caucus right away in the office of Mr. Farrell in the old Home Bank

building on Dundas St.

It took the new Canadians but a few minutes to decide to rustle jobs for themselves. The next thing Mr. Farrell knew, the entire battalion moved with one accord to the door and vanished. Mr. Farrell has not seen them since.

RUHR MINERS JOIN SYNDICATE. Associated Press Despatch.

Dusseldorf, Germany, May 5.—All the miners in the Ruhr have joined newly-formed Rhenish-Westphalian coal syndicate.

A RIVER THAT LOSES ITSELF. Poets and others have taught us to accept rivers as more or less prosaic features in Nature's general scheme of things. Tennyson, for instance. has held up the brook as a model of virture and longevity. It is both re-freshing and interesting to discover, therefore, that there are streams which do not conform to this estimable standard, but which, very much like human beings, do things they are not supposed to do accord-

There is a river in Canada which there is a river in Canada which loses itself completely, and thereby has earned a rather outstanding reputation. This is the Maligne river, which rises in Maligne Lake, in Jasper National Park, Alberta and after playing its pranks, tumbles—as if it were applauding itself for its clever-ness—with a great rush and roar into the staid waters of the Athabaska

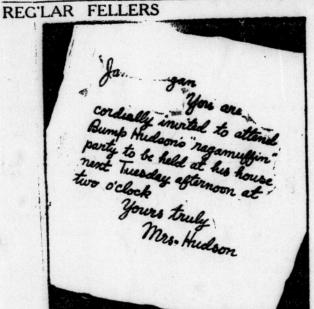

ing to the accepted theories of con-

After it leaves Maligne Lake it flows for a goodly number of miles with nothing in its appearance to indicate that soon, so to speak, it is going to sow some wild oats. It is when it reaches the Maligne Canyon, when it reaches the Maligne Canyon, situated about five miles from Jasper Park Lodge, that it begins its pranks. Here it dips suddenly, and without warning, nose dives into a narrow gorge it has cut for itself out of solid rock. Within a distance of fifty yards this chasm reaches a depth of several hundred feet and it is hard to see the water which has lessened in volume. This diminution continues until only a trickle is left. Yet before the Athabaska is reached the river is again a roaring torrent. Only one explanation seems possible, that somewhere the river loses itself in an underground passage. The canyon is one of the many interesting spots for those who visit this manificent playground in the Canadian Rockies every year. Jasper National Park is reached by the Canadian National Railways.—Advt.

### APPEALS CONVICTION OF RECKLESS DRIVING Chatham Man Fights 10-Day

Jail Sentence and Fine.

Special to The Advertiser.

Chatham, May 5.—Convicted by Magistrate Arnold in city police court this morning on a charge of recklessly driving a car, and sentenced to ten days in jail, fined \$10 and costs, and his license suspended for six months, Jack Easton, of this city, this afternoon prepared to make city, this afternoon prepared to make an appeal to the county judge. He was released on bail, pending the further proceedings.

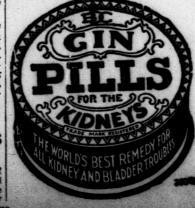

Easton was convicted on a charge preferred under the highway act, but was dismissed on a second charge, preferred under the criminal code. The charge grew out of a police investigation into an accident resulting in minor injuries to Easton when, driving alone, his car climbed a sidewalk, hit a tree and turned over.
