TUESDAY JULY 30, 1850.

We copy the following editorial notice in Burlington Free Press:

We are under obligations to Mr. Bigelow, Superintendent of the Rulland and Burlington Rough however, for Buston names of verington Road, however, for Boston papers of yes-erday-received by the regular train at 7 o'clock

We regret, however, to learn that the gentleman, to whom the public have been so much indebted for the trouble and superintendence of the matter, is now about a ving it up, in contequence, of a failure in the supply of tunde by the paries who had subscribed to pay for it; and that task week the street will be left in its original dualiness and aridness. "Gazsits.

We can confirm the above. We understand that the watering and sweeping commenced on the 3rd June, to be continued up to the 30th September, if the Subscribers, of in anumer, pay the triffe required of them.—namely, as st. We should think the saving in civiling alone, would be at least coult to as many collars.—Hered.

We cannot help feeling sorrowful from the peru sal of the above. We cannot believe that there is a man with soul so small, as to refuse complying with the repeated requests made through the city papers, viz., to call at Mr. Walsh's grocery store, and pay the small sum of 8s. 9d. for watering and sweeping St. Antoine Street for three months and a half. Burns, the Poet, wished that the man that "twisted his gruntle at o'er a glass o' whiskey punch wi' honest men," might be torwaskey punch wi' honest men," might be tor-mented, "inch by inch," with the gout. OM OUR OWN CORRESP

TORONTO, July 28, 1850.

A gellery for the Reporters has been erected in the gallory of the House; a most inconvenient place, and one that would not be accepted at any time by the Press. It would be impossible to hear the Shoakers from this new gallery. The question is not morely where the Press shall sit, but if there is to be such a settlement of the difficulty between it and the House as will enable it to go back at all. The members are getting fired of the consequences of their own folly; and least night, some Resolution was to be moved in the House acknowledging the right of the Press to sit these. Whether this was done, I have not heard, as we (the members of the Fress) seldom make our appearance at the House even a looke son. However, you will see by the Votes and Proceedings, which I have not time to examine, whether any such Resolution was to proposed.

There was a great turn out of the Temperance Societies here yesterday. Large numbers of persons had come from distant parts of the Province and the United States. Father Chiniquy, and some other great guns, aided by Malcolm Cameron, did the speechifying in the evening, after the showing off of flags, ribbons, and finsel, had been got through.

GENERAL OBSERVATIONS ON FASHIONS AND Some packages of beautiful bonnets have just been received from Paris, to serve as patterns, which our fushionable London milliners are busily engaged in copying. We will briefly describe a few which have struck us as most remarkable for elegance and novelty.

Bonnets of white crape lisse covered with a busillonner. The latter commencing at the back

few which have struck us as nost remarkable tor elegance and novelty.

Bonnets of white crape lisse covered with a bouillonnee. The latter commencing at the back part of the crown, which is in the form of a horse-shoe. On each side a flat, widely-spreading bouquet of pansics made of velvet, and mingled with sprays of grass of a bright green has.

A very fine leghorn bonnet, lightly trimmed with a beautiful ribbon of Islay green and white. The bavolet at the back consisting of the leghorn, first turned up and then folded back. At each side a bouquet of small white flowers with green foliage. Under frimming of talle and ribbon, intermingled with a few small flowers.

Two bonnets made precisely alike, the one of hiac and the other of pink crape, covered with bouillonnees of talle of the same color, and bitween each bouillonnee a row of very narrow blonde. The pink bonnet is trimmed at each side with there moss roses, and the lilaz bornet with bouquets of pansies. The under trimming of talle and the same flowers as those employed in trimming the outside.

Another bonnet of leghorn, trimmed on each side with loops of leghorn-colored ribbon and bouquet of coquelicots.

Bonnet of Fiench chip trimmed with white ribbon; and on each side a small marabout mouchete with lilac.

Riding habits for the present warm veather, especially those intended to be worn in the country, are made of light materials, such as Valencia or China satu. In town, however, cloth or cashmere are almost universally preferred. They are made with close fitting partiessus, with hasques either square or rounded in front; and the corage opening so us to display the habit shirt. The latter should be ornamented in front; and the collar turns down, and is trimmed with a bordering of needlework. Under the collar may be

PLANTAGENET WATER.

I do hereby certify, that for upwards of a year and a half I have suffered averaly from dyspenyain and costiveness, from the effect of which I because so attenuated, that all hopes of my recovery were abundanted. After having used the various remedies usually prescribed in similar cases, without experiencing any relief, I had recourse in the Plantagenet Spring States, and, since I have used them, my beath has been completely restored. As I attribute my recovery entirely to those Waters, I consider it my duty most earnessly to recommend them to whomsover may be afflicted with the above-mentioned disorders.

TURKISH BLACK SALVE.

UNDER THE PATRONAGE OF THE HONORABLI THE EAST INDIA COMPANY.

THIS SALVE, prepared from the original Re-ceipt procured from a celebrated Turkish Hakim, (physician) of Smyrna, in Asia Minor, and which has obtained an unprecedented celebrity in Great Britain and the East Indies, from the astonishing Cures performed by it in both these count, ies, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general an all classes. The Proprietors, prompted by the very flattering reception it has met with in the Metropolis, have determined on extending its usefulness to all other parts of Canada; and, for that purpose, have established Agencies in all the principal Cities. They flatter themselves that when its wonderful properties shall become more generally known, they will meet with that encouragement which the introduction of such a valuable medicament into a country justly en'itles them.-The contracted limits of an advertisement necessarily precludes their entering into any adequate detail of its merits, but, for the information of the public, they intend to publish, from time to time, public, they intend to publish, from time to time, such statements of cures as have or may occur, and statements of cures as have or may occur, most superior Steamer, which, if desired, will and for the present will content themselves with command a ready sale, and without doubt to advantage; or, if preferred, can be run with a large profit to her owners, as the following extract will which it has been used with the most complete DER BRACKS; TRUSSES Of all Killer, Markets and Compension of the C it will prevent or cure Cancers, also, Swellings arising from a blow on the Breast, Ring Worm, Pains in the Back, Rheumatism, Gout, Pains, in the Chest, Palpitation of the Heart, Complaints in the Liver, Spine, Heart and Hip, Rushing of Blood to the Head, Swelled Face and Toothache. In fact, it is impossible to enumerate half the complaints that have been cured by the application of this Salve. It is very portable-will keep in any climate, and requires little or no care in its application, as it may be spread with a knife on any

substance, such as chamois leather, linen, o Sold in Montreal by S. J. LYMAN & Co, Place PArmes; SAVAGE & Co., Notre Dame Street; URQUHART & Co., Great St. James Street ; W. LYMAN & Co, St. Paul Street, and in all the principal Cities in Canada.

A NALYSIS OF MINERAL WATER OF A POINT DU JOUR.—From Mr. Hout's Analysis of the Water of the Mineral Spring at Point du Jour, near L'Assomption, I infer that it will prove a valuable addition to those already discovered in Canada.

It appears to be well adapted to cases of scrofula, diseases of the skin, gout, rheumatism, and dyspeptic complaints generally.

Mineral Water to be useful should be taken for some time, and when it seems to lose its effect, that from another apring should be substituted; and one not agreeing with an individual, another may act kindly and effectually. Weak and deficate persons should seek the advice of a physician with regard to the employment of these watera—it would be a great blessing to society if these productions from the laboratory of nature were to supersede the vile and heterogenous compounds, with which the world is cursed, ander the name of "Patent Medicines."

Montreal, 11th March, 1880. Montreal, 11th January.

I certify that I have used the Point du Jour Spring Water in my practice, and have found it to act as a mid purgative and alterative. From the quantity of Iodine it contains, it will, I doubt not, be found useful in acrofulous diseases and in some orm of apphilis, in addition to other remedies.

> CALIFORNIA, VLA THE RIVER ST. LAWRENCE.

THE Staunch-Built Steam Propeller EARL.

CATHCART, now plying between Detroit and Montreal, and about 350 Tons Burthen, will leave DETROIT in OCTOBER, and QUEBEC in NOVEMBER, 1850, for CALIFORNIA, in charge of an experienced Captain.

The Proprietons will furnant \$10,000; part to be expended in making such alterations and improvements as are necessary, and in purchasing Provisions and Fuel for the Voyage, and the remainder to be left on board in cash, or used in purchasing extra Provisions, if so determined at a general meeting of the Ticket-Holders, to be held soon after the Tickets are subscribed for.

64 Tickets for Sale, at \$500 each. A Ticket entitles the holder to a 64th part of the Vessel, as well as a Cabin Passage to California, with such quantity of Freight as may be determined on by themselves, at the meeting, which is estimated at about Two Tons each, the Vessel to be given up to Ticket Holders after leaving Quebec.

Reasons for adopting this method of proceeding to

Reasons for adopting this method of proceeding Culifornia in preference to all others: Culifornia in preference to all others:

1st. The certainty of a short and pleasant voyage, insured by starting in November, owing to deriving the benefits of the St. Lawrence Gulf Stream, the Trade Winds, and Mid-Summer, (December or January) whilst passing through the Strats of Mageilan and the Pacific Ocean, always calm at that season of the year.

2nd. Of reaching California at the commencement of the fine and profitable season, and of having a home on arrival there; the Vessel affords such.

3rd. Of owning for each share a 64th part of

which it has been used with the most complete success—Such as Swollen Glands, Broken Breasts, White Swellings, Whitlows, Scalds from Steamboat explosions, or other causes, Barns, Fever Sores, Scrotulous Sores, Sore Nipples, Carbuncles, Gcald Head, Gun-si-ot Wounds, Bruises, Boils, Frostbites, Wens, Chilbfains, Ulcerated and Common Sore, Throats, and Bonions. If used in time, it will prevent or cure Cancers, also, Swellings and the total profit another to the New York Sun says, that the Steamships running between Panama and San Francisco, carry, on an average, 150 Cabin Passengers at \$150 each, thus realizing \$165,000. The expenses do not exceed \$55,700, so that the profits of the voyage, on passengers alone, is \$109,300. Add to this the Freight—say \$87,000, and the total profit amounts to \$117,300. and the total profit amounts to \$117,300 Tickets may be secured on early application to

GREAT CURE OF LIVER COMPLAINT OF TEN YEARS STANDING.

New York, Jan. 9, 1848.

Da. Halsky — Dr. 3 fr. — Having taken your greet Wise and Pills to remove a disease of the Liver, from which I have suffered severely for upwards of the years; and, having adhered chasely to the directions which accompany the Medicines, I have recovered my health, notwithstanding all who knew me thought my case incurrable. Previous to taking the Wise and Pills, I had recourse to the best medical freatment, but continued to grow mouse to an alarming degree. Some of my trends spoke despairingly of my case, and itted to persuade me from making use of any advertised remedies; and, I doubt not, but what there are hundreds who are dissunded from taking your x-cellent Medicines, in consequence of the deception and inefficiency of many advertised remedies put forth by unprincipled men, in faming advertisements. But, what a nity it is that the deception used by other should be the means of dissuasing menty taking under disease, from making trial and being sured by your excellent remedies. Humanty making, hey have saved my life; when I commanced making use of them, I was in a vinithed conduct, and had increased fifteen good effects in less than three days; and, in also weeks from the tima I purchased the Medicines, to the great surprise of all my filends, I was entirely cured, and had increased fifteen goods in usight, having taken one lost of the Fills and two boliles of the Wise. Would be god that every poor sufferer would avail immedied of the same remedies!
