WOLFVILLE, N. S., SEPT. 2, 1910.

The Wolfville Schools.

The different departments of the Wolfville school re-open on Tuesday of next week. A week's delay has been occasioned by the extra time taken in completing necessary work.

All floors in the basement have been laid in concrete, also floors of the toilets. Proper ventilation of both the boys' and girls' toilets is now arranged by means of bell-mouthed vents in the ceilings, which connect by a shaft with the outside ventilating stack.

The heating and ventilating plans were drawn by Mr. L. R. Fair, and the work was well performed by Mr. E. J. Delaney, contractor. The whole undertaking has been carried out in a workmanlike manner.

Temperance Picnic.

Notwithstanding the threatening attitude of the weather on Friday morning last the Temperance picnic and rally at Berwick camp grounds, was well attended.

Shortly after the arrival of the train from Halifax a meeting of the Kings County Temperance Alliance was held in the Children's Temple, at which there was a good attendance of members, and where the business requiring attention was promptly transacted.

Dinner was served in the dining room by the ladies of the Methodist church who were kept busy for about two hours satisfying the needs of the hungry.

At about 1 o'clock the public meeting was called to order by President Newcombe, and after a number of selections were played by the Herwick brass band, called upon Rev. Dr. Brown and Rev. P. S. MacGregor for short prayers.

Brief addresses were made by President Newcombe, and Messrs. C. A. Campbell, M. L. A., and N. W. Eaton, after which Rev. Dr. Pringle was called upon.

Dr. Benjamin Rand, of Harvard University, is now visiting his relatives in this his native county. Dr. Rand graduated from Acadia in 1875, since which he has made for himself a name of no ordinary reputation as a scholar and author.

Rev. J. B. Sutherland, of Halifax, who with Mrs. Sutherland has been spending some weeks in town, has very acceptably closed the point of St. Andrew's church on these Sundays. His sermons have been most helpful and very much appreciated by the congregation.

The Reviewer.

THAT AWFUL "FOOTNOTE."

It appears that in the Methodist creed there has continually appeared a most disagreeable "Footnote," so called, which prohibited dancing, card-playing, theatre-going, going to horse-races, smoking, and other unreligious amusements.

When it was adopted free-will was much more esteemed in theory than recognized in practice. The Methodists must now wonder that this "footnote" was so long submitted to, having in view the strides of political reform during the past century.

The prohibiting of certain amusements and diversions was not considered reactionary in the early days of Wesleyanism, and no one will deny that the "footnote" played an important part in making the Methodist church the power for good it became.

And to such masses the banning of certain common causes of stumbling was undoubtedly helpful. Moral rigor is of the very nature of new religious organizations that spring up as a protest against spiritual deadness, worldliness, or corruption in an official or parent church.

The oppressive jurisdiction of ecclesiastical authorities has been the basis of Christianism. Puritanism was the form taken by the revolt against the church of England in the time of Elizabeth and the Stuarts.

The Conference has wisely substituted an admonition for the express and authoritative footnote, and in that admonition it has refrained from particularizing the things to be avoided.

Dr. Benjamin Rand, of Harvard University, is now visiting his relatives in this his native county. Dr. Rand graduated from Acadia in 1875, since which he has made for himself a name of no ordinary reputation as a scholar and author.

As an author Dr. Rand has had a very wide renown because of the variety of subjects treated and the great value of his works, historical, philosophical, economic and biographical.

Dr. Rand received B. A. and M. A. degrees from Acadia and B. A., M. A. and Ph. D. degrees from Harvard.

Maritime Union and Some Reasons For It.

The question of Maritime Union is coming to stay until dealt with in some decisive manner by the electorate. The time is opportune for the campaign. Union is worth discussing and worth adopting.

Many political thinkers in this part of the Dominion are beginning to realize that the three provinces of Nova Scotia, New Brunswick and Prince Edward Island would be to-day a far greater force in federal politics and in the development of Canadian nationality, were they united and fighting shoulder to shoulder for what they are justly entitled to as partners in the confederation.

Then there is the practical result of such a change; the strengthening of the bond of feeling and interest between the Maritime Provinces and the rest of Canada. A great and powerful community, self-reliant, independent, progressive, established in this part of Canada would be a means of strengthening and perpetuating bonds of national interest.

There would be an increased strength. The strength of one new province would be greater than the total sum of all three standing each by itself. Consider how far our provincial revenues and Dominion subsidies would go.

With Union would come the obliteration of sectional jealousies, the elimination of petty discords, and the feeling of greater strength, and with the necessity for co-operation would come increased prosperity, and the promotion of the best interests of the people of these Provinces. Union would tend to foster such a feeling of self reliance as would effectually outweigh any disadvantages.

These are other subjects to be attended to.

Rev. Dr. Crowell, of the Ministers' Annuity Board for the New U. B. Forward Movement, has been appealing to members of the Wolfville congregation this week, for that cause. The movement involves raising the present endowment of \$35,000 to \$100,000, so that fully qualified annuitants shall receive at least \$200 per year instead of \$88 as at present. Last year 20 aged ministers and 25 widows were claimants on the fund. The agents claim that the scant provision for a minister's later years tends to drive active men out into secular pursuits and is justified by the facts. The 500 or more churches of the United Baptists are well able to meet the demands formulated at the recent Convention for this grand Forward Movement.

The Finest Display of Manufactures Yet Seen.

Manager Hall tells a reporter that the Manufacturers' Building at the forthcoming Provincial and Industrial Exhibition, to open on September 8th at Halifax, will contain the finest and most complete display since the Dominion Exhibition. He recites this satisfactory conclusion on account of the great list of applications for space that have been received. Mr. Hall also says that the application for prize-lists has been greater than ever before.

A feature of the Main Building at the big fair will be the Boosters Display in the Annex. The Boosters is a new organization in Halifax, and its specialty at the Exhibition will be a display of 'made in Halifax' goods which is sure to be something worth while. All the features of the big Provincial show at Halifax give promise of a splendid representation of the resources and industry of the Province and the Exhibition bids fair to be largely attended. The horse races will continue for seven days for purses aggregating \$4,200. Entries close in all classes on September 10th.

Mr. Black very kindly placed his Casino at the club's disposal and a very pleasant dance followed.
