The Advance House of The North Shore

Regular Meeting of Town Council

The regular monthly meeting of the Town Council was held in the Town Office on Thursday May 15th 1924 at 8 o'clock p.m.

Present—Mayor Creaghan, Ald. Armstrong, Atkinson, Crocker, Dickson, MacKay Morris, Ritchie and Russell.

A letter of acknowledgment from Mrs. J.R. Lawlor and family was read and Ald. Armstrong and Ald. Armstrong and Russell were appointed a committee to act with the Mayor in conveying to Mrs. Lawlor and family a resolution of condolence and to have a copy entered in the minutes. A letter from J.H. Sargeant with reference to contract to supply horses for fire purposes was referred to the Park & Fire Committee for a report at next meeting.

A request from a number of property owners for a sidewalk on the south side of Pleasant Street was referred to the Public Works Committee for action.

The following bills were passed and ordered paid.

North Shore Leader	\$167.41
Miramichi Pub. Co Ltd.	\$2.00
C.M. Dickson & Sons	\$10.00
T. McAvity & Sons Ltd.	\$90.66
Northern Electric Co. Ltd.	\$140.72
Can. Gen Electric Co. Ltd.	\$295.01
C. M. Dickson & Sons	\$3.05
Telegraph Pub., Co. Ltd.	\$2.40

The Police and appointment to office com. recommended the appointment of the following officers for the year 1924—1925.

Board of Health—A. McCabe
Street Commissioner—S.M. Jones
Building Inspector—S.M. Jones
Inspector of Plumbing—S.M. Jones

Chief of Fire Dept—John Fallon
Engineer of Fire Dept—
Caretakey of Town Horses—Wm. Hogan.

Manager Water, Light and Sewerage System—S.M. Jones.
Constables—J.H. Ashford, I. Walsh, Wm. Gallah, H.B. Cassidy, John Jardine, John J. Gallah, A.E. Petrie, D.C. Swallow, John Fallon, Robt. Beckwith, John Hachey, Staff ord Dunn, A. McCabe; Phillip Galley, Wm. J. McCormack, John McAllister, C.S. Amos; Jos. E. Maderson; A.E. Quartermain; Wesley McDonald.

Poundkeepers and Hogreaves—Geo. Witzell, Jas. Dutcher; Jas. T. Chaisson, Simon Savoy; Ernest Russell.

Weighers of Hay, Grain and Coal—T.M. Maltby, G.G. Stothart; C.S. Amos, Henry Carter; John Russell; C.P. Stothart; E.E. Benson; A.E. Petrie; Simon Babineau.

Surveyors of Stone—Jas. T. Forrest, C.E. Fish; H.A. Vye R.K. Gallo

way
Surveyors of Lumber—Michael King, Newman McDonald; Wm. Kitchen, Robt. Lingley; J.E. T. Lindon F.S. Lindon; Michael Craig; Daniel Sullivan; Chas. Cassidy; Chas. Rac; Thos. Bayle; J.R. Allison C.E. Fish; Wm. A. Craig; George Leslie; Wm. E. Russell, Jas. Sullivan Jr.; Wm. Sullivan; L. Buckley; A.L. Barry; Harry H. MacLean; Wm. Harriman.

Inspectors of Butter—F.V. Dalton; Jas Stables.
Fence Viewers—J. Robinson Allison Chas. Crawford.

Inspectors of Fish—R.W. Crocker. LeRoy White
Boom Masters—Jas. Belsley, Geo Black.

Inspectors of Shingles—H.B. Cassidy; E.E. Benson;
Deputy Fire Marshall—C.M. Dickson

This recommendation was adopted and the officers as named were declared duly appointed.

The Chairman of the Park and Fire Com. reported that the Fire Company had been reorganized with John Fallon—Chief
B.F. Maltby—Lieut
Wm Ferguson—Sec'y

Firemen—P. N. Brown; Wm Stables, Andrew McMurray; Chas. McCallum; Alfred Ploot; Jas. O'Brien; Robt. Cassidy; F. F. Matciet; Frank White; Perley Russell, Roy Dickson; Alex. Haug;

On motion of Ald. Dickson seconded by Ald. Morris this report was received and the list of members as submitted was approved.

The Chairman of the Police Com. reported that a number of applications had been received for the position of night policeman but as the time for receiving applications did not close until the 22nd the committee was not in a position to make a recommendation.

The Police Com. was accordingly given an extension of time until next meeting to present a report.

The Town Clerk submitted his report and return of the taking of a vote of the ratepayers under the Provisions of N.B. Acts 1924 Chapter 71 which was read by His Worship, the Mayor.

This report was approved and accepted and confirmed and ordered to be filed and it was further ordered that the said Report and Return of the Town Clerk be entered on the Minutes as the Record of the said Vote. Ald. Atkinson gave notice that at an early meeting he would introduce a By-Law governing the market.

The Council resolved itself into

ARRESTED IN NEWCASTLE FOR CRUELTY TO CHILD

Chief of Police Ashford received a telephone message last Friday night from Bathurst to be on the look-out and arrest if possible the wife of Joseph Peter Paul and a travelling partner who was a French woman of Jacques River and separated from her husband.

Mrs. Joseph Peter Paul was wanted for cruelty and doing actual bodily harm to an adopted child, and her partner as an important witness against her. It is reported that the child was so badly beaten that its life was despaired of and after examination by a physician the child was admitted to the hospital in Bathurst.

From information received Chief Ashford went to Eelground and ascertained that the two women had been there and had left an infant child, belonging to the French woman, in the care of Mrs. Peter Ginish, with a promise to pay \$1.00 per day for attending to the child. After making arrangements for the child they left Eelground, saying they intended to go to Chatham, but Chief Ashford intercepted them in Newcastle and arrested the both of them. They were lodged in the County Jail and the Bathurst Chief of Police came to town on the Limited Sunday, returning the same afternoon with the two women. The infant is still in Eelground under the care of Mrs. Ginish.

On motion of Ald. Dickson seconded by Ald. Morris this report was received and the list of members as submitted was approved.

The Chairman of the Police Com. reported that a number of applications had been received for the position of night policeman but as the time for receiving applications did not close until the 22nd the committee was not in a position to make a recommendation.

The Police Com. was accordingly given an extension of time until next meeting to present a report.

The Town Clerk submitted his report and return of the taking of a vote of the ratepayers under the Provisions of N.B. Acts 1924 Chapter 71 which was read by His Worship, the Mayor.

This report was approved and accepted and confirmed and ordered to be filed and it was further ordered that the said Report and Return of the Town Clerk be entered on the Minutes as the Record of the said Vote. Ald. Atkinson gave notice that at an early meeting he would introduce a By-Law governing the market.

Tid-bits on the Tip of Everybodys Tongue

Vol. No 40 NEWCASTLE, N. B. MAY 20, 1924 FREE

From Hang-chow China

Come a brief note from the Rev. Thos. Harwood, of the Apostolic Faith Mission, referring to Moir's Chocolates he states: "They were fine. We seldom get such luxuries here."

Enclosed in the envelopes were notes on recent converts that make interesting reading. One is from an old lady, Grandm. Sun.
"I am a widow with two sons and two daughters-in-law and three grandchildren. We have four help-

ers and apprentices and we all live in the one home. I began in my youth to smoke and drink and to commit many sins, and I was an awful sinner, my home was always quarrelling and growling one at the other. It was not myself and my oldest son it was the daughter-in-law or someone else. We always had somebody sick, and we were always calling doctors and paying medical bills. I used to think and wonder sometimes, well, what is the matter? I must be unlucky."
As China, so Canada!

CLEAN UP OUR STREETS

The unsightly appearance of waste paper and other refuse on our streets suggests that something be done to eliminate this nuisance. Complaints are heard on all sides and we suggest that the town place receptacles in various sections of the town for the convenience of those who have paper wrappers, paper bags etc. to drop about. These receptacles need not be expensive articles. For instance—a dozen barrels, cut in two and covers placed on them would answer the purpose. These half barrels, if decorated with a little paint would not detract from the beauty of our streets.

A Committee of the Whole to consider a proposal from D. Ritchie and Ald. Armstrong was appointed Chairman.

On Council re-assembling the Chairman reported that the Com. would report at next meeting.

On motion council adjourned

BAKE YOUR OWN BREAD WITH

What the Provinces Owe

The national debt of Canada is frequently referred to in parliament and in the press, but that of the several provinces is not often referred to except at election times. The funded debt of the respective provinces is a very heavy liability and is given as follows: British Columbia \$78,068,311; Alberta \$67,537,986; Saskatchewan \$52,772,777; Manitoba \$66,331,121; Ontario \$224,693,420; Quebec \$55,604,926; N.W. Brunswick \$26,651,432; Nova Scotia \$24,605,913; Prince Edward Island \$900,268.

Plans To Stamp Out Tuberculosis

Boston May 10—A pure health program by the state to take 10 years and involving the expenditure of \$500,000 for stamping out tuberculosis in Massachusetts was officially announced yesterday at the New England Institute. The plan is a result of work by Dr. Henry B. Chadwick superintendent of the Westfield State sanatorium for children.

It means the examination of 200,000 children. Fifty thousand have been appropriated by the Legislature for the project.

Its results are expected to be so far-reaching that eventually the plan will be adopted throughout the country. It may eventually be the basis of a worldwide program for blotting out of the white plague. It will be under the direction of the state health commission and was outlined by Dr. Sumner H. Remick director of the division of tuberculosis.

He said: "Our plan is to combat the disease by going back to the child and there eliminating its origin. The program provides for examination of all underweight children and the segregation of all children who need sanatorium care.

"The peak of the work will be reached in three years and ultimately it will develop on the local authorities to continue the examinations and carry them on with all new children. School physicians and nurses and the various local health organizations will co-operate."

HYDRO COMMISSION AT GRAND FALLS

Will inspect Properties and Then Go to Campbellton and Bathurst

St. John May 10—Additional survey parties for work relating to the Grand Falls power development will be organized within the next fortnight, following an inspection of the Grand Falls and the northern transmission areas by Hon. Dr. E.A. Smith chairman of the N.B. Hydro Commission, Hon. J.E. Michaud, member of that body. H. G. Acres eminent hydraulic engineer, who is consulting engineer to the Provincial Government in reference to the development and S. R. Weston, acting chief engineer to the commission.

The party consulted with Premier Veniot who is enjoying, at his home in Bathurst, his first real rest since the 1921 session of the Provincial Legislature.

Hon. Dr. Smith; Hon. Mr. Michaud, Mr. Acres and Mr. Weston arrived at Grand Falls on Wednesday afternoon last and viewed the proposed site of the development.

Mr. Acres had an excellent opportunity to inspect the falls under high water conditions as the freshet is on a level above the average for freshets. It is not so high as last year's however.

On Thursday by International Railway the party traveled to Bathurst, where they met Premier Veniot and held a conference with him. Plans were made, with the approval of Mr. Acres; for organizing the summer work, and two or three survey parties will be lined up as result of the plans. Considerable snow in the woods and along the roadsides to a depth of upward of three feet in sections, together with ice in some of the streams would hamper surveying just at present. Mr. Acres left for Toronto Friday night and the other members of the party left for their homes the same night.

During the trip, a general view of the section through which the northern section transmission lines will extend was obtained. A survey of a road from St. Quentin to the Campbellton road, has been completed by the Prov. Public Works Dept. and should the road be constructed it will greatly aid erection of the transmission line in that district.

Along the International Railway a large number of important settlements were noticed, with fine houses beautiful farms and evidence of prosperity. The settlements include St. Quentin; Kedgewick and Hazen. This development has taken place in a few years.

CASTORIA

In Use For Over 30 Years

Always bears the Signature of *Chas. H. Fletcher*

"Best Thing in the World For Delicate Girls"

Mrs. John Bennett, Boggy Creek, Man., writes: "My little girl had organic nervous trouble, could not sleep, had severe headaches and fainting spells. This went on for three years, and three doctors helped her very little. After reading of what Dr. Chase's Nerve Food had done for others, I got some for her. She is now so well that she is like a different child. She is fourteen years old and looks the picture of health."

Dr. Chase's Nerve Food

60¢ per box of 50 pills, Edmondson, Bates & Co., Ltd., Toronto

"We have used Dr. Chase's Nerve Food for different members of the family, when recovering from 'flu' and scarlet fever, and it has always helped them."

FIRM BELIEVER IN THE FRUIT TREATMENT

Thousands of people owe the splendid Fruit Medicine—"Fruit-a-lives"—a lasting debt of gratitude, which they gladly pay by testifying to its merits.

Mrs. Laura Alford of 28 Florence St., Ottawa, says: For years, I was a martyr to Constipation and Dyspepsia. I have tried cathartics, salts and so-called vegetable laxatives but all were unpleasant and gave no permanent relief. Finally, I decided to try "Fruit-a-lives". I have been using "Fruit-a-lives" now for seven years; never have Constipation or Stomach Trouble; and have been in the best of health ever since. My husband and children use "Fruit-a-lives" regularly. "Fruit-a-lives" contain intensified fruit juices combined with tonics. 25c. and 50c. a box—at dealers or Fruit-a-lives Limited, Ottawa.

It Pays to Advertise

Recently a man in Newcastle wanted a housekeeper and he ordered an ad to be inserted for a period of three weeks in the Advocate. After the first week he wrote as follows: "Please stop that advertisement at once, as I have more women on my hands than I know what to do with."

Another man wanted to buy a team of horses and ordered an ad to run three weeks. At eleven o'clock on the night after the paper was issued The Advocate manager was called on the telephone and the advertiser stated: "Don't run that ad again on your life. This is the third time I have been called out of bed to tell people that I do not want to buy any more horses as I bought what I wanted this afternoon. A man had a second-hand wagon to sell. He tried to get rid of it through The Advocate route. He succeeded finely and came to the office to say that he only regretted that he didn't have thirty such wagons as he could have sold fully that number."

If you want to buy or sell, rent or hire; if you want to enter into any kind of business dicker with anybody the quickest and cheapest way to get results is by advertising in The Advocate.

MILLS STARTED

A number of the saw-mills on the Miramichi River started on the season's operations last week.

ALL FULL

It is told of Charles Lamb that one afternoon after he had taken his seat in a crowded omnibus a stout gentleman looked in and politely asked: "All full inside?" "I don't know how it may be with the other passengers" answered Lamb "but that last piece of oyster pie did the business for me!"

SILVER CUP WON IN COMPETITION

By Sergeant Byron Fleiger, of Chatham

Fredericton May 15—The silver cup offered in competition annually for shooting amongst the members of the University of New Brunswick C.O.T.C. had been won by Sgt. Byron Fleiger of Chatham whose score of 81 was made at the Devon range yesterday during the annual shoot. The conditions were not good and the highest possible score was 95. When the delayed competition took place a fish tail wind was blowing, interfering considerably with the marksmen.

HORSE CIRCUIT FOR NORTH SHORE

Arrangements are being made for the formation of a horse circuit on the North Shore. It is expected Causapsal, Campbellton; Bathurst and Chatham will enter the circuit.

In Unhurried Quebec

"These 'chiens' of Quebec have no Jackie Coogan to do them justice."

Old fashioned Quebec tugs at the heartstrings of the summer visitor, because her appeal is personal. Without intention, so to do, she has struck what the advertising men work so hard to acquire...the human interest angle. Quebec is natural, simple, lovable. In our race for a living we of the cities have reduced life to a system with every action in subordination to hours and minutes. But in Quebec the habitant rises above the leash. He has something in himself which holds him to old ways. To family life, to the farm, to the horse and hand-plough; to the scythe, to the cow. Wives and daughters and boys of all ages lend a hand at everything. All the changes of the seasons fit in to the scheme of life. And yet there seems to be no particular scheme, no hurry, none of that driven feeling. No friction. And so when we get into Quebec we are sensible of a freedom of spirit. The shackles of "the drive" fall away as we come once more under the benison of the simple and the fundamental. Here by the road are the wayside Crosses common in Old France and once in Old England. The Mower is abroad in the fields. The dogs drawing their little carts still hold the road. And nothing is more humanly appealing than these dog carts of the Quebec highway. The "Dog of Flanders" has won his way to publicity on the screen, but these "chiens" of Quebec have had no Jackie Coogan to do them justice. And yet what a part they play in the life of this great Province, far larger in extent than Flanders. How the dogs fill niches in the households, jobs long ago eliminated from our scheme of life, are performed by the dog carts as a matter of course, in Quebec. Boys of the family break their hand in from babyhood, harnessing, unharassing, driving "le chien." The boy that as

soon as he is big enough will have the horses in hand. "Deep meaning oft lies hid in childish play" down in Quebec. And yet the dog cart is not merely a means toward an end. As farm life is arranged in Quebec, the dog cart is no mere child's toy, but part and parcel of French thrift. Boys sent an errand cover the miles in the dog cart. Wood to be brought from the distant woodlot on the mountainside is loaded into the little cart. With the aid of these "tiny horses and carts" small boys do this work quite easily, releasing their fathers and big brothers to men's jobs at the plough or with the heavy scythe. Textile workers in the big mill below Montmorency Falls, living in Saint Gregoire and other villages nearby have their dinner-pails brought to them by their small boys in dog carts, and if you happen along this road at dinner-time it is to see perhaps as many as thirty or forty of these little chariots. The speed attained of the dog is surprising, especially when homeward bound. Then, little Miesou can hardly hold him in. But you must not think 'tis only youth that these gay dogs of Quebec serve, their tails wagging, flying along with the baby in the cart and the family brood of boys and girls running better skitter gathering; framboise in their pails. What would the old... the old couples, the old women, do without their old dog and his little cart! But, I think perhaps one never realizes more, how much a part of every day life the dog cart is, until you happen along by some wayside smithy and see the smith hard at work turning, twisting, heating, hammering miniature axles and tires in the most hatter of a manner, part of the day's work, as much as shoeing a horse.—Victoris Hayward.

Blowing Up Icebergs

In 1912 the year of the Titanic wreck, a conference was held in London and it was agreed that all nations engaged in Atlantic traffic should co-operate to maintain an international ice patrol. All parties were to contribute to the expense, but the actual work was assigned to the United States which used the Navy and afterward the Coast Guard steamers which now includes the U.S.S. Tampa and Modoc which make their headquarters at Halifax. Last year attempts were made to blow up icebergs with TNT mines. There was one failure but a few days later a shot was placed and fired successfully. A writer in The Explosives Engineer says:

It was aimed to place the mine to capsize the berg. Selecting the berg location, a line was shot over the berg with a shoulder-gun and the mine was attached to the projectile end of the line and so placed as to be about 30 feet under water. On firing, a large amount of ice came down, and the berg commenced to rise slowly. Emerging perhaps 25 feet it then broke squarely in two each of the pieces having about one third of the original volume the

other third being accounted for in small growlers and brash ice. Twenty-four hours later, both halves had disintegrated completely.

There is something more than scientific interest in this work as an indirect as well as a direct benefit. It is a fine example of international co-operation and of the use of explosives, not to smash buildings and human bodies but to fight against a common enemy.

PAY PART OF IT NOW

In the old-time school the mathematics class felt it had a mar's job when it was wrestling with the division in the arithmetic devoted to "partial payment". It is so in business. "Partial payments prove to be big problems. The temptation comes in time of slowing down to postpone payment of an entire obligation, oftentimes when the cash to pay all is not easily accessible. The temptation is not to pay at all if not pay all. But there never was a more dangerous business to pursue.

If you cannot pay all of that bill you owe, pay part of it. It is the dollar that's moving that helps.

The school boy of a generation ago found that when he had mastered "partial payments" he had gained confidence in his own accuracy, his systematic method of work his ability to stick to a problem until it was solved. It is so with business. Partial payment is the surest method of reaching the stage for the red line and the balancing.

The dollar that is started to work now will do the work of ten before it quits—and come back ready as ever for new duties.

LARGEST RADIO STATION IN WORLD

Work in Progress Already in Great Britain

London May 14—Great Britain is to have what is claimed will be the largest and most powerful radio station in the world according to the Daily Mail. Work is already in progress on a site 960 acres at Hillmorton, near Rugby where 16 masts 820 feet in height are being created to carry the aerials.

The station is designed to communicate directly with India and Australia says the paper although neither of these countries has any station as yet, powerful enough to reply without relaying.

DAMAGE TO REPAIRS

A negro woman of mammoth proportions and inky complexion was in an automobile accident. She was taken to the hospital where she soon regained consciousness. The doctor, seeking to comfort her a bit said to her:

"You will undoubtedly be able to obtain a considerable amount of damages Mr. Johnston."

"Damages?" said Mrs. Johnston. "What ah want wif damages, ? Ah got damages enough now. What ah wants is repairs."

For the Kidneys

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate their acids formed. Help your stomach to properly digest the food by taking 15 to 30 drops of Extract of Roots, sold as Nether Seigel's Curative Syrup, and your kidney disorder will promptly disappear. Get the genuine.

CHARGED WITH ILLEGAL ENTRY

Andrew Pepall, Toronto, Arrested at Hollywood

Los Angeles, Cal. May 14—Andrew Pepall, Glass Company President formerly of Toronto was arrested at his Hollywood home by federal immigration agents late yesterday and lodged in the county jail on a charge of illegal entry into the United States.

Although Pepall was named in a warrant issued in Ontario several weeks ago against a provincial officer, accused of conspiring to defraud the government; agents said his arrest here was not in connection with the Canadian transaction.

THE WEEKLY PAPER

An ex-Governor has the following to say about the value of a weekly paper in the community:

"Each year the local paper gives from \$500 to \$1,000 in free lines to the community in which it is located. No other agency can or will do this. The Editor, in proportion to his means; does more for his own town than any other man; and in all fairness he ought to be supported—not because you like him or admire his writings; but because the local paper is the best investment a community can make. It may not be brilliantly edited or crowded with thought; but financially it is of more benefit to the community than the preacher or teacher. Understand me I do not mean mentally; and yet on moral questions you will find most of the papers on the right side. Today the editors of the local papers do the most for the least money of any people on earth."

All prices above are for Cash. Persons having no account with this paper will oblige by a remittance with the copy of advertisement. Contract Display Rates on application.

All kinds of Job Printing. Address all communications to MIRAMICHI PUBLISHING CO. LTD. NEWCASTLE, N. B.

Editorial

DANGEROUS PRACTISES

A number of complaints are heard from motorists, regarding the placing of nails and large tacks on the street, which have caused trouble for many car drivers. Last year the same complaints were heard and measures should immediately be taken to apprehend the guilty ones. Placing of nails or sharp implements on the road not only causes expense to motorists, but is apt to cause a serious accident and persons found guilty should be dealt with in a severe manner.

Another cause of complaint from car drivers is that small boys frequently throw stones at passing automobiles and in some cases have damaged the car and otherwise caused annoyance to the driver. Throwing stones or other missiles at automobiles is a dangerous practise and children should be cautioned by their parents to respect the rights of motorists.

In some parts of the town, children playing on the streets apparently take delight in running in front of a passing automobile or of standing in the road and defying the driver of the car to run them down. It is a frequent occurrence to see a small child dart across the street in front of an oncoming automobile or to stand in the centre of the road and make signals for the driver of the car to come as close to him as possible. It is a great wonder that more accidents do not happen in this locality. While the automobile driver should always look out for the pedestrian, parents should instruct their children to take reasonable care in playing on the streets and the police should caution any children they see endangering their own lives and causing unnecessary anxiety for the motorist.

PLANS STREET WORK

Among the operations which the Public Works Department has planned for the immediate future is the grading of Mitchell Street from Jane Street to Castle Street and Castle Street from Mitchell Street to the Public Square. Pleasant Street is to be attended to as soon as possible and Kings Highway is to be continued up from George Street, as well as covering the cinder road on King's Highway from George Street to the Hospital.

It is also contemplated to extend the granolithic sidewalk on Castle Street, from the D. & J. Ritchie & Co. store to Hennessy's Corner, connecting with the per-

EUGENE LEPAGE GIVES TANLAC FULL CREDIT

Stomach Trouble Vanishes And Montreal Man Gains 14 lbs. On 4 Bottles

"Since I began taking this wonderful Tanlac I seem to be getting younger every day. I have gained 14 lbs. on four bottles and everybody speaks about how well I look."

The above statement was made recently by Eugene Lepage, proprietor of Prince of Wales Hotel Barber shop, Montreal, Canada one of the most exclusive tansorial parlors in this city. Mr. Lepage further said: "Stomach trouble had almost com-

pletely wrecked my health. I was a mere shadow of my former self; and so run down and nervous I thought I would have to give up my work.

"Tanlac soon had me eating everything; sleeping like a log at night and feeling as fine as one could ask to feel. My only regret is that I did not learn about Tanlac long before I did."

Tanlac Vegetable Pills for constipation. Made and recommended by the manufacturers of TANLAC.

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

manent work to be performed by the Provincial Government.

This sidewalk is most particularly needed and the Public Works Department trusts that property owners on the streets where the sidewalk will be built, will be willing and prepared to pay their proportion of the cost.

EDITORS MAIL

We are not responsible for opinions expressed by writers under this heading. Correspondents would oblige by writing legibly, and on one side of the paper only, name and address (not necessarily for publication) must always be sent. Correspondence should be as concise as possible.

IS IT?

How can a citizen hope for betterment when constructive argument, as set forth in my last letter to the Council, considered as abuse, and the exposition of existing facts are taken as personal grievances? No citizen should have any license to abuse any other citizen, no matter what is the issue. Abuse is the shield of weaklings only.

However, to every ratepayer in any community is the right to express his opinion regarding the management of the affairs of that community, of which he is a member and a shareholder, particularly so, if this opinion may be of benefit to its citizens.

Alderman Armstrong in his letter quoted figures from my financial statement of a year ago, and conveniently forgot the other side of the ledger. He said I am taxed on forty per cent,—perhaps an injustice to the other ratepayers—but is it in my case alone?

Let us deal with this subject, with justice, without prejudice and personal resentment; and make a few comparisons, beginning with Alderman Armstrong:

The Bradstreets and R.G. Dunn gives Alderman Armstrong a rating of \$20,000, which is based on a very conservative estimate; and Ald. Armstrong is taxed on personal property; one thousand dollars only which is one-twentieth of that rating.

He is also taxed on \$6,500 which is less than one third.

Other comparisons for convenience I will call them A-B & C.

A; owns one of the largest blocks

on the square and several other large properties in excellent localities; producing good revenue; and taxed only twenty three thousand dollars. Bradstreet's rating for A. is two hundred thousand dollars.

B; owns a very modern building on the square in the Hub of the business section and only taxed on sixteen thousand dollars—Bradstreet's rating is \$75,000.

C; owns a very fine building on the square; a very commanding position; with other good property beside it and taxed only eight thousand five hundred—Bradstreet's rating is \$20,000.

There are many others but these are sufficient as a demonstration.

However my object is not to be personal; but I firmly believe that the adoption of a scientific system of distribution of our taxes will not only lower the rate but also that the amount of taxes will be less proportionately.

If real estate values were to be determined by initial cost, length and width, height and number of bricks; the marsh land of Newcastle and the standing chimney at the old Hickson mill property, would be worth more money than the property on Fifth Avenue, New York City.

For this same reason there should be a proper revaluation of real estate and a proper rate set.

Another important question must be dealt with. Is it fair and just that a citizen who spends his money to erect a building that embellishes the town and increased its value, and places it at the service of the public should be taxed to the limit, because this wealth is apparent and can be appraised? Is it just that a business man who places his capital in goods, furnishes employment and accommodations to the public should be taxed to the limit because we can see the goods on the shelves? Is it just that the wage-earner be taxed to the limit because we know his wages? Why should not the man who invests his money in bonds and securities be made to contribute his share of the current expenses of the town in proportion to his wealth? Is it because the Assessors have no

Boy's Suits
A real--big--money saving sale--of well made, strong, manish looking Boys Suits in all sizes. All real snappy models that any boy would feel proud to own.
\$6.95 a Suit
There are about 100 suits in the lot and they comprise a special purchase in all sizes from 26 to 36. The regular prices are \$7.95, \$9.00 to \$12.00 each. A real opportunity for a Good Suit at a saving price.
J.D. Breaghnan Co. LIMITED

means of ascertaining such information? If such be the case, then the assessors should have either a sworn statement or some reliable method by which they can justly and fairly distribute the taxation.

Until we can devise such a method; there shall always be a large number of defaulters which in most cases is caused through doubt and mistrust in the justice of such taxes.

Eliminate the uncertainty of the mind of Tom that he is paying more than Dick and you will have fewer defaulters.

Doubt and mistrust are detrimental to the prosperity of our town. Let us be free minded and unselfish citizens and co-operate with one another, that we may all prosper.

A. D. FARRAR

Newcastle, N.B. May 19 1924

CHURCH UNION-BILL.

If all the literature being sent out by the supporters and opponents of the Church Union Bill is read, those receiving it have very little time for any other occupation. Only a very small portion of this literature, received by the newspaper offices appeared in print. Every phase of the important matter is discussed over, and over again; many statements made by one side are flatly contradicted by the other. A prominent lawyer expressed views the other day that if the discussions in Parliament were carried on in the spirit displayed in this controversy, "Parliament would soon become a bear garden."

It must not be forgotten that men capable of strong convictions usually employ forcible language. The Church Union Bill is now before the Private Bills committee of Parliament. Newspaper writers in Ottawa prophesy that the committee will amend the bill so as to give congregations the right to vote themselves out of the Union and retain their church property. Instead of being forced into the Union first and then get out afterwards if they can. When the bill comes before the House of Commons in this

amended form, if it does reach that body it will not be satisfactory to the promoters of the bill. It is thought that in a division in the house, the denominations would vote as follows supporting the amendment, and defeating the bill:—

Table with 2 columns: Denomination, Votes. Anglicans 27, Baptists 8, Methodists 36, Presbyterian 30, Other denominations 0, Total 101.

Aurora Borealis Mystery Is At Last Solved

The shimmering glow of the aurora borealis, which has mystified scientists for many years is now declared to be due to the action of electric radiations on crystals of solid nitrogen floating in the upper atmosphere. The statement is made by Norwegian scientist, Prof. Lars Vegard of the University of Christiania as a result of experiments made in the cryogenic laboratory of Dr. Kamerlingh Onnes at Leyden.

Earlier theories about the aurora attributed it to electric radiations from the sun. Professor Vegard extended these theories and concluded that the aurora was due to the action of these radiations on nitrogen "snow" which he assumed to exist at an altitude of more than 60 miles above the earth.

To test the theory he froze nitrogen on to a copper plate by chilling the plate to the temperature of liquid hydrogen, much as the moisture of a warm room is frozen on to refrigeration pipes in cold storage plants. The rest of the nitrogen was mostly exhausted, resulting in greatly reduced pressure above the deposit of solid nitrogen. These crystals were then bombarded by cathode rays.

when examined in the spectroscope proved to be identical with the mysterious strong green line in the spectrum of the aurora that has always been a puzzle to investigators. Vegard also found that the crystalline nitrogen kept on emitting this greenish light several minutes after the bombardment of cathode rays had ceased.

He also explains the wonderful changes of color in the aurora for he found that under the electric excitation the solid nitrogen partly evaporates and then begins to emit light of the reddish color so characteristic of nitrogen gas.

Childhood Indigestion

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lubette Immaculate Conception, Que. writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them."

The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MILLS STARTED

A number of the saw mills on the Miramichi River started on the season's operations last week.

ALL FULL

It is told of Charles Lamb that one afternoon after he had taken his seat in a crowded omnibus a stout gentleman looked in and politely asked: "All full inside?"

"I don't know how it may be with the other passengers" answered Lamb "but that last piece of oyster pie did the business for me!"

SERUM FOUND AS CURE FOR PNEUMONIA

Reduction from 25 to 50 per cent in the mortality rate in pneumonia cases is assured through the discovery of a new treatment; it was announced by the Metropolitan Life Insurance Company.

The discovery was made by Dr. Lloyd D. Felton who conducted experiments under a commission appointed by the company just after the influenza epidemic of 1918-1919. The commission sought methods of combating and preventing influenza which often precedes pneumonia with the result that Dr. Felton working in the department of preventive medicine and hygiene at Harvard Medical School, succeeded in perfecting a serum which the members of the commission contend has proved effective in from 25 to 50 per cent of the cases of the most prevalent type of pneumonia.

45,000 may be saved yearly "More than 90,000 persons in the United States die of pneumonia every year" said the announcement. "If the death rate can be reduced one-half it will mean the saving of 45,000 lives in this country alone."

In its original form the pneumonia serum was weak and its value was somewhat diminished by violent reaction in the form of chills, serum-sickness and rashes. By precipitating and concentrating the antibodies of the serum Dr. Felton is said to have eliminated harmful elements and greatly strengthened the protective elements.

His first step was the discovery while studying carbon dioxide precipitate, that a heavy precipitate was formed in the serum when it was diluted with plain water. The white fluffy substance produced he tested with mice; the experiment being described as follows:

"He injected millions of virulent pneumococci into each of a group of mice. After six hours he injected the new serum into some of the mice, while he allowed the diseases to run its course with the others called the "controls." At the end of thirty-six hours the controls had died of pneumonia. The mice protected by the serum recovered.

"After further refinements of the serum Dr. Felton distributed his products to a group of clinicians in hospitals in Boston, New York and Brooklyn to be used for the benefit of those suffering from pneumonia. The encouraging results include the fact that the serum sickness and other harmful reactions have been practically eliminated."

Injections of this new serum were made directly into the veins, subcutaneous injections having been found to have little protective power. The protective substance has been isolated not only with the aid of pneumococci but in immune sera developed by other micro-organisms. It is believed that the protective antibody of the pneumococcus is one of many acting in a similar fashion and that its behaviour indicates a general law for certain groups of bacteria.

WEAK, RUN DOWN AND AILING

Lydia E. Pinkham's Vegetable Compound Brought Relief When Other Medicines Failed

Port Mann, B. C.—"I took Lydia E. Pinkham's Vegetable Compound because I was tired and run-down. I had headaches and no appetite and was troubled for two years with sleeplessness. I tried many medicines, but nothing did me any real good. While I was living in Washington I was recommended by a stranger to take Lydia E. Pinkham's Vegetable Compound. I am stronger and feel fine since then and am able to do my housework. I am willing for you to use these facts as a testimonial."—Mrs. J. C. GRAVES, Port Mann, B. C.

Feels New Life and Strength
Keene, N. H.—"I was weak and run-down and had backache and all sorts of troubles which women have. I found great relief when taking Lydia E. Pinkham's Vegetable Compound and I also used Lydia E. Pinkham's Sanative Wash. I am able to do my work and feel new life and strength from the Vegetable Compound. I am doing all I can to advertise it."—Mrs. A. F. HANCOCK, 72 Carpenter Street, Keene, N. H.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound.

Battle Between Forest Monarchs

Prince Rupert, B. C.; May 12—The story of a terrific battle between a bull moose and a timber wolf, which proved fatal to the former is told by Provincial Constable A. F. Sinclair, of Invermere.

While traversing the woods near Mellowhead Lake, B. C.; Sinclair witnessed the struggle and shot the moose, which had been mortally wounded by the wolf.

Apparently the moose had been chased for miles by the wolf. Becoming fatigued; the larger animal fell down a mountain side into a cul-de-sac and turned to fight. The moose was able to keep the aggressor off for some time, but was finally so badly lacerated that the officer considered it merciful to put a bullet through its head.

Every Home Needs Zam-Buk

It is the purest, safest and most wonderful skin remedy the world has ever known. Whether it be a cut, burn or scald, a festering, inflamed or poisoned wound, eczema, pimples, rash, ringworm, boils, ulcers, abscesses, sprains or swellings—Zam-Buk should be applied with the least possible delay.

Always Soothing & Reliable.
The skin readily absorbs this herbal Zam-Buk. It is a rare balm that gets right down into the innermost tissues, soothing, healing and purifying the skin in a way impossible to fatty salves and ointments.

Splendid For SKIN TROUBLES

COURTESY
Courtesy recalls the customer and invites a new one; discourtesy drives away those you have and keeps away others.

Discourtesy is not a mark of superiority. Your real aristocrat is the most courteous to those whom fate has placed in less walks of life than those he treads; thus we have a paradox which is of great truth—a real democrat.

Pride goeth before a fall and courtesy precedeth friendship.

Courtesy is a mantle of love; the ornament of charity, kindness in manhood, and the crown of manhood.

First Impressions Are Important

In a world where appearances are valued as indexes to character, **Your Stationery** should represent you worthily—always and everywhere.

That atmosphere of character and refinement, which should distinguish all self-respecting correspondence is assured when you place your stationery order with us. If you allow us to furnish your

Letter Heads, Bill Heads, Shipping Tags, Office Forms, Envelopes, Statements, Etc.

they will reflect the dignity and self-respect of the discriminating, and be an excellent advertisement for your business, for a business man may be judged by the quality and style of his printed matter.

The Advocate Job Printing Department

Everything in Printing

What Will You Put in the Pot?

When you drink tea every cup should be a delicious refreshment—a distinct pleasure. But this demands good tea in the pot. You cannot possibly get satisfactory results from inferior tea.

Now consider the small cost of a cup of King Cole Tea—a mere fraction of a cent. Surprising isn't it? But its secret is in the rich liquoring King Cole blend which yields so generously in the number of cups to the pound. It makes King Cole the truly cheap tea. From whichever point you view it—economy—quality—or the wise combination of both, King Cole Tea claims your preference.

"You'll Like the Flavor."

**Strength giving
Food
For GENTS
SCOTT'S
EMULSION**
For all malnourished con-
ditions, child or adult,
SCOTT'S EMULSION
is the logical food- tonic.
Scott's Emulsion, Toronto, Ont. 21-27

and followed the more prosaic ex-
istence of a business man on
the Pacific Coast.

Suddenly he announced his return
to the track. That was two years
ago. He jumped into Joe Thomas'
car the day of the Fresno, Cal.
race after Thomas was stricken with
appendicitis and had to submit to
trackside operation.

A LESSON IN SPEED
Cooper drove the car into first
place, giving the group of spectators
that had come to the top during his
retirement a lesson in the art of
getting around a speed bowl a
required number of times in the
shortest period.

He was second in the Fourth of
July race at Kansas City, last year,
and second at Beverly Hills; Los
Angeles in 1922. Cooper's best run
at Indianapolis was in 1915 when
he ran Fourth. In 1914 he was the
road race champ.

Cooper is a studious mechanical
type who keeps a detailed series of
charts and notes on the actions of
his racing car. These should be
invaluable to the Studebaker Cor-
poration under whose banner Cooper
is racing.

WELCOMED BY MAYOR
Cooper was officially welcomed
on his arrival here by Mayor Lew
Shank. His blue speed creation is
attracting much attention.

Reeve Dutton also of the older
school of mechanics is with Cooper
this year assisting the racing driver
in preparing his car for the 500
mile race.

Country Town News

Smart humorists in city news-
papers often make fun of the peo-
ple who write local and village
items for country town newspapers.
The items thus collected look
small and trifling to these folks who
are accustomed to dealing in crimes
and sensations every day.

These little items, however record
the progress of industry; the occur-
rences of social and community
events and the movements of people.
They show that the country folks
are very active in unostentatious
and useful ways and are wide awake
to the movements of the times. The
country town news items are not
usually sensational, which simply
indicates that the country folks are
keeping the laws of God and man.
Useful lives may not make exciting
news reports but they constitute
a good community to live in.

A Nut for Higher Critics

How many apples did Adam and
Eve eat?
Some say Eve ate and Adam 2—a
total of only 10.

Now, we figure the thing out far
differently: Eve 8 and Adam 8 also,
—total 16.

On second thought, we think the
above figures entirely wrong.

If Eve 8 and Adam 82, certainly
the total would be 90.

Scientific men, however, on the
strength of the theory that the an-
te-diluvians were a race of giant's
reason something like this: Eve
82 and Adam 82—total 164

Wrong again. What could be
clearer than if Eve 81 and Adam
ate 812 the total was 893.

We believe the following to be
the true solution: Eve 814 Adam
and Adam 8124 Eve—total 8938.

Still another calculation is as
follows: If Eve 814 Adam. Adam
81242 oblige Eve—total 82,056.

TODAY— Ride in this world-famous Six —the outstanding car in the \$1500 field

POWER, luxurious roominess, low up-
keep and long life at low price! . . .
a world-famous Six, the outstanding sensa-
tion of motordom today at \$1465.

Teachers to Tour Dominion

To teach the youth of Canada about Canada and do
the country justice it is first necessary that one
should see Canada. That is the view of the Canadian
Teachers' Federation and no one will question it.
With the idea of correcting any deficiencies in this
respect under which its members may be labouring
the Federation, accordingly, has decided to make its
trip to Victoria, B. C. for this year's annual con-
vention as a personally conducted tour, lasting from
August 4th to 12th and promising a very interesting
and instructive programme for the pedagogues and their
friends.

Arranged by Dr. A. E. Hardy, Vice-President of the
Federation, and R. E. Howe, President, Provincial
Association of Protestant Teachers, Quebec, in con-
junction with the Canadian Pacific Railway, the tour
covers as wide a field as is humanly possible in the
time allotted. It will be made on a special train start-
ing from Toronto and following the main line of the
Canadian Pacific throughout. Stop-overs varying from
a few hours to a day will be made at many points of
interest along the route to give the teachers a full
opportunity of seeing the sights at these places. Fort
William and Port Arthur, the great inland grain ports
of this country and the funnel through which Canada's
huge crops pour out to feed the world, Winnipeg, the
world's greatest grain market, and boasting the world's
greatest railway yards in those of the Canadian Pacific,
the bustling prairie cities of Regina and Moose
Jaw, Calgary, the metropolis of the prairie provinces
and a cow-town only a few years ago, Vancouver, the
beautiful seaport on the mild Pacific coast which is
forging ahead at almost terrifying speed—these are all
entered on the schedule for prolonged inspection. A
long stop will also be made at Banff Springs Hotel,
the palatial hostelry in the heart of the Rockies where
all the recreations provided, such as hiking, riding,
swimming and mountain climbing, will be open to the

Teachers. Lake Louise, called 'probably the most per-
fect bit of scenery in the known world', will also be
visited, lunch being taken at the Chateau there. The
magnificent run through the Rockies to the coast will
be made in daylight.

The entertainments arranged for the teachers in-
clude many automobile drives, a reception at the Twin
Cities, luncheon at Winnipeg and Calgary and a re-
ception at Vancouver, under the auspices of the local
Teachers' Association in each of the cities mentioned,
luncheon at Regina as the guests of the Premier and
Government of Saskatchewan, followed by a drive
around the city in automobiles provided by the Rotary
Club. While in Moose Jaw, the visitors will also be
taken for a drive by the local Board of Trade.

A special return trip under similar arrangements
for those who care to take it has also been planned.
Starting from Victoria, it includes the wonderful run
through the mountains over the Kettle Valley Railway,
the steamer trips over beautiful Okanagan and Kootenay
Lakes, through the heart of the fruit-growing
country, thence to Lake Windermere, and by motor
over the splendid new Banff-Lake Windermere High-
way to Vermilion River Camp and Banff. Then come
Edmonton, the prosperous gateway to Canada's rich
Northland, Saskatoon, an important prairie city, Win-
nipeg, Kenora, Fort William and across the Great
Lakes via the Soo to Fort McNicoll and Toronto. This
trip lasts from August 17th to 29th and includes a
stop-over for dinner at Penticton, dinner, a night's
stay and breakfast at lovely Lake Windermere Camp,
lunch at Vermilion River Camp, and a day at Banff.
Edmonton, Winnipeg and Devil's Gap Camp, the de-
lightful resort on the Lake of the Woods, near Kenora.
The visits to the camps, the motor run through the
mountains and the refreshing sail across the Great
Lakes alone make this return trip infinitely desirable.

Local and General News

SIGN OF SUMMER
The first man so far this season wearing a straw hat was seen on the streets last Wednesday.

MIRAMICHI HOSPITAL
The Secretary begs to acknowledge the following Hospital Day donation: Dr. & Mrs. Marven, Chatham...\$20

GOSSIP EVERYWHERE
There is gossip in every community. The only difference is that in the cities it is printed in the newspapers and in the smaller towns it is passed about by word of mouth.

SUMMERLIKE WEATHER
At last we are being treated with real summerlike weather. For the past few days it has actually been warm. Overcoats and even spring coats were shed by many, although by nightfall the weather becomes quite cool again and citizens are glad to don the top coats again.

WHAT REALLY MATTERS
The present game is getting us nowhere, and never will. Men who are accustomed to think for themselves, in most things, are beginning to ask what difference who originates a proposal looking towards some form of public progress so long as the proposal itself gives promise of accomplishing any desired object.

EXCURSION TO REDBANK
The Str. "Max Aitken" returns to Newcastle every Saturday evening at 8 o'clock and any persons wishing to take advantage of the sail can do so at the regular Excursion Rate of 50 cents until the advertised Excursion Season opens. Saturday being Victoria Day would be a good opportunity for any who might wish to enjoy the sail.

POLICE ACTION NECESSARY
Cursing and vile talk among boys is heard on the streets every day but long editorials and pulpit exhortations will not stamp out the evil. If a stop is going to be put to it, police action is necessary. A lady remarked the other day, that the talk of some boys on Pleasant Street a few evenings ago was positively shocking. It is about time some steps were taken to put a stop to this growing evil.

THE DUST NUISANCE
Cities and towns throughout the Maritimes have been experimenting in recent years with the application of oil to the streets as a means of greatly reducing or eliminating altogether the dust nuisance. Several towns have already demonstrated that for dust laying, oil is in a class by itself. We think that the men of the business section as well as the occupants of homes whose residences border on the streets would welcome any attempt on the part of the Public Works Committee to successfully battle the dust demon.

CLEAN UP
If your back yard doesn't look good to you it must look a lot worse to your neighbors. Each and every one should be interested in the general clean up movement to beautify the town and promote healthier conditions. Remove the accumulation of ashes, garbage and other refuse in yards; clear the stables and disinfest or kill this year's crop of flies. Clean out the cellar and whitewash interior cellar walls. Housewives, clear up as you clean up. Remove all useless material from attic to cellar. Get your window and screen doors ready. Give the house, including the cellar a thorough airing. Let the sunlight and fresh air into all homes, offices and schools. Insurance rates are based on fire risks so do your duty and remove rubbish from places where fires are apt to start.

THE BOY SCOUTS
The Boy Scouts attended the morning service in the Baptist Church on Sunday.

TIME WELL SPENT
What investment will pay such a return as the time you spend this spring on beautifying the little spot called home.

GAS BUOYS
The three gas buoys which mark the summer route for ships that pass in the night were towed down river last Friday. The other buoys are all in position.

ST ANDREWS' FOOD SALE
The Womans' Auxiliary of St. Andrews' Church, Newcastle are holding a Food Sale on Saturday afternoon May 31st on behalf of the Organ Repair Fund. Doors open at 3 o'clock. 21-2

SLOW WORK
The work in the square is being done very slowly and time is fitting away. The citizens hope that the work will progress a little more rapidly so that it will be finished before the snow flies.

S.S. "ALEXANDRA"
The S.S. "Alexandra" in charge of Capt. Gus. McEachren left Chatham on Saturday for Swift Current; Georgian Bay; Ont. where the Captain will deliver her to the new owners, Sims Bros.

HOLIDAY NEXT MONDAY
Next Monday May 26th will be observed as a Public Holiday in Newcastle instead of Saturday May 24th. All residents in outside districts are respectfully requested to make a note of same.

UNDERGOING TREATMENT
Archibald Fraser head of the Fraser Companies Ltd. who has been undergoing treatment at the Battle Creek Sanitarium for the past month expects to remain there for several weeks longer. His friends will be glad to learn of an improvement in his condition.

Previously acknowledged...22975.36
Total...\$29015.36

In the old days when China teas were used, the method when brewing tea was to put in a teaspoonful for each member of the family and one for the teapot. This rule does not hold good today. With a blend of India and Ceylon teas, such as MORSE'S you simply put in one teaspoonful for each member of the family; in fact even a little less will do.

THE MAYFLOWER
The true Mayflower is an English plant neither resembling nor related to its Canadian namesake. The name Mayflower is in common use but arbutus is more suitable as its scientific name Epigaea Repens means literally "trailing on the earth." The beautiful arbutus need not be exterminated if care be taken in cutting off the flowers alone and leaving the creeping vines and roots instead of pulling it up by the yard. The best way to get the flower is to use a small pair of scissors or a sharp knife and sever the flowering stems close to the creeping vines. The leaves are thus allowed to remain and manufacture food for the production of many future crops of the shy fragrant blossoms.

RETURNING FROM DRIVE
Many men are returning daily from the drives. Last week and this week a large number were in town enroute to their homes in Tracadie.

FRESH HERRING
The first catch of spring herring were offered for sale on Thursday by Indians from Barnet Church. They sold for 20 cents a dozen.

REAL SUMMER WEATHER
Real summer weather prevailed on Sunday, the temperature being the highest to date. Clouds of dust were much in evidence as a result of the gale of wind in the afternoon and the absence of the watering cart.

OUR TOWN STREETS
The Chatham Gazette has this to say about our town streets:—"the roads to Blackville are in splendid shape, once outside of Newcastle streets."

Is it not about time that our streets were placed in a condition that would make it impossible for others to say such harsh things about them? We think it is.

CLEAN UP DAY
Clean Up Day this year was not the success the citizens would have liked it to be, because of the wet weather and many were unable to do the work they had intended. Nevertheless, there is yet time to do much and we hope it will be gone through with. In taking a walk recently around the town we felt that it would give a much better impression of the town if a few certain streets were given a tidying up. This refers also to some of the private properties bordering on these streets. Is your property one of them? If so—clean it up and make the town look like something.

A SEARCH PARTY
The chairman of the Public Works Committee of Newcastle was eagerly sought after yesterday by a large number of citizens, but they were unable to locate him for some time. When found, the question "Where is the watering cart?" was put to him and he replied that the sprinkler was out of commission, but he was busy having the necessary repairs made and assured them that it would be on the street in the morning, thus making it unnecessary for any further search parties in future. We are pleased to state that the Chairman was as good as his word and had the cart out laying the dust, much to the satisfaction of the citizens. There is nothing like having a good "live wire" in charge of this department and the present incumbent is not one in whom energy is lacking.

PUBLIC AUCTION
I will sell by Public Auction on Wednesday, June 4th commencing at 2 o'clock p.m. in front of the late Mrs. Jas. O. Fish's residence, Newcastle, N.B. all the household furniture, an inventory of which will be published later.

If weather unfavorable, sale will be held on first fine day following.
GEORGE STABLES
Auctioneer.

Estate Notice
All persons having just claims against the Estate of the late Mrs. James O. Fish are required to file the same duly attested with the undersigned within 30 days from this date, and all persons indebted to the said estate are requested to make immediate payment to him.
WM. M. SINCLAIR,
Executor.
Newcastle, N. B. 20-4

NORTH SHORE MAN DROWNED ON DRIVE

McGrath Carried Into the Water by Logs on Frasers' Drive on Burned Hill Brook

Nelson May 13—A young man named McGrath, who came from somewhere on the North Shore but whose residence or Christian name are unknown here, has been drowned on the Fraser Companies Limited drive on Burned Hill Brook which empties into the Southwest Miramichi near its headwaters, according to word received at the Fraser Companies offices here. So far as can be learned, his body has not been recovered. It is said that he was struck by logs being rolled into the water.

Donald Fraser Plaster Rock while in Fredericton Monday received advice of the fatality and sent instructions that no efforts be saved in endeavoring to recover the body and completing identification of the young man. Because there is no telephone line near the scene of the fatality he said it had been impossible to get the ordinary particulars of the accident.

DAMAGE TO REPAIRS
A negro woman of mammoth proportions and inky complexion was in an automobile accident. She was taken to the hospital where she soon regained consciousness. The doctor, seeking to comfort her a bit said to her: "You will undoubtedly be able to sustain a considerable amount of damages Mrs. Johnston."
"Damages?" said Mrs. Johnston. "That ah war wif damages? Ah e.g. damages enough now. What ah wants is repairs."

When Exposed to Air

tea loses its freshness and flavor.
"SALADA"
TEA
For that reason is never sold in bulk.
