Vol. XXXI, No. 6

ARE YOU DEAF? ANY HEAD NOISES?

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

“I was entirely cured of deafness, thanks to your treatment. I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that my case was incurable. I then saw your advertisement in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noise ceased. At the end of five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain very truly yours.”

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost.

INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.

Blatchford's Calf Meal.

THE ONLY PERFECT MILK SUBSTITUTE.

Calves can be raised on Blatchford's Calf Meal from a day old quite as successfully and more cheaply than on any milk.

A KNIGHT OF THE EIGHTEENTH CENTURY.

BEING A SHORT ACCOUNT OF CAPTAIN JOHN McDONALD, LAIRD OF GLENALDALE AND GLENFINNAN.

BY MISS ANNA MACDONALD.

(Reprinted from the American Messenger of the Sacred Heart for January, 1892)

“Entreated that you will all give yourselves to God, for to Him we must all at last have recourse, I leave you my blessing.”

About sixty-seven years ago, being just able to read with some ease, my eyes scanned the above words of Captain John Macdonald of Glenalisdale. The memory of these words has since served as a light in the many darksome days of life. Having recently found the original instructions, and the Captain's letter or memorandum to his daughter Flora, I was so overjoyed at my fortune that I resolved to edit them; and this not merely as a tribute to the author, but still more from the conviction that “Words of life never fall without being taken up by some one.” To the forcible and graceful pen of Miss Anna Macdonald, one of the clan, and who with her parents, Dr. and Mrs. Macdonald, of Charlottetown, Mass., visited the ancestral Highland home of the late Glenalisdale, while on their European tour last year, I leave the task of presenting to the public a sketch of the life of the author and these letters.—AN AGED CLANSMAN.]

Last year the clan came into the possession of one of the descendants of Captain Macdonald, a letter, so interesting and so instructive, that it was thought a pity to keep it hidden among family papers. There, too, its publication would give to the Catholics of the United States and of Canada a chance to know something more of one whose deeds place him among the heroes of the Church in the New World.

In the history of the Scottish Highlands no clan is more honored or more famous than that of the Macdonalds. For centuries the great chieftains of this family, Macdonald, Lord of the Isles, and Macdonald of Clanronald, were practically independent princes treating with their king on almost equal terms. Powerful enough to awaken the jealousy of many of his neighbors, about six centuries ago, Clanronald was hard pressed by the surrounding clans. So to his younger son, a most intrepid and valiant man, he gave the estate of Glenalisdale on condition that he would protect the borders of the Clanronald country. So will was this commission fulfilled, that the delighted father added to his first gift the lands of Glenfinnan. Thus, this John Macdonald, the ancestor of the subject of this sketch, became the head of another clan, he himself and his descendants acknowledging Clanronald as their chief.

The Macdonalds were ardent Catholics and devoted adherents of the house of Stuart, with whose fortunes those of this heroic clan were inseparably linked. The defeat of Prince Charles Edward, in 1745, was for them, as well as for their daring young leader, fraught with most disastrous consequences.

When Charles landed in Scotland, among the first to greet him were young Clanronald and his kinsman, Alexander Macdonald of Glenalisdale, the father of Captain John. They accompanied the prince to Glenfinnan, Alexander's estate, where on August 17, 1745, the standard of the Stuarts, blessed by Bishop Macdonald, was raised.

All know the history of this most romantic and daring enterprise, and no one, whatever his political opinions may be, can help but admire the little army of Highlanders who thought neither lands nor life half precious enough to sacrifice in their prince's cause. After Culloden, Alexander Macdonald was the one, after his cousin Flora, to whom the prince chiefly owed his escape; though to all the Highlanders a certain amount of the credit of this feat, for many knew Charles' hiding place, and despite the large price set upon his head no one was base enough to betray his beloved prince.

It was in those troublous times that Captain John Macdonald, of Glenalisdale and Glenfinnan, was born. For when the Stuart standard was unfurled on his father's land he was but three years old. When the persecution of the Stuart adherents had quieted a little, there being then no Scotch Catholic College, young Glenalisdale was sent, at the age of twelve, to the Jesuit University of Ratisbon (Regensburg), in Germany.

Having received his degree at Ratisbon, Glenalisdale returned to Scotland, a most cultured young

gentleman, numbering among his attainments the mastery of seven languages. He married Miss Gordon, daughter of Admiral Sir James Gordon, whose naval career is a brilliant page in English history. By this union Glenalisdale allied himself with some of the greatest Scotch families. Captain Macdonald was selected from among the chieftains of his family to be “Cath-burner” or guardian, ranking, next to Clanronald as the head of his clan, and acting as chief should anything befall his superior officer. So, revered by his fellow-chieftains, Glenalisdale was leading a good and useful life, until about 1770 circumstances arose which called him to even a nobler vocation.

A relative of Glenalisdale's, Alexander Macdonald of Boisdale, in the island of Uist, having married a Protestant, forsook the religion of his forefathers. Not contented with changing his own belief, he thought it would be likewise a fine thing for his people to follow his example. From the patriarchal Highland system of clanship, Boisdale, with the practically unlimited power of Kean Kinnebh, the “head of the family,” was able to actually persecute his tenants. One of his fatherly acts was to drive his people by a vigorous plying of his stout yellow oagel to the Protestant church. Was it a wonder that the new faith became in scorn “the religion of the yellow oagel?” Boisdale, finding the old people rather hard to proselytize, hit upon another scheme. If he could not have the present generation, he'd have the next. So he offered to his tenants' children the privilege of instruction from the Presbyterian tutor employed for Boisdale's own sons. The poor simple people eagerly seized this splendid chance. However, they could not be long deceived. Day after day the children were obliged to listen to all sorts of attacks upon their religion, and even forced to eat meat on fast days. When they brought this information home, their parents, acting on the priest's advice, withdrew them from the school. Boisdale was angered beyond all bounds at this. Father Wynne, the priest, was compelled to return to his native Ireland; and, not to be balked of his prey, Boisdale took even severer measures. He had a paper written in their own Gaelic tongue read to his assembled tenants. To sign this document meant an absolute retraction of their religion and a promise under oath never again to have any dealings whatever with a Catholic priest; to refuse was to lose everything, homes and land, and to bring direct ruin upon themselves.

There are countless heroes and martyrs little known, and surely these noble people deserve to be numbered among the glorious army who have suffered for their faith. Not one faltered, all declaring they would endure any hardship rather than accept such infamous conditions. Dispersing, they returned home to prepare for the journey into the unknown world, whither they were forced to go to seek “freedom to worship God.” B filled in this, Boisdale agreed to leave his tenants in peace, if they would consent to have their children brought up to Protestants. This proposition received the indignant reply from the Islanders, that “their children's souls were as dear to them as their own.” So these brave people continued their preparations for departure.

Not only on Uist, but throughout the Western Highlands, the fire of bigotry, once lighted, spread with startling rapidity. It seemed as if the Church in these portions of Scotland would be destroyed root and branch. To the clergy and to the laity both, the situation seemed so alarming that Bishop Grant, Vice-Apostle of the Highlands, incited by the burning zeal of Glenalisdale, deemed it necessary to bring the matter to the attention of Bishop Challoner of London, and even to send the sad news to Rome. The celebrated Dr. Hay, student, doctor in the prince's army, convert and finally priest and bishop, was at this time Dr. Grant's coadjutor. He, too, used all his powerful influence to aid the plans for benefiting the poor people of Uist. The one scheme which seemed feasible was for them to leave Scotland and go to America. This, however, was a most demanding money, and most of these poor Catholics were

Do You Wish the Finest Bread and Cake

It is conceded that Royal Baking Powder is purest and strongest of all baking powders, absolutely free from alum, ammonia and every adulterant. “Royal” makes the best and most wholesome food.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

Secretary of State urged him to accept, remarking that such an oath, being merely a form, would not interfere with the free exercise of his religion. Glenalisdale persisted in his refusal, saying, “that neither his honor nor his conscience would permit him to take such an oath.”

Captain Macdonald was most genial and amiable in all his domestic relations. His first wife and only child dying in Scotland, he resolved never to marry again. He then named his brother, Lieutenant Donald Macdonald, whom he styled “the loveliest youth of his name,” as his heir. Donald fell in a naval engagement fighting against the French. So, bereft of all his near relatives, after long years of widowhood, Glenalisdale married a second time. His choice was Miss Macdonald, of the Moran family, a near relative of the chieftain of Glangary and connected with many other great Scotch houses.

Glenalisdale was spared to the service of his country until 1811. He was a most devoted and successful soldier, and his services were highly valued by his superiors. He was a man of great energy and determination, and his leadership was highly respected. He was a man of great courage and bravery, and his actions were highly praised. He was a man of great honor and integrity, and his name is remembered with respect and admiration.

What the descendants of the cousin to whom Glenalisdale yielded his Scotch estates have done for the Old World Church, and what an ancestral home he was to leave the following sketch will give some idea:

Glenfinnan, the present home of Colonel Macdonald and the late Archbishop of Edinburgh, and the late Bishop of Aberdeen, is situated about midway between Fort William and Alesaid.

(To be continued.)

Torpid Liver

Is sometimes responsible for difficult digestion, that is, DYSPEPSIA. What headaches, dizziness, constipation, What fits of despondency, What fears of imaginary evils, conduct with the distress after eating, the sourness of the stomach, the bad taste in the mouth, and so forth, to make the life of the sufferer scarcely worth living! Dyspepsia resulted from torpid liver in the case of Mrs. Jones, 2523 N. 12th St., Philadelphia, Pa., who was a great sufferer. Her statement made in her 77th year is that she was completely cured of it and all its attendant aches and pains, as others have been, by a faithful use of Hood's Sarsaparilla. This acts on all the digestive organs, cures dyspepsia, and gives permanent vigor and tone to the whole system.

JAMES MCISAAC,
Editor & Proprietor

A BEGINNING has been made in the exposures of the frauds practised by our Grit friends in the by-election for the House of Commons held in Montreal on January the 15th. On Friday last Rodolphe Hetu deputy returning officer in poll No. 37 and J. M. Desy, Brunets representative, were arrested at the instance of Hon. J. G. H. Bergeron, charged with conspiracy to commit illegal acts. It is charged that Bergerons representative in the poll was bribed to close his eyes, and that Desy and Hetu deposited in the box a large number of ballots marked for Brunet, and that not content with this number of ballots marked for Bergeron were removed and destroyed, and replaced by others marked for Brunet. As a result the poll showed ninety votes for Brunet and four for Bergeron, whereas Bergeron should have had a majority of eight. Sensational evidence is anticipated and further arrests are expected.

A GRIT convention was held at Hunter River on Saturday last, for the purpose of nominating a candidate to contest the West River district for the Legislative Assembly, in place of Mr. Donald Farquharson, elected to the House of Commons. The names of three candidates appear to have been presented, viz: Mr. James McLean, Long Creek, Mr. Ewen McMillan, West River and Mr. John Wheatley, Charlottetown. It is stated that the friends of Mr. McLean and Mr. McMillan discovered some crookedness in connection with the appointment of delegates from North Rustico poll, and, believing that similar methods may have been employed in other portions of the northern end of the district, refused to abide by any decision the convention might reach, left the hall in a body. The Patriot simply announces that no candidate was chosen; but it is rumored that the evidences of the crooked

THE "HERALD'S Scoop-Net," last week contained a clipping from the HERALD of the 19th December, 1866, referring to Rev. Father Belcourt's "steam wagon." Rev. Father Belcourt was parish clerk of Rustico and was a man of learning and of wonderful energy, as well as a mechanical genius. He invented the "steam wagon" in question, which was nothing less than a pioneer of the automobile, so common at the present day in the great cities of the world. It was his intention to have used this "steam wagon" on his journeys between Rustico and Charlottetown and on such other travels as the requirements of his calling would necessitate. Something happened to the boiler, however, shortly after he brought it to Rustico and it being difficult, as well as inconvenient to have repairs effected, he abandoned his original intention regarding this mechanical contrivance. The engine or motive power was afterwards used for threshing and sawing. Finally it was deported to New Brunswick and when last heard of was used for the purpose of propelling a small steam launch. Father Belcourt did much for the advancement of the people of Rustico parish. When he came there teachers were very few among the French people of the parish and one of his first cares was to procure from abroad several good French teachers and afterwards he had a number of the young people prepared for the teaching profession. He procured three bells for the church and the first organ was placed in St. Augustine's through his efforts. Seeing that the people suffered in the way of extortionate prices for seed grain and exorbitant interest for money borrowed, he established the "Farmer's Bank of Rustico," which in its day was of much benefit to the parishioners. Through his energy and perseverance the present bank building with its hall was erected. He was entering in his efforts for the uplifting and advancement of those confided to his care. We are indebted for most of this information to a friend from Rustico who had noticed the reference to the "steam wagon" in our last week's issue and called to have a chat with us on the matter.

An incorrigible Per- varicator.

Convicted of theft and falsehood in connection with the account of the Father Francis movement the henchman of the Journal and Agriculturist attempts to divert attention from his unenviable and humiliating position by making personal allusions to the editor of the HERALD. This has nothing at all to do with the matter in controversy and his purile attempt to draw a red herring across the trail will deceive no one, while it exposes the motives by which the creature is actuated. The fellow feigns to be somewhat annoyed that his equanimity should be disturbed by any attempt to extract from him a confession of his guilt. He reiterates his former statement to the effect that he stole our article, that he lied about it and that he adheres to that position. He should go a little further and publish the name of the alleged author of the article. Why has he failed to do this? The Journal writer's reiteration of his false and untenable position and his contemptible insolence in connection with the whole matter show that any attempt to extract truth from our contemporary is as vain as the casting of pearls before swine. A homely adage says "you cannot make a silk purse out of a sow's ear," neither can you expect justice or honesty from a Journal. Such trifles as honor, justice and truth are not regarded as essentials in the Journal's code of ethics. This is well known to all who have watched the course pursued by that delectable sheet. Principle with it counts for nothing; expediency and opportunism have been its actuating motives. It has been everything by turns and nothing long. The burly promoter of this journalistic enterprise has had a fashion of keenly scanning the political horizon, and sniffing the probabilities of party upheavals and changes of government, as instinctively as a confirmed rheumatic prognosticates a change of weather. In such cases he invariably makes for the fence and from this lofty perch surveys the scene and awaits results. This journalistic filibuster is assisted in his work by a hireling scribe, who, and, al- though he is not a member of the staff, would seem to indicate that the master distrusts and despises him. Is this the man that makes such a pretense of lofty disdain in the Agriculturalist of Saturday last and so flippantly descants on political and journalistic success or failure? A literary guerrilla and a discredited parish clerk do not constitute such a journalistic combination as is calculated to command the respect of any one.

OTAWA advice of today announce that Dr. Robertson has been appointed Senator for King's County.

His Honor, the Lieutenant Governor and Mrs. McIntyre, entertained a large party of ladies and gentlemen at "At Home," at Government House last evening. The host and hostess of Government House entertained their guests in princely fashion and the occasion was one of rare enjoyment. Violinists and orchestra furnished splendid dancing music.

A TERRIBLE fatality occurred Wednesday last at the March millery, owned by the Nova Scotia Steel Company, near Thorburn, N. S. Shortly before noon a fearful explosion of dynamite completely destroyed the mill building and killed the resident manager, Mr. J. W. Sutherland, the underground foreman, Mr. Walter Sutherland, and the overground foreman, Mr. John Wilks.

THE Abegweit was defeated by the Crystals at Summerside last night in one of the most hotly contested games that ever was played there. The score at the close was 8-7. The Summerside team received a great ovation from their friends at the close of the game. The game between the second Abegweit and the Pioneers for the Intermediate Championship resulted in victory for the Charlottetown team by a score of 6-3.

ON the occasion of a recent visit to St. Teresa's a HERALD representative observed in the church a large and beautiful group which has recently been erected. This group is a gift bequeathed to the church by the late pastor of St. Teresa's, Rev. M. J. McMillan. As he was called to his reward before he had read his wishes in this matter he provided in his will for its purchase and erection. His successor in the pastorate of St. Teresa's, Rev. I. R. A. McDonald, faithfully carried out the intention of deceased donor. The central figure of the group is the Blessed Virgin Mary, represented as seated among the clouds with the Globe at her feet, and with the Divine Infant in her arms. On the right is the figure of St. Dominic in the act of receiving the holy rosary from our Blessed Lady, and on the left St. Catherine receiving the rosary from the Divine Infant. At the base is the figure of a dog with a flaming torch in its mouth emblematic of the spread of the devotion of the rosary throughout the world, through the preaching of St. Dominic. The figures are of plaster Paris, very beautiful and the group stands five feet in height. It is placed in the sanctuary on the epistle side of the altar and is certainly a most appropriate and devotion inspiring ornament.

The Herald's Scoop-Net.

CONDUCTED BY TOM A. HAWKE.
A bear was killed at Afion Road the other day. The particulars are furnished elsewhere in this issue and are not polished off with any fiction. We like to stick to the bear facts.

The Hamilton Spectator sagely remarks: "It may have been done before; but, all the same, when the Boers sent back to camp some captured yeomanry, stark naked, it was a nude departure."

The prohibition law is now working with some success and the police are not making so many arrests for drunkenness. In one way it's a pity to see 'em idle. Why don't they try to take up that old tank at the Market Square?

Here is a little true story which is worth relating, as it shows that form of character in human nature which makes us smile with an amused pity. The incident took place in a Charlottetown manufacturing establishment over two weeks ago. A Salvation Army man was in talking with some of the hands, the most of whom he is acquainted with. He happened to pick up a copy of the HERALD and after looking over it he began to read aloud to the workmen that thrilling narrative entitled, "When Hen Hawke fought the Boers." When he had finished reading the sad story of Henry's capture by the Boers he laid the paper down with the sympathetic remark, "What a hard time that poor soul had!" A smile went round among the men who saw that he had swallowed the yarn without any misgivings as to its veracity. One of the boys started to explain to him that the whole thing was a fabrication which had emanated from the imagination of a local writer. The man on hearing this held up his hands in holy horror, exclaiming, "Wall, dear me! And to think that I've been reading such vanity!" It is needless to say the boys had a good laugh over the matter.

WHEN FATHER TRIED TO SKATE.
When father searched the attic through He brought us down to show A pair of skates he used to use Some twenty years ago. He held them proudly by the straps, And said with much elate, "I guess I'll go down the pond, An' show ye how tew skate."

So father put his cowhide on, And started for the loe; He screwed the gaiters on his heels And strapped them tight and nice. "I'll show ye youngsters how tew cut A pigdin wing thet's great!" He cried, and then he started out To show us how to skate. He made a bold and rapid stroke His arms spread parallel, And then his feet went in the air, And with an awful yell He fell kerplunk down on the ice And cracked it far and wide; And brained himself from head to foot Until he nearly died. We carried him into the house, And laid him on his bed, "Please see' for good of Dr. Brown," My father faintly said. The doctor came with pills and squills, And looked both great and wise; And said my father's case was one Of too much exercise. Pa saw a million stars, I guess, And likewise saw his err; He let us put these skates away Without the least demur, They hang up in the attic now, Abandoned to their fate; And never since that fatal day Has father tried to skate. —N. Y. Sun.

The following advertisement appeared in an English newspaper:—

INSURANCE.—Wanted, Clerk in an insurance office, in Manchester, with some experience in fire and employers' liability business. Salary £250. Address in own handwriting stating age, past experience and where at present employed, in confidence, X 99, at the printer's.

A contemporary gives a copy of one reply. We doubt the genuineness of the advertisement; it is incredible that an insurance company would offer a salary of \$2.80 per week to a clerk "with some experience." However, here is the reply:

"DEAR SIR,—I reply to your advertisement and beg to offer my services. I have made a special study of insurance law in all its branches. In addition to my vast knowledge of insurance work, I converse fluently in many languages, among which I may mention French, Greek, Latin, Gum-Arabic, Boer, German, Sansago, Italo (Gorgonzola), Billingsgate, Hindoo and Doodo. I write shorthand (300 words), longhand, left-hand and right-hand, and can write with both hands at once, thus getting through a vast amount of work in my working day of 23 hours. I am willing to devote my whole time to your service and give my life if necessary if you will still adhere to your generous offer of £30 (thirty pounds) per annum. I am only 27 years of age, but feel quite capable of taking the position offered. If agreeable to you, my wife would be pleased to clean your office regularly without extra charge. My references are irrefragable and if you consider my application favorably I would forward them to you per goods train. The cost of postage for your answer to me can be deducted from my salary."

Resolution of Sympathy.
BETHUN, MASS., Jan. 10th, 1902.

At a meeting of the Prince Edward Island Association held on the above date the following resolutions were passed.

Whereas, Death has removed from amongst us one of our young members, Majorie McLean, be it Resolved, That with a humble bowing to the decree of an all-wise Providence, we desire to express the deep, felt sorrow of the Prince Edward Island Association, and our sympathy with the family of our late member, be it further Resolved, That a copy of these resolutions be sent to the Prince Edward Island Press, and that these resolutions be spread on our minutes, also that a copy be sent to the bereaved family.

Committee on Resolutions, Charles McLean, James Camiskey, P. B. Mulligan.

Farmers' Institute Meeting at St. Peter's

Meetings of St. Peter's Farmers' Institute were held in Anderson's Hall, Head St. Peter's Bay, on Friday, Jan. 24th. The afternoon meeting was attended by about 100 farmers, the evening meeting with 150 persons, among whom were a number of ladies. Mr. Charles Vasey, President, took the chair and introduced Prof. Gilbert, who was speaking with the raising of chickens was one of the means of inspiring the young with a love of the farm, for the children can all take part and become interested in the work from the earliest age. To have good times throughout the country he contended it is all important that the farmers shall have plenty of money to spend, it is therefore important to add to the sources of the farmers' income. But it has been said that farmers are so wedded to the methods followed by their grandfathers that they cannot be induced to enter upon new methods even though they may be money-making. This is a simple libel. There is no sowerlander among them than one of our Canadian farmers. We have seen this proven in regard to the dairy industry, by means of which many millions of dollars per year have recently been ploughed from the atmosphere, and the sowing of clover is, therefore, one of the ways of maintaining the fertility of the soil. A principal cause of soil exhaustion is the practice of selling raw products of the farm. If everything were fed upon the farm and animals and their products only sold off, the land will not soon "run out." One means of improving the fertility of the soil is the use of artificial fertilizers. This, by a sowing of clover in the form of humus. The absence of this is shown when the land refuses to grow clover. Clover, when well grown, appropriates nitrogen from the atmosphere, and the sowing of clover is, therefore, one of the ways of maintaining the fertility of the soil. A principal cause of soil exhaustion is the practice of selling raw products of the farm. If everything were fed upon the farm and animals and their products only sold off, the land will not soon "run out." One means of improving the fertility of the soil is the use of artificial fertilizers. This, by a sowing of clover in the form of humus. The absence of this is shown when the land refuses to grow clover. Clover, when well grown, appropriates nitrogen from the atmosphere, and the sowing of clover is, therefore, one of the ways of maintaining the fertility of the soil.

Mr. John Moore, of Crapaud, followed with an address upon "The Maintenance of Soil Fertility." This, he says, is a subject of vital importance, yet it is undervalued by many farmers. The fertility in the soil is the farmers' bank account. If the soil be deficient in nitrogen-phosphoric acid and potash plants cannot be grown to a profit. Nitrogen in the soil is in the form of humus. The absence of this is shown when the land refuses to grow clover. Clover, when well grown, appropriates nitrogen from the atmosphere, and the sowing of clover is, therefore, one of the ways of maintaining the fertility of the soil.

Supreme Court.

JAN. 22.—In the case of John Jardine vs. The Inland Steam Navigation Co., in which the plaintiff sued for \$600 damages as a result of a collision at the mouth of the harbor last summer, the jury after an hour's absence returned with a verdict of \$400 damages. Stewart, K. C. for plaintiff; Hazard, K. C. and Peters K. C. for defendant.

JAN. 20.—Merchants Bank of P. E. Island vs. Geo. H. Toombs. Action on a promissory note. Case settled.

McPherson vs. Hughes and Hughes vs. McLeod. Actions for trespass. Case settled.

Laverly vs. Laverly, held over till next term by consent.

JAN. 21.—Ramsey vs. Lowe. Action of trespass. The contest in this case turns on the right to the possession of a strip of land ten feet wide. The plaintiff claims to hold the land as the tenant of the British and Foreign Bible Society, the devisees of the late Judge Young, and says that the defendant who owns the adjoining property has encroached on him ten feet. H. J. Palmer, K. C., Peters, K. C. and A. Mellish, for plaintiff; Morson, K. C. for defendant.

FEB. 1.—Ramsey vs. Lowe. Trespas. This case which involved the question of the boundary between two town lots on Kent Street, was settled this morning by mutual concessions of the parties interested. Court adjourned until Monday.

FEB. 3rd.—Ronald McInnis vs. Patrick Corish. This is an action of trespass brought by McInnis against Corish in which the plaintiff McInnis charges the defendant Corish for breaking down his fence and for allowing his cattle to damage his crops, at Lot 48. Case was before the Court when it adjourned. Stewart, K. C. for plaintiff; Morson, K. C. & McLean, K. C. for defendant.

Common salt, which has long had a reputation for making a fine fertilizer for the farmer, while others disbelieved in its efficacy, has been shown to be a most valuable agent for producing an increased crop of that grain, while it is of much less use when applied to crops of spring wheat or oats.

An unmeasured plot at the Experimental farm, gave an average yield of 15 bushels and 40 lbs. per acre. A similar plot which has received the best dressing of 300 lbs. of salt per year gave an average yield of 27 bushels and 26 lbs. per acre, for the past twelve years.

Mr. Thompson delivered an address on Swine Breeding and Feeding. His said came from the wild stock. Different breeds were and are removed from wild by feed, care and climate, and now these changes require extra care and comfort if we want the best results. A draft passing over the hog's back will cause constipation and rheumatism, or founder will follow. Over feeding as well as too close quarters will cause this. Have the pens arranged so that the hogs can be fed handily, and that they can get out in the yard for exercise. Have the trough low and shallow and wide, so that young pigs cannot injure themselves getting into the trough. Do not feed the sow for 24 hours after farrowing, but give her a drink of water with the chilk taken off. There is danger of causing milk fever if fed too much. Teach the little pigs to eat regularly while on the sow, and do not wean until eight weeks old. Continue to feed bulky food of mixed meal and milk or pulped roots. After the pigs are three or four months old roots can be profitably fed raw. Potatoes must always be boiled over the hog's fire and the pig should be so warm that water will not freeze during the winter. Boiled feed will make 100 lbs. of pork more quickly, but not out of a less quantity than raw. Salt should be given regularly each day. The first 100 lb. pig want to be given more bulky food, such as milk, roots, and muscled forming food, so the pig will develop muscle; in the next 75 lbs. the hog wants to be fed stronger food and pushed along quicker. A poor bred pig cannot be made a good one by good feeding, but a good pig can be spoiled by poor feeding. A desirable bacon hog can be got from crossing Berkshire with York or Tamworth. The typical hog should be long with a slightly arched back, sides even with the shoulder and ham, legs well set under, good strong bone, well covered with long fine hair. By feeding the grain and roots to the hogs we can have more than market price for our grain and roots, and can take

the hogs more cheaply and easily to market. The manure which is very valuable, should be left on the farm to improve it, and help grow greater crops to feed more hogs. No fear of over-production of bacon hogs as the larger percentage of the right type we produce our packers can afford to give higher prices and will also bring in competition. The Island appears to be the ideal place to produce good hogs, and along with the climate to be favorable for the growing of barley and oats, turnips and potatoes, with clover for summer feeding, Clover should be more extensively grown by the farmers, and is one of the best fertilizing agents we have at our disposal and furnishing good summer pasturage for the hog.

At the close Oliver W. Anderson moved a vote of thanks to the speaker, which was seconded by Andrew Lewis.

ANDREW LEWIS, Sec'y.

DIED

At her home, in Avondale, Lot 49, on Friday, Jan. 31st, Edith Murphy, daughter of Patrick Murphy, in the 27th year of her age. R. I. P.

At Sparrow's Road, on the 17th, ult., after a lingering illness, borne with Christian patience and resignation to the will of her Divine Master, Basil, beloved wife of Jacob Langille in the 21st year of her age. Deceased was a woman of noble qualities and died with all the rites of the Catholic Church. Her early demise is a shock to a large circle of friends, besides a kind husband who resides in Farmington, N. H. R. I. P.

At Cape Egmont, on the 10th, ult., Edward Gallant, aged 44 years, leaving a wife and three children. R. I. P.

At Indian River, on the 10th, ult., of paralysis, Penelope MacDonald, in the 52nd year of her age, relict of the late Donald S. MacLellan, leaving several sons and daughters. Deceased was beloved by all who knew her. Her husband died on Nov. 18, 1898, of pneumonia, aged 50 years, and was buried in the Catholic Church. Her early demise is a shock to a large circle of friends, besides a kind husband who resides in Farmington, N. H. R. I. P.

At Loggieville, N. B., on the 16th, ult., Marie Rose Bondeau, aged 50 years and 10 months, wife of Hubert Theriault, formerly of Tigeville, leaving a husband and four children. R. I. P.

At Mount Stewart, on January 22nd 1902, Patrick E. only son of Mary and John Hennessy, in the thirtieth year of his age. The deceased was of an amiable and benevolent disposition and was greatly esteemed by all who knew him for his unassuming and exemplary conduct. He was often visited in his last illness by his beloved pastor who consoled him in his sufferings and administered to him the last sacred rites of the Holy Catholic Church. R. I. P.

At Anburn, Monaghan Road, on the 25th, ult., Mrs. John Trator, leaving a husband and family. The deceased was highly esteemed by all who knew her, and her death is greatly regretted. R. I. P.

At Micouche, on the 25th inst., Mrs. John D. Berry, aged 85 years, leaving three sons and three daughters. R. I. P.

The High Grade Art Parlour, is the most reliable place to have your order for photographs or tintypes enlarged to life size, in crayon, sepia, or water-color. Natural colours and any subject may be separated from a group with any change made in the dress or hair that may be required. Remember, there is no second or third man to deal with as is generally the case with other portrait houses. The work is guaranteed to be as represented. I also carry a large assortment of over forty different styles of picture moulding. Call and see us in our new stand directly opposite J. T. McKenna the tailor, Queen Street, or address, S. E. Tarbush, High Grade Art Parlour, Charlottetown.—

THE CAREFUL CASH BUYER

Will find it most agreeable to do business at our Grocery. We saved our customers many dollars last year, and will do the same this year.

Amber Blend Tea, 5 lbs. for \$1.00
Golden Blend Tea, 5 lbs. for 1.10
Royal Blend Tea, 5 lbs. for 1.20
Eng. Breakfast Tea, 5 lbs. for 1.20
Sunbeam Coffee 40c. per lb. has no equal.

Kindly place your Grocery order with us. We find no difficulty in pleasing our customers.

JAS. KELLY & CO.
Jan. 22, 1902.

The price to suit the pocket. If you are at a loss to know where to get the very best Groceries at the very lowest possible cash prices, call and see us, and be convinced that our Goods are the very best and our prices right.

Found At Last

A Liver Pill that is small and sure, that acts gently, quickly and so roughly, that does not gripe. Laxa-Liver Pills possesses these qualities, and are a sure cure for Liver Complaint, Constipation, Sick Headache, etc.

THE WAITER AND THE TIP.

Beside your chair, expectantly, The smooth-faced waiter stands; Whichever way you look you see The hollows of his hands; You wonder if he merely hopes, Or if he'll make demands.

He brushes off a crumb or two And shoves along a plate, And then he stands just back of you And you can feel him wait; Your heart is filled alternately With pity and with hate.

Oh, if he'd only go away You'd bolt your steak and flee; At last you hope he's left, and look Behind you stealthily— He thinks there's something that you want, And rushes up to see.

He pours your coffee in the cup And fixes things anew; He lightly takes the sugar up, And looking down at you, Asks very, very humbly, if You'd have one lump or two.

You eat as slowly as you can, And read the bill of fare, And long to see some other man Come in and take a chair, And, thumping on the table, call Your waiter over there.

But people come and people go And still he keeps his place; He goes to get the finger-bowl As if he ran a race. And having set it down, he stands And looks you in the face.

You try to sneak around and get Your overcoat, but he Is there before, and holds it up. You do it sheepishly. And turn and get your check to learn How much your bill will be.

He takes your hat down from the hook, And brings your stick, and then He hurries to the desk and soon Comes rushing back again— Your change consists of quarters and Some nickels and a ten.

Where are your resolutions now?— There's something in the curve Of palm and fingers that, somehow, They only have you serve— Outside you blame yourself because You didn't have the nerve. —Chicago Record Herald.

Blandine of Betharram. BY J. M. CAVE. (American Messenger of the Sacred Heart) (Continued.) PART II.

Blandine, for Blandine is the second maid, has no choice but to obey. She follows her guide up a flight of stairs, broad and steep, that lead to a spiral staircase. This too, they named, and Blandine stands in an immense chamber, the full extent of the suite of apartments beneath. It is cheerless, not warm.

There is a window at its utmost extremity, a single bed, a low couch, a chair or two and a table. "Go to bed, and sleep, miss," says Luba, "you will not be disturbed."

Although Sophie had assured her that she would have nothing to fear from the presence of the Colonel for a month at least, she keeps ever on the alert for sudden surprises. She never wholly disarms, never gives herself to willing sleep till the gift of confidence and hope comes to her, as if from heaven, in answer to her fervent prayers. Now she yields and is comforted by sleep; she eats and her bodily frame resumes its vigor, her mind its elasticity. More than a third of the month passes before Mlle. Dorzalli pays her a visit. She expects to find her tired of her prison. She looks keenly at the young girl as she bids her take a seat near her. They face each other. Blandine, clear-eyed, her head high, looks straight into the eyes that do not meet her gaze frankly.

"Are you still opposed to your own good, to your own happiness?" she asks. "What good, and what happiness. Mademoiselle?" "The good of a wealthy, a brilliant marriage. The happiness of being adored, as you will be, by your husband."

"Mademoiselle, what have I ever done to you, that you should be my enemy, and force upon me a thing so hateful? You know I cannot give myself away, as you would wish; neither can I love this gentleman."

"That is not necessary. He will teach you. He will find a way to make you happy in spite of yourself. You may therefore learn the truth now, and be well assured that you will never leave this room till he comes to take you from it as his wife. He loves you well enough to give you time, may be insists upon giving you time, although, were I of my way of thinking, he would take you without needless delay."

But he is chivalrous, and desires to touch your heart, if you have one, by giving you time. He forces me to give it, although I should be now on my way to the Crimes. This house was placed at my disposal for a month. One month, therefore, is the limit of his or my utmost endurance. Remember you are in my power, and I am not one to yield."

Blandine arose and stood before the speaker. Clapping her hands, she raised her eyes to heaven with a look of appealing love. "You say I am in your power, Mademoiselle; but if I am, I am also in God's power, and in His care. Never, no never, will I consent to what you ask; it would be too sinful. Do your worst, I am not friendless or forsaken!"

Mlle. Dorzalli laughed. "Baby heroics! You have powerful friends, I doubt not. Some of the Saints you are so fond of will show them in a vision where you are and lead them here to set you free. I fancy them passing through my apartments. At the foot of this staircase there is a double-barred door. That door opens into my private rooms. There will be a sentinel there during my absence, be well assured. I give you one more chance. A child's word is easily changed from 'no' to 'yes'; I must leave you now; which shall it be, my dear?" The tone was playful, mocking. Blandine turned away and let her depart without another word. She was glad she knew the worst. Sophie's words were confirmed. She determined to be confident in God's mercy; not to yield to fear, which was unworthy of the child of Mary. She had time to pray, to prepare her soul, to be ready for the worst; the worst would be death. She felt she could not live if their threats were carried to their issue. Her death would mean sorrow for her dear second mother, but once she would learn she was free, in heaven with her parents, she was sure to see in the pain God's will.

Only one week remains. Suddenly the food supply ceases. The visits cease altogether, and a cup of water and a crust are placed by an unseen hand at the door. Blandine takes the bread eagerly. Poor hungry child! She feels sure that she is going to die, and that death will soon unbar the doors of her prison. She is so weak she can hardly cross the room now; but she rises, and tries to hide her weakness when Luba comes, on the last day of the month, and bids her follow her. She is almost past taking notice of what they do or say, when told to make her toilet.

"Make her toilet!" Yes, why not? It will be a preparation for her grave. She is glad to make such a toilet; she is eager to begin. "Yes, Luba," she says obediently, "I will." And she makes her toilet, aided by the woman, who looks at her with something like pity in her hard black eyes. The pure water revives her, the pungent odor of the perfumes excites her, gives her strength to go through with the labor. She is clothed in bridal robes, from satin corset to satin slippers. But the strength was fictitious, and before the last touches are given Blandine has sunk down unconscious.

"Quick, Luba, the smelling salts from my table!" Luba flies down the stairs. Mademoiselle walks up and down impatiently for a minute. She goes to the staircase, glances down, calls—no answer, and no sign of Luba returning. She comes back, sees the still unconscious form, and in desperate impatience hastens to her.

"A whole year!" cries John of Bethlehem. "Only one little year," exclaims godmother. But long or short it was a happy year, that one year at Dacre, a memorable year. Does any one need to be told how Blandine passed her days at Dacre with her godmother and dear Uncle Antony; with those wonderful little ones, Antony the Second and Blandine of Dacre, and Baby Francis?

Some one else is waiting for that day. Sister Noella, the tireless, the laborious, the wholly unselfish, who, as her contribution to the sum of prayers offered for Blandine's safety, generous relinquished of her own accord the happiness of founding the English house of her order. O golden deed! What pleasant reading does the record of such "golden deeds" make! What pleasant work to compile them, too!

Nan Clough has to hurry away from Dacre to her great regret. Rand needs her. Cyprine needs her. Jo and Nannette need her most of all. Mother Mathews has been suddenly called from them; suddenly, but not without preparation. Penitent, and resigned, and absolved, she closed her eyes, commending "good Nan" to Cyprine to the last.

Nan stops at Paris to give Daria all the news. One little secret Blandine has bound her over to keep faithfully. (To be concluded.)

The essential lung-healing principle of the pine tree has finally been successfully separated and refined into a perfect cough medicine Dr. Wood's Norway Pine Syrup. Sold by all dealers on a guarantee of satisfaction. Price 25 cents.

Minard's Liniment relieves Neuralgia.

It Hurt To Eat. The pain, nausea and distress that Dyspeptics suffer after every meal can all be permanently removed by Burdock Blood Bitters. It tones up and restores the stomach to normal condition so that it digests food without causing discomfort. Here's proof positive: Miss Maggie Splade, Dalhousie, N.B., wrote the following: "I have been a sufferer from Liver Complaint and Dyspepsia for the past two years and felt very miserable. I could not take much food as it hurt me to eat. My friends said, 'Why don't you try B.B.B.' I did so, using two bottles, which made such a complete cure that I can now eat anything I like without it causing me discomforts."

Simple But Rare Accomplishments. Mr. David R. Forgan, President of the First National Bank of Chicago, is a Nova Scotian by birth, and was formerly manager of the Bank of Nova Scotia at Fredericton. In a recent address at the annual closing of Lake Forest University, Chicago, he made a statement which should be pondered to every teacher and student in the country: "What are the educational qualifications which you will find most helpful in entering upon a business life?"

1. To be able to write a good legible hand, to make good figures and to place them correctly—the units below the units, and tens below the tens, and so on.

2. To be able to add, subtract and multiply rapidly and accurately.

3. To be able to express yourself clearly, briefly and grammatically in a letter and to spell the words correctly.

Very simple accomplishments, you say! Yes, and very rare. I have taken many young men into business in this country, and I can scarcely recall one who had these accomplishments.

These are simple accomplishments, and because they are simple, it is supposed they may be gained indirectly and without much effort. What a mistake! To attain them requires daily effort and practice for years. They require purpose, too, and the "take hold and keep it" qualities. If Mr. Forgan's "accomplishments" are so rare—and we quite believe they are among graduates of schools—why not make their attainment more of an aim in school life—a serious business that would require skill and firmness on the part of the teacher, and diligence and perseverance on the part of students.—Ex.

The Spirit of Winter. The Spirit of Winter is with us, making its presence known in many different ways—sometimes by cheery sunshine and glistening snows, and sometimes by driving winds and blinding storms. To many people it seems to take a delight in making bad things worse, for rheumatism twists harder, twinges sharper, catarrh becomes more annoying, and the many symptoms of scrofula are developed and aggravated. There is not much poetry in this, but there is truth, and it is a wonder that more people don't get rid of these ailments. The medicine that cures them—Hood's Sarsaparilla—is easily obtained and there is abundant proof that its cures are radical and permanent.

Dr. Jalap.—Let me see your tongue please. Patient.—O, doctor, no tongue can tell how badly I feel.

Minard's Liniment is the best. "I jes' want a ticket to Coonville." "Single ticket?" "No man! I's been married fo' de las' nine years!"

Minard's Liniment Cures LaGrippe. "Now, Harold put away those toys that lie there in a heap." "Shes', grandmamma, don't speak so loud—I think my foot is asleep!"

Minard's Liniment Cures LaGrippe. "Pa, what are prejudices?" "Other peopler opinions, my son."

British Troop Oil Liniment is unsurpassed by any liniment on the market to day. It is composed of healing, soothing and cleansing vegetable oils and extracts. It is put up in large bottles for the small price of 25 cents.

Doan's Kidney Pills. The worst thing a painter has to contend with is the turpentine. The lead, of course, is bad too. But the turpentine cuts the kidneys, inflames and weakens them, makes the painter's life a dangerous and troublesome one. When a painter's backaches, its time for him to begin treating the kidneys.

DOAN'S KIDNEY PILLS will fix them up—take out the inflammation and congestion, give ease to the aching back.

Mr. J. Evanson, the well-known painter and decorator, 50 Oxford St., Toronto, Ont., said: "About eight weeks ago I was taken with an excruciating pain in my back over the kidneys. It was so bad that my wife had to apply hot cloths till the doctor came and gave me morphine. He said the trouble was due to a stone passing from the kidney to the bladder. My water was loaded with a brick dust deposit and scalded on passing. While in this condition I heard of Doan's Kidney Pills and started taking them. It was not long before I got relief from pain and have been improving in health ever since. My urine is now clear and does not smart me, and I feel better than in years."

LAXA-LIVER PILLS. These little black fellows act easily and naturally on the system, clearing away all bile and effete material. Constipation, biliousness, dyspepsia, sick headache, heartburn, waterbrash—all disappear when they are used. Price 25c.

Mr. F. W. Meyers, King St. E., Berlin, Ont., says: "I suffered for five years with palpitation, shortness of breath, sleeplessness and pain in the heart, but one box of Milburn's Heart and Nerve Pills completely removed all these distressing symptoms. I have not suffered since taking them, and now sleep well and feel strong and vigorous."

Milburn's Heart and Nerve Pills cure all cases arising from weak heart worn out nerve tissue, or watery blood.

Milburn's Heart and Nerve Pills cure all cases arising from weak heart worn out nerve tissue, or watery blood.

Milburn's Heart and Nerve Pills cure all cases arising from weak heart worn out nerve tissue, or watery blood.

In the Clutch Of Consumption. Don't neglect that persistent hacking cough till you find yourself in the clutch of Consumption. It's an easy matter to stop it now by taking DR. WOOD'S NORWAY PINE SYRUP. This pleasant remedy heals and soothes the lungs and bronchial tubes, and cures lingering and chronic coughs when other remedies fail.

Following instructions—"Why, Jimmie," said the gracious hostess, "you have taken half a pie on your plate." "Yes'm, Mamma said I mustn't have but one piece when I was visitin'."

For Cuts, Wounds, Chilblains, Chapped Hands Rheumatism, Stiff Joints, Burns, Scalds, Bites of Insects, Croup, Coughs, Olds, Hayward's Yellow Oil will be found an excellent remedy. Price 25 cents. All dealers.

How do you like the roast lamb, Mr. Knox?" inquired the landlady. "Lamb? Ah? yes, Mary's lamb," said the cranky boarder, for harking back to his childhood he realized that Mary's pet might easily be that old now.

If a child eats ravenously, grinds the teeth at night and picks its nose, you may almost be certain it has worms and should administer without delay Dr. Low's Pleasant Worm Syrup, this remedy contains its own cathartic.

Mr. Ireland—"This book on swimming is very useful in sudden emergencies." Mrs. Ireland—"Is it?" Mr. Ireland—"I should say so. If you are drowning, turn to page 103 and you'll see how to save yourself."

Messrs. C. C. Richards & Co., Gentlemen,—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of LaGrippe, and I have frequently proved it to be very effective in case of Influenza.

W. A. HUTCHINSON.

Riggs.—I want to give you a piece of good advice. Digs.—All right; but first let me give you a piece. Riggs.—Well, what is it? Digs.—Follow the good advice you are going to give me.

Milburn's Sterling Headache Powders give women prompt relief from monthly pains and leaves no bad after effects whatever. Be sure you get Milburn's. Price 10 and 35 cents. All dealers.

To ministers were walking on an icy sidewalk, when one slipped and fell. "Ah, my brother," said the erect parson, "the wicked stand on slippery places." "I see they do, but I can't," replied the fallen D. D., bruised, but bright.

British Troop Oil Liniment is unsurpassed by any liniment on the market to day. It is composed of healing, soothing and cleansing vegetable oils and extracts. It is put up in large bottles for the small price of 25 cents.

Driscoll & Hornsby, Queen Street.

Big Sale of Watches, Jewelry, Silverware and Clocks.

As we want money, and not wishing the dry goods houses with their sales to scoop up all the spare cash that's going, we offer all the goods in our store except spectacles at the big bargain price of from

20 to 30 per cent. discount, except Spectacles.

Now is your chance if you need a watch or anything in our line. This sale is now on, and will be continued until further notice. Lots of quite new goods in Ladies' Chains and Rings, Silverware and Clocks, etc., are among the lot.

Remember, no reserve.

E. W. TAYLOR.

Cameron Block, Charlottetown.

LOCAL AND OTHER ITEMS.

This is nomination day for Mayor and Councilmen for the city of Charlottetown.

It is said that Gordon, who was recently arrested at Halifax, for murder has made a full confession.

The Steamer Marquette, sailed from St. John, N. B., on Thursday, for Cape Town, with 747 horses on board.

The steamer Oruro, arrived at Halifax, the other day from Bermuda, with 1,375 packages of rum, valued at half a million dollars. There must be some people in Halifax who drink.

The Wanderers Hockey team of Halifax have arranged for games with the Charlottetown teams, on the 18th, and 19th, inst., and with the Crystals of Summerside for a game on the 20th.

MAJOR H. M. DAVISON, City Clerk, will be one of the officers representing P. E. Island, at the King's Coronation next June, so it is understood. The Major will make a good representative.

The painters of Toronto have demanded an eight hour day and thirty cents an hour from the masters. The present wage is 25 cents an hour for a nine hour day. They threaten to strike if they don't get it.

RAY MORRIS, of Granville, while skating a few evenings ago had his arm badly broken by coming in contact with a sleigh. The limb was set by Dr. Johnson of Emerald. This is the third time within a year he has met with a similar misfortune.

A PLAN has been prepared by the City Surveyor, for the opening of a new roadway between Brighton Road, and the Park Roadway, to the west of Government Pond, the total length to be 1,100 feet. This new road will shorten the distance from Brighton Road to the city somewhat.

There was splendid skating on the river all last week. Horses with wagons and carriages crossing the ice is something that was seldom seen before until this winter. The ice in places is not so strong as would be supposed, several horses having broken through. The landings are the poorest in years, the ice around the shores and wharves having been broken up by high tides.

WHILE Mr. Michael Wallace of Afton Road was out shooting rabbits last Thursday he discovered a large black bear hiding in a bush in Jas. MacDonald's field. As he had only a light charge in his gun he ran home for more ammunition, and went back in search of him accompanied by another man. They found him in the same place. It took three shots to dispatch him. The bear had been in the woods for several years and had frightened people on different occasions. The bear is one of the largest ever shot in the Province and weighed between 500 and 600 pounds. Mr. James Dunn has purchased it.

ONE of the hardest hockey contests in the history of Hillsborough rink was the game between the Abegweit and the Victoria on Friday night. The teams were pretty evenly matched, at half time the score standing 4-3 in favor of the Abbies, and when the bell rang for the finish they were even with four games each. It was then decided to play off in periods of five minutes at each goal. It took 10 minutes in this way to decide the game. The result was a victory for the Abbies, score 10 to 7. Towards the close the game had resolved itself into a test of severe endurance, and the players of both sides were almost worn out.

C. M. B. A. At a regular meeting, Branch No. 295 C. M. B. A. of Cardigan, held on the 2nd of January, the following officers were duly installed by Grand Deputy Rev. Dr. McMullan: President—John A. MacDonald. 1st Vice President—Jas. Smith. 2nd Vice President—Patrick J. Sharkey. Recording Sec'y—Thos. J. Donahoe. Assistant Sec'y—Allen P. McInnis. Treasurer—W. M. Flynn. Marshall—James Quinn. Guard—Michael Ryan. Trustees—Michael Corcoran, Joseph McMillan, Angus D. McLellan, A. A. Allen, M. D.

Mr. Robert Jenkins has received a letter from Mr. Riddick, Chief of Dairy Division, asking how matters are progressing in the cheese-making class in Charlottetown. Mr. Jenkins was pleased to be able to inform Mr. Riddick that everything is looking favorable. Mr. Morrow called on Mr. Jenkins on Saturday and reported that everything will be in readiness. The room secured from Mr. McDonald has a hall overhead which will be comfortably heated, where lectures will be given to students each morning before the practical work begins. It will be very desirable that all cheese-makers attend the cheese-making class. The opportunity for doing so is good this year as nearly all the factories are closing owing to a shortage in the milk supply. Assistants learning the business and who plan taking charge of factories in the near future will also be able to attend. All students attending will be required to bring their own aprons and caps. Other requirements will be furnished by the Association. The school will open on or about the first of March.

ONE of the saddest and most distressing accidents that have occurred for some time at Sydney, happened at half-past nine o'clock Friday night, at the blast furnace of the steel works, by which John Morrison, son of the late Arthur Morrison, of Arichat, had his left arm and left leg torn from his body, the leg at the knee and the arm quite close to the body. What remained of the leg above the knee was crushed to a jelly. Morrison was off on one of the oxy carriers, and while oiling the wheels got caught, with the result that his arm and leg were drawn into the coals and severed from the body. He was immediately released from his terrible position and removed as speedily as possible to the hospital. Morrison is only seventeen years of age and has been in the employ of the company for nearly a year. The brave fellow never lost consciousness and talked freely of his accident. The last words he said to his fellow workmen were: "Good-bye boys, meet me in Heaven, I am going there and I want you to come too." There was not a dry eye in the crowd as he was being borne away to the hospital. Morrison was doing night shifts for a mate of his in order to allow the latter to attend the performance of the Harkins company. There are no hopes for his recovery.

LOCAL AND OTHER ITEMS.

During the sale of Sunday, night, the big plate glass window of Messrs. Stewart & Gates, was blown in and smashed.

On Monday evening next, Feb. 10th, Rev. D. M. McDonald, P. P. Tigash, will lecture at Indian River. Don't fail to hear him.

The Mayoralty election on Saturday in Montreal, resulted in the return of James Cochrane, who defeated R. Wilson-Smith by about one thousand.

The Canadian Government will personally conduct parties of immigrants to Canada. Lord Strathcona is now making arrangements for the first party which will leave at the beginning of March.

FOREIGN INTELLIGENCE.

BAD FIRE IN WATERBURY.

The most disastrous fire in the history of Waterbury Conn., broke out in the heart of that city Sunday night. A large section of the business portion of the city has been wiped out. The fire originated in the store of Reid & Hughes, dry goods, Bank St. and that store as well as many adjoining buildings are now in ruins. Insurance men estimate the value of the property damaged at four million dollars.

PATRIOTIC NATIVES.

A Wellington, New Zealand, despatch announces that a thousand Maori's have volunteered to do duty anywhere in the British dominions, relieving British troops for service in Africa.

NEW BATTLESHIP.

The new battleship London, upon which it is probable the Prince of Wales will fly his flag at the coronation review at Spithead, is now undergoing her official trials. She was laid down in 1899, is 403 feet long, and has a displacement of 15,000 tons, and a complement of 750.

LIFE IMPRISONMENT.

The jury in the case of Jim Howard, on trial for the assassination of Wm. Goebel, at Frankfort, Kentucky, returned a verdict of guilty against the prisoner and fixed his punishment.

A REMARKABLE STORY.

Says a Philadelphia, West Virginia despatch of the 31st ult.:—A remarkable story is told by James A. Bee, a merchant of this city, who hopes to realize a fortune out of a dream he had last night. In his sleep he thought a ghost appeared which took on the form of a man in a red coat, who beckoned him to follow, passing out the old Stanton pike he came to the river, and saw a boat tied there. The ghost motioned him to a seat and rowed him over the river. Then, following several miles from town and showed Mr. Bee a pot of gold and silver coins, saying that he had been murdered and robbed by pirates some fifty years ago, but that the pirates had lost their fortune here. On awakening Mr. Bee was so impressed with his dream that he started over the same route he had taken in his dream, and reaching the same spot, found a dozen or more old Spanish coins and what he took to be pieces of gold ore. He has the coins and ore to prove the truth of his story, and will have the ore assayed. The coins are of very old date.

Mortgage Sale.

To be sold by public Auction, in front of the Law Courts Building in Charlottetown, on the 10th day of March, A. D. 1902, at the hour of 12 o'clock noon, that certain parcel of land situated lying and being on Lot 12, held on the 2nd of January, the following officers were duly installed by Grand Deputy Rev. Dr. McMullan: President—John A. MacDonald. 1st Vice President—Jas. Smith. 2nd Vice President—Patrick J. Sharkey. Recording Sec'y—Thos. J. Donahoe. Assistant Sec'y—Allen P. McInnis. Treasurer—W. M. Flynn. Marshall—James Quinn. Guard—Michael Ryan. Trustees—Michael Corcoran, Joseph McMillan, Angus D. McLellan, A. A. Allen, M. D.

Fruit-Growers' Meeting.

THE ANNUAL MEETING of the Fruit Growers' Association of P. E. Island will be held in the B. I. S. Hall, Ch'town., on Tuesday, 11th February, 1902, at 11 o'clock a. m.

Members coming by train will be conveyed to and from Ch'town at one first-class fare, on presentation of certificate of attendance at the Fruit-Growers' Meeting, signed by the Secretary of the Meeting.

A full attendance is requested, as matters of importance in connection with Fruit-Growing will be discussed.

PETER McCOURT, Secretary.

Feb. 5th, 1902.—2i

CARD!

To the Citizens of Charlottetown.

A large number of the electors of the city of Charlottetown have requested me to contest the city for the Mayoralty, and having decided to become a candidate, I hereby solicit the support of the citizens in general. If elected I will endeavor to promote the interests of the city.

Yours respectfully, FRED F. KELLY.
