# CORSETS

H. McEWEN Supt. P. E. I. Railway.

# Will Fit You Perfectly

American Lady Corsets are worn by thousands of ladies all over America. They stand for the final word in corsetry; producing to perfection fashion's demands for this season, namely, the modish low bust, the very long hip and back-in fact the uncorseted effect so sought after.

"American Lady" boning is very superior, made of specially selected material-flexible more or less to meet the demands of the various figures for which it is intended.

American Lady Hose Supporters are made of Para rubber thread webbing, giving the best possible wear.

We control "American Lady" Corsets for Charlotte town and guarantee them to give satisfaction.

Ask to see the different models.

Schools In Scotland

In all Catholic Elementary schools in Scotland at present receiv ing State aid, a time table is framed by or with the approval of his Majesty's inspectors. That time table is usually framed so that religious teaching is given before the beginning or after the close of the State school day. For example, if the State school day begings at 10 a.m., sprained arm. Nothing we used fellows from 3 30 to 4. It is given Price 25 cents." in school hours but not in the hours of the State school day. The State pays nothing for it. The school baildings are the property of the Catholic Church. The teachers are employed by the Catholic managers. The State grant, of course, goes toward the paying of those teachers, but since the State inspector takes no cognizance of religious teaching whatever, no part of the grant can be said to be made on account of re ligious teaching.
