POWER CO. BALKS AT PENALTY CLAUSE IN CONTRACT

Calgary Power Company Refuses to Sign Contract With City Unless Penalty Clause is Eliminated and Proposition is Hung Up Indefinitely

CITY WILL BUILD POWER PLANT IN VICTORIA PARK

With a Capacity of 6,000 Horse Power, Company Suggests That Largest Consumers of Power in the City Be Turned Over to It

The contract between the city and the Calgary Power Company has been hung up indefinitely. The company refuses to sign the contract with the penalty clause advised by R. A. Ross, power expert, to insure an uninterrupted service, and have so notified the city. Mr. Bennett will take up the clause with the manager, Mr. Moore, in a few days, with a view to finding out exactly the extent of recompense to which they would be bound under present conditions. But in a letter read at the meeting of the council last night, the company practically refused the contract in its present form and admitted their inability to supply an uninterrupted service.

City in Fairly Good Position

As the feasibility of the contract to the city depends on a continuous uninterrupted service, the city cannot sign a contract for 5,000 h.p. on any other terms, and in view of the fact that prompt steps have been taken to procure machinery for a 5,000 h.p. plant in Victoria Park, which will be in operation this fall, the city is somewhat independent of the company.

R. A. Ross, the power expert, who went into the situation very carefully when he was here, advised the city that a ten or twenty year contract for 5,000 h.p. or even 10,000 h.p. was a fair one, provided the price was reasonably free from interruption. That lack of assurance, however, would mean that the city must make a capital outlay in steam stand-by plants to insure against interruption of power up to a figure considerably higher than the cost of power by steam turbine with natural gas.

Penalty Clause, the Sticker

To meet the city against this possibility the contract was amended on the advice of Mr. Ross, to include a similar clause in the event the company should reimburse the city to the extent of four times the regular cost of power for every interruption over a certain number of hours.

NORTH EDMONTON FIRE DESTROYS HOTEL AND NINE OTHER BUILDINGS

Edmonton, May 26.—Fire which broke out in the kitchen of the North Edmonton hotel, owned by Joseph Peltz Saturday morning, resulted in the destruction of the hotel itself, including the hotel itself, which was valued at \$135,000, and nine other buildings, including a hardware store and a store, valued at \$25,000.

Arthur Bryant's butcher shop, valued at \$15,000, and Thomas Flynn's restaurant, loss \$2,000.

Residence of J. C. McArthur, at the rear of the hotel, two shacks, dry goods and grocery store, owned by J. Peltz, loss estimated at about \$10,000.

Pool room, ice room and stables, dance hall, also owned by Mr. Martel, were destroyed.

Warm

The weather today in the west has been fine and quite warm.

GOVERNOR SULZER HAS STARTED CAMPAIGN AGAINST "BOSSSES," ASSERTING "ALL MUST GO"

Governor Sulzer, of New York, says his primary bill must be passed, the bosses—all bosses—must go, and that Lieutenant Governor Martin H. Glynn, now perched on the factional fence, must come down and take sides in the war that began with the Governor's speech in Buffalo, N. Y.

Those who are marked as first for the slaughter are pictured above—Charles F. Murphy, Tammany leader; Patrick E. McCabe, John H. McCooey, William H. Fitzpatrick, Charles N. Bulger and the Lieutenant Governor, Martin H. Glynn, if he doesn't speak.

The strange feature is that he who wields "Excalibur" to-day is in and of Tammany, which elected him Speaker of the Assembly, sent him to Washington as a Representative in Congress, and, finally, after many rejections, named him for Governor, the office which had been the goal of his ambition for sixteen years.

CHARGES OF PARTIZANSHIP MAY BE INVESTIGATED BY THE POLICE MAGISTRATE

On the advice of City Solicitor Ford, the city council passed a motion last night requesting the police magistrate to investigate the charges of partizanship against James Wilson and five other foremen, presented by Stanley Jones, who submitted twelve affidavits to the mayor bearing on the matter.

The city solicitor advises that the charge is a criminal one in each case, the alleged offense being a violation of the election act of Alberta. The matter is thus outside the jurisdiction of the mayor and commissioners, and must be taken before the police magistrate. Under section 36 of the city charter, the council is empowered to carry such a charge before the court.

SOCIAL SERVICE PLAN IS EXPLORED BY DR. WARD

Promoter of Movement to Improve Social Conditions Addresses Meeting of Women, Under Auspices of the Local Council of Women.

TAKE CARE OF THE MANY LONESOME PEOPLE

Advocates Club Houses in connection with the Various Churches, Where People Could Meet and Enjoy More Wholesome Things of Life.

WIDESPREAD INTEREST HAS BEEN TAKEN IN THE SOCIAL SERVICE MOVEMENT SINCE IT WAS FIRST MENTIONED IN THE COLUMNS OF THE ALBERTAN, AND ONE SOCIETY AFTER ANOTHER HAS COME FORWARD ASKING WHAT EXACTLY PROFESSOR WARD AND HIS KINDERMEAN THE "SOCIAL SERVICE" MEANS.

The women of Calgary who are usually foremost in all things pertaining to the welfare of the city and its young people assembled in the library yesterday afternoon under the auspices of the Local Council of Women and listened with great interest to Professor Ward's explanation of the idea.

Dr. Ward emphasized the fact that social service is no new thing, the first and earliest definition of it having been made two thousand years ago in the words "Thou shalt love thy neighbor as thyself." It did not, he said, strive to overthrow existing agencies for good, but attempted to make a business of helping people by combined efforts of these already existing bodies. The social service movement had, he said, accomplished wonderful things in the States and in Eastern Canada, and though the conditions here were a little different from those in the States, yet much could be done on similar if not identical lines.

Problems Which Must Be Faced

Calgary, said Dr. Ward, not worse than other cities, and therefore needs no special management, on the contrary more is done here for the betterment of the people than in almost any other Canadian city. But, he urged, "we do not wish to do as other cities are doing, we have no wish to pollute the streets of our city with the millions in our present situation and with our present population we wish to establish a preventative rather than a cure." Continuing, Dr. Ward spoke of the great problems confronting students of social questions—the number of young men and women living in rooms, with no real homes, and the number of young men and women who are being lured by rough men in consequence, from a business standpoint, if no other, the city should provide something in the way of recreation since people refused to live here who found that after work.

SALE OF TREASURY BILLS AMOUNTING TO \$2,000,000 IS FINALLY CONSUMMATED

The sale of treasury bills amounting to \$2,000,000 has finally been completed by the Bank of Montreal, and the city was informed yesterday afternoon by the manager of the local branch of the bank that the money is now available. The notes bear interest at 3 1/4 per cent. for eight months.

A gang of men was put at work on the outlet to the Manchester sewer in East Calgary yesterday, and this work will be rushed to its completion as rapidly as the material is at hand. A number of gangs were put on water-works excavations in South Calgary, and the numbers will be increased later in the week.

Another gang was put at work on Mount Royal, and the city's paving plant commenced operations. Curb and gutter gangs are now being organized to follow the graders in all districts.

With the ratification of the contract for grading Nose Hill, recommended by the commissioners to the council, this work will probably be started this week.

The conclusion of the prolonged negotiations between the city and the bank will probably have a perceptible effect on business conditions all over the city, as the dispersion of two million dollars will relieve the pressure on the people who have been feeling the business depression most keenly.

Work will be rushed by the commissioners at once.

DRINKING FOUNTAINS, WASTE RECEPTACLES ARE APPROVED OF

Waste paper receptacles and drinking fountains will, very shortly, be placed on all the business streets.

The commissioners have advertised for tenders for fire-proof waste paper and rubbish cans, recommended by the Medical Health Officer Dr. Mahood, and iron drinking fountains for people and for horses and dogs, are being manufactured by the city in the municipal machine shop. The drinking fountains were recommended by the city planning commission last winter.

What the West Did Yesterday

WINNIPEG—Building permits today total one quarter of a million dollars including a warehouse to cost \$100,000, an office building to cost \$60,000 and an apartment block to cost \$40,000.

Owing to the increase in western business, a large wholesale firm announces that its factory capacity will be treated with sample cases Manitoba wheat from Deloraine, grown by Thomas Maynard, winner of third prize in the Shaugnessy competition.

SASKATOON—A quarter million dollar metal shingle siding plant to employ 100 men is announced for Saskatoon. It will employ 100 men. Saskatoon's assessment, this year approximates \$55,000,000.

KAMLOOPS—Construction has been commenced on an hotel which will cost \$200,000. An engineering company of Gough has established a branch here.

FORT WILLIAM—A new elevator, warehouse and dock are announced. The elevator will have a capacity of 100,000 bushels. A steamer arrived this week with a cargo of 25,000,000 pounds of soft coal.

MEDICINE HAT—A franchise has been granted for a street railway system, capitalized by a Montreal engineering company, with the stipulation that when the city reaches a population of 40,000 the franchise will be sold to the city of the gross revenue, and on reaching 100,000, will receive ten per cent.

REGINA—Latest crop statistics show that about 5,500,000 acres of grain have been seeded this year. Barley, eight per cent increase; flax, sixteen per cent; oats, five per cent; and wheat, three per cent.

JURY SAYS DEATH OF M'CARTY ACCIDENTAL PELKEY RE-ARRESTED

Is Formally Charged With Manslaughter--Released on Bonds on \$10,000 With Fred C. Lowes and Tommy Burns as Sureties--Smith and McCarney Must Remain in Calgary Until After the Trial.

THE VERDICT.

We, the coroner's jury, find that Luther McCarty came by his death accidentally, the immediate cause being a subluxation of the fourth cervical vertebrae, at Burns' arena, on May 24, 1913, but there is no evidence to show how the injury was sustained.

We, the jury, exonerate Arthur Pelkey from all blame whatsoever.

Signed—P. J. McManus, Foreman.
E. P. McCallum
H. C. Hersey
R. Jackson
E. A. Jones
E. W. Schofield
M. Dawson.

THIS was the result of the deliberations of the coroner's jury named to inquire into the death of Champion Luther McCarty at Burns' arena Saturday afternoon. It was delivered to Coroner T. J. Costello at 9.45 last night, after the coroner and the jury had listened to the testimony of the material witnesses for more than four hours. Arthur Pelkey, McCarty's opponent in the now world-famous battle, was ordered released from the coroner's custody.

Pelkey was re-arrested immediately after the verdict was rendered, by the Royal North West Mounted Police, and held in \$10,000 bonds on a charge of manslaughter. Tommy Burns and Fred C. Lowes signed the sureties, and Pelkey was released. It was rumored that Smith, Burns and McCarney would also be arrested, but this rumor proved false. Smith and McCarney, however, were told to remain in Calgary until after the trial, though it is probable that Solicitor Smith will arrange for McCarney to be allowed to accompany McCarty's body to the scene of its burial—Piqua, Ohio, tonight.

Burns First to Testify

Tommy Burns, promoter of the fatal bout; Edward W. Smith, sporting editor of The Chicago American, the referee; William L. McCarney, the Philadelphia newspaperman and manager of McCarty; Dr. H. H. Moshier, pathological expert who performed the autopsy; Arthur H. E. Beckett and Bruce Boreham, Calgary sporting writers, and Dr. C. J. Stewart were the witnesses examined. Solicitor A. L. Smith appeared for Pelkey at the inquest, while Assistant Crown Prosecutor Joseph Shaw represented the government.

At the closing address of Solicitor Smith that testified in the verdict, coupled with the doubt cast upon the testimony of Dr. Moshier by Dr. Stewart. The unusual feature of the two attorneys addressing the coroner's jury, the intense interest taken in the inquest, the dramatic tone added to the proceedings by the fact that McCarty's body was in a casket in the same building, the thousands of people who passed before the handsome casket and looked down at the boyish features of the young champion for the last time, made the inquest one never to be forgotten.

Oats Grow Two Inches in Twenty-Four Hours

By actual measurement, oats in a field not far from Calgary grew two inches during the 24 hours between Saturday night at 6 o'clock and Sunday night at the same hour.

Sounds like a pretty tall grow, but the Albertan has the assurance of Ald. W. J. Tregillus, secretary of the United Farmers of Alberta, and first agriculturalist of the province, for the statement. His opinion in agricultural matters is backed by the 14,000 farmers who are members of the organization of which he is the head.

"Saturday night I walked over a field on my place which was planted to oats this spring. The tiny stalk had just made its appearance, Sunday night I walked over the same field and in many instances the oats were two inches high," he said to an Albertan reporter yesterday.

"And I also want to say that this has been the best growing season I have ever experienced in this province. The season could not have been better for seeding. It was reasonably dry when the seed was being put into the ground; then came a period of moisture; just enough; then a period of warm weather, and it now looks as though nothing could stop the crops all over the province. Growing things are ahead of last season, and conditions, to my mind, are better; it ought to be the best year for agriculture in the history of the province."

Burns Intensely Nervous.

The rooms at Shaver's establishment were filled to suffocation when the afternoon session opened at 6 o'clock. Burns himself was the first man to take the stand. He was sworn under his right name, New Brunswick, the name under which he was known as the greatest lacrosse player in Ontario a decade ago.

Burns told his story in a low voice, evidently laboring under an intense nervous strain. He described the first negotiations with Manager McCarney for McCarty's services, the developing of Pelkey under his tutoring in Calgary, and the events leading up to the match.

From the first it was evident that Mr. Shaw was trying to prove that the match between the two young giants was to all intents and purposes a prize fight. He compelled the production of Pelkey under his tutoring in Calgary, and the events leading up to the match.

Believed McCarty Was Feigning.

Burns testified that the match was held under what is known in the boxing world as the Marquis of Queensberry rules, with a modification that neither man should hit in the clinch after the referee had given the order to break. He described the few blows struck by both men before McCarty staggered to the ropes and fopped over, unconscious.

"At that time I believed he was feigning an injury," declared Burns. "Right up to the moment he fell, I thought he was playing a trick on the boxer, feigning progress to lure on his opponent."

"But then I saw him fall, and I was the most surprised man in the arena. No blow that Pelkey had struck him should have resulted in a knockout. In fact, one of my most stringent rules in conducting boxing is that no knockout should take place, a man has ever been hurt or knocked unconscious before in my arena. We have always

BILLBOARD EXPLOITATION OF INDUSTRIAL SITES IS REJECTED BY THE COUNCIL

The proposition to advertise the industrial sites of the city of Calgary by billboards, erected at an expense of \$300 to the city, was effectively "buried" by the council last night, on the recommendation of the reception committee, although Ald. Garden proposed against it.

Ald. Garden contended that the by-law for \$12,000 the spending of which has been delegated to the reception committee covers more than mere re-

CONVENTION OF WATER USERS FROM THE CYPRESS HILLS

First Annual Gathering Held on Friday at Maple Creek; Association is Connected With the Western Canada Body; Big Attendance Present

NEED OF IRRIGATION IS WELL SET FORTH

Delegates from Outside Points Gave Interesting Addresses and Many Important and Far Reaching Resolutions Were Adopted By the Convention

Maple Creek, May 26.—The first annual convention of the Cypress Hills Water Users' association, which terminated here this evening, may be said to have been a success; the meeting has been well attended, and the interest wide. In addition to the representatives of the irrigation branch of the department of the interior, and officials of the Western Canada irrigation association, farmers from all sections of western Saskatchewan and eastern Alberta, in an approximate number of only press of official business prevented the attendance of Provincial Minister of Agriculture, Motherwell and Commissioner of Irrigation F. H. Peters.

President Robert Needham of Piapot, occupied the chair, assisted by First Vice-President, Williamson of Maple Creek, Vice-President Wright of Battle Creek, and Secretary, Herringer. Other members of the association in attendance were: L. H. Williams, Maple Creek; Geo. Thompson, Gull Lake; Allison Smith, Medicine Hat; Thomas Hargrave, Walsh; John Stewart, Maple Creek; and D. Wood, Colesburg. All side delegates present to address the meeting were: W. H. Fairfield, superintendent of government experimental farm, Lethbridge; B. J. Burly, division engineer, department of interior, Calgary; W. H. Paxson, of Coaldale; and Norman S. Rankin, secretary Western Canada Irrigation association, Calgary.

Mr. Rankin talks efficiency. After the mayor and president had welcomed the delegates to the meeting and Secretary Herringer had read the minutes of the previous assemblage, Norman Rankin was asked to address the gathering. Mr. Rankin congratulated the newly formed association upon the energy and activity they had displayed since their formation last January, pointing out that when the Western Canada Irrigation association was formed only six years ago, attendance at their first convention did not exceed that of the splendid assemblage today. It was a fallacy to say that any one could irrigate simply by turning on the water when the ground is dry and then turning it off again when it was thought enough had been applied, and it was folly to expect that men who had never irrigated, could go out and at once make a success of irrigation in a haphazard manner; the farmer required to consider well both the character of soil and crop to be watered, in order to supply water intelligently and secure the great benefits that would naturally ensue; he regretted that not one of the six demonstration farms of the government, established in Alberta had been located upon irrigated land, and that in neither of the provincial agricultural schools was there a course—even optional—in the science of water application. He assured them of the co-operation of the Western Canada Irrigation association, and invited them to appoint a delegation to attend the seventh annual convention which is to be held this summer at Lethbridge. In conclusion, Mr. Rankin briefly outlined the work of the association for the past year, and the splendid work of speakers from both north and south of the border that were to take part in the forthcoming convention. He tendered and newly formed association the good will of the Western Canadian executive, and invited them to call upon him at all times for assistance and support.

Alfalfa Growing a Success. Mr. W. H. Fairfield followed with a practical talk on "The Irrigation of Alfalfa." "Though but a few years ago," said the speaker, "the culture of alfalfa in the Lethbridge district was thought of as doubtful, they had proven that sophistry, and now had over 10,000 acres under crop; there is no frost killing, and it has been grown successfully in small areas as far north as Edmonton, and even the Peace River country." As an evidence of the interest in alfalfa in the cultivation of this crop in the past two years, over 100 farmers have applied for and received inoculated soil to begin in the culture of this forage crop. Mr. Fairfield said that the alfalfa range in the Canadian northwest was very broad and that he looked for a greatly increased acreage within the next couple of years. He concluded his remarks with a general talk on the points to be observed in alfalfa growing, inviting questions. Considerable discussion followed which brought out notably the fact that the farmers in the Cypress Hills district are extremely interested in alfalfa culture, and proposed within the next year, to substitute alfalfa for the blue joint which they have been steadily raising for the past decade.

Mr. Paxson of Coaldale, told of his experiences in the manner of laying irrigation systems, and application of water, describing in detail, the check over, the dyke method, the median spread of flooding and the furrow plan. Much discussion ensued this subject, which was eagerly listened to by the farmers.

Short addresses followed by Messrs. John Dixon, John Unsworth, Dr. Allison Smith, Walter Huckvale, and others.

Resolutions for which the endorsement of the Western Canada Irrigation association was asked at the Lethbridge convention this summer are: (a) the appointment of a government irrigation commissioner, resident at Maple Creek; (b) the establishment of a Dominion experimental farm, on both dry and irrigated land at Maple Creek; and (c) notice of invitation to the Western Canada Irrigation association to hold its annual convention in 1915 at Maple Creek.

CHARLES G. EDWARD, OF GEORGIA, IS PESSIMISTIC OVER ALIEN LAND BILL.

Representative Charles G. Edward, of Savannah, Ga., predicted recently that war will result between the United States and Japan in the event of the Webb bill becoming a law.

SENATE AMENDS BILL; RETURNS HIGHWAY BILL TO COMMONS

Government Leader Tried to Jockey Senate Into Killing Entire Bill But Failed in Effort

Ottawa, May 26.—The government highways act, amended by the Liberal majority, was today passed by the Senate Liberal majority and will be sent back to the Commons accompanied by a message asking the government to concur in the changes made. A curious situation developed in the upper house before the bill was disposed of. On Thursday night after the Liberal majority had adopted two amendments one providing that the money voted should be divided between the provinces on the basis of population and the other striking out clause six giving the government power to build trunk roads, Senator Loughheed, the government leader, would have anything more to do with the bill, and declined to move the third reading. His object, of course, was to force the majority to kill the measure outright in the Senate.

SHIPBUILDING POLICY A DIFFICULT POSITION IS DISCUSSED IN THE HOUSE

Minister Says He Will Ask English Shipbuilders to Locate in Canada

Ottawa, May 26.—The policy of the government in regard to shipbuilding was the subject of discussion this afternoon in committee of supply. The estimates for the department of marine and fisheries were being voted. The particular item was \$1,000,000 for government steamers and ice breakers.

Hon. Rodolphe Lemieux raised the question as to whether the government intended to have its ships constructed in Canada hereafter.

The minister of marine and fisheries in reply stated that in the past Canadian ship yards had not been able to deliver steamships, on time and that the work should be more costly than in Great Britain. For the future, however, he thought it would be fair to ask that British firms receiving contracts should be asked to establish yards in Canada and construct the vessels here.

EVELYN THAW ENJOYS GAY LIFE IN PARIS

Paris, May 26.—Evelyn Nesbitt Thaw is greatly enjoying her stay in Paris, according to her friends, and she will have one continuous round of enjoyment for the next few weeks before she goes to London to take part in "Hullo, Ragtime!" at the Hippodrome.

Manager Bemoans Attempts to London Press to Prevent Her Stage Appearance

Paris, May 26.—Evelyn Nesbitt Thaw is greatly enjoying her stay in Paris, according to her friends, and she will have one continuous round of enjoyment for the next few weeks before she goes to London to take part in "Hullo, Ragtime!" at the Hippodrome.

WHEN you can buy comfort and convenience for LESS than you must pay for more troublesome cooking and water heating appliances, you are neglecting your interests if you fail to examine our supply of Ranges and other Kitchen Utensils.

Whether you intend to move or stay where you are, a clean, healthful, economical kitchen is a necessity. Really modern homes have such stoves and ranges—they must have advantages, or there would not be so many of them.

TUESDAY, MAY 27, 1913.

MR. MITCHELL'S POSITION

Hon. C. R. Mitchell is a member of the government but he is not a member of the provincial legislature. That is not an unprecedented condition of affairs.

Premier Sifton was premier of the province for some weeks before he was elected as a member of the legislature. J. I. Tarte was defeated in 1896, but was a minister of the crown and was without a seat for some time.

Of course the public would not tolerate any continued occupation of a place in the cabinet without a seat in the legislature. But Mr. Mitchell has had no sufficient opportunity to secure a seat in the legislature.

CANADIAN EXPENDITURE

The people of Canada are paying more for the administration of their affairs than any other in the world. The average expenditure in Canada is \$26.00 per head.

But it must be remembered that this is merely the expenditure of the Dominion government. To this must be added the large expenditures of the different provinces and the counties and smaller municipal organizations.

To say that the people of Canada are spending more in administration than any other country is not necessarily to say that we are spending too much. If the money is wisely expended, little objection can be made even if the amount is high.

MARS IN CREASED TROUSERS

Dr. Karl Liebknecht is at present a European celebrity, but had the memory of the public not been so unparadoxically short he would have enjoyed European fame long ago.

trappings of pomp and show. It may be said that ever since Herr Liebknecht has been the champion enemy of the Prussian regime and all that it connotes—militarism, autocracy, and all the "isms" and "cracies" that are barriers to progress and odious to the world.

His recent revelations as to the machinations of the militarists and armament-mongers have opened the eyes of many who have been blinded heretofore by the familiar cant of the Imperialist. He not only deserves well of his country, but deserves well of the world; for it is he who has raised the curtain and revealed to his fellowmen that the god of war is now a plutocratic man of business—in a glossy silk hat and faultlessly creased trousers, with vested interests, as Israel Zangwill said some time ago.

A PARTIZAN SPEAKER

In Canada a speaker of the commons or any of the legislatures is a spoke in the party machinery. He does the will of the government in power quite as much as if he was a part of that government.

This fact has been shown very frequently at the present session of the commons. But that is not all. To all unprejudiced persons the rulings of the speaker have appeared to be very partial. But that was a matter of opinion.

In a recent issue The Orange Sentinel, that bulwark of Protestant Conservatism, published this notice:

The following letter has been received by the secretary of Diamond L.O.B.L., No. 1474, from Ottawa:

"Allow me, through this, to acknowledge receipt of the resolutions passed by Diamond L.O.B.L., No. 1474, on 10th March, 1913, endorsing Right Hon. R. L. Borden's Naval Policy, etc., and expressing sympathy with the Unionists of Ireland in their heroic struggle. On behalf of Right Hon. Mr. Borden and myself I thank your lodge sincerely for these expressions of their approval and words of encouragement.

"Yours fraternally, (Sgd.) T. S. SPROULE."

The T. S. Sproule, signing that letter, is the speaker of the house of commons.

CANADIAN NORTHERN FINANCE

There is every indication that the opposition in the Dominion house of commons will offer as strenuous objection to the passing of the suggested subsidy of many millions of Mackenzie and Mann, as it did to the Borden naval policy. If that is the case the opposition will save the country, for no government could afford to make use of the closure to put through a deal which is as bad as this promises to be.

No intimation has been made officially of the details of the assistance to the C.N.R. Word comes by way of The London Times, that the railway is to get \$25,000,000 in subsidies and loans. It is reported that \$15,000,000 will be an out and out cash subsidy.

The Winnipeg Free Press estimates that the Canadian Northern has received \$20,514,240 in land grants; \$10,150,278 in cash grants, and \$17,173,255 in guarantees by the provinces and the Dominion.

The Toronto Globe, in referring to the Canadian Northern finance, concludes as follows:

The government should insist on getting the equivalent in bonds or stock for the money to be advanced above the customary subsidies to all railways, and if Mr. Borden fails to do so the opposition should hold up proceedings until some such arrangement is made. Even if the people were to come into possession of a majority interest in the common stocks with but remote prospects of securing a dividend the stock could still be used to control the policy of the road and make competition a reality. An unconditional gift of loan of twenty-five or thirty millions to the C.N.R. will be regarded as a gross betrayal of the public interest.

Editorial Notes

The senate has an idea that the government in the Highways' bill is endeavoring to provide a paved way for Conservative candidates to walk into parliament without any effort or expense at all.

The Macleod Advertiser rather likes the idea of women representatives upon the school boards, but it comes to a sudden stop at the Calgary idea of enabling the fair sex to take possession of the municipal administration.

Three Calgary aldermen, properly grubstaked and otherwise accoutred are leaving the city this morning in automobiles prospecting for coal mines. They will not return until they come packing a good mine under the back seat of the auto.

The Edmonton Capital complains that Calgary with twice the mileage of the Edmonton line and 50 per cent more cars is paying but \$7,000 a month in interest on the street railway investment, while Edmonton is paying \$18,000 a month, and intimates that some of the difference is due to good management in Calgary but most of it to very bad management in Edmonton.

Now that the naval bill is before the Dominion senate, it will be up to some senator to recall from personal knowledge emergencies in the days of Drake and Nelson. Those were real emergencies as older members of the senate doubtless will recall.

The Albertan rather expected that Premier Borden would take advantage of this holiday season, to announce that after all that had been said, that he really intended to fulfill the promise which he made to the people of the west and hand over the provincial possessions to the provinces. But again we are mistaken.

Canada will not proceed with the parcel post this year. But it must come. No government can prevent it. In the meantime it is being extended and improved across the line. We shall learn by the experience of our neighbors.

Veat Pocket Essays

THE CIRCUS

The circus struggled along for several centuries in a mad form, but when T. Barnum took hold of it and plastered it over the billboards of the country, it became great.

There are two kinds of circuses, Oriental and occidental. The latter is the wildest wonder, and demagogically death-defying daredevilry gathered into one unprecedented and unimaginable galaxy under the greatest canvas in ancient or modern history.

The other kind of circus is chiefly awe-inspiring for the ease with which it rips from under to you. A circus carrying a thousand people and 500 carriages of fies and fragrant beasts will slip into a town at 6 a.m., and by breakfast time will have set up ten acres of tents and will have its calliope fired up.

Circuses consist of menageries, the big show and the side show. The menagerie is carried for the purpose of providing an excuse for parents to bring their children and thus come themselves. The side show is a method of working over the tailings, and getting such lines as the big show has overlooked.

In the big show men perform feats of agility which make a politician scrambling from party to party, look clumsy, and women ride galloping horses, balancing on one toe. Loop-the-loop men jump half way down the jaws of death and then back out, and elephants and seal orchestras play Wagner. No one has ever seen all that has happened in a circus except one man, and he died the next day from an overheated bearing in his neck.

Circuses travel from town to town and collect each day three hogheads full of dollars. There are a large number of circuses and each one is the greatest one on earth. What is a little thing like a dozen superlatives to a business which makes activity do one night stands, and which makes a fool of the attraction of gravitation a hundred times in one afternoon?

The Poet Philosopher

THE TRAMP

He's idle, overcast, and everyone's ready to throw him a doornail or give him a buff; he's always in tatters, but little it matters; he's evermore happy, so what is the diff? He carries no sorrow, no care for tomorrow, his roof is the heaven, his couch is the soil; no sighing or weeping break on his sleeping, no bell in the morning shall call him to toil. As free as the breeze he goes where he pleases, no ride over-seer to boss him around, his boys do not wither, he goes yon and hither, till dead in a haystack or ditch he is found. The joys of such freedom—no sane man can need 'em! Far better to toil for the kids and the wife, till muscles are aching and collarbone breaking, than selfishly follow the vagabond life. One laborer toiling is worth the whole boiling of idlers and tramps of what-ever degree, and though we all know it we don't find a post embalming the fact as embalmed it should be. The poets will chortle about the blithe mortal who wanders the highways and sleeps in the hay, but who sings the toller, the sweet spangled muller, who raises ten kids on a dollar a day?

Sidewalk Sketches

By Howard L. Pugh

DRESS FORMS.

The dress form is an inanimate object which makes it easy for a woman to tell whether a new gown is going to fit in more than one place or not without jabbing a living model full of pin holes.

Before the dress form was discovered a woman never knew whether her dress fitted in the back or sagged in front until she got to a meeting of the Priscilla sewing circle, when she was informed of it immediately after the reading of the minutes. Women who preferred to make their own clothes rather than wait until Thanksgiving day for a spring suit had to borrow one of the neighbors for a half day, and then circle around her with a mouthful of pins and a critical squint.

There are two kinds of dress forms, wire and pneumatic. The wire form has no arms or legs, but is sound in all other respects. One nice thing about the wire dress form is that it is not liable to shift to the other foot and throw out both arms in an elastic yawn just as the fitter has staked out some buttonholes. It does not complain, either, if it is stabbed in the back with a safety pin, and it never lets down on the sofa in a fetching negligence and expresses an unbiased opinion as to the quality of the material used or the exactness of the skirt.

The pneumatic dress form is a better device which can be blown up to correspond with any waist measure and left in a distended condition while the owner decides where she will tack on a few pleats. It is dangerous, however, to use pneumatic dress forms, as if it is liable to explode on being punctured and scatter hooks and eyes all over the premises.

Dress forms are not employed by dressmakers who prefer to use the customer for a target. As a perfect fitting requires the customer to stand in an erect and immovable attitude for three hours without a gas, it is no wonder that the dress form is supplanting this form of cataplectic treatment.

HIGH RATE OF MORTALITY AMONG BABES OF WINNIPEG

On One Ward the Rate is Nearly 282.3 per 1,000, not Quite Worst in World

Winnipeg, May 28.—The relation of the church to public health was the subject of the discussion of the final meeting of the Ministerial Association, which was held in the clubroom of Grace church this morning, when Rev. J. S. Woodworth, superintendent of All People's Mission, and Chief Food Inspector T. B. Stung gave important addresses.

Rev. J. S. Woodworth referred to the high rate of infant mortality in Winnipeg, ranging from 282.3 per 1,000 births in ward 5 to 111.8 per 1,000 in ward 6. Ward 5 (the north end) thus comes next in point of health badness to Chill, which is the worst in the world, whilst ward 1 was nearly as good as New Zealand, which was the

best in the world. Mr. Woodworth said that he did not believe they had any right to say in the burial service over some of these children "Inasmuch as the Lord in His wise providence hath removed the soul of the departed," when in many cases the death was preventable. He held that these deaths were due to the ignorance of mothers, in the matter of proper feeding, etc., to the difficulties of getting good milk in some parts of the city, especially in ward 5, where the speaker said he himself lived. Another cause was the bad housing conditions.

Rev. C. C. Owen in Serious Condition

Vancouver, May 28.—Rev. C. C. Owen, rector of Christ church, formerly of London, Ont., who sustained a serious fracture of the skull when he fell from a rig while returning from a funeral on Saturday is still in a semi-conscious condition. There has been no change since he was brought to the hospital on Saturday.

Foot Is Amputated

Arnold Landre, the ten-year-old boy who was the victim of an explosion of a giant firecracker Saturday afternoon, had his foot amputated at the general hospital yesterday.

"She Is Prematurely Grey" Is This Said About You?

IT IS UNNECESSARY TO BECOME GREY.

Anyone who is grey before the age of fifty is prematurely so. HAY'S HAIR HEALTH will restore the grey hairs to their natural color and do it so quickly so naturally that no one will know that you are using HAY'S HAIR HEALTH. When you see a man or woman with faded hair, you may be sure it is in a good condition—kept so by HAY'S HAIR HEALTH. Grey and faded hair makes you look at least 10 years older. Get rid of it right away. Don't waste time on other worthless

restorers and revivers. Get the only genuine and really satisfactory one. HAY'S HAIR HEALTH, long and favorably known as the very best preparation of its kind; use NOW, it prevents grey hair; use when you HAVE grey hair, puts back the old-time vigor and color. FREE: Sign this advertisement and take to any of the following druggists and get a free size bottle of HAY'S HAIR HEALTH and one cake of HAREFINA SOAP FREE, for 50c; or \$1.00 size bottle of HAY'S HAIR HEALTH and two cakes of HAREFINA SOAP FREE, for \$1.00; or James Finlay Drug Co.; McCutcheon & McGill; McDermid Drug Co. Ltd.; McFarlane & White.

HUDSON'S BAY COMPANY

Lace Insertions in Bargain Flurry 10c to 20c Values at 5c

We won't go into lengthy details regarding the whys and wherefores of the big reductions in the face of the great demand there is bound to be for them. We have a good legitimate reason behind it all, for this lot is composed principally of broken lines. And we don't mind telling you though that this is the lowest price dainty lace insertions have sold for in six months.

Generous buying will show wisdom on the part of all those who attend, and early today.

Hundreds of yards of dainty lace insertions, consisting of broken sets, French Valenciennes, German Valenciennes, real Maltese, Torchon, etc., from 1-2 to 4 inches wide and in an almost endless variety of patterns and designs; 5c regular 10c to 20c yard. Today

M'CARTY'S SISTER HAD PREMONITION OF HIS DEATH

Last Letter Received From Her Urged Him to Prepare to Meet His Maker--Luther Greatly Impressed

Sorting out the letters of Luther M'Carthy, while packing his trunk with his effects, Billy McCarty came across a letter addressed to M'Carthy, under date of April 14, which contained a particularly striking paragraph. The writer was his only sister, a great favorite of the big fellow. The extract from the letter follows: "We have been blessed here this week. There has been a Mission car here. I have been praying for you this week that you may go and join church and lead a good life. YOU KNOW, LUTHER, EACH DAY MAY BE YOUR LAST. There is a man living near us who is very sick tonight. Only last night evening did he go to the priest and say he wanted to join the church and last night at midnight he nearly passed away. So Luther don't wait too long. YOU KNOW IN YOUR BUSINESS YOU MIGHT GET KNOCKED OUT AND NEVER REGAIN YOUR SENSES, as others have done. I tell you, my dear brother, what does it do to gain the whole world if you lose your soul?"

Don't put it off too long, my dear boy, as that's my prayer and wish for you to try and be a better man." The letter was written from Arrow-wood, Idaho, where the sister, Mrs. R. H. Kirkman, resides on a ranch with her husband, who is connected with the state board of forestry. The letter reached M'Carthy while he was training for his bout with Frank Moran. It made a deep impression on him and when interviewed later in the day by a representative of one of the big New York papers, he gave vent to his feelings. He stated his sympathies were not in the boxing game and that he was going to cut short his stay in the ring. "There's plenty of money in being a champion," was one of his remarks, "but there is always a chance of a serious accident. One thing is certain," he added, "I will never go in the ring unless I am in perfect physical condition." With all his care he met with the most untimely death of any champion in the history of fist-ball.

"JACK" JOHNSON PROBABLY WILL NOT FIGHT FOR SOME TIME NOW

"JACK" JOHNSON.

The above is one of the latest photographs of "Jack" Johnson, world champion prize fighter, taken a short time before his trial for violation of the Webb "white slave" law, at which he was found guilty in all points. His penalty, under the law, is five years' imprisonment and \$10,000 fine.

Can't Stop Philadelphia.
Brooklyn, May 26.—A three-run lead was not enough for Brooklyn to beat Philadelphia today, the league leaders. Philadelphia, coming from behind in the eighth with two runs and winning out in the ninth by a 3 to 2 score. Both sides scored four runs in the eighth, but Philadelphia's runs were the result of a double play, while Brooklyn's were the result of a single and a walk.

Rudolph Pitched Well.
Boston, May 26.—New York scored seven runs in the fourth inning of today's game and defeated Boston 7 to 2. James was hit hard in that inning and was succeeded by Rudolph who held the visitors to two singles. Lord's double in the third inning drove in the lead two runs.

Chicago-Philadelphia Postponed.
Chicago, May 26.—St. Louis won a ninth inning victory today when Brief, batting for Mabel, sent a roller to Bush that scored Austin. The bases were full. Detroit had tied the game in their half of the ninth. St. Louis made 2 of its 4 runs on homers, both Austin and Johnson sending the ball into the right field bleachers.

GOLF AND COUNTRY CLUB SPRING TOURNAMENT

The annual tournament promoted by the Calgary Golf and Country club was brought to a termination at the week-end under perfect weather conditions. The course was in fine shape and the interest evinced showed that the game here in Calgary is elsewhere is gaining in popularity each season. A good program was arranged for the present tournament.

Browns Won by Batting Rally.
St. Louis, May 26.—St. Louis won a ninth inning victory today when Brief, batting for Mabel, sent a roller to Bush that scored Austin. The bases were full. Detroit had tied the game in their half of the ninth. St. Louis made 2 of its 4 runs on homers, both Austin and Johnson sending the ball into the right field bleachers.

Jersey City 12 18 400

Jerseys Beat Providence.
Providence, May 26.—Laritte had a hard inning for a starter and the Jerseys, by good work with the stick, sent three runs over the plate. Laritte tightened up and for the rest of the game was invincible. Davis pitched a strong game up to the eighth inning, when he weakened and the locals were in a fair way to win by the ninth when Brandon went in and saved the game. The final score being 3 to 2 in favor of Jersey City.

Indians Lose to Birds.
Baltimore, May 26.—Harry Smith's Indians went down to defeat on their first appearance of the season here this afternoon. 4 to 2. George Bell opposed Dave Roth on the mound, and each permitted 11 singles, the local pitcher hitting a little the better of the argument inasmuch as he kept the safeties made off his batters scattered.

Laurier Not Using Any Persuasion Upon Senate

Ottawa, May 25.—Just before six o'clock Sir Wilfrid Laurier rose to a question of privilege in regard to an article which appeared in today's issue of The Montreal Gazette as a dispatch from Ottawa. The statement of which Sir Wilfrid complained was one to the effect that he had delivered an ultimatum to the Liberal Senators, declaring that if they did not kill the government's naval bill he would resign the leadership of the Liberals.

Riley Bros. Who Own Property, Willing to Sell for \$55,000 and Will Give City Immediate Possession—Aldermen Think Offer a Good One

The city will likely purchase the Hillhurst Football grounds for park purposes for \$55,000. The price seems very favorable. The park includes 6.47 acres and is valued at \$50,000, which is the assessed value. The balance is made up of the buildings, which cost the owners more than twice that amount. Riley Bros. own the property.

Completion of Road.
Hon. Frank Oliver asked when the contract would be completed and the road ready.
Mr. Cochrane said that the contracts called for completion at the end of 1914, but that conditions had to be considered.

Isabella to Re-wed.
Berlin, May 24.—The Archduchess Isabella, who recently secured a divorce from Prince George of Bavaria will, it is believed, renounce her royal privileges to marry a young officer whom she met prior to her ill-starred marriage. She has not yet secured the consent of the Emperor of Austria, whose favorite she is, but it is thought he will relent.

CRICKET LEAGUE MEETING.
The annual meeting of the Calgary and District Cricket League will be held tonight at 8 o'clock in the Y.M.C.A. All clubs desiring to enter the league this season are requested to have delegates present at the meeting.

The only Rival

DUNLOP TREAD

Fit Every Rim
Largest Tire in Canada
No Loosening of the Tread

There are two kind of tracks which you find from Halifax to Vancouver—those made by Dunlop Traction Tread in the memorable trip of 1912, and those upon which the "Iron Monster" travels.

As the train is Dunlop Traction Tread's only rival, so Dunlop Traction Tread is the train's only rival.

Dunlop Traction Tread is the one answer to the long and loud call for a tire that really prevents skidding.

The "buttoned" tires are merely a whisper.

Dunlop tires, with or without Traction Tread, are larger than any other tires Made-in-Canada.

Thousands of motorists say: "Our records show Dunlop Straight Side, with or without Traction Tread, is the one tire which never did rim-cut."

HALF A CENTURY OF MONTE CARLO GAMING

How Francois Blanc Made Deal With Charles III. of Monaco

What "Ex-Attache" aptly termed the golden-wedding anniversary of the union of the Blancs and Monte Carlo has just been gorgeously celebrated in the tiny principality of Monaco. It is fifty years ago since Francois Blanc made his deal with the reigning Prince of Monaco and set up his temple to the Goddess of Chance...

THE ACCOUNT OF A DINNER WITH DICKENS

An Intimate Study of the Great Master at Close Range

The following account of a dinner with Dickens by Charles Eliot Norton is from a London exchange: At 7 o'clock we all reassembled, a large party, with other guests, among them officers from Chatham, one of whom with his young wife, a stranger to everybody, Dickens, punctual to a moment, had roused us completely; no one was to go to sleep there.

GUATEMALA MUST PAY DEBTS DUE BRITISH

Cruiser Aeolus Ordered to Barrios to Enforce Payment of Obligations

London, May 21.—The trouble between Great Britain and Guatemala over the failure of the latter country to pay its debts to British citizens is becoming acute. A day or two ago the British cruiser Aeolus was sent in a hurry from Kingston, Jamaica, to Barrios. The debts referred to are long overdue. The American government has its eye on the affair because of the Monroe doctrine.

THE KAISER'S BEST FRIEND

Power Behind the Throne

Next month William II, with all his usual talent for such events, will celebrate the silver jubilee of his reign. The editor of the World's Work in his May number sets the scene for these rejoicings by giving up striking portraits of Twelve Kaiser's Men. At the front of these stands His Serene Highness, Prince Maximilian Egon von Furstenberg, a German-Austrian grand seigneur and multi-millionaire, the power behind the German throne.

GOOD WILL OF NATIONS EXPRESSED IN DINNERS ARE GIVEN TO PRESIDENT'S DAUGHTERS

The Markets

NEW YORK STOCK MARKET QUIET AND IRREGULAR

No Definite News With Regard to Union Pacific Dissolution Affects Trading

New York, May 26.—Disappointment was the portion today of that element on the stock exchange which had looked for a resumption of last Saturday's strong and active market.

Various conditions and developments were offered in explanation of the day's absence of any definite news in connection with the Union Pacific-Southern Pacific dissolution proceedings.

Montreal Live Stock. Montreal, May 26.—Trading in live stock at the West End stockyards this morning was fairly active.

Chicago Cattle. Chicago, May 26.—Cattle receipts today were 22,000, steady to the lower end.

Chicago Hogs. Chicago, May 26.—Hogs receipts today were 18,000, steady to the lower end.

Chicago Sheep. Chicago, May 26.—Sheep receipts today were 12,000, steady to the lower end.

Chicago Poultry. Chicago, May 26.—Poultry receipts today were 10,000, steady to the lower end.

WHEAT OPENED STRONG ON WINNIPEG MARKET

American Markets Esier; Cash Demand Dull; Oats Steady and Flax Weaker

Winnipeg, May 26.—Although wheat prices opened strong as compared with the closing figures of Friday, the market later sagged and showed heaviness due to improved weather conditions.

Cash demand for wheat was extremely light, exporters doing nothing, while foreign buyers were fairly plentiful.

Receipts of all grains continue very heavy. May 25 inspections were 553,000 bushels, against 527,000 the same date last year.

Chicago Wheat. Chicago, May 26.—Wheat failed today. It was shown that rains in the grain districts were light.

Chicago Corn. Chicago, May 26.—Corn failed today. It was shown that rains in the grain districts were light.

Chicago Soybeans. Chicago, May 26.—Soybeans failed today. It was shown that rains in the grain districts were light.

Chicago Cotton. Chicago, May 26.—Cotton failed today. It was shown that rains in the grain districts were light.

PAR VALUE OF BABIES; SOME QUESTIONS THAT BIOLOGY DOESN'T ANSWER

Mr. Sidney Low has a very interesting article in The Nineteenth Century, which he calls "Is Civilization Dying?"

Two sentences alone show the importance and vitality of his subject. "It is not the full German regiments, but the empty French cradles, which compel 94 per cent. of the young men of France to turn themselves into soldiers."

The present military crisis in Europe involves certain considerations of more interest than the perilous international rivalry which it is immediately concerned.

What Empty Cradles Do. France, in order to obtain 750,000 men, is obliged to press into the ranks every man of military age.

Chicago Live Stock. Chicago, May 26.—Live stock prices were steady to the lower end.

Chicago Grain. Chicago, May 26.—Grain prices were steady to the lower end.

Chicago Oil. Chicago, May 26.—Oil prices were steady to the lower end.

Chicago Metal. Chicago, May 26.—Metal prices were steady to the lower end.

Mr. Balfour Asks Questions

The same consideration has been suggested by Mr. Balfour in some very interesting observations, which he has devoted to the subject.

"If we really can divide the community in the way they divide it, an inability to understand how we failed to have a segregation of efficiency in the past between those who are better off than those who are worse off."

The Baby Problem. Arguing from such premises, some Eugenists are asking for drastic measures to check the process of depopulation.

Hog and Dairy Special. The announcement was made that the hog and dairy special train which was intended to be run during the latter part of the season.

Chicago Live Stock. Chicago, May 26.—Live stock prices were steady to the lower end.

Chicago Grain. Chicago, May 26.—Grain prices were steady to the lower end.

Chicago Oil. Chicago, May 26.—Oil prices were steady to the lower end.

Chicago Metal. Chicago, May 26.—Metal prices were steady to the lower end.

HOW McCARTY STARTED, ROSE TO BE CHAMPION, AND DIED IN THE RING

LUTHER McCarty, who met his death on Saturday, was twenty-one years of age. He reached his majority on the seventeenth of last March. He was born in Hastings, Nebraska.
His mother died when Luther was eight years of age. From that until he was sixteen he travelled with his father around the country selling patent medicines. His father is an "Indian Doctor" known as "White Eagle." The name and supposed nationality, however, was only assumed as there was no trace of Indian blood in his veins. When Luther last heard of his father he was at Pineau, Ohio. This was just one week before the Dayton flood. It was reported that he was one of the victims, although no confirmation was received of the support.
Luther began his pugilistic career here in Calgary where it ended. He was billed as the "Calgary White Haze." The date of his first fight was April 17, 1911. He met a well known old fighter by the name of Joe Grim on that day. The referee declared the bout a draw. McCarty received twenty-five dollars for this contest.
The day of the fight he received some money from his foster mother who was in Fargo, North Dakota and Luther used this money to buy his transportation to that place.
He met several third and fourth class rats during that year. He was taken in hand by Billy McCarty a year ago last January. McCarty was impressed by his size and confidence. The two worked together for several months but getting much money for their work.
On May 5, 1912, McCarty won his first fight as a consequence when he knocked out Carl Morris who was billed as the real white hope of the world. From that time on, just a little over a year, the McCarty-McCarthy combination has made money.
McCarty's claim to the white championship of the world is based upon the popular approval of the scheme of Tom McCarty of Los Angeles to determine the heavy weight title by an elimination process. McCarty, Jim Flynn and Al Palzer were selected to be the men who should fight it out among themselves for the honors. McCarty surprised the world when he defeated Flynn on December 22, 1912 and a month later outclassed Al Palzer. He was acclaimed by the world's best fighters as champion. The last five months have been Luther's triumph. Everywhere he went money has come in easily. Prosperity did not seem to affect him. During this time he has made over twenty thousand dollars, half of which went to his manager. He saved practically every cent he made and states to his friends here last week that he had ten thousand dollars in the bank in San Francisco. All this money has been since his acquisition of the title have been no decision affairs of short duration. On April 25, 1914, he defeated Jim Flynn for the second time and on April 30, got the newspaper over Frank Moran in Philadelphia. He came directly from Philadelphia to Calgary.

Arrangements were completed the day before his death for him to go on the vaudeville stage at a salary of \$2,500 per week.
The application of the Robin Hood bill was for a third street track across Fourth street west was unanimously rejected by the Railways and New Industries committee in view of the fact that Fourth street is one of the chief cross thoroughfares of the city. There is a proposition to build a subway at this crossing of the C.P.R. and it was felt that this would be making trouble for itself; the city solicitor, however, thought that the subway would not necessarily be interfered with, and the company's representative stated the company would agree to take up the spot at any time the city saw fit.
Ald. Garden intimated that a permanent subway was not to be thought of. The matter was finally referred to the city solicitor for his opinion. The company wished to have the matter ratified by the Railway Commission, which is here on May 28. It may be taken before that body without the acquiescence of the committee.

ROBIN HOOD APPLICATION FOR CROSSING REJECTED

DISORDER AT SUFFRAGETTE DEMONSTRATION AT LONDON EAST END

Many of Women Had Their Clothing Nearly Torn Off in Trouble Which Ensued
London, May 26.—Victoria Park in the east end, was the scene of a riot today when trades unionists and Socialists attempted to hold a demonstration in support of votes for women. Fifteen platforms had been erected and were elaborately decorated. The crowd stormed the platforms and dragged them outside the park.
Mounted and foot police, by repeated charges, finally drove the crowd away. Women had their clothes nearly torn off. There were innumerable free fights and the ambulance service was kept busy.
Suffragettes paraded with their colors, the standards carried by their leaders, the mob tore the decorations from the suffragettes and carried away the flags as souvenirs.
On Saturday suffragettes attempted to blow up Whitley hall at Deacons, owned by Sir Win. Cook. The place was unoccupied. They exploded a bomb, and suffragette literature was found under a stairway.

While a Chicago lawyer was defending a pickpocket in the police court the client relieved him of a roll of bills. The usual touching plea for clemency was omitted.

BIG Auction Sale

OF NATIVE Range Cattle and Horses
at ALBERTA STOCK YARD, CALGARY.
Tuesday, May 27
At 1.30 p.m. Sharp.
The undersigned will sell the following—
CATTLE
230 head or more
65 head or more 2 year old steers
100 head or more 3 year old steers
55 head or more 4 year old steers
HORSES
4 head heavy Mares, well broken and bred;
1 team 3 year old geldings.
5 2 year old colts, Clyde bred
1 registered Clyde stallion, weight 1800 lbs., 6 years old, a sure foal getter. This horse is an exceptionally good type.
Papers on view at time of sale.
The above cattle are a choice lot native stock Shorthorn and Hereford bred, and having been well wintered, are in fine shape to go on the grass for early feed. The horses are Clyde bred, the grown stock well broken, and the mares have been tried.
The cattle will be sold in bunches.
Terms Cash.
R. A. JOHNSTON, Auctioneer.
All information may be had by communicating with Auctioneer, Phone M6347 or M2832.
