The Grosbeak Quarantine Station to be placed in a state of thorough efficiency—Two Steam Tugs This Year Refitting—Quarantine Travelers—No Deep Water Wharf.

OTTAWA, Jan. 11.—Messrs. Andrew A. Allan and George H. W. Mackintosh, representing the Allan Line, and John Torrance and W. M. MacIntyre, representing the Dominion Line of steamships, had an interview with Sir John Thompson, Hon. M. Bowell, Hon. A. R. Angus and Hon. T. M. Daly to-day, with reference to immigration and quarantine matters.

With reference to the latter subject the deputations were informed that it was not at all likely that the authority to be exercised by the Dominion and Provincial Governments would be renewed, as a conference would shortly take place between the two Governments. It was expected that the matter would be amicably and satisfactorily settled.

The deputations were also informed in view of the possibility of their making their appearance every possible precaution would be taken, and the Grosbeak quarantine station placed in a state of thorough efficiency. The best disinfecting apparatus had been supplied and proper accommodations provided for all classes of passengers.

As to the deep water wharf, it was pointed out to the deputations that it would cost a very large sum of money, and that it could not possibly be completed before the end of the season, if then. The present pier furnished ample accommodation for the landing of passengers, and although the deep water wharf would be a convenience for vessels to alight and depart, still the disinfecting could be done as well from the pier.

With the exception of the wharf, the deputations were assured that on the opening of navigation, Grosbeak quarantine station would be in a state of thorough respect, and it was also intended to improve the quarantine station at Halifax.

In conversation Mr. Allan expressed the opinion that immigration next year would not be materially affected by the cholera scare.

Mr. C. C. Upper's resignation of the County Judgeship of Hamilton had been accepted.

One of the Punny Deals Occasioned by Women's Wiles.

OTTAWA, Jan. 11.—William Gray, proprietor of the St. Lawrence Hotel here, said D. Ranger, another hotelkeeper, for \$500 damages for a heavy award from him the afflictions of his wife.

The case was to have come up to-day at the sittings. Ranger giving Gray \$1000, taking over of the St. Lawrence and assuming all indebtedness incurred by Gray in his business. Mr. Gray is now in charge of Ranger, and Gray is said to have started for England early in the morning with a non-commissioned officer of the Foot Guards.

HANDSOME WRAPS.

Beautiful Gowns for Toronto's Fashionable and Fair.

The enchanted season of balls, concert and fashionable entertainments is now at its height, and Toronto's society ladies vie with each other in the elegance of their attire. It should be remembered that jackets are decidedly passé for evening wear, and even the woman wearing one of

sequins is not to be envied, as the big sleeves of the modern gowns cannot be crumpled into the close compass of the outer garment. The only wrap that can be worn is one of Diener's beautiful fur-lined circulars or fur capes.

These well-known storekeepers are at King and Yonge-streets, have made it an invariable rule to hold their prices ranging from 80c to \$25, in millions of various colors, brocades and fancy cloths, with fur lining, and hand-trimmed with ermine. There is a full line of full length Russian fur and fur-lined circulars for street and evening wear.

Diener's shoprooms are crowded daily, and their stock of furs is being greatly reduced every day. Therefore, it behooves every woman to possess one of these handsome wraps to make her selection as soon as possible.

BEN BUTLER DEAD.

He Was Attacked with a Fit of Coughing—His Valet Found Him in the Bedroom.

WASHINGTON, Jan. 11.—Benjamin F. Butler, the lawyer, statesman, politician and millionaire, died at his residence in Washington, No. 225 North Broadway, at 10 o'clock this morning.

During the present winter a case which had been the subject of the highest court of the State of Massachusetts, and in which he took an appeal to the United States Supreme Court, had demanded his almost constant residence in this city.

Shortly after 1 o'clock this morning the General was attacked with a fit of coughing, which awakened the man servant, who always occupied an adjoining room. He at once hastened to the General's side and asked him what the matter was.

The General meanwhile had gone to the bath-room adjoining, and the valet hastened and offered his assistance.

The General mentioned that his expiration had been discovered. He was not at all surprised, and thought very calmly of the matter, however, and after the valet had assisted him to his bed he lay down and fell asleep.

It was fully 15 minutes before he could be aroused, and when he returned to his room, the attendant, Dr. E. R. Bayne, the family physician, it was seen that the General was already in extremis. The doctor informed his two nieces, Miss Stevens and Mrs. Dunn, who were at his bedside, and death ensued almost immediately.

The funeral will take place at 11 o'clock, at the residence of the deceased, Mr. Butler, at 225 North Broadway, Mass., in the family lot, where lie the remains of his wife and his son Benjamin, the latter of whom died in 1870. He was buried in the family lot.

He received a collegiate education in Maine, studied law and became a member of the Maine bar.

At the outbreak of the war he was Brigadier-General of the Massachusetts militia, and when Lincoln issued orders for troops to be raised from the State, he was the first organized to encounter the onslaught.

LONDON, Jan. 12.—The Daily News says editorially that Butler "had great capacity but not one of a high order."

The Daily Chronicle contrasts at length Gen. Butler's good and bad qualities. It says editorially, "With all his great gifts, it is a heavy award from him the afflictions of his wife."

STARTLING TESTIMONY ON THE PANAMA CANAL SCANDAL.

The Manager of Pan Am Affairs Resigned Because He Had to Pay Too Many Lies—A Contractor's Enormous Profit—Baron de Reineck Received Two Million Francs as a Bribe.

PARIS, Jan. 11.—There is a strong feeling in the Chamber of Deputies, as well as among the general public, that M. Ribot has not yet sufficiently purged the ministry of those who are innocent or guilty, who have been under suspicion in connection with the Panama scandal. The public demand is strongly for a thorough investigation, without any hampering influences, and for a ministry free from the breath of scandal.

The Jersey Canal is now in exactly the same condition as when the scandal broke out last February. It has a right, of course, to agree with the Reading on prices, but the reason is not that it will pursue a most independent course.

A WATER FAMINE.

Portions of the City Without a Supply for Several Hours—What Caused the Scarcity.

The citizens have the possibility of a water famine staring them in the face. About noon yesterday the indicator in the Superintendent's office showed a sudden falling off in the pressure. At 1 o'clock it was barely 30 pounds instead of 90 pounds as usual.

Later came the startling intelligence that the engine at the high-level pumping station was at a standstill because there was a continuous leakage of water from the main pipe.

At first it was thought that the engine at the main pumping station had given out, but an enquiry elicited the information that the three engines were pumping water away. The department was confounded.

Men were sent out to ascertain if a main had burst in a secluded part of the city, while others tramped the water front to see if one of the valves had been forced. But nothing was found that would explain the cause of the leakage.

At last there was an improvement in the pressure, and the engine at the high level station was able to start up again.

The cause of the falling off in the pressure, said Superintendent Hamilton to the World late last night, "is undoubtedly the indiscriminate use of water by the citizens. There cannot be any other reason for it, or it would be discovered."

"No, it won't be all right till we get the new engine started up again. This, however, we expect to do in the course of a few days."

The reason that the city north of Bloor-street was without water is this: All that part of the city north of Bloor-street is supplied direct from the main pumping station. The surplus flows into the Roshill reservoir and to the high level pumping station in Rathnelly-avenue.

The main north of Bloor are supplied from this station.

In the afternoon Superintendent Hamilton issued a circular to the citizens requesting them to assist in maintaining a good fire pressure by using as little water as possible.

Owners of houses are asked to refrain from using thin and parties owning steam boilers are warned against accidents from lack of pressure. All parties found wasting water will be prosecuted.

HARBORMASTER BALDWIN ILL.

Seized With a Stroke of Paralysis—Will Probably Recover.

Venezuela and citizens generally are sorry to hear that Harbormaster Morgan Baldwin is seriously ill in his residence, 49 Duke-street, having sustained an attack of paralysis. His friends say the attack is not a serious one, and that Mr. Baldwin will soon be able to resume his duties, but at present he is confined to his bed.

In the meantime many enquiries are being made at Mr. Baldwin's residence, and many of his friends have expressed their sympathy.

Don't You Buy Tickets.

"You take my advice," said the street car conductor, as he tore off a pasted-on slip and returned the remainder, "don't you ever buy tickets. Economy's the road to wealth. A hundred times in my life I've seen three or four fellows get on one ticket and get out of their money. Hold on, another would say, 'I've got tickets.'"

Back would go the money and up would go the conductor's nose. There is something in human nature that makes a man spend on tickets as if he was a duke. He looks on them as worthless. The fellow who lets them alone and puts a nickel when he has to generally rides free. Watch it some time and see for yourself."

An Improved Car Coupler.

The Street Railway Company has been looking, and until lately in vain, for a perfect car coupler. But Mr. J. McGowan has modified the ordinary link and pin coupler and adapted it for street car use. The coupler works on a pivot under the car to allow the turning of cars, and the only other change is that the pin rises when the link enters and drops into position instead of being replaced by hand. Cars can be coupled or separated without the conductor stepping to the ground. The new coupler may be seen on trolley car No. 216, which runs on the belt line.

Mr. Laurier's speech. It is this that is the opening sentence of the Times' editorial on Mr. Laurier's speech on the Irish Church. It is appropriate as an enquiry after Mr. Laurier's address to the Young Liberals.

Mr. Laurier identifies the English Whigs with the Liberals of Canada. He is welcome to this, but what honor his party can get out of his friends being classed as being identical in their policy with the Bourbons of English politics, we fail to see.

Mr. Laurier made much of the so-called "exodus." He, however, shirked any explanation of the departure of so many of his competitors from Quebec, which is mainly owing to certain social and ecclesiastical conditions which make life in the States so much more attractive to the young.

Mr. Laurier had watched our farmers since last harvest he would have seen them shipping their products wholesale to England. In saying this, that for "what" products a farmer has no market, he was stating that which is no market at all.

Mr. Laurier, in his promotion, predicted the triumph of Free Trade in Canada as soon as there is a Liberal Administration at Ottawa. He will perhaps explain in another speech what sort of a reciprocity treaty he proposes to make between Canada, when Free Trade is established, and the United States with a protective tariff.
