FIFTEENTH YEAR

CAMPAIGN WELL UNDER WAY

SIR OLIVER MOWAT AND HIS CAMPAIGN
MOWAT'S CAMPAIGN

Mr. Mowat and Mr. Hardy speak in London—Mr. Ross at Oakville—Nothing New in Any of Their Speeches—East Toronto Reformers Decide Not to Nominates a Candidate.

LONDON, Ont., May 28.—The reception to Premier Mowat and Mr. Hardy by the Reformers of London and surrounding country to-night was of the heartiest character. The Grand Opera House was filled to the very part, many being from a distance.

Candidate E. S. Hobbs made rather a lame attempt at a speech. He was followed by Hon. O. Mowat, who dressed up the old chestnuts in new clothes, but said nothing worthy of a provincial premier. Indeed, his friends say he did Mr. Hobbs' cause harm by explaining the Government's view on the concession to Separate Schools.

Sir Oliver took up the prohibition question first and said that the time had come when the experiment should be tried. He referred in a general way to what his Government had done for the province, the charge of partnership in connection with the Education Department was deleted. In regard to the Government House question Sir Oliver was evasive and said that when the people were tired of this institution they would say so. He was not in favor of judicial sessions and believed that annual sessions were a beneficial check upon the Government. Sir Oliver closed by declaring that his was the "Equal Rights Party."

Mr. Hardy followed and complimented Mr. Meredith, promising that in differing from him it was only in a political sense. He then rebuked what the Government had done for the people, the general education had made, the money they had expended upon public works, the great system of education they had given the people, and other measures they had promulgated for the public benefit from time to time.

Hon. E. Harcourt was next in order, and E. S. Hymon and G. C. Gibbons delivered short addresses and John Campbell moved a vote of confidence in Messrs. Mowat and Hobbs, while H. S. Hymon and G. C. Gibbons delivered similar duty for Mr. Laurier and the Liberal party.

The meeting was at times noisy and the interruptions rattled the speakers considerably. It was lacking in enthusiasm from first to last and will not change one vote.

THE CAMPAIGN IN HALTON

Hon. G. W. Ross Addresses a Largely Attended Meeting at Oakville.

OAKVILLE, Ont., May 28.—By a volley from the Grt guns here to-night. A campaign meeting was held in the Town Hall, which was crowded with delegates from town and district. Mr. S. D. Marlet presided. Short speeches were made by the Liberal candidate, Mr. John Hinchman, who spoke confidently of his election; Dr. McCrimmon, president of the Halton Reform Club; Mayor Young, J. C. Walsh of the Toronto Young Liberal Club, and D. O. Cameron. Hon. G. W. Ross was given a hearty ovation and he responded to the cheering and enthusiastically on the questions the campaign dealing principally with the economy and efficiency of the Mowat Administration. Separate resolutions were passed denying that Catholics were given any preference in public institutions. He stated that the Government was in favor of retaining Government House, but if the voters thought best it would be abandoned. Bismarck was condemned, as the saving of thirty or forty thousand would not offset the injury to Canada of the enclosure of the St. Lawrence. He declared the Government for prohibition so soon as their power was tested and spoke loudly of the enclosure of the St. Lawrence Government to all agricultural institutions. The meeting was most appreciative and closed with cheers for the candidate, Sir Oliver and the Queen.

THE LIBERALS ARE OUT OF IT

No Reform Candidate to Be Run in East

The East Toronto Reform machine decided last night not to nominate any candidate in opposition to Dr. Ryerson and John Armstrong and a convention of 75 ratified the decision.

While the stalwart guardians of the portal were examining the delegates' tickets the Executive Committee held a secret convocation in a side room.

When Mr. McCabe took the chair there were on the platform: R. J. Fleming, Elmer Schell, Frank Payne, E. S. Spencer, Dan Kelly, W. M. Hall, Ald. Peter Macdonald, John Gibb, Frank Armstrong, J. K. Leslie and W. H. Smith.

Mr. McCabe's exercise of the liberty which the party had as to what they would do. With amazing frankness Mr. McCabe announced that the convention could do what it thought best with regard to the selection of a candidate. The action should be one which would help the Government and Sir Oliver Mowat. If by standing aside the party could be benefited he recommended that it should be done.

H. H. Smith read this resolution passed by the Executive Committee: "That this committee does not deem it wise to recommend the nomination of a candidate for East Toronto."

There were cries of "Hush" and "Carried" and then Capt. Vennell introduced another resolution on the same lines stating that the labor candidate should be given a clear field.

Mr. Fleming moved the passage of the Executive Committee's resolution. The labor party wanted a representative and the Reformers could afford to withdraw from the contest and allow Mr. Armstrong a clear field against the Conservative candidate. By this action the Reform party would give evidence of their good-will towards the laboring man. [Applause.]

Mr. Fleming seconded the motion, saying that if he thought the Reformers could carry East Toronto he would insist upon a candidate.

Capt. Vennell spoke in favor of the resolution. Alexander Gibb wanted to know if the labor men in the other divisions of Toronto would support the labor candidate in return for allowing them a clear field in the east.

R. J. Fleming said that no such arrangement was made. He would vote for the labor candidate.

CLIMAX OF A FEUD OF YEARS.

DETECTIVE MURRAY'S CLERK WORK IN MORGAN.

How J. J. Brasley is Alleged to Have Got Even With the Grangers—Trafficking in Means of Footprints—The Accused Committed to Jail for Trial.

Chief Government Detective John Murray returned last evening from North Monaghan, where he has been engaged for a week on an intricate case.

For the past four or five years there have been wars and rumors of wars in the vicinity of what is known as the Grange Hall, in North Monaghan. Later the rumors took definite shape and the law was invoked, and from time to time since 1890 the name of one James J. Brasley has been periodically figuring in the courts.

A Frontal Granger. Mr. Brasley was one of the most active workers in the interests of the Grange, and generally leased about a quarter of an acre of land on the corner of his farm to the Grange at the rate of \$1 per annum for 21 years, providing that in the event the Grange should be dissolved he was to revert back to the owner. Brasley was elected master of the Grange.

At about 10 years after the formation of the Grange Brasley, it is alleged, became dissatisfied for some reason and took all the property, including the land, and was only called at irregular periods, and long intervals between each one. In 1890 he moved into Peterboro with his family and shortly afterwards claimed that the Grange had become defunct, and announced his intention of taking possession of the land again. The locks on the doors were changed and the seal and charter of the Grange mysteriously disappeared. In vain the Grangers remonstrated and pointed out to the Grangers, it is stated, that the law would be enforced if they did not do so.

Opened Fire with a Winchester. Brasley, it is said, again claimed the fastenings on the doors and made threats against any who would dare to trespass on what he termed his property. The Grange, however, continued to hold its meetings and some time past, managing to obtain an entrance some night, however, a rude interruption occurred in the placid course of events. When the members returned to hold their usual meeting they found that Brasley had entered the building and was in the doorway, and no entrance could be obtained.

One night, however, a rude interruption occurred in the placid course of events. When the members returned to hold their usual meeting they found that Brasley had entered the building and was in the doorway, and no entrance could be obtained.

Anticipating that on the next meeting night Brasley would again be in possession of the hall, a couple of the members secreted themselves in the hall. Sure enough he came and they were surprised to find that he entered the hall the same evening upon his own feet, but he was not allowed to enter. He was bound hand and foot in the twinkling of an eye. In another twinkling he was stretched out on the ground, and was not long left in doubt as to the fate that awaited him.

They disappeared for a minute or two, and they came back they were accompanied by a few constables and proceeded to search the premises with long, light whips, and in spite of his screams and prayers, Brasley was subjected to one of the most severe horse-whippings that any man in the county has ever known to have received.

The next day several arrests were made in the vicinity of Peterboro and a total of \$200 damages against those who had taken part in the assault.

Another action was brought later on the case of Police Magistrate Dumble. He was summoned to appear in court, but he did not appear, and the magistrate, in which he was again unsuccessful.

He then made an appeal to the courts to return him in his possession of the premises, but this was refused, and he was taken to a barrowing tale of work. McLean said he would do his best to get the job, and so worked upon the farmer that the wanderer was given a job.

Yesterday morning McLean was charged before Judge Wingfield with stealing a silver watch and a pocket watch, and was committed to jail for trial.

The Evolution of the Cecoco. The time will never be when man will cease to be a creature of the moment. An example of what may be evolved from the original production of the mulberry worm may now be seen in a ludicrous window display in a store in Kingston, Ont.

Mr. Keating estimated that the cost of establishing a plant would be about \$30,000, and the annual cost of operating it \$100,000. On the above basis the annual cost for 1200 lamps \$75 each, the city at present pays \$100 per lamp per annum.

When the report was read Ald. Gowankov protested. He thought it was outside of the committee's jurisdiction and should be left to the Fire and Light Committee. Ald. Bewick and Murray supported Ald. Gowankov and maintained that the report was not of order, that the engineer had never been authorized to visit the other side and had done so good by himself. He had only collected a lot of information from printed reports that might have been collected by the use of power stamps. Ald. Burns and Chairman Lamb fought hard to have the matter settled, but the others were in the majority and the matter was referred to the Fire and Light Committee.

Coughlers will cure your baby's cold. Personal. Mr. E. B. Eddy of Hull, P. Q., is in town. Progress College of Trinity College in this city has been awarded a scholarship of \$1000. The Ontario Literary and Scientific Society, New York.

Ex-Ald. Swain's name was inadvertently omitted in the list of Supreme Grand Masters of the Grand Lodge of Ontario for the year 1898. The list of the Grand Lodge of Ontario for the year 1898. The list of the Grand Lodge of Ontario for the year 1898.

Rev. R. H. Hamilton, formerly of Deep River, Ontario, has received a call to the pastorate of the Protestant Episcopal Church, Lakefield.

Coughlers excel all other medicines. Dr. Cress Edson, President Board of Health, has recommended Dr. Cress Edson's Cough Syrup for all coughs, colds and croup.

WIN THE POPE'S MEDAL.

Miss Nora O'Brien Receives a Prize For Excellence in Church History.

Miss O'Brien, a pupil of the Holy Family School, has just received the Pope's Medal for her excellence in church history.

How J. J. Brasley is Alleged to Have Got Even With the Grangers—Trafficking in Means of Footprints—The Accused Committed to Jail for Trial.

Chief Government Detective John Murray returned last evening from North Monaghan, where he has been engaged for a week on an intricate case.

TWO CENTENARIANS.

One of Whom Experienced the Horrors of the Moscow Campaign.

Centenarians nowadays are as common as blackberries; but a lady who has just celebrated her hundredth birthday at Turin stands out conspicuous among the crowd on account of her early experiences. The Countess Alessio accompanied her husband as a bride of 18 through the horrors of the Moscow campaign of 1812, and returned safe and sound. So little, indeed, did the hardships with which she had to contend that she is still able to spend some hours daily at her pianoforte.

The Vienna newspapers record that Mrs. Sarah Thomas, residing at Penycroft, Buryport, has just attained her 100th birthday. Mrs. Thomas is, it is said, wonderfully vivacious, and an inveterate smoker, the weed being regularly supplied to her by one of her old retainers, who takes her daily walk with the aid of two sticks.

Fast Swimming Fish. The shark is the greatest swimmer of the fish tribe over long distances, and finds no difficulty in keeping up with the fastest of the human race. It is almost certain death, this voracious monster making very few bites of any human being within reach of its jaws. The shark, in case of short distances, takes the lead, managing to swim with great ease at the head of the pack. The dolphin and Spanish mackerel are also very fast swimmers, the latter being particularly noted for its speed. A fast fish looks trim and pointed, its fins fitting close to the body like a knife-blade into its handle; the fish with large head and stubby fins is one of the slow species.

After such a mild winter we are sure to have many such cold snaps, and ladies will do well to have their hands fastened in caps during the winter season. Visitors and ladies of Toronto should see them. The best hats—those of the most celebrated makers, the highest quality and most approved style—are to be had at Dineen's.

Dineen's stores: 254 Yonge-street. 254 Yonge-street (open until 10).

A UNIQUE HIGHWAYMAN. Tied a Boy To a Hydrant, and Stole His Money. The boy Froehlich, who gives his address as 475 Front-street east, was arrested yesterday charged with highway robbery. Froehlich was charged with robbing a boy, whose name is known to a hydrant in Eastern-avenue and stealing his money.

A Novelty at the Grand. The law of contracts is exemplified at the Grand Opera House this week. From the sublime of last week there was a great descent to the vulgar. The play was a comedy, played by Miss Josephine Cameron's company, and was a realistic representation of the wretched career of a French marionette, a gambling man, who was abandoned by his wife and his mistress, who had been seduced by him, and who afterwards as a police spy made use of the talents of the wretched "Frog" to do the bidding of the police.

The Grand Festival. The announcement was made this morning to the effect that the subscribers' list for the Grand Festival would close on Thursday next. The list of names is a very large number, and the program is as follows: Thursday evening, 29th inst., at 7.30, a grand concert, given by the Grand Festival Association, and featuring the Grand Festival Orchestra, and the Grand Festival Chorus.

The weather here is excellent this week for rainfall. There has been a fair amount of rain, but it has not disturbed the crops, and the weather is generally good. The crops are generally good, and the weather is generally good.

A BLUE MONDAY AT OTTAWA.

ONLY THIRTY MEMBERS IN ATTENDANCE AT THE HOUSE.

McCarthy's Northwest Bill Goes to the Foot of the List—The Motion to Test the House on Prohibition Dropped—Mr. Foster Announces Corrections in the Tariff.

OTTAWA, May 28.—The new member for Glengarry, N. B., Mr. T. Blanchard, was introduced on the opening of the House by Sir John Thompson and Hon. John Costigan.

The bills to incorporate the Dominion Gas and Electric Company and to empower the Niagara Falls Suspension Bridge Company to issue debentures were read a second time and passed.

Bills for the relief of Joshua Nicholas Filman and to incorporate the Colonial Mutual Life Association were read a second time and passed.

No shortage in Warden Lavell's Account. Mr. Millock asked if the Warden of Kingston Penitentiary had recently paid over to the Government any money in respect of the account of the House by Sir John Thompson. The question appears to be founded on a mistake. There is no shortage in the account.

Mr. Mills moved his resolution that steps should be taken by the Canadian Government to introduce the fur seal into Hudson Bay and other Eastern waters. Sir C. H. Tupper said that independently of the expense of carrying out Mr. Mills' resolution, the Government would be desirable to introduce the fur seal into Eastern waters, as it was a great fish destroyer.

After some further discussion the debate was adjourned. The Prohibition Test Motion. Mr. Millock asked if the Government carried a dozen notices for the Prohibition Test Motion. The members in whose names the notices were carried, after passing a few unimportant clauses, and reported progress, on motion of Sir John Thompson, on account of Mr. Weldon not being present, and the bill dropped to the bottom of the list.

Public bills in the order were called and the House went into committee on Mr. Weldon's Bill to Disfranchise Voters who have taken oaths, after passing a few unimportant clauses, and reported progress, on motion of Sir John Thompson, on account of Mr. Weldon not being present, and the bill dropped to the bottom of the list.

Mr. Mallock's bill to amend the Railway Act was read a second time, passed through committee, and was read a third time. Mr. Mallock explained that it simply required a vote to be passed for motion on electric cars. The balance of the order paper was then gone through, but nobody being ready to go on the House adjourned at 5.45. The attendance of the House was 30 members, more than 30 members being present at any one time.

Tariff Changes Announced. Mr. Foster to-night gave notice of the following tariff changes: Wrought iron or steel pipe fittings and cast iron or steel rolls 50 per cent. ad valorem. Switches, frogs, crossings and interlocking apparatus 20 per cent. ad valorem. Yarns, composed wholly or in part of wool, worsted, the hair of the alpaca goat and the hair of the vicuña, costing 20 cents per pound and under, 50 per cent. ad valorem. The hair of the vicuña, costing 20 cents per pound and under, 50 per cent. ad valorem.

A Lightning Shave. Mr. Fairbairn returned to his legislative duties to-night, and he reports an experience which few men could say they had never had. He was driving from Boboyagan to Peterboro during the recent storm when the car was overturned, and he was thrown out of the car, and a few of his whiskers are missing. His son, who was driving him, also had a narrow escape.

Lariviere, M. P., Resigns. Mr. Lariviere, M. P., for Provencher, has placed his resignation in the hands of Hon. J. A. Macdonald, and he has been appointed to the position of Minister of the Interior, pending a settlement of his financial difficulties. Mr. Lariviere's resignation was accepted by the Government, and he will be followed by Mr. Debra, the engineer in charge of the work.

Traveling Dairy for the Northwest. The Dominion Government has made provision for the maintenance of two traveling dairies, one in Manitoba and the Northwest, and one in New Brunswick. They will be under the direction of the Dominion Dairy Commission. One of the dairies will be a narrow escape, with an outfit of dairy utensils, including a centrifugal cream separator, churn, butter worker, lard tub, milk tester, etc., will compose each traveling dairy. Two days will be spent in every place visited.

Wednesday to Be Government Day. Sir John Thompson gave notice that he will move on Wednesday that for the balance of the session the Government's orders be passed on Wednesdays after questions put by members and that the order for Wednesdays be the order for Mondays after 7.30.

Curran Bridge Investigation. Public Accounts Committee will meet tomorrow morning, when the Curran bridge investigation will be continued. Mr. Roy, whose examination was not concluded at the last meeting, will be the first witness, and he will probably be followed by Mr. Debra, the engineer in charge of the work.

Niagara-on-the-Lake. The Queen's Royal Hotel, Niagara-on-the-Lake, opens June 9. Very low rates of two dollars per day, or ten dollars a week are offered for the month of June.

Try Alive Bolivar's Smoking Mixture. Mr. Bolivar's Smoking Mixture is a new and effective remedy for all cases of cough, cold, and croup. It is made from the finest ingredients, and is guaranteed to cure all cases of these ailments. It is sold in all drug stores, and is highly recommended by the medical profession.

Minimum and maximum temperatures. Ottawa, May 28.—High, 60; low, 40. Toronto, May 28.—High, 60; low, 40. Montreal, May 28.—High, 60; low, 40.

Deaths. SARGANT—At 178 Sherburne-street, Toronto, on the morning of the 25th May, Margaret Sargent, beloved wife of Robert Sargent, aged 61 years. Buried at St. James' Church, Toronto.

Funeral private, Wednesday. FUNERAL—At 267 Front-street east, Toronto, on the morning of the 28th May, Margaret Sargent, wife of Henry Sargent, in her 64th year. Buried at St. James' Church, Toronto.

Orders solicited. Filling letter orders a specialty.

John Macdonald & Co. Wellington & Front-sts. E. TORONTO.

TORONTO JUNCTION ELECTION.

W. Harris chosen as councillor by a majority of 60. The election for a councillor for Ward 3, Toronto Junction, made vacant by the resignation of Dr. Gillespie, took place yesterday and resulted in Mr. W. Harris being generally supposed that the popular Michael Jackson would be the choice, as he had Mayor Boyd's administration party at his back.

Mr. Harris is an employee in Messrs. Wagner & Zedler's shoe factory. Division 60, Mr. Jackson received 71 votes in Division 22 in 1893, making a majority of 11.

It is probable over the ownership of the Toronto newspaper, the Liberal organ of the city, it seems that last fall the mortgage of W. G. Hanes, foreclosed the mortgage of the old company and a new company was formed with the late Mr. Hanes as manager. It was decided to appoint a liquidator, but none of the gentlemen agreed upon by both parties would accept the position until last week R. S. McNeil was appointed. Mr. McNeil has since attempted to take possession of the office in the absence of the liquidator, Mr. Hanes is not a large man, but he immediately proceeded to oust his visitor, which was successfully done.

The duty of the liquidator, it is claimed, is merely to settle the accounts of the old company, and not to interfere with the present affairs. The new members of the company admit that if the old company had not mortgaged the new concern would have to give up possession immediately, but as that has not yet been done the liquidator is not intended to carry on the business without interference.

Several of the original stockholders of The Tribune have not paid the amounts of their stock, there being about \$100,000 still outstanding on this account, and since the dividends have been foregone and the stock now left disposed to whomever. Editor Hanes has caused a summons to be issued for the appearance of Mr. McNeil in the Police Court this morning, charging him with assault. The matter will be tried before Justice Dr. Shaw, County Master of East York, tomorrow for Monday to attend the meeting of the Supreme Grand Lodge I. O. A. of British America.

Last Sunday morning fifty young men in bicycle costume attended St. John's Church, Toronto, where they belonged to the club, and came in response to a general invitation by the churchwarden. Their presence was not desired during the service. It is said the young men were invited to the church to see the new organ which had been recently installed in the choir.

Industrial Girls' School. The Board of Directors of the Industrial Girls' School, East Toronto, met at the school 3 p.m. Saturday, Mr. S. Caldwell presiding. The directors present were Messrs. C. Caldwell, J. H. Stewart, W. J. Hendry, Inspector Chapman and W. C. Wilkinson and Misses (Mrs.) A. K. Mathews, Kliger and Miss Wilkes.

It was decided to proceed without further delay with the subscription list for the new memorial fund in connection with the Industrial School. In view of the fact that the General Committee had decided to hold a ball for the fund, it was decided to make such effort and will proceed as soon as the necessary arrangements are made for the appointment of Messrs. O. A. Howland and Newton Millican.

The directors and visitors were shown through the home by the matron, after which the children under their teacher, Mrs. Price, went through their exercises in a very creditable manner. Mr. Caldwell made a short speech commending the children upon their showing and the matron upon the neatness and general proficiency of the home.

SURELY COMING. FATAL TO THE BABIES. Lactated Food a Grand Preventive of Sickness.

Not waiting coming; those spells of death that are so fatal to the babies, and that prove such death-dealing troubles, will soon be a thing of the past. The babies of large towns and cities suffer more than country babies because they have less fresh air and sunlight.

During the intense heat thousands of little ones are depending on cow's milk which often is filled with the germs of disease, and many are fed on artificial foods that are positively worthless, and which are responsible for many of the grave troubles that afflict the tender infants.

The infants who pass safely through the perils of summer heat are those who are nourished on Lactated Food. This scientific food is a preventive of cholera infantum, diarrhoea and dysentery. When Lactated Food is regularly used the work of flesh building goes on in summer as well as in winter, and as a result the children are healthy and strong.

Fagged Out—None but those who have become fagged out know what a depressed, nervous feeling it is. All strength is gone, and despondency has taken the place of the former vigor, as though there is nothing to live for. There, however, is a cure—our Food of Lactated Food. It will not only restore the vigor and strength, but it will also restore the health and strength of the system, and it will also restore the health and strength of the system, and it will also restore the health and strength of the system.

Ministers and the Sunday Parades. The question of Sunday parades was discussed by the Ministerial Association yesterday. Rev. Messrs. Burns, Frizzell, Duff supported the disapproval of the Sunday parades. Rev. William Young thought the parades should be fixed as the usual hours of service in the churches. The Rev. Charles Duff, the chairman, said parades were degrading and had the effect of dividing the people into classes. They should be discontinued. The resolution was adopted, and after being freely discussed it was allowed to drop. "Honesty of the subject of a paper by Rev. John MacNeil, dated May 20, 1894, is acknowledged to be the best in the world."

ERECTING THE SCAFFOLD.

The Executioner Arrives at Brampton yesterday and reported to Sheriff Brodie. He engaged a carpenter and commenced the work of erecting in the jail yard the scaffold for the execution of MacWherrill on Friday morning next.

The hammering is distinctly audible to the prisoner, who still entertains the forlorn hope that a reprieve will be granted. The hangman took a long look at the victim, and ascertained his weight and finally decided that his neck was too weak to stand the drop of the iron weight, and the old trap-door scaffold will be used. This will likely bring the top of it into view from the adjacent building. The female inhabitants in the vicinity of the jail are preparing to leave the neighborhood for a day or two.

MacWherrill's great complaint in his confinement has been on account of the meagreness of the jail fare. Of late MacWherrill's friends of himself, and a local artist has undertaken to furnish them on spec.

MacWherrill has been visited by several ministers. Rev. Mr. Pearson of Grace Church is the only one who has been favored with the prisoner's consideration. A Salvation Army lass gained access to MacWherrill's presence, but made the ministerial presence of one of those good old-fashioned exhortations, in which mercy for the thief and justice for the felon are the watchwords.

MacWherrill, being "an innocent man," has been known to "cut at bone" since his last fainting "cut at bone" since.

THE HEART

is liable to great functional disturbance through such affections as Dyspepsia, or indigestion, often causing palpitation in a distressing way. Nervous Prostration, Debility and Impoverished Blood, are causes in the rapid pulsations. Many times, Spinal Curvature, Rheumatism, or other affections, cause the heart to labor unduly. Sufferers from such Nervous Affections often imagine themselves the victims of organic disease.

All NERVOUS DISEASES, as Paralysis, Locomotor Ataxia, Epilepsy, or other affections, are cured by the use of the "B.B.B." as a speciality, with great success. The "B.B.B." is a speciality, with great success. The "B.B.B." is a speciality, with great success.

Address, WOLFE'S DISPENSARY MEDICAL ASSOCIATION, Buffalo, N. Y.

B.B.B. CURES CONSTIPATION AND SICK HEADACHE.

A Splendid Remedy. Sufferers from Constipation know the great benefit I received from B.B.B. I was troubled with constipation and sick headache, which relieved me from suffering. I can recommend it to all others and recur to it at all suffering from constipation.

MR. FISHER. A Splendid Remedy. Sufferers from Constipation know the great benefit I received from B.B.B. I was troubled with constipation and sick headache, which relieved me from suffering. I can recommend it to all others and recur to it at all suffering from constipation.

Nothing but Clothing.

OAK HALL

Toronto's Great One-Price Clothing House.

For Rainy Days. Fine imported Men's English Mackintoshes in the popular tweed patterns and in all sizes. And Men's Waterproofs at \$1.50 and up.

For Sunny Days. Men's Spring Suits in new tweeds and serges, in all sizes and in all the popular shapes and patterns. Our \$5 Serge Suits are not equalled in style, fit and quality anywhere.

For Cool Days. Light-weight Overcoats in all the fashionable shades for the season, and equal in every detail of style, fit and finish to the finest ordered garments—and the prices are fully 40 per cent. less than tailors charge.

And all other Green Vegetables that are in season.

R. BARRON, 728 YONGE-STREET.

Chicago Markets. John J. Dixon & Co. report the following fluctuations on the Chicago Board of Trade to-day:

Wheat—July 1894, 1893, 1892, 1891, 1890. Corn, 1894, 1893, 1892, 1891, 1890. Oats, 1894, 1893, 1892, 1891, 1890.

Wheat, 1894, 1893, 1892, 1891, 1890. Corn, 1894, 1893, 1892, 1891, 1890. Oats, 1894, 1893, 1892, 1891, 1890.

Wheat, 1894, 1893, 1892, 1891, 1890. Corn, 1894, 1893, 1892, 1891, 1890. Oats, 1894, 1893, 1892, 1891, 1890.
