THE CAMP FIRE.

A Monthly Record and Advocate of The Temperance Reform.

Vol. II. No. 12.

TORONTO, ONT., JUNE, 1896.

25 CENTS PER YEAR.

Do not hesitate to take this paper from the Post Office. If you have not paid for it in advance, some one else has done se for you, or it is sent you free.

PLAN NEW А OF WISE WORK FOR RICH RESULTS.

BY W.C.T.U.'8--YOUNG PEUPLE'S SOCIE-TIES - TEMPERANCE ORGANIZA-TIONS --- AND CHRISTIAN WORKERS GENERALLY.

[We carried prohibition in Maine by sowing the land knee-deep with literature.-NEAL DOW.]

THE CAMP FIRE is a carefully prepared budget of the latest and soundest campaign literature, bright and telling sketches and poems, and a summary of recent temperance news, put in the taking form of a monthly journal.

It is specially adapted to meet the popular demand for cheap, fresh, pointed, pithy Temperance Literature, for gratuituous distribution by our weihers and friends.

Its articles will be short, good and forcible, containing nothing sectional, sectarian or partizan. It will be an inspiration and an educator wherever it goes.

This paper will convince many a man whom his neighbors cannot convince.

It will talk to him quietly in his own home, in his leisure moments, when he can listen uninterruptedly.

It will talk to him strongly when he cannot talk back, and when the personality of the talker cannot interfere with the effect of his talk.

It will bring before him facts, arguments, appeals, that will influence, has ever been known. We assert with instruct, and benefit him.

It will set men thinking-this always aids our movement. It will do good wherever it goes. Its circulation will that the Good Templars of the world be a bleesing to those who give it and those who receive it.

You can greatly help it by subscribing at once for some copies and planning for their distribution.

Look at the terms :-

Twenty copies will be sent to s every month for six menths, er ten copies for one prohibition of the liquor traffic ? year for ONE DOLLAR, payable in advance.

On no other plan can a small invest ment be made to produce so much of educative result. One hundred and twenty copies may be placed in as many homes, and have more than HALF A THOUSAND readers. One dollar will cover this placing of the claims of our cause before five hundred people in Parliament to abolish the sale of Ten dollars may reach FIVE THOUS-AND. WILL YOU HELP US?

POLITICAL ACTION. TO ROYAL TEMPLARS.

REPORT ADOPTED BY THE RIGHT-WORTHY GRAND LODGE I. O. G. T. JUNE 1895.

The wise, safe, and beneficent platform that embodies our honored maxim of total abstinence for the individual and prohibition for the State and nation, has withstood in the realm

of fair investigation all assaults of criticism and defied all contrivances of political and economic sophistry.

The complete suppression of the manufacture and sale of intoxicating beverages is a fundamental principle of this world-wide Order, and it is a matter of congratulation on the part of every true Templar that no uncertain sound has ever gone out from the declaratory agencies of our organization.

Since 1869 these six sententious slogans of principle have been known as the "Good Templar Platform":

1. Total abstinence from all intoxicating liquors as beverages.

2. No license in any form, under any circumstances, for the sale of liquors to be used as heverages.

8. The absolute prohibition of the manufacture, importation, and sale of intoxicating liquors for such purpose prohibition by the will of the peo expressed in due form of law, with penalties deserved for a crime of such enormity.

4. The creation of a healthy public opinion upon the subject, by the active dissemination of truth in all the modes known to enlightened philanthropy. 5. The election of good honest men

to administer the laws. 6. Persistence in efforts to save

individuals and communities from so dreadful a scourge, against all forms of opposition and difficulties, until our success is complete and universal.

We have no hesitancy in proclaiming to the intelligence of the civilized world to-day the declaration that the legal prohibition of the drink curse would open the avenues of legitimate trade to the greatest prosperity that earnestness that this question raises the greatest moral, economic, financial, and political issue of this century. It is the patriotic hope of your committee will make such contribution to the proper settlement of this question as shall give to our beloved Order

imperishable fame and fadeless glory. **QUESTIONS FOR PARLIAMENTARY**

CANDIDATES. 1. Are you in favor of the total

2. If elected to the House of Commons will you support prohibition irrespective of party considerations?

3. If it be found impossible to secure a majority of the House of Commons for immediate prohibition will you favor the submission of the question to the electorate, promising to support prohibitory legislation if a majority of the electors vote for it?

4. Will you support a resolution intoxicating liquors within the precints of the Parliament Buildings ?

A. M. Featherstone, Dominion Councillor Royal Templars of Temperance, has addressed to workers an appeal deserving careful attention. It is published as follows in the Hamilton

Templar : -"Weighed in the balance and found wanting," was the verdict of the Que-bec Branch of the Dominion Alliance in regard to the Conservative Governin regard to the Conservative Govern-ment and party at its convention in this city on Tuesday. 26th of May. Bighteen years of office and oppor-tunity and nothing done excepting a one hundred thousand dol'ar Royal Commission, whose report they refused to make use of. A carefully prepared manifesto issued by the party, supposed to outline its policy on every import-ant question, and the question of questions — Prohibition — entirely ig-nored. On the other side what have we?

On the other side what have we? Not all we could wish, but a recogni-tion of the importance of the issue, and a positive promise on the part of the bader and his party that if the popular bote decide in favor of Prohibition, a we will be enacted in accordance with the wishes of the people. Is it any wonder that the Alliance, by unan-hous vote, decided that where no mown and avowed Prohibitionist was in the field, the vote and influence

In the field, the vote and influence of the Temperance electorate should be iven to the Liberal candidate? Personally, I shall not soon forget the Immastic, bumptious, deflant reception then by Sir Charles Hibbert Tupper to the last Prohibition delegation which waited on the Government, and wherever he may be a candidate, I trust that the Temperance vote may be solid in opposition to his election. Resolid in opposition to his election. Re-plies have not been as yet received from all the candidates from Montreal constituencies, but the attitude of the Temperance electors in St. Antoine division is not at all doubtful. In Mr. Mackay we have a man, to use the words of one of our most prominent Temperance men, "whose word is as good as his bond," whose character and record are clean, and who will be found voting on the right side on every ques-tion of Moral Reform. He will get the solid Temperance vote. His opponent, Mr. Roddick, emphasized his knowl-edge of, and showed how closely in touch he had kept with, the Temper-ance movement by stating in his reance movement by stating in his re-ply to the questions of the Alliance, "that he would prefer to delay his re-ply until the Royal Commission had

upon every Royal Templar to make his vote and influence felt in this election. Prohibition is in sight, but it means work up to the 23rd of June, and then vote and vote right.

NOTHING CAN COME OF IT.

The secret was out at last. It was a pitiful sight. In a room where taste and luxury abounded, where the hand of love daily arranged every little article in the doctor's study—and now to find him drunk ! Agnes stord gaz-ing in amazement. He—her husband who had so lately promised before God to cherish and protect her, already so fallen! Could she have known this she would never have left her father's she would never nave tell ther factors house and promised to be his wife. Now what was before her? A life of humiliation and misery. She knew he drank a little wine. "But, then, he drank a little wine. "But, then, he was wealthy, and so handsome and gay, and had a profession ; surely nothing serious could come of a taste for wine."

So she had argued before their mar-riage. Now she was to learn that this serpent, when flattered and petted, by the rich and gay, could turn and bite them when he chose to charm as well as the poor and degraded among men. Yes, he was drunk ; and the secret was discovered, the skeleton in the closet

revealed. He threw off the mask and acknowledged he had no more power over himself. Slowly he went down. First in the confidence of his people, then in the eyes of the community, and lastly, in the eyes of his own wife, who, while she stood by him and clung to some faint hope, pitied him, lost her respect for him, and finally followed him to a drunkard's grave.

respect for him, and finally followed him to a drunkard's grave. More than once have I seen this pic-ture in real life. We think of the drunkard as among the poor and des-pised of earth-ignorant and covered with rags. It is not always so. The wealthy, the talented, the petted of society, if they tamper with the serpent, will at last feel his sting. -John E. Lightbouch, in the N. T. Advocate. Advocate.

A JUVENILE PLEDGE.

"The pledge we make, no wine to take; No brandy red to turn the head; No whiskey hot that makes a sot; Nor flery run that ruins home; Nor will we sin by drinking gin; Away we fling the punch and sling; Hard cider, too, will never do, Nor brewers' beer our hearts to cheer. To quench our thirst we always bring Cold water from the well or spring. So here we pledge perpetual hate To all that can intoxicate."

THE LIQUOR SELLER'S PSALM OF LIFE.

Tell me not in wild orations

That the business I am in, Is, of all men's occupations, Most deprived and full of sin.

Life is real, and Gold and Silver Are the things that count with men;

Money's king ; we must get money ; What's the difference how or when ? " Illegal traffic? " Bosh and nonsense;

Read the License; read it well: This whole government behind it Gives me perfect right to sell.

What if women broken hearted, Pray that God may let them die ? What if mother's weep, and children— Drunkard's children—moan and cry ?

What if beer, and rum, and whiskey Crowd men into prison cells, Robbing them of all their manhood,

Sending them to drunkards' hells ?

Lives of rich men all remind me 'I can get there just the same, With a bank account behind me What care I for fame or name?

As to all your moral questions

I have only this to say: There's my License, bought and paid for, Stamped with Government's O. K. -Phebe Dodd, in Ram's Horn.

WHY DRUNKARDS SEE DOUBLE.

The reason a man sees double when under the influence of liquor is that the nerve centers are changed by the action of the alcoholic poison. The muscles that move the eyeballs do not act in harmony. Consequently instead armoi of both eyes being focussed at the same time upon an object one eye receives an impression independently of the other. Both impressions are flashed to the brain by the optic nerves. Con-sequently the object is seen twice. The inflamed condition of the brain centers and the loss of energy from overdoses of 'cohol account for the staggering gas of a drunken man.-Exchange.

Mr. R. A. Jamieson, Patron candi-date in South Renfrew, is very out-spoken in his advocacy of total prohibition. He is expected to get a strong support from friends of the temperance cause.

PROHIBITION CANDIDATES.

Never before in the history of Canada was the temperance question forced upon the attention of Parliamentary candidates to the same extent as it is in the present campaign. From every part of the country we hear of candidates being pledged to support prohibition.

Friends of our cause have acted wisely in this respect. They ought to take advantage of this opportunity. By judicious management there may be secured representatives favourable to our cause, from a good majority of the constituencies. The immediate future of the prohibition question is now in the hands of the temperance electors and upon their wisdom and energy will depend the action of the Parliament to be returned on the 23rd inst.

THE PLEBISCITE PROPOSAL.

The Quebec Branch of the Dominion Alliance at a meeting held in the City of Montreal, laid down in reference to prohibition law if such a law were parliamentary candidates, a policy which deserves careful consideration.

may be briefly summarized as follows :

The judgment has unhesitatingly and clearly affirmed the authority of the Ontario Local Option Law, and by implication has declared the right of every provincial legislature to give House of Commons, where some memthe liquor traffic.

To the ordinary reader the argument submitted in the support of this decision conveys the impression that the Judges believed the local legislatures to have full power to prohibit any liquor trafficking that begins and ends within the territorial jurisdiction of such legislatures The only reservation seems to be that such legislation law enacted by the Dominion Parliament.

Their Lordships, the Judges, who gave this decision, have however, taken care to state that they do not render a definite judgment upon any question except that of local option, which came before them in the concrete form of law, they declining to give replies having the force of judgments to any of the other questions dealt with.

Some lawyers consider that the argument presented in vindication of local option would not also necessarily establish the legality of a provincial enacted.

THE PARLIAMENTY BAR.

A good deal of discussion has taken place over the question of liquor selling within the precincts of the Parliament Buildings at Ottawa. This was provoked by unseemly occurrences in the electors the right of locally outlawing hers appeared in a decidedly discreditable condition. The matter was much canvassed and the offence strongly condemned in many quarters. On the other hand members of Parliament made strong statements as to the general sobriety and good conduct of the House. These disclaimers how ever, did not affect the stated facts.

Whether or not the sale of liquor in the Parliament Buildings is to be would be superseded by a prohibitory credited with the unseemly conduct of a few members, it will readily be

admitted that a public bar in the Parliament Buildings is neither desirable or defensible. Unfortunately, we understand the liquor selling is carried on without a regular license from the Provincial authorities. It is in some way supposed to be under the sanction of the House of Commons, but the House of Commons should not encourage liquor selling without the legal sanction that it requires elsewhere.

A simple solution of the whole difficulty is the total abolition of liquor selling in the Parliament Buildings. selling in the Parliament Buildings. And yet if either one should find his There ought to be no difficulty about this. There are many strong friends of temperance in Parliament. ALCOHOL AND THE STOMACH.

As soon as alcohol in any of the intoxicating drinks (or in any form) is received into the stomach it com-mences its destructive work. One of its effects is upon the gastric juice which is secreted from the lining mem-brane of this organ, nature's greatest agency in the process of digestion. It at once seizes upon that secretion and separates or percipitates from it one of its most important constituents, pep-sine, without which digestion is a failure. So that process is retarted, impaired or partially or completely suspended until the alcohol passes out of the stomach, by absorption or other-wise, and a new secretion of gastric juice takes place, or until the juices of the stomach redissolve the precipitated pepsine. So we come at once upon the stubborn fact that while alcohol will, dissolve many of the resins, gums, etc., under no circumstances will it dissolve. or digest food, but it is a preserver of them

them. When we desire to prevent a tumor, a bone, a portion of a limb, large or small, removed by the surgeon, we-always preserve it in alcohol. Snakes, lizards, etc., are preserved and kept for ages in the same manner. Why do we use alcohol? Simply because it will prevent decomposition. and will not digest. That's all. And.

because it will prevent decomposition. and will not digest. That's all. And. yet how many are stupid and ignorant enough to sip beer, wine, stout, or-brandy while partaking of a meal. I suppose that is their theory for-food "sticking by the rib." Yes, it does stay with them a good deal longer for it.

The continued use of alcoholics, as eer for instance, causes the stomach. beer for instance, causes the stomach to gradually become weakened and lose much of its tonicity. That atony causes loss of appetite, and the organ fails to wake up to its duty by indicat-ing its desire for food until it has a little stimulating assistance in the old way, as it has become so accustomed to depend upon it. So a person in that condition contracts the belief that he must have an alcoholic for an appe-tizer, while another, equally imbecile, thinks he must have it as a digestive. And yet if either one should find his house on fire he would not throw on

The same writer says, "The testimony of two million total abstainers in England shows that health is improved by disuse of such poisonous liquids." The one drinking alcoholics at meal time as above indicated is using the THE BRITISH ROYAL COMMISSION. We can put our heads together, you know." This made Grandmother Smith smile, for Peter was just a small boy, and his head was not a very big one. At any rate, his curly head did not seem very large beside grandmother's, with big folds of soft white hair all about it, and outside of that a fluffy white cap and its ribbons and bows, Then there was silence. What next? "We can pray, grandma," murmered Peter. "Yes, dear, we will do that," said grandmother soberly. A METHODIST MANIFESTO.

The Methodist Conferences now in session in different parts of the Dominion are speaking out with their usual energy and directness on the question of temperance. As an example of the strongly worded reports that are being adopted we publish the following, which was the unani-mous finding of the Montreal Methodist Conference:

Your Committee remember with gratitude that from the days of the Wesleys to the present, our Church has had an intelligent and hearty sympathy with the great temperance reform. Our attitude as a Church has been and must continue to be one of uncompromising hostility to the liquor traffic until its evils shall cease to exist with the personal conscientious judg-ment of any man, it is the solemn conviction of this conference that the best qualification for faithful and efficient service in the cause of Christ in our midst.

We remind our Sabbath Schools of the pledge that so many have taken, and hope that all members of the school may be so pledged, and that more careful yearly returns of all such be made to the conference. We are glad that our Epworth League and young people's societies in connection with the Church have special departments devoted to this great and growing cause, and we trust that they will continue to give special prominence to temperance work. We would also urge our representa-tive men to insist that temperance instruction authorized by law be duly recognized in all our public schools. Our ministers will not fail to bring the claims of total abstinence before quest of the Dominion Annance to send tour delegates to the unnual meeting of the Alliance council, and that the delegates be the Rev. A WONDERFUL WORK.

Britain is carried on with an energy and success that ought to be instruc-tive to Canadian workers. On the 13th of last month, the United Kingdom Band of Hope Union held its 41st anniversary. The annual reports showed that there were in the United Kingdom 22,302 Bands of Hope and other Juvenile Temperance Societies, with an aggregate membership of 2,813,000. This was an increase of 848 societies and 76,000 members over last year. A number of addresses were de-

CHEERING NEWS FROM THF FIELD OF FIGHT.

Conductor of Mr. Win. Patterson, the Liberal candidate, and called upon pro-hibitionists to loyally come to his support, Mr. Patterson has always been an ardent and consistent prohibitionist.

In Charlotte Co., N.B., Mr. Ganon, the Conservative candidate, has pub-licly declared that he will do everything in his power to secure the enact-ment of a prohibitory law.

A TEAM IN THE FIELD.

Hamilton prohibitionists have nom-inated a second independent candidate for the House of Commons. At a con-vention held on Thursday, May 21st, Mr. Frederick W. Watkins, President of the Advanced Prohibitionists, was of the Advanced Prohibitionists, was selected to contest this constituency along with Mr. W. W. Buchanan, editor of *The Templar*, who has been in the field for some time. Both can-didates are known to be earnest and enthusiastic candidates of immediate total prohibition. Committee Rooms have been opened, and a vigorous cam-paign is in progress. paign is in progress.

P. F. I., W. C. T. U.

The W.C.T.U. workers of Prince Edward Island have organized a Pro-vincial Union which held its first meeting in Charlottetown, commencing on Friday, May 22nd. A good attendance of workers was on hand, and the pro-ceedings were full of interest. Mrs. Strong, Summerside, was elected Pres-ident, Mrs. Holman, Summerside, Corresponding Secretary, and Mrs. Matheson, Recording Secretary.

SUNDAY CLOSING.

The friends of the temperance cause in the Imperial Parliament have won a substantial victory in the carrying of the second reading of the Sunday Closing Bill which was carried by a Closing Bill which was carried by a majority of eight. Although the measure is not expected to become law during the present Parliament, this step of progress is hailed with acclaim. The following is the wording of this important measure: "Whereas the provisions in force against the sale of intoxicating liquors during certain hours of the Sunday have been found provisions in force against the sale of intoxicating liquors during certain hours of the Sunday have been found to be attended with great public bene-fits, and it is expedient to extend such provisions to the other hours of Sun-day. Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lord's snipitual and temporal and Lord's spiritual and temporal, and Commons in this present Paralia-ment assembled, and by the authority of the same, as follows --(1) After General Executive.

the 10th day of October, 1896, all premises in which intoxicating liquors are sold or exposed for sale by retail, shall be closed during the whole of Sunday, subject to the provisions (except as to the hours of closing on that day) of the Licensing Acts, 1872-74. (2) This Act shall not apply to Scotland, Ireland, or the Principality of Wales. (3) This Act may be cited for all purposes as the Sunday Closing Act, 1896."

A GREAT WORK. The National Temperance Society and Publishing House of the United States, held its 31st annual meeting at 58 Reed St., New York, on Thursday, May 14th. A report was presented showing a years earnest work on educational lines, special prominence being given to the very successful missionary work among colored people of the southern States. The number of pages of literature printed in differ-ent forms during the year was22,671,270, ent forms during the year was 22,671,270, making a total number of pages print-ed since the organization of the society of 964,045,582. Rev. Joshua L. Bailey was re-elected President.

THE B.W.T.A.

Cable reports give an interesting account of the enthusiastic gathering of the British Women's Temperance Association in their 20th Annual Council. Miss Agnes Weston presided. Among the distinguished visitors were Miss Frances E. Willard, President of the W.C.T.U.; Lady Henry Somerset, President of the B.W.T.A., and Canon Wilberforce. Fuller mention of the work done will be made later on.

QUEBEC ALLIANCE

The Annual Meeting of the Quebec Branch of the Dominion Alliance was Branch of the Dominion Alliance was held in Montreal on Tuesday, May 20th, Mr. J. R. Dougall, President, in the chair. Reports were received of the replies made by Parliamentary candi-dates to questions submitted by the Alliance. The most important busi-ness transacted was the adoption of the following report of the Committee on Political Action, presented by Rev. A. M. Phillips:—"That this Alliance deems it the duty of the prohibitionist electorate to use all possible means to secure direct representation in the House of Commons at the approaching elections, in accordance with the re-port on political action adopted by the Dominion Prohibition Conven-tion held in Montreal on July 18, 1804, either through the representative or the political party. the political party. support either, according to mis preference. 2.—Where one is a prohibitionist and the other is not, then political party feeling should be sacrificed and the prohibitionist receive the support. 3.—Where neither is a prohibitionist, and it is not practicable to bring out an independent candidate, then the support should be given to the political party which has pledged itself to pro-mote prohibitory legislation where the candidate of the party can be conscien-tiously supported. 4.—The Dominion Government of the day, in its manifesto to the electors, makes no reference to the question of temperance, and has wholly ignored

makes no reference to the question of temperance, and has wholly ignored the prohibition issue, as well as by parliamentary action refused to give any pledge to promote prohibitory legislation, and whereas, the Opposi-tion did place it as plank 10 in the party platform at the National Liberal Convention held at Ottawa in June, 1888: that, whereas, public attention Convention held at Ottawa in June, 1893: that, whereas, public attention is at present much directed to the admittedly great evils of intemperance, it is desirable the minds of the people should be clearly ascertained on the question of prohibition by means of a Dominion plebiscite, in reference to which, Mr. Laurier, leader of the Liberal party, has said that he would plenge his honor as a man that, as coop plenge his honor as a man that, as soon plenge his honor as a man that, as soon at the Liberals came into power at Ottawa, they would take a plebiscite all over the Dominion, and by that declaration the party would stand, and the will of the people would be carried out, were it to cost power for ever to the Liberal party. This, the Montreal Gasette says, "is one of the largest promises ever made by a political leader."

leader." Full replies not having been received from candidates in all districts, we recommend that the application of these principles be left to the local branches of this Alliance, or, where there is no local organization, to the

duties of a society woman in a large city. "Take, for example, a woman, not strong physically, who has something on in the afternoon and then a dinner and a dance, and even perhaps the theater in the evening. When she finishes her afternoon affair, she is tired out. She cannot eat and does not want to go to sleep. She takes a glass of champagne. Only a little glass at first. The effect surprises her. She feels 100 per cent better and able to go through the evening and enjoy herself more than she had done in weeks. The next day it is the same. The one glass suffices, and she ap-parently feels no evil effects from the wine. "But there comes a day when one glass of champagne does not satisfy her. She takes two. The next night she drinks three, and then her down-ward course is rapid. In the weeks that follow she makes the discovery that wine does not taste as it did—it down not exting the augula angula makes does not satisfy that awful craving. She experiments a bit. She finds that brandy does what the wine fails to do,

so she drops the latter and becomes addicted to the former. Whisky is the next step, and the next in many cases is morphine or some other narcotic, And the next step is death—that is, unless the victim is brought up with a round turn. This is how most of the women start. How they end depends entirely upon themselves."

BRITISH SONS.

The British National Division Sons of Tomperance has just held its 41st Annual Session at Darlington. The report showed a membership of nearly 50,000. 161 representatives were pre-

its platform ; and on the hustings the leader, Mr. Laurier, has promised that in the event of his accession to power, if a declaration in favor of prohibition be the result of said plebiscite his administration will enact a prohibitory law in regard to the liquor traffic. We reaffirm the paragraph of the conference report of 1888 which reads as follows: That we as a conference declare that in view of the magnitude of the evils of intemperance, so apparent to all; and the great barrier to the extension of Christ's kingdom, which the liquos traffic undoubtedly which the liquox traffic undoubtedly is, no government having the power to prohibit the traffic and neglecting to do so is worthy of the support of Canadian electors.

The work among children in Great Britain is carried on with an energy year. A number of addresses were de-livered by leading workers.

A meeting of Methodists held in Brantford on May 20th, declared its confidence in Mr. Wm. Patterson, the
