ENEMY ON RUN BELIEVED TO BE BY BRITISH FORCES

Soldiers' Spirits Unaffected by Ghastly Aspect of Battleground.

BODIES LYING UNBURIED

Feeling That British Are on Offensive Gives Wonderful Stimulus.

BY FREDERICK PALMER

Special Cable to The Toronto World. BRITISH HEADQUARTERS IN FRANCE, March 27.—Via London, March 28, 7:30 p.m.—While the world is weary for news, day after day many men at the front with no news except a desultory artillery and rifle fire, which is the normal existence save when some supreme effort is made.

Next to having witnessed the battle of Neuve Chapelle, the most interesting thing to a correspondent is a night spent in the new British line of works which defended that section of the shell-torn earth that the British won hold against all German efforts at recovery.

Such a visit, made alone, without automobile or other accessories, proved to be no pastoral idyll of peaceful security. When a corps staff officer who gave the correspondent permission to go, required him to sign a paper releasing the army authorities from any responsibility, one could only reply that he had used the crossing of Fifth Avenue and Forty-Second Street, at the rush hour without holding the mayor of New York accountable, if run over.

Price Cheerfully Paid. The Germans were giving a shell-burst along the edge of approach to the British line at the edge of the village; stray bullets cracked against the shattered village walls, and when the correspondent left their cover he was within 200 or 400 yards of the German breastworks. Yet, the most cheerful spot where the British line lies is here.

It was worth enduring a sleepless night and plunging in mud in order to enter into the spirit of the soldiers, who had suffered such hardships and had at last seen the tide turn.

The runners came from London of complaint over the heavy cost of the victory, the officer or man at the front who takes that view is yet to be found. They know the situation and are prepared to pay the price which success requires. The point they make is that they have been able to make a gain without any heavier losses than the Germans, who yielded.

"A lot of our fellows were killed," said a soldier. "But this time it was in pushing the Germans instead of trying to hold them back. You can't win if you don't push."

AUSTRIA HOPES FOR END OF WAR

Country is Exposed to Enemies' Attacks From Three Sides.

PESSIMISM SPREADING

People Are Threatened With Starvation and Greatly Disappointed.

Special Cable to The Toronto World.

ROME, March 28.—Pessimism is rapidly spreading thru Austria-Hungary, where, since the fall of Peryasl, even the military authorities no longer hide their disappointment, and people, threatened with starvation, now wish to see the end of the war, according to confidential information available here. The conclusion by the Austrians of separate peace is no longer considered impossible, since Austria's existence now is dangerously threatened. Germany's help is out of the question. Austria is now compelled to withdraw troops from southern Hungary and the Serbian frontier and concentrate every effort against the threatened Russian invasion of Hungary. Thus Transylvania will be exposed to attack by Roumania, Bosnia to attack by Serbia, while Italy may invade the southwestern provinces and send an army against Vienna, which is only 200 miles from the Italian frontier. In spite of the unproved failure of Prince Von Buelow's negotiations, I am informed that Italy's intervention, although practically decided upon, is not imminent, and not likely to take place before the end of April, since in the meantime things may happen which may alter the situation and render possible the realization of Italy's aspirations without war.

Favorites Musical Play Tonight. The favorite English musical comedy, "The Quaker Girl," will begin another week's engagement here tonight at the Princess Theatre, with Katherine Murray, Helen Hoy, Mlle Corday, Charles Clear, Phil Moore, William Blaisdel and identified the same company that pleased local audiences two months ago.

The Sinking of the German Submarine U-8 Off the Coast of Dover By British Destroyers

These two drawings, made especially for The Toronto World, The New York Herald and The London Sphere, show scenes attending the sinking of the German submarine U-8, off the coast of Dover, England, by British destroyers. The crew were rescued as shown in the accompanying pictures. The scenes were the most novel which occurred in the war. The crew of the ill-fated undersea craft were the first submarine prisoners of war to be brought to Dover.

VICTORY AT HARTMANN'S WEILERKOPF ATTAINED AFTER FIERCE FIGHTING GIVES FRENCH A SECURE POSITION

Height Won in Hand-to-Hand Fighting Commands the Whole District of Thann, Cernay and Steinbach, and the Gain Proves Spirit of French Offensive.

Special Cable to The Toronto World. PARIS, March 28.—Owing to the great length of night and the dominating interest of the military situation on the extreme left, it is likely that the importance of the victory obtained during the last few days in Haute Alsace will be overlooked in England. The capture of the height of Hartmann's Weilerkopf, which was definitely established yesterday, is extremely valuable. For many months this strategic position has been the scene of desperate fighting. Commanding the whole district of Thann, Cernay and Steinbach, the French and German troops have struggled repeatedly for its possession and the tide of battle has ebbed and flowed upon its spurs and crests, leaving in its wake awful tolls of dead and wounded. It is here that many of the most heroic exploits of French soldiers have been achieved for the character of fighting allowed more scope for individual gallantry and personal craft of war than the siege work of the entrenched positions. It is to the Alpine Chasseurs—the blue devils of France as they are called, because of their blue helmets and hunters' dress, that the success of the final attack last week is due.

Desperate Fighting. Last Tuesday, after a tremendous artillery fire, they assaulted and took the first line of the enemy's position in a splendid rush, regardless of their own losses. On the following day they secured the second line and climbed higher towards the summit of a spur of a southern ridge of the enemy, who fought with great courage and swept the hillside with devastating rifle fire. Hand-to-hand fighting took place for several hours, but the "blue devils" had the best of it and made many prisoners.

The Great Assault. The great assault, however, was still to come. On the crest of Hartmann's Weilerkopf, 1125 metres above the plain, a great body of German troops belonging to the famous Fifteenth Corps, held ground with a formidable number of guns, and every method of German warfare was used to thrust back those blue bonnets surging up the ridges. Hand grenades were hurled down from the heights, and burning liquid came in streams from trenches dug in the hillside. Many Chasseurs were badly burned, but they continued to fight with unflinching courage. The order had been given to take the hill at all costs, and they behaved during these last three days with splendid devotion, which, I am told, will be fully recognized in the official despatch narrating one of the most heroic chapters in this war.

The French tricolor now floats on the summit of Hartmann's Weilerkopf, and yesterday the Alpines swarmed forward to the flank of the hill on the northeast and southeast, dislodging the enemy from its last grip on the stronghold which is the natural keep of the broad plain below. It is a victory which gives the French army a secure position in this part of the front, and proves the spirit of the French offensive, which soon will be revealed all along the line.

RUSSIANS TAKE HEIGHTS ON HIGHWAY TO BARTFELD

Ridge Twenty-four Miles Long Taken From Austrians—Three of the Enemy Battalions Annihilated in Bayonet Fight for One Peak Alone.

Special Cable to The Toronto World. PETROGRAD, Midn. ght, March 28.—The Russians gained another striking victory on the Bartfeld road, in the Carpathians, in the capture of a new line of heights on a front of about 24 miles, and drove the Austrians in flight before them to a new position. Word of this exploit by the Russian troops was given out here tonight by the Petrograd war office, and the details of the fighting are eagerly awaited by the citizens of Russia's capital.

Three battalions of Austrian infantry were destroyed in a bayonet fight for the possession of a height east of the Millaroc village. A series of attacks by the Austrians in the direction of Munkacs and Stry was repulsed. The enemy got so close that he attempted to throw a quantity of hand grenades into the Russian trenches, but was frustrated in this endeavor. The Russians captured 600 German prisoners in a stubborn ally fight with the enemy, who made a strong resistance against attacks on his trenches on the

front of Tartak-Wach-Zawady. Two machine guns were also taken. Both Germans and Russians are fighting on the offensive west of the Nemen in northern Poland, and lively engagements are in progress. The word that the Russians are on the offensive against the Germans indicates that the Russians are gaining a moral ascendancy over them, which they previously did not have at the beginning of the war.

Austrian Blockade of the Mediterranean Naval Yards Busy Rushing Work on Twenty Submarines for This Purpose.

Special Cable to The Toronto World. ATHENS, March 28.—In the Austrian naval yards all usual work is being suspended. Men are working hard on about twenty up-to-date submarines, with which it is intended to blockade the Mediterranean.

ALLIED FLEET IN DARDANELLES RESUMES HOT BOMBARDMENT

Firing Indicates That Gallipoli Peninsula Forts Are Being Heavily Shelled—Forts at Kilid Bahr Which Opened Fire on Mine Sweepers Were Silenced—British and German Aeroplanes Active.

Special Cable to The Toronto World. LONDON, March 28.—A cable from Tenedos says: "Operations have been recommenced in the Dardanelles by the allied fleets, and heavy firing is now proceeding in the straits. Judging by the firing heard this morning, Gallipoli Peninsula is being heavily bombarded. The weather is perfect. British sea planes have been making daily reconnaissances when the ships have not been engaged, and occasionally German aeroplanes are also seen. "Trawlers continued their mine sweeping operations in the straits of the Dardanelles, protected by battleships," says Reuter's Tenedos correspondent, telegraphing Sunday.

The Turks at Kilid Bahr opened fire on them but were bombarded and promptly silenced. Between 9 and 12 o'clock this morning heavy firing was heard from the direction of Saros. The result of the fire is not known. Allied aeroplanes were scouting again today. The Athens correspondent of the Havas Agency, of Paris, in a despatch dated Saturday says: "Mine dragging in the Dardanelles (Continued on Page 2, Column 7.)"

when the shadow of the sword creeps closer to Samsoun. The large Greek population in the Phanar district, washed by the waters of the Golden Horn, is in a state bordering on terror. Held in Houses. Some, by dint of heavy bribes, succeeded in securing but the remainder were practically held prisoners in their houses. As the yoke on the fringes of restless Istanbul, with a multitude of fanatical Kurdish hordes, a not unlikely contingency is a general massacre of Christians. To give the government its due, it realizes the danger to foreigners and Christians, and has delegated a strong military force to hold Istanbul down. It would gladly deport a few thousand hordes to Asia Minor, but dare not lest in the real test offered an anti-Christian rising would be precipitated. First Needs met. The Turkish fleet is practically immobilized and in want of coal. The Brasilia, however, is active, and returned to the Bosphorus on Saturday night after a cruise in the Black Sea. The captain declared he was unable to continue the cruise owing to the poor steaming quality of the coal in his bunkers. A desperate effort is being made to patch up the Goeben, and the Germans are working night and day on the injured vessel, which is now in the bay near the Bosphorus, and close to the city. Owing to her draught the Germans are unable to put her into dry dock, and a cofferdam has been built around the ship.

FRENCH GAINING TRENCHES DAILY IN CHAMPAGNE

German Losses in Twenty Days Estimated at Fifty Thousand.

FOE'S MORALE SHOWN

French Victories Due to Artillery and Certain Irresistible Spirit.

Special Cable to The Toronto World. CHALONS-SUR-MARNE, France, March 28.—Eleven thousand German dead have been taken from the trenches won by the French during 20 days of fighting in the Champagne country. The German losses in killed, in prisoners, and in wounded are estimated by the French military authorities at 50,000. The German wastage, they say, has been two to one compared with the French losses, because the Germans would try to regain lost ground by counter-attacks, repeated again and again, with obstinate courage.

It was in these counter assaults, supported by relatively inadequate artillery, and what the French officers assert was inadequate morale, against the allied troops that so many German soldiers have fallen. The graves in which they are buried by hundreds and by hundreds are thick upon a narrow front of some fifteen miles.

Foe Heavily Reinforced. For nearly a month now the French, their officers declare by the superiority of their artillery, of both large and small calibre, and by a certain tactical spirit, have day by day extended ground, sometimes a few hundred yards of trenches; on other days a mile of frontage and from 300 to 500 yards deep.

The Germans are bringing up new contingents steadily. They have had in action on this segment of the fighting lines during March, five army corps, or about 300,000 men. (Continued on Page 2, Column 8.)

BELGIAN AVIATORS MADE DARING RAID

Bombs Dropped on German Aeroplane Depot at Ghietelles and Damage Done.

GERMAN AIRMEN TAKEN

Flying Machine Brought Down by French Guns Near Badonvillers.

Special Cable to The Toronto World. PARIS, March 28.—Belgian aviators, Saturday, raided the German aviation camp at Ghietelles, seven miles southwest of Bruges, and inflicted considerable damage. East of the heights of the Meuse, near Mancheville, the French army of the Meuse captured about 500 yards of trenches. Part of these were lost in a third German counter-attack. The Germans made two counter-attacks to regain the lost ground, and were driven back with losses, before they were able to gain a footing in their old positions again. Fighting here is proceeding.

About 100 yards of trenches were captured from the Germans at Les Eparges. A German aeroplane which was engaged in bomb throwing operations and succeeded in throwing one bomb near Badonvillers, was brought down by French artillery fire and the pilot and observer were captured.

The French troops holding Hartmann's Weilerkopf, which they captured from the Germans last Friday, have succeeded in fortifying their newly won ground, in their attacks which made them masters of the summit of this important mountain, the French soldiers captured six officers, 24 non-commissioned officers, and 233 men of the German army, all of whom are unwounded. In addition they made many wounded men captive.

MOTHER OF PREMIER IS AT DEATH'S DOOR

HALIFAX, March 28.—Word from Grand Pre, N.S., tonight states that the condition of Mrs. Borden, mother of Sir Robert L. Borden, is very critical. She is unconscious, and there is practically no hope held out for her recovery.

Men's Hats For Easter. The coming holiday and spring weather means to most every man in Toronto the purchase of a new hat. Where should he buy it? Without hesitation one's reply would most likely be "where the greatest choice and values are shown." Yes, and that's surely at Dineen's, 140 Yonge street.

Saturday was a record for the year at this popular house, and business is likely to be a regular rush all week. Decide to get yours today.

BRITISH ARMY FULL OF CHEER

(Continued From Page 1.) ...and if there had been no one to identify it I should have been promptly apprehended and sent to headquarters under suspicion of being a spy. German Defeat Wrinkles. It was after 3 o'clock in the morning when my host and myself lay down in our dugout, but not to sleep; for there were many things to talk about. Twice when the desultory firing became heavier on both sides, he went on to say what was the cause. "We have not settled down on this front yet," he said. "The Germans are pretty grouchy yet over their beating. Both sides began firing on the slightest alarm; they don't want to risk any night attack getting started."

At dawn as I said goodbye I expressed regret to my host for having kept him awake all night. "Oh, no," he replied. "I stay awake always at night. My time for sleep is from 3 until 1 o'clock. My day was cut out for me by the Germans if they try on any tricks." In leaving the lines by daylight came may be taken, because of the open spaces visible to the German sharpshooters who may not make a miss the second time, if they do the first. To see Neuve Chapelle by daylight is to see the most fearful example of the power of modern artillery fire yet witnessed. No village is left—only heaped bricks and mortar, with the exception of half a dozen houses which were hit several times. After knocking down the buildings to pieces the British shells kneaded and pulverized the remains.

Yet two objects stood practically unharmed amidst that level skyline of ruins—eight tall chimneys, the only ones of the type familiar to travellers in France. Eight-inch shells had exploded enormous holes in either side of the base of each chimney, and trees had been torn down, four evergreen shrubs about the chimneys were practically cut off.

Exchange Pleasantries. At a point where the trenches are only 60 yards apart, an English speaking German asked when Kitchener's army was coming. "I want this war over," he declared loudly, "so I can go home." "Don't get dehearted, my dear Tommy Atkins called back. "You're already started, and you'll know when the new army comes, because you will be going faster than you want to." At this point one could distinctly hear the Germans talking, the commands of their officers and the driving of stakes, as they strengthened their works. German rifles, helmets, caps and diaries were plentiful in the British breastworks; a soviet hunter could have a helmet by going out in front for it.

In the moonlight dark patches with points like bloodless human faces were visible on the field between the two forces wherever you went along the front. Under the light of the German flares they took the form of masses of prostrate bodies, and by daylight one could see the attitude of each man, he fell, including that of a German soldier grasping an unexploded hand grenade. Across this field the Germans made their main charge to recover Neuve Chapelle. Not for want of courage they failed. The German official bulletin stated that the German losses at Neuve Chapelle were 6000, but this included the privilege of burying the dead. It was refused. Therefore, the bodies remain. This shows how grim the actuality, despite occasional sallies of wit, a breastwork jester takes care not to show his head when he makes his quip, lest a bullet make it his last.

It is absurd, calculating war every moment from the parapet and camp fire comradeship under the protection of the wall of sandbags which bullets cannot penetrate. There is plenty of admiration for the skill of the Germans as soldiers heard from both officers and men, but there is confidence also that the Germans have shot their bolt. Coming to an Irish regiment, a trenchman said: "I have three brothers in the States and I am going myself after the war. The Germans need a licking, and when anybody needs a licking, it's the place for the Irish." These Irishmen insisted that the correspondent have a cup of tea, and would be the first to try a slice of bacon, which was sizzling in the pan while an occasional bullet sizzled over the parapet. Death Familiar Thing. The wounded captain, my host, going beyond his own ballwick, chatted with fellow-officers about breastwork making and other business details, and about the fate of that friend who had been killed since they last met, as if death were a familiar thing to all. Not one lauded war or found any glory in it, but all had no thought except to continue until victory had been won. I got a few yards ahead of my grudge found how rare was the privilege to a civilian to be alone in that exclusive world. Some soldier instantly demanded to know who I was.

YORK COUNTY AND SUBURBS

BIG RALLY TONIGHT IN WARD SEVEN ARE FORGING AHEAD WITH THE VIADUCT

Attractive Program Arranged for Conservatives Annual Meeting. Great Transformation Taking Place in the Don Valley. WORK NEVER CEASES. Interesting Relics Discovered Embedded in Solid Shale.

Tonight in the Amette St. Masonic Hall will be held the annual meeting of the Ward Seven Conservative Association, which is to take the form of a patriotic evening. In addition to a first class musical program which has been carefully prepared by the association, the following prominent speakers will be present to deliver short addresses on current topics of deep interest: The majority of citizens: W. F. Maclean, M.P., Capt. Tom Wallace, M.P., Wm. H. Price, M.L.A., Dr. Rykert, M.L.A., R. E. Ganley, M.L.A., Dr. Chas. Dr. Chas. Sheard, Mayor T. L. Church and others. The annual election of officers will also take place and everyone is invited to attend.

Bloor West Paving. Alderman Sam Ryding has received word from Commissioner Harris that Bloor street, throughout the length of the new civic line, will be paved this summer. The work will be done in three parts: a total cost of \$7,213 as follows: From Dundas to Indian road will be of asphalt costing \$28,705; from Indian road to 150 feet east of Pacific avenue will be of brick block and will cost \$27,885; the remainder, High Park avenue will be of asphalt and will cost \$11,742. These works are included in one of the schedules covered by short term debentures recently issued and the works commissioner has issued instructions for tenders to be invited at once. The permanent track must be constructed first, but the temporary track will remain in place until the permanent work is completed this year.

To Call for Tenders. In addition to this a number of other Ward Seven streets are to be paved this year and the department is now ready to advertise for tenders. Included in these are Clendenan street from Glendonwyne drive to Dundas street; Conduit from Indian road to Oakmount; Humboldt from Quebec to Mavety; Lawra from Annetto to St. John's road; Pacific from Bloor to Dundas; and Woodville from Bloor to Conduit. In addition to these 27 other streets in West Toronto have been invited to submit tenders. Probably many more will be completed this summer.

WESTON SOCIETY PLANS AN EASTER FESTIVAL

Local Branch of Red Cross Would Rise Money to Endow Hospital Cot. Under the auspices of the Canadian Red Cross Society, the Weston branch is planning an Easter festival, to be held in the Weston High School, on Saturday evening, April 3. The committee of the board, the whole of the school will be utilized for an elaborate program of song, music, recitation and drama. In the chemistry room, by the entertainment committee, which will be provided entirely by voluntary effort. An interesting feature will be a series of demonstrations of the X-rays, wireless telegraphy, and other branches of science, in the chemistry room, by Prof. Burdett and Principals. Mrs. G. M. Lyons, Mrs. A. E. Moffat, Mrs. A. G. Goring, Mrs. W. Crutch, Mrs. T. E. Ambler, Mrs. G. Pollard and Miss Sosnowski, representing the various churches, have consented to act as a refreshment committee. J. M. Pearen, secretary, asks for the names, addresses, particulars of contributions, and names of the volunteers, for the honor roll of the branch.

Court of Revision. The court of revision, adjourned from March 15, will resume tonight in the council chamber of the Weston Town Hall, to consider the sewer assessments on King George road. The Red Cross hockey match, held on the Dufferin street rink at Weston, on Saturday night, between the Town and the Weston High School, resulted in a win for the latter by one goal. The game was fast and furious, the finish being 6 to 2.

WEXFORD PIONEER MET TRAGIC DEATH

William McGinn Lost His Life When His House Was Burned. SUFFOCATED BY SMOKE. Neighbors Worked Heroically and Some Were Badly Scorched.

William Maginn of Wexford, one of the oldest residents of York Township, lost his life in the burning of his house in Wexford early Saturday morning. He was in his 81st year and lived on lot 6, con. 4, east of Yonge on Lawrence side line, adjacent to the Seabrook-York town line, and within a stone throw of the C.P.R. bridge. The house is five miles east of Yonge street and four miles north of Danforth avenue. The fire broke out at 10 o'clock on Saturday evening at 10 o'clock and had burned into his room and took a cup of tea in bed. The lamp was then put out.

Neighbors Worked Heroically. Early Saturday morning before six o'clock Mr. Frank Maginn on getting up about 10 o'clock in his room, looking into the main house he found it filled with flames. He called up the local telephone exchange and all the neighbors rushed to the home, which had broken out into flames. It was then impossible to get into the old gentleman's room because the floor and ceiling had smoked. Hunter opened a window, threw water on the floor, and caused the smoke to rise for a moment. The body was seen on the floor. After a hard struggle with the flames the body was seen to fall. Mr. Maginn was dead and his body somewhat burnt. The best conjecture is that he fell from the top of the lamp and that it flamed too high and he fell into it. The fire in the room had caused the fire in any case.

Earlscourt. A meeting of the Earlscourt and District Ratepayers' Association will be held on Wednesday evening in Dawson's rooms, corner of Morrison and Earlscourt avenues, when the following resolution will be discussed: "That in the event of the remarriage of widows of pensioned soldiers, the two years' grant be placed in trust for the children." Dufferin and St. Clair District Ratepayers' Association has received the following communication from Chief Superintendent George Ross, general postoffice, Toronto: "I instruct you to erect a postmaster a short time ago to erect a letter box at the intersection of Lansdowne and St. Clair avenues, and I am in favor of making a favorable recommendation to the department with regard to placing a parcel receptacle at the same location."

Late Jeffrey H. Brock. Managing director of the Great West Life Assurance Company, who died in California. Interment will be made in Winnipeg. To Cure a Cold in One Day Take LAXATIVE BROMO QUININE Tablets. Prof. E. W. GROVE'S signature is on each box.

Where there is poison there is pain. This is a provision of Nature to warn you against conditions that are likely to prove serious. Constipation of the bowels is undoubtedly one of the greatest sources of disease and suffering. By using one of Dr. Chase's Kidney-Liver Pills at bed-time as often as is necessary to keep the bowels regular you can cure constipation and the consequent indigestion, and remove the cause of backache, rheumatism and other painful diseases. "Daily movement of the bowels" is the greatest law of health. Dr. Chase's Kidney-Liver Pills will help you to form this habit, add to your form and bring comfort in old age. Prof. E. W. Grove, 1 Mt. Charles street, Montreal, and formerly of Boston, Mass., writes: "I suffered for many years from bad digestion, constipation and horrible backaches. I have been treated by many doctors, without any results. One day a friend in Boston advised the use of Dr. Chase's Kidney-Liver Pills. After using two boxes I noticed great improvement, and after the fourth box I was completely cured. My digestion is good, I never feel any pain in the back. My head is clear, and I feel like a young man. I think Dr. Chase's Kidney-Liver Pills are one of the best medicines on earth." Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Limited, Toronto.

FADS AND FANCIES IN NEW JEWELRY

Semi-Precious Stones and Cameos Featured in Latest Styles.

BRAIDED BRACELETS

Brought Into Favor Once More by the Sleeveless Frock.

Jewelry novelties are countless and varied. The fad of unadorned jet or pearl and jet jewelry was short-lived, and now the fashion is being brightened by the advent of many dainty and novel fancies that are irresistible to the devotee who is always on the "look out" for something new and becoming.

There is a great restoration to favor of all the semi-precious stones which are quaintly set for rings, bracelets, and forehead bands, of course—and there is also much display of cameos, combined with pearls in many cases.

Gold Ornaments. Oddly carved gold ornaments are quite the rage, as are those of sterling silver set with little seed pearls. Diamonds, which are most suited to dark women, are magnificently set in platinum in some of the newest necklets, earrings and bracelets and rings. Pearls in handsome settings are shown in many varieties for the fair-skinned woman, and some of the newest dagger-shaped pins are set with small pearls. Earrings and hat pins are receiving considerable attention again, and in many cases are set with little colored stones to match the color of the spring chapeau.

The revival of the lovely old gold braided bracelets is due to the sleeveless evening frock, which is accompanied by bracelets of rusty worn above the elbow. These are sometimes clasped with a buckle, but more often gems are used.

A musical tea will be given next Saturday afternoon from 3 to 4 o'clock in the office building at the corner of Yonge and Grenville streets, in aid of the University of Toronto Hospital in France. The tea and sale of homemade cakes, sweets, etc., will be under the auspices of the Women's Conservative Club with Mrs. W. J. McWhinney the convener. The tables to be decked after as follows: Candy, Convener Lady Wilton; Mrs. B. B. Bristol; Mrs. McWhinney; Mrs. Arthur VanKoughnet; Mrs. McGregor Young; Mrs. William Wilson; marmalade, syrups, etc.; Mrs. H. S. Strathy; Miss Marie Macdonell; Mrs. Thomas B. MADE IN CANADA

Woman's work is never done, but the woman who knows the nutritive value and culinary uses of SHREDDED WHEAT can find time for other duties, pleasures and obligations outside of the kitchen. The servant problem does not disturb her—nor does the unexpected guest. SHREDDED WHEAT is ready-cooked and ready-to-serve—so easy to prepare a delicious, nourishing meal with it in a few moments.

Shredded Wheat is made in two forms, BISCUIT and TRISCUIT—the Biscuit for breakfast with milk, cream, or with fruits; Triscuit, the water-tough, for luncheon with butter or soft cheese, or any meal as a substitute for white flour bread.

NURSERY

CONDUCTED BY Elina Murray

Spring Troubles

Not only do the high winds of March carry trouble into the nose and throat regions of the little ones, but into the ear passages as well. Many an adult has suffered the almost unendurable twinge of neuralgia this month, and wondered why that run-down spring feeling must be accentuated by such piercing pains.

The wind carries innumerable germs, as we have said before, and some of these find their way into the little tubes that lead to the ear, inflammation is set up, and the trouble begins.

There is scarcely anything quite so painful as a really bad earache, and without being able to make people understand what the trouble is, ear-ache should always be thought of during this weather, and especially if there has been a contagious disease. Scarlet fever, measles, grip and bronchitis are frequently accompanied by earache.

When the little one cries out sharply, sometimes waking from sleep with a cry, or rolls his head from side to side you may suspect earache. If the digestive organs are all right and there is nothing to lead you to suspect cold you may be pretty sure of earache. An older baby will raise his hand to the sore ear or cuddle his head in a warm spot against his mother's neck or shoulder. Pressure just in front of the opening into the ear will make the baby start and cry out if there is any inflammation present.

Put a piece of flannel in the oven until it is quite hot, then hold it over the baby's ear, covering it with something to keep in the heat. Change this flannel as it cools. A hot water bag covered with flannel and held against the ear is a comfort, too. If this treatment does not ease the pain get a soft, rubber ear syringe and gently wash out the ear with water as hot as the finger can bear. Dry the ear carefully with absorbent cotton immediately after using the syringe and again apply dry heat. The syringing may be repeated every hour.

STIRRING SERMON TO VARSITY MEN

Nine Hundred of Training Corps Attended Sunday Service Yesterday. JOINED BY OTHERS

Squad Came From Camp and Cadets Were There, All Looking Fine.

Nine hundred men of the University O.T.C. presented a fine appearance at the church parade, held on Sunday morning. The largest student audience gathered to hear President Falconer's stirring sermon, in which he pointed out the duty which Britishers had to set in trouous times. Taking his text from John xii, 27, "Father, save me from this hour," and "Father, save me from this hour," he said that the first was the human call and that the second was Divine. It was to the Divine call that the president urged the students to make a response.

The appeal was made to the rational nature of the student mind, and caution was urged against rushing blindly into a decision which might be regretted. Whatever decision was arrived at, the president stated should be carried out with a strong sense of duty.

The varsity members themselves were very well, considering the short period of training they have undergone. They looked smart in their khaki uniforms, and the enthusiasm of the men was shown by the presence in mult of the men who had been unable to secure full equipment.

The corps formed up shortly after 10 o'clock on the campus in front of University College. With Colonel W. R. Long commanding and Major C. E. McVicar and Major A. D. Le Pan in command of the right and left half stepped off briskly towards Hoskin avenue. From there they turned off into Queen's Park and thence to College street.

They were headed by the university band, which was in charge of Bandmaster Slater of the 48th Highlanders. The O.T.C. cadets turned out in full force with their bugle band. The high school boys looked as soldierly as the rest.

The presence of the varsity members of the second and third years was an important feature of the parade. Then they marched up from Exhibition Camp, and were in the fort in number. They occupied one of the galleries behind the O.T.C., and their remarks to them, as it was the last occasion on which most of them will be within college halls before they leave for the front.

Must Face Decision. The war, said Dr. Falconer, was different from all others of previous times. Men were rushing to war who hated war; they were eager for the fray, because they recognized a sacred duty. The fearlessness of death has been refined in us, and the modern soldier's corner. "We can think of the future as a savage can not. Our men shrink from the slaughter of others, but they are rushing to it, because they believe in a cause for which they believe they will live by faith. We realize that there is something that endures when we pass on and fall."

The members of the newly-formed chapter of the I.O.D.E. known as the John G. Heward Chapter, are as follows: Honorary regent, Mrs. F. W. Hudson; first vice-regent, Mrs. P. W. Hudson; second vice-regent, Mrs. M. E. Reynolds; Johnstone; treasurer, Mrs. Alexander Armitage; secretary, Mrs. Henry Dedgson; and the hon. bearer, Mrs. J. F. Logan. The motto adopted by the chapter is that of the Howard family, "Virtue Alone is Invincible."

The members of the Heliconian Club will meet at 2 o'clock this afternoon in Loreto Abbey. A business meeting of the Heliconian Club will be held at 8 o'clock on Tuesday. A full attendance is requested, as Red Cross work for the University base hospital will be discussed.

Miss Emily P. Weaver will be hostess at the Toronto Women's Press on "The Press and the Immigration Problem" will be given by J. S. Woods.

Contributions are asked by the London Hospital, in which hundreds of men wounded on the firing line are British and French. In addition to Belgian work amongst the usual relief Assistance earnestly requested and apportioned. Contributions may be sent to Gybbon Le Tour, Alhambra apartments, Grosvenor street, Toronto.

depecting England before and after, called for much applause and that other recent poem by the same author, "The Phantom Fleet."

The story of some of Maysfield's most noted successes was greatly enjoyed, and the fact that he was a true student of the words used in his little nature verses and his pretty love songs proved a delight to the ear. The descriptive powers of Noyes are also very marked, and while it was impossible for the speaker to quote any but a very few of the most fascinating passages, in even the most fascinating lines, it was unmistakable. Mention of "August 1914," a very recent poem written after the outbreak of the war,

The Garden

"Impossible Land"

As we decided Saturday, fortunately, that the first really any impossible land here in our province—that is, where there is a will.

The first thing, the main thing, the important thing of all others is to know your land. If the underseed has been built up from some depth with debris do not attempt this season to remake that whole spot. The most successful things ever done on earth have been the things that were accomplished bit by bit.

And if my gardeners find that after all there has been only a little filling-up, yet, still do not attempt to do too much this first season. It is particularly in this warning, because it is such a very common mistake to do in the most thorough manner possible, so that it is done for good, is the only way to tackle this "impossible land."

Now, as the days pass, this department will mention various plans out of these difficulties, and remember that the most that may seem to be on the surface they are all practicable, because they have been worked out by my hundreds of gardeners.

Why, you should just see the letters we have, telling of successful plans, and a bit of careful thinking out. Now, first try and find out what kind of soil you have.

Next, decide on how much time and money you can afford this spring. Then make up your mind just what you think of doing in the matter of shrub-planting.

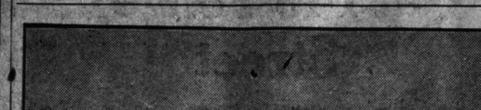

Now, first try and find out what kind of soil you have. Next, decide on how much time and money you can afford this spring. Then make up your mind just what you think of doing in the matter of shrub-planting.

So, this first season, plant a vine or a shrub, or a good perennial. Aim to do this if it be but one little liac shrub, and then in the corner where the fence is low, and set away by a crude looking. And a wee vine, preferably a "Virginia creeper," because of its kindly nature, it will cover quickly and thoroughly all ugliness.

Having decided what to do, what to plant, and how to do it, make a suitable growing spot, and one or two lone plants that will repay someone as the seasons pass.

Remember the beautifying of Toronto is not going to be accomplished by talking about it and writing letters. It will be accomplished in time by the men keeping his own little spot clean, wholesome, and healthy, because he has tried to beautify that one spot.

LIFE, LIKE CIRCLE, MIND, THE CENTRE

Disc of Light Enlarges, Says Rev. Father Finn in Lecture.

THREE WERE GIVEN

Course of Addresses Was Very Popular and Attended by Many.

The popularity of the series of lectures given on the last three Saturdays by Rev. M. J. Finn, C.S.P., of Chicago, at Loretto Abbey, was attested by the number who turned out at the closing address on Saturday, the largest audience that had attended. Continuing his discourses on psychic and kindred subjects, the lecturer likened the life of man to a circle, the entire circle illumined, while the circle of life is still in a measure in darkness until the completion of life finds the entire circle illumined. While the circle of life is still in a measure in darkness there is a tendency to peer into the dark, which denotes the future, and to do this is possible under supernatural conditions. This power is spoken of under different names, such as premonition, coincidence and the rest. It is often real knowledge by the subconscious mind, which sends out warnings of things about to happen. What are usually called premonitions were accounted for scientifically by the explanation that in the case of the latter which it was impossible to deal with just then. This thought had been registered, and the sub-conscious mind of the person who received the warning had appropriated the idea which had developed into a warning. Not Bound by Physical. The astral body, or sub-conscious

BOYS TO GIVE CONCERT FOR OVERSEAS TROOPS

Novel Entertainment Arranged and Scientific Boxing Exhibition Will be Given.

On Tuesday evening next in the Temple Building a concert will be given in aid of the overseas contingent of one hundred and nine boys who have been fostered by Mrs. O. B. Sheppard. Among the local artists who have volunteered their services are Mrs. Roberts, Miss Irene Humble, Miss Wharton, Miss Phyllis Clark, Miss Nan Huston, Mrs. Blake Foster, Mr. Roberts, Mr. L. Brown, Private Marsh and son, Mr. O'Brien.

Dr. J. L. Hughes will give a short address, and a decided novelty for such an entertainment will be a scientific boxing exhibition between the ex-champion amateur heavyweight, Sergt. Hannah, and Private Moore. No admission fee will be charged, but a silver collection will be taken for the benefit of the soldier boys.

NO DIRECT OFFER MADE TO ITALY

Von Buelow's Efforts as Mediator Have Had Little Result.

TURNING POINT NEAR

Month of May Expected to Give War Definite Trend.

ROME, March 28, via Paris.—Contrary to the statements which have appeared in the French and British press, Austria-Hungary never opened any direct negotiations with Italy concerning possible territorial concessions. From the highest sources here it is affirmed that everything done in this line was due to the initiative of Germany.

"The action of the German ambassador to Italy, Prince von Buelow, it is said, was animated by a desire to eliminate the causes of the antagonism which always has existed between Austria and Italy, but even the work of the former imperial chancellor of Germany in this direction was most cautious, so that the decided statements which have appeared in one sense or the other were most premature.

"This prominent Italian point out, is why Italy vigorously continues her extensive military preparations, not knowing what the future may bring when, next May, according to the most reliable opinions, the European war will take a definite turn.

The council of ministers yesterday did not discuss the international situation. The ministers took under consideration proposed rules which would prohibit the publication of news of a military character, and plan for a partial reopening of the stock exchange and measures for the benefit of unemployed.

Red Cross Sock Fund

Received and sent out by the Ontario Red Cross Society Sock Fund. High watermark was reached between Feb. 13 and March 15 when 1191 pairs were turned in to district societies.

An impression seems to have spread that heavy socks will not be needed during the summer. This is a mistake. No sportsman would dream of wearing other than woolen socks in the woods, and for a soldier they are even more necessary. Out-of-town knitters may, however, apply for wool. Miss Nairn, 15 Scarth road, will be pleased to supply those in town who are willing to knit for the University Hospital.

LOCAL MEN TAKE OVER STANDARD FISHERIES

New Capital Will Enable Company to Carry on a Very Extensive Business.

An important deal has been concluded, hereby Toronto capitalists, associated with Joseph S. Swift, have purchased the assets and plant, including steam trawlers, tugs and schooners of the Standard Fisheries, Limited, of British Columbia, with premises in Vancouver, Calgary, Barnard Cove, Pacon and Jedway, in Queen Charlotte Islands. The Standard Fisheries Company, now in liquidation, was one of the best equipped on the Pacific coast. Their principal products were of the deep sea, including halibut, salmon, cured and smoked fish of all varieties, lubricating oils and fertilizers.

It is understood that the transaction involves an expenditure of over \$1,000,000, and it is the intention of the company to carry on an extensive business through the Dominion.

Women and Children First

In the Empire's call to arms the order of selection is:

First—Single men.
Second—Married men without children.
Third—Married men with children.

The Government recognizes that war is more tragic and its effects more serious when the killed are married men with families.

You may not be going to the front, but if death should call you tomorrow—and you must admit the possibility—what would happen to your wife and your little ones?

We'll tell you about an Imperial Life Policy that will protect them against such a calamity if you'll fill out and return the coupon below.

Insuring the Soldier Boys

Are the soldiers all insured? This question would have been answered with an unhesitating yes till a few days ago by anyone in the city who has not been following the proceedings pretty closely.

There is not the slightest doubt about the intention of the city, and we have no desire to find fault with anyone concerned with the placing of the insurance.

In the first place the first contingent has been fully insured. There is no doubt about that. Not only are the men insured, but the policies have been made out individually for each man by the Metropolitan Company.

With regard to the second contingent, only a part of this draft has been insured. According to the report made on Feb. 23 and adopted on Feb. 23, there were 1090 men to be insured from Toronto.

But it is now found that the additional enlistments have run the number of Toronto men up to 3000 or more. The company has agreed to increase its risk by ten per cent. or up to 11000 men, thus accepting a risk of \$1,100,000, but it does not feel justified in carrying a larger risk. It is not a question of profit.

But there still remains a good deal to be done. The Eaton Machine Gun Battery, the 4th, 7th and 8th Mounted Rifles, the 12th York Rangers, the St. John Ambulance Corps, the 30th Regiment, the University Hospital Corps, the University Artillerymen, the Royal Engineers from Toronto and perhaps some other units have still to be provided for to the extent of about 2000 men.

Would it not be possible for the Canadian companies, if they are not willing to assume the risk individually, to get together and collectively assume the risk of the city's insurance on these men, or arrange to divide the risk among them pro rata?

What the War Will Bring

Almost everyone who has considered the cause and character is in agreement that the war will bring important consequences not only geographically and politically, but in the temper and spirit of the European nations.

traditional social order, under the influence of latter day democracy, it has been accompanied by distinct tendency towards individualism.

The war will check the movement towards individualism by again proclaiming the necessity of real international unity resting on acceptance of the duties and responsibilities of citizenship.

Success in the handling of great business enterprises has proved the best preparation for the duties of modern war, embracing as it does, not only the operations in the field, but the utilization, co-ordination and concentration of the whole commercial and industrial resources of the nation.

When the clouds of war have passed it will be impossible to revert to that older order, and to the demarcation of class from class, and man from man.

There is not the slightest doubt about the intention of the city, and we have no desire to find fault with anyone concerned with the placing of the insurance.

In the first place the first contingent has been fully insured. There is no doubt about that. Not only are the men insured, but the policies have been made out individually for each man by the Metropolitan Company.

Will Italy Now Intervene?

Altho Italy is nearer declaring herself on the side of the allies than at any of the earlier stages of the war, it is not yet absolutely certain that the government will take the plunge.

FROM CANADA

"One hundred thousand tickets to Berlin, please."

Germany was active in extending her influence and trade relations were large and intimate. Indeed, it has been stated that at the outbreak of war Germany was indebted to Italy to the extent of no less than \$600,000,000 on bills of exchange and other commercial debts.

Italy, by refusing to support the Teutonic alliance, did the allies a very considerable service, which time has enhanced rather than diminished. Her neutrality, and still more the accumulation of evidence that her military intervention on the same side as Austria, was not to be expected, freed France from anxiety on that frontier, while it compelled Austria to maintain a strong force to guard against an Italian offensive.

The meeting at which Earl Grey presided passed a resolution requesting the council of the Institute to appoint a committee to look into the question and consider the best way of securing the co-operation of the Imperial and Dominion Governments in a joint scheme for settling discharged soldiers and sailors on the land.

But there still remains a good deal to be done. The Eaton Machine Gun Battery, the 4th, 7th and 8th Mounted Rifles, the 12th York Rangers, the St. John Ambulance Corps, the 30th Regiment, the University Hospital Corps, the University Artillerymen, the Royal Engineers from Toronto and perhaps some other units have still to be provided for to the extent of about 2000 men.

MEN APPRECIATE NEW LEAVE ORDER

Most Remarkable Decrease of Infraction of Discipline Reported. AEROPLANE IS COMING. Capt. L. Janney Expects Machine From England Within Next Ten Days.

Since the order was issued by Col. W. A. Logie, camp commandant, two weeks ago, stating that all deserting men of the contingent would be given leave till midnight away from the grounds, there has been an almost remarkable decrease in the number of cases of infraction of discipline reported.

In connection with the shooting practice held last week at Long Branch, the announcement is made that 75 per cent of the 19th Battalion made 12-inch groupings. Eighty-seven per cent of No. 3 Company, made up of members of the 10th Royal Grenadiers and the 48th Highlanders, put their shots in the 12-inch group.

BODY WAS IN BAY SINCE NOVEMBER

John Landers Was Found in the Water at the Foot of Church Street. After being missing since Nov. 23 of last year, the body of John Landers was found floating in the bay at the foot of Church street Saturday morning by William Ross, 125 Duke street.

LANDERS had been employed as wheelman on the Veronicas, a coal-barge. He was about 70 years of age and was a veteran of the war in civil war. His body was removed to the morgue where he was identified by the captain of the boat and by a telegram that was found in his pockets. It bore his name. There was a solid watch and chain found on him. There will not be an inquest.

Hail Him! Hail Him! Earth's New Sovereign

THEY KNEW NOT THE TIME OF THEIR VISITATION

The First Palm Sunday—A Fulfillment of Prophecy—The Crisis of Israel's History—Their "Double" of Disfavor—Favor Returning to Natural Israel—Spiritual Israel's History and Natural Israel's History Parallel—Messiah "A Stone of Stumbling to Both the Houses of Israel"—Christendom Not Ready for Messiah's Second Advent.

NEW YORK CITY, March 28.—Pastor Russell spoke today at New York City Temple, W. 63d street, near Broadway. We report his address from the text, "Hosanna! Blessed is He that cometh in the name of the Lord!" (Mark 11:9.)

Little did the Jews understand the vast importance of the event which Christ fulfilled in His crucifixion. The Sabbath had been spent in rest at Bethany. Lazarus, whom Jesus had awakened from the sleep of death, had, with his sisters Martha and Mary, prepared a banquet for Jesus and the disciples. The supper was eaten.

It was at that time that Mary brought forth the box of valuable perfume and therewith anointed our Lord's head and feet. It was the same occasion on which Jesus had pronounced against the Pharisees and Sadducees their hypocrisy, declaring that it was hateful, and that the money should have been given to the poor.

As at the close of the Jewish Age, there was a special period of testing and trial, which was to be the trial of the Jewish people. The time of the Jewish Age was to be the trial of the Jewish people. The time of the Jewish Age was to be the trial of the Jewish people.

When the Apostles had brought the case and when Jesus sat thereon, the large concourse of people that had come from Jerusalem to see Jesus because of His awakening of Lazarus shouted aloud. After the manner of their time, some broke off palm branches and others laid their garments in the way, thus forming a carpet, as it were, in the road which was to Jerusalem. The shout of the people was just as the Prophet had declared.

On previous occasions when the people had sought to make Jesus a king, He withdrew himself from them, to wait for their ardor to cool; for He knew that the Father's time was not yet due. But now He knew that His hour was come; and hence He helped on with the enthusiasm by sending for the ass, etc.

Correspondence Shed Curious Light on Methods of Contract Seekers.

By a Staff Reporter.

OTTAWA, March 27.—Binoculars occupied the attention of the public accounts committee this morning. Several local dealers and a member of the legislature figured in some rather curious testimony. The first witness was T. M. Birkett, who had an order for 100 binoculars for the militia department. He had purchased them from the Birkett and Birkett Co. of Toronto, purchasing agents for the militia department. He was to receive \$52 a pair for the glasses.

At six o'clock the committee adjourned till Monday with Mr. Birkett on the stand. He had not yet been questioned as to the contract with Birkett.

Mr. Carvell, a member of the committee, presented a computation compiled from the testimony respecting the 100 binoculars purchased by Birkett and Birkett for the militia department. The first witness was T. M. Birkett, who had an order for 100 binoculars for the militia department. He had purchased them from the Birkett and Birkett Co. of Toronto, purchasing agents for the militia department.

Apparently very few of our people have noted the fact that Spiritual Israel had its history in the Jewish Age. The time of the Jewish Age was to be the trial of the Jewish people. The time of the Jewish Age was to be the trial of the Jewish people.
