## YORK COUNTY ROADS GREATLY IMPROVED

Representatives of City, Province and Municipality on Inspection Trip.

### LUNCHEDED AT MARKHAM

Grant Promised to Carry on Work on Exhaustion of Appropriations.

The first annual inspection of the York County highways system, in which the city, county and province are jointly interested, was held yesterday, the party of inspection leaving the county buildings on Adelaide street at 10 o'clock and covering in all before their return between 50 and 60 miles. The party was under the guidance of J. J. James, highway engineer, and associated with him were W. H. Fugatey, dean of the county council, and Warden Nigh. Leaving the city by the Wilton avenue bridge the party passed over the newly constructed arched macadam roadway on North Broadview and the Don Mills road, built last summer, which in the opinion of the commission, will shortly supersede the water-bound or hitherto prevailing type of country road. The points of superiority claimed for this type of roadway is the price, and the fact that no subsequent attention is required, oiling being dispensed with. The price of the tar bound is \$9000 a mile as against \$1000 for the waterbound. About five miles of this class of roads has been built this year.

Improvements Completed. Approaching Thorncliffe Farm Engineer James pointed out to the city representatives the improvements decided upon in the straightening of the abrupt curves near the Taylor residence, the widening of the roadway and many other marks of progress. Passing Donlands the party crossed the upper reaches of the Don river and later struck out for Yonge street, up which it proceeded to Bend Lake, and turning east it had a good view of Wilcox Lake and the many marks of work uncompleted this season and still in progress in the big hill at Thornhill opposite the farm of George H. Watson, K.C. The cutting of the Thornhill grade removes the last big obstacle between York Mills hill and Lake Simcoe. From Wilcox Lake the run was made to Bethesda and down the 6th concession of Markham to Cappel and diverged sharply to Markham, where luncheon, which was given at the Franklin House. A number of informal after dinner speeches were given, the toasting being done by Ald. David Hill, Joseph Russell, M.P.; George S. Henry, M.P.; W. L. McLean, provincial highway commissioner; Reeve Fleming of Markham, Ald. Cowan, A. F. Wilson, P. G. Morley, secretary of the Toronto Board of Trade, and others spoke briefly, congratulating the commission on the good work done.

Wants High Level Bridge. Reeve Fleming made a strong bid for the building of the high level bridge at Leucht Hill, which is now under consideration, while A. F. Wilson, urged that later the Markham road be included in the "good roads" program. The return trip was made by way of Unionville, Milliken's Corner, Agincourt, Scarborough Junction along the Kingston road for a short distance and then northely along Leucht Hill to Yonge street. Later several members of the party visited the Parkville district, accompanied by the engineer. The general consensus of opinion was that, while more modern methods of construction, reducing the cost would probably later be found, excellent results had been obtained, and

## PHYSICAL EFFICIENCY NEEDED FOR SUCCESS

Dr. George Fisher of New York Speaks at Meeting of Directors of Y. M. C. A.

"Physical Efficiency and Its Relation to Success in Life," was discussed last night at the Central Y. M. C. A. by Dr. George J. Fisher of New York, secretary of the international committee.

The speaker said that a large number of men find it impossible to remain efficient owing to muscular stagnation. The men do not break down because of mental strain, but because of underwork physically.

Dr. Fisher dwelt upon the necessity of rest for the mind and body. He said: "Perfect rhythm of work and play makes the difference between the man of mediocrity and the man of great ability."

G. A. Warburton, the metropolitan secretary of the Y. M. C. A., who has been assisting in the Red Cross campaign, said: "If you do not go to the front, it is right to call on you for every good cause to make a greater sacrifice than you have ever made in your life before."

At the first general meeting of the physical directors of Canadian Y. M. C. A.'s, Dr. George Fisher of New York, secretary of the physical department of the international committee, is the outstanding figure. The session of physical directors from all over the Dominion is the first ever held as three or four sectional meetings have been held in former years.

Mr. Brown, in a lecture yesterday afternoon, spoke on the things that were essential in the work of the physical department of the association.

## Lost While Waiting!

MANY a good order has been lost to the salesman waiting at the door. The Long Distance Telephone has caught the Manager's ear first, and the sale made while competitors waited.

In fact, Long Distance is now recognized as a foremost member of the sales force. It is such a time and labor saver, so intimate and so accurate that to the busy man it is indispensable.

Why not begin a systematic use of Long Distance? Keep in touch with your customers, encourage them and stimulate their trade, keep down expense!

W. C. T. U. Members Make Pledge for Prohibition and Object to Tobacco for Soldiers.

The W. C. T. U., which closes its provincial meeting in Ottawa today, made a vigorous protest against sending supplies of tobacco to the men at the front.

The officers elected were: President, Mrs. E. A. Stevens, Toronto; vice-president, Mrs. Emma Fugatey, Toronto; corresponding secretary, Mrs. H. M. S. Dettlor, North Bay; recording secretary, Mrs. W. H. Kearney, Renfrew; treasurer, Mrs. B. O. Britton, Gananoque; "Y" secretary, Miss Florence Edwards, Carleton Place; loyal temperance legion secretary, Mrs. Adah McLachlin, Hamilton.

## COL. McLEAN FOR FRONT

By a Staff Reporter. OTTAWA, Oct. 22.—Col. H. H. McLean, M.P., who has been in command of a brigade at Valcartier, will probably go to the front shortly in an important command. Col. McLean was in Ottawa today and called on Sir Sam Hughes. Sir Sam would make no announcement at the appointment.

# WALLINGFORD in Motion Pictures Beginning Monday

You unquestionably will read tomorrow in this paper the first of the New Adventures of Wallingford. You have never come across anything more rollicking, more joyful and full of the spice of modern life!

Well, all that you will read has come to life. All that you will see has sprung into being—Wallingford, Blackie Daw, Violet and Onion exist for you. They are coming to your theatre—they are on the block from you. They are going to enact all that you will read and they are going to make you actually see all that you have seen in your imagination. Pathe has made the pictures and this serial is the successor to the "Exploits of Elaine" which you have loved and followed so long.

Charles W. Goddard, the dramatic author of the "Exploits of Elaine" has made these new motion pictures right from Chester's stories.

## THE NEW ADVENTURES OF J. RUFUS WALLINGFORD

But, who is to play Wallingford and who is to play Blackie Daw? This you must be thinking with much concern. There was only one man in all America who could play Wallingford and that is Burr McIntosh. It was Mr. McIntosh who Mr. Chester has always believed was the one man to bring Wallingford to life. There was no other man in the world who could so well handle Blackie Daw as Max Figman—so both of them have been procured and appear in this cast.

Playing Violet is Lolita Robertson, probably one of the most sincere actresses of the day who has so far entered motion pictures. Under the direction of the Wharton Bros., who directed "Elaine," the Wallingford series is assured of an artistic success.

With the Pathe name on the film there will be no question of the perfect picturizing. With the PATHE BROTHERS distributing the pictures, you may be sure that you will see them near you.

### TOOK THE ADVICE OF HIS FRIEND

#### Stomach Trouble and Rheumatism Relieved by "Fruit-a-tives."

**MR. L. LABRIE,**  
594 Champlain St., Montreal.

"I have been restored to health by taking 'Fruit-a-tives.' For two years I was a miserable sufferer from Rheumatism and Stomach Trouble. I became very weak, had frequent dizzy spells and when I took food felt wretched and sleepy. I suffered from Rheumatism dreadfully, with pains in my back and joints and my hands swollen.

"A friend advised me to try 'Fruit-a-tives' and from the outset they did me good. After I had started the second box I felt I was getting well, and I persevered in the treatment. I can truthfully say that 'Fruit-a-tives' is the only medicine that helped me."

### SANG SEVERAL DUETS WITH HIS OWN VOICE

#### Thomas Chalmers Sings With Phonograph, and Arthur Ely Plays With Carl Fleisch.

Foresters' Hall, College street, was crowded yesterday afternoon for the tone-test recital with the Edison Diamond Disc Phonograph, by Thos. Chalmers of the Boston Grand Opera Company, and Arthur Ely, violinist.

Mr. Chalmers sang several numbers in unison with his own voice reproduced in the phonograph. Practically no difference could be detected between the two voices in any of his numbers, of which Leoncavallo's "Pavane" was perhaps the best. He also sang Cowley's "Forgotten," and both items received much applause. Arthur Ely played Schubert's "Ave Maria," beautifully, with Carl Fleisch on the phonograph, and the union was perfect.

Several excellent records were given, including David's French solo "Charmant Oiseau," sung by Miss Anna Case.

### GOOD NEWS FOR HUNTERS.

November 1st is the opening of the hunting season, and the annual quest of where to find the best deer is in the air.

The Canadian Northern Railway serves the finest deer and moose country in Ontario. The popular "Hunters' Special" leaves Toronto 11.15 p.m., Saturday, October 24th, for Sudbury, carrying sleepers and dining car, and stopping at all hunters' camps north of Perry Sound. Regular train leaves Toronto 9.00 a.m., stopping at any point north of Perry Sound, October 27th to November 2nd. Special return service.

Secure booklets "Where to Fish and Hunt" and "Ontario Game and Fishery Laws," hunting licenses and all information from F. V. Higginbottom, City Passenger Agent, 52 King street east, Toronto.

### APPEAL FOR FUNDS TO TRAIN AVIATORS

#### Service Handicapped by Refusal of Government to Support Schools.

### EVERY PILOT NEEDED

#### Citizens Requested to Assist Worthy Young Men to Get Lessons.

The announcement from Ottawa to the effect that the Dominion Government cannot at present make any provision for training aviators, necessitates a change in the plans of the Canadian Aviation Schools Fund, but does not affect the determination to pursue the main object of the organization, which is to give aid to the flying line at an early date as possible, thru trained Canadian aviators, and, if practicable, aeroplanes made in Canada.

The government intimates that it cannot render any assistance unless the British Government asks it to do so, and the proposals in regard to the establishment of aviation schools, and the ultimate formation of a Canadian Aerial Corps are consequently upset, at least for the present.

In the meantime the fact has been made public that quite a considerable number of the young men now in training at the aviation schools which have been established here in connection with the manufacture of machines for the British Government, are not in a financial position to continue the course, and are in fact, in somewhat straitened circumstances, while any number of other desirable young fellows are anxious to become aviators but lack the means. Consequently the cause of men the allies most require, according to all accounts, are being kept out of the service for the want of a few dollars.

**Need Every Pilot.**

Col. Madrin, writing from the military aeronautic directorate of the British war office to Major Ross Hume, of the Royal Flying Corps, who is now in Canada, stated: "We can do with every pilot you produce, so that the greater the Canadian output the better." That being the case, Col. Wm. Hamilton Merritt, the Toronto officer who promoted the Canadian Aviation Schools Fund, maintains that regardless of the position taken by the government, the work of preparing and sending along aviators from the Dominion must go on, the expense to be borne thru private subscription.

An appeal is therefore made to public spirited citizens for funds to assist the present students who are in need, and others who contemplate a course of training in this most hazardous and valuable service, but who otherwise are qualified, have not the necessary means.

**Worth Half Battalion.**

In the correspondence bearing upon the subject, one of the great generals in the present war states: "I could better afford to lose half a battalion of infantry than one aviator." It is pointed out that important as machine guns undoubtedly are, it can unquestionably be said that at the present moment aid in the direction of procuring trained aviators is of much greater importance to the successful outcome of the war. A thorough training in a recognized flying school is necessary to produce a pilot. An applicant has to be accepted in such a school and sign an agreement for discipline and control. After proving ability, and passing required tests, he becomes an officer in the Royal Flying Corps or the Royal Naval Air Service, and is available for the front.

The British Government has accredited representatives in Canada to accept trained pilots, but the question of expense of training has to be considered by young men who are suitable but have not the means.

The object of the Canadian Aviation Schools Fund for the time being is to see that Canadian aviators are properly trained and equipped at the private schools, already here, to assist as large a number as possible in Canada, and also to provide aeroplanes, made in Canada, for service in the war.

The fund is under the patronage of H. H. the Duke of Connaught, and the lieutenant-governors of the various provinces in the Dominion. Col. Merritt of Toronto is honorary secretary and Hon. Lieut.-Col. C. W. Rowley, manager of the Canadian Bank of Commerce at Winnipeg, is honorary treasurer.

The distribution of all moneys received will be made by a board of

Sir Sam Hughes will have a busy time during his stay here on Monday. Several deputations have asked for an interview on matters relating to recruiting and other military affairs. One of the questions to be discussed is the depletion of residential funds thru the heavy grants made upon them in recent months, and suggestions will be made by local militia officials as to methods of financing future requirements.

Sir Sam in his address at the recruiting rally in the evening at Mutual Street Arm is expected to make clear the attitude of the government regarding winter plans for the care of the soldiers in training and to bring a message in connection with the intentions of his department dealing with the vexed question of the comfort and disposition of the men invalided home from the trenches.

The meeting, though under the auspices of the Oddfellows, is in every sense a public function and all those who attend will find plenty of seating accommodation. The Veterans of '66 will be present, marching from Queen's

**What Thin Folks Should Do to Gain Weight**

Good Advice For Thin, Undeveloped Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomach who, having tried advertised flesh-makers, food-facts, physical culture stunts and rub-on creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently-discovered combination of assimilative agents has made fat grow after years of thinness, and it is also unequalled, judging from reports, for repairing the waste of sickness or faulty digestion, and for strengthening the nerves. This remarkable preparation is called Sargol. Six strenuous, fat-producing, assimilative elements of acknowledged merit have been combined in this preparation, which is endorsed and used by prominent people everywhere. It is absolutely harmless, inexpensive and efficient.

A few weeks' systematic use of Sargol should go far to produce flesh and strength by correcting faults of digestion and by supplying nourishing fats to the blood. If not, every druggist, who sells it is authorized to return the purchase price. Increased nourishment is obtained from the food eaten, and the additional fats that thin people need are thus provided. All leading druggists supply Sargol, and say there is a large demand for it.

While this new preparation has from reports given splendid results as a nerve-tonic and vitalizer, its use is not recommended to nervous people unless they wish to gain at least ten pounds of flesh.

William Smith Gets Reduction of Twenty Dollars a Foot—Other Figures Confirmed.

Wm. Smith, owner of a vacant lot on Jarvis street, appeared before the court of revision yesterday asking for a reduction in the assessment of same. The court made a reduction of \$20 per foot.

Assessments on incomes received special attention, Commissioner Arden declaring that the city was losing considerable money in this direction. He pointed out that there were many cases of agents for companies who claimed they were not agents, and in this way escaped the assessment, while others who purchased stocks, loaned them out again and escaped taxation on the dividends.

The business assessment on the People's Restaurant, appealed against by George A. Hodgson, was confirmed.

## Public Ownership Cut Electric Rates in Two

Montreal electricians, inspired by the corporation electric interests, have been trying to prove that Toronto is paying too much for its light and power under public ownership. This may suit the Montreal people, who doubt if they are even as glib as this would imply. At all events imposing fines have been published in the daily prints under the shadow of Mount Royal with the object of persuading the people who read them that Toronto people are a little off color in the matter of common sense. It is just possible that Montreal people are not aware that the first thing that happened when Hydro-Electric power was installed in Toronto, under public ownership, was the cutting in two of the rates.

This important fact is kept in the background, and indeed is never referred to in the complicated and imposing statistics of the Montreal corporation men. Where Toronto people used to pay a dollar, they are now paying fifty cents and less, whether they are taking power from the civic system or not, because the private corporation had to cut its rates and come down to the public utility level when the civic system began to do business. The Montreal corporation does not wish to cut its rates in two, or give the Montreal public the benefit of a fifty per cent. reduction, so this phase of the question is suppressed. Oh, no, we never mention her; her name is never heard.

Instead, the corporations try to make out that in order to set the business of the private company the city spends some of the money it saves out of the fifty per cent. reduction in re-arranging the rates for private and commercial consumers. The point is not stated in this way. The Montreal people are told that as taxpayers, they are robbed to put money in the pockets of the consumers of light and power. This is untrue. Whatever discrimination might be shown to exist, and we do not admit that the Montreal critics have made out their case, the discrimination would have to amount to doubling the rates to the city before any injustice would have been done to the people as a whole. The people are getting a reduction of fifty per cent. upon their old rates and more, and the rates are forty-five per cent. less or fifty-five per cent. less than they were, and the Montreal people like to have their rates cut in two by public ownership? Then they must not be imposed upon by complicated statistics prepared by the corporations.

Now are these statistics correct. In stating the cost of civic electric services no account is taken of the operation of stations in the care of street lighting, repairs and maintenance of stations, operation of distribution system and repairs and maintenances of same, and losses in transmission and transformation of current.

Another point which anyone can understand is the omission to allow for the fact that in joint service of poles, lines, conduits, etc., the capital cost cannot all be private against street lighting. Those who share these services in private consumption do not expect to get their light and power at less than the cost of supply, and they do not regard themselves as burdened because they have to pay their share on lines and poles. The Montreal corporation people talk as if such charges were part of a confidence game.

Another glaring piece of misrepresentation is to be found in the statement of pumping charges. The actual cost to the city is less than half what the Montreal statement makes it out to be. The Montreal figuring is always done so as to make out a result which would favor the Montreal argument. The power is figured in horsepower units in this instance, instead of in actual kilowatt hour service at the fixed charge a year which the city has to pay. It is very easy to confuse the non on the street with calculations of horse power and kilowatts and volt service and peak load rates, but he can always hang on to the solid fact that his rates have been cut in two by public ownership, and that is

## Edith Cavell

Sometimes the infinitesimal appeals more to the mind than the infinite. At any rate some minds respond more readily to the single incident than they can comprehend than to the mass of complicated facts which the war presents as a whole in the murder of Edith Cavell has stung even the hardened soul of Hermann Ridder of New York, who rejoiced over the sinking of the Lusitania, and set the names of German subscribers to the Anglo-French war loan in a mourning border, into a semblance of apologetic protest. The Kaiser would not have done it, had he known, it is pleaded, but it was the Kaiser who planned and authorized and set in motion the diabolical system which produces such outrages. He cannot evade responsibility. A king may appeal to him for the life of a countess and be granted the boon, but the appeal of humanity and the mercy of Christ is not heard in his heart, and he stifles it in the ears of his people.

Edith Cavell may yet be a name in history, if it turns the scale of the neutrality which has nothing to say about violated treaties, broken agreements, repudiated obligations of every kind. Even Henry Ford must utter some of his forceful imprecations when he reads the account of the butchery of the British nurse who tended the wounded soldiers of all nations while she had the opportunity. Accounts differ as to the mode of her execution, but there appears to be good authority for the statement that while she lay fainting on the ground, a German officer drew his revolver, and coolly aiming, shot her thru the head. It is characteristically German that he can hardly be doubted. The executioner should get the iron cross, which marks the infamy of those who massacre the innocents.

President Wilson will no doubt continue to observe that fine and punctilious neutrality which obliges him to address the Kaiser with terms of admiration and congratulation. The man and the official must occasionally have a severe struggle in the presidential heart if Mr. Wilson is to be classified among the normally human. Edith Wilson is among those who reat from their labors, and whose works follow them. She is of the noble army of martyrs and when the powers of evil resort to martyrdom we may be assured they are near their overthrow.

## The Joy of Giving

Toronto acquitted herself with cash as well as with credit in the Red Cross fund collection. The city was asked for a modest sum and it very fairly doubled it. All the citizens who desire to give, whether they were able to give or not, may associate themselves in the pleasure of the offering. The spirit of charity that was in them strengthened their expression in others. There were some who could have given and did not. They will have other opportunities, and daily, to repent. There were some who took our word and doubled their gift. It is not a matter of appearing in large caps or small caps or lower case in the book of the recording angel. These things tell most in a man's own nature, and the purest satisfaction humanity—as well as divinity—knows is in giving. Let us pity those who do not know enough to give as they are able.

## CAN BE SAVED AND CURED OF DRINK

Good News to Mothers, Wives, Sisters.  
 To have seen one you love going down this road to ruin, and to have heard him try to laugh and joke away your fears, while you watched the drink habit fasten on him, is to have known suffering and to have borne a sorrow to which physical pain is nothing. And when at last he comes to that turn in the road that, sooner or later, must come, and wakes to the fact that he is a slave to the drink you think everything will come right. He will fight the habit, and you will help him escape it; but he cannot do it. Drink has undermined his constitution, inflamed his stomach and nerves, until he craves nothing but the substitute, and craving must be satisfied. And after you have hoped and then despaired more times than you can count, you realize that he must be helped. The diseased condition of the stomach and nerves must be cured by something that will soothe the inflamed stomach and quiet the shaking nerves, removing all taste for liquor. My marvelous remedy—Samarina Prescription—has done this for hundreds of cases in Canada. It can be given with or without the patient's knowledge, as it is a tasteless and odorless and quickly dissolved in liquid or food. How what is cured for Mrs. G. of Vancouver:  
 "I was anxious to get my husband cured that I went up to get my husband Store and got your Remedy there. I had no trouble giving it without his knowledge. I greatly thank you for all the peace and happiness that it has brought already into my home. The man was nothing, according to what he would have put me into my grave of drink and the drinking. The cure was so good, I feel happy. May the Lord be with you and help you in curing the evil. I don't want my name published."  
**FREE—SEND NO MONEY.**  
 I will send free trial package and booklet giving full particulars, testimonials, etc., to any sufferer or friend who writes to help. Write today. Plain sealed packets. Correspondence strictly confidential. E. R. HERD, Samarina Remedy Co., 1425 St. Street, Toronto, Can.

## SAYS DOORS ARE OPEN TO THOSE WHO COMPLY

Medical Men Oppose Government Recognition to Osteopaths and Other Drugless Physicians.  
 That the doors of the medical profession were open to all who would comply with the law and take the proper university standing, was the argument of Dr. H. B. Anderson, of the Ontario Medical Association yesterday morning against the government giving recognition to osteopaths, chiropractors and other drugless physicians.  
 During the hearing Mr. Justice Hodgins, conducting the government investigation, frequently had to stop the argument which arose over the statements made to the commission. A certain amount of good in the sciences applying for a recognition, "but let them take a proper medical training and they can practice what they like," he said.  
 Dr. Sheard advocated a special board and special curriculum for all students who should be examined and then turned over to a proper body. The commission holds another hearing this morning, but Mr. Justice Hodgins intimated that it is doubtful if the hearings can go on next week.

## NEWTON GETS A LICENSE

The Ontario License Board yesterday granted the transfer of the license of the C.P.R. Hotel, on Yonge street from Casper Clarke to John Newton, Humber Bay.

## BUILDING PERMITS.

## LABOR IN CANADA WILL BE SCARCE

Hon. T. W. Crothers Predicts Decided Dearth in Coming Winter.  
 OTTAWA, Oct. 22.—The minister of labor, Hon. T. W. Crothers, predicts a scarcity of labor during the coming winter. He states that big employers including the lumber companies, are now looking for men and are having a hard time securing them. An appeal has been made to bring east the men who went west for the harvest. It is not likely, however, that such assistance will be granted.

## GRAIN SHIPMENTS EXCEED RECORDS

Heavy Outpouring of Wheat From Great West Sets In.  
**CATTLE FOR CHICAGO TRIAL WITHOUT JURY**  
 Shipowners Reap Golden Harvest Thru Excess of Exports.

The extent of Canadian grain shipments from the head of the lakes is illustrated by the following from The Port Arthur Chronicle:  
 All grain records for the port of the Twin Cities were broken today when the steamer W. Grant Morden cleared with a cargo of 476,815 bushels and 20 pounds.  
 The previous record was also made this season and was that of the steamer Snyder, which cleared for the east with 470,989 bushels of wheat on board.  
**Five Million a Day.**  
 The Wall Street Journal says:  
 Three northwestern markets of Duluth, Minneapolis and Winnipeg are now receiving the astounding total of nearly 5,000,000 bushels of wheat a day. There is no other part of the world where such a flood of foodstuffs is turned loose from first hands to flow in the concentrating channels of trade thru primary market warehouses. A recent day's returns from these centres showed 4734 cars arriving, the average contents of which may be placed at more than 1000 bushels each. A year ago 2840 cars came in for the corresponding day. The total this year is fully a million bushels greater, or 66 per cent. better than in 1914, when 66 per cent. of the states of western Canada had no abundant a winter's Golden Harvest for Shipping.  
 Chicago Livestock World says editorially: "These are golden days for owners of ocean freight steamers. The rate on wheat from New York to Liverpool is 36c a bushel, about seven times a normal charge. The owners of vessels make \$500,000 more than a normal profit in carrying a cargo of two hundred thousand bushels from New York to Liverpool, and proportional profits to all other ports of Europe. Ocean freight rates on other commodities have advanced relatively as much as those on wheat. The high ocean freights are due to the disappearance of German vessels from the sea and the diversion of many English, French and Italian merchant ships to war uses. The element of risk cuts some figures, but it is not an important factor, for war insurance is obtainable for a maximum of 2 per cent., and from that down to less than 1 per cent."

## APPEAL ALLOWED AT OSGOOD HALL

Bank Guaranteed Payment of Draft in Purchase of Oranges.  
 The Toronto Bank guaranteed payment of a draft for \$1828 made by a fruit dealer who purchased two carloads of Californian oranges. The cars were despatched payment was refused on the draft, to which were attached the bills of lading in the meantime the consignee had changed the destination of the goods, when they finally arrived in Toronto, the dealer refused to take them on account of the change in fruit prices.  
 The court held that the chief justice of the court of common pleas had taken a wrong view of the situation, and the banks should only be considered in the case. The conduct of the fruit dealer did not affect the legal right of the plaintiffs to insist on the strict performance of the agreement.  
 A motion to strike out the jury notice in the action of Maria L. Wilkinson against Dr. A. N. Hayes of Sarnia, before Mr. Justice Lennox in chambers brought some interesting points in connection with the application of the statute of limitations for doctors. His lordship was of the opinion that the statute should be amended. Alleging negligence and lack of skill in the performance of the contract the plaintiff is claiming \$10,000 damages. A charge of assault and battery is also preferred.  
**Trial Without Jury.**  
 Justice Lennox pointed out that the effects of malpractice in some cases were not apparent for a number of months, and under such circumstances the case was hard to deal with. Counsel for the defendant wanted the matter tried before a judge, as it was a matter for scientific investigation. It is a case of malpractice and not a matter for scientific investigation. His lordship agreed that cases of malpractice should be tried without a jury.  
 In regard to the application of the statute of limitations to the case his young lady remarked: "If you kiss a man, but if you marry for afterwards, there is no ground for action." Judgment on the motion was reserved.  
 A writ has been issued against the General Electric Company of England by the Ontario Bank of Commerce, seeking a declaration that all moneys from the proceeds of Chapman and Walker, received by the defendants are subject to a trust in favor of the plaintiff to the extent of the moneys borrowed.  
 The first appellate court list for Monday is: Rex v. Spets; Oshawa v. Newcome; Thompson v. Walkerville Hardware Company; Allan v. Baker; Torrie v. Hill; Port Arthur Wagon Company. Prie's case.

BIG EATERS GET KIDNEY TROUBLE

Take Salts at First Sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat too much

and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, but they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, your back hurts or you are cloudy, full of sediments or the urine is obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of J. C. Watson's Kidney and Bladder Salts in a glass of water or your kidneys will then act fine. This famous salts is made from the acid grapes and lemon juice, combined with lithia and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder ailments.

Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

SUNSHINE CIRCLE SENDS AMBULANCE

One Has Already Gone to the Front, and More Are Expected.

Mrs. H. D. Roade, president of the Sunshine Circle, presided at a meeting held yesterday afternoon in the Pavlovna Academy, Cowan avenue, for the purpose of completing arrangements for the Red Cross bazaar to be held on Nov. 9 and 10, to raise funds for ambulances.

The circle has already equipped one ambulance and during the summer \$187.54 was collected, the proceeds from the boxes permitted at the entrance gates of the present day.

Indeed she has only one peer, the famous Schumann-Henk. If there is any difference in the quality of voice that that fresh quality of voice that, having been heard once, can never be forgotten. Her triumph in this city came some time ago when she and Caruso contended for first honors. It is still fresh in our memories. Her radiance, captivating beauty and luscious voice head her vast audience enthralled. She is an unparalleled force in both the concert and operatic field. Indeed no American festival or operatic organization is complete without her name in the roster of artists. Tonight she will sing the great aria from "Orpheus," the Gavotte from "Mireille" and a number of songs. Lucille Collette, the Canadian violinist, will also be heard tonight, as well as Paul Dufrat, Mme. Diane Lavole, and Walter Hamrick, all of whom appeared last night.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Thickness.

Common garden sage brewed into a tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair.

Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50c a large bottle at drug stores, known as "Weyth's Sage and Sulphur Compound," thus avoiding a lot of muss.

White wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Weyth's Sage and Sulphur Compound, you can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

SOCIETY

Conducted by Mrs. Edmund Phillips.

The Lieutenant-Governor and Lady Hendrie are giving a reception this afternoon at Government House for the delegates and officers of the National and Local Council of Women now in session in Toronto, to meet the Marquis and Marchioness of Aberdeen.

Sir Mortimer Clark is giving a dinner party this evening in honor of the Marquis and Marchioness of Aberdeen, who leave for the coast on Sunday.

At the Canadian Musical Festival last night at Massey Hall under the auspices of the United Empire Loyalist Association, for the aviation scene, Madame Louisa charmed the audience with her lovely voice. She opened very sweetly in "The Merry Widow" and sang in a sweet and easy way with a wonderful range of notes, her beautiful clear, wavy hair having an outstanding effect. One of the songs she sang was "The Merry Widow" and she sang it very sweetly.

The annual prize-giving took place yesterday afternoon at Upper Canada College, when Master Grier, Mr. and Mrs. W. H. Fraser, presented the prizes to the college boys.

The Marquis and Marchioness of Aberdeen will be the guests of honor at the Rosedale grounds at the football game this afternoon.

OTTAWA COMING TO MAUL ARGOS

Big Noise of the Big Four This Afternoon at Rosedale—The Line Up—Rugby Notes.

The big noise in the interprovincial Rugby Union will be the Ottawa-Argos game at Rosedale this afternoon. It is Argonauts' last chance to pull out a win and figure in the Dominion championship again this year, and Ottawa are out to win at any cost and keep the Tigers from getting a strangle hold on first place in the league. There is every prospect of this being the best game of the season, as the Argos, always slow beginners, appear to have hit their stride, and will make a big effort to repeat the Ottawa outfit. This may be the most important game that Toronto will see this season. Special preparations have been made at Rosedale to handle the crowd. The automobile space has been doubled and the bleachers and grand stand have been put in shape. With good weather a record crowd will turn out to see the big game. The following are the teams as they will start at 3 o'clock.

HARBORD TEAMS WIN BY ONE POINT

Seniors and Juniors Had Hard Struggles—High School Rugby Scores.

The High School Rugby games yesterday resulted as follows: Seniors—Riversdale, 15; Jarvis, 7; Humberstone, 23; Oakwood, 20; Harbord, 4; Parkdale, 3; Commerce defaulted to Technical. Juniors—Riversdale, 6; Jarvis, 4; Oakwood, 1; Humberstone, 0; Harbord, 29; E. Toronto, 2; Technical, 0. Riversdale won both senior and junior games from Jarvis, by the scores of, Seniors, 17 to 6; Juniors, 6 to 4. Flaxton, the junior game was the most interesting to the spectators, they could not come up to the splendid plays made by the seniors. The runs of Bill Jones and the tackling of both Armstrong and Bird helped Riversdale to defeat their opponents. Brainsy work was shown by Armstrong when he nabbed the ball behind Jarvis' back, scoring a touchdown for Riversdale, which they failed to convert. Fawcett and Besley seemed to be the mainstays of the Jarvis team. The line-up: Riversdale (16)—Flying wing, Swift; halves, Ford, Jones, Bird, quarter, McCord; scrum, Welch, Scholay, Johnston; insides, Carslake, Virgin, middles, Moir, Zarsman; outsides, Armstrong, Dodge. Jarvis (7)—Flying wing, Heustis; halves, Muirhead, Besley, Britnell; quarter, Lount; scrum, Givon, Lyle, Smith; insides, Lee, Duncan; middles, Brown, Pendergast; outsides, Fawcett, Miller. Referee—Mr. Kennedy.

The junior game was a surprise to the Jarvis team, who expected to defeat Riversdale easily after the score took place on their last week. Roach scored a try for Jarvis that they could not do this, as, time after time, he plunged thru the line for yards. Riversdale had their hands full with the rushes of Everest, but Hirst and Taylor soon settled him by bringing him down with their flying tackles. At first it looked as if the Jarvis would win, but Roach secured a touchdown, which put Riversdale in the lead. Line-up: Riversdale—Flying wing, Elliott; halves, Roach, Fritzel, Salsbury; quarter, Chinn; scrum, Crowther, Scher, Stapella; insides, Keam, Macdonald; middles, Brett, Whittaker; outsides, Taylor, Hirst. Jarvis (4)—Flying wing, Gagne; halves, Macdonald, Everest, Lepper; quarter, Flaxton; scrum, Downing, Price, Mathews; insides, Jennings, Bannerman; middles, Edward, Stuart; outsides, Johnston, Sinclair. Referee—Mr. Kennedy.

Harbord had two desperate struggles with Parkdale. The Harbord seniors won by 2 to 1, and the juniors were one point up on Parkdale, 4 to 3. Fraser saved the senior game for Harbord. He caught a punt behind the line, with but five minutes to play, and ran it out to centre field. Chilloot had a chance to kick the dead line for Parkdale, but fouled. In the junior fixture, each club kicked a field goal against the wind.

Two of the most strenuous games which have ever been played in this history of High School Rugby were fought on Friday afternoon, between the two teams from Harbord and Parkdale. The credit for the double victory is due to the coaching of Harbord's popular teacher, W. J. Lamb, in the superior weight of Parkdale's Sinclair.

team work, were victorious, winning by the scores of 2 to 1 in the senior and 4 to 3 in the junior game. This gives Harbord seniors the right to qualify for the championship honors of the Toronto High Schools against Technical.

The good work of Harbord's half line, star tackling by Callaghan, along with the headwork of Curry and the plunging of the Harbord wings, featured the senior game, while a splendid field goal defeat into victory for the juniors. The line-up for the winners was as follows: Senior—Rover, Gallanough; halves, Squires (capt.), Fraser, Vokes; quarter, Norm, Curry; insides, Weston and Gormley; middles, Barlett and Matthews; insides, Miles and Houston; scrum, Norris, Baird, Laughlin. Junior—Rover, Thompson; halves, Williams (capt.), Sullivan, Irwin; quarter, Luke; outsides, Harburt and Sloughton; Fawcett and Graham; scrum, McCann, Mowat, Porter; spare, Mossmo. Officials—Messrs. # "Wow, but it's cold"—yes, you'll be saying it soon

BEFORE the weather "turns" you want to "face about" and march this way — we know how to make you comfortable on a blustery day.

THE overcoats we show, however, aren't made just for warmth, an Indian blanket would suffice for that. The trick is in making them as stylish as they are warm—and we've mastered it.

THE values are mighty fine—they treat your purse better than they treat our profit account — we wouldn't be selling so many of them if that weren't true.

### Northern Hockey League Branching Out

LONDON, Oct. 22.—Opportunity for the expansion of the Northern Hockey League comes with the announcement that the majority of the clubs who played in the O.H.A. in sections of Ontario west of Toronto, and Collingwood in the north, will affiliate.

Most of these clubs have been playing intermediate O.H.A., but will have determined that little or no difference exists in the brand they play and that played in the senior O.H.A. series, which has been confined to Toronto and Kingston teams in the past five years.

The Northern League will entertain affiliation of all clubs who may have overseas soldiers quartered in such cities where senior teams are, since the residence clause of the N.H.L. is Oct. 1 this year, and not Aug. 1, as in the O.H.A.

Hunters' Special Train Leaves Toronto to 10:45 P.M. Oct. 30, for North Bay.

For the convenience of hunters traveling to the north country for hunting season, the Grand Trunk Railway will run a special train to North Bay, leaving Toronto 10:45 p.m. Saturday, Oct. 30, and will stop at principal intermediate points. Pullman sleeping cars and first-class coaches will be operated on this train.

## Canadians Have Reason to be Very Proud of "CeeTee Underclothing"

# "CEETEE" UNDERCLOTHING

### ALL PURE WOOL - GUARANTEED UNSHRINKABLE MEANS ECONOMY PLUS COMFORT

NOT only is it manufactured by a firm who established themselves in Canada over 56 years ago—but a firm who have succeeded in producing woolen underclothing (CEETEE) that is not surpassed anywhere in the world—not even in the Old Country—so famous for the high quality of its woolen goods.

When the British Government came to Canada looking for army underwear, ours was the only firm in Canada that had the necessary machines to produce the garments according to the samples which they brought with them. Therefore, they were compelled to change their specifications so that other knitting companies could be given some work immediately.

"CEETEE" Underclothing is all made on these special machines, from only the finest Australian merino wool obtainable. This wool is combed and combed until every possible particle of foreign matter is taken out, and it is washed until it is as clean as human ingenuity can make it. The yarn is then knitted to fit the human form. This is why it sets so neatly over the body, making the outer clothing fit as perfectly as possible.

Worn by the Best People—Sold by the Best Dealers.

NEW FIELD GROWS BETTER EVERY DAY

Many Rich Kowkash Dykes Uncovered—Twenty Miles Staked—Government Road Busy.

Dykes have been uncovered in the Kowkash district that carry gold values on the surface of \$40 a ton.

Says W. Milton York, a mining engineer of many years' standing, who has just come down from the field.

Many wide dykes have been uncovered and prospecting is going on vigorously.

Over twenty square miles of country have been staked. Tellurides of iron have made their appearance and Mr. York says the district is beginning to look very much like Cripple Creek, Col., where the values hold steadily and go deep.

The direct Pullman service from Toronto right to the stations in the heart of the district, Kowkash, Redmond, Paska and Tashota, is a great help to the new camp, and Mr. York has a good word for the Transcontinental Railway for the way they have met the sudden surge of traffic.

The road's mining business, added to the movement of 30,000,000 bushels of wheat now being engaged in, has been a big tax, but the officials have proven quite equal to it.

The mining men have nothing but praise for the manager in which the government line has helped them. Last midsummer the road was rusty; today it is extremely busy, says Mr. York, and the change has been one of the most notable developments in the north country.

WORKMAN LOSES EYESIGHT. ST. CATHARINES, Oct. 22.—While "shipping a job" in the house at Niagara-on-the-Lake, Canby Holmes, a St. Catharines plumber, had a ladle of molten metal splashed on his face, scarring him for life and blinding both eyes.

Physicians have faint hopes that the sight of one eye may yet be saved.

IT REQUIRED TWO MORE HEATS TO SETTLE RACE

Steve Ayres and Maiden Voyage in Front, But Maggie Bond Took First Money.

A good crowd was on hand yesterday afternoon to see the final heats of the 1000 yard race which was won by Steve Ayres and Maiden Voyage.

Maggie Bond, the favorite from Thursday was unsteady, and was also made a bad break, but settled and nearly beat out Steve Ayres and Maiden Voyage.

 Member of Military Mission Gives an Interview in Petrograd.  
**EXPLAINS THE DELAY**  
 Roumania Has Waited Until Munition Supply Became Adequate.  
 PETROGRAD, Oct. 21, via London, Oct. 22.—The Novos Vremya prints an interview with the Roumanian envoy, who has arrived here on a mission from the Roumanian foreign office. The envoy is quoted as stating that in the absence of an adequate supply of munitions might have placed the country in a terrible situation. "Now that we are almost ready," he is quoted as adding, "we can reckon on an army of six hundred thousand men, which could be increased to over a million but for the restriction of munitions. Our war office has already adopted appropriate measures in the Carpathian defiles, where an army of 250,000 men is concentrated."  
 According to the Novos Vremya the envoy is a near relative of J. J. C. Bratianu, the Roumanian premier.  
**FORCE FROM SALONIKI WAS NOT SUFFICIENT**  
 Serbia Must Get Aid Quickly, Says Despatch From Athens.  
 LONDON, Oct. 22.—The latest news regarding the situation in Serbia is summarized in a despatch received from Athens.  
 It looks as if the retreat of the main Serbian army upon Monastir, on the Greek frontier, says this despatch, "has already been cut off by the Bulgarians. Uskup is rapidly emptying of its inhabitants, who are flying in confusion. Serbian remnants never to be seen again. The force sent north from Saloniki was far inferior to the numbers at first assigned, and the occupation of Strumitsa seems never to have been actually carried out. Everything depends on whether large Anglo-French reinforcements can be sent to Saloniki and rushed to the aid of Serbia by the middle of next week."  
**SERBS INFLICT GREAT LOSSES ON INVADERS**  
 Austro-German Casualties Said to Be Sixty Thousand Men.  
 ATHENS, via London, Oct. 22.—"The Serbians have repulsed the Austro-Germans on the north Serbian frontier with enormous losses," announced a message from Nish to the Serbian legation here today. The message denied the Bulgarian occupation of Vranje, Veleska and Trnavak, but confirmed the fall of Isip and Kozanica.  
 The despatch was accompanied by a personal message from Premier Patisch, saying that if sufficient help from the allies arrives soon, ultimate victory may be expected.  
**TURKS WERE REPULSED WITH SEVERE LOSSES**  
 Enemy Tried to Rush Positions Around Suva Bay and Krithia.  
 ATHENS, Oct. 21, via London, Oct. 22.—The newspaper Embros says it learns from Mytilene Island that the allies yesterday repulsed Turkish attacks in the regions of Suva Bay and Krithia, and that the Turkish losses were severe. Two torpedo boat destroyers entered the straits and bombarded Tascapeli.  
**GOOD NEWS FOR HUNTERS.**  
 Nov. 1 is the opening of the hunting season and the annual question of where to find the best deer districts, and how to reach them, is again to the fore. The Canadian Northern Railway serves the finest deer and moose country in Ontario. The popular "Hunters' Special" leaves Toronto 11:15 p.m. Saturday, Oct. 30, for Sudbury, carrying sleepers and dining car, and stopping at all hunters' camps north of Parry Sound. Regular train leaves Toronto 9 a.m., stopping at the point north of Parry Sound, Oct. 27 to Nov. 2. Special return service. Secure booklets, "Where to Fish and Hunt," and "Ontario's Fish and Game Laws." Hunting licenses and all information from F. V. Higginbotham, city passenger agent, 23 King street east, Toronto.  
**WILL MOBILIZE IN GUELPH.**  
 Special to the Toronto World.  
 GUELPH, Oct. 22.—It is now definitely stated that the second Guelph battalion will mobilize in Guelph about the middle of next week and remain here until they are sent overseas.  
 When the whole battalion is mobilized there will be nearly 1200 men and 60 horses.  
**CAVAN TO RAISE MONEY.**

GERMAN ATTACK ON SWEDISH SUB.

Sweden is Indignant and Regards Teuton Explanation as Flimsy.

LONDON, Oct. 22.—A despatch to Reuters' Telegram Co. from Malmo says the Swedish submarine Evisen was fired upon yesterday morning off Ystad by a German submarine, which mistook her for a British vessel. The mate was seriously and a sailor slightly wounded. The submarine was slightly damaged. The Malmo squadron of the Swedish fleet has gone to Ystad.

A despatch to the Exchange Telegraph Co. from Stockholm says that the German Ambassador to Sweden has called on the premier and the foreign minister and expressed regret over the Hyalun incident.

Another Stockholm despatch says: "The attack on the Swedish submarine Evisen was made by an armoured German trawler. The Swedish minister at Berlin has been instructed to make a vigorous protest."

Swedish newspapers express indignation. Although it was said the submarine was mistaken for a British vessel, the German trawler, Swedish news papers state that the weather was clear and that the vessel's flag was easily distinguishable, so that there should have been no doubt as to the nationality of the vessel. It is also said the submarine was in Swedish waters when attacked.

Additional details of the incident were received today. The reports state that the German trawler fired several shots and then hoisted a signal of industry at the vessel's error, the Germans sent officers to make an apology and give assurance that compensation would be made willingly.

Both Malmo and Ystad are on the south tip of Sweden. Malmo, however, is near the sound, where British ships have been operating, while Ystad is round to the southeast, and the fleet has evidently gone there to be out of the danger zone and to make as recorded above.

FOUR MORE SUNK.

STOCKHOLM, Oct. 22.—The British submarine campaign against the German shipping in the Baltic is being carried on actively.

The sinking of four more German steamships is reported: The Herosme, 1,182 tons gross; Plauen, 4,210 tons; and the Eder, 1,639 tons, and Electra, 1,281 tons.
