Ty Cobb Favors Boston to Win First Game Today

Note and Comment

The experts are trying to pick the winners of the world's series, when at best it can only be a guess. There are so many little things to turn the scale that it is a mistake in the kind of a controversy.

Still, Boston baseball critics have compiled an interesting list of figures to illustrate the remarkable effectiveness of the Red Sox pitchers. This year, upon the coming world's series will be captured by the American League champion. The Boston figures include the games played by the Red Sox up to the last week.

Smoky Joe Wood, the Red Sox's best pitcher, will work today, won 33 games and lost 5, a percentage of .87 for 43 games, having come to the relief of Hall, Bedient, O'Brien, Collins and Cicotte. He gave six bases on balls, hit thirteen batters, struck out 23, and made four wild pitches. He was taken out of two games.

Ray Collins, the crack southpaw, won 14 games and lost 5, coming to the rescue of O'Brien, Hall and Page. His percentage of .737 in thirty-five games. His percentage of victories was .75, with thirty-four passes, two hit batters and seventy-seven strikeouts.

Charley Hall, Boston's best relief pitcher, won 17 and lost 9, with two ties. He and was taken out of thirteen games. His winning percentage was .654 for thirty-four games, in which he fanned 107, made eighty-nine free tickets, hit four and fanned eighty-two.

Hugh Bedient, who is finishing his first year in major league company, won 18 and lost 5, with a percentage of .78 for thirty-five games, having been used as a reliever in eleven games, and being taken out of the box in eleven games. He gave fifty-three passes, hit two men, fanned 114, made six wild pitches and a balk.

Buck O'Brien, the mad wildcat artist, won 17 and lost 13, with a percentage of .567 in thirty-five games. He has three and was knocked out nine times. He passed eighty-nine, hit ten, fanned 107, and was credited with seven wild pitches.

Then along comes the Gotham statistician, with just a formidable material. Corresponding figures setting forth the work of the Giants' league pitchers are equally interesting and afford material for deep thought among the Red Sox fans. Christy Mathewson, the big right-hander, led with 17 victories and 5 defeats, having a winning percentage of .774 for thirty-three games, in which he fanned 107, made three wild pitches, and was taken out of ten games.

Rube Marquard, who won 19 straight, has a record of 25 wins and 10 losses, .714 for 35 games, having relieved Tesreau and Ames once each and twice, also being taken out of ten games. He handed out 72 passes, hit two, struck out 163 and made six wild pitches.

Otis Crandall, the Giants' star reloader, won 16 and lost 12, with a percentage of .571 for 28 games, having relieved Marquard three times, Tesreau four, Ames five, Mathewson five and struck out 74, also having been taken out of ten games. He handed out 68 passes, hit two, struck out 163 and made six strikeouts.

Leon Ames relieved nine and was removed from 14 games. He won nine and was beaten in five, a percentage of .643 for 21 games, in which he gave 53 passes, hit three men and struck out 74, also having seven wild pitches.

Hooks Wiltse relieved seven and lost seven, a percentage of .500 for 14 games, against him, one hit batsman and he made five curves the air.

IS COBB'S PICK

Detroit Star Calls Batteries for Opening Game — Is to Write Series for The World.

NEW YORK, Oct. 7.—When the umpire calls "play ball" tomorrow afternoon at 2 o'clock on the world series of 1912, which bids fair to be the most bitterly contested baseball struggle ever fought between the National and American Leagues in a contest for the highest title to gain, it is probable that more eyes will be centered on the diamond than ever before in the history of the pastime.

The series not only carries with it the championship of the world, but decides the supremacy of the two major leagues. Just fall the Athletics from the New York Giants, the team which will represent the senior league in the 1912 battles. This year the American League will be represented by a team which was good enough to land the American flag, but which is an unknown quantity so far as an important series is concerned.

Judging the probable outcome of tomorrow's game, it might be said that the Boston team has probably settled upon just who is going to work. Most likely, however, Manager McGraw has the most serious problem confronting him, because he has two men who of whom he must select for the important task of being in the pitcher's box tomorrow.

Looks Like Matty.

In all probability McGraw has been turning over in his mind today the question, "Whom shall I work Tesreau or Mathewson?" It would not surprise one much if he would once more rely upon the peerless "Matty" to pitch the first game of these important contests.

The dope points to the big hurler, Tesreau, who they say, is a bear for work, and by opening up with him McGraw would thereby be able to give him extra work needed, that he can be doubled back much more quickly than Matty.

However, I think that Matty will win out, owing to his much touted steadiness in a crisis, and I believe that this is just what will please the Boston aggregation, as they seem to have an inkling in their mind that they can wallop Mathewson as they did in the interleague series of several years ago. But who can tell?

As to Joe Wood, the man who will undoubtedly occupy the mound for the Red Sox, I can't but feel that he will come thru with flying colors, as he is certainly a wonderful pitcher, and the only fear in my mind is that he will be hampered by his recent games in Detroit, when he lost control, passing four men in one inning. However, he has settled down, and he will be afterwards, but I think that was due to his winning streak, as he had won sixteen straight games, more than his Red Sox pitcher permitted to have. He proved that he has all his speed and control since, for in his next game against the New York Highlanders, he pitched a no-hitter, and I believe that he will enter the game with all of his mental ability.

Cripples Are Ready

The crippled, Gardner and Carrigan, seem to have fully recovered, Gardner having shown great form in his last game in Philadelphia. Carrigan, who undoubtedly has the benefit of another day's rest, as Cady will catch Wood if he pitches today.

MISS FELLOWS LEADS AT GOLF

Toronto Lady One Up on Miss Campbell in Qualifying Round of Tournament—Hamilton Team Wins.

The first day of the twelfth annual ladies' open championship, over the Rosedale links came to a close yesterday, with Miss Fellows (Toronto) first in the qualifying round. Miss Dorothy Campbell (Hamilton), the present champion, played wonderful golf in the morning, going out in 48-excellent playing, in view of the weather and the strenuousness of the course. A high wind gave Miss Campbell considerable trouble, but she completely overhauled her partner, Miss Henry, the champion of last year at Ottawa. There were 102 ladies entered in the contest. This is just twice the number who were entered last year at Ottawa. There were a large number of spectators on hand. The highest scores qualified for the championship.

The team match was won by Hamilton, with a score of 10, Toronto was eight behind them, with 20, and Lambton was third, with 42.

HUB ROOTERS GO TO GO HAM

Special Train Carries Big Squad of Boston Fans for Opening Game in New York.

BOSTON, Oct. 7.—Within a few hours of the departure today of the Red Sox for New York, where they will cross bats tomorrow with the Giants in the initial contest of the world's series, hundreds of Boston and New England baseball enthusiasts followed in their wake. Striving in the late afternoon with the "rooters" who went 200 strong in a special train, accompanied by a band, the migration continued thru the night. Even the accommodations of early morning trains were largely exhausted by the reservation of baseball enthusiasts. Most of them had reserved seats tickets for the New York game, but others went along with only a hope of getting into the Polo Grounds somehow to "root" for the Red Sox.

The players made the trip practically in seclusion. They had a special car on the Knickerbocker Limited, in which, aside from themselves, were only the wives of Manager Stahl, Duffy Lewis and Charlie Hall, and little Jerry McCarthy, the boy mascot. Gov. Foss was on the train and "washed the boys' lock." The demonstration planes for the Red Sox departure miscarried, as the crowd assembled at the South Station, while the players boarded the train at the East Bay.

Strollers Meet Wednesday

The followers of the Strollers B.C.C. are requested to meet at the Riverside S. Dunlop street, Wednesday evening, to rehearse the songs and parades to be sung at the star trophy final game Saturday. As this is practically the east end of the city versus the west, the management do not want to see the east have a "put over" their way, when it comes to rooting, and ask that every follower be on hand Wednesday evening.

Ed. Walsh to Pitch for White Sox

CHICAGO, Oct. 7.—Manager Calhoun tonight selected Pitcher Walsh to oppose Cheney tomorrow in the opening game of the series with the Chicago Nationals for the championship of Chicago. The umpires will be Owens and Brennan of the National League, and Samnelly and Dineen of the American League.

Argo Coach Will Be a Fixture on Oarsmen Line—Grass Out of Game Gossip.

JOHNNY NEWTON, Varsity's great captain and centre half-back of 1909, broke into the game anew at Montreal on Saturday, and liked it so well that he has decided to extend his sphere of influence from that of honorary coach for the Argonauts, and the men seem to have got their footing down, and some time later he will not feel like playing.

Followers of the big four champions are highly elated over the initial victory away, and they are confidently looking to repeat for the honors. The players emerged at Montreal without mishap and will be in fine fettle for the game Saturday at Rosedale. The oarsmen have this year the best wing line of their history, and the men seem to have got their footing down to perfection. On account of the victory there was an extra demerit of \$1000 yesterday, but there are still left several good locations. The Argos will have a line-up this evening at Rosedale.

The Varsity boys had a light workout last evening. There were about fifty out in total, including the intermediates. They indulged in a special practice and are showing up in better form every practice. Bob Grass, who was injured in last year's game, will not be able to get in uniform for a couple of weeks. Ed Thompson, the star, will be in fine fettle in good condition. The boys are working hard for their game in Ottawa on Saturday.

After the meeting it was announced that the Argonauts had been selected by the Hamilton Intermediates to play the Argonauts last season's coach of the Argonauts last season, George Arvey, who is now managing the Hamilton Intermediates. The team has been asked to do the job, and the Argonauts will be glad to do it.

The reason for the popular resentment against him was the fact that he refused to overtake Empire Bryn's decision that Ottawa had secured a touchdown, which virtually gave them the game.

As soon as the match was over, business men of the city hit me on the back and head with sticks and shouted, "That is the fellow who sold us out to Ottawa for five hundred dollars. This in some cases they made it a thousand. Ladies pointed their parasols at me and screamed: 'That is the cheat' and the mob whirled the two policemen who were escorting me off the field aside and started to tear my clothes, when Burkholder interposed his great bulk and dragged me along to the back of the stand."

"Here like a thief or a murderer, I was compelled to creep along like a cat with my cap and coat on my head, and I was so disgusted by the mob that I then joined the Ottawa team on the rally-ho. That mob wanted my blood, and I was not yet out of the woods, even on the coach, either they did not particularly know me."

MONTRÉAL, Oct. 7.—"If it had not been for Burkholder, the former Tiger star, I surely would have been done for," said Billy McMaster of this city, the well-known Rugby official, who refereed the Ottawa-Tiger game in Hamilton on Saturday.

The Ottawa College-Queens game on Saturday that broke up in disorder when a tie would count a point for each team and will be played over at the end of the season. If it affects the championship, Montreal tried the one-man buck kame for three quarters against Argos on Saturday and at last learned that it was no good.

The Ottawa will lose Brophy, the 17-year-old, collegiate, institute youngster, yesterday for follow-up of fourteen events at the annual exhibition game, the one on football, fearing that he would be hurt. The Ottawa executive will use all their influence to get the newly elected team star back into the game, for he proved to be one of the finds of the last many seasons.

Parkdale will practice at Victoria College rink this afternoon at 5 o'clock. Jimmy Hall will do some coaching and give the oarsmen a strenuous workout in preparation for their game with the Argos in Hamilton on Saturday.

Intercollegiate And Interfaculty Games at Varsity

The University Track Club has decided to hold the annual inter-faculty games next Saturday afternoon, and it is expected that the followers of track and field athletics will show their appreciation of the change from Friday afternoon to the weekly half-holiday by turning out in large numbers to watch the keen competition and well-filled program. In addition to the regular case of fourteen events the meet will have an special interest in the fact that the newly elected team star back into the game, for he proved to be one of the finds of the last many seasons.

The face that the intercollegiate meet will be held in the stadium on Friday, Oct. 12, and that the Varsity boys are working hard to avenge last year's defeat at McGill, means that the rivalry among the members of the Varsity squad is nearing its maximum. It is only in the last three years that the members of the track team are given the opportunity to compete for intercollegiate honors on the home grounds.

Inter-faculty rivalry always runs high at the annual games, and the students will be out in full force to cheer their favorites to victory and to receive the results of the big Rugby match at Ottawa, where the wearers of the blue and white will be battling with rather and Stanton's boys for intercollegiate honors.

St. Michael's Defeat Central. On Broadway field on Saturday afternoon St. Michael's College defeated Central Y.M.C.A. by a score of 20 to 12. The team led by the three-quarter-back, and looked like sure winners until they blew up in the final quarter. In the first quarter Colton secured three dead-line points, the quarter ending 3-0. In the second quarter Carrick bucked over for a touch, which was not converted. Duke kicked to the dead-line, making the half-time score 6-0. Broderick kicked for another point, St. Mike's kicked the ball right back and bucked over for a touch, making the score 6-3. Then Duke secured a touch for the Y., making it 11-3. On a dead-line kick, St. Mike's monopolized the scoring in the last quarter, securing a drop, a touch and three dead-lines. For St. Michael's, Canfield, Spratt and Broderick starred.

TUESDAY MORNING, OCT. 8, 1912
CANADIAN PACIFIC A PARTNER-SHIP.

Among the stockholders of the Canadian Pacific Railway Company a tendency exists to reply to those who object to stock inflation and stock exploitation, with the question: "May I not do what I will with mine own?" Some newspaper apologists for the C. P. R. melon go so far as to say that the lands and other property of the company belong to the stockholders as the proprietors thereof. They admit no jurisdiction by the government over the company beyond that exercised over all railway companies by the railway commission.

Now in the case of an ordinary railway company, certain individuals, as a private enterprise, undertake to build a railway and obtain a franchise from parliament therefor. Parliament assumes no responsibility for the enterprise and contributes nothing towards it. On the other hand, the men building the road acquire and pay for the right-of-way, the rails, ties, etc. If they get sly of the undertaking, they are at liberty to partition the land among themselves, scrap the rails and burn the ties. In short, the railway is their property and the government has nothing to do with it, or with them, beyond the supervision exercised by the railway commission.

Far different is the situation of the Canadian Pacific Railway Company, and by a far different title is the property of that company held. It is not the property of the stockholders. It is true the legal title thereto has been vested by parliament in the company, but primarily for the public benefit.

The railway, be it remembered, was in the first place a government railway. Some seven hundred miles of it had been built by the government thru contractors. Then a new set of contractors proposed to finish the line under a new contract, by the terms of which they should operate the entire line, when completed, not primarily for their own profit or benefit, but as agents for the government. The government of Canada was bound, by the terms of the union between the Dominion and British Columbia, not only to construct a railway across the prairies and mountains to the Pacific coast, but to efficiently maintain and operate it forever. At that time it was thought advisable to have the road completed, and, when completed, to have it operated, not by a commission, but by a corporation to be created by parliament for that purpose, under the name and style of the Canadian Pacific Railway Company. It was a national enterprise, for which the nation was to furnish, and for which it did furnish, the money and credit. But the work of construction and the work of operation was committed to an agent or partner, who was to get a share of the profits for services rendered. That the public benefit was the primary object in creating the Canadian Pacific Railway Company is plain beyond dispute from the preamble of the company's charter, which reads as follows:

"Whereas by the terms and conditions of the admission of British Columbia into the union with the Dominion of Canada, the government of the Dominion has assumed the obligation of causing a railway to be constructed connecting the seaboard of British Columbia with the railway system of Canada; and whereas the parliament of Canada has repeatedly declared a preference for the construction and operation of such railway by means of an incorporated company, aided by grants of money, land, and other resources, rather than by the government, and certain statutes have been passed to enable that course to be followed, but the enactments therein contained have not been effectual for that purpose; and whereas certain sections of the said railway have been constructed by the government, and others are in course of construction, but the greater portion of the main line thereof has not yet been commenced or placed under contract, and it is necessary for the development of the Northwest Territory, and for the preservation of the good faith of the government, in the performance of its obligations, that immediate steps should be taken to complete and operate the whole of the said railway; and whereas in conformity with the expressed desire of parliament, a contract has been entered into for the construction of the said portion of the main line of the railway, and for the permanent working of the whole line thereof, which contract with the schedule annexed has been laid before parliament for its approval, and a copy thereof is appended hereto, and it is expedient to approve and ratify the said contract and to make provision for the carrying out of the same."

The act of incorporation simply gave more definite legal form to a contract between the government and the contractors. This contract is annexed to the act of incorporation and made a part thereof. This contract of agreement, made between Her Majesty the Queen, acting in respect of the Dominion of Canada, and herein represented and acting by the Hon. Sir Charles Tupper, K.C.M.G., minister of railways and canals, and George Stephen and Duncan McInyre of Montreal, in Canada; John S. Kennedy of New York, in the State of New York; Richard B. Angus and James J. Hill of St. Paul, in the State of Minnesota; Morton, Ross & Co. of London, England, and Kohn, Redlich & Co. of Paris, France, witnesses.

Then follows the terms of the contract. The contractors are to deposit one million dollars with the government as a guarantee of good faith. They are to get a charter for a new corporation, to be called the Canadian Pacific Railway Co. The government is to turn over to them its portion of the railway already completed, and other portions to be completed by the government. They are to receive from the government \$25,000,000 of money and \$5,000,000 acres of land. In instalments from time to time, as construction progresses, according to a standard to be prescribed by the government, they are permitted to bring in material for construction, free of duty, and the company to be incorporated is to hold its land exempt from taxation, while the honor of the crown is pledged to prevent any competing lines of railway from being built south of the C. P. R. or within 15 miles of the international boundary lines. By the contract the government exacted no rental, but takes its share of the profits in cheaper rates. The rates of the company are to be reduced and regulated by the government as soon as, and whenever, the company is making ten per cent. return on the capital actually invested in the construction of the road.

By section seven of the contract between the government and the contractors above named, it is agreed that the road, when finished, shall become the property of the Canadian Pacific Railway Co.

But by what title? Is the company to be the owner of the system, with power to abandon the enterprise if it does not pay, and distribute its assets, its rails and ties, among the stockholders? Let section seven answer:

The railway constructed under the terms hereof shall be the property of the company, and pending the completion of the eastern and central sections, the government shall transfer to the company the possession and right to work and run the eastern and western sections of the Canadian Pacific Railway already constructed, or as the same shall be completed. And upon the completion of the eastern and western sections, the government shall convey to the company, with a suitable number of station buildings, and with water services (but without equipment) those portions of the Canadian Pacific Railway, constructed or to be constructed by the government, which shall then be completed, and the completion of the remainder of the portion of the railway to be constructed by the government, that portion shall also be conveyed to the company, and the Canadian Pacific Railway shall become and thereafter the absolute property of the company, and the company shall thereafter and forever EFFICIENTLY MAINTAIN, WORK AND RUN THE CANADIAN PACIFIC RAILWAY.

The company has the title to its property in trust. That property is devoted to a public enterprise. It cannot be dissipated or divided among the stockholders. It must be held and applied forever to the efficient operation of the railway.

The enterprise is a joint investment, and the company cannot make any deal with the property without the consent of the Canadian Government, the dominant partner. The stockholders are to get a reasonable profit from the operation of the company, but they are not the proprietors of the land and other assets held by the company. They are welcome to their share of the profits, but they must not tamper with the capital investment. They may glean, not reap, the field.

HYDRO-ELECTRIC IN BRANTFORD.
 Brantford has a hydro-electric bylaw under debate. The expositor, in spite of Mr. T. H. Preston's professions of loyalty to the company, is opposing it. The expositor "cannot at present see the hydro-electric proposition" as a "really progressive movement." That trip to India must have affected Mr. Preston's eyesight. We can only wonder at any hesitation displayed by a municipality about deciding to close a contract for the cheapest and most reliable power in sight, which is a sufficient recommendation for most of us.

But the expositor is evidently haltered to the Calatrà chart wheels.

BRITAIN'S HEAVY EXPORTS.
 LONDON, Oct. 7.—(Can. Press.)—The September statement of the board of trade shows increases of \$17,525,000 in imports, and \$31,926,000 in exports. The gains in the imports were principally in foodstuffs and raw materials. The exports of manufactured goods show the largest increase, including iron and steel values at \$7,500,000.

GREYS' REUNION ON HUGE SCALE
 Two Thousand Former Members of the Regiment Will Be Present at Banquet on Nov. 2.

The committees in charge of the military festival and banquet in connection with the celebration of the fiftieth anniversary of the formation of the Royal Grenadiers of Toronto have under consideration a number of features for this big occasion, beginning Nov. 2.

It is the desire of Lieut.-Col. A. P. Gooderham that every member and former member of the Grenadiers shall receive an invitation to this banquet, which is to be the largest ever held in Canada.

Arrangements have been completed whereby Major Cox will be in the orderly room at the armories all day to receive information concerning the former members, and register them. Efforts will be made to locate every member who served with the regiment in the northwest in the past. The present strength of the regiment is 650, but it is anticipated that between 1000 and 2000 will sit down to the big spread.

The musicians are taking a special interest in the way of entertainment for former members of the band. The Ambulance Corps, members of which are scattered all over the continent in the medical profession and especially those who served in the northwest in 1885, will have a reunion following the big night. Lieut.-Col. A. E. Gooderham has received a large number of letters from prominent doctors, who are former members of the corps, expressing the hope that they may be able to attend the biggest night in the history of any regiment in Canada.

"BULL MOOSE" BOOM AFFECTS INTERCOLORED PAULIST FATHERS OF NEW YORK
 Are Conducting a Two Weeks' Mission in Toronto.

The Paulist Fathers of New York, Rev. Bertrand L. Conway and Wm. J. Carwright, who are at present conducting a two weeks' mission for the parishioners of St. Basil's Church, St. Joseph street, will on Sunday next begin a course of lectures for non-Catholics in that church. The purpose of these lectures is to explain the doctrines of the Catholic Church to all seekers of the truth and to answer in a kindly manner all their difficulties.

In connection therewith a question box will be placed at the doors of the church in which questions may be deposited. These will be answered the following evening.

This non-Catholic mission, which is a feature of the congregation of St. Paul, promises to be a unique event in the religious life of Toronto. Every night next week there will be given a systematic series of lectures on the Catholic religion. The missionary priests intend to avoid all bitter controversy. They propose simply to set forth an exposure and defence of Catholic teaching. They feel confident that there must be thousands of intelligent, fair-minded non-Catholics who are anxious to hear something concerning the Catholic faith, not thru the testimony of professed enemies of the Catholic Church, but from the lips of those who are her recognized and accredited representatives. To satisfy this reasonable desire is the primary purpose of the course of lectures. The titles of the addresses are: "The Good Shepherd," "The Divinity of Christ," "Is One Church as Good as Another?" "The Bible," "Internal Religion," "Why Confess Our Sins to a Priest?" "The Resurrection," and "The Catholic Church."

"ABOLISH THE BAR."
 Editor World: It is evident that Mr. Rowell is trying to throw dust in the eyes of the people with his "abolish the bar" policy. It is the people who should see thru Mr. Rowell's article. Mr. Rowell should know that the smaller municipalities throughout the province have the option to abolish liquor licenses, thru the three-fifths clause enactment provided it is carried by the required majority. Does Mr. Rowell want to renew the liquor licenses in the districts where local option is now in force, but with the open bar system? Then where is the superiority of Rowell's "abolish the bar" policy over the Whitney government's present local option policy?

It is his husband, who is subject to the reduction of saloon licenses. It is an impossibility to abolish licenses in the cities, but if the bar is to be abolished, rather than the open bar substituted, Rowell has not shown how this is to be accomplished. Will he rather put in place of the bar a slogan "abolish the bar" sounds unphilosophical, but it should be remembered that Rowell has a mandate from the electors to carry out his policy. Prohibitionists should know that it is an impossibility to prohibit the use of liquor. People will not abstain for any interference with their liberties and privileges. The greatest difficulty the Ontario Government has to contend with is to keep the liquor traffic under proper control and regulation, and it is safe to infer that the people of the province would rather trust Mr. Hanna to carry out the necessary reforms in the cause of temperance than to Mr. Rowell with his excessive and indefinite "abolish the bar" question. Every sensible person deprecates the bar, but something else must be substituted. It must be seen that worse evils do not creep in, and the Whitney government is doing all that is possible to work out in a sensible and practical way a policy that will satisfy most people. Then what more can be expected of any government?

WILSON HOSTILE TO LABOR CAUSE
 Roosevelt's Running Mate Cites Utterances of Democratic Candidate in Former Years.

NEW YORK, Oct. 7.—(Can. Press.)—Gov. Johnson of California invited Long Island on behalf of the National Progressive party tonight and proclaimed its intention in future addressed during the campaign to discuss Roosevelt Wilson's attitude toward trade unionism. He asserted he would endeavor to show that the Democratic presidential candidate formerly was hostile to union labor.

In pursuance of the plan Gov. Johnson tonight dealt with a letter from Wilson wrote to President Joliffe of the Missouri, Kansas and Texas Railroad Co. in 1907. The letter contained acknowledgments of a copy of an address Mr. Joliffe had made, in which he attacked labor unions and "political magogans." Gov. Wilson wrote regarding the speech: "I have read it with pain and entire agreement."

After reading the letter Gov. Johnson referred to a speech made by Gov. Wilson in 1909, when he was quoted as saying certain labor union tendencies were economically disastrous, and this said: "We have, therefore, the attitude of Mr. Wilson in 1909, and the fact that with relation to the 'cruel, unthinking hammer of labor-unions' in 1907, he said: 'I have presumed that he is still hostile to labor unions.'"

GALT MURDER AT WINNIPEG
 GALT, Oct. 7.—(Special.)—A wire received here that Thos. Montague of this town was seriously injured in Winnipeg. Mr. Montague had gone west to erect a machine on which he had a patent. He was working alone in a factory on the machine, and later was found unconscious. The cause of the accident is not known. He was rushed to a hospital, and is suffering from concussion of the brain. Hon. Dr. W. H. Montague, a brother, resides in Winnipeg.

SPLIT MAY LOSE WATERLOO SEAT

Ex-License Inspector Ferdinand's Determination to Run Causes Jubilation in Liberal Ranks.

GALT, Oct. 7.—(Special.)—The political situation in North Waterloo is thus briefly outlined in The Galt Reporter (Conservative) tonight: "Prospective dissensions in the Conservative party in North Waterloo, growing out of the announced intention of Ferdinand Walter to run as an Independent Conservative, may have the effect of producing a Liberal candidate. Dr. Lackner's majority in 1911 was 158. On ordinary occasions this would not be considered a warning to Liberals to resist the temptation to fight for supremacy at the polls.

"One thing that militates against their success in this coming by-election is the war cry of their chief. 'Abolish the bar' is not a slogan to draw sympathetic cheers in North Waterloo. It rather gravitates on the ears of electors of both parties, and certainly must handicap any nominee acknowledging Mr. Rowell as his leader.

U. S. May Debar Spanish Prince
 Son of Pretender is Kept Waiting on Ellis Island and May Be Deported.

NEW YORK, Oct. 7.—(Can. Press.)—Prince Ludovic Fignatelli d'Aragon, son of the Spanish pretender, faced the prospect today of waiting 24 hours longer to learn if he is to be admitted to the U. S., or deported as an undesirable citizen. Pending the arrival of news from France concerning his alleged expulsion from Paris and attempt to kill himself, the prince remained in the seclusion of his chamber at Ellis Island.

Immigration Commissioner Williams was hourly expecting a cablegram from France which would enable him, he said, to convene the special board of enquiry to pass on the prince's case. The prince seemed to be somewhat resigned to the situation.

Semi-Automatic Cross Tabulating

Do you know what that means? It means that with a Burroughs equipped with this new carriage every time you pull the handle it automatically moves over to the next column, or clear across the sheet. It doesn't make any difference whether the sheet is ten inches or eighteen inches—it is all the same thing. You can arrange it to carry from column to column, right across the sheet, or you can arrange to have it stop at any point in the sheet you want it.

Of course, this is one of the Burroughs new things.

If you went into your bookkeeping department, and found out what you could do with a device of that kind you probably would be surprised to find how much you were paying for getting along without it.

WEST ENDERS DEMAND GOOD ROADS

Mayor Geary Represents City, But Promises Little Relief—He Offers His Advice With Regard to Street Railway, and Advocated Public-Owned Car Lines.

West Toronto citizens turned out en masse to the special meeting called last night in the new Annette street school, which was under the auspices of the Ward Seven Ratepayers' Association. The meeting was called for the purpose of placing the grievances of the west end citizens before the city fathers, but little relief was promised them by the civic authorities present.

Mayor Geary and Controller McCarthy represented the board of control, while Aldermen Anderson and Ryding gave account of their stewardship in the council. The president, Peter Laughton, occupied the chair.

Bad Roads and Sewers

The complaints of the citizens were centered chiefly on the present condition of the roads and sewers and on the street railway outlook for the west end. With regard to the latter, Mayor Geary suggested the immediate laying of a track, double or single, on Annette street from Keele street to the western limits. He also thought that notice should be served to Toronto Street Railway to extend their Bloor street line westward.

No Worse

He assured the citizens that their condition with regard to transportation was no worse than in many other parts of the city and drew attention to the only remedy, namely, civic lines. His address was largely pacific and he assured Ward Seven that their interests were being well looked after.

W. for Sewers

With regard to the condition of the roads, Alderman Anderson said it would be folly to talk of laying permanent pavements until proper sewers were laid, and these were proceeded with all possible speed. Many delays and drawbacks had been shown on account of the weather and lack of materials, but the large trunk sewer on Bloor street was nearing completion, and once it was finished it would be but a short time until the other streets were provided with proper sewerage.

Big Expenditure

Controller McCarthy drew attention to the fact that between \$80,000 and \$90,000 had been recently expended on Ward Seven and it looked as if that share of local improvements. As for the street car service, all the citizens will have to do with more or less inconvenience for the next nine years unless the city buy out the Toronto Street Railway Company and Toronto Street Railway Company, which operated lines at one.

Other Benefits

Alderman Ryding also mentioned the benefits secured by Ward Seven during the past year. E. Home Smith would suggest that the city should employ the citizens for their determination to secure better car service.

The meeting was adjourned until next Monday evening when the annual election of officers will be held.

Votes Demanded

"We demand the vote on every ground, because it is right that every person should be free, and that women are never considered. This is the nature of things. For instance, the American constitution says that everyone—men and women—should be given the right of freedom and the pursuit of happiness. Women were to be placed on equality with men. Men got the vote and women were excluded. Negroes got the vote, too, and women were excluded."

Militant methods had been applied in England for six years and women had been fighting quietly for the franchise for fifty years before violence became the order of the day. "Were you ever in prison?" "Yes, twice, the last time for two months."

"Did you do any hunger striking?" "Yes, I did. We all did because we were not treated fairly. Books and the usual prison favors were denied us. I was put in prison for throwing stones. But the fact that we are sent to prison does not cause us to cease our battle. It is a political fight for political equality in or out of prison. If you can't get laws enacted unless you break them, break them. We expect to win our victory. When do we expect to get suffrage in England? Why, at the present rate, never. Yes, if we do not succeed we will fight on and on until we do."

"Do you think, Miss Wylie, that the vote is needed in this country as badly as in Great Britain?"

"I admit I do not. Drastic means may not yet be necessary here as there has been comparatively little agitation here. In the old country conditions are slightly different. We cannot expect a healthy race in England with such sordid misery and poverty. Wages are very low. Today we have a degenerate race because of parliamentary conditions. When women are allowed to take part in governing the country their reforms shall be made, conditions causing this misery and degeneracy will be wiped out. When women get the vote there will be a distinct improvement to the anti-suffragists, she said that there were always a few leaders to a great reform campaign. These anti-reform reactionaries are the obstacle they create could be easily overcome. Every great reform had opposition at first."

BRIDGE PLANT FOR ISLINGTON

Dominion Company Will Establish Assembling and Storage Yards for Railway Work Starting Near City.

To prepare for the extensive railway construction work commencing in and around Toronto, the Dominion Bridge Company has bought ten acres on the north side of Dundas street, between the village and the city, and will erect storage sheds, assembling and steel shop, and install powerful lifting cranes immediately. The property purchased is that of Robert Garbutt on the south side of Dundas street, within the village, and \$12,000 was paid for it through Chadwick & Rogers. An option has been secured by a big industrial enterprise expected to employ some hundreds of hands on another piece of land near Islington.

World's Best Musicians Thrill Crowd at Arena

richness and smoothness, and depth of tone were a continual delight, while the unity and precision for an orchestra of such recent origin were really notable. To Nahán Franko, the conductor, is due the highest credit and praise for the taste and skill displayed throughout. His picturesque figure, with the instant and immediate response and sympathy between himself and his men, commanded unusual interest among the audience. Mr. Franko's conducting is almost a commentary on the music and his gestures and beats elicit a responsiveness in the hearers as well as harmony from the instrument. Mr. Franko is equally at home with bow or baton and he won one of the evening's ovations by playing with the orchestra and conducting at the same time the "Beauties of Baden" number.

The soloists for the evening were headed by Miss Alice Nielsen of the Metropolitan Opera Co. She established herself at once in favor of her auditors and may be regarded as one of the few first ladies whose return will be looked forward to more eagerly year by year. She is yet far from having reached her prime, but the charm of her fresh, sweet voice, fairly pure and sympathetic, will only gain new beauty as it deepens and strengthens. She sang an aria from Puccini's "Tosca" and was applauded till after the accompaniment, she was compelled to give an encore. She complied by singing "The Last Rose of Summer" and with the echoes of a generation or two of cartraces, from Patti down, as a background, Miss Nielsen's rendering remains plaintive and personal and perfect. It was faultlessly sung. Miss Nielsen also took part in an abbreviated version of Rossini's "Barber of Seville," and won much applause and admiration for her acting and singing. FRUIT SALES STEADY

Considerable Activity and Good Prices on Yesterday's Market.

There was considerable activity at the fruit market yesterday. Fruit was selling steadily and all the dealers seemed satisfied with the prevailing conditions. The prices remained about the same as on Saturday, but it is expected that fruit prices will begin to rise during the current week.

Grapes were selling at 17c and 18 per basket; peaches, 50c to 60c; plums, 50c to 75c; apples, 25c to 30c; pears, 40c to 75c; tomatoes, 35c to 40c.

HAMLIN GARLAND'S NARROW ESCAPE

WEST SALEM, Wis., Oct. 7.—(Can. Press).—The home of Hamlin Garland was burned today and the author had a narrow escape from death. He was awakened by the flames and was obliged to leap from a second storey window. A servant girl received burns which are serious. The fire was caused by an explosion of gasoline.

Valuable curios gathered by Mr. Garland in all parts of the world, besides the house and other furniture, were destroyed.

KINGSTON'S "FESTIVAL OF EMPIRE"

"Do you mean to tell me," demanded Mrs. Whackhurst, "that it is a bad thing for a woman to have an aim in life?"

"I do," said Whackhurst, "especially if she is going to throw bricks. She might hit something."

"IF THIS IS YOUR BIRTHDAY"

Avoid doubtful undertakings and look carefully after the things which interest you most, leaving no important matter to the care of others if in employ you will be advanced. Those born today will be generous and well liked, but a nature too sensitive to criticism or neglect will be a hindrance to their success.

SOCIETY AT ARENA

Royal Templars' Building Was Badly Damaged by Fire

Loss of \$14,000 Caused at Noon Yesterday in Remodeled West End Y.M.C.A.—Scheduled Meetings Will Be Held in Dovercourt Baptist Church.

The Royal Templars suffered a serious disaster yesterday in a fire which gutted the beautiful auditorium of "The Temple" on West Queen street, and made a loss which is estimated at \$14,000, but which is covered by \$20,000 insurance, distributed between the Anglo-American, the Gore District, the Perth Mutual, the London Mutual, the Equity and the York Mutual.

The building is better known as the West End Y. M. C. A., but it was purchased in getting out. Two plasterers were working on the fourth floor, declined to come down by the stairs and escaped by the windows and the firemen's ladders.

The fire department responded promptly, but found it very difficult to reach the fire, which started in the attic over the auditorium and broke out in the roof, which was heavily slated and fell in with a crash when the supports were weakened by the fire. A

thick fire wall protected the front part of the building, which is little damaged by fire, but very seriously affected by water, and will have to be redecorated through. Fortunately the carpets and elegant new furniture prepared for the lodge-rooms and parlors were not installed, but the seats for the auditorium had been delivered and were all burned.

The board of directors met in the building last night and decided to continue the work.

The Pains One Takes

Neuralgia—toothache—cramps—or plain "tummy ache"—all yield to the soothing influence of an Electric Heating Pad. Its grateful effects are felt immediately. Three motions—three seconds prepares it for instant use any hour of the day or night. Attach cord to socket—turn button—apply. Pad is regulated by a three-heat switch—warm, hot, very hot. GO-OPERATION AT NORTH BAY

Railway Employees are Subscribing for Stock in Store Which Will Open Next Spring.

NORTH BAY, Oct. 7.—(Special).—Considerable interest is being aroused in railway circles over the project to establish a co-operative store in North Bay for railway employees. The company already has two stores in operation, one at Mimico and one at Alton, two Grand Trunk points, and intends to have a part sharing store in every railway divisional point outside of the larger cities. E. W. Kidd of Toronto, representing the National Railway Association, Limited, is undertaking the plan of placing stock among the employees. Each store is controlled by a subsidiary company and that at North Bay will be capitalized at \$20,000, of which two-thirds is said to have been already subscribed. Stockholders are to be entitled to five per cent. discount on purchases and to share in the profits of the business. No credit will be given except to shareholders and then only in proportion to their paid up shares. It is thought that the store will be in a position to do business before spring, as it is proposed to purchase a lot and erect a building.

CHARLES BATTEN PASSED AWAY

Well-Known Resident of Village Near Collingwood Died After an Illness Lasting Three Weeks.

COLLINGWOOD, Oct. 7.—(Special).—The death occurred of Mr. Charles Batten in the general hospital, where he had been a patient for three weeks. Mr. Batten arrived in Collingwood in the early fifties, living in Darlington Township, Newcastle and frequently at the annual conference of the Methodist Church, which he removed to Kirkville, now Mainville, three miles west of this town. There for many years he carried on a successful business as blacksmith and a few years ago retired to a small farm where he also kept the local postoffice. Throughout his life he had been actively identified with the Methodist Church, having been a local preacher of much acceptance in Newcastle, Bowmanville and Newtonville districts. For several years he was superintendent of the Sunday school at Kirkville, and the interests of the church of the official board, at district meetings, and frequently at the annual conference. He took an intelligent interest in the educational progress of the province, and was a zealous temperance worker. He died at his usual residence, his health became impaired and of a sudden he fell into a coma, from which he never recovered. He was buried in the Methodist cemetery.

The Nursery

Rules for Feeding Children

Give little children their meals alone, where they will not see other food, and where they will not be disturbed. Don't let people give your children food, or tastes of food not included in the child's regular diet. Do not coax a child to eat if he is not hungry. Do not feed him irregularly because he did not eat well at meal-time. Never hurry a child at his meals. Give plenty of cool boiled water between meals. Do not give little children vegetables that are not very finely mashed. Do not give raw vegetables to children under ten years of age. Do not give milk at meals where fruit-juice or stewed fruits are served. Do not give children under four raw apples, unless scraped. Do not give children fried meats or vegetables. Do not give meat except at the noon meal, which is the heartiest meal of the day. These rules have been given before, perhaps more than once, for some of them are concerned with every detail of the child's food and digestion. Their importance entitles them to repetition and to your serious consideration.

Health and Beauty Hints

By MRS. MAE MARTIN.

Miss B. K.: The worry and bother of wearing hair-nets and veils to make the hair stay up and conceal that dull, "straggly" unkempt appearance you speak of would be easily avoided if you would stop shampooing with soap. The "free" alkali in soap irritates the scalp and makes the hair streaked, dull, coarse and brittle. Shampoo with a teaspoonful of canthox dissolved in a cup of hot water and your hair will always be light, buoyant and easy to do up, besides looking decidedly neat. This shampoo lathers abundantly, dries quickly, stops itching of the scalp, cleanses as no other shampoo will. The luxury of extreme cleanliness, which which can be made by this shampoo has made it so popular that many of our best hairdressers now use it exclusively. It is inexpensive and can be bought at any drug store.

Carmen: It is a very easy matter to reduce your weight without leaving the skin wrinkled and flabby if you only any drug store four ounces of parrotia and put in 1 1/2 pints of hot water. When cold strain and take a tablespoonful of the liquid before each meal. This is harmless and the pleasing way it will cut down your weight will surprise you. Avoiding starchy, solid foods and taking plenty of exercise will assist greatly in getting rid of your fat quickly.

Constance: Right now is the best time to get rid of facial blemishes such as freckles, pimples, skin roughness, wrinkles, etc. But you should not use soap on the face. Treating the skin with the skin dry and harsh. I recommend the use of a good, greaseless face-cream, which can be made by dissolving one ounce of almond oil (get it at any drug store) in one-half pint cold water, and add two teaspoonfuls glycerine, and let stand an hour or so. It is inexpensive and you will find its regular use will improve your skin wonderfully. It keeps the skin smooth, soft and satiny. Almond-oil-jelly is a fine and soothing cleanser and will prevent blackheads, premature wrinkles, and when used as a make-up cream will restore color to dark, sallow skin.

Nadie: To strengthen your weak eyes and rid them of that dull, overworked look, put in each eye daily two or three drops of a fine, strengthening tonic made by dissolving an ounce of crystals in a pint of water. The tonic is very soothing and strengthening, and if used regularly, in a short time it will make your eyes bright, clear and sparkling. I find it unequalled as a good eye-tonic for treating weak, strained, expressionless eyes.

WHEAT MARKET MADE UP ITS EARLY LOSS

Closing Quotations Were Firm With Previous Session—Large Receipts Offset by Revived Export Demand—Corn and Oats Steady.

CHICAGO, Oct. 7.—Big export clearances today offset in the wheat market the effect of heavy receipts northwest. At the close, which was steady, prices ranged from 3-8c to 1-2c decline to a shade advance. Corn closed the same as Saturday night to 1-8c up, and provisions dearer by 12-15c to 15c to 42-1-2c.

In addition to large clearances, the seaboard telegraphed that 20 boatloads of wheat had been sold for export. Knowledge of this, however, was not general until after the session. Some of the strength displayed in the last part of the day resulted from the fact that the visible supply increased less than expected.

Realizing power developed after prices had shown heaviness on account of heavy arrivals at primary terminals, especially northwest. The total was nearly a million more than last year. Fine weather took the snap out of corn and speculative support almost disappeared.

Good prospect of export sales had a sustaining influence on oats. Provisions bulged owing to the strength of hogs.

Northwestern Receipts Receipts of wheat northwest points, with usual comparisons, follow:

Chicago	Today	Ag. Ago.	Week
Wheat	1,282,886	886,666	1,010,000
Minneapolis	98,714	666	666
Winnipeg	1,282,886	886,666	1,010,000
Duluth	1,282,886	886,666	1,010,000

Foreign Markets. The Liverpool market closed today higher to 1/4d lower on wheat, and unchanged on corn. Budapest wheat closed unchanged, Berlin higher.

World's Shipments. The weekly world shipments, with usual comparisons, follow:

VALUES HIGHER AT THE VIBOND

Ore Improves at the 400-Foot Level—Opening Up the Body at Depth of 300 Feet.

PORCUPINE, Oct. 7.—Development underground at the Vibond is chiefly interesting at the 300-foot level, where the ore shoots on the Davidson and Godfrey veins are just being opened up. On the two upper levels the chief operations are stopping and preparing to stop out the lengths of the shoots already opened up. The ore shoots on both the veins at the lowest level are improving both in width and values as the work proceeds. The Davidson is now wider than the drift and the Godfrey since it was first struck at this level. The ore has been followed for a little over 100 feet at the 400-foot level. In the matter of values the results are encouraging. The shoots have increased from a little over eight dollars to \$12 and over on both levels.

On the 200-foot level at the Vibond a crosscut is being carried out to open up the ore shoot that outcropped near the North Thompson line. This shoot was opened up on the surface for 100 feet and the values obtained from sampling were the means of attracting attention first to the Vibond property.

Penn-Canadian Showing Up Well

Old Cobalt Central Coming to Front—Directors Going Out to Inspect Mines.

A party of five Philadelphia men, all directors of the Penn-Canadian Mines, Limited, which took over the Cobalt Central property about a year ago, passed through Toronto last night en route to Cobalt to inspect the mine. The party comprised Messrs. J. M. Colton, Alfred S. Elliott, Robert E. Harms, and Spencer D. Wright. They will be in the camp several days.

The Penn-Canadian shipped a carload of high-grade concentrates in August, the first shipment from the mine since March, 1911.

Superintendent B. Neilly has reported that during the last few days the mine is showing up in splendid style. He expects the property to be a consistent shipper from now on.

MONTREAL PROVISIONS

MONTREAL, Oct. 7.—There was a fair enquiry from the continent for wheat, oats and barley, but the demand for flour was reported to be poor. Cabins were generally well on wheat, and the price bid were 50c out of line that no business was reported on the market.

LIVERPOOL GRAIN EXCHANGE

LIVERPOOL, Oct. 7.—The lower American cables on Saturday and the larger world's shipments caused pressure at the opening, and values were 1/4d to 1/2d lower. The weather in the United Kingdom continues fine, with native offerings liberal, and both Russia and the Danube shipped liberally this week with Russian offerings lower. During the morning the market was some covering by shorts on the moderate proportion of the world's shipments to the United Kingdom, and the expected increase in the United Kingdom passage, while the political situation is disturbing, Canadian offerings are moderate and rather more firmly held.

Winnipeg Grain Market

WINNIPEG, Oct. 7.—Prices for kinds of grain showed declines today, owing to good weather and larger receipts. Oats and flax were steady. Five hundred cars were inspected yesterday, and 110 cars were in sight for inspection today.

London Wool Sales

LONDON, Oct. 7.—A miscellaneous collection of 10,221 bales were quickly disposed of at the wool auction sales today. Foreign spinners were the largest buyers, and the freighting was very heavy. Greasy crossbreds, today's sales follow:

Wool—No. 1, 1st quality, 120 bales; No. 2, 1st quality, 120 bales; No. 3, 1st quality, 120 bales; No. 4, 1st quality, 120 bales; No. 5, 1st quality, 120 bales; No. 6, 1st quality, 120 bales; No. 7, 1st quality, 120 bales; No. 8, 1st quality, 120 bales; No. 9, 1st quality, 120 bales; No. 10, 1st quality, 120 bales.

PUBLIC INTEREST SHIFTS INTO COBALT SECTION

Porcupine List Passes to Catch Breath—Prices at Decidedly Firm Levels—Cobalt Lake the Leader With Sales Above 40.

Porcupine stocks displayed a somewhat hesitant tone in the mining markets at the opening of the week, speculating yesterday showing a marked falling off from its recent active levels, and prices in consequence merely marking time at or around their former levels. The list was, in effect, enjoying a breathing spell, after its recent vivacious action, and, as such, merely acting in a purely natural manner.

Brokers who are given to studying technical conditions found considerable ground for satisfaction in the fact that the market held up without any perceptible difficulty in the face of the news which constitutes a portion of the daily trading movement. Such stocks as have been leaders in the recent upturn maintained an appearance of firmness which could only be viewed as an evidence of the sound nature of the situation, and which was accepted as a favorable indication of the prospects for the near future.

Dividend Rumors

The rumor on the street that Hollinger would give its shareholders a dividend of \$1 a share, at the rate of 10 per cent per annum, on its paid-up capitalization, for a Christmas present, was responsible for the incoming of further buying orders on this issue, but the stock failed to rise above the level of a firm trend. Sales were made between \$14.75 and \$14.75, with the closing bids at \$14.75, exactly on a par with the quotations of last Saturday. Dome sold at \$22, slightly below its recent high record.

The cheaper issues did not enter into the trading to any great extent, and at no time made any pronounced demonstration. Nevertheless the buying demand was responsible, and all offerings were quickly taken up. Pearl Lake was off a fraction to \$5. Dome and Crown Chartered a like amount at 7. Foley-O'Brien sold at \$5, and Res at \$7.

Interests Shift to Cobalts

Considerable of the speculative interest in the market seemed to have shifted from the gold to the silver stocks, a fact which was borne out by substantial advances in the Cobalt favorites. Cobalt Lake crossed 40 for the first time this year, and bids on some of the lesser lights were raised materially. Closing prices were right at the top for the session, and generally at gains for the day.

Lesser Lights Stronger

The other Cobalts, while not given over to spectacular trading, gave a good account of themselves, and sold at prices which with their recent bulge were bid for all day around. Great Northern rose to 7 1/2, a gain of half a point, and Peterson Lake to 7 1/4. City of Cobalt, with its shares selling back to 23. Timiskaming moved up a full point to 38 1/2 on the afternoon board, and closed bid against 3 1/2, a last week's high record.

BIG DIVIDENDS FROM MINES

Payments Aggregating \$65,900,543 Made by 135 Concerns in Nine Months.

Probably in no other nine months' period have mines and works on this continent shown as large dividend disbursements as those in the period just ended. From reports made to Mining and Engineering World it is learned that 135 companies enriched shareholders to the extent of \$65,900,543. As compared with the same period in 1911, when 128 contributed, this is an increase of \$5,021,123, and an increase of \$11,023,130, and 123 contributing, as compared with 1910. The total disbursements, since incorporation of the 135 companies paying dividends in the nine months of 1912 is no less than \$768,867,832, which exceeds their total outstanding capital by approximately \$65,000,000.

WORK RESUMED ON KEORA LOTS

Another Porcupine Concern to Have Another Chance—New Vein at Three Nations—News of Camp.

PORCUPINE, Oct. 7.—(Special.)—Manager G. O. Randolph of the Porcupine Keora Mining Co. returned to Porcupine last week, after a visit to Toronto and some western points. He is now busy arranging to start work again on the Keora properties in Whitney Township, south of Fortville, miles from the Town of Porcupine, and on the opposite side of the track from the Porcupine Three Nations.

The work done on the property consists of a shaft 60 feet in depth and considerable trenching. It is the intention of the company to start about a dozen men crosscutting on the vein at the 60-foot level. The vein on the surface is about 40 feet in width. As soon as the winter roads are in good shape machinery will be put on the property and the force men increased. Comfortable camp buildings have been erected on the property, and a residence for Manager Randolph is now in contemplation. The Keora is one of the many properties that will be heard from the coming winter, when the camp is again in full swing.

Last week another very rich free gold strike was made in the schist at the Three Nations mine. It is very spectacular and gives all kinds of encouragement. The power plant is being installed and a stamp mill is in contemplation. The force with the mine will soon be increased, when the plant will be put to its fullest capacity.

Assessment work has been in progress on the Bewick-Moreing properties in Whitney Township, south of Fortville, for some weeks. T. F. Fide had charge of the work. While trenching last week a stringer was encountered which showed much free gold.

The directors of the Hollinger mine spent a few days looking over the property last week.

PLAN TO REOPEN PORCUPINE SOUTHERN

Diamond Drilling to Be Done on One of Reinhardt's Flotations.

PORCUPINE, Oct. 7.—By the end of the present week diamond drilling exploration of the property of the Porcupine Southern, west of the Hollinger, is expected to be commenced. The contract for this work has been let and an effort is being made to have it started before the snow flies.

The Porcupine Southern has a considerable acreage scattered over the camp, but the particular claim that adjoins the Moneta on the west is undoubtedly the most favorably situated. This is the first work that has been done on the property of this company since the failure of the company, and the misfortune to be closely associated with Reinhardt, for a considerable time. The directors of the company state that the Reinhardt failure has had no effect whatever on the company, the operations of the broker being unconnected with the financial affairs of the companies in whose stock he was trading.

COBALT LAKE AT NEW RECORD FOR YEAR

Cobalt Lake sold at 40 1/4 in the local mining exchange yesterday, thus plugging up a new high record for the year. At the office of the company it was stated that there was nothing new to account for the rise, nor could anything be learned regarding the prospects for a dividend in the near future. On the street it is generally believed that the disbursement will be made around the first of the year.

In regard to a report that an English syndicate was endeavoring to buy a big block of the stock from the company, the secretary stated that no such negotiations were under way. The company has not retired any of its capitalization during the last couple of

Announcing the Arrival of the New Fall Carpets, Rugs and Linoleums

The variety is enormous. Every possible requirement has been studied, and we are confident that there is no finer display of beautiful rugs to be seen anywhere at such attractive prices. Amongst the various grades, special attention should be given to the following:

The "Salon Rug"—An Exquisite Seamless Axminster Rug, made only in the delicate French effects for drawing-rooms; no rug, other than the extravagant French hand-made Savonneries, can compare with these lovely creations; soft gray-blues, creams, rose and green shades, in handsome medallion and trellis centres. 9.0 x 10.6, 48.25; 8.3 x 11.6, 48.25; 9.0 x 12.0, 55.00; 9.10 x 13.2 64.50

Superb Imported Seamless Wilton Squares—These rugs represent the acme of perfection in fine quality Wilton productions, woven entirely in one piece, of the finest materials obtainable. They are mostly copies of the choicest Persian and Turkish Rugs, which have been secured at tremendous cost to ensure absolute accuracy in every detail, and the result is wonderful beyond description. 5.6 x 8.0, 17.50; 6.7 x 9.10, 21.50 and 35.75; 7.7 x 11.3, 43.50; 9.0 x 12.0, 55.00 and 59.50; 9.10 x 13.2 75.00

Seamless Imported Axminster Squares—On account of exceptionally good terms which we were able to make with the manufacturers of these goods, we are enabled to offer unusually good values in this class of rug. There are tan, green and blue floral effects, as well as splendid Oriental designs, in reds, blues and greens. Note the specially low prices: 9.0 x 7.6, 12.95; 9.0 x 9.0, 16.65; 9.0 x 10.6, 18.50 and 21.75; 9.0 x 12.0, 20.75 and 24.75; 9.7 x 13.2 29.75

Imported Art Wool Rugs—Delightful, dainty and refined bedroom effects, simple in design and peculiarly adapted to the present time cretonne and taffeta furnishing of bedrooms, as well as Oriental designs, which make a very satisfactory and inexpensive sitting-room rug; also plain centres with shaded borders: 6.0 x 9.0, 7.00; 7.6 x 9.0, 8.75 and 13.15; 9.0 x 9.0, 9.50 and 15.75; 9.0 x 10.6, 11.00 and 18.75; 9.0 x 12.0, 13.75 and 21.65; 10.6 x 12.0, 16.00
