SASKATCHEWAN TROOPS ARE AT NIAGARA

Gathering of Various Interests, Political and Financial, at Ottawa Adds Strength to Inter-esting Probability.

Ottawa, June 12.—(Special).—Two parties of distinguished visitors are in Ottawa, apparently to meet each other and to confer with the Dominion government.

The first party includes Hon. Walter Scott, premier of Saskatchewan, and Messrs. Lamont and Motherwell, who are also members of government.

The second party, headed by D. D. Mann, includes the usual Mackenzie and Mann entourage, including Mr. Lash, their solicitor.

While nothing has been announced officially there is abundant reason to believe that Mackenzie and Mann are to build the new railroad from Saskatchewan to Hudson Bay.

The result of this conference will likely be a Dominion charter, and a grant of land from the federal government. It is understood that the Province of Saskatchewan will guarantee the bonds of the new road.

NOT TO BE AMALGAMATED BUT FRIENDLY AGREEMENT

Montreal, June 12.—(Special).—There are a good many interesting rumors here to-day following a Canadian Northern Railway meeting in Toronto yesterday.

No one believes now that the Grand Trunk Pacific and the Canadian Northern will amalgamate, but railmen say that the entente cordiale between the two big companies is so complete that Mackenzie and Mann will offer the government to immediately build their line from Chaudron to Moncton and thus relieve the Grand Trunk Pacific from the obligation.

TROOPER BREAKS A LEG.

John Cook of Markham, a member of the Body Guard, had his leg broken above the ankle yesterday by being thrown from his horse, on Simcoe street.

Wednesday and Thursday of this week we show an entirely new line of striped worsted trousers to order.

A Fine New Cigar Store.

All day yesterday throngs of people visited a Club & Sons' new store, at West King. Solid mahogany fixtures, glass showcases, and the only humidor of its kind in Canada, combined with all the latest features for handling high-class trade, made their establishment as nearly perfect as modern skill can make it.

Oscar Hudson & Company, Chartered Accountants, 5 King West, M. 4786.

Empress Hotel, Yonge and Gould Streets, Toronto, Prop. at \$2.00 per day.

Toronto Taxes for 1906.

The city treasurer requests taxpayers who own properties in different parts of the city, and agents who have charge of estates, to send lists to him later than the 30th inst. in order that tax bills may be furnished accordingly.

ASSEMBLY WILL CONTINUE EFFORTS AT CHURCH UNION

Dr. Patrick's Motion is Easily Sustained After an Afternoon of Vigorous Discussion.

London, June 12.—(Special).—When the church union debate resumed this afternoon, Dr. McMillan, Woodstock, attacked the Methodist faith as not founded on the works of God, as found in the Bible.

Dr. Sedgwick, Nova Scotia, said it was open for the people to decide against the principles for which Presbyterianism stood.

Dr. Ramsay, Ottawa, said that, looking into the documents of church faith he found the idea of organic union impractical.

Rev. J. A. Macdonald supported the motion because he could trust the people to deal in a thorough matter as he could in politics.

Rev. T. C. James, Charlottetown, P. E. I., said the heathen were more impressed with the fact that Christians love one another than by any special church denomination.

Rev. Dr. Robert Campbell, Montreal, who has written a book on union, indulged in a red-hot trade against union as immoral and wrong.

Principal Patrick called the reason Rev. Mr. McKay, Montreal, objected to union was because he was full of "isms." He would not call him a Pharisee exactly.

Principal Patrick called him a Christian gentleman and the clash was avoided.

The vote on Dr. Patrick's motion for continued efforts at organic union won over the McKay amendment to drop the matter of union permanently, by 178 to 22.

Union Impracticable.

When the debate on church union was resumed this morning, a crowded church gave evidence of the great interest being taken in this all important question.

Mr. Maclean pointed out that the predictions made by the Conservatives in 1903 were fully verified. The traffic of the G. T. P. would go to Portland, and \$300,000 would be required for the government to build a line to parallel the G. T. P.

INSPECTOR MURRAY DEAD

Thrilling Career of Man Who For Over Thirty Years Aided in Protection of Province From Criminal Raids.

Inspector John Murray of the Ontario criminal investigation department died last evening at 730. The announcement was received with genuine regret in many circles, official and otherwise, in which he was known and admired.

The life story of Inspector Murray, as recently published as a narrative, under the caption, "Memoirs of a Great Detective," exemplifies the truth of the old saying, that truth stranger than fiction. Without a pretence at rivaling the heroes of detective romance in the subtle arts of deduction, but by the exercise of keen reasoning powers, coupled with a deep knowledge of human—and criminal—nature, a steady nerve and every-acting devotion to duty, John Murray had earned for himself a place in police annals which would have been envied by any man of his rank.

John Wilson Murray was born in Edinburgh, Scotland, June 25, 1830. He removed, with his family, to New York at the age of five years.

His mother's poor health, he returned with her to Scotland when he was eleven, and attended school there in Inverness.

Everybody then joined in singing "Auld Lang Syne."

Arthur W. Pinero announced that the receipts approached \$30,000.

Before the performance began Miss Terry was given a tribute by the pit-lights and gallery gods, who for more than two hours, played the part of the performance to open, amusing themselves in good-natured fashion, the long vigil being rendered eventful by the appearance of Miss Terry at the gallery doors at midnight to look at these friends thru tear-dimmed eyes.

URGING TURGEON TO STAY.

Premier, Goin Objects to Losing His First Lieutenant.

Ottawa, June 12.—(Special).—Unexpected opposition has developed to the appointment of Hon. Mr. Turgeon as solicitor-general.

TO-DAY IN TORONTO.

June 13.

Anglican Synod, St. James S. E., 9 York County Council, 10.

Funeral of the late Mrs. Mary Ann Bell, 423 Bloor street, Toronto, by Rev. Canon Coad, assisted by the Rev. Wm. Brockman, Arthur Bell, only daughter of Dr. Wm. Bell, of Rutland House, St. George's Mount, New Brighton, England, on Friday, June 15, at 11 o'clock.

Funeral on Friday morning, at 9 o'clock, to St. Peter's Church, Bloor-street, and thence Mount Hope Cemetery.

MALTESE CROSS INTERLOCKING RUBBER TILING. The very thing for elevator floors. Easily laid or taken up; artistic, sanitary, waterproof.

PREMIER SCOTT AT OTTAWA BRINGS GOOD NEWS ALONG

Crop Prospects Bright, Money Easy, Business Booming and Everything Lovely.

Ottawa, June 12.—(Special.)—Nearly the whole of the Saskatchewan cabinet has in the capital. Hon. Walter Scott, Premier, arrived here to-day and met Mr. H. Lamont, attorney-general, who arrived yesterday, and Hon. Mr. Motherwell, minister of agriculture and provincial secretary, who has been in the seat about a fortnight.

Premier Scott brings glowing reports from the western country. He says the crop outlook is very promising. The recent drought, of which alarming reports came east, affected only the extreme north and west. This is why the fall wheat fields suffered. Money is flowing freely and men who invested a short time ago are frequently able to sell at four or five times the amount put into shares.

The premier says the prospects are bright for immigration. The activity in railway circles, created by the Grand Trunk Pacific, Canadian Pacific and Great Northern, adds much to the general volume of business in the province. There are also many applications to the government for new railways under provincial charter.

The taking over of the offices and other administrative machinery from federal government is about complete, and Saskatchewan is getting along well with its autonomy. The legislature met this year in the old chamber, a couple of miles out of Regina, where the territorial assembly had its deliberations, but the government is now preparing to erect new parliament buildings in the city.

Premier Scott will be here several days and will confer with the federal government on matters which can better be determined by personal intercourse. One of the things he will ask is that the Grand Trunk Pacific be required to give Saskatchewan a station on the corporation limits and not two miles distant, as proposed. This town, which is a disappointed aspirant for capital honors, is still aggressive, and has ambitions to be a great city. Mr. Scott believes its chances are good.

Many of his former colleagues of the house of commons greeted Mr. Scott with hearty handshakes and were pleased to note his excellent appearance. Premier Rutherford of Alberta, who arrived east some time ago, will probably start for home to-morrow.

Mr. Scott's presence is possibly not unconnected with the various cabinet changes that are imminent. Hon. Messrs. Scott, Cartwright and Peterson are to retire immediately after the prorogation, and one of the new ministers will be chosen from Saskatchewan or Alberta; among other appointments decided on is the choice of Mr. Power of Quebec as minister without portfolio.

FACT EASILY PROVED that POSTUM will rebuild a broken-down, coffee-runned system. Get the little book, "The Road to Wellville," in 10-pgs.

HAPPENINGS IN HAMILTON TO STOP SUNDAY FUNERALS

Request to Public Which May Be Followed by Imposition of Double Fees.

Hamilton, June 12.—(Special.)—The cemetery managers discussed the question of Sunday funerals this evening and agreed to use their influence to discourage the custom, and passed a resolution requesting the public to abstain as far as possible from burying their dead on the day of rest. If this does not have the effect of lessening the number, it is probable that a double charge will be made for all labor done in connection with funerals held on the Sabbath.

The Telephone, Telegraph and Electric Light companies will be asked to put their wires along York-street underground. Nearly a year ago Arthur Stroud had his leg broken. He accused Gordon Weir and Edmund V. Cole, who were both arrested and charged with aggravated assault, of having caused his injury. Stroud was able to testify against him, but Cole was committed for trial, which was set for Wednesday. To-night Cole's lawyer informed the police that he could not find his client. Bail for the pair was fixed at only \$50.

Samuel Fisher, 260 Gibson-avenue, had his leg broken at the Curney-Tilden foundry this evening. The special committee named to confer with the contractors Power company has been called together for Wednesday evening. The aldermen will decline to make any concessions, and will apply to the new corporation municipal board for an order compelling the company to live up to its agreements.

At a meeting to be held next Saturday at the Royal Hotel, the travelers of the city will make arrangements for their annual picnic. Some 120 crates of strawberries were shipped over the H. G. and B. to-day. Mrs. Dennis Moore, the retiring president of the Ladies' Aid Society of the Central Church, was presented with a sunburst.

Sergeant-Major Huggins, and Staff-Sergeant Hayhurst, of the 13th Regiment, and Capt. Edwin Skecken of the 81st Regiment, members of the Canadian Blesie team, left this evening for Montreal. The county fathers are planning to build a \$20,000 house of refuge. Heavily Fined.

This morning Police Magistrate Jelfs fined eight youths who were caught shooting craps on Sunday \$20 each. Jockey Romanow, who thrashed Frank Birely for trying to flirt with his wife, refused to prosecute the alleged offender in police court this morning. Ross Buttenham, the 7-year-old son of James Buttenham, who was kicked off by a horse last night, died at the city hospital this morning.

The Toronto Daily and Sunday Mirror are Limited. This mine has been in operation for the past year, and is probably the best equipped mine in Cobalt. It adjoins the famous Trethewey Mine, and the Trethewey and Hudson Bay Mine, and is also near the McKinley-Darragh and Earle, or Nipissing, properties, which are all large producers. The first shipment from this mine of 20 tons, to the New Jersey smelters, produced over \$20,000.

The mine, well-developed veins have been discovered, operations have been confined to two veins, on which shafts have been sunk to 50 and 60 feet, respectively, and about 250 feet of tunneling done. Charles L. Denison, the President of the Company, estimates the value at \$75,000. Messrs. Osler & Company state that they have, personally, had an assay made of the ore taken from the sixty-foot level. This assay showed a value of \$252 to the ton.

Five cars of ore have been shipped since the start of May last, from which large returns are expected, and it is believed that dividends will be forthcoming within two or three months. The stock is offered to the public at par, and if the estimate made by the superintendent of the company of the month's output is retained, the company can easily pay dividends of over 33 per cent. per annum.

FUNERAL OF MR. DOUGHTY.

Members of Fire Department Pay Last Honor to Aged Comrade. The funeral of the late Thomas Doughty, of the Toronto fire department, took place from his residence on Sydenham-street, yesterday afternoon.

Rev. F. H. Perry of Jarvis-street Baptist Church conducted the services. The mayor, Councillors Seaw and Hubbard and Ald. Chisholm and Church were present, representing the city, while Chief Thompson, District Chiefs Sneyer and Smith, and Secretary McGowan and a detachment of 50 men represented the fire department.

The pallbearers were Capts. Smith and Brown, and Lieutenants Sneath, each of whom had served under deceased when he was captain of No. 1 Truck, and John Webster, W. Kemp and D. E. Proctor, members of Kent Lodge, S. O. E.

There were a number of beautiful floral offerings, including a large "Gates Ajar" from the fire department, and a wreath from Richmond-street station, to which a son of deceased is attached. The casket was draped with a Union Jack.

It all comes back to Purity

Proper materials—proper brewing—proper ageing—all help to make beer taste good. But you have got to start right at end right. And purity is the foundation of a beer that is good for you.

O'KEEFE'S PILSENER LAGER

is PURE and wholesome.

It's brewed where purity is the watchword. From the time the malt and hops and water are brought together, until the bottles are sealed and pasteurized, every known precaution is taken to insure "PILSENER" being absolutely PURE and HEALTHFUL.

The delightful flavor is the best proof of its perfect brewing, age and PURITY. Insist on having

"THE LIGHT BEER IN THE LIGHT BOTTLE"

INSPECTOR MURRAY DEAD

Continued From Page 1.

imprisoned there, set the island on fire, destroyed Detroit, Cleveland and Buffalo and strike terror into the heart of the north, was discovered by a confidential agent named Cole. This man has tracked all over the country and back to Sandusky, where Cole posed as an oil man. Murray became, thru slight deception, warm friend of the southern trickster. He obtained his plans in detail and frustrated them, until when the final event was to be pulled off, young Murray led Cole right into the Northern trap.

Then he decided to be a detective. He went to Washington soon as the war was over and entered the United States secret service. He was then 26.

Several crimes at Erie, Pennsylvania, took the time of Murray. He was successful on nearly every case, and in addition to his work in that city he was gradually drawn into the service of the Pennsylvania Railroad.

Called by Mowat. After he had been with the Canada Southern for about a year, the Canadian government began to enquire if he was restricted exclusively to railroad work. His line of work had brought him constantly in the direct notice of the department of justice.

At All Ages They Need the Rich, Red Blood That Dr. Williams' Pink Pills Actually Make.

A woman needs medicine more than a man. Her organs are more delicate. Her health is disturbed regularly in the course of nature. It is a natural process to interfere with that natural course she goes through unspoken suffering.

Dr. Williams' Pink Pills for Pale People. This is why they cure all blood and nerve troubles like anemia, female irregularities, indigestion, rheumatism, headaches and backaches, nervous prostration and St. Vitus' dance. Substitutes and imitations won't cure, purging medicines only make you worse, therefore you must get the genuine pills, with the full name, "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box.

Countering Case at Owen Sound

His work was eminently successful, and he returned to St. Thomas. Shortly after he received an appointment from the provincial government in 1875. Murray's first year with the government was for him the proudest of his life.

Some of His Cases. The first five years of Murray's service with the government in Canada drew to a close in 1880. These were five eventful years, and he had done his difficult work faithfully and well.

Countering Case at Owen Sound. His work was eminently successful, and he returned to St. Thomas. Shortly after he received an appointment from the provincial government in 1875.

Inspector Murray's home life was a quiet one. He lived alone with a trusted housekeeper and discreet servant. His pleasure, apart from work, all his life, was in his books.

Called by Mowat. After he had been with the Canada Southern for about a year, the Canadian government began to enquire if he was restricted exclusively to railroad work.

DEFERRED DIVIDEND SYSTEM DISAPPROVED BY IMPERIAL

Forced into it by Competition Says Mr. Bradshaw—Home Life Under Fire To-Day.

The royal commission on insurance held a short session yesterday, only sitting but thirty-five minutes in the afternoon, to complete Mr. Hellmuth's examination of the secretary of the Imperial Life.

The Home Life was to have been gone on with immediately after the conclusion of the Imperial, but owing to certain witnesses having failed to receive subpoenas, the work of the commission came to a standstill.

The Home Life will be called to-day at 10.30.

Mr. Bradshaw in the morning was questioned by Mr. Tilley on the old subject of the relation of loading to expense. He followed out his idea of Friday last night and again told the commission that the first year's expenses should be limited to the first year's loadings, plus the anticipated reserve for the first five years. The actuary's opinion should amount to just enough to make the company solvent.

Actualities and technicalities occupied a large part of the time in the morning in the explanation by Mr. Bradshaw of the gross premium valuation.

Competition Will Lower Rates.

Witness disagreed with the preliminary term plan which allows a company to spend the whole first year's premium for expenses. It was wrong in principle. He also disagreed with Mr. Tilley that the Armstrong bill would result in the increase of rates, contending that competition would keep rates down despite the fact that expenses must be limited to loading, and hence the tendency would be to increase the loading.

Mr. Bradshaw would not advocate any hard and fast standard of loadings. He said that the actual death loss for the Imperial Life since its inception had been 22 per cent. of the H. M. table. The company had earned a higher rate of interest because they had invested in mortgages on western lands.

Mr. Bradshaw read a statement showing why he did not think it necessary to have standard forms of policy contracts. He also condemned in no uncertain voice the issuing of estimates of profits. He thought that the transactions of life insurance companies should be made public. He opposed compulsory mutualization, advocated giving permission to mutualize.

Lessens With Age.

Just before the close of the morning session, Mr. Hellmuth took the witness through the profit and loss statement of 1905. Mr. Bradshaw admitted that the ratio of expenses to loading in the Imperial Life was 22 per cent. and seventy-one per cent. while the Canada Life's rate was 162 per cent. after being in existence over 60 years.

Mr. Bradshaw told the commission that when a company was about twenty years old, it should get its expenses within the loading, but with the Canada Life the conditions were different. He volunteered that when the Imperial Life was as old as the Canada Life the expense ratio to loadings would not be 60 per cent.

At the afternoon session, Mr. Hellmuth reviewed parts of Mr. Bradshaw's evidence. He elicited the fact that 85 per cent. of the Imperial Life company's business was upon the deferred dividend system. Witness contended that it would be better if insurance companies would eliminate this system. He was opposed to this method, but the Imperial had been forced into it by competition. He was in favor of a sound business method.

Liability or Loan.

Mr. Hellmuth, referring to the Fulford policy of \$100,000, asked Mr. Bradshaw if the transaction was not a liability. He was at a loss to see the insurance feature. He took an instance where a sum of money was loaned at 2 3/4 per cent. for a period of years, which he thought was a distinct analogy. Mr. Bradshaw could see no connection between the two, and would give no answer as to his opinion as to whether or not Mr. Hellmuth's instance was a liability or a loan.

Mr. Bradshaw again explained the life feature in the agreement between Senator Fulford and the Imperial Life. Witness admitted that the rate for last year from the Imperial Life was higher owing to the disturbance in life insurance affairs which had affected the stability of the policyholders.

This concluded the hearing of the Imperial Life.

The Home Life is an amalgamation of the People's Loan and the chief witness, a Mr. Pattison, is not now connected with the company. Mr. Shepley had failed to subpoena him. Mr. McLaughlin, appearing for the Home Life, could not bring Mr. Pattison without a subpoena.

If you tried every Automobile that's made

If you compared, by personal scrutiny and actual test, every automobile that is known to the motoring world, your choice at last would simmer down to a selection from these very twelve makes that comprise our offering to the Canadian buyer of an automobile

You would spend many months and many dollars making an examination so complete, a comparison so inclusive, and you would finally be no further towards certainty than you can be right now if you deal with us for the automobile you think of buying. How do we know that? On what grounds do we make an assertion so positive and so unqualified? We make it upon these grounds: As the chief automobile concern of Canada it is our special business to know—not to guess or hazard, but to KNOW—which of all the world's motor cars are the absolute standard of value, each of its kind and for its price, and which best meet Canada's peculiar road conditions and the specific and distinctive requirements of the Canadian motorist, whose needs differ essentially from those of his cousin over the border. This too we must KNOW, and know how to provide for those needs. Before we can know that, we must have made the very comparison we have outlined here—we must have examined and contrasted the merits of ALL the good cars, and we must have considered the respective claims of each maker in

their relation to the special demands of the Canadian motorist. That much we must do, big as the task looks—and is. We must have done it, because we could in no wise afford to put our reputation back of any maker's cars unless we KNEW absolutely that no other maker could outvie him in merit, or outsell him in value. That's mere business logic, you see. For we can afford to sell only the supremely best—why should we sell any automobile less good than that?—since it is true that we could make no greater profit from the dubious car than from the car we KNOW is good. So we scrutinize the auto market—with the judgment of experts, sharpened by the necessity of business. And, therefore, the fact that we have just twelve makes on our list instead of forty, as we easily could have with our purchasing power and our selling power, is of itself proof that we have chosen capably from the market as a whole, and that these twelve makes represent no dictate of commercial necessity, but merit—supreme, examined, compared merit, judged against all the automobiles there are.

These are the Twelve Chosen Makes

GRANT LAND IN SIBERIA SUGGESTION OF NOBLES

Congress Endorses Government's Program for Relief of Peasants.

St. Petersburg, June 12.—The Nobles' Congress, now in session here, has practically endorsed the government's agrarian program, having declared itself against the forced expropriation of land and proposing only two methods for the relief of the peasants, namely: purchase of land and the peasant banks and co-operatives. The latter and recommending the granting of free land in Siberia and exemption from taxes for a period of years. The government's proposition for a dissolution of the commune system where it is desired.

An influential but small minority, headed by Count Uvarov of Saratov, protested against the selfish attitude of the nobility, urging unavailingly that the large landlords, if they wished to escape from utter ruin, must cede something to the peasantry, and at least consent to the expropriation of surplus estates.

A strong effort is being made by the Moderate Liberals to induce the emperor and court to attempt to compensate the situation by supporting the Goremnik ministry, with a mixed cabinet chosen from the October party, the party of Democratic reforms and the

Constitutional Democrats, but there is no evidence that his majesty is ready to try the experiment. On the contrary, the straws point in other directions.

Some of the provincial governors are still openly continuing the campaign to discredit parliament, and this morning the decoration of all the officers of the Semenovskiy Regiment, who made themselves hated after the Moscow uprising, was announced.

Altho the crop reports from the entire western provinces are excellent, the latest reports from the Volga region indicate that Russia will not escape a famine. The harvest in that corner of the empire this year, especially in Kazan, Simbirsk and Samara, threatens, owing to lack of rain, to be a complete failure. This is the region where the peasant agitation is most acute.

Prison Inmates Revolt.

Moscow, June 12.—The inmates of the prison to-day barricaded the building in an effort to save the political prisoners who were about to be sent to Siberia to undergo nine years' banishment. After a fight, the keepers barred the obstructions and order was restored.

Murdered by Revolutionists.

Kutais, Trans-Caucasia, June 12.—M. Shardpovsky, a marshal of nobility, was waylaid and murdered by revolutionists yesterday.

OBITUARY.

Dr. Mary Putnam Jacob.

New York, June 12.—Dr. Mary Putnam Jacob, who was the wife of Dr. Abraham Jacob, and was a distinguished specialist in children's and nervous diseases, a writer of many books on general and medical subjects, and at one time an ardent woman suffragist, died on Sunday at her home in East 47th-street. Her illness extended over a period of four years.

How to Exercise the Bowels

Your Intestines are lined inside with millions of little suckers, that draw the Nutrition out of food as it passes them. But, if the food passes too slowly, it decays before it gets through. Then the little suckers draw Poison from it instead of Nutrition.

This Poison makes a Gas that injures your system more than the food should have nourished it.

You see, the food is Nourishment or Poison, just according to how long it stays in transit.

They do not waste any precious fluid of the Bowels, as Catholics do.

They do not relax the Intestines by greasing them inside like Castor Oil or Glycerine.

They simply stimulate the Bowel Muscles to do their work naturally, comfortably, and nutritiously.

And, the Exercise these Bowel Muscles are thus forced to take, makes them stronger for the future, just as Exercise makes your arm stronger.

MY CASCARET POCKET

MY WATCH POCKET

The usual remedy for this delayed passage (called Constipation) is to take a big dose of Castor Oil.

This merely makes slippery the passage for unloading the current cargo.

It does not help the Cause of delay a trifle.

It does slacken the Bowel-Muscles more than ever, and this weakens them for their next task.

Another remedy is to take a strong Cathartic, like Salts, Calomel, Jalap, Phosphate of Sodium, Aperient Water, or any of these mixed.

What does the Cathartic do?

It merely flushes-out the Bowels with a Waste of Digestive Juice, set flowing into the Intestines through the tiny suckers.

But, the Digestive Juice we waste in doing this today is needed for tomorrow's natural Digestion. We cannot afford to lose it.

That's why Cascarets are the only safe medicine for the bowels.

This is why the dose of Cascarets can be lessened as you take them, instead of increased as with all Cathartics.

Cascarets are as safe to use constantly as they are pleasant to take.

They are purposely put up like candy, so you must eat them slowly and let them go down gradually with the saliva, which is in itself, a fine, natural Digestive.

They are put up purposely in this flat, round-cornered, Enamel box, so they can be carried in a man's vest pocket, or in a woman's purse, all the time, without bulk or trouble.

Because the time to take a Cascaret is not only when you are Sick, but when you first suspect you need one. Price 10c a box.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC".

A sample and the famous booklet, "Curse of Constipation," Free for the asking. Address Sterling Remedy Company, Chicago or New York.

THE PEOPLE'S LINE TO COBALT SILVER CAMP.

The T. & N. O. Railway affords the quickest and most comfortable means of access to New Ontario's great clay belt, the silver mines of Cobalt, and the fish and game preserves of Temagami and Montreal River. Connections at North Bay with G.T.R. and C.P.R. Through sleepers from Suspension Bridge, Montreal, Ottawa and Toronto. Connection with all steamboats or other means of transportation.

See T. & N. O. folders. For further particulars apply to any G.T.R. or C.P.R. agent, or to W. D. Curlew, with freight and passenger agent, North Bay, Ont.

Michigan Central and Lake Shore Railway's Pacific Coast Tour

for teachers, their friends and the public, taking in scenic features of Colorado, Grand Canyon of Arizona, California, North Pacific Coast, Yellowstone Park and Canadian Rockies. Special trains leave Buffalo June 21. A thirty-day necessarily conducted at expense tour at absolutely net cost and under personal direction of an experienced New York Central Lines representative. More leading teachers in the States of New York and Pennsylvania have joined this tour. Write for Kinsey, J. W. Daly, Chief Asst. G.P.A., Buffalo, N.Y.

CHAPEL FOR K. C. M. G.'S.

Military and Heraldic Pomp Marks Ceremony of Dedication.

London, June 12.—The Order of St. Michael and St. George today acquired a chapel of their own, a special recess in St. Paul's Cathedral having been dedicated to the service of its knights, who now for the first time in the history of the order, have a sanctuary in which to deposit their banners.

The distinction of K. C. M. G. (Knight Grand Cross of St. Michael and St. George) has heretofore been somewhat secondary, but it is now raised nearer the level of the orders of the Garter and the Bath.

King Edward, who took the greatest interest in the dedication of the chapel, attended the ceremony in full state. The Prince of Wales was also present. Great military and heraldic pomp marked the ceremony and the interior of the vast cathedral was a blaze of gorgeous color, with the blue and crimson silken gown of the knights, whose breasts glittered with the dazzling insignia of the order.

WHEN YOUR BACK BOTHERS

Of course it's hard to work. Stooping over hurts, lifting is tedious, and you wonder what to do. Ever try Nerviline? Nothing like it for weak or lame back. It penetrates to the core of the pain, eases from the first application, brings cure that defies a relapse. No liniment is so clean, so soothing, so certain to kill muscular, rheumatic or sciatic pain. Your dealer sells Poison's Nerviline in large 25c bottles. Why not try it?

NOT E. GUSS PORTER.

Editor World: In your report of the proceedings following the university dinner of last night, you credited E. Guss Porter, M. P., with my remarks. Personally I do not object, but as Mr. Porter was attending to his Ottawa duties, and is not a graduate, he might possibly be called upon to prove a "dual existence" if the correction were not made. W. N. Ponton.

Take WINDSOR TABLE SALT. Does not "bite"—is not bitter. It is pure salt and all salt will not cake.

ITALIAN FARM COLONY.

May Be Established on Vancouver Island by Syndicate.

(Canadian Associated Press Cable.) London, June 12.—A paragraph in The Financial News states an attempt is to be made by an Italian syndicate to found on Vancouver Island an Italian agricultural colony, for the purpose of vine culture, fruit farming, mulberry growing and silk worm breeding.

The C. A. P. understands a scheme for the establishment of a floating exhibition of British manufactures mooted two years ago, has been remodelled and reconstructed, provided the steamer sails early in the autumn. The first call will be made at Canadian ports.

Late yesterday afternoon the Elder Dempster liner Etolia, ashore at Cape Sable, was being covered in Lloyd's at 70 guineas per.

POSTAGE RATES LOWERED.

Letter Weighing Six Ounces at Rate Formerly Charged for Two.

Washington, June 12.—The postoffice department has given out the following statement:

"The universal postal congress, recently in convention at Rome, ordered a substantial reduction in letter postage by increasing the unit of weight, effective on and after Oct. 1, 1907, from 15 to 20 grams, and providing that while postage on the first twenty grams shall remain at 25 cents (5 cents), every additional 20 grams shall be at the rate of 15 cents (3 cents).

"Great Britain and the United States strongly urged that the unit of weight for them should be fixed at one ounce, as it would be extremely difficult for them to express an equivalent weight for twenty grams, not having adopted the metric system. This request was granted. This will give the two countries exceptionally low rates for the exchange of letters. Under the reduced rates a letter to Great Britain will cost five cents for the first ounce and three cents for the second ounce or eight cents for two ounces. In other words, when the present rate is six cents, a letter packet weighing six ounces can be sent to Great Britain at the rate now charged for a two-ounce packet."

HURLS WIFE FROM WINDOW.

Englishman Then Barricaded Himself in His Room.

New York, June 12.—Campbell O. Adair, an English bricklayer, was arrested early to-day after his wife, Agnes, had been killed by a fall from a window of their home, on the fifth floor of a tenement house in East 127th-street.

James Smith, who lives in the house, said that he was coming home, and was just about to enter the door when he heard screams overhead, and looking up saw the body of a woman come whirling thru the air and strike heavily on the pickets of an iron railing in front of the house. He recognized her as Mrs. Adair and hurried around the corner to the police station.

The woman was dead when picked up. Two detectives went up to the Adair apartments and found that the bricklayer had barricaded himself in the room. They broke down the door and arrested him. They questioned his 18-year-old daughter, Kitty, who said that her father and mother had quarreled during the night.

GROOM'S GIFT TO BRIDE.

Fashion Dictates That It Be Contained in a Box of White Kid.

The groom's gift of jewelry must reach the bride this year in a dainty box of finest French kid, lined with grey-white velvet. Dame Fashion decrees it—and we betide the "meretricious" who disobeys. A brooch is always a favored gift, and nothing could look lovelier against the soft velvet lining of its dainty case than the simple circle of eight diamonds and eight pearls that Diamond Hall sells for \$200. A crown outlined in small pearls, with five larger pearls and five diamonds, is special value at \$100. Then, at \$250, the Ryer store shows a superb set of almost innumerable diamonds set in platinum.

STOMACH TROUBLES ARE THE WORLD'S BIG WORRY

GET ON TO THE TRAIL OF NINETY-NINE OF EVERY HUNDRED OF OUR EARTHLY ILLS AND YOU CAN TRACE THEM BACK TO THE STOMACH—YOU CAN BANISH STOMACH TROUBLES FOREVER WITH **Dr. Von Stan's Pine-apple Tablets**

Doesn't it stand to reason that nature herself has in herself a cure for our ills—and doesn't it stand to reason that nature rebels at many of the nauseous so-called remedies, that pass as cures for stomach ailments? Von Stan's Pine-apple Tablets are nature's cure in very deed, because they're purely vegetable and are extracted from one of the most luscious fruits that grows—and what a boon they have proved themselves to be. It's best expressed in the hundreds of unsolicited testimonials that could be printed here—and which will be produced if you're a bit credulous.

How is your stomach affected?—Do you have sour stomach—distress after eating—weight on the stomach—wind on the stomach—Loss of appetite—dizziness—nausea—sick headache and other uncomfortable derangements?—The first tablet will give you relief and persistence will cure—and there's no case of stomach trouble so stubborn as to solicited testimonials that could be printed here—and which will be produced if you're a bit credulous.

35 cents a box at all Druggists and medicine dealers.

PREMATURE ANNOUNCEMENT

No Dividend to York Loan Creditors in Sight for Some Time Yet.

It was reported in Hamilton yesterday that Ald. GIBSON, of that city, who had been looking after the interests of York Loan victims in that city, had been notified by the assignees that a payment would be made in a few days.

R. Home Smith, when spoken to by The World last night, said he regretted that the announcement was wholly untrue. He was sorry to say that there was no likelihood of a payment for some time.

TO BE WOUND UP.

Distributors' Club Ends Its Career After Brief Career.

Justice Magee yesterday granted a winding-up order in the case of the Distributors' Company, a Hamilton, Ontario, company, which had been carrying on business for some time. The company was incorporated in September, 1904, with a capital of \$1,000,000, in 1905, over the business of C. P. Carpenter of Winona; Husband Bros. of Toronto, and S. W. of Brampton. Business was commenced in April, 1905. The liabilities are placed at \$34,500, together with a number of unadjusted claims. The assets are nominally \$10,000, and the unpaid stock is \$29,750.

Army and Navy Veterans.

At the semi-annual meeting of the Army and Navy Veterans, held last evening, a number were present and much business done. Four new members were received, John Hutton, 72nd Highlanders, a Crimean and Indian military veteran, James Legard, Royal Artillery, who came to Toronto during the Trent affair; Richard Roberts, Marine Artillery, served 10 years in three regiments and served in South Africa, having two medals and five bars, is a first-class reserve man and wears a bronze medal for life saving as a London policeman; A. G. took over the Staffordshire Regiment, a S. A. veteran with two medals and five bars. The committee reported that the picnic will be held at Niagara on July 23. Several of the members were reported ill. Much sympathy was extended to Comrade Charles Billingsworth, who this morning will undergo an operation in the General Hospital for appendicitis. Prayer was offered for his recovery. He has been caterer for the G. O. R. Sergeants' Mess. He is the last of "the thin red line" in America.

A vote of thanks was passed to Rev. A. J. Brounhal and Rev. Mr. Broughall of St. Stephen's Church.

TERRIBLE PAINS ACROSS BACK

SUFFERED EIGHT MONTHS WITH KIDNEY TROUBLE. WOULD HAVE TO STAY IN BED FOR THREE DAYS AT A TIME

Doan's Kidney Pills
CURED HIM

Mr. Thomas Fitzgerald, Hazeldean, Ont., writes us as follows: "I was a great sufferer from kidney trouble for eight months. I had terrible pains across the small of my back. I would have to stay in bed for three days at a time and could not do any work. I tried several remedies but of no avail, and also plasters but they were of no use.

One day a neighbor of mine advised me to try Doan's Kidney Pills. I was so much discouraged I told him I was tired of trying remedies, but he urged me to try one box so I purchased one, and before I was through using it, I found a change for the better. I got five boxes more, and I have had no trouble with my kidneys since. I would not be without Doan's Pills in my house."

It is really not difficult to cure kidney trouble in its first stages. All you have to do is to give Doan's Kidney Pills a trial. They are a never-failing cure for all forms of kidney trouble. They quickly relieve the congested, overworked kidneys, and gradually bring them back to health.

Doan's Kidney Pills 60 cents per box or three boxes for \$1.25, all dealers or The Doan Kidney Pill Co., Toronto, Ont.

RADIAL RAILWAYS ARE TRYING TO EVADE PROVINCIAL CONTROL

Application is Made at Ottawa For Privilege to Use Detroit River Tunnel, Under Construction, to Get Away From Ontario Restrictions.

Ottawa, June 12.—(Special.)—W. F. Maclean (South York) has discovered a new disease. It may be called "tunnelitis." It attacks radial railways, but is confined at present to the Province of Ontario.

Two severe cases were examined by the railway committee of the house this morning. Mr. Clarke (South Essex), the attending physician, was advised that nothing would restore the afflicted by a Dominion charter. In short, the bill before the committee this morning respecting the Windsor, Essex and Lake Shore Rapid Railway Company and the Windsor, Chatham and London Railway Company are eucadem genera. They both seek escape from the Ontario railway commission. They join that vast caravan of radial lines which already sought shelter at Ottawa. People are asking what will be left for the Whitney constituency to support on?

These two companies have, however, a brand new excuse. They wish to make a contract with the new tunnel company at a point which crosses into the United States. "This excuse was good; and it need not surprise anyone to find every radial in Canada planning to do this." The boundary so as to be eligible to use a tunnel. Tunnelitis is fast fair to be as popular among radial lines which have been among fashionable people.

Mr. Emerson did not commit himself, but it is well understood that personally, he favors exclusive federal control over all railways. This policy might as well be declared in principle as adopted in fact.

Messrs. Maclean (S. York), Lennox and other Conservative members pleaded for provincial rights.

In reply to Mr. Maclean, the proponent of the bill admitted that his company's desire for a Dominion charter was prompted by a desire to override the twenty-five year limitation of the franchise of the Ontario statute.

"That means," said Mr. Maclean, "that this parliament is to discuss township topics."

Mr. Lennox (S. Simcoe) prophesied a revolution in the west if provincial rights were not respected.

A bill to incorporate the Alberta Northern Railway and Coal Co. was taken up. It is proposed to run the line from Lethbridge to Calgary and on to Edmonton. Mr. Clarke of Essex stated the Alberta bill, with some minor amendments.

Mr. Drinkwater said from Lethbridge that the proposed road would parallel the C. P. R. at an average distance of eleven miles, and from Calgary to Edmonton at an average distance of sixteen miles. The country was now well served by the C. P. R., which proposed to build tracks to serve contributory country.

The opinion was expressed that the charter was being sought to sell to the Canadian Pacific of the Great Northern and was decided not to report the bill.

Effects on the Appetite.

"Glad," asked Mr. Ferguson, "did you read what the paper said this morning about?"

"No," interrupted Mr. Ferguson, "and I don't want to read it till after I've had my breakfast."

Dr. Lyon's PERFECT Tooth Powder

Cleanses and beautifies the teeth and purifies the breath. Used by people of refinement for over a quarter of a century. Convenient for tourists.

PREPARED BY
S. H. Lyon, D.D.S.

Deer Park.

Workmen and teams are engaged opening up St. George-street north of St. Clair-avenue to Forest Hill. The street allowance south of St. Clair-avenue is not being touched, owing, perhaps, to the agitation which is on foot to annex to the city. If this southern part were opened there would be a parallel street with Yonge-street from College-street, Toronto, to Forest Hill in the township.

Thomas Jones of Jones Bros., Christie-street, is going on a few days' fishing expedition to Powassan.

John E. Edwards and Sons have started to build a large annex to their factory.

Dr. Warren, medical health officer of the township, is in camp at Niagara. Dr. Duncan is taking his place during his absence.

While Fred Richardson of St. Clair-avenue, a boy of about 12 years of age, was going to the store on Monday evening he was assaulted and robbed, so he auto were on their way to the golf club.

Balmby Beach.

Last evening there was launched at the foot of Fernwood Park-avenue, on the bosom of Lake Ontario one of the most beautiful canoes ever seen on the lake. As she took the water the name "Florence" was sent after her. The canoe is the property of Mr. Runnymede of the Trades' Bank.

East Toronto, June 12.—A garden party under the auspices of the Thistle Lacrosse Club will be held in Morton's Grove to-morrow afternoon. At 3.30 there will be a baseball match between the married men of East Toronto and York, and at 5 the Thistles play the Harbord-street Collegiate Institute, winners of the intercollegiate trophy.

The at 8 o'clock there were dancing. The local lacrosse association, removed to Taylor, R. Lloyd, W. Corson, H. Diggess, O. Clay, P. Shaw, F. Murch and L. Colvin.

It is said that a canvass of wards would show a strong opposition to annexation, while ward one would favor the measure by a small majority.

Hagerman's Corners.

Hagerman's Corners, June 12.—The death of Mrs. William Young, which occurred at the residence of her son, John, on the old homestead, last evening, yesterday afternoon, removes one of the early pioneers of the township. Mrs. Young, whose maiden name was Isabella Clark, came with her parents from Scotland in 1827, and subsequently removing with her husband, the late William Young (by whom she had some twenty years' residence), to her 85th year and is survived by two sons, William and John, and one daughter, Marion resident near Barrie.

The deceased was a member of St. John's Presbyterian Church, and the funeral will take place this afternoon.

North Toronto.

Arthur Cook, Bedford Park, who recently underwent an operation for appendicitis, is able to be around again.

A strange freak of nature this summer is that as poplar trees are blighted the switch branches off must be taken up. Keel-street will not be interfered with. A crossing was wanted about 700 feet north of St. Clair-avenue but the C. P. R. has no objection to the Northern Railway has refused.

EMPIRE HOTEL.

336 Yonge-street, most modern and up-to-date hotel in Toronto. Rates \$1.50 to \$2 per day. J. Newton, proprietor. Phone Main 2265.

Removal Imperative.

(Canadian Associated Press Cable.)

London, June 12.—On behalf of the Free Importation of Canadian Cattle Association, P. L. Gray has written the premier and other ministers declaring that the removing of the embargo is imperative to the health of the people in view of the revolting revelation at Chicago.

Refuse to Pay Head Tax.

Windsor, June 12.—Two young Englishmen who gave their names as Auracha and Comyns, and said they were expert carpenters, a few months out from England, claim they were stopped on a landing from the ferry at Detroit late to-day and refused admittance to the United States until they each paid \$2 head tax. They refused to do so and returned here. They say they will never pay the tax. Both have plenty of money.

Furniture Men Organize.

A meeting of the furniture section of the Canadian Manufacturers' Association was held at the National Club last evening, some forty-five of the leading manufacturers of the province being present, and a number of matters, among others, transportation and insurance, were under discussion. The meeting was presided over by W. F. WEBSTER, Yonge and King-streets, or GEO. McBRIDE, 4 Leader-lane.

My Electric Belt Without Cost Until Cured.

To men who are run down, weak and puny, and who have lost the force of vitality, who feel gloomy, despondent and unable to battle with the ailments of life; who have Rheumatism, Back Pains, Weak Stomach and Kidneys, and feel generally as if they needed to be made over. If that means you, come to me, and if I can cure you I will give my belt free.

Until You Are Cured
If you will give me reasonable security.

READ WITH CARE. DR. McLAUGHLIN'S ELECTRIC BELT is positively the only Electric Belt offered to the public where convalescing physicians attendants. You have my advice and consultation FREE OF CHARGE.

If you will come and see me, I'll explain it to you. If you can't call, let me send you my book full of the things a man finds inspiring to strength and courage. Free if you send this ad.

I HAVE A BOOK SPECIALLY FOR WOMEN.

SPECIAL ADVERTISEMENTS

CREAM SEPARATOR FOR THE FARM.

While farmers as a rule do not make a practice of dairying on a large scale, there are some who keep on every farm for milking purposes and to furnish the butter and milk supply for home use.

The cream separator is doing away with all this. The milk as soon as it is milked, and while yet warm, can be skimmed and the cream and skim-milk are sweet and ready for use.

It will pay any farmer with five or more cows who is trying to make butter to buy a separator. The saving of time and butter fat will surely make it a paying investment.

It is evident that many men who are engaged in husbandry who would achieve greater success in some other occupation. One class of men are farmers because of force of circumstances they could not find a more congenial profession.

In no occupation is robust health of greater advantage than in conducting farm operations. No vocation is more conducive to health and longevity than agriculture. An invalid farmer is handicapped in prosecuting his profession.

There are two classes of farmers, who start with equal opportunities, and one class achieves independence while the other remains poor. The one improves the natural advantages of his soil and environments and is particular in executing all his farm operations to have the land in the best possible condition.

A sharp rise in grain futures has been brought about at Chicago by crop damage reports from the middle and southern states. In instances the condition of the wheat crop has been lowered over ten per cent in the month and that of oats in even greater proportion.

Managers, June 2.—Dowdall Brothers, in their Butter Review, say: After a late spring, reports of a favorable growing conditions flow in from Ireland, Holland, Canada and the United States.

The British grain markets have a steady firm undertone which can only be varied by some unusual happening. Reports from Russia promise a larger wheat crop from the southern districts than that of last year.

Below will be found interviews with many of the cattle drovers who visited the Toronto markets Monday. The general opinion is that the recent weather has helped crops, but that of hay will scarcely come up to the average.

Privatey there have been few transactions, and none of a feature nature, also the customs returns show a decline in the value of goods being imported.

At this season of the year The Breeders' Gazette, Chicago, always receives enquiries relative to the feeding of horses.

The following is Burns & Sheppard's weekly report of prevailing prices: Single pointers, 15 to 16 hands, \$125 to \$150; carriage horses, \$100 to \$120.

On Friday Messrs. Burns & Sheppard announce that they will put up fifty or sixty horses of various types, but including some really extra express and delivery horses.

At Monday's sale of this week the sales ring and stables of the Canadian Horse Exchange looked bright and healthy from the ground.

Manchester, June 2.—Dowdall Brothers, in their Butter Review, say: After a late spring, reports of a favorable growing conditions flow in from Ireland, Holland, Canada and the United States.

Chicago, June 12.—The Grand Trunk has granted an increase of 15 per cent in wages to the order of the men at Bonaventure Station.

TORONTO HORSE MARKET

FANCY LOTS IN DEMAND For Ordinary Kinds the Enquiry is Slack, With a Tendency to Weakening Prices.

The horse market has entered upon a season of quietness and of doubt, both as to sale and as to prices. Except for fancy lots this state of things will prevail until mid-August.

From Boston comes a report to this effect: "There is nominally no change in general trade in the Boston horse market, but there is no diminution of the spring demand for business and heavy commercial classes."

John R. Beattie, Baurch Farm, Annapolis, recently shipped a Clydesdale stallion and five fillies to the order of the London Live Stock Journal.

At this season of the year The Breeders' Gazette, Chicago, always receives enquiries relative to the feeding of horses.

The following is Burns & Sheppard's weekly report of prevailing prices: Single pointers, 15 to 16 hands, \$125 to \$150; carriage horses, \$100 to \$120.

On Friday Messrs. Burns & Sheppard announce that they will put up fifty or sixty horses of various types, but including some really extra express and delivery horses.

At Monday's sale of this week the sales ring and stables of the Canadian Horse Exchange looked bright and healthy from the ground.

Burns (Norwood, Ont.), I. Curry (Dundas, Ont.), Robert Purdie (Malvern P. O., Ont.), John Præth (Hamilton), John Lawson, and others.

Advices from Buffalo says that the bottom is out of the market. There has been a considerable break both in the demand and in the prices.

Similar reports to the foregoing are to hand from Chicago and St. Louis. From Chicago the story told is that a weak demand characterized the general tone of the market.

From Boston comes a report to this effect: "There is nominally no change in general trade in the Boston horse market, but there is no diminution of the spring demand for business and heavy commercial classes."

John R. Beattie, Baurch Farm, Annapolis, recently shipped a Clydesdale stallion and five fillies to the order of the London Live Stock Journal.

At this season of the year The Breeders' Gazette, Chicago, always receives enquiries relative to the feeding of horses.

The following is Burns & Sheppard's weekly report of prevailing prices: Single pointers, 15 to 16 hands, \$125 to \$150; carriage horses, \$100 to \$120.

On Friday Messrs. Burns & Sheppard announce that they will put up fifty or sixty horses of various types, but including some really extra express and delivery horses.

At Monday's sale of this week the sales ring and stables of the Canadian Horse Exchange looked bright and healthy from the ground.

Standard SWEDEN TURNIPS

GROWN FROM SELECTED ROOTS. The following are the most popular standard English varieties, having for years given the greatest satisfaction to our numerous customers.

Elephant, Monarch or Jumbo Swede Turnip. The reports received during past years from all sections of Canada pronounced this Turnip to be unequalled in size, quality and uniformity.

Simmers' Champion Purple Top Swede Turnip. This magnificent Swede, the result of judicious selection, is the hardest, most productive and most nutritious purple top variety in cultivation.

Kangaroo Swede Turnip. A very hardy Swede, similar in size and growth to Elephant, color a bronze green.

If your dealer cannot supply any of the above send direct to J. A. SIMMERS, TORONTO, ONT. Canada's Premier Seed House

The "DILLON" HINGE-STAY. It is not the DILLON, so much as the HINGE-STAY that should interest you if you need a wire fence for farm or yard purposes.

THE OWEN SOUND WIRE FENCE CO., LIMITED. OWEN SOUND, ONTARIO. good advice on the care of the horses' feet.

DR. TEFFT'S Green Oil. Cures Hives, Tumors, Neuritis, Cuts, Bruises, Scalds, Burns, Chafing, Corns, Chills, Swelling and Stiff Joints, Galls, etc.

DOHERTY'S Condition Powders. It will pay any farmer to take samples of the milk of his cows for a week and have them tested, and then keep the weights of the milk produced.

Canada Permanent Mortgage Corporation
HALF-YEARLY DIVIDEND
 Notice is hereby given that a dividend of three per cent (3%) on the paid-up capital stock of this Corporation has been declared for the half-year ending June 30th, 1906, and that the same will be payable on and after

Monday, the Second Day of July Next.

The transfer books will be closed from the fifteenth to the thirtieth of June inclusive.

By order of the Board.
GEO. H. SMITH, Secretary
 Toronto, May 30th, 1906.

PRICES SUBSERVIENT TO GROUP INFORMATION

YOUR EXECUTOR

The Executor of your estate should be competent, experienced and thoroughly reliable. This Company, with its wide experience in Capital and Reserve and reliable management, is in a position to settle the affairs of your Estate economically and with the utmost fidelity to the instructions contained in your will.

NATIONAL TRUST COMPANY LIMITED
 22 KING STREET EAST, TORONTO.

Following up the market on Tuesday Evening, June 12, the Mackay stock, the pool became active in the market to-day and bid up both the preferred and common shares. The tape during the morning session was occupied almost exclusively by quotations and sales of the shares, but the movement was by no means demonstrative, and was not extending to the tape watchers. The Toronto market had the advantage of a firm Wall Street, but, like the larger market firmness, was marred by dullness in the general list. The dealings throughout the day were highly professional and were neither favored with good news nor influenced with ill report. The pool in Mexican relinquished consequently dropped into comparative dullness. Fractional rallies were made during the early business in the Mackays, Coal, General Electric and Toronto Railway, but with the exception of the latter, advances were sacrificed before the close, and in the case of Mackay preferred the closing sale was actually half point lower than the opening. The demand which appeared to exist so spontaneously for bank stocks a few days ago is no longer in evidence, and quotations have not the same buoyancy. Toronto Railway touched 120, the figure made yesterday, but was subsequently sold, but was offered at 110 1/2, with out bids, at the close. The market as a whole to-day is the backing and filling required to keep up outside interest, and if possible, arouse speculation interest flooding the market at a very low ebb.

Ennis & Stoppal, McKinnon Building, report the close on Granby, 12 1/2; Lake Superior, 20 to 20 1/2; Lake Superior bonds, 20.

Return of money from San Francisco makes position of the stronger than usual at this time of year.

Some demand for St. Paul in loan crowd, but other stocks freely offered.

Slight improvement in demand for bonds.

Chicago considers crop situation favorable and bullish on general stock market.

Forty-three roads for fourth week of May show average gross increase of 14.20 per cent.

Iron producers expect new high records will be established this year.

Southern Pacific expected to show very heavy decrease for period immediately following San Francisco disaster.

Exports of copper for May aggregated 19,290 tons, an actual 2,705 tons over and since Jan. 1, 83,131 tons, against 107,705.

Banks have cleared \$1,018,000 from the sub-treasury since Friday. Sub-treasury is debtor at clearing house for \$96,000.

Wabash bond issues of \$200,000 will refund \$10,000,000 of old bonds, according to a statement attributed to the company, leading \$90,000,000 for other requirements.

London—An item of \$7,000,000 2 1/2 per cent. Irish land stock, guaranteed by British Government; announced issue price is \$2. A premium of one-half of 1 per cent, is quoted.

According to the Birmingham Post, negotiations are on for the placing of a new \$100,000,000 Russian loan in England, with a provision that half the proceeds are to be used for the building of Russian railways in England. The Post considers the success of the negotiations as probable, owing to the more friendly relations between Russia and Great Britain.

There is a tremendous short interest in Amalgamated Copper, and the advance this morning was largely due to this account. The insiders, however, do not seem ready to advance Amalgamated at the present time, but every indication points to an early upward movement of considerable proportions, and we strongly advise purchase on any soft spots.—Town Topics.

Loss reports for quarter ended May 31, estimated as follows: Earnings from operations, \$20,283; interest and taxes for quarter, \$1,850; other expenses, \$79,095; surplus, \$29,228; actual surplus, March 31, \$2,896,544; surplus, June 1, \$3,136,772. The company has declared the regular quarterly dividend of 1 1/2 per cent, payable July 2. Books close June 18, and reopen July 3.

Joseph says: It is too early to forecast the final yield of any one of the great crops, but the indications are that on the whole the season of 1906 will be better than was generally anticipated. The outlook is propitious. New-gold news, great news is this from Washington. Speaker Cannon reported to be in favor now of ship subsidy bill. Pacific Mail may do stunts. Do not be fooled regarding Pennsylvania. There is an immense short interest in it. Three ship carriers of yellow fever reported from New Orleans. Buy L. & N. 4 1/2's. Specialties: Missouri Pacific will cross par. Buy Wabashes. Bull B. R. T. cons. four.

New York, June 12.—Information this morning is very generally bullish, so much so that we hesitate to accept it at face value. W. P. ought to do better. Bull tips are strong on St. Paul. If St. Paul rises, the double offerings it should do better. We doubt the wisdom of buying Reading, except on soft days, but the interest in this rally, which may extend moderately. Pennsylvania is

the market will prove a purchase on a further fair recession for sales on a point or two advance. Conditions are sound, but there is little commination house or public business, and traders will have to act lively to beat the talent.

Money Markets.
 Bank of England (discount rate) 4 per cent. Money, 2 1/2 per cent. Short bill, 3 1/2 per cent. New York call money, highest per cent, lowest 2 1/2 per cent, last loan 2 1/2 per cent. Call money at Toronto, 5/4 to 6 per cent.

Price of Silver.
 Bar silver in New York, 64 1/2 per oz. Bar silver in London, 29 1/4-164 per oz. Mexican dollars, 20 1/2.

Foreign Exchange.

Standard Stock Exchange.
 The annual meeting of the Standard Stock and Mining Exchange was held at the board room, 43 Scott-street, this afternoon. There was a large attendance of shareholders, and the proceedings evidenced the large and growing revival in the business of the exchange, and the great interest that is being taken in dealing in mining shares. Mr. A. Gordon Strath was re-elected president, Mr. George Stevenson re-elected vice-president, and Mr. George Dunstan re-elected secretary. Messrs. J. S. Fox, C. Fox, O. J. B. Yeats, F. A. Hall, E. Strachan Cox and J. A. McEwen directors for the current year.

Metal Markets.
 New York, June 12.—Pig-iron—Quiet. Northern, \$17.50 to \$19; southern, \$18.50 to \$19.50. Copper—Firm, \$18.75 to \$19. Lead—Steady, \$5.75 to \$5.85. Tin—Firm; Straits, \$18.50 to \$20; plates weak; spelter, firm; domestic, \$6.00 to \$6.15.

Widow Secures the Insurance.
 Mary S. Jansen, according to the judgment of Chief Justice Falconbridge, is entitled to receive the \$2000 policy on the life of her husband, Wm. Jansen, who was insured in the A.A.O.W. in 1879, and his wife was named as the beneficiary. Later they separated, Jansen going to Manitoba, leaving his wife and five children. Ten days before he died he drew up a document in which he displaced Mrs. Jansen in the insurance benefit. Two witnesses signed the document, but neither saw Jansen affix his signature. Chief Justice Falconbridge held that the document was not intended to be an agreement, but a will, and was not valid.

Boy Drowned.
 Owen Sound, June 12.—The first drowning accident here this season occurred last night, when Alex. French, the nine-year-old son of Wm. French of Brookholm, lost his life. The little fellow was playing on some logs at the mouth of the Pottawatamie River in company with several others about his own age, and losing his balance, fell in and was carried under the boom.

Surpasses the Imported

There's no finer lager in Germany or the United States than

KUNTZ BEER

No brewery in the world uses finer malt and hops—takes greater precautions for purity.

Of course, imported lagers cost a good bit MORE in Canada than the home-made. But the price does NOT mean extra quality. KUNTZ BEER is LAGER costs LESS than any other standard beer because it is brewed right here in Canada.

Your dealer will supply you. Leading bars have it.

Brewed and bottled by THE HAMILTON BREWING ASSOCIATION, Limited
Hamilton, Ont.

RECOGNIZE RIGHT AS BASIS IN SOLUTION OF DISPUTES

France Expresses Hope of Time When Force of Arms Will Be Displaced by Peaceful Measures.

Paris, June 12.—The cabinet's declaration of policy was read in the senate and chamber of deputies to-day.

It elaborated numerous social and economic reforms, including an income tax, workingmen's pensions and a reduction in the hours of labor, and declares the government proposes to carry out with firmness but without reprisals the law providing for the separation of church and state, and to introduce a general amnesty measure covering strikes and religious offenders.

Concerning the movement to be undertaken at the Hague peace conference to reduce the navies of the powers, the cabinet says:

"While continuing its entire confidence in the army and navy, France hopes that the nations will gradually recognize right as a basis for the solution of international disputes, until universal opinion permits the nations to decrease the weight of their military expenses."

ASSAILS ROBLIN GOVERNMENT

But Methodist President is Challenged to Prove His Words.

Winnipeg, June 12.—At the Methodist conference in Neepawa, President Samson denounced the Manitoba political government. Looking to the problems of the future, they had to face a corrupt government, and they would not consent another vote for the present government on account of its alliance with the liquor traffic. He saw a new statesmanship arising, which, he trusted, would have courage to go to the principle, and fight for moral right.

He feared there would be one of the most heated and perhaps violent contests in the next provincial election. The old guard in both parties must go. Men were needed who would be called to take their places in the fight for righteousness and truth where it means loss of all.

The Winnipeg Telegram defends the government and challenges the president of the conference to produce proof of the corruption charged.

TRANSPORTATION MANAGERS OBJECT TO DEPORTATION BILL

Ottawa, June 12.—Representatives of the Allan, Dominion, Reform and Dominion steamship companies, the Grand Trunk and Canadian Pacific Railways, interviewed the minister of the interior to-day regarding the bill he has introduced to give the government fuller authority to order the deportation of insane, diseased, pauper, criminal and other undesirable immigrants.

The bill aims to compel the companies to carry immigrants back if it is shown that they belong to the criminal class, or become incapacitated through sickness or accident to earn a living, or become an inmate of a jail, hospital, or other charitable institution.

This would apply against railways as well as steamship companies, and both submit that the law proposed by the minister is unfair to them.

FRONT IN YORK STATE

New York, June 12.—There was a heavy frost throughout Northern New York last night, and much damage was done to vegetable and flower plants. The ground was frozen slightly in some places.

Business Suits

A nice line of Scotch Tweeds, imported direct from the manufacturer, at 25.00 and 27.00.

FIRST OFFENDERS LET GO ON THE PROBATION SYSTEM

Dr. Bruce Smith Investigates Massachusetts System of Dealing With Petty Crimes.

Dr. Bruce Smith, inspector of prisons and charities, has returned from Boston, where he spent a week investigating the probation system of dealing with first offenders. The trip was undertaken on the suggestion of a deputation from the Prisoners' Aid Society, which saw Provincial Secretary Hanna some time ago and urged the adoption of the probation system in Ontario.

At the time of Dr. Smith's visit the probation officers of the State of Massachusetts were holding their annual meeting, and he embraced the opportunity of attending the sessions. So world-wide a fame has been achieved by the state in dealing with the criminal class that one of the visitors to the convention was a Stockholm judge, who had been sent out by the Swedish government to gain information concerning its operations.

First Aim Restitution. One of the main principles of the system is restitution for losses caused by thefts by persons who do not properly belong to the criminal class. Probation officers are appointed by the municipalities, to the payment of whom the state contributes a share. These officers begin their duties at 6.30 a.m., by interviewing prisoners who get into the police dragnet during the night. Where the offence is a minor theft the officers arrange with relatives to make restitution on easy terms. The offender is then given a probation card, good for one year, and he is expected to report monthly to an officer. If at the end of the year the offender has given satisfactory evidence of good behavior and has restored the stolen property, the card is cancelled, and the probation officer escapes the distance of appearing in court and of having the offence reported in the press. If his conduct has not been satisfactory, he continues as a probationer another year.

Dr. Smith relates that a young man in a wholesale house stole \$150 of his employer's money and lost the money in a bucket shop. The employer came in a probation officer and the clerk agreed to repay the amount in instalments of \$2 a week. He was not discharged, and to-day the junior partner in the firm.

More Than Half Probationers. At least 55 per cent. of persons arrested in Massachusetts are released on probation. Statistics show that there are to-day 2000 fewer prisoners in the state than 15 years ago, whereas in Ontario the number of inmates of institutions of correction has enormously increased. The saving in the cost of keep of these persons is more than sufficient to pay all the expenses of the system.

State Farm. The State of Massachusetts sends its chronic offenders to a state farm outside of Boston, and Chairman Pettigrove of the prison committee, Dr. Bruce Smith, that he believed the time would come when jails would not be needed. Inebriates and vagrants are given indeterminate sentences and the state farm almost maintains itself from the labors of the prisoners. There are at present 1400 men at work on it. Two other farms for offenders will be opened.

It will be remembered that Dr. Smith, in a report to the government a couple of years ago, suggested that the City of Toronto should take the initiative in the establishment of a farm for the vagrant class. Pennsylvania is now adopting this system of dealing with this class.

Dr. Smith will make a report to the government, and it is likely a similar system will be suggested for Ontario.

FINANCED BY BRITISH GOVT.

London Jailbird Who Convicted M.P. for Murder, is in Vest.

Winnipeg, June 12.—James Shuttle, the London convict whose evidence sent Hugh Watt, the British M.P., to the penitentiary for employing crooks to murder his wife, was discovered in a window yesterday working as a window cleaner in the Union Bank Building. He was discharged, and then went to the newspaper offices and asserted that a large sum had been offered him by a local detective agency to swear that the evidence given in the Watt case was false. A local law firm advised having negotiations with the convict.

RAILWAY BOARD READY.

Three Commissioners Get Together—Ingram Resigns From Parliament

The new Railway and Municipal Board, James Leitch, K.C., A. B. Ingram, M.P., and H. M. Kitchin, minister of railways, and other members of the cabinet who happened to be in the city yesterday, and discussed the laws of organization. The oaths of allegiance and office were administered by Assistant Provincial Secretary Mulvey, and the commission is now ready to begin business.

Chairman Leitch did not know when the commission would hold its first meeting, but it will probably be some day this week.

Mr. Ingram forwarded to Ottawa last night his resignation as a member of the Dominion parliament.

LONG TALK BY WIRE.

Cobalt Nugget: The first long distance telephone connection between Montreal and North Bay was effected Sunday evening last over the C.P.R. private wire. Mr. Jennings, C.P.R. electrician, and Mr. W. H. Taylor, local superintendent of the Bell Telephone Company, conducted the test, which worked very satisfactorily. Next week a test will be made between Montreal and Winnipeg.

WOMAN'S WORLD

Woman's Institute Corner.

The annual meeting of the West York Woman's Institute was held yesterday afternoon at 130 very busy street. Mrs. Lemaire, retiring president, was in the chair. Very successful reports of the year's work were received. There are four branches of the West York Institute—Weston, Woodbridge, Maple and Kleinberg, and the membership is 275, an increase of 75 on last year. There have been 46 meetings held, with a total attendance of 763, and some 30 papers have been read. The branches exchange papers sometimes, and at others delegate to another. The visiting deputation providing the program in this way three last from Brantford provided the program at a Weston meeting, and a Weston delegation provided the program in Brantford in October. During the year Dr. Helen McManis of Toronto had given a paper on "Typhoid," and she is to give another on "Patent Medicines" in Maple during July. Miss Bertha Duncan had also given several demonstrations in domestic science.

The treasurer reported receipts for the year of \$181.25, and a balance of \$43.81.

The following officers were elected for the coming year: President, Mrs. W. Ellerby; secretary-treasurer, Miss Grubb; directors, Mrs. Lemaire, (Weston), Mrs. P. D. McLean (Woodbridge); directors, Mrs. Parrant and Miss Libbie Duncan (Woodbridge); Mrs. J. Kirby (Weston); Mrs. W. T. Cook (Maple); Mrs. R. Gibson and Miss Bray (Kleinberg); Mrs. A. Snider (Elba); and Mrs. Longstaff (Weston). The program committee, Mrs. Farr, Miss Moore, Miss A. Fraser, Mrs. Hugel and Mrs. Savages.

The committee will draft a program for the year's work, which will be presented at the next meeting, to be held at the residence of Mrs. Snider in July. It will be an open-air meeting, and tea will be served. It was announced that the West York Pharmacy had secured a location in Guelph, which would take place on June 19.

Household Simplicity. Our old friend "simple life" is once more to the front—the "simple life" that we have talked of, sighed after and written about without ceasing. Finally, for courage, neophytes have had the courage of their convictions, and have tried, not all unsuccessfully, to live it. The result of their efforts is set forth in the recently issued first annual report of the "Tolstoy Settlement" at Rotherfield, Sussex, and in an unpretentious booklet, "Living More Excellent," by its founder, Miss Honor Morten. And truly there is nothing far-fetched or "high-falootin'" in its teachings. On an exhibit in the window of W. A. Murray & Co. the motto is: "We do our own work at Tolstoy House, wash our own dirty dishes, mend our own stockings, and those who have strength labor for sickly little children," says the author, and sixty of the scholars received from our bills and "special" elementary schools have shared the hospitality of Tolstoy House during the past year.

There is nothing under the sun that is more commendable than the desire to live in simplicity, and the housewives of the household to simplicity is but a reverting to those time-honored conditions whereby the duties and occupations of the community were shared in common by its members. That the tasks are strenuous, the labor hard, no one denies, much less the fact that the domestic Utopia, whereof division of labor is the basis. "Why swing dumb-bells when houses need building and rooms need scrubbing," asks Mrs. Morten. "It is far better exercise for all the muscles to scrub out a room than to do Swedish gymnastics, and the sweet smell of the soap, the joy of successful effort, something done, also counts for something." It is a very muscular message.

Chocolate Fudge.

Ingredients, 1-1/2 lbs. brown sugar, 1-4 bar, or slightly less, of baker's unsweetened chocolate, butter the size of an egg; milk, chopped nuts and vanilla. Mix the sugar and milk, add the chocolate, and when nearly cooked add the butter. Roll till it "strings," then add the vanilla and nuts. Beat well before pouring into a well buttered dish.

Annual Meeting.

The Willard Orlington Women's Christian Temperance Union, which held its last meeting on August 10, this week, at it elected the following officers: Honorary President, Mrs. Green. President, Mrs. Cameron. Vice-President, Mrs. Street, Mrs. Pugsley, Mrs. Chamberlin and Mrs. Caswell.

Corresponding Secretary, Mrs. Pugsley.

Recording Secretary, Mrs. Lathan. Treasurer, Mrs. Simmer. Assistant Treasurer, Mrs. Wheeler.

Northern W. C. T. U.

The annual meeting of the Northern W. C. T. U. will be held this afternoon at 5 o'clock in the parlors of Westminster Presbyterian Church, East Bloor street. As the election of officers will take place, all members are urged to be present. A social time will follow the business session.

Miss Rachel Todd of 56 Brook-avenue.

Parkeville, who is an honor graduate of Trinity College and of the Women's Medical College, has accepted an appointment in the New York Hospital for Women and Children, commencing October. Miss Todd has done hospital work in connection with the General, St. Michael's and the West-ern.

Lady Laurier and party arrived in the city yesterday morning at 7.25, and left at 1 o'clock for Niagara Falls, where they will spend a few days.

Van Horne-Molsons.

Montreal, June 12.—St. George's Church was in the parlors of the stock yards, when Edith Badgley Molson, only daughter of Dr. Molson, was united in marriage to Richard Bennett Van Horne, son of Sir William, by Bishop Carmichael. After the ceremony the couple left for Vancouver in Sir William's private car, for a couple of weeks' honeymoon. After which they will go to Canada, where they will reside for several months of the year. Mr. Van Horne represents his father's interests in that country. Reynolds report, Baron Schlippenbach, Russian consul, last night declined to reveal the nature of his report.

Foreign Consuls Investigate.

Chicago, June 12.—Foreign governments, thru Chicago consuls, are to take a hand in the investigation of conditions of packing, houses at the stock yards. Alexander Finn, British consul in Chicago, has made a personal investigation of conditions in the packing plants, and will forward his report to London in a day or two. This report is said to be generally favorable to the packers, and in direct contradiction of the Neill and Reynolds report. Baron Schlippenbach, Russian consul, last night declined to reveal the nature of his report.

Inspected Sewage Plant.

Under the guidance of the mayor, Contralor Shaw and Hubbard and Engineer Rust inspected the new sewage plant at the Woodbine.

Water Rates Collected.

Water rates collected from Jan. 1 to May 31 amounted to \$198,831, an increase of \$19,083 over the same period last year.

Council Too Stingy.

Engineer Rust says he is not to blame for the bad state of repair the macadam roads are in. He claims the council will not give him sufficient money to do the work.

Mr. Rust does not approve of the substitution of brick for asphalt pavements. Property owners would not stand for \$2 and \$2.25 per square yard for brick when they can get asphalt for \$1.60. He admits brick is a better wearing pavement.

A Watch for Touring.

For every occasion and use Diamond Hall's watch department has time-pieces exactly adapted.

This is well instanced by our Wrist Watches—especially suited for use when touring, riding, motor-ing, etc. More valuable watches may then be left in safety at home.

A reliable timekeeper is to be had in Gun Metal or Silver for \$6. Specially good Wrist Watches are those sold at \$10 to \$12.

Ryrie Bros. Limited, 134-138 Yonge St.

der Capt. Bernier, will be sent farther north to explore what is known as Baffin's Bay, Lancaster Sound, and Smith Channel, probably as far as Cape Sabine, which was visited by Commander Lowe three years ago.

Major Moodie will transfer the headquarters of the Mounted Police from Fullerton to Fort Churchill. A new post will also be established on Baker Lake at the head of Chesterfield Inlet on the west coast.

C.M.A. TO GIVE SOUVENIR. Handsome Mementos to Be Forwarded London Chamber of Commerce

Desirous of testifying in some manner their appreciation of the kindness shown to them by the London Chamber of Commerce while visiting in Great Britain last summer, the Canadian Manufacturers' Association some time ago placed with the P. W. Ellis Company an order for a souvenir, which was yesterday placed on exhibit in the window of W. A. Murray & Co. The souvenir takes the form of a massive bowl of sterling silver, standing 22 inches high and 10 inches in diameter, mounted on an onyx base. The design thrust is distinctly Canadian, and represents the bowl upheld by a maple tree and "sugar" maple leaves, holding in one hand the Dominion arms and in the other an anvil. The bowl is heavily chased and represents the arms of all the provinces, among which are intertwined maple leaves, the whole being held in place by British lions.

TAKE TIME TO PROBE.

Attorney Jerome and His Intentions With Insurance Companies. New York, June 12.—Concerning the grand jury investigations of insurance companies, District Attorney Jerome said to-day:

"On returning from my vacation, July 1, I shall continue with the Mutual Life Insurance Company, at least for a time. Only one branch of that company has been probed as yet. I shall then proceed seriatim with the New York Life, the Equitable and other companies. But such investigations as we have been conducting in the Mutual are a matter of months, necessarily."

MRS. COREY SUES FOR DIVORCE.

Reno, Nevada, June 12.—Mrs. Wm. Ellis Corey, wife of the president of the United States Steel Corporation, filed a petition to-day in the second district court of Nevada at this place for an absolute decree of divorce, upon the ground of desertion and requires that the custody of their minor son be given to her.

Summerfield, representing Corey, stated to-day that he did not know whether Corey would oppose the petition or not.

Mrs. Corey is attended, while in Reno, by Corey's mother and sister.

Carnegie Money for Teachers.

New York, June 12.—The Carnegie foundation, organized in April last, by Andrew Carnegie, to provide retirement pensions for teachers in the universities, colleges and technical schools of the United States, Canada and Newfoundland, and to which Mr. Carnegie gave \$100,000 in Steel Corporation bonds, has made its first selection of men to receive these allowances. About 50 professors and teachers will be retired at the end of the college year, the total amount to be distributed to them being approximately \$70,000 a year.
