Defence Before Royal Commission Charges World and Mail With Contempt.

One of the sensations of the Stratton enquiry sprung before the Royal Commission Saturday morning, when the defence prepared affidavits virtually charging The World and The Mail and Empire with contempt of court. The affidavits, which are made out by J. E. McEvoy, junior counsel for the defence, deal with the suppression of newspaper comment on evidence brought out before the commission.

On Friday the examination of the books of the Ontario Bank revealed an entry of \$3000, money paid out on the 9th of September to the company in which Hon. J. R. Stratton is interested. This revelation, subsequently found to have no relation to the case, was duly published by The World and the other morning newspapers in question.

These published reports are described in the affidavits as entirely untrue and improper. Therefore, "I John Miller McEvoy of the City of London" makes oath and says that he believes the publication of the comments and alleged evidence was made for the purpose of injuring Hon. J. R. Stratton and interfering with and prejudicing his position in the estimation of the public.

W. R. Riddell, K.C., presented the affidavit charging The World with misconduct. The affidavit charging The Mail and Empire was presented by E. E. Johnston. Their Lordships are a bare conference, and then Chancellor Gough directed that the newspapers mentioned upon Monday to show cause why they should not be committed for contempt for commenting on evidence which is in the course of being investigated, and which is incomplete, and interfering with the proper administration of justice.

The World has not yet been served with their Lordships' order. Evening papers take to the woods. Evening newspapers of Toronto, which have been publishing daily comment on the proceedings before the Royal Commission, made no observations Saturday afternoon. The affidavits prepared by the defence and the Lordships' prompt decision, to make The World and The Mail and Empire appear and show cause for contempt, do not unilaterally throw a fine fright into our evening contemporaries. The Telegram expressed its surprise at this breezy comment in these words:

"The proceedings before the Royal Commission are not only a matter of public interest, but also a matter of public concern. The World and The Mail and Empire are not only organs of the public, but also organs of the government. It is not only their duty to report the proceedings, but also to comment on them. The World and The Mail and Empire have done this in a most able and impartial manner. It is not only their duty to report the proceedings, but also to comment on them. The World and The Mail and Empire have done this in a most able and impartial manner."

BATTLE IN SOMALILAND LASTED SEVERAL HOURS

Major Gough's Flying Column in Hot Engagement—British Fought Against Heavy Odds.

Bohotle, Somaliland, East Africa, Saturday, April 25.—Major Gough, in command of a mobile column, engaged the enemy near Danop. He lost 13 men killed, including two officers, and four officers wounded. The enemy had two hundred killed.

TROOPS FOUGHT GALLANTLY.
London, April 26.—A long official despatch has been received here from Bohotle, Somaliland, to the effect that Major Gough's flying column, numbering about 200 men, attacked a large force of the enemy near Danop. The column formed in a square and resisted with success for several hours, receiving reinforcements from Danop. Ammunition becoming scarce the British forces retired slowly on Danop, bringing all their wounded with them. They were continually attacked on a route.

In addition to 13 men killed, including two officers, there were 28 wounded and four were seriously injured. Major Gough praises highly the conduct of his force under trying conditions, and while fighting in close quarters. He recommends several men for gallant behavior. He is now resting on Bohotle, and is expected to arrive here on April 28. Supplies have been sent to meet him.

48 CAUGHT IN CRAP GAME RAID.
Winnipeg, April 26.—(Special).—Headed by Police Magistrate McKelken a party of five provincial police raided the Hotel "Du-Canada," a low joint on McDermott-street, about 2:30 this morning and rounded up a party of 48 men and boys, all deeply engrossed in the fascinating game of "craps."

The raid was well planned, and entirely unexpected, as for weeks past the game has been practically played in a wide-open manner, and interference from the police was a thing unknown. There was a wild scramble to escape, and some succeeded, but the majority were rounded up.

The gamblers were of all sorts and conditions, comprising bank clerks, office hands, professional gamblers, plain laborers and the usual hangers-on. The raid was made 15 minutes earlier a city alderman would have been nabbed. He, however, was accurate enough to have departed before the climax.

Magistrate McKelken held an extensive court in the barroom, and one prisoner was brought before him and bailed out. All will appear in the Police Court on Monday.

WHIPPED WITH BARBED WIRE.
Mob of Indiana "Whitcaps" Cruelty Assault Two Girls and Negro.
Bloomington, Ind., April 26.—Thirty-eight masked men broke into a house here early to-day, and "whipped" the Misses Rebecca and Isa Stephens, white, aged 18 and 16 years, and also whipped Joe Shively, a negro aged 30 years.

The Stephens girls lived with their mother in the same house in which the mob was active. The negro was whipped with a barbed wire, and the older girl was whipped with a whip. The mob also used a gun, but no one was hurt.

POPE LEO IS NOW FAILING

Fits of Drowsiness Indicate That the Heart is Steadily Growing Weaker.

Meanwhile, His Holiness Frequently Speaks of Celebrating His 100th Birthday.

Rome, April 25.—That the Pope's condition is causing great uneasiness to those around him there is no longer doubt, despite the ostentatious Vatican reports of his good health.

Leo himself appears wholly and serenely unconscious of his condition. To the relatives of his household, he frequently mentions his plans for the future. He is looking forward with perfect confidence to his 100th birthday, seven years hence. It is this calm faith in his own physical resources and power of resistance, according to Dr. Lippmann, that contributes more than anything else to his present health.

He is constantly in attendance upon the Pope's bedroom, and has more opportunity than anybody else of observing the gradual changes in the Pontiff's condition. What chiefly alarmed Dr. Cutra is the frequent use of barbed wire, and the younger one with apple switches, but neither is dangerously injured. Many of the Whitesaps were recognized, and warrants will be sworn out for their arrest.

Has Splendid Constitution.
The Pope might, in fact, succumb at any moment, without any preliminary spell of acute disease. A sharp attack of coughing, a momentary obstruction of the breathing, frequent in old men suffering from chronic bronchitis, would suffice to bring about a catastrophe.

On the other hand, Leo's splendid constitution, his Spartan system of life, and, above all, his indomitable will and self-reliance may prolong his existence for months.

NEW PAPAL DELEGATE ARRIVES IN TORONTO

Mgr. Sbarretti Attends St. Michael's Cathedral and Speaks to Large Congregation.

The Roman Catholic clergy and laity of Toronto were present at St. Michael's Cathedral yesterday afternoon in large numbers to greet His Excellency Donus Sbarretti, Archbishop of Ephesus and Apostolic Delegate to Canada. Mgr. Sbarretti arrived in the city from Ottawa on Saturday at 7:30 p.m. He was escorted to the palace on Church-street, where he remained until the reception. Mgr. Sbarretti will take part in the celebration attendant upon the opening of the addition to St. Michael's College and the fifth anniversary of its inception.

An impressive procession left the palace at 3:30 o'clock yesterday and proceeded to the cathedral. The Christian Brothers were in the lead, followed by the acolytes, about forty in number. Then came the priests of the diocese, among whom were Rev. Dr. Treacy, Rev. Father Walsh, secretary to the archbishop, and Rev. Fathers Hand, Rohleder, Murray, McCann, Williams, Canning and about twenty others. There were also the clergy from St. Michael's College, among them being Rev. Dr. Feely, principal, and Fathers Murray and Walsh. The papal delegate followed, escorted by Archbishop O'Connor, and the most distinguished members of the diocese. The party was received at the entrance by Vicar-General McCann. The priests advanced to the brilliantly illuminated altar, while the seating accommodation of the cathedral proved entirely insufficient for the immense audience.

Delivered the Papal Blessing.
The proceedings were begun with the solemn delivery of the papal blessing by Mgr. Sbarretti, after which Archbishop O'Connor presented addresses of welcome from the clergy and from the combined societies connected with the church. The archbishop spoke of the steadfastness of their people in Toronto, and of the love and veneration which was always displayed by them towards the head of the church, His Holiness Pope Leo XIII. He assured the papal delegate that as the representative of the Pope, he would be received with the deepest respect and esteem by all the adherents of the church in this country.

Mgr. Sbarretti responded briefly, saying that he was deeply affected by the sincerity of the welcome shown by the audience. The benediction was then pronounced, during which the choir rendered the anthem, "O Salutaris," by Wiegand, which the solo part was taken by Miss Foley. This was followed by the "Tantum Ergo," "Laudate Dominum" and "Agnus Dei" after which the gathering dispersed.

REVOLUTIONISTS WIN.
Government of Santo Domingo Overthrown—New One Formed.
San Domingo, Santo Domingo, April 22.—It was learned here to-day that the government forces at Barahona, San Pedro de Macoris and Selba have been overthrown in the northern part of the island, and the overthrow of President Vasquez is complete. A provisional government has been formed.

Art Students at Home.
There will be held on Thursday evening next, in the Art Galleries, 105 West King-street, by the students of the Ontario School of Art and Design, an art show, also an exhibition of their work done in the past season. This art show, which is a great success, as every effort is being made towards giving those holding invitations most jovial entertainment.

Fatal Wreck at Sudbury.
Ottawa, April 26.—The Winnipeg eastbound train was delayed 12 hours today by an accident about two miles east of Sudbury, at Markstay Station. A handcar plied down the obstruction, the engine ploughed into it, and was wrecked, with two cars. Engineer Barnhart of North Bay was killed. Mr. Meredith is in the city.

W. W. Puttee, M.P. (Winnipeg) will speak on the budget and will urge the I.C.R. be extended across the continent. He says the west is clamorous for such a policy, and believes that if the Conservative party adopted such a policy it would sweep the country next election.

DEATHS.
SMILEY—At 251 Dundas-avenue, Toronto on Wednesday, April 22nd, the wife of W. A. W. Smiley of a daughter.
DEATHS.

Archbishop Bruchesi, in Strong Terms, Assails International Trades Unionism.

Montreal, April 26.—(Special).—"They are the most dangerous foes of the people, whose interests they pretend to serve, and let not our laboring classes heed their suggestions, for they have absolutely nothing to gain."

The above remarks are to be found in a pastoral letter on the labor question from the Roman Catholic Archbishop of Montreal, the episcopal document being read this morning in all the churches of the diocese.

Local Unions Not Condemned.
It will be seen, in fact, from the extracts below, that while Mgr. Bruchesi does not condemn local unions, his Grace hits the international leaders and writers pretty hard. "The many strikes which have occurred of late," he says, "have been the result of the labor question and its attendant problems our most earnest consideration. Our own city seems to be on the verge of fresh labor conflicts. Employers and their men actually must trust each other, and, at any moment, the most serious incidents may take place, the most deplorable details of violence may be perpetrated. We should, therefore, be open to reproach if we do not give the faithful confided to our pastoral solicitude the advice which, in the present circumstances, necessitate."

Conflicts Between Capital and Labor.
After declaring that rich and poor, masters and servants, should live happily together in fraternal harmony, His Grace adds: "Consequently, dearly loved brethren, what responsibility is not incurred by those leaders and writers who profit by the slightest conflict between capital and labor, to foment discord, to excite rebellion, and to inspire workmen with hatred towards their employers? They are the most dangerous foes of the people, whose interests they pretend to serve. Let not our laboring classes heed their suggestions; they have absolutely nothing to gain, and are deceived by those false friends and urged on by them to commit the most lamentable acts, they will, on the contrary, forfeit public sympathy, with which they cannot dispense, and which this country of ours has never refused them."

Capitalists' Heavy Responsibility.
"It would be unreasonable," says His Grace, "to expect that the capitalists and manufacturers, to raise unduly the prices of articles of daily use, may be absolutely necessary, or simply useful to life, and that for the sole purpose of increasing their profits, without taking into consideration the undeserved privations which such an abusive exercise of power would impose on the working classes, and do not hesitate to declare that such proceedings would be an intolerable provocation, and, in fact, a negative of justice."

"If the poor are expected to accept the privations which are inseparable from their condition in life, without the rights of others and social order, not only is it important that they be not fraudulently overcharged, but capitalists and manufacturers should not deny them any of their rights. The duty of all is to give them a reasonable salary. What can be expected of a workman, who is most devoted to his work, but whose wages are less than the cost of his living? It is to say, a salary equivalent to the real value of his work, and of the current prices for the necessities of life?"

Long Hours Denounced.
"Likewise, would it be wrong to prolong the hours of the day, beyond the limits fixed by nature, the law of God and the exigencies of their health? It would be equally unjust to deprive the employes of the natural right which they enjoy, like all other citizens, to band themselves into organized organizations, provided that the rules and by-laws of such associations give their members a fair and equitable assistance and protection, and do not degenerate into violence or socialism."

French officials state freely that this visit marks a long step towards the re-establishment of the cordial relations

This Is Everybody's Store

But if we favor one kind of men more than another, it is those who want to dress well but haven't much to spend in clothes. We put our best efforts into getting clothes that are dressy and stylish, well made and serviceable, and yet low-priced. Look over our suits priced at from \$7.50 to \$10 and \$12 and you'll know what we mean.

FLASH OF LIGHT

The Coffee Factor Came to Her. Coffee is so often unappreciated in the work it does in the human body that illustrations of this kind are interesting.

"I could not get up any strength, and after dragging around half sick for some time I was sent off on a visit to see if the change would do me good. I soon began to feel better, and the end of three weeks felt perfectly well again."

"Before leaving I had a long talk with my friend as to the cause of my getting better. I had taken no medicine of any kind, and the food was about the same as at home. The coffee was particularly rich, strong and palatable. I commented her on the coffee, and she asked what kind she used. She told me 'Postum,' which I absolutely could not believe. I had enjoyed it so much, and it agreed with me so perfectly, but I had always had an idea that Postum Food Coffee was a flat-tasting, insipid drink and was only used by people who could not drink the old-fashioned coffee."

"My friend said she had been using Postum for two years because when she drank the old-fashioned coffee it kept her sick half the time. Then it dawned on me like a flash of light that the old-fashioned coffee was the cause of my trouble and sickness, and that leaving it off and drinking Postum for three weeks had made me well."

"When I went home I told mother of the change. She said how proud and fat I had grown and said: 'You can have Postum at home, we have a package in the house that I tried once, but it tasted so flat that I went back to the ordinary coffee.' So I said: 'Let me make it, Mrs. —' said it must be made according to directions and must be boiled at least 15 or 20 minutes after the boiling begins, and if we can make it as good as she does you will be astonished at it."

"Well she was astonished and from that time to this we have left the old-fashioned coffee off the table and used Postum together. Mother is better, my headaches and sick feelings have never returned. There is no doubt but that coffee is a poison to us and Postum is the cause of our comfort and health." Name given by Postum Company, Battle Creek, Mich.

Missionary Day in Anglican Churches

Attended by Many Well-Known Divines.

DEATH OF MRS. C. A. STARRETT

L.O.O.F. Attend Anniversary Church Service—To Get Good Roads—Happenings.

Hamilton, April 26.—There were so many Bishops in town to-day that to be on the safe side one had to dot his hat to about every other man he met. It was missionary day in the Anglican Churches, and that accounts for the influx. There were here the Bishop of Calgary, the Right Rev. James Pinkham, the Right Rev. Cyril Plinkham, the Right Rev. Stephen, Bishop of Montreal; Right Rev. Chas. Hamilton, Bishop of Ontario, besides other dignitaries, such as the general secretary of the M.S.C., then Bishop Dowling presiding, members of St. Lawrence Branch, C.M.B.A., as a fitting conclusion to the 40 hours' devotion.

L.O.O.F. Church Service.—The 84th anniversary of the Independent Order of Oddfellows was commemorated by a service in St. Thomas' Church, the preacher being Rev. E. J. Etherington. There was a large attendance of members. The offering was an aid to the aged Oddfellows' home fund.

John McKeever is in the tolls charged with assisting an robbery. It is said that he stopped a youngster named William Martin and took what money he had in his clothes. He will explain things to the magistrate Monday morning.

Death of Mrs. Starrett.—A death that will cause great sorrow in this city took place on Saturday night when Mrs. Annie Starrett, wife of C. A. Starrett of The Herald staff, passed away. She had not been feeling particularly well during the day, and when Mrs. McNeil and Gillies were called little could be done, and in less than an hour all was over. Apoplexy was the cause of death. Mrs. Starrett was born in Acton, and was 53 her 37th year. Her parents, Mr. and Mrs. W. C. Moore, reside in Toronto.

Deprecates Western Rush.—Winnipeg Man Says You Must Have Money if You Go.

While all eyes are turned towards the West, and only one song is sung concerning the possibilities of that unbounded expanse of rich, arable land, one is apt to doubt his ears when he hears a Westerner speak in derogatory terms of the new country. George May, who, with his wife and family, arrived in Toronto on Saturday, says that those who contemplate joining the rush from Ontario should be warned.

He says that it is no place for the man of small means. Living is far more expensive there than in Ontario, and wages are no better, bricklayers receiving 50 cents an hour, and carpenters \$3 a day, while rates have jumped to \$12 a month four years ago. Mr. May has been paying \$25.00, and the owners gave him notice of a further increase to \$25. Just now, the city is full of visitors who are unable to secure accommodation, and fancy prices are being offered for houses.

A settler has simple cash, he is wise in taking up land. Mr. May thinks, but the trouble has been that many of the immigrants realize they have no money at all, and they are, consequently, dependent upon the wages they earn during the harvest operations. When the harvest is over, the harvesters return to Winnipeg, and with living expenses beyond their slender means, they are soon in the position of newly-arrived immigrants—broke. Mr. May says that many of the settlers are ignorant of the fact that a failure of the crops would cause a stampee out as heavy as the rush that is now heading west. Mr. May will not return to Winnipeg.

FIRE AT DOMINION MINES.—Senator Cox last night received the following telegram from the manager of the Dominion Coal Company mines at Glace Bay, N.S., which speaks for itself.

"No fire in reserve mine. Ventilation restored; everything normal, but men not working today on account of influenza. At No. 1 bore hole, level shows water close to point where fire started. Much water known to be held back by falls, which will find its way down perhaps in sufficient quantities to cover fire. Necessary to go slowly in case this quantity grows enough to reach shaft. Impracticable to make further investigation than watch level of water in bore hole, and temperature at shaft. Will be several days before definite information can be given. Temperature is dropping, showing fire in all events inactive." "G. H. Duggan."

FOR A NEW PROTOCOL.—Washington, April 26.—Herbert W. Bowen, the Venezuelan Plenipotentiary, has drawn up a new protocol for the arbitration by the High Arbitration Tribunal of the question whether the blockading powers shall be entitled to interfere with the payment of their claims against Venezuela. This has been presented to Sir Michael Herbert, the British Ambassador, and copies have been furnished to the diplomatic representatives of Germany and Italy. According to the protocol, the Tribunal of Arbitration is to be appointed by the Czar of Russia, and will meet September 1.

FEAR THE MAFIA.—Newark, N. J., April 26.—Italians of this city, it is reported, have bought up all the second-hand guns and revolvers they could get during the past few days. They, it is said, have armed themselves, fearing the Mafia, to which they are referred to by the name of the Justice fund for the men held in New York in connection with the "barrel murder mystery."

Reconciliation Service.—A special service was held in St. Paul's Methodist Church, Avenue Road, last night, when Dr. John Burwash preached on the "Reconciliation of the warring classes of Victoria University." The Chancellor delivered the charge to the outgoing class of students, and Dr. Cairns conducted the devotional service. The entire faculty and about 150 students were present.

Delayed Ten Hours.—The collapse of the engine attached to the North Bay train due to arrive in Toronto at 2.45 o'clock last night, was responsible for a delay of ten hours. The express came to a standstill a short distance out of North Bay. The train was taken back to North Bay, and a new engine attached. It was 2.30 o'clock this morning before it arrived in the city.

AT THE THEATRES.

Princess — "The Holy City," Biblical play.

Grand — Adelaide Thurston in "At Cozy Corners."

Shaw — Aborn Stock Company, in "The Highwayman."

Star — "A Bohemian Beauty."

In the construction of the beautiful Biblical play "The Holy City," which will be presented at the Princess Theatre to-night, the author has followed very closely the facts, as stated in the Scriptures, and the many familiar and accepted legends pertaining to them.

The few liberties that have been taken are those necessary to avoid the necessity for the actual appearance of the character of the Saviour on the stage, and yet not so as to mar the continuity or beauty of the play itself.

The whole story, plot and action, have been treated with the delicacy and reverence that such a serious and holy subject demands. The theme of the play is the oft-told tale of the sinning Mary Magdalene, her repentance and conversion, and her Divine forgiveness by the Master himself.

At the Grand, the Aborn Stock Company, with new principals, will give "The Highwayman." So far only the best of praise and support has been accorded the organization, and it is promised that the audience this week will be just as hugely entertained and pleased. The cast includes Laura Millard, William Hermann West, Olive Thorne, Johnny Mayon, George Falkman, Colt Albertson and a number of other well-known performers, who are all distinctly suited in the roles they take. The opera itself is so well known and popular that it hardly needs description. The consummating and staging will be on the elaborate scale that has marked the Aborn productions thus far.

Something new will be offered at the Star in the musical comedy, "A Bohemian Beauty." The piece is altogether different from the usual run of attractions at this theatre, and is said to be superbly staged, filled with clever bits of wit, with lots of catchy music, and interpreted by a cast of real comedians, assisted by a large company of pretty girls. Pleasant specialties are introduced. There will be the usual opening performance this afternoon.

FUNERAL OF JUSTICE LOUNT.

Remains Will Be Taken to Barrie To-day for Interment.

The funeral arrangements for the late Justice Lount were completed on Saturday. There will be a service at the residence, 144 St. George street, at noon to-day, conducted by Canon Welch of St. James' Cathedral, and the remains will be taken to Barrie for interment, by the train leaving Toronto at 1:45 p. m.

The pall-bearers have been chosen, as follows: Sir William Mulock, Chief Justice Moss, Chief Justice Falconbridge, Justice Oiler, Justice MacMahon, G. P. Shepley, K. C., C. H. Ritchie, K. C., A. H. Marsh, K. C., and G. H. Watson, K. C.

REGRET AT OTTAWA.

Ottawa, April 25. — (Special.) — The news of the death of Mr. Justice Lount was heard in Ottawa with great regret. Mr. Lount, when an M.P., was a favorite with both sides of the house. It is said that Mahlon K. Cowan, K.C., the member for South Essex, will have the funeral of the position made vacant on the Supreme Court bench of Ontario. Mr. Cowan is an able lawyer, and has been of excellent service to the government. His appointment would meet with the approval of the bar of Ontario. He is in Toronto over Sunday.

CANADA'S CORN CROP.

Editor World: I see in one of your late issues that two Yankee vessels came thru the Welland Canal laden with corn. As this corn comes in free, permit me to say that it is a tangible proclamation to outsiders that Canada's agricultural resources are deficient in that respect. Those persons are not aware that the annual corn crop of Ontario alone is 14,000,000 bushels.

J. Mothersill.

REPAIRING YONGE STREET.

Editor World: Why are our main streets torn up on such a busy day as this?

Could this work not be done just as readily some other day?

These, and many other questions of the same sort and theme, are asked by the citizens as they traverse Yonge and King streets on Saturday afternoon and saw gangs of men tearing up the old and laying new asphalt pavement.

If there are no outlying streets that need repairs, and which could well be looked after on Saturday, it would seem better to allow the work to stand for a day or two and have it done when there are not quite so many people, both in the way of the workmen and of the inconvenienced.

Or, better still, such work on the busy downtown streets might be done at night, when traffic has almost ceased.

AT THE THEATRES.

Princess — "The Holy City," Biblical play.

Grand — Adelaide Thurston in "At Cozy Corners."

Shaw — Aborn Stock Company, in "The Highwayman."

Star — "A Bohemian Beauty."

In the construction of the beautiful Biblical play "The Holy City," which will be presented at the Princess Theatre to-night, the author has followed very closely the facts, as stated in the Scriptures, and the many familiar and accepted legends pertaining to them.

The few liberties that have been taken are those necessary to avoid the necessity for the actual appearance of the character of the Saviour on the stage, and yet not so as to mar the continuity or beauty of the play itself.

The whole story, plot and action, have been treated with the delicacy and reverence that such a serious and holy subject demands. The theme of the play is the oft-told tale of the sinning Mary Magdalene, her repentance and conversion, and her Divine forgiveness by the Master himself.

At the Grand, the Aborn Stock Company, with new principals, will give "The Highwayman." So far only the best of praise and support has been accorded the organization, and it is promised that the audience this week will be just as hugely entertained and pleased. The cast includes Laura Millard, William Hermann West, Olive Thorne, Johnny Mayon, George Falkman, Colt Albertson and a number of other well-known performers, who are all distinctly suited in the roles they take. The opera itself is so well known and popular that it hardly needs description. The consummating and staging will be on the elaborate scale that has marked the Aborn productions thus far.

Something new will be offered at the Star in the musical comedy, "A Bohemian Beauty." The piece is altogether different from the usual run of attractions at this theatre, and is said to be superbly staged, filled with clever bits of wit, with lots of catchy music, and interpreted by a cast of real comedians, assisted by a large company of pretty girls. Pleasant specialties are introduced. There will be the usual opening performance this afternoon.

FUNERAL OF JUSTICE LOUNT.

Remains Will Be Taken to Barrie To-day for Interment.

The funeral arrangements for the late Justice Lount were completed on Saturday. There will be a service at the residence, 144 St. George street, at noon to-day, conducted by Canon Welch of St. James' Cathedral, and the remains will be taken to Barrie for interment, by the train leaving Toronto at 1:45 p. m.

The pall-bearers have been chosen, as follows: Sir William Mulock, Chief Justice Moss, Chief Justice Falconbridge, Justice Oiler, Justice MacMahon, G. P. Shepley, K. C., C. H. Ritchie, K. C., A. H. Marsh, K. C., and G. H. Watson, K. C.

REGRET AT OTTAWA.

Ottawa, April 25. — (Special.) — The news of the death of Mr. Justice Lount was heard in Ottawa with great regret. Mr. Lount, when an M.P., was a favorite with both sides of the house. It is said that Mahlon K. Cowan, K.C., the member for South Essex, will have the funeral of the position made vacant on the Supreme Court bench of Ontario. Mr. Cowan is an able lawyer, and has been of excellent service to the government. His appointment would meet with the approval of the bar of Ontario. He is in Toronto over Sunday.

CANADA'S CORN CROP.

Editor World: I see in one of your late issues that two Yankee vessels came thru the Welland Canal laden with corn. As this corn comes in free, permit me to say that it is a tangible proclamation to outsiders that Canada's agricultural resources are deficient in that respect. Those persons are not aware that the annual corn crop of Ontario alone is 14,000,000 bushels.

REPAIRING YONGE STREET.

Editor World: Why are our main streets torn up on such a busy day as this?

Could this work not be done just as readily some other day?

These, and many other questions of the same sort and theme, are asked by the citizens as they traverse Yonge and King streets on Saturday afternoon and saw gangs of men tearing up the old and laying new asphalt pavement.

If there are no outlying streets that need repairs, and which could well be looked after on Saturday, it would seem better to allow the work to stand for a day or two and have it done when there are not quite so many people, both in the way of the workmen and of the inconvenienced.

Or, better still, such work on the busy downtown streets might be done at night, when traffic has almost ceased.

After Newspapers Now
Continued From Page 1.
and for which The World is to be asked to show cause, as follows:
"Charles Ritchie, K. C., with the aid of the paying clerk of the Ontario Bank and the books of that institution, tried for two hours yesterday afternoon to trace the \$3000 which R. R. Gamey obtained from Frank Sullivan and himself."
"The said newspaper is now produced and shown to me and marked Exhibit A, and the contents and alleged evidence are set forth in the first column on these pages, being the title page of said newspaper, and continued on the second column thereof and headed 'Starting Discoveries Made by Lawyers in Gamey Case.'"
"I, J. M. Passmore, reporter for The Evening Telegram, was the next witness."
"You are a reporter of The Telegram, and you have been taking a somewhat active interest in the prosecution of this case?—No, sir."
"Have you been writing the articles for The Telegram?—I have been writing some of them."
"Some of the summaries that have appeared there?—No, none of them."
"Just the evidence, The Daily Mirror articles?—Well, I have been writing some of the articles, but none of the evidence."
"And all your articles have been adverse to the defence?—I think not."
"Name one, and name your paper in which it makes a single article that was favorable to the defence?—Well, none, please, and I will get the paper.—The article that I have dictated recollection of now was the article of the 21st. I suppose that may be taken as a fair sample."
"Yes, the article of the 21st. What article was that, you say, please, and what it was about?—'Let the Facts Speak'; is that your article?"
"Is this your article, 'Frank Sullivan's Payment'?—Yes, sir."
"The Chancellor: Is that relevant to this?—Yes, My Lord."
"Witness: That was part."
"Where is the rest of your article?—I wrote that and sent it to the newspaper."
"Now you profess, then, to give a fair report of what Frank Sullivan said on that occasion. Did you?—As far as I could. That was the purport of his statement."
"I, J. M. McEvoy, sworn before me as the Commissioner, H.C.J., in the County of York this 25th day of April, 1935.
George C. Atkinson, H.C.J.
WHAT THE MAIL SAID.
The statements complained of in that newspaper are, without reading it, set forth on the first and second columns of the title page, which is referred to in the affidavit: 'Starting Discoveries Made by Lawyers in Gamey Case.'"
"Then the parts which you say convey the improper inferences are the contents of the article made by counsel for the prosecution at yesterday afternoon's session, out of bringing to light one of the most astounding surprises yet provided by the case, which has furnished the many sensational and incomprehensible developments during the past six weeks."
"The discovery was made by adjustment, and there was no time to follow it up, but it will be proved to the satisfaction of the court that the result will be the most direct corroboration yet offered of Mr. Gamey's charge that the amount of the bribe was derived from the very hands of a Minister of the Crown."
"Then they refer to a couple of hours being spent, and then in a further paragraph, and in somewhat heavier type, part of the further personal scrutiny, however, of the blank books, was made by counsel, and at a few minutes to 4 o'clock, it was found that the teller's blotter. It was found that on September 9th, one day before Mr. Gamey signed the letter to the Trust Company, in Mr. Aylesworth's office, and two days before the date on which he drew \$3000 on Ontario Bank bills were drawn by the Trust Company, and Sullivan, a cash payment of \$3000 was made on cheque."
"Reference to the supplementary book shows that there was one drawn by the Trusts and Guarantee Company, of 14 West King Street, of which James Robert Stratton is president."
"The next step in tracing this payment, after making the discovery a matter of court record, will be the production of the cheque. It will be the company's manager, Mr. T. F. Coffey, but most important of all, it will also bear upon its face the name of the individual or corporation to whom the money was paid. It will be found that the payment was one in no way traceable to any of the chief figures in this perplexing case, but until this is proven, the suspicion will undoubtedly furnish food for much speculation."
"Then the comment goes on to trace up these bills, the \$1500, and ends by a reference to Mr. Barwick, K.C."
"Mr. Johnston: We are, of course, entirely in the hands of Your Lordship. Your Lordship may, or may not, think it proper to direct that anything further should be done. We thought it proper to bring this matter before you, and we are to be advised accordingly. Whatever Your Lordship shall direct will be carried out, so far as we are concerned."
"The Chancellor: Does it appear before you today that this \$3000 has no connection with this matter?"
"Mr. Johnston: Yes, My Lord. And there was no reference whatever in the evidence to the Trust and Guarantee Company."
"The Chancellor: The proceeding would be by calling on The Mail and Empire to show cause. It is a matter that should be on an affidavit. I shall put in a supplementary affidavit."
"After consultation with Chief Justice Falconbridge, the Chancellor said: 'There is no direct that The Mail and Empire be called upon on Monday to show cause why they should not be committed for contempt for commenting on evidence which is in the course of being investigated, and which is incomplete, and interfering with the proper administration of justice.'"

THE DAY'S PROCEEDINGS
Bank Officials Testify as to \$1000 Bills.
Charles McGill, general manager of the Ontario Bank, was the first witness called by the prosecution on Saturday morning. Cross-examined by Mr. Ritchie, he said that he did not remember initiating any cheque for a thousand dollars or more in September last. It was the custom of W. H. Smith, the local manager, to initial cheques. Mr. McGill pledged his oath that he knew nothing of it at all. In answer to Mr. Riddell, the witness said that a most careful search had been made, but he had no knowledge whatever of such a payment. The bank had an agency in Sudbury, with a large circulation in that district. Re-examined by Mr. Ritchie as to whether, as the result of enquiries, some witness could find that any large sums—one hundred-dollar bills and fifty-dollar bills—had been paid out in September, Mr. McGill replied that the teller had not the vouchers, and that he couldn't get the information.
Bank Officials' Denials.
John McGill, manager of Queen-street Branch of the Ontario Bank, produced two bills of \$1000 of his bank, in which a record was made of all cheques issued on other banks and received from them. He knew nothing about any payment of fifties or hundreds out of his bank in September last. Thomas E. R. Yates, discounter clerk, assisted counsel in looking through the various entries in the books under his control in September last.
George R. Bartlett was the recalled, and said, in answer to Mr. Ritchie, that he had no knowledge or reason to believe that he paid out in the early part of September any sum of \$3000, or approximately, in one hundred-dollar bills and fifty-dollar bills.
REPORTER ON THE STAND.
Asked to Explain Interview With Frank Sullivan.
H. M. Passmore, reporter for The Evening Telegram, was the next witness.
"You are a reporter of The Telegram, and you have been taking a somewhat active interest in the prosecution of this case?—No, sir."
"Have you been writing the articles for The Telegram?—I have been writing some of them."
"Some of the summaries that have appeared there?—No, none of them."

CHARGE AGAINST THE MAIL.
Affidavit Which Embodies Accusation of Contempt.
E. F. B. Johnston brought the article published in The Mail and Empire before the commission by reading the following affidavit:
"In the matter of a Royal Commission, dated the 28th day of March, 1935, directed to the Hon. Sir John Alexander Ross, Knight, and the Hon. William Glenholme Falconbridge, authorizing them to enquire into certain charges of bribery or attempts to bribe."
"I, John Millar Murray of the City of Toronto, make oath and say:
"I am acting as solicitor for the parties charged herein, and also acting as junior counsel in the present matter."
"On the 25th day of April, 1935, and whilst the proceedings before the said Royal Commission were in progress, The Daily Mirror and Empire of date 25th of April, 1935, a newspaper published at the City of Toronto, untruthfully and improperly published certain comments and certain alleged evidence touching and concerning the matters herein."
"The evidence given by the said newspaper as evidence before the said Royal Commission was, so far as I am able to discover, in fact so given, and there is no reference in the notes of evidence taken by the official stenographers to any of the articles which James Robert Stratton is president."
"I believe that the publication of said comments and alleged evidence was made for the purpose of injuring the said Stratton and interfering with and prejudicing his rights in this investigation."
"The said newspaper is now produced and shown to me and marked Exhibit A, and the contents and alleged evidence are set forth in the first column on these pages, being the title page of said newspaper, and continued on the second column thereof and headed 'Starting Discoveries Made by Lawyers in Gamey Case.'"

"The Chancellor: Does it appear before you today that this \$3000 has no connection with this matter?"
"Mr. Johnston: Yes, My Lord. And there was no reference whatever in the evidence to the Trust and Guarantee Company."
"The Chancellor: The proceeding would be by calling on The Mail and Empire to show cause. It is a matter that should be on an affidavit. I shall put in a supplementary affidavit."
"After consultation with Chief Justice Falconbridge, the Chancellor said: 'There is no direct that The Mail and Empire be called upon on Monday to show cause why they should not be committed for contempt for commenting on evidence which is in the course of being investigated, and which is incomplete, and interfering with the proper administration of justice.'"

REPORTER ON THE STAND.
Asked to Explain Interview With Frank Sullivan.
H. M. Passmore, reporter for The Evening Telegram, was the next witness.
"You are a reporter of The Telegram, and you have been taking a somewhat active interest in the prosecution of this case?—No, sir."
"Have you been writing the articles for The Telegram?—I have been writing some of them."
"Some of the summaries that have appeared there?—No, none of them."
"Just the evidence, The Daily Mirror articles?—Well, I have been writing some of the articles, but none of the evidence."
"And all your articles have been adverse to the defence?—I think not."
"Name one, and name your paper in which it makes a single article that was favorable to the defence?—Well, none, please, and I will get the paper.—The article that I have dictated recollection of now was the article of the 21st. I suppose that may be taken as a fair sample."
"Yes, the article of the 21st. What article was that, you say, please, and what it was about?—'Let the Facts Speak'; is that your article?"
"Is this your article, 'Frank Sullivan's Payment'?—Yes, sir."
"The Chancellor: Is that relevant to this?—Yes, My Lord."
"Witness: That was part."
"Where is the rest of your article?—I wrote that and sent it to the newspaper."
"Now you profess, then, to give a fair report of what Frank Sullivan said on that occasion. Did you?—As far as I could. That was the purport of his statement."
"I, J. M. McEvoy, sworn before me as the Commissioner, H.C.J., in the County of York this 25th day of April, 1935.
George C. Atkinson, H.C.J.
WHAT THE MAIL SAID.
The statements complained of in that newspaper are, without reading it, set forth on the first and second columns of the title page, which is referred to in the affidavit: 'Starting Discoveries Made by Lawyers in Gamey Case.'"
"Then the parts which you say convey the improper inferences are the contents of the article made by counsel for the prosecution at yesterday afternoon's session, out of bringing to light one of the most astounding surprises yet provided by the case, which has furnished the many sensational and incomprehensible developments during the past six weeks."
"The discovery was made by adjustment, and there was no time to follow it up, but it will be proved to the satisfaction of the court that the result will be the most direct corroboration yet offered of Mr. Gamey's charge that the amount of the bribe was derived from the very hands of a Minister of the Crown."
"Then they refer to a couple of hours being spent, and then in a further paragraph, and in somewhat heavier type, part of the further personal scrutiny, however, of the blank books, was made by counsel, and at a few minutes to 4 o'clock, it was found that the teller's blotter. It was found that on September 9th, one day before Mr. Gamey signed the letter to the Trust Company, in Mr. Aylesworth's office, and two days before the date on which he drew \$3000 on Ontario Bank bills were drawn by the Trust Company, and Sullivan, a cash payment of \$3000 was made on cheque."
"Reference to the supplementary book shows that there was one drawn by the Trusts and Guarantee Company, of 14 West King Street, of which James Robert Stratton is president."
"The next step in tracing this payment, after making the discovery a matter of court record, will be the production of the cheque. It will be the company's manager, Mr. T. F. Coffey, but most important of all, it will also bear upon its face the name of the individual or corporation to whom the money was paid. It will be found that the payment was one in no way traceable to any of the chief figures in this perplexing case, but until this is proven, the suspicion will undoubtedly furnish food for much speculation."
"Then the comment goes on to trace up these bills, the \$1500, and ends by a reference to Mr. Barwick, K.C."
"Mr. Johnston: We are, of course, entirely in the hands of Your Lordship. Your Lordship may, or may not, think it proper to direct that anything further should be done. We thought it proper to bring this matter before you, and we are to be advised accordingly. Whatever Your Lordship shall direct will be carried out, so far as we are concerned."
"The Chancellor: Does it appear before you today that this \$3000 has no connection with this matter?"
"Mr. Johnston: Yes, My Lord. And there was no reference whatever in the evidence to the Trust and Guarantee Company."
"The Chancellor: The proceeding would be by calling on The Mail and Empire to show cause. It is a matter that should be on an affidavit. I shall put in a supplementary affidavit."
"After consultation with Chief Justice Falconbridge, the Chancellor said: 'There is no direct that The Mail and Empire be called upon on Monday to show cause why they should not be committed for contempt for commenting on evidence which is in the course of being investigated, and which is incomplete, and interfering with the proper administration of justice.'"

Having strong objections to using my patients' names in print I substitute dash for signature in the above letter. But at my office I can show you thousands of originals of the same purport. The reason of my success is plain—for 35 years I have made diagnoses of men my specialty. The experience I have thus gained is not equalled by any other specialist in my line. I am honestly proud of having made thousands of strong, vigorous, happy men out of poor, helpless wrecks. This I am still doing, and more of it than ever. A little time ago I made the discovery that electric currents cured such diseases as Drains, Losses, Impotency, Varicose, Exhaustion, etc., after all known remedies had failed. I then invented my world-famed DR. SANDEN ELECTRIC BELT. Every man to-day knows of it and knows that electricity properly used—both mind, I am properly used—will cure these distressing diseases. The witness was inclined to doubt it. Sullivan was smiling at the time, but the smile went off his face when the witness asked: "You did bet? I did."
PROSECUTION CLOSED.
Mr. Johnston Complains of Producing Witnesses for "Other Side."
Mr. Johnston called attention to the fact that the solicitor for the prosecution had delivered a letter to his office late last night, asking him to produce some witnesses. He had no time to do so at that late hour. Mr. Wilson was some distance away from the city, and he (Mr. Johnston) was tired of producing witnesses for the other side. After the luncheon he had had, Mr. Barwick was again recalled, and made explanations to Mr. Riddell and Mr. Ritchie as to the various points mentioned in the fact that Sullivan had been enquiring. After a discussion between Messrs. Blake, Johnston and the Chancellor in regard to the evidence of evidence of additional witnesses, Mr. Blake said that the prosecution side of the case was closed.

"The said newspaper is now produced and shown to me and marked Exhibit A, and the contents and alleged evidence are set forth in the first column on these pages, being the title page of said newspaper, and continued on the second column thereof and headed 'Starting Discoveries Made by Lawyers in Gamey Case.'"

ALONG THE WATERFRONT

"I am glad to see The World taking up the question of better fire protection along the waterfront," said a well-known marine man on Saturday. "At present there is no feeling where a fire could be stopped if it once got in around the shipyards at the foot of Bathurst street, and in that locality generally. Not that the fault would be with the fire department, but it would be hard to get sufficient water. Toronto has an extended waterfront that is building up rapidly. There are docks, steamers and vessels, big coal yards, shipyards, factories, warehouses, and the like, scattered all along the Esplanade and the bay front. In case of fire, there is only the water service from the city mains, and a fire can only be fought from the one side. Take the lake cities of importance, for instance, and a fire tug is one of the valuable parts of the equipment of the fire department. Buffalo, for instance, has three for the protection of her valuable marine interests. The last one was put into commission quite recently, and it is just such a tug that Toronto ought to have. The Grattan, as it is called, is one of the largest and most powerful fire boats in the world, and cost about \$100,000. Of course, Toronto could get along with a less expensive one, but the Grattan is remarkable because of her capacity for winter work. As an ice-breaker the tug has no superior on the Great Lakes, and 20 inches of solid ice is no more a bar to her than a crust of snow. Built of steel, with an armor 1 1/2 inches thick, and propelled by two 20-hp high pressure engines, with an aggregate of 800 horse power, she cuts thru the frozen channels, leaving a mass of crushed and broken ice which would be a little obstacle to the smallest craft. She is 118 feet over all, with 106 feet 9 inches on the water line. For fire fighting she has a main water pipe capable of setting 3 1/2-inch streams a distance of 800 feet from three 12-inch pumps. She is capable of pouring 11,000 gallons of water a minute onto a fire. It seems to me that if this city invested a few thousand dollars in a good fire tug the money would be regarded as well spent some day."

To Repair the Wharves.

At last, the Board of Control has made up its mind. The patchwork policy with regard to Geddes' Wharf has been declared "no go." The wharf will be rebuilt from the waterline where necessary. This will occupy some time, but the men will be taken off the Bay-street cribwork once again, and work will begin in earnest on Geddes' Wharf to-day.

Band at the Island.

Yesterday about five thousand persons took advantage of the increased accommodation given by the Ferry Company, and visited the Island City's summer recreation spot, which is looking in first-rate condition. A concert was given by the Q. Q. R. Band.

The Steamer Shamrock went into commission on Saturday, and was joined yesterday by the Mayflower.

twenty-minute service was given. Commencing with Thursday next, a daily 40-minute service will be given, leaving Yonge-street Wharf from 7 o'clock a. m. to 7 o'clock p. m. Next Sunday, the Frimidge will join the boats already running, and, after 1 o'clock p. m., a 15-minute service will be given to Hamilton's, and a 20-minute service to the regular service to Ward's will be in-Saturday.

Capt. D. Enright was in town on Saturday. His boat, the Garden City, is lying at St. Catharines, and will make its first trip on May 24. It is hinted that his mission had to do with the employment of cooks and waiting-maids, and that the gallant captain was beset by so many good-looking applicants that he was at a loss to make any appointments.

The steamer India and the schooner Burmah did not clear as early as expected, and did not get away till Saturday. The Calvin and the Ceylon will not leave till Wednesday.

The Van Allen and St. Joe finished unloading on Saturday, and cleared for Fair Haven and Oswego, respectively.

Corn Arriving at Kingston.

Kingston, April 26.—During the past two days 220,000 bushels of corn have come from Chicago to the M. T. Co. elevator here. Mr. Henderson states that this is only the beginning of the Canadian corn crop from this season.

The steamer Rideau King starts on May 4. Her officers this season will be: Captain, Edward Fleming; mate, William Scott; first engineer, Thomas Simmonds; second engineer, William Warr; purser, F. Lawrence. It will be June 15 before the steamer Queen begins her season's trips. Her officers will be: Captain, William Fleming; mate, Lake Dependence; second engineer, Thomas Simmonds; second engineer, George Shannon; purser, George Stankovic.

Steamboat Officers.

The following are the officers of the steamers of the Thousand Island and St. Lawrence River Steamboat Company for the season of 1903:

New York — Captain, George R. Brown; mate, Captain H. W. Bates; purser, Prof. A. W. McPherson; chief engineer, John Dickson; assistant engineer, Barney Farrell; steward, A. P. Foreman; electrician, N. W. Collins; New Island Wanderer — Capt. W. C. Hudson; mate, Captain James Pappas; purser, R. B. Davis; engineer, Nicholas Larson.

Islander — Captain R. H. Carnegie; mate, Capt. S. A. Reed; engineer, not yet appointed; purser, C. J. Lewis.

erland on Thursday last. During this interview, which was only of about one-half hour's duration, the matters pertaining to the harbor were, as far as possible, discussed in detail. The question of the construction of the new wharf was broached by the members of the council, while, on the other hand, Mr. Long and Mr. McCarty assured that there was no diversion from the work of improving the channel and the inner harbor. The aldermen assured the minister that they had no desire whatever to have the dredging and drilling cease, but they endeavored to point out that the proposed wharf might be largely constructed by using the material taken from the channel. From what can be learned from the members of the deputation, the minister gave no assurance, other than that the matter would be considered. The deputation also waited upon Hon. R. Prefontaine, Minister of Marine and Fisheries, and successfully urged upon him the necessity of having a gap barge placed on the Lockport Rock, a dangerous and hitherto unmarked obstruction in the entrance to the outer harbor. The Deputy Minister, Mr. Goss, assured the deputation that the "gap" would be placed within a month. Some discussion also took place regarding the advisability of having a similar barge placed on Lone Rock, but, as the town was not directly interested in this matter, it was not pressed.

Capt. "Jim" Wilson, the Grand President of the C.A.M.M., who, last season, pulled the bell on the "Germantown" as new commodore of the Collingwood fleet, and pulls the bell on the big City of Toronto, was a member of the deputation. The ferry steamer Masopha of the

Toronto Ferry Company's fleet, formerly owned and operated at Owen Sound by Mr. McLaughlin, has been chartered by Marks & Wiley of Port Arthur, and was to have left Toronto on Saturday. The steamer, however, was delayed, and it will leave some time this week. The Masopha will be used as a ferry steamer, carrying the heavy crabs, and will be captured seventeen trap nets between Owen Sound and Penetang.

The trap-net fishers in Georgian Bay have begun their work early and vigorously this season. The captain of the heavy crabs, Mr. J. J. Smith, captured seventeen trap nets between Owen Sound and Penetang.

Chicago, April 26.—The steamer Charles M. Warner, built for the United States Transportation Company of Syracuse, N.Y., by the Chicago Ship-building Company, at a cost of \$250,000, was launched Saturday. The warner is one of the twelve steel freight steamers, six of which have been built. The steamer is 330 feet long, its capacity is 5500 tons of ore, 6000 tons of coal, and 200,000 bushels of grain.

AT OSAGEO HALL.

The argument in Centaur Cycle Company v. Hill was concluded on Friday and judgment reserved. The case of Medier v. City of Toronto has been placed at the foot of the list, and the preliminary list for today is as follows: Armstrong v. Lancashire Insurance Co., for \$1000; W. G. E. D. St. Marie v. St. Marie, for \$1000; St. Marie v. St. Marie, for \$1000.

Division Court.

Judge Morson on Saturday gave judgment against Miss Kennedy in the action brought by her against the Young street dressmaker, to recover \$30. The value of a dress which was alleged to have been destroyed by the dressmaker was referred to an expert, who found that the garment was satisfactorily made, and accordingly no judgment was given with costs.

An overhanging tenancy case was also decided by Judge Morson. Charles Deverell rented the premises at 113 Augusta-avenue from Mrs. Charlotte Deverell. The lease expired on the 15th, and a dispute arose over the notice given to quit. Mrs. Morris had leased the house to a Mrs. Williamson, who in turn had given notice to quit. The court decided that the tenant must give up possession within a few days.

FUNERAL OF WILLIAM MCGABE.

There was a large turnout Saturday afternoon of the professional and financial men of the city at the funeral of the late William McGabe, managing director of the North American Life Assurance Company. The members of the Commercial Travellers' Association attended in a body, and also the staff of the North American and Imperial Life Assurance Companies. The interment took place at Mount Pleasant Cemetery.

"B.-P." AT WEST POINT.

West Point, N. Y., April 26.—Major-General Robert S. Baden-Powell, the hero of Mafeking, visited the Military Academy today. A salute was fired in his honor, and, after witnessing an exhibition cavalry drill, the general was escorted thru the post by the Academy Band.

Several Doctors Attended But Did No Good.

Milburn's Heart and Nerve Pills CURED.

Read what Miss L. L. Hanson, Waterbury, N.Y., says: "I feel it my duty to express the benefit I have received from Milburn's Heart and Nerve Pills. A year ago last spring I began to have heart trouble, and first I would have to stop working and lie down for a while. Then I got so bad I had to give up altogether and go to bed. I had several doctors attend me but they did me no good. I could get no relief until urged by a friend to try Milburn's Heart and Nerve Pills. Before I had used three quarters of a box I began to feel the benefit and by the time I had taken three boxes I was completely cured."

Milburn's Heart and Nerve Pills cure nervousness, sleeplessness, palpitation of the heart, fits, and all troubles arising from the heart or nerves.

Price 50 cts. box, or 3 for \$1.25, all dealers.

A. F. of L. Executive Will Strengthen Hands of Dominion Labor Congress.

Owing to the large amount of business to be transacted, the Executive Council of the A. F. of L. were unable to complete their session on Saturday, as was expected, and will continue at the Arlington Hotel to-day, and possibly to-morrow. President Gompers is not expected to remain, Vice-President Duncan taking his place. Last week sixty-five representatives from international organizations appeared with grievances before the Executive Council.

The most important matter discussed Saturday, as regards Canadian labor interests, is noted in this decision of the Executive Council:

Must Affiliate With Congress.

"In the matter of the resolution adopted by the Trades and Labor Congress of Canada, held at Berlin, to submit to the American Federation of Labor the advisability of the Congress chartering the Trades and Labor Council of Canada for distinctly legislative purposes, and also for the chartering of federal labor unions, conference of the Trades and Labor Council of the Congress, and the request for the chartering of federal labor unions was withdrawn. The Executive Council, therefore, declares as follows:

"That the A. F. of L. will make it a qualification of issuing charters to Trades and Labor Councils in Canada that they will affiliate with the Trades and Labor Congress, and central bodies through the Dominion now holding A. F. of L. charters will be instructed to take the necessary steps to secure the adoption of a favorable legislation for the members of the federal and provincial parliaments."

Other Business Considered.

William R. Boyce of the Broom Makers' International Union made application for extension of the jurisdiction of his organization, and to be known as the Broom and Brush Makers' International Union. J. T. Dobson of the International Union of Steam Fitters and Boilermakers requested the Council not to grant a charter to the Home Masons' International Union, inasmuch as his organization claims jurisdiction over that trade, and the question of affiliating the Bricklayers' and Masons' International Union is now being voted upon. The request was complied with. James O'Neill, president of the International Brotherhood of Steam Shovel, Dredgesmen, Druggists, Firemen and Plumbers, applied for charter for that organization. Messrs. Lighthall and McKee, president and secretary of the International Union of Steam Engineers, asked for the endorsement of the A. F. of L. for their union emblem. It was granted. W. C. Clark of the Blast Furnacemen asked for advice and assistance to further extend and protect the organization, which was approved. Messrs. Wheeler, Pratt and Curtin of the Sheet Metal Workers' Alliance desired further action on the part of the Executive Council to aid in the adjustment of the contest now existing in the trade in Chicago, as well as in the solution of the difficulty which

Heat Conservation

A hot oven and a cool kitchen is what every housewife is looking for this summer. It is absolutely impossible with a coal range, and almost as impossible with the ordinary gas range.

Improved Oxford Gas Range

makes a hot oven and a cool kitchen a practical certainty. The oven is lined with asbestos—this keeps the heat in and leaves the kitchen cool. It also heats the oven more quickly to a higher degree and with less gas than any other range. The illustration shows that immediately outside an oven hot enough to cook a roast it is comfortably cool.

We would like to show you this and many other improvements peculiar to the Oxford Gas Range. Won't you call at one of our agencies? We can prove to you that this range does away with kitchen drudgery. If you can't call, write for our leaflet—it will interest every housewife.

INDURATED FIBRE WARE

One of the most novel and also important of The Edgy Fibre Company's industries, destroyed by the great fire in the spring of 1900 was their Indurated Fibre Factory, which, at that time, was turning out all sizes of Tubs, Pails, Wash Basins, etc.

All of their other mills were quickly rebuilt on a larger scale than ever before. The Indurated Fibreware Factory has, however, just resumed operations, but is now turning out better goods, in greater number, than ever, by the new and improved processes, by which the ware is made, it is vastly superior to anything else of the kind on the market.

The reputation of the Edgy Fibreware was well established in Canada before the fire, so it will now rapidly take the place of the ordinary wooden Fibrelines and determine the general use. The new factory is already taxed to its limit to supply the demand. This ware being light, strong and durable, as well as handsome in appearance, its superiority is at once apparent, and, to those of our readers who have not used it, we would say, give it a trial.

FILE FIGHTER KILLED.

Columbus, O., April 26.—Fire early to-day destroyed the Bronson, Union and Courtwright buildings in the business centre of the city, and damaged the Nicholas building, entailing losses that will aggregate about \$200,000. Fire Capt. Daniel Lewis was caught under a falling wall and killed. His body supposed to have been cremated in the ruins.

ME, LOOK HERE.

DO YOU SUFFER FROM LOST STRENGTH

Nervous Debility, Varicocele, Early Decay and Waste of Power? They are Quickly and Forever Cured by the Grand Product of Nature,

DR. McLAUGHLIN'S ELECTRIC BELT

Electric Suspensory Free With Belts for Weak Men.

This Suspensory is made for the purpose of treating all special ailments of men, and assures a cure of waste of strength, early decay and debility. Its current is invigorating and wonderful in power. I can give back to any man what he has lost by violation of the laws of nature. I can stop all drains upon his vitality in ten days. Power which has been lost for years can be restored in a few months.

PHILIP WHITNEY, Hintonburg, Ont., wrote me the other day: "I have only worn the Belt for about one month, the drains have stopped, that burning sensation has disappeared, I have gained in weight. No money could buy my Belt if I had it."

No man should suffer the loss of that vital element which renders life worth living; no man should allow himself to become less a man than nature intended him; no man should suffer for the sins of his youth.

Most of the pains, most of the weakness of stomach, heart, brain and nerves, from which men suffer, are due to an early loss of Nature's reserve power through mistakes of youth. You need not suffer this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

My Electric Belt, with special Electric Suspensory (free), will restore your power. It will check all the unnatural drains and give back the old vigor of youth.

The drain upon your power causes kidney trouble, rheumatism and stomach ailments. You know it is a loss of vital power, and affects every organ of the body. Most of the ailments from which men suffer can be traced to it.

I have cured thousands of men who have squandered the savings of years in useless doctoring.

My Belt is easy to use; put it on when you go to bed; you feel the glowing heat from it (no smoking or hot water) and you feel the nerves tingle with new life flowing into them. You get up feeling refreshed, with the vigor of youth returning to you.

I don't ask you to take my unsupported word as to what my Belt will do. Tell me where you live and I will give you the name of a man in your own town I have cured. When your neighbor tells you Dr. McLaughlin's Electric Belt cured him, will you then believe I can cure you?

My Cures Prove the Truth of My Arguments:

NORMAN CARMICHAEL, Carleton Place, Ont.—I now feel far stronger and better than I did before wearing your Belt. I consider that I am completely built up, and feel strong and healthy in every way.

H. M. PATTERSON, Southville, Ont.—You must excuse me for not writing before, as I have been very busy. I am getting along nicely. The varicocele has disappeared, and the parts are regaining their proper size.

JOHN KELLY, Holland Landing, Ont.—Your Belt has cured me of rheumatism. It is just the thing for this trouble. I was so bad that I could not feel my own stock nor raise my hand to my head. I don't feel anything of this now.

WM. J. THOMPSON, Oshawa, Ont.—I have been wearing one of your Belts for about thirty days, and feel more than pleased with it. I do not feel any of the usual aches and pains, and have none of that tired feeling after my day's work is done. Thanking you for your good advice.

HENRY ARMSTRONG, Galesburg, Ont.—I am happy to say that the losses have stopped completely, and the varicocele has disappeared. I have just worn the Belt for thirty days.

A. McORMICK, Copper Cliff, Ont.—It is now thirty days since I began using your Belt, and I find a great improvement from its use. I sleep soundly every night, something I did not need to do, and my appetite is very good. I have not had a loss for over two weeks. Thanking you from the bottom of my heart, and wishing you every prosperity in the future.

DR. McLAUGHLIN'S OFFER.

The proposition I make is a fair one, and should remove all doubt as to its ability to cure all forms of weakness in men and women. I take the chances myself. If my Belt should fail you have the satisfaction of knowing that the strongest and best electric appliance in the world has failed. All I ask of any man or woman is that, if they offer me reasonable security, they can

READ WITH CARE! Every patient wearing Dr. McLaughlin's Electric Belt receives FREE, until cured, the advice of a physician who understands his case.

Nothing better illustrates the fact that New York stocks have arrived at new heights than the action of the market during the past two weeks. The upward tendency of the market has been so pronounced that it has given rise to a widespread feeling of confidence in the future of the market. This feeling is well founded, and it is not surprising that the market has advanced so far. The public has been lulled into a false sense of security, and it is only now that they are beginning to realize the danger of a sharp decline. The market is now in a state of uncertainty, and it is difficult to see how far it will go.

At Boston to-day Dominion Coal closed 2 1/2% and asked 2 3/4%. Metro, inquiry adjourned till Wednesday. Threshed barley, among Great Northern, 13 1/2%. Threshed roads for March average net increase 45.56 per cent.

J. L. Campbell & Co.'s London cable to-day quoted Hindustan 10 1/2% and 10 3/4%. Parker & Co.'s London cable quoted Hindustan 10 1/2% and 10 3/4%. The New York Times has a despatch from Austin stating that R.I. is about to buy Mexico Central.
