

Good Things Coming to Theatres of St. John

ONE OF THE NEATEST ACTS IN VAUDEVILLE AT THE LYRIC, ALSO MYSTERY OF THE DOUBLE CROSS

Have you seen the act Cecil and Bernice are offering at the Lyric, "The Little Dandy and the Girl"? It is one of the most entertaining imaginable. Original comedy coupled with bright new songs; also "Mystery of the Double Cross" and other subjects.

AT THE GAITEY A splendidly selected programme will be shown at the Gaiety in Fairville to night and Saturday. See advertisement in amusement column for full particulars. The matinee Saturday will start at 2.30, when the children will have an opportunity of seeing a very fine programme.

SOUTH-WEST AFRICA MUST BE RETAINED

Instead of a Desert it is a Land of Opportunity—Views of Delegation

Cape Town, Aug. 10.—A despatch from Windhoek, Southwest Africa, says: The party of Union parliamentarians who, under the aegis of Sir T. Watt, member for Natal, are making a tour of Southwest Africa, have been agreeably surprised at the prospects of this protectorate. Sir T. Watt, in the course of a public speech here on Saturday, said that the delegation came to Southwest Africa expecting to find it a desert, but that they had found good land, wonderful grasses, a great deal of fine vegetation, besides fat cattle, splendid horses and first-class sheep. And they had gained the impression that the country only required money and energy, under British occupation, to make it a land flowing with milk and money. He paid a tribute to the administrator who, he said, had established British overland justice to all races, irrespective of color. He emphasized that Southwest Africa must be retained in order not to give the Germans a jumping-off place.

HORSE THIEF, CHASED FROM WOODSTOCK, WAS CAUGHT AT FAIRVILLE

A chase for a horse thief, which began at Woodstock terminated at Fairville last night, the thief being arrested there by Policeman Stinson on instructions telephoned from Fredericton by Sheriff J. B. Hawthorne. This morning the man, who had stolen the horse and buggy from J. W. Gallagher, of Woodstock, was taken back to Woodstock by Sheriff Albion R. Foster, of Carleton county. The horse and buggy will be sent back by freight. The prisoner gave his name as Harry Carter, of Halifax, and said that he was a book agent. On Monday morning, last, Carter hired a bay mare and buggy from J. W. Gallagher, livery stable keeper of Woodstock, to drive six miles out of town, and he paid for the horse at the time. He did not come back on Monday and on Tuesday Mr. Gallagher began to look around and notified Sheriff Foster. The latter telephoned Houlton and other towns without getting any trace of the man wanted, but, on Wednesday, learned that a horse and buggy had passed through Hawke-shaw on their way toward Fredericton. Efforts to locate the thief failed, however, and yesterday Mr. Gallagher, Sheriff Foster and Deputy Sheriff Moore left Woodstock by motor in pursuit. At French Village they learned that the man had passed through. In the meantime Sheriff Hawthorne of Fredericton had been notified of the theft, and learned that the man wanted had spent Monday night at the Riverside Hotel, Devon, and that the horse had been taken to the stable in the same town. The man had got away, however, before Sheriff Hawthorne was notified that he was wanted, and there was no other trace of him in that section. The telephone was again called into action and last night word was received from Fairville that the man was there and had attempted to sell the horse and buggy at Reed's livery stable, where they then were. The arrangement made, that Carter was to return to the stable at eight o'clock last night to get \$125 for the animal and carriage. He fell into the trap and was arrested. Sheriffs Hawthorne and Foster went to Fairville by rail last night and got their man. Mr. Gallagher and Deputy Sheriff Moore returned to Woodstock. Carter admitted stealing the horse and carriage. He appeared to be about twenty years of age. When arrested he had only seventy-five cents in his pocket.

SHOT HERSELF IN A DREAM

Pittsburg, Aug. 10.—Acting, it is believed, under the spell of a dream, Miss May Wilson, twenty-five, shot herself in the head, dying instantly, early today, in her home in Edgewood. Miss Wilson and her father, James R. Wilson, occupied the house alone, and the daughter kept a revolver under her pillow. No one heard the shot, and the tragedy was not discovered till noon, when Mr. Wilson entered his daughter's room. In her nightgown, she lay dead on the bed, the revolver containing one empty shell, beside her. Relatives of Miss Wilson said she was of a sunny disposition, had excellent health and had no trouble. She often told of strange dreams that affected her powerfully, they said, and they expressed conviction that, under the stress of a dream, she shot herself.

Too Much Food in Summer means clogged liver and sluggish brain; too little food means flabby muscles and starved nerves.

The man on the job must keep his brain clear and his muscles responsive. The way to do this is to eat Shredded Wheat Biscuit, the food that contains everything in the whole wheat grain prepared in a digestible form, including the outer bran coat which is so useful in keeping the alimentary canal clean and healthy. Two or three of these crisp, little brown loaves of whole wheat with milk make a nourishing, strengthening meal. Ready-cooked and ready-to-serve. Made in Canada.

SON OF S. H. DAVIS IS VICTIM OF GAS

S. H. Davis of the carpet department of M. R. A. Limited, German street, received official word this morning that his son, Lance-Corporal Kenneth S. Davis, signaller, with a Nova Scotia regiment, had been admitted to a clearing station in France suffering from the effects of gas poisoning. Signaller Davis was a well known St. John boy and, while in St. John, had been employed in the Bank of Nova Scotia in Charlotte street. Several years ago he was transferred to Nova Scotia where he was at the time he enlisted. Another brother, A. W. Davis, is also at present in France and not far from his brother. There were no particulars in the despatch this morning but his many friends in the city and elsewhere will hope that his recovery will be rapid and complete.

CANADIANS TO MAINE TO HELP GET CROP

Bangor Commercial—Through the efforts of Senator Hale, Governor Milliken and the Bangor & Aroostook Railroad the United States department of labor has agreed to waive for a temporary period the requirements of the "immigrant law" for the purpose of enabling Canadian laborers to come into the state of Maine and help harvest Maine's gigantic potato crop. This is one of the most radical steps taken by the government since the war, but it also gives promise of being one of the most beneficial, for it will probably mean the salvation of the crop the nation needs so much to help in the fight against Germany and world famine. Headquarters for the officials in charge of the work of passing Canadian laborers over the border will be in the Bangor Federal building, and they will be branches at all the official ports of entry, Eastport, Calais, Vanceboro, Fort Kent, Fort Fairfield, Van Buren, Houlton, Madawaska and Jackman.

KERENSKY'S HEALTH WORRIES HIS FRIENDS

London, Aug. 10.—The health of Alexander F. Kerensky, Russian minister of the hour, is a matter of grave concern to his friends and associates, according to members of an English delegation which has just returned from Petrograd. Premier Kerensky's health was none too good when he took office, and the strain of even duty has been constant. His tremendous will power and nervous energy have kept him going so long. Those who have seen the brilliant Russian leader in the last few weeks describe his face as being haggard and drawn, his figure emaciated, his voice hoarse and without but speech marred by frequent coughing, and his eyes brilliant, but not with the brilliance of ruddy health. The premier's whole appearance unmistakably shows the effect of the enormous work required of him every two or three hours and the heavy responsibility and constant drain on his slender physical resources. "If Kerensky can hold out," is the phrase more and more frequently heard among his friends and admirers, indicating their dread of his physical collapse and what it would mean to the destinies of free Russia.

SUSPICION POINTS MORE STRONGLY TO MYSTERIOUS INDIVIDUAL WHO RUSHED DOWN LANDSDOWNE AVE.

Another Report That a mysterious stranger was on Rockland road Wednesday night, and that he made statements to three girls, which would indicate that he was either irresponsible or some kind of a fanatic, is quite evident. The girls were going up the railing leading from Main street to Rockland road, when they were approached by a man who desired to be directed to Paradise row. He then began a conversation with the girls regarding the murder and, during this conversation, drew from his pocket a newspaper clipping about the crime and also another sheet with a number of figures on it. With reference to the murder, he said he knew of a man who murdered another by putting poison on an envelope and sending it to another man who licked the mucilage containing the poison and died. He also said that he had been in a place where blood ran as plentiful as water. One of the girls asked him what the figures meant on the piece of paper, and he told her that there were things on it which had made many homes unhappy, especially one. At this stage two of the girls became frightened and started to run along the street. The third started to follow and, at the time, the man said that he could stop them with one move of his finger. The man is said to be young, about six feet in height, and was wearing a large-brimmed hat and had a dark grey suit. He also had on patent leather shoes and a fancy vest.

DYNAMITERS ARE STILL AT LARGE

Montreal, Aug. 10.—There were no developments of a quite character today in the dynamic outrage, but in view of the fact that private detective agencies as well as the local and Dominion police are at work on the case it is believed a clue to the desperado's identity will soon be forthcoming. The reward of a thousand dollars offered by the Dominion police is expected to be an incentive for some one with a knowledge of the affair to come forward. The head of one of the local detective agencies said this morning that he had a line on a large gang which is believed to be involved in this and other outrages. The consensus of opinion is that the dynamiting is the work of a secret society composed of the wilder spirits opposed to conscription, and that the actual participants in the outrages are selected from among the ranks of the society. Rumors were circulated this morning that La Patrie and the Board of Trade buildings were to be blown up the same night and that these would be followed by the Gazette building.

The Crop Outlook Is Very Bright (Harland Observer) During May and early June the most optimistic people were compelled to admit that the crop outlook was blue enough. At July 1 the fields looked as though all vegetation was killed a month behind; but at Aug. 1 we behold fields promising to deliver the biggest crop in history promptly on time. Potato fields everywhere are looking fine and have made a vigorous stand. Beetles and blights have been kept down in spite of the high cost and scarcity of Paris green, and continued spraying for three weeks longer will assure a bumper yield. Hills that have been opened show indications that the crop will be fully up to the average. Oats were adversely affected by the prolonged rain, but were not killed or "scalped" they have made splendid growth and the past few weeks have been ideal for filling the heads. What is not doing so well as it would in a dryer season, but the late July heat and sunshine has done wonders for it. Larger quantities of turnips will be produced this year. In spite of the rainy spell that commenced early in May and continued unabated to July 15, farmers never had so good a season for hay—and never in the world so heavy a crop. Many farmers will not harvest all their hay, lacking storing facilities. In such cases the grass is cut to be ploughed under later on, or allowed to rot and enrich the earth.

MONCTON LAD VISITS THE ROYAL STABLES Moncton Transcript—Rev. Norman A. MacDonald, B.A., B.D., pastor of the Salvation Army of United Baptist churches, whose two eldest sons are serving at the front, received a fine lot of photographs this week from his second son, Donald, who went across a few months ago. His eldest son, John, went across two years ago. When John enlisted he was a student at Acadia, and when Donald enlisted he was on the clerical staff of the Bank of Montreal, Moncton. Donald, at the time of writing, was enjoying a furlough in London, and by mere chance happened to meet his brother there. Donald, who is a great lover of good horses, had the pleasure of a look through the royal stables at Buckingham Palace, and many of the photos he sent home are of the royal horses and equipages. He saw the famous six cream-colored horses used only on certain state occasions, and the six black stallions, also used only at state functions. Young Mr. MacDonald writes that of the scores of beautiful horses in the king's stables, the majority are beautiful bays. One horse that he was particularly pleased with was the famous horse Delhi. This horse, as his name implies, is from India, and was presented to King George at the great coronation celebration in Delhi.

THEIR FIFTY-EIGHTH WEDDING ANNIVERSARY Dalhousie, N. B., Aug. 10.—A rare and interesting event took place on Thursday last when Mr. and Mrs. George Haddow, aged respectively eighty-three and eighty-two years, celebrated the fifty-eighth anniversary of their marriage. During the afternoon of their wedding a very large number of friends called to extend congratulations. Mrs. Haddow received her guests dressed in black duchesse satin, her hair of old cream lace, diamond and pearl ornaments. Miss Kate Anderson ushered the guests, who were later shown into the dining room. Mrs. C. H. LaBilloy and Miss Lizzie Stewart presided over the pouring of the tea and were assisted by Mrs. L. D. Jones and Mrs. Art. McMillan. Mrs. J. C. Connacher served the lunch. Mr. and Mrs. Haddow are natives of Miramichi. They were married there fifty-eight years ago and came to Dalhousie the same year and have resided here ever since and socially and otherwise they have won the esteem of all.

Despite the inclement weather the golf tea at the Riverside club was held yesterday afternoon. A golf match was played during the afternoon in which the Misses Hare, Stetson and Robertson were the winners. Mrs. Busby presided at the tea in the club house. A considerable sum of money was raised at the tea for the Red Cross.

The tenders for the proposed new addition to the St. John County Hospital have been closed recently but no announcement has been made yet for the successful tenderer for the work. It is understood that a strong objection has been registered by the municipality against the action of the Military Hospital Commission in as much as the latter called for tenders without the consent of the municipality. It is said that the approval of the municipality is essential as they alone own the buildings and control the affairs of the hospital.

It made me feel young again to see the Three Lamps in Prince William street. And then, to completely harmonize the present with the past, street laborers were digging up the pavement to lay water pipes. Dear old St. John! Just the same as ever!"

NOT ENOUGH DOCTORS The Earl of Derby, British secretary of state for war, has been informed by the Central Medical War Committee that no more medical men are available for commissions with the British army without seriously endangering the supply of doctors for the civil community.

Harriett Mabel, only daughter of Mr. and Mrs. J. Lister, was united in marriage to Arthur Gordon Bailey of Woodstock on Wednesday by Rev. G. W. Tilley of the Hillsboro Methodist church. The ceremony took place in the home of the bride's parents in Hillsboro. A honeymoon will be spent in P. E. Island, Nova Scotia and New Brunswick. On their return they will reside in Woodstock where the groom is a prosperous merchant.

PEACE! With Germany Powerless or Germany Free —Which?

As the War enters its fourth year, the German Emperor proclaims that the thoughts of the German people stand resolute in the determination to prosecute this righteous war of defense to a successful termination. "We shall be victorious. We shall be victorious. The Lord God will be with us." But while the thunders of British guns in Flanders and the shout of advancing German regiments in Russia seem to be the loud echoes of these confident assertions, representatives of both sides were at the same time contributing to a symposium of peace. Mr. Balfour declares that Germany must be "either powerless or free" before peace can come.

German peace-hints are prefaced with assertions that German armies in Belgium and Roumania are fighting a purely defensive war. Chancellor Michaelis denies imputation of coldness toward the Reichstag declaration for a peace without conquest, while Count Czernin, Foreign Minister of Austria-Hungary, admits that his country is quite ready for an "honorable peace." While Austria's readiness for peace has long been evidenced by American editors, they suspect that Germany's outgivings and the firm grip of the military regime conceal an almost equal longing.

The leading article in this week's LITERARY DIGEST (August 11th), is a review of all the peace talk from various quarters, arranged so that the reader instantly grasps its full import. Other articles in this number of the DIGEST sure to interest you, are:

THE VOICE OF THE WEST

Resolved, that this convention places on record its admiration for the greatest of all Canadians, Right Hon. Sir Wilfrid Laurier.

In a convention in which there were more than eight hundred selected delegates representing the Liberalism of the western provinces, the above resolution was adopted with only "about a score" who voted nay.

As to the attitude of the convention in regard to conscription, it cannot be charged that it is lukewarm or indifferent because of disloyalty.

The enforcement of the law to the Borden government. The west is so thoroughly sick of the mis-rule of the last six years at Ottawa that it makes the defect of the Borden government the first consideration.

As to the attitude of the convention in regard to conscription, it cannot be charged that it is lukewarm or indifferent because of disloyalty.

The record of the west disposes of any such charge. Moreover, the convention is pledged to the most vigorous prosecution of the war, and insists there can be no such action until a new parliament gives the country a new government that is not tied up to the profiteers.

The party most disturbed by the attitude of the west is the Conservative party. It cannot now set the rest of the provinces against Quebec, and snatch a victory by parading its loyalty and waving the flag.

With that hope lost, its prospects of a victory at the polls have disappeared. When it goes to the country it will go to defeat, and no attempt Sir Robert Borden may now make to patch up a union government will do him or his party any good.

The western Liberals set out to lay down a platform that would appeal to the majority of Canadian people. It is easy to charge them with partisanship, but their platform speaks for itself.

They want a vigorous war policy, coupled with radical reforms in other directions, and most of the resolutions adopted will commend themselves to great numbers of people in the eastern provinces.

They appear to have been firmly convinced that a deliberate attempt was being made by the Conservatives to split the Liberal party and gain party advantage therefrom; and they were determined to thwart the attempt and clear the way for a real national government chosen from a parliament fresh from the people.

Whether the east likes it or not, the west has dressed the stage for the coming contest at the polls, and has put an entirely new complexion upon the political situation. It is known that Ontario as a whole did not take too kindly to the decisions arrived at in the recent convention in Toronto, and the western programme will find sympathizers in many Ontario constituencies.

The Conservatives will assert that partisanship has entered into the background, but since when have the Conservatives ceased to be partisans? The west believes they have never ceased, and that they never had any intention.

But what of conscription? Ask Sir Robert Borden that question. Does he propose to enforce the law? A considerable time will elapse before the elections can be held. There will be ample time to take measures looking to the prompt enforcement of conscription. Let us see what the government will do about it.

The latest rumor is that Sir Robert is disposed to give the voluntary system one more trial. Meanwhile Sir Wilfrid Laurier has wired his approval of the war programme of the Winnipeg convention.

A POLITICAL TRICK? Has the government been deceiving the people in regard to the need for immediate strengthening of the Canadian army by the enlistment of 100,000 men? A statement just issued shows that there are 80,000 men on the firing line and an effective strength of 150,000 in reserve.

The wastage overseas, in three years of war, has been about 70,000. It is pointed out that even if the permanent wastage for three years more were twice as great, there would still be enough men available to keep the four divisions on the firing line up to strength, without counting the additions made from time to time by the voluntary system.

Of course it may be said in answer to this that we should have more than four divisions on the firing line, but that will not excuse an attempt to mislead the people as to actual present conditions.

There is a feeling that Sir Robert Borden announced conscription for political purposes, and now regrets his action. The Standard's Ottawa correspondent says that at the conference at Rideau Hall at which both Sir Robert and Sir Wilfrid Laurier were present, "the suggestion was made that the conscription measure might not be put into effect until Quebec had had another opportunity of answering the call to arms voluntarily."

The Standard hinted yesterday that no attempt would be made to enforce the act until after the elections. If once the country is convinced that the conscription measure was introduced for political purposes, to destroy the influence of Sir Wilfrid Laurier and to line up the rest of the provinces against Quebec, there will be very few Conservatives in the next parliament.

By what right does Sir Clifford Sifton sit in council at Rideau Hall? The west will be further antagonized against Sir Robert Borden because of it. It is recalled that on one occasion years ago Sir Charles Tupper declared there was not a constituency from Sydney to Vancouver mean enough to elect Sir Clifford Sifton, but today he sits cheek by jowl with Sir Robert Borden.

Curiously enough there was no Nationalist at the Rideau Hall conference. Why this omission by Sir Robert?

The real lion of the convention, if there was one, was the Hon. Frank Oliver, who told parliament that while a conscriptionist in principle, he would never trust

LIGHTER VEIN

Two Ways of "Workin'." It was obvious from his uniform that he was a messenger boy, and he strolled along with his eye fixed on a page of a blood-curdling story.

The lady looked on an instant, and then asked: "How do you think I can get off here?"

The conductor replied: "I cannot tell you, madam; but I do not know that we can't wait until that puddle dries up."

He Did Neither. Pat's wife, because very ill, so he made a bargain with the doctor. "I'll pay you the bill, kill or cure."

"Agreed," said the doctor. Pat's wife died soon after. The doctor sent in the bill, but Pat brought it back.

Pat—"O'rl not say that bill. O' made a bargain to pay kill or cure, so you didn't s'pore her, did you?"

"No," replied the doctor. Pat—"Well, did you kill her?" "No," replied the doctor.

KAISER THE GREATEST MURDERER OF ANY TIME

Hot Talk in Chicago School Board Over Spelling Book Pages

Chicago, Aug. 10.—A motion of Antony Czarnecki to tear out of 180,000 public school spelling books a page entitled "The Kaiser" was defeated seven to three at a meeting of the school board here today.

The board, however, granted a request of Superintendent of Schools Sheop to eliminate forty pages, including the offending page from 70,000 spellers still in the hands of the board.

Mrs. Emily Snodgrass, trustee, opposed Mr. Czarnecki in a long speech, in which she said she thought such action would offend German-Americans of Chicago.

Hispanic came from the galleries at this. Mr. Czarnecki, in a hot reply, referred to the German Emperor as the greatest murderer of any time.

U. S. NAVY DEPARTMENT NO PLACE FOR SLACKERS

Washington, Aug. 10.—As an aid to the draft, Secretary Daniels has adopted as a policy that he will not employ as clerks or messengers in the Navy Department any men between the ages of twenty-one and thirty-one years.

More than thirty-one, boys less than twenty-one and women of any age are being given the many extra places in the civilian naval establishment created by the war.

Many young women are being enlisted as messengers and clerks at the Navy Department and at navy yards and stations.

The government should set an example for the rest of the country in disposing with the services of men subject to the draft, and it is expected that Mr. Daniels will refuse to make any claims for exemption in behalf of employees of his department who are selected for military service, leaving it to the exemption board to determine whether the claims are just.

\$16,000,000 CLOTH ORDER

Washington, Aug. 10.—The navy department has just contracted for 4,500,000 yards of woolen uniform cloth at a cost of more than \$16,000,000 to meet the enormous wartime requirements and provide for future needs.

These contracts constitute the largest purchase of woollen cloth ever made for the navy, and one of the most important single contracts for goods placed in the history of the trade here or abroad.

With the placing of an order for 1,000,000 yards with the American Woolen Company of New York, substantially all contracts embraced in the department's schedule in blue uniform cloth have now been awarded.

The amount of wool in the grease required for the manufacture of the cloth is upward of 15,000,000 pounds. It will be sufficient for the manufacture of about 1,000,000 shirts or jumpers, 800,000 pairs of trousers, and 350,000 overcoats.

GUARD GIRLS AT TRAINING CAMPS

Quarter of The Million Dollar Fund Already Raised To Build Hostess Houses

National Board of Y. W. C. A. Arranges to Place "The Lure of the Khaki" in Proper Light

New York, Aug. 10.—One quarter of the \$1,000,000 of the big gathering of representative women of the country which met at the call of the National Board, Y. W. C. A. headquarters in New York, 600 Lexington Avenue, on the 8th and 7th of last June, voted to raise for its contributory war work among women has come in and the work in the vicinity of training camps is well under way, with a Patriotic League for Girls as its big idea.

This league is being organized in all the cities or towns near the camps. It is under the direction of the Junior War Work Council of the National Board and is open to all girls without regard to race or creed, the member's one obligation being to sign the pledge of the league and to have the spirit to keep it.

In its efforts to develop the patriotic spirit the league workers believe there will be a relegation of what they call the "lure of the khaki" to its proper position. The Y. W. C. A. works only with women and girls, but this is distinctly a

war work, as the attitude of the young girls in towns and women in the vicinity of the camps will have a definite effect upon the young soldiers.

With the league clubs of all kinds for the girls are being formed to give them varied interests of their own. One of these is in the form of a camp for factory girls, workers of a factory now closed, outside Plattsburg. The girls have club leaders, recreation leaders, and they have hikes and athletics. The clubs and organizations are confined to no one class of girls. Many of them are among the high school girls of the different places.

The pledge is as follows: I pledge to express my patriotism by doing better than ever before whatever work I have to do; by rendering whatever special service I can at this time to my community and country; by living up to the highest standards of character and honor, and by helping others to do the same.

Practically nothing is done for the entertainment and welfare of the young girl when she is at the most impressionable age, the women of the association say. Now they are receiving calls for help from the different places where the bringing together of large bodies of soldiers and the emotional conditions developed in a country at war will be strongly felt by the young girls of the community. Through the patriotic league the girls will learn to express their patriotism worthily, and through the clubs organized they will be entertained and will have an opportunity to normally express their emotions.

In addition to these special lines of work the National Board has a Social Morality Committee which has secured the co-operation of a number of trained women physicians who go to different communities to give series of lectures to women and girls. These are women of high ideals and their work is to create sentiment in favor of high moral standards. The talks are given to mothers, teachers, and leaders in groups and to girls by themselves in others. Requests

CHILD'S SEVERE STOMACH TROUBLE

Harrison (Ont.) Father Says Dr. Cassell's Tablets Saved His Child's Life.

Mr. Corby, Harrison P. O., Ont., writes: "Our little girl was weak from birth, and though we tried doctors' medicine and other things she got better. She just lay in her cot and cried, and neighbors all said we could not save her. The doctors said she had stomach trouble, and that her chances were small, yet Dr. Cassell's Tablets cured her. They have been worth their weight in gold to us for we were just giving up hope of saving our little daughter. I don't think there is any other medicine for children like Dr. Cassell's Tablets. Publish this letter if you like; it may help others as the Tablets helped us."

A free sample of Dr. Cassell's Tablets will be sent to you on receipt of 5 cents for mailing and packing. Address: Harold F. Ritchie & Co., Ltd., 10 McCaul St., Toronto.

Dr. Cassell's Tablets are the surest home remedy for Dyspepsia, Kidney Trouble, Sleeplessness, Anemia, Nervous Affections, Nerve Paralysis, Palpitation, and Weakness in Children. Juvenile Revue at Opera House In Musical Comedy Next Week

A scene from the miniature musical comedy presented by the famous Juvenile Revue, at the Opera House all next week, starting tomorrow afternoon.

If you want to hear Harry Crane sing "You've got to put up with it" again, you will have to go to the Opera House tonight, for this will be the last opportunity. Everybody said "good show this week"—if you have not seen it, don't let the chance go by.

Tomorrow comes the usual weekly change and the new programme is headed by one of the season's big vaudeville sensations, the Famous Juvenile Revue, an organization of twelve clever children, all girls in a miniature musical comedy in one act, with delightful singing, dancing and comedy numbers, all staged with elaborate costumes and special scenery. This act comes direct to St. John from New York and is a real novelty. Other features on the programme include Christie and Mack, class singers, dancers and nonsense purveyors; Marie Allen, singing comedienne; Flussett and Romina, singers and wonderful eccentric dancers; Jess and Bud Gray, comedy singing, talking and bicycle novelty; and Billie Burke in the 11th chapter of "Gloria's Romance." Two complete shows tomorrow afternoon at 2 and 8:30, evening at 7:30 and 9. Despite the extraordinary programme, the prices remain at the same very little figure for all.

Two Men In Reserve For Every One In Front Line

Ottawa, Aug. 9.—A statement of the minister of militia, prepared on request of A. K. MacLean, gives the total "effective strength" of the Canadian expeditionary force on June 30 last as 256,993 out of total enlistments to the same date of 424,456. The difference between the effective strength and the total enlistments is made up as follows:

28,760 in hospitals in England.
 21,830 returned to Canada for discharge and for other causes.
 65,900 who never proceeded overseas and were struck off the strength in Canada for physical unfitness, etc.
 31,955 killed in action, died of wounds or sickness, presumed dead, reported missing or prisoners of war.

10,138 for whom no complete returns have yet been obtained.

The casualty list up to July 31 totalled 106,492, including a total of 31,955 dead, missing or prisoners of war, and 73,707 wounded.

Details of the effective strength are given as follows: In Canada, 18,475; in England, 100,639; in France, 132,279; on sea, 2,944, and in the near east, 756.

Analysis of the figures given above in regard to effective strength of the Canadian forces on June 30 and the wastage from casualties indicates that the government has sought to stampede the country into conscription without frankly stating the real position in regard to the immediate need of reinforcements.

Leaders Confer at Rideau Hall.

While official information is not naturally available, it is understood that three would induce them to change the deliberate and fully considered views they have already expressed in parliament or in serious conversations in connection with coalition and extension proposals.

It is understood that in suggesting at today's Rideau Hall conference that it was still not too late to effect coalition and avoid an election, Sir Robert Borden intimated that he would be prepared to leave the enforcement of conscription bill in abeyance for several months pending a further united trial of the voluntary system.

Storm Over Criminal Code Amendment.

The commonsense spent the whole of today's sitting in a long drawn out and at times acrimonious discussion of an apparently innocuous bill proposed by the minister of justice to amend the criminal code by limiting to forty-eight the number of jurors which the crown may direct to stand aside unless permission is given by the presiding judge to increase the penalty. The discussion promptly developed the fact that the bill from the opposition standpoint at least was not as innocuous as it seemed, but had its genesis in a political aftermath of the trial of the Manitoba ex-minister for conspiracy when the trial was in 1915 the Manitoba legislature passed an act increasing the panel of jurors to ninety-six at the discretion of the judge with a view to securing a non-prejudicial jury in a trial where political prejudices had some bearing with jurors.

A motion by Hon. Rodolphe Lemieux for a six months' division and the bill finally was passed through the committee stage before the house adjourned.

Graft Charge in Senate.

In the senate today Senator Casgrain moved for papers respecting the purchase of a tract of land near Montreal known as Bonnie Bel Air by the militia department from W. T. Rodden.

There had to be a transaction; the minister of militia appointed a commission of three colonels: W. T. Rodden did not own the land when the movement was started. He bought it, however, and sixteen days later sold it for \$180,000 to the government, and got the government check for that amount.

Officials of the militia department would not agree to report favorably on the property, so the commission of colonels was named. It was bought, paid for and never used.

The motion for the papers was adopted.

Western Liberals United In Loyalty to Sir Wilfrid

Winnipeg, Aug. 9.—The Liberal convention of British Columbia, Alberta, Saskatchewan and Manitoba, which has been in session here since Monday evening, was brought to a close at six o'clock this afternoon, when a resolution was carried consolidating as the platform of the Liberal party of western Canada the resolutions on policy which had been adopted.

Following hearty approval of the leadership of Sir Wilfrid Laurier in the morning, the work of the afternoon session was important, and resolutions were carried approving of the formation of a national government after the general election; approving of the principle of government ownership of railways, telegraphs and express systems; declaring indefensible the payment of an arbitrated price to Mackenzie and Mann for sixty million dollars of common stock of the C. N. R., and suggesting that newspapers and other publications be required to publish at intervals the names of all those financially interested in them and of their responsible editors.

The resolution on national government stated that the convention expressed the hope and declared the desire of its members "that in the impending election the discussion of issues should be kept on a plane free from all appeals to passion and prejudice in matters of race and creed; and further, that which ever party is returned to power the business of the government should be carried on by a truly national government composed of representatives drawn from the different elements and industries of Canada.

FOUR WOMEN TESTIFY

Positive Proof that Lydia E. Pinkham's Vegetable Compound Restored Their Health.

Yonkers, N. Y.—"I suffered from a bad case of female trouble, backache, nervousness and indigestion. Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed."—Mrs. H. J. L. FEATHER, 61 Hamilton Ave., Yonkers, N. Y.

Danville, Ill.—"I would not be alive today had it not been for Lydia E. Pinkham's Vegetable Compound as it cured me from a severe case of female trouble."—Mrs. O. A. O'Connell, Bateman Road, Danville, Ill.

Ridgway, Pa.—"I wish all women who suffer from female troubles would take Lydia E. Pinkham's Vegetable Compound as I avoided a surgical operation by its use."—Mrs. O. M. RYAN, Ridgway, Pa.

North Haven, Conn.—"Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed when passing through change of life. There is nothing like it to overcome the trying symptoms."—Mrs. FLORENCE HESTER, Box 197, North Haven, Conn.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

Germans Are "Jumpy and Nervous"

London, Aug. 9.—Continuous rains and fogs have made the past week one of little activity on the western front, says Major-General Frederick B. Maurer, chief director of military operations, at the war office, in his weekly talk to the Associated Press today.

The German communiques in their usual fashion, continued the general, "reported numerous British attacks repulsed with heavy loss. That shows the Germans are jumpy and nervous. As a matter of fact, there has been only one British attack, that on St. Julien, which was an entire success. The German communiques made a deal of an alleged British attack from Neuport, which was in fact, only a minor raid."

Summing up the situation on the Russian front, General Maurice says: "The Russian sentiment has been conspicuously less in the last week. Premier Kerensky and General Korniloff, the Russian commander-in-chief, are making strenuous efforts, with considerable success, to re-establish discipline, but it would be premature to say that the Russian leaders have yet succeeded in setting a limit to the German advance. It would be premature even to regard the situation more satisfactory."

Be Careful What You Wash Your Hair With

Don't use prepared shampoos or anything else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain milled coconut oil, for it is pure and entirely greaseless. It's very cheap, and beats the most expensive soap or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

CANNING CLUBS AT WORK

Throughout Province Doing Wonderful Work in Conserving the Fruits and Vegetables.

(Protection of Canners)

The canning clubs which have been established throughout the province by the board of education, under the direction of Fletcher Peacock, are being well attended and doing a very substantial and useful work. There are very few housewives who are not canning or preparing on a much larger scale than usual this summer. This work is going to have a far reaching and permanent influence on the future food supply of this country and will thus tend to conserve the canned goods supply for the use of the soldiers of the allied armies in the trenches and the sailors at sea. Many people this year are drying a great deal of the supplies of their gardens and much work along this line will be done.

In former years our grandparents always dried a certain portion of the fruits and vegetables of their gardens and in the winter when these were hard to get they had their supply of dried produce to fall back upon. This work had almost become extinct, but now with the opening of these schools many of the recipes of our grandmothers' days are being used and found to be better than the new methods. This fall will see more fruit canned and dried than in any other year in history.

HOW TO DRY BERRIES.

Pick over fruits, removing all leaves, stems and unsound berries, and wash in clean water. Place in a colander and pour off water through it. Remove surface moisture by pouring berries on a paper and spread in thin layers on drying trays. Cover trays with cheesecloth to exclude all insects and dust, and protect from dew and rain. Stir material occasionally so as to dry evenly and after drying for several days by pouring back and forth from one container to another, store in tight cans, pasteboard boxes or bags bearing label of content. The place of storage should be cool and dry and free from vermin and insects.

Redpath

SUGAR

was a favorite name among the long-forgotten food products of half a century ago, just as it is among the live ones of to-day. Only exceptional quality can explain such permanent popularity.

FINDS DANGER TO FORESTS OF NEW BRUNSWICK

The Reid on Spruce-Filled Homesteads Forestry Journal Protests

Says Provincial Department of Lands Overloaded With Applications From Persons Whose Inspiration is Pulp Wood at \$8 a Cord

Until homesteading and timber licensing are completely removed from the vicious influence of political pull, various administrations will continue to play ducks and drakes with the public resources of land and timber.

In view of the legal regulations and every violation of the public good, hundreds of homesteading applications are granted because of political pressure and only the lack of public for such transactions can prevent a general protest.

None denies the right of a land-hungry province applying to his government for a free grant. But in these days when spruce for pulpwood commands a high price of eight dollars a cord delivered at the railroad, it is significant how many persons are getting land hungry in Alaska. The funeral will be held today at 8.30 o'clock from her late residence, 48 Murray street.

William F. Hopkins.
Aroostook Junction, Aug. 8—Aroostook Junction mourns the loss of one of its oldest and most respected inhabitants in the person of William Phinney Hopkins, who died at 4 a. m. on Saturday, Aug. 4, at the age of 79, having been a life-long resident of the junction since his birth in February, 1838.

James Kelman.
St. George, Aug. 10—James Kelman, 79 years, died at Rahway, N. J., on Tuesday. Mr. Kelman, who came from Scotland, was employed here for many years in the granite mills. Two years ago with his wife he left to make his home with their daughter, Mrs. Stuart.

The death of Mrs. Loss Wheaton, at the age of ninety-three years, occurred at the home of her daughter, Mrs. Harvey Bowser, Middle Sackville, Tuesday night. She leaves three daughters and four sons. The daughters are Mrs. Merritt Babcock, Middle Sackville; Mrs. Seward Babcock, Sackville; and Mrs. Harvey Bowser, Middle Sackville. The sons are George and Andrew, Mount View, Walter, Newbury Port, Mass., and Chipman, of Milford, N. H. She also leaves twenty-seven grandchildren and thirteen great grandchildren.

HAIR MICHAELIS IN GERMANY AS NEW BISMARCK

Democratic Movement Which Reformers Stated in Recent Reichstag Crisis, Seems to be Slipping on Downgrade

Copenhagen, Aug. 9—The democratic movement in Germany, which reformers were sure was getting such a splendid start in the recent Reichstag crisis, seems now to be slipping down a grade backward. The Liberal and Radical newspapers in Germany generally regard the selection by Michaelis, the chancellor of the Reichstag, as a distinct rejection of the principle of parliamentarism and parliamentary influence upon the administration. The Socialist organ, Vorwarts, announces that the cabinet members, Spahn, Krause and Mueller, enter the government as individuals, not as party representatives. Therefore, the party assumes no responsibility, but retains completely a free hand toward the government. Herr Mueller particularly, has long had no active connection with the Socialist party and has a purely administrative non-political post.

Vorwarts declares that the present government must be the last of its kind and must be replaced by a government of the people. Dr. Michaelis also is getting further away from the Reichstag, peace resolution, even as he interprets it, as the days pass. The phrase in his speech Saturday on the necessity of a "powerful peace," was printed in black face type.

Reports to the Associated Press from Germany say that Dr. Michaelis has now been hailed by the advocates of greater trustful order or a delegation from an independent committee for German peace that saw Dr. Michaelis off at the Dresden railway station, made a speech which was widely applauded, greeted him as a worthy successor of the blood and iron chancellor.

Dr. Michaelis, according to the 11th reply to the speech, was silent regarding it.

CITY OF SAINT JOHN

Order Meatless Days In Canada

No Bacon or Beef to be Served in Public Eating Places on Tuesdays or Fridays—No Distillation of Wheat

Ottawa, Aug. 9.—Definite regulations, to come into effect at once, for restricting the use of beef, bacon and white bread in public eating places and for prohibiting the use of wheat in the distillation or manufacture of alcohol, have been promulgated by order-in-council, at the instance of the food controller. The serving of beef and bacon is prohibited on Tuesdays and Fridays, and at more than one meal on any other day. Substitutes, such as corn bread, oat cakes, potatoes, etc., must be provided at every meal at which white bread is served. Under the order, the expression "bacon" includes cured (either pickled or smoked) sides, backs, hams and any portion of what is termed in the trade "Wiltshire sides."

cludes any hotel, restaurant, cafe, club or other place where meals to the number of twenty-five per day are served to persons other than members of the family or household of the proprietor. In all such public eating places there must be prominently displayed a printed notice to the effect that all persons, in ordering their food, ought to consider the needs of Great Britain and her Allies and their armies, for wheat, beef and bacon, and that the food controller requires the public to do everything in its power to make these commodities available for export by eating as little as possible of them, and by making use of substitutes, and avoiding waste.

Penalties Provided.
Heavy penalties are provided under the order for violation of the regulations. In the case of public eating places the proprietor or manager, or any clerk, employee or servant, violating any of the regulations shall be guilty of an offense and shall be liable, upon summary conviction, for the first offense to a penalty not exceeding \$100 and not less than \$25, and for each subsequent offense to a penalty not exceeding \$500 and not less than \$100, or to imprisonment for any term not exceeding three months, or to both fine and imprisonment.

Halifax Officer To Take Draft

Official Announcement of Death of Acting-Quartermaster H. A. Peacock—News of the Soldiers

It is understood in local military circles that Captain Thomas' services are indispensable at the military hospital—so that he will not be given the command of the forty men leaving for overseas soon from the 8th Field Ambulance. An officer from Halifax will probably take charge of the draft.

Commission Rattled.
Lieutenant Warren, who has been attached to special service company for some time yesterday received his commission officially.

Acting-Quartermaster H. W. Peacock, reported in a recent casualty list as having died of wounds, was killed in action on April 6, but it was only on Tuesday that his family received the official notice from the militia department of his death. Quartermaster Peacock was one of three brothers to enlist early in the war in New Brunswick units, and was the second to make the supreme sacrifice. The third brother, who was unable to remain any longer in the trenches, was transferred to the Royal Flying Corps, and is at present training in England to qualify for his commission. At the time of his enlistment Acting Quartermaster Peacock was living in St. John and was well known here. The brother killed was Pte. Reginald F. Peacock, of the 26th, who fell in the crater fight.

The three gallant brothers were sons of Mr. and Mrs. E. S. Peacock, formerly of Chatham and St. John.

Four Recruits.
Four young men from Boston and vicinity came in on the Boston express last night to join the ranks of the 8th Field Ambulance Corps. Their names are: E. L. Dowling, Medford; R. Webster Carrell, Andover; Herbert D. Smith, Boston, and C. Ross, Andover.

BIG AIRCRAFT FACTORY FOR AMERICAN NAVY

Plant to Cost \$1,000,000 Will Be Located at Philadelphia Yard.

Washington, Aug. 10.—Secretary Daniels has announced the decision of the government to build an aircraft factory for the navy. The cost of the plant, which will be located at the League Island Navy Yard at Philadelphia, will be \$1,000,000 for buildings and machinery. When worked at full capacity, as it will be when completed, the plant will employ 2,000 men.

Secretary Daniels recently recommended to Congress the appropriation of \$45,000,000 for naval aeronautics in addition to amount previously made available. This money will be used in maintaining and expanding existing schools and stations, establishing new stations and training schools, and in the purchase and manufacture of necessary aircraft—seaplanes, dirigible and kite balloons—for use in high seas, and from coastal stations at home and in co-operation with our allies.

North Sydney, Aug. 9.—The Oddfellows have about completed their business for the annual session and many of the delegates have already left for their homes.

The grand lodge will hold its next session at Kentville (N. S.) This decision was reached at this morning's session.

The following grand officers were elected: Grand master—G. S. Ryan, Charlottetown. Deputy grand master—R. H. McKay, Westville (N. S.). Grand warden—Dr. C. A. Murray, Moncton (N. B.). Grand secretary—J. J. McKinnon, Charlottetown.

Grand chaplain—J. S. Coffin. Grand representatives—Mert McKenna, Westville; Rev. Mr. Whitman. Grand marshal—W. J. Campbell, North Sydney.

CHILDREN'S AID SOCIETY.

The monthly meeting of the Children's Aid Society was held in the auditor last night, the president, A. M. Belding in the chair. The agent, Rev. George Scott, presented his report which was discussed at some length. During the month nine children have been admitted to the home. There have been taken out, leaving a total number in the care of the society of thirteen.

Rev. Mr. Scott was busy during the month with a variety of cases that were brought to his notice. Improvement is noted in many of the families under supervision, and conditions in most all hopeful. Attention is being paid to the housing conditions of the people, as it is felt that this has an important bearing on any scheme of social work. Facts are being collected which it is hoped will be found useful in the future in any effort for improvement along these lines. A number of applications for children of both sexes were received and duly filed.

AUTO.

Feature Race Planned.

New York, Aug. 10.-Louis Chevrolet, one of the best of the modern school of automobile drivers, has requested the management of the Sheepshead Bay speed carnival to be held on Aug. 15, to be allowed to enter in the special race for the purse of \$25,000, in which the veteran Barney Oldfield and Ralph de Palma are to compete.

The special race will be one of three heats at twenty, thirty, and fifty miles, the order in which the heats are to be run to be determined by the toss of a coin on the day of the race.

TURF.

Saratoga Horse Doctor.

Saratoga, Aug. 10.-The usual scandal which accompanies the racing here was made public, when it was learned that the stewards were investigating a race held last Friday in which the favorite, St. Tolon's Imperator, was badly beaten and the race was won by the second choice, Kings Oak.

The owner and trainer of Imperator could not understand the poor showing of their entry, and Dr. McCully was called in. The veterinarian discovered that a sponge had been forced up the nose of the horse. It took him some time to extract the sponge with forceps.

There was no suspicion that any one in the stable had been guilty of the act, and after an inquiry lasting until this afternoon, the stewards were unable to place the blame on any one.

TOWNS IN RUINS IN ONE MOMENT

High Explosive Bomb Placed Under Every House

An American Connection

One of Best Organized Encampments Immediately Behind French Front Named for United States

French Front, Aug. 1.-"Camp des Etats-Unis" is the name of one of the best organized encampments immediately behind the fighting front of the French army somewhere between La Fere and Saint Quentin, but the name does not imply the presence of American soldiers. It was thus baptised in honor of the visit of Abraham L. Ellis, formerly American ambassador to Turkey, traces of whose passage through these devastated regions may be found in the names given to roads, bridges and groups of huts.

One of the bridges over the Saint-Quentin Canal wears the appellation "Brooklyn Suspension Bridge" and evidently some of the engineers who helped to construct it had seen the original bridge over the East River, for wires have been hung in imitation of that structure. The length naturally bears no comparison with that of its namesake.

The correspondent of the Associated Press, while passing through on the way to inspect the "Camp des Etats-Unis" had witnessed many scenes of desolation, but nothing more complete than that of the little town of Jussy itself. Before the war the place had been a very flourishing center in an agricultural district. It possessed 1,200 inhabitants, whose dwellings were all substantial constructions of stone and brick. Now not a civilian is to be found there, nor a soldier either, for before evacuating the town under the strong pressure of the French and British troops the Germans had taken care not to leave a single building standing.

Every House Demolished

It is not like other villages which have suffered at the hands of the Germans, since in most of them at least one or two shells of habitations are still to be seen. Here every house was systematically demolished, a great high-explosive bomb having been placed among the foundations of each one and all connected by wire to an electrical center, from which the current was turned on a quarter of an hour after the last detachment of German troops had hurried through the streets in their panicked retreat. In a moment Jussy was gone. A cloud of dust and small blocks of brick and stone settled down on what had been its location, and now from a short distance nothing can be discerned to indicate the former position of the village.

Even today, although the Germans know there is no possible lodgment for troops among the ruins, they fire into the rubbish heaps very frequently from their positions on the opposite side of the marshes bordering the Oise, the only result of this waste of ammunition being to cover the surface of the canal with bricks and brick dust.

Veterans of Many Battles

The French general commanding the division holding the line along the Oise in this vicinity is very proud of his troops, all of whom were veterans of battles further north on the Somme and also around Verdun. He looks after their personal comfort with the greatest care, whether they are in the trenches or in their rest camps behind the lines.

He is a great believer in encouraging the spirit of sport, and when the men go into cantonments for their period of repose from the hard life of the front line they spend most of the time while they are not practicing the latest tactics.

In a moment Jussy was gone. A cloud of dust and small blocks of brick and stone settled down on what had been its location, and now from a short distance nothing can be discerned to indicate the former position of the village.

Even today, although the Germans know there is no possible lodgment for troops among the ruins, they fire into the rubbish heaps very frequently from their positions on the opposite side of the marshes bordering the Oise, the only result of this waste of ammunition being to cover the surface of the canal with bricks and brick dust.

Veterans of Many Battles

The French general commanding the division holding the line along the Oise in this vicinity is very proud of his troops, all of whom were veterans of battles further north on the Somme and also around Verdun. He looks after their personal comfort with the greatest care, whether they are in the trenches or in their rest camps behind the lines.

He is a great believer in encouraging the spirit of sport, and when the men go into cantonments for their period of repose from the hard life of the front line they spend most of the time while they are not practicing the latest tactics.

tics in playing field games. Football is one of their favorite pastimes, and some of the battalions have several teams, which play inter-company and inter-battalion games.

The general has his headquarters in what was stable. His tables are plain white wood and the seating accommodation is composed of rough benches. All around the walls are hung flags of the various allied nations presented by visitors, and the largest of them is a silken American flag given him by the former American ambassador to Turkey.

MAY DISCARD THE U-BOAT CHASERS

Reported That United States Has More Faith in Other Methods of Fighting Submarines

Washington, Aug. 9.-Abandonment of its original programme of building a great fleet of submarine chasers as rapidly as possible is contemplated by the navy department, and this action is considered the first step in shaping a new policy to meet the U-boat menace.

While it is impossible to state the precise reasons prompting the department, it is believed that Vice-Admiral Sims has reported that the method now followed by the British navy will never displace the U-boat chasers, and his recommendations.

The department will continue to build destroyers with all speed, the navy being satisfied that this type of ship is of infinitely more value in fighting submarines than the wooden chasers.

Great Britain has thousands of the latter patrolling the war zone. The reports of the chasers destroyed by submarines shows that while the patrols have assisted in holding the sub-sea campaign in check, they have not reduced it to any considerable degree, and there is no reason for believing that they can ever eliminate the sub-marine as a serious military factor.

When this country entered the war the department prepared comprehensive plans to turn out standardized wooden speed boats just as fast as small yards on both coasts could complete them. The government had already had purchased hundreds of these craft in the United States and has caused the American plants to treble their facilities.

It was understood that within a year the United States would have more than 1,000 of the chasers patrolling the Atlantic coast and assisting the British navy.

The department will accept the first batches and they will probably be shipped to England immediately, but as far as can be ascertained that will end the government's investment in wooden chasers.

The first effect of the discontinuance of chaser building would be to release hundreds of shipbuilders for other work and to make construction material available for other purposes. The government at so is expected to place as much armament as possible upon every American merchant ship and to avail itself of the new batch of destroyers to act as convoys.

The department has repeatedly called attention to the fact that submarines have never managed to sink American armed ships which have a tolerable speed rate. The fact is attributed to the department's policy of putting plenty of

WOULD GIVE VOTES TO FEMALE NEXT-OF-KIN

At a meeting of the Canadian Imperial League held last evening at their rooms, 108 Prince William street, the following resolutions were adopted unanimously:

Therefore resolved, that this league memorialize the Right Hon. Sir Robert L. Borden to bring before his colleagues in the government of Canada the matter of granting to the registered female next of kin of absent soldiers, the right to vote in the dominion election, such votes to be accepted at the said election in the same manner as the franchise new extends or applies to the male voter.

And further resolved, that the opinion of this league is that the life of parliament should be extended, and no election called until the return of the aforesaid soldiers at the termination of the war.

NEW ENGLAND COMPLAINS

Washington, Aug. 10.-Reports that the United States would embargo coal shipments to Canada have been denied officially today. Canada has been receiving large quantities of coal from this country recently because of the dominion's reduced production, but coal exports now connected with the American government say the United States is producing enough coal for both countries and that the problem is solely one of equitable distribution. New England users have complained that while coal is scarce in the northeastern states, great shipments are going through to Canadian consumers.

TO ALL RETURNED SOLDIERS

This is to inform you that the Hon. Gilbert W. First prize, \$50; second prize, \$30; third prize, \$20.

This competition is open to all returned soldiers. It must be noted, however, that it is necessary that all competitors should be vouched for by either Lieut.-Col. J. L. McAvity, president of the Great War Veterans' Association, or by E. J. Puddy, secretary of the Great War Veterans' Association.

WHO WILL BE BENNIE LEONARD'S NEXT OPPONENT

Who will be Leonard's next opponent? Charley White and Johnny Dundee are the next best two and it is certain that Benny will meet them both eventually.

White, of course, is the most dangerous of the world, but his title is never safe when White's deadly left hand is lurking about. Charley isn't the fastest man in the world, but he is quite the deadliest and Leonard will have to use every bit of his remarkable boxing speed to make his venture with White a safe and sane one.

It is just possible though that he might get White going early as he did Kilbane and then—well, after that it will be only a question of how far they will have to carry White until they reach his dressing room. Leonard was facing a hard hitter in Kilbane, but that didn't seem to faze Gibson's wonder. He just belted his way through all opposition and another champion fell before his thundering fists.

In Dundee, Leonard will have only speed to contend with. Johnny is a little bit showman, according to popular suspicion, but his last few fights seemed to establish the fact that Johnny still has an astounding amount of reserve force and ginger, a truly remarkable

SUNSHINE CIRCLE LIGHTENS LOT OF OUR WOUNDED

Mrs. Price, of West St. John, convener of the "Sunshine Circle" of Ludlow street Baptist church, received the following acknowledgment for a donation of money which the circle sent to Nursing Sister Margaret P. Dunham of the C.A.M.C. No. 2. Miss Dunham writes: "I was indeed pleased to get your letter written on behalf of the Sunshine Circle of Ludlow street Baptist church containing your cheer's gift of \$4.00, \$5.00, which comes to 110 frs. here in France, and will give lots of little extras to our boys, who are giving up so much for the great cause of right vs. might."

"If you could look in sometimes at the boys in the hospital during a 'feeling' of extras bought with your home money, such as ham and eggs, fish and potatoes, strawberries and cream, cold ham and pickles, extra smokes, fruit—enjoying the popular airs on a new Columbia gramophone I bought while on leave last month and brought back at hand luggage, so it wouldn't get broken—you would indeed feel your money is not wasted when it makes the boys so happy."

"You may all rest assured I shall spend your 110 francs to the best of my ability for our men and for them I thank you. I cannot tell you very much about our work here, as the censorship is strict. We are very large in number with three big general hospitals, three British, one Canadian and one American. It seems so odd and yet so good to see at last the Stars and Stripes floating beside us in the war."

Our casualties are not very heavy just at present so we are not as busy as just now. The winter and spring were busy and hard, but now we are getting a bit of rest, but we never know when a rush will be upon us, so always ready. We have wonderfully clear, healthy air here on the high cliffs of Normandy overlooking the sea, which often makes me home sick for the dear old Bay of Fundy, but this is an ideal spot for a hospital. We have had a few St. John and New Brunswick boys here in the hospital and it is so good to do for our own, but sometimes we miss a few for the camp is so large. I always try and hunt out any boys from home.

"Will you please accept my thanks on behalf of the boys and convey the same to the members of the 'Sunshine Circle'. It was so good of you to remember me and my patients here in the disposal of your 'Sunshine' money, and I will do my part to spread your 'Sunshine' here among the boys."

STOLE MILK, IS THE CHARGE

Pte. Fred Fitzpatrick was before the court this morning charged with thefts of cans of milk from the doorway of John P. Barrett, grocery dealer, at the corner of Duke and Carmarthen streets. Policeman Henrickson said that he was sent to watch the store following complaints. Yesterday morning he was there and saw the defendant take a can of milk from the doorway. He immediately gave chase. In the excitement the soldier dropped the can spilling all the milk. The accused, he said, ran down an alley and got away. He was arrested later by Policeman Hopkins. The cans of milk belong to the Maple Leaf Dairy.

The case at this stage was postponed until Monday. E. J. Henneberry and W. F. McMonagle appeared on behalf of the defendant.

Further hearing involving a man and a married woman charged with a serious offence was postponed until Monday.

IN TROUBLE OVER A CASE OF GIN

Found in Home of Robert Anderson, Acadia Street—Police Say They Saw Intoxicated Men in Vicinity

As a result of a raid on the premises at 42 Acadia street last Tuesday afternoon by Inspector Crawford and the city detectives, Robert Anderson was before Magistrate Ritchie this morning charged, under the liquor license act, with having liquor in his house unlawfully.

The case of John deKuper gin, which was confiscated by the police when they went to the house with a search warrant, was produced in court. It was shipped to Robert Anderson, 42 Acadia street, from Lawrence A. Wilson Co., Ltd., Montreal, and was marked for "persons and the liquor license act," was taken today and the case was postponed until Monday.

The Evidence

Detective George Briggs said that, because of information the department received, the premises of the defendant at the corner of Acadia and Chapel streets, were watched. Intoxicated men had been seen coming from the house. On Tuesday Detectives Duncan, Biddiscombe and himself, with Inspector Crawford, visited the house. The place being reached, the police made known that they had a search warrant for liquor. While the warrant was being read, Mrs. Anderson and a Mrs. Elliott left the room where the police were and closed the door leading from this room into the kitchen. She held the door fast and the witness and Detective Duncan had to force his way from the dining-room into the kitchen. The woman was warned to leave the door open. A case of gin, with eleven full bottles and one empty, was found, partly projecting from a couch in the dining-room. In a bedroom, four pint flasks were found in a corner. Behind the sideboard in the dining-room there were four empty square faces. Briggs said that he heard the defendant remark, while the police were searching, "this is the work of some of my good friends, but I never sold any liquor."

The search warrant used in the case was produced and identified by witness. To E. S. Ritchie, who appeared for the accused, the witness said that as far as he knew, the premises of the defendant constitute a private dwelling house. Other families lived in other parts of the house. It was no boarding or lodging house. He said the defendant was a Swede and he had known him for eight years. He was a painter by trade.

Detective Biddiscombe gave corroborative evidence, and added that there were three tenants in the house, and the defendant was one of them.

Detective Duncan told practically the same story. He said he read the warrant to the defendant in the house. He told of the defendant's wife leaving the room and closing the door leading to the kitchen.

The court asked the witness if he could open one of the bottles. Witness replied, "I used to, be able to, Your Honor."

The detective said there were no glasses in sight. He also stated that men were seen around the corner, near the house, acting as if under the influence of liquor. The locality has been under surveillance for a week or more, he said.

To Mr. Ritchie the detective said Inspector Crawford was not prosecuting.

Sergt. Sullivan said he reported the matter to the detective department. This was objected to and disallowed. Mr. Ritchie said his client was ready to swear that he never sold liquor there.

Detective Briggs called Policeman Tower, who said that he arrested a man for drunkenness in Acadia street this morning near the defendant's house. The man then arrested was still in jail.

The case was here postponed until twelve o'clock on Monday.

"LADIES" USED SOME PECULIAR LANGUAGE

Expressions Profane and Obscene Were Alleged—Matter Settled Out of Court

A very few minutes of the police court this morning was devoted to a settlement of a case which involved several members of the female sex. Within these few minutes the magistrate paid his respects to a certain class of women who were out "in the street scandalizing the city" and who "were parading from the head of King street along Waterloo."

"If women can go out in the public street and use both profane and obscene language it is coming to a pretty pass in St. John," was one of the remarks of the police magistrate.

The case seems to have arisen out of an entanglement between a number of young ladies in the vicinity of Brim street. During the course of a severe controversy, it is said, there were some choice expressions exchanged and, judging from the description given by a policeman who was an eye witness of the scene, it was a merry time while it lasted.

Two of the young ladies, it is understood, laid an information and the result was several of the offenders were summoned to court. The charge of using obscene and profane language in the public street was to have been read against the women, but, through the intercession and good counsels of friends, the affair was amicably settled in an ante-chamber of the court rooms. As the lawyers, who fought about the settlement, made this known to the court, the magistrate referring to a certain class of women said that "this is not a case of men but it is a case of women in the streets of St. John scandalizing them."

The magistrate, however, agreed to the settlement and that the case need not be aired in court. As the ladies involved were leaving one of them was heard to remark "some court."

Dear Mary:—

Do you know some people don't like company? I do. The real reason they don't is they are not fixed for it—I think it is a shame that women who enjoy having their friends come to see them can't ask them just because their houses are not properly furnished.

They ought to just go to their husbands and tell them plainly how they suffer because they haven't got the furniture and rugs they need. That's what I'd do if Frank were not so good to me always.
