TEN PAGES—ONE CENT

DECLARATION BILL MUST PASS HOUSE BEFORE AUGUST

This is the Opinion Expressed in Parliament Circles

LABOR LEGISLATION

British Medical Congress to Consider Imperial Problems—Mr. Chamberlain and the Free Traders—Breezy Budget of Overseas News

Special Correspondence of The Times-Star

London, July 16.—In parliamentary circles at Westminster it is the opinion of the majority that the King's Bill must be passed before the House rises in the first week in August. The deputations of these zealous Protestants who expected to influence the prime minister on the 13th July, forget that politicians in this country cannot be expected to regard the King's declaration on his accession from the point of view or as was imperative in the days of the struggle for religious freedom in the 17th century. The protest against Rome's influence in the days of the Stuarts, is considered a gratuitous insult to the enlightened and tolerant spirit of these times. The revised version of the declaration is enough to safeguard the kingdom and the empire against any future King James II, and the prime minister is very properly opposed to any anti-Popish rising in this country, or any narrow sectarian controversy. It is enough that the declaration in its new form secures the Protestant succession to the Throne, while paying due respect to all sects.

LABOR LEGISLATION

It has frequently been a complaint of the labor party that the lack of uniform legislation affecting labor in different countries is an injustice to the democracy. The London Convention of the International Association of Labor Legislation, held at St. John's, N. B., last week, was the first of its kind to be held in Canada. It was opened on the 22nd of July, and will close on the 28th. The delegates are from all parts of the world, and are expected to be most helpful in their discussions. The conference will also be held in the afternoon of each day, and will be held in the morning of each day. The conference will be held in the afternoon of each day, and will be held in the morning of each day. The conference will be held in the afternoon of each day, and will be held in the morning of each day.

THE HOME OFFICE

Winston Churchill is winning golden opinions from our English working classes by the sympathetic activity displayed by the Home Office in promoting legislation for life saving in mines and the re-organization of factory and mining inspection, and the amelioration of the labor conditions and hours of shop assistants. In this the example of the old country will serve the labor interests throughout the Empire.

THE BRITISH MEDICAL CONGRESS

The great gathering of medical men at the London University on the 22nd July has an interesting list of Imperial problems whose full discussion will stimulate intelligent public opinion. Emigration and who are the most suitable men for the varied climates of the Empire, may raise the delicate question of Canada's prohibition of certain British immigrants for who are being deported to prevent the propagation of feeble folk with inherited tendency to disease in the rising communities of the West.

HOUSING REFORM IN CANADA

Herbert Vivian, M. P., who has been so prominently associated with the Garden City movement and as chairman of the Co-partnership Tenants Association has in Canada in the great social reform of town planning, which would save the new towns which are growing all over the Dominion from the slums which are such a serious evil in the old country. Mr. Vivian will launch an organization in Canada for the spread of tenants' co-partnership which should prove the greatest blessing to the new country.

THE G. P. O. EMIGRATION

It appears the problem of finding employment for labor after they have served the individual manufacturers to whom the appeal was made. There are about 100 slasher tenders in the city and 95 per cent belong to the union. The only cloth mill in the city not affected is the Wamuta. It is stated that some of the mills stand ready to grant an increase to \$13.50 a week. The pay of the slasher tenders at present ranges from \$11.50 to \$12.50 a week.

SUDDEN DEATH AT FREDERICTON OF MRS. N. CAMPBELL

Fredericton, N. B., July 23.—(Special)—Mrs. Campbell, widow of Nelson Campbell, expired very suddenly at her home here last night. She was preparing to retire at eleven o'clock and fell to the floor. A physician was called but she passed away before he arrived. Heart failure was the cause. She was eighty-two years of age and leaves one daughter, Mrs. A. Leggie, of Chatham, and two sons: J. Stewart, of this city, and Fred C., in British Columbia.

FOR THIRD TIME

July 23.—For the third time Mrs. N. Campbell has presented her husband's body to the coroner.

INCORPORATION OF THE CHRISTIAN UNITY FOUNDATION

New York, July 23.—Articles of incorporation have been filed in the city clerk's office for a religious organization to be composed of all Christian churches. All Protestant denominations, as well as Roman Catholic and Greek churches, will be asked to join the organization. It is incorporated under the name of a Christian Unity Foundation, and it will aim to do for Christianity what the Carnegie and Sage foundations do for education. A layman has offered \$10,000 to pay initial expenses. All the leaders in the movement are men prominent in the Protestant Episcopal Church. The incorporators are twelve clergymen and twelve laymen. They represent both high and low churches. Five of the clergy are bishops. According to the incorporators, the purpose of this foundation is to promote Christian unity at home and throughout the world and to this end to gather and disseminate accurate information relative to the faith and works of all Christian bodies; to aid forth the great danger of our unhappy divisions.

KNIGHTS OF PYTHIAS ANNUAL MEMORIAL DAY SERVICES

Local Members Will Decorate Graves, August 25—Three Have Passed Away Since Last Year's Observance—Eighty-Four Claimed by Death in Forty Years

The annual memorial day services of the Knights of Pythias will be held on Thursday afternoon, August 25. The joint committee of the three local lodges having the matter in charge met last evening to consider the details and prepare a report for the respective bodies. During the last year three more members have been removed by death, and the number of graves to be decorated increases steadily year after year. Since the order was instituted in St. John, about forty years ago, eighty-four members have passed away. Of this number seventy-eight are buried in the local cemeteries and six are interred outside the city. The names of the knights who died since last-decoration day are: R. A. Belyea and Moses T. Kimball, of New Brunswick Lodge No. 1, and William G. Keel, of Union Lodge No. 2. The two former are buried in Cedar Hill and the latter in Fernhill. The members of the three local lodges and the two companies of the uniform rank will, as usual, parade to the cemeteries with a band, and at Fernhill the annual memorial service will be held, consisting of hymns, scriptural reading, prayer and the address. The service will follow the decoration of the graves with floral emblems and will take place almost directly behind the graves. The parade will be held two years ago by the knights.

FAIRBANKS IS "ARRESTED"

Former Vice-President of the U. S. Placed in a Patrol Wagon and Taken to a Luncheon

Omaha, July 23.—The National Association of Advertising Clubs of America took liberties with Charles W. Fairbanks, of Indianapolis, today, when they had the ex-Vice President of the United States arrested and placed in the police patrol wagon which started ostensibly for the city jail, but which carried him to the field club, where he was the guest of honor at a luncheon. Mr. Fairbanks protested vigorously against the arrest, insisting that he could prove his identity if given an opportunity. It was not until the patrol drove up to the field club that he detected the joke. He then laughed heartily.

STRIKE IN CLOTH MILLS IN NEW BEDFORD

New Bedford, Mass., July 23.—At a meeting of the Slasher Tenders' Union last night it was voted to go on strike Monday morning in thirteen mills. The slasher tenders recently made a demand for an increase of wages to \$15 a week and the demand has received no response from the individual manufacturers to whom the appeal was made. There are about 100 slasher tenders in the city and 95 per cent belong to the union. The only cloth mill in the city not affected is the Wamuta. It is stated that some of the mills stand ready to grant an increase to \$13.50 a week. The pay of the slasher tenders at present ranges from \$11.50 to \$12.50 a week.

NEW CUBAN FREIGHT LINE

American and British Capitalists Will Run First Steamer July 28—Former Employee of Munsion Line in Charge

New York, July 23.—The rich and growing commerce with Cuba has drawn a new freight carrying steamship line into existence. Public announcement has been made that backed by a group of American and British capitalists, the American and Cuban Steamship Company is to dispute the supremacy long exercised by the Munson and Ward lines. It has already three or four freighters under charter and has completed plans to build four large, fast ships. Arthur R. Lewis, for many years connected with the Munson line is the general manager of the new company. At his office, No. 27 William street, he said yesterday: "We are filling and loading our first boat, the Silverdale, which sails July 28, at the rate already in existence. There is enough trade for us all. The island is growing rapidly in commercial importance. There is a strong administration; capital is investing there, and they are all making money."

POLICE SAY DENTIST UNDER ARREST IN DETROIT HAS VICTIMIZED MANY "WIVES"

New York, July 23.—That Dr. Henry B. Keeler, now under arrest in Detroit aided by his wife posing as his "sister," married a half dozen women in New York City and vicinity and then swindled them out of \$8,000 to \$10,000 within the last three years, was the assertion made by Captain Coghlan, in charge of the Brooklyn Detective Bureau, last night. The captain declared that already he had received four complaints, and that he has heard of several more. An estimate of the money obtained in this way, he said, would amount to about \$75,000. Detectives Roddy and Murray of the Brooklyn staff, left last night for Detroit, where they expect to find the dentist. As it stands now, the doctor will be charged with larceny and conspiracy. He has been indicted in Brooklyn and it is expected that a pre-arrest against the woman will follow.

OUTLOOK IS GOOD FOR A BOUNTIFUL CROP THIS SEASON

CONDITIONS BAD AT CAMPBELLTON

Vegetables Plenty; Other Commodities High

SUGAR UNCHANGED

PITTSBURG TO BE "BLUE SKY CITY"

Campbellton, N. B., July 23.—The people of Campbellton have had their pitiable lot made even more so during the past two days, in having stormy weather, rain and thunderstorms being frequent. The majority of the destitute populace slept last night in wet clothing on ground soaked by rain. Two of the poor people have become mentally unbalanced. Subscriptions are not coming in plentifully enough, and the committee are finding it hard to prepare to build homes for the homeless with the sum received to date. The rebuilding of these homes for the penniless people will mean a heavy expenditure, and will also require that a large force of workmen be kept on the spot for some time.

STILL DISCUSSING FISHERY LAWS AT THE HAGUE

The Hague, July 23.—In regard to the Newfoundlander fishing boats were obliged to make a declaration at Newfoundland customs houses and pay harbor and light dues while exercising rights granted them by the Treaty of 1818. Mr. Elder argued that such obligations could only be required of mercantile vessels and was in the highest vocation for fishing boats, especially as the Newfoundland coast is so difficult. The speaker then endeavored to show that American fishermen had the right to fish in bays, harbors and creeks on the southwest and north of Newfoundland, and on the coast of the Magdalen Islands, because the word "coast" in the treaty included all the situations of the shore. Britain had never disputed this right, but the question had been raised by Mr. Bond. Mr. Elder next proceeded to argue that American fishermen enjoyed the commercial privileges granted by Britain to American ships.

MAN ASKS HEART BALM OF DIVORCEE

New York, July 23.—Fifty thousand dollars for the alleviation of a heartache he alleges she caused is asked of Helen Woodruff Smith, a Stamford, Conn., divorcee, with merriment, by Russell Greig, a New York City attorney, in a suit filed in the supreme court today. Two hundred and six endorsing letters, which he claims Miss Smith, who is many years his senior, wrote him, and photographe of "Roses and Jilts," episodes in their romance, will be produced by Greig, according to his attorneys, who gave out several letters as samples. Miss Smith is the daughter of the late James D. Smith, who was president of the Stock Exchange and commodore of the Eastern Yacht Club, and who left her \$120,000. She is the divorced wife of Homer Cummings, twice mayor of Stamford, Conn. She lives luxuriously in her home "Linden Lodge" with her 12-year-old son, entertains lavishly and has a big steam yacht, the Viking.

POLICE AFTER "HOLY GHOSTS"

Washington, July 23.—If the police of this city have their way and they probably will, the followers of the Rev. Jonah Sanjour Sturdivant, a negro, who is now serving a sentence in Baltimore, will be scattered to the four winds and his alleged religious sect will be exterminated. The health and police authorities of this city have become astounded by the discovery that a number of girls, followers of Sturdivant, some of whom are white, have been scourging and starving themselves in the belief that this action will bring about the release of Sturdivant. One of the white girls has also been found to be afflicted with pelagra, said to have been brought about by continuous fasting and scourging. Sturdivant and his Holy Ghost colony was driven out of New York a couple of years ago and at that time he pitched his new camp at Baltimore.

BOY KILLED BY STAB FROM FISH

West Palm Beach, Fla., July 23.—Death in an almost unheard of form waited for Laurence S. Baker, an 11-year-old Jacksonville lad, when he dived from a boat in Lake Worth. A stinger, a huge fat-bodied and greenish species of warm water jelly, was lurking just under the boat. One of the boy's spines was pierced by the fish's neck, cutting into the jugular vein. He rose to the surface crying for help and bled to death within four minutes.

MC 2035 POOR DOCUMENT

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, JULY 23, 1910

TO THE SMOKING PUBLIC OF CANADA

During the last half century, the smokers of Canada have used hundreds of millions of "Davis's Cigars."

What Does It Mean? It means that "Davis's" have a high, and long-standing reputation.

What About It? S. Davis & Sons, Ltd., wish to tell the smokers of Canada, that they will stake their reputation as cigar makers, that the

"DAVIS PERFECTION CIGAR"

Is The Best 10c. Smoked in This Country.

As cigar makers we will stand or fall by "PERFECTION."

We have been too long in the business and have too much at stake to adopt "HATCHPENNY" methods, and make the above statement knowing it to be a statement of FACT.

We want the smoker to try one "Perfection" because we know the cigar itself will look after the rest.

MUNICIPAL HOME RULE

By George S. Bowdell

From a speech against district representation in the legislative assembly, June 15, 1903.

BROTHERS, if you will those stars of liberty from the constellation of our little republic blot them out, or give to them a nebulous form, so that the wayfaring man cannot discern for more. It is only the eye which has been trained by science and learning that can discover the beauty of that principle which conflicts with the usages of our state and the habits of our people. It is noble words; but, sir, if they tend to the destruction of our institutions and jeopardize our liberties we should hesitate to follow their lead.

The municipal governments of the world have ever been barriers against oppression in every form. What is it today that enables Switzerland with her 21 cantons to stand fast and firm against the power of Austria, sustained as it is, no doubt, by that of the Russian empire? It is her little municipalities confederated together, not upon the principle of the equality of men, but the equality of communities, and through the agency of which she can summon to the battlefield one hundred thousand men from among three million hardy mountaineers. It is the form of municipal government which they enjoy that enables them to maintain themselves free and independent.

And I say, sir, that as a general rule in the history of the world, the people who have been blessed with municipal institutions have been free, while the people who have not this boon have been in bondage, in comparison, slaves. Look at Greece; look at Italy; look at Great Britain; which have all municipal institutions in some form, or another. Look at Holland; look at some parts of Spain; look at Switzerland and Hungary, the latter of which has for three centuries maintained an unequal contest against Austrian oppression and power.

Break down your municipalities if you will; but look well to the result. For one, I enter not upon this experiment. Much as I respect the doctrine of personal equality, and much as I should delight to see this government and every other government come up to the principles of liberty and equality, I will not forsake that which I know to be sure and certain for that which at best is uncertain, if not, indeed, dangerous. The future has some claim upon us as well as the present and we ought not to be unmindful of that claim.

We should remember that a nation or a state which has been called from obscurity and weakness to the enjoyment of refined civilities, and the exercise of intellectual sovereignty, has somewhat stand by the principles which have brought this ancient commonwealth to her present position. If there be men who desire to earn the name of progressionists or reformers, by the abolition of municipal authority and power in this commonwealth, I stand not with them, whether it be for wear or for woe.

of consumers who daily require the same products.

SOLUTION FOR THE HIGH COST OF LIVING PROBLEM

J. W. Flavelle Declares Present Production of Farms is Not Large Enough to Meet the Demand—What the Farmers Can Do

(Ontario Free Press)

J. W. Flavelle, the millionaire head of one of the largest pork-packing concerns in the Dominion, has addressed to Hon. J. S. Duff, minister of agriculture for Ontario, a letter which seeks to lay bare the reasons for the present high cost of food prices in Canada, and the resultant high cost of living.

Mr. Flavelle's explanation, in a word, is that present production is too small to meet the demand.

He says in part: "Why are food products at extreme prices in Canada and the United States? It is strange that there should be so much confusion as to the cause of the extreme prices of these food products on the American continent. There may be warrant for sharp differences of opinion as to the causes, but there can be no intelligent difference of opinion as to the fact itself. There is but one cause: Present production gives an insufficient supply to meet present demand."

"It is singular that journalists, who so readily write with authority concerning food products, and officials in departments of agriculture from the minister down to the present day, take quantities of meat, butter, eggs, which reach a volume of surprising proportions considering the recent character of the development. The larger towns and cities in the north and provinces have greatly increased the body of consumers who daily require the same products."

"How have the farmers of Ontario responded to this added demand? They have responded by producing a lessened number of milk cows, a lessened number of sheep and lambs, a lessened number of poultry and eggs, a lessened number of hogs, and a lessened acreage of corn, in 1909, and in buckwheat. There has been a reduced acreage in orchards, a reduced acreage in carrots and turnips, and a fractional increase in acreage in potatoes and mangels."

"What is the farmer in Ontario doing? Where profits in excess of his immediate needs are secured, he is putting them into the savings bank and receiving in return 3 per cent. interest. He is content to have imperfectly drained lands, to use run-out seed, to keep milk cows producing less than half the yield that good stock would produce for the same amount of feed, and to reduce his production of beef cattle and hogs."

"The farmers of this and other provinces have been encouraged to look for returns through agitation, frequently ungenerous and generally wrong, which has had for its keynote that farmers were being deprived by the greed of others, of a legitimate share of the returns for their labor."

"How are you going to meet this state of affairs? You can demonstrate what can be accomplished through better organization, and through increased capital expenditure, through the employment of more help, through the use of improved seed, through the breeding of better stock, and generally in the sound sense used in administration."

"Much work of excellent merit has been done at Guelph, and through the services of your department, but you have not come within sufficiently close range of the individual farmer. He has not learned to take the lesson to himself. He has not had the courage to make the necessary expenditure, or the enterprise and energy to employ the necessary amount of labor to secure the results which can only be secured by such expenditure and energy."

"THE VISION OF A THOUSAND YEARS"

Under the title "The Vision of a Thousand Years," the Toronto Telegram publishes a leading article concerning Count de Lesseps' flight over Toronto on Wednesday last night.

"In the night of the people of Toronto the dream of one thousand years came true last night.

"Rising from the ground like a creature of life and being, a monstrous, crested, horned, and bearded, and with a crown, that departed southward and westward, sailing away like some fabled bird borne on the wings of the wind."

"The prophet post of Israel looked far away into the mists that hung low over the city of the future and he said, 'They shall mount up on wings as eagles.' Patiently, yet with undoubted courage the human mind set itself to solve the mystery of the flight of the bird."

"In the lone spaces of the desert the Arab wanderers saw the birds of prey, and longed for a freedom that would emancipate them from the drifting sands, the biting heat, the haunting thirst, while above them sailing away in the evening light the vultures mocked the fatuity of human endeavor."

"In the crowded, narrow streets of the walled cities of the Middle Ages, men whom their fellows deemed mad, caught a vision of the liberty of the air, and the patient slow years saw them live and die, and yet there came no answer to their search."

"The genius of Watts, who saw the power of steam, the strength of the minds of men who fashioned and polished and called into action the modern motor, all these resulted and came to one harmonious whole in that thing of life and beauty that passed over Toronto, bidding defiance to gravitation, laughing at the birds in their bewilderment, and confounding and humbling the man whose vision is alone of the earth and those who walk upon it."

"A cheer broke over the crowd as the man wheeled out the strange looking craft. It seemed like a thing out of our dreams. A great, unstartled, glorified, thousandfold magnified beetle, that had wriggled forth from the delirium of some giant nightmare, a few twists of the fans on the motor, the kick-up in the dust, then the 'thing' began to run forward; shades of all the magicians and soothsayers of Egypt, Assyria and Babylon, the being rose up first a foot or two, then yards, then up and up in circling flight till the matchless upon the revolving brain beat a tattoo upon the wilder brains of the mere humans who with their fathers, had waited from Abraham's day until now to see this thing come to pass."

"The bird-man ceased his circling, and straight as a homing pigeon in its flight he passed onward to the city. Seven hundred pounds of steel and wood and canvas, backed up by the iron nerve of the Darby Frenchman and the patient of a three thousand waiting years. We are heirs of all the ages in the foremost files of time. We are no more bound to the earth either by way of steam or sail, a few moments' wait and then in the distance a speck, then over the crowd again in circling flight the strange craft passed, swiftly the circles narrowed, steeper the angles of flight, more distinct the beat of the fans, then amid the cheers of the crowd the honking of many automobile horns, the birdsman dropped to the ground, ran along the surface like some mighty eagle, then came to the earth again."

"And Toronto had seen the first great flight, the beginning of many others that shall annihilate our mighty distance and make the man of our city a neighbor with his brother on the wave-washed shores of the Pacific."

"Six—If Anania was alive today I wonder what he'd get to do? Six—A job writing summer resort booklets, most likely."

"The farmers of this and other provinces have been encouraged to look for returns through agitation, frequently ungenerous and generally wrong, which has had for its keynote that farmers were being deprived by the greed of others, of a legitimate share of the returns for their labor."

"How are you going to meet this state of affairs? You can demonstrate what can be accomplished through better organization, and through increased capital expenditure, through the employment of more help, through the use of improved seed, through the breeding of better stock, and generally in the sound sense used in administration."

"Much work of excellent merit has been done at Guelph, and through the services of your department, but you have not come within sufficiently close range of the individual farmer. He has not learned to take the lesson to himself. He has not had the courage to make the necessary expenditure, or the enterprise and energy to employ the necessary amount of labor to secure the results which can only be secured by such expenditure and energy."

ASEPTO SOAP POWDER

sweetens the home

Is Your Home "Surgically Clean"?

THE greatest danger to the health of your family is not disease—it is germs. Let Asepto help you clean your home—surgically clean.

For Asepto sterilizes everything it touches. It is touched by water in which Asepto has been dissolved—and only a little Asepto at that—is left in the water, antiseptic, sweet and clean.

Ordinarily the application of disinfectants requires considerable work. When Asepto is used, it enables one to carry on a complete course of sterilization ALL THE TIME without any additional work—both cleans the home and KEEPS it clean.

Yet Asepto is more than merely an antiseptic—more than a germicide. It is also a soap powder—as good as the best soap on the market.

It is the fact that both its soap and germicidal properties work toward the same identical end that makes it so effective. The soap qualities of Asepto loosen and remove the accumulated uncleanliness—the germs which quiescently sterilize the cleaned surfaces.

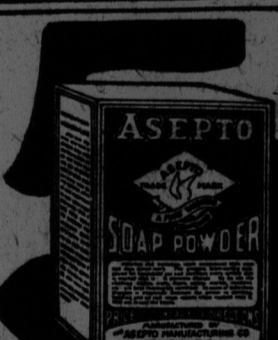

Do not get the idea, however, that Asepto is of value only as a disinfectant. It is for far more than that. Try it in your washing—on anything. The way it cleanses will amaze you.

With Asepto, you don't have to rub or boil clothes—you just put them to soak in water in which Asepto has been dissolved, leave them there for a couple of hours and then rinse them and hang out to dry.

Or for washing dishes and greasy cooking utensils—use Asepto. A single package of Asepto will make into two gallons of the best soft soap you ever used. And it will cost you only five cents, too.

Tell your grocer to include a package of Asepto with your order—all good grocers sell it at five cents.

SHOULD EXPORT MORE FRUIT

Mr. J. Lockie, Wilson, Superintendent of Agricultural Statistics, has returned to Toronto from a six weeks' trip to Europe. Mr. Wilson has been studying the fruit problem, and has made up a report which the Government intends to distribute among the Ontario farmers.

Mr. Wilson is of the opinion that the peach and tomato exportation to English markets is not carried on to half its extent, and that much profit is in store for the Ontario exporter if he chooses to see it.

"Why can we grow tomatoes at 25 cents per bushel, and sell them over in London at sixpence per pound?" said Mr. Wilson.

A high roller cuts a queer figure when he gets a skate on.

"More bread & better bread"

PURITY FLOUR

UP TO HIM.

He—What would you say if I kissed you?
She—If you kiss me the way most fellows do, I couldn't speak.

NEW MIDSUMMER STYLES

Dresses for Wedding Made Mostly of Expensive Laces

Dresses for midsummer weddings are being made entirely of duchesse, point Venise and other expensive laces. These gowns are worn in dress patterns and are all ready to be joined together. The majority are made with long sleeves reaching to the wrist, where they broaden perceptibly in bell-shaped fashion. They are completed with double and triple ruffles of lace. Eton jackets of lace are also shown with these dresses. They have elbow or full length sleeves.

Other wedding dress styles include white satin and mesaline materials, made in simple high-necked tunic styles. Chiffon or marquisettes are used for veiling these dresses.

White chiffon dresses, so cut that their fullness is gathered into a loof band of white tulle, are examples of another desirable style for formal occasions, as well as for weddings. Broad masses of chiffon, draped across the top of the foot band, are a feature that is worthy of consideration. The skirt itself is a little fuller than the narrow skirt of the last three months.

Lingerie dresses in high-necked, long-sleeved styles, made of white batiste, are being shown. These dresses copy the extreme of the undraped, narrow skirted styles, with scarcely any skirt whatsoever, and are not especially pretty nor graceful. They are heavy with hand embroidery and heavy lace insertions. A few show cotton or linen ball fringes and trimmings.

Less expensive white dresses for summer wear are made of marquisettes or voile, or the ever present white lines and laces. For an inexpensive wedding gown there is nothing prettier than that sturdy, white muslin of the sheers kind.

Though the suit coats have all been shortened into Russian blouse and even front with a belted effect, without a belt, however. The fullness of the blouse is confined in three narrow tucks, to which is extended the skirt panel, thus forming a sort of low, broad belt. The very long roll collar is the distinguishing feature of the new coats, together with the left side lapings. Sometimes a single button fastens the coat at the waist line, and more than three are never used.

The color note is a subdued one, soft, silvery grays, greens with yellow glints in them, natural ponce shades and all the pastel colorings predominant.

In the changeable silks and foulards the tans, grays, rose violet and green are preferred. The neutral tones of the past costumes are often relieved, however, by a touch of brilliant at the neck, and the use of contrasting color in some of the new linings makes subtle color harmony possible.

A striking pongee coat, having a shawl shape collar of orange taffeta embroidered in the same color, had a lining of coin spotted foulard—having black dots on a burnt orange ground.

In this day of silk and chamoin gloves a woman can be always neatly and impressively gloved. Chamoin gloves not only may be washed a dozen times, each time coming out like new, if properly done, but they give a touch of smartness to the street frock by the outdoor woman, because of their supple qualities. Silk gloves are worn the year round by many of the best dressed women. It is declared this season will see a greater popularity for them than ever before.

Though women have but just been emancipated from the purse splitting long gloves, dealers are getting ready to meet the big demand there is bound to be for them when the elbow sleeve is fairly in style again. For early spring the most desirable in six and eight button lengths is worn, with the new three-quarter, or more nearly seven-eighths sleeves. For sporty or driving these come in a really heavier weight, and instead of a button have a strap at the wrist to confine the fullness.

As lace is now enormously in demand in an overskirt material, the thirty woman, who has treasured boucous of Chantilly, Spanish thread, guipure or esural for the past three decades will find them valuable wardrobe assets. She will perceive that the lighter meshes will answer perfectly for the upper portion of a chiffon, satin or silk skirt, and the heavier nets as the drapery for a gown of chiffon brocade, cashmere de soie or crepe de chine, while a flounce of 40-inch width may be used to veil a skirt of gold or silver cloth, figured or striped satin or worn beneath a looped back robe of satin or silk.

PARIS FASHION HINT
The women who work some woman suddenly remembered that all the hats of the season had been left in the outside room next to the inner parlour. The next minute the reserves of the East One Hundred and Twenty-sixth street police station and the West One Hundred and Twenty-sixth street station had all they could do to keep just one hundred excited women from going right into the building.

PLANS NOVEL WAR ON TUBERCULOSIS

Edward F. McSweeney of Boston Would Start With the Mayor and Examine all the Workers in the City

(Boston Post.)
A new scheme of waging war upon tuberculosis in this city, which includes the physical examination of every official in the employ of the city from the mayor down, the examination of all employees of corporations and ultimately the examination of every one working in the city, is being advocated by Edward F. McSweeney, chairman of the Consumptive Hospital trustees.

Mr. McSweeney believes that the system adopted in Elberfeld, Germany, should be put in operation here, and he has laid his views on the matter before Mayor Fitzgerald.
A new scheme of waging war upon tuberculosis in this city, which includes the physical examination of every official in the employ of the city from the mayor down, the examination of all employees of corporations and ultimately the examination of every one working in the city, is being advocated by Edward F. McSweeney, chairman of the Consumptive Hospital trustees.

Elberfeld System
In Elberfeld the tuberculosis war is waged under the direction of a committee made up of members of the government and of citizens with the mayor acting as presiding officer.
The city is divided into districts which are in charge of an official and the districts are in turn divided up into small sections, each of which is looked after by a minor official.

Buildings Ready for Exhibitors on August First
This Will Give a Full Month for Preparing Displays—Many New Features—More Room Provided for Sightseers
The exhibition buildings have been entirely transformed with a very tasteful decorative scheme of colors both inside and out, and a week from Monday—August 1st—they will be handed over to the vast multitude of exhibitors for their preparation for the grand opening on Saturday night, September 3rd.

Would Revolutionize Method
He says that the method suggested would revolutionize the present method of employing physicians. Physicians, instead of being called only to families when persons are already ill, would be called to examine their patients when the latter appear well, and that they should be paid to prevent disease rather than to cure the same, or along the lines of the system which the Chinese employ respecting doctors.

Arrested for Setting Fire to a House
Charlotte, N. C., July 22.—(Special)—Hugh Turner, of Tins Valley, was lodged in Sumner county jail last night charged with setting fire to the residence of his brother-in-law, Frank Riley. The house was burned to the ground with all its contents during the absence of the inmates, last Friday. This is the second time Riley has been burned out.

Insurgents Attack Town in Nicaragua
San Juan Del Sur, Nicaragua, July 23.—The towns of Nadanias, 35 miles to the south, and Canooqa, fifty miles to the east of Managua, were attacked simultaneously by the insurgents on Thursday. Each attacking force numbered about 400 men. The revolutionists were repulsed. General Valdes, the government commander at Canooqa, was seriously wounded in the fight there and only the opportune arrival of reinforcements at Nadanias saved the day for the government.

Reported Strike Settled on Wabash
Toronto, Ont., July 23.—(Special)—The Globe Detroit correspondent wired his paper at 1:30 a. m. "I learn from semi-official source that the railway strike so far as it concerns the Wabash Railway has been settled and that freight will begin to move just as quickly as cranes can be called.

Funerals
The funeral of Mrs. Margaret Cougle will be held from the residence of her son-in-law, William Merryweather, St. James street, West End, this afternoon at 3 o'clock. Service will be conducted by Rev. M. E. Fletcher and interment will take place in Cedar Hill cemetery.
The funeral of William Daley will be held from his late home, Britain street, this afternoon at 2:30 to St. John the Baptist church, where the burial service will be read by Rev. Father Holland. Interment in the New Catholic cemetery.

MASONIC GRAND LODGE OF ONTARIO

In Session at Belleville — Over 600 Delegates in Attendance — Reports Show Satisfactory Progress

Belleville, July 22.—The Masonic Grand Lodge opened in the Armories here Wednesday. The principal event of the morning session was Grand Master MacWatt's address, as well as the reports of the grand secretary and grand treasurer. There are over 600 delegates in attendance, the strike on the Grand Trunk preventing about 90 from coming. Every hotel is crowded, while many are domiciled in private residences. At the opening today, Mayor Marsh read a civic address of welcome accompanied by City Clerk Mikel, K. C. An address of welcome on behalf of the thirty local Masonic lodges was read by R. W. Bro. Arthur McGinnis, after which a reception was given by Mayor W. Bro. J. Cameron, grand master of the Grand Lodge of Quebec, and by Bro. W. H. Whyte, grand secretary of Quebec province. The reception of representatives in the Grand Lodge of Foreign Grand Lodges followed.

Grand Master's Address
In welcoming the delegates to the 32nd annual convention of the Grand Master, Judge MacWatt of Sarina, said he was pleased to be able to state that the year closed had been one of the best in the history of the craft in this jurisdiction, financially and numerically. Further they had that harmony which should always be prevalent among Masons. There have been few occasions, considering the membership when it had been necessary, as grand master, to administer admonition.

Semi-Centennial Funds
The lodges have paid into the semi-centennial fund during the year ended 31st May, 1910, \$18,282.28, an increase over the former year's contributions of \$10,855.97. During the month of June, 1910, there has been paid in an additional sum of \$4,520.07, and the total sum of this date is \$22,802.35. This leaves \$27,623.35 still payable by lodges.

Church Services
St. John, N. B., sent a contingent to Ottawa last week to be present at the home-coming of "Johnny" Burke, who came back with a Cardinal's blessing; with many honorary degrees in learning and the title of Rev. John F. Burke, of Baltimore. He was ordained by Cardinal Gibbons.

DANGER OF BEEF FAMINE ENDED
Bangor, July 23.—The danger of a beef famine in Bangor, because of the strike on the Grand Trunk railway which went into effect at 9:30 o'clock Monday night, was ended Friday, when four carloads were received in the city from Danville Junction, consigned to the local branches of the Chicago wholesale beef house. Even though the strike should continue indefinitely it is not thought that there will be any further trouble with the beef supply here. From now on all cars will be shipped from Chicago to Bangor via the Canadian Pacific. They will be transferred to the Bangor & Aroostook at Brownville and brought to the city via Northern Maine Junction.

Big Aviation Meet in Boston
Boston, July 23.—Recently received news of famous aviators, as well as their assured financial status, promises to make the Harvard-Boston Aviation Meet which will be held on Soldiers Field, September 21-23, an epoch-making event in aerial history.
Fifteen professional aviators, including Glenn Curtiss, Guy F. Hamilton, one of the Wright brothers, and O. P. Willard have entered. At least three foreign aviators will compete, using Blériot and Antoinette monoplane. Besides the professional a large number of amateur aviators and designers will exhibit and some of them will attempt flights. Charles J. Glidden, president of the Aero Club of New England and once president of the Aero Club of America, will make sessions in the New Boston. He has already made five sessions.

THAT PAVING CONTRACT

There is a dispute about the foundation for the pavement on Main street and the inspector has resigned. A new inspector, whose knowledge of such work is very much doubted by some aldermen, has been appointed.

The dispute arises over the character of the foundation. The contract called for six inches of concrete, but further on, at the bottom of another section, this sentence was added—

"The foregoing method of making the concrete must be employed, unless a method equally as good or better be proposed and accepted by the city engineer."

This, it is claimed, gives Engineer Murdoch full discretion in the matter, and since he approves of what the contractors are doing there can be no valid objection.

Did the aldermen understand the force of this additional clause in the contract? Was the matter discussed? Or was the clause inserted without a full explanation being given? The new method may be better than the one originally proposed, as far as the paper knows, but there should be no doubt about the meaning and the purpose of the contract. The city council appears to be somewhat unfortunate in the matter of drawing up contracts.

One alderman tells the Times-Star that he did not realize the full force of the sentence we have quoted, or he would have opposed it, on the ground that no such power should be left in the hands of the engineer.

This matter should be investigated at once. It should not be handed over to the board of works for investigation. The public desire to know all about the making of this contract, and how far the aldermen were aware of the authority placed in the hands of the engineer.

CAMPBELLTON

The statement is made that people are reluctant to subscribe further funds for Campbellton until they know what is to be done with the money and what has been done with that already subscribed. Meanwhile no action is being taken to build permanent homes for the people who are living in tents, suffering from the weather, and in constant danger from disease.

Why should not the provincial government appoint a special commissioner, to act with a local committee in Campbellton, to get for the outside public full information, and assist in the general work of reorganization? The people of the town are still more or less dazed by the calamity that overtook them, and are confronted by the problem of distributing relief and meeting immediate wants. The province should send them more than money. It is of the utmost importance that the work of providing winter homes for the people be not delayed. All doubts should be removed from the public mind and the way made clear for the assistance that must be provided if the town is to be rebuilt. It is stated that only \$53,000 in actual cash has thus far been paid over to the finance committee in charge of the relief fund, who deposit it in the banks and distribute it only after careful enquiry in each case. What is \$53,000 when there was a dead loss, above insurance, of fully \$2,000,000?

Since there seems to be some doubt or hesitation in the public mind, the provincial government should at once send a competent commissioner to Campbellton and keep him there during the next month or two.

It is not surprising that some doubt exists in the public mind. A Campbellton man who was in St. John last night said there were at present from six to eight hundred people living in tents and temporary structures. The Standard has Campbellton despatch which says there were more than three thousand sleeping last night without mattresses, on the water-soaked ground. Both of these statements cannot be true. In the interests of the suffering people a complete and authoritative statement should be issued without delay.

A TIRED WOMAN'S EPIGRAPH

Here lies a poor woman who always was tired, Who lived in a house where help was not hired, Her last words on earth were, "Dear friends, I am going, Where washing suit, done, nor sweeping, nor sewing; But everything there is exact to my wishes For where they don't eat there's no washing up dishes. I'll be where lead anthers will always be ringing, And I'll be where lead anthers will always be ringing, Bit having no voice, I'll get clear of the singing. Don't mourn for me now, don't mourn for me never, I'm going to do nothing for ever and ever."

IN LIGHTER VEIN LOVE TO SHOWN

"What's the best thing to induce chest expansion?" "Medals"—Christian Register.

HER OWN OPINION

She rouged her cheeks and blacked her brows. She put some whitewash on her nose; She dabbed some red stuff on her lips And kissed on brides in simple rows; She fastened on a hat bedecked With artificial apples and fruit, And felt as natural as a bear.

HIS NEW TYPEWRITER

Stupid Man—"I've a new typewriter, dear." "Wife (coldly)—"Indeed?" "Stupid Man (enthusiastically)—"Yes, a pretty little thing—one of the kind you can take anywhere with you and hold on your knee, and it's a machine—"

A FEW EXCEPTIONS

"The course of true love never runs smooth," remarked the maid with the quotation habit. "Oh, I don't know," rejoined the scanty haired bachelor. "It doesn't always end in marriage."

CALLED THE TURN

"Well, sir," began the man who was afflicted with the syndrome, "I am ashamed to say it, but—" "That will do," interrupted the wise and benevolent other, "and having an sprained ankle I couldn't get away."

TOUGH LUCK

"I bumped up against tough luck this morning," said the man on crutches. "How was that?" asked his friend. "Tough luck started in to tell me some of the bright sayings of his four-year-old son and then," answered the other, "and having an sprained ankle I couldn't get away."

AN HISTORICAL ITEM

The old-fashioned showman was good at repairs. Very often when the show was in the showman's side remarks were so good as to snatch victory from defeat.

(Continued from page 1.)

ment, and thus a new agency will be established for the emigration of a large body of the unemployed, who will be saved from the misery of our large cities.

Tariff Reform

The tariff reform movement arose during a cycle of trade depression in England, and when it had passed, trade returns went up by leaps and bounds. Its advocates claimed the cry that trade and industry were declining, and this provoked the clamor of the exporters to say in his budget speech, "If honorable gentlemen will examine the facts, they will find there is no need for their organized deploration."

Labor and Capital Co-operate

The improvement in the volume of our staple trades is necessarily increasing the demand of the workers for advances in wages, and thus once more drawing public attention to the problem of profit-sharing between capital and labor. It is interesting to notice that in several of the largest industrial concerns in England the difficulty is being solved by a permanent system like that adopted by the great steel and shipbuilding firm of Armstrong Whitworth & Co., Ltd., of Newcastle-on-Tyne.

Paupers in England

'At the end of April, out of an estimated population of 38,750,000, there were 185,000 paupers in receipt of relief in England and Wales. This is one of the highest figures on record, having only been exceeded in April of the two preceding years and in the four years from 1873. In London the paupers numbered 121,748. A ratio of 28.2 per 1,000 inhabitants.

It now is possible to telephone from Liverpool to Paris, Brussels, and several smaller cities and towns in France and Belgium.

Berlin to be a Seaport

It has been officially stated that before the summer of 1912 the ship canal from the Stettin to Berlin will be completed and ready for traffic. The length of the canal is eighty-two miles. The completion of the canal will enable Berlin to receive cargoes without breaking bulk from parts throughout the world. The canal won't accommodate gigantic freighters, but it will be sufficiently deep to permit the passage of the ordinary freighter.

The way not to interest a woman is to praise some other woman.

TO KILL THE DANDRUFF GERM

is the Only Possible Way of An Effective Cure

If you are a woman or a man with fastidious glossy hair, you may be free from the dandruff to amount to nothing in nearly every case where some one has tried the hair oil. Send for the prescriptions that will destroy the germ that causes dandruff. The hair oil that does not cure the scalp tells you that the germ is still there. The germ is not destroyed until the scalp is clean. The germ can only be destroyed by killing the germ and there is no other preparation that will destroy the germ but Newbro's Sapidine. "Destroy the cause, and you remove the effect." Send for sample to The Herpelite Co., Detroit, Mich. One Dollar Bottle Guaranteed.

Nest in Tin Can

A singular bird's nest was discovered recently near a hedge which bordered one side of T-B-B's athletic grounds at Acton. A cricket match was in progress, and the nest was discovered by a batsman to the field. The ball rolled against an old rusty tin can, which was found to contain a robin sitting on two eggs.

Fashion Hints for Times Readers

THE NEW-OLD CARTWHEEL PARASOL-FAN. Elderly ladies have clung to these "cartwheels," which close up and form a straight stick for church use, for years and the black and red leather folding fans have always been obtainable in the department stores. Now, by a whisk of fiddle fashion's fancy, looms the ancient cartwheel to favor for evening use, and they are so pretty and so dainty that all the summer girls are carrying them, along on the wrist by means of a bracelet loop.

The Evening Chit-Chat

By EUTE CAMERON. "HEN you don't trust me," I asked you perfectly that I'd trust you anywhere and that I feel you are safe with Carl as you would be with your own brother. "Then why on earth, mother, can't he come to call on me even if I am going to be alone in the house. I think it's perfectly absurd." "Because it won't look well, Dorothy, and we live in a world of other people."

Did you ever hear any one say they could not get good coffee except in the States?

I have heard it, scores of times, and it's one of the reasons that made me decide to go into the Coffee business. Of the Americans who visit us in summer, hundreds take home a supply of Red Rose Tea because they have never tasted such good tea before. I determined to put up a coffee that would make for itself just as good a reputation. It has not been easy, but I am sure I have succeeded.

Estabrooks' Red Rose Coffee, put up in sealed tins is—well, it's good coffee. You and your American friends will say so.

COOK SUES SOCIETY WOMAN FOR \$15,000

Mary Madden Wants That Amount as a Balm for Feelings Hurt by an Alleged False Arrest—Dispute Over 83 Cents. New York, July 23.—Mrs. Gertrude Rhinelandter Waldo, of No. 31 East Seventy-second street, mother of Fire Commissioner Waldo, was yesterday served with a complaint in a supreme court action brought against her for \$15,000 damages by Mary Madden, formerly a cook in the Waldo mansion. The damages are sought as a balm for feelings hurt by an alleged false arrest.

In September of last year Mrs. Waldo and Mary fell out over the amount of wages that was coming to the cook at the end of a certain week. Mary contended with a good deal of emphasis, that she was entitled to 85, and Mrs. Waldo said the sum due was only \$4.17. A deadlock resulted after considerable argument. Finally the luncheon hour arrived and a truce was called. Mary agreed to give up the matter for the time being, but in addition to the amount already due, the stipulation in no wise to affect the merits of the dispute. After luncheon the debate over the eighty-three cents was resumed. Mrs. Waldo finally ordered her cook out of the house, and Mary refused to go without her 85.

In her complaint Mary declares that Mrs. Waldo called for police and Police Commissioner Cunningham came to the home and arrested the cook. For the part that he played in the episode he is named with Mrs. Waldo, as one of the defendants.

Mary claims that Mrs. Waldo refused to hear her explanation or protests of innocence. Acting on Mrs. Waldo's direction the cook was "forcibly taken into custody and placed in a vehicle commonly used for transportation of vagrants and criminals, and thence transported in shame, disgrace and humiliation to the East Sixty-seventh street station."

Mrs. Waldo came to the station house to prefer a charge of disorderly conduct, and was told by Lieutenant Brown that she'd have to appear in Night Court. "Oh, I couldn't possibly think of such a thing. I have an engagement for the evening. You'll have to put her trial off until tomorrow morning."

"I'll be heard this night in court, I will," Mrs. Waldo interrupted. "This morning will do perfectly well. She'll be here tomorrow morning. I will, Mrs. Waldo added. "Well, cooks have their rights, madam," the lieutenant said. "It will have to be the Night Court."

Mrs. Waldo, finding that she would have to cut her society engagement to appear against Mary, withdrew the charge. The wage dispute was compromised by Mary accepting 85.42, the original \$4.17 offered by Mrs. Waldo plus the 25 cents for serving luncheon.

Mrs. Waldo owns a beautiful residence valued at \$1,000,000 at the corner of Seventy-second street and Madison avenue. Because she has not occupied the mansion, but has lived with her sister at her present residence, the corner home came to be known as "The House of Mystery."

Bernard H. Levy, who is Mrs. Madden's attorney, employed a process server for one month in trying to catch Mrs. Waldo.

'You're The Sign I'm Looking For'

It's mighty easy to find dealers who handle GILLETTE RAZORS and BLADES, these days.

The big blue, yellow and black signs of The Gillette Safety Razor

stand out like the head-light of a locomotive. Dealers were quick to put up these attractive signs, because the men have gotten the daily-shave habit and they want GILLETTE RAZORS and BLADES.

'GILLETTE' is the password that admits you into The Order of Easy Shavers.

Gillette dealers will gladly explain all the exclusive features of the 'Gillette', or write us for booklets.

Gillette Safety Razor Co. of Canada, Limited. 63 St. Alexander St., Montreal. 160

Daily Hints for the Cook

FRENCH DRESSING. One spoonful of salt, the same of mustard and sugar. A dash of pepper. A tablespoonful of olive oil. Mix well together, adding the oil last, stir smooth. Add two more spoonfuls of olive oil, and one tablespoonful of vinegar. Red pepper may be used instead of the black if preferred.

CORN CHOWDER. Take four thin slices of fat pork, fry out crisp, then slice in one large or two medium sized onions. Fry till tender. Slice potatoes thin, say about 4 or 6, put all potatoes into a kettle with water and boil. When

the jam, if properly made and the above instructions carefully followed, would keep for years. Some persons like a few red currants with strawberry jam.

Be careful to gather the strawberries in fine weather, as the juice will not keep nearly so well if gathered after a shower.

MORNING NEWS OVER THE WIRES. Rev. Dr. Henry W. Rugg, a prominent Knight Templar of Rhode Island, is dead at his home in Providence.

A man about thirty-two years of age was arrested yesterday in Chicago, on suspicion of being Dr. Crippen, who is wanted for the murder of his wife, in London. The police, now, have doubts as to the identity of the man, however.

The loss of eleven lives at Fort Monroe, Va., yesterday is attributed to the failure of a safety mechanism to operate successfully for some artilillerymen. General Crozier tested all the guns immediately afterwards.

It is reported that a foot and mouth disease exists among Yorkshire cattle, and if this is so, it is probable that the Canadian government will place an embargo on cattle from this place, which are frequently imported for breeding purposes.

In most parts of the province of British Columbia the fires have been beaten out by men and rains, but along the west bank of the Winnipeg river they are still raging fiercely. The C. P. R. trucks at Big Ben, B. C., were badly damaged by the flames.

DON'T BLAME YOUR SHOES

It's the fault of the feet that squares a man's gait. The shoes are only the vehicle for the feet. The feet are the engine. The shoes are the wheels. The feet are the power. The shoes are the cover. The feet are the work. The shoes are the protection. The feet are the strength. The shoes are the comfort. The feet are the grace. The shoes are the beauty. The feet are the power. The shoes are the cover. The feet are the work. The shoes are the protection. The feet are the strength. The shoes are the comfort. The feet are the grace. The shoes are the beauty.

SITUATIONS VACANT

AGENTS—Salary and Commission to sell Red, Oak Stock. Complete exclusive rights. Specially large. Grow only by sale only by one agent. Excellent fine samples. Write now to Dominion Nurseries, Montreal. 23-13.

Synopsis of Canadian Northwest Land Regulations

ANY person who is the sole head of a family or any male over 18 years old may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Land Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon acquisition of the land in each of three years. A homesteader may live within limits of his homestead on a farm of not less than 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$20.00.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$20.00.

UNION and MILL ST. STORES

July 27 to August 6

Both stores will be Closed all day Tuesday next arranging for the sale.

GIGANTIC SALE OF Boots and Shoes

A GREAT FEAST FOR BARGAIN HUNTERS

Shoe The Family at Your Price Not Ours

We Underbuy and Undersell But During This Sale We Shall Make Things "Hum"

The Money Saving Opportunity Of The Year DON'T MISS IT

We are contemplating making some alterations in our wholesale business—changing styles, makes, etc., and find it necessary to dispose of about one hundred and twenty-five lines. In order to speedily convert this immense quantity of stock into cash we have decided on conducting a Gigantic Sale at our Union and Mill Street Stores beginning on Wednesday morning next at 9 o'clock and continuing until August 6. The prices quoted will be so low that the terms of the sale must be cash. To arrange and remark stock both stores will be closed all day Tuesday next.

This is not a sale of odds and ends or out of fashion shoes but new fresh goods all purchased this season. Once the people are aware of the bargains we shall offer they will come in crowds and to properly handle the tremendous business a special staff of salespeople have been provided.

ROOSEVELT SUGGESTED AS CHAIRMAN OF A WORLD'S PEACE FEDERATION

There is printed herewith a copy of house joint resolution No. 223, which passed the house at Washington recently, and provides for action looking towards the maintenance of world-peace by the creation of an international police and by other feasible methods. Pivotal with it are commendatory and argument thereon by Hamilton Holt, of the Independent. The resolution now goes to the senate for consideration, and, if passed, it is understood that the president will sign it. Resolved, by the Senate and House of Representatives of the United States of America in Congress assembled, that a commission of five members be appointed by the President of the United States to consider the expediency of utilizing existing international agencies for the purpose of limiting the armaments of the nations of the world by international agreement, and of constituting the combined navies of the world an international force for the preservation of universal peace, and to consider and report upon any other means to diminish the expenditures of government for military purposes and to lessen the probabilities of war.

the International School of Peace of Boston, and the New England Arbitration and Peace Congress held at Hartford, Conn., on May 11. If passed it will be the first time in history that a government has officially recognized that the true philosophy of the peace movement requires world federation as a prerequisite for universal peace. In his famous essay 'Perpetual Peace' published in 1786, Immanuel Kant declared that we can never have universal peace until the world is politically organized, and it will never be possible to organize the world until the majority of the nations have a representative form of government. At last all the peoples of the world have achieved in some measure representative government. Russia has its Duma; China has announced that shortly it will promulgate a constitution, while Turkey and Persia have each just gone through the throes of revolution and emerged with a vigorous parliament. If Kant's philosophy is sound, therefore, the world is at last ready for world organization and universal peace. The only two powers that ever have or ever can govern human beings are force and reason—war and law. If we do not have one we must have the other. The problem before the world is how to decrease the area of war and increase the area of law until war vanishes and law envelops the world. At the present moment the world is organized—into fifty-nine nations claiming independence and within their territories—nominally at least—organization, law and peace prevail. We have already learned to substitute law for war in cities and states and even up to the fifty-nine nations; but in that international realm over and above each nation in which each nation is equally sovereign the only way at the present moment for a nation to secure its rights is by the use of force. Force, therefore, or war, as it is called when exerted by a nation against another nation, is at present the only legal and final method of settling international differences. In other words the nations are at that stage of civilization today, when without a quill they claim the right to settle their disputes in a manner they would put their own subjects to death for imitating. The peace movement, therefore, is nothing but the process of substituting law for war. But how can we best create law in the international realm. Certainly not by the cunning methods of the present. Today there is no such thing as a code of international law which is binding on the nations. What passes under the name of international law is simply a series of arguments, maxims, precedents and opinions. It is the work, not of legislators, but of scholars. The nations are at liberty to accept or reject it as they wish. Before we can have a real international law we must have behind it some conscious political organization to give it sanction and validity, and that implies a federation of the world. The history of international law presents striking analogies to the history of private law. Likewise, the history of the organization of 'United Nations,' which is to give sanction to international law, will correspond to the history of the or-

The Latest Picture of Theodore Roosevelt

organization of the thirteen American colonies into the United States. The United States, therefore, furnishes the model for the United Nations. The Declaration of Independence, however, have not yet officially recognized that world organization as the goal of international effort, though they have unconsciously and inevitably been driven much faster and further along this path than they realize. The passage of the Bennett bill, however, will remedy this. The creation of a world federation commission would guarantee to our own people as well as to the peoples of the world that the United States is in earnest and ready to take the lead in the only practical and promising method of obtaining international peace. It seems the destiny of the United States to lead in the peace movement. The United States is the world in miniature. It is a demonstration that all the races of the world can live in peace under one government and its chief value to civilization is a demonstration of what this form of government is. We have settled more disputes by arbitration than any other nation. In all history no men have done more to spread the gospel of peace than the two Pennsylvanians, William Penn and Benjamin Franklin. David Low Dodge of New York in 1815 founded the first peace society of the world. Two generations ago Elihu Burritt and a dozen others in New York and New England went up and down this country, and even over to Europe, urging and propounding the formation of an international court which Burritt declared when it came into existence 'would constitute the highest court of appeals this side the eternal bar of justice.' Coming

down to more recent times it is probably a fact that the late Frederick W. Hollis of New York had more to do with the establishment of the Hague Court than any one else, while Mr. Carnegie has given it a palace in which it shall hereafter sit. The United States took the first case to the Hague Court that ever came before it and the American minister at Venezuela sent the second case there, which brought all the great powers before its bar, and established it in the estimation of civilization. Mr. Barthelemy was the first man who ever stood up in a national parliament and suggested turning the Hague Conference into a real international parliament. Elihu Root planned the idea of having the Second Hague Conference create a world court modelled on the United States Supreme Court, and now Secretary Knox has announced its early establishment. It is nothing else than a plea for the federation of the world. Not since the 'Great Design' of Henry IV of France proposed in 1622, has one who has represented a great people ever promulgated so comprehensive a plan for universal peace. Mr. Taft says that if the Bennett bill becomes a law he will appoint Theodore Roosevelt as chairman of the commission. Does not the last sentence of Mr. Roosevelt's address indicate that he would feel compelled to accept the honor? He says: 'But the ruler or statesman who should bring about such a combination (league of peace) would have earned his place in history for all time and his title to the gratitude of all mankind.' If the world federation commission is appointed by the United States government with Theodore Roosevelt as chairman, can anyone believe that the day will not be brought measurably nearer, when as Victor Hugo prophesied in 1849, 'the only battlefield will be the market opening to commerce and the human mind opening to new ideas.'

Dr. Martel's Female Pills SEVENTEEN YEARS THE STANDARD Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores. Owen Sound retailers will vote on a by-law to give a bonus of \$50,000, and to secure stock for a similar amount in order to secure a dry dock there.

DOCTORS WANTED FOR THE NAVY

An Opportunity for Young Canadian Surgeons is Now Offered. The Naval Service of Canada will require the services of 3 Medical officers by October 1st, or thereafter, and examinations for the positions will be held by the Civil Service Commission within the next two months from a list of candidates to be made up from a list to be prepared by the naval department from applications received. Candidates must not be more than 30 years on the date of examination, must be fully qualified medical practitioners, must be graduates of a Canadian medical college or of Canadian birth and must have had one year's practical experience since leaving college. They will be entered for 3 years, which may be extended to 5 years. A medical officer who is discharged at the end of 3 years will be granted a gratuity of \$1,000, after 5 years the gratuity will be \$1,200, but the latter class will have to join the reserve of medical officers, will be required to serve in time of war or emergency and must bind themselves to remain in the reserve for five years, receiving a retaining fee of \$150 a year with the option of re-binding for another 3 years at the same gratuity. Such officers, when called upon to serve in time of war or emergency, will receive pay at the rate of \$5 a day and if injured during such service will receive pensions or if killed their widows and children will be given allowances. The pay on entry will be \$4 a day for the first three years, commencing \$5 a day. Each officer will be required to provide his own uniform but will be given an allowance of \$100 to cover such expenses.

I. C. R. Officials at Montreal

Montreal, July 22.—E. Tiffin, general traffic manager of the Intercolonial Railway and F. P. Brady, of the Intercolonial commission, arrived in Montreal yesterday to look after the interests of the Intercolonial Railway during the strike on the Grand Trunk. Mr. Tiffin when seen at Bonaventure station said that the Montreal end of the Intercolonial was completely tied up as a result of the differences between the Grand Trunk and their men. He said that with the Grand Trunk tied up there was practically no freight moving on this end of the I.C.R., and that the passenger traffic on the government road would doubtless drop off if the trouble continued. When asked for an opinion regarding the probable outcome of the strike, Mr. Tiffin said that he did not look for the trouble to last any great length of time and hoped that everything would be running again in a few days.

 Good programme at the Star, Seaside and Rockwood Parks.

LOCAL NEWS

The detachment of local artillery will leave this afternoon at 4 o'clock for Petta, for their annual drill. The regimental band will accompany them to the depot.

The police find strange things in the course of their rounds. Yesterday patrolman Crawford picked up a pair of trousers in King Square, and they are now in the gent's furnishing department in central station.

A little boy was found wandering about the street yesterday, evidently without knowing his bearings, so he was taken to central station, where his grandfather, W. H. Foster, Cliff street, called for him, and took him home.

A meeting of the Socialist party of Canada, St. John Local, will be held Sunday evening at 8:15 o'clock, in the Socialist Hall, 141 Mill street. An address will be delivered by F. Hyatt, on "What Socialism is, and what Socialism is not."

At the board of health offices this week several deaths were recorded from the following causes—Pneumonia, 2; celtis, senility, marasmus, meningitis, tuberculosis, cholera infantum, cerebral hemorrhage, carcinoma of maxilla, cardiac dilatation and bronchitis, one each.

The local pilgrims who went to St. Anne de Beaupre this week returned last evening about 8 o'clock, in the ship accompanied by His Lordship the Bishop and Rev. Wm. Duke. The pilgrimage was most successful, about 150 people, including twenty-five priests being in attendance. Several effective cures are reported to have taken place among the pilgrims.

The police court opened at the usual Saturday time this morning, and Judge Ritchie speedily disposed of four prisoners, three charged with drunkenness and one with assault. Fines of \$4 each were imposed upon William Connell, Bernard Vantassell and John McMullin, who each pleaded guilty to being drunk. A fine of \$20 was imposed upon Robert Tucker, who was arrested on a charge of assaulting Catherine Barrigan, in Sheffield street last night in view of Patrolman Henry, who placed him in custody. The woman was not badly beaten, but his honor said that the assault was a breach of the peace.

MARITIME BOARD OF TRADE MEETS IN CHATHAM, AUG. 17

Not Decided Yet Whether St. John Will be Represented or Not

The annual convention of the Maritime Board of Trade will be held in Chatham, N. B., commencing Wednesday, August 17. It is not yet known whether St. John will be represented or not. Last year when the board met in Chatham, J. N. Harvey notified the members that St. John would withdraw from the board as it was felt that they were not dealing with subjects of general interest to the maritime provinces, but rather with matters that were mostly of local interest. Some of the members expressed surprise at the action of the St. John delegation, while others were inclined to agree with the contention they had raised. President Snowball felt that St. John should remain in the maritime body, however, and it is possible that the local board may reconsider its action. The matter will probably be discussed at a meeting in the near future.

"HAPPY DAYS" CRUISE TO START THIS AFTERNOON

The annual "Happy Days" outing of the boys of the E. St. J. C. will commence this afternoon at 3 o'clock on the firing of a gun from the deck of the flagship "Cominius." Commodore Thomson's speedy yacht, about fifteen sail yachts will spread their wings to the breeze, while nearly the same number of motors will commence their "chug-chug," on what is hoped and expected will be a most enjoyable outing.

The following yachts will sail this afternoon: Corinthian, Zoliska, Robin Hood, Wingene, Louisa, Fryater, Sinol, Rose Canada, Possum, Fei Yuen, Armored and Savitar, while a great string of motor boats will also be in line.

The cruise will be for eight days and the objective point will be Oranocoto. The third service this year will be held at Rocky Point, by Rev. G. M. Campbell.

The Doby Courier says—The power cruising yacht Oakesella, with her owner, O. S. Dunham, of the Courier, and two guests, Capt. Howard Anderson and Mr. C. A. Lindstrom, sailed from here early this morning for St. John to join the annual cruise of the Royal Kennebecensis Yacht Club.

McNamara-Goodreau.

A very pretty wedding was solemnized in the Church of St. Leonards, Grand Falls, on the 19th inst., at 8 o'clock a.m., when Miss Lena Goodreau, daughter of Mr. and Mrs. Noel Goodreau of Grand Falls, was united in marriage to Wm. S. McNamara, of Lakewood, N. B. The nuptial mass was celebrated by Rev. Father Bohannon. The bride was prettily attired in white silk with large picture hat. She was attended by Miss McNamara, sister of the groom, who wore a costume of heliotrope silk muslin with hat to match. The groom was supported by Daniel Deacy. The many beautiful presents of cut glass, silverware, etc., showed the popularity of the couple.

After the ceremony, a wedding repast was served at the home of the bride's parents.

Miss Bertie Stone

The death occurred this morning of Miss Bertie Stone, daughter of Mr. and Mrs. Frank Stone. She leaves beside her mother and father, four brothers and four sisters.

LITTLE ANNIE DAVIS DIED THIS MORNING

Child Succumbed to Burns Received on Thursday Last—She Suffered Considerably

Death has ended the sufferings of little Annie Davis, the Clarence street tot who was so terribly burned on Thursday afternoon last. The child came at the general public hospital at an early hour this morning.

From the first the hospital doctors were unable to hold out any hope to the stricken parents, though they had been hoping against hope that the little one would recover. Both father and mother have been much with the suffering child.

At times they seemed to be recognized by the little one, and she was able when first taken to the hospital to say something of the awful occurrence. It was only to say that she had been set on fire, but by whom it was not clear. The burns, the doctors said, were not deep, but of a wide area, the legs, arms, front of the body, neck and face being frightfully burned. She suffered intensely and it was necessary to administer anaesthetics to allay the pain.

When first seen as she rushed out of the hallway of her home her clothing was a mass of flames and before the fire could be extinguished her clothes were practically burned from her body. The sight of the child running and screaming on the street is that that will not be forgotten by those who came to her assistance. That she did not meet a fate more appalling was due entirely to William Stewart, who pluckily caught her in his arms. How the affair happened will perhaps never be known, when first seen she was in flames. Those who were attracted first to the scene were Mrs. Fred Gilbrith, who saw the blazing girl from her window opposite, and Mrs. Thomas Stewart, who was in her door yard. Their cries brought William Stewart to the rescue and as he held, he took the little girl in his arms while his mother threw a pan of water over the burning clothing, extinguishing the fire. When carried into the house her sufferings were terrible, but when being taken to the hospital the ambulance she seemed to recognize her father, who was with her, and spoke to him, calling "Daddy." Her mother was grief-stricken when she heard of what had occurred, she being up stairs at the time.

The blow is a heavy one, as Annie, though but three years old, was a particularly bright child and was very popular about the neighborhood. Surviving besides she parents, Mr. and Mrs. James Davis, is one brother, Harold John, aged four and a step-sister and victim, Mary and Albert Player.

The parents of the brother of the fire came out from Bristol, England, six years ago, and Mr. Davis is employed with the York Cotton Mill. The funeral will take place Monday afternoon at 2 o'clock, the service being conducted by the Salvation Army.

THERE SHOULD BE AN INVESTIGATION

General Feeling that the Resignation of Inspector of Paving Work Should be Followed by a Full Inquiry

The statement in the Times-Star yesterday that Inspector Carleton had resigned because the Main street paving work was not being done according to what he believed to be the right specifications has caused a sensation, and there is a general feeling that the matter should be investigated, and not left to the board about the specifications, under the heading "concrete foundation," say—

"A concrete foundation six inches in depth shall be laid under the direction of the city engineer."

Another section tells how the concrete shall be made, going carefully into details, but has tacked on to it this sentence—

"The foregoing method of making the concrete must be employed unless a method equally as good or better be proposed and accepted by the city engineer."

An alderman who was interviewed this morning confessed that he had not understood the effect of this clause, and he wanted to know if it had been tacked on for a purpose.

There is a general feeling that this whole matter should be enquired into before any more work is done. A gentleman who is familiar with such work states that a six inch concrete foundation such as was set out in the earlier portion of the specifications would take much longer time in laying it than that which has been approved by the engineer, and would make a much better job.

"There should be an investigation," said a citizen this morning, "and the matter should not be left to the board of works. The aldermen owe it to themselves to let the public know all the facts before another block is laid on Main street."

JEW COMPLAINS OF ILL-TREATMENT

The Jewish residents of the city are indignant over an assault which was committed on Thursday night on one of their countrymen, Meyer Gordon, who keeps a butcher shop in Main street. Mr. Gordon says that he was attacked by three young men about 11 o'clock while walking along the lower part of Main street, not molesting anybody. The men beat him quite badly, and he will probably take proceedings in the matter.

One of the three picked up from the sidewalk a paving block of granite, and offered it to Mr. Gordon, inviting him to have a piece of candy. Mr. Gordon tried to pass by without noticing them, but they would not allow this to take place.

Boy Coach Driver Fined

A young lad, aged thirteen years, William Williamson, appeared before Judge Ritchie this morning, reported by I. C. R. Policeman Smith for going beyond the stand for coachmen and soliciting passengers at the I. C. R. depot on Thursday. He admitted the offense. His employer, Louis Kerr, appeared in his behalf and stated that the boy was a capable driver, and had a license, which he had secured for him at the mayor's office. Kerr was called upon to pay a fine of \$2 for the boy.

His honor expressed himself as being strongly opposed to allowing young lads to drive vehicles—especially those which contain passengers. There was too much of it being done, he said, and it was dangerous to people to trust themselves cooped in a back with horses driven by boys of thirteen. It was strange that a license had been granted to such a young lad.

DON'T SPEND TIME AND MONEY ON AN OLD STOVE

There is no time like the present to buy a range. If your old stove don't draw, if it don't bake even, if your centres and covers are cracked, it is time for you to consider the stove question. You may spend \$5.00 or \$10.00 in repairing the old stove, but it won't last long and you will be out money in the end. But if you take the money you would spend on the old stove and put it to a new range you would be making an investment that will pay you. A Glenwood Range put up in your kitchen will improve its looks, make your cooking easy and you will have satisfaction and will have made an investment that you won't regret.

Only Half-a-Day to do a Full Day's Business

Our Mid-Summer Sale of Men's and Boys' Clothing and Furnishings closes today at one o'clock with the closing of the store for the day.

This Sale has created the greatest interest and enthusiasm among the people of St. John. Each day has added to the Sale. Today (Saturday) the wind up of this extraordinary Sale will take place.

We have laid plans to take good care of a whole day's business in half-a-day, and give you our usual prompt and careful service.

Get here early, hundreds of opportunities to save money on needed and serviceable merchandise. A splendid opportunity for those about about going on their vacation.

Don't let anything keep you away if you've not been here before.

KING STREET COR. GERMAN **GREATER OAK HALL**
SCOVIL BROS. LIMITED, St. John, N. B.

TOURISTS WILL BE INTERESTED IN THIS SPECIAL SHOWING OF IMPORTED Gloves, Wool Rugs, Sweaters and Linen Handkerchiefs

Visitors to St. John will find this interesting department stocked to capacity with things travellers need and which may be purchased here so much more advantageously than across the line. The following suggestions will be appreciated when you see what unusual values are shown.
