THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, NOVEMBER 27, 1920

### The Evening Times and Star

ST. JOHN, N. B., NOVEMBER 27, 1920.

The St. John Evening Times is printed at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act. Telephone—Private exchange connecting all departments, Main 2417. Subscription Prices—Delivered by carrier, \$4.00 per year by mail, \$3.00 per year in Canada. By mail to United States \$5.00 per year.

The Times has the largest circulation in the Maritime Provinces. Special Advertising Representatives—NEW YORK, Frank R. Northrup, 303 Fifth Ave.—Chicago, E. J. Power, Managers, Association Bldg. The Audit Bureau of Circulation audits the circulation of The Evening Times.

### A SPUR IS NEEDED.

What has happened to vocational training in St. John? In other cities and towns in the province evening classes are getting down to work or have already done so, and there is the same keen interest on the part of working boys and girls, and even men and women, as was shown in St. John last winter—and would be shown here again if the proper classes were organized. Have we a thoroughly alive and united vocational training board? If so, why is it not heard from in a manner that would put the whole matter strongly before the citizens?

### WAGES AND PRODUCTION.

Employers of labor have been saying that unless production increased they could not go on paying a high scale of wages. They have said that what really happened in the last few years has been an increase in wages but a decrease in production. As one very striking illustration, says an exchange, some statistics published by the Associated Employers of Indiana are of importance. These deal with the pay and work of bricklayers, showing the different wage scales and the different production records for various years between 1909 and 1920 as follows:

Year	Rate per hour	Bricks per day
1909	\$0.55	1,100
1910	.65	900
1911	.80	614
1912	1.00	587
1920	1.25	541

The only way the employer could get a regular percentage of profit on a contract under these conditions would be to pass the increase of cost on to the owner of the house. It was not merely the latter would have to pay the increase in wages, but the smaller quantity of bricks laid would add a great deal more to the cost. The actual increase would be the difference between laying 1,100 bricks for \$4.40 and 541 bricks for \$1.25. The increase would not be nearly so large if a man laid as many bricks for \$1.25 an hour as he laid in 1909 for 55 cents.

It is possible that this instance is a very extreme case, but there is no doubt at all that with higher wages in the last few years went lower production. Today, with people holding off from buying, it is clear that prices must come down. If wages are not to be lowered, then production must increase to the point where every man will do as fair a day's work as he did when wages were much lower. This is recognized by intelligent workmen, who find themselves confronted in many industries with the choice between more satisfactory work or no work at all. Moreover there are more people looking for work, and every increase in their numbers is bad for the whole country. It is therefore the more necessary that labor and capital get together and adopt the policy which will keep the wheels turning during a period of depression that may last for some time. This is not a time for a clash of interests, but for the exercise of hard common sense by both parties to industrial disputes.

### CIVICS IN WINNIPEG

There is a split in the labor party in Winnipeg. It has developed in connection with the civic elections. There is a dispute between what is called the Dominion Labor Party and the Trades and Labor Council. One result is that in one ward there are eight labor candidates competing for four seats, and a man nominated by the first named party as a mayoralty candidate has repudiated the nomination and will run as an independent. Canadian Finance, however, predicts that the majority in the ranks of labor will get together on polling day, and wants to know what those who are not officially connected with organized labor propose to do. With them, it says, united effort is the exception rather than the rule, and their energy is saved until after the election, and then used in useless criticism of the administration. For their benefit it says:—

"We have election machinery which, despite some defects, should enable the citizens to secure representative government. Election machinery requires power with which to drive it. The necessary power is generated by the activity of the citizens. If one class of the citizens fails to provide its share of the power the machine does not work properly, with the result that it does not produce representative government. If we are satisfied with class domination we can safely proceed in the present state of apathy toward civic matters, but if we are real citizens we shall not be content with this. We can afford to take a few lessons from labor."

The balance of trade is now against Canada. The development of export trade is very desirable. Meanwhile wheat is being held back. This condition will doubtless be changed before spring comes.

It should be made known through the province generally that those who come to St. John seeking work this winter will be disappointed, as from present indications there will be an ample supply of local labor to meet all demands.

### BRITISH PAPERS ON IRISH BILL

London, Nov. 26.—(By Canadian Associated Press)—Discussing the passing of the second reading of the Irish bill, in the House of Lords the London Daily Telegraph says editorially that the debate showed more clearly than ever that there is no real alternative to the present measure.

The Telegraph says that all hostile criticism reduces itself to vague hints and undefined complaints that the measure will not satisfy everybody in Ireland. All the angels in heaven could not devise a form of government which would satisfy everybody in Ireland just now, continues the paper, but critics and objectors, whether in parliament or in

#### THERE'S NO RULE.

Old Gaffer Jinks should be a wreck; for eighty years he's been on deck; and when a man has lived that long his cylinders are hitting wrong in thirteen cases out of ten, but he's a wonder to all men, for he is chipper blithe and spry, and we all stare when he goes by. And if you ask him for the truth concerning how he's kept his youth, he'll say, "I never smoked or chewed, and no one ever saw me stewed." And this should teach us how to hold the health of youth, which is life's gold. Beware the flagon and the pipe if you would reach an age that's ripe! But now old Gaffer Todd appears, and he has lived for ninety years, and he's so brisk and full of pep it thrills us when we see his step. "How have you dodged," I ask this Todd, "a resting place beneath the sod?" "I've always chewed and smoked," says he; "I like a drink and sometimes like a pipe. And thus we learn, so keep us Mike, that we should do just as we like, if we would live to wintry years with supple joints and active gears. Some men, methinks are pre-designed to leave a hundred years behind, and they will see the journey through—makes no difference what they do."

### CANADA—EAST AND WEST

Jointer Meetings of Other Days

#### THE RIGAUD COUNCIL

Fearing for the success of his undertakings in New France, Montcalm the great French general, called a council of the Indians to meet at Rigaud, Que., in the middle of the summer of 1757. He was very anxious that the braves should give the French every assistance in the struggle against the English and also that there should be a state of peace between the various tribes of the country. Forty-one tribes and sub-tribes from many parts of the northern land then known came to the feast and council.

It was a wonderful meeting with the leaders of the Canadian Indians sitting in silent rows and smoking their great pipes. What was passing within the minds of the stalwart warriors no one could fathom. Some complained that the picturesque gathering was being handicapped by the great number of French officers who crowded in to hear and see and so Montcalm had to arrange for better accommodation for the native lords. Montcalm explained what he planned and waited for a reply. Pennahouch, chief of the Ottawa rose and said: "My father I have counted more moons than any here. I thank you for the good words you have spoken. Nobody ever spoke better of the Manitou of Wasikensick rose and declared that the Master of Life was on their side and that he expressed the appreciation of the braves for Montcalm personally.

#### When We Wound Up The Watch On The Rhine

Narrative of Canadian Participation In The Occupation of Germany After The Armistice

(Continued from Thursday.)

One often reads nowadays of motor cars or trucks, loaded with the spirit of Bacchus being seized while on the way from Canada into the United States, but to become temporary keepers of a whole vessel load of French wine was the questionable honor that fell to a portion of the Second Canadian Division while on the Rhine two years ago tomorrow.

On November 28, the division broke camp in the town where they had rested during the two days previous, just north-west of Namur and after passing through that city swung into the road that leads eastward along the beautiful banks of the Meuse. Passing along the flagged streets of the city, the horses and vehicles rumbled through the still hours of the morning in very much the same manner as other horses and other vehicles had rumbled over the same streets more than four years before. But the time the noise was not so ominous as the previous one had been. The terror-stricken faces that peeped from under drawn shades and watched the invading Prussian rider sweep through to the westward—ages and ages ago it seemed—now projected from this window and that a "bon voyage" was shouted to the khaki figures and drab guns and wagons which had disturbed their early morning slumbers as they set their faces to the rising sun and the home of the erstwhile invaders.

#### GHOSTS.

I would be alone, but ghosts pursue me; They walk beside me with noiseless tread. Out from the shadows they throng to view me— The curious wraiths of my self that is dead.

From the fields of the past, over hill and hollow, Each for an instant will come and cry, "You must leave me. I follow. I follow! You cannot leave me— you once were I."

A barefoot lad, with his fellows playing, Looks up and smiles from the grassy slope, "Why do you start?" I can hear him saying, "Do I look like some one you used to know?"

Still they accost me and still importune, "Where is the good you were going to do? When are you going to make my fortune? Ah, that you were I! Ah, that I were you!"

#### IN LIGHTER VEIN.

They Admitted It. "Of course," said a suffragette lecturer, "I admit that women are vain and men are not. There are a thousand proofs that this is so. Why, the necktie of the handsome man in this room is even now up the back of his collar."

There were six men in the room and each of them put his hand gently behind his neck—Home Journal.

She Wanted to Know. A young woman at the World's Series was heard to inquire: "What's that man running for?" "He just hit the ball," said her escort. "I know," she returned, "but is he required to chase it, too?"—Boston Transcript.

"I must say," remarked the derisive person, "that a man looks ludicrous in the clothing his wife goes out and buys for him."

"Maybe," replied Mr. Growcher, "but not any more ludicrous, in my opinion, than his wife looks in the clothes she goes out and buys for herself."

#### THE HARD LUCK CHAMPION

Since June Has Fallen From Haystack, Been Hit by Boulder and Fallen Down Stairs.

Washington, Nov. 27.—Representative Mondell of Wyoming, Republican leader of the House, was confined to his bed today as a result of the third accident he has suffered since Congress adjourned last June.

While he was ascending the steps at his home here this week a crutch, which he was using as a result of a previous injury, broke, causing him to sustain a severe fall.

Soon after returning to his Wyoming home last June Mr. Mondell fell from a haystack on his farm and suffered two broken ribs. The second injury, a broken leg, occurred in October, when a boulder rolled down upon him while he was inspecting construction work at the Shoshone Dam. Examination of this injury by a specialist this week was said to have revealed that the bone was knitting improperly and probably would have to be broken.

### "CLEAN HANDS" FAD HITS WEST NEWBURY

West Newbury, Nov. 27.—School-girls in this town are enjoying many a quiet laugh nowadays at the expense of the boys because of the latter's efforts to keep their hands in good condition especially to keep their finger nails clean.

It all came about through the efforts of Miss Moody, a new school nurse who insists that each pupil shall hold out his or her hand for critical inspection. The girls declare that just before the session begins the boys spend the last few minutes in the dressing rooms busy with nail files and orange sticks so they will pass the critical inspection of the nurse.

While manufacturing has not been definitely incorporated into the prescribed course of study, nevertheless it is being enforced for hygienic reasons, and boys and girls with a tendency to bite their nails have been rebuked.

Frank Gowen, chairman of the School Committee, who has three children in the schools of the town, was unaware that the pupils' hands were being examined until he was told last night by his children, but he agreed that the inspection of hands was of great value to them later. He said he had received no complaints from the parents opposing such an inspection.

The problem of the boys has been particularly perplexing, the claim being made that the most of them have to do

### Rheumatism

A Remarkable Home Treatment Given by One Who Had It.

In the Spring of 1893 I was attacked by Muscular and Sub-Acute Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with rheumatism, some of them 70 to 80 years old, and results were the same as in my own case.

I want every sufferer from such forms of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of getting rid of your rheumatism, you may send the price of it, one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when relief is thus offered you free? Don't delay. Write today.

**Why Pearls Are Popular**

Pearls are today the favorite neck ornament of womankind. Just why they are so popular is little understood. Here is an expert's opinion:  
"Pearls—because of their peculiar sheen—are 'complimentary' to every complexion. Blondes and Brunettes alike can wear them with equally good results. The roundness of the pearl and the soft drupe of the string add to their charm. Any colors may be worn with them."

"We have made a close study of the pearl situation and have been successful in acquiring a stock of the best grades hard to duplicate as they are extremely scarce."

**RECENT WEDDINGS**

A wedding of interest to many in the city and in Kings county was performed at the residence of the bride's parents at Smithtown, Nauwigewauk, on Thursday, Nov. 25. The bridegroom, Harry L. Campbell, of St. John and Westfield, is well known in the city, having been engaged in the street car service for some three years or more. The bride, Annie M., daughter of William Allan Beyer, of Smithtown, was a popular school teacher at Westfield and elsewhere. The ceremony was performed by Rev. W. H. Johnson, of Hampton, and a large number of guests from an extensive circle of relatives attended. The bride, dressed in white silk, was conducted to the assembled company on the arm of her father. A dainty lunch was served at the close. The presents were numerous and both useful and beautiful, including bed and table linen, cut glass, silverware and china. Mr. and Mrs. Campbell expect to make their home in North End, St. John.

A quiet but pretty wedding took place at the home of Mr. and Mrs. Roy Orr, Sussex, on Monday, Nov. 22, at 1 o'clock when Miss Nora Mildred Stuart, youngest daughter of Mrs. Celia A. Stuart, was united in marriage to William Galloway, of Chatham. Rev. J. D. McElfron performed the ceremony. The bride looked charming in a Foch blue jersey dress, black satin hat, with gold trimming and wore a black fur coat and corsage bouquet of American Beauty roses. After the ceremony a dainty lunch was served, and the bride and groom left on the C. P. R. for a short honeymoon trip to Truro and Halifax. On their return Mr. and Mrs. Galloway will reside in Chatham. The bride received a large number of beautiful gifts in silver, cut glass and china.

A quiet wedding took place last night at 315 Germain street, when Miss Minnie Campbell, the daughter of Mr. and Mrs. E. Campbell, of Digby (N. S.), was united in marriage to Harold Sheehan, of this city. The bride was attended by her sister, and the groom was supported by Walter Lashley. The ceremony was performed in the presence of a small circle of friends by Rev. Neil McLaughlin. Mr. and Mrs. Sheehan will reside at 22 Carleton street.

**RECENT DEATHS**

The death of Mrs. Robenia A. wife of E. J. Bowmar and daughter of Mrs. Susannah and the late William Dunlop, of Passaic (N. B.), took place at her home in Canton (Mass.), on Nov. 23, after a lingering illness. She leaves her husband three sons, Robb, Melbourne and Ewing, all at home. She was a consistent member of the Methodist church.

Fred G. Trites, son of the late Thomas T. Trites, of this city, died recently at his home in Winnipeg, at the age of forty-five years. He leaves one brother, Arthur, of Boston, and two sisters, Miss Lillian and Miss Bird, Wright street.

A fire call was rung in from box 241 yesterday afternoon at 4 o'clock. No. 4 fire department responded to the call, which was of a small nature, being a chimney fire at Robinson's bakery in Celebration street. All out was sounded at 8 p. m. No serious damage was reported.

## ROW IN U.S. ARMY OVER PROMOTIONS

Junior Officers Promoted Over the Heads of Senior Officers—Said to Be Favorites of Pershing.  
Washington, Nov. 27.—A tremendous row has broken out in the army over the promotion and transfer of 15,000 officers and it destined to be aired in the Senate when the appointments come before that body for confirmation.  
About 5,000 of these appointments are to fill new positions created by the Army Reorganization Act of June 4, 1920, while the remaining 10,000 are promotions to fill vacancies and transfers from one arm of the service to another or between the line and the staff.  
The controversy is raging particularly around the appointment of 84 new general officers, all chosen by selection, many of whom have jumped over the senior. Most of the officers promoted to be Major-Generals and Brigadier-Generals are said to be favorites of General Pershing, Chairman of the Selection Board, and of General March, Chief of Staff.

## NEW LINES OF ACTIVITY PLANNED BY DIRECTORS

Decisions and resolutions of unusual moment were in order at the conference of physical directors representative of the Y. M. C. Associations throughout the maritime provinces held at the local association building yesterday. The conference included morning and afternoon sessions.

During the afternoon session the basketball championship was considered. It was decided that any bona fide member of the Y. M. C. A. is eligible to represent his local association in any Y. M. C. A. championship. It was decided to form a New Brunswick Y. M. C. A. basketball league of "home and home" games between St. John, Moncton and Fredericton and, if possible, the winners to play off with Nova Scotia and Prince Edward Island to decide the maritime championship. A challenge trophy is being procured for the games.  
The question of volleyball was referred to the maritime physical directors' committee.

A new indoor game of gymnasium hockey was introduced by Mr. Dawson of Halifax. The rules were outlined and each association expressed its willingness to promote the game. A new feature in indoor games, called "indoor soccer" was explained. It is played with a seventeen inch indoor baseball and the same rules as outdoor soccer govern it with the exception that a team is limited to five men.  
It was moved and carried that the articles of alliance between the Y. M. C. A. Athletic League and the A. A. U. C. be revised. The following resolution was adopted: "We believe a better understanding can be obtained by having all Y. M. C. A. athletes take out registration cards when taking part in open competition; that the Y. M. C. A. Athletic League merely retain the right to sanction the competition between local branches; that we feel that the A. A. U. C. should reconsider the rule 'once a professional, always a professional.' We consider that this rule is unfair to athletes and not in the best interests of sport. We recommend a term of suspension of varying lengths for different violations of amateur rules."  
In discussing the Dunlop trophy road race, it was requested by Moncton that the settling of that point be left to the maritime physical committee. The national contest for Trail Rangers and Tuxis Boys was approved by the conference and all present decided to co-operate in conducting the events.

## MONCTON POST OFFICE CASE

Further evidence was taken yesterday in Moncton in the case against Willard Dow, who was arrested here, William Palmer, Harold Jamieson and Lawson Stewart charged theft from the mails. Dow was on the stand and admitted opening letters of the T. Eaton Co. He also confessed to stealing a quantity of silverware from the post office. He denied that any person representing the Crown had held any inducement to him or promises of immunity by the hold all he knew. The case was before Judge Steves. George L. Harris appeared for the postal authorities, James Friel, K. C., for Jamieson and James C. Sharron for Palmer. Dow is represented by Edson E. Peck of Albert county. Jamieson and Stewart are out on bail.  
Injuries to the face and a fractured nose resulted when Henry Carter, a stevedore, of 88 St. James street, was struck by a sling while unloading sugar

**UNEMPLOYMENT IN CANADA BECOMES SERIOUS MATTER**

Great War Veterans to Appeal to the Government

Canadian Press Despatch

Ottawa, Nov. 26.—That unemployment throughout the dominion and particularly in the industrial centres was becoming a more serious problem every day was announced by C. G. Macneil, dominion secretary of the Great War Veterans Association, today. Mr. Macneil was in receipt of a telegram from all sections of the country urging the dominion executive to take steps to prevent the unemployment problem from becoming a permanent one. He urged the dominion executive to take steps to prevent the unemployment problem from becoming a permanent one. He urged the dominion executive to take steps to prevent the unemployment problem from becoming a permanent one.

In view of the urgency of the demands being made on the dominion executive it is likely that they will petition the government and ask for increased activities and co-ordination of the part of the government employment agencies and for a policy of placing government contracts with the slack seasons.

Manufacturers to Aid.

Toronto, Nov. 26.—At a joint meeting of the Ontario division executive and the Toronto branch executive of the Canadian Manufacturers' Association here today the unemployment question was discussed. It was decided to recommend that all manufacturers should do everything possible to prevent the suspending of work in their plants where it was possible to keep them employed, and that, where a reduction of the working time was regarded as necessary, the reduction should be carried out by closing for short days, rather than for parts of days, so as to minimize factory disorganization and inconveniences to the workers.

**FINANCIAL TROUBLES IN THE STATES**

Fargo, N. D., Nov. 26.—Two more banks in Dakota closed their doors today as a result of depleted reserves, bringing to fifteen the number of financial institutions that have shut down for similar reasons in the past two weeks. Those closed today were the Farmers' and Merchants' Bank at Sherwood, and the Mercantile Bank at Bismarck.

Lawrence, Mass., Nov. 26.—The U.S. wool mills of the United States Worsted Company were closed indefinitely today because of a lack of orders. The plant has been running only two days a week for several weeks. The reduction of work affects about 1,000 operatives. In the making of cotton goods the situation is similar.

Condensing Factories Shut. Omaha, Neb., Nov. 26.—Prediction of a serious drop in the price of milk and butter prices was made in an address at the Chamber of Commerce today by George M. Wilber, of Mayville (O.), president of the executive committee of the National Wool Growers' Association. "There is a serious drop in milk and butter prices because Danish butter will not be coming at the rate of 600,000 pounds a month," Mr. Wilber said. "At the same time," he added, "more than 1,000,000 worth of domestic evaporated milk is piled up in New York. It cannot be sold for lack of export demand and condensing factories are closed all over the country."

Arch Factories Idle. Fort Fairfield, Me., Nov. 26.—Several of the Aroostook county starch factories here were closed because of falling prices of finished product.

Danbury Hat Plants Close. Danbury, Conn., Nov. 26.—Several hat factories here shut down today and many more are running on short time. There is no demand for hats.

### ARMY AND NAVY ANNUAL MATCH THIS AFTERNOON

Picture of Pomp and Splendor at Game—Difficult to Obtain Admission—Games to Date About Even.

(The Associated Press)

New York, Nov. 27—Amid a stage setting unique and different from any other football game of the year, the Army and Navy eleven will play their annual gridiron contest at the Polo Grounds here this afternoon. Other inter-varsity football struggles may draw greater attendance of spectators or be surrounded with greater tradition and classic atmosphere but none approaches the battle of the eleven from the United States Naval and Military academies for martial pomp and splendor.

Strange Sights. The marching West Point Cadets and the Annapolis Midshipmen, headed by blaring bands, the Army Mule and the Navy Goat present a picture entirely foreign to any other field of American football. The huge rectangular blocks of cadet gray and the sailor blue, where the rival academy cheering squads are located on opposite sides of the field supply a color scheme not matched in any football stadium in the country.

There is, in addition, a marked difference in the appearance of the spectators as a whole. Field boxes and grandstands are flecked with the gold braided and starred uniforms of distinguished naval officers sitting shoulder-to-shoulder with generals, colonels and captains of the army. In the more drab uniforms of the civilian may be seen high officials from Washington diplomatic circles while filling in the background of the scene may be found thousands of plain football enthusiasts who never miss the opportunity to witness the Army-Navy game, the closing act in the gridiron drama of the year, providing they have enough influence to secure tickets from the few available sources of supply.

Hard to Get In.

Admission cards for the Army-Navy game have always been hard to procure whether played at Philadelphia, Princeton or New York and seldom has there been a public sale of coupons. This season the situation, so far as seats are concerned, is undoubtedly the worst in the history of the series between the two arms of the service. In keeping with the popularity of football in general this fall the demand for tickets for the Army-Navy game has far surpassed and previous year. While the Polo Ground stands have been enlarged to accommodate close to 80,000 spectators, fully that number of persons have made application for seats from either the athletic association of West Point or Annapolis or through prominent government officials who are supposed to have entree to the custodians of the precious pasteboards. The few tickets which have fallen into the hands of speculators are bringing fabulous prices and are being snapped up without hesitation or haggling by those who are determined to witness the play regardless of the cost.

Viewed from certain angles the game is worth the prices being asked by those who have tickets to sell for the atmosphere and setting are that of a huge open-air spectacle filled with music, cheers and action such as never seen outside this particular and distinctive American athletic contest. The rival academy cheering squads armed with megaphones and brilliant colored streamers furnish the noise while the 22 rival players on the field supply action and thrills equal to any developed by the best of the big "Varsity football classics.

Past Years' Record.

No keener rivalry or harder play is ever seen in any gridiron climax in any part of the country than that displayed in the football meeting of the Soldiers and Sailors.

Close and exciting contests are the rule rather than the exception and the very intensity of the series is shown by the almost equal allotment of honors after 22 years of play. Since 1890, when the initial game was staged, the Army has won 11 games and the Navy ten with one—that of 1915 played at Princeton—resulting in a 6 to 6 tie.

### THE MEMORIAL FOR LAURIER

Canadian Press Despatch

Ottawa, Nov. 26—Selection will shortly be made of the design for the national memorial which will be erected at the grave of the late Sir Wilfrid Laurier at Notre Dame Cemetery, Ottawa. The sub-committee of the national committee named towards the close of the last session of parliament was in session in one of the caucus rooms of the House of Commons today for the purpose of going over the designs received as the result of an offer of a first prize of five hundred dollars for the best design and two other prizes of two hundred dollars each for the two next best.

In all fifty-seven designs were received and of these all but twenty were eliminated from the competition today by the six members of the sub-committee present: Hon. Sidney Fisher, chairman, Hon. W. L. Mackenzie King, Hon. Rudolph Lemieux, Senator Dandurand, Hal McGivern, ex-M. P., Ottawa, and P. C. Larkin, Toronto.

Mr. Fisher stated that the twenty designs which still remain in the competition include a number of unquestionable merit and it is probable that one will ultimately be chosen as submitted or with some suggestion as to allocation.

### CLASS ENTERTAINED.

The "Everready" class of the Central Baptist Sunday school met at the home of their teacher, Mrs. S. K. McArthur, High street, to discuss plans for the winter's work. The officers of the class are: President, Miss Marion McFarlane; vice-president, Gladys Dykeman; secretary, Mollie Collier; treasurer, Mildred Mc-

Knight. After various subjects had been dealt with, the rest of the evening was spent in singing, games and social intercourse.

### CAN THIS BE TRUE?

(Halifax Recorder.)

For some reason or other, the newspapers of the United States have always been very reticent about the movement of immigration northward into Canada, while the movement in reverse always attracted their attention. Now, how ever, the press of the great republic is sitting-up and taking notice. A few days ago a prominent New York paper actually published the fact that good reliable citizens were really leaving the Western States and settling north of the boundary line, but at the same time was careful to let its readers know that a larger number were crossing the line from Canada than the other way. Dur-

### ING THE FIVE YEAR PERIOD ENDING MARCH 31ST, 1919, THE NUMBER OF EMIGRANTS ENTERING CANADA FROM THE UNITED STATES REACHED A TOTAL OF 270,174, WHILE THE PERSONS MOVING FROM CANADA TO FIND HOMES IN THE REPUBLIC WERE 60,000. IT THESE ARE FACTS, THEN FOR THE LAST FIVE YEARS THE EVOLUS TO THE CANADA HAS BEEN PRACTICALLY CEASED. THE NEW INFORMATION IS VERY DISAPPOINTING BECAUSE, IF OUR COSTLY IMMIGRATION POLICY HAS ONLY BEEN BRINGING PEOPLE TO CANADA THAT THEY MAY SKIP ACROSS THE BOUNDARY TO SETTLE IN THE STATES, THE WHOLE THING IS NOTHING BUT A COSTLY JOKE AND CALLS FOR A RADICAL CHANGE. CERTAINLY BEFORE ANY GOVERNMENT HELP IS GIVEN TO INTENDING IMMIGRANTS, SOME GUARANTEE SHOULD BE SECURED THAT THEY WILL REMAIN IN CANADA AS BONA FIDE SETTLERS.

London, Ont., Nov. 27—Tony Zoccano, a professional pugilist, who has sought in various Canadian and American cities, and who during the past few years has operated a tire-repair shop here, narrowly escaped suffocation when his building took fire. An overheated furnace filled the place with smoke and Zoccano awakened when almost overcome. The loss is estimated at \$2,000.

### EGYPTIANS WANT TO KNOW

The secretary of the Board of Trade has received the following letter of enquiry from a business corporation in Mansoura, Egypt:

"With reference to the advertisement in the Times Trade Supplement (Special Canadian number), we shall be glad to have further particulars with regard to the Province of New Brunswick." The advertisement referred to was one that the city council recently published in the London Times Supplement. Information along the lines asked for will be forwarded to the Egyptian firm for the Board of Trade office.

### NEARLY SUFFOCATED.

London, Ont., Nov. 27—Tony Zoccano, a professional pugilist, who has sought in various Canadian and American cities, and who during the past few years has operated a tire-repair shop here, narrowly escaped suffocation when his building took fire. An overheated furnace filled the place with smoke and Zoccano awakened when almost overcome. The loss is estimated at \$2,000.

# The Coming War Between The "Closed" and "Open" Shop

In the belief that the "open-shop" crusade is intended to undo everything union labor has accomplished and to "feudalize America," the heads of the American Federation of Labor are making war plans. These labor leaders agree "that a united front must be presented to these attacks, and that every unwarranted attempt to reduce wages and working conditions to prewar levels must be resisted with every legitimate weapon." Thus, as the Baltimore Sun notes, labor and capital are lining up for a finish fight. The leading business interests "will bargain collectively with labor only when forced to do so" and "a concentrated campaign of the employers' interests already has been launched against organized labor on the reaffirmation of the 'open shop' principle and on the stand that wages must be reduced as part of the process of deflation."

The labor situation is probably the biggest problem that confronts the great mass of the American people today, and as this article in the "DIGEST" this week—November 27th—presents opinions from all sides, it will be read closely.

## Hard to Decide What To Do With the Grant

**Local Council of Women Has Surplus After Paying Bills for Entertainment of National Council and City's \$500 is Not Needed—Considering Plan for Story-Telling Hour on Big Scale.**

The statements of expenses incurred in entertaining the National Council of Women were submitted at the meeting of the St. John local council yesterday afternoon in the Board of Trade rooms. They showed that through tireless energy and faithful labors, as well as ready generosity of the members, receipts from sale of the souvenir book, of tickets for luncheons, of life-memberships and of seats for a concert had amounted to \$2,386.67 while expenses, including entertainment of delegates, printing of the souvenir book, hire of hall and all other incidentals had amounted to \$2,018.90. The balance on hand was announced to be \$367.77 and the city's grant of \$500 for entertaining the delegates was received at the meeting, making the total balance \$867.77. No decision as to whether the civic grant should be returned was reached at the meeting but the matter was left for a later meeting. Mrs. W. Edmond Raymond presided, in the absence of the president, and she brought before the meeting a proposal to develop the story telling hour now established in connection with the public library by accepting W. H. Golding's offer of the use of the Imperial theatre for this purpose.

The proposal was favorably received but this matter also was left for the decision of the next meeting. The corresponding secretary, Miss Etta Millican, read the council's large budget of letters. Mrs. E. Atherton Smith wrote regarding the business of the meeting. T. M. Burns of the local board of health wrote that the matter of the appointment of Mrs. Edmund Flewelling to the permanent office of food inspector would receive consideration. H. R. McEllan, secretary of the Commercial Club, wrote in reply to an expression of the thanks for the sail on the St. John river given the members of the National Council. Miss Harris of the D. S. C. R., thanked the council for the opportunity given of exhibiting at the national meeting the vocational work of soldiers. Mrs. Thomas McCauley sent thanks for life-membership presented. Mrs. J. H. Doody thanked the council for sympathy in her recent bereavement. Mrs. Cameron, Peterboro, wrote to tell of her willingness to act as delegate for the St. John council to the meeting of the executive of the national council at her home city. A. C. Skelton wrote to say the appreciation which the council had expressed of the behaviour and services of the Boy Scouts at the luncheon given at the National Council at the Manor House had greatly pleased the boys and the association. He asked that the council support the scout movement whenever possible and offered the scouts' assistance at all times. Many expressions of sympathy in the movement and purpose to help the scouts at every opportunity.

Mrs. Woodhall, of Calgary, wrote to ask for information as to the entertainment of the National Council in St. John and expressed the hope that she would be able to welcome some St. John delegates to the Calgary meeting. When the business of the meeting was taken up, Mrs. J. Willard Smith announced that when asked if the council would hold a rosebud tag day on Alexandra day this year as it had done in previous years in support of the Children's Aid Home, the mayor had said: "Daughters of Israel had authority to hold a tag day first and the council's tag day would have to be postponed until the first of the year." Miss Pratt, in behalf of the Children's Aid Society, voiced appreciation of the support which the council had given, without which the society could not carry on. Mrs.

the St. John exhibition and Mrs. A. W. Estey, as the secretary of that exhibit, told of the letters received from mothers throughout the province who had been very greatly interested in and helped by the exhibit. On the motion of Miss Leavitt, seconded by Miss Estey, it was decided to send a letter of sincere regret at her departure from St. John to Mrs. Thomas McCauley.

## LONDON HONORS SLAIN OFFICERS

Canadian Press Despatch. London, Nov. 26.—Final military honors were paid here today to two victims of Sunday's assassinations in Dublin. Londoners by thousands massed themselves in the streets along the route of the funeral procession. The coffins of the two men were borne on gun carriages to Westminster Abbey and the Westminster Catholic Cathedral, where the imposing religious ceremonies were attended by representatives of King George, by Sir Hamar Greenwood, secretary for Ireland, as chief mourner and Premier Lloyd George and many others.

## OHIO STEEL MEN WILL CUT WAGES

Canadian Press Despatch. Pittsburgh, Pa., Nov. 26.—Reduction of steel prices established by the United States industrial board March 21, 1919, developed here today when the Jones and Laughlin Steel Company, the largest of the independent interests, adopted new selling rates on certain finished steel products.

Youngstown, Ohio, Nov. 26.—Independent steel companies of the Youngstown district, employing about 30,000 workers, announced today they will meet the reduction of prices announced today by the Jones and Laughlin Company of Pittsburgh, the cut to be effective at once. Heads of the three largest independent corporations have declared a readjustment in the cost of both coal and labor will have to follow. They said that wherever labor costs with the independent

ment are higher than the United States Steel Corporation, the wages will have to be reduced.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., SATURDAY, NOVEMBER 27, 1920

### BIG QUESTION FOR THE MEETING AT GENEVA

Lord Robert Cecil, one of the chief authors of the League of Nations who, it is said, will support the proposal of immediate admission of enemy states to the league.

### MAN SHOT IN BUSH DIED ON STRETCHER

St. Stephen, Nov. 26—Some particulars of the tragedy at Brockway, Fork county, were available today. The victim was Carleton Vail, thirty-one years of age. Carleton Vail was working with others at a lumber camp four miles from the village, but was alone when the accident happened, his companions being deeper in the woods. He was standing on a log near the camp trimming it with an axe, when a shot rang out and a bullet pierced his left leg just above the knee, this happening about 10 o'clock Thursday forenoon. James Vail, aged fifty, an uncle of Carleton Vail, who fired a shot, is confident that the object he shot at was a deer which got away. He is quite deaf, but is known as an expert and very careful woodsman by men who have been in the woods with him.

Companions came quickly to the aid of the injured man and he was carried to the camp where first aid was administered. The wound was severe, the bone being shattered, and the victim suffered severely. Some delay occurred in summoning a physician, but Dr.

Sullivan of St. Stephen was finally reached and left here by automobile, the intention being for a car from Brockway to meet him at Watt Junction, eight miles from the scene of the accident. The travel from this end was so blocked by snow that progress could not be made and resort was had to a team, Dr. Sullivan reaching Brockway about three in the afternoon. By this time the men at the camp had placed the injured man on a stretcher and started to carry him to the village. He chatted with the men on the way out, but soon conversation ceased and investigation showed that the spark of life had died. Death is attributed to the severe shock that his system sustained. Mr. Vail was married in September of last year to Miss Mary Smith, daughter of Sullivan Smith of St. David, Charlotte county, who survives him with an infant daughter.

### Soldiers Are Ordered Out

Canadian Press Despatch.  
Charleston, W. Va., Nov. 26—Governor John J. Cornwall, of West Virginia, announced tonight that he had asked the government to send federal troops into the Mingo county coal strike zone, and added that as soon as the soldiers took charge he would ask President Wilson to declare martial law.

Many disorders have occurred, several persons have been shot and killed and gangs of unidentified men have attacked coal properties. The state government is totally unable to cope with the situation.

### HEAVY FAILURES IN NEWFOUNDLAND

Moulton Company, Inkpen Company and Lake Company Have Liabilities of Million Dollars.

Canadian Press Despatch.  
St. John's, Nfld., Nov. 26—The difficulties which have beset the fishing interests forming the dominating industry of Newfoundland culminated today in the announcement of the liquidation of three large fishing firms on the south coast, with total liabilities exceeding \$1,000,000. It was said that the assets were considerably in excess of the liabilities, but that they consisted largely of fish products and other property which it was impossible to turn into cash under present conditions.

The firms and their liabilities are the Moulton Company, Burgeo, \$380,000; Inkpen Company, Burn, \$350,000; Lake Company, Fortune Bay, \$190,000.

### FAVORS AIR-LINE ACROSS CANADA

Canadian Press Despatch.  
New York, Nov. 26—Air Commander A. K. Tylee, O. B. E., in an address to the Aero Club of Canada here today, gave a resume of the experiences of the flyers in the recent trans-Canada flight in which he was an observer. The flight was not a "stunt," Commander Tylee said, but was made with the object of finding what difficulties existed in making a permanent line of transport between Halifax and Vancouver and the intermediate points, and to determine the commercial value of such a transport. He said he did not regard it as a waste of public money, and all the information obtainable in connection with the flight had been procured.

It was originally intended that the trans-Continental flight should be made in relays of 250 miles each, but Commander Tylee expressed preference for relays of from 800 to 400 miles. Commander Tylee had no doubt as to the feasibility of the aerial transport line from ocean to ocean.

### WOMAN SLAIN IN QUEBEC PROVINCE

Canadian Press Despatch.  
Montreal, Nov. 26—Word of a murder and of an attempted murder was received here today. The occurrence was at St. Veronique De Turgeon, near

L'Annonciation, Labelle county, Quebec, and detectives have been sent to investigate. It was stated that the victim was Mrs. N. Claremont, aged forty-four, of St. Veronique who had been stabbed several times with a pocket knife and her home afterwards burned down. Her son, Oscar Claremont, aged twenty, was found in a nearby stable with severe cuts about the head, face, hands, feet and body.

Ozias Riopel, a neighbor, is alleged to have been the aggressor. A quarrel began with an argument between him and Mrs. Claremont. Riopel has not since been seen.

**STEEPLECHASE FOR HORSES OF ALLIES**

Military Race Arranged for Next March in England—Jump Measurements.

New York, Nov. 27.—United States officers will have an opportunity to part in the Grand Military Steeplechase to be held at Sandown Park, Esher, and, on March 11 and 12, 1921, according to information just received in country. The competition is open to any officer, who served in the and associated armies during the war. British army horses will not be entered.

The weight specified is 101 lbs. for the Allies Grand Steeplechase of 800 sovereigns, to be divided the winner, 150 to the second, 100 to the third and 50 to the fourth. The are to be ridden by officers on the list of their own army, and in uniform. The distances to be two and a half miles and the entrance fees two guineas, which will be returned to all competitors.

Details measurements of the jumps are as follows: The open ditch is 12 feet in width and two feet deep, but a hedge 4 1/2 feet in height. The fence is about 4 1/2 feet in height. The water jump will call for a leap more than twenty feet by any horse can execute it successfully. The distance in front of the jump is about 100 feet in height and the water runs over a width of approximately 100 feet. This jump will furnish a difficult task for the steeplechasers. The race will close on January 15, with Weatherly and Sons Cavendish Square, London, W. I. It is requested that all entries be sent at least a week before the date of closing. Allow for any corrections that may be necessary before the race closes. A certificate stating the name, age, sex, color, if known, and any distinguishing marks, signed by a racing official or public officer of the county town Club will give free stabling and care for horses sent over. Information regarding starting time and probable order of arrival is to be sent to the manager of Sandown Park, Esher.

**GRACE OF WESTMINSTER WEDS AGAIN**

London, Nov. 26.—The Duke of Westminster and Mrs. Violet Mary Geraldine were married this morning. The wedding took place at a local registrar's office.

Announcement of the engagement of the Duke and Mrs. Rowley was made yesterday. The Duke was divorced last year by the Duchess, who before her marriage was Constance Edwina, daughter of Colonel William Cornwallis.

**HOFFMAN'S**

Means Saving of \$5. to \$10.

It has always been our policy to produce the very highest grade of work at minimum cost. While the price of woollens for spring show no reduction from the prices now prevailing, yet we are making a reduction of from \$5 to \$10 on every Suit or Overcoat made to order in order to turn over present goods into cash.

We also have a small line of the very best ready-to-wear Ulsters, Overcoats with velvet collars, and Suits which we are reducing to make a quick clearance.

Everything sold by us represents honest value, and that is why we have been able to establish the largest tailoring business in the city.

**PRINCE ACTIVE SINCE END OF EMPIRE TOUR**

London, Nov. 10.—(Associated Press Correspondence)—Enthusiastic accounts given by the Prince of Wales, in the royal family circle, of his experiences during his recent empire tour are said to have raised a keen desire on the part of his brothers Princes Albert, Henry and George, to go on a similar voyage. The Prince of Wales is reported to be writing a preface to a book of photographs taken during his trip, which will be sold for the benefit of a blind soldiers' hospital.

**SUICIDE PLEADS FOR CARE OF BABY**

Woburn, Nov. 27.—"I am going to die. I am sorry if it causes you any unhappiness. Take care of the baby. I hope you will forgive me, but I know God will not. It is the best thing to do. Please have a happy Thanksgiving together." This note, together with his wife's body lying across the bed in her room, was awaiting Charles H. Erwin, an automobile painter of this city, when he returned home from work the day before Thanksgiving. Mrs. Emma L. Erwin, aged twenty-two, his wife, had been a sufferer from a nervous trouble for three years and she ended her life by taking an overdose of some drug. Mrs. Erwin had prepared dinner for

her husband as usual and seemed in parently asleep. Dr. Charles F. McGood spirits when Mr. Erwin went to work and he suspected nothing wrong. A boarder returning home at 2.30 found a note on the table and through an open door he saw Mrs. Erwin on the bed, and two sisters, all of this city.

**FOR HER HERO SON.**  
 Mrs. George B. Drake of Broad street, has received from the department of militia and defence a mother's cross in honor of her son Gunner C. Albert Drake, who died of wounds at Barlin, France, on April 23, 1917. Gunner Drake left St. John with the 4th Siege Battery and was later transferred to the 8th Battery, with which he was identified when he died.

**TRAIL RANGERS' MEETING.**  
 The Trail Rangers Camp of Ludlow Street Baptist Church held a very interesting meeting in the Prentice Boys Hall, West End, last evening. The chief ranger, George Cameron, presided. An unexpected but welcome visitor was R. J. Anderson, superintendent of elevators at West St. John, who addressed the boys. Following speeches on current events, group games were indulged in. The Trail Rangers and Tuxis Square are already making a strong appeal to the boys. The work is being carried on under the leadership of R. H. Parsons.

 Four Ounces and Measures  
 6 1-2 Inches Around—Tiny One, Too.

The Times published a despatch from London, England, on Thursday telling of an egg which was laid by a hen at Wiltshire and which was considered a record size. The egg weighed three ounces and measured six and one-half inches in circumference.

J. T. Kierstead, of 866 Union street, yesterday brought to the Times office an egg, which measured the same in circumference as the English record lay, but the local product weighed four ounces. It was laid by a prize white leghorn in Mr. Kierstead's flock and is considered quite a novelty.

One of the smallest eggs on record was also laid this fall by one of Mr. Kierstead's hens. It was less than half an inch in length and was a perfect specimen. It weighed less than half an ounce. The hen that laid it was normal and usually laid ordinary sized eggs.

Major A. S. Buttenshaw, D. S. O., of Halifax, inspector of ordnance machinery for Military Districts No. 6 and 7, who has been inspecting the guns at Newcastle, Moncton and Woodstock, is in the city today and will inspect the guns here. It is the intention of the authorities to strip six inch howitzers and a 4.7 field gun to familiarize the members of the 3rd New Brunswick heavy brigade with the mechanism of the gun and to instruct them in minor repairs and replacements.

Captain B. W. S. Herron, of the R. C. R. Toronto, formerly general staff officer of this district, is expected here soon to assist in the organization and training of the infantry in the district. He will work particularly with the St. John Fusiliers.

Lieutenant J. Woods of the Royal Canadian Dragoons, Toronto, is also expected here soon to work similarly with the cavalry regiments in the district and he will be assisted by Squadron Sergeant-Major Instructor A. M. Doyle and Corporal A. J. Langley, both of the Royal Canadian Dragoons, who are already here. They will work with the 8th Princess Louise Hussars, with headquarters in Sussex, commanded by Lieut. Colonel A. J. Markham, and the New Brunswick Dragoons, with headquarters in this city, commanded by Lieut.-Colonel C. H. McLean, D. S. O.

**LOTS OF LIQUOR FROM ST. JOHN TO MONTREAL**

Rye, Gin and Other Seized Goods—Rev. Mr. Wilson Speaks of Plans.

Rev. W. D. Wilson, chief inspector under the Prohibition Act, is in the city clearing up a few of the odds and ends of his office in anticipation of handing over the reins to his successor on December 1. Assisted by Inspectors Hopkins and Journey a large shipment of seized liquor was forwarded to Montreal this morning, including sixty cases of Canadian rye seized on the way to an address in Milltown some time in August, eight cases of John de Kuyper and other packages of assorted bottles.

The chief inspector said that a shipment of 350 packages including barrels, casks, boxes and cases was sent forward to Montreal from Fredericton last night and another lot of thirty-five cases was on its way from Woodstock to Fredericton, following a verdict for the prohibition forces in an appeal in the supreme court.

Mr. Wilson said that on Wednesday he would take over his duties as general secretary of the N. B. Temperance Alliance and would establish his headquarters in Fredericton where he would also make his home. All the liquor seized in connection with a case here last spring is still in a warehouse in the city, Mr. Wilson said, awaiting the order of the courts in connection with an application from the man for its return.

**MORE BOYS IN COURT**  
**ON CHARGE OF STEALING**

In the police court this morning four juveniles, from eight to fourteen, were charged with stealing \$20 from Mrs. Edith Dunn, corner of Long Wharf and Main street, on Tuesday, and attempting to steal from her yesterday. Three of the lads pleaded guilty to both charges and after a lecture the magistrate decided to allow them all to go on a suspended sentence.

KEEP UP APPEARANCE Ex-Kaiser Said to Be Making Gift of Money to Children. London, Nov. 27.-During visits of his children at Doorn Castle, during the last week, former Emperor William of Germany took occasion to discuss with them their financial resources, says a despatch to The Daily Mail from Doorn. It is said the former emperor intends to present to each of his children 250,000 in Dutch money, so they may continue to live in a manner befitting the Hohenzollerns.

IRON, STEEL, METAL AND MACHINERY MARKET.

In its summary of the iron, steel metal and machinery markets for week ended Nov. 25, Canadian Machinery and Manufacturing News, Toronto, makes the following comment: The conventions of both makers and dealers in machine tools have not been followed by any announcement regard-

ing reduced selling prices. At both of these meetings the point was made a good many times that present costs are very high and not out of line with the selling prices. Cancellations were also spoken of, and it was found that conditions in United States field, as a number of cancellations here has been comparatively small in all lines of machine tools.

Iron and steel warehouses are doing a fair trade, and prices remain about the same. This week sheets dropped back a little, as there are quite a number of re-sales in the market, coming from manufacturers who find that they are high-cost material and prefer to get rid of some with the idea of stocking up later on at a better figure. There is a good demand for most lines of sheets though, and the surplus stock is not going to influence the market very much one way or the other.

Boiler tubes are in demand, many of the boats being tied up now ready for the season's repairs. The automobile shops are not in any better condition than they have been for some time back. The reductions announced in the price of cars taken up by the dealers who placed orders for next season. When these were taken care of buying ceased, and orders are badly needed in nearly every car shop in the country.

The scrap metal market can stand almost any phrase that one cares to apply to it this week, and the more strenuous the phrase the more pleasing to the dealers. Some of the yards must be having a hard time in making ends meet with the amount of trade that is in sight, and there is nothing in particular that would encourage the belief that things are going to get better. The steel mills are not buying, neither are the foundries, while offerings for non-ferrous metals do not exist.

THE EXCHANGE RATE

VIII.—What Controls It?

WE have attempted to show in this series the principal causes of variations in exchange rates.

In order to reduce the problem to its simplest form, we have not mentioned several factors which, in spite of adverse trade balances, had considerable influence in maintaining the value of our dollar abroad during pre-war days.

One of these was the great volume of Canadian securities (such as bonds of the Dominion and Provincial Governments, Municipalities and Companies), sold annually in other countries. The proceeds of these sales created balances to our credit abroad just as though we had exported an equal value of merchandise. At the present time our sales of securities abroad amount to far less than formerly owing to the "tightness" of money and the high interest rates demanded.

Another factor of importance, the influence of which it is difficult to estimate, is the amount of foreign money brought into Canada by immigrants and tourists.

An adverse Exchange Rate, especially one so great as ours with the United States, taxes heavily all users of imported goods. The greater the excess in the value of imports over exports, the higher the Exchange Rate is likely to become.

Those who import luxuries because they can afford to pay the additional tax, therefore, help to maintain the rate or even to raise it still further. Thus the price of imported necessities is increased to all, including many consumers who can ill afford the extra burden.

In our final article we shall summarize the methods by which the exchange rate may be brought back to normal.

DANCE AND BRIDGE FOR HOSPITAL FUND

The dance and bridge in the Knights of Columbus Hall last night was a most successful and delightful social event and was also a great financial success, netting a large sum towards the Catholic ladies' fund for the furnishing of the library of the new nurses' home. Both the dance and the bridge were largely attended and provided enjoyable entertainment. A four-piece orchestra discoursed a fine programme of dance music and the floor was declared to be perfection. There were many tables of bridges and some exciting games were played. The early hours of the morning had come round before the last guest took a reluctant departure. Mrs. Andrew J. Mulcahy was the chief convener for the bridge and dance. The members of the reception committee were Mrs. E. Atherton Smith, Miss Mary Travers, Miss Margaret McCuskey and Mrs. W. E. Scully. The refreshment committee conveners were Mrs. Andrew MacDonald and Mrs. Frederick Lynch. Mrs. Leonard Conlon had charge of the arrangements for the hall. The bridge conveners were Mrs. A. C. D. Wilson and Mrs. M. E. Agar. For the tickets Mrs. P. Fitzpatrick was convener. Mrs. H. Sullivan had charge of the punch. Presiding over the pouring of the tea and coffee were Mrs. D. P. Chisholm, Mrs. Frank Foster, Mrs. D. W. Harper, Mrs. D. P. Mahoney, Mrs. A. C. D. Wilson and Mrs. F. C. Owens. The bridge room was attractively decorated with potted plants. The refreshment table decorations were most appropriate, pretty and quaint. A miniature Christmas tree formed a centre piece and from it gay ribbons were carried to the four corners where little nurses caught and held them. The prize winner at whist were Daniel Mullin, K. C., gentleman's first prize; Mrs. M. E. Smith, ladies' first prize; Claude F. Cassidy, consolation prize.

At a special meeting of the board of governors of the Industrial Home for Boys, held yesterday afternoon in the office of the mayor at city hall, it was decided to lay a water and sewerage line from the old prison property to connect with the sewerage and water system now operating at the main building. Hon. W. E. Foster presided at the meeting.

HYDRO CONTRACT WELL UNDER WAY

The work of harnessing the water power of the Musquash, one of the sources of hydro-electric power in the scheme of the New Brunswick Electric Power Commission, has been started and yesterday some twenty-five men were engaged in the work of erecting camps at the site of operations. Before the end of next week there will be sixty men on the job and it is expected that early in December there will be 150 at work on this construction. The contract of linking the potential water power of the eastern and western streams of the Musquash has been given to the New Brunswick Contracting Company, the lowest tenderer. The contract calls for the construction of a heavy concrete power dam on the east branch of the Musquash, some three thousand feet in length, and the construction of a grade on which to lay a ten foot waste pipe from the dam to the power house site at the head of tide near the Knight saw mill. It also calls for the construction of a concrete and earth dam, probably a concrete spill-way and earth approach, on the west branch of the Musquash, at the head of what is known as Scott's Falls, a mile from tide water. The construction of a short canal from Scott's Mills to the power house site and a minor run-around dam built of earth also is included in the contract.

The programme follows the opinion given last summer by C. O. Foss that the western branch of the Musquash could be diverted to meet the eastern branch, bringing the power development seven or eight miles nearer St. John than the original Lepreau scheme. Tenders were opened on Thursday for the water-wheel and electrical generator for use at the power station. Some seven bids were received and these were taken by C. H. Mitchell, construction engineer, to Montreal where Henry Hoidgate, consulting engineer of the provincial hydro-electric programme will pass on them. Mr. Foss said yesterday that the Musquash development offered 8,000 potential horse power. The engineers and members of the commission are also preparing plans for storage dams, without which the whole scheme would be valueless. One large dam will be constructed at Log Falls, on the western branch of the Musquash, and two smaller ones, at Seven Mile Lake and Sherwood Lake on the eastern branch, as well as the very large storage provided by dams at the outlet of Loch Aivra. At this point it is necessary to build a dam across the main outlet of the channel and also two additional large earth dams to prevent water running into the Belvidere stream at the east and into Deer Lake on the west. Needless to say, this calls for a tremendous amount of detail work and the members of the commission as well as the engineers have been very active in making out the necessary plans. The officers of the N. B. Contracting Company, who have been awarded this work, are Thomas Coszolino, president; W. H. Mahony, secretary-treasurer; Edward F. Power, managing director; Herbert Phillips, chief engineer and assistant manager.

IN MEMORY OF N. B. NURSE WHO GAVE HER LIFE

A beautiful monument has been erected at the Centreville (Carleton county) cemetery in memory of the late Anna Bell West, a Red Cross nurse, who died Oct. 22 with spinal meningitis at the Walter Reed Hospital, Washington (D. C.). The monument was erected by Miss F. West, sister of the late Miss West who is also a nurse at the Beverly Hospital, Beverly (Mass.).

**THE MOTHER'S CROSS.** Another mother has been honored by the department of militia for bravery Mrs. Edward Goldie, Station street, Fairville, recently received a mother's cross and ribbon in commemoration of her son Alexander, who made the supreme sacrifice in the battle of Vimy Ridge. Alexander Goldie went overseas with the 15th Battalion and later was transferred to the famous 26th and fought with that unit in the battle of Vimy Ridge, where he lost his life.

RINK FOR ROTHESAY.

The Rotesay Community Club arranged a "Scottish evening" for last night and the entertainment proved one of the most popular and successful yet held by the club. George Dobbin, the president, was the chairman and St. Paul's Sunday school accommodated a large audience, which heartily enjoyed the programme. The various numbers included: Harry Lauder imitations by Harold Ellis; song by Mrs. Ross; quartette by Mrs. Hugh Cannell, Miss Henderson, Charles Scott and Reginald Cooper; recitation, Mr. Morton; recitation, Charles Scott; reading, Mrs. William Davidson; concertina selection, James MacDonald. F. C. Mortimer was the accompanist. An announcement of much interest was made at the meeting. The club intends to have a skating rink 120 feet by 80 feet this winter and to arrange for hockey games. The undertaking was planned with enthusiasm and it was decided that the next meeting of the club should be a basket social to be held in aid of the fund for the rink.

## BLISS CARMAN

Bliss Carman is a poet in all his being. His poetry makes us think of melody, fancy, refinement, esthetic emotion; all these are inherently a part of this well-known and much-loved Canadian poet. In his beautiful, "A Study in Canadian Poetry," 1912, H. D. C. Lee says of Bliss Carman: "Canadian in his youthful life and devoted himself to it and love of adventure, New England in his practical idealism and freedom from dogma, and more Latin than anything else in his passionate love of beautiful, Bliss Carman is one of the original poets of the present century."

William Bliss Carman was born at St. John, N. B., in 1861. His mother was Sophia Bliss, whose sister's son was G. D. Roberts, is a writer equivo- cally with the subject of our sketch. Above the bushwood fire, "The world is made forever Of transport and desire."

How the mysticism of life as it ap- pears to poetical natures comes—out in "I heard the spring wind whisper Above the dancing stream, 'The world is made forever In likeness of a dream.'"

A poet remains close to the divine, else how could he sing so purely. Car- man sees the divine all around him. I knew the raw, rough granite In loveliness of line, And when my work is finished,

South, East, West— or even from the cold, cold North, whichever way the wind blows you will enjoy the snug comfort of

### Whatever You Do Don't Neglect Your Eyes, Says Dr. Lewis, Who Tells How to Strengthen Eyesight 50 per cent in One Week's Time in Many Instances

**A Free Prescription You Can Have Filled and Use at Home**

Philadelphia, Pa.—Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. He says neglect causes more eye troubles and poor sight than any other one thing. Many whose eyes were failing say they had their eyes restored through the principle of this wonderful free prescription. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me. A lady who used with or without glasses, but after using this prescription for fifteen days every- thing seems clear. I can even read fine print without glasses. It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strength- en eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist, and is one of the very best preparations I feel should be kept on hand for regular use in almost every family. It is sold in this city by all leading druggists, including Wassons Drug Store.

**NOTE:** Another prominent Physician to whom the above article was submitted, said: "Bon-Opto is a very remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. The manufacturers guarantee it to strength- en eyesight 50 per cent in one week's time in many instances or refund the money. It can be obtained from any good druggist, and is one of the very best preparations I feel should be kept on hand for regular use in almost every family. It is sold in this city by all leading druggists, including Wassons Drug Store."

ever our own. In his poems, he makes visible and tangible those shadowy powers that we all feel to influence us.

"Golden shimmer of the burning noon."  
"Spring leads her saraband,  
Her garments float and gather and swirl  
Her cloak the silver rain."

"The seraphs singing at the birth of time,  
The urn ritual of eternal things."

"The pageant of the high June  
Hails in the glowing noon!  
While over forest crown and mountain-  
head  
The azure tent is spread,  
That bears the pilgrim man  
Across a desert of enchanted time,  
To his far hope sublime  
Rests,  
God stands in his tent-door."

"All my shadowy garden  
Seems to grow aware  
Of a fragrant presence  
Half-expected there."

Carman's prose volumes are really poems. Their very titles, the subjects chosen, the beautiful language show a poet's work. Other chapters in "The Kinship of Nature" are "The Luxury of Being Poets," "The Art of Life," "Ritual of Personality." From "The Making of Personality." From "The Poetry of Life" I quote three chapter headings, "The Rewards of Poetry," "Cheerful Pessimism" and "Masters of the World."

Let me quote some striking passages from these books.  
"The greatest wish is not too large for the fluttering soul, nor the smallest detail too insignificant for attention. The masters know how fine a balance exists between success and failure."  
"Divine unrest is good."  
"Our works are hideous because we have no pleasure in them, and we have no pleasure in them because we are slaves to commercialism."  
"In our retreat to the woods we escape what is basest in ourselves; we forget for awhile the crudity of fear and greed."  
"It is the pious office of poetry to bring solace and encouragement and lofty purpose to the heart. To those who are recreant in their loins it can bring nothing but a sense of shame; it can be no slight, but only rebuke."  
"Without poetry's illuminating aid we shall never come near to accomplishing our destiny."

What an idealist is Bliss Carman! Would there were hundreds such in these worried, commercialized days! In his poem, "The Making of a Man," I see a perfect reflection of a poet. The qualities he deems essential he possesses. He summons Raphael, the Seraphs, Gabriel and Michael to the creation of a creature so divine. His own purity of soul shines forth in his choice of spon- sors. I will quote some lines at ran- dom:  
"He shall be born a spirit, power, patience;  
Calm, the passionate essay  
To make his dream  
Immortal,  
He shall have hope and honor, trust,  
courage,  
Love that sees the moon's full orb  
In the first silver arc,  
He must at the heart of nature  
Discover the divine—  
Himself the type and symbol  
Of the eternal trine."

He shall . . . . . question  
How, wherefore, whence, and when,  
Till the last frontier of the truth  
Shall lie within his ken."  
Bliss Carman holds the key to won- derfully beautiful expressions and strange musical words. Here are a few: "Saraband, mystic mine, Thermody, Aprilian ardors, hulyevon days, green- ing gold, eternal trine."  
The poet tells his own desire, we know, when he tells of the proper rest- ing place for a poet, dreaming his last, songs to be penned in Heaven.  
"Lay him to rest when his time is come  
Here in the decent quiet  
Under the whispering pines  
Where the dogwood breaks in bloom"

And the peaceful sunlight shines,  
Where wild birds sing and ferns un-  
fold,  
When spring comes back in her green  
and gold.

Say not above the ashes  
Here ends a man's desire,  
For every year when the bluebird sings,  
He shall be part of the lyric spring,  
For he was a blade of the April sod,  
That bowed and blew with the whisper  
of God."

I wish to acknowledge with sincerest things the kindness of Mr. Peter Mac- Arthur, who gave me the following in- formation. I quote verbatim:  
"The last I heard of Carman, he was at Haines Falls, N. Y. His permanent address is New Haven, Conn. He was attacked by tuberculosis about a year ago and his case was regarded as hope- less, but the contributions of his friends and admirers enabled him to get the best care and treatment, and his con- dition improved greatly."  
"Unfortunately he was not editor for a syndicate of artists and authors, 'The Vigilantes,' who combated the Ger- man propaganda for the allies."  
"Unfortunately his poems are scatter- ed in many small volumes, and few have any idea of the amount he has written. Even the two big volumes of his col- lected poems contain only a part of his work."

I will quote one poem selected at ran- dom:  
A Windflower,  
Between the roadside and the wood,  
Between the dawning and the dew,  
A tiny flower before the sun,  
Ephemeral in time I grew.

And there upon the trail of spring,  
During the dawn before the sun,  
Known among men in all their lands,  
Could blur the wild desire with shame.

But down my dayspan of the year  
The fit of straying winds came by;  
And all my trembling soul was thrilled  
To follow one lone mountain cry."

### Pale Cheeked Women Told About Restoring A Rosy Complexion

A few years ago the girl with pale, drawn cheeks scarcely knew what to do in order to restore her fading appear- ance. At that time there was no blood- food medium made that really would put color and strength into systems that were more or less worn out.  
Today it's different. The blood can be quickly nourished, can be made rich, red, and healthy. All you have to do is take Ferrozone Tablets with a sip or two of water after meals. The effect is al- most magical.  
Mothers, look at your children. Are they ruddy and strong—do they eat and sleep well, or are they pale, weak, and anemic?  
FERROZONE will rebuild them. Take your own case—is your blood strong and rich? Have you that old- time strength and vigor, or are you somewhat under the weather?  
FERROZONE will supply strength- ening elements you require. It is a blood- forming, nourishing tonic that makes every ailing person well.  
FERROZONE is a marvellous remedy, it contains in concentrated form certain rare qualities that especially fit it in cases of anemia, poor color, thin blood, tiredness, and loss of weight.  
Every day you put off using FER- ROZONE you lose ground. Get it to- day, sold in 50-cent boxes by all dealers. Send your mail from the **Cataractose Co., Kingston, Ont.**

REVISION OF CITY BUILDING LAWS IS RECOMMENDED

The revision of the city building by-laws, to meet modern conditions and to conform more closely to those in effect in Hamilton, Calgary, Brantford and Vancouver, was discussed at length at the monthly meeting of the Commercial Club, held in the G. W. V. A. hall in Wellington row last evening, and the building committee of the club, composed of A. Gray, J. Byles, J. C. Mitchell, G. G. Hare, R. D. Peterson and W. E. Gunter, was nominated to interview the common council with a view to having the present building laws brought more up-to-date.

DEATH HALTS HIS VISIT TO THE HOSPITAL

Husband-Father Stricken on Way to See Young Wife and Child in Maternity Ward.

"Nurse," whispered Mrs. Rose Abramowitz, a mother at 20, in Harlem Hospital last night, "nurse, hasn't he come yet, my husband, Morris? He is so late tonight." In the stillness of the maternity ward the nurse looked down on the wan, anxious face. She came to the foot of the cot and tried to say something. She failed, and tried again, and failed. Then she turned almost hastily and pretended to arrange the tiny clothes swaddling Nathan Abramowitz.

Addresses of congratulation and encouragement were given by Lieutenant-Governor Pugsley, Premier Foster and General Macdonell, C.M.G., D.S.O. Dr. J. Roy Campbell, first vice-president, Dr. MacLaren and Mrs. Kulring each spoke of the humanitarian work of the association.

How I Earn a Salary Without "Going to Work"

BY HELEN BLAKE I am a married woman; we have two children and my husband is a salaried man. Five or six years ago his salary was sufficient for our needs. We could afford to spend a little on play and we regularly put money in the bank, too. But remorselessly came the rising costs, and the shrinking dollar. A year ago we were a distressed family. We positively could not make ends meet. Tom's clothes were positively shabby; so were mine. Everything the children wore were made-overs. For my husband's salary was just a measly 10 per cent more than it had been when the cost of things was lower and when a dollar was about twice as good as it is now. Now things are different. We consider ourselves prosperous. Our bank account has grown again and is still growing. This summer we had a wonderful vacation. We had a cabin in the woods for two months; Tom Computed. We all are wearing nice clothes. You should see the luxurious woolen things the kiddies have for the winter. No, we didn't discover a gold mine, nor did Tom get a big raise. He didn't get a raise at all. I, Helen Blake, have beat the cost of living! I have made the extra money to meet it! I make money with a wonderful little machine. Tom says that I knit dollar bills; he is right. I have a position that brings me pay checks regularly. Sometimes I make as much as four dollars a day. This job of mine takes only my spare time. I still do all my own housework. All this sounds as if I were one of those wonderful money-making, forceful business women, doesn't it? Well, I am not. In business ways I am not as adept as most of my women friends, and I certainly am not the "pushy" kind. An opportunity was handed me, and I took it. Let me tell you all about it, so you can make the same good money that I make in exactly the same way that I am making it. The concern I work for knows the traditions and history of the knitting industry; they know that the best work is that which is done by well-paid and contented people in happy homes, who work when they feel like it, who are not bothered by bosses, time clocks, work hours and working rules. They believe in the independent employee. So they have thousands of women—and men, too—making socks for them in their own homes. I make my socks (and my dollies) with the machine I mentioned above, the Auto Knitter, which is far better than a hundred hands, because it knits from 60 to 200 and more perfect, even stitches at every turn of the handle and makes a complete sock without removal from the machine.

Home-Made Ads Increased  
Hodgen's Trade 30 P. C.

Edward Hodgins, who operates a grocery and meat market in Galena, N. B., seems to have the right idea, judging by what his customers say and do. Hodgins declares that "we have been reaching to customers a long time in the 'trade at home,' yet many of us in the past have not followed our own advice. Although we have good wholesale prices, none of us has been able to get the best of service. We usually order from houses in other cities and 'other states'."

Hodgens has not only eliminated, as far as possible, the buying in other cities and states, but has gone further and same direction, for he has inaugurated a plan whereby he "buys his advertising at home" also. He is formerly in the habit of using the output of expert advertising writers, none of which he had to be located in his own town. This service he paid a stiff price, but worst of it was that these same writers, although experts in their line, when Hodgins got to thinking of the matter and wondering how he could prove his copy without doing the work himself, he thought of the "one talent" that might possibly be used.

His plan has been an unqualified success. Each month he offers prizes, payable in merchandise, of \$10, \$5, \$2.50 and \$1 for the best advertisements suitable for his use in various papers. There are no strings to the offer. No purchase of any kind is necessary. The advertisements are all to become his property, to do with as he may see fit. He has added at least 30 per cent to his business, he declares, since the plan was in operation—for not only has his advertising increased, but the writers themselves have in nearly all cases become his steady customers and are brought in many others.

In order to stand a chance of winning a "best ad" a person naturally has to do the store, obtain prices and examine the line of goods, and this naturally draws their own trade. Also, as they are paid in merchandise, and as they handle an attractive line of goods at fair prices—well, it all tends to advertise.

Advertisements are submitted each week, but only monthly prizes are paid. In place of this must be up to date, as submitted. It is drawn a lot of attention to my ad, and attention is what draws the trade," says Hodgins. "It's the best advertising and does the work better than any kind I ever had—and at the same time the least expensive. In it doesn't cost a cent."

Do Your Customers Buy?

Every retailer knows that the five cents play a large part in the competition of a sale. But just how important is each one? Considering the reaction of thousands of patrons, a big department store has found that out of every 100 owners 87 per cent will buy by the action of sight, including goods on lay (whether in the window, on steps or on show cases) and those which their attention is called by advertising or demonstrations; 1 per cent by the attraction of sound; 6.5 per cent by the attraction of smell; 1.5 per cent by the attraction of touch, and 3 per cent by the attraction of taste. Therefore follows that at least seven-eighths of the activities of a store ought to be concentrated on the arrangement of attractive displays, advertising and the like, including the reaction of employees in the best of showing goods.

MUTT AND JEFF—HOW JEFF CAME OFF VICTORIOUS

Will Dearer Coal Mean More Coughs?

With coal so dear, no one wants to light the furnace early in the season, in spite of cold, bleak days. The result is, hundreds have caught cold, and now have bronchitis cough.

If you would just realize it, no man, woman or child needs to endure the misery a day longer. Buckley's Bronchitis Mixture is the one remedy which never fails. It works like magic. Actually one dose brings relief, even in the most obstinate cases, and starts you immediately on the road to health. It has succeeded in cases where every other remedy known to medical science has failed.

Buckley's Bronchitis Mixture is not a syrup, but a scientific mixture, with twenty times the healing qualities of other remedies. You don't have to take our word for it. Every bottle is held under a cast-iron, money-back guarantee if it does not stop your cough. Price 75c a bottle. Take no substitutes. For sale at all Drug Stores or by mail from W. K. BUCKLEY, LIMITED, 142 MUTUAL ST., TORONTO.

"Again, it's far better for us, of course, than paying out a straight discount at the time of purchase, for the interest on the money held by us (the discount and the money paid in by customers) amounts at 6 per cent, to quite an item. In fact, the plan is a sort of 'profitable triangle,' for it is not only of assistance as an advertising medium and helps to make a larger profit, but it also pleases the customers. My patrons have been and still are enthusiastic over the plan, and for myself, I wouldn't accept \$1000 in cash to discontinue it."

Elevator Gives Store a Window on Each Floor

With the popularity of tea rooms and restaurants in departments stores increasing steadily, the Harris-Emery Co. of Des Moines, Ia., have hit upon an idea which serves to advertise every department of the store after hours, while patrons of the restaurant are going to and from the evening meal after the store proper is closed.

The restaurant at Harris-Emery's is on the top floor, the seventh. Express elevators carry patrons up to this floor for dinner in the evening, after the other stores are dark. To people who have passed through a big department store, it is in fact, any store after it is closed; nothing is more depressing than to see the big floors dark, the merchandise and tables covered with white dust-protecting covers, and all having a most deserted appearance. But the patrons of Harris-Emery's don't see this. Instead, when the elevators slowly descend the different floors on the way to and from the restaurant, people in the elevator look out and see merchandise displayed attractively and tastefully directly in front of the elevators.

How is it done? Simply enough. As soon as the store closes in the evening the superintendent of each floor has some of their most attractive merchandise moved over to the front of the elevator doors. Perhaps it is an evening gown, displayed on a form, or a leather motor coat thrown gracefully over a chair. Oftentimes some dainty pair of lingerie, with mules to match, is seen, or else on the ready-to-wear floor a figure with the latest model of the elevator glides slowly by.

Electric lights have been arranged so that they shine full on the merchandise thus displayed, and results have been extremely satisfactory. People in the elevators often exclaim at seeing merchandise so well displayed, and even momentarily glimpse such as is obtained will often leave a lasting impression.

Shoes, corsets, suits, coats, hats, novelties in dresses, even draperies and curtains, are shown in this attractive and decidedly unobtrusive manner, and consequently Harris-Emery's keep the interior of their store "at work" after hours every night.

Don't Use Drugs for Constipation

Bathe Internally—The One Natural Way.

Did you ever know of any person who was permanently cured of constipation by taking drugs of any kind? Drugs simply force Nature, and larger doses are required from time to time until the trouble becomes chronic.

Internal Bathing with the J. B. L. Cascade is the only permanent relief from Constipation. It keeps Your Colon or large lower intestine, free from all accumulation. Soon the system performs its regular functions, and there is no further trouble.

Mr. F. Babia, Proprietor Alexandria Hotel, Ottawa, writes: "The J. B. L. Cascade has made a new man of me. I was in this world if I could not get another. Through my recommendation I know of a number of my friends who have been using it with the same satisfaction. For people troubled with Constipation, I say it is a Godsend, and can heartily recommend it."

The J. B. L. Cascade is the only perfect appliance for internal bathing ever devised. It is endorsed by over half a million enthusiastic users. Ask to have it explained to you at Clinton E. Brown or F. W. Munro, Druggists, St. John, New Brunswick, or write for booklet to J. B. L. Cascade Hygienic Institute, 103 College St., Toronto.

They, for the local merchants have been engaged in a little venture in education. Three years ago, through the Retail Credit Association of Minneapolis, they began buying page advertising space in the newspapers to tell the people that they were not "Yellow Book" men. They paid out good, hard-earned money to say, "Hold up Your Head; Keep Your Credit Good," and thought it well worth the cost.

Every month, through the three years they kept hammering away at the bell of neglected bills. "Your Bills Don't Pay," they said in big letters that dominated page advertisements.

"Every business place in Minneapolis has your credit rating," said the English of the Yellow Book, and the highly efficient credit exchange of the association which prepared it knew of its existence. The Retail Credit Association passed their underfoot tests and Bishop his second class. Some scout games were played and a good game of basketball was enjoyed by all. During the evening the troop received a visit from Dave Legate of Knox Troop.

This troop held their usual meeting on Thursday evening opening with games followed by patrol. During the evening eight boys passed the St. John Ambulance test during the evening. The 5th Troop (St. Jude's)

The event of the week will be the dedication of the Troop Flag, presided at by Col. M. B. Edwards. This is to take place in Knox Church Sunday afternoon at four o'clock. The troop has decided to hand the offering to the Anty-Slavery League. Scouts of other troops are invited to be present, as well as sympathizers with the scout movement.

3rd Troop (St. Andrew's)  
The troop held its weekly meeting on Monday evening with practically all the boys on hand. Most of the evening was taken up with practice for the different tests and Scouts Campbell and Stackhouse passed their underfoot tests and Bishop his second class. Some scout games were played and a good game of basketball was enjoyed by all. During the evening the troop received a visit from Dave Legate of Knox Troop.

HARDING PAYS TRIBUTE TO THE BOY SCOUTS

Wishes Every Boy in America Could Be a Scout

President Elect W. G. Harding of the United States says in "Scouting"—"I am with the Scout Movement heart and soul. It is an organization teaching the spirit of service and honor which we must always have in our citizenship. It is a school of our democracy because it, standing is won only by taking the equal opportunity given all individuals to show their own merit, capacity and worth. I wish every boy in our America could have the advantage and the honor of being in the Boy Scout organization and of learning therein that cooperation, justice, the customs of fair play and the gentleness of good manner make for peace and growth as individuals and for the results of disorganization and selfishness and cowardice which lead to contentions and conflict."

The attention of Scoutmasters is directed to the Paragraph on "Tracking" Page 103 of the Handbook also to "Stories of the Trail" on Page 111.

DEATH OF INFANT

Their friends will sympathize deeply with Mr. and Mrs. James Gordon, Millidge Place in the death of their infant son, Robert Gordon Hunt, who died of pneumonia this morning aged two months and nineteen days. The funeral will take place on Monday morning at ten o'clock.

AMBASSADRESS

When Lady Astor urges the opening of diplomatic posts to women she might cite a precedent from good old Tudor times. Rhipia Hillman, the sixteenth-century chronicler, tells us that in 16.9 just at the time when Wolsey was in difficulties over the divorce of Margaret, Duchess of Savoy, and the Lady Lois, Duchess of Angouleme, mother of the French king, met to treat of peace, and that through their diligence peace was concluded between the emperor, the pope, and the kings of England and France. But the chronicler goes on to tell us that when all was finished a solemn mass was sung, "the two lady ambassadors of the King of England sitting in great state."

TRIBUTE PAID TO THEODORE ROOSEVELT

His Son Quentin. (Popular Mechanics Magazine.) Unusual tribute was paid to an American fighting man when the town of Blomont (Pa.), recently changed its name to Quentin, thus combining honor to the son Theodore Roosevelt lost in battle and escape from the early cognomen of hush memory. A patriotic society of the state has erected a tablet commemorating the event, on which is quoted the great American's famous creed of life and death, beginning "Only those are fit to live who do not fear to die."

POTATO HARVEST LARGER

The potato harvest for the whole of Canada is represented by 138,527,000 bushels from an area of 784,544 acres, as compared with 125,574,900 bushels from 818,767 acres in 1919, according to the report issued by the Dominion bureau of statistics. The average yield per acre for 1920 is 176 1/2 bushels, which compares with 153 1/2 bushels last year and 146 bushels, the decennial average for the period 1910-19.

WARSHIP GUARDING CANADIAN BORDER

Uncle Sam Has War Craft in Lake Superior and Its Presence Frightens Rum Runners. (Special to The Times.) Duluth, Minn., Nov. 26.—Operations of whiskey smugglers who have been reported as running rum into the United States from Canada via the water route are believed to have been curtailed by the presence in Lake Superior of one of Uncle Sam's war vessels.

SLAGS

Bliz—I notice that a body of artistically sensitive persons has adopted the slogan: "Down with the billboards." Dix—Well, let 'em, the slogan that interests me more is: "Down with the board bills!"

CANDY'S UPS AND DOWNS

The subject being Cinderella, one little girl, an incipient Carolyn Wells, wrote: "We learn that if her life did begin in a low, menial way, it ended in a hymened affair."

DEATHS

WHY Windmill Barbados Super-Fancy Molasses?

THE pure, whole-sugar Barbados is a truly delicious food that is full of health, energy and heat! It is vastly different from the unwholesome substitutes that now flood the market.

There is no Satisfactory Substitute for the Real Molasses.—Insist on "Windmill" Brand. "Windmill" Brand is the finest product of the planters of the British West Indies. It costs you no more than the inferior canned goods, and it will make a wonderful improvement to every dish shown here.

We guarantee Windmill to be absolutely pure and highest grade Barbados Molasses. If your grocer hasn't Windmill write and tell us his name.

FOOTBALL.  
U. N. B. Captain.  
Fredericton, N.B., Nov. 26.—Harrison H. Trimble has been elected captain of the U. N. B. football team for next year. Clarence G. Jewett has been elected vice-captain. Trimble has had a meteoric football career. In the Mount Allison U. N. B. game last year he grabbed a place as possibly the best half back in the inter-collegiate series and that year injured his back by falling from a horse just prior to the beginning of the Rugby season. However, it is expected that he will be better than ever next year. Jewett was the best possible choice for a vice-captain and is a good hard worker and fast forward. He has this year played third line scrumming and when the King's College game Jewett played the "pack."
