C. P. R. SEEKS SHORTER ST. JOHN-MONTREAL LINE

Augusta, Me., Jan. 24.—A bill opening up the way to the Canadian Pacific for a new short route across northern Maine, between Quebec and St. John, was introduced in the legislature on Monday night. The measure gives the Aroostook Valley Railroad Company, which is controlled by the Canadian Pacific, authority to extend its line west from Washburn (Me.) to the Canadian border. It is also authorized to take over the Canadian Pacific branch line from Aroostook Junction (N. B.) to Presque Isle, to which town the Aroostook Valley line really runs. By securing a Canadian charter and building from Quebec to connect with the western terminus of the Aroostook Valley road at the boundary, the Canadian Pacific would have a through line from Quebec to St. John, nearly 100 miles shorter than the present route. The project is said here to be a move in the fight between Canadian roads for the through western freight traffic.

The Evening Chit-Chat

By RUTH CAMERON

In a department store not far from here, two girls, Miss S. and Miss E., were side by side at the glove counter.

The requirements of this shop as to the attractive appearance of its girls are very strict, and Miss E., the girl who stands farthest from the door on the street side, has several times brought down also criticism. She forewarns the man upon her because her clothes did not look nice enough. Considering the fact that she gets but eight dollars a week such a criticism seems rather trying, doesn't it?

But the girl who works nearest the door, Miss S., far from being criticized, is always so neatly dressed, that customers frequently stop and admire her and wonder how she does it. AND she also gets but eight dollars a week.

One day or two after New Year's when some reorganizing in the shop was going on, and several girls were to be discharged, the forewoman, who really wanted to keep Miss E., because she was a good saleswoman, despite her unsatisfactory appearance, conceived a plan.

"I'll summon both of you to the office and put it up to them this way: 'Both you girls are getting eight dollars a week. Now how much do you pay at home for board?'"

"I'll begin next Monday," answered Miss E. "I have a lovely dress marked down from forty to fifteen dollars that would be just the thing to wear in the shop, but you said you hadn't the money and when you did have it the dress would be always the way."

"And it would be with me too if I didn't have that money saved I like to have it saved anyway because it would be fine if I should be sick or anything, but it does me no more good than this way."

"I always keep a few dollars in my bureau drawer and I never let a chance to get what I need at a reasonable price go by. I never buy anything at regular prices. I'll buy a thing if I can't get it for one-third to two-thirds more if I don't buy it at just the right time. The dress that I've worn all this winter and that you girls think so swell bought in the last spring marked down from twenty-eight to fifteen dollars. It came from a store that's enough ahead of the styles so that it won't look old-fashioned and it's got so little trimming and such nice goods that it don't look shabby yet, and will do me for a rainy day dress next winter."

"Do you think you could learn to save and do like Miss S. if I'd give you a chance to learn?" asked the forewoman.

"I'll begin next Monday," answered Miss E. "and save a dollar."

"If you'll keep it up for six months I'll raise your pay to ten and yours has already been raised to that, Miss S.," said the forewoman.

I wonder if she will keep it up.

I wonder how many girls who were purchasing "Dress" might be vastly increased by such a fund will take the hint and do likewise.

FOREIGNERS FAST

PEOPLES SECTIONS OF NEW YORK CITY

Church Census Shows More Than 65 Per Cent in One Per Cent 1,444 People in One Block

(Canadian Press)

New York, Jan. 23.—Proof of the striking preponderance of the foreign population in certain sections of the city was furnished in a report just made public by Walter Laidlaw, secretary of the Federation of Churches, which is making a systematic canvass of the city to determine the number of church-going and non-church-going persons living on the island of Manhattan.

In 122 blocks visited with a total population of 14,444 persons, 67.73 per cent were foreigners and but 32.27 per cent Americans. In the densest populated of the blocks, 1,444 persons were found, 67.73 per cent foreigners and 32.27 per cent Americans.

These figures are illuminating in connection with the statement by the government immigration authorities showing that 1,104,223 persons arrived at the Port of New York during the year ended December 31st. Of this vast number, 779,942 arrived in the steamer.

Most of them electing to live in the city and settle in the foreign quarters.

DECISION FOR PEARY

Congress Committee Decides He Was Within 1.6 Miles of North Pole

Washington, Jan. 24.—That Captain Robert E. Peary came within 1.6 miles of the north pole—near enough to establish his claim of having been at the exact spot—is the decision of the house committee on naval affairs, which has been considering the bill to retire Capt. Peary with the rank of rear admiral.

A minority report submitted by Representative Roberts of Massachusetts, does not question Capt. Peary's performance, but arranges the national geographical society's committee, which he claims announced its findings after only a cursory examination of Peary's papers.

Representative Bates of Pennsylvania moved the majority report of the committee recommending that Peary be retired with the rank of rear admiral.

SHE'S 26 YEARS OLD, HIS AUNT, BUT HE WANTS TO MARRY HER

Woman is of Same View And Both Say They Will Not Heed Opposition

New York, Jan. 24.—Mrs. Louisa M. Meisner, twenty-six years old, step-mother by marriage to Frederick C. Parley, Jr., who will be twenty-one years old Friday, is determined to wed her nephew. Equally insistent upon early marriage to his attractive aunt is young Parley, employed by a big grocery in Ridgewood.

Opposed to the unusual nuptials are young Fred's parents. In their home, St. Nicholas avenue, Brooklyn, they inform a reporter that if their son tried to marry his aunt both would be arrested.

Mrs. Parley admitted that Mrs. Meisner is the widow of Mrs. Parley's brother, not blood brother. He was Frederick C. Meisner and he died five months ago.

Mrs. Parley caused a flurry in Deputy City Clerk George Frens's office in Long Island City when she protested against the issuance of a marriage license for her son and Mrs. Meisner. She asserts that the law prohibited the marriage of a nephew to his aunt and in this instance she was right.

But the decision has not disheartened Parley and the bride-to-be. When Parley was told of the news his jaw sagged and he said: "I care a snap about such decisions. I love my aunt and I'm going to marry her. If we can't get a license in this state we'll get one somewhere else."

"Nothing can prevent our marriage. At least that's the way I feel now, and how long my love is for me," said Mrs. Meisner.

PROPOSES A NEW BRITISH EXPEDITION TO THE ANT-ARCTIC

London, Jan. 24.—Dr. Alister Forbes Mackay has submitted to the Royal Geographical Society proposals for a new antarctic expedition. Dr. Mackay was a member of Sir Ernest Shackleton's expedition in 1906-1907. He now proposes to explore the shores of the antarctic continent to the south of the Pacific ocean, his calculations allow a full year for the journey, and he estimates that such an expedition would cost £20,000.

The line is supposed to run from Graham Land to King Edward VII. Land, a distance of about 2,000 miles, none of which has been sighted or ships can not get near the shores on account of the fields of ice. Dr. Mackay believes that the only way to explore the coast-line is to land a party in Graham Land and let them work their way round. Dr. Mackay's calculations allow a full year for the journey, and he estimates that such an expedition would cost £20,000.

RHODESIA TO BE PART OF SOUTH AFRICA UNION

Salisbury, Rhodesia, Jan. 24.—Sir Charles Coghlan, one of the Rhodesian delegates to the national convention, which is the ultimatum of Rhodesia with British South Africa might be preceded by the union of Rhodesia with Northern Rhodesia. These two would then constitute one state which would join with the remainder of British South Africa.

It was himself not in favor of union at the present moment, since he considered that the right time had not yet come for the step to be taken. He believed also that the ultimatum of Rhodesia with British South Africa might be preceded by the union of Rhodesia with Northern Rhodesia. These two would then constitute one state which would join with the remainder of British South Africa.

Crushed Coffee— what it is

By a process of crushing between steel rollers, instead of grinding, the skin, which remains in the eye of the bean after roasting, is separated from the kernel and removed by air suction, while the kernel is broken into small even grains. These grains when steeped being free of the skin or chaff, settle quickly, leaving the liquid clear and bright and give the true coffee flavor.

Estabrook's Red Rose Crushed Coffee is as easy to make as Red Rose Tea. Directions are in each tin.

THE FERRY PROBLEM ONCE AGAIN

Whole Question May Have to be Tackled for Third Time

Resolution Passed Yesterday, it is said, Can Not be Put Into Effect—Meanwhile What About The Next Six Months?

Although the common council has twice disposed of the matter of a new ferry boat, it is possible that it may have to be considered again. It appears that the motion which was adopted at yesterday's meeting is to the effect that the superintendent of ferries shall be instructed to prepare the necessary plans for repairing the Western Extension, so that the boat will be serviceable for ten years. No mention was made of possible cost.

It was said this morning that the inspector of hulls, F. J. Olive, could not undertake such work as he is employed by the federal government and the department would scarcely allow him to take his time for outside work of this sort. It is thought that very few of the members understood just for what they were voting.

It is interesting to recall at this time also, that the inspector of hulls when making his report to the mayor after inspecting the steamer Annex, in New York, was asked his opinion regarding the possibility of repairing the Western Extension and he replied, "You might as well throw the money in the fire as put it in the Western Extension." Mr. Olive built the Western Extension, more than forty years ago.

Another matter that is causing the chairman and superintendent of ferries some worry, is to know what to do pending the completion of work on the Western Extension, which it is estimated would occupy at least six months. At yesterday's meeting of the council H. B. Fleming, of the Phoenix Foundry, said that the Leal-ow was being overworked and that if the boat was kept on much longer it would be so run down that thousands of dollars would have to be spent to put it in proper shape again. The Western Extension has been allowed to run on surface by the inspectors for some time, but it is out of commission now and if an accident should happen to the Ludlow the service would have to be discontinued or a tugboat employed for foot passengers and teams sent around the bridge.

The mayor is strongly of the opinion that prompt measures are necessary, and he thinks that if the boat in New York is not purchased the city should order a new boat. He suggests that the city might find out from Halifax what kind of a boat they were getting from the old country for about \$200. It is to be of steel construction, screw propelled, and will be delivered in Halifax in June. St. John is it is likely those favoring the plan could get a duplicate of this boat built at the same time and it could be ready before the Western Extension is repaired.

It is expected that the matter will again be brought before the council.

THE STREET RAILWAY

Board of Works is to Take Up Matter of Extension Next Week

One of the principal matters to come before the board of works at its meeting next week, will be the application from the St. John Railway Co., to lay their rails from Brussels street, along Haymarket Square and up the Old Westmorland road to the county line. There has been an agitation for street railway extension for some time, and it is not likely that the application will be opposed as it is recognized that the extension would enhance the value of land in that district for building purposes.
The application sent to the municipal council for permission to lay the rails from the county line to the cemetery and out the Red Head road, near the corner of the Loch Lomond road, near the pottery, is likely to be considered soon by the highway board of Simonds, the wardens and secretary, to whom the matter was referred by the council.

Now Is The Time To Consider The Stove Question

There is no time like the present to consider the stove question. While you are sitting around the stove this winter trying to keep warm, you want to note how many coal holes of coal you have to burn in order to get the heat out of your stove, and if your stove will throw the heat it should. This is a very important question, for some stoves take a lot of coal and then you don't have the proper heat. The Glenwood Ranges are noted for saving of fuel and for making cooking easy. We can supply Glenwood ranges for wood or coal, with the Shelf Mangle on or off; Hot Closet Reservoir and Gas attachments.
All made in St. John.
