Brunt of Fighting Fell on New Zealanders.

The Boers Left Fifteen Dead and Six Wounded on the Field—Convoy of Wagons Captured.

LONDON, Feb. 16.—Bishop Hartzell, according to the latest mail advices from the Cape, has been preaching with great force to Dutch and English congregations in Cape Town on the moral aspects of the war, taking the British side with almost passionate earnestness, and appealing to the Boer soldiers, after their heroic resistance, to be brave enough to acknowledge defeat and desist from warfare.

HELEBON, Orange River Colony, Feb. 15.—The British columns have again come in contact with the Boer forces near the Orange River Colony. The enemy fled, but they were pursued and some of them were killed and many wounded.

BRUSSELS, Feb. 18.—The Belgian League for the rights of man has addressed an appeal to President Roosevelt, asking him for the life of God, to intervene with the object of stopping the execution of the Boer commander Kruger and others.

LONDON, Feb. 26.—A despatch from Lord Kitchener, made public today, says: "A convoy of wagons was attacked and captured by the Boers southwest of Kimberley. The Boers consisted of a force of the Imperial yeomanry, three companies of the Northumberland Fusiliers and two guns. The fighting was severe, but we have no further details."

LONDON, Feb. 26.—Lord Kitchener reports that six hundred Boers, driving cattle, rushed the outpost line near Bothasberg, Transvaal Colony, during the night of February 25, and that some of them got through. The Boers left 13 dead and six wounded on the field.

KINGSTON, Feb. 27.—Colt Metcalfe, son of J. H. Metcalfe, ex-M.P., writes from South Africa, that Driver Forest, who went out with "D" battery two years ago, has been recommended for the Victoria Cross.

LONDON, Feb. 27.—The attack made by the Boers, numbering 600, and driving cattle before them, to rush the outpost line near Bothasberg, Transvaal Colony, during the night of Feb. 25, was most determined. They were led by two well-known fighters, Ross Hands and Mantle Botha.

FRENCH ADOPTS SAME PLAN USED AGAINST DE WET.

(Special Cable to Toronto Empire.)

PRETORIA, Feb. 25.—Gen. French has inaugurated a move against the Boers in Cape Colony similar to that recently adopted by Lord Kitchener against De Wet's forces.

The strength of the enemy is unknown, but it is probably not less than 1,000, many of whom, however, are said to be unarmed rebels. The supreme command is in the hands of Commandant Maritz, who distinguished himself some months ago by raiding for horses within 30 miles of Cape Town. Under him are Commandants Fyter (successor to Scheepers), Beuwers, and Theron, and Mr. Smuts, formerly Transvaal state attorney.

PAIRS, Feb. 25.—Securities valued at 5,000,000. (\$1,000,000), belonging to President Paul Kruger, have recently been sold here. The money will be spent in furthering the Boer propaganda in Europe and America.

BOER LIES IN INDIA. The most entertaining lies told about the British troubles in South Africa were found in a French newspaper printed in Pondicherry in India. They are so diverse that the English themselves say the joke. One of the best things that passed for news in Pondicherry was an account of General Buller's alleged capture by the Boers.

WANT TO COME TO CANADA. TORONTO, Feb. 18.—The Evening Telegram's London cable says: "A deputation of Welshmen has been organized to visit the Canadian government to-day to ask the government to provide transport for the purpose of removing to Canada a number of countrymen and their families who had emigrated to Patagonia and desired a change of settlement."

BROKE JOHNSTOWN FLOOD RECORD. LANCASTER, Pa., Feb. 27.—After having risen 19 feet and breaking the high water record established in 1889 during the Johnstown flood, the Susquehanna began to abate today. Tonight it is five feet lower at Columbia than it was at that hour last night.

VERMONT TRAGEDY.

Prosperous Farmer Killed His Wife With an Axe, and Threatened His Two Children With the Same Terrible Fate.—The Couple Were a Loving One.

RUTLAND, Vt., Feb. 27.—Mental derangement caused a local farmer, prosperous farmer of Wells, to kill his wife with an axe this afternoon.

The afternoon they left his wife and son in the sitting room of the house and went to the woodshed door. As it was locked he broke it and securing an axe returned to the kitchen. Mrs. Wells passed through this room and into the pantry, and as she did so her husband struck her twice in the head, killing her almost instantly. Then he went to the sitting room and awakened his son, who was asleep on the lounge, and told him what he had done. The only remark which indicated mental trouble was to the effect that there were others on the place who would "get the same."

RAIN IN TORRENTS.

Deluged the South Eastern Gulf States.

Flood warnings sent out to many parts of Alabama and Georgia.

ATLANTA, Ga., Feb. 27.—The southeastern Gulf states were deluged by rain last night and today. The precipitation was very heavy, and at Columbus, Ga., a bridge was swept away at 5 o'clock this morning. The rainfall there was almost a cloudburst. The Chocchochee river rose at the rate of two feet an hour. Several washouts were reported on a number of roads, and trains out of Columbus were cancelled. There has been no loss of life. The Columbus bridge broke in two about a hundred feet from the Georgia shore and went sweeping down stream at a frightful pace. The rain has been falling in torrents all day of any tomorrow. Tonight the Associated Press wire is the only one in operation to the north.

BIRMINGHAM was deluged early this morning from an intermittent rain of many hours. The rain flooded the streets, and many awnings and street signs were torn away. Flooded tracks are interfering seriously with street railway traffic, and tonight the rainfall had not ceased. All streams are swollen and rapidly rising. The total rainfall in Montgomery, Ala., up to 7 p. m. was 4.60 inches. The barometer recorded 30.23, the lowest on record in that city.

THE excessive rainfall has caused a rapid rising in the Goosa and Alabama rivers. In Atlanta rain fell in torrents all day. The rainfall up to 8 o'clock tonight was 3.34. The barometer was the lowest ever recorded.

THE weather bureau tonight sent flood warnings to all the points in Alabama and Georgia which are reached by the Chocchochee and Alabama rivers.

FREDERICK. Judgment reserved in the Turner Divorce Case—The People's Bank.

FREDERICK, Feb. 26.—At the annual meeting of the shareholders of the People's Bank this afternoon, directors and officers were re-elected as follows: President, Hon. A. F. Randolph; vice president, A. H. F. Randolph; directors, G. N. Babbitt, Hon. E. P. M. Jackson, W. G. Clark, J. W. Spurgeon, was re-appointed cashier. The financial statement was highly satisfactory, the profit and loss account as follows:

To dividend 4 per cent No. 73, July, 1901, \$7,200. To dividend 4 per cent No. 74, January, 1902, \$7,200. To reserve fund, \$5,000. To sinking fund, \$5,000. To balance carried forward, \$8,500. Total, \$32,400.

By net profits for the year ended 31st January, 1902, after deducting charges of management, taxes and all necessary expenses, \$21,571.08. Total, \$53,971.08.

In the divorce case, Mrs. Turner concluded her evidence this forenoon. The defendant declined to go upon the stand or to offer any evidence in defense, and his counsel intimated that he had no objection to a decree for divorce being granted. Judgment was reserved until the June term.

SAN FRANCISCO STORM STRUCK. SAN FRANCISCO, Feb. 25.—One of the heaviest southwest storms that has been experienced in many years struck this city this morning. The wind blew 47 miles an hour in the city, while at Point Reyes it reached 60 miles an hour. At 1 o'clock ships dragged their anchors or broke their moorings at their docks, a fishing boat was capsized, telephone and electric wires went down, awnings, shade trees and fences were wrecked and pedestrians were greatly inconvenienced.

TELEGRAPHIC communication with the outside world was cut off.

SMALLPOX AT SACO. SACO, Me., Feb. 25.—The local board of health held a meeting this afternoon and decided to close the public schools for the next two weeks on account of there being six cases of smallpox in the Knight house on Main street. No new cases have been reported today. Mrs. Pilbrick, one of the victims, was worse today, but the attending physician is of the opinion that she will recover.

LITTLE BY LITTLE.

Miss Stone is Letting Out the Story of Her Captivity.

SALONIKA, Roumelia, Feb. 27.—Miss Stone, in company with M. Gargallo, the dragoman of the American embassy at Constantinople, left here today for Constantinople. She intends to remain several weeks in Turkey and will then proceed to the United States to visit her mother.

During the captivity of Miss Stone and Mrs. Tallia, the ladies suffered greatly from want of occupation until Mrs. Tallia's baby was born. During the entire time they were with the brigands the captives were in constant dread of the energetic military pursuit which kept them always on the move.

During the month of November the weather was very severe. After the failure of the negotiations at Sofia the ladies were taken to Nis, then to the snow on an almost impassable mountain. They were very much shocked at the manner in which they were treated. They had no communications with the outside world except on matters relating to their ransom, which they constantly were asked, some items of information, such for instance as the death of President McKinley.

Upon their arrival at Salonika the former captives were much touched at the manner in which they were received. They had no communications with the outside world except on matters relating to their ransom, which they constantly were asked, some items of information, such for instance as the death of President McKinley.

During the early part of their captivity the brigands cooked food for the prisoners. Later, however, they tired of this task and the ladies had to prepare their own meals. They were supplied with eggs and with whatever else was procurable in the way of food. During their wanderings the captives were always strictly guarded and never allowed to go out and exercise during the day. This was only permitted at night.

MURDER AND SUICIDE.

The End of a Married Man's Infatuation for a Woman Other Than His Wife.

PITTSBURG, Pa., Feb. 27.—The mad infatuation of a married man for a woman other than his wife, which has been in progress for several months, ended at 11 o'clock this morning in a house on Watson street, Pittsburg, when Wm. A. Rindard, a steel-blower of the converting mill at the Edgar Thomson Works, and one of the best known men in Braddock, shot and killed Margaret Lambert of Wilbert, Township of London, Eng. A second or so later Rindard placed the revolver to his own head and breast and killed himself.

The Lambert woman's right name was Mrs. Andrew P. Wilbert. Her maiden name was Lambert. Some years ago she was married to A. P. Wilbert, a bartender. Three years ago they separated, and last April the girl took up her residence at the house of Miss May Weyman on Watson street.

Rindard was the son of a prominent real estate and insurance man of Braddock and up to last Christmas he stood high in the community. Alas, that time he killed Wilbert, who was his infatuation for her made him neglect his young wife and child. His wife is a member of a well known family in Braddock.

SOUTH AFRICA. Botha Has Not Made Peace Overtures to the British.

LONDON, Feb. 25.—The war office today denied the rumors which were circulated in the lobby of the house of commons last night that Gen. Louis Botha, the Boer commander-in-chief in South Africa, had made an offer to surrender on certain conditions. The story appeared to have come from Paris. It had a good effect on Kaffirs.

PARLIAMENT.

Reciprocity Had the Floor of the Commons.

A Remarkable Speech to Come From the Mouth of John Charlton.

OTTAWA, Feb. 24.—Reciprocity had the floor today, the sitting being characterized by a remarkable speech from Mr. Charlton, which was frequently applauded by the conservatives and received in absolute silence by the liberals. He said any unprejudiced man must agree with him that Canada had not been making satisfactory progress since confederation. During the last decade our population had increased only 10 1/2 per cent., while since 1867 the total increase was only 47 per cent. In the first thirty years of her existence the United States increased her population eight millions, whereas Canada increased by only 1,689,000. Canada had been losing the very flower of the population, and he thought the time had arrived to stop this drain and to adopt a policy which would lead to a more rapid increase of her resources and greater progress towards making Canada a nation. Mr. Charlton went on to speak of the effect of the reciprocity treaty of 1854-56. During that time Canadian exports to the United States increased from \$12,000,000 to \$44,000,000. An unfortunate expression of opinion by Canada contributed to the abrogation of the treaty. Notwithstanding the fact that this country had sent 40,000 men to fight with the Union army, the United States refused to consider a renewal of the treaty and had entered upon a period of repression which had lasted for 35 years. Continuing, he spoke of the remarkable growth of our imports from the states as compared with Britain. Our tariff was largely responsible for this unsatisfactory state of affairs. Last year our average duty on imports from the United States was 24.33 per cent., while from Great Britain it was 24.87 per cent.

Mr. Clarke—Notwithstanding the preference for Great Britain. Mr. Charlton—Yes, notwithstanding the British preference, the Canadian tariff was 3.5 of 1 per cent. more favorable to the United States than to Great Britain. (Opposition cheers.) In his opinion the present duties were unequal. They should not be lower for the United States than for another country. (Hear, hear.) They should bear the same relation to the United States as the duties which that country imposed upon Canadian products. (Opposition cheers.) He had felt at one time that the conservatives might have secured reciprocity from the Cleveland administration. His expectations, however, today were hardly as bright as they were at one time. He must confess that his experience as a member of the joint high commission hardly bore out the opinion which he formerly held. (Opposition cheers.) Mr. Lariviere—Confession is good for the soul.

Mr. Charlton—Well, I am simply stating facts of which the people of the United States are in dense ignorance. I have felt for years that we were making a mistake in not making them known to our neighbors, and therefore felt it necessary with the approval of Sir Wilfrid Laurier, to address a series of meetings in the States, and he had every reason to believe his addresses and speeches before different commercial bodies had created a profound impression. The least that Canada should demand was reciprocity in natural products, but even if that were brought about, there would still be, in his judgment, a balance of trade against this country to the extent of \$20,000,000 or \$30,000,000. He proposed to offer the Americans some inducement to adopt a decent trade policy. The inducement which he would offer them would be a rebate of 4 or 50 per cent. or even more. He did not propose to levy any duties which would injure Canadian interests, but he did propose to levy a tariff which would be a proper measure of self-protection. Then let Americans come to terms or not, just as they saw fit. For his own part he was in such a humor that he did not care greatly what they did. (Hear, hear.) He warned the American people that it might not always be possible for them to get reciprocity with Canada. It was possible that Great Britain might conclude to give a preference to the colonies. It was possible that a duty might be levied by England and the colonies against the outside world. If that policy were adopted, reciprocity would be signed down and this country would listen to it no more. (Hear, hear.) No longer must we be hewers of wood and drawers of water to the United States. His plan would effectively hit Germany on the head, and it would give to us an inducement to deal with the United States fairly. If it were not accepted by our neighbors, then Canada should adopt a policy of her own and strike out on the pathway of the empire in the way she thought best. (Opposition cheers.)

Mr. Edwards, liberal, of Russell, delivered one of his free trade speeches. He said Mr. Charlton had given the house some valuable facts to ponder over. His speech should have the effect of making public men consider the relative positions of Canada and the United States and to ascertain why Canada was lagging behind in the race. Dr. Spruille (conservative) said that he had made up his mind that the resolution was a balloon sent up by the government to see which way the wind blew. (Laughter.) In view of the situation, as explained by Mr. Charlton, the country was entitled to ask the government "What are you going to do about it?"

Mr. Heyd (liberal, of Brant), disputed the statement that the trade of Canada was in an unhealthy condition. The country was very prosperous, and now was not the time to bring about violent changes. He was in favor of increasing the protection to the woolen interests. (Hear, hear, from the opposition.) Mr. Maclean (conservative) declared

that he was not a believer in the doctrine of free exchange of natural products. What Canada wanted was protection as they have it in the United States.

Mr. Northrup (conservative, of East Hastings), thought the resolution, as worded, was a waste of the time of the house. Everybody would subscribe to the principle of reciprocity in trade conditions "so far as may be consistent with Canadian interests." The trouble was that people could not agree as to the practical working out of such a proposition.

Mr. Bell (conservative, of Pictou, N. S.), said Canadians realized that the measure of free trade among the provinces resulting from confederation had been of great benefit. This was not a question of theoretical free trade or the reverse. The nations were engaged in rivalry and were trying to grasp the prize of power and empire and wealth. The Americans refused to give Canada any part of their trade so far as they would prevent it, but at the same time they were absorbing the whole of Canada's trade. Canada could not afford to tolerate such a system. (Applause.) The repeal of the old reciprocity treaty had not been an unmitigated evil, so far at least as the maritime provinces were concerned, because as a result of that repeal the industries of those provinces had been greatly extended. The census of 1891 had been a painful surprise, and so also had been the census of 1901. It behooved Canada to inquire whether her policy did not require some fundamental change. He was not fully able to make up his mind as to the correctness of the course indicated by Mr. Charlton, but as a man he felt very much inclined to follow that course and to meet an unfriendly blow with an unfriendly blow.

Hon. Mr. Fielding said he would follow the usual practice of stating the government's view of the matter when he spoke on the subject. In the meantime, as there appeared to be no desire to force a division, he moved that the debate be adjourned. It could be taken up again later in the session if thought desirable. The motion was agreed to and the house adjourned.

NOTES.

OTTAWA, Feb. 24.—If Lord Dundonald is to be the next general officer commanding, it is said the government will insist upon a stipulation which was inserted when General Huxton went to Australia. The general will have to recognize the control of the minister of militia and accept office as a servant of the Canadian government.

Particulars of the Treadgold concessions in the Yukon were presented to parliament today in the shape of returns. They show that the original order is the most extraordinary on record. It was modified last December, but even in its present shape the order stands as a valuable grant of privileges to favored friends of the ministry without any apparent compensating advantages.

Hon. Mr. Templeman will be sworn in the privy council and a member without portfolio tomorrow. A conservative caucus will be held tomorrow.

The customs department have given orders to collectors to stop all indecent theatrical advertising at frontier points. It is stated that the C. P. R. has procured a large block of land here facing Major's Hill park and will erect a fine hotel.

OTTAWA, Feb. 25.—In the house today Mr. Monk introduced a bill to amend the interpretation act. He explained that the object was to declare more clearly in the interpretation act that companies incorporated by the federal parliament or acting under a charter from federal authority are nevertheless subject in each province as regards damages or torts to the civil law of the province. The bill was read a first time.

Most of the day's sitting was taken up in committee of supply. The opposition wanted more time to examine departmental reports, but the government insisted upon going on. The estimates of the department of agriculture were taken up and discussions took place upon the patent office, the archives branch, collation of criminal statistics, the year book, etc.

In the course of discussion it came out that a payment of \$781 had been made to H. Washington, a grip healer, "to collect statistics regarding the trend of the value for lands in the rural sections of Ontario." He had only secured figures from three points. A long debate took place on the public health vote, for which \$110,000 is asked, as compared with \$35,000 in 1896. It transpired that the government had appointed a host of medical men of the liberal persuasion at frontier points where there was really no necessity for them while at many important points they neglected to enforce quarantine regulations. Twenty or more favored physicians are still under pay. It was also developed that the dominion authorities made little or no effort to secure co-operation of the local authorities.

Hon. Mr. Fisher made a lamentable exhibition of ignorance of the affairs of his department, and after several hours' discussion the item was allowed to stand.

Mr. Barker, member for Hamilton, one of the greatest railway authorities in Canada, evidently intends devoting considerable attention to the affairs of the I. C. R.—this session. He has given notice of a series of important questions regarding the purchase of supplies for the road. He also asks for a return regarding the transfer of items of expenditure from revenue account to capital account during the past year.

NOTES.

It is reported that the government will suggest to the house an increase in the poll tax on Chinese to \$50. The British Columbia legislature wants it \$600.

Representatives from all parts of Ontario saw the government today urged a bounty on beet root sugar produced in Canada or the imposition of countervailing duties against those countries that now allow a bounty on beet sugar.

A large delegation of boot and shoe manufacturers, headed by W. A. Marsh and John Ritchie of Quebec, saw the premier today and asked for a 10 per

cent. increase in the customs duty on footwear, making the duty 35 per cent., in order to withstand American competition.

The str. Parthenia of the Donaldson line will sail from St. John to Cape Town about March 12th with a cargo of hay and general merchandise.

The first conservative caucus of the session was held today. Mr. Porter, the new member for West Hastings, presiding. Matters of interest to the party were discussed. Nearly \$500 have been received by the treasurer of the fund for the purpose of locating and marking the graves of Canadian soldiers who died in South Africa. The governor general subscribed.

R. L. Borden leaves for Belleville on Friday to attend the presentation of an oil painting to Harry Corby, ex-M. P.

Hon. Wm. Templeman, senator from British Columbia, became a member of the cabinet today. He was sworn in before his excellency this morning. Hon. Mr. Blair left today for New York.

FURNESS LINE CHANGES.

Important changes in the management of the Halifax office of the Furness-Withy Steamship Co., Ltd., were made this week. W. J. Houldsworth, who for the last three years has been associated with James Hall in the joint management of the Halifax business of the company, retires, and Mr. Hall becomes manager of the agency, with J. R. Wood of Boston as assistant. Mr. Wood, who has been seventeen years in the Boston office of the line as bookkeeper and cashier, arrived on Saturday night to assume the duties of his new position.

Mr. Kent is boring just west of the I. C. R. first reservoir near the northern semaphore. Mr. Kent has been boring about three months, and judging from the preparations made intends sticking at it until he strikes water or disturbs the equilibrium of the heathen Chinese on the other side.

INQUEST ORDERED. FREDERICTON, N. B., Feb. 28.—It is understood that Attorney General Fugley has ordered a coroner's inquest in the case of the death of the McArthur boy, at Marysville, from the effect of drinking gin. Coroner Rowley granted a permit for burial upon a certificate signed by two magistrates, under the coroner's act, that they did not consider an inquest necessary. Representations were made, however, from other sources to the attorney general, who stated that he would request Coroner Rowley to hold an inquest.

PRINCE HENRY

Will Pay a Brief Visit to Canada,

But His Engagements Preclude Going to Ottawa or Any of the Big Cities.—Dined Last Night With One Thousand American Newspaper Men.

OTTAWA, Feb. 26.—Prince Henry, brother of the German Emperor, has been invited by the government through his excellency the governor general to visit the dominion, and on Wednesday, March 5, the German Prince will spend between two and three hours on Canadian soil. His engagements preclude a visit to Ottawa or any big cities, but his tour through the United States will be interrupted to enable him to see Niagara Falls from the best point of advantage, viz., the Canadian side.

The Prince will reach the dominion end of the Suspension bridge at the falls at 2.30 p. m., where he will be received by the prime minister or other representative of the government of Canada and formally welcomed to the dominion. The Hamilton or Welland field battery will fire a royal salute, and a guard of honor will be furnished by one of the crack corps of the dominion and an escort by the Royal Canadian Dragoons from Toronto. His Royal Highness will leave again for the United States at 5 p. m. Col. Otter, D. O. C. of No. 2 district, is to be here tomorrow to discuss the proposed military arrangements with the government.

NEW YORK, Feb. 26.—Prince Henry of Prussia dined tonight with 1,000 of the men who make the American newspapers. He was the special guest of Herman Ridder, proprietor of the New York Staats Zeitung, who gathered at his table a majority of the leading figures in American journalism. They came from the four quarters of the country and made the most noteworthy gathering of their profession ever assembled in the United States.

There was a felicitous exchange of greetings between Prince Henry and the men who spoke for the journalistic craft, and the affair rattled

as one of the notable incidents of the American tour of the German Prince. The dinner was given in the handsome ballroom of the Waldorf-Astoria hotel, but that immense apartment was not large enough to accommodate the numerous guests, and the Astor gallery was also used. The two rooms were splendidly decorated. Mr. Ridder and the special guests sat at an elevated table, above which were the American and German flags. The staves were crossed, and the banner, draped fan-like, reached out like the wings of a huge butterfly. Above them was the Prussian eagle done in incandescent lights. From the boxes hung clinging vines, and set in on the ledges were hundreds of palms. Each table carried bouquets of American beauty roses, around which were candleabra shaded in red.

As the diners took their places in the boxes which wall the room. Prince Henry, attended by the members of his suite, drove to the hotel under escort of cavalry and mounted police, and the demonstration in the streets leading to the hotel was the most cordial of any that has so far marked his appearance in public. Great crowds lined the way and pressed against the police guards that had been thrown around the thirty-third street entrance to the hotel. They cheered when the Prince came in sight, and he frequently raised his hand to his cap in acknowledgment of the demonstration.

NERVOUS TROUBLES

There is no torture more acute and intolerable than nervousness. A nervous person is in a state of constant irritation by day and sleeplessness by night. The sufferer starts at every noise, is worried by a feeling that something awful is going to happen; is shaky, depressed, and, although in a constantly exhausted state, is unable to sit or lie still. If you are nervous or worried or suffer from a combination of languor and constant irritation, you need a nerve food and nerve tonic, and

Dr. Williams' Pink Pills for Pale People

are absolutely the best thing in the world for you. You will find after taking them that your feelings of distress and worry are being rapidly replaced by strength, confidence, and a feeling that you are on the road to full and complete health and strength. Get rid of your nervousness in the only possible way—by building up strong, steady nerves.

Miss Ina Doucet, Bathurst, N. B., says:—"Words fail me to adequately express what I owe to Dr. Williams' Pink Pills. I was attacked with the grippe, the after-effects of which took the form of nervous exhaustion. The least noise would startle me and I would tremble for some time. I used several medicines but they did not help me, and as time went on I was growing worse and was so nervous that I was afraid to remain alone in a room. I slept badly at night and would frequently awake with a start that would compel me to scream. The trouble told on me to such an extent that my friends feared for my recovery. At this time an aunt urged me to try Dr. Williams' Pink Pills and after using eight boxes I was completely restored to health, and I feel that Dr. Williams' Pink Pills saved my life. I sincerely hope my experience will benefit some other sufferer."

Always look at the box when you ask for Dr. Williams' Pink Pills for Pale People. If the full name is not on the box, you are not getting what you ask for. Refuse all so-called "just-as-good-as," and if you have any trouble getting the pills, they will be sent you by mail post paid at 50 cents a box or six boxes for \$2.50, by addressing The Dr. Williams Medicine Co., Brockville, Ont.

HAMPTON.

Honors to Remains of Late Rev. Ezekiel Hopper.

Impressive Services at the Residence of W. H. March; Interment at Dawson Settlement.

HAMPTON, Kings Co., Feb. 25.—The probate court of Kings county will not sit again until Thursday, March 20th.

Mrs. Frank M. Humphrey, her two children, and Miss Flossie Peters have come to Fredericton on a visit to their father, Thomas A. Peters.

The body of the late William Ryder, for many years a sergeant on the St. John police force, who of late has resided at Winchester, Mass., arrived here by C. P. R. train yesterday, and was taken in charge by Henderson Frost, and driven to the burial ground of the Norton Baptist church, where the final services were conducted by the Rev. Mr. Shaw, pastor of the church.

On the same train were the remains of the late Rev. Ezekiel Hopper, former pastor of the Station Baptist church. The body was accompanied by the widow and Mrs. M. C. Hopper of Woburn, Mass., her daughter-in-law. The body was ticketed for Hillsboro, Albert Co., but a general desire to show the esteem in which the deceased gentleman was held in this community caused a change in plan, and the body was taken from the train and carried to the residence of William H. March, whose wife is a daughter of the deceased minister.

The Rev. Ezekiel Hopper, who came of good sturdy stock, was born at Salem, Albert Co., in 1837, and was sixty-five years old at the time of his death. He was converted at an early age, and on attaining his majority began to preach, visiting the scattered and destitute parts of Albert and Westmorland counties, until in 1875 he was ordained at Dawson Settlement, continuing in the active ministry up to a couple of years ago, when he was laid aside by a severe attack of rheumatism, superinduced by exposure during a year's labor at Margaret's Bay, Nova Scotia, where his preaching stations were scattered and rendered it necessary for him to be constantly exposed in all weathers. He returned to Hampton, and for some months was with his daughter, Mrs. W. H. March.

About a year ago, having recovered the use of his limbs, he and Mrs. Hopper went to Boston and have been in that vicinity ever since. He leaves beside his widow three sons, E. Seth Hopper of Dawson Settlement, M. C. Hopper of Woburn, Mass.; S. S. Hopper of Dorchester, Mass.; Mrs. J. Milton of Winchester, Mass.; Mrs. W. H. March of Hampton, N. B., and Mrs. B. E. Webb of Shediac, N. B.

This morning the remains were accompanied by members of the family, were taken to Dawson Settlement, where the funeral obsequies were held this afternoon. Mr. Hopper was a member of the Independent Order of Foresters here, and officers of the lodge attended the service last night, and were again on hand at the station this morning. A beautiful wreath of flowers, bearing the letters I. O. F., were placed on the casket by the officers of the local lodge. Deceased was one of the most genial of men, and won the testimony of people of every denomination that he was a gentleman in the

trust and fullest sense of that word. While he held firmly to his denominational principles and was fearless in preaching the truth, there was no bigotry or bitterness in his heart or speech, and all believe that a true servant of Jesus Christ, a faithful shepherd of the spiritual flock, and a lover of men, has gone to his eternal reward.

To the Editor of the Sun:

Sir—When I wrote the letter that appeared in the Transcript, I was under the impression that I was born at old Fort Cumberland on the 15th March, 1833. While I think I must have been present, I do not remember anything about that remarkable event. Even if there were such an event, my conclusions about it are founded on mere hearsay. After reading your editorial, the letter of Mr. Acheson of the Transcript and that of "Critic" in the Sun, I might have some doubts about it, but I think I must have been present, I do not remember anything about that remarkable event. Even if there were such an event, my conclusions about it are founded on mere hearsay.

I have been told by those who lived at Fort Cumberland in the times of Corbett, Bonycastle, Watson, Dixon, Gorham, Burt and many others, prominent men, what I remembered about them, and only repeat what I was told. Think I can only show the highways and bye ways where Corbett took his "rural rides"; the cellar of the house where LeVallers lived, then the centre of his domain extending east, west, north and south, the very spot where Howe was riddled with French bullets, after he had been placed by a flag of truce; the room in my grandfather's house, called the painted room, occupied by Mrs. Bonycastle as a guest, during a part of the time her husband, not John but Richard, was in England; and his report about the fortifications of what are now the maritime provinces. I could add to these many other things which men and women now living in Cumberland, Westmorland and elsewhere, handed down to them by their progenitors.

I have not the least doubt, relying as I do on the information I received when I was a mere boy from well educated men and women, that William Cobbett studied grammar, and was assisted when studying by Schoolmaster Foster, an educated man and a scholar, and that his father, Richard Bonycastle and his wife lived for a time in the officers' barracks just inside the archway that formed the entrance to the fort, and that for a part of the time during his absence in England Mrs. Bonycastle was the guest of my grandfather and grandmother. That the existence of one of the men who lived at Fort Cumberland, William Cobbett was there when Bonycastle was there may be placed beyond a doubt, will refer you and my other critics to the records of our supreme court at Fredericton, where you will find the report of the celebrated lawyer, Benedict Arnold against Titus Knapp, in which Knapp was victorious. I have never seen the matter reported, if you are in doubt, any lawyer in Fredericton will hunt them up for you. Dorchester, Feb. 23, 1902.

Yours truly, CHAS. E. KNAPP.

ST. MARTIN'S.

A highly interesting and profitable meeting was held Feb. 24, at the Beach under the auspices of the Farmers' Institute. The speakers who occupied the evening were Dr. Gillmor, Jas. Rourke, Michael Kelly, W. L. McDermid and John Dunlop. A good audience was in attendance.

Capt. DeLong and wife celebrated their golden wedding at their home Friday, Feb. 14th, surrounded by a number of their children and many relatives. The evening was a very pleasant one. Fifty years ago Capt. DeLong then a promising young man, was united in marriage by Rev. Austin Smith to Annie Berry, both natives of St. Martins. Both health and competence have smelt all these years upon their union. They have reared a large family, most of whom are married and reside in other places. One son, James, lives in St. Martins, beside an unmarried son and daughter in the home. Capt. DeLong for many years has been the sea, sailing in the DeLong Bros' ships. Of late years he is enjoying life quietly in his home. Mrs. DeLong is a lady of estimable character, highly respected for her kindly, genial disposition. Best wishes are extended to these aged ones.

James Rourke has the credit of inventing a farm implement which he expects to launch upon the market this spring. It is a sulky potato planter, which will be capable per day with a pair of horses and teamster of furrowing, dropping and covering four acres of ground, the drills being three feet from centre to centre and the potatoes sixteen inches apart.

SENT TO DORCHESTER.

John Devine and Edward Briggs Get Terms in the Penitentiary.

Four prisoners, each charged with theft, were before Judge Forbes in the county court judge's criminal court yesterday morning, before the day in the circuit court opened. Five years in Dorchester was the aggregate penalty. The prisoners were John Devine, Edmund Morgan (Jury), Howard Briggs (guilty), and Frank J. Lyons. The first pleaded guilty to stealing an overcoat from Samuel Webber, Jan. 11, and elected to be tried under the Speedy Trials Act. Howard Briggs pleaded guilty to stealing a watch and chain from Fred Fiewelling, Feb. 15, and chose the Speedy Trials. The other two men elected to be tried by jury.

Judge Forbes in addressing Devine said that unfortunately this was not his first appearance before the court, but it was quite clear to his honor's mind that when the prisoner was in liquor he was of a vicious disposition and it was now necessary to protect the public. His honor said that he had a largely signed petition asking him to be lenient, but when persons are in the habit of leaving hands on and stealing property whenever in liquor, a sentence of fourteen years could be imposed, but he would sentence him on one of the three charges against him to three years in Dorchester with hard labor. Devine's mother and sisters who were in court were completely broken down by the sentence.

Howard Briggs, charged with stealing a watch and chain, pleaded guilty and was sentenced to two years in Dorchester with hard labor. Briggs belongs to Moncton, and is a carpenter by trade. He says his money was stolen from him by a chum, and the only manner he could raise the price of a ticket home was by appropriating Fiewelling's watch. Briggs' brother spoke in his behalf. Briggs' brother spoke in his behalf. The criminal court then adjourned.

OPERATION FOR CANCER.

Frederick Gleason: A rare surgical operation, the removal of cancer in the stomach, was successfully performed at Victoria Hospital here four weeks ago, and the patient was discharged from the institution on Tuesday. Jesse Fleming of Scotch Settlement, a middle-aged man, was brought to the hospital a month ago suffering from cancer in the stomach. He underwent an operation and the cancer was removed. He began to improve almost immediately, suffered no relapse, and was able to leave the hospital and go to his home. A successful operation of this character is of rare occurrence.

POINT DE BUTE.

At a meeting of the quarterly board of the Point de Bute Methodist Church held in Jollicore on Tuesday last, a resolution was passed expressing appreciation of the labors of the Rev. Thos. Marshall and his wife, during their vacation to visit Stockholm to attend the world's convention of the Independent Order of Good Templars in July next, he being appointed, by the body in this province, as their delegate.

Senator Beatty is expected in New Brunswick this week and will visit Sackville and Point de Bute.

The death of Rev. Donald Bliss of Mount Whately will leave a blank in that community difficult to fill.

OLD ST. JOHN.

An Interesting Paper Read Before Historical Society Last Night.

The N. B. Historical Society met last evening, with the president, Jonas Howe, in the chair. Several of the members were absent on account of the Loyalist Society meeting, but those who attended passed an agreeable and instructive evening. C. Ward read portions of a memorandum prepared by the late James Bustin, describing St. John business, streets and social organization generally in the early years of last century. Mr. Bustin was born about 1801 and was over 80 years of age when he wrote these reminiscences. But he knew the names of all the residents and all the houses on King street, Prince William street, Water street, Nelson street, and around Market square and the North and South wharves as they were about 1815. He also described the ferry, the water service, the streets, the churches, the places of social resort, the farmers' market, foreign and domestic commerce. Mr. Ward proposes to expand these memoranda into an more elaborate paper.

WON'T YOU WRITE A POSTAL To Get Well?

Send me no money, but simply write me a postal if you are not well. Pay when you get well. I will send you a book that tells how a little of my remedy has enabled me to strengthen the inside nerves. Those are the nerves that operate the stomach, kidneys, heart, womanly organism, etc. Weakness of these organs means weakness of those nerves. Nerve strength alone makes any organ do its duty. I will send you, too, an order on your nearest druggist for six bottles of Dr. Shoop's Restorative. Use it for a month, and if it succeeds pay him \$5.00 for it. If not, I will pay him myself.

No matter how difficult your case, no matter what you have tried, if my book shows you that your trouble is nerve weakness, and most sickness is—I will warrant my Restorative to cure you. I fail sometimes, but not often. My records show that 39 out of 40 who get those six bottles say, send me no money, but simply write me an order for the medicine. If it cures pay \$5.00. I leave the decision to you.

Simply state which book you want, and name of your dealer, and address. Book No. 1 on Dyspepsia. Book No. 2 on the Heart. Book No. 3 on the Kidneys. Book No. 4 for Women. Book No. 5 on Rheumatism. Book No. 6 on Eczematoid. Dr. Shoop, Box 13 Easton, Wis.

JUDGE STEVENS REMEMBERED.

At St. Andrews, Tuesday, when the county court opened, Judge Stevens was presented by the bar of Charlotte Co. and the grand jury with complimentary addresses, the occasion being his honor's 90th birthday. The judge responded in fitting terms. In connection with the reply he read the address presented to him in October, 1867, by the magistrates of the county, congratulating him upon elevation to the bench. Of those who signed that address but one, Chas. E. O. Hatheway of St. Andrews, is alive today. Mr. Hatheway was present, and after the lapse of almost thirty-five years again tendered his congratulations. Judge Stevens was visibly affected in replying to the addresses. The clergymen of the town and other gentlemen and a large number of ladies were present.

SOLDIERS' MEMORIALS.

A subscription list of the Canadian South Africa Memorial Association, of which his excellency the governor general is patron and her excellency the Countess of Minto president, has been opened at the mayor's office, and his worship will be glad to receive and forward any contributions. The objects of the Canadian South African Memorial Association are as follows: 1. To locate the graves of Canadians who have lost their lives in South Africa in the service of the Empire since the outbreak of hostilities in 1899. 2. To obtain subscriptions for the purpose of raising an amount sufficient to allow of suitable memorials being erected over the graves of the above. 3. To arrange for the erection of said memorials.

LUMBER OPERATIONS.

Clover Valley, Kings Co., is a booming town. James Crocker is putting out the lumber which P. Mosher purchased from Peter Smith last fall. Thomas Bell of Smith Town is sawing the lumber for Mr. Mosher of St. Martins. R. E. DEATH OF AN OLD RESIDENT.

On Monday evening Daniel Whelpley of the north end died at the home of his son, Thos. Whelpley, Victoria street, after a lingering illness of asthma. Deceased was over seventy-three years of age and a citizen well known and respected for his integrity. Born at the river, of Loyalist descendants, he was particularly well acquainted along Long Reach, where his earlier days were spent. Mrs. Whelpley, a confirmed invalid, survives, as do two sons, Thomas and William, and three daughters, Mrs. J. Edwards, Mrs. Charles E. Brown and Mrs. Wm. Cronk. A number of brothers and sisters are also living, among whom are John Whelpley and Mrs. H. D. Whelpley of Indiantown. Two brothers reside in the States.

WHY EASTER IS A 'MOVABLE' FEAST.

During all of March the sun is coming farther north. About the twentieth it shines directly on the equator, and the day is just as long as the night. The time of the old Jewish Passover, and hence of our Easter, depends on this date. This latter always comes on the Sunday following the first full moon after the sun crosses the line. This accounts for its being so 'movable' a feast.—March Ladies' Home Journal.

OUR SUPPLY OF SOME FOREIGN GROWN SEEDS.

The following article is from the pen of G. H. Clark, superintendent of the seed division, department of agriculture: If the farmers of Canada were acquainted with the source of supply of their root crop seeds, and the avenues through which they pass before reaching them, they would be a great deal more particular when making their purchases. Practically all the seeds for our root crops is grown in foreign countries. However important it may be that the seed for such crops be grown in the country where it is wanted for sowing, the cheap labor in those European countries, which have become the seed gardens of the world, has made the seed growing industry unprofitable to Canadian farmers or seed specialists.

Our supply of foreign grown seeds is bought and imported principally by our larger seed firms. They may make their purchases either by paying a commensurate price to relieve European seed growers, men who grow seed from selected pedigreed stock, or they may buy seed at a much lower price—seed that is grown by men whose chief aim has been to produce a large quantity, independent of the quality of the crop it will produce. In the former case, the seed is grown from selected plants—from roots which have an ideal size and form, and are known to be true to name.

For instance, an ideal turnip is one having a small neck, and top growth. Such a root when planted will produce a comparatively small growth of stalks, and consequently a small amount of seed, but the seed from such a root is apt to produce a crop like the mother root which was planted. On the other hand a small turnip having several root prongs, and an excessive growth of top coming from two or three separate neck growths, will transmit its like through the seed to the next crop. Seed can be grown from such roots much more cheaply than from selected roots, because, in the first place the mother roots are feeble, and are not as valuable for feeding, and secondly, they will produce a much larger quantity of seed. ST. JOHN, N. S., MARCH 1, 1902.

KINGS AND COLONEL DOMVILLE

(From Daily Sun, Feb. 25.) The attempt to rally the Kings county liberals to the support of Mr. Ora P. King in this election is not so far as we can see, a conspicuous success.

The order which went out from the St. John morning organ has been countermanded by the Globe, whose liberalism has endured the test of time rather better than that of the Telegraph.

But we do not need to consult newspaper opinion in St. John to learn that the liberals of Kings are not rallying to the support of Dr. Pugsley's candidate.

The liberal leader in Kings is Colonel Domville. He has been the federal candidate of the party at every federal election for twenty years. Five times he has been the standard bearer in a dominion contest, and on a greater number of occasions he has been a source of strength to the local government party in a provincial election.

It is not usual or characteristic for Colonel Domville to see a contest going on in his own county without taking a share in it. But we do not hear that Colonel Domville has addressed or even attended any of Mr. King's meetings in this campaign, and there are no signs that he is seriously concerning himself in the event.

Last year we bought of manufacturing goods alone \$37,000,000 from Great Britain, which was less than the year before, and \$95,000,000 from the United States, which was three millions more than the year before.

preached when the Mackenzie government was in power and had not refuted the doctrine of tariff protection. Mr. Charlton went to the other extreme with his crowd, but now he is trying to lead them to the protectionist camp.

WHAT MR. CHARLTON SHOWS

The following facts stated by Mr. Charlton are worthy of careful attention: Our tariff is one-half lower than that of the United States.

We give the United States better average tariff rates than we give England. The people of the United States sell to us three times as much as we sell to them.

We buy from the United States three times as much agricultural products as we sell them. Leaving out gold and silver bullion, we sell to the United States \$44,000,000 worth of goods.

We buy from them \$119,000,000 worth. The average Canadian duty on all goods imported from the United States is 12.05 per cent, and on dutiable goods alone is 24.83 per cent.

The average Canadian rate of duty on all goods from Great Britain is 18.2 per cent, and on dutiable goods alone 24.87 per cent.

While we charge less than 25 per cent on dutiable goods from the States, that country charges 50 per cent on the like goods imported from Canada.

Our average rate of 12 per cent on all goods from the States is met by that country with 23 per cent on Canadian goods.

Five and a half millions of Canadians bought more last year from the States than sixty million people from the American republics purchased. The trade of Canada is worth to the States twenty-seven times as much as the trade of the Philippines.

ocean would probably be computed at less than one in twenty. Marconi gives no guarantee of success. He binds himself to nothing more than a fair rate in case he does succeed. But while Marconi hopes for the most out of his larger scheme of messages from continent to continent, Canadians have in mind rather the possible advantage of the system for the protection of ships on our coast, for the preservation of human life, and as a means of communication over comparatively short water stretches.

CANADIANS TOO

If any Canadian was constrained to boast of the superiority of our parliamentary manners over those of the United States, and to point to Senator Tillman as an awful example, he has his own punishment. The struggle between Mr. Martin and Mr. McBride was more disorderly than that at Washington.

Two members, each professing to be a party leader, engaged in a physical contest for the possession of a particular seat. One takes advantage of the solemn moment of devotions to climb into the coveted chair behind the other, who has risen to join in the prayer.

Mr. Ivey, late collector of United States customs at Sitka, was too small a man for his place. He undertook to control Behring Sea, to veto international law, and to disregard the laws of his own country.

LETTERS FROM THE PEOPLE

(To Correspondents—Write on one side of the paper only. Send your name, not necessarily for publication, with your communication. The Sun does not undertake to return rejected manuscripts. All unsigned communications promptly consigned to the waste basket.)

To the Editor of the Sun: Sir—On Monday afternoon, the 24th inst., the anxiously awaited "committee" of the Hon. the Minister in Council, Hon. L. J. Tweedie, premier, provincial secretary, general commissioner, and committee, arrived here as was agreed on the 12th inst. at St. John to hear the argument and evidence in re the smallpox bills of our local board of health and why the Gloucester county council refused to assent for the bills as presented.

Notwithstanding the position the counsel for county were placed in they were able to show in many cases where the accounts were exorbitant, payments made without any value given, tobacco, whiskey, etc., furnished almost indiscriminately, accounts presented against board of health which had been paid by private individuals; clothes, provisions and even luxuries furnished and no attempt even made by the board of health to ascertain whether the parties supplied were in a position to pay for them, as the act requires. The board of health, relying on the apparent authority given them under the act to do as they please and call upon the public to pay their bills, no matter for what amount presented, even though these bills never came before the board of health but were certified to by the chairman of the board, who by the way enjoyed the great privilege of physician for the board, thus certifying to his own bills, etc.

PRINCE HENRY

WASHINGTON, Feb. 27.—Prince Henry of Prussia journeyed to Mount Vernon this afternoon and placed two wreaths on the tomb of Washington. He approached the grave of the first president with bare head, and that there might be nothing irreverent in the ceremony he asked a dozen persons who stood around holding cameras, to refrain from photographing him. The royal visitor and his party were taken to Mount Vernon by special train over the Washington, Arlington and Mount Vernon electric railway.

The large observation cars were provided for the occasion and the prince saw the long bridge and the headlands of Northern Virginia, historic to Americans since colonial days. It was 2.30 o'clock when the special departed and the run to Mount Vernon occupied 55 minutes. Prince Henry walked to the Washington home and was driven from there down over the slope of the hill to the tomb. When the iron grate of the tomb was opened he removed his cap and entered. Two large wreaths made at Washington by his order, already had been sent to the tomb, and taking them up he formally set them in place.

N. S. MINING SOCIETY

HALIFAX, N. S., Feb. 26.—At the annual meeting of the Nova Scotia Mining Society today, a resolution was unanimously passed that a demand be made upon the Dominion Government to publish at once the maps of the geological survey of Nova Scotia. These maps have long been delayed and the mining interests of this province have suffered accordingly.

MARINE DISASTERS

PHILADELPHIA, Feb. 26.—The Maritime Exchange received information today of the stranding of the steamship Plant Neptune, which left this port on Friday for Manchester with a valuable cargo of grain. The ship went ashore in the Delaware river, below Horseshoe buoy. Tugs have gone to her assistance.

FOR TWENTY-ONE YEARS

Catarrh Remedies and Doctors Failed—Pe-ru-na Cured.

ELGIN, ILL.—In a very recent communication from this place comes the news that Mr. Arthur Ernest Kidd, a well-known architect of that city, has made complete recovery from catarrh of the head from which he had suffered for nearly a quarter of a century. He writes from 18 Hamilton ave.: "I am 42 years of age, and have had catarrh of the head for over half of my life, as a result of scarlet fever, followed by typhoid fever. I got so bad that I was almost constantly coughing and clearing my throat. The catarrh greatly impaired my eyesight, and the hearing in one ear, and reduced my weight to 110 pounds.

THE EAGLE SCREAMS

Collector Ivey of Sitka Defies U. S. Secretary of Treasury.

WASHINGTON, Feb. 26.—Some time ago the secretary of the treasury received unofficial information that J. W. Ivey, collector of customs at Sitka, had instructed his deputy at Unalakleet not to permit Canadian vessels, presumably about to engage in pelagic sealing, to obtain supplies at that port. The collector was directed to send a statement of the facts to the department and was informed that if such orders had been given they must be rescinded. The department received a telegram from Ivey today, saying:

"My instructions were not against vessels engaged in alleged legal sealing, but against Canadian vessels actually engaged in pelagic sealing, which is illegal and jurisdiction of the United States. If there is an ancient treaty between the United States and Great Britain by which British subjects can commit destroying American property, and depleting our revenue of tens of thousands of dollars annually, while our own citizens are denied these privileges, the sooner such treaty is abrogated the better. Your solicitude regarding international complications is not unappreciated, as the pelagic system is not yet opened. Your new collection will arrive in time for order. My Americanism will not allow me to rescind an order which gives British subjects privileges within our marine jurisdiction, which are denied our own people. There is another matter that may attract your attention. I have recently issued orders to the deputy at Skagway, a copy of which has been sent you, which has put the Canadian officers located there out of business and sent them to their own territory.

You are aware of the fact that this officer became so dissatisfied with the interference with American officers in the discharge of their official duties, opened United States consular mail, and that the railway officials, discriminated in the order of shipment in favor of Canadian merchandise against that shipped from Seattle, established a Canadian quarantine at Skagway, collected moneys and performed other acts of British sovereignty in a port of the United States, such as hoisting with braided the cross of St. George from the flagstaff of his custom house. I have sent the consular, baggage, flag and other paraphernalia lying out of the concern. You may fear the shadow of international complications and rescind this order, but a Reed, an Olney or Blaine would not."

PROVINCIAL NEWS.

HOPEWELL HILL, Feb. 23.—Solomon Woodworth, an old and well known resident, died at his home here on Friday night after several weeks' illness. He was a son of the late Daniel Woodworth, sr., of Chemical Road, was 76 years of age, and had resided in this village for about twenty years. He leaves, besides his wife, one son, Alfred, of this place, and three daughters, Mrs. Buck of Dorchester, Mrs. Bryant of Lynn, Mass., and Mrs. Jas. Berryman of this village. The deceased was one of a large family of brothers and sisters, the following of whom survive: Levi, Reuben and George Woodworth of Chemical Road, Ezra of Hillsboro, Daniel of Seattle, Wash., Mrs. Goldworthy and Mrs. Kyle of Marysville.

Great interest continues to be manifested in the revival meetings that are being conducted at Albert Mines by Pastor Addison and Evangelist Marple. Nine candidates were baptized today.

Miss Evelyn Bennett of Hopewell Cape went to Alma this week to take charge of the primary department of the grammar school, Miss Swanson, who had been teaching there for some years, having resigned.

HOPEWELL HILL, Feb. 24.—The funeral of the late Solomon Woodworth took place this afternoon at 2 o'clock. The services, which were conducted by Rev. F. D. Davidson, assisted by the Rev. J. K. King, were held in the Baptist church and were very largely attended. The choir sang "Asleep in Jesus, How Blest the Righteous When He Dies, and Forever with the Lord." The pall-bearers were: Levi, Ezra, Reuben and George Woodworth, brothers, and Abram and Branch Woodworth, cousins of the deceased. Interment was at the new cemetery at this place.

A large white owl, that has been making its haunts on the Shepody marsh, was shot today by John Russell. The bird measures four feet or over across the wings.

MILLTOWN, Feb. 24.—Edward Welch, who has been working in H. M. Bates' grocery store, was taken sick last Thursday while at work with a severe attack of nervousness and grew so bad that he had to be moved to the asylum on Saturday.

B. H. McAdam sang in the Congregational church, Calais, at the morning service Sunday and at the Methodist church, St. Stephen, in the evening. Mr. McAdam has quite a number of pupils in this place.

Mrs. Chas. Moore is lying in a critical condition at the home of her daughter, Mrs. John Phalen.

Will Harmon, milk merchant, lost a valuable cow last week.

A number of members of the Wilberforce Division, S. of T., drove to Graham's Moore's Mill, Saturday evening, and a good time was reported. Another crowd drove to Baring and septin the evening with Mrs. Brook.

Mrs. Hattie Treacren is to take charge of the school at Upper Little Ridgerton next week.

SIXSEX, Feb. 25.—The apical services in the Free Baptist church have closed, but the apical religious awakening has by no means ceased. Last Sunday evening several persons indicated their desire to commence a Christian life, and at the close of the service three candidates were baptized. There will probably be baptism next Sunday.

HAVELOCK, Feb. 24.—Fred and Charles Lutes of North River have entered into partnership in the lumber business. They have their lumber camp in the woods north of Hicksville, and have taken to that place a 25 horse power portable steam saw mill, with a capacity of 8,000 feet per day. They are at present sawing deals and scantling. As the hauling is only for a short distance, only three teams are found necessary. They have at present a crew of twelve men, most of whom are from Sherman Settlement. The mill is just back from Chandler Hicks'. They began work Nov. 27.

McADAM JUNCTION, Feb. 25.—The ladies of Granite Rock Companion Court of Foresters held a concert and ice cream social last evening. J. W. Hoyt, collector of customs, was chairman. The following programme was carried out: Opening song by the court; recitation, Mollie's Little Ram, Edna Nasson; Borrowing, a dialogue, four boys and two girls; motion song by the children; Dialogue, in Want of a Servant; tableau, Cutting Wood, Miss Tracy and Miss Boone; song by Miss Smith, who kindly responded to an encore; a charade, Waterfall, one gentleman and five ladies; recitation by Miss Tracy; reading by H. F. Perkins; song, H. Gillies. At the conclusion of the programme cake and coffee were served around. Ice cream and candy were on sale at the refreshment stand.

New occupants are fast coming to the houses of the residents of McAdam, namely, a boy at the home of Geo. Palmer, another at the home of C. H. Moffatt and a third at the home of T. Seges. The usual compliments are being offered to the happy parents.

A new coal chute has just been completed. The coal will be hoisted by a gasoline engine.

Miss E. Smith of Harvey station, who has been filling the position of music teacher at McAdam for the past year, has given up her work to take a course in Victoria Public Hospital, Montreal, with a view of becoming a trained nurse. She leaves a good opening for a successor.

Zelmer Nason, a young lad attending school, and son of Edwin Nason, who has been ill for the last two weeks, died last night.

LEPRELUX, Feb. 24.—Jonas H. Stafford went to Bonny River on Friday on business. Miss Cora Baloon of Musquash visited friends at Leprelux on Saturday. Mrs. J. Fritz of Lancaster spent a week with Mrs. T. Tompson at Sunny Side.

The lumbermen of the Seven Mile Lake Co. are rapidly moving their deals to the public station.

PARRBORO, N. S., Feb. 25.—A keenly-contested hockey match was played in Coocla rink last night between the Victorias of Amherst, and a team from the Parrboro club. The home team won, with a score of 5 to 2. After the match the Parrboro club treated the visiting team to a supper at Mosher's restaurant.

When the town water system was installed the authorities neglected to secure the land on the mountain side where the dam was built, and this neglect has been the cause of considerable trouble and annoyance. A meeting of the ratepayers last night voted two thousand dollars for the purchase of 14 acres of land, which includes the site of the dam and forms part of the watershed. It was the general feeling that the town now has to pay two or three prices because the land was not bought at the proper time.

A successful and pleasing parlor concert was held in the Baptist parsonage last evening in aid of the church funds.

The farmers, lumbermen, and in fact everyone who has a team are busy hauling ship-timber, lumber, piling, ice and cordwood into town. The roads are excellent.

Robt. Longworth (cousin, Glynwood, P. E. I.), all the stock in the Charlottetown Condensed Milk Co., Charlottetown driving park and exhibition.

Five hundred dollars, Pleasant street Methodist church, Truro, Thanksgiving fund, if not paid before will take effect.

Two thousand dollars for memorial window in Prince street Methodist church, Charlottetown, in memory of his late parents.

Four shares Charlottetown Steam Navigation Co. to Agnes Longworth, Glynwood.

Rev. Henry McNeill Smith to have five hundred dollars towards the education of his eldest son.

Mt. Allison Academy, where deceased attended school, one thousand dollars.

Mt. Allison Ladies' College, where daughter attended school, one thousand dollars.

Housekeeper, Mrs. Forbes, two hundred and fifty dollars. The farmer, Chas. Maynard, two hundred dollars. A farm hand, Isaac Brodie, one hundred and fifty dollars. Wm. Byard, deacon of the Zion Baptist church, colored, fifty dollars. A niece, Nellie Buxhall, Avalon, Nfld., five hundred dollars.

The daughter to have all the personal effects not otherwise disposed of in her own name, the use of homestead and farm as long as she wishes, the executors to have power to sell as occasion may occur. None above to be paid until after the will is in probate.

If daughter leaves lawful issue her rights go to the heirs in turn. Provision is made for the partition of the estate in the event of her dying childless.

HALIFAX, N. S., Feb. 26.—With nearly 2,500 passengers on board two steamers of the North German Lloyd line, the Neckar and the Karls Ruhel, arrived this evening, the Neckar in tow of the Karls Ruhel. To safeguard life and property, those two steamers were accompanied by the Mailhead. The rudder of the Neckar was broken, so that she was helpless. The steamers left Bremen together on the 8th February, the former being for New York and the latter for Baltimore. The Neckar passed Prawl Point on the 10th inst. The weather was stormy throughout the trip, but especially so on Monday, 17th, when a heavy north-east gale prevailed. It was during this gale that the Neckar was disabled. Her rudder was broken between the main post and the rudder box. The damage to her rudder left the Neckar in a helpless condition, and she was tossed about by wind and sea until the following day, when the Karls Ruhel came up and took her in tow. The next day the Mailhead, from New Orleans for Halifax, came up and with the Karls Ruhel stood by the Neckar till she reached Halifax.

The disaster to the Neckar occurred off the Banks of Newfoundland, latitude 43.25 N.; 46.49 W. The steamer was then about 700 miles from Hal-

Be forehanded, lock the Gateway-Catarrh, and thus prevent Consumption from taking hold of your system. Every sensible person knows that Catarrh is the forerunner or starting point of Consumption, and every Catarrh sufferer is very liable—not perhaps right away—but perhaps next year or afterwards, to be in the deadly grip of that dread disease.

The way Catarrh develops into Consumption is very simple. During the day or waking part of one's life, the

WHERE CATARRH FREQUENTLY ENDS.

SYMPTOMS OF CATARRH OF THE BRONCHIAL TUBES.

These symptoms if neglected will inevitably run into consumption.

- "Have you a cough?"
"Are you losing flesh?"
"Do you cough at night?"
"Have you pain in side?"
"Is your appetite variable?"
"Have you stitches in side?"
"Do you cough until you gag?"
"Do you cough on going to bed?"
"Do you cough in the morning?"
"Are you low spirited at times?"
"Do you spit up yellow matter?"

SYMPTOMS OF CATARRH OF THE HEAD AND THROAT.

The most prevalent form of catarrh, and results from neglected colds.

- "Do you spit up slime?"
"Are your eyes watery?"
"Does your nose seem full?"
"Does your nose discharge?"
"Do you take cold easily?"
"Do you get a sore throat?"
"Do crusts form in the nose?"
"Do you raise frothy material?"

If you have some of the above symptoms and want to be cured, or wish for a lengthy diagnosis of your case, answer the above questions, cut them out, and write Catarrh Specialist Sproule, 7-13 Dione Street, Boston.

board and seems still to be able to keep his promise."

Continuing, the speaker complained of the delay of nearly five months in the commission's report. He remarked that the law had apparently been better observed since the investigation, but earnestly urged that the alliance relax none of its vigilance. In conclusion, he spoke of the growing sympathy of the public with the work of the alliance, and expressed his regret that the pressure of pastoral work compelled him to ask to be relieved of the presidency of the order.

After a vote of thanks, moved by Rev. Geo. Steel and seconded by Rev. D. Long, had been presented to the retiring president, the nominating committee presented the following list of officers for the ensuing year: President, Rev. Dr. Wilson; vice-presidents, H. C. Tilley and C. H. Coates; secretary-treasurer, Rev. A. H. Forster; executive committee, Revs. Dr. Fotheringham, J. A. Richardson, Geo. Steel, D. Long, J. C. B. Appel, B. Beatty, J. D. Freeman, B. N. Nobles, W. K. Thomson, M. E. Thomson and W. H. Sampson, and Messrs. Joe. Allison, Judge Forbes, W. D. Baskin, J. Parks, Geo. Williams, R. T. Hayes, J. C. Anderton, Chas. K. Short and E. W. Slipp.

His honor Judge Forbes moved the adoption of the list in a speech strongly supporting the aims and purposes of the alliance. He was followed by brief addresses from Rev. Dr. Wilson on taking the chair, by Rev. D. Long, Rev. Geo. Steel and J. D. Freeman, who thought the burden of responsibility for the violation of the Sabbath rested not upon any officials, but rather upon the carelessness in religious observance of professed Christians.

Regarding the governor general, the speaker, after referring to his excellent visit here and the communication sent to him by the alliance to avoid his official arrival and departure from St. John on the Sabbath, said: "The crowd which assembled to welcome their excellencies on Sunday evening, when they ought to have been in their respective churches, filled up the line of waiting by denouncing the impertinent interference of the alliance, so that Lord Minto was emboldened to publicly and offensively reprimand being influenced by gentlemanly courtesy in conforming to the prayer of the memorial, and to reply to its terms of studied deference by a rude and curt acknowledgment of its receipt. We submit that the action of the alliance did not merit this treatment, nor was it worthy of a Scottish nobleman and the representative of a Sabbath-observing King Edward."

The meeting itself, on account of lack of advertisement or for other reasons, had not excited great public interest. Of the members of the Alliance were present in the vestry of Gormish street Baptist church Rev. Dr. Fotheringham, Rev. Dr. Wilson, Judge Forbes, Rev. J. D. Freeman, Rev. D. Long, Rev. Geo. Steel, W. J. Parks and R. T. Hayes. Outside of these the number consisted of less than a dozen people.

After an opening prayer by Rev. J. D. Freeman, followed by a solo by R. S. Ritchie, Rev. Dr. Wilson, secretary of the alliance, presented the report of the work done last past year. The expenses had been \$261, which had been met by generous donations, of which \$40 was from the local C. E. union. During the year 14 branches had been organized in the province, which were amalgamated into a provincial alliance, for the maintenance of which the St. John branch was to contribute \$100. The investigation before Premier Tupper referred to in the memorial was stated that ample evidence had been produced to prove every charge in the memorial. The offered co-operation of the city labor unions was mentioned with pleasure and great regret expressed at the resignation of Dr. Fotheringham from the presidency, which he had so faithfully and efficiently filled.

On motion of Judge Forbes, seconded by Rev. D. Long, the report was received and a vote of thanks passed to the secretary.

GRATEFUL WORDS.

A Quebec Gentleman who found in DODD'S DYSPESPIA TABLETS a Perfect Cure for His Dyspepsia.

One who has never had to endure the dreadful pain and depression of Dyspepsia cannot understand the wonderful gratitude of the slave who has found freedom from the bonds of this torturing monster. This feeling of gratitude is so overwhelming that its expression is often hard for these inexperienced ones to understand. It lends a color to the letters received in praise of DODD'S DYSPESPIA TABLETS which makes them seem almost overdone.

"I thank Providence for having been so good as to put DODD'S DYSPESPIA TABLETS in my way." is a sentence selected from a recent letter. This is a sample of what thousands say in different ways.

WENT TO SEE KING EDWARD. Jolly Experience of an American Boy Who Sailed From St. John on a Schooner.

(The American Boy.) Wilbur Johnson, a fifteen-year-old Washington City boy, is the hero of quite an adventure. The boy went to England last summer for an outing and snap-shot camera expedition, and was royally entertained by the King and Queen. He set out from St. John, N. B., on the 9th of June for England by schooner. Upon his arrival in London he was unstrung his camera and went to work. One day he came to Marlborough House, the residence of the King. Handling the guard a piece of silver, he went inside the gates. Just as he was about ready to press the bulb on a good snap shot, he was startled to see an elderly gentleman standing directly in front of him.

"Hello, sonny, what are you going to do?" he asked. The boy told his story, and the gentleman said, "You can't take a picture of Marlborough House." He informed him that he was the Duke of Argyll. He then asked the boy if he wanted to see the King, and the upshot of the matter was that the Duke agreed to present the boy at Marlborough House on Wednesday morning following. Of course the boy was there at the appointed time, dressed in the uniform of the Washington High School Cadets, of which he is a member.

"I see you are an officer," began the King, after a hearty salutation. "No, sir, I am only a private," he answered. "Ah, I thought you were an officer." Then the boy explained to him that the officers wore shoulder straps and told him all about the high school cadets and how for four years at the Central High School at Washington had carried off the flag in drill contests, and how this high school had the fastest runners, the best athletic teams, the broadest jumpers—in fact, the best of everything in sports.

After having been with the King a half hour he backed himself out of the room and ran to his hotel, greatly elated over his adventure.

THE DEATH ROLL. CAMPBELLTOWN, N. B., Feb. 25.—Alexander Dickie of Seaside died last night at the age of seventy-seven years. There are few men in Restigouche county who enjoyed the respect of his fellow-citizens in the measure he did, and the sympathy with his bereaved family is general.

THE SCOTCHMAN'S GROWTH.

A Parliamentary Paper has been published presenting some interesting results with reference to Scotland of the census of 1911.

The figures are: Houses, 228,514 inhabited; 69,420 uninhabited; 2,082,288. There are more than 2,000,000 Scotch people, which means about three rooms for every four persons.

Is Gaelic being lost? The Registrar General has set himself to answer this question by introducing into the returns columns for "persons speaking Gaelic only" and "persons speaking Gaelic and English." It will come as a surprise to many that in Scotland there are no fewer than 25,000 persons who speak Gaelic only. Most of these, of course, are in the counties, in the burghs they number only 2,800, and on board ships in Scottish waters only 50. Highlanders will be interested to learn that 262,700 Scotch speak Gaelic in addition to the language of Scott and Berns.

CHILDREN CRY FOR CASTORIA. ARRIVAL OF THE LIFE BOAT. The life boat, built at Gloucester, Mass., for this city, reached here yesterday afternoon by the I. S. S. Co.'s steamer St. Croix. It is a fine boat, with a complete outfit. Harbor Master Taylor announced to the aldermen in attendance in the City Hall yesterday afternoon the arrival of the boat. Capt. Taylor said the boat would accommodate the whole Council. It was placed in one of the sheds at Reed's Point, for no steps have yet been taken by the Council to secure a crew to man the boat, but it is not likely any difficulty will be experienced in that direction.

BRAIN FOOD. IS OF LITTLE BENEFIT UNLESS IT IS DIGESTED. Nearly everybody will admit that as a nation we eat too much meat and too little of vegetables and the grains. For business men, office men and clerks, and in fact everyone engaged in sedentary or indoor occupations, grains, milk and vegetables are much more healthful.

Only men engaged in a severe outdoor manual labor can live on a heavy meat diet and continue in health.

WRECK OF GRECIAN. Captain's Certificate Suspended for Three Months. HALIFAX, N. S., Feb. 25.—Commander Spain, Capt. Bloomfield Douglas and Capt. Murphy, who held an enquiry into the loss of the steamer Grecian, gave their decision this morning. The certificate of Capt. J. S. Harrison was suspended for three months from the date of the stranding of the steamer. The court recommended that he be granted a mate's certificate in the meantime. The certificates of the officers were not interfered with. The court was of the opinion that the loss of the ship was due to the one point westerly deviation of the compass. The captain, who had advised the pilot of the same, should have seen that allowances were made and the captain was therefore in fault. The lead should also have been used when a snow squall was met with just previous to the Grecian going ashore.

PRESENTATION MONDAY EVENING. Monday evening Rev. Miles Trafton, pastor of the Carleton street Reformed Baptist church, and Mrs. Trafton were agreeably surprised at their new home on Wright street by a large number of ladies and gentlemen of the congregation.

CASTORIA For Infants and Children. THE COURTS TODAY. Judge Landry will sit at the hearing of the Bluff weir case this morning. The county court judge's official court for speedy trials will sit at half-past ten o'clock. The February term of the county court opens at 11 o'clock.

Want This Lamp?

Ask your druggist to show it to you. This is the way you use Vapo-Cresolene. You put some Cresolene in the vaporizer, light the lamp beneath, and breathe in the vapor. It is the most healing, most soothing and most penetrating vapor that is known. Not a single disease germ can live in it. For whooping-cough and croup it is a positive and quick cure, while for all throat and bronchial troubles it is the best remedy you can use.

Vapo-Cresolene is sold by druggists everywhere. An Apocryphal, including the Vapo-Cresolene Lamp, which should last a life-time, and a bottle of Cresolene, complete, \$7.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimonials free upon request. Vapo-Cresolene Co., 110 Fulton St., New York, U.S.A.
