GOLD-HEADED CANE
FOR VETERAN SECRETARY

H. C. Childs is Honored by Members of Askin Street Methodist Church.

At the regular meeting of the stewards, trustees and members of the quarterly board held last evening in Askin Street Methodist Church, the recommendation of the stewards, to increase the salary of the pastor, Rev. J. T. C. Morris, by \$300 per annum, was unanimously passed.

During the evening, H. C. Childs, who has been secretary of the trustee board for the past 40 years, was very pleasantly surprised by being presented with a handsome gold-headed cane and an address, expressing appreciation of the excellont services he has rendered. Mr. Childs recently tendered his resignation. The presentation of the cane was made by John Heaman, and the address was read by D. C. Wilson. In replying, Mr. Childs spoke most-interestingly of the growth of the church, and the development that has taken place in forty years. F. B. Kilbourne was elected to succeed Mr. Childs as secretary.

kindly courtesy to our class is a great lover of birds and has been unusually successful in attracting them about his home. His numerous bird houses and feeding devices bring flocks of "little brothers in feathers" every season. During the past winter he had bluejays, juncos, song-sparrows, cardinals and "clouds of chickadees" (as the boys phrased it) as regular patrons of his excellent out-door lunch-counter.

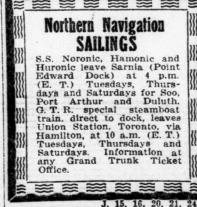

Mr. Middleton was kind enough to allow the club members to go to his home at any convenient time to watch the birds and help to feed them. The boy who on such an occasion succeeded in persuading a chickadee to take a nut kernel from his lips or even from his shoulder, was a proud boy indeed! It is small wonder that our club has succeeded with the fine co-operation of such citizens as Mr. Saunders and Mr. Middleton.

LIQUOR "SOME PLACE"

'general discussion' follows. Nearly every boy has some interesting item of news to contribute—the story of the tenants of his bird-house, his success with feeding-boards for the winter birds, an adventure with a squirrel in the park, or the report of a tramp in the woods. After this, arrangements for the next meeting are made, the members vying with one another for places on the program. The difficulty is not to secure members, but to distribute the honors of participation fairly.

### FIFTEEN DWELLINGS ALMOST COMPLETED

The latest undertaking of the hous-ing commission, the erection of a group bers of the club prophesy that this year's showing will eclipse all previous ises on Garfield avenue, is making rapid progress, Fifteen dwellings are almost completed. The roofs are being constructed. Permits for two additional houses were taken out to-day. The cost is estimated at \$4.565 each. They will be one story in height and of plaster-stucco construction, H. C. McBride is the architect and R. G. Wilson & Sons are the builders. T. W. Spence has taken out a permit to build a one-story frame dwelling at 684 Hamilton road at a cost of \$2,000. This makes 58 permits this month for a total of \$75,240.

### Don't Be Bald

and Lustrous.

Few of us get bald in a day, and we all have ample warning when our hair is thinning out.

Parisian sage is a most efficient hair invigorator, but to quickly stop any further loss of hair and promote a new growth it must be rubbed into the scalp so the starved hair roots can really absorb it and get the vital stimulation so badly needed. You will surely be delighted with the first application, for your hair and scalp should look and feel 100 per cent better.

Parisian sage is not expensive. It's a greater production" movement. Results to date have been most encouraging. E. all have ample warning when our hair is thinning out.

100 per cent better.

Parisian sage is not expensive. It's a scientific preparation that supplies hair needs-a clean, non-sticky, antiseptic liquid that is sold at good drug stores everywhere with guarantee to give you perfect satisfaction or money refunded. Good-looking hair is half the battle in any man's or woman's personal appearance. Neglect means dull, thin, dead-looking hair and finally baldness, while a little attention now should insure thick and lustrous hair for years to come. No matter what your hair troubles, try a Parisian sage massage tonight—you will not be disappointed.

Four Hundred Cups of Perfect Tea In Every Pound of D.G.T. Dollar Blend

> Tea with a distinct individual flavor; tea, the like of which you have never tasted before; tea that is blended from the very finest early pickings of young plants in the choicest gardens of India and Ceylon; tea that makes a delightful brew from a minimum amount of leaves and that does not require "an extra spoonful for the pot"; that is

## Daly-Grange Dollar Blend Tea

"The Tea That Makes You Long for a Second Cup."

It is true that at a dollar a pound it may seem expensive to people who do not realize that it takes much less to brew a cup; that more than four hundred cups can be brewed from a pound, and that teas costing as high as sixty cents a pound brew less than two hundred cups of indifferent tea.

D. G. T. Dollar Blend is imported and blended for particular people by Daly Grange Teas, Limited, Ontario's oldest tea house.

Bolsheviki Decline To Come To London For Conference, Says Note.

LONDON, July 20 .- The reply of the

LONDON, July 20.—The reply of the Russian Soviet Government to the British note concerning an armistice with Poland rejects in substance the British peace proposals, according to the London Times. which today publishes a summary of the Soviet answer.

The document is a very lengthy one, and the Times assumes that it will soon be published by the Government. The Bolsheviki decline to come to London for the suggested peace conference, according to the Times, because they say Great Britain, is not impartial. They also object to the admission to the conference of delegates from the Baltic states, saying Russia already has made peace with them.

As to Poland, the Bolshevik Government points out that the proposed armistice line is unfair to Poland, and that with direct negotiations the Bolsheviki afe prepared to grant Poland a much more favorable frontier.

The Bolshevik reply refuses flatly to entertain any conditions regarding the forces of Gen. Wrangel, and the refugees in South Russia, and demands the unconditional surrender of these. The tone of the reply is sarcastic, says the Times, which declares that it is aimed at driving a wedge between Poland and the Allies by stimulating Polish dissatisfaction with the British proposals.

The Times adds that it believes the reply will make it more difficult for Great Britain to enter into trade relations with Russia.

The Pastor of Border Town Church Offers To Provide Witnesses.

WINDSOR, July 19 .- Charging the police committee of the Sandwich town council and the police department of TORONTO, July 19.—By a close vote the city council here this afternoon decided against paying salaries to the men who serve on the transportation committee in connection with the city taking over and operating the street railway when the Toronto Railway Company's lines when its franchise expires in August, 1921. The board of control was asked by the council to submit the names of men willing to serve on the commission without salary. The board of control had recommended paying \$6,000 a year to the chairman of the commission, and \$5,000 to each of the other two members, but the majority of the members of the council vere opposed to this.

police committee of the Sandwich town council and the police department of that town with "gross negligence and inefficiency, the result of which was an epide all of drunkenness, disorderly conduct, allicit traffic in liquor and indecency," the Rev. J. O. L. Spracklin, pastor of the Sandwich Methodist Church, tonight in a written statement threw the gauntiet directly in the face of Mayor Donnelly and the members of the council in his demand for a thorough public investigation with evidence taken from wfinesses under oath.

With the town hall packed to capacity and with a host of prominent citizens at his back, Rev. Spracklin made charges which proved the biggest sensation the town has known, and he made them in writing. The scathing denunciation of the police administration in the town exceeded even his arraignment of a few weeks ago, when he was first promised the probe which never materialized and to gain which he was forced to make his charges in writing.

Public Investigation.

FOR ANY MAN

He demanded: "A proper, thorough and public investigation where the whole question of the police administration of the town would be probed and which would have the power to subpoen a witnesses to give evidence under oath," and promised that he would produce witnesses who would prove that "the negligence and inefficency of the police committee and the police department was such that it amounted virtually to a protection of those engaged in the violation of law and order."

of Indianapolis committed suicide by jumping overboard.

As the boat was nearing Muir's Landing, Pike, who had been sitting with his wife on the lower deck, mounted his chair and stepped overboard. He was said to have been dead when he struck the water, as his body did not sink. A man from shore was first to reach the body, but could not pull it to the Wauketa, so a boat from the steamer was lowered and succeeded in recovering it.

Hurry-Up Preparations For Beginning of Air Force Camp.

WILLIAMS TO COMMAND

School of Special Flying Is Under Vancouver Major-Brown Adjutant.

OTTAWA, July 19 .- (By the Canadian Press) .- Preparations for the beginning of training at the Canadian Air Force camp at Camp Borden are now being rushed in an attempt to have everything in readiness for the beginning of classes as soon as the air force regulations have been approved by the privy council. These regula-tions are now in the printers' hands and will in a few days be submitted to the air board for submission by it to the cabinet.

it to the cabinet.

The work of preparing the graduation and seniority list is being held up because applicants have not been returning their questionnaires to the air board promtply. When these questionnaires are in hand the seniority list will be drafted and issued.

Major J. Scott Williams of Vancouver, B. C., will take command of the school of special flying.

Captain Roy Brown, the Canadian flier, who was officially credited with bringing down Baron Richthofen, one of Germany's cleverest air circus leaders, has joined the staff at Camp Borden as first adjutant. ers, has joined the staff at Camp Borden as first adjutant.
Captain J. D. Fairweather, first equipment officer, is from Toronto. He was formerly equipment officer with the Royal Air Force in Canada.

The second nucleus flight will leave for Camp Borden on Wednesday, and the third well follow on Monday next. The uniforms to be worn by the members of the force are expected to be ready for issue by the end of this month.

### COAL PROHIBITION RESTS WITH U. S ROADS--CARVELL

Railway Commissioners Confident Supply Will Be Found.

WASHINGTON, July 19 .- Plans for speeding up the movement of coal to central Canada were discussed today by Frank B. Carvell and S. J. McLean of the Canadian Railway Board at con-ferences with the United States' Interferences with the United States Interstate Commerce Commission and Daniel Willard, chairman of the advisory commission of the Association of Railway Executives. Before leaving here for Ottawa the Canadian commissioners announced they would meet later with Canadian railroad officials to consider priority of movement for coal and increaseing car mileage.

Both commissioners said they were confident that the coal problem facing central Canada would be solved, but added that it primarily rested with the United States railroads and coal operators in getting improved movement of coal.

THE SAME OLD GANG.

The local contemporary says that Liberal papers characterize the Meighen cabinet as the says: old gang," and not something different the mixed crew that came in on the khaki election of 1917. The local contemporary fails to understand the meaning of the "old gang," though surely to goodness Liberal papers have made it clear that the Meighenites are the same gang as won in 1911. It is the committee of big interests seeking protection and plunder, and now divested of the cloak of British "patriotism" assumed in the British-born cry of 1911 and in the conscription cry of 1917.

It is the same hypocritical set that allied itself with Bourassa in 1911 and now takes the name of Nationals. The local contemporary asks "Has there been any effort (on the part of the Nationals) to present the administration as having undergone some radical change?" (from last month). Was not Mr. Meighen "chosen by Sir Robert Borden as his successor and one who would represent the principles and policies which he himself would have adhered to had health permitted?" The National contemporary probably still calls itself Unionist, and has not sufficiently noticed the Tory change of alias. It should change its name from Liberal-Conservative to National, but it is not the true reason.

The reason why the old criminal takes new alias is that both Liberal-Conservative and Unionist are now too notorious. There is in this a new alias a distinct "effort to the Meighen administration" as differ-Change the name and perhaps change the hoodoo. It often works. But it will not work for the Meighen aggregation if the Canadian people will make a stand for their rights, as they will. They let a dangerous gang get control of them in 1911, a gang with two faces, one for Ontario and one for Quebec. It must not happen again.

When I was selected as chief executive of the company I became convinced that there was lack of contact between the employees and the management of the company, and that the situation was one which, if not cared for, would possibly result in great harm by reason of misunderstandings, suspicion and ignorance of the conditions. I looked over the field of on questions of this kind very carefully, and, after the most painstaking search, selected you as the best equipped ablest ant most conscientious adviser in the field. The board of directors of this company agreed with me, and you were invited to examine our plants and look into the conditions under which our 22,000 employees were working, and to formulate a plan which would insure the fullest contact, and, once established, would be maintained to the satisfaction and betterment of all of us. You undertook the work, spent many weeks in personally examining our plants and workmen, and finally reported to the management a plan which has met the approval of the employees and the management of this company, and is actually working out to the satisfaction of the entire organization. We all consider it the best plan of industrial relations in existence, and believe that it comprehends and includes the strength of all plans of this kind ever suggested and the weakness of none of them. It is daily strengthening the bonds of good-will, confidence and understanding in

I would ask House to permit me to refrain from the spoken word, and to read in conclusion just a few in reference to the personal reasons which were also a controlling factor in guilding me in my actions during the period of the war.

"What's your theory, Mr. Spargo?" he asked suddenly. "I supposed you've got one."

"Have you?" asked Spargo, bluntly. returned Rathbury, hesitatingly, hadn't up to now. But now—now, after you've told me, I think I can make one. It seems to me that after Marbury left Aylmore he probably mooned about by himself, that he was decoyed into the remple, and was there murdered and robbe There are a lot of queer ins and outs, nooks and orners in that old spot, Mr. Spargo, and the murderer, if he knew his ground well, could easily hide until he could get away in the morning He might be a man who had access to chambers or offices-think how easy it would be for such a man, having once killed and robbed his victim, to lie hours afterward? Sing a song of Springtime!
Catkins by the brook,

Adders-tongues uncounted.
Ferns in every nook;
The cataract on the hillside Leaping like a fawn: Sing a song of Springtime-Ah, but Springtime's gone! Sing a song of Summer!

Flowers among the grass, Clouds like fairy frigates, Pools like looking-glass. Moonlight through the branches, Voices on the lawn: Sing a song of summer-Ah, but Summer's gone! Sing a song of Autumn!

Woodbine's crimson clusters Round the cottage eaves, bays of crystal clearness, Frosted field at dawn; Sing a song of Autumn Ah, but Autumn's gone!

Sing a song of Winter! North-wind's bitter chill. Home and ruddy firelight, Kindness and goodwill Iemlock in the churche Daytime soon withdrawi; Sing a song of Winter— Ah, but Winter's gone!

Let the seasons go: Hearts can make their gardens Under sun or snow:

Nor the dying day: Sing a song of loving— That will last for aye!

### Why teeth discolor

There is on your teeth a viscous film. You can feel it with your tongue. It clings to teeth, enters crevices and stays. That film is the teeth's great enemy. It dims them and destroys them.

The tooth brush fails to end it, for the ordinary tooth paste cannot dissolve it. So for months between your dental cleanings it may do a ceaseless

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea - a trouble which

Dental science has for years sought a way to fight that film. Five years ago the way was found and convincing tests have proved it. Now leading dentists everywhere advise it, and millions of people have been led to employ it.

"A real holiday" was the unanimou A real holiday was the unanimosopinion of the soldiers' wives who returned home from Port Stanley on Friday after twelve days spent at the welfare camp of the Soldiers' Aid Commission. Many holidays, alas, are not worthy of the name for tired mothers who find at the summer cottage or camp that they have taken a large part of their household duties with If your boy insists on running away to the neighbors, if he wants every toy that another boy has, if he is possessed with a perpetual unrest, try him with a Kiddie Kar. Back and forth, round and round he will go, sitting under his own vine and fig tree, driving his own motor car, ever going, never thing, till the day is done.

Only be careful in choosing the Kar that you test it for height. Buy it only after trying the boy with the Kar, because if he leans over or if it makes him bend his legs too much, it is bad for him. One of the best points about the toy is that when it is correctly fitted to the boy it encourages him to sit straight and hold his chest high. If the Kar fits the boy, and if the boy has a good place to run the Kar, this is as much as the average boy will ask

GEORGIANA.

Georgiana is a modernism which has quite a bit of interesting history behind it. It means "husbandman," and dates back to the allegorical saints of the Greek Church, one of whom was called by a Greek name which meant "worker of the earth."

The fame of St. George and the dragon carried the masculine name to extraordinary heights of popularity. From it various feminines were formed with a distinct idea of honoring the saint. It was not a slow growth, but a deliberate manufacture. The first English lady bearing a name akin to George was a god-child of Anne of Denmark, who had her christened Georgian Anna in commemoration of herself and the popular saint. Later the two names were run together and Georgiana is the result.

Georgia is now regarded as a contraction of Georgiana, although it has the right to separate existence. Georgianis this country.

### Burton Given Another Chance With Shamrock

Will Handle Helm in Today's Race Is Decision Reached At Conference—Gossip Supplies Details of the Arrang ement.

iam P. Burton will be at the helm of Shamrock IV. when she races again tomorrow against the defender Resolute for the America's Cup.

This was the decision reached tonight the Sir Thomas Lighton and his venture. This was the decision reached tonight by Sir Thomas Lipton and his yachting advisers after a day spent in conference over the handling of the challenger in the first two matches, the first of which resulted in a victory for the Lipton sloop after her rival had been withdrawn because of an accident, and the second of which was called off because Resolute, after out-distancing Shamrock, had been unable to finish within the 6-hour time limit.

"Captain Burton will be at the wheel tomorrow, I understand," said Sir Windward.

Thomas after the conference. "After that I cannot say, and, of course, I will not talk about it."

Asks Another Chance.
Gossip aboard Sir Thomas' steam yacht Victoria had it that Captain Burton had asked for another chance, but the former would not discuss this phase, and Captain Burton could not be reached.

With seamanship counting so much in a context such as the America's Cup race, the question of who would handle Shamrock transcended, all other talk aboard the racing fleet at anchor today in the "Horseshoe." From Thursday, when Shamrock found herself on the line to start, and had to recass until the present, yachting experts have been severely criticizing Captain Burton's work, and during Saturday's race comment aboard the Victoria was strongly in favor of Captain Charles Francis Adams, II., of the Resolute. She still has three victories to win if she is successfully to defend the cup, whereas Shamrock needs but two more.

The regatta committee of the New York Yacht Club, which last week decided to hold races every day after tomorrow unless the skippers of either Resolute or Shamrock bejected to hold races every day after tomorrow unless the skippers of either Resolute or Shamrock pletted to hold races every day after tomorrow unless the skippers of either Resolute or Shamrock pletted to hold races every day after tomorrow unless the skippers of either Resolute or Shamrock today arranged with the rival captains to display the code flag "C" on the way back to their anchorages after tomorrow's races if they are ready to race Wednesday.

If they desire a postponement, they are to fly the committee of a desire for a postponement, if they find something wrong with the boats after anchoring.

Indications today were that, should shamrock IV lift the America's Cup. Sir Thomas Lipton will not go long unchallenged.

Friends of William Gardner, who designed Vanitie, defeated by Resolute for the right to defend the cup, whereas Shamrock needs but two more.

### HALLIGAN IS PEEVED

FLINT, July 19 .- Wondering why the Flint Vehics should have handed over two of the recent three-game series to Hamilton, President . Tom . Halligan, accompanied by J. Morgan, one of his closest friends, left for the London ball yards today, and the first Vehic that stalls in the series with Wetzel's crew is likely to hear from the big husky proxy. He said this morning: "I have some good base-ball boys, and I want them to play baseball, but now I think they on a joy-ride to Canada." As he brushed back his wavy hair he added: "I mean business."

### Tribe Overcome 6 Run Lead To Beat Flinters For 13th

Thomas and Fisher Both Derricked in Favor of Delotelle and Tengen, Who Hurled Better Ball — Umps Gets Bump y Ride.

Six runs in one frame is enough to subdue an ordinary bunch of ball players bu' to Manager Wetzel's run pirates over at Tecumseh Park that just livens u) things a bit. The Flinters furnished the "livening up," when in the third lining yesterday they had six runs practically handed to them by Mr. Ad. Thomas, who isn't, as a rule, as liberal minded as that. That got the Tribe into the spirit of the thing and they grabbed back three of them the very same frame, when Fisher showed he voted the same way as Thomas. They grabbed two more in the next chorus before Fisher was removed from the hill and two more from his successor, Tengen, the Ham humbler, in the remainder of the canto. That was one to the good, but to play it safe they added yet an other pair of counters in the sixth. Briger's double, scoring Calbert, who had been permitted to get to first on an error and Kuhn, who was hit by a pitched Meanwhile Delotelle, who relieved Thomas, batting for him in the London third, allowed only five hits.

Umpire Doolan's umpiring was really more interesting than the ball game. It was his first appearance here, and even being a stranger wouldn't account or the suspicion with which some of the fans looked upon him and his base ball upbringing. Some very base base decisions and called balls culminated final ly in a tender, almost raw verdict at first in the seventh, when he called Delotelle safe after Honneck had handled a bad bouncing ball perfectly, and to pretty nearly everyone else on the field but the umps, got it over to the first in plenty of time. Honneck was restrained from calling a strike on the arbitrator himself, but was struck off the list of active Vehics for the rest of the Ted Anderson, who has had a touch of pneumonia, took up his station at first, and Wright went over to short field.

Looked, But Didn't Act Same. The score: Thomas looked the same and acted the same as he usually does for his first two innings, but in the third he had everything but the ring in his nose Trefry, 1.f. he was so wild. Honneck and McDan-Bodecker, r.f. ... iels, the first two up, walked. Fisher was on when Thomas failed to handle his grounder, and Honneck came home for the same reason. Then came Gray's Tengen, p. and Speraw's singles, which scored Mc-Daniels and Fisher. Wright's hit, which did and didn't sacrifice, allowed two Kennedy, r.f. .... more to chase across and Wetzel drove Calbert, l.f. .... in Wright with a single. Trefry was out and Bodecker singled. Honneck, batting a second time, however, hit at Pittenger, who doubled up on Wetzel near third and at first. From then on Delotelle had the Vehics well within the speed limit.

London came back in the same inning and got back three of the half dozen runs that had been given them. In fact, it looked as if Flint, or Fisher, at least, was a little bit ashamed. Pittenger was walked. Bill Dowling hit to centre and Kennedy was hit. Free to centre and Kennedy was hit. Free passes handed to Shay and Calbert forced over two, and Kennedy spilled over the third counter, when Briger was hit, filling the bags again. Neitzke struck out for the third out. Fisher was going the same riotous way in the fourth. Honneck's error on Pittenger's grounder, and Dowling being hit, put two on. Delotelle's saccrifice advanced them, and Kennedy's

crifice advanced them, and Kennedy's single to centre scored them. Shay was waiting them out and went down to second on the fourth ball, which was a wild pitch, and which proved to be the last one of the afternoon for Fisher. Calbert lifted a high sacrifice fly to centre off Tengen. on which Kennedy came in, and Shay scored on Kuhn's single to the same spot. In the sixth, with two gone, two more were added. Calbert was on on an error at short and Kuhn was hit. Both were scored by Briger's double against the score boards. The best the outfit could do against Tengen in the next two frames was a scratch hit in each.

## AS YOU WERE

Added speculation is given to today's race because of personal interest in pt. Burton's showing on the Shamrock. Yachting experts have agreed that Bay City—Bartish pilot has handled his yacht very badly in both races, and yet, appeared by the property. parently. Sir Thomas Lipton, though his faith wavered, is taking the only fair way, and giving the skipper another chance.

Those who know yachts know they are almost human, and the touch at the tiller or the helm, with judgment, means everything—win or lose. Yachtsmen sense these things, in the same way in which horsemen sense a horse is not not pening handled properly, and when they agree, that the Shamrock is not responding to Burton's handling, it's probably grazing the truth.

A good stirring gale today will place responsibility either on Burton or on shamrock's design, because the challenger has shown she is not as fast under present handling in a light breeze as the defender.

Capt. Burton typified for Canadians and Britishers the "sea-dog" of Merrie and burst of the same clear judgment, resource and doggedness are needed. And from this angle it is a test between those qualities which predominated largely in the North Sea for five years, and Yankee initiative, resource and yacht designing.

Jimmy Dellow yesterday at Hamilton won the right to represent Canada in the marathons in Belgium. Norman General, the Brantford Indian, who ran third here, was third down at Hamilton, and is given credit for the best-run race. Dellow's time was 1:58:46, while Jimmy Duffy, who was one of Canada's pest athletes to be laid low in Flanders, made the course in 1:46:15, under weather conditions not so ideal as yesterday's. Dellow, however, at 34 years of agé, deserves a wealth of credit for his long, steady grind of running during the last ten years, during which time he has steadily crept up to the first constitute.

positions.

Regret may be felt that General did not win yesterday, for, although he runs a badly-gaited, badly-judged race, he has the dogged determination of his race, which counts in the real Marathon distance. And it is altogether possible that General would lead any Canadian athletes into the stadium at Antwerp, smoke, the Peterboro Indian, makes the trip at the expense of the St. Catharines Chamber of Commerce, by virtue of his win in the St. Kitts road race.

Passing "Ruth" has become a pastime in the American. Howard Emhke. Passing "Ruth" has become a pastime in the American. Howard Emhke, the Detroit hurler, passed him three times last week at New York, to the accompanying jeers of the Gotham fans. "Not giving the crowds a run for their money," lacking the finer elements of sportsmanship, and lack of nerve, are credited to the hurlers who use discretion on Ruth, instead of a straight one.

It is certain that, attached to the Canadian Olympic track team this year, as in other years, a number of athletes who have failed for some reason to make the official team, will take the trip, their expenses being borne by the cities in which they live or by private individuals. The degree of F.A.C.S. is one which is conferred on doctors both in the United States and Canada. Owing to their time being occupied in war activities, few Canadian doctors have had the time at their disposal to prepare data showing that they had qualified for the honors. As a result representatives of the fellowship called a meeting in Toronto some weeks ago of members of the fellowship called a meeting in Toronto some weeks ago of members of the staffs of Queen's, McGill. Western and other medical schools, and asked the members of the respective staffs to name a few of the medical men in their district whom they considered qualified to receive the degree. The result was that the three Londoners shortly afterwards received the degree, which is one of the highest honors which can be bestowed on members of the medical profession on this continent.

### SOUTH OXFORD FARMERS ARE FULL OF REJOICING

INGERSOLL, July 19.—In the dairying districts of South Oxford there is more or less rejoicing because of the excellence of the pasturage. Frequent rains have promoted the growth, and the result has been astonishing so far the result has been astonishing so far as some of the grain crops are concerned. Oats, which a few weeks ago were viewed much in the light of a disappointment, now promise to be up to the average, and in some cases better. In the vicinity of Foldens Corners some oat fields are standing level with the fences and give every promise of a big yield. There has also been a big change in the hay crop, which is far better than at first anticipated.

### They Used To Strap On Spectacles!

Old pictures and collections show grotesque shapes in early spectacles.

In the earliest styles the lenses were , round, very large and fastened in a rind of black horn half an inch wide.

They were strapped of with a leather thong over the nose and another about the head. Small wonder wearers of spectacles were ridiculed in those days. Obviously, the adjustment could not have been very good. Such crudeness makes those shudder who appreciate the scientific necessity of delicate, accurate adjustment, as practiced
