## A Glimpse of Jackson Park.

Peterborough.

There's a corner of earth that is dearer and fairer  
To every lead heart, than all others beside,—  
Where the lilies are whiter, the roses are rurer,  
And life, love and lasting enjoyments abide;  
On the hill, it may be, in the vale or the wildwood,—  
We tell of its beauty wherever we roam;  
'Tis the "Island of Rest" by the dream-shores of childhood,  
Which now and forever we cherish as "Home".

OUR BELOVED SENIOR HON. PRESIDENT,  
(Went Home June 17th, 1903.)

REV. EDWARD HARTLEY DEWART, D.D.

EDWARD HARTLEY DEWART was born in County Cavan, Ireland, 1825. He came to Canada with his parents, who settled about the centre of the Township of Dummer, in 1834. Amid many drawbacks and difficulties he became a lad quite a scholar and in 1843 walked to Toronto to attend the Normal School. Upon receiving a certificate he taught school for a few sessions, joining the Methodist Conference in 1851 as a probationer. He early became distinguished as a man of great force of character, a clear thinker, vigorous writer, powerful debater and able preacher. In 1855 he was elected Editor of the *Christian Guardian* and for twenty-five years, until superannuated, was the most potent factor in the Methodist Church of Canada in the moulding, shaping and directing of her policy. Not alone as poet, author and journalist did he excel, but also as an evangelical preacher and broad-minded citizen. He has made a deeper impress for good upon humanity than any other "Peterborough Boy" of his time.

## The County of Peterborough.

✦ ✦  
HISTORICAL POINTS.  
✦ ✦

The County of Peterborough originally formed part of the Cobourg District and the first meeting of the District was held in the New Court House at Peterborough, Feb. 8, 1842.

The members of the first Council were Geo. A. Hill, Warden and Messrs., Birdsall, Campbell, Carr, Costello, Cottingham, Doris, Gibbs, Harper, Hughes, Kelly, Kidd, Langton, Need, Nichols and Rogers.

About the year 1850 an Act was passed forming the United Counties of Peterborough and Victoria the Council of which continued to meet at Peterborough.

In 1858 another Act separated the Counties, which came into effect later.

In 1865 the Town was separated from the County for municipal purposes and the amount to be paid by the County to the Town for the administration of justice, fixed by arbitration.

The County Councils up to the year 1866 were composed of the Reeves and Deputy Reeves of the Townships, elected annually, but the Act of that year divided the County into Divisions as per page 11.

The Townships of Asphodel, Otonabee, North Monaghan, Smith, Emismore and parts of Douro, Dummer and Belmont, are rich agricultural lands and fully settled by thrifty, well-to-do farmers. The balance of the County contains fertile belts suitable for lighter grains, fruits, vegetables and pasturage. It will yet be an important mineral bearing County, as gold, silver, copper, iron, corundum, mica, lead, graphite, antimony, bismuthinite, baryte, feld-spar and other minerals are known to exist in economic quantities. The Cordova Gold mine is at the present time the most important in Ontario.

The natural scenery of the lakes and water-ways is not excelled in Canada and scarcely in the world.

### HOMING.

When the vernal days are done  
And the sultry summer sun  
Its languor o'er the mortal brings,  
Then a shady, cool retreat  
From the torrid glare and heat  
Hath health and healing in its wings.

#### REFRAIN :

We've been roaming far and wide,  
Now we're homing with the tide ;  
We are singing glad and free ;  
We are keeping jubilee.

On this home-returning day  
Tears and want are far away,—  
We laugh at weariness and woe ;  
Friends and comrades by our side,—  
Hope, the watchword, love, the guide ;  
Our lives with gladness overflow.

They who can may conjure gloom,  
We will sing of birth and bloom,  
Of hills and valleys, shores and isles ;  
While the echoes all prolong  
Music, laughter, shout and song  
And life's not measured by the miles.

(So, where Barleigh's waters wake  
Choral hymns for Stony Lake  
And joy doth in each bosom reign,—  
Mid the mental after glow  
Of the golden long ago,  
We blend our voices in the strain.)

## OFFICERS.

Secretary.  
Mr. R. A. Cardwell.

Treasurer.  
Mr. R. A. Savigny.

### GOING HOME.

Peterborough "Boys" are we from every line of trade,  
Finance, farm and factory—a resolute brigade ;  
On a common level, with our dues and carriage paid ;  
Going home )  
Home again ) with songs and rejoicing.

### CHORUS.

Hurrah ! Hurrah ! we're (going home) to-day !  
(Home again)  
Hurrah ! Hurrah ! we're happy on the way !  
Not a care and not a fear. Why shouldn't we be gay ?  
Going home )  
Home again ) with songs and rejoicing.

There, as merry school-boys, some of us learned A, B, C ;  
Others came in manhood with their future still in fee ;  
Now from Life's great 'Varsity we come with our degree :  
Going home )  
Home again ) with songs and rejoicing.

When we reach the country where no mendicant's molest,  
And are safely shelter'd in some regal place of rest—  
Older boys and younger ones will be their very best :  
Going home )  
Home again ) with songs and rejoicing.

Some have journey'd o'er the earth, so beautiful and fair,  
Prais'd the fragrant loveliness and breath'd the balmy air ;  
But our home-land County hath delights beyond compare :  
Going home )  
Home again ) with songs and rejoicing.

### *The Town of Peterborough:*

#### *An Historical Sketch.*

In 1808 a small party of emigrants found their way through the unbroken forest, via Cobourg, Rice Lake and the Otonabee River to the Township of Smith, then recently surveyed. In 1810 a prospecting party followed, looking for a mill site. After an examination of the River, a selection was made at what is now the "Serial Co. s" dam, because of the immense power apparent, the excellent character of the lands on both banks and the added point that in making the survey of North Monaghan in 1808, a town site had been reserved. A mill was erected which proved a great boon to the few settlers. The place was named "Scott's Plains", but up to 1825 had no other inhabitants than the miller and his assistants. The scattered population of the surrounding townships numbered about 400.

In 1825 the Hon. Peter Robinson, assisted by the British Government, brought out a large party of Irish emigrants and settled them in Emily, Dours, Ennismore and Otonabee, increasing the population nearly five-fold. In this year the town was laid out and the first store opened.

In 1826 Sir Peregrine Maitland, the Governor of Upper Canada, visited the settlement and at a banquet held in his honour, the name of Peterborough was chosen for the Town, out of compliment to the Hon. Peter Robinson. A dam, saw mill and bridge were also commenced and completed the following year.

In 1827 the first school, the foundation of the old Grammar School, was started. During the year a surplus of about 5,000 bushels of wheat was grown in the vicinity, forming the beginning of the market.

In 1831 another large party of emigrants from Great Britain arrived, many of whom were mechanics who settled in the Town, increasing the population to about 500.

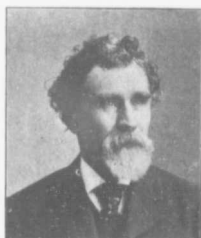

In 1843 the first steamboat began to ply between the Town and Rice Lake. The attention of the Government was directed to the great possibilities for inland navigation, and in 1845, Mr. Baird, Civil Engineer, reported favorably. Locks were built at Hastings and Peterborough, which was the first step in what is known as "The Trent Valley Canal", still unfinished. Churches began to be erected about this time.

### *The Town of Peterborough.*

(Continued.)

In 1837 when the "Rebellion" broke out Peterborough and vicinity sent a contingent of 250 able-bodied men to the front, mostly British pensioners, who marched the whole distance to Toronto. The first newspaper, "*The Backwoodsman*" was issued during the year, and the population reached 800.

In 1838 the foundation stone of the Court House was laid, and the building completed three years later.

In 1847 the railway question began to agitate the community, but it was not until seven years later that the first line to Cobourg, via Rice Lake and Harwood, was completed.

In 1850 the Town was incorporated, having a population of 1,800. (See folio 13.)

In 1858 the Midland Railway to Port Hope, was completed, and extended to Lindsay in 1882. The Grand Junction was built in 1879 and the Canadian Pacific in 1883.

In 1860 H. R. H., the Prince of Wales, now King Edward VII, during a trip through Canada, paid a visit to the Town, which occasioned an enthusiastic, loyal celebration.

The Town owes much of its initial growth and prosperity to the timber and lumber business, but during the "Seventies" this began to decline on account of the exhaustion of the limits tributary to the water system. Its excellent geographical position combined with good railway facilities and great water powers, however, makes it a most desirable location for large industries, the establishment of a number of which have more than compensated for the decadence in the lumbering business. The completion of the Trent Valley Canal, which may occur before many years, will certainly add to the power and shipping facilities of the town. The population at the present time is about 13,000. The assessed value in 1907 was \$4,750,000.00.

## A Few Pioneers.

**Adam Scott** was born in Scotland, 1776, came to America, (1812, was the first settler of the present site of the Town of Peterborough in 1820. He put up a primitive saw and grist mill, which served a useful purpose for a time. The place was known as Scott's Plains. His Daughter, Jeannette, was the first person born in what is now Peterborough, in 1820. He died in Cavan, 1838.

**Rev. John M. Roger, M.A.**, was born in Aberdeenshire, Scotland, came to Canada in 1833 and settled in Peterborough. Owing to his efforts the first Presbyterian Church where St. Andrew's Church now stands, was built. The erection of St. Paul's Church in 1858 was due in some part to his energy. His labors were extended to all the populous parts of the surrounding country. He died 1878. G. M. Roger, Esq., the present Mayor, is a son.

**Colonel, Samuel Strickland** was born at Reydon Hall, Suffolk, England, 1804. Came to Canada West, 1825. Became attached to the engineering staff of the late John Galt, first Commissioner of the Canada Co., and had much to do with the opening of the Western part of the Province and the founding of Guelph, Goderich, Etc. Settled in the County of Peterborough, where the Nichols Park is at present, but afterwards in Douro, in 1829, making his permanent home close to where Lakefield now stands. He took an active interest in public matters, Provincial, County and local. An optimist, bright, cheerful, hospitable and helpful, whose worthy sons are still with us, he did substantial work, dying January, 1866.

**Rev. Samuel Armour** was the first Rector of Peterborough, to which place he came in 1826. After some years of residence, during which the erection of St. John's Church was commenced, he was appointed Rector of Cavan, which position he held until the time of his death in 1853.

**Hon. John Douglas Armour**, the youngest son of the above, was born in Ashburnham, 1839. He is Justice of the Supreme Court of Canada, and is now in England as one of the Commissioners for the settlement of the Alaska Boundary dispute, having attained to the highest rank of judicature. (Died in London, England, July 11th.)

**R. M. Boucher** received a general education in Cobourg. He began the practice of law at Colborne and was later Associate Judge of the Counties of Northumberland and Durham. In 1858 he was appointed Judge of the United Counties of Peterborough and Victoria, which office he acceptably filled until his death in 1868.

**Robert Dennistoun** came to Canada from Scotland in his nineteenth year, lived for a brief time in Fencloa and later studied law at Cobourg and Toronto. In 1840 he began the practice of law in Peterborough. He was appointed Lieutenant-Colonel of Militia in 1857, elected a Benchler of the Law Society in 1864, created a Queen's Counsel in 1867 and appointed Judge of the County of Peterborough in 1868.

**Perigrine Maitland Grover**, born at Grafton about 1820, settled at Norwood in 1854 and for thirty years was a public spirited citizen, serving as Reeve of Asphodel for eight years, as Warden of the County one year, as Member of the House of Commons for eight years, and as Justice of the Peace for twenty years.

**James Foley** opened the first store at Norwood in 1840, was the first post-master of the Village, a Justice of the Peace, Township Clerk and Treasurer, County Auditor, etc. A kindly, helpful citizen whose memory is cherished by more than one of the "O'ld Boys".

## A Few Pioneers.

**Hon. Thomas Alexander Stewart** came to Canada in 1822, settling with his family in Douro Township, then recently surveyed and a wild, unbroken forest. In 1825 he assisted the emigrant families of the Robinson Contingent to settle on their lands. In 1831 he was elected to the Legislative Council of Upper Canada and served his constituency faithfully for a number of years. In 1837 he raised a Company to assist in putting down the Rebellion but on account of bodily infirmity was unable to take part in the campaign. He died in 1847.

**Peter Pearce** was born at Mavegasey, England, in 1812, came to Canada in 1836, settling at Keeler's Mills, Asphodel, in 1837, (now Norwood) and taking charge of the Mill. In 1854 he built a saw and grist mill, just above the site of the present stone mill, which was built about that time by P. M. Gunn. Mr. Pearce removed from the village to a farm, one mile north, on the south-west corner, at the Dummer boundary, remaining until 1862 when he removed to Belmont, just south-east of the present village of Havelock. He took an active part in public matters for over thirty years, until his death at Norwood in 1874. He was the first Warden of the County in '63 and '64, after the separation from Victoria. His three sons have each been Warden of the Counties in which they reside. J. B. Pearce Postmaster and General Merchant of Norwood and J. W. Pearce of Marmora, M. L. A. for North Hastings are the surviving sons.

**Robert Morrison** was born in County Mayo, Ireland, in 1810. He came to Canada in 1831, with his father, who located in the eastern centre of the township of Dummer. In 1844 he settled in the forest of the south-eastern corner of the township and for 25 years, while clearing up a rough bush farm, took great interest in public matters, serving as school trustee, councillor, reeve and justice of the peace, dying in 1869.

**William Cluxton** was born 1813 in Dumdalk, Ireland, came to Peterborough in the very early days and in 1835 entered the dry goods store of John R. Benson. In 1842 he established a general store which he carried on until 1872. He then entered the grain and produce trade and for many years handled most of the grain along the line of railway from Lindsay to the lake frontier. For eight years he was manager of the Commercial Bank of Canada in Peterborough. He also held a number of important positions, including President of the Midland Railway, President of the Marmora Mining and of the Peterborough Water Co. He was a Justice of the Peace, a captain in the militia and during one parliament represented West Peterborough in the House of Commons.

**James Hall**, born in Scotland in 1805, came to Canada in 1820 and was licensed a Provincial Land Surveyor when 18 years old. In 1834 he came to Peterborough and carried on the business of a tannery and store and in 1848 was elected to Parliament. He was twice Mayor of Peterborough and sat in the County Council for many years. In 1850 he was appointed Sheriff of the County which office he held until 1872 when he was elected to the House of Commons for East Peterborough, and died in 1882.

**John Hall**, who was born in Ireland, came to New York about 1820 and in 1826 to Peterborough where he and a partner acquired the Government mill and water power, the latter now owned by the American Cereal Company. He also erected a mill at Buckhorn where he entertained Sir John Colborne, Governor of Upper Canada. He was a member of the district Council and of the first Council of the Town of Peterborough and died at Buckhorn in 1883.

**James Stevenson** was born in Ireland, 1827, came to Canada, 1840, and to Peterborough, 1843, as a clerk for Richard Barrett, and subsequently purchased the business, which he successfully conducted until 1873 when he sold out and has since been engaged in dealing in wool, grain, coal, etc. He represented West Peterborough in the House of Commons, has been a school trustee for over 50 years, is a member of the Town Trust Commission and was for many years chairman of the Commissioners, was Mayor of the Town in 1854, in 1857-59 and in 1886 to 1891 and is a director of the Cemetery Company. He has been connected with almost all the public enterprises of the Town.
