### ANOTHER RUSSIAN OBJECT

Disarmament proposals from Russia came as a shock to the Genoa conference. Yet from what other source could they have so logically est standing army and the most comselves up as a horrible example which liams' Medicine Co., Brockville, Ont. they cheerfully invite other nations not to follow. Though the govern- THE LONG VOYAGE OF A BOTTLE ment has practically no available funds, it successfully maintains a million or more men under arms through levying taxes "in kind"; that is, accepting food, clothing, and supplies in payment. This it can continue indefinitely. In effect the Russian proponents say to the rest of Europe: 'So long as you maintain your armes we have to maintain ours. We're broke. You'll be the same pretty soon if you keep up your military establishment. We can't be worse You can. Do you want to get into the fix we're in? If so, go ahead. If not, let's all disarm, What about it?" As a specimen of grimly humorous philosophy this is not without merit. As a proposition it is rather to answer in the negative. Which perhaps explains why no other nation has yet answered it at all.

## Is Yours A Marconi?

Radio in Canada. Their large factories and extensive laboratories are now working to capacity turning out the wonderful Marconi Radio Receiving Sets and accessories. For some years they have gradually been securing more and more exclusive patents along the radio line until to-day they have something over two hundred Canadian patents which makes Marconi Radio products distinct and most

### A Marconi Broadcasting Station

A Marconi broadcasting station is being erected in Halifax. From this station we shall give musical concerts of all kinds, lectures, sermons on Sunday, etc. The latest news will be sent out several times daily. Results of sporting events, stock market reports, weather reports, etc., will be sent out at stated periods daily. All matters of interest or good amusement will be available from this Halifax Marconi Broadcasting station to anyone in Nova Scotia if they own a Marconi Radio Receiving Set. In fact, our broadcasting will be heard many miles beyond the confines of this Province. This means that the owners of Marconi Receiving Sets will not only hear the programme given in many American cities, but will also get the Halifax programmes as well. It is all very

### **Present Stock Situation**

For many months it will be impossible for the Marconi factories to catch up with the tremendous demand. Until the time arrives when surplus stock will be available all orders must be booked in advance. This means that for a long time to come it will only be possible to secure Marconi Radio equipment by placing your order with your dealer, which order will be filled from each shipment of stock received by us according to dates orders are received. At the most the present situation indicates that this will only mean a delay of from two to four weeks after order is received before it is filled. We have arranged for this Province to get a particularly generous share of the Marconi output at all times, which will place us in a better position than possibly any other Province in Canada in respect to filling orders.

### Wholesale

Place your order early and avoid disappointing delays. We are now appointing representatives to cover Western Nova Scotia. All inquiries receive prompt attention. Address all correspondence to Wolfville, N. S.

RESUME WORK HERE

Capt. Friend and Mrs. Friend, of the Salvation Army, Yarmouth, have completed a canvass of the town in the interests of the Army Self Denial Fund. The amount secured this year locally was only about half that raised last year but this is attributed to pre-organization work not being quite so strong this year. There is a probability that this autumn the Army will resume work in Bridgetown and during his visit Capt. Friend was looking into the question of securing a suitable hall for services.
