

### GO TO THE COURTS TO FIGHT THE CITY'S PLANT

Toronto Electric Light Company, Declaring They Have Been Driven to Seek Protection, Ask for Injunction to Tie Up Civic Electric Power System.

The Toronto Electric Light Company has determined to fight the city's plant. General Manager H. H. McCrae yesterday afternoon wrote H. L. Drayton, K.C., corporation counsel, announcing this decision, while no time was lost in beginning action at Osgoode to restrain the city from continuing with its electrical construction work and asking that the poles and conduits already installed be removed and for damages.

In forwarding to the press copies of the communications sent Mr. Drayton, Mr. McCrae said: "The company fears that it will be misjudged by the citizens, but no other course is open to it."

The action taken by the company means, apparently, that the company has abandoned hopes of successful negotiations with the city for the sale of the plant. Coming at a time when the board of control was understood to be considering the making of an offer, the company's tactics were somewhat unexpected.

"It certainly doesn't look as tho they intended to negotiate further," commented Mayor Geary. Asked how far the board had gone with its deliberations, he replied that the city had not reached the point of being able to make an offer.

"The first I have heard of it," was the remark on the statement in an evening paper that Alexander Dowd of Detroit, the consulting expert, had suggested to the board paying \$150 a share for Electric Light Company stock.

Corporation Counsel Drayton gave the opinion that the company was not standing by the terms under which its compromise with the city was recently effected, but had accepted its right about face. He declined to discuss the subject further.

"Driven to it," Mr. McCrae says: "I have written you another letter to-day, showing how the continued trespasses of the city's electrical department have driven the company to seek the protection of the courts."

"At the conference recently held between the mayor and board of control, on the one side, and representatives of the company, on the other, when the city declined the company's offer to sell out under the terms of the agreement (clause 6), it was stated on behalf of the city:

1. That the company would not be permitted to operate in any of the newly annexed districts.  
2. That the company had no rights in respect of its overhead construction upon the streets of the city after Dec. 31, 1910, and that its poles and wires were subject to removal, upon notice, at the will of the city.

"In view of these very extraordinary pretensions, the company is bound to resort to the courts for the establishment of its rights and has issued a writ accordingly."

Complain of Trespass. The second letter referred to, also addressed to Mr. Drayton, reads: "I beg to acknowledge receipt of your letter of Nov. 1."

"It cannot be that you, as counsel for the corporation, are advising or countenancing the continuance of trespasses already committed by your electrical department and the repetition of regard to both their overhead and underground construction, and I must, therefore, assume that you have been kept in ignorance of them."

"Unfortunately, the chief of your engineering staff, and then for very short periods, so that it is impossible for him to exercise sufficient supervision, and there is no one under him who has authority who can be held responsible, so that there is little or no check upon the methods, whether proper or improper, legal or illegal, adopted by your contractors and workmen in carrying out their instructions to rush the work."

"I am, myself, to blame perhaps to some extent for permitting these repeated acts of trespass, but I have placed reliance on your many written assurances of friendliness and good faith and promised to correct the faults already committed and prevent all further occurrences of a similar character, not realizing that for the reasons referred to you might be able to carry out your own personal intentions."

"The trespasses which admittedly have been committed have not been remedied, as it was promised they would be, and they are being repeated, and the company's peremptory notices."

### What the City Council Did

Instructed the board of control to report on how many of the proposed municipal bylaws should go into effect on Jan. 1. Approved, in principle, submitting the \$500,000 marsh reclamation bylaw and \$200,000 bylaw for consumptive sanitariums. Delegated the mayor, Controller Spence and Ald. Chisholm to attend the National Municipal League convention at Buffalo next week.

Referred back fire station site on St. Clair-avenue. Referred back fencing of the reservoir.

Approved transfer of dead for technical school property on College-street to the board of education. Approved awarding of fire hose contracts.

Asked board of control to reconsider Coxwell-avenue subway project.

Instructed city solicitor to report on carrying out Bloor-street viaduct partly as a local improvement.

Passed a bylaw to issue debentures of \$645,743 for paving street railway extensions ordered by railway board.

Referred back to works committee proposal to extend Parliament-street to join proposed Bloor-street viaduct.

Instructed city engineer to report on extending Queen-street west of Sunnyside, instead of building a bridge.

### HUNT CLUB DIRECTORS PLAN \$100,000 BUILDING

Special Committee Will Visit the Grounds This Morning, and Lose No Time in Getting Plans.

A meeting of the directors of the Toronto Hunt Club was held last evening at "Chudleigh," the residence of Geo. W. Beardmore, M.P.H. All the directors were present, and great enthusiasm was manifested in the cause of immediately rebuilding the club house on a larger and finer scale than that destroyed by fire on Sunday morning.

A special committee was appointed to take up the question at once and enter into arrangements for the prompt commencement of building operations. This committee will meet this morning on the grounds at 9 o'clock to choose the new site and form an idea of the plan on which the club house will be built.

Friends of the club are to be the architects of the new structure, and the cost will probably amount to over \$100,000. The building committee is composed of D. D. Mann (convenor), R. J. Christie, Stephen Hart, Hume Blake, Geo. W. Beardmore, A. O. Beardmore, Gordon Oaker and Edmund Bristol.

Arrangements are also under way to provide immediately a temporary club house for the convenience of members who wish to take advantage of the golf, shooting, tennis, etc., on the grounds.

There is a very large barn, and this will be reconstructed, partitioned and furnished to meet all temporary requirements. Another building will contain the telephone, offices and secretary's quarters, and accommodations for the members will also be provided on the grounds. As the club books have been preserved intact, it will be possible to continue in business without any hitch, almost as if nothing had happened.

A number of letters and telegrams, expressing regret and sympathy, have been received by Mr. Beardmore on behalf of the club. These include a letter from the Montreal Hunt, and a wire from Earl Grey. The latter says: "Much concerned at disaster which has overtaken Hunt Club. Hope Phoenix may arise from its ruins more glorious than before—Grey."

### STRIKE SITUATION SERIOUS Cavalry Ordered in Readiness for Duty in South Wales Coal Strike.

LONDON, Nov. 7.—The situation in the South Wales coal fields, where 30,000 miners are on strike because of the employment of non-union men, became so threatening to-day, that the government ordered the services of British cavalry.

The government ordered the Eighteenth Hussars in readiness to support the police, who have already had the worst of it in their conflicts with the striking miners.

### OVER THE 10,000 MARK. NIAGARA FALLS, Ont., Nov. 7.—(Special).—The city's population is 10,924, according to the police census report, submitted to the council to-night. Renewed efforts will be made to secure free mail delivery, as the government recently turned down the request on the grounds that the city did not have 10,000 inhabitants.

### NEW SECRETARY OF ALLIANCE. MONTREAL, Nov. 7.—The annual general meeting of the Dominion Alliance opened here to-day. Canada's export of flour to Britain have risen from 1,430,420 cwt in 1907 to 2,052,400 in 1909. The Dominion Alliance, a national organization of farmers, is now being organized in Ontario.

### CANADIAN FLOUR WINNING. OTTAWA, Nov. 7.—Accordingly to a report to the trade and commerce department to-day, Canada's export of flour to Britain have risen from 1,430,420 cwt in 1907 to 2,052,400 in 1909. The Dominion Alliance, a national organization of farmers, is now being organized in Ontario.

### FELL FOUR STOREYS. OTTAWA, Nov. 7.—An iron and steel worker on the new Rosenthal building on Sparks-street lost his life this evening. A Norman Montreal, an employe of Jager and Harris, fell down four storeys, and fractured his skull.

### CONTROLLERS TO CUT OUT SOME BYLAWS

The Council Put it Up to the Board of Control to Consider Whether It is Advisable to Ask the Ratepayers to Sanction So Much Expenditure.

While the city council yesterday approved the principle of submitting to the ratepayers on Jan. 1 bylaws to provide \$500,000 towards the reclamation of Ashbridge's marsh and \$200,000 to aid the work of the consumptive sanitariums, it was with the understanding that the board of control is to make a careful examination of the money bylaws thus far proposed, eight in number, and report to council at next meeting what bylaws, in the board's opinion, should be laid over for another year. Fears were freely expressed that, to send on all the bylaws calling for a total expenditure of about \$3,000,000, would mean the defeat of all. Ald. Baird went further than that.

"I believe if all go on, every member of council, including Controller Foster, will be defeated," he announced solemnly, and a chill of apprehension descended.

Earlier in the afternoon, Controller Foster, with Ald. McBride as his lieutenant, had met with no trouble in getting council to pass a resolution "that, with a view to limiting the number of debenture bylaws to be submitted to a vote of the ratepayers at the next municipal elections, the board of control be requested to reconsider the various recommendations already submitted to the council and report thereon at the next meeting of council."

Several aldermen were uncertain whether the bylaw approved some weeks ago for the establishing of a municipal street railway system in the suburbs, covered the amount of \$556,360 for equipment. Mr. Rust having furnished the latter estimate only a few days ago. Controller Ward banished these fears.

The Marsh Reclamation. The chief debate of the afternoon centred around the marsh reclamation bylaw, comprising \$175,000 for new docks, \$75,000 for dredging a channel from the bay to the proposed docks, and the remainder for dredging the new channel at the south side of the proposed improvement. Controller Church and Ald. Hilton stoutly supported the expenditure on the ground that the scheme had been made a footnote of too long, that the east end of the city hadn't had a fair share of civic favors, and that the whole city would benefit from the industrial expansion.

Controller Spence advised caution. Why should the city rush to spend money on dredging, when the Dominion Government should and might do it? Ald. Graham favored a side-track process in the interest of other bylaws, fearing that the voters would swamp them all. Ald. Phelps denied that Riverdale would reap any selfish gain. The whole city would profit by the development of the big manufacturing area of 1835 acres.

Ald. Baird followed up his dire prophecy with the statement that, weren't 200 people in Toronto who could vote intelligently on all the bylaws.

"In my judgment this is not a businesslike proposition," said Ald. McCarthy. "We should have a well-made plan showing how the money is to be used. We have reason to suppose that the government will dredge the channel, and, as to docks, if the government treats Toronto with one-tenth the consideration it gives elsewhere it will do something."

Will Go to Buffalo. The mayor, Controller Spence and Ald. Chisholm, chairman of the works committee, will attend the sessions of the 18th annual convention of the National Municipal League, and the 18th National Conference for Good City Government, at Buffalo next week. Controller Spence suggested that the two or three council members for the trip. Controller Foster contended that if members took jaunts to broaden their municipal knowledge, they should do so at their own expense, and strenuously opposed the proposal of Ald. McBride that he (Controller Foster), Controller Spence and Ald. Maguire should go. Ald. Baird's motion that his worship, Controller Spence and Ald. Chisholm make up the trio then carried.

Once again council confessed its inability to put thru a site for a fire station. The fire committee, inveighed against the board for having thrown out the committee's recommendation of a site on St. Clair-avenue, just west of Yonge-street, but, seeing the hopelessness of trying to get the necessary two-thirds vote, did not press any motion.

The question of fire protection for Deer Park is not, however, dead. On the motion of Ald. Maguire, Chief Thompson and Property Commissioner Harris will report on a site in the district.

### OUR CANAL QUESTIONS BOTH SIDES STILL SURE THEY WILL WIN ELECTION

A pamphlet has been published by the Toronto Board of Trade in which the immediate despatching and improvement of the Welland-St. Lawrence waterway is advocated on broad public grounds. The contention of the board is that if Canada intends to control the carrying trade of the Northwest and maintain her commercial or even her political independence, she must have, absolutely under her own control, an all-Canadian deep waterway from the head of the lakes to the seaboard.

The pamphlet is commendably free from sectional appeals and from arguments based upon local interest or prejudice, and anything approaching overstatement is carefully avoided; the case for the Welland route being rested entirely upon public and broadly patriotic grounds. In this respect it differs notably from some of the appeals and statements that have been and are being made on behalf of the Georgian Bay scheme, by some of its advocates. These gentlemen do not conceal their hostility to the Welland-St. Lawrence route and are very far from careful to keep their statements within the bounds of accuracy; their whole campaign being selfishly sectional to a degree and not conspicuous for candor.

The latest offenders in this way are His Worship Mayor Hopewell of Ottawa and Mr. John McKeen of the same city, who appear under the high-sounding but somewhat misleading title of "treasurer of the Canadian Federation of Boards of Trade and Municipalities."

These gentlemen have been addressing the English and French boards of trade of Montreal in support of the Georgian Bay Canal project, and it can only be said of their speeches that, when not nebulous and ambiguous, they were uncanon and unfair. It is charitable to suppose that neither gentleman was possessed of anything resembling accurate information regarding Canada's waterways problem and that some of their statements were the result of misinformation and lack of knowledge rather than of a deliberate design to mislead. Mayor Hopewell was rather worse in this respect than his companion, for Mr. McKeen seems hardly to have pretended to any definite knowledge of his subject, contenting himself with the generalities of a campaign being selfishly sectional to a degree and not conspicuous for candor.

### A HARD CASE Developed Tuberculosis After He Came to Canada; is to Be Deported.

OTTAWA, Nov. 7.—After having been in this country since September, and with high hopes of succeeding in Canada, working as a fireman in the city, and with his wages supporting a wife and family in the old country, a young man now finds that he is a victim of tuberculosis and must return to his native land. The man, who is about thirty years old, passed the examination of the immigration inspectors and came to this country fully convinced that he was in good physical condition. This is one of a number of cases where immigrants who have passed thru the hands of the immigration inspectors on the other side of the Atlantic are, after arriving here, found to be "undesirable" citizens.

### MERCHANTS' ASSOCIATION CONDemn THE COMPANIES Demand That They Recede From Their Stand—Insane Strike-breaker Had Club in Trousers.

NEW YORK, Nov. 7.—Strong pressure to end the express strike which has so seriously hampered business was brought to bear late this afternoon on the six transcontinental express companies involved, by the Merchants' Association of New York. Protestants, that the position of the companies is unreasonable and prevents a settlement, the association in a letter demands that they recede from this stand. This action followed the sympathetic strike of 2000 chauffeurs and cab drivers to aid the express employees.

The strike of chauffeurs brought many of the employers hurrying to headquarters to effect settlements and nearly half of the men returned to work before night. Attacks on taxicabs were frequent, however. The question of licenses for drivers was brought to the fore to-day when Francis W. Magstadt, an escaped patient from Middletown State Hospital for the Insane, was arrested, while acting as a strike breaker. A two-foot club was found in the leg of his trousers.

Fears of serious trouble to-morrow, when practically the entire police force will be engaged in election duties, were allayed by the announcement of the companies that they will not attempt to operate wagons.

Daniel J. Tobin of Indianapolis, general president of Teamsters, left New York to-day, said to be bound for Chicago or St. Louis. It is declared in labor circles in this city, that the situation in both Chicago and St. Louis is now as acute as it was in New York a day or so before the strike.

### STRANGE COINCIDENCE Two Men Named Fitzgerald, Carrying Oysters, Victims of Tragedies.

NEW ORLEANS, La., Nov. 7.—W. O. Fitzgerald, a painter, hurrying homeward with an oyster loaf early this morning, stumbled against a post, fell into a shallow puddle of water and was drowned.

Thomas G. Fitzgerald, with another oyster loaf tucked under his arm, rushed from a restaurant to board a car. He fell beneath the wheels, and may not recover from his injuries.

The two men were not related.

### CORONATION JUNE 22. LONDON, Nov. 7.—King George has issued a proclamation fixing the date of the coronation as June 22.

### Measles Epidemic in Montreal. MONTREAL, Nov. 7.—Dr. Laberge, city medical health officer, reports that measles are epidemic in the city. He blames the doctors for not reporting many cases. Several schools have been closed.

### Laurier Will Fight to a Finish for His Naval Policy. OTTAWA, Nov. 7.—The only news of the political situation here to-day is that Mr. Wilfrid has given it out to his friends that he will not yield an inch and will continue to fight for his naval policy, even if it involves defeat in the two years that are yet to come.

There are reports that an Ontario county, presumably North Oxford, would be opened as a test of Ontario opinion, but there are also counsels that it would be better to wait a while.

Aside from the Liberal anxiety on the situation there are reports here from Montreal that Rudolph Forget, the big broker of Montreal, and Conservative M.P. for Charlevoix, has called upon R. L. Borden to resign and give the Conservative party a chance to organize under a proper leader.

Mrs. Gibson will receive at Government House, Toronto, on Thursday, the 10th inst., from 4 to 6.

### RECIPROCITY VS THE NATIONAL POLICY

"The Dominion is Proposed to Be Used as a Stalking Horse to Kill in Part the Demand of the People of the United States for Tariff Reductions to All Imports."

(Ninth Article.)

In considering the advisability of otherwise of lending a sympathetic ear to proposals for tariff modification coming from quarters directly interested in their success, it is always prudent to ascertain the real, apart from the ostensible, motive. Here, in connection with the evident anxiety displayed by the United States executive and many of the leading politicians of the republic to secure another reciprocity agreement with the Dominion, several avenues of investigation are open to the curious enquirer. One of these concerns the existing political situation in the United States, as it has developed since the enactment of the Payne-Aldrich tariff. During the last presidential election the Republican leaders repeatedly promised revision downwards. This was a concession to popular sentiment which, had it not been made, would certainly have adversely influenced the electoral vote. How these promises were fulfilled is matter of history. Notwithstanding the ingenious attempts to demonstrate that substantial reductions were made by the new tariff, the fact remains that in the great majority of cases they occurred in lines that yielded no real public relief and that as regards important classes of articles in general public demand, the rates were raised rather than diminished. Writing recently in The New York Evening Post, Mr. Franklin Pierce, an acknowledged authority, declared that in the present tariff there are at least 600 articles where the duty is practically prohibitive. Not a few of them are on classes of products which Canada is able to supply and might do were the tariffs of the countries even approximately equal. For it should never be forgotten that despite the casuistry of the United States spokesmen and special pleaders, the tariff of Canada, the protective when compared with the British schedules, may, when compared with that of the republic, be fairly termed a system of free trade.

So indefensible was the form of the Payne-Aldrich tariff bill as it left Congress that President Taft was compelled to remonstrate and to insist that some show of effort should be made to meet the public call for tariff revision. Negotiations followed and amendments were adjusted which the president announced sufficiently met the party pledges. If that were really his belief, he was soon disabused. A storm of revolt swept over the states of the west and middle west, and was followed by the emergence of the insurgent Republicans as an organized rebellion against the reactionary influences that had dominated the party. True tariff reduction is only one of the planks in the progressive platform, but the insurgent strength from the public determination to obtain more moderate import duties, and the pressure they exercised in turn compelled President Taft to reconsider his refusal to reopen the tariff question and to promise renewed enquiry and tariff relief in individual cases as ground might be disclosed. But the main point for Canadians, important enough to merit careful consideration, is this, that not until this stage in the tariff controversy did the president and his advisers become keenly alive to the necessity of re-opening negotiations with Canada for the conclusion of a reciprocal trade treaty. Looking dispassionately at the situation of the Republican party at the moment, and as it has since developed, there can be no reasonable doubt that the efficient motive for the serious presentation of the request for a reciprocity arrangement was the way of escape it offered for the tariff troubles of the party. The Dominion, in other words, was and

It is generally conceded that fox and lynx or hare sets make the best garments for young ladies. HAMILTON HAPPENINGS

FIREMEN MAY GET AN INCREASE IN WAGES

Request to Next Year's Council For 10 Per Cent. Increase—Will Establish Benefit Fund.

HAMILTON, Nov. 7.—(Special).—The fire, police and jail committee to-night passed a recommendation to the city council that it request next year's council to grant the firemen an increase of wages of 10 per cent. This is so that a firemen's benefit fund can be established and the men given a 3 per cent. increase in wages. Chairman Clark reported that the best offer that the Hamilton Street Railway would make for carrying firemen on the cars was a charge on mileage, which would amount to \$400 a year, and it was decided to continue the negotiations, in the hope of getting better terms. The resignation of George Freeman and Arthur Bush were accepted, and J. Woodhall was discharged from the department. H. Ecker, H. Gorman and R. Kingston were put on the permanent list.

The grand jury at the assizes this afternoon returned a true bill against James Durant on the charge of having carnal knowledge of a girl under 14 years of age, but reported no bill on the more serious charge of rape. The evidence was heard in the action of Mrs. Mary Griffiths and her three children against the Grand Trunk for \$8000 damages for the death of her husband, who was killed near the Jockey Club about a year ago. The judge will address the jury in the morning.

It was erroneously stated in Monday morning's paper that the police raided a disorderly house at 28 West Cannon-street on Saturday night. It should have been No. 28.

The annual meeting of the Hamilton Horticultural Society was held to-day. The following officers were elected: J. Keeshaw, honorary president; James Ogilvie, president; F. E. Lamb, secretary; J. O. McCulloch, vice-president; James Anderson, second vice-president; J. O. McCulloch, secretary-treasurer; Dr. Storms, J. S. Whitfield, L. C. Hillbrand, J. O. McCulloch, J. A. Webber, Fred H. Sharr, Mrs. Potts, Mrs. Thomas and W. G. Jarman, directors. The receipts of the year were \$1022.50 and the expenditure \$979.50.

Fenton Murder Trial. The trial assizes opened here to-day, with Justice Middleton on the bench. The most important case up is that of Thomas Fenton, charged with the murder of his sister, Ellen S. Fenton, a Saltfleet Township farmer. E. E. DuVernet, K.C., is the crown prosecutor, and the prisoner will be defended by Geo. Litch-Stuart, K.C. The only new evidence will be the report of Dr. Edgar on the bloodstains found on a pair of overalls in Fenton's room, which the prisoner acknowledged belonged to his sister. The doctor is expected, will swear that the stains are of human blood, but he has not submitted them to the serum test. This evidence will be very vigorously attacked by Mr. Staunton, who claims that Fenton's overalls were thus stained while he was killing pigs some weeks prior to the murder. The defence will in all probability argue that the overalls were not murdered, but that he received the injuries on his head which caused his death by falling from the floor of the barn.

There are about 20 witnesses to be examined and the case is likely to last two or three days. The case is still under consideration by the grand jury.

The news leaked out this morning that on Saturday afternoon William Matthews, a Scotchman, who boarded at 44 South Park-street, committed suicide by cutting his throat with a razor. He had been in Canada only a short time. Despondency over his inability to secure work was the reason for the deed.

OBITUARY.

Rev. A. J. Fidler, Sr. The death occurred Sunday of Rev. A. J. Fidler, Sr., retired Anglican clergyman, at his residence, 156 Cowan-avenue. In his early days he was stationed at Cookstown, and prior to his retirement from the active work was at Whitby. He was in his 82nd year. Rev. A. J. Fidler, Jr., of St. Clement's, Eglinton, is a son. Another son is a Buffalo attorney, and there are two daughters at home. Mrs. Fidler also survives. Interment will take place at Guelph.

Garfield Vernon, aged 20, arrested here for the Detroit police on a charge of carrying a knife in custody for that city yesterday. Along with him went his wife, aged 19, to whom he was married secretly in Windsor five weeks ago. The sum involved is not a large one.

BRISTOL SPEAKS KINDLY OF BOURASSA AND MONK

After Mayor Geary Had Said Nationalist Policy Savored of Treason—Mackay 5th Ward President.

Dr. Alexander Mackay was last evening elected president of the 5th Ward Conservative Association. The other officers are: David Clark, first vice-president; James Paul, second vice-president; William H. Harper, third vice-president; Robert Dunlop, secretary; Peter Whytock, treasurer, and J. O'Brien and William Kerr, auditors.

During the oratory Mayor Geary, referring to the Quebec by-election, declared the Nationalist policy, but Edmund Bristol, M.P., later on, defended both Bourassa and Monk.

J. R. L. Starr fathered a resolution, which was unanimously adopted, that: "That in the opinion of this meeting it is undesirable for the Dominion Government to enter into negotiations for reciprocity with the United States, and that the trade destiny of Canada lies close to the heart of the British Empire."

W. D. McPherson, M.L.A., declared that the publishing of the letter which opened the controversy over the bilingual schools had been extremely fortunate, for public opinion had fully awakened. That question was one of enormous importance. A sentiment has been awakened that whatever is taught in the schools, English must be taught," he said.

Mayor Geary gave his opinion of Bourassa. It did not flatter the Nationalist much, and he said that many of those who were not the kind who would do Canada any good. "I would rather have the man who was standing in the election platform elected than the nominee of such a man," he said. He described Bourassa's speeches as being treasonous. The advantages of the election were that the solidarity of Quebec, which had been a menace to Canada, had been broken. It was not right that Canada should be ruled by one province.

George H. Gooderham, M.L.A., defended the policy of the exhibition board, of which he is president, in giving the Toronto Electric Light Company permission to sell power on the grounds on condition that the wires were put underground. It would have been unfair had they asked the company to bury the wires and then not give them the permission to tender for business on the ground.

"The arrangements that are being made mean a saving of electrical expenses, probably about \$6000 per year, and in addition we will be able to retain power and make a revenue of from \$8000 to \$4000 per year. We think it is a good arrangement," he said. He did not think anybody that he was connected with the T. E. L. Company. He did not own a single share in the concern.

E. Claude Macdonell, M.P., warmly praised the retiring president of the association, J. R. L. Starr, and spoke at length upon the evils of reciprocity and the absurdity of the Laurier navy. "Reciprocity will knock the legs out from under Canadian industry, just when they are beginning to get strong," he said.

W. K. McNaught, M.L.A., said that the hydro-electric power would be ready for delivery in three or four weeks. Edmund Bristol, M.L.A., defended Bourassa and Monk, saying that he did not think they were the kind of men who would do Canada any good and knew their personal opinions. "The earlier, so-called, navy is an expensive joke," he said.

Railway News.

In the absence of Superintendent Jas. Osborne, who has left for England on a six weeks' vacation, the middle division of the C. P. R. will be in charge of Superintendent W. K. Thompson.

William Mackenzie has left for Monterey, New Mexico, to inspect the heat, light and power company there, of which he is the president. Mackenzie has recently obtained a "blanket charter" for this company, and it is understood that his intention is to enlarge and increase its activities in the City of Monterey.

HEAD-ON COLLISION.

SPOKANE, Wash., Nov. 7.—Eight are dead and four are injured as a result of a freight wreck on the Great Northern Railway near Chatsworth, Wash., late yesterday. The wreck was the result of a head-on collision on a sharp curve between two heavily loaded trains running at high speed.

WILL TAKE STRIKE VOTE.

CHICAGO, Nov. 7.—Negotiations between the officials of the Brotherhood of Locomotive Engineers and the general managers of sixty-one railroads operating west of Chicago, on the demand for better working conditions for engineers, were broken off this afternoon. The brotherhood officials announced that a strike vote will be taken.

Another attempt will be made to establish a labor paper in Toronto. This time it will be under the direction of Joseph Marks of London, Ont. Constables Lilly and McCarthy broke up a little game of crap in a stable at the rear of 238 Eglinton-avenue, Sunday night. As a result Joseph Dempsey, James Stephen and Fred Goddard were charged with Sunday gambling and fined \$10 and costs.

J. Murray has not yet received the \$200 reward advertised by her husband for locating Mrs. Minnie Polinski of Boston, who had come to Toronto with another man.

CONTROLLERS TO CUT OUT SOME BYLAWS

Continued From Page 1. other than any of those already proposed.

Fencing the Reservoir. The board of works will again wrestle with the problem of fencing in the reservoir. Ald. Rowland led a vigorous opposition to the board's action in rejecting the proposal to expend \$10,500 on an ornamental iron fence six feet high around the big pond, and, while the vote was 12 to 3 against the board, it was the most of the two-thirds requirement. Ald. Rowland later moved for the reference back, and only a simple majority being needed, this carried.

The deed of the technical school property on College-street will be turned over to the board of education on condition that the latter body pays the city the original cost. The board of education has been paying the city a rental equal to interest and sinking fund on the debentures. The arrangement is merely a matter of civic book-keeping.

Ald. Baird complained that, while the board reported to council cases where laundry licenses were refused, no mention was made of licenses granted. He suggested that in future this be done, and the idea was approved by the board. As usual, the contracts for fire hose produced wrangling, but in the end the board's method of distributing the contracts was adopted. The awarding of the contract for 100 feet to the Canadian Rubber Co. with headquarters in Montreal, didn't suit the ideas of some aldermen. Ald. May boldly declared for the principle of giving all the work to local industries where no material price difference was involved.

The site for a police station on Birch-avenue as chosen by the assessment commissioner was approved. The cost is \$4000.

Closing Marlboro Avenue.

Council was rather dubious about accepting the offer of the C.P.R. to get over the city's objections concerning the closing of Marlboro-avenue by purchasing the lot immediately north of the street and diverting the new street 60 feet north. The scheme, which has been already approved by the city engineer and board of control, was referred to the works committee.

No objection was offered to referring back to the works committee the project to connect Parliament-street viaduct with the proposed Bloor-street viaduct. The city engineer will report on the idea of connecting the viaduct with the former viaduct and also on the cost of the Bloor-street viaduct under the local improvement system.

Peter Harrison, A. Linker and Jesse Ambridge urged reasons why the subway to be built under Greenwood-avenue and Woodbine-avenue should be located at Asidale-avenue, instead of Coxwell-avenue. They pointed out that the former project would cost only \$48,000, as against \$75,000 for the latter, and claimed that the district north of the former crossing was much denser than that north of Coxwell-avenue crossing. The board of control will enquire.

Street Railway Debentures.

A bylaw to provide for the issue of street railway debentures to the amount of \$465,740 to pay for the laying of street railway track extensions ordered by the Ontario Railway Board on May 18 last was given three readings. The debentures are redeemable in ten years, so as not to go beyond the limit of the company's franchise. A reminder of the approach of the municipal elections was given in the passing of a bylaw to divide the wards into polling sub-divisions on motion of Controller Ward.

The property commissioner will, on Controller Church's motion, report on the cost and advisability of the city's erecting a new registry office.

On motion of Controller Church the board of control and chairmen of standing committees were appointed a committee to prepare a suitable commemoration of the coming of hydro-electric power. They will confer with the Ontario Government and Municipal Power Union.

ORIGIN OF "BLACK HAND" IT STARTED IN CALABRIA

Old Association Revived in 1897 After Earthquake—Of Old Criminal Family.

Robert Mackenzie in The Chicago News: Prof. Vincenzo La Marca explains in a letter addressed to the Giornale d'Italia of Rome how the Black Hand, originally an Italian institution, now flourishes in Calabria and Sicily, as well as in America. In 1894 Calabria was visited by a great earthquake, and the unfortunate inhabitants sought in emigration a remedy against the general destitution that followed. The exodus toward America then started, and Calabria was gradually repopulated, agriculture and cattle raising were neglected, the cost of living became high and idleness was encouraged as the returned emigrants refused to work, but lived on the money saved in America.

Old customs were abolished, the character and temperament of the inhabitants were changed, honesty and respect to authority were lost and the criminal instincts and passions of the people were given full vent. The returned emigrants brought back with them the ideas of democracy and equality; they considered themselves superior to their fellow-countrymen and entirely independent because enriched in the land of plenty.

Old Society Revived. In 1895 the old criminal association, known as "Famiglia delle Vampe," or Family of Flames (or fire), which had been transplanted to America, where it assumed the name of Black Hand, was revived in Calabria and Sicily. At present, according to Professor La Marca, it is thoroughly organized and in close connection with their American comrades. The Family of Fire has its chief, whose power is absolute, and each province has its own "chief" or "boss," who groups like-minded men together by the common bond of crime. The members of the gang use a special language, which is understood only by those who are initiated into the secret. Each member carries either "mirrors" (razors) or else the "tufa" (revolver). They must always be on the lookout for "menchi" (policemen) and are ready to protect each other. The chief of every section or group attends to the ordinary administration of the gang; he collects the fees paid by each member, and he naturally organizes the work and presides over the tribunal when an execution is decreed.

Fire has numerous members both in Calabria and Sicily and its ranks are increasing daily. In fact, one of the chief duties of each member is to persuade his friends to join the gang, and often, when persuasion is useless, threats and intimidations are adopted. A special formula is generally used to press new recruits into the gang, and every member of the gang goes up to a young man of promise and asks him: "Do I speak with a fool or an evil-disposed person?" If the young man replies: "I speak to a man," the member of the society then says that he, too, is a man, but a man of honor, meaning that he could not rank in the gang, and he then adds that the society needs the young man's services and requests him to pay a "flower"—that is, a contribution, or fee. When this fee is paid the young man becomes a member and he is said to walk under the name of the old member who persuaded him to join.

Members Are Graded. In calling young men refuses to join the society, after some time he is told to leave the place or to pay a fine, but he usually does both or disappears mysteriously. The Family of Fire consists of many ranks divided under two headings: "Dirty Policy," which relates to discipline, and "False Policy," which deals with the service of the society. It also fixes the procedure to be adopted in executions, and these are grouped under the single heading of "Convictions."

Different causes no doubt actuate these causes, but the outcome is identical. Germany would do much to prevent the closer identification of the mother country with the other self-governing British states, and if the United States is successful in diminishing the preference now granted by Canada to the United Kingdom, Germany will be encouraged to attempt the obtaining of a corresponding encroachment, indeed this has already been mooted. In a matter so intimately affecting the interests and destiny of the Dominion, the Canadian people have clear right to be consulted and to require that the policy of the nation shall not be disturbed nor anything done that may or will interfere with their national evolution as an integral member of the union of British states. Canada, a nation, self-sustaining, self-defending, independent, but loyal to the imperial flag is the goal of Canadian hopes, and that government which not only held the nation together, but also held the faithful that ranks the attainment of these aspirations as of less account than the negotiation of a treaty for the benefit of United States manufacturers.

dro-electric power. They will confer with the Ontario Government and Municipal Power Union. Ald. McBride secured council's consent to having the city engineer report to the works committee on the advisability of extending Queen-street from Sunnyside westerly to High Park north of the G.T.R. tracks instead of erecting a bridge across the tracks at Sunnyside.

Site for New Park. Ald. Graham gave notice of a motion to have the park commissioner report on the "advisability of acquiring a piece of land for park purposes west of Bloor-street and north of Davenport-road, or in the vicinity of the new high school."

Ald. McBride opposed the passing of a bylaw to exclude laundries and other business places from the district extending southerly from College-street between McCaul-street and University-avenue, and succeeded in getting the matter referred to the works committee.

RECIPROCITY VS. THE NATIONAL POLICY

Continued From Page 1.

is proposed to be used as a stalking horse to kill in part the demand of the people of the United States for tariff support, applicable to their imports. It had the additional advantage also to the minds of the astute Republican politicians of providing an opportunity for obtaining easier access to the Canadian markets by the offer of reciprocal concessions, or reductions which the pressure of United States public opinion would certainly compel without return.

While this was the aspect that appealed particularly to the official Republican mind, other reasons conspired to create a considerable volume of support for the reciprocity movement. United States manufacturers want Canadian raw material—those especially whose proximity enables them to tap readily the Dominion's natural resources. Then follows the splendid idea of asking Canada for the entry of their manufactured products at reduced rates in exchange for the privilege of supplying the raw material they need. This is no fiction, for it has been the theme over which many words of voice and pen have been spoken and spelt since the Canadian Government enthusiastically welcomed the approach of the messengers of reciprocity. Take for example Senator Beveridge of Indiana, a leading insurgent, who has thus delivered himself:

"There must be reciprocity with Canada. Our tariff with the rest of the world does not apply to our northern neighbor. That policy already driven American manufacturers across the Canadian border, built vast plants with American capital on Canadian soil, employing Canadian workmen to supply trade. That capital should be kept at home to employ American workmen to supply Canadian demand. We should admit Canadian goods on duty, and Canadian paper free in return for Canada's admitting our agricultural implements, our engines, pumps and other machinery free. We should freely admit lumber to American planing mills in return for Canada freely admitting other American manufacturing products to Canadian markets."

Senator Beveridge is not alone, by any means, in advocating this wonderful scheme to undo the tariff. Many Canadians have derived from the adoption and maintenance of the national policy. To the people of the Dominion offers the pleasing prospect of complete industrial dependence on the manufacturers of the United States.

This consummation apparently commends itself to Canadian free traders who rather than have the Dominion become an industrial centre, which it is so eminently fitted to sustain and its natural resources utilized for their supply would prefer to have these resources shipped over the border and sold to United States manufacturers. Were that condition ever reached it would soon become intolerable. The national sentiment of the United States does not regard with equanimity the diversion of American capital to Canada, nor the establishment of branch factories and workshops on Canadian soil, thus assisting the industrial development of the Dominion. It wants to see Canadian industries reduced to the winning of the resources of the land, the forest and the mine and the Canadian people compelled to take their manufactured articles in exchange for the wages due the hewers of wood and the drawers of water for their industrial needs.

The Dominion Government has excused its entering upon reciprocity negotiations by the plea that international courtesy will not permit the advance of a friendly and neighboring nation to be turned down without a hearing. That this contention has some force may be conceded, but there is no reason to suppose that the national policy grounded on full knowledge of the mind of the mass of the Canadian people. If there is one policy more settled than another in the Dominion it is the conviction that the country must require every department of national activity and in support of the closer unification of the empire. Not only the United States, but Germany also, is active under the movement for inter-imperial preferential trade.

Different causes no doubt actuate these causes, but the outcome is identical. Germany would do much to prevent the closer identification of the mother country with the other self-governing British states, and if the United States is successful in diminishing the preference now granted by Canada to the United Kingdom, Germany will be encouraged to attempt the obtaining of a corresponding encroachment, indeed this has already been mooted. In a matter so intimately affecting the interests and destiny of the Dominion, the Canadian people have clear right to be consulted and to require that the policy of the nation shall not be disturbed nor anything done that may or will interfere with their national evolution as an integral member of the union of British states. Planing Mill, Hotel Barn and Residence Believed to Have Been Fired. WELLAND, Nov. 7.—(Special).—The firemen, returning at four o'clock this morning from a fire which destroyed the house of Harry Robbins, discovered that Cutler's planing mill was on fire. Owing to the inflammable nature of the contents and the building, nothing could be done to save the property. The loss is \$15,000, on which there is an insurance of \$3000.

The barn of the Whalley House was also discovered to be on fire, and the chief of police suspects an incendiary has been at work, as no cause can be ascertained for the fire. At midnight last night, three houses were burned in Canineville, near Hamorton, and the loss is \$10,000. The blaze started in the basement and spread to the main floor, where Mrs. Sloan, Jas. Sloan and Frank Vastadin are homeless. Very little of the contents were saved, and the inmates of the Sloan house were rescued only with difficulty. Mrs. Sloan was considerably burned about the face. The total loss will run about \$3000.

MAN SWALLOWED MERCURY

William Foley, Aged 64, Tries to End His Life. Despondent thru lack of employment Willis M'Foley, 64 years of age, purchased a quantity of mercury yesterday, and at 6:30 took it to his room at 188 West King-street.

He told his wife that he was tired of living and would end his life by swallowing a quantity of the stuff. Dr. Rice of Bay-street was summoned and hurried the man to Grace Hospital. His condition is serious. He is expected to recover.

CHOOSING A LEADER.

EDMONTON, Nov. 7.—(Special).—The Conservatives of the province will hold a convention in Edmonton on Wednesday, at which it is expected that a leader for the party will be chosen. It is said that H. H. Bennett has announced that he will retire from politics after this session. The party are desirous of securing either M. J. McCarthy or H. J. McGrath, but neither of these wish to give up his federal position. E. Michener of Red Deer is also mentioned, but he is not considered sufficiently strong in faith for the position.

A Lack of Power.

PORT ARTHUR, Nov. 7.—(Special).—Port Arthur is suffering considerable inconvenience, owing to scarcity of electrical power, due to the Current River running dry. The hydro-electric plant is the property of the Ontario Power Co., and will be ready about Dec. 1, when the supply will meet all possible demands, but in the meantime it has been necessary to resurrect the old steam plant at the Currere River power house.

No One Has Claimed Body.

That Mrs. Ellen Maybee came her death on Oct. 31 at 255 College-street, from natural causes was the verdict of Coroner's Slinger's jury at the morgue last night. No one has yet claimed the body for burial, and all clues have failed to disclose living relatives.

Potash Monopoly.

VIENNA, Nov. 7.—It is reported that the government will introduce a bill creating a government monopoly of potash in Austria.

BABY PILLOW COVERS... FLANNELLE SHEETS... MAIL ORDERS CAREFULLY FILLED... NEWS AGENT ARRESTED... CHARGED WITH STEALING \$300 FROM A POLE ON THE TRAIN... ST. CATHARINES, Nov. 7.—Early this morning fire completely gutted the brick storehouse and drive shed in connection with the St. Catharines bakery establishment of the Naamtick Company of Toronto. The bread-makers were at work at the time, but the store bakery and storehouse are connected, and the fire spread to the storehouse and buildings had a close call, and that the damage was not \$150,000 or more seems remarkable.

THE WEATHER OBSERVATORY, TORONTO, Nov. 7.—(8 p.m.)—Since last night a disturbance has developed off the Nova Scotia coast, and moved rapidly northwards, being accompanied by rain in and Quebec. Snow flurries have occurred in Ontario, and cold weather has been general from Saskatchewan to Quebec.

WARD 4 CONSERVATIVES RE-ELECTED ALL OFFICERS Quebec By-election and Government's Navy Policy Provided Themes for the Oratory. The Fourth Ward Conservative Association last night re-elected the officers of the past year. They are: President, Fred Armstrong; first vice-president, John S. G. Cornell; second vice-president, Lionel Bodwin; third vice-president, T. A. Owens; secretary, J. G. Mitchell; treasurer, John Lumsden.

Fairweather's FURS There are many ways of lessening the cost of a fur garment. Some do it by cutting down the work, others by using less material. We make the statement openly—There is not a stitch saved, not an inch of material kept back that would add to the final excellence of our furs. We welcome comparison.

As Told to the Editor. LAW REFORM. Editor World: Reading between the lines it can easily be seen that J. P. has had a law suit on his hands, and the court has ruled at a different conclusion from what his ideas would warrant. He complains about the delay in getting judgment. Perhaps he was asking for summary judgment and the court took time to hear the defendant—some poor fellow who had failed to pay his note on the day it was due.

Our Canal Questions Continued From Page 1. tenting himself with oratorical flights into cloudland. His reference to "the dynamic force of eighty millions of people" pressing "up against the St. Lawrence waterway" must have left his audience with a puzzled or puzzled. His sample of Mayor Hopewell's lucidity was this: "A careful study of the matter proved conclusively that to deepen the St. Lawrence route would benefit the United States as much as Canada, and Canadian money would be spent to divert Canadian trade from Canadian channels."

COLUMBUS, O., Nov. 7.—Phil O. Parmelee of Michigan, one of the Wright Bros' aeroplane operators to-day made the fastest cross-country flight ever made in a biplane. Parmelee flew from Dayton direct to Columbus, passing over South Charleston and London. The airline distance, as given out by the Wrights, is 65 miles, and the flight was made in 66 minutes. Parmelee carried \$1000 worth of silk for a dry goods firm, and it is said that this is the first time that the biplane has been put to such commercial use.

REBELLION SPREADING President of Honduras Appeals to Commander of U. S. Gunboat. NEW ORLEANS, Nov. 7.—The Honduras rebellion started by Gen. Valladares on the little island of Amapala is spreading to the southern coast of Honduras, according to a special cable from the Pinarque from Guatemala City. Valladares is still in complete control of Amapala, and according to the Guatemala despatch, President Diaz has named Commander Hayes of the U. S. gunboat Princeton, now anchored in Fonseca Bay, of his inability to cope with the situation, and asked that the Princeton commander take the necessary steps to protect foreigners and foreign interest in Amapala.

## YORK T.P. COUNCIL WILL SEEK ARBITRATION

### So Decided at Yesterday's Meeting—Burial Trust Are Skeptical About It, Tho.

I would advise that we file our plans and proceed with the arbitration process," said Mr. Gibson, solicitor for North Toronto, speaking with reference to the historical undertaking known as the "Century Road" from Mount Pleasant, and in this J. R. Starr, K.C., for York Township, the other party to the proceeding, concurred. The action was taken only after a joint conference between the representatives of the two municipalities, and held in the York Township offices on Monday afternoon.

Representing the township were Reeve Henry and Councillors Watson, Barker, Syme and Griffith. From North Toronto came Mayor Brown and Councillors Howe, Munton, Reid and Solicitor Gibson. Frank Barber, C.E., acting for the township, was also present in an advisory capacity.

For a long time they discussed provisions of the proposed arbitration agreement, and it is only fair to say that they were not enamoured of the whole project. The agreement, which was two years ago authorized the township to go ahead with the work, consent to which was on the part of the township, and it is only fair to say that they were not enamoured of the whole project. The agreement, which was two years ago authorized the township to go ahead with the work, consent to which was on the part of the township, and it is only fair to say that they were not enamoured of the whole project.

The municipal and literary program in charge of Miss Syme, Miss E. C. Rev. Mr. Campbell, Bro. William Crawford, D.C.M., and Bro. W. A. Baird. The gathering was one of the most enjoyable ever held in Mount Dennis. In the county police court to-day, Magistrate Ramsden fined three boys, Norman Sloan, John Fellows and George Willie, \$1 and costs or ten days in jail. Sloan confessed to soaping the tracks of the suburban railway on the Mount Dennis Hill on Halloween night, implicating the other two. Sloan was fined \$1 and costs or ten days in jail.

**WEST TORONTO.** Nov. 7.—Three detected boys were brought into the Keele-street police station late this afternoon by Detective Croome, and it took a long time to solve the mystery of which disappeared from License Bros. store last Friday will be cleared up, as the boys were taken to the station, aged 16 and 12, both of 1839 Dundas-street, and George Morris, aged 12, of 2 Ferguson-street. The two boys have a bad reputation for tramping the country, and last week started out to duplicate the feat of the other two, taking the Morris boy and the two wheels along with them. They were taken to the station and fined \$1 and costs or ten days in jail.

**WESTON.** Nov. 7.—The will of John Westonick, formerly of this place, was probated to-day by Judge Hallett in an estate of \$247, most of which consisted of a Weston property, of his looks to the late Mrs. Robert A. Harris of this place. He left the large sum of \$5 each. The bulk of the estate was divided between his other children, Margaret, Michael and Joseph.

**NORTH TORONTO.** Nov. 7.—(Special.)—The North Toronto Hockey Club will meet in the city hall on Friday evening to talk over and discuss plans for the winter campaign, and every young man, and every man as well, cordially invited to attend. The hockey will turn out to be a very successful one, and will do much to help the boys along, and the club will be very grateful for contributions. Friday night in the town hall.

**MUST PROVIDE FOR INSANE.** BRANTON, Nov. 7.—(Special.)—This city is being compelled to find accommodation for as many homeless patients of the asylum as are allowed to remain in Manitoba. Relief will be afforded, of course, by the removal of many to the new asylum at Ponoka. Unwillingness on the part of citizens to allow the government to use the winter fair building in the centre of the city, and the enlarged powers granted to police magistrates allow them also to dispose of a large number of cases that would otherwise come before you.

**Provincial Health Board.** The final meeting of the provincial board of health for 1910 takes place this afternoon in the parliament buildings. It is not unlikely that this will be the last meeting at which Dr. Chas. Sheard will preside. Dr. Sheard has already resigned the chair of health beyond the usual period. The position is in the gift of the government.

**Dr. MacMurchy Off to Baltimore.** Dr. Helen MacMurchy leaves to-day for Baltimore, Md., to attend the first annual meeting of the American Society for the Prevention and Suppression of Infant Mortality. Dr. MacMurchy will present the views of the Ontario Government on that occasion.

**No Parades Without Permission.** Hereafter, before they may parade through the streets, the students, like all other processions, must first secure permission from the police department. Upon an impromptu venture Saturday night, celebrating the football triumph, they marched the downtown streets, and had to be dispersed by mounted police.

**Go to Asylum.** Mabel Swallow, alias McTaggart, the young woman who committed a series of frauds by renting a furnished house and then selling the contents to second-hand dealers, was committed to a lunatic from police court yesterday.

### COMPLIMENTED GRAND JURY

Justice Britton Remarks on Willingness to Serve the Law.

Justice Britton opened the criminal sittings yesterday. In addressing the grand jury, the justice said: "It is a pleasure to me that you have made no excuses for performing your duty to your country as jurymen. I wouldn't be surprised in a large city like Toronto, with all its business life, if men made excuses more than they do in country towns throughout the province, but in going from place to place I find there is a general willingness on the part of our citizens to do their share in the administration of justice.

"For my duties, I am pleased to say, are comparatively light, not that that means an absence of crime. As you are aware a great many cases are disposed of in the general sessions of the National Mercantile Agency. I am glad to see that you are willing to do your share in the administration of justice. I am pleased to say that you have made no excuses for performing your duty to your country as jurymen. I wouldn't be surprised in a large city like Toronto, with all its business life, if men made excuses more than they do in country towns throughout the province, but in going from place to place I find there is a general willingness on the part of our citizens to do their share in the administration of justice.

## This Man Has Joined the Great Majority

**WE** do not mean by this that he is defunct—far from it. He is one of the live ones, one of the great majority of men who are now wearing overcoats. Stand on the corner at noon hour, and you'll observe that three out of four men have their winter overcoats on. To-morrow we offer ninety men a good chance to get out of the minority, and to save a five dollar bill at the same time.

These Overcoats are made of fine English coating of a smooth, soft finish, diagonal or wide wale pattern, single-breasted Chesterfield model, 46 to 48 inches long, loose box back, double stitched raised seams and velvet collar, lined with mohair, sizes 34 to 44. Wednesday . . . . . 9.95
