Sir Alan Aylesworth
Candidate in Summer
Sticks to the Ship

If Present Parliament Runs
Its Course, Minister of Justice
Will Carry Out Ex-
pressed Intention of Retir-
ing from Public Life.

North York Liberals won't swap
horses crossing the stream. Sir
Alan Aylesworth wants to quit, but
the situation is too critical, with
the majority of the party opposed
to a new outside man being insisted
on them by the central organiza-
tion, and a huge feud in the local
organization over reciprocity.

NEWMARKET, June 3.—(Special).—
If there is a general election this fall
Sir Alan Aylesworth will probably be
the Liberal candidate for North York.

Mr. Aylesworth, who is again Liberal
candidate in
North York, but who will retire if
election is not held this summer.

SIR ALAN AYLESWORTH,
Who is again Liberal candidate in
North York, but who will retire if

MONTREAL, June 4.—(Special).—The
report to the effect that the Cox in-
terests would in the near future pro-
mote a new bank with very large re-
sources, has revived the discussion over
the future of the Canadian banks, and
it is generally admitted in Montreal
banking circles that something must
be done before a very long period. A
leading banker stated to-day that the
circulation of the banks doing business
in the Dominion has reached its limit,
with three remedies ahead. First, the
circulation of a larger quantity of Do-
minion notes over the counter, the dis-
tribution of gold, the founding of a
number of big banks, or the increasing
of capital of the existing banks.

Lying in Pool of Blood.

NEW WESTMINSTER, B. C. June
4.—Henry Jobs, machinist's helper, 427
Fourth-street, murdered his wife early
this morning. The murder was discov-
ered by his son, William Jobs, who,
when he went to work in the morning,
heard his father had bought a revolver.
He immediately hurried home. Entering the house he
was horrified to see his mother lying
dead on the floor, a pool of blood being
poured from three bullet wounds on
under the right ear and one in each
temple.

ANOTHER INTAKE BREAK
PUMPS CLEAR OUT SAND

Heavy Wind Compelled Abandonment of Work Yesterday—Several Days' Effort Will Be Needed.

Shortly after noon on Saturday, another serious break was discovered in the intake pipe 753 feet off shore. The break was in the portion of the shore end of the pipe, which is covered by sand, and when the sand was cleaned from about the pipe later in the afternoon it was found that the outside section of the pipe had rolled to the east so far that the western edge of the outside was touching the eastern edge of the inside portion. No 3rd strand pump was kept at work from 1 o'clock Saturday night until 4 o'clock yesterday afternoon, and all the sand has been cleared off the east side. Work had to be suspended then on account of the wild east wind that was blowing, and now the only thing that is being done is to keep the inshore section of the pipe clear of sand with the 2nd strand pump.

DR. THOMAS BRENT DEAD

Old Resident Passes Away After an Illness of Two Years.

After an illness extending over two years, Dr. Thomas Henry Brent, 62 Bathurst-avenue, was called by death on Saturday last. Deceased was 62 years of age, and was born at Kingston, Ont. He practiced for some years at Newcastle after having graduated in medicine at the old Victoria College, now affiliated with Toronto University. He came to Toronto in 1883, but only practiced a few years. He was a member of the A.O.U.V. He was a cousin of Bishop Charles H. Brent of the Philippines; nephew of the late Canon Brent of Newcastle; cousin of Miss Louise Brent, superintendent of the Sick Children's Hospital, and a nephew of the late James Brent, secretary of the Toronto General Hospital. The funeral will take place at 3 o'clock this afternoon from his late residence at Mount Pleasant Cemetery. A widow and two sons, W. C. Brent and Harold Brent, survive.

GREAT FEATS OF STRENGTH

The four Regals will be the feature of the free vaudeville entertainment at Scarborough Beach this week. They are strong men and gymnasts and perform prodigious feats of strength and agility. One of them holds a 300-pound anvil by his teeth, and twists up iron bars, for instance. The Regals have visited most countries in Europe, and boast of their record of superhuman feats, which is a recommendation even in a democratic country like this. The Tuscano Brothers are battle ax jugglers, and there is a peculiar zest to most people. They are now on their first American tour. Les Monforts, comedy horizontal bar experts, are extremely clever and depend on to give an original and interesting performance. This will be the last week of Vetele's Venetian Band, and, as usual, the band will play every afternoon and evening. On Wednesday night, when the children of Toronto will be the guests at the park, there will be a special fireworks display, and it is expected to make fireworks a feature of the Wednesday entertainment throughout the season.

ALONG THE WATERFRONT

The steamer Kingston made her first trip to the States across the lake to Charlotte and then down to Kingston, returning on Saturday morning at seven o'clock, without a mishap and making return faster than usual for the opening of the season. The Turbina has held the record for high speed on Lake Ontario since coming to Canada, and this year has made even better time than ever before. Engineer Wilson of Collingwood has certainly exhibited his skill and now the great turbine makes the trip between Toronto and Hamilton in two hours and two minutes, from dock to dock. She is on the lake only 94 minutes of the time being taken up at Burlington Beach and in the two bays.

BERNHARDT HERE TOMORROW

ANGLICANS NOT GREED ON SUNDAY BLUE LAWS

Minority Report, to Come Before Synod, Makes Comparisons With Days of Inquisition.

When the Anglican Synod of Toronto Diocese meets on June 13, one of the issues that will cause considerable controversy is the matter of personal liberty in its relation to the enforcement by the law of Sabbath observance.

While a majority of the committee on the Lord's Day observance approves the rigid carrying out of the law, a number of the members take stand in defence of personal liberty, and a minority report conveys their views. In view of the recent decision of Justice Middleton, the issue promises to develop a warm debate.

The report of the committee, of which B. Bryan is chairman, reads in part as follows:

Menaces to Sabbath. "We desire to remind the members of the synod of some of the things that threaten to disturb quiet and prevent the proper observance of our Canadian Sabbath, such as the opening of post-offices, the opening of public libraries, the increasing use of automobiles, together with the evils that follow growing out of these things to the community."

"In the City of Toronto attention has been drawn to the fact that the civic toboggan slides and rinks are being used in a way which is detrimental to the ever-present love of pleasure and greed for gain. In all this, we do not forget the liberty which belongs to the individual, but as a committee we are seriously impressed with the danger to the highest interests of the Lord's Day. Moneys collected for municipal purposes should not be used in this way. Apart from any action taken by the city council, we would urge upon Christian parents the necessity of seeing that their children are not drawn away thoughtlessly or otherwise into wrong doing, and that, by example and precept, they encourage them to attend church and Sunday school."

Inquisition Methods.

The minority report signed by H. T. Beck reads: "We fully recognize the fact that there exists in the different religious bodies, and among the members of the Church of England, widely different views as to the proper observance of the Lord's Day. The divergent views have been retained more or less for centuries in all Christian countries, but the right to liberty of thought on this subject should always be maintained."

"Your committee are of the opinion that the largest measure of individual freedom should be accorded to all classes and creeds, and now should attempt to be a law unto another. Your committee see no reason why in a large and growing city such as Toronto, if there are a sufficient number of intellectual people desiring the opening of public libraries on Sunday, if the mechanics, and their families, hard-worked during the week, desire to use the public parks and rinks for making recreation after their usual for the opening of the season."

Day of Rest Needed.

Your committee is aware that a great deal has been said on the question of giving mechanics and laborers a day of rest, and it is a total relaxation from work on Sunday, or when impracticable, upon one day in the week, and the Dominion Lord's Day Act enacts certain penalties as against employers of labor who neglect or refuse to make such provisions."

The Jeff and Mutt comic feature appears in every issue of The Daily World.

To enjoy it properly you should see the entire series. The Morning World is delivered by carrier to any address in the city or suburbs for twenty-five cents per month.

As Charles Lockhart, 678 West King-street, was crossing King-street at Peter on Saturday night, he was struck by a westbound car and about the head. Dr. Geo. Smith was called, and the man was taken to St. Michael's Hospital in a passing auto. He was able to go home after the wound was dressed.

WILLIAM DONALDSON WANTED.

The chief of police last night received a telegram from S. A. Donaldson of Ottawa, asking him if he could locate his son William, who he thought was singing in some theatre here. The man's sister is dying in Ottawa, and he is wanted immediately. A thorough search of all the theatres here failed to find the man, however.

EATON'S MAIL STORE NEWS

THE EATON a High Grade Piano. Price \$185.00.

Stylish Panama Hats \$2.50

This is one of the best chances you'll have to get a high-grade Panama for such a little money.

A lot of them will be in the store on Tuesday, so if you want one, come early.

A beautiful soft fibre, woven into a negligee shape, with round crown and medium width brim.

Men's Derbys. Half Price. 95c

An English fur felt of nice finish and light in weight, medium high crown, nice rolling brim, silk trimmed and with a calf leather sweatband.

A Low Priced Sailor

If that's what you are looking for, here's your hat. A rustic braid straw in a medium shape with black silk band.

Shirts to Wear on the Yacht

They have soft turn-down collars attached; made of fine English Duck.

If you wish to wear a laundered collar, turn this soft collar in, and there's a neat band; made with full bodies, well proportioned, and with gussets in the sides; neat and stylish, with soft, attached cuffs.

Negligee Shirts Galore at 75c

We've never sold prettier shirts or shirts that will wear so well or wash so well for the money.

They're shirts worth more money.

White shirts with neat stripes and dots and small patterns in black, blue, mauve, green, etc.

Linen Collars 4 for 25c

You generally pay twice as much for three of them.

If you buy one it will cost you .75.

You know the quality by the names "Arrow" and "Looscarf," 4-ply linen collars that hold shape and wear well.

They're broken lines; not all sizes in a lot of styles, but among the lot there are sizes from 12 to 17 1/2. Great values—7c each, or 4 for 25c.

MONDAY MORNING, JUNE 5, 1911

NORTH TORONTO'S OPPORTUNITY

Mayor Geary was apparently not over-ardent about the annexation of North Toronto. In that respect he played the same of the York Radial Railway and its allied interests.

To-day the matter of the electric franchise comes up. There has been some delay in placing the hydro-electric rates before the town, but they will be submitted to-day.

The people of North Toronto will get more satisfaction for less money out of the hydro-electric system than they can get out of any corporation.

ATTEND TO CITY BUSINESS.

If Mayor Geary's absence is to be used as a pretext for postponing the transaction of city business, the board of control had better cable him to return at once.

OFFICIAL BACK NUMBERS.

Assessment Commissioner Forman confines himself to the strictly official as distinguished from the ornamental. The Guild of Civic Art desires to improve the approach to the fine new bridge on Queen-street, over the Don.

ANTIQUITY OF MAN.

In the statement of Dr. Hordulcha of the Smithsonian Institute at the meeting of the Ontario Dental Association last Thursday that dental research shows the origin of man to have been long anterior to that of the ape.

his note book and jotted something down and then I put the boxes back and went on to the door step.

After Dinner Smokes. The reporter tried a restaurant and here he was asked if he had had a meal. "Sure, but not here," he replied, and he had something to eat he would have all the cigars he wished.

"Give me a package of cigars." This time it was in another drug store. The clerk apparently paid no heed, but after peering thru the window for a half minute, stopped behind the screen, returning he slid his hand over the counter, saying, "Slip them in your pocket and don't open them till you're out the street. We don't allow them in."

A number of other stores were making no pretence at selling on the quiet and of course there were a few who did not far to go yesterday before he came across a merchant willing to chance a fine for the sake of making a sale.

The cigar stands in the downtown hotels blossomed out with signs notifying that smokers were to be purchased by guests only.

TORONTO TAXES FOR 1911. The City Treasurer gives notice that the tax bills for 1911 are now in course of preparation to be delivered on all occupied premises, according to law.

LETHBRIDGE, Alta., June 2.—The Canadian Pacific Railway has a gang of surveyors working between Medicine Hat and Calgary, south of the Bow River, between 30 and 40 miles north of Tabor. The engineer in charge estimated that the company is forced to change the main line because of the hard grades, and would probably make the new route the main line, as grades are much better.

Quite So. "You are always worrying," remarked the baseball magnate. "It is the constant search for something new," explained the theatrical manager. "You know, I have to cater to the tired business man."

Cautionary Measure. "Mary," said her mistress, "I'm going to entertain a few friends this afternoon. You needn't stay in."

Torontonians on Ocean. Toronto passengers who sailed from New York on the White Star steamer Baltic from New York on Saturday, 18 attend the coronation were: Sir Henry Pellatt, Lady Pellatt, Capt. HAMILTON HAPPENINGS

TWO ITALIANS DROWNED AT MOUTH OF CANAL

Were Out Rowing on Hamilton Bay and Attempted to Change Seats in the Boat.

HAMILTON, June 4.—(Special.)—Frank Corena and Nicholas Rafaele, two Italians, aged 22 and 18 years respectively, were drowned in the bay at the mouth of the Desjardins Canal here about 3.30 this afternoon.

The drowning occurred about 100 feet from shore in water about six feet deep. In company with three other Italians, named Fred Balsani, Gabriel Virgilio and Rafael Worgante, the two men who lost their lives, were rowing in the bay, when they attempted to change seats and overturned the boat, throwing all the occupants into the water.

None of the men except Balsani could swim, but Virgilio and Worgante, who were strong swimmers, for a few minutes until assistance reached them from shore. The two drowned men were unable to get hold of the boat and sank before the men on shore could get to them. Immediately after the accident the police were notified and Patrol Sergeant Cruickshank and Constables James Clark and Mountain were despatched to the scene.

Search for the bodies was begun about 6 o'clock, but they were not found until the surface and taken to the city morgue in the patrol wagon. Dragging for the other body was continued until dark, without success.

Near the spot where the men went down there is a blind channel containing eleven feet of water. It is thought Rafaele's body was drawn into the current and swept out into the bay. Grappling operations will be resumed to-morrow morning, when it is hoped the missing man, Corena and Rafaele were employed as laborers at the plant of the National Fireproofing Co. on the Plains-road, near Alder-street. So far as is known neither of the men has relatives in this country.

Militia Leave for Camp. Three of the local militia units left the city for their annual training camp on Saturday. The army service corps entrained at the P. H. & S. O'Connell, for Niagara, where they will spend two weeks. Major Hatch, Capt. McLennan, Lieuts. Brooks, et al., accompanied the party.

The army medical force, comprising about 100 men, under Capt. Rennie, also started this afternoon on their respective duties. The Ontario Branch of the Dominion Alliance was observed here to-day by special services in all the churches in the city. Meetings in Dundurn and Woodland Parks. A number of the local workers in the alliance: Rev. A. C. Crews, D. A. George, Robert G. Hunter, Geo. W. Killewell, Rev. M. L. Pearson, Controller Spence, Mrs. Owen Hitchcock and others, were present.

Representatives from the different societies of the city will enjoy party at the coronation celebration here, to-morrow evening. The coronation committee has appointed a committee to control the arrangements for the coronation of the king, and to defray the expenses of the same. The coronation will take place in the afternoon of coronation day.

WILL FLY TO TURIN EVEN IF THAT PART IS GOT OUT

Proposal to Eliminate Last Leg of Big Paris-Rome-Turin Race Not to Beaumont's Liking.

ROME, June 4.—There is some talk of abandoning the last leg of the Paris-Rome-Turin race, owing to the difficulty in finding appropriate landing places in the Apennines. Beaumont, however, declares that he will make the flight to Turin, whether or not that portion of the race is officially eliminated.

According to the rules, the start from Rome may be made any time before June 10 for the Rome-Turin section of the contest. Beaumont is in good condition for this flight, but Garros is still suffering severely from the injuries to his right shoulder. Vedrine, the winner of the Paris-Madrid race, has sent a message from the French capital saying that he wishes to fly to Rome, and that he expects to accomplish this flight in one day. He would then be ready to take part in the contest from Rome to Turin.

TRIALS OF A LOVER

John Gavin Cannot Find Sweetheart He Came East to Meet.

That the course of true love never runs smooth is the experience of Mr. John Gavin, until last night a guest at the Daly House. Mr. Gavin left Saskatchewan some days ago to meet at Quebec the love of his boyhood days. Thru a mishap en route he reached the seaboard as his lady love departed on a westbound special. He made a still hunt for her at Montreal and again found the special a beacon light. He sped for Toronto, which had been agreed upon as the trying place containing the greatest chance of success. Mr. McGillivray, the general Ontario immigration officer, discerning his anxiety, volunteered assistance, and involving the aid of a taxi-cab, started at 11 o'clock for the city of St. Catharines. Two lady-cabin passengers were traced, who volunteered the information that Miss Isabel Watt was very young, but was last seen in Montreal. Long distance phone calls elicited the joyful tidings that Miss Watt was encoached at St. Andrew's Home, 477 Queen-st. West, at 10.30 o'clock. Mr. Gavin departed at 10.30 o'clock last night seaward bound, and Mr. McGillivray is anxiously watching for a petit d'ame, and responding to hourly messages from Mr. Gavin.

FIELDING SMARTS UNDER ENGLISH CRITICISMS

Writes Letter to Morning Post—Dragging Canadian Affairs Into Party Politics.

LONDON, June 4.—Hon. W. S. Fielding in a letter appearing in the Morning Post, says: "The regrettable feature of the discussion in England of the Canadian-American reciprocity agreement is the disposition in some influential quarters to drag Canadian affairs into the field of party politics."

For leading public men of England upon an unimportant information, it is an example of the first of which is no ground for this assumption. Lord Selborne was quite mistaken when he said that this was the first time any part of the empire would enjoy preferential treatment from a foreign country to the rest of the empire."

Mr. Fielding proceeds to point out five examples, the first of which was the Canadian-American reciprocity treaty of 1854.

The Morning Post says: Mr. Fielding might well have hesitated before using his position as a Canadian minister to attack the leading representatives of the opposition party here. It is a little hazardous to assume that Lord Selborne was merely veiling a party cry, seeing that under the Liberal government of 1894 a very weighty despatch was addressed to the Dominion pointing out that any such action as Fielding has now taken in the American agreement would seriously jeopardize the integrity of the empire.

NO FRICTION IN CARLTON METHODIST

On Saturday evening the committee appointed by the central district conference to meet with the quarterly and trustee boards of Carlton Methodist Church, discussed the proposed sale of the church.

The question was raised as to what plans the church boards had for the use of the money received from the sale if conference consented, but the fact that no plans were in view caused quite a disturbance. The matter will have to be threshed out again before conference meets next Thursday.

Rev. R. J. Friesen, pastor of the church, desires to contradict any idea of antagonism between the congregation and the trustee board.

BOOY OF J. D. PILLON PICKED UP IN RIVER

Young Man Had Lived in Toronto Last Fall—Recently Out From England.

WINDSOR, June 3.—The body of a young man was picked up in the river early this morning. It had been in the water about a week. In a paper book found in a pocket was written the name J. D. Pillon, 938 West King-street, Toronto.

The body is that of a young man about 5 feet 6 inches, 22 years old, and weighing 140 lbs. In the pockets were a \$20 gold piece, beads, and a gold watch and fob.

There appears to be no evidence of foul play. Enquiry at the address given elicited the information that a young man, who was most likely the unfortunate, had boarded the car for three or four weeks last fall. Little was known about him except that he had come from England a couple of years ago and had worked about Ontario, getting the work wherever possible. He was a stone mason, and had always been in good health.

Baldwin-Melville Invades Toronto

Most Successful Stock Company in America, Come in for Summer Season at Princess.

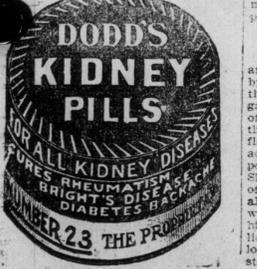

That Toronto is coming to be regarded as a most profitable theatrical centre is demonstrated by the fact that American theatrical managers regard it as a likely field for first-class summer stock companies. Never since its establishment more than twenty years ago has the Princess Theatre opened its doors for a summer season, but this year it is to have a first-class stock company which will give its initial performance on Wednesday evening next on the conclusion of the Bernhard engagement.

The organization is known as the Baldwin-Melville Stock Company and will have all the efficiency that experience, enterprise and ability can give. The opening piece will be Hall Caine's emotional drama, "The Christian," which, despite the fact that it has been seen for many seasons, never fails to draw large and enthusiastic audiences. The main reason for choosing it as an opener has been the fact however that it gives an opportunity which few pieces provide to show the capacity of a large and well-balanced stock company.

Arthur Byron, the leading man of the company, is recognized by critics as one of the most promising and able actors on the English-speaking stage. In fact it would be hazardous to prophesy what he will not eventually do. He is the son of Oliver Doud Byron and Kate Byron, both players of renown on this side of the Atlantic. He made his debut in the office popular play "Across the Continent." He was for years associated with John Drew and created many of the most prominent parts in the productions for which that actor is famous. He figured prominently in the first American productions of "The Tyranny of Tears," "The Lyons," and other well-known pieces. In 1892 he became leading man for Amelia Bingham, then very prominent as a producer of American stock plays and in 1898 the late Clyde Fitch started him in the role of popular star is famous. He figured prominently in the first American productions of "The Tyranny of Tears," "The Lyons," and other well-known pieces.

School Children's Day. This is the last week of Vetele, the boy conductor, and his Venetian Band at Scarborough Beach. In order to mark the occasion, the young musician has decided to hold a reception to the school children of the city on Wednesday afternoon and evening. Admission to the park will be free to children on that day, and each one of them will be presented with a photograph of Vetele. There will be a special fireworks display at night, and the free out-of-doors performance will be put on earlier than usual, in order that the children may get home in good time.

SIR ALAN AYLESWORTH STICKS TO THE SHIP

Continued From Page 1.

election. He advised serious and constant organization in the riding. As this will be the harvest time in the fields, so let it be the harvest time for the Liberal party. He thanked them for tendering the alternative nomination, which he hoped he would not have to accept, preferring the able representation of the minister of justice.

Some criticism had been made over this expenditure, and he thought that any riding that could send such men to Parliament as Sir William Mulock and Sir Alan Aylesworth was entitled to get anything it asked for. It would be a great loss if Sir Alan went out of public life. He did not think it necessary to argue with the audience, they had given evidence of their loyalty to Liberalism. Discussing the record of the Laurier administration, Mr. Clark declared that those who claimed that the Laurier government was a failure had better first explain the unexampled prosperity of the country. The policy of the Liberal party had been expansion of trade, and having regard to that policy, reciprocity was the capstone of the triumphs of the Laurier government.

Why Neglect the States?

Discussing the trade agreements Mr. Clark affirmed that reciprocity had always been a fixed feature of Canada's fiscal policy. He asked when Canada was making trade treaties with distant nations to provide new markets for national products, why should she neglect the great market which was so close? He instanced the "reversion of feeling in favor of reciprocity in his own riding against what it was when the details of the agreement were first announced. With climate and natural conditions equal he would not admit that Canadians were lacking in intelligence to fully compete with the people of the republic.

Popular Sir Alan.

Sir Alan Aylesworth in rising to respond to his nomination was given a rousing reception. He received on his return from the Hague. He spoke feelingly of the confidence that his friends in North York and stated that for anything he had done the merit was theirs. The riding held a high place in the esteem of Canadian parliamentarians, and Quebec the name and high fame of the riding, which had elected Lafontaine was held in great regard. It would be a wrench to resign the nomination, which they now tendered. Explaining the situation with regard to himself, Sir Alan spoke of his physical condition, which he mentioned in his speech at the Liberal assembly. He still stood by his former decision given there, and if you say to me now as friends to a friend, and now I have to say no, I must not be. But while that is so, I am willing to modify it to a little extent. Sir Alan expressed absolute confidence in Sir Wilfrid Laurier, and said if the election which now seems imminent were deferred until next year he would serve out his term, but if the election were forced before this, he would like to defer his answer.

Discussing the questions of an election, Sir Alan said he was thoroughly in favor of the view that the reading articles in The Mail and The World at the length to which the imagination of newspaper writers could go. No one in the city could be surprised at the length to which the imagination of newspaper writers could go. No one in the city could be surprised at the length to which the imagination of newspaper writers could go.

There was no limit to debate, that was a perilous state of things; the Canadian house of commons stood alone where such a thing was possible. He did not share the view that a condition was a glory, as he had been prepared for years to vote clause and limit in debate. It was not British. How could the British house have passed the great remedial measure which stood to the credit of the Liberal party if it had not been for the clause? When a member of parliament forgets his responsibility so as to obstruct public business he deserves to be gagged. Under such circumstances the power of forcing an election lay with the opposition, and the Liberals would not run away from it. It had been the policy of the Liberal party to count public opinion.

Census in the Way. The difficulty in the way of an election was the census being taken now. It was vital, said Sir Alan, that this should be done before a general election, in order that the largely augmented population of the western provinces should have adequate representation. It would be an outrage if this was not done before a general election, in view of the vast amount of clerical work involved. It would not be possible to take a census bill ready before Oct. 1, said Sir Alan. If there was an election he would be glad to go before the people with reciprocity as the issue, and if he needed no defence, he was proud of it; he gloried in it.

A Broken Friendship. Thos. Forester, 58 Pearl-street, was arrested shortly after noon yesterday by P. C. Riley (514) on a charge of theft. He was arrested on the instigation of Wm. Roe, who told a story of an unfriendly friendship. He said that he and Forester procured several flasks of the fiery liquid and went across the York-street bridge to dispose of it. The disposition made Roe sleep, and he slumbered in the heat of the day. When he awoke he was alone in the world and his pockets were empty. The latter fact troubled him so much that he called the policeman, who arrested Forester, and locked him up in Court-street police station.

HELLO ADELAIDE, NEW TELEPHONE EXCHANGE

Several Hundred Subscribers Transferred—New Directories Monday.

About a thousand former "Main" telephone subscribers yesterday became "Adelaide," 200 "Parkdale" phones were also changed to the same prefix. Telephone directories showing the changed numbers have been printed and are ready this morning. 69 tons and 21 teams will commence their distribution. Beside the downtown transfers the big increase in west end subscribers has made necessary the removal of 400 phones from the Parkdale office to the new Keele-street station, and a few College subscribers will also come under "Junction."

The "Main" station on Temperance-street will always be what its name implies, the Adelaide switchboard merely containing the overflow from the first board. The new station starts off with well with 180 subscribers on its switchboard, and this number will be augmented as downtown stores and other central places of business improve. For some months a past 400 subscribers using the prefix Adelaide have been operated on an annex switch at the main office, and these will be transferred also to the new station.

WHO CAN HELP HERE?

Position Wanted for Worthy Widow, Who is Without Resources. Donald Sutherland, director of colonization for Ontario, is anxious to secure a situation for a widow with three girls, aged 8, 6 and 10. The woman has been accustomed to farm house work. The family are recent arrivals in Ontario, and the death of the husband and father has left them without resources. Write the director of colonization, parliament buildings, Toronto.

SENATOR LOUGHEED HERE.

Senator J. A. Lougheed and Mrs. Lougheed, accompanied by their son, Clarence Lougheed, arrived at the King Edward yesterday from Calgary, Alta. They will remain in the city until Wednesday, when they leave for Montreal, sailing on the Virginian for England on Friday to attend the coronation. Lougheed is the leader of the opposition in the senate, and was one of the members chosen by the government to represent the Canadian senate at the coronation, and both the senator and his wife will have seats in Westminster Abbey. After the festivities in London are over they will travel on the coast, and will be in Montreal, returning to Canada in July when parliament opens.

THE C.P.R.'S LAKE FRONT LINE.

Mr. J. W. Leonard, who was in Toronto all Saturday with Vice-President McNicoll, said that he was busy these days with the details of the new Toronto-Witby-Cobourg-Montreal line. The new line will leave the C.P.R.'s present line one mile east of Donlands Station and just east of viaduct No. 4 (over the east Don), thus adding another interesting view to the members of South York sitting under his porch and fig tree. The line then runs east, crossing the Scarborough and York town line on the Elliott farm, half a mile above St. Clair-avenue. From there it runs east across Scarborough, getting south of the Canadian Northern before it comes to Woburn and then on to Whitby. It will be between the Grand Trunk and the Canadian Northern and close to the centre of all the towns.

MOVES TO TORONTO.

GODERICH, Ont., June 2.—A. N. Todd, late of the Goderich Star, who is removing to Toronto to engage in a printing business on Adelaide-street, was last evening presented with a gold-headed cane and an illuminated address, signed by Mayor Cameron on behalf of the town council. A. H. Macklin, for the board of trade, and Fred J. Pritham on behalf of the merchants of the town expressed appreciation of Mr. Todd's services in behalf of the town and good wishes for the future.

Thrown From Street Car.

Miss May Robinson, a young lady staying at the Palmer House, had her knee dislocated when she was thrown from a street car in a smash-up at King and Church-streets last evening. The accident was caused by a street car taking an open switch at Church-street and running into an eastbound car. The damage to the cars was small.

Found Dead in Bed.

Charles Kirby, 25 years, a bookkeeper for the Gordon McKay Co., was found dead in his bed at the Merchants' Hotel on Jordan-street, at 3 o'clock Saturday afternoon. He had been ill for a week. Dr. Fish was called and said that death was due to heart failure. An inquest is unlikely.

WATER POWERS

PRINCE RUPERT HYDRO-ELECTRIC COMPANY, LIMITED, has been organized under the Companies Act, Canada, for the purpose of developing hydro-electric power and supplying electric energy for light, heat and motive power to the City of Prince Rupert, B.C., and to the settlements and industries in the immediate vicinity. The company has acquired the control of the Talimpean Light & Power Co., a subsidiary of the Continental Power Company, Limited, and the water rights on the Kibitza and Falls Rivers, branches of the Skeena River, which were formerly controlled by these two companies.

These water powers, which are located approximately forty-five miles from Prince Rupert, are capable of developing at least 25,000 to 30,000 horse power of electric energy. It is proposed to develop approximately 1500 horse power of electric energy by means of a provisional power plant to supply the immediate demands of the City of Prince Rupert, and to proceed to the construction of a permanent installation capable of supplying 15,000 horse power, to be completed in three years, or so soon as the Grand Trunk Pacific Railway shall be completed to the Pacific Coast.

This plant will be extended and its capacity increased to meet the demand for electric energy in the city. The company also proposes to install and operate a gas producing plant in the city of Prince Rupert, capable of supplying 75,000 cubic feet of gas per annum for light and heating purposes, increasing the capacity of the plant as the demand may necessitate.

The City of Prince Rupert has been laid out with a view to making it the future metropolis of the North Coast of British Columbia, and it has a harbor, practically land locked, which is one of the finest in the world. The preliminary work of surveying and laying out the new city was commenced in May, 1908, and today it has a population of approximately 6000 people, which will probably be increased to 25,000 as soon as the Grand Trunk Pacific Railway is completed through to the Pacific Coast in 1913.

Electric energy will be required for the operation of the terminal equipment of the railway, factories, foundries, machine shops, mills, cold storage plants, and public and private lighting, and the hundreds of other purposes to which cheap motive power may be applied in a new and rapidly growing city.

Forms of Application and full information may be obtained from Corporation Agencies, Limited, Royal Insurance Building, Place d'Armes, Montreal, or from Members of the principal Stock Exchanges in Canada.

G. P. RENUMBERS TRAINS FROM COAST TO COAST

Every train on the Canadian Pacific Railway bears a new number to-day. The change was made Saturday night. No two trains on the road from the Atlantic to the Pacific will bear the same number, a fact unique in the history of railroading. Trains running between Toronto and Montreal heretofore to the public as Nos. 3, 4, 5, 6, 88 and 90, will hereafter be known as 17, 18, 21, 22, 23 and 24. The trains on the old Bruce line, heretofore to the public as Nos. 15, 16, 19 and 20, will be known as Nos. 706, 707, 709 and 708. A certain series of numbers has been allotted to thru passenger and freight trains and local passenger and local freight trains, so that in the future the numbers will not conflict, and will indicate the class as well as the territory in which the train runs.

Sale of Harness Horses. J. Herbert Smith, manager of the Union Stock Yards, announces that at the usual auction sale on Monday two extra good young harness horses will be offered for sale at Maher's Horse Muckle Wilkes and the other a right down good six-year-old pacer.

JUMPED HER RENT

An unusual case of rent jumping occurred Saturday morning. Because her landlady had locked her door and would not let her leave her rooming house, at 2 Sullivan-street, Mrs. Carrie Bayrat jumped from her window, 20 feet to the ground below, striking an iron picket fence on the way and severely cutting her right wrist. She was hurried to St. Michael's Hospital in the police ambulance, where no other injuries were found and she will recover.

FIRE DESTROYS STEAMER.

BUFFALO, N.Y., June 2.—The passenger steamship Northwest, owned by the Northern Steamship Company, was burned early to-day at her dock in this city. With her sister ship, the Northland, she was being prepared for the opening of the season on the great lakes on June 21.

The fire is supposed to have been caused by an explosion of oil. The loss is estimated at \$500,000. The Northland was towed out of danger by the city fire tug.

ATTEMPT WAS MADE TO DYNAMITE MADERO

EL PASO, June 3.—Soon after the departure of Francisco I. Madero, Jr., for Mexico City yesterday, details were made known of an alleged attempt to dynamite him. The plot, according to insurgents, was to have been carried out during the ball which Senator Madero attended in Juarez Thursday night.

When the plot was discovered, enough dynamite was being carried into the ball room to blow up the building. About 500 persons, including Senator Madero and his wife, were the participants in, and spectators of, a grand march about 11 o'clock, when a man was stopped at the entrance.

ACTIVE WORK RESUMED IN PAINKELLER REGION

Hudson Bay Mining Co. Work Claim Under Option—Several Prospecting Gangs.

MATHESON, Ont., June 2.—(From Our Man Up North.)—The Painkeller Lake Mines in Northern Beatty Township have been opened and work started by the Hudson Bay Mining Company, who hold a 60-day option on the property.

It is not expected that much in the way of mining will be accomplished within the 60 days, but to determine values, a cross-cut will be run from the bottom of the old 100-foot shaft 18 feet east, to cut the vein that shows on the surface, and which left the shaft at the 40-foot depth. Should the values at the 100-foot depth, where the cross-cut is expected to intercept the vein, show up anything like an ore body, undoubtedly the option will be extended to give the working company time to cross-cut still further to another vein indicated in the fractures on the surface.

The work is all being done by hand and proceeds slowly in the usual manner. Nearly one-half of the operation was taken up in getting the water out of the old workings, which have not been touched for nearly a year. One shaft was put down in 1910.

The holdings of the company lie in the Painkeller Lake district in the northern part of Beatty Township, the north end of the acidic belt, which cuts thru Munro Township. The country formation is principally diorite and slate.

The quartz here, as in the Munro belt, is mixed in with the country formation, the blue acidic colorings yielding the values. The quartz does not run clear.

Painkeller Lake district is reached by taking the road to the north, then Matheson for a distance of perhaps one mile. Here the road branches off the main Beatty Township line road and strikes to the north and east thru a dense wilderness. Several swamps are encountered on the nine-mile trail.

On account of the condition of the roads, should the cross-cutting now being done at the 100-foot level show a probable ore body at Painkeller Lake, nothing in the way of stockpiling up with previous or getting in heavy machinery could be accomplished this year.

An English syndicate of which A. H. Atchison is a prominent engineer is at the head, are prospecting several veteran claims in this district. Twenty men are now at work.

To the north of Painkeller, John St. Paul, on behalf of the Copper Cliff Company, has charge of the prospecting work on several claims. There are also other prospectors who are endeavoring to prove up their claims.

Painkeller Lake district has come back with a vengeance, and should some good results be obtained, work similar to those which have been accomplished in the Swastika country, no one is more entitled to substantial reward for their work than those who became pioneers of the Painkeller country.

Jupiter Vein Traced On Adjoining Lot

Armstrong-Booth Property Gets Rich Showings—New Vein at Pearl Lake.

The following telegram was received by Scott Dawson & Paterson, from E. A. Sutton, their correspondent in Porcupine:

The diamond drill core shows 5 feet of excellent ore at a depth of 30 feet on an extension of the vein which runs upon the Armstrong-Booth property at the 200 foot level. The vein is much wider, probably 15 feet. A vein practically as rich as the Jupiter has been uncovered on the south lot of the Armstrong-Booth right at the east end of Pearl Lake. This vein is about 6 feet wide and is running northeast and southwest. It is near the south line and should be picked up without trouble on the Platt veteran claim.

The Pearl Lake Mines have a vein found a 400 feet on their east claim, which pans exceedingly well. The vein has not yet been sampled.

The Hidden Treasure Spicing Company has been formed to furnish the Town of South Porcupine with pure water.

WILL BEAUTIFY THE CITY.

OTTAWA, June 3.—The Ottawa Improvement Commission has notified the mayor of Hull that \$4000 will be spent in beautifying that city this summer along lines recommended by the Hull Council some months back.

This allotment is only for the start of the commissioner's work on that side of the river.

The new team delivery yard of the C.P.R., at the corner of Bloor and Dundas-streets, will be opened early in the week.

GOLDFIELDS LIMITED

This Company Has Stamp Mill Now Well Under Way.

Amid the good progress being made by the various companies in the gold districts, it is gratifying to note the headway being made by Goldfields Limited. This company has a forty stamp mill now on their property and expect it will be completed and ready to operate in the course of a few weeks. Good headway is being made with their electrical plant, and the calculation is to have it in operation within twelve weeks. The company have on hand the necessary money to complete the entire works.

Kerr-Addison properties are showing up well. This company should be among the first, if not the very first, to have a large mill in operation in the gold country. The shareholders have had the benefit of sane and energetic management, and the company deserves the success which it is achieving.

BIG KEROSENE TANKS GO UP IN FLAMES

Lightning Causes Destruction of Twenty Thousand Barrels of Oil Near New Orleans.

NEW ORLEANS, June 3.—Eight immense oil tanks of the Indian Refining Company, several miles below the city on the Mississippi River, containing 20,000 barrels of gasoline and 60,000 barrels of kerosene, valued at \$250,000, were destroyed by fire last night and this morning. The fire was started when a bolt of lightning struck one of the tanks. The flames spread rapidly from one tank to another. Four thousand feet of hose was taken from this city last night and two tugs from this city last night pumping water to save surrounding property.

This morning the fire still was burning, but was under control.

TWAS CASE OF GIVE AND TAKE.

KINGSTON, Ont., June 3.—(Special.)—At the eleventh hour discovery shows that when the civic finance committee and the board of trade railway committee were negotiating themselves upon the liberality of W. R. Baker, president of the Kingston and Pembroke Railway Company, in handing over certain government lands in the vicinity of the hay market and Catorville bridges for street extensions and other purposes, the city was to yield up its claim to other government lands held by the railway company under license of occupation. This was explained by City Solicitor McIntyre to the civic finance committee and caused surprise, as it was not understood by the members of the committee who were present at the negotiations last Tuesday with Mr. Baker, that the city was dropping its own claims in lieu of what Mr. Baker granted.

The civic finance committee will not agree to this and, therefore, the matter will have to be reopened.

POWER FOR KINGSTON.

KINGSTON, Ont., June 3.—(Special.)—P. B. Yates, hydro-electric commission, was here to consult with Ald. Elliott, chairman of the light, heat and power committee, with regard to power for Kingston.

STAKED AND DISCARDED BUT NOT IN ENQUIRY

Old Stamping Ground of Prospectors Has Come Back at a Rapid Pace.

MATHESON, Ont., June 2.—(From Our Man Up North.)—Prospecting ground of four years ago is to be worked over again and daily the hardy man of the bush, the prospector, regardless of the hordes of black flies and mosquitoes, more numerous this spring than ever, is unloading his pack at this place on his way back from Cripple Creek and Porcupine.

Townships to the south of Gubior Township are being worked on down to Labelle and east of Otto Lake to Swastika.

Free gold found in quantities at the 200-foot depth in the prospecting, with elaborate preparations for a larger stamp mill with an increased capitalization, together with ready sale of the property, is having the distance of the mine holdings, have given a new impetus to the prospecting in the old field that was staked and discarded last year.

Then, the moving of the recording office from Larder Lake to this place makes it necessary for the one who has a good claim and staked to come here to record. The office force, Messrs. Recorder Hough and his assistant, A. S. Browning, remain on the site to make the arrangements of the prospector, who comes up from Swastika on the evening train. No delays are had in catching the morning train back to the field of operations.

The whole territory from Swastika to Larder Lake will be restaked this summer, said Recorder Hough to the World, "and for a distance of six miles to the east of Swastika the ground is now taken up. Labelle Township is being reached and soon the distance to Larder will have been covered again."

"The finds at depth in Swastika set the prospectors in motion. They are a hard-working game lot, and this time it looks as if the claims would be worked as well as staked."

Many sales of claims in the Swastika section are reported. Yesterday a Porcupine prospector disposed of two claims adjoining the Swastika mines for \$9000. Other claims are reported as being under option.

WANTS TO "COME BACK"

Ex-President Castro Attempts to Return to Venezuela.

HAVANA, June 3.—Cipriano Castro, the ex-president of Venezuela, could not be found on board the steamer Orizaba, which sailed last night from Las Palmas, Canary Islands.

It had been reported that Castro was attempting to return to Venezuela by the Orizaba. He is believed to have boarded the ship this morning, and made a thorough search among the passengers, but did not succeed in finding Castro.

According to the officers of the ship a passenger, who unquestionably was Castro, was seen in the foot of Princess-st., and Constable found him in nick of time.

In the police court he was fined \$1 and costs.

VICTIM OF WRECK

Wife of Railroad President Killed in Accident.

VERGAS, Minn., June 3.—Mrs. L. S. Berg, wife of the president of the New England and Grand Rapids Railroad, was killed, and Mr. Berg was seriously injured in a wreck of Minneapolis, St. Paul and Sault Ste. Marie train No. 109, northbound for Thief River Falls, at 10 o'clock last night. Several other passengers were injured. The wreck was caused by a washout a mile south of Vergas.

PURCHASE DEFERRED.

KINGSTON, Ont., June 3.—(Special.)—Things were humming round the Union Station all Saturday and the traffic was exceptionally heavy for the week-end. There were no extra sections, but three or four coaches were added to all regular trains. The train to Muskoka was an unusually heavy one, as it was the first holiday train to the district. The heaviest train of all was that of the eastern section running to Brockville and outlying districts.

Valuable Horse Destroyed.

Fire, supposed to be of incendiary origin, broke out in a stable at the rear of Capt. Goodwin's residence, 133 Berkeley-st., Saturday afternoon at 6.30, destroying his horse.

Goodwin was on the island when word came of the fire, and he at once hurried to the scene. The family were all out for the afternoon. Mr. Goodwin places a valuation of \$300 on the building and harness, and the horse is valued at \$150.

Important Business Change.

BRANTFORD, June 3.—An important business change took place here today, when Joseph Broadbent acquired the gens' furnishing and tailoring business of Colbeck & Barber.

E. J. Calbeck will remain here for the present, and F. D. Barber is going into gold mining in Oregon.

OWN A FARM IN NEW ONTARIO

Here is an opportunity to get in "ON THE GROUND FLOOR." We have some well selected properties close to the railway and to water-well wooded and rich clay loam soil. Wood and timber will in most cases cover the investment. These properties are quarter sections, 160 acres more or less, and the patent (dead) includes all mineral and timber except pine.

When we tell you that a great many of our properties are in the vicinity of the Porcupine and Cobalt Mining Districts and that they are being sold at from \$2.00 to \$1.00 per acre, on easy terms, and the fact that the deed includes all minerals, you surely must acknowledge that what we are offering is an opportunity.

KING GEORGE CELEBRATES FORTY-SIXTH BIRTHDAY

His Majesty Receives Many Unique Gifts From the Royal Family and Others.

LONDON, June 3.—King George's forty-sixth birthday is being celebrated at Buckingham Palace today. There is a family luncheon party, and many birthday offerings will be made.

Queen Alexandra's present, according to the Daily Express, has been brought by her from her recent foreign tour. A large case has arrived from Berlin, containing the present of the German Emperor and Empress. A special messenger brought a sealed packet from the Tsar.

One of the young princes is giving the father a new service, while Princess Mary's present is a tobacco pouch embroidered by herself with the King's monogram and crown.

SAVED IN NICK OF TIME.

KINGSTON, Ont., June 3.—(Special.)—Sergeant Smeeth and Constable Mullinger saved the life of Robert McDonald, a sailor on the steamer Turcot, Chief. While drunk, Mullinger fell to sleep under the foot of Princess-st., and Constable found him in nick of time.

In the police court he was fined \$1 and costs.

ELDORADO

The claims owned by this company in Whitney Township have already been endorsed by two well-known engineers and A. P. Seymour, M.E., a gold-mining expert of wide experience, has taken charge of the properties to rush development work.

We are still offering a small portion of the original allotment of Eldorado at ten cents per share, and, in our opinion, this stock offers the best speculative chance in the whole Porcupine Camp.

Orders should be sent at once to insure filling at this price.

The Petticoat

What is the good of the smart fitting tailor-made suit or the shapely dress if the petticoat is all wrong? Don't blame the costume for looking bulky if you have not had the foresight to think of and provide yourself with a fitting underskirt first. One doesn't usually wear heavy underclothes in the summer, so why not get a really *seasonable* petticoat? These Heatherblooms and English silks are *seasonable* and reasonable.

HEATHERBLOOM AND "ENGLISH SILK" PETTICOATS.
 Women's Petticoats of "English" and "Shap" Silk, also Heatherbloom black, champagne and cream, pleated flounces trimmed with narrow pleated frills, also a number with *flared* flounces finished with stitching. Length, 38 to 42. Regular \$1.75, \$2.00 and \$3.50. Tuesday, 1.49 (Phone orders for black only.)
\$1.25 PRINTED PERCALE WRAPPERS, 79c.
 Women's Wrappers, of extra heavy quality Printed Percale, in attractive colorings of navy or cardinal, with white collar, cuffs, yoke and frill over shoulder, finished with fancy braid, fitted waist, lining, and pleated back. Sizes 34 to 44. Regular \$1.25, Tuesday, .79
\$6.00 SILK KIMONO GOWNS, \$3.95.
 Women's Long Kimono Gowns, of fine florentine silk, pretty floral patterns, sky, Copenhagen, plink, navy, wisteria and green; one style is shirred at waist and yoke, and has ribbon belt; another is made with Empire back and Gibson pleat over shoulder, fronts and sleeves finished with plain messaline. Regular \$6.00, Tuesday, 3.95

A Shirt Riddle

What is it that—
 Makes a shirt, is made with the shirt, is all over the shirt, and won't wash out? There is no extra charge for it, but you are willing to pay for it, and if you don't get it you pay for it?
 The answer is evident when you wear a shirt of the right kind; it is "comfort."
 The trouble is, some shirts won't fit your collars, and some collars won't fit the shirts; size seems to make no difference; then the tie won't "run" and you get mad. There is no combination in the world that will make a man madder than a shirt, a collar and a tie... Here are shirts, collars and ties built together, they fit, they harmonize, they are in good taste and the thing for this summer, and the price, \$1.39, is not the real value of the shirt alone.

These sets are of fine quality Swasette, in cream, sky, pearl and heliotrope. The shirts have fancy silk self-colored fronts, soft cuffs for links. The collars have smart double-stitched edges, and are just the comfortable depth. Tuesday's price per set is \$1.39, for a shirt usually \$1.50, a collar 25c, and a tie 25c. This is three of a kind worth holding.

Men's Two-piece Summer Outing Suits, all-wool homespun, in grey ground, with pencil stripe, 3-button single breasted sack style, half lined. Pants built for a belt. A splendidly tailored and perfect fitting suit. Sizes 34 to 44. 9.00
