MAY BE TWO NEW STATIONS FOR NORTH END OF CITY

Canadian Pacific and Canadian Northern Are Likely to Establish Terminals Near Yonge St., While the Grand Trunk Is Disposed to Remain Near the Water Front.

There was discussion in the city yesterday about the Union Station situation and the policy of the Canadian Pacific. Two things came out: Mr. Leonard, who is next to Mr. McNicoll and who is specially charged with the details of the Canadian Pacific's policy in Ontario, was reported by The Globe to have said that the company would appeal the decision of the board of railway commissioners in reference to the Union Station; if it happened to be against the views of his board, especially if a subway were built at York-st. to go under the elevated tracks. The Canadian Pacific, it was also said by another official, had thirty acres south of the tracks, and if they had to raise it twenty feet it would cost them an immense sum of money.

Next, The Star had a despatch from Montreal giving the views of Mr. McNicoll and Mr. McNicoll, while he said they had the intention of leaving the Union Station at the front, said they had acquired property to the north and they were going to build a new station east of Yonge and south of their present tracks. Everyone knew that they had bought a large piece of property at the point indicated by Mr. McNicoll, but it has only been surmised so far what it was intended for, and Mr. McNicoll says it is for a new station; but he does not yet say they are going to leave the front.

There is still another significant point of policy in connection with the Canadian Pacific and that is the building of the cut-off line from a mile west of Hamilton south to New Toronto and junctioning there with the Grand Trunk line to Hamilton. In other words, with a new station in North Toronto the Canadian Pacific could shift its passenger trains to the north and probably with great advantage, and do it in a moment, inasmuch as they now have all the track connections and station ground sufficient for their Toronto requirements already secured.

Grand Trunk Will Stay.
 The Grand Trunk, however, does not seem disposed to go to the north, although there are many advantages calling to them; but they would never have spent the money they are now spending between the Humber and the Desjardins if they had not a policy looking to a big new station on the front of Toronto. And rumor has it that not only will they have their big new station at the front of Toronto—whether the C. P. go in or not—but that they will either cut down the Scarborough grade by a tunnel or go back to the old program of a breakwater under the Scarborough cliff, with a lake-level track behind it, with provision for a well driveway alongside for the citizens of Toronto on a more elaborate scale than the seawall at Humber Bay.

Wait a Little.
 Whether the C.P.R. can pull out of its agreement with the Grand Trunk to have its passenger business at the front, and whether the railway commission would allow them to take all their business up to the north are other questions; but the indications today are that the Canadian Pacific is willing to part company with the Grand Trunk in regard to the Union Station. But the public must wait a little while longer for further details.

Another Uplown Station.
 Still another straw in the wind is the likelihood of the Canadian Northern to prefer up town for station purposes. Indeed they have paralleled the C.P.R. from the Humber clear across to St. Andrew's College and most likely to beyond the main Don. There are even suggestions that the two companies have common tracks from Agincourt thry Leaside and North Toronto to cross the Humber and then over the right of way on the Electrical Development Co. to the C.P.R.'s new entry to Hamilton this side of the Desjardins Canal entrance at Burlington miles, to be built in every way equal to the Grand Trunk's Hamilton line and with a magnificent new station and uptown hotel on upper Yonge-street.

The great advantage of the uptown station is the elevating saving of 140 in the grades.

LURING HIM ON

TORONTO GAINS IN BUILDINGS

Figures for Canada Show That This City Had an Increase of 68 Per Cent. for Permits.

Building permits received from 37 cities for the month of January show a substantial increase over the corresponding month of 1911. The cities in the east increased their permits by 63 per cent., while the western cities only show an increase of 15.6 per cent. The total increase for the month was 30.06. The small increase in the permits of the west is explained by the severe weather and the natural dulness of business, especially in the building line, during the first month of the year. February will undoubtedly show a much more substantial increase, and when the figures are gathered in they will probably indicate that the western cities have issued permits equal in increase to the cities in the east.

Port William showed the greatest increase, the permits amounting to \$45,550, an increase of \$45,500, or an increase of 460.1 per cent. over 1911. Bradford comes second in percentage increase. Last year permits issued during February in that city amounted to \$10,600, and this year they amounted to \$38,725, or an increase in percentage of 264.4.

Toronto stood highest in actual figures, permits being issued for \$774,185, an increase of 68.8 per cent. over January of last year.

PAPAL DECREES POINT WARNING

Ne Temere et Motu Proprio Alarm Nonconformist at Anti-Home Rule Meeting.

LONDON, Feb. 12.—(C.A.P.)—A conference of Unionists and nonconformists was held today when the principal speakers were Sir Edward Carson and T. H. Campbell, M.P. Resolutions were carried protesting against home rule and the decrees of ne temere et motu proprio.

Mr. Campbell characterized the ne temere as an insolent attempt on the part of a foreign power to overrule the law of the land. It was an amazing act of aggression and insolence with an incomprehensible motive, he said. The Vatican had issued a second decree known as the motu proprio, concerning which the Roman Catholic archbishop, Roman Catholic attorney-general and Roman Catholic solicitor-general had put the law in motion where any priest was involved without incurring excommunication at the hands of the Pope. It was a far-reaching blow to civil freedom, especially in Ireland, the majority of whose population were devoted to their clergy. Was it any wonder when these things were being done on the eve of the expected triumph of home rule that the Protestants of Ireland were getting thoroughly alarmed as to the future?

Not an Irish Roman Catholic M. P. had given any assurance as to these decrees. It was said the Pope could dispense with the application of the decree in England for Ireland, but therein lay a danger. He might dispense with it, but when Ireland got home rule he could reapply it. It was not going to allow their clergy and religious liberties to depend on the caprice of any man. (Cheers.)

Beware of Promises.
 Sir Edward Carson declared that administration by an executive accountable only to the Irish Parliament could not be guaranteed. "If you were to deal with the bill with promises of guaranteed, we don't want guarantees, we want to keep them. We had the same statements when they said they would keep them in Ireland. They then said there would be a fair play, but the councils were hardly set up when they said, 'We will turn the county councils in to carry out our work.' Our best guarantee is reliance upon ourselves."

FOUND DEAD IN BED.
 James Prescott, who lived at 95 Munro-street, went to bed at 8 o'clock last night, and when his wife went into his bedroom at 10.45 she found that her husband was dead. Constable Harber, who was passing the house, was notified, and the body was removed to the morgue. Prescott had been drinking heavily of late.

GETTING BIG EYES.
 Said a banker yesterday: "I never saw the people of Toronto so well disposed to a big and progressive policy for Toronto and Ontario. What's wanted is leadership and action—especially action. Because something does it better than nothing does. He was especially in favor of an extended Teruley street, and a wide one, if possible. But he wanted action."

Teruley street extended to the Danforth road for Toronto and would provide for a tube, for a great diagonal road northeast via the Danforth and the Vaughan roads. And the Teruley street tube would be in most of the radicals.

Now have the mayor and council the wit and energy to take this thing up and finish it, even to getting legislative authority for the financing of it this session? Let's do this one thing to a finish right away. Who's the hand of trade, and all the others who want to help?

FIVE MILLION DOLLARS APPROPRIATED FOR COLONIZATION AND DEVELOPMENT OF THE WHOLE OF NORTHERN ONTARIO

A School Commission.

Owing to phenomenal expansion of the high and public school system of Toronto, the trustees, and especially the chairman of committees, are finding it difficult to afford the time necessary for duties involved. Alluding to this condition of affairs, Chairman Brown of the finance committee, said yesterday: "The way things are shaping it looks as if the educational affairs of the city will soon have to be run by a commission."

G. C. JAMES GOES TO OTTAWA POST

Deputy-Minister of Agriculture Has Been Appointed to Administer the Act for Encouragement of Agriculture.

OTTAWA, Feb. 12.—(Special.)—Hon. Martin Burrell today introduced his bill for the aid and encouragement of agriculture.

The government, he announced, had been fortunate in securing the services of G. C. James, for many years deputy minister of agriculture for Ontario, as a special commissioner to administer the act. While he did not want to commit the government to the principle of cash contributions as a permanent policy, the bill provided for the present for direct grants of money to the provinces in proportion to their population. There was no desire to favor this, that or the other province.

Friday G. Macdonald, M.L.A. for East Elgin, is a likely successor to G. C. James as M.P. for Ontario. The names of J. Locke Wilson, superintendent of fairs for the province, Prof. Zavits and G. C. Creelman of the Ontario Agricultural College, have also been mentioned as in line for Mr. James' position.

G. C. James is recognized as one of the most capable men at the parliament buildings. On agricultural questions he speaks with authority, and his long connection with the provincial department of agriculture has given him a varied experience. For five and a half years Mr. James was on the staff of the Agricultural College at Guelph, and he directly entered the service of the government in June, 1907. His valued services were recognized by King George, who conferred on Mr. James the Order of St. Michael and St. George.

It will likely be a month or so before he is able to assume his new position.

Official Announcement.
 "There will be an official announcement. I know that I am to make a report on agricultural co-operation between the Dominion and the various provinces, but more than that I am not at liberty to say," said Mr. James to The World last night.

Several months would be needed to complete the report, he further said, but as to it being a permanent appointment under the federal government he would not say. It could be inferred from his remarks, that the position and the work are not temporary.

"Ontario has lots of work to do, and we need help. I presume they're going to give us a substantial increase in funds, but just how it will be spent I will take some time to study out."

Rose Stahl's Two Characters.
 Rose Stahl came to us first as "The Chorus Lady" and she demonstrated how a girl with good common sense and a desire to do right could win out amid the glare of the footlights. Now Miss Stahl comes back as "Maggie Pepper," the department store girl, portraying a character delightful to look upon.

Sable and Fox Furs.
 The soft, snug fur of the sable appeals to one in this frigid weather. The fox also is of the same class. When we say sable we mean Russian or Hudson Bay sable, but, of course, there is the Alaska fur, which is very much cheaper and not so fine in texture. The Dinesen Company, 11, the big stock-taking sale is showing some very fine lines at greatly reduced prices.

Sir James Whitney Announces That the Government Intends to Spend the Money Irrespective of Promised Dominion Aid, and Will Select a Man of Tried Capacity and Experience to Report Upon and Take Charge of Settlement, Road Building and All Matters Pertaining to Colonization.

FIVE MILLION DOLLARS as an appropriation for the colonization and development of the whole northern part of the province known as New Ontario, was an announcement made by Sir James Whitney in the legislature yesterday afternoon, which made the whole government benches ring with applause.

Even N. W. Rowell, leader of the opposition, could not conceal his surprise and admiration, and he rose to his feet. "I must compliment my hon. friend, Sir James Whitney, on this announcement," said he. "The question is, Is this amount enough? I see that our campaign for the development of New Ontario is beginning to take effect."

Sir James rose from his seat again with a smile on his face. "My hon. friend opposite is peculiar," he said. "Luckily anyone who is able to read even the newspapers saw what I had announced in my campaign addresses regarding the government's determination to assist in the development of New Ontario in every way possible. If my hon. friend can give credit for this to any person, thing or organization, I have nothing more to say." (Loud applause.)

Up bobbed Allan Studholme. "This little stove moulder has been urging this very thing since 1907," he said, "and all the boards of trade of the province have been urging it, too. I am glad to hear this announcement from Sir James Whitney, and if he wants to take all the credit for it, he is welcome to it."

This was at the end of the afternoon session, and a minute later the house was adjourned. Scores of Conservative members flocked around the prime minister to congratulate him on his announcement, and numbers of them hastened out of the chamber to telegraph the important news to their constituencies.

The announcement came as a great surprise. Just after commenting on Mr. Rowell's questions, Sir James remarked that before adjournment he wished to make an announcement. Members who already had begun to leave their seats settled back again with a look of surprise on their faces.

"Before and during the general election campaign," said Sir James, "the government drew attention to the great and obvious importance of the further opening up and development of New, or Northern, Ontario, and alluded to the promised financial aid from the Dominion Government for immigration and colonization purposes. The subject, outside of the proposed Dominion aid, has been carefully considered by the government, with the result that it has been decided to select a man of tried capacity and experience, who will report as to the settlement and colonization matters, and take under his charge all matters relating to settlement and the construction of necessary roads, etc. His duty will lie outside the construction of the ordinary colonization roads. It will be remembered also, that in my address I asked the people to say whether they would authorize further provincial appropriations for such purposes, and the answer has been unmistakable."

"The government intends, therefore, to ask the house during the present session for authority to borrow a sum of money, not exceeding five million dollars, for the purpose of colonization and development in New, or rather Northern, Ontario, including not only the Timiskaming country, but the country in the vicinity of Sault Ste. Marie, Port Arthur and Fort William, the Rainy River district and other localities in the northern portion of the province."

To The World afterwards, Sir James stated the new appointee would be a man thoroughly acquainted with all the needs of Northern Ontario. Farm improvements, roads and general development of the country would be included in his duties.

Sir James stated further that the new appointee would be attached to one of the present departments of the government. He would have the powers of a deputy minister and would in all probability be appointed as such.

"The plans of course are not definite yet as to what the procedure will be," said Sir James. "The director will himself outline a general plan for the development of the country in every way possible. It will require time to allow him to map out his course."

MONTREAL OPERA COMPANY SCORES COMPLETE SUCCESS

Capacity Audience Turned Out to Hear La Tosca, the First Presentation of a Two Weeks' Engagement, and the Company Gave Entire Satisfaction.

More than ordinary rivalry appears to exist between the cities of Montreal and Toronto. Were it confined to comparative results in civic government, the outcome might be advantageous to both, but when jealousy is carried into the departments of social life the result is more apt to be deleterious than beneficial.

Only the other day a Montreal critic drew an invidious comparison between his own city and Toronto because, as he supposed, his own city preferred opera and Toronto choral singing. But there is no reason why any city should not enjoy and appreciate both or why the taste of both cities should not be cultivated to appreciate both. Montreal may not be prepared to welcome the choral songsters of Toronto, but Toronto is quite prepared, and has always been willing, to accept and recognize the enterprise of Montreal in establishing and sustaining a grand opera company that can vie with any other on the continent.

HAMILTON HAPPENINGS

KENNOUGH IS AGAIN PROCEDED UNDER ARREST

Charge is Conspiracy in Express Robbery Case—Works Committee Meets.

HAMILTON, Feb. 12.—(Special.)—Geo. H. Kenough, former night clerk in the Hamilton office of the Canadian Express Company, was this morning arrested for the second time in connection with the \$5000 robbery of the company here last September. The charge against Kenough this time is conspiracy.

His former arrest was on suspicion of being implicated in the robbery. He was never charged, however, but was sent to jail for two months last fall for stealing \$15 from the express company. Kenough was arrested today while at his work at the plant of the Tertram Manufacturing Co. in Dundas, where he has been employed since his release from the Detonick Cameron and Sayer of the Hamilton police force, and Constable Pearle of Dundas took Kenough into custody. The accused man motioned for the officers, and accepted his arrest philosophically and almost cheerfully, even the warrant for Kenough's arrest was sworn out by Deputy Chief Police Whitley, who had been working on the famous robbery ever since it was committed.

Has Infant Child.
 A pathetic touch to Kenough's predicament is given by the fact that his wife just a week ago gave birth to a child.

W. H. Wardrop, K.C., has been engaged as counsel for the prisoner, who will appear before Magistrate Jelfs tomorrow morning.

Kenough's arrest today is the fifth that has been made in connection with the robbery of the Canadian Express Co. here on Sept. 29, 1911, when two parcels, containing a little more than \$5000 were taken from the express company's office. No one has yet been convicted of the theft of the money, but J. D. Chilton was convicted at the January session of robbing a stolen money, and was sentenced by Justice Teetzel to one year in Central Prison.

The verdict was appealed by Chilton's lawyers, and the appeal is now pending. Other arrests in the case are now expected, although the police are extremely reticent, and will say nothing about the case.

A Brutal Driver.
 For brutally beating and knocking out the eye of a horse which he was driving, Luke Chitts was sentenced for a month without the option of a fine by Magistrate Jelfs in police court this morning. The offence was committed in this city last May, when he was summoned to appear on the charge, Clark deposed, and was not seen by the local officers again until last week, when he was caught and brought back by Detective Goodman.

Civic Laborers' Wages.
 The movement to increase the wages of laborers employed by the city from 20 cent to 25 cents a day, which has been progressing before the city council tonight, Ald. Littlewood, seconded by Ald. Bird, introduced the motion, which previous notice had been given, but after reading a carefully-prepared speech in support of it, Ald. Littlewood was informed by the mayor that he was out of order, and that the matter being one of finance, would have to be first considered by the board of control. The motion was accordingly referred to the latter body. A number of city employees, who attended the council meeting, expressed their disapproval of the short disposition made of their grievance.

Mayor and Alderman Clash.
 Mayor Lees again made a plea for a better system in buying municipal supplies, when the matter of pay-lists and accounts of the committees came up for consideration. Several items, chiefly in the works committee accounts, said the mayor, were beyond the knowledge of any member of the board of control, and he thought that the controller assigned to each committee should have personal knowledge of all accounts. Several items, Wallace, chairman of the works committee, resented the mayor's remarks, saying that his worship should not have said anything unless he was prepared to make charges. The matter was allowed to drop after several of the councilmen had expressed their agreement with Mayor Lees.

For Municipal Abattoirs.
 Ald. Daver, chairman of the legislation committee, whose recommendation that the city co-operate with Guelph in securing legislation for municipal abattoirs, was disapproved of by the board of control, though the failure of the city to act in the matter was a retrograde movement. It was a sad commentary, said the alderman, that the country should take such pains to see that meat, sent out of the country, was inspected before and after it was killed, while no such action was thought to be necessary for the protection of the home-consumer. Municipal abattoirs would interfere with local butchers to some extent, but the doctor thought that the health of the community was of more importance than the butcher's. The matter was referred back on the understanding that it would be taken up by the board of health.

Inspection of Water Rates.
 A special committee to investigate water rates of the city, and to propose a more equitable system, was proposed by Ald. Milne Wednesday morning. The committee was adopted by the council. Under the present system, said Ald. Milne, householders were paying from three to four times as much for water as they should. He thought a meter system would be fairer than the present method of assessing water rates, according to the valuation of property. No change of the system is sought until the first of next year.

By resolution the works committee

was increased from nine to ten members, Ald. Hornung being added.

TO MAKE RADIAL SIT UP.
BRANTFORD, Feb. 12.—(Special.)—For one month operations on the Grand Valley radial between Galt and Paris have been suspended, and the Paris town council have given notice to the company of an application to the Dominion Railway Board to force the running of cars regularly between the two towns.

BERLIN STREET FLOODED.
BERLIN, Feb. 12.—(Special.)—A water main burst to-night on Main-street and two blocks in the business section were without water for five or six domestic purposes. Stump's pool and tobacco store is inundated with water and the loss so far reaches \$5000. It will take at least 48 hours to repair the break.

NO NEW SCHOOL FOR JARVIS JUST NOW

Site Will Be Purchased This Year, But Building Will Not Go Up Till Next—Trustee Levee Opposes List of Doctors Recommended as Medical Inspectors.

Trustee Levee, in his opposition to the list of medical inspectors recommended by the board of education at a prolonged meeting yesterday on the estimates took the view that the industrial education committee might have full power of its estimates. Approval was general of the estimate of \$800,000 for the new central school building, but various members of the committee balked at \$20,000 each for sites for a branch school in the east and the west divisions of the city.

Trustee Levee considered that technical education in the east and west could be imparted through night classes in the existing collegiate institutes.

The estimate was held over for fuller particulars by Principal McKay personally.

"I consider the advisory industrial committee has gone crazy," was Trustee Levee's encomium for the technical school commission.

Chairman Brown of the finance committee of the board of education at a prolonged meeting yesterday on the estimates took the view that the industrial education committee might have full power of its estimates.

Give Women Votes.
 The speaker claimed that there are social problems that will never be solved until women have votes. "We would be better able to care such bylaws as setting aside money for the housing problem," he said in most earnest tones. "If women had votes every man in the civic council would be failing over himself to get a motion before the council asking that the sewage be treated before being turned into the lake. There's not a man in council to-day who would not do his utmost to purify the water if he had a vote."

Get Him First.
 Speaking of getting the Ontario government to grant franchise to women, Controller Hocken said that the opinion of Sir James Whitney's favor would first be sought. The battle would then be practically over. Personally he would do all in his power to bring this about.

Would Be Advisable.
 "This last is a very easy one to answer. Conditions are not all that favorable would be advisable. Women franchise would be a good thing, but it is not a question of right or wrong, it is a question of expediency. It is a question of expediency, and that is answered by another question, namely, are conditions to-day all that they should be?"

Caused Surprise.
 The second edict approving of all the conditions agreed upon between Yuan Shi Kai and the emperor, presented by the emperor, was a surprise. It had been expected that the Manchus with reactionary conditions which would safeguard their privileges, but according to the proclamation, their surrender is unconditional.

WOMAN SUFFRAGE WOULD CURE SMALL EVILS

Controllers Hocken and McCarthy Are Firm Believers in Equal Voting Powers for Both Sexes, and Promised an Audience of Women to Give Every Assistance.

Controllers McCarthy and Hocken have the greatest confidence in the mental powers of their wives. At a woman's suffrage meeting in the Margaret Eaton School of Expression yesterday afternoon McCarthy said his wife was not only his inspiration regarding municipal affairs, but often got the better of him in arguments on civic affairs. Mr. McCarthy went further and said that his wife should be in the council instead of himself. Needless to say their speeches were well received by the women who had not the slightest hesitation in believing what the speakers said about their better halves.

Controller Hocken, after giving a short history of manhood suffrage, went on to say that women should be on the same ground as the men, and that there was no reason in the wide world why they are not. The only way in which to gain this right is by persistence and hard work with willingness to be satisfied with slow progress—one step at a time—even if it is a very small step.

Imperial Edict Announces Complete Surrender After Holding Power for Nearly 300 Years.

PEKIN, Feb. 12.—(Can. Press.)—The abdication of the throne of China by the Manchu dynasty, after nearly 300 years of power, was proclaimed in an imperial edict at noon to-day.

Another edict declared that the throne accepted the republic, while a third, approved by the conditions agreed upon by Premier Yuan Shi Kai and the republicans.

The provisions and stipulations of the edict are said to be identical with those previously reported. The Mongolian princes, who have been leaders in the anti-abdication agitation at the court, have Sun Yat Sen, insisting that unless Yuan Shi Kai gets the presidency they will consider themselves entitled to take further measures against the establishment of the republic.

The momentous step by which the Manchu dynasty gave up its power and agreed to change from an absolute to a representative form of government, was notified in three simultaneous proclamations.

Altho the final act of abdication had been awaited for some time, the posting of the edict with the declaration that it was an accomplished fact caused profound excitement.

Majority Want Republic.
 The edict says: "The people are in favor of a republic. From the preference of the people's hearts the will of the emperor is to give up the throne and we oppose the desires of millions for the glory of the family."

Therefore we, the Dowager Empress and the emperor, hereby abdicate the sovereignty of the Chinese Empire in the name of the people.

Yuan Shi Kai organized to the full the powers of the provisional republican government, and center with the republicans as to the methods of maintaining peace in the empire and forming a republic in the name of Manchu, Chinese, Mongols, Mohammedans and the Tibetans.

It is stated that the republicans have made eight pledges as follows: First, the emperor shall retain his title and be respected as a former monarch; second, the emperor shall receive an annual grant of 4,000,000 taels until the currency is reformed; third, the emperor shall receive 4,000,000 taels; fourth, the emperor shall be provided in the Provisional Constitution; fifth, the emperor shall be provided in the Provisional Constitution; sixth, the emperor shall be provided in the Provisional Constitution; seventh, the emperor shall be provided in the Provisional Constitution; eighth, the emperor shall be provided in the Provisional Constitution; ninth, the emperor shall be provided in the Provisional Constitution; tenth, the emperor shall be provided in the Provisional Constitution.

Would Be Advisable.
 "This last is a very easy one to answer. Conditions are not all that favorable would be advisable. Women franchise would be a good thing, but it is not a question of right or wrong, it is a question of expediency. It is a question of expediency, and that is answered by another question, namely, are conditions to-day all that they should be?"

Caused Surprise.
 The second edict approving of all the conditions agreed upon between Yuan Shi Kai and the emperor, presented by the emperor, was a surprise. It had been expected that the Manchus with reactionary conditions which would safeguard their privileges, but according to the proclamation, their surrender is unconditional.

THE SOCIAL EVIL
 Miss Ratts Will Give an Address on the Subject To-Morrow.

Under the auspices of the Toronto Visitation Committee, Miss Ratts of the Presbyterian department of Social Evil, will address a meeting in Browne's Hall, corner of Ossington-avenue and College-street, to-morrow evening. Others will speak on kindred topics. Meeting with the hope of doing something towards the abolition of white slave traffic will be held in the same hall every second Wednesday during the winter.

CURTAIN RINGS ON THE HINDU RASTY

Imperial Edict Announces Complete Surrender After Holding Power for Nearly 300 Years.

PEKIN, Feb. 12.—(Can. Press.)—The abdication of the throne of China by the Manchu dynasty, after nearly 300 years of power, was proclaimed in an imperial edict at noon to-day.

Another edict declared that the throne accepted the republic, while a third, approved by the conditions agreed upon by Premier Yuan Shi Kai and the republicans.

The provisions and stipulations of the edict are said to be identical with those previously reported. The Mongolian princes, who have been leaders in the anti-abdication agitation at the court, have Sun Yat Sen, insisting that unless Yuan Shi Kai gets the presidency they will consider themselves entitled to take further measures against the establishment of the republic.

The momentous step by which the Manchu dynasty gave up its power and agreed to change from an absolute to a representative form of government, was notified in three simultaneous proclamations.

Altho the final act of abdication had been awaited for some time, the posting of the edict with the declaration that it was an accomplished fact caused profound excitement.

SOCIETY
 The Daily Hint From Paris

The Bishop of Ontario, and Mrs. Lennox Mills are spending two weeks in Montreal.

Prof. and Mrs. Campbell gave a snowshoe party in Kingston last week for Miss Grace Hemming.

Col. and Mrs. Lyons Biggar are in town from Ottawa.

Mrs. and Miss Strathy, Walmer-road, held a large reception yesterday afternoon in honor of the former's birthday, many beautiful flowers being received from her old friends. The party was decorated with crimson tulips and lilies to match, and was in charge of Miss Elvira Stirling, Miss Muriel Strathy and the Misses Davies.

Mr. Jack Cavthra is giving a small dinner on Thursday at the Hunt Club.

Miss Madeline Crawford, Miss Madeleine O'Brien and Miss Tate have returned from Hamilton, where they attended the Wentworth Historical Ball.

Miss Merritt and Miss Catherine Merritt, St. George-street, are giving teas on Feb. 15, 16 and 17.

Col. and Mrs. Gwynne are spending two months in Quebec.

Mrs. W. B. T. Amy will be the ten hostess at the W.A.A. gallery this afternoon, and Mrs. Carrill has arranged for the program for the Twilight Musicale and will be the hostess on Wednesday.

Mr. and Mrs. William Galbraith are giving a tea on Wednesday afternoon at the Sandringham.

A delightful dance of last night, held at the Metropolitan assembly room, was that given by "a few of the girls," including some debutantes of this year and last year. The decorations were of daffodils and a very enjoyable evening was spent by the 150 guests. Miss Ione Heintzman, secretary of the dance, received, assisted by her mother, Mrs. G. C. Heintzman and Mrs. F. J. Dunbar, while the following committee looked after the arrangements of the ball room: Miss Ruth Loudon, Miss Gladys Alley, Miss Irene Leighton, Miss Rita Dunbar, Miss Constance Townsend, and Miss Helen Stevenson. Mrs. Heintzman wore a black and white gown mounted on blue satin. Mrs. Dunbar was in white and gold, with diamonds and Miss Ione Heintzman was in pale blue with overtones of white and pink roses and her bouquet was of roses and violets.

Among those present were: Misses McKee, Misses Ellis, Miss Jessie Hope, Miss Coe, Misses Mills, Miss Ivy Knox, Miss Gladys Alley, Miss Kathleen (New York), Miss Telfer (Collingwood), Miss Louise Bent (Memphis, Tenn.), Miss Mary Walton, Miss Jean Bellingham, Miss Cecil McLaughlin, Miss Kathleen Cosgrave, Miss Margarette Bigwood, Miss Kelly, Miss Irene Finn, Misses Brown, Miss Muriel Blockell, Miss N. G. Howie, Miss Howie, Miss McGregory, Misses Anley, Miss Marjorie Hutchins, Misses Mayne, Miss Ruth Jackman, Miss Hope, Misses Murray, Miss G. McMurphy, Miss Mary Tren, Misses Murray, Miss Marie Ayre, Messrs. Trece, Mr. J. Norton, Mr. W. Cox, Mr. J. Hope, Messrs. Murray, Mr. McVittie, Mr. Murray, Mr. Percy Millman, Dr. Sidney Wollast, Mr. George Alexander, Mr. Stridger, Messrs. Allen, Mr. Hewitt, Mr. Gordon Chaver, Mr. W. Clark, Mr. Carby, Mr. H. Wortz, Mr. Harry Latimer, Mr. Gordon Coe, Mr. Rob. Ross, Messrs. Howe, Mr. Byrne, Mr. A. Gilmore.

Mrs. Alexander Gillespie is staying with Miss Mary Glasgow, Macnab-street, south, Hamilton.

Miss Amy Rubeyford has returned from a visit to Mrs. R. E. Kent in Kingston.

Mrs. Frank Hodgins gave a luncheon last week in honor of Mrs. Le La Cour, St. Mildred's College, Walmer-road, has issued invitations to a pupils' social on Saturday, Feb. 17, at 1:30 o'clock.

Two meetings of the Women's Canadian Club, on the subject of Hindu migration, will be held in the Y. W. C. A. lecture hall, 21 McGill-street, on Friday at 4:30 p.m., and Saturday at 3:30 p.m., when the speakers will be: Friday, Dr. Wilkie of Indore, India; Saturday, H. H. Stevens, M.P. for Vancouver, B.C. Mr. Alexander Ramsay, treasurer, Alexandra Apartments; Mrs. J. B. Tyrrell, secretary, 14 Walmer-road.

Mr. and Mrs. J. H. Plummer and the Misses Plummer have called for England.

Mrs. Newton W. Rowell is giving a tea to-day and another on Wednesday.

Mrs. Fletcher Snider is giving a bridge to-day.

Owing to business engagements in Trent, the date of the wedding of Miss Kemp, daughter of the Hon. A. E. and Mrs. Kemp, Castle Frank, to Mr. F. Chantant Stephens of Montreal, has been changed. The marriage, which was to have taken place at the beginning of March, will be celebrated quietly at the

Taffeta Dress for Afternoon.
 A beautiful shaded taffeta of green and gold was used for this dress and fringed and corded trills of the same were used as a trimming.

The surplice effect ends in the back to a long lish, which extends halfway to the floor and is belted in at the waistline. The flower ornaments are made of the silk combined with black satin. A yoke of lace is used.

home of the bride's parents on Thursday, Feb. 15, at 3:30 o'clock.

Mrs. R. S. Flint is in Kingston visiting Miss Dix.

Miss Chapman is staying with Mrs. P. R. E. Waddie in Hamilton.

Mrs. Nevill, Blair-street, is giving a small dance to-night.

Mrs. Henri Suddam and Mrs. James Suddam are giving an at home this afternoon at 50 Chestnut Park.

Mrs. A. W. Croft, Maple-avenue, gives a bridge this evening.

Mrs. Oliver Maclellan is giving a bridge to-day.

Mrs. W. A. Kemp and Miss Aileen Kemp have gone to Bermuda for the remainder of the winter.

The many friends of Miss Gertrude Robb will regret to learn that she is ill with diphtheria.

Mr. and Mrs. W. E. Bishop, Atlantic City, are at the Chalfonts, Atlantic City.

Mr. and Mrs. Wm. Harty, Kingston, are in Montreal for a few days.

The inaugural ball being given by the members of the Columbian Club will be held at McConkey's on St. Valentine's eve, Tuesday, Feb. 13. The patronesses are: Lady Thompson, Lady Falconbridge, Mrs. R. A. Falconer, Mrs. Richard P. Gough, Mrs. F. E. Letchford and Mrs. Walter McKeown. The list of guests is now complete, so that positively only those who have already forwarded subscriptions will be received. Tickets must be presented.

Mrs. David A. Balfour, 40 Hazelton-avenue, on Friday and again this season.

Mrs. Ross and Miss Rena Ross are in Penzance for the marriage of Mrs. Ross' brother, which takes place very quietly this morning.

Mr. and Mrs. M. G. Conway announce the engagement of their daughter, Mary Irene, to Mr. John J. O'Sullivan. The marriage is to take place this month.

A quiet wedding took place at the residence of Mr. and Mrs. G. A. Boothby, 128 Simpson-avenue, when her sister, Miss Emma Hault, Orillia, was married to Mr. Leonard Parkhurst, Orillia. The bride wore white, satin trimmed with pearl ornaments. The Rev. A. Philip Bruce, B.D., Bollenfer Methodist Church, an old friend of the

Advance Showing of Spring Hats for Men Depicting the New Ideas in Soft Hats for Spring 1912

Advance Styles in Soft Hats

The New Hats we show Wednesday are all in the soft styles, and for March winds and April Showers it is as it should be, for this hat is far superior to any other for durability and service. They are American shapes and shades—something new and different, as it were—in mixtures and finished felts. One hat that is decidedly dressy and natty is a smooth fur felt in the new "Elephant shade," with silk band and binding to match. It may be worn in the regular Fedora style, or in the telescope, with snap brim. It might also be interesting to know that the color is absolutely guaranteed as is the hat to give reasonable satisfaction. Price, 2.00

Of nineteen new designs in Men's Hats for spring as shown in one of the leading and latest American Men's Wear papers, twelve were soft hats, thereby proving in a forcible manner that the soft hat is to be reckoned with, in what men shall wear for Spring.

- A Dark Grey Brush Hat—fedora shape in pure fur felt, with black silk band and raw edge. Price, 2.00
 - Another Good Hat for Young Men is shown in the new navy mixture, and steel grey with bindings to match. The edges are finished with the new buttonhole stitching and they may be worn in Fedora or telescope style. Price, 2.00
 - Children's Baby Carriage Robes—in the imported sheep skin—long fur and made in pocket style, lined with felt. Wednesday, each, 1.85
 - Children's Plain Knitted Toques and Sashes in very fine knit and in plain colors. All colors, including white, cardinal and navy blue. Wednesday, each, .45
- Main Floor—Queen St.

Men's Extra Quality Flannelette Night Robes, 75c

This line we believe to be the best that can be had for this money. The flannelette for these garments is purchased in very large quantities from the English mills, and made up in our own workrooms, and which means lowest possible price to you, as proper size and finishing is an important feature in nightrobes, right here is where this nightrobe is sure to please, for it is made full and easy in the body; is full length; has yoke, collar attached; pocket and finished with pearl buttons; sizes 14 to 19. Special value, 75c

Men's Cardigan Jackets at 69c

By purchasing in huge quantities we are enabled to offer this English cardigan at a very low figure. It is in an elastic cardigan, ribbed weave, which fits the body snugly, has "V" shaped neck, close fitting buttoned cuffs and braid trimmed edges; sizes medium and large. Price, each, 69c

A New Pulley Suspender, made with the double cord and pulley, allowing freedom of movement and easing the strain on the buttons. Neat patterns in good elastic webbing, with cast-off cord ends, and adjustable buckles. Specially priced, per pair, 25c

Men's Underwear—medium weight Balbriggan, a nice smooth, even weave, in shades of natural, cream and pink and finished with sateen facings; sizes 34 to 46. Price, per garment, 35c

Men's Knitted Four-in-hand Neck Ties, made of silks and manufactured silks, in a large and unique assortment of leading club colors in cross-bar patterns; also plain shades and two-tone effects. Price, each, 25c

—Main Floor—Centre.

Ulster Overcoats, \$4.50

This is probably the last big offering of the kind, so come early Wednesday.

Just another big buying chance that was too good to resist, so we bought and offer them to you Wednesday at half their value. They are made of heavy Ulster tweeds; classy mixtures in diagonal weaves and stripe patterns in good colorings, mostly greys, browns and olives, and in the easy, comfortable double-breasted style, with the two-in-one style convertible collar—fits perfectly both ways, splendidly tailored and lined; sizes 34 to 46. Early morning rush price, 4.50

Boys' Trousers Included in the Great February Sale

One Thousand Pairs Boys' Knee Pants, 40c

These were specially purchased for the February Sale and contain besides extra good value a full range of sizes. They are made of strong and serviceable tweeds in good patterns, and are lined with white cotton. Sizes 22 to 34. Come early as it is not likely the supply will last long at this price. February Sale price, 40c

Limited Number Boys' Blue Serge Trousers, 25c

Soft-finished Navy Blue Serge Knee Pants for boys, well made and lined throughout. Sizes 22 to 28. February Sale price, 25c

Boys' Knee Pants, made of serviceable mixed tweeds, in grey and brown, and reinforced with double seats and knees. Strongly lined throughout. This is an excellent line, and will give good service. February Sale price, sizes 22 to 28, 60c; and sizes 29 to 34, 75c

Boys' Bloomer Trousers, 75c

This line is made of imported English tweeds in good assortment of neat patterns; are lined with silesia and have double seats and straps and buckles at knee; sizes 24 to 28. February Sale price, 75c

Boys' Suits Clearing, \$1.50

A number of Suits in single and double-breasted style, in serviceable tweeds, in dark patterns, and lined with Italian cloth. Some have bloomer trousers, others the knee pant, so come early for choice. Sizes 24 to 28. Reduced price, 1.50

Fur Collar Overcoats in Large Sizes to Clear \$8.95

These Coats are in 44 and 46 only, so we have reduced them for rapid clearance Wednesday morning. Limited quantity too, so be here early. They are made of black Melton cloth, in double-breasted style, with barrel button and loop fasteners; and lined with imitation lamb cloth, with small tight curl, or with fine Italian cloth, closely quilted; and interlined to waist with a soft and pliable rubber sheeting, which makes this coat absolutely windproof. The sleeves are fitted with a knitted wind shield, and the collar is a dark brown German Otter. Rush price, 8.95

Men's Suits, worth at least one-third more than the price marked; tailored in fashionable single-breasted sack style, in cassimere and worsted finished materials, in a variety of patterns, mostly stripes in dark and medium greys. Linings are of good quality. These suits have good style and finish. Sizes 36 to 44. Wednesday, clearing price, 6.25

February Sale of Trousers

Good Lines of Trousers featured for Wednesday, are each made of British worsteds, of nice texture and good weight, and show neat stripe patterns on medium and dark grounds. These fit in well with odd coat and vest; are stylishly cut and smartly tailored, and are well finished with durable pockets and trimmings. Sizes 32 to 42. February Sale price, \$2.15, \$2.95 and 3.85

Main Floor—Queen St.

ESTIMATES FOR PARKS ARE LIBERAL

Acting Commissioner Chambers Has Made Preparations to Do Much Beautifying in Toronto This Year — Sentences at Toronto Jail Too Short, Say Grand Jurors.

The estimates of Acting Parks Commissioner Chambers, which provided for expenditures amounting to \$303,325.88, were discussed yesterday afternoon by the parks committee, who struck out items amounting to \$12,460, providing for improvements in the exhibition grounds, High Park and Kew Gardens which were the only sections of the report covered. The committee

decided that it was not feasible to spend \$600 in widening and resurfacing the road in High Park from Bloor-street to the picnic grounds, and the proposal to establish aquatic gardens at the north end of Catfish Pond also met with no favor. A number of the minor improvements suggested in connection with the Exhibition Park were also left off the program for this year.

Mr. Chambers suggested the removal of the old greenhouses and the superintendent's house in Allan Gardens, as advocated that two new conservatories be erected there, and for these and for the work of tearing down the old structures the sum of \$4750 was asked. The committee decided to make an examination before making any recommendation regarding the matter.

More Money Necessary. The sum required for the maintenance and improvements of the parks was considerably in excess of that spent last year, but Mr. Chambers explained that the increased park area necessitated more money being spent. It was proposed to spend \$31,990 for shelter houses alone. The amount required for maintenance of High Park Exhibition Park and Queen's Park was lower than that spent last year, as most of these are in excellent condition at the present time.

Ald. Saunders moved that the city acquire the property in Withrow Hollow for park purposes, and the committee decided to have the commissioner report upon the idea. Sentences Too Short. At the meeting of the property committee yesterday afternoon a letter was read from Samuel McClure, foreman of the grand jury, stating that in the opinion of that body the sentences to the Toronto jail were too short to permit the necessary opportunities for reform. Fault was found with the jail in that some of the occupants were not given sufficient work and it was claimed that the women prisoners were treated too leniently. The grand jury thought the jail was quite up to the standard, but they believed that the best results would be obtained if the parole system were introduced. The letter also suggested a provincial prison for Northern Ontario. The letter was sent on to Governor Chambers.

On the advice of Property Commissioner Harris the committee decided to strike out the recommendations that a public weigh scale be established at Earlscourt, and that the James-street entrance to the city hall.

A letter was read to this committee from F. G. Morley, secretary of the Toronto Board of Trade, requesting the committee to recommend that the associated boards of trade of Ontario be permitted to use the council chamber in connection with their annual convention, on Feb. 22 and 23. The board approved of the request.

Good for Mary. The sum of \$187.40 was given to Mary Pringle Macdonald for a ten-foot strip along her property on St. Clair-avenue, which was expropriated in connection with the widening of that street from Yonge-street to Avenue-road. The property was only 27 feet in width, and as the amount awarded does not include costs, this property will be a costly one, taking the first award as the scale.

The proposed park on Keele-street, will cost the city the sum of \$17,446, according to the report of City Solicitor Johnston. It is necessary that two properties be expropriated.

Canada and the United States Asked to Contribute to Huge Sum to Relieve Suffering.

Canada and the United States are asked to unite in contributing \$1,000,000 to a five-million dollar fund, being raised by the Central China Famine Relief Committee of Shanghai to relieve the present terrible famine in China at present.

Million Wanted for China Fund. Secretary Morley of the board of trade received a letter from the society yesterday asking for the earnest co-operation of the citizens of Toronto along with 300 other Canadian and American cities in raising the necessary amount of money. It was pointed out in the letter that the fund would be used to repair the dykes and canals to prevent future floods, and in doing this work would be provided for 600,000 families.

Revolution in Haiti. CAPE HAITIEN, Hayti, Feb. 12.—Severe fighting between the revolutionaries and government troops is reported on the Dominican frontier. Gen. Zeno Toribio and Miguel were surprised during the night by government troops, and during the fighting that ensued Gen. Toribio was killed, while Gen. Miguel was wounded. At daybreak this morning, however, the revolutionaries attacked the government troops again and remained in possession of the field.

Boiling Water for Frost Bites. Dr. J. M. Johnston Claims It Is a Real Cure in Spite of Popular Fallacy to the Contrary.

Frost bites, frozen ears, noses and fingers may be cured without any ill effects by boiling water, according to Dr. J. M. Johnston, 25 Elm-street. The doctor stated to 'The World' last night that in spite of the popular fallacy to the contrary boiling water was the best remedy which could be used. He had, he said, used it himself and on his patients, and it always gave perfect results.

HEUER'S Solid Gold Rings. The New Hats we show Wednesday are all in the soft styles, and for March winds and April Showers it is as it should be, for this hat is far superior to any other for durability and service. They are American shapes and shades—something new and different, as it were—in mixtures and finished felts. Curling Winnipeg Wins Blue Ribbon

Note and Comment

The baseball outlays will gather this week just like the regular organizations. The National League will hold their annual meeting in New York today...

President Wilson of the United States League has called a meeting in Cleveland today. He says more than 50 major league players are ready to join the outlaws organization.

According to reports Manager Joe Kelley is well satisfied with his trades and purchases and believes his line-up is stronger than last season.

The outlaws curlers are creeping up slowly and surely to the top of the curling world. Nothing shows this fact better than the result of the Blue Ribbon competition played yesterday at the hotel.

Strong commendation has been expressed in London of the Yankee horses, from Mack II. and Rummey, who are declared to be the change horses of the season.

Prof. Williams, the Varsity instructor, is able to be out again after more than a month's confinement to his house.

This is Varsity week at McGill, as Toronto sends the basketball, hockey, water polo and swimming teams.

Charles A. Conkley, president of the White Sox, was asked in Chicago by a committee to attach his signature to a contract to seek the Democratic nomination for Governor of Illinois.

Rube Marquard has signed up with the New York Giants for three seasons, at an advance salary.

Manager Gannel of the Rochester International League team has asked for waivers on Dolly Gray, a left-hand pitcher obtained this winter by purchase from the Washington Senators.

Carl's Fight in New Mexico. ALBUQUERQUE, Feb. 10.—Promoters of the Johnson-Flynn prize fight will encounter official opposition to the proposed to stage the bout in New Mexico, according to a statement made yesterday by Governor William McDonald.

K. O. Brown Fought Australian. PHILADELPHIA, Feb. 11.—Knockout Brown and Billy Deley fought a round bout here to-night.

A Win For R. M. C. MONTREAL, Feb. 12.—The Royal Military College hockey team defeated McGill intermediates by a score of 7 to 5.

Hockey Gossip

Oshawa juniors will this evening at the Ravina rink endeavor to pull down some of the lead gathered by the Toronto Canoe Club boys the other night in Oshawa.

Berlin defeated Woodstock juniors last night by enough goals to win the round, and will now journey to play Toronto on Thursday night.

Paris defeated St. Mary's last night and won the three round series. The score was no indication of the game. The Paris goal tender is a wonder and the best seen here this season.

Midland's win over Peterboro intermediates was certainly decisive. They met Mount Forest in a sudden-death game on Friday night.

Practices at the Excelsior Rink this evening are as follows: 8 to 9—McLaren Cup.

Hydro-Electric play Consumers' Gas at Aura Lee Rink to-night in a Public Utility League fixture.

ORILLIA WINS THE ROUND

Northern Town Boys Again Defeat Varsity, This Time by a Closer Score—Other Scores.

Orillia are one notch nearer the junior championship. Last night they defeated Varsity Juniors 5 to 4 at the Excelsior Rink with the half time score 2-2.

Orillia were much the best and had the majority of the play throughout the game. They scored the first two goals, but Varsity had it even by half time.

Orillia scored the first two goals, but Varsity had it even by half time. The visitors repeated early in the second half and had it 4-2 and again Varsity tied it.

There will be a special train from Toronto to-night to the Markham hockey tournament. The games will be as follows: Richmond v. Chatham, East Toronto v. Davidsville.

Another Win for Midland. MIDLAND, Feb. 12.—In a game played here to-night between Midland and Peterboro, the home team won by a score of 10 to 2.

Paris defeated St. Mary's last night and won the three round series. The score was no indication of the game. The Paris goal tender is a wonder and the best seen here this season.

Incited Strikers To Bloody Deeds

Sensational Evidence Given in Trial Following Fatality in Riot.

LAWRENCE, Mass., Feb. 12.—(Can. Press.)—"Sleep in the daytime and at night prowling around like wild animals and look for blood. At night you can knock in the heads of the scabs. In a few days we will be able to count the broken heads and they won't be on our side."

These and other similar statements were ascribed to Arturo Giovannitti by Charles Benardo, an Italian detective, who was a witness at the continued trial to-day of Giovannitti and Strike Leader Joseph F. Ettor, who are charged with being accessories to the murder of the Lopsess women, killed during a riot, in the textile strike here.

Giovannitti, according to the witness, was addressing a crowd of strikers who had gathered on the common following a parade and demonstration on the morning of Jan. 9. He spoke in Italian and witness was required to give his testimony in English and Italian, that he might satisfy the court that he understood the foreign language.

A new leader has assumed the reins of power in the Liberal party in Ontario, and is now directing the destinies of a great political party. To keep fully informed of what is happening in the legislative pile in the Queen's Park you should read The Toronto Daily World. WANT LONGER HOURS.

Claiming that "drunks" are more plentiful on Saturday nights and on Sundays when liquor is not sold over the bar, a number of the hotelkeepers of Toronto are in favor of having the hour for week-night closing extended from 11 to midnight. As conditions are in Toronto at the present time, the hotelkeepers declare it is practically impossible for a man under the influence of liquor to get a drink in any of the city hotels.

IMPORTANT CREDIT SALE.

WEDNESDAY, Feb. 14.—Important credit sale of registered horses, cattle, farm implements, on Lot 28, Concession 4, Scarborough Township, 1 1/2 miles south of Ainscourt, on Wednesday, Feb. 14, belonging to Thomas Shaddock, Esq. This will be an especially important sale of horses and cattle. Among the horses are imported mares and her foals, winners of first prize at Scarborough Fair last fall; a pair of G. P. mares, 8 years old, bred to Royal Member, and one of the best point teams in York County; a fine team of bays, and 4 years old, and other colts and driving horses, will also be sold. Twenty head of cattle, Shorthorns and 40 hogs, a lot of good implements and the contents of a first-class farm, will all be offered. Terms: Cash. Eight months' credit on approved paper. Sale at 11 o'clock. John H. Prentice, auctioneer.

Credit auction sale of horses and cows. The undersigned has received instructions from Mr. James Hook to sell by public auction at Barber's Hotel, Cookeville, on Thursday, Feb. 15, 1912, at 1 o'clock sharp, 7 mares, 8 springers, 12 head of cattle, 8 springers, due in March; 2 good work horses, due to go on run at once; 10 springers, 8 months' credit on approved joint notes; 6 per cent. per annum off for cash. John Thomson, auctioneer.

MAY ARREST 54 AS DEFENDERS

As May Fall To-Day on Labor Men in Many Cities of United States.

INDIANAPOLIS, Feb. 12.—(Can. Press.)—On the eve of the arrest of the men indicted in the dynamite conspiracy case it was reported to-night that the number of defendants would be fifty-four. The arrests may take place to-morrow.

Many officers in one labor union and one officer in each of two other unions are believed to be involved.

Most of the defendants whose names have been kept secret, but who have been under federal espionage since the indictment were returned, are reported as now being within reach and, as the capsules for the arrests have been delivered to United States marshals in the respective districts, it is believed the apprehension of the men practically will take place within a few hours after the word has been sent by telegraph to the authorities to act.

A labor leader in Boston, several each in New York, Cleveland and Detroit, at least five in Chicago, one each in Peoria, St. Louis, Kansas City, Mo., New Orleans, Philadelphia, Milwaukee, Hartford, Conn., Buffalo, Cincinnati, and about five men in Indianapolis are believed to be among those indicted. Six indictments are said to pertain to men living in Salt Lake City or further west. These men, it is intimated, however, are already under indictment found on the Pacific coast.

BRIDGE COMPANY WAS EGRESSIVE

Did Not Provide Proper Flooring to Carry on Dangerous Work, According to Jury.

Proper and sufficient inspection by the city of buildings under construction, in order that the bylaw regarding the safeguarding of life may be enforced, was the recommendation of the jury enquiring last night into the death of James Cavanar. The man fell while at work on the Robert Simpson store addition on Yonge-street, on Dec. 26 last, and died in St. Michael's Hospital from his injuries on Feb. 8.

Negligence on the part of the Dominion Bridge Co. in not taking proper precautions to provide sufficient flooring to carry on the work as required by law, was found by the jury.

Cavanar had jumped from the plank-like deck across the floor beams on the first story to some scantlings. These two scantlings were unsupported at the end on to which he jumped, and he fell to the floor below. Fellow-workmen said that the scantlings just butted up to the beam they were supposed to rest on. A man would not have noticed this in a hasty glance such as Cavanar gave when he jumped to them.

The foreman of the work admitted that he had not inspected the planking which the men used.

DROPPED DEAD WHILE TRYING TO SAVE LIFE

Dr. Hecht, Well-Known New Jersey Physician, Expired in Hospital.

SOMERVILLE, N.J., Feb. 12.—(Canadian Press.)—Dr. John P. Hecht, one of the best known physicians in Central New Jersey, dropped dead in the operating room of the Somerville Hospital to-day after a long illness.

Dr. Hecht was a member of the volunteer staff of the Red Cross. He was hurriedly summoned when Andrew Grover, an engineer on the Central Railroad of New Jersey, was brought to the institution with his skull fractured. The engineer had been driving a freight train near here when he looked out of the cab window and his head struck against a bridge.

Dr. Hecht reached the operating room panting for breath, and was about to administer anaesthetics to the wounded man when he himself dropped dead of heart disease. He was 44 years of age and had appeared in the best of health. Grover was still alive to-night but his condition was critical.

PARKDALE SCHOOL OLD BOYS' ANNUAL BANQUET.

Judging by the talent the Parkdale School Old Boys' Association have procured for their annual banquet, to be held at Williams' Cafe on Wednesday evening, Feb. 14, the old boys are in for a good night's fun. The Doric Male Quartet, E. Julius Brasch, "Shilly" Moore, Mr. J. J. Kelly and his family, and Mr. Mr. A. Aspden, are some of the entertainers, which ensures a very enjoyable time. Tickets may be had at Williams' on the night of the banquet, which will be informal.

FIRE IN DETROIT MOTOR FACTORY.

DETROIT, Feb. 12.—Fire to-night in the four-story building at No. 251 Jefferson Avenue East, occupied by the Goodyear Tire and Rubber Company, caused a loss estimated at \$200,000. The joining buildings were slightly damaged by water and smoke.

The property destroyed consisted of automobile tires and accessories and included a shipment of eight carloads of tires which had just been received at the Goodyear house.

China's President American.

WASHINGTON, Feb. 12.—(Can. Press.)—Dr. Sun Yat Sen, first president of the Chinese Republic, is a naturalized American.

The department of commerce and labor so held in 1904, on the ground that Dr. Sun, who had been born in the Hawaiian Islands and had been endowed with American citizenship by the act of 1900, which provided a government for Hawaii, and declared that the citizens of the United States, be citizens of the United States.

LOSE OVER \$40,000 FOR MONEY

New Gaming Act Provides, However, That Bets Between Parties Cannot Be Recovered by Law.

A barrier upon gambling transactions not actually accompanied by a transfer of cash has been imposed by the new Gaming Act, which has just come from the statute revision committee. One clause provides that every contract or agreement by way of gaming or wagering shall be null and void, and that no suit may be brought for recovery of any sum of money or thing of value alleged to be won on any wager which has been deposited in the hands of a third person. Such a clause has, however, no reference to any subscription toward a prize for a lawful game. Another provision is that no promise expressed or implied to pay any money under agreement or any arrangement with regard to commission, in connection therewith, shall be valid.

Moreover, any person who loses \$40 or more at any one sitting at cards or dice table can under the amended Gaming Act, sue and recover the money lost.

THRU ROUTE FOR G.T.R.

MONTREAL TO ROCKIES

Much Jubilation Over Agreement for Running Rights Made With T. N. O.

MONTREAL, Feb. 12.—(Can. Press.)—The Grand Trunk will soon be able to run its trains from Bonaventure Station to the Rocky Mountains. This consummation, so long looked forward to, is brought appreciably nearer by an agreement which has just been entered into between the Northern Railway Co. and the Grand Trunk by which the latter will have running rights over the Transcontinental and Northern Ontario Railways' lines. This T. N. O. runs from Montreal to Cochrane, at which latter place it forms a junction with the Transcontinental. It just forms the very link that is required between the Grand Trunk lines running to North Bay and the Grand Trunk Pacific in Northern Ontario, and as soon as the line in Northern Ontario is completed, the Grand Trunk will have a thru route of its own from Montreal to the West.

The route from Montreal to Western Canada over the Grand Trunk Pacific will be via Cochrane Junction, Ottawa, and thence over the old Canada Atlantic to the west coast. This connection is made with the line between Toronto and North Bay. This route will be completed in the Grand Trunk will have a thru route of its own from Montreal to the West.

In consideration of the running rights over the T. N. O., the Grand Trunk agrees to contribute to the maintenance of the road, and to pay a rental of \$200,000 per annum, being one half the interest on the total cost of the construction of the line.

The disturbing idea of grafting advertising upon the telephone has been patented by a Swiss genius. The advertiser is allowed to have his advertisement placed upon the lines so that he can be heard by the person calling while awaiting the response of the person called.

5 Years' Rheumatism Really Cured!

Your Case Isn't Likely To Be Worse, and Can Be Cured Quickly by Nerviline.

HERE IS THE PROOF

"After being an enthusiastic user of Nerviline for years, I feel it my duty to tell you personally what your wonderful preparation has done for me. I suffered torture from rheumatism and heart trouble, tried scores of so-called remedies, consulted for weeks with the most eminent medical and physical physicians, but derived only slight benefit.

"I friend insisted on my using Nerviline and to my surprise, the rheumatism of this powerful liniment eased the pains and reduced the stiffness in my joints. I continued to use Nerviline and was permanently cured. I am now perfectly well, and for three years have had no rheumatism at all. I know many families where no other medicine but Nerviline is kept—it is so useful in minor ailments like earache, toothache, neuralgia, coughs, colds, lumbago and sciatica. I call Nerviline my 'Life Guard,' and urge all to try its merit."

Dec. 113 Palmerston-avenue, Toronto.

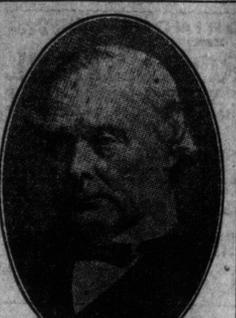

(Signed) FLORA CHAPMAN.

It is almost criminal to keep on suffering when Nerviline can be had in any drug store. 50c buys a large bottle, 25c for the trial size. Prepared by The Cataractine Co., Buffalo, N. Y., and Kingston, Ont.

Commission Rule in Montreal.

MONTREAL, Feb. 12.—(Can. Press.)—Ald. Mederic Martin, elected on an anti-board of control ticket, promises to introduce a motion at the city council meeting this afternoon to abolish the board.

Ald. Lapointe will ask that a referendum be taken on the question of abolishing both the board of control and the city council, and the institution of commission government.

BARON LISTER Famous Surgeon, Who Died in London on Saturday.

NIAGARA GORGE NOW JAMMED UP WITH ICE

MUCH HAVOC FEARED

NIAGARA FALLS, Ont., Feb. 12.—(Special.)—The much-dreaded ice jam has formed in the lower river. Fears are felt to-night that the havoc wrought by the ice jam of 1909 will be repeated. The jam, which formed early to-day, to-night reached from Niagara-on-the-Lake almost to Queenston, and the river level is slowly rising and threatening the power plants.

Early to-day the mouth of the river froze over after having cleared last night, and within an hour an ice jam began forming. At noon it extended four miles up the stream.

The jam of 1909 started in practically the same way at the present one, only that it was a few weeks later in the year. The sides of the gorge were scraped for more than 50 feet above the level of the river of every bit of vegetation. Landings at Lewiston and Yorkston were damaged, part of the tracks of the Gorge Railway were carried away and the damage amounted to millions, the power companies suffering severely.

Another way in which the jam which formed to-day resembles that of three years ago is that it began forming after the break of a few days of severe cold weather. The jam at that time continued after the worst part of the winter was over. It was not until before the authorities succeeded in effecting an opening thru to Lake Ontario.

The Tower of Babel with its numerous languages was almost equaled at the meeting of the journeymen tailors at the Labor Temple last evening. No less than five different nationalities were represented and it took five different speakers of Yiddish, French, Finnish, Italian and English to explain to the 800 tailors garment workers and others present the benefits of organized labor.

Gene Brasler, international secretary; Max Zellinski, organizer; Jas. Lindala, Finnish organizer; Jas. Simpson and James West, local organizers, spoke at length on the organization and principles of the union. The tailors, garment workers and others engaged in the clothing trade are endeavoring to form one immense union in the city. Last night's meeting was one of several to be held from now on to organize and put the union on a sound basis.

A large number of applications have been received to date and the union expects to be in shape to have its by-laws formulated and ready for presentation to the employers early in the spring.

TOLL OF DEATH FROM TUBERCULOUS COWS

Dr. Rutherford Urges Effort at Live Stock Convention to Check Disease.

OTTAWA, Feb. 12.—(Can. Press.)—"Veterinarians all know that you cannot raise healthy calves from tuberculous cows. And yet how many thousands of children are fed from tuberculous cows! The health officials don't seem to realize this."

This statement was made by Dr. Rutherford, veterinary director, general, at a crowded session of the National Live Stock Convention held in St. Patrick's Hall, here to-night. The subject was "Bovine Tuberculosis," and Dr. Andrew Graham of Toronto, Man., presided.

"Tuberculosis, Dr. Rutherford said, was a matter of extreme importance to live stock owners of Canada. Cattle were more susceptible than any other animals, horses not very much so, sheep almost immune, but hogs very readily infected. It was a scientific fact that from 80 to 90 per cent. of the human family had tuberculosis in some form in their system. This was almost always traceable to cattle."

In regard to tuberculosis among hogs, Dr. Rutherford said that this was almost always caused by the hogs being allowed to run with cattle or to drink whey from cheese factories.

Prof. Day of Ouelph Agricultural College also spoke.

At the afternoon session, papers were given by Messrs. Andrew Graham, Canadian Live Stock Commissioner; W. P. Stevens, live stock commissioner of Alberta; F. M. Bredt, live stock commissioner of Saskatchewan, and Miss Cora Hens agricultural editor of The Week-End Press.

WIFE DESERTION A CRIMINAL OFFENCE

Associated Charities Will Ask Minister of Justice to Amend Criminal Code, So That Husbands Can Be Deported or Transported, and Made to Face Charges.

At the meeting of the Associated Charities, held in the city hall yesterday afternoon, it was announced that the committee appointed to consider an amendment to the criminal code, which would make wife desertion a criminal offence, had prepared such an amendment which had been forwarded to the minister of justice at Ottawa. The local members have all promised to interview the minister in an effort to secure the changes desired.

The Associated Charities are of the opinion that if wife desertion were made a criminal offence the culprits could be legally deported or transported, and made to face the charges. The present law, they claim, is quite inadequate, and thousands of cases of wife desertion remain unpunished. The secretary was instructed to write to the minister of justice to see what was being done in the matter. It was necessary it was suggested that a deputation go to Ottawa to urge that the necessary changes be made in the criminal code.

Mrs. R. L. Breton moved that a committee be appointed to investigate what changes in the law were necessary to compel sons to support aged parents who were relying on charity for a livelihood. The motion was heartily approved of and passed by the committee.

According to the secretary's report, which was read at the meeting, their office has been resorted to more in the last three months than ever before, and a more intelligent distribution of charitable funds has resulted. The secretary has been resorted to more in the last three months than ever before, and a more intelligent distribution of charitable funds has resulted. The secretary has been resorted to more in the last three months than ever before, and a more intelligent distribution of charitable funds has resulted.

Injured Watches

It's not the broken parts that test the watchmaker's skill. The real test lies in his ability to discover the "invisible" defects which cause a timepiece's erratic conduct.

Our watchmakers have made a life study of their calling, and the remedy comes a simple operation of correction for our experts.

Bring your "stopping" watch to us and we'll fix it expertly, reasonably and satisfactorily repaired.

TACT ASSAULT INSURGENTS

"Political Neurotics," He Terms Them, in Speech Bristling With Defiance—Hears Good News.

NEW YORK, Feb. 12.—(Can. Press.)—President Taft brought his celebration of Lincoln's birthday to a close here to-night with a political speech to the Republican Club, in which he breathed defiance to the Democratic party, declared that it was his belief that the Republicans would triumph next November at the polls and made it plain that he had little sympathy with those of his own political faith who call themselves progressives, but who were "political emotionalists or neurotics." This speech came almost at the end of a strenuous day that took him to Newark and Orange, N.J., and gave him six hours in New York in which to attend the political dinner and drop in at the banquet of the Retail Drygoods Association and the Graduates Club.

While at the banquet of the Republican Club the president received telegrams assuring him that two delegates to the Republican national convention from the eighth Virginia congressional district and two more from Alaska, all pledged to support him, had been elected to-day. Another telegram assured the president that the Colorado Republican state central committee had declared for Taft by a vote of 16 to 19. Most of the prominent leaders of the party in the state were present at to-night's banquet.

TAILORS' UNION BEING FORMED

More Than 800 Workers Attended a Meeting at the Labor Temple and Decided to Organize.

The Tower of Babel with its numerous languages was almost equaled at the meeting of the journeymen tailors at the Labor Temple last evening. No less than five different nationalities were represented and it took five different speakers of Yiddish, French, Finnish, Italian and English to explain to the 800 tailors garment workers and others present the benefits of organized labor.

Gene Brasler, international secretary; Max Zellinski, organizer; Jas. Lindala, Finnish organizer; Jas. Simpson and James West, local organizers, spoke at length on the organization and principles of the union. The tailors, garment workers and others engaged in the clothing trade are endeavoring to form one immense union in the city. Last night's meeting was one of several to be held from now on to organize and put the union on a sound basis.

A large number of applications have been received to date and the union expects to be in shape to have its by-laws formulated and ready for presentation to the employers early in the spring.

HONOR FOR SIR EDWARD GREY

LONDON, Feb. 12.—(Can. Press.)—The King has appointed Sir Edward Grey, secretary of state for foreign affairs, a Knight of the Garter. This distinction is limited to members of royal families and a few of the highest among the nobility. It has been conferred upon Sir Edward Grey undoubtedly at the premier's suggestion and is construed as the government's answer to the attacks, particularly on the part of Liberals, on Sir Edward's foreign policy.

Use Gibbons' Toothache Gum—Price 10 Cents. 246

Henri Wields Busy Pen

Nationalist Leader Flays Borden and Laurier Quite Impartially.

MONTREAL, Feb. 12.—(Special.)—If Henri Bourassa keeps at it he will soon be bringing away at the Borden government, although people say that most of his supporters are opposed to the present campaign. All the Nationalist leaders' articles in Le Devoir tend to a hostile attitude towards the administration. For the evident reason that they do not move quickly enough in the respect of the Laurier naval policy.

His article to-day contains such references as Admiral Laurier, Vice-Admiral Borden and Rear-Admiral Graham, concluding as follows: "The law is bad and should be repealed."

Your Banker is an Important Factor in Your Success

Do you take him into your confidence and discuss your business problems with him? He may possibly be able to aid you. Whether you are a customer of this Bank or not, call and see him. His advice will cost you nothing.

H. H. Stevens of Vancouver A Fighter From the Start

Man Who Will Speak on the Sikh Question on Saturday is Said to Be Thoroughly Acquainted With His Subject and is Opposed to the Admission of Women.

One westernized easterner who has really made good in a remarkably short period is H. H. Stevens, M.P. for Vancouver. On Saturday he comes here from Ottawa for the purpose of clearing the minds of those who are somewhat hazy on the Sikh problem. Stevens was sent to the house of commons on Sept. 21, and although a novice in federal politics, he gained for himself a good reputation as a thinker and speaker. His Toronto audiences will hear a fiery orator of the first water. He is very outspoken, fluent, doesn't hedge, and invariably knows his subject. And he is acquainted with the complexity of the problem that seems to be agitating the minds of Torontonians, even more than those among whom the Sikhs live on the coast.

Stevens is out and out, and red-hot against the government allowing the female portion of the Indian family access to Canada, and it is believed, he would even go so far as to block the entire population of the Cape Flattery. He opines that they are seditionists and worthless as far as the building of western Canada is concerned. He is a reformer and a fighter, and it would be pretty safe to say that despite his staunch Conservative ideas, he has a slight leaning toward socialism.

Interesting History. Stevens' history is interesting. His precocious in ordinary walks of life, in civic politics and federal politics are noteworthy, for his rise has been of the abrupt order and had almost caused those on the coast to wonder. Seven years ago he went west from Ontario. From the first he dabbed in many things, principally real estate, the commonest pursuit in the west, and despite numerous obstacles thrown in his way, he fought bitterly and overcame them all, and at last attained a fair measure of success.

Stevens leaped from the council chamber in Vancouver to the House of Commons in Ottawa, a pretty large order. The fact that he was one of the people, a reformer and a fighter, won him nomination in the Conservative interest. And if a Tory is nominated in Vancouver, that's all that is necessary—he's elected. Two years ago, if a Vancouverite mentioned that Stevens would be in the house of commons to-day, the remark would have been ridiculous. He may land one, too, at that.

COAL SHORTAGE IN TORONTO CAUSES FACTORIES TO CLOSE

Railways Are Unable to Haul Sufficient Quantity to Meet Demand and Dealers Cannot Get Enough Holders—Refuel, However, is in Sight.

Lack of cars, and the recent severe cold weather, is the cause of the coal shortage at present according to the railway officials and local coal dealers. Cold weather always handicaps the railroads, said an official yesterday. An engine is a Vancouverite men fire in zero weather than at any other time, and in consequence the railroads cannot haul half the amount of freight that they can in warmer weather. Coal is very heavy to handle, and with the excessively cold weather the engines have not been able to handle any big trains, to keep the city dealers supplied.

Several local coal dealers were interviewed yesterday, and practically all had the same story to tell. Six

coal seems to be the scarcest of the two brands of coal. This coal is used principally by factories, etc., for their steam plants, and a shortage will cause some considerable inconvenience. It is reported that several factories in town have closed down as a direct result of the shortage.

Many citizens are suffering also, not from lack of funds, but lack of warmth in their homes. Another phase of the situation seems to be the delivery system of several of the larger concerns. One company has 200 wagons going constantly, and even at that they cannot cope with the demand. Wagons and teams are at a premium, and many dealers cannot handle their orders a great deal better if they could hire the necessary wagons to deliver them.

BRANTFORD FEELS IT. BRANTFORD, Feb. 12.—(Special).—Brantford is facing the prospect of a serious anthracite coal famine, there being only a few hundred tons in stock in this city. Several dealers have suspended delivery entirely, while others are distributing coal in small quantities.

It is announced that further shipments are unlikely within three weeks, which means that there will not be a pound of coal available. Manufacturers are also complaining that they are unable to receive shipments, while householders have already had great cause for complaint in the break down of the gas supply.

LONDON'S UNDERWORLD. A dreadful, fearful underworld, a wilderness of sin infested with crawling scoundrels, a gloomy realm of festering unrest for which there is no peace, no hope, no relief, no salvation. Women's faces drift along with the night in the night to grapple with the moonless thing. And that is what all the poor low souls down there are doing all night long and every night, but not because there is no day in that foul world.

Down there it is all darkness and a misty, grimy, crawling, crawling mass of faces and forms made visible in the darkness by the phosphorescence of their own corruption, their filth, their sinfulness of sensuality. They gibber at you as you pass, and flout and mock you with their cruel, cunning, and devilish, with their men's faces, and hollow cheeks, young men's faces, and hollow cheeks, and hollow cheeks, that should be gay or resolute.

The sky above that tortured mass of chandel-houses is red as if with the vital stream of life as it ebbs out with the dying day. Night comes down as if God frowned.—The Forum.

The effect of light on sales

NIGHT shoppers instinctively seek the electric light store. They know that there color values are more clearly defined, that there is no soot or smut to encrust and impair the value of choice and dainty fabrics, and that the beautiful sunlight quality of electric light is more grateful to the eyes in matching colors or choosing cloth.

Are you losing your share of the trade through the use of old-fashioned lighting methods? We can help you to gain and hold it by using Toronto Electric Light Service.

Our service men thoroughly understand the subject of store window and shop illumination and are at the disposal of merchants who would like specific information and suggestions on this very important subject.

Write or phone the Service Number, Adelaide 494.

NEW TREATY WITH CUBA.
WASHINGTON, Feb. 12.—(Can. Press).—President Taft, it was reported to-day, has begun the negotiation of a new reciprocity treaty with Cuba. Secretary of State Knox has held a number of conferences with Senor Rivera, the Cuban minister, as to the drafting of a new convention, especially in connection with the duties on sugar.

In view of the strained relations between Great Britain and the German Empire, and the possibility of war between these two great nations you should keep in constant touch with the ever-changing situation by reading Toronto's most popular and enterprising daily paper. The Morning World is delivered to any address in the city or suburbs for 25 cents per month. Attach name to the following coupon, and forward it to The World Office, 40 Richmond Street West.

TORONTO MEDICAL MEN TO HONOR BARON LISTER.
Toronto medical men intend honoring the late Baron Lister in some way, which will preserve his memory for all time. Some have suggested placing his statue or bust in the Academy of Medicine; others favor naming a ward in the new General Hospital after him. Just what will be done may not be definitely decided for a fortnight or so.

OTTAWA, Feb. 12.—(Special).—The question of the Farmers' Bank has been under consideration by the cabinet, and while the order-in-council has not been passed formally, it is understood as rumored some weeks ago, that Chief Justice Sir William Meredith will be given the task of investigating the circumstances leading up to the formation of the bank.

Mining Market Shows Buoyant Tone—Confidence in Situation

Porcupines Open New Week In an Auspicious Manner

Upward Movement Carried Further in Mining Market—Rea at Sharp Advance—Sentiment Improves.

World Office, Monday Evening, Feb. 12.

The mining market opened the week in a very auspicious manner, the Porcupine stocks maintaining their appearance of firmness, and in some instances scoring sharp advances as a result of the sustained buying demand. Vipond and Dome Extension were the most outstanding instances of buoyancy, and the strength in these two issues served to keep the whole list in a cheerful condition.

The Porcupines have displayed an all-round improvement during the last week, and considering the drastic outlook which immediately preceded the movement, have made a decidedly favorable showing. Much of the buying, it is true, must be set down to the short covering of the bear operators, who foresee the upward swing and endeavor to anticipate it by covering their contracts, and there is, on the other hand, a desire to lift the public eye by displaying a more responsible feeling of confidence in the Porcupine situation, and it is on this account that brokers and dealers are basing their anticipations for further improvement about the active list.

Vipond in the Lead.

Vipond today sold as high as \$91.2, a net gain from Saturday of 4 points, and an advance of 17 cents a share from the low prices reached on the decline of two weeks ago. That advance is now set down as the result of a determined bear rally on the stock, and the present strenuous demand is understood to be due mainly to the covering endeavor of the traders who stepped on the market on the way down. Dome Extension was quoted up to \$41.80, a gain for the day of a point, and the group of the stock was along with Vipond, and the advance had an effect all its own in determining the drift of general sentiment, and helped to lift the whole market out of the apathy which has characterized it of late. The other cheaper issues were fairly active in the main, with prices steady to a shade higher.

Rea on Up Grade.

Rea was the only one of the big group to show any volatility. These shares moved up to \$117, or 12 points in advance of Saturday's quotations, under an aggressive buying demand, based on the idea that the price decline had been overdone. Hollinger had between \$117.00 and \$118.00, and moved in a dragsy manner through the market, and it is acknowledged even by the bears themselves that the worst is over and that the situation has been decidedly cleared up as a result of the recent heavy declines in market values.

At the local offices of the Lucky Cross mine at Swastika, it was announced that the workmen had cut the vein in the drift at the 100-foot level, and that there was a splendid character, showing free gold in several places. No assays had been made up to last night, but a wire from the mine manager stated that the values would undoubtedly run into big figures.

The Lucky Cross adjoins the Swastika property immediately on the north, and development work now under way is attracting a good deal of attention, since it is anticipated that the results will not be a little to prove up the whole Swastika camp.

THE GOLDEN TOUCH

Porcupine Midsa Joins Big List of Mining Promotions.

The big crop of Porcupine promotions that year must have kept some of the promoters awake at nights thinking out suitable and euphonious names to tack to their propositions. The field by no means exhausted, however, and some of the new ones, which are appearing in the list, carry cognomens which point to the fact that those early in the field didn't corral all the attractive titles. The Porcupine Midsa Mining Co. is the latest to come to the front, and it is to be said that the company is by no means the youngest in the infant class. It was formed last year, but has up to this time kept its name actually hidden under a bush. The Porcupine Midsa is a Philadelphia corporation. It remains to be seen whether it has the golden touch or not.

The Porcupine Situation.

Messrs. Cole and Smith, members Dominion Stock Exchange, with offices in the Lamden Building, Toronto, have issued a special market letter on the Porcupine situation, which pays particular attention to present market conditions.

BRODERICKS Spring Announcement

Never in the history of this firm have we faced our spring trade with such confidence in our ability to thoroughly please the careful dressers of this city. There are many reasons for this bright outlook, and the distinction of our showing will be obvious to the most casual visitor.

Mr. Broderick's visit to the old country has greatly strengthened our position, and although he has not yet returned many of his purchases have arrived, and it's these we ask you to come and inspect. You'll find a delightful variety of newest shades in **Scotch Tweeds** and **West of England Worsteds**.

The tweeds are imported from the best mills in Scotland and England, the worsteds are

Brodericks, Limited 113 King St. West

RICHEST CAR OF ORE COMES FROM TIMISKAMING

Coleman Township Producer Surpasses Its Previous Record—Deepest Working in Cobalt.

There are 2200 pounds of metal and these another 1000 ounces, bringing the total assay of the car up to the stupendous assay of 783.65 ounces to the ton, by far the richest car of ore to ever leave the Cobalt camp.

At the present price of silver the value of the car should go to over \$125,000, while the value of the January car was only \$110,000 from a total of 31 tons of ore.

More significant even than the value of the car is the fact that this ore came from the 100-foot level at the Timiskaming, that is, from a lower level than is being worked by any other mine in Cobalt as yet.

THE PORCUPINE HANDBOOK

A thoroughly up-to-date compendium of the Porcupine and Swastika Mining District, giving the history of developments since the inception of mining operations. A few of the features:

- Complete account of discovery and developments.
- Summary of work at each individual property.
- High and low prices in the Stock Markets.
- Directory of companies (includes 60 operating concerns).
- Maps of each township, and of the district proper.

READY FEB. 15. PRICE 25 CENTS.

THE ADVENTURES OF KRAZY KAT

LITTLE NIP. LEASE GOES BY DEFAULT

Property Reverts to Peterson Lake Co. Under Agreement in Regard to Work.

The Little Nipissing Co.'s lease of the Peterson Lake property has been canceled by the Peterson Lake Co. This has been done on the strength of a clause in the lease which provided for its cancellation in case of no work being done on the property for a month.

The property leased by the Little Nipissing consisted of a plot on the west shore of Peterson Lake, the lease being issued in 1906 for five years on a royalty basis. In 1910 the lease was renewed for five years on similar terms and an additional tract of 15 acres adjoining was also taken over for operations by the Little Nipissing. The lease became forfeited on the 15th of last month, owing to the neglect of the company to do any work on the property for over a month.

The property has been shut down no less than three times during the past year. The mine was shut down Feb. 15, owing to the financial difficulties in which the company was placed by the actions of one of its officers, who fraudulently issued a quantity of stock certificates of the company. Work was started again on the property in March, and continued until July, when the mine was again closed down, and remained closed for about a month, when it was again started up, only to close again in November. Since then the shaft has been kept pumped out, but no other work has been done.

What the future of Little Nipissing is to be as yet undecided. The company has another property, besides the one which was worked under lease, a tract of 40 acres southeast of Short Lake. On this property a shaft is down 118 feet and a certain amount of cross-cutting done. Drilling was commenced under the lake, but no important ore bodies have as yet been discovered.

HALDANE IN HAPPY MOOD

But His Optimism as to Peace Outlook Isn't Shared in Germany.

LONDON, Feb. 12.—(Can. Press.)—Viscount Haldane, minister of war, returned from Germany to-day, optimistic over the reception that he had been given by the Kaiser and other officials of the fatherland. He declared that the friends of peace in Germany would him scolded all expectations. Although he did not issue any official statement upon his arrival, he indicated by his manner that he believed the trip would pave the way to a lessening of the tension between the two countries.

Berlin is gloomy.

BERLIN, Feb. 12.—(Can. Press.)—Reports that the mission to Germany of Viscount Haldane, British secretary for war, had been a failure, circulated on the hours to-day and contributed to the prevailing weakness and pessimism. The rumors, however, were not justified, as the situation will be cleared up only after Viscount Haldane has conferred with his colleagues of the British ministry, with whom rests the decision as to whether definite negotiations with Germany are to be begun.

The German foreign office to-day is apparently very satisfied concerning the prospects of the situation.

Viscount Haldane returned to London in possession of an outline of the conditions upon which military proposals, notwithstanding the fact that these have not yet been communicated to the German Foreign Office.

CAN TEAR DOWN OLD FLAG

Such is Doctrine Preached by Member of B. C. Legislature.

VANCOUVER, B.C., Feb. 12.—(Can. Press.)—Proclaiming the constitutional right of the people to tear down the Union Jack, if they so desired, J.W. Hawthornthwaite, M.L.A., addressed a "free speech" meeting at the Grand Theatre last evening. The hall was packed to the roof, the crowd being so great that the doors were closed before eight o'clock.

The speaker said: "The moment the majority of the working people, the only useful people, decide that they don't want the old rag, they have the constitutional right to tear it down and make a flag of it—to wash some of the blood stains out of it."

His remarks were greeted with loud cheers.

DRIVEN FROM HOME BY FIRE FROM PIPES

Driven from their home, 22 Clifton street, by a fire which started from overheated furnace pipes, J. Moushine and his family were forced to take shelter at a neighbor's while firemen fought to save their house. A policeman turned in the alarm at 5.20 a.m. yesterday. The damage was \$750, covered by insurance.

Country Cousins—"Don't you find it very trying to have every one turning round and staring?"
Town Lady (with a sigh)—"One has to harden oneself to it!"—Punch.

UPPER CANADA COLLEGE.

Through the kindness of an old boy, a very generous gift has been made to the college. Mr. William Hendrie of Galesburg, Hamilton, a prominent old boy of the college, which he attended in 1877, Asia token of his loyalty to his old school, is giving a prize of books to the value of \$25 for an English essay. The prize will be called "The Hendrie Prize," and the subject for this year is: "The advantage to Canada and Canadians of remaining within the empire from the point of view of citizenship and the protection of Canadian commerce on the high seas by the Canadian navy." Essays will be sent in in June and will be judged by Principal Aiden and Mr. William Mowbray, head of the English department of Upper Canada College.

STREET

SUPERIOR ON

ANDREW CARNEGIE ON THE "MONEY TRUST"

Concentration of Money in Wall Street on Archaic Banking System.

NEW YORK, Feb. 12.—Andrew Carnegie says there is a "money trust" that the kind of a trust that the politicians in Washington want to investigate, but a concentration of money in Wall Street because of the country's archaic banking system.

"Our national bank law," says Mr. Carnegie, "is responsible for the huge concentration of the country's money in New York. Do you realize that nearly one-sixth of all the real money of the United States is on Manhattan Island? This is the real 'money trust.'"

"The New York banks last year received \$875,000,000 from the rest of the country and sent back only \$485,000,000. A net gain of \$390,000,000. Why does New York get this money? The money bank law provides that a country bank must hold a cash reserve of 10 per cent of deposits, but the central reserve cities—New York, Chicago and St. Louis.

"The reserve bank in a country bank is idle—it earns nothing, but deposited in a New York bank it earns 3 per cent. It is this 3 per cent that turns the country bank's money to Wall Street. You know what New York does with this money. It loans it to Wall Street speculators at 3 per cent or 4 per cent. Every \$100 cash left in a New York bank by a country bank is the basis of \$400 in loans to Wall Street for speculation in stocks, grain and cotton.

"Isn't this a bad way of doing things? There isn't another country in the world that legally provides for such a concentration of money in one board to be used by speculators. We can't check the 'money trust' until we stop this pouring of money into Wall Street for speculation.

"This is one reason why I believe the most vital question before the people to-day is banking and currency reform. We must stop the piling up of money in New York for speculative use, and we must enlarge the market for the use of loanable funds to promote agriculture, industry and commerce. Commercial paper, not stockbrokers' notes, must be made the chief investment for bank funds here, as it is in Europe. This is one of the basic principles of the National Reserve Association.

"A Dangerous Practice. England, France, Germany, and other countries have safeguarded their bank reserves, and can use them to prevent money panics. Hence their safety. We don't. Hence our danger. We are the only country in the world to-day that has money panics, the final burden of which is borne by business, and the disaster of which falls upon innocent workmen and women. It is really criminal to delay action.

"Congressional investigation of the 'money trust' will show that we have a dangerous banking system, a system that concentrates funds in Wall Street and breeds panics, and this investigation will be an unanswerable argument for banking and currency reform."

American Issues Easier in London

LONDON, Feb. 12.—Money was firm, but discount rates were easy to-day. The Bank of England secured the \$3,500,000 new gold offered in the open market.

With New York closed and the settlement in the mining section commenced, the stock market to-day was dull and featureless. Industrial and rubber shares were firm, but Mexican rails closed weak.

American stocks opened a fraction higher, but despite the good New York bank statement and the report of the unfilled orders of the United States Steel Corporation, the market lacked support and prices eased off and closed from 1-8 higher to 1-4 lower than Saturday's New York closing.

"MERELY AND ONLY," SAYS WALL-STREET GENIUS.

Judge Lovett, the chairman of the boards of Union and Southern Pacific, and the logical successor of the late E. H. Harriman, always wears the "smile that won't come off" in his meanderings about the financial district of New York, from one directors' meeting to another. He never talks of anything but the weather, however, when approached by the newspaper men, and under no condition will he give a hint as to what has taken place at a meeting. Asked if the Baltimore and Ohio directors had authorized an equipment trust issue last week, upon leaving the meeting with Mr. Paul Warburg, Mr. Lovett said: "Really now, you'll have to excuse me. Mr. Warburg and myself are merely and only directors."

RECORD YEAR IN SIGHT FOR CANADIAN PACIFIC

Despite increased operating expenses, Dividend Balance Should Exceed Previous Figures.

Canadian Pacific's gross earnings are showing remarkably large increases, even for that road. In December, traffic was 22 per cent ahead of a year ago. The actual gain in gross was \$1,948,200. Net earnings are keeping pace with the gain in gross and for December the road reported net revenues of \$4,106,700, a gain of \$319,197 or 8.5 per cent over the same month of last year.

By making this excellent showing in December, Canadian Pacific finished the first half of its fiscal year with total operating revenue of \$65,526,300, a gain of \$5,778,700, or 12.3 per cent, over 1912, and a gain of \$12,646,500 over 1909. Since the close of the 1908 fiscal year the road's business has expanded \$23,854,000 or 53.7 per cent.

During the first half of the current fiscal year, C.P.R. operated at 80.1 per cent of gross, as compared with 84.4 per cent for the corresponding period of last year, and out of the \$6,778,000 increase in revenue, \$1,783,000 was saved for net. When it is considered that the road is doing a vast amount of new construction and improvement work, and that a large part of its expense in connection with this work is being charged to the income account, the fact that operating expenses are being kept down to such a low ratio is a cause for satisfaction.

It is now planned to build 250 miles of new branch lines this year and to re-lay 470 miles of line with 50-lb. rails. Double-tracking will be carried on at all congested points; new terminals are to be constructed at many centres and existing terminals are to be enlarged and otherwise improved. Expenditures for these purposes this year will approximate \$20,000,000.

The outlook for the balance of the year is considered very favorable. Further large increases in gross are expected. Business in the first three weeks of January gained \$700,000. Operating conditions have been very severe last month, however, and are likely to be reflected in net earnings.

In the last fiscal year Canadian Pacific earned a balance of \$12,804,000 for dividends, equivalent to 12.3 per cent on the outstanding common stock after deducting preferred dividends. There is little doubt but that the dividend for the current year will be largely in excess of last year's figure.

C. P. R. Dividends. MONTREAL, Feb. 12.—At a meeting of the directors of the Canadian Pacific Railway, held at the following dividends were declared: On the preferred stock, 2 per cent for the year ended Dec. 31, on the common stock, 2 1/2 per cent for the quarter ended Dec. 31, being 7 1/2 per cent per annum from interest on proceeds of land sales and from other sources, both dividends payable April 1 next to shareholders of record at 3 p.m. on March 1 next.

Gold Brick Game That Made Good

Wall-street is telling with vivacity a story about a certain notorious group of get-rich-quickers who organized an oil company and sold huge bundles of its stock with ease and despatch. The idea that they should have any certificates had not entered their heads when they organized the company, but the stock went so well that, on the advice of counsel, they invested a small part of the proceeds in a piece of ground in southern California and set a couple of honest Swedes at work punching holes into it.

Then the Federal sleuths tracked the promoters to their lair. For this and other pieces of business several of them are now working for the government, and then I am going to sell some of my own holdings.

"I cannot see what difference it makes to you," said the broker.

"It makes no difference. With every sale I am getting a new stockholder to whom I am just as responsible as to any of the old stockholders. It is my duty, as far as I am able, to see that this stockholder does not get cheated. And, besides, by this manipulation you are giving me a bunch of stockholders who will be dissatisfied before long."

REGRETS PROFITS LOST IN COPPER INDUSTRY.

WALL STREET, Feb. 12.—It used to wrench me heart-strings to see copper coming out of the ground and going into consumption at around 12 cents a pound—practically at cost, in many instances," said the secretary of one of the largest producers. "Copper is a natural resource that cannot be replaced—a wonderful metal, practically indestructible. Why the stock book of a friend of mine was burned in the Equities fire, and all that was found was the wire in its back—made of copper.

"I know the tremendous amount of capital and energy required to make this country the world's leading copper producer, and it seems to me a crime that the consumer should be able to buy it at almost cost prices. Thank goodness, the market is better now."

Maintenance of plant and depreciation 3,000	Seven per cent. Dividend on Preferred Stock 28,000
NET Profit from COAL \$147,250	SURPLUS \$194,250

The Red Willow proposition is an absolutely honest, straightforward, money-making business enterprise for business men, and every man who has been over the ground says that this Red Willow proposition is the best he has seen, and we cannot too strongly recommend it to you as an AI investment.

We have been offering at par the 7 Per Cent. Preferred Shares (Par Value \$1.00), which have been carrying with them a bonus of 50 per cent. of Common Shares. Owing to the fact that a firm of English brokers have secured a large block of shares, on and after Thursday, the 15th inst., no more Preferred Stock will be sold at par, and the offer of bonus stock will be withdrawn.

In conclusion, we may say, many people are enjoying the luxury of wealth to-day, with its unbounded comforts, because they invested in the stock of some good company at an early stage of its existence. What they have done, YOU may do. There is nothing to prevent it but negligence in letting opportunities pass. As we see it, YOUR opportunity to join us is NOW. There is no getting away from the fact that "He who ventures, wins." It has been discovered that there's no such thing as "luck," or that "all things come to those who wait." Things come only to those who get after them, and that is where the so-called "luck" comes also.

The stock is now selling very rapidly, and as this is an investment of an exceptionally meritorious nature you cannot afford not to investigate. WRITE US AT ONCE FOR ILLUSTRATED BOOKLET giving full particulars of the Red Willow Coal Company, Limited, which will be mailed to you without any obligation or expense on your part. Subscriptions will be filled in the order received, but we reserve the right to reject any or all subscriptions.

Municipalities Want Power To Inspect All Meat Eaten

Would Make Sure Both Before and After Killing That Carcases Were Not Infected With Any Disease—Deputation Saw Provincial Secretary.

In order to get government authority to inspect every carcass before and after slaughter, a deputation from about 20 municipalities of the province interviewed the Hon. W. J. Hanna and Dr. J. W. S. McCullough yesterday. Mayor Thorp of Guelph presided and H. C. Schofield of South Wellington introduced the deputation. The visitors asked for an amendment to the Public Health Act, which at the present time gives no power to municipalities to inspect the meat which is brought in from country districts for consumption by people living in cities or towns. Dr. Howard, medical health officer of Guelph, briefly outlined the request of the deputation. It was for power from the government to give local option to each municipality to insist on the inspection of meat before and after killing.

Mr. Hanna said the idea was all right, but he wanted to know how it would affect the farmer, who had only, say a pig or two to send to the city. In that case he would be put to the necessary expense of shipping it into the city to be killed, and would have to bear the expense of bringing back any of the meat he wanted to use himself. Dr. Howard said in reply that the municipality would defray the cost of bringing the pig in for inspection, or at least reduced rates would be allowed for carriage.

Mr. Hanna also asked what was the proposal regarding meat received from an inspected abattoir, to which Dr. Howard replied that that would be sufficient guarantee that the meat was free from disease before being killed. They themselves had the power to inspect the meat after it was received. The main contention was that under the present system farmers are allowed to remove the entrails of animals and the carcass alone is brought to market. In very many cases it happens that the

entrails alone show visible signs of tuberculosis, cancer and other diseases. Inspection was the only means by which it could be determined whether the animal was fit for human consumption, hence the request for the double inspection.

Seven Classes Dismissed. Seven classes had to be dismissed yesterday morning at Humberstone Collegiate owing to the heating apparatus having been put out of order by the cold snap. Two classes in rooms which were heated remained.

The World's Leap Year Baby Mugs

As was stated in a recent issue, The Toronto World will present a beautiful silver birthday mug to every baby born in Ontario on the 29th of next February. These children will only have an anniversary once in four years, and it is fitting that their first birthday should receive some special recognition. There are no conditions or entrance fees attached to the award, the only regulations to be observed are as follows:—

- 1.—Only babies born in Ontario are eligible.
- 2.—Babies must have been born between the hours of 12.00 midnight February 28, and 12.00 midnight February 29.
- 3.—The entry for the award must be made by filling out the coupon which will be found printed in another portion of the paper.
- 4.—The date and hour of each child's birth must be watched for, in the place indicated on the coupon, by the attending physician.
- 5.—Entries not made on printed coupon will not be considered.

Something more about this award will appear in The World from time to time. Questions addressed to the Silver Mug Department will be answered.

Valentine Favors From The Simpson Store

A Woman's World

Most convincing proof of women's sway is to be found in the constantly varied displays in the Simpson Store. Women demand good values—and they are here. Women expect close-pricing, hence these more than generous prices for Wednesday's selling.

Some Fabrics for Spring Lend Themselves to the Present Styles

Serges and Panamas Third Day of the Wash at Sale Prices

(Second Floor.)
The February Sale of Dress Goods is not a clearance sale. The materials sold are not "left-overs," they are purchased for this sale, and qualities cannot be beaten.
