EDUCATIONAL BOARD INCREASES SALARIES

Several Officials Get More—Thirteen Nurses Graduate—Finance Committee Meets.

HAMILTON, Sept. 5.—(Special.)—Assessment Commissioner [Name] has landed another big industry for the city. The new concern is to be a branch of the E. C. Atkins & Co. saw manufacturing industry of Indianapolis, Ind., which is capitalized at a million and a half.

Thirteen nurses graduated from the City Hospital Training School to-day, and they were presented with diplomas and badges this afternoon, before a large gathering. The presentations were made by Rev. Dr. Fletcher.

The international committee of the board of education raised the salaries of several more employees of the board to-night, as follows: Principal Thompson of the collegiate institute, from \$3,000 to \$3,500 a year; Inspector Ballard from \$2,500 to \$2,800; Secretary Foster, \$1,200 to \$1,300; junior male masters in the collegiate institute, from \$1,800 to \$1,900. Dr. Roberts, who was recently deprived of \$200 salary from the board for examining the school children, on the way to the work in the future, and his offer was accepted. It was decided to ask Inspector Ballard and Principal Thompson to report on the efficiency of the teachers and teachers in the public schools and collegiate institute. Dr. Carr said that it was because the teachers were inefficient that the separate schools were excelling the public schools on the examinations.

The finance committee to-night instructed City Engineer Barrow to report on the condition of the Hamilton Railway thru the city, so that the aid of the city might be secured for the purchase of the railway.

The teachers' training department stated that they had a new text book entitled, "Book of New Testament," now ready for any classes beginning work this month. Various grants were made for Sabbath school work from various synods as follows: Maritime Provinces, \$500; Montreal and Ottawa \$500; Toronto and Kingston \$500; Hamilton and London \$500; Manitoba \$400; Saskatchewan \$500; Alberta \$500; British Columbia \$300.

An important motion was passed, which reads: "That the senate of the various colleges of the church be requested to grant the several secretaries for Sabbath schools an opportunity during the coming session to place the Sabbath school work of the church before the students." The treasurer's report stated the receipts of the year to be \$10,052.62.

LETTER CARRIERS' GRIEVANCES Dominion Association Meeting in Brantford May Take Action.

BRANTFORD, Sept. 5.—(Special.)—The twelfth bi-annual session of the Federated Association of Letter Carriers opened this morning and will continue for at least two days. The objects of the association are to promote the welfare of the carrier service generally; the society also carries with it an insurance benefit against death. Delegates from all the cities of the Dominion were in attendance.

The business to be transacted includes ways and means whereby the act of manumission will be paid letter carriers. The claim will be made principally on the increased cost of living in the several cities of the Dominion and the responsible and arduous duties performed. There is also a grievance in some cities caused by the hours of work being extended above what is considered to be reasonable and fair. A contrast has been drawn between the Canadian letter carrier and the letter carrier of the United States. The Canadian gets from \$1.25 to \$2.25 a day after several years' service. A large number of them who prefer to remain under the old act of 1882 get something like \$40 a month, and it is said, have had no increase in pay from fifteen to twenty years. The United States carrier gets \$600 his first year, \$800 his second, and \$1000 his third year, and in addition at the last congress a bill was passed whereby the clerks in the United States postoffice are advanced to the same grade of salary as is paid the letter carriers, and on July 1 all officers of the first class were advanced to \$1100, and on July 1 next all officers of this class will receive \$1200. In addition to this a definite scheme of promotion has been set forth, whereby carriers and clerks are to receive promotion successively to all higher grades in the service. The hours of work are defined at 48 hours per week. Recommendations were also made by the postmaster-general to give all permanent employees thirty days annual leave exclusive of Sundays.

It is said the Canadian letter carriers are very much dissatisfied with their present condition, and small amounts of pay in sickness or accident, and loss of ten days' holidays each year. The recent legislation of the United States has a definite system of promotion open to letter carriers, and there is no Saturday half-holiday.

Repealed petitions and memorials and deputations have waited upon the several postmaster-generals during the past eighteen years, but it is said no practical results have been obtained.

The World's Home Magazine for Women

Edited by LAURA E. McCULLY, B.A.

The College Girl's Clothes. The Drama of the Future.

Now that the return of autumn brings school days back again, many young women will be facing the problem of clothes, an ever-recurring trouble to our sex with a feeling akin to dismay. Girls who are going to a new college or university know very well that their garments are likely to "place" them accordingly fall into all sorts of nervous errors in buying a wardrobe. How many pretty country girls come down to Varsity, for instance, with gowns so elaborate for the occasion, and save an impression not easily eradicated on the mind of the beholder. On the other hand, some poor ones, who are, after all, often the best students, feel that they simply are not in it from the start, so they neglect their appearance and appear absolutely trumpy.

Neither mistake is necessary. To avoid either, all a girl need do is to pay a visit to Toronto, or the nearest large town, a few weeks before "school" starts, or else make a careful selection of goods and patterns from a reliable firm's catalogue, and so acquire a passable wardrobe with but little outlay.

In the first place, avoid all elaborate trappings. Frills are out of place at school. Whatever happens, don't wear crepe de chene in light shades, obviously passe evening or afternoon gowns in the classroom.

What you want most is a serviceable tweed or covert suit in semi-fitting style, that is, if it fits you, make it strictly tailored suit simply must be made by an expert. Suppose the material of your suit costs \$15, that is \$25. Now, you need at least two skirts for extra wear—one for rainy days and one for afternoons in the park. Here is your chance to show a really refined taste in colors. Try to make your suit and some other of spongy wool, and some other of spongy wool, and some other of spongy wool.

THE SECRET OF PERFECT HEALTH.
It used to be the general idea that there was some mystery about getting well and staying well. Sellers of quack nostrums took advantage of this fact and grew rich. We are growing wiser, however, and know that all that are required. Cleanliness, however, means that you must take up the cause of your violation of some natural law, and you must assist nature in nature's way to cleanse the system. No necessity, however, to risk using some secret preparation. You can obtain a perfect compound of vegetable remedies, everyone of which is endorsed by your physician. The formula of King Palmetto Compound is printed plainly on the wrapper. No secret, no mystery, just plain common sense. King Palmetto Compound will regulate the liver, bowels and kidneys, tone the system and prevent serious results which might arise from neglect. Give it a trial. Write for a free sample bottle to the King Palmetto Company, Bridgeburg, Ontario.
Sold and guaranteed by Burgess, Fowell Co., 78 Yonge-street, Toronto.

Ladies' Thirteen-Gored Plaited Skirt. Paris Pattern No. 2038. All Seams Allowed. One of the smartest models of a thirteen-gored skirt is here represented. For a separate skirt, it should be made of Panama, serge or mohair, but it would be preferable to use a plaited waist to form a suit in any of the autumn woolen materials. The pattern is in six sizes—22 to 32 inches, waist measure. For 26 waist the skirt, mule of goods with nap, requires 13-4 yards 20 inches wide, or 7 yards 36 inches wide, or 6-1-2 yards 42 inches wide, or 4-2 yards 54 inches wide; or of goods without nap, it needs 12 yards 20 inches wide, or 8-1-2 yards 36 inches wide, or 6-1-2 yards 42 inches wide, or 4-2 yards 54 inches wide. Price of pattern, 10 cents.

Signs of the Times

Hurray! for Norway—it is a year ago since I attended the international Suffrage Alliance held in Copenhagen, then meeting the representatives of twenty-six different countries. Finland had just gained the franchise for women and great was the rejoicing, only I did seem queer that little brown-haired Finlander should give her women's privileges denied by England and many of the United States to their women. Mrs. Qvam, the representative from Norway, and widow of the late minister Qvam (minister to the crown) even then spoke hopefully of the results of her forty years work in Norway, but the most sanguine of us hardly expected that before another year rolled round Norway would be added to the list of countries where political justice for the female sex exists.

Congratulations, Norway! Fru Qvam was a quaint little lady of the old school, timid and retiring, speaking English indifferently, but speaking it somehow. She was no more aggressive nor "mannish" than the little quakeress, Leandra Mott, nor Julia Ward Howe, but with the same sublime determination to work for a cause she considered just.

Over three hundred thousand Norwegian women are enfranchised, and Miss Witlock writes from Sweden that meetings are being organized in the whole of Sweden in order to force the Riksdag to give attention to woman's demands in 1908. Will Sweden be victorious next year? We hope so. The experience of New Zealand, Australia and some of the states has been such a splendid lesson to the rest of the world that there is no longer any suspicion that disaster will follow when women become enfranchised. These are days of rapid changes from old conditions to new. We are throwing off the influence of precedent and superstition with more courage and hope than ever before in the world's history.

Women are taking a mighty part in the big affairs of the world. She stands forth as a splendid representative of the modern age as well as in the domestic and social world, and yet no matter how high she climbs she must still be a woman. The Great Master was greatest in his fatherhood, brotherhood and in being a friend to his fellow-men. Men have been strangely short-sighted in denying women the privilege of exercising their capabilities. Church and state have been ready to accept the fact that she is a woman, but let her have no say in when and why battles should be fought.

Men have denied women the privileges of their clubs, but to-day there are hundreds of women's clubs and organizations all over the country. Energy and thought must find an outlet to express themselves, and after all woman is just a human being the same as a man and being always his daughter must inherit much that goes to make him what he is. In gaining political privileges women as women are not fighting men as men, but women are together fighting existing conditions they deem unjust and detrimental to the progress of the race.

Ald. C. W. Hayward, wife and son of Halifax are spending a week in Toronto.

Dr. R. Elgin Joubert, well-known thruout Muskoka and Parry Sound districts, and now of Springbrook, Ont., is spending a few days in the city.

Miss Hattie McEwen, daughter of Parkdale, has returned to her home in Buffalo.

Chief Justice Hunter of British Columbia was a visitor at Osgoode Hall yesterday.

Miss Anna Cloughessy of New York and her brother, Charles, are the guests of Mr. and Mrs. Harris, 503 Ontario-street.

Dr. and Mrs. W. B. Any have returned to the city and taken up their residence at 119 Avenue-road.

On Wednesday, Sept. 4, the marriage was celebrated in St. George's Church, Newcastle, of Stella Aigean, daughter of Mr. and Mrs. R. P. Butler of Elmhurst, Newcastle, and Herman Clarke Anderson of Guelph, son of Mr. and Mrs. A. C. Anderson of Port Arthur, Ont. The ceremony was performed by the rector, Rev. Scott Howard.

The bride, who was given away by her brother, Dr. Ainley Butler, was attired in white tulle with overdress of silk crepe, and wore a veil with orange blossoms, carrying a white prayer-book. Her maid of honor, Miss Isabel Watt, wore a dress of pink silk mull, with pink plumed picture hat, and carried a bouquet of pink roses. The bridesmaids were Misses Beatrice McIntosh and Cora Butler, and both wore gowns of white silk mull, with touches of pink, white tulle hats and carried bouquets of pink roses. Mr. and Mrs. Anderson left later for Muskoka.

FATALY SCALDED.
Playing around her mother, who was washing, two-year-old Irene McLaughlin of 8 Balmuto-street got so badly scalded that she died at the Sick Children's Hospital yesterday. Two children were playing. When the older took away her arms, the baby fell into a pot of boiling water.

Two Player Pianos at a Bargain.
Exhibition visitors before leaving town should see two "Autoplans" at the Bell piano warerooms, made in New York and fully guaranteed by the makers. These instruments have been used slightly in the Bell ware-rooms for demonstrating purposes. They contain metal instead of rubber tubing and have the up-to-date patented flexible fingers. The regular selling price of these handsome Autoplans is \$650.00 each, but for quick sale, they will be sold for \$400.00 each, with fifteen rails of music of your own selection included. Don't miss this chance if you desire to secure an up-to-date beautifully toned player-piano at a bargain price.

The Opportunity Not Passed.
There's not much time left, but there is still opportunity for readers to see at the Canadian National Exhibition the very splendid exhibition of pianos that is made by Heintzman & Co., Limited, and that has been an attraction of the exhibition during these two weeks.

ROLLER SKATING WILL BE POPULAR

So Says Mr. Ryan of the Parkdale Rink—Improvements Made for Opening Night.

Now that the exhibition will soon close and the theatres play to crowded houses, it is only natural that the roller rinks should give easy access to their impatient patrons. As a result their question is being asked again and again, "How long will roller skating remain popular in Toronto?" Some are of the opinion that the glorious pastime will be as short-lived here as it has been in other places.

To find out the truth of the matter, The Toronto Roller Rink, Mr. Ryan is recognized as an expert in the business. There is always something new to learn in the graceful art, and it's a pleasure that one never gets tired of.

"The reason why roller skating has had close to Toronto, as in other places, is because they were not properly conducted. And for the same reason, the Parkdale Rink has always had crowded houses, as the saying is, since it was opened two years ago.

"The great difficulty is in keeping pay to be careless in that regard at the outset, but in the long run such a rink is bound to fail. When the Parkdale Rink was opened this was the question given the most strict attention. The result is that to-day we have established what you may call a record. We have a clientele and the citizens of Toronto know it.

"Of course, it is absolutely necessary to have a rink first-class in every particular, perfect floor, perfect ventilation and all the other necessary incidentals. But if a rink claims to have all these and has not a high moral character, will soon be found out and the best people will refuse to patronize it.

"So you expect to have another successful year?" the newspaper man enquired.

"I surely do," was the reply. "If you have any suspicions, be on hand to-morrow night, when we open. You'll see even bigger crowds than last year. However, we're prepared for it," said Mr. Ryan, with a chuckle. "We haven't been idle during the summer, and many inventive improvements will greet the skaters when they return."

THE CALEDON MOUNTAIN TRAGEDY.

The newspapers that generally do the work of apologizing for the railways are already busy in connection with the Caledon Mountain accident. They are advancing theories and guesses, and finally concluding that there is no accounting for the accident. Had not these journals better wait until the facts are elicited before settling on a verdict or a clearance? For instance, it has been announced by one railway authority, and contradicted by another, that the train was running at great speed at the time of the accident. Which was right?

What the public want, and what the law officers of the country must insist upon, is the production of the time-table arranged for the excursion train in question, and also the actual running of the train itself on the day of the accident. When did the train actually leave its northern end; how long was it getting to the next station, and at what speed did it run; how long was it delayed at the several stations before the accident occurred, and what speed was made between the several stations, as shown by the despatcher's books, and the actual orders in the hands of the men who were responsible for the train? All these are matters of record—of exact record—and the coroner and the crown authorities must see that these records are produced. In a word, the probe must be put good and deep into the train despatcher's office and all connected therewith.

Furthermore, witnesses must be produced to give, as far as they can, their own experience of the actual delays at each station, and whether the station agents had any assistance on the day in question to handle the rush of people, and what was the character of this assistance. Also, whether the public were able to buy tickets as fast as they wanted to buy them, and whether there was any delay in order that the public might buy tickets, and whether, in consequence of several such delays, any kind of order was issued to "hustle the train to make up for lost time."

We do not want theories, but we want these facts brought out, and every despatcher and station agent and operator along the several points put in the box to tell his full story. Before these men tell their stories the whole ground should be gone over by half-a-dozen special officers detailed for that purpose by the attorney-general. The Ottawa railway commission and its officers, who are supposed to intervene in cases of this kind, ought also to have every detail of this kind ready for presentation to the minister of railways and to the coroner's jury.

The World again comes back to the question, why the two great railways that have such extensive systems in the Province of Ontario, and who do such an enormous business in the Province of Ontario, and who get the main bulk of their revenues from the Province of Ontario, see fit to ignore this province altogether in the way of their engine and car-building and general construction works. One would think that in a province where they get so much business they would be disposed to establish engine shops and car-building shops and switch-building plants, and all the other industries that go with railroad management; but, for some reason or other, this province has been deliberately ignored. Why?

The government of Ontario, the Prime Minister of Ontario, and every member of the legislature has good reason for asking this question—and they are well within their rights in asking it in the legislature. If no satisfactory answer can be given, if this railway policy has been adopted by way of retaliation, as we have heard it said more than once, it is well that the people of Ontario should know the fact, because the people of this province are able, thanks to the sovereign powers possessed by their legislature, to protect themselves. They have a great engine of self-defence in the power of taxation, and they have also the right of enforcing the railway and criminal laws of this country.

There is a general impression that the railway magnates in Montreal regard the people of this province as cranks because it is maintained that the public have some rights, and because we think that if we have streets which the railways wish to cross they must only be crossed on conditions to which the people themselves are a consenting party. In the eyes of these railway magnates, it is a crime to insist on any kind of respect for these public rights. We have often been told in Montreal that Toronto was set apart for punishment because, some years ago, she made the Canadian Pacific pay for use of the Don improvement. All these are quite interesting things to know, and if so, they can be brought out quite easily by the Ontario Government and in the legislature.

And do not let anyone for a moment forget that it is the people of Ontario who eventually have to pay for these railroad accidents. The railway magnates say that the accidents cannot be prevented; that they are an unavoidable part of running a road, and therefore they ought to be charged up to the traffic. In other words, the traffic, which means the people, must pay not only for the traffic itself, but also for the destruction of railway property, trains, engines, tracks and the like, and also that the people must pay for the loss of life. If, for instance, the companies have to pay \$10,000 for each life they destroyed in the recent accident, they have a right to charge it up to traffic, and, as a matter of fact, every loss of this kind is charged to the people.

Who is keeping record of all these accidents and the names of every citizen of Ontario who is killed by the railroads, whether he be employed

by the railroads, or whether he be a passenger traveling on the road, or happens on the property of the railway when injured? Those killed by the railroads in Ontario this year make quite a list, and some public official, in the interest of the people of this province, ought to be covering this information. We will be told, for instance, that the Ontario Railway Commission has nothing whatever to do with it. Nevertheless, the coroner ought to be able to put a government witness in the box at this inquest, who would give the number of people who have been killed since the first of January by the railroads in Canada. Again we ask, what officer, drawing the people's money in this province in connection with railways, will supply this information; or will the department of railways and the railway commission at Ottawa supply it? Will either of these two expensive organizations be able to put that evidence before the coroner's jury?

Let the coroner put Chairman Killam and Chairman Leitch and their chief officials in the box, and see what light they can throw on the awful destruction of human lives by the railroads of this province. Put it right up to these men. Also, put Hon. G. P. Graham in the box, and ask him to explain the position of the department of railways and canals in regard to it.

Political Intelligence

MONTREAL, Sept. 6.—(Special.)—The Herald editorially says to-night: "It seems a pity Mr. Hugh Graham is not at present in the city, for if he had been we may be sure The Star would not have taken the wholly unexpected course of leaving out of its report of the disagreement between Mr. Borden and Mr. Borden's speech all reference to Oct. 24. It rather looks as if Mr. Graham's newspaper did not care to assume responsibility for the statements Mr. Graham made in May, 1905, when L'Evenement brought suit against him on account of services rendered during the elections of the preceding autumn. It is very clear, tho, that while on the one side Mr. Graham says he got a letter from Mr. Borden on or about Oct. 24, Mr. Borden on the other hand denies having written any such letter."

"It is worth recalling, however, that Mr. Borden did just at that time issue a general warning about election funds. Mr. Blair had just resigned from the railway commission. Mr. Graham and Mr. Russell had just got hold of La Presse. Mr. Borden had just been treated by Mr. Russell to a ride in his private car from Fredericton Junction to St. John. That ride took place on Oct. 24. Mr. Borden seems to have written as soon as he got to St. John a letter which was described at the time as very remarkable in the circumstances in which he warned some of his new allies to keep off the grass. The warning said: 'To avoid misunderstanding it has been thought best to distinctly declare that the Conservative party will receive subscriptions only from those who favor its general policy; that such subscriptions are not to be understood as creating claims to consideration for any interest likely to be affected by special features of the party; and that no subscriptions are solicited from any such interests.'"

"The Star, in commenting upon it, said: 'To the man who thinks to buy the consideration of the party leaders by opening his purse to them, Mr. Borden offers the straight statement that such subscriptions cannot be received.' Elsewhere, on the same page The Star expressed its admiration at Mr. Borden's wish to keep the electoral machinery clean. Considering that Mr. Graham was giving his assistance to the party by making them gifts of money out of his personal means this was very modest and humble. It is just possible, of course, that the warning from St. John is the letter Mr. Graham sent to Mr. Blair, but on the other hand it has no bearing upon the decision to send money thru Mr. Giroux rather than Mr. Pelletier."

"What is worth noting, however, is a certain coincidence in dates to which attention has been directed by this open disagreement. "Mr. Borden spoke in Montreal on Saturday, Oct. 15. On Monday, the 17th, Mr. Graham sent three thousand dollars to Mr. Pelletier's committee. Mr. Blair had then resigned from the railway commission on the 18th, expressing his willingness to take the stump against the G.T.P. On the 21st Mr. Graham sent Mr. Giroux three thousand dollars in the same way. On the 24th when Mr. Borden was riding in Mr. Russell's car Mr. Graham sent four thousand dollars in the same way. On the 25th, when Mr. Borden was pondering his course, five thousand dollars in the same way. The warning against people who were opening their purses came on the 26th, and the last four thousand in the same way went on the 29th, at which time it was perfectly clear that Mr. Blair would not speak and that the effort to intimidate certain ministers had come to nothing. (The elections were the next week.)"

The St. John, N. B., Evening Times (Ind. Con.) is not in favor of putting up any fight against the return of Dr. Pugsley as member for the City and County of St. John. They formerly urged to the contrary notwithstanding. There is no telling in advance what the Conservative convention will do relative to the coming by-election. It is certain, however, that many of the older heads, and those upon whom would fall the heavier part of the burden of a contest, are not favorable to the nomination of a candidate in opposition to Hon. Dr. Pugsley. Some younger members, with nothing to lose and possibly some publicity to expect, are said to be keenly in favor of a fight."

There is considerable interest throughout the country as to who is the directing mind behind the two Conservative papers in St. John. They formerly belonged to David Russell, but it is said were sold to a syndicate, in which Messrs. Graham and McNabb of The Montreal Star are prominent. There is a bond of sympathy between Mr. Russell and The Star people, and Mr. Russell will be the man next to the minister, with Dr. Pugsley in the cabinet.

Hon. B. F. Pearson and Mr. Russell, between them, are quite influential as newspaper owners in the Maritime Provinces. It would be interesting to know just how far they are working together. One thing is certain, and that is that the Pearson papers are also busily booming the new minister.

The Fredericton Gleaner (Con.) recalls Mr. Pearson's influence in the days when Hon. Mr. Emmerson was minister of railways and canals, and

The Mr. Henderson above mentioned is a prominent Conservative, but that such subscription could be scandalous, nevertheless, and its cancellation was handily vindicated thru the libel suit that followed. The Herald is a clean independent paper, owned and edited by William Dennis, and while loyal to R. L. Borden and the true principles of the Conservative party, it is remarkably progressive and independent.

In Thursday's issue, under the heading "Political Intelligence," The World gave credit to The St. John Sun for an article which appeared in The St. John Globe.

ACCEPTS TORONTO CALL

Rev. Mr. Stauffer Eager to Undertake "Down Town" Work.

Rev. Byron Stauffer has written from Buffalo, accepting the call to the pastorate of Bond-street Congregational Church, and saying: "Many of my friends have asked me why I contemplate a step that includes a change of city, of nation and of clime. My answer to them may be to you some hint as to my attitude towards your work. I reminded them of a young man of ancient days, who, when his choice of a bride was challenged by his parents, said: 'Get her for me, for she pleases me well.' Bond-street Church pleases me. Its problem—the problem of the down-town church everywhere—is that about which our Saviour would most concern Himself. He here in the flesh to-day. "In being the task before me, I am conscious of its importance and my lack of strength. But, blessed be Jehovah, my help cometh from the Lord, which made heaven and earth. I shall need your prayers and the hearty support of all of you. You will overlook my faults and my mistakes for the sake of the goal of true success toward which we will set our faces. The captain of our salvation Himself outlined the goal for which we must aim. "To preach good tidings unto the meek, to bind up the broken-hearted, to proclaim liberty to the captives, to appoint unto them that mourn in Zion, to give unto them beauty for ashes, the oil of joy for mourning, the garment of praise for the spirit of heaviness; that they may be called trees of righteousness, the planting of the Lord that He might be glorified. "I look forward to the day of the beginning of my pastorate, Sunday, Oct. 6, with an impatient longing to begin the work, for I am already drawn toward you in love."

Ezio Coroneo of Giannetti Bank Tells His Story at Coroner's Inquest.

At the adjourned inquest into the death of A. Giannetti, head of the Banco Giannetti, at the city hall last night, Ezio Coroneo, the clerk who latterly had charge of the affairs of the bank, testified the literature of the banco was misleading and untrue, and that it was rumored that Giannetti attempted suicide on a previous occasion.

Inspector Hughes Submits Report of the Features of European Education That Would Be Desirable Here—Advocates Teaching of Swimming.

Judging by last night's meeting, the public are not all satisfied with the arrangements made by the board of education to relieve congestion at the collegiate institutes. Wednesday morning the parents of the Harbord district tried a meeting in the collegiate institute and decided to protest against the sending of any of their children to classes in the King Edward or any other public school.

WHY THE PUBLIC SCHOOLS

The educational authorities of England have made excellent provision in many of the cities for technical training. I saw fine technical schools, well equipped in London, Manchester and Birmingham, but the attendance at these schools is largely at night.

"The educational authorities of England have made excellent provision in many of the cities for technical training. I saw fine technical schools, well equipped in London, Manchester and Birmingham, but the attendance at these schools is largely at night. It is hardly reasonable to expect boys and young men to study much at night after working all day in a shop.

"While we are quite as far advanced in our city as in providing for games and sports, I found that the schools, both in Great Britain and on the continent, pay much more attention to regular physical training in the schools than we do in Toronto. As I have reported to the board previously, I believe our failure to provide for the systematic physical development of the children is one of the defects of our system.

"The British and German schools are very much in advance of ours in providing for the training of the children in swimming. In Bradford, for instance, a city not so large as Toronto, there are 14 public swimming schools, in which the pupils of the schools are trained to swim, without charge.

"I like the system of having municipal baths better than that of having swimming baths in the schools. It is time that Toronto had swimming baths, and especially to float, which is a means of avoiding drowning accidents, is of more importance than swimming.

"In connection with the school sports, I found a feature worthy of consideration. The schools of neighboring cities give a league for football or other games, and the matches are held on the grounds of the leagues, and are of great interest.

"School Gardens. "I saw some excellent work in school gardening in Germany, England and Wales. If the school grounds are not large enough, the school boards rent large grounds, in which the pupils are trained to grow both flower and vegetable crops. Country children usually have three great advantages over city children. They have more free play, they have better opportunities for producing in gardening, and in planting corn, potatoes and other vegetables in the fields, and in giving them a real job to do, and in developing their character development.

"The witness spoke in connection with the schools in Germany more than 60 years ago, and of the large cities in the United States, have got ahead of us in this important department of character development.

ENGINEER TELLS STORY

"This was because of the unusual rate at which the train was making on the fatal trip. The slowboard is the only order special for the horseshoe. JUDGES OF PEACE

Will Get \$2400 a Year and \$40 a Day Extra.

THE HAGUE, Sept. 5.—Joseph H. Choate, one of the American delegates to the peace conference, has been selected to-day of obtaining approval for the entire American project, except the paragraph referring to the allotment of judges.

Choate has been decided that the judges of the court are to receive a fixed salary of \$2400 a year, and, in addition, \$40 a day while sitting on the court.

REPORTS ON ESPIONAGE NOT YET PREPARED

Officials Make Excuses for Delay—Issues of Debentures—Another Park Wanted.

Procrastination dogs the movements of the board of control in regard to the Espionage problem. The subject was again discussed at their meeting yesterday, but no progress was made, and the chances of the city's case being ready for the meeting of the railway commission on Oct. 1 are very slender.

The board decided to widely advertise the advantages that will accrue to the city from the spending of \$750,000 on the extension of the water mains and a new engine. Ratepayers will vote on this bylaw on Sept. 14.

Controller Hubbard gave notice that he will move the board's power from the legislature to issue \$50,000 in debentures for the purpose of erecting a new wing to the hospital for the blind, where city patients will be sent. The medical health officer will report on the number of city patients now in the hospital.

The board decided not to send Governor Chambers to the Prisons' Congress at Chicago.

The board decided to exercise control over the use of advertising billboards, so as to prevent the beauty spots of the city being disfigured.

The parks and exhibition committee was waited on by a deputation of residents on College and Bloor-streets, in the vicinity of Crawford-street, yesterday morning, who asked that seven acres of the Bickford ravine, running from Bloor to Crawford-street, be kept for a park.

The park commissioner opposed the removal of the fountain presented to the city by the late Mayor Angus Morrison from opposite the ferry sheds, on Lake Street, to Riverside Park.

Work on the new athletic field opposite Island Park, formed by reclaiming forty acres of marsh, is now ready.

NEW C.N.R. TIME TABLE. Changes in Northbound Trains Go into Effect To-day.

The Canadian Northern Ontario Railway Company has just issued a new time-table, No. 6, which goes into effect to-day.

Considerable change has been made in the running schedule, and the regular northbound passenger trains now leave the Union Station at 8 a.m. and 1.30 p.m. The lake shore express has been discontinued for the present season, and from Washago north to Parry Sound there will be but one train daily, which leaves Toronto at 9 a.m. each morning going right thru. The changes in the number of trains have been made on account of the heavy volume of tourist traffic which comes at the end of the season.

FELL FROM STREET CAR. Harry Moon Has Fracture of the Skull and May Die.

Harry Moon, an English farm hand employed near Paris, Ont., fell from a northbound Bell Line car on Sherbourne-street, near St. Andrew's street, this morning, and is in a critical condition in St. Michael's Hospital with a fractured skull.

Harry Moon wished to get from his seat to the smoker, and in doing so lost his footing.

Strike Ending. It is likely that the trouble between the G.T.R. and the machinists who went on strike several weeks ago will be satisfactorily adjusted in a few days.

Conference of three leaders of the strikers was held at the Union Station yesterday morning, and as a result the men will probably return to work on their positions on Monday.

Discontinuance of Muskoka Night Express and Jackson's Point Special. The 2.40 a.m. Muskoka Express will make its last trip Saturday, Sept. 7, to Buffalo, leaving at 12 o'clock a.m. The Jackson's Point special will be discontinued after Saturday, Sept. 7. The 4.30 p.m. Jackson's Point will run daily except Sunday, commencing Monday, Sept. 9.

ENTITLED TO PARTICULARS. One ounce Fluid Extract Dandelion. One ounce Compound Salutarina. Four ounces Compound Syrup Sarsaparilla. Mix, and take a teaspoonful after meals and at bedtime, drinking plenty of water.

The above prescription has been found invaluable in the treatment of kidney, bladder and urinary ailments, such as rheumatism, scatica, lame back and lumbago, and we feel that the public are entitled to particulars concerning it.

A prominent physician states that the excellent results that have been obtained from the use of the mixture are due to its direct action upon the kidneys, assisting them in their work of filtering all poisonous waste matter and acids from the blood and expelling same in the urine, and at the same time restoring the kidneys to a healthy condition.

He further states that anyone suffering from afflictions of this nature will find it to be very beneficial, and suggests that it be given a trial.

TWO USE LAUDANUM TO END THEIR LIVES

Mrs. W. J. Cane and Pte. Degnan of Stanley Barracks Victims of Despondency.

Two residents of Toronto committed suicide with laudanum within a few hours of each other.

Mrs. W. J. Cane of 282 Salem-ave. was found dead by her husband shortly after midnight Wednesday on his return from Guelph.

She was about 33 years of age. Some four months ago she lost her second child and became mentally depressed.

Twice before her husband had thwarted attempts at self-destruction by razor and drug. Mrs. Cane has only recently come to Toronto from Detroit.

When he found his wife dead he summoned a doctor and then went to report the occurrence to the police. He was in such a state of collapse he had to be cared for.

The other one to use the fatal drug was Thomas W. Degnan, a private in the ordnance corps at Stanley Barracks. He was found unconscious close to the south end of the Bathurst-st. bridge about 10 o'clock yesterday, and was rushed to the Western Hospital, but died in a few minutes. He had taken three ounces of laudanum.

He was an Englishman, 40 years of age, who enlisted here in December. He leaves a wife and family in the old country. The officers say he was of steady habits.

BOY RULES ANNAM. Monarch of Eight Years of Age Assisted by a Ministry.

PARIS, Sept. 5.—A despatch received here from the Governor-General of Indo-China declares that Thanh Thai, the deposed King of Annam, has abdicated in favor of his eight-year-old son, who now rules Annam with the aid of a regency consisting of the council of ministers.

Thanh Thai was deposed by the French residents of Annam and interned in his palace at Hmo July 30 last. This step on the part of the French authorities was taken only after a long series of negotiations, committed by the king had made it impossible for him longer to remain on the throne.

BURGLARS GET \$4000. Bank Manager's Residence in Ottawa Looted of Jewelry.

OTTAWA, Sept. 5.—(Special).—The residence of D. M. Pinnie, assistant general manager of the Bank of Ottawa, 308 Queen-st., has been entered by burglars. Diamonds, jewelry and plate to the amount of \$4000 were taken, while the family were on their holidays.

AT OSGOODE HALL. Suit for Injuries.

Uno Mustonen is claiming \$2000 damages from McGregor and McIntyre, Limited, for personal injuries alleged to have been received thru the negligence of the company's servants.

To Recover Possession. To recover possession of certain lots on the west side of Cockburn-avenue, in the Township of York, Thomas Webb has issued a writ against Harry R. Roberts.

Injured by Automobile. W. J. Todd of Hamilton has begun an action against Robert P. Inglis, for damages for injuries received by the negligent driving of defendant's automobile.

Promissory Notes. J. R. Munshaw of Wingham is being sued by E. R. C. Clarkson, as trustee, for \$382.96, on four promissory notes, signed by Munshaw and endorsed to Clarkson.

Judgment Granted. The Canadian Fairbanks Co. recovered judgment against W. Mashinter & Co. for \$455.82 and costs.

Default Judgments. E. R. C. Clarkson has obtained default judgments against W. A. Platt for \$301.61 and costs.

Overdue Notes. John Wilson of New Liskeard claims \$1430, on four promissory notes, amounting to \$1430, which are now overdue and unpaid. A writ of summons has been issued to recover the amount.

Injunction Asked. Thomas Crawford is asking the court for an injunction to restrain the Leaverton Mine, Limited, from entering upon, prospecting and mining upon the southwest quarter of the north half of lot 3 by the 4th concession of the Township of Coleman.

Failed to Appear. Ralph Jones did not appear to the writ of summons issued by Sandilands & Sons. Judgment was therefore signed against him for \$448.40, the amount claimed, and costs.

Horse Was Injured. J. H. Cline alleges that owing to the Canadian Express Co. supplying a defective car for shipping his horse "Sailor Knoll," from Hamilton to Windsor, the animal received injuries for which Cline wants \$800 as damages. A writ of summons has been issued against the company for that amount.

Gore Bay Improvements. David Bickell obtained from the local judge an injunction restraining the municipality of Gore Bay from opening up a street thru his property. He asked the court to continue the injunction until he has four children and his lordship dissolved the injunction upon the municipality undertaking not upon the municipality injure the trees on the land in question.

Strayed Into Court Dock. W. E. McElvey of Hamilton was taking a look thru the city hall yesterday in the vicinity of the police cells. He suddenly found himself in the cells. He wandered around and saw the stairway which leads to the police court dock.

He went up just as the magistrate was closing the court.

"What is this man's name?" inquired his worship.

BOY'S HEROIC DEVOTION. Sympathy Aroused by Touching Story of Harry Lewis.

LONDON, Sept. 5.—Widespread sympathy has been aroused by the touching story of Harry Lewis, the Tottenham boy who sacrificed his young life for his mother's lodging and gave him food.

The boys were found sleeping out, and were taken in charge by a policeman. At the police court Harry said their mother had not allowed them to sleep at home for the last four years.

"When I get any work to do, I pay for by brother's lodging and give him food," he added. "When I cannot get any work I sleep out."

The mother boy was sent to Mr. Gould, a butcher of Edmonton Green, who has now given him permanent employment, while Charles was remained in the workhouse.

Harry Lewis, who is just fifteen years old, told something of his touching story of Harry Lewis, the Tottenham boy who sacrificed his young life for his mother's lodging and gave him food.

"I climbed over a fence, and lay down. The night was bitterly cold, and I drew my younger brother close to me for warmth."

"Poor little fellow! he could not rough it as I can. We had walked about for hours, and I had sent the younger boy to his full height."

"But I don't mind," Harry declared, "I can work for both. I wish he was with me now. He will be, I know. Nothing can part us for long."

"He went on to go into a home," he continued. "He is such a little fellow that people would take advantage of him."

"We have always managed to maintain ourselves. If one has gone short so has the other. I gave my brother half of what I earned, and I am proud of the younger boy's refusal to enter a home, and the authorities are in a quandary regarding him."

AGRICULTURAL FACTS AND FEATURES OF 1907. Our good roads laws are failures. It is baby legislation. Massachusetts pays three-fourths of the cost out of the state, and taxes her railways \$1400 a mile.—J. F. Beam, Welland.

It was the development of our agricultural resources that made the United States great. We want all Canada's farm products free.—H. M. Whitney, Boston.

The Milk Producers' strike was the result of a squeeze from a trust in Toronto, who wanted to down the farmer. We were right.—L. E. Annis, Scarborough.

The Grange has existed for a long time, and has done a great good to our farmers, but it has not been as strenuous in fighting for political reforms as it, perhaps, might have been. But its good organization is one reason for the Farmers' Association joining it.—E. C. Drury, Crown Hill.

I was born and lived on the farm until I was 20 years of age. I believe it is the vigor, manliness and all-round usefulness of the Canadian farmer's son that enable him to cope with the world.—Hon. Adam Beck.

Thirty years ago the Grange was a great power. Ten years ago, discouraged by the turn of events, it ceased aggression. Recently there are signs of life, and the Grange will be heard from again.—Capt. W. L. Smith.

I believe the advent of electric power on the farms of Ontario to be one of the greatest boons to our farmers of the province that can possibly come. The way farms are run by electricity in France, Germany and Switzerland would make us seem slow.—Hon. Adam Beck.

Let our country fair grounds be opened up to the public through fairs, and let a better citizenship arise from the free use of these grounds for all kinds of demonstrations and meetings.—President Creelman, Guelph.

Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beatty at the close.

The sharp reaction in the market to-day after a strong advance of yesterday was caused mainly by the moderate reaction on European markets and the falling off of export business. The break has caused cash wheat holders to let go a little. There was selling both cash and futures by foreigners early and considerable unloading by miscellaneous long holders. Weather remains cloudy but no indication of further frost. Believe that the reaction to-day has been healthy and has more appearance to it than the one which Ennis & Stoppard wired to J. L. Mitchell at the close.

Wheat ruled lower this morning, due to disappointing Liverpool cables, which reported prices unchanged as a result of a decline in Berlin. There was a sharp recovery and wheat held steady around the dollar mark for December. United States wheat is being sold in large quantities and the selling out of many long accounts, which carried prices down over 2c below yesterday's close, around which point order-books were taken and a partial rally revived, market thereafter ruling very nervous and closed up far from the low point. The day's important news included good sales of flour, both domestic and foreign, of wheat at a better price than yesterday and advice from North Dakota that damage resulting from heat and frost was becoming more apparent to-day. Around to-night's closing prices we would not hesitate to advise purchase of wheat.

Corn and oats—Were steady to firm, the former being more susceptible to realising sales, the latter abating higher prices.

Charles Gillett to Peter J. Morgan: Wheat—Liverpool cables were unchanged this morning and Berlin is lower, causing considerable selling in the local market. The market was increased by the announcement of the failure of a large export account, New York concern. Minneapolis and other western centres. Considerable export business was done on the break and the concentrated holdings of the outside public and local crowd were thoroughly shaken out of the market, which is now in a healthier position than for several days past.

Canadian advice continues bullish as well as states. Cash markets were 1/2c lower. The break has gone about 1/2c below and should show a sharp recovery before the end of the week. Should continental cables come firm to-morrow we would advise purchase.

The market eased off with wheat on selling to secure profits. The latter hour's trading was selling freely. Weather conditions much too cool for best results, and the cash demand was small to permit of accumulations, and with the crop in a bad way we would advise purchase for an additional advance.

Oats—The market was very tight, and the point of contact for the day was that any small purchases advanced prices. Cash oats are scarce and tight to buy at present.

Melady & Co. received the following Wheat—Values to-day suffered severely from a deluge of long stuff in the market, which appeared at a radically bearish as it was bullish yesterday. The trade generally figured that the market had been too pronounced, and the handsome profits in sight naturally prompted a sharp reaction. The report of a big Minneapolis house had some depressing effect, and it was the belief that much of the selling was for profit taking. A general run of news lacked much of the bullish color which had been in evidence. Weather north-west, while far from perfect, was a little better than yesterday. Berlin lost a fair profit-taking by scattered longs. The market was steady, but the close was greater than the previous day. Cash trade was fair, early prices being strong and higher. Clearances were 85,000 bushels.
