McPherson in the West
After a Battle Royal
Lasting Until Morning

Big Crowd of Delegates Through Hall and Distribution of Ballots is Difficult - Laxton Falls in the Third Ballot.

NORTH TORONTO LIBERALS ENDORSE DR. HOSSACK

W. D. McPherson, K.C., was chosen last night or early this morning as Hon. Thomas Crawford's running mate in West Toronto, after one of the longest and most stubbornly contested party conventions ever held in Toronto.

Mr. McPherson's nominators and seconders were E. H. Radford and W. Kerr, respectively. At one stage the meeting broke out into disorder as Mr. Radford's being refused the right to vote on the ground that his name was not on the official list.

The ballots were:
First ballot - W. D. McPherson, 142; John Laxton, 88; J. H. McGhie, 82; John Tyler, 23.

Second ballot - McPherson, 151; Laxton, 85; McGhie, 55.
Final ballot:
McPherson, 212; Laxton, 122; McGhie, 122.

The result of the final ballot was announced at 1:40 a.m., and was received with loud cheers. Mr. Laxton men moved that the nomination be made unanimous, which was carried.

L.O.O.F. Hall at Queen-street and Northcote-avenue was packed at 8 o'clock, and half an hour later was densely jammed by the 346 delegates. The atmosphere was soon become almost stifling, but with excitement at fever heat there were no deserters during the long hours of the balloting.

E. W. J. Owens was chairman with W. D. Eargary as secretary. Others who graced the platform were: Hon. Thomas Crawford, Hon. R. A. Payne, W. K. McNaught, M.L.A.; Dr. Forbes Godfrey, M.L.A., and a host of others.

The name of Hon. Mr. Crawford was the only one submitted for "Class A" honors. His nominator was David Spence with J. S. V. May as second. Amid much enthusiasm he was declared to be the candidate.

Later the chairman announced that a second nomination had been handed in after the time limit, and he ruled it out, which action was approved by the meeting.

The nominations were in this order: Aid. J. H. McGhie, W. D. McPherson, Dr. R. B. Orr, John Laxton, E. E. Ryckman, John Tyler, E. C. Davis, Capt. James Knox, G. R. Geary and A. W. Wright.

Then followed some warm wrangling over the manner in which the ballot should be distributed. Finally many quarters of the hall complained that persons not accredited delegates had gained admission. Finally the chairman ruled that the only way to proceed was to hear the delegates called by name to the platform to receive their ballots.

The nominees were then given their ballots. A. W. Wright was not present, and his nomination by Hocken, not having received instructions from Mr. Wright that he would pledge his support to the winning candidate, as required by a vote of the meeting, he was dropped from the list.

E. C. Davies retired in Mr. Laxton's favor, amid tumultuous applause. Mr. Geary said he could not be a candidate for the present, "not for the local house, anyway."

Mr. Tyler announced a positive determination to remain in the lists, but Mr. Ryckman retired, also in favor of Mr. Laxton.

Mr. Laxton was given an ovation and delivered a characteristic speech. After 28 years' party service, he considered that he deserved some reward, he modestly admitted. He had been asked to oppose Hon. Mr. Crawford in the last election, but had said "not for mine," with cheerful self-abnegation. Now, however, he was prepared to "sacrifice himself for the country's interest."

"If you elect me, I feel that I can do my duty as well as Mr. Crawford or even Mr. Wright. If I have been said that I will be defeated or nominated, but I defy any Grit to beat me," he challenged.

Dr. Orr retired, also with flattering reference to Mr. Laxton. W. D. McPherson urged that a nominee be chosen who would meet with public approval. Aid. McGhie pointed to his civic course as a reason why he should be elected.

HASSOCK VS. SHAW.
North Toronto Liberals Do Not Want to Oppose McNaught.
The North Toronto Liberal Association in convention assembled last night endorsed the candidature of Rev. Don-ald C. Hassock, thus leaving him as a candidate nominee.

of 40 delegates certified by the secretary of the association was presented and taken as a ballot. They were not all there, but a hall was well filled and with a highly respectable class of citizens. There was no smoking in the hall and the proceedings were of a solid and orderly nature.

One Man Can Inquire

OTTAWA, May 14.-(Special.)—Hon. Mr. Graham's bill to enlarge the railway commission and increase their powers was given its third reading to-night.

A new provision was introduced to allow a single commissioner to hold enquiries and report to the board, which may adopt the report as its judgment.

STATEMENT IS GIVEN OF THE INSURANCE BUSINESS OF 1907

Figures Show a Big Decrease—Fire Companies Paid Out Nearly \$6,000,000.

OTTAWA, May 14.-(Special.)—The finance minister tabled to-day the abstract of statements of insurance companies in Canada for 1907.

It shows that the total amount of life insurance effected in Canada during the year was \$90,654,482, a decrease of \$4,157,723 as compared with 1906, but a falling of nearly ten millions as compared with 1905.

The decrease for 1907 as compared with the preceding year, Canadian companies contributed \$179,967; British companies \$970,683, and American companies \$4,188,723.

The net amount of the life insurance companies shows, however, an increase of \$782,586, the total being \$3,147,042, as against \$2,364,456 in 1906.

The increase of premium income of the Canadian companies was \$874,894, \$24,506, an increase of \$39,983,696 as compared with 1906. To this net increase Canadian companies contributed \$29,708,877 and British companies \$888,242, while the insurance in force at the end of the year was \$689,324,506, an increase of \$20,983,696 as compared with 1906.

Canadian companies paid during 1907 in death benefits \$4,800,000. Total net insurance endorsements \$1,158,083. British companies paid \$769,330 in death claims and \$527,425 in endorsements. American companies paid \$2,550,859 in death claims and \$1,116,952 in endorsements.

The fire insurance companies received \$8,959,941 for premiums, and paid for losses \$3,894,629.

THERE'LL BE LOT OF ROOM FOR VISITORS TO QUEBEC

Such is the Expectation of the Committee—Arranging for Prince's Comfort.

QUEBEC, May 13.-(Special.)—A careful census of the houses, rooms, etc., to let for the tercentenary just completed shows accommodation ready for at least thirty thousand, and as the tent city with accommodation for six thousand is now assured, not much apprehension is felt as to lack of housing room.

Information just received from Ottawa by local military indicates that at least ten to twelve thousand troops will be here for the fetes.

It is understood that Col. J. Hanbury Williams, C.M.G., and Joseph Pope, C.M.G., have been appointed to make all the necessary arrangements for the proper reception and entertainment at Quebec of H.R.H. the Prince of Wales and suite, during the Champlain tercentenary, as well as to look after the comfort of the other invited guests of the national commission, including the representatives of France, the United States and the sister colonies of Australia and South Africa.

The French government has decided to send an official representative to the fetes in accordance with the invitation from the commission, and one is also expected from Brouage, the Marquis DeMonteale and the Marquis DeLévis, the closest living connection to the former generals, have been invited. It is feared that ill-health may prevent the attendance of the Marquis DeMonteale, but the Marquis DeLévis is confidently expected.

Lord Strathcona, Canadian high commissioner in London, has been invited, and an acceptance to the Irish lord has been received from Ireland from Mr. George Wolfe, the nearest living representative of the family of the famous general.

GANS BEAT UNLONZ.
SAN FRANCISCO, May 14.—Joe Gans went into the ring at the Coliseum to-night to fight a favorite over Rudolph Uhl. The fighting Boer Gans found the newcomer a fair proposition, the battle going eleven rounds, when the colored man was declared the winner.

STRONG EVIDENCE RESULTS IN CHARGE

Coroner's Jury Declare Swyryda Guilty of Murder—Witnesses Clinch His Identity.

So positive was the testimony deduced at Coroner Sutton's inquest at Erindale yesterday that the jury did not waste any words upon suspicions or suppositions, but returned a straight verdict of murder against Stephen Swyryda in connection with the death of Olecka Luteck, the youth who was found on May 3 with his head crushed in at Paeken's bush, near Clarkson's.

The jury took less than a half hour to arrive at the following conclusion: "That Olecka Luteck came to his death on or about the night of April 16, from being struck on the head with a club or weapon of similar character by one Siffkin Swyryda, who did thereby kill and murder the said Olecka Luteck."

It is evident that E. G. Morris, who appeared to act as counsel for the accused man, will endeavor to prove an alibi. His hints, however, in this direction had no effect upon Detective Miller's chief witness, namely, Albert Wier, the C. P. R. fireman, who swore positively that the prisoner was the same man who had been washing what appeared to be blood stains from his hands in a culvert on the morning after the crime is supposed to have been committed.

Further strong circumstantial evidence will be given by Mrs. George Manley at the preliminary trial next Wednesday at Cooksville. Detective Miller did not have her called yesterday, but she was at the inquest and an interview with The World declared that she recognized the prisoner the minute she set eyes on him as the man she saw near the southeast entrance to the bush on the night of the 16th.

This, with the C.P.R. fireman's evidence, appears to clinch the case, that the two were together just prior to the murder and that the prisoner was leaving the vicinity alone on the morning after.

Fireman's Evidence. The first question that Crown Attorney McFadden asked Albert Wier was: "Did you ever see that man before?" "I did, sir."

"Where?" "Between Clarkson's and Lorne Park on Good Friday, about mileage 25, 13 miles out of Toronto, at 9:52 a.m."

"Where was he when you saw him?" "There was a culvert, and I was apparently, blood-stains from his hands."

"Are you sure?" asked Mr. McFadden. "Yes, sir. I thought the man had been either struck by a train and rolled into the ditch, or had been stuck with a knife in some Italian fight."

Further questioned the witness stated that he was taking the 9:30 C. P. R. passenger train to Hamilton and at that point was followed by about 60 miles per hour. He noticed the man kneeling down in the ditch washing, and when the man came almost abreast of him the man drew himself forward on the bank and looked right up into the witness' face. Wier said he had got a good enough look to leave a lasting impression.

The second time he saw the prisoner was about 8 1/2 miles out of Toronto, walking towards the city at about 1:05 p.m. Witness' attention was drawn particularly to him from the fact that he had the lower part of his face covered with a red and white garment, leaving barely enough of the face exposed to permit his seeing his way.

At this juncture Swyryda's lawyer asked: "If parties were brought to the trial to-day, it would have been impossible for this man to have been in that locality at the time you say you saw him, would you contradict that?" "Yes, sir," said Wier.

Thos. Brooks, an employe of Mr. Fasken reported having found Luteck's broken valise and produced a piece of the grip which was promptly identified by Mrs. Anna Vasilina, 129 West Adelaide-street, Toronto, as part of the one the unfortunate young man had carried when he started out with Swyryda.

Mrs. Vasilina corroborated the fact that Luteck was taken away from her house on the afternoon of the 16th by Swyryda; that the latter came back alone the next afternoon and said he had left the boy on a farm at a salary of \$7 a month. The accused had paid her husband \$1 that night, but he had never paid her for his board while in the house, and she kept track of every bit of food she had cooked for him, because he had promised to pay her as soon as he got work.

Sent Money For Wife. On Saturday following Good Friday he had told her he sent his wife in Rochester \$5 and a railway ticket in a sealed envelope. The next day (Sunday) he was arrested, and a few days after he bought her a skirt.

Lawyer Morris asked her if the accused had money had been sent after Good Friday and she answered "Yes."

Mr. McFadden insisted that the question be put thru interpreter Nasau Johnson, and Mr. Morris said he preferred another interpreter. Thereupon Frank Mansky, a Polish, who was brought into commission. He confirmed the statement that the \$5 was sent thru Good Friday, and Siffkin Vasilina, husband of the

APPEAL TO COMMISSION FOR SUBURBAN SERVICE

Residents of City and Surrounding Places Vitrally Affected Should Appear Before Railway Board Here Next Week.

A suburban railway service for Toronto seems very near at hand, especially if those desirous of such service unite in a determined effort to lay their case before the board of railway commissioners. The World has also good authority for saying that a prominent railway man intimated the other day that he had been asked to call on the Grand Trunk had a leg to stand on after it had been made clear, as it could be made clear, to the commission, that first-class services were given by both companies in Montreal, with commutation tickets to all stations in the suburban area, and that nothing of the kind was given in Toronto, although equal, and perhaps greater need existed here for such a service than in Montreal.

It is also intimated that one of the companies is ready to start a service now. Rather than see the commission asked to intervene, they will make the venture. The World again has to point out that the bucket shops are known, were in a nervous condition all day yesterday. The New York stocks were running high on Wednesday, and many accounts were cashed in for the purpose of taking profits with a local brokerage concern of fairly long standing.

It is usual for all accounts to be paid out either at the time of closing the deals or the morning following. Several offices with wire connections with the Acme Stock and Grain Commission Co. did not get their regular remittances yesterday morning.

The Acme Stock and Grain Commission Co. have an office on State-street, Detroit, and have about ten offices at Toronto doing business with them. The same company have wire connection with offices at Berlin, Woodstock, London, New Hamburg, St. Thomas, Sarnia, and other Western Ontario towns.

The owner of one of the leading local offices having connections with the American firm left town yesterday to find out the state of affairs in Detroit. The losses by the "lay-down," as far as Toronto is concerned, unless a compromise is made, are estimated at between \$50,000 and \$100,000. One office, and a small one at that, expected a cheque yesterday for \$500, and this, with others, failed to come in the usual way.

TO CAMP AT GODERICH.
Military District No. 1 to Desert Carling's Heights.
OTTAWA, May 14.-(Special.)—As a result of the conflict between the military and the "moral reformers" of Logan, over the sale of liquor at the military camp, the men of District No. 1 will this year encamp at Goderich, instead of at Carling's Heights. There will be 500 men in the camp.

ONE MAN WAS KILLED.
MONTREAL, May 14.-(Special.)—When the steamer Ottawa arrived today in port the captain reported that when his steamer came into collision a man named John Taylor was killed in his bunk, and four other men injured somewhat by the falling of a large quantity of iron on them.

TRYING TO HURRY THE MARINE ENQUIRY

Opposition Blamed For Overworking Cassels, but Developments Show Otherwise.

OTTAWA, May 14.-(Special.)—This afternoon the house was occupied with miscellaneous matters, a temporary truce being signed for the purpose of getting thru a few government bills of a non-contentious nature.

To-morrow the fight on the Aylesworth election bill will be resumed, and will continue till one side gives way or the government is forced to ask for dissolution. This was decided on at a Conservative caucus this morning.

Sir Wilfrid Laurier moved the appointment of the following committee to investigate the finances of the Quebec Bridges Co.—Maclean (Laurier), Talbot, Gallinger, Chisholm (Antigonish), Monk, Barker and Walsh (Huntington). This was carried.

It is to discuss a matter of urgent public importance, namely, the present condition of the marine department in view of the slow progress of the Cassels enquiry. He reviewed the circumstances which had brought about the enquiry. The condition of the department, as shown by the civil service commission, seemed to call for vigorous and immediate action. Judge Cassels was a busy man, in fact there was more than enough work to keep him busy for some months. Judge Cassels refused to undertake the work of investigation, if his own court would suffer in consequence. He stated that these circumstances the government appointed him, and he undertook the work.

Time to Hurry. Mr. Foster recalled that only two days were occupied in this enquiry during which the lawyers "broke their backs" in vain against the adamant front of the commissioners without getting a great deal of information. In outlining his duties Judge Cassels worked hard among the officials. The enquiry was limited, but under the powers given him the work would be thorough.

It was clear, said Mr. Foster, that the Cassels enquiry could not be resumed for at least six months. He worked with the shadow of serious accusations over them. Several officials were under suspension and their charges were proved or disproved. He believed that in the marine department the majority of the officials were honest. Because of the suspicion directed against the department the whole department was in a state of demoralization. The necessity of an immediate investigation was pressing home strongly.

Mr. Foster had been brought out that a carbide company with a cabinet minister interested sold to the government without competition. Mr. Broderick declared that carbide was obtained by public tender, but the evidence of T. L. Wilson, said Mr. Foster, showed that the carbide companies were controlled by the same interests, they were all Willson. Such things as had come out had not increased the confidence of the people in the government. Mr. Foster said he proposed later on to expose another company in which a present member of the cabinet had taken an interest.

Blames the Opposition. Sir Wilfrid Laurier declared that Mr. Foster was out of order in discussing a matter that had been referred to a commission. Sir Wilfrid had reason to believe that all the carbide companies were not controlled by the same persons, at least the Shaw-Inglan was not controlled by a man who owned the other two. If Judge Cassels was not permitted to proceed with his work owing to his court duties, it was the fault of the opposition, and he would give the evidence as to this. He proceeded to read a letter from Judge Cassels, which stated that he understood the minister of justice had a bill before the house to confer powers on the registrar of the court to try cases pending. Such a bill was on the order paper.

Mr. Foster got the prime minister to say that Mr. Aylesworth's bill was introduced before Judge Cassels wrote the letter.

"Will my right hon. friend say when, since it was introduced, the bill has been pressed?" asked Mr. Foster.

"I ask what business has been done by this house," replied the prime minister, and continued that the first duty of the government was to provide money for the expenses of the country, and day after day the government had moved the house into supply and was met by the deliberate obstruction of the opposition.

Mr. Borden stated that the exchequer court bill had been introduced in the house exactly four weeks before the letter of Judge Cassels was written. If the prime minister would confer on the opposition the right to register any business on the paper the exchequer court bill would be brought on at once.

Amendments Not Drafted. Dissecting the bill referred to Mr. Borden found that as drafted it did not confer on the registrar the duties of the exchequer court suggested by Judge Cassels.

"Have the amendments necessary to confer these duties on the registrar been drafted?" he asked the prime minister, who sat silent.

The motion was lost. The house to-night took up the bill to amend the Exchequer Court Act, by making provision for the registrar the exchequer court to dispose of work in chambers that is part of the duties.

ASK GOVERNMENT TO PAY AN INSPECTOR

Protection for Gas Consumers is to Be Sought by the Board of Control.

A decision to ask the Dominion Government to appoint an officer to test gas meters in the city at no expense to either the gas company or the consumer was reached by the board of control yesterday.

The board thought this might have been due to leakage.

The mayor in suggesting recourse to the government remarked that it would be impossible to test all the meters, there being more than 40,000 in use.

ABOLISH SCHOOL FEES.

Dr. Hunter Brings Motion Before the Management Committee.

"I want to make a motion to the effect that all suggestion of fees in a public school be struck out from the kindergarten to the university," said Dr. John Hunter at the meeting of the management committee of the board of education yesterday afternoon.

The doctor made this statement because of a clause in the report on the technical school, stating that while the lower grades in that school were free, there would be a small charge in the higher years.

Tenders for uniforms for the high school cadets will be asked. There are 80 cadets, and the uniforms will cost about \$3 each.

In the matter of putting maps of the new western provinces on the geographies, the lowest tender, that of W. J. Gage & Co., \$125 a thousand, was accepted.

Circulars will be sent around to the parents of fourth book pupils, asking them to have their children take a commercial or technical education after leaving that grade.

HEAVY INSURANCE LOSSES.

\$200,000,000 Went up in Smoke in United States Last Year.

NEW YORK, May 14.—Speaking of the burning of the schoolhouse at Collinwood, a suburb of Cleveland, in which nearly 200 children lost their lives, President Burchell of the National Board of Fire Underwriters, today said it is but another of many instances where the interests of the public welfare.

Such examples as that and the burning of the Iroquois Theatre at Chicago, said he, "make it nothing short of criminal for municipalities to go on under the old method of building, whereby inadequate building laws rigidly enforced."

The underwriters met in annual convention here today. Statistics presented by President Burchell in his annual address showed that the total property loss in the United States last year was just short of two hundred million dollars.

The underwriting profit for 1907 was 11.4-10 per cent of premiums, with a loss of 4.58 per cent for the ten years of 1898 to 1907 inclusive.

DR. FLETCHER ON TRIAL TELLS A STRAIGHT STORY

Declares There Was Nothing Illegal Attempted—Considerable Character Evidence.

Rev. Laurence E. Skey, rector of St. Anne's Church, was among the witnesses called by the defence in the Dr. Fletcher trial now going on in the criminal assizes before Justice Anglin to give character evidence.

A number of doctors and prominent people testified as to the estimable character of the accused man. These included Lieut.-Col. E. F. Gunther and Major C. W. Wood, F. C. Hunter, Dr. Jarvis Spence, Dr. Carveth, Dr. Gulen and Dr. Guinane.

Dr. Fletcher was called in by the defence to testify that he had known Dr. Fletcher for many years, and that he had never seen him in a state of mind that would lead him to believe that the patient's life was in danger.

Both prosecutor and defending counsel have been heard in the case. Dr. Fletcher is being assisted by Drs. Silverthorne and A. Jukes Johnston, while Drs. Dwyer, J. P. Fotheringham and Surgeon Irving Cameron appear for the defence.

Dr. Fletcher was put in the box and told a straightforward story. He said he had called on Dr. Harvey Todd with him in February, saying that the lad had brought up the Minnie Turner case, advising that he was a girl who was in trouble, as he thought, but he wanted to be sure, for if she were, he would marry her.

Mr. Blackstock asked Dr. Fletcher what he had meant by saying to Saunders after his examination of the girl on Sunday, March 8, that "she will be all right in a few days." Dr. Fletcher answered that after he had come down stairs, replying to a question asked by Saunders, he had been right in his suspicions. Then seeing the girl was visibly nervous he had said "she will be all right in a few days."

On Tuesday, however, her condition had become so critical that an operation was really necessary to save her life. He then called in Doctor Todd as a means of protecting himself, and Dr. Fotheringham, who was the defence. He had been present at the post mortem examination conducted by Dr. Webster, a staff doctor of the Western Hospital, said that the time was too short for the girl to have died on Tuesday after being subjected to violence on Sunday. Dr. John Fotheringham was of the same opinion and thought the girl must have had disease of an infective character.

Dr. Todd recalled, told Mr. Robinson, that he had been present at the time of the operation, and that he was of the opinion that septic or poisonous conditions had been in existence on the Saturday previous.

Dr. Webster, a staff doctor of the Western Hospital, said that the time was too short for the girl to have died on Tuesday after being subjected to violence on Sunday. Dr. John Fotheringham was of the same opinion and thought the girl must have had disease of an infective character.

When Traffic is Reduced, the Casualties Are Lessened.

WASHINGTON, May 14.—In its quarterly bulletin on railroad accidents for the months of October, November and December, the Interstate Commerce Commission has discovered that a plan to reduce the number of casualties is to reduce the traffic.

To freshen the freight and passenger movements, "which began last autumn on practically every railroad in the United States, the commission ascribes the reduction in deaths, accidents, derailments, etc. The list of train accidents notable by their magnitude, the commission pointed out, has heretofore been of considerable length in each quarter, is "now happily reduced to a minimum."

ATTEMPTS MURDER IN COURT

Italian Woman Seeks to Avenge Her Sister's Ruin.

NEW YORK, May 14.—A sensational scene was created in the Harlem Police Court to-day, when a young Italian woman named Michaela Corbisler, tried to shoot Joseph Negri, who was accused of the betrayal of her sister. She probably would have been successful in her design to kill the man, had it not been for the prompt action of a reporter who stood near her and seized the weapon. The woman struggled so desperately that it required the assistance of several policemen to subdue her. She was placed under arrest.

ROOSEVELT ON NATURAL RESOURCES.

Very instructive in every way for Canada, is the conference of governors of states and captains of industry that met on Wednesday in the White House at Washington to deliberate upon the conservation of the natural resources of the country.

In his opening address Mr. Roosevelt touched lightly on the earlier history of the United States and its later rapid development. This has created a steadily increasing drain on these natural resources which, he said, are the final basis of national power and perpetuity which it is ominously evident are in the course of rapid exhaustion.

The president divided the natural resources of a country into two sharply distinguished classes: accordingly as they are or are not capable of renewal. Coal, oil, gas, iron and other metals cannot renew themselves and all that can be done is to try and see that they are rightly used.

Having conceded that much, I positively object to the officiousness of the chief inspector in issuing summonses against the director of these services and requiring his presence in the police court when he knew that Mr. Rust, the city engineer, had given him a permit to place the bulletin board at the corner of Yonge and Shuter streets.

ATHLETIC MEET IN WEST TORONTO WILL BE FINE

Great Interest Locally Shown - Interesting Budget of News From York County.

WEST TORONTO, May 14.—The paving operations on West Dundas-street are drawing to a close.

West Toronto has reason to be proud of her men's thoro fare. Standing at Union-street and looking west, there is a straight view along the street for a distance of a mile or more.

Police Get Busy. The police have commenced the work of inspecting the lanes. Relieved of this, Sanitary Inspector Ward says he will be able to devote more time to the work of distributing the tax and water bills.

The funeral of Rev. W. E. Cooper, rector of St. Martin's-in-the-Field Episcopal Church, took place this afternoon from his late residence, at St. James' Cemetery.

CROP CONDITIONS IN YORK CO. Much of the Seed Unsound and Farmers Grow Anxious.

Through the length and breadth of York County the feeling at the present time is, among the farming community at least, one of extreme pessimism.

The heavy rains within the past fortnight have on the high lands caused heavy washouts, while the lower fields, where under-drainage was not provided, were flooded and in many cases were, when practicable, will be re-sown.

The wheat, the very rank, has for the most part come thru the winter well, as have the spring seeds, and these only require fine warm weather to ensure a rapid growth.

But it is the comparative scarcity of grass which is causing the greatest concern. The grain crop of last year was in the yield of both grain and straw notably small, and it was only by most rigid economy in feeding that the average farmer managed to get his stock enabled to make ends meet.

Practically no vegetables, as man-golds or potatoes have yet been placed advanced, and already the season for these is fully a fortnight behind that of last year.

RICHMOND HILL. Tunker Brethren to Hold Conference at Gormley.

RICHMOND HILL, May 14.—A number of the leaguers of this place attended the annual rally in Toronto on Monday.

The official visit of R. W. Bro. Cavell, D.D.G.M., of Toronto West District, to Richmond Lodge, A. F. and A. M., took place on Monday evening.

Considering the unfavorable weather, a goodly number were out last night to hear the Liberal candidate, J. W. Curry, K.C., in the Masonic Hall.

On Friday evening the young people of Maple are giving a mock trial in the Methodist Church, to emphasize activity in league work.

Fred Woodward of Toronto was in town on Monday, making arrangements for fitting up a blacksmith shop at the Digna, which has leased, and will open on June 1.

A great night was held on Tuesday in Masonic circles, at Vaughan Lodge, No. 1, when they received their district deputy grand master, R. W. Bro. W. H. Shaw.

The ladies of the Methodist Church meet this evening to complete arrangements for serving hot dinner and supper on fair day, May 25.

A movement is on foot to have the Metropolitan Railway transferred from the side to the centre of Yonge-street.

Great interest is being taken by the Tunker Brethren in preparation for their general conference, which meets at Gormley next week.

The officers of the agricultural society are to be commended for the energy they are showing in assuring the public ample stable accommodation for fair day, May 25.

The Sunday World.

Spring is here—at least so says this week's Sunday World in an illustrated poem by Canada's greatest versifier, "The Khan," dedicated to the Bullfrogs, the one and sure harbinger of spring.

The portraits, views and scenes depicted in the illustrated section present a more varied selection than has yet appeared in this publication.

The biggest Garrison Parade that ever took place in Toronto is beautifully illustrated in a series of views on the front page of this week's Sunday World.

There is a fine half-tone photograph of the hoisting of the pennant and members of the Ontario Baseball League.

There is a reproduction of a painting entitled "Klasseje," by Curtis Williamson, which was awarded a silver medal at the St. Louis Exposition and is now the property of the Dominion Government.

There is a lovely panoramic view of the Humber Valley, showing it in all its beauty from the lake to Lambton Point.

The trial of the Ontario Government, which is now progressing before the Ontario jury, is reported at length.

The big 36-page paper will be on sale by all newsdealers and newsboys. Order your copy in advance to ensure securing it.

TORONTO GENERAL HOSPITAL. 3 Physicians had pronounced his case hopeless. The above decision given by several prominent physicians naturally depressed Mr. R. Davenport of 31 Elm Street, Toronto, and justified him in saying that he felt each day brought him one step lower into the grave. While in this condition he was recommended to try Psychine. He says: "Following an attack of typhoid fever in Toronto General Hospital, three of Toronto's best known physicians pronounced my lungs incurably and hopelessly diseased with tuberculosis. They insisted on my going to the Weston Sanitarium for Advanced Cases of Consumption and assured me that a few weeks or months at most would be my allotted span. A friend visited me and told me of his wonderful recovery from lung trouble, through Psychine, and insisted on me trying it. I did, and felt so much better in a few days that I said 'Good-bye' to the doctor in charge, and walked out of the institution. I continued using Psychine for some months. I rapidly gained in flesh and strength, until to-day I am back at my regular business in connection with the C.P.R. Telegraph Service, Toronto. My life I undoubtedly owe to Psychine." This was in September, 1907, and Mr. R. Davenport has weathered the severe winter we have passed through. Surely a good test to the thoroughness of the work done by Psychine, the Greatest of Lung and Throat Tonics.

Psychine Cures Bronchitis, Consumption, Weak Lungs, Weak Voice, Bronchial Coughs, After Effects of La Grippe, Anæmia, Loss of Flesh, Spring Weakness, Catarrh Pleurisy, Hemorrhages, Catarrh of the Stomach, Indigestion, Catarrhal Affection of the Genitals, Night Sweats, Poor Appetite, Early Decline, Obstinate Cough, Laryngitis, Speaker's Sore Throat, Throat Catarrh, Chills and Fever, Malaria, Nervous Troubles, Nervous Prostration, Sleeplessness, Malnutrition, Weakness and Debility. FRENCH AND SPANISH AT CASABLANCA CLASH

Fatal Encounter at One of City Gates as Outcome of a Quarrel—Explanation Demanded.

CASABLANCA, May 14.—There was an encounter here May 12 between French and Spanish troops quartered in the port. The Spaniards fired first, it is alleged, and the French Zouaves replied in kind. One Spaniard was killed and another was wounded, while the French had two men wounded. At the conclusion of the incident Colonel Desmoutiers assumed command over the area reserved under the policing agreement to Spain.

The encounter, which took place at one of the city gates, was the outcome of a quarrel between some Spanish soldiers and an unarmed Algerian sharpshooter. The Algerian was knocked down and beaten by the Spaniards and is now dying. A sergeant of the Zouaves, who was in charge of the gate, rushed to the rescue of the sharpshooter and with the aid of a French subaltern tried to intervene. The sergeant and the officer were without arms. At this point some Spaniards behind a wall opened fire. The interference of shots continued several minutes. The firing from the French side was done by Zouaves.

Minister Demands Details.

The minister of foreign affairs, upon being informed of the encounter at Casablanca between the French and Spanish troops, demanded details and explanations from Paris.

The matter has created considerable excitement here. Some newspapers advise the immediate withdrawal of the Spanish troops, saying there is bad blood between them and the French and that a repetition of the trouble is likely if they remain in contact.

No Trouble Expected.

PARIS, May 14.—It is declared in official circles to-day that the Casablanca incident is not expected to in any way strain the diplomatic relations between France and Spain.

URGED TO GO BACK.

Split in the Ranks of the Textile Strikers.

MONTREAL, N. B., May 14.—For the second time since leaving Montreal yesterday the Maritime Express was derailed this morning. The first accident took place at Bagot, when at a switch the locomotive of the train was derailed and several hours' delay occasioned.

Five miles west of Millstream, shortly after 8 o'clock this morning, as the train was running about 30 miles per hour, the locomotive left the rails and was followed by the entire train. The Pullman cars Bellechasse and Gloucester, dining car Yamaska and locomotive, derailed into the ditch and lay on their sides; the other cars left the rails, but remained standing. Despite the fact that there were a number of passengers in the derailed cars, none were hurt, only Fireman Coulombe being injured.

German Capital Interested in Canadian Development.

VANCOUVER, May 14.—(Special.)—M. Cohen, representing a German company, arrived to-day after arranging for the purchase of 12 square miles of land in the district of the Skeena and Skeena River, British Columbia, and has been advised by the British Columbia government that a repetition of the trouble is likely if they remain in contact.

AN ENTERPRISING SWINDLER.

Book Agent Secures Notes for \$30,000.

CHICAGO, May 14.—The Tribune says yesterday when it became known that Mrs. James A. Patten, wife of the grain magnate, and herself a leader in club and society life in the suburb, had been swindled out of \$30,000 by a book canvasser, who is alleged to have got her signature on notes to that amount when she thought she was signing orders for books.

LOST IN THE WILDS.

VICTORIA, B. C., May 14.—(Special.)—News has been received from Clayoquot that two white men, Harvey and Horace, and a fair, near Clifton, appeared on the west coast. They went up on tees from here about five weeks ago, getting off at Nootka to go up Tahlanas River. Indians' now report that for a month past their boats and outfit have been lying at the mouth of the river, with no sign of the men anywhere.

Must Face Responsibility.

OTTAWA, May 14.—The banking committee of the senate this morning decided to report the Campbell bill on bills of lading. As the result of a conference between Senator Campbell and the representatives of the steamship companies the bill was amended in a number of particulars. The principle retained that a steamship company cannot by its terms of its bill of lading contract itself out of liability for damage to goods in transit.

No Inspection This Year.

COBALT, May 14.—There will be no inspection of claims on the Montreal River this season. This is the decision of Hon. Francis Cochrane after discussing the affairs here with the mining men.

Blew Knife Thru Body.

WELLSVILLE, N. Y., May 14.—Oliver Kemp, a farmer of Clifton, Pa., was killed while blowing out stumps with dynamite.

A large quantity carried in a basket exploded prematurely, and besides blowing off both hands and destroying both eyes, drove a large jackknife, which was in the basket, completely thru his body, entering his left side and coming out on the right.

Baby Burned to Death.

ELM CREEK, Minn., May 14.—Mrs. Thomas Cook, on returning home from town, kindled a fire with coal oil, then stepped out of the house for a moment, leaving a little baby sitting on the floor.

On returning she found the whole interior in flames and the child burned to death, almost before her eyes.

Whirled Around Shaft.

ST. JOHN, N. B., May 14.—Thomas Cribbs, aged 17, employed in Morrison's Cove colliery, near Chatham, became entangled in the belt and was whirled around the shaft. His neck and arm were broken.

CONDITIONS IN WEST WERE NEVER BETTER

Reports from Scores of Branch Banks and Implement Agencies Indicate Splendid Crops.

Crop conditions in the west were never more favorable. This is the good news which comes to the banks and leading Toronto industrial enterprises with branches and agencies in the great wheat belt.

There are good business reasons why the leading banks and larger industrial enterprises of Toronto, such as the Massey-Harris Co., should have themselves informed accurately as to conditions which prevail in the Canadian prairie provinces.

At the Imperial Bank, D. R. Wilde, general manager, authorized his private secretary to give out the following encouraging information: "Weather conditions are received from the small agencies throughout the provinces."

"From the report of the weather continues favorable, farmers have been busy seeding and business has been quiet in consequence."

A PARKS SUPERINTENDENT FIRST RECOMMENDATION

Commissioner Wilson Says 'Twill Be Advisable to Have an Active Overseer.'

As a first step toward the reorganization of the civic parks department, Commissioner Wilson recommended to the parks committee yesterday the appointment of a superintendent at a salary of \$30 per week and free house in Exhibition Park. While Mr. Wilson did not submit any name in connection therewith, it is known that he favors appointing Roderick Cameron, late of Niagara Falls Park. The committee decided to have the commissioner present a comprehensive report of the duties of the new official, at the same time agreeing that no requisites should attach to the office.

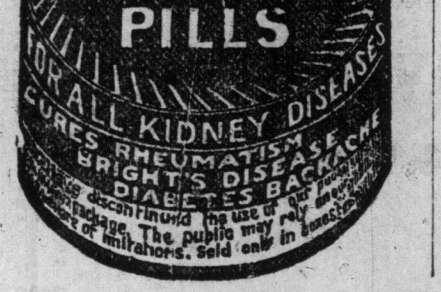

Mr. Wilson said he was convinced after careful examination of the department that it was necessary to appoint a superintendent at once to have supervision over all the field work. The large extent of the parks system and the desirability of securing systematic and efficient control over the various units demanded such an officer.

In asking authority to appoint a superintendent at \$30 a week, with dwelling in Exhibition Park, Mr. Wilson said that in consideration of the very important character of the park, and the location of the greenhouses there, it was essential to have someone in residence vested with high authority. The commissioner promised that he would within a few weeks submit a complete scheme of reorganization.

Mr. Wilson was informed that council had adopted the "no perquisites" principle. The commissioner explained that he had in view a superior official and that if no free house were to be granted, an amount equal to the rental should be added to the salary. Controller Spence calculated that this would mean at least \$2500 a year.

Reception for Mrs. Ward. On Aid. Bengough's suggestion Mrs. Humphrey Ward, the novelist and advocate of playgrounds, will be tendered a civic reception on Wednesday afternoon next, should she be able to accept. Mrs. Ward will arrive on Saturday.

The buildings on Alexandra Park will be removed. Assessment Commissioner Forman estimated that it would cost the city \$50,975 to acquire the Arnold-avenue property, favored by the committee as a playground. The block contains about 1-1/2 acres and is bounded by Wilton-avenue, Arnold-avenue, St. David-street and Regent-street. Commission...

PRESBYTERIAN SYNOD WOULD ABOLISH BAR

Placed Itself on Record, Too, as Opposed to the Three-Fifths Clause.

Having spent the day in discussing temperance and moral reform and French evangelization, the Presbyterian Synod of Toronto and Kingston finished its work yesterday afternoon.

Prohibition was the ultimate end to be aimed at, according to the resolution passed by the synod, but this could only be attained by the education of public opinion. As intermediate steps, however, the synod pledged itself to work for local option and the abolition of the bar. It also put itself on record as opposed to the three-fifths clause.

"Prohibition," said Dr. Shearer, "is carried by a majority vote of the province would almost certainly be carried against a majority of the electors in the large centres like Toronto and would therefore be very hard to enforce. There would be a large number of very thirsty people and a large number of men just as greedy as the others were thirsty. We should recognize that difficulty and provide for it."

"There is no defence for the bar-room. Even James Macpherson does not put up a defence for it. The bar-room has outlawed itself. It has outlived its usefulness. We could cut the nerve of the trade by eliminating the private gain in sale in shops. We are sorry that there is any need of a safety valve, but there is."

H. E. Irwin, K.C., protested against "any deadly compromise with sin." The use of liquor, he said, was always and only a sin. To this Dr. Shearer replied that the blame should fall on the consumer more than the vendor. Rev. Dr. Pidgeon said that such principles as stated by Mr. Irwin had done more harm to the temperance cause than anything else.

The report as adopted recommended that the government be called upon for legislation to prevent gambling, to prevent illegal medical operations, and to prevent cigar smoking amongst boys.

Rev. Robert Gray made a strong appeal for the finances of Knox College.

Rev. A. D. Menzies addressed the synod on French evangelization. The Roman Catholic Church in Quebec, he said, had adopted a policy of keeping the people in ignorance. Many could not read or write because the priests of the schools were defeated by the school system were being opposed by the church and the tendency among the people was towards scepticism because of dissatisfaction with the church.

Committees Appointed. The following committees were appointed: evangelization—Revs. Dr. French (chairman); Stephen Childerhouse, Parry Sound; C. N. McKenzie, Bruce Mines; Wm. Shearer, Picton; A. S. Sheppard, Marquette; and Wm. McKenzie, Guelph; Andrew Lennox, Arthur, and George Gray, Newcastle; Sabbath schools. Rev. D. D. McCullough, Harriston (convenor); Prof. Ballantyne, Alex. Gillivray, and James Wilson and J. A. Scott, Guelph; Thomas Yellowwies and F. W. Moffatt, Weston.
