## APPROVE AGREEMENT WITH THE CATARACT

Council Ignore Protest—Ward Foreman Nelligan is Criticized But Emerges Unscathed.

HAMILTON, Aug. 9.—(Special.)—In spite of a letter from Martin Malone notifying him he would move to have the agreement set aside, the council this evening approved of an agreement with the Cataract Power Company for a temporary supply of fifty horse power to operate the main water works pump. Ald. Hopkins, Ellis and Wright opposed the agreement. They said a gas engine would do the work more economically. Although the agreement named five-eighths of a cent as the rate, the minimum supply charge of 15 cents per h.p. would bring the rate up to two cents an hour. Ald. Hopkins pointed out. Ald. Morris referred to the charges that one of the works department officials had taken material from the roads to fill up his vacant lots. He thought the matter ought to be investigated and the offender forced either to return the material or pay for it. Ald. Cooper thought the stuff had been sold to fill in some stagnant pools in ward 7. Ald. Nelligan said that the man against whom the charge was made was Ward Foreman Nelligan. He said the stuff taken was not fit to be used for road-making and an order had been made compelling the foreman to repair where they had dumped every load of such material. A motion that the foreman should be forced to pay for the material was not pressed. The bylaw to prevent the picking over the garbage dumps was referred back. Bylaws to raise \$50,000 for additions to schools and \$20,000 to complete the terminal school were passed.

The police said that they will not make any attempt to close up the Sunday ice cream establishments, which, on the ground that ice cream may be sold as part of a meal, have taken out restaurant licenses and serve the cream with cake or pie.

The man who claimed to be Frank Ernie, and who said he was sandbagged and robbed, is Frank E. Gonic, Malone, N. Y., who had been in an insane asylum in Milwaukee.

Because Mrs. Marshall talked of her troubles, officers of the first Regiment stand say that they will not carry out their intention to have her husband, the missing member of their organization, blacklisted among union organizations, or give her any financial assistance.

The city has completed the purchase of a large park on the beach between stations 6 and 8.

### PIANO AGENT MISSING

E. C. Corbeau of Regina Takes a Prolonged Holiday.

REGINA, Sask., Aug. 9.—Considerable anxiety has been caused by the disappearance of E. C. Corbeau, local agent of the Heintzman Piano Co. Corbeau, together with his two little children, started for a drive yesterday afternoon at three and expected to return home by six o'clock last night. They were still missing to-day. The country around is well settled. He came here from Toronto.

### ATTACKS COLLEGE PROFESSORS

W. R. Newell Warns Knox Church People Against Victoria College.

"I pray that a great company of saints may be raised up in Toronto who do not care what the professors say," was one of the utterances of W. R. Newell at Knox Church last night. The meeting was made a series of attacks on the Victoria College professors by Mr. Newell, and a newcomer to Toronto, J. R. Dean, who accompanied him on a preaching tour in China. About 200 were present.

Mr. Newell, who on previous visits has featured his addresses by vigorous denunciations of theological professors of the higher science school, put the ban on Victoria Methodist College in his introductory remarks. He said that while Toronto was in many respects an advance most cities on the continent, he trembled at the danger which now threatened the souls of the people owing to the attacks made on the truth. The truth was revealed in the word of God, and could only be spiritually discerned. It did not require the learning of Victoria College professors, and the learning of Victoria College professors would not enable them to reason out the truth. The truth, stated clearly in the bible, was that every being born into the world of the world was born into sin under the condemnation of the law, and could only be saved thru the atonement of Christ.

Mr. Dean gave an exposition of the first three chapters of the Epistle to the Romans.

**Cage Bird Show.**  
The National Canary and Cage Bird Society held its first monthly table show of the season at the Labor Temple last night. Two classes of birds were shown, Yorkshires and Norwich yellow and yellow marked birds.

In the Norwich class G. H. Cassels got first and second prizes and W. J. H. Gibbons got third, while in the Yorkshires J. T. Nicholson won first, second and third prizes. Several new members were received.

### CONDENNS MULOCK DEAL

Federated Council of Building Trades Adopts Resolution.

At a regular meeting of the Federated Council of the Building Trades, last night, the following resolution was adopted:

"That the council of the Federated Building Trades condemn the action of the Toronto City Council in sacrificing the best interests of the city by giving away a large tract of land to the National Iron Co., the land so disposed of being of supreme importance to the further development of this city, as it is the key to the situation of the Great Toronto scheme, and her importance as the commercial and industrial centre of this Dominion. We believe that such land should not on any account pass from civic control and should only be leased under condition that it will retain to the people control of their own waterfront."

## UNION TYPOS CONVE- NED FOR THE 55TH TIME

Pension and Insurance Schemes to  
Be a Feature of the Week's  
Business Session.

ST. JOSEPH, Mo., Aug. 9.—The fifty-fifth convention of the International Typographical Union met to-day in the Coliseum, St. Joseph's big convention hall. Addresses of welcome were made by Mayor Clayton, President Burnham of the local typographical union, and others, and a response by President Lynch of the International Typographical Union. The report of President Lynch and Secretary-Treasurer Hays show great progress made by the union during the last year.

The International Typographical Union is fifty-seven years old, and with the present gathering has held fifty-five conventions during its lifetime. In 1838 and 1888 biennial conventions were held. Its sessions here are attended by three hundred delegates and eight hundred visitors.

Matters of importance that are to come before the convention are proposals for the establishment of an insurance feature, and certain changes proposed in the pension policy that was made effective by the union one year ago. The relations between the union and the American Newspaper Publishers' Association will also be up for consideration.

The International Typographical Union has many features that stamp it as one of the most progressive in the labor field. The pension policy, for instance, is distinctive with the International Typographical Union. Under the pension law, members who have reached the age of 60 years and are unable to secure sustaining employment at the trade are paid \$4 per week. The payments of pensions began with the first of August, and up to May 31, when the union's fiscal year closed, \$7,800 had been paid pensioners, while the administration of the fund had cost only \$2,000. The union also conducts a home at Colorado Springs, and the receipts and expenditures of the home from its inception to May 31, 1909, were \$367,801.29 and \$338,463.66. The home property at Colorado Springs is valued at \$1,000,000.

The union pays a burial benefit of \$75.

During the fiscal year there were 509 deaths and the benefits paid amounted to \$38,175. For advertising its union label the union paid out \$761.48. The expenditures of the International Typographical Union during its fiscal year were \$181,544.55. From the year 1891 to 1909 the union received \$6,188,045.75, and expended \$5,998,888.90, a sum including the expense of conducting the Union Printers' Home. The union has a membership of 41,714.

The union also conducts a technical school at St. Joseph, Mo., for the education of its members and apprentices who desire to perfect themselves in their trade.

**WEATHER MAN MOVING**  
New Observatory on Bloor St. Ready for Occupation.

A start was made yesterday by the weatherman, otherwise known as director of the meteorological observatory, R. F. Stupart, on the removal of the handsome new observatory at the corner of Bloor-street and Devonshire-place. It will be the beginning of September before the moving operation is complete. The records are being shifted first.

The dome is now being placed on the tower. The telescope is already in the new building, and considerable fittings and adjustments will have to be made in the interior of the dome before it can be placed in position. Pneumatic tubing has also to be installed between the telegraph office and the forecast room and printing press before the contractor will be able to finish the floor.

The fine meteorological library of between 8000 and 10,000 volumes, which is stored in the physics building, will be moved to the new observatory, which is in the Province of Quebec. He will also attend the meetings of the British Association in Winnipeg next month.

**NEW CARLTON NOT OPEN.**  
Mr. Percival, proprietor of the New Carlton, Yonge-street, has been told the story that his bar was open, on Sunday under a restaurant license.

**Niagara Navigation Company.**  
Niagara Navigation Co.'s steamers leave Yonge-street wharf six times daily, except Sunday, for Niagara, Lewiston and Queenston. Connections are made with New York Central and H.R.R.R., and Niagara Gorge R.R. at Lewiston, N.Y., Michigan Central R.R. at Niagara-on-the-Lake, and International Railway Co. at Queenston. Excellent dining service on all steamers.

**Greek Reply to Turkey.**  
BERLIN, Aug. 9.—The Greek note in reply to Turkey's representations, which will be delivered to-morrow, will contain Greece's direct refusal to renounce Crete, and at the same time Greece will refer Turkey to the protective powers. The danger of an immediate conflict will thus be averted.

**Violation of Factory Act.**  
Complaints having been made to the government of the employment of girls and women in shops of Hamilton and Toronto after 6 o'clock, Provincial Factory Inspector Burke is causing an investigation to be made.

## Amusements

**Breezy Bill at Shea's.**  
Bright and breezy describes the bill at Shea's this week. Lots of music, singing and dancing is provided, and the whole show swings along just as a summer attraction should. Percy Chapman with Gus Edwards' Blonde Typewriters is the big noise in the merriest factory. Percy is clever and the girls are pretty enough to make anybody envy Gus, in addition to which two of them sing. Following this big act on the bill is the National Quartet, whose voices are far and away above the average four-man singing stunts. The ancient and wearisome stick methods are pleasantly absent from their ways and the songs which they have chosen have real music in them.

Work and Over have a comedy tumbling offering which is immense. Nothing quite so neatly handled of its kind has been seen in these parts for some time. The comedy is a very bad joke, which is called "A Very Bad Boy," who is a good, it doesn't say, before the show, which has been seen.

Mit Wood is above the average in the matter of wood shoe dancing. Gavin Platt and Peaches have an act with an elaborate set. It is called "The Stolen Kid." They sing songs. The Peerless Mowatts are good jugglers and the kinetograph is fixed with good pictures.

The ushers are all in attractive uniforms this week.

**Sam T. Jack's Company.**  
This week's attraction at the Star is one that will gladden the hearts of all lovers of real burlesque. It is presented under the title of "Sam T. Jack's Own Show." The entertainment is exceptionally bright and the singing is above the average, while it is seldom that so great attention is paid to the staging of the various acts as the management have in this attraction.

The first burlesque is a humorous satire upon the social climbers. This act gives the actors great scope for individuality in their characters. The last burlesque is entitled "Girls in Gingham" and is extremely pretty and smart.

An excellent olio is given. It includes Henry and Francis, in dialog and song; Welch, Francis and Co., in an Irish song; and Leavitt and Co. in song and dance. The show closes with the Moulton Rouge Quadrille, danced by the entire company.

**THURSDAY CIRCUS DAY**  
More Than Thousand People With Barnum and Bailey Show.

Thursday will be circus day, when all the poster promises that have decorated the city walls are expected to materialize.

Two stages, three rings and the hippodrome oval will be occupied with novel circus attractions during the huge hours required to carry out the huge program.

There are more than 1000 people with the Barnum and Bailey Greatest Show on Earth, 400 of whom are expected to be in the audience.

The riders, gymnasts, aerial artists, equilibrists and other performers of the circus value are the main new to the novel circus attractions during the huge hours required to carry out the huge program.

**TORONTO 85 YEARS AGO**  
Interesting Painting for City Hall Presented by J. R. Robertson.

An interesting addition has been made to the series of topographical paintings which thru the generosity of John Ross and historical interest of John Robertson now decorate the walls of the north and east corridors of the council floor of the city hall. That in which has just been placed, a water position is elaborated from a sketch made by a military officer of the Town of York in the year 1824. The painting is by Owen P. Staples and is one of the most pleasing of the series.

The pretty little town fronts on the water's edge in the most peaceful of rural fashion, and it is difficult to realize the transformation in 85 years. But there are George, Frederick and Caroline streets, and the old (now Sherbourne) streets, running to Lot-street (now Queen) and Princess and Parliament-streets, subsequently burnt down, stand in an open space with some oak trees near and beyond, near "the Don," is the Block House of the prominent citizens of the day are all perpetuated and a key-picture enables the visitor to identify them.

**The Bobcaygeon License.**  
A contingency unaccounted for by the license law has arisen at Bobcaygeon, where the police of the Hoon, who are in jail charged with the murder of his wife. Eudo Saunders, head of the inspection bureau, stated yesterday that as an offense had been committed against the license law and the fee has been paid, the license cannot lapse until May next, when the time is up. Mr. Saunders has instructed the local inspector to see that some responsible person has custody of the license.

**1000 Suits in Use.**  
There was great demand for bathing suits at the Island Baths on Sunday, the whole lot of 1000 suits being in use all the afternoon. With the water temperature 76 degrees, it certainly was the real spot for comfort.

## BURNS IS SUSPENDED FOR ROUGH RIDING

General Armstrong Badly Cut—Night Riders Again at Fiendish Work.

WINDSOR RACE TRACK, Aug. 9.—(Special.)—Colony and Vox Populi were the only winning first choices over a fast track this afternoon, the other entries going to outsiders. In the two-year-old race, the General Armstrong went to the post the favorite and might have won had he not been taken in the middle of the race by the front runner, Dr. Waldo Briggs. Burns was badly cut and his side was scraped where he was crowded on the fence in the middle of the race. Burns was disqualified, as Burns ran him into Vox Populi to prevent his getting past. The judges called the boy out without the foul being claimed. There was quite a demonstration over this race, the crowd hissing Burns when he came back to the stand. Burns was suspended for six weeks. J. W. Schorr bought Paul Davis and Bogan for \$500.

The night riders evidently got to Merriam Sunday night, as to-day he was not in a fit condition to start, and had to be scratched. Cressel still shows the effect of bad treatment last week. Results: FIRST RACE, 2-year-olds and up, selling, 6 furlongs: 1. Vox Populi, 107 (Denny)..... 3-1 2. General Armstrong, 102 (Kennedy)..... 3-1 3. Hyperion II, 113 (Burns)..... 3-1 4. **SITUATION IN GREAT BRITAIN.**  
There are two great questions up in England at the present moment.

First, there is the fear of invasion and the demand for better defence by sea and land.

Second, there is the budget of the Liberal Government, which proposes increased taxes on the wealthy and on big land-owners especially.

Both these questions involve a lot of other things: whether the mother country cannot best find the money for defence in a customs tariff paid by the many consumers rather than a tax on the wealth and property of the few; whether a tariff based on reciprocal preferences between mother country and daughter states would not bind them together more firmly for a common defence; whether it is not time to reduce the power of the house of lords; whether Socialism as exemplified in old age pensions should not be checked; whether Lloyd-George or Lansdowne is the man for the hour; whether it is to be free trade or protection; and a host of others.

There is right on both sides: the aristocratic party are in a measure right when they demand a united empire in trade and in defence; they are wrong when they oppose social reform, the betterment of the millions that make up the British masses.

The Liberals are wrong in not recognizing the power of a tariff to find funds for defence and better pay for workmen.

A new composite party is needed for the situation: one that believes in (1) the reform of the house of lords, (2) the imposition of more taxes on wealth and privilege, (3) the efficacy of a tariff (a reciprocal tariff, if you will) to improve the conditions of the working classes and to provide money for defence, (4) the increase of the army and navy and the co-operation of all parts of the empire in a common defence, (5) the supremacy of the people and the need for great measures of social reform and of political equality.

The Liberals accept some and reject others of these principles; the Conservatives do the same; a bitter fight is the consequence: a great leader is needed, one who can crystallize into legislation the good, discard the bad, in both parties.

### WEIGHT OF BREAD.

Much misapprehension seems to have spread about the terms of the Bread Act, passed by the legislature in 1908. Some people even argue that there is no control over the weight of bread, and that there is no standard loaf. The standard loaf, according to the act, weighs three pounds. This is the large loaf. The small loaf is half the size. Sub-section (1) of section 1 of the act (chapter 56, O. S., 1908) make this clear:

No person shall make bread for sale, or offer bread for sale outside of the municipality, wherein the same was made, other than fancy bread, except in loaves weighing either one and one-half pounds, or three pounds avoirdupois.

Loaves of fancy bread similarly must be of the weight of either 15 or 20 ounces avoirdupois.

Inspection is provided for by the act in the factory in which the bread is made, for all bread. Bread sold outside the municipality in which it is baked may be inspected for weight where it is offered for sale. Toronto bread offered in Hamilton can be inspected in Toronto as can be inspected in Toronto at the store where it is being sold.

### THE HYDRO-ELECTRIC COMMISSION AND THE FARMERS.

A fair statement of any aspect of the business of the hydro-electric power commission has never yet been made, so far as a diligent observation can discover, by the Hamilton newspapers supporting the Cataract Power Co.'s side of the case.

The Hamilton Times has endeavored through to stir up the farmers along the route of the transmission line to oppose the scheme. Wherever the farmers have understood the case or had it explained to them, they have acted like reasonable men. There has been no hostility, no antagonism, from the farmers, to the power scheme. The farmers have had something to dispose of to the commission, and very naturally tried to get all that it was worth. Easements were required by the commission, not for the government, as The Hamilton Times keeps telling the farmers, but for the municipalities, Hamilton among them, which want cheap power, and for which the commission is acting as trustee. These easements were rated in a general way at so much a tower and in a preliminary canvass of the route this general rate was quoted. The rate fixed was double that granted in Quebec and the United States, so that the commission has acted very fairly by the farmers.

On the final determination of the line of route, it was found in some cases that instead of going thru a farmer's open field it was necessary to cut thru an orchard, a grove or a wind-break, so that actual damage was done to property entirely apart from the few feet of land required for the bases of the towers.

In one case where the ordinary easements were set at \$60 on the preliminary survey it was afterwards found necessary to cut thru a windbreak of 20 years' growth. The farmer valued his

trees at \$2000, and a settlement was reached by a payment of \$850. The Hamilton Times represents this as being paid for easements alone, and advises all the other farmers to go to law with the commission. Naturally the lawyers would not object.

Another case arose when the line passed thru a long, narrow farm and nine towers had to be located, while a long strip of timber had to be cut down. The farmer asked \$2500 for his timber, and accepted \$1000. This has also been misrepresented as having been paid for the bare easement.

Altogether \$80,000 has been paid out for the right-of-way, and there are only one or two cases yet unsettled between Toronto and Niagara. The London and Stratford line is less advanced.

It is to be noted that the farmers are not hostile. Some of them would prefer to have the line on the next man's farm, but they say if it must be so, and they are treated fairly, they are only too glad to welcome cheap power.

### N. Y. STATE'S GOOD ROADS

Methods of Taxation Are Superior to Those of Ontario.

WELLAND, Aug. 9.—(Special).—The annual picnic of the Welland County Farmers' Institute to Crystal Beach to-day, though marred by rain, had an attendance of over 4000.

The speech of the day was made by J. F. Beam, out of compliment to the large attendance from New York State, where 4000 miles of good roads were being built out of state funds, where half of all county road building was paid by the state and one-third by township enterprises. This was not possible in Ontario until railroads and other corporations were taxed as they should be. A road that was paying a tax of \$900 per mile in New York was paying \$60 in the Township of Beam.

Other speakers were Hon. J. S. Duff, U. S. Consul Webster, Niagara Falls; W. M. German, M. P., Evan E. Fraser, M.L.A.; James McKeown, warden; Dr. Snyder, Niagara Falls, N. Y.; Mr. Converse of the department of agriculture, Albany; Mayor Slater, Niagara Falls; and Robert Thompson of St. Catharines.

**PLUCKY LONDON WOMAN GRAPPLES WITH MAD DOG.**

LONDON, Ont., Aug. 9.—Six little children were playing in the yard when Mrs. William Land noticed a collie snapping its jaws and frothing at the mouth. She hurried out, and was putting a rope about its neck when it snapped at her. She held on and succeeded in winding the rope around a cherry tree.

Mrs. Land had to go some distance to get a neighbor with a rifle, and seven shots were fired before the brute died. A veterinary pronounced the case unmistakably rabies.

### MILK COMMISSION AWAY

Will Investigate Conditions in American Cities.

The Ontario Milk Commission consisting of Dr. A. R. Pyne, (chairman), Finlay G. Macdormid, M.L.A., J. R. Dargavel, M.L.A., and W. F. Nickel, M.L.A., held a short meeting yesterday morning, going over some data that had been prepared by the secretary.

The commission left last night for Rochester, New York and other American centres to continue their investigations. Their further itinerary has not been determined as yet.

### CRUISES DELUXE TO THE WEST INDIES.

Announcement was made to-day that the Royal Mail Steam Packet Co. is to enter the field of West Indian excursions with two sumptuously appointed vessels which have hitherto been employed in the European-South American passenger traffic of the company, but which will be placed on the Caribbean route from January to March, 1910. One of these mammoth steamers, the Avon, was launched two years ago and is one of the most luxuriously appointed passenger steamships afloat. The Avon incidentally marks the present limit of electricity as applied to comfort, convenience and luxury on board an ocean liner. The other steamship, the Berwick, launched last month and equals, if not surpasses, the Avon in her magnificent appointments. Both vessels are twin-screw steamers, built for the lines of yachts, and will afford every luxury that is to be found on a private steam yacht. Some of the features on these two vessels are suites—large, comprising drawing room, bedroom and bath room, on deck; and a large proportion of their cabins are single-berthed; the dining saloons furnished with small tables on the modern restaurant plan; numerous electric laundries and spacious promenade decks.

The decorations of the two vessels are in keeping with the character of the traffic in which they are to engage. These are out of the usual as found on ocean vessels, and tourists on the new line will find the packet boats can well imagine themselves on their private yachts instead of on public crafts.

The cruises, as outlined, will embrace Nassau, Havana, Santiago, and the Isthmus of Panama. On the Isthmus passengers will be afforded special facilities for traversing the distance from Colon, on the Atlantic side, to Panama City, on the Pacific, and be found on inspecting the port in the canal zone. Other stops will be made at La Guayra, Caracas, Puerto Cabello, Port of Spain, and La Brea (Trinidad), Barbados, Martinique and Bermuda.

These cruises will be the feature of the winter touring season and they will be in the nature of cruises-de-luxe. The Royal Mail Steam Packet Co. also announces that it will specialize this year in yachting cruises among the West Indies, which will be arranged in conjunction with the fortnightly main line steamers at Jamaica and Barbados.

### WIDOW'S ASHES ARE CONSIGNED TO HUSBAND'S WATERY GRAVE.

CHICAGO, Aug. 9.—A metal box containing the incinerated body of Mrs. Ross Payton was sunk in Lake Michigan from the deck of an excursion steamer, while passengers looked on in bared heads and the steamship orchestra played a dirge. Twenty-nine years ago the husband of Mrs. Payton was lost in the wreck of the steamer Alpena, and the widow wished that her ashes be thrown in the lake near the place of the wreck.

## CITY GETS 12-ACRE GIFT FROM POWERS AT OTTAWA

Gibraltar Point Now in Toronto's Possession — Government Grows Generous.

Mayor Oliver was greatly pleased yesterday afternoon on receiving a letter from City Solicitor Chisholm at Ottawa to the effect that he had secured a deed of the 12-acre Gibraltar Point property on the island. It is the city's intention to convert the sandy waste into a park.

The Dominion Government makes a free gift of the land, and the delivery of the deed, following upon that of the garden commons, after a delay of several years, makes it appear as tho the government has adopted a changed policy respecting Toronto's needs.

Another recent instance in which the government fell in with the city's wishes was in regard to the lighting of Gibraltar Point lighthouse. The government thought that as the eastern and western channels have beacon lights, the lighthouse had outlived its usefulness, but the city council protested for sentimental reasons against extinguishing a flame which has been kept faithfully going since 1808, and the government acquiesced.

The deed was secured from Registrar-General Thos. Mulvey, K.

Marshall Lansing of Golden and Lansing, Troy, contractors for conduits for the city's electrical distribution plant, remain until the contract is completed. Electrical Engineer Aitken says the work will begin at once. All the necessary tools have been bought.

Mayor Oliver yesterday received a letter from Alex. Asher of the business firm of Asher and Leeson, approving the sale of the Cherry-street property to the Mulock interests.

The mayor also received a letter signed "A Workingman" endorsing the transaction. Controllers Ward and Harrison are back from the west. The latter expresses the opinion that Toronto, Winnipeg and Vancouver are to be the three great Canadian cities of the future.

### THE APPLE CROP

Larger But a Poorer Crop Say Apple Shippers.

The Apple Shippers' Association met in Buffalo last week. Their estimate of the continent's apple crop is interesting.

A summary of their crop report shows that the New England group will have a yield 20 per cent. in excess of last year. The central group crop is a little below last year, about 71-1-2 per cent. The middle west, known as the Ben Davis group, had an unusual light crop last year, and while not heavy this year, will be twice as large as that of 1908. The southern group will have fully one and a half times as many apples this year as last.

For the whole of the United States the present promise is for a crop slightly in excess of last year, while Canada will have a yield one-half larger.

### Quarantine Raised.

Quarantine was raised from the Goulde House at Dwight on the Lake of Bays, yesterday by Dr. Bell of the provincial health department, who has been in charge since the death of a child of the proprietor from diphtheria a week ago. No new cases have developed. One of the lady guests contrived to escape the disease, and got down to Toronto with her children, where she was promptly quarantined in her own home by the city health officer. The American tourist who aided her escape to Huntsville in his auto has also been put under quarantine at his hotel at Dwight.

WESTERN AUSTRALIA DOESN'T WANT BRITISH IMMIGRANTS.

LONDON, Aug. 9.—(C. A. P.)—The premier of Western Australia, replying to a deputation of settlers from the old country, who brought a number of alleged grievances under his notice, became incensed and bluntly declared: "I have more trouble with British immigrants than any other class of settler, and am going to tell the agent-general not to send out any more immigrants, no matter how much capital they have, unless he is thoroughly satisfied they have men who can make a success on the land."

100 CARS AT UNION YARDS.  
QUALITY OF CATTLE FAIR

Trade Slow for All Grades, Especially Butchers—Export Steers  
\$5.50 to \$6

Receipts of live stock at the Union Fair on Monday were 100 cars, consisting of 254 cattle, 25 sheep, 23 calves and 70 hogs.

Taken all in all the market was inclined to sag off very materially, all grades of cattle, in contrast to the last few days, having a strong tendency to drag heavily. The quality of cattle for the most part was fully up to the average of the past fortnight. The losses of the market were many lots held over for to-day's trading. This was especially the case with the export cattle, the bulk of which were held over until the export buyers will be in attendance.

Trade was slow all round, even butchers' cattle feeling the dulness.

**Exporters.**  
Prices of export steers to-day may be said to have been no ninal, the bulk of those going for \$5.50 to \$6, and bulls at say from \$4.50 to \$5.

**Butchers.**  
For butchers it cannot be said that there was any material decline, but outlets were so low, and prime picked lots were sold to have a weight from \$3.50 to \$5.00. Small lots of good butchers brought from \$4.70 to \$4.90; medium, \$4.30 to \$4.65; common, \$4.10 to \$4.20; cows, \$3.25 to \$3.50, and for a few old lots, \$2.50 to \$3.00 a head.

**Milkers and Springers.**  
A few milkers and springers brought from \$30 to \$50 each.

**Veal Calves.**  
There was little change in the price of veal calves and nominal figures prevailed. The range was said to be a wide one, running from \$3 to \$5.25.

Export ewes sold from \$3.50 to \$4.00 per cwt.; rams, from \$3.50 to \$4; sheep and lambs, from \$5.25 to \$6 per cwt.

**Hogs.**

Selects, fed and watered, are quoted at \$8.10 and \$7.85, f.o.b., cars, at country points.

**Representative Sales.**  
A few representative sales were:  
Whaley, Coughlin & Co., Limited, sold  
22 butchers, 1039 lbs. each, at \$1.90 per cwt.  
8 butchers, 1080 lbs. each, at \$3.85; 1 butcher,  
1120 lbs. each, at \$4; 6 butchers, 1240  
lbs. each, at \$4.90; 5 butchers, 1150 lbs.  
each, at \$4.80; 4 butchers, 950 lbs. each,  
at \$4.35; 6 butchers, 1070 lbs. each, at \$4.50; 7  
butchers, 950 lbs. each, at \$4.25; 5 butchers,  
960 lbs. each, at \$4.10; 10 butchers, 906 lbs.  
each, at \$4.20; 21 cows, 1118 lbs. each, at

Whaley, Coughlin & Co. bought 22 butchers, at \$4.60; 8 at \$3.85, 11 at \$4. and 6 at \$4.80 per cwt., among their other purchases.

H. Hunnissett bought 100 head of cattle running from 1100 to 1300 lbs. each, at from \$4.15 to \$4.25 per cwt.

Maybee & Wilson sold 24 head of exporters, averaging 1270 lbs. each, at \$4.30 and 8 head of 1000 lbs. each, butcher cattle, at \$4.45, and another bunch of 8

Corbett & Hall sold 6 head of 1150 lbs each, cows; 7 head of 950 lb. cattle, at \$4.45; 7 head of 875 lb. cattle, at \$4.25 per cwt.
