APPENDICITIS

How To Avoid It and Escape a Surgical Operation, Told by One Who Knows.

A Simple Method That is Always Successful—Tried Package Free.

It has only been a few years since it was discovered that a surgical operation would cure appendicitis; in fact, it has been but a short time since the disease was discovered and named.

Whenever there is an inflamed condition of the appendix, caused by impaction of the bowels, and even in the most advanced cases, you then have appendicitis.

Even now, with all the knowledge of the anatomy of the bowels, no medical man can tell you why you should have an appendix, why we find it where it is, or what are its functions, if it has any.

The disease for which the operation is a cure is usually caused by indigestion, and in many cases follows a cold, a severe cold, or a flu.

Physicians have until recently recommended an operation, but now, as it is known that it is caused by indigestion or dyspepsia, a cure without an operation is assured.

FRIDAY MORNING, APRIL 8, 1910

DR. SHEARD'S RESIGNATION.

Dr. Sheard has delivered his ultimatum, and the citizens will respect him all the more for keeping his mind made up when once he got to that point. There is a delightful touch of sarcasm in the closing phrase of his letter, which should not be lost upon those for whom it is intended.

"I have no doubt whatever," he remarks, "as has been stated, that the board's experience will be that there is no man existing who cannot be replaced."

It seems to be thought something to brag about that only mediocre men are called upon to serve the city, men can be replaced on a week's notice. Toronto ought to have the best men in the country to serve her. It ought to be a matter of ambition to get into the city's service. As things are, it is apparently a matter of prudence to get out of the city's service. London has just been meditating the appointment of a 150,000 engineer. Toronto will not pay any more, and will not get as good a man proportionately, for there is more work to do. Other civic offices are filled on the same scale, and the citizens are content to work along in this country village style. The hesitation of North Toronto to come into the city limitations may be partly accounted for by this attitude.

Dr. Sheard is to be congratulated upon his firmness, the quality which all along has made him of such weight in the city hall. His departure will lower the average quality of what the Telegram calls officialdom, and something ought to be done to raise it. The city's hope lies in government by commission.

VOTE FOR THE BYLAWS.

Two duties face the ratepayers of Toronto to-morrow morning. They are to be attended to first thing before other matters crowd them out of mind. They are the duties of voting for the hospital bylaw and for the waterworks bylaw. Both these measures have an intimate bearing upon the health of the city. All the money in the world is as nothing compared with health. The health of the community is shared among all alike. Disease is contagious. The common health must be devoted to the common health.

VANCOUVER AND THE SINGLE TAX.

It is becoming pleasingly apparent, says The Vancouver World, that the advantages which it was confidently predicted would accrue to Vancouver and its industries, from the adoption of the single tax, are being realized.

The Vancouver measure calls for the abolition for one year of all taxes on improvements, and the raising of the necessary civic revenue by the taxation of land values. The motion was originally a plank in the platform of Mayor Taylor, while that gentleman was running for office, but the adoption of the taxation of land value rather than an improvement value has been the result of a gradual movement. Some years ago Vancouver exempted improvements to the extent of 50 per cent, and the recent action of the council in adopting the principle of total exemption came as a legitimate and logical step in accord with public sentiment and municipal practice.

The advantages of Vancouver's move are being noted up by the wide-awake newspapers of the city, and it is confidently expected that as a knowledge of local conditions becomes more widespread, the city will be made aware of the wisdom of its course in this respect. Factory owners in particular are being informed of Vancouver's advantages over other western cities.

ADULT SCHOOLS.

More than a temporary interest is to be found in the movement which has resulted in the establishment on such a firm basis of the system of what are called "Adult Schools" in England. They have grown up out of the schools carried on by the Society of Friends, generally known as Quakers, and as an outcome of the profoundly spiritual impulse given to British thought by George Fox, William Penn and their successors. This is another token of the debt owing to the men by religious communities throughout the world. There are 1650 adult schools in England, according to a late report, with 110,000 members. The beginnings of an Adult School University are to be found at Firoort, and at the two settlements at York and Leeds, and a great Women's Adult School movement is keeping pace with the men's. Several branches of the adult school work are to be found in Toronto. They are held on Sunday mornings at 9 o'clock. The hour is a test of earnestness, the one thing necessary to any real progress on any plane of consciousness, in any sphere of life, and it does not interfere with other religious services.

The ideas underlying the movement are service, education and fellowship.

They are held together because, as an exponent has said, "We have not yet about making soulless experts by education dissociated from fellowship and service; nor have we founded religious clubs by developing fellowship at the expense of education and service; nor have we created a band of ignorant fanatics by pressing service, and neglecting education and fellowship."

In Toronto the aims of the adult schools are stated to be "to make and develop men and to teach them the art of life; to study the Bible frankly, freely, reverently and without prejudice; to establish an unsectarian basis for Christian effort and unity; to bring together in helpful comradeship and active service the different classes of society; to stimulate and educate public spirit and public morality; to teach men the responsibility of Canadian citizenship; to advance, as far as may be, the equality of opportunity; in short, to help men to understand and to live the life of Jesus Christ, and to encourage them in their personal allegiance to Him."

The fact that there is no clerical domination of any kind, and that the management of the schools is in the hands of the young men who attend themselves, differentiates them at once from ordinary Sunday schools. Discussion is of the fullest and freest description. Representatives of every shade of theological and religious opinion are to be heard giving expression to their views. The remarkable thing about the school is that all views are heard with perfect tolerance, and reason only is permitted to govern. Mere assertion without evidence under these circumstances does not count for much. The tendency prevailing is towards the development of a robust type of spirituality.

The social element is provided for, as in the Pioneer Adult School, which has a well-known football club, a cricket club, a debating club, a harrier's team and other activities carried on at the club rooms. There appears to be room in Canada for the spread of these schools, and they have taken root in the United States. Young immigrants readily join their ranks.

Hetty Green is very ill and has lost her nerve. They say that Dr. Sheard looks as if he had found something this week.

A new preservative has been discovered which will keep dead things fresh for two centuries. No one should be allowed to try it on the city hall government. It will keep too long now.

A doctor with \$200,000 and a publisher with \$100,000 have sailed for Canada.

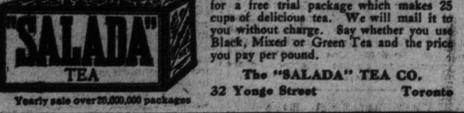

Tea Time Talks

It's always tea time when you are tired or thirsty.

Hill-Grown Tea
Tea growing is a fine art. The quality of tea depends on the elevation of the land and the nature of the soil. In Ceylon, where "Salada" Tea is grown, great care is given to the cultivation of the tea plant as an industry, just as we cultivate apples in Nova Scotia. That is why Ceylon Tea is the finest in the world.

"Salada" Tea is grown at an altitude of over 5000 feet. After the leaves are once picked they never touch human hands; but are packed by machinery in hermetically sealed lead packages which retain the fragrance and flavor.

Bulk tea being open to the air, invariably loses its flavor.

Ask your grocer for "Salada" Tea or send for a free trial package which makes 25 cups of delicious tea. We will mail it to you without charge. Say whether you use Black, Mixed or Green Tea and the price you pay per pound.

A local literary critic was recently asked whether Walt Whitman was an American. His reply is interesting. "I believe he is an American, and they are welcome to him." Most readers will prefer Tenyson's verdict on Whitman as the greatest poet America has produced.

It is usual for people with any conscientious who find a letter lying around to mail it, as they would like to have their own letters mailed in similar circumstances. To take a man's private letters, open it and give its private contents to the press is hardly according to the code of good manners. It is quite a usual thing for elderly men away from home to carry instructions in their pockets as to the disposal of their bodies in case of death or accident. Mr. John Wilson has good grounds for a grouch.

It was deplored at a recent educational convention that no progress was made psychologically in educational processes. Every child had to be taken up as a new problem, and no advance was made by the experience gained with others. Oriental philosophy finds no difficulty here. The universe, says Patanjali, exists for the experience of the soul. Individual souls return again and again until they have exhausted the possibilities of the

A Rising Landscape Architect.

In the upbuilding of our free Canadian country there is an evil tendency which The World wishes to point out to its readers. We are practically speaking a free people, and yet strange to say, herein the danger lies. For instance, one man owns a large tract of well-wooded lands which for his own personal gain he completely clears and sets out with no trace of this valuable asset of the country. The result is that we will soon be in danger of deforestation. Again, a man owns a lot in a valuable residential part of the city. For his own personal gain he erects a city livery, a tannery or whatever he wishes, with the result that he lowers the value of the surrounding property and ruins it as a residential section. This is all due to our personal freedom, and while freedom is right, yet should not be governed by the fact that we are a unit of the nation and that our actions are either detrimental or beneficial in the ideal building up of the country as a whole.

This subject is well touched on in a report on the Industrial Possibilities of Welland written to the Board of Trade by C. Ernest Woolverton, a noted landscape architect, who has recently returned from Boston, and who we hope, will render his country much good service.

"BEAUTIFUL FACE AND NO MORE WRINKLES" FREE BEAUTY COUPON For Toronto World Readers

Arrangements have been made with Harriett Meta, World's Famous Beauty Specialist, of Paris, London and Syracuse, N. Y., to furnish free particulars to all readers of The Toronto World in regard to what is believed to be the most remarkable method of removing wrinkles which has ever been discovered.
Miss Meta has been awarded nine Gold Medals by Paris, London, Brussels, Rome and other international Expositions on her great Beauty Discoveries. The French Government has awarded her a Patent on her wonderful new process for removing wrinkles, and patents are now pending before the United States Government at Washington.
Miss Meta is, herself, a living example of the great power of her remarkable beauty-making discoveries. By many she is considered the most beautiful woman in all Paris.
She took her own wrinkles out in three nights by her new discovery over three years ago, after face massage, masks, straps and steaming pots had all failed to remove them, and her skin to-day is soft and smooth, her face beautiful, and she has no more wrinkles. But, best of all, her discovery not only succeeded in her own case, but it seems to have worked even more astonishing results in the cases of others.
Mrs. Mary J. Davis, of East St. Louis, Ill., says: "My wrinkles were very deep and of long standing, so you can imagine my surprise when, after only two applications, they entirely disappeared." Mrs. L. E. Haskell, of 1250 S. Syracuse, N. Y., writes: "I am 50 years old, consequently my wrinkles were of long standing, and I had not thought it possible to erase them, but now, when I view my changed reflection in the mirror, I can scarcely realize the transformation that has been wrought." Mrs. M. A. Edwards, of 528 Fayetteville street, N. C., says: "I look younger than I did 25 years ago." Mrs. M. L. Lee, 704 E. Marshall street, Richmond, Va., writes: "I used the treatment one night, and it succeeded in entirely removing my wrinkles, leaving my face as soft and free from lines as a child's." Miss Henrietta Jackson, of 5 Myrtle Bldg., Pittsfield, Mass., writes: "Your treatment is a Godsend to womankind. I wish every woman could know as I know the wonderful results which are produced by your treatment."
No other Beauty Specialist, living or dead, has ever been honored by gold medals from International Expositions, and patronized by Countesses and ladies of high title and rank to the same extent that Harriett Meta has been.
You will never again have the opportunity of consulting a Beauty Specialist of such world-wide reputation as Harriett Meta. Therefore be sure to cut and use the below Free Coupon to-day. SAVES INNOCENT MAN
Little Girl Found Rings He Was Accused of Stealing.

CHATHAM, April 7.—The \$200 worth of rings which were supposed to have been stolen at the Grand Trunk depot yesterday were this morning found by Patrolman Dodson on the fingers of Permillia Smale, a girl 14 years of age.

The girl was at the station when the train came in carrying the rings from London. The package evidently fell on the baggage man's truck and the girl found it. Her father, who is near-sighted, thought they were brass and worthless.
This bears out the story told by the baggage man, Hallett, who was arrested, charged with theft, and who denied ever having seen the package.

NORTH TORONTO PEOPLE DON'T WANT MORE LAND

Proposal to Buy Strubard Property is Frowned Down—Miss Connor Located.

NORTH TORONTO, April 7.—(Special.)—The proposed acquisition by the town council of some 12 or 14 acres of ravine land belonging to John Strubard for water and park purposes is not likely from present appearances to be a very popular movement on the part of the town fathers, and criticism of the project is somewhat pronounced.

It looks to me like a lot of money to spend when we are not even assured that we would have an abundant supply of water," said Councillor J. W. Brownlow to the World to-night, "and when it is only suggested as a temporary expedient. I would sooner spend more money and get something permanent for it."

While favoring the project, it is only fair to the council to say that they have not expressed any intention to buy the price demanded.

Miss Mary Connor, the runaway girl, who has kept the chief constable and a big bunch of the townspeople on the qui vive for the last week or more, was finally located in a pile of leaves and straw by Mr. Brown, the caretaker of the Eglington Methodist church, at the rear of the church sheds shortly after noon to-day.

Dr. Jeffs was called, and Miss Connor, from whose horse she had strayed, was called, and the young woman, who in an emaciated condition, was apparently sane, and consented to go home with him.

HUMBER BAY. Formal Welcome to Incoming Pastor Was Delightful Event.

HUMBER BAY, April 7.—The members of the local Baptist church tendered a formal reception to the new pastor, Rev. A. B. Vincent, and his wife. About 150 people were present, and addresses were given by Professor Keiveland, of McMaster University; Rev. S. E. Greig, of Western Baptist church; Mr. Hurst, treasurer of the executive committee, and Mr. Montgomery, superintendent of the Sunday school. S. S. Weaver presided, and Miss McCall, teacher of the primary class, presented Mr. Vincent with an address, and Mrs. Vincent was pre-

question. The original cost was only \$40,000. Council should secure rights to lay down pipe lines or in any other way necessary to get an abundant supply, but not to buy the land. Briefly," said Mr. Ball, "the town of North Toronto ought either to make some arrangements with the city for a water supply, or else annex with the larger municipality and thereby obtain an abundance of it. But the proposition, whatever it is, ought to have some permanency about it. To my mind the one and only solution is annexation with the city and a supply such as they only can give," he said.

"I know nothing beyond what I have read in the press regarding the proposal to buy the Strubard property," said James Leung, chairman of the school board, "but it seems to me to be largely a question for engineers to settle. The price quoted seems to me high."

"It looks to me like a lot of money to spend when we are not even assured that we would have an abundant supply of water," said Councillor J. W. Brownlow to the World to-night, "and when it is only suggested as a temporary expedient. I would sooner spend more money and get something permanent for it."

While favoring the project, it is only fair to the council to say that they have not expressed any intention to buy the price demanded.

"A COUNTRY MOUSE"
Toronto Associate Players Present Creditable Performance.

The best audience of the week at the Earl Grey and Dramatic Competition at the Royal Alexandra was the best dramatic production so far last night, when the Toronto Associate Players presented the first acts of Arthur Law's comedy, "A Country Mouse." From an amateur's standpoint it was an ambitious attempt that realized no small measure of success.

First honors were easily taken by Miss Densie Hunter, whose previous work in "The Three Little Maids" and "The Westerners" still lingers. As Angela Muir, Miss Hunter delighted the entire audience by her clever, capable and refreshing interpretation of the role. Her simplicity was winsome, her manner girlish. It was a real pleasure to see her act. Miss Charlie Spencer, as Lady Sylvia Bowby, wife of the millionaire brewer, deserves mention. In the second act, her withering scorn produced a shudder in every part of the house. The Duke of St. Kitts, played by A. E. B. Hemmingway, was well cast. The supporting company, composed of Miss Bertie Spencer, as Violet Aynsley; S. Bennett, as Lord John Wyckham; H. E. Hitchman, as John Bowby; M. F. J. C. Greig in the role of Hon. Archibald Vise, and the butler, by Mr. Riley, contributed their share to the success.

This little band of players is deserving of every congratulation for their meritorious work.
