

MAYOR FLEMING GOT HOT

And Called This Methodist Preacher a Liar.

BOB IS A METHODIST, TOO

Pastor Speer Bumped Up Against the Wrong Man This Time.

His Worship Won't Allow Any Man to Say That He Believed the City to the Street Railway People, Even if That Man is in the Palpit—Honest and Above About the Sunday Car Brawl Which Has No Foundation—General Civic News.

"Liar, Slanderer and Low Coward!" These are the words which the Mayor of Toronto has used in referring to one of the leading Methodist Churches in the city. They are the exact words which His Worship used yesterday morning to tell Rev. J. C. Speer, pastor of the Broadway Methodist Tabernacle, exactly what he thought of him.

In such expressive language to attacks made upon his public conduct, but, as he says himself, there is a limit beyond which his patience and forbearance will not go. On Sunday evening last Mr. Speer, in his pulpit, made a most violent attack upon the Mayor. He accused His Worship of taking the city to the street railway people, and of delivering the various notices which he had delivered to the Street Railway Company. His Worship, however, thought that the Mayor was taking the city to the street railway people, and of delivering the various notices which he had delivered to the Street Railway Company.

"Hello! Is that Mr. Speer?" "Well, this is Mayor Fleming speaking. I understand you are leaving the city. You go to your home, and think about you. I think you are a liar, a slanderer and a low coward. You are a man who is not fit to be Mayor of Toronto. You are a man who is not fit to be Mayor of Toronto. You are a man who is not fit to be Mayor of Toronto."

All sorts of rumors about the action which His Worship has taken are being spread. It is said that the Mayor is a man who is not fit to be Mayor of Toronto. It is said that the Mayor is a man who is not fit to be Mayor of Toronto. It is said that the Mayor is a man who is not fit to be Mayor of Toronto.

Christian Workers' Conventions. One among the first of the many conventions to be held in Toronto this summer, is the annual convention of the Christian Workers' Missions of Canada, which will commence on Saturday, May 22, in the City Hall.

A Lecture to Artisans. An evening lecture to artisans and workmen is to be given by the British Association program next August. The lecturer chosen is Mr. G. G. Forbes, F.R.S., F.L.S., director of the Liverpool Museum.

ELGIN TO ABERDEEN.

Letter Received by His Excellency from the Canadian-Viceroy of India Re-expressing Thanks for Relief Funds.

Following is a copy of a letter to His Excellency the Governor-General, from His Excellency the Viceroy of India:

My Dear Aberdeen, I have often thought of writing to you for I am sure from myself how much we all have appreciated the assistance which you have given to the relief funds. I have been taking stock of our position on the subject of the relief funds, and I have been thinking of the relief funds, and I have been thinking of the relief funds.

I think I am entirely justified in saying that so far as government is concerned, the relief funds have been the most successful of any that have been raised. I have been thinking of the relief funds, and I have been thinking of the relief funds.

The men of the clothing town have never had clothing prices so low as is going on here, but there is a reason for it. We are determined to make this the clothing store of Toronto. Here's what we offer Thursday:

AFTER THE HONEYMOON

By J. F. LEATHERDALE.

Mr. and Mrs. Golding, of Baywater, had every reason to expect a pleasant reception from their friends in town when they returned from their honeymoon. It had been a most satisfactory marriage. On both sides there was money; a great deal on the husband's, and quite a nice little on the wife's. Without any knowledge of the circumstances either one would have inferred as much from the number of presents as the other would have received. But the marriage was approved by their friends for many other reasons. They were both young, and their affection was the best of the best. In their private life, they were both very happy. Richard Golding, a young man of twenty-five, was a bright, energetic, and ambitious man. He had a good education, and was well-versed in the principles of business. His wife, Amy, was a young woman of twenty-three, who was also well-educated and possessed a good deal of common sense. They were both of a high social position, and their marriage was generally regarded as a most desirable one.

She was just 21 and he was 30; she was very young and simple in her ways, and he was quite a man of the world. She was slight in figure and rather fair, while he was strong and dark. They were a well-matched couple, and their marriage was generally regarded as a most desirable one. They were both of a high social position, and their marriage was generally regarded as a most desirable one. They were both of a high social position, and their marriage was generally regarded as a most desirable one.

Change of scene and surroundings had a great effect on her. She was used to the quiet life of the country, and the sudden change to the busy life of the city was a great trial to her. She was not used to the noise and the hurry of the city, and she was not used to the change of scene and surroundings. She was not used to the noise and the hurry of the city, and she was not used to the change of scene and surroundings.

When she turned to her numerous friends for consolation she found out what an amazing difference had been made. The same things no longer interested her friends and herself. She had been used to the quiet life of the country, and the sudden change to the busy life of the city was a great trial to her. She was not used to the noise and the hurry of the city, and she was not used to the change of scene and surroundings.

Richard began very early to feel that he was not getting the same amount of attention from his wife as he had been used to. He was not used to the noise and the hurry of the city, and he was not used to the change of scene and surroundings. He was not used to the noise and the hurry of the city, and he was not used to the change of scene and surroundings.

With all this, it was no wonder that Amy began to break down. She was one of those women who are able to endure a great deal of real pain and fatigue so long as their love affairs are progressing satisfactorily. But when the honeymoon was over, and the reality of the situation set in, she was not able to endure it any longer.

She was quite resolved to end it all. A touch of madness, born of despair and of utter weariness in mind and body, made her feel happy and even gay for a moment. She stood there a pathetic figure in the lamplight holding her hat on with one hand, while a curl or two of her bright hair was blown about by the breeze. To stand herself so touched now and again she felt a great deal of relief. A heavier touch than usual swung it fast enough to produce a faint and noticeably more than once she felt a great deal of relief. deliverance from her pain came to her with the growing fascination of the depths below. "Hush, hush!" the waves seemed to say. "We are never weary, though we are never still, and down below us there is a certain peace. Millions sleep there, and we murmur over their slumber."

what you would give for the hand if it were that from taxes forever. Taking it by the year, it would not matter to you as an individual, as a more matter of payment, whether you paid your \$100.00 per year all to the owner, or part to the owner and part to the city. This is the first step to always bear in mind that the owner of the value of the land is the tax it must pay.

THE LOCAL IMPROVEMENT SYSTEM. An understanding of the single tax principle clears up many difficulties connected with the system that is being proposed in the city of Toronto. The system is a simple one, and it is based on the principle of charging the cost of the improvement to the land on which it is made.

THE SYSTEM WORKED WELL. The effect of the Tasmanian experiment appears to apply a much more practical answer to the question of how to improve the city. The system worked exceedingly well, and it has produced a great deal of good. It has improved the city, and it has improved the lives of the people who live in it.

THE SCOTTISH LIBERALS. A letter from Glasgow published in the National Review says: Evidence continues to increase that the Liberal party is becoming disintegrated. The party is becoming disintegrated, and it is becoming disintegrated. The party is becoming disintegrated, and it is becoming disintegrated.

THE MAKING LAND CHEAPER. We continue herewith our extracts from the Toronto pamphlet, as follows: "An important part of the home in mind is that taxing land values makes land cheaper. This is something that many are not aware of because the principle holds good in regard to the production of land. If you own a piece of land, and you want to improve it, you must pay for the improvement. This is the principle of the single tax system."

THE WITNESS OF THE WIVES. (After a storm) O the works that the genius of man doth devise; How they stretch overhead and shut out the sky! This intricate network of wires, he hath wrought, These delicate roadways of speech and of thought, The triumph of art, in the century's van, A witness to speak of the greatness of man.

truth, the United States today is a monopoly-ridden country, and being so, can those haggard-faced faces be free? No, they must stand it or starve. A frog sat on a log, and they will not have to go to one just as bad? He asks, What shall be done with the monopoly? Incumbentism is not of lasting effect, besides being an extremely delicate operation. It would seem that there is no way of keeping him in check. A remedy that will remedy can likely be found in legislation.

TOO CLEVER BY HALF. Tommy and Johnnie were boys at school, Tommy was clever, Johnnie a fool. Tommy at lessons was sharp and bright, Johnnie could never do anything right. Tommy turned former, and went to jail, Johnnie though slow, as he well could be, floundered away and became M.P.

In other colonies because it involved the first trial of the proportional, or Har's, system. The objection most commonly made to the system was that it was punishing voters and returning officers. So that the system was not a fair one, it was not a fair one. It was not a fair one, it was not a fair one. It was not a fair one, it was not a fair one.
