Greek Merchant Prince of London Leaves Millions For Public Use in Native Land—An East Africa Case

(Copyright, 1911, by the Brentwood Company.)

Some explanation is necessary with regard to the will of Marino Corgiaglio, of Mount Street, Berkeley Square, London, S. W., a native of Cephalonia, a naturalized English citizen who, dying at St. Leonard's at the age of eighty-two, has not only appointed the Crown Prince of Greece as the executor of his testamentary disposition, but also one of the chief legatees of his estate, which amounts to something in the neighborhood of \$4,000,000.

The will, as I will presently show, serves to emphasize once more an argument which I have from time to time put forward in these letters, namely, that the Greeks, when they leave their own country, become far more patriotic than if they had remained at home. The reason for this, probably, is that conditions abroad are so viscusous and caustic, inciting them to activity and to enterprise, and calling forth all the best phases of their character. There are no more respected and prosperous members of the commercial communities of London, of Paris, of Manchester, of Egypt, of Turkey, of Odessa, of New York, and of Chicago, than the Greeks, many of whom are millionaires, while all are more or less patriots.

And these expatriated sons of Greece, many of whom for business purposes acquire letters of citizenship in the land of their adoption, never forget their native country, are always amongst the most generous subscribers to all useful national and philanthropic enterprises at home and seldom die without leaving handsome bequests to public institutions in Greece.

Thus, Corgiaglio bequeathed \$250,000 to the crown prince on the lines of the Greek navy, and \$50,000 for the amelioration of the sanitary condition of military barracks at Athens. He leaves \$200,000 for the institution of a school at Athens, and \$100,000 for the lines of English colleges of Eton or Harrow; \$100,000 to the crown prince for the establishment of an industrial and technical school in the native town of Argostoli, in the island of Cephalonia; \$100,000 for the construction of a model prison in Athens, on the lines of the crown prince; \$50,000 for the Queen of Greece for her hospital, Evangelismos in Athens; while the entire residue of his fortune is to remain at the absolute disposal of the crown prince, for use in his discretion "for the improvement and embellishment of the city of Athens, and the establishment of any institutions for the advancement of the arts and trades which he (the crown prince) may determine."

The Evening Chit-Chat

By RUTH CAMERON

TO know how to do thoroughly good work in any line brings a man halfway up the ladder of business success.

But no further.

Unless he possesses the equally important talent of knowing how to show other people how to do good work, there he sticks.

The men and women who have climbed to the top of the ladder of success were most invariably men and women who have had that second ability.

The other day I was visiting a business man who is at the head of a concern which makes two hundred thousand dollars a year. I spent the whole forenoon with him, and in that time the only call that was made upon him was to sign a few checks.

"How is it that your employees ask you so few questions?" I inquired. "I should think they would be constantly coming to you for instruction."

"Ah! Miss Cameron," he answered, "that is the secret of my success, that I have been able to pick and train men so that they won't need to come to me. I often say I am the only person in the establishment who has nothing to do. You see, I have put all my work on other shoulders. And if I hadn't been able to do that, I would still be earning a few thousand a year instead of being where I am."

You see, the business man who knows how to make himself unnecessary in a small way will soon find himself necessary in a much larger way.

Another business man told me, with regret, of a thoroughly bright and intelligent man in his employ who "can never go above three or four thousand a year because he just does all the work himself. If he could show others how to do it, we could get two or three assistants for him and enlarge the department and pay him more, \$4 he can't."

Subsequently, when the work of the department made enlargement absolutely necessary, the man who couldn't show others how to do his work actually had to be discharged and was replaced by someone who could.

I know a very bright business woman who overworked herself to the verge of nervous prostration while all the time the concern she was working for was getting her an assistant.

"I'd so much rather do the work myself than show anyone else," she protested.

This is the cry not only of business men and women, but of all kinds of work everywhere.

It is the cry, for instance, that often keeps the mother wearing herself out in the kitchen while her daughters grow up in ignorance of the things they ought to understand.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound in your ears, which is only a sign that the inflammation is extending to the middle ear. The inflammation can be taken out and the tube restored to its normal condition. This can be done by the use of the Eustachian Tube Restorer, which is a small tube inserted into the ear, and which will draw out the inflammation and destroy the cause of the deafness. It is a simple and painless operation, and the cure is permanent. It is sold by druggists, 75c.

WEDDINGS

A wedding of interest took place in the West End last evening, when William Smith, aged 38, for many years a city marshal, was married to Mrs. George Way, aged 32, in the presence of a large number of guests. They were the recipients of many congratulations.

MISS CUNNINGHAM IS MUCH ANNOYED BY STORY PUBLISHED HERE

Miss Sadie B. Cunningham, formerly of this city, where she was employed in the office of E. J. Jarvis, Prince Wm. street, passed through the city last evening to attend the funeral of her mother, Mrs. Colwell Cunningham, who died this week in Sussex. She was greatly pained to learn of a story published in an evening paper here on Tuesday last to the effect that, being a man she had posed as a woman here and then had "donned man's clothing, again, and asserting the prerogative of a man had been united in marriage with a Miss Hope who had been appearing on the stage of one of the Sydney theatres."

Miss Cunningham, when told by a reporter about the story published, was greatly surprised, and perturbed. "Why my gracious! to say that I am a man is awful. I am as much feminine as any woman ever was and I shall certainly investigate that story."

She said she would take action for damages.

THE BOGEY MEN

the ruin for St. John, for Canada and the British Empire, as a result of free trade between Canada and the United States, was the burden of the cry at the private meeting in the north end evening. Of course there were some standard remarks touching other matters. Standard tells us that President "more" of the Conservative Club had one of the Liberal candidates with honesty, and that Hon. Robert Maxwell wanted to see Mr. James Pender's name to a statement before he believed that Mr. Pender was in favor of reciprocity. Mr. Baxter said that the old Conservative government had "acclimated a number of barnacles," meaning, doubt, Hon. Geo. E. Foster and others still in the party ranks. On a great Conservative victory was stated.

us look once more at the statement reciprocity would destroy the trade of winter port. This trade has been going very rapidly. Not only have the western Canada gone through winter in winter, but more than one of last year's shipments, in value from Minneapolis, St. Paul, Chicago, as City, Michigan, and other parts of United States. All of these American sets could have been shipped through winter ports. All the Canadian produce could have been shipped free in local American ports. Why did any come to St. John? For the same reason that they will continue to come in increasing volume under reciprocity—see this is the **BOGEY MAN** and **best**. That is the answer to Mr. Baxter, all the other speakers and writers assert that St. John would lose trade, only will it not lose through business interest, but it will benefit from a re- of the coasting trade.

answer the general charge that Canada will be injured by reciprocity it is necessary to appeal to the common sense of the people. How can a larger market for the things they have to sell, the farmers, the lumbermen and fishermen? Mr. Baxter says "the element of the industries of the city upon the agricultural development of province." He is quite right. Why does he not let the farmer have his market with large free markets to encourage production? The talk about American competition in the Canadian farm-market is known by every farmer to be untrue. The assertion made by Mr. Pender that the farmers of Maine had made as much progress in the last ten as those of the maritime provinces is borne out by the facts, for during period a great number of Carleton people have moved over into Maine in access to the larger market.

Powell, in the course of his remarks, took occasion to observe that "reciprocity did not necessarily mean annexation as the people were too loyal to sell their rights." Mr. Powell thus chides Daniel and other Conservatives who are the people by calling this "a flag on." Dr. Daniel made the absurd statement that reciprocity was the enterprise of a policy which would destroy manufacturing industries. It is clear the Conservatives have no case. With this is a bogey campaign.

R. MAXWELL AND MR. PENDER
Robert Maxwell made some remarks last evening that call for a reply. He said that "the Liberal press accused Pender of circulating a statement that James Pender was opposed to reciprocity, but Mr. Pender had not denied his own signature that he was not in favor of reciprocity." Mr. Maxwell went on to say that if Mr. Pender did make such a statement he was not the man Mr. Maxwell had in mind. Mr. Maxwell also sought to give the impression that reciprocity would ruin Mr. Pender's business and close it.

ing to Mr. Maxwell, who but the would circulate the report about Pender? Certainly not the Liberal, E. Pender, when asked by the Times, he branded the rumor as a fabrication and declared that he was heartily reciprocity and the Liberal. This paper published his statement. That should have satisfied any man disposed to be fair, but Mr. Maxwell has no such desire. He still questions statement. He perhaps forgets that under Pender at the reciprocity

meeting addressed by Mr. Guthrie, and made a strong speech in favor of reciprocity.

As to the suggestion that reciprocity would injure Mr. Pender's business, the latter is perhaps the best judge, and he is not at all disturbed. He knows, just as Mr. Maxwell knows, that reciprocity does not affect the goods which he manufactures, nor is there any reduction in duty on any manufactured goods except a very slight one in agricultural implements, which helps the farmer without injuring the Canadian implement industry.

Mr. Maxwell should be withdrawn from the public platform. He is injuring the cause of his own party.

POTATOES WANTED
The New York Evening Telegram, noting the shortage in the American potato crop, says:—"It will probably be necessary to import potatoes from Canada and Europe, though the Maine crops may save the situation." Of the crop in Maine the *Turf, Farm and Home*, published in Maine, says:—"It looks very much as if the price of potatoes should run high this year owing to the small crop both east and west. From Aroostook comes the story of an unusually small yield, owing to the extremely hot, dry weather in July. The same story is heard in Central Maine. The report is that a number of large growers in Waldo County will not attempt to dig at all as the crop is a total failure. Word from New York State is of the same tenor."

Do New Brunswick farmers want a slice of this trade this year?
The local Conservatives have not yet fixed dates for Mr. Bourassa or Mr. Monk. Why this omission?
Hon. Mr. Emmerson in Westmorland, Mr. Todd in Charlotte and Mr. Loggie in Northumberland are finding the campaign an exceptionally easy one.

Two seats for the Liberals in St. John this time. Strengthen the hands of the minister of public works, the friend of the winter port.

York County Liberals were never more enthusiastic than the nomination of Dr. Atherton has made them. He is the man to redeem the county from Crockett-McLeod domination.
If the farmers of New Brunswick produce more, will that be bad for St. John? Successful agriculture is the basis of national prosperity. Hon. Dr. Landry will tell you so.

The religious editor of the Standard piously observes:—"The aim should be to make this a decent campaign. Mud slinging and mud digging are the privileges of the grater press of Canterbury street."
We are told that at Hillsboro, last night, Mr. Fowler said they were proud of the flag and it was worth fighting for. Mr. Fowler should have remarked further that his friend Bourassa is also waving a flag, but it is not the same flag.

The Moncton Times prints a daily insult to its readers. Across its first page it prints in large type the question:—"Men of Canada, under which flag?" On either side of the question appear the British and American flags. This is a gross insult to every self-respecting Canadian.

A branch of what is called the Canada British Association, a Tory organization, was recently formed in St. Catharines, Ont., and W. A. Briggs, a prominent Conservative and fruit grower, was elected one of the officers. Mr. Briggs writes that all this was done while he was in Winnipeg, and he will have nothing to do with it.

The citizens should not forget that tomorrow afternoon between three and five o'clock the closing exercises of the two supervised playgrounds will take place, and there will be a display of samples of the work done by the children, under direction of their teachers. It is not too much to ask those who have perhaps not visited the playgrounds at all this year to spare an hour or two tomorrow afternoon.

Once in a golden hour
I cast to earth a seed
I cast to earth a seed
I cast to earth a seed
The people said, a weed.

To and fro they went
Thro' my garden-hower
And muttering discontent,
Cursed me and my flower.

Then it grew so tall
It wore a crown of light,
But thieves from o'er the wall
Stole the seed by night.

So'd it far and wide
By every town and tower
Till all the people cried,
"Splendid is the flower."

Read my little fable:
If you run you read
Most can raise the flowers now
For all have got the seed.

And some are pretty enough
And some are poor indeed,
And now again the people
Call it but a weed.

"In order to condemn, on principle, any treaty of reciprocity, one must first contend that Sir John Macdonald was neither a Conservative nor a protectionist, that he was an enemy of the Empire and of the Canadian confederation; and bring true Conservatives and the people at large to accept that contention."—From "The Reciprocity Agreement," by Henri Bourassa.

I. C. R. PUBLICATIONS ARE HIGHLY PRAISED.

The last issue of *Printer and Publisher*, a competent authority on the "Art Preservative," mentions most favorably other railway publications the new summer booklets issued by the Intercolonial Railway: "Storied Halifax," "The City of the Loyals," "The Ancient Capital," and "The Garden of the Gulf." A reproduction of the cover design of these booklets is given, accompanied by a paragraph highly praising the issue.

Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, peevish lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making material in one dense and concentrated form. With this supply the necessary strength to the body, build up the body and thereby drive the obnoxious coughs. The "Discovery" restores the digestive and nutritive organs in strength, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

PLANS FOR THE VISIT OF SIR WILFRID HERE

Ward Workers out in Large Numbers in Liberal Committee Rooms

MR. LOWELL'S CAMPAIGN

Great Organization Meeting in St. Martins—News From Counties All Predicts Liberal Victory—The Premier's Meetings in Upper Canada

With a feeling of absolute confidence in the outcome and with the battle cry "Both Seats This Time," the Liberal workers of the city are busily engaged each evening in the ward rooms in the work which is necessary in connection with the conducting of an election campaign. Active work was begun last night in the north end wards and a feeling of victory prevailed in all quarters.

The Laurier reception committee met again last evening and made considerable progress on the details of the arrangements for the great popular welcome to the Liberal chief. It is announced that both the C. P. R. and I. C. R. will run special trains to the city for the convenience of the large number who will come to hear the distinguished speaker. The C. P. R. will run a train from Perth Junction via Woodstock and McAdam Junction, stopping at all stations on the line, at one fare for the round trip. The I. C. R. will run a train from Moncton and Petitcodiac, making all stops, at single fare.

The members of the Young Men's Liberal Club will hold a meeting tomorrow night in the rooms of the Evening Day Union street, to make arrangements for the reception planned for Sir Wilfrid Laurier.

At a meeting of the Liberal electors of Dufrain ward last evening, Patrick Brown was elected permanent chairman.

Mr. Lowell in St. Martins

St. Martins, Aug. 23.—(Special)—With an enthusiasm which forecasts an overwhelming majority for James Lowell at the polls of St. Martins parish on Sept. 21, an organization meeting was held in the Masons' hall at the village this evening.

A pleasing feature of the meeting was the participation of a number of prominent Conservatives, who owing to the reciprocity issue will cast their ballots for Mr. Lowell in the coming election.

With an attendance of over 200 the meeting was very harmonious and the desire to work was indicated by the business like manner in which the organization was undertaken.

The election resulted as follows: F. M. Cochran, president; T. H. Nugent, first vice-president; Robert Connelly, second vice-president; Arthur Skillen, secretary; William J. Walsh, treasurer.

The parish was divided into small districts, and a chairman was appointed for each. A committee was also selected to act with the chairman in the various districts. The chairman are as follows: Fairfield, No. 1—James McFarland; Shanklin Settlement, No. 2—Robert Shanklin; Old Quaco, No. 3—John A. Howard; Village of St. Martins, No. 4—Thomas H. Nugent; Bayview, No. 5—Thomas Hall; Little Beach, No. 7—William Long; Green Settlement, No. 8—Robert Connelly.

When the names of the chairman were announced great enthusiasm was manifested, and the unanimity of the meeting was of such a nature as to gratify those who have the best interests of the party at heart.

James Lowell, who has been campaigning in the vicinity of St. Martins, delivered a ringing speech. He was followed by addresses by A. F. Bentley, M. P. P. E.; G. H. Nugent, J. J. Creamer, Richard W. Long and others. The speakers were given an appreciative hearing.

Committee rooms will be open every evening till the campaign closes, and the headquarters will be at the Masonic hall. The meeting closed with three cheers for the king, the candidate and Sir Wilfrid Laurier.

Westmorland

Moncton, N. B., Aug. 23.—Hon. H. R. Emmerson, Liberal candidate in Westmorland, opened his campaign in Moncton last night in the Grand Opera House. The house was packed and quite a number remained standing till the close of the meeting.

W. O. Schwartz presided, and the speakers were Hon. F. J. Swenson, J. I. Hawke and Hon. H. R. Emmerson. Among those on the platform were Senator McSwenson, C. M. Legat, M. P. P.; G. H. Jones, Captain R. C. Bacon, James Doyle, B. A. Lutz, M. B. Jones, A. Robinson, Ald. Charters, Ald. Price, M. McLeod, M. N. Keith, Dr. Coleman, F. A. McOle, Judge Emmerson, John Brown, J. A. Frechette, William Watson, R. N. Jones, and others, including a number of ladies.

Pictures of the king, Sir Wilfrid Laurier and Hon. Mr. Emmerson were displayed on the platform.

Queers-Sunbury

The Liberal campaign in Queens-Sunbury is giving great promise to Col. McLean and his supporters, who feel sure of a great victory. The meetings which he has held during the last week at Newcastle, Young's Cove, Jemseg and other places have been very largely attended and he has met with a splendid reception in all sections. A feature of Col. McLean's success is that the Liberal and conservative ladies join in them in making them triumphant successes, and after the speeches have been made a fine time is indulged in, all enjoying themselves immensely.

Rev. J. J. McSkellin of St. John, and Dr. Judson Hetherington have been addressing meetings in the interest of the Liberal throughout the constituency, and their speeches have been listened to with close attention, the people showing enthusiasm for reciprocity and an evident desire to learn more of its advantages.

In the Liberal Club rooms in Chipman last evening, an address on reciprocity was given by Senator King. The misleading reports of the St. John Standard regarding Col. McLean's meetings are read with much amusement in the counties. The Conservative meeting referred to in that

As for the speaker's views on the navy Dr. Christie believed that a warship was a very handy thing to have in case of aggression or no violence. As long as there were to be warships let us build our own and have the privilege of spending our own money. He wanted to see them built here and thought there was no better place than Courtenay Bay.

LOCAL NEWS

ARTILLERY. No. 6 Battery Artillery will meet at the drill hall, Barrack Square, for gun drill tonight at 8 o'clock.

POLICE COURT. In the police court this morning Allan Whipple and William Nowlin were each fined \$8 or thirty days in jail.

RECENT APPOINTMENTS. George H. Sealey of Dalhousie has been appointed a provincial constable. Rev. A. C. Lambert, of Lord's Cove has been authorized to solemnize marriages.

NEW FIRM. The Royal Gazette contains notice that George J. Barrett and H. Leslie Smith of St. John, have gone into partnership under the name of Barrett & Smith as dealers in gasolene engines, machinery and supplies.

GETS CHATHAM THEATRE. The Chatham Gazette says that F. G. Spencer of St. John has taken a lease of the Royal Opera House there and will conduct a moving picture entertainment and likely vaudeville, opening on September 15.

RECENT ASSIGNMENTS. Leon Paul Roy, of St. Leonards has assigned and a meeting of his creditors has been called for August 28. G. Adrian Hall of Grand Falls has assigned to Sheriff Tibbitts and a meeting of his creditors has been called for Sept. 1.

MR. SHERMAN. Ernest A. Sherman, of Cedar Rapids, Ia., has become connected with the Russell Miller Milling Company, Minneapolis, as assistant sales manager and assistant advertising manager. Mr. Sherman will be remembered as having some months ago for commission government.

LOSS ADJUSTED. The only adjustment so far made in the recent Union street fire loss, is that on the William Bell property, the insurance on this building was held \$3,000 in the Queen, \$2,000 in the Scottish and \$1,000 in National, and \$1,000 in the Canadian Fire Insurance Co. The adjustment is made at \$21.

NEW MANAGER. Frederick Mall—F. W. Hatheway has been appointed manager of the Crystal Steam Steamboat Company's office in this city. Mr. Hatheway made many friends with the business men and traveling public during his connection with the Star Line and they will be pleased to see him back in the steam boat business.

GOING TO CALGARY. Friends of Hugh H. Reid, local manager for F. W. Bird & Son, of Prince Wm. street, will regret to hear that he is to leave the city this evening, but will be pleased to learn that he has been promoted to the office of manager of the Calgary branch. Mr. Reid has been here about three years, and has made many friends both in social and business circles.

NEW SUMMER HOME. St. Andrew's Beach—Three new dwelling-houses are in course of erection in St. Andrews, E. A. Smith, of St. John, has a most charming summer home well advanced toward completion. It is located between the Algonquin hotel and the harbor front. Herbert Smith is superintending the work on this building.

CAUSED INCONVENIENCE. The derailing of a ballast car near the "bill" on the lately acquired C. P. R. property in Mill street tied up matters on the main line for two hours this morning. A car loaded with ballast jumped the rails about 9 o'clock and stalled the incoming Fredericton train. The passengers from the latter left at the Cold Storage warehouse, and walked in from there. The outgoing suburban was held up for two hours while the disabled car was being replaced.

MISSING BOY RETURNS. The return of Kenneth Bain, the fourteen year old son of Mrs. Thomas Bain of 25 Peter street, occasioned great relief to anxious parents. He had failed to return home on Monday night and diligent search on the following day failed to find any trace of him. It appears that he was accustomed some times to play about boats along the water front and fears were entertained that he might have been drowned. Enquiries at trains and boats were fruitless, and the worst was about feared when he arrived at his home at a late hour on Tuesday night. He explained that he had taken a trip to Wood street, and came on the Boston train that night.

DRIFTWOOD IN RIVER A DANGER TO MOTOR BOATS

A matter which has been the cause of much complaint of late among the motor boat owners who are fond of taking a spin from Indiantown up river a little distance, is the large quantity of driftwood floating from the banks of some of the mills along the water front. To avoid having gasoline boats this is an important matter, as it does not require a very large floating log or "butt" to throw the propeller out of gear, particularly in the case of the smaller launches. Several motor boat owners have suffered considerably in this way during the summer, and one boat had to be towed back at least twice to Indiantown because of the propeller having been thrown out of gear by drift wood. It is felt by boat owners that an effort should be made to dispose of this drift wood by rip, rather than by letting it float in the river. In many cases this is what is done, but not in all.

LIBERAL ELECTORS

The Liberal electors of the various wards will meet at their respective ward rooms for regular work each night until Sept. 21st.

INDIAN GUIDES SAVE HUNTER ATTACKED BY BIG WILD CAT

Frank W. Lord of Boston, in New Brunswick Woods, Has an Experience He Will Long Remember—Indians' Plucky Work

A correspondent sends the following:— Nothing less than an exceptional brave act on the part of Jack Solomon and Chief Noel Sacchi, two famous Indian guides, saved the life of Frank W. Lord, of Boston, on Wednesday, August 16. They had been fishing at Trout Lake, near Glenwood, N. B., and had their tent pitched near the stream that runs from the lake. Mr. Lord wandered down stream about dusk, and Sacchi and Solomon became anxious, started after him. They were just turning a bend in the stream and had sighted Lord when they heard the unwelcome yell of the "Injun Devil," or species of wild cat. They quickened their steps and reached Lord's side just as the cat leaped towards him. Solomon drew his hunting knife and as the cat landed on Lord's back Sacchi, with super-human strength caught the beast by the fore leg and turned it round a little. Then Solomon made a lunge at a throat with the knife, but missed. However he made another thrust and almost cut off the cat's head. Lord was struggling and writhing with pain, but the cat was conquered and a man's life saved. Mr. Lord was very badly bruised, and it will be a few weeks before he will be able to fish again, but he will never forget his narrow escape and the great bravery displayed by Chief Sacchi and Jack Solomon. The skin was sent to Fredericton to be mounted. Accompanying the article sent to the Times was a picture of Mr. Lord and the guides taken at their camp.

SCHOOL INSPECTORS TO CONFER HERE

Meeting With the Chief Superintendent Tomorrow—Some of the Subjects to be Taken up

Inspectors' conference with the chief superintendent, to be held in the provincial government rooms here, beginning at 10 o'clock tomorrow morning, includes:— The desirability of bringing to the notice of school boards the necessity of having school buildings and property insured. How may we secure more accurate school returns? What disposition should be made of the property taxable for schools in unorganized and vacant school districts? What have been the results of the teaching of elementary agriculture in the public schools? How may they be improved? School meetings—Appeals. What have been the results of physical training? What have been the influences of moving picture shows upon the pupils of the public schools? Should the high school course be extended one year? Is it desirable that a summer school should be organized for the teachers of the province? Suggestions as to changes in the course of instruction or text books. Suggestions as to improvements in country or provincial teachers' institutes. What, in your opinion, are the subjects least effectively taught? General business.

WAS FOR LONG TIME IN CHARGE OF ROW BOATS ON LILY LAKE

The death of George Knox occurred this morning in the General Public Hospital in his 73rd year. Mr. Knox was for many years in charge of the boats on Lily Lake but for the last two or three years had resided with his grandson, Harley A. Knox in Millidgeville. Mr. Knox was seized with a stroke of paralysis on Friday night last, and yesterday he was taken to the hospital in hope of improvement but he passed away this morning. He survived by three daughters, all in the States. The funeral will be held on Saturday afternoon at 2.30 o'clock from Millidgeville.

CHATHAM MAN IS DEAD IN BOSTON

Chatham, Aug. 21.—(Special)—Word of the death of David Fraser in Boston on Thursday last was received here today. He was a former resident of Chatham, being at one time in St. John street. He was about sixty years of age and lived with his sister, Mrs. W. G. Johnson. His brother, Alexander, in the states also survives. Mr. Fraser's wife died some years ago.
