only two years ago, but it seemed an age to the little waif. She had looked on in tearful perplexity while they sorewed down the lid of the rough coffin in which her mother lay, but no one paid any attention to her. She remembered one neighbor woman had said to bered one neighbor woman had said to another: "What an uncanny little thing she is: she's all eyes." After they had carried her mother away she was sent to a children's almshouse, and in She was known as Skeggs' bound girl. The neighbors sometimes remarked that it was very kind of Mrs. Skeggs' to take

that girl to raise; they wouldn't want such a responsibility. "Weil, what air you standin' there about? Why don't you scour your knives now? You always have to wait to be told. And do take those eyes of me. If I had such ugly eyes I d never look at ennybody." So the day wore away. The days since she came to the Skeggs family were always tedious, but this one seemed unusually long, per-haps because she had to go without her dinner. She had snatched a crust un-

perceived, but toward evening she felt faint with hunger, and oppressed with an unaccountable heaviness. an unaccountable heaviness.

She was drawing a pail of water at the well when Sammy came in from the field with his father. He was a great over-grown freckled-face boy of 12. His father went to the barn, but Sammy, seeing that Jane had just about got her bucket to the top slipped up behind her, grabbing her arms so suddenly that in fright she let go the windlass, and away rolled the heavy bucket to the bottom again. Sammy, who thought it was his legitimate right to tease the "boun' girl" whenever he chose to, burst into loud laughter, but Jate had borne much during the day, and this was the last straw. Snatching up a stick that lay convenient, with a up a stick that lay convenient, with a voice full of passion she declared she'd "kill him!" There was no doubt murder in her heart, but the slenderness of the stick, and Sammy's overgrown bulk, were insurmountable difficulties in the way. Something unusual in her manwere insurinountable difficulties in the way. Something unusual in her manner convicted Sammy she was terribly in earnest. He ran into the house crying, "Ma, Jane says she'll kill me." Mrs. Skeggs sent Sammy for his father. Consternation seized the family. What should be done with a creature that showed such dangerous proclivites! "It's born and bred in her," moaned Mrs. Skeggs, "and however are we goin' to break her?" It was decided that she must be whipped, but Jane was like an animal at bay, dumb, but full of fight. So Mr. Skeggs was obliged to give her a good beating before he could subdue her. She was then dragged up stairs and thrust into her little room. She sat down on the one rickety wooden chair by the window. For a time en chair by the window. For a time she was conscious of only one feeling, that was anger; but after a while other that was anger; but after a while other thoughts took possession of her. She went back to her parting from her mother, and wondered what she meant by saying they would meet again. Her mother had said she was going to her home in the sky. Mrs. Skeggs had told her that only good people went to heaven; and if she didn't mend her ways she would never get there: God ways she would never get there; God could never love such an ill-natured, ugly creature as she. Still her ideas of heaven were very vague. She looked up at the broad expanse of blue, where up at the broad expanse of blue, where the stars were beginning to twinkle, for twilight was just disappearing into the deeper shades of night. She thought the sky very beautiful, but how did people get there? The aches in her heart seemed the biggest part of her now. It filled her breast, and choked her breath. Someone opened her door and put a plate of bread and a mug of water on he floor. She was not hun-
