## Shediac

Shediac, Oct. 11.—An interesting event of recent date, was the school fair, which was held at the Central School, Shediac, on Saturday afternoon. The occasion was the first of its kind to take place here, and was very highly successful reflecting credit on the young contributors. The competition entered into by the different schools of the town, Rhodias, Cape, and Point Du Chene. The exhibit included poultry, a fine assortment of vegetable wares, flowers, writing and drawing and sewing done by the pupils of the Primary Grades. The parents of the children and a large number of others who were in attendance were present and spoke in highly complimentary terms of what the pupils had been able to do. The gathering was called to order by the Principal of the High School, Mr. H. B. Stevens, who acted as chairman. Mr. Stevens spoke briefly referring to the enterprise and the zeal with which the pupils had taken it up and expressed the hope that next year's fair would prove even a more excellent showing. The chairman then called upon Mr. Fred Dixon of Sackville, Superintendent of Schools to address the pupils. Mr. Dixon complimented the young competitors on what they had done. He was much pleased with the various exhibits, especially the contribution of corn and beans. While encouraging the children on their past work, he told them ways and means by which they could improve on their various lines and make the fair an annual event full of interest and of great benefit to all. Mr. Ezra Taylor was asked to speak especially to those who had exhibited poultry. As the speaker specialized in that branch, he was able to give a great deal of information concerning the birds and the crops in which they should be shown, when up for exhibition. Dr. Stornan, mayor of the town, addressed the schools and in a very practical way, gave them some excellent advice, with regard to making the raising of produce and all that pertained to the farm, a more attractive employment than it had been. The speaker said if boys and girls understood farm work better and learned to like it, they would not have the same desire to go to the cities, which were rapidly becoming too congested and the cause of much of the unrest of the present day. At the close of the speeches, the pupils were called to the platform, and the prizes awarded. The judges comprised a number of the ladies and gentlemen of the town. During the afternoon, sports took place on the grounds. The boys and girls entered heartily into the contest. Mr. Allen Tait was in charge of this feature of the program.

Thousands Will Witness Big Sir Barton and Man Are Ready for Windsor This Autumn

Thousands of eyes will be turned towards the race track at Windsor on Thursday, Oct. 11, when Sir Barton, the great old, owned by Commander Canada will give battle to can owned horse, Man o' War 1920 turf honors of this country.

A purse of \$75,000 and trophy of an estimated value of \$100,000 will go to the winner. This big sum can be set as the scale when weighed a honor of owning the premier America and, it may be, the whole world.

West Warnings.

The winnings of famous reach large figures. In light of the fact that Sir Barton is for its owner; Donovan with Flying Fox with over \$200,000 others with huge sums. The price ever paid for a thoroughbred is \$185,000, the same by M. E. Blanc for the light Westminister's Flying Fox, the present owner of Man o' War, who is reported to have \$350,000 cash for his stallion.

As regards the time taken by races Ormond, consisting of many competent judges as horse of the nineteenth century at any rate that can scarcely be superior—never made a record in any of the great races won, his time for the Derby was 45 1/4 seconds, a record surpassed by many horses of the farior breeding and pace.

When Man o' War met Sir Barton in their great race this year, Sir Barton was the favorite, but Sir Barton won by a nose. Sir Barton's record in the Derby was 45 1/4 seconds, a record surpassed by many horses of the farior breeding and pace.

Man o' War has now the records to his credit. American, in 1:32 4/5; one three furlongs, World, in 2:01 1/2; one mile and five furlongs, 3:40 4/5. The total amount he has won up to the present is \$465 and the only horse able to do this in this country are Don Quixote, \$153,550; Spornby with \$135,000 with \$130,592. As an old Man o' War won \$75,000.

Sir Barton.

Yet Sir Barton has a record which no horse need be ashamed of. He was a brilliantly successful a year-old, both as a distance runner and as a manager of wide achievements at Saratoga. Erie this August confirmed year-old form. He should

THE ELECTION.

The Globe announces that the Foster Government is not beaten. "That is certain." There is therefore nothing further to be said. The public may now confidently expect to see Premier Foster and his colleagues pursuing their even tenor of their way, utterly oblivious of all adverse influences or disturbing elements.

The Globe has some peculiar ideas. For instance, it appears to think that an alliance between the Farmer-Labor group and the Government forces would be perfectly proper and right—in fact a natural alliance—but to ally itself with the Opposition would be little less than a sin.

Discussing this question, the Montreal Gazette declares that if the Government were to resume control of wheat buying tomorrow at what figures would the price be fixed? One wheat is quoted about \$2.20 in Winnipeg, and December delivery at about \$2.05.

The New York Globe recently published an article by a United States observer who travelled freely around Ireland. He said: "It is easier to get food in Ireland than in Canada, and your produce sells for more."

When it was finished the gentleman stood on one side and called to the carpenter on the other. "Can you hear me, Smith?" "No, sir, not a bit," was the prompt reply.

WHEAT CONTROL. The demand of the Saskatchewan farmers that the Government resume control of wheat has its humorous side. These unselfish grain growers desire free trade for the articles they buy, and protection for the articles they sell.

PEACE IN CHINA COMING SAYS GEN. CHANG TSO-LIN

Chinese Leader Declares Troops Have All Been Driven Out. SAYS JAPAN IS WITHDRAWING Japanese Troops Soon Away from Chinese Eastern Railway and Backatia Zone.

By ROGER AMES BURR. (Copyright, 1920, by Public Ledger.) Peking, Oct. 11.—General Chang Tso-lin, inspector general of the three provinces of Manchuria and the strongest military official in China today, gave an interview to seven American and British newspaper correspondents in the old Manchuria palace formerly occupied by General Huo Shu-chang (Liaohai) as the headquarters of the northwestern frontier defense army. Slight, alert, nervous, ready to parry every thrust and turn and enter channels every question that could possibly prove embarrassing, Chang Tso-lin made the interview a battle of wits between himself and the correspondents, and it cannot be said that he came out second best in the struggle.

The fact is that the general had nothing to say, could say nothing. Although he is China's strongest military man, with an army of 300,000 first-class troops in the three provinces of Manchuria, and although he is now in Peking to advise the central government in the face of reorganizing the north and reaching an agreement with the south, Chang Tso-lin is, after all, not the Chinese Government. His position is purely that of a great military governor, and he is unable to speak for or commit Peking in any way. As he himself expressed it, he is the servant of the government and has no interest in it other than to do his duty by it. When things went wrong under the reactionary regime of Yuan Shih-kai, Liao Hui-shan and the Oufa Club it became his duty, in behalf of both the government and the people, to come down to Peking and drive out those who had been unwelcome to their country. That, then, he said, was now accomplished, and it was his intention to return to his post at Mukden as soon as possible and resume charge of the army of the three provinces assigned to him.

Has No Desire for Presidency. In this connection General Chang stated he had no desire to become either president or premier of China. He had his own task assigned to him in Manchuria, and he not only preferred but also felt that it was his duty to remain there to protect the country's frontiers and further the developments of the vast natural resources of his territory. In this latter task, the general added, he was anxious for the co-operation of foreign business men and financiers and he trusted that American, British and French merchants, as well as those of other nations, would soon take a greater interest in Manchuria and go to work in ever-increasing numbers. Says Japanese Are Withdrawing. The Japanese, the general said, were steadily withdrawing their troops from Trans-Baikal and the Chinese Eastern Railway zone and there would soon be no more Japanese forces in those territories. The Chinese Eastern Railway was now being operated under Chinese management, with an adequate Chinese railway police force, and conditions along the line were satisfactory to China. He could not see anything in the repeated assertions that the Japanese were trying to obtain control of this line and its branches and thus gradually swallow Manchuria. His relations with the Japanese, he said, had always been friendly and there had been no Japanese encroachment in Manchuria during his three years of rule there.

FOOD PRICES VERY HIGH IN PETROGRAD. By ALEXANDER BARKER. (Copyright, 1920, by Cross-Atlantic.) Petrograd, Oct. 11.—Prices of necessities have reached fabulous heights here. A two-pound loaf of bread made of flour that is almost indigestible and nauseating, costs 500 roubles. A pound of round butter costs 600 roubles. A pair of trousers cost 60,000 roubles. Bitterness against the Jews is growing stronger and the Russians complain they are monopolizing everything.

MEN AND BUSINESS (By Richard Spillane)

Here is a letter worth reading:— "Soorra, N. M., Sept. 28. "We are about one-third on the way to Philadelphia. Weather fine. Altitude ranges from 5,000 to 8,000 feet. We enjoy each day. If the road is rough we make a detour. Had some very interesting experiences. Last night we slept in a one-story adobe house, the posts of Senor Lopez at Quemado, N. M. Senor has a wife and thirteen children, two cattle ranches and a town house. We paid \$1 each for our beds, which were clean, both beds and pillows made of wool from the ranch sheep. Senor and wife speak only Spanish. We talked with several of the children, who speak English. The family are quite well educated. They have a piano and other modern appointments, and live in a desert town fifty miles from the next one.

"No one can imagine the vastness of the country until they ride over it. The towns are from 25 to 50 miles apart. The valleys and plains are used for pasture. Cattle and sheep at every turn. We meet no more than a few Indians, and once the day all about for the coast. Forays and Buickis mostly. Blanki clothes for both men and women, and all the women in trousers. These people camp and keep house along the road. They are a dirty-looking lot.

"A prominent western customer has given us his opinion that all women will wear trousers by 1924. "What think you of that?" The writer of the foregoing is a woman 35 years old. You know her, or know of her for she is Mrs. Blankenburg, widow of Rudolph Blankenburg, who was one of the foremost citizens of Philadelphia and once the Mayor. If the handwriting of the average graduate of high school, college or university was as legible as this woman's, there wouldn't be so much trouble today deciphering letters and signatures. Mrs. Blankenburg went across the continent in her automobile some months ago, intending to do the job of it in California and come back by Pullman. But, for some reason she didn't sell her car and she is inchoring home.

Think of 6,000 miles by automobile over mountain trails, desert sands and scorching lands at 75! At Senor Lopez, of Quemado, as was he will stick around his one-story adobe structure and not come East with the women and the thirteen children. Families of that size are not fashionable east of the Mississippi. Besides, he and the señora might feel a bill crumpled with a million neighbors within a mile or two, after being so long with 50 miles of desert between them and the next town. And why should they come East? The East is coming to them. What the railroad did to open the West the Ford, the Buick and other autos are multiplying mightily. The Lopez family, 750 miles from home, with 13 children and other eastern appointments—the children speaking English and being well-educated—tell a story of development that is suggestive.

DISEASED SPINE REPLACED BY A RIB FROM COW. Fourteen Inches of Man's Backbone Removed and Rib Substituted. Lynn, Mass., Oct. 11.—(By Canadian Press.)—William Crosgrove of this city will end his life with fourteen inches of a cow's rib in the place where fourteen inches of his spine used to be. The operation has just been performed at the Massachusetts General Hospital, Boston. Crosgrove had his spine injured ten years ago by a kick from a horse. When he took up driving brought on partial paralysis, and an operation became necessary. The cow's bone was boiled 48 hours, then chilled and filed into shape. Surgeons say the patient will recover completely.

CALIFORNIA AFFAIR STIRS UP JAPANESE

Jap Foreign Office is Advising Moderation in Discussion. CABINET CRISIS SEEMS APPARENT Marquis Okuma Advises Fight if Present Legislation is Carried in California. By R. W. FLEISHER. (Copyright, 1920, by Public Ledger.) Tokio, Oct. 11.—The present agitation over the California question grows intertemporally. The press comments range from the most moderate to the most extreme. Generally speaking, the papers try to be conservative. The outstanding feature of the present agitation is that it is unopposed and contains not a single note of moderation. Many papers criticize the foreign office for withholding information.

While there is no fear of a rupture with the United States, the danger lies in the opposition to the administration making use of a political demonstration for inflaming the public. Cabinet Crisis in Sight. To all appearances the present cabinet faces a crisis. Inside information indicates the probability that Marquis Okuma will again be premier and cabinet minister. Marquis Okuma is visiting about 100 influential men for a discussion of the California question and simultaneously studying at Waseda University committee proposals for a discussion of the California question and simultaneously studying at Waseda University committee proposals for a discussion of the California question.

"If the situation is allowed to take its course the agitation will spread to other countries and lead to serious consequences. At this juncture the people should cry out against the action of the Californians who even entertain such a plan in their minds. We should loudly proclaim the justice of our cause if the Americans do not see their mistake. HISTORIC CLAYMORE COMES TO THE U. S. Sword of "Bonnie Prince Charlie" Now in Possession of Washington Lady. Washington, Oct. 11.—The sword of "Bonnie Prince Charlie," now in possession of a Washington lady, was won by him at court, and one of the romantic blades of Scottish history has come to the United States. The sword was the gift of Lord Garcho, only son of the Earl of Scotland, to Mrs. Clarence Crutten (Calhoun), of Washington, one of the daughters of the House of Mar on her mother's side. The sword was delivered through the British Embassy, where it came in care of the Ambassador, Sir Auckland Geddes.

SPANISH TO OCCUPY MOROCCAN CITY. (Copyright, 1920, by Cross-Atlantic.) London, Oct. 11.—The city of Sheuan, Morocco, which has never been captured by whites is soon to be occupied by Spanish troops. It was founded in 1461 by Nabonemus and other Semites as a refuge for the spread of Christianity. Knows How To It. Speaking to the Kiwanis Club on the value of making the most of life, Dr. J. W. TRANS-ATLANTIC AIR ROUTES SOON ACCOMPLISHED FACT

International Air Congress to Take up Matters of Great Interest to Aviators. (Copyright, 1920, by Cross-Atlantic.) London, Oct. 11.—Behind the deliberations of the great International Air Congress, to be held this week, is an idea for the ground-work of a future trans-Atlantic service between the United Kingdom and Canada and the United States and General Sir Frederick Sykes, head of the civil aviation section of the Air Ministry, to be tonight. "The congress will take up all angles of aviation with a view of urging legislation for a closer and more efficient co-operation of the industry in Europe. This eventually means the advancement of trans-Atlantic projects which are still in their tentative stages, but are not so far from practical results as some think. It is reported that the Vickers Company has built a great ship to carry 30 or 40 passengers from England to America and Canada, if suitable landing places are secured. Plans are being considered for full facilities for passenger transportation across the Atlantic, and it is estimated the cost to each passenger will be three to four hundred.

New Hotel Project Held Up For Present

Commercial Club Cannot Go on Under Old Plan—Will be Accomplished Later.

It was announced by President S. B. Elkin at the regular monthly meeting of the Commercial Club held in the G. W. Y. A. hall last evening, that changed financial conditions had made it impossible for the club to go on under the old plans for the building of a new hotel in St. John. He did not consider the plan of securing the new hotel a dead issue, however, and still felt that it would be an accomplished fact before many months, although perhaps not under the same plan as had been originally proposed by the club.

On the opening of the meeting the Secretary, H. R. McLeish, reported that the executive had held four meetings during the summer months, all of which had been devoted to the discussion of the hotel project. The president reported as follows: "I regret very much my inability to be present at previous meetings, and make a statement regarding my efforts in connection with the hotel project. Personal interests and their requirements have prevented my doing so, I appreciate very much the consideration extended me in serving so much time to chase to afford me the privilege.

As you are aware, a very considerable amount of work was necessary, preliminary to securing the association of men prominent in the transportation and hotel business. The committee in charge of the work did its part, and then it became necessary to secure such associates as I have referred to.

Subjects of The Flower Kingdom

Eagerly Sought for by Nature Students — High School Pupils Make Collections.

The majority of the subjects of the flower kingdom have reached their maturity and are being eagerly sought by Nature students. Several of the High School pupils have made extensive collections of certain families of plants in the pursuit of their botanical studies. Each new addition is brought to the teacher for identification and classification, but there are over a thousand different species which claim this province as their habitat. The pedagogues, as might naturally be expected, is often hard put to furnish the desired information.

Happily both teachers and pupils are aware that there is always a need of last year's material, and when in doubt the plants are taken to the Natural History Society where the curator, Mr. McIntosh is always ready to furnish the desired information. An extremely rare plant, needs considerable research, and even some of the common plants are so closely related that only a minute examination can assure their proper grouping, so that these days are strenuous ones at the museum. One collection brought there for classification consists of some two hundred plants, while there are a number of smaller collections also awaiting attention.

SENIOR LEADERS' CORPS OF Y. M. C. A. The Y. M. C. A. Senior Leaders' Corps held their first meeting of the season yesterday when plans were mapped out for the coming winter. A number of new members are coming into the corps, and everything is pointing to a successful year.

Major Fred Smith, National Director of Physical Education will be in the city in November when the annual meeting of the corps will be held. It is planned to initiate the new members on this occasion with a special ceremony.

The subject's taught are: Reading, writing, speaking and arithmetic. New pupils will be received any evening. The teachers will gladly furnish full information to any boy or man who may be interested.

Some of the men who have registered this year can neither read nor write; others have attended school more or less and are now availing themselves of this splendid opportunity of improving their education during their evenings, so as to qualify for positions higher up.

Citizens are requested to recommend the free night schools to any boy or man who has but a limited education, and more particularly to those who (through their inability to read) would otherwise know nothing of this free instruction which the School Board is providing.

Those in charge of the refreshment booth were Mrs. William Tobin, Mrs. John Lee, Mrs. Alfred Bell, Mrs. John McAndrews, Mrs. Captain Wilkie and Mrs. Richard Lee.

Thirteen Drunks Pleaded Guilty

Twenty-One Prisoners on Different Charges Were in the Police Court Yesterday.

The prisoners in the police court yesterday morning numbered twenty-one, thirteen drunks pleaded guilty and were remanded.

Worcester Ward, charged with refusing to move when ordered by the police was remanded. In the case of Cornelius Sheehan, Sidney Parks and James Smith, charges with creating a disturbance the matter will be taken up later.

Robert Orr, Charles Muree and Wm. Truscott arrested for furiously driving and abusing a horse on Robbseye avenue, also with interfering with traffic, and being drunk were before the court. They were remanded on the first charge and will go before Magistrate Adams at Brookville on Friday next.

Wm. McLaughlan was remanded on the charge of being drunk and threatening to shoot his wife.

Still Room For More Pupils In Free Night Schools. The School Board has received most gratifying reports from instructors Cormier and McEldermid regarding the work carried on in the free night schools which were opened in the King Edward and Albert schools last Monday evening. The teachers are well pleased with the earnestness and enthusiasm which their classes display during the opening week.

The attendance is exceptionally good. There is now a total enrollment of sixty-three boys and men—forty-two of whom are attending in the King Edward building, corner of Wentworth and St. James streets, and twenty-one in the Albert on the West Side. More pupils can be accommodated in both these schools.

Those in charge of the refreshment booth were Mrs. William Tobin, Mrs. John Lee, Mrs. Alfred Bell, Mrs. John McAndrews, Mrs. Captain Wilkie and Mrs. Richard Lee.

Exclusive New Millinery For the Fall Season. Introducing New Modes of Exquisite Beauty. A showing of the marvels in Millinery that New York has produced for the Fall season, and an exhibit justifying the pride with which we bring this wonderful collection of Beautiful Hats to the attention of the well-dressed women of this city. Yesterday we received another shipment of Ladies' Tailored Pressed Silk Beaver Hats from one of the foremost producers, this makes our showing, once more complete with all the wanted styles. As it is impossible to purchase Tailored Pressed Silk Beaver Hats, made by a man's hatter, superior to the hats we are showing and as our prices are so much lower than what similar hats are being shown at, we advise an early selection. Marr Millinery Co., Limited. St. John, Moncton, Amherst, Sydney.

Traffic Matters. The rest of the meeting was devoted to a discussion of traffic matters. It was moved that the club instruct their secretary to write a letter to the Commissioner of Public Safety requesting that the traffic police be instructed to see that the traffic laws are more rigidly enforced. The resolutions of J. P. Doherty and W. H. Harrison were accepted. Mr. Doherty in his letter of resignation expressed his regret at being obliged by his transfer to Moncton to sever his connection with the club. He believed it would accomplish much in the community, and wished it all success. The secretary was instructed to write a fitting reply. The meeting then adjourned.
