Doctor Leonard Bacon, of New Haven, has a short, bold paper on the use and abuse of political parties; Mr. Hale's introduction gives some plain and healthy truth about our currency; Turguenieff's strong story of "The Fatalist," is concluded; the serials go forward as u 43-1; there are two poems; Mr. Tyrwhitt's bright series of art papers goes on; Dr. Martineau begins to discuss the Protestants claims to caurch authority, in contrast with the Roman ones which he has been discussing so powerfully; we shall see how much better one form of ecclesiasticism fares with him than another. There is a delightful sketch of country life in France, by T. G. A., whose lively prose and poetical contributions have become a feature in the magazine. And the facts in the case of Jacques Guyot, of Marseilles, deceased, are wrought into a very fair little story. The usual selection of informing entertaining matter fills the critical and record departments.

MONDAY EVENING, JUNE 1. The Reciprocity Mania. The present Government of Canada ems to be willing to sacrifice all things for the purpose of securing anything that can be called a Reciprocity Treaty with the United States. The fishing inlemnity has been offered, huge expenditures on canals have been promised, our tariff has been raised for the purpose of making it correspond as nearly as possible with that of the United States, and all for the purpose of giving the people of the United States the privilege of buying some of our products without payment of duties—a privilege they are asking for, though Boards of Trade and Produce Exchanges, almost duily. The Paris correspondent of the New York Times details the career of M. Froncin Du Merson, a noted politician, who had just been arrested for forgery M. Troncin began life as a doctor; then he went into commerce; then he speculasted, and then he married the daughter of the playwright, Du Merson, with all the millions left her by her papa. M. Troncin soon had the finest turn-outs in the city. He patronized Cora Pearl, and shared the recreations of princes. But the hele in the fortune coutinued to grow more and more visible, and M. Troncin became manager of the Folies-Dramatique. It was then that he brought out Cora Pearl, who sang "Je suis Cupidon" with a charming accent. He did not succeed as a manager, however, and so he turned his attention to politics, and the Imperial Government gave him a position which he adroitly managed to retain under M. Thiers. His name soon figured at all the fetes, and he was one of the most important persons about Versailles. When MaeMahon came in, M. Troncin lost his place, and, out of office, he conceived the idea of getting up another universal exhibition, to be held in Paris in 1875. Coffill—and fluding him looking so hearty and robust, was led to inquire what had produced the great change, for when I last saw him, two years previous, he was a mere skeleton. He informed me that your very valuable Syrup of Hypophosphites had effected a perfect cure. He persuaded me to try the Syrup for Bronchitis, from which I had suffered much during several years. I purchased one dozen of this Syrup, and have used only three bottles, and my health is now better than it has been for years. Not requiring the balance of the dozen, I sold it to different parties, and now there is a general demand for it from all parts.

Respectfully yours, W. J. Nelson. Capt. H. Coffill was cured of consumption in 1869 by Fellows' Compound Syrup of Hypophosphites; his letter was published some time ago.

away. Will the Hon. Attorney General presume to say that the School Bill which was got up by him, is a perfect law, that it cannot be amended or improved in any way, that no judicious modification whatever ean be made in it? If so, it is the first perfect law ever framed by mere human ability, and implies absolute perfection in him who framed it. I am sometimes tempted to think that he really entertains this notion concerning himself, for he looks [here Mr. Marshall turned and pointed at Mr. King] the most self-satisfied man in the community. [Laughter.] As regards the School Question, I am one of the strongest and soundest advocates for free, public education such as will properly qualify a people for their relations and duties to each other as members of the same community. [Cheers.] I have, I may say from my boyhood, been an advocate for such a system of free schools, and, up to the present moment, a disinterested advocate. All that I hope to gain is an honorable political reputation, and having merited that at the hands of my fellow citizens, I shall feel amply repaid.

Before going further into the school question permit me to remark that there are other subjects which may fairly be supposed to occupy the attention of the heart four years. If elected I shall not fail to labor, in season and out of season, to secure for this Province a more methodical system of accounts in the Department of Public Works. I heartily endorse the remarks of the Committee on the stronges of the committee on the first perfect law, that the cost of the number of children in displaying the properly displayed to a count of the present moment, a disinterested advocate. All that I hope to gain is an honorable political reputation, and having merited that at the hands of my fellow citizens, I shall feel amply repaid.

Before going further into the school and the school law to a certain extent the was a falsehood. There was no wish on the part of the Catholics to have their church endowed. To say so was all buncombe. It was said that t

man the Hon. J. A. Beckwith, and signed by the whole committee. After stating amongst other things that expenditures to the amount of over \$25,000 remained unaccounted for at the time the Auditor General closed his report the committee (of which Hon. Mr. Bock. Robinson, one of the leading shipowners and most respected public men of the Province, both Government supporters, were members) goes on to make the following extraordinary etatement:

"Although the report of the Chief Commissioner of Works may be deemed satisfactory, and he accounts correctly for the disbursements of the public accounts therein is defective, likely to lead to errors and confusion, and calls for a thorough revision."

This more than justifies the statement which I made in my circular in regard to this department of the public service, and, having a fair personal knowledge of public accounts, I shall not fail, if elected, not only to point out the objectionable features of the System which now obtains in the Board of Works office, but will be prepared to submit a new system, one that will avoid the necessity of members of the House taking the risk of carrying monies around in their pockets for the accommodation of public contractors or others.

It shall be my aim to secure more

sent extravagance continue, the Local Parliament will soon have to resort to direct taxation.

Gentlemen, I beg to again confirm what I have said in my circular. I am in favor of free common schools, giving what is known as an English education—viz.: spelling, reading, writing, English grammar, geography, history and bookkeeping. This might be had for less than two-thirds of what we now pay. This modification must be made sooner or later, for the people will not submit to the present extravagant tax. I would do away with the arbitrary division of districts, and would make the east side of St. John one district, the west side (Carleton) another district, and Portland another. I would wipe from the books the 20th Regulation, and make such other reasonable modifications as could reasonably be made and would open the schools in the city to all children without reference to locality. [Applause.]

Mr. Marshall then took up the following statement and went over it, sarcastir cally saying that he did not suppose for a moment that Hon. Mr. King had arranged the County school tax for the purpose of getting votes in the rural districts.

of the City of Saint John:

GENTLEMEN:-Legislature of New Brunswick.

I have always favored a Free School syst ut sincerely regret that a measure which should ave been such as to have been received with ration of the general affairs of the Province. nost universal satisfaction and approval has eply disturbed the country, created much Hl your votes, I will feel much obliged, and prom eeling, and now threatens to embroil the Govto use my best efforts in furthering every move rnment of the Province with the Dominion ment that I consider fair and right for the ad-Parliament. This is a very serious condition of hings and it is evident that something will have to be done to remedy it. I think certain improve ents and modifications might be made in th Bill which, while doing no wrong to Protestant ould lead Catholics to accept it without further pposition. But fhe School Bill in its pre-SET SHAPE IS TOO EXPENSIVE. All that we can afford to give children, all that is required nder the circumstances is what is commonly called a plain English education, such as will fi them for the ordinary avocations of life. THIS SHOULD BE HAD FOR ABOUT TWO THIRDS OF WHAT WE ARE NOW PAYING, and at the same time ma ain the principle of Free Schools, Soliciting your vote as one of the two Candi

lates of your choice for the representation of this I have the honor to remain Your obedient Servant,

Dr. J. Walker's California Vin or. J. Walker's California Vinegar Bitters are a purely vegetable preparation, made chiefly it in the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol: The question is almost daily asked, "What is the cause of the unparalleled success of Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable applifies of Vinegar Bitters in healing the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritions, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.
