

European Intelligence.

One Week later from Europe!

IMPORTANT MOVEMENT OF THE ALLIES!

CRITICAL SITUATION OF THE RUSSIAN ARMY!!

The Steamship Canada arrived at Halifax shortly after 7 o'clock on Tuesday morning 9th inst., bringing dates to the 29th Sept.

LATEST FROM THE CRIMEA

The following despatches have been received in Hamburg:—

St. Petersburg, Sept. 26th.—Prince Gortschakoff reports, under date of 23d inst., that the Allies had landed 20,000 men at Eupatoria, and they have now 30,000 men on the Russian flank. Yesterday the allies attacked our infantry, who retreated to the heights over Russia.

Another despatch from St. Petersburg, Sept. 25th.—Prince Gortschakoff reports, under date of 24th, that on the previous day 33,000 of the enemy had debouched from Eupatoria, and occupied the neighboring villages on the left flank. The Cossacks had taken 25 prisoners, foraging at Kerich.

SEBASTOPOL, Sept. 16.—The Russians are fortifying the North part, and are constructing new batteries. The French are advancing cavalry and a column of infantry towards Bakhiserai, by the Baidar road.

SEBASTOPOL is to be razed, and the basins filled up.

A fearful tempest has occurred at Sebastopol, accompanied by heavy rains.

Sept. 17.—Prince Gortschakoff reports from Sebastopol, that the allies have attempted nothing yet on the north side. The enemy is concentrating his forces between Balaklava and the Tchernaya, and constantly reconnoiters our left wing from the Baidar valley.

SEBASTOPOL, Sept. 18.—Our Generals and superior officers, wounded are doing as well as can be expected. There need be no anxiety on their account.

Accounts from the Crimea of the 11th, state that General Bosquet's wounds are not serious. The first detachments of the allied troops entered the Eastern part of the Karabelnia suburb of Sebastopol on the 11th inst., by order of General Pelissier, and, on the following day, the city, having been previously inspected, was occupied, but only by small bodies of troops.

The attack on the Malakoff was directed by Gen. Bosquet. Gen. McMahon was the first to lead his division to the beach, having the Zouaves of the Guard for a reserve. General de la Motterouge led the next division, having the Grenadiers and the Voltigeurs of the Guard as a reserve. This division attacked the curtain which connects the Malakoff to the Redan.

The following recapitulation of the list telegraphed by General Simpson will show how severely the English have suffered in their several assaults:—

Killed—3 Lieut.-Cols.; 1 Major; 10 Captains; 10 Lieutenants; 1 Ensign; 1 Deputy Assistant-Commissionary; 26 Privates.
Dangerously Wounded—2 Lieut.-Cols.; 2 Majors; 3 Captains; 9 Lieutenants; 3 Ensigns.
Severely Wounded—6 Lieut.-Cols.; 3 Majors; 14 Captains; 25 Lieutenants; 3 Ensigns.
Slightly Wounded—2 Lieutenants; 2 Sergeants; 1 Colonel; 1 Lieut.-Col.; 6 Majors; 9 Captains; 21 Lieutenants.
Missing—1 Lieutenant.

At the Alma we lost precisely the same number in killed, with 73 wounded; at Inkermann the numbers were 43 killed and 101 wounded.

The allies are actively preparing for a campaign. From three to four hundred deserters, most of them Poles, have arrived at the Allied camp. They relate that the demoralization of the Russian army was most complete, and that such was the confusion from the first moment of the attack, that the soldiers, exhausted with fatigue, remained 24 hours without provisions. The loss of the Russians is estimated at 18,000 men.

A correspondent of the *Pikis Patrie*, under date of Sept. 26th, says:—Ever since their retreat, the Russians have continued to fire shells at us, and it would be a mistake to suppose that our armies in Sebastopol are beyond range of the enemy's batteries on the Northern shore and on the plateau. The balls from Fort Constantine reach beyond Serezhka Bay, and they can very easily throw their projectiles into the town. As to the batteries of the other forts, some of the guns in them are so powerful, that they can carry shot right over the town, and do execution in the advanced siege works.

But although the Russian fire does not cease, it is not very active. The artillery and engineers in Sebastopol are everywhere at work. Fort St. Nicholas, which was left almost intact, was indeed fortified, and its cannon already replied to the enemy. Any attempt of the Russians to return to the place is wholly out of the question. The Grand Duke Constantine arrived at Nicolai on the 20th. It was said the Czar would himself shortly visit Nicolai, to superintend the winter campaign.

Letter from Berlin dated the 23d, says:—Various circumstances at St. Petersburg seem to indicate, that Prince Gortschakoff will soon evacuate the forts to the North of Sebastopol. These forts being only strategic points; but great preparations are making by the Russians for the winter campaign.

The Russian treasury had received large sums of money through Berlin.

English war material is constantly passing through Prussia for the use of the army. On Sept. 17th, the Turkish troops, at Constantinople intended for Asia, had been sent to Eupatoria. The Anglo-Turkish contingent would go to Trebizond, and be placed under Omar Pasha. It was also announced that considerable bodies of French troops had been sent to Eupatoria.

THE FALL OF SEBASTOPOL.—The Monitor announces, that the Minister of War has received the following telegraphic despatches from Marshal Pelissier:—

SEBASTOPOL, Sept. 17.—In their work of destruction the enemy respected the docks (which are magnificent constructions), the establishments in the vicinity, the barracks of Fort Nicholas and the Quarantine Fort.

The Anglo-French Commission appointed to draw up a return of the material left by the Russians at Sebastopol has commenced its labors. The result may be summarized as follows:—We have found in the town about 4,000 cannon, 50,000 cannon balls, a few hollow projectiles, a large quantity of grape, a great amount of gunpowder (despite the explosion), 500 anchors (half of which are excellent), 25,000 kilograms of copper, two steam engines of 30 horse power, and a considerable number of masts sawn in two for defensive purposes (blindages).

FUTURE OPERATIONS IN THE CRIMEA.—It is expected that a portion of the army will be left in Sebastopol to prepare it for the winter quarters of the whole of the besieging forces. Before the bad weather sets in it is stated that the enemy will be vigorously attacked in the field; the troops encamped on the Tchernaya, attacking the Russians in front, while an army of some 60,000 men to be embarked at Kamiesch or Balaklava, and landed a little north of the Belbe, will simultaneously act against their flank. The enemy will thus be caught, as it were, between two fires, and no doubt is entertained as to the result. Such is, in two words, the plan which is reported to have been adopted; but although to non-officials it appears extremely plausible, Marshal Pelissier and General Simpson are so well aware of the necessity of keeping all their future movements secret, that one cannot but feel inclined to question the authenticity of this report.

But although the mode in which hostilities will be carried on may not be known, still that the enemy is to be vigorously attacked, and that without loss of time, is beyond doubt, and the nature of the preparations making here leads one to suppose that the allied generals do not entertain the idea of another siege, but of operations in the field. The siege-pieces, mortars, shells, &c., which were in course of shipment at Murzik, are ordered to be replaced in store, and five pieces of eight, six, and twelve pounders embarked in their stead; while orders have been given forthwith to despatch to the seat of war 10,000 horses.

PARIS, Sept. 18.—It is now certain, that Marshal Pelissier has decided upon a plan of campaign which is to bring great results. Two divisions of the army are to be sent to the North of the Crimea, and will consist of 25,000 men. Gen. McMahon has left for Eupatoria to take the command of the troops stationed there. In this manner it is hoped to cut off the Russian army in the field from that which is now stationed on the northern forts of Sebastopol. These operations will be executed with the greatest energy.—*London Globe*.

THE BALTIC.—Nothing has been done in the Baltic. It is reported that the fleets will winter at Kiel.

WAR IN ASIA.

Despatches received from Vienna state, that Kars is greatly straitened for provisions. The garrison is eating horse flesh.

Advices from Trebizond dated the 6th inst., announce, that the Russians had abandoned Erzeroum and are at Malagulinia.

PROMOTIONS IN THE FRENCH ARMY.—The Monitor contains a decree promoting nineteen lieutenant-colonels to the rank of colonels, and twenty chefs d'escadron and chefs de battalion to that of lieutenant-colonel.

Another decree confirms 14 promotions to the rank of officer, and 73 nominations to that of knight in the legion of honour, made provisionally by Marshal Pelissier.

The Monitor also contains a decree extending the exemption from navigation dues on vessels bringing corn, flour, rice, potatoes, and dry vegetables, from 31st Decr., 1855, to same date, 1856.

DENMARK.—The Folketing, now in session at Copenhagen, has definitively approved, by a majority of 54 to 44, all the proposed constitutional changes.

PRUSSIA.—The King of Wurtemberg, Count Bernstorff, Prince Hatzfeld, M. de Bismark, and General Wedell, have arrived at the palace of Stolzenfels. The Regent of Baden is also expected there on a visit to the King of Prussia.

RUSSIA.—The Emperor and Empress of Russia arrived at Moscow on the 13th inst. The Grand Duke Constantine, accompanied by the Empress Mother, arrived there on the 15th. The former started on the same day for Nicolai.

The intelligence from the Crimea, dated September 17, is to the effect that the Russians were throwing shells into the town of Sebastopol from Fort Constantine.

Private letters from St. Petersburg announce that the Em. Alexander has approved of a law which has been presented to him by the Minister of Finance, relative to a complete reform of the old system of commerce with China by the way of Kiachta.

GERMANY.—The Fall of Sebastopol.—Let-

ters from Athens state, that the news of the fall of Sebastopol had produced the greatest consternation among the parizans of Russia, who were always boasting of the impossibility of the allies succeeding. The Ministers waited on the French and English Ambassadors to offer their warmest congratulations. The question relating to M. Kalerji has not yet been resolved.

LONDON MONEY MARKET.—London, Sept. 28.—The demand for money continues very active both at Bank of England and at the discount houses of Lombard street.

Another advance on rate of discount has been resolved upon by Bank of England—it is now 5 per cent. and in active demand at that.

English securities have been prejudiced by this advance, and by stringent state of money market. Consols closed to day, account 87-7-16 to 91 16ths. Money eight to eight and quarter to half. Exchequer Bills 4s. discount to par.

CYTHON.—Liverpool, Sept. 28.—Stringency of money market has had serious effect on prices. Consols have given way fully 1 per pound on most kinds of American.

The markets were tending downwards.

THE INTERIOR OF SEBASTOPOL.

(From an Eye-Witness.)

SEBASTOPOL, Sept. 14.—For the last two days I have passed several hours each day in riding over the whole of the city and batteries. Sebastopol, as you know, is divided into two parts by the Dockyard Creek. The city (properly so called) is very large; its houses, public buildings, and churches were for the most part nearly new, very handsome and built of a clean white stone. They are now all crumbling, smoking ruins. The streets are wide and planted with trees. Its forts—large casemated buildings constructed for three tiers of guns facing the entrance of the harbor—were also very handsome and solid, but are now also in ashes.

On the other side of the Dockyard Creek (separated from the city) the public buildings, docks, quays, and basins are on a scale of greater magnificence. These buildings, although much shattered by our shells, are still standing, the enemy having, I believe, failed to explode a mine under them, owing to their hurried departure. Here were collected vast stores of clothing and other military materials.

As an instance of the frightful loss the Russians must have sustained in men during the last bombardment and assault, I may mention, that one of these vast ranges of buildings proved to have been a hospital. On entering it our people found about 1000 dead bodies lying in their beds! The horror of this scene far exceeds any I have ever witnessed. They were evidently the bodies of men who had been brought down from the batteries as they fell wounded, but so rapid most have been the accumulation that the medical men were overpowered with numbers, and thus these poor creatures were, unheeded, left in their beds to die. Many must have been dead for days and, horrible to relate, among them a few were found still alive! This number, of course, excludes the hundreds and thousands who were found lying in all parts of the works after the assault. I cannot help feeling a pity for the enemy now in their discomfiture, and admiring them for their heroism in defending their much beloved city. I have heard that a Russian officer (a prisoner) said, "If our men only knew how to fight as they know how to die, they would be the finest troops in the world!"

Around the great buildings on the eastern side of the Dockyard Creek was a town of small houses, called the Karabelnia suburb, once probably occupied by artisans and mechanics. Such is a short and hurried account of the general features and appearance of the city.

The Standard.

WEDNESDAY, OCT. 17, 1855.

THE CELEBRATION AT ST. JOHN.

Having witnessed the great celebration at St. John on Friday last, in commemoration of the victories of the Allied Armies at Sebastopol, we will endeavour to give a brief notice of the affair.

The day was fair, but rather cool with a strong breeze. About 5 o'clock a grotesque band of young men, styled Calathuonians, mounted on horses, and waggon, and dressed in the most ludicrous manner paraded the streets, accompanied by a sheet-iron-tin-brass band. Early as it was, the people raised their windows, and laughed till their sides ached. At 6 o'clock a salute of 50 guns was fired from Queens Square. The streets were at this time nearly filled with people, and the crowds became more dense, as the hour of starting the boats at the Regatta approached. The harbor was studded with Steamers and sail boats. A little after 10 o'clock a Salute was fired from one of the Black Ball Line of Packet Ships, lying near the Custom House. The bugle having sounded, the races commenced—the first race was won by the Neptune of Sand Cove, amid vociferous cheering. The second race was won by a city boat—the Ranger. The third race was not contested, as one of the boats withdrew.

The fourth race, for the Sebastopol Plate, was well contested, four boats started, viz:—

The Polymorphian, the Neptune, the White Squall, and the Alori. The White Squall took the race. We cannot omit noticing here that we never witnessed more correct rowing than that of the Polymorphian crew, all of whom are young lads belonging to Carleton—the sea was too rough for their light gig, or we believe they would have won the Plate easily. The fifth and sixth races were with skills and were well contested.

At 2 o'clock the Polymorphians formed their splendid Equestrian Procession, and commenced marching at half past 2; the streets were so full of people that it was with difficulty they moved along. The Tribe made an imposing appearance, their dresses were really rich and expensive, the characters represented were well sustained; the procession was headed by a Guard with drawn swords, next followed Price's Band in costume—the Marshal of the Procession on a grey charger looked remarkably well—the Tribe represented a variety of characters, among whom we may mention—Queen Victoria, Empress Eugenie, Prince Albert, and Napoleon—Turks, Greeks, Zouaves, Indians, Spaniards—Neptune drawn by three horses, with his trident, a car containing a Bear chained and guarded by Allied soldiers, English, French, Turks and Sardinians. The Supreme chief dressed in armor made an imposing appearance. A car on which were represented trenches and batteries manned by mariners played on the crowd, much to their amusement. We do not pretend to particularize the variety of characters represented in the Procession, but merely to give some idea of the gorgeous display; several of the characters were very well sustained, particularly those representing Royalty, indeed it was difficult to be persuaded that the persons representing Queen Victoria and the Empress Eugenie were gentlemen, they looked so much like handsome women.

The Procession marched through the principal streets, which were hung with English, French and Turkish flags. Guns were fired during the day and the boys set off any quantity of crackers. In the evening, all the public buildings, hotels, Engine houses and numerous private houses were illuminated, some of them would have done credit to older cities. At half past 7 o'clock, the Polymorphians formed a torch light Procession and preceded by a Band marched to the grounds selected for the fireworks. The several pieces representing the Malakoff, Redan, Sebastopol &c., were set off and formed a grand sight. The fireworks were equal to any we ever witnessed, and were well directed, by S. K. Foster, Esq. The evening's proceedings were closed by a salute of 50 guns, after which the air rang again with vociferous cheers.

We have prepared an article in reply to the feelers thrown out, semi-officially we think, on the great scheme the Government are preparing for the construction of Railways. Want of space compels us to defer its publication this week.

CONCERT.—The Amateur Band recently formed in this place, proposing giving a Concert on Thursday evening next, in honor of the recent victory gained by the Allies at Sebastopol. We bespeak for the Band, a full house on the occasion.—[See advertisement.]

STEEL GUNS.—The British Government has commissioned the firm of Shortridge, Howell & Jessop, of the Harford Steel Works, Sheffield, to experiment upon the use of Cast Steel for large ordnance. The experimental gun weighing thirty-five cwt., the largest steel ingot ever cast in Sheffield, has been cast, and most sanguine hopes are entertained of the success of the experiment from the practical knowledge of the firm. Want of space prevents our copying the article from which the above is abridged, but we will endeavour to publish it in our next.

STEAMER ADMIRAL.—This favorite steamer has made her trips as regularly during the late severe storms, as other vessels do in fine weather and smooth water. It is rare to hear of the Admiral making a harbor—this is not surprising when she is admitted to be the best seagoing steamer in Eastern waters. She is commanded by a gentleman who understands his business—Capt. SMALL is a thorough seaman, a most polite and attentive Commander, and possesses a mild and amiable disposition. He is fortunate, in having officers who understand their duty. Mr. PORTER, Clerk of the Steamer, is a young gentleman well qualified for the important and trustworthy position which he fills with so much credit to himself and the benefit of the owners: his office is no sinecure, and one that tries his patience,—yet he is ready and willing to give information respecting the various railroad and steamboat routes, and treats the passengers, with that courtesy and attention, which has made him popular with the travelling public, during the few months he has held the situation. Mr. GUNNISON, who runs an Express in the Admiral, is so well and favorably known to the people of this section of the Province, that we may merely add, he is the same gentlemanly and attentive person he ever was; and conducts

his business with that dispatch and accuracy, which has so justly made him popular. In thus speaking of this steamer and her officers, we do so from a sense of duty.

SCAMMELL HOTEL.—To our friends visiting St. John we recommend this Hotel, which is situated in King Street,—and lately known as the "American House." Its central position, large parlors, airy bedrooms,—in addition to its being kept in the good old English style, by Mr. Scammell, who has long been favorably known to the travelling public, will be a sufficient inducement to those visiting St. John on business or pleasure, to make it their "home," during their stay in the city.

MELANCHOLY ACCIDENT.—On Wednesday last, about 9, a. m., while the workmen engaged in repairing the ship *Cavalier*, at Eastport, were endeavoring to hoist an iron water tank of the hold, one of the hooks gave way and the tank fell on Mr. GEORGE A. GREENLAW, of the Parish of St. Andrews, killing him instantly. Mr. Greenlaw was a young man of amiable disposition and was much esteemed by all who knew him. He leaves a young widow and infant child, and a numerous circle of relatives and friends to mourn their bereavement. His remains were brought up in the steamer *Nequasset*, the same day, and interred from the residence of Mr. Martin Grant on Sunday last.—*Provincialist*.

Holloway's Pills, a certain Remedy for all Liver and Stomach Complaints.—The daughter of Mrs. Farlow, of Ficton, was for three years in a most deplorable state of health, caused by her liver and stomach being out of order. Her mother tried a variety of remedies, but unfortunately the child was not benefited by the same; on the contrary, she gradually became worse. Seven weeks ago, she commenced to use Holloway's Pills in accordance with the printed directions; they have completely cured her, after every other remedy had failed to give her the slightest relief.

MARRIED.

At St. George, on the 10th inst., by the Rev. John McGivern, Rector, John L. Cameron, Esq., Merchant, to Susan, daughter of A. J. Wetmore, Esq., all of St. George.

DIED.

At Dumbarton on the 15th inst., Marian, wife of Mr. John S. Brooke, aged 39 years, Funeral this afternoon from Mr. Buck's.

St. Johns, N. F., Oct. 2.—Cleaved, sch'r Alma, Waycot, for New York

CONCERT.

THE St. Andrews Amateur Band

Respectfully announce, that they will give a CONCERT OF INSTRUMENTAL MUSIC, under the direction of

MR. RUSSELL FOSTER, at the TOWN HALL, on THURSDAY Evening next, in honor of the recent glorious victory achieved by the ALLIED ARMIES at SEBASTOPOL.

Doors open at 7 o'clock. Performance to commence at half-past 7. Tickets 1s. 3d., to be had at the door.

HUGH STOOPE, Secy.

St. Andrews, Oct. 16th, 1855.

EDUCATION.

MR. GEMMELL, FIRST CLASS TEACHER.

RESPECTFULLY announces that he purposes opening the School formerly taught by Mr. Macintosh, on MONDAY, 22d inst.

He will also open an Evening Class from 5 till 8, or from 7 till 9, as may be most suitable for the purpose of young men improving themselves in Writing, Arithmetic, Book-keeping, Grammar, and Spelling.

N. B.—Private Teaching at spare hours: The Teacher will be happy to attend upon Families at their own residences.

October 16, 1855.

FLOUR—PORK—APPLES—&c.

W. Whitlock,

HAS just received per schooner "Julia," from New York, and steamer "Adelaide," from Boston.

75 bbls superfine and extra family FLOUR
20 bbls New York Greening Apples
Corn Meal, Mess Pork, White Beans
Carolina Rice, Navy and Pilot Bread
Boxes Cheese, refined Whale Oil
Burning Fluid, Lard, Tallow, &c.

TOGETHER WITH—

The following articles on hand: Hyson, Oolong and Souchong Teas
Ground and whole Coffee, Cocoa and Chocolate

Secretary's Office,
2nd January, 1855.

BOSTON ADVERTISEMENTS.
Ufford's
Smoke Consuming Patent
Lamp.
Is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.
Price \$1 25, 85c. 67c.
We have one of the Lamps in use, and are able to conform to the favorable testimony of the Traveller, having found it answering well to what it claimed for it. (Patent Recorder.)
No person who has ever tried one of the Lamps would be willing to give it up for ten times its cost, if it could not be replaced. (New England Farmer.)
Boston, 117 Court street, head of Sudbury.

Cancers Cured without Pain!
FOR this terrible scourge on man a remedy is found, which has never failed to cure when fairly tested. The knife and plaster are both uncertain and painful, when this antidote, charm like, removes all cancerous virus from the system, when the cancer, internal or external, ceases to be. Females are doubly liable to this malady, and should, at its earliest intimation, avail themselves of this remedy. It is but safe to conclude that the number who die annually of this hidden foe, is equal, if not surpassing, those on which it is apparent only on the surface. Calls at a distance will be considered. Apply by letter or otherwise to Dr. S. BRUCE, No. 15, Mountgomery Place, Boston.
On hand: Ladies SKIRT-HOLDERS; Gentlemen's BRACES; CHEST EXPANDERS; also Trusses and Supporters.

J. M. Read,
Inventor, Manufacturer and Dealer in Portable Cylinder Ventilating Hot Air COOKING RANGES.
New Era Cooking and Parlor Stoves combined, both fitted to burn wood or coal. With a general assortment of Cooking, Parlor and Office STOVES.
Also, Read's Patent Sifter, Root Toner, Boot Crimping Machines, Read's Patent Double-Acting Screw Jack, for raising buildings, railroad cars, coaches, and other heavy burdens.
Nos. 31 and 33 Union street, Boston.

Isaac Harlow,
MERCHANT TAILOR, and Dealer in Gentlemen's Furnishing Goods, and Ready-Made CLOTHING.
58 WASHINGTON STREET.
Near State street. Boston.
If Garments cut and made to order, and warranted to fit.

WILLIAM E. RAM-DELL,
Manufacturer of the AMERICAN PATENT CURTAIN FIXTURE, No. 93, Ulica Street, Boston.
If Balance Fixtures constantly on hand.
ZINC PAINTS! ZINC PAINTS!
Messrs. the unrivaled Snow-White and Colored French Zinc Paints; Grainery, Colors, Zinc Dye, Damar Varnish, Gum Size, &c. Colors may be selected from one hundred patterns for house and other painting.
Office, 18 School Street, Boston.

Marble Work at Reduced Prices.
A. WENTWORTH & CO.,
Now offer their stock of Chimney Pieces and Monuments, of various qualities and patterns, being the largest and best assortment in New England.
15, 17, and 60, Haverhill Street, and 6, 8, 10, and 12, Beverly street Boston.

BOSTON ADVERTISEMENTS.
E. D. SPEAR,
INDIAN DOCTOR,
18 Kneeland Street, BOSTON, Mass.
THE great success which has ever attended the Indian Practice of Medicine, as perfected by E. D. SPEAR, M. D., excites envy in the hearts of the many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day are prepared from receipts which are believed to have originally been received from the Indians one hundred and seventy five years ago. No other remedies deserve the name of Indian.
DR. SPEAR'S
GREAT INDIAN REMEDIES.
(For names and description see his "Family Physician"—to be had, free, at his office, or sent to order, prepaid on receipt of a paper postage stamp.)
Are certain cures for
Asthma, Ague and Fever, Harber's Itch, Boil, Bronchitis, Cancer, Canker, Colds, Consumption, Coughs, Costiveness, Gravel, Debility, Dropsy, Derangement of the Bowels, all humors in the blood, Giddiness, Headache, Inflammation of the Eyes, Jaundice, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Nightmare, Pain of the Heart, Pains in the Side, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumatism, Salt Rheum, Scald Head, Scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.
Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treatment of Female Weaknesses, Prolapsus Uteri, Irregularities and Suppressions is far superior to every other treatment for these complaints.
DR. SPEAR;
Is also celebrated in the treatment of children. His medicines being vegetable, do not poison the system.
Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his medicines.
Dr. S. will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100.
Persons at a distance can consult him by letter, enclosing a stamp to pay the answer.
Dr. Spear consults with patients at his office, No. 18 Kneeland Street, upon all conditions and diseases of the system, free of any charge.

Stammering Cured!
DR. BRONSON, AND C. C. BEERS,
ARE happy in announcing that STAMMERING can be PERMANENTLY CURED by Medicine and Vocal Gymnastics. It is first treated as a Nervous Disease, (like St. Vitus' Dance, Epileptic Fits, &c.) and then the habit, incident to the disease, is corrected by exercises in Elocution. Mr. Beers has been an inveterate stammerer for thirty-five years; has attended many institutions for the cure of stammering, and expended hundreds of dollars without any permanent benefit, but cured himself, 18 months ago, and has ever since remained so: With the same means, we have cured others, to whom we would gladly refer any applicants—not having failed in a single instance. Being satisfied from reason, experience, and observation, that stammering is the effect of a Nervous Disorder, and can be perfectly cured by the above means in the course of two or three weeks, we assure all interested of these gratifying results, and guarantee a permanent cure, or refund the small fee paid in advance. Those desiring further information by these subjects, (including terms, guaranty, &c.) can obtain it from our New Work, just issued, on Stammering, its Effects, Causes and Remedies: Illustrated by One Hundred Engravings: Price, One Dollar; on receipt of which the Book will be sent without expense, and the money thus paid will be credited in the bill for Treatment. Board, etc., furnished on reasonable terms—Address BARNES & BEERS, 186 Washington-street, Boston, Mass.

MELODEONS, SERAPHINES AND REED ORGANS
(CARRIAGE'S PATENT)
FIRST premium for the best Melodeon has been awarded by the Mechanic's Fair, Boston, to

Blanks for sale
At this Office.

Sheriff's Sales.

To be sold at Public Auction, on Saturday the 19th day of April 1856, at 12 o'clock, at the Court House, in St. Andrews:

ALL the right, title, interest, property, claim and demand of **JOHN McCOLL and EDWIN R. RUSSELL**, to all of those several Lots, pieces and parcels of land, situate or near the Lower Falls, in the Parish of St. George, in the County of Charlotte, described as follows:

That **PIECE** of LAND beginning at the south angle of the lot formerly owned by John Mann and William McLeod, running thence west along the north side of Water street 63 1/2 feet to Brunswick street; thence along said Brunswick street 150 feet, to George street; thence along the south side of George street 131 feet; thence south 71 feet; thence west 40 feet; and thence south 90 feet to the place of beginning—being the lot on which John McColl's new house stands.

ALSO—Two other **LOTS** of LAND, situate at the Portage, so called, on the eastern side of the river Magaguadavic, conveyed by Sarah N. Stone and others to the said McColl & Russell, by deed dated 28th May, 1851.

ALSO—One **MOIETY** of a **LOT** of LAND, with the Mills, Dams and Shutes thereunto belonging, lying on both sides of the said river above, at and below the said Lower Falls, bounded northerly by said river and the Robert Hanson Lot so called, westerly by the eastern line of the estate of the late John McMaster, southerly by Saltwater Basin, and easterly by the Portage road.

ALSO—All that certain **LOT** or **PIECE** of LAND, situate on the east side of Lake Utopia, in the Parishes of Penfield and Saint George in said County, known as lot number One, bounded on the north by lands granted to the late Hugh McKay; on the south by lot number Two, and contains forty-four acres, and was conveyed by Lewis Bliss to the said McColl & Russell, by deed dated the 14th January, 1853.

ALSO—All the **GULLY** PROPERTY so called, situate in the Parish of Saint George aforesaid, conveyed by Moore R. Fletcher to the said McColl & Russell, by deed dated the 9th July, 1853.

ALSO—That certain **LOT** or **PARCEL** of LAND, situate at the Lower Falls aforesaid, on the west side of said river described as follows:—Beginning at a cedar post 36 rods along south side of the old highway road, westerly from the end of the bridge above the Lower Falls, thence south 22 rods 10 links to Millikin's line; thence west along said line 69 rods and 16 links; thence north easterly 25 rods to the first mentioned bounds, containing one acre and a half, more or less.

ALSO—Another **LOT** situate in the Parish of Saint George, on the south side of the great road leading to Saint John bounded by the said road on the north; on the east by the McMillan lot; on the south by the Munroe lot; and on the west by the McGormon lot, containing five acres, more or less.

ALSO—That **LOT** or **PIECE** of LAND lying in the Parish of Saint George aforesaid, being lot number Three, and half part of lot number Four in the Military Grant, containing one hundred and fifty acres, more or less, and conveyed by John Rodger to the said McColl & Russell, by deed dated the 29th September, 1853.

ALSO—That **LOT** in the said Parish of Saint George, lying north of Munroe's barn, conveyed by Moore R. Fletcher to the said McColl & Russell.

All that **LOT** of LAND lying in the Parish of Saint George aforesaid, conveyed by John Wallace to the said McColl & Russell.

And all other the Real Estate and Possessory Right of the said McColl & Russell, or either of them, wheresoever situate in the said County.

The same having been seized and taken to satisfy Executions issued out of the Supreme Court.

THOS. JONES,
Sheriff of Charlotte.
Oct. 1, 1855.

To be Sold at Public Auction, on Saturday the 19th day of April, 1856, at 12 o'clock, at the Court House in St. Andrews:

ALL the right and title, interest, claim and demand of **JOHN McCOLLEY**, to the following Lots, Pieces, or Parcels of LAND, with the appurtenances belonging to them, viz:—

ALL that Lot, Piece or Parcel of LAND situated in Milltown, in the Parish of St. Stephen, near land, now or lately occupied by John Young, purchased by the said McColl from John McGeorgie, as by deed bearing date 14th February, 1854.

AND ALSO,
All that Lot, Piece or Parcel of LAND, situated on the northern side of the road leading from the Upper to the Lower Mills, in the Parish of St. Stephen, excepting 1st part sold by said McColl to one Donald Campbell; the same having been purchased by said McColl from James Macpherson, as by deed bearing date 10th July, 1854.

The same having been seized and taken under an Execution in favor of Samuel Neill.

THOS. JONES,
Sheriff of Charlotte.
Oct. 1, 1855.

THE INFALLIBLE REMEDY!!!

Holloway's Ointment.

ERYSIPELAS of eight years cured! Copy of a Letter from Geo. Sinclair, Esq., of Paris, Canada, dated the 18th July, 1854.

To Professor Holloway.

Sir,—I feel a pleasure and a pride in bearing witness to the wonderful benefit I have derived by the use of your inestimable Ointment and Pills. For eight years I suffered unceasingly from attacks of erysipelas; large purple blotches came all over my body; in addition to the unpleasant feeling of itching and burning, which afflicted me both night and day, rendering life a misery to me, as well as to all around me—so severe was the attack. I used several reputed remedies without deriving the least cessation to my misery. At last I determined to try your Ointment and Pills; after taking them for a few weeks, a visible improvement took place, and I feel considerably better:—in three months, I was completely cured, and now enjoy the best of health. The truth of this statement is well known here, hence there is no necessity for me to request secrecy.

I am, Sir, yours respectfully,
(Signed) **Geo. SINCLAIR.**

ULCERS in the Leg.—Remarkable Cure! Copy of a Letter from Mr. Edward Tomkinson, of Cape Breton, Nova Scotia, dated the 4th May, 1854.

To Professor Holloway.

Sir,—My sister, Miss Jane Tomkinson, suffered for a great number of years from a bad leg; in which there were several deeply seated and old wounds, defying the skill of some of the most eminent of the medical faculty, a variety of remedies were also used unsuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length, she had recourse to your Ointment and pills; and after using them for about five weeks, she was completely cured, after all other means had failed to afford her the slightest relief. I have no objection to these facts being published, if you feel disposed to make them known.

I remain, Sir, your most obedt. Servt.
(Signed) **EDWARD TOMKINSON.**

A BAD BREAST CURED WHEN AT DEATH'S DOOR!!

Copy of a Letter from Mr. Henry Malden of Three Rivers, Canada West, dated July 9th, 1854.

To Professor Holloway.

Sir,—My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in it, one as large as a hand; all the devices and stratagems I tried would not heal them, but assumed an aspect more frightful than before, and horrible to behold. As a last resource I tried your ointment and pills, which she persevered with for seven weeks, at the expiration of that time her breast was almost well; by continuing with your remedies for two more weeks, she was entirely cured, and we offer to you our united thanks for the cure effected.

I am, Sir, yours truly,
(Signed) **HENRY MALDEN.**

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Chiefo-foot
Bad Breasts	Chilblains
Burns	Chapped hands
Bunions	Corns (soft)
Bite of Mosquitoes	Cancers
and Sand Flies	Contracted and Stiff
Coco-bay	Joins
Elephantiasis	Fistulas
Gout	Glandular Swelling
Scoury	Lumbago
Sore Heads	Piles
Tumours	Rheumatism
Ulcers	Scalds
Wounds	Sore Nipples.
Yaws

Farm for Sale.

The Subscriber offers for sale a valuable Farm, situated on Murphy's Ridge, Parish of St. Patrick, formerly known as the Wilson farm, and adjoining E. McElroy's, containing 60 Acres more or less, about 8 acres of which are cleared, and under cultivation, and cuts a tons of hay. On the premises are a frame House and log Barn—the land contains a good growth of hard and softwood mixed. If not disposed of previous to the 10th April next, it will then be sold at Public Auction, on St. Andrews.
D. McNAB.
November 1, 1854—x p

AYER'S PILLS,

A new and singularly successful remedy for the cure of all Bilious diseases, such as Constipation, Jaundice, Dropsy, Rheumatism, Fever, Gout, Humors, Nervousness, Irritability, Indigestion, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and such diseases and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. The human system is a delicate and intricate machine, and it is a common habit of body to become clogged with bile, and thus to generate serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Fevers, and Rheumatism, and Bilious derangements. They all tend to become chronic, and produce a deep seated and formidable disease, which leads the horses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been prepared with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results of a truly remarkable nature, and has proved that it is a safe and reliable remedy for all the above mentioned diseases, and for all other ailments of the human system. It is a true and reliable remedy, and its use is a true and reliable remedy for all the above mentioned diseases, and for all other ailments of the human system. It is a true and reliable remedy, and its use is a true and reliable remedy for all the above mentioned diseases, and for all other ailments of the human system.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are:
PROF. VALENTINE MOTT, the distinguished Surgeon of the City.
DOCT. A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.
ISAAC L. MOORE, M.D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.
H. C. SORRELL, Esq., one of the first merchants in New York City.

DOCT. W. M. B. BRYANT and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred names, and even more, who testify to the efficacy of these Pills. The reason is perfectly obvious. These Pills, the result of long investigation and study, are offered to the public as the best and most complete, while the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable matter, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrid, irritating and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expounded that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly furnished by mail to his address.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to testify that their anticipations were more than realized by their effects upon trial.

These operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their regular action to health, and by directing wherever they exist such derangements as are the first origin of disease.

Being never wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
Prepared by **JAMES G. AYER**, Practical and Analytical Chemist, Lowell, Mass.
Agents for St. Andrews: O'Dell & Turner, and M.S. Warrack. St. George: E. F. Knight.
