*Bad Train Wreck on Grand Trunk Near Sarnia---Many Declare Themselves in Favor of Subways---Evanturel Barred from Liberal Caucus*

## ARE UNANIMOUS IN SUPPORT OF SUBWAY IDEA

### Citizens Throughout the Entire City Express Approval of Scheme.

### AN INCREASING DEMAND

### "Best Thing for Fire Department," Says Fire Chief Aitken.

That agitation for the construction of subways and the elimination of the deadly level crossings in London is backed up by all classes of citizens was again emphasized today, when Advertiser reporters interviewed a number of persons to obtain their views on the subject.

There was not a dissenting voice on the question; every man seen favored the subway idea, and many new ideas and suggestions were brought out in the interviews. The menace to the safety of human life, and the holding up of traffic were the two big arguments against the levels.

**Fire Department's Side.**

"A Ridout street subway would be the best thing that has happened yet for the fire department," said Chief John Aitken. "No. 3 company in South London would be much more efficient with a subway on Ridout street. The brigade is often delayed in going to a West London fire. Yesterday, the whole brigade was blocked by a slow freight while running to the meter-works' fire. Apart from the fact that the level crossings affect the fire department, I certainly believe that there should be a subway to overcome street car delays."

**Increasing Demand.**

Chief Aitken's statement was representative of many others obtained. All over the city there is an increasing demand for subway construction. Every day in the year there are hairbreadth escapes on the several railroad crossings, and every day in the year street cars, automobiles, carriages, wagons and pedestrians are held up for many minutes by freight and passenger trains. It is a condition of affairs that must be remedied, it was pointed out. The project may be large, but it is one that must be faced, regardless of effort or expense.

A few of the brief interviews given below amply testify to the feeling of the people in this matter:

**City Engineer W. N. Ashplant**—There is not the slightest doubt but that it's up to the city to agitate for something along this line. Life and limb are daily in danger. I believe the Ridout street subway idea is perfectly feasible.

**Assessment Commissioner Stephen Grant**—We need subways, and should have at least three, the east one, say, at Burwell street.

## VILLA TO PERMIT THE EXAMINATION OF BENTON'S BODY

### But Continues Refusal to Allow Its Removal by Friends of Executed Man.

### INVESTIGATING RUMORS

### Body of American, Vergara, Hanging to Tree, Will Likely Be Surrendered.

[Canadian Press.]

Chihuahua, Mexico, Feb. 26.—General Villa today reiterated that he would permit the examination, but not the removal of the body of William S. Benton, which, he asserts, is buried here. He said that representatives of the British and American Governments and of the widow alone would be permitted to view the body.

**Michaelis' Story.**

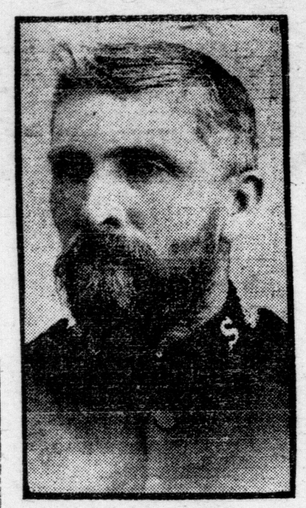

[Canadian Press.]

El Paso, Texas, Feb. 26.—Investigation of the story told last night by A. Michaelis that Gustav Bauch and thirteen other Americans were locked up in a jail in Juarez was set on foot today. Despite Michaelis' assertion that his father is a Brooklyn, N. Y., banker, his statement was received skeptically, for United States Consul Edwards at Juarez has been assured that with the execution of Wm. S. Benton and the removal of Bauch, no foreigners remained behind the bars.

Michaelis, who said he left his home at 236 Vernon street, Brooklyn, after a quarrel with his family, and was arrested at Juarez, because of a fist fight over a game of cards, declined to leave Juarez when newspapermen offered him asylum on the American side. He said he had telegraphed his father for money and would leave this section as soon as funds arrived. He said his jailors took his clothes from him, and left him only rags, in which he was turned into the streets. Charles Perceval, British consul at Galveston, Texas, is expected here today to cooperate wtih the American investigation of the death of Benton.

## ST. GEORGES MAN KILLED BY A TREE YESTERDAY AFTERNOON

RICHARD MORRIS

## CHEST CRUSHED IN BY A FALLING TREE

### Fatal Accident to Richard Morris, of St. George, Father of Major Morris, This City.

[Special to The Advertiser.]

St. George, Feb. 26.—Richard Morris, a well-known resident of this village, was killed yesterday afternoon by a falling tree, which crushed in his chest.

He was working with Ernest Drake, a farmer, about two miles from the village, in cutting down trees for firewood. They had cut down an old apple tree, and had taken off most of the limbs. One large limb remained, and this was too high for the axe of the men to reach. Morris gave the butt a shove, hoping thereby to tip the tree over and thus get at the bough.

**Butt Recoiled.**

The shove that he gave was powerful enough to knock a prop from under the tree, but it failed to shove the butt over, and it recoiled with great force. The limb struck Morris in the chest and crushed it in, felling him to the ground. He was conscious for a time, but expired before Dr. W. H. Reid, of St. George, could get to the scene.

There will be no inquest.

**A Prominent Man.**

The late Richard Morris was a very prominent resident of St. George. He was a milk vendor there, an ex-trustee and warden in the St. George Methodist Church. He leaves two daughters and one son at home, these being Marculla, Lillian and Fraser, and three other sons, Harry, of Chicago; Major Frank Morris, of the Salvation Army, London, and Staff Captain Arthur Morris, of the headquarters' staff, Toronto.

## DETROIT MAN SAYS VILLA KILLED BENTON

### Louis MacCallum Was at Juarez When Tragedy Occurred.

Detroit, Feb. 25.—That Villa killed Benton with his own revolver, and that Benton went to the rebel general's quarters unarmed, is asserted by Louis B. MacCollum, one of the American troopers, who enlisted under Madero, and later under Huerta in the Mexican revolutions. He has come to Detroit to recuperate after being wounded.

In his statement he alleges that Benton visited Villa at his house, to demand redress for raids on his ranch. He refused to carry a revolver, saying he could thrash Villa with his firsts, if necessary.

MacCollum, with other friends, saw Benton go to the house and waited around. After a while they saw some of Villa's guards running away from the house. They caught the guards, and forced them to tell what had happened. The Mexicans said Villa called Benton a vile name, and Benton replied that the rebel was "a cut-throat, murdering, outlawed brigand." Villa immediately shot the Scotsman dead.

Benton is the first Britisher Villa has killed, and MacCollum says he is now badly scared.

## BECKER TO LEAVE SING SING PRISON

New York, Feb. 26.—The formal order of the court of appeals permitting the removal of Charles Becker, from the death house at Sing Sing Prison to the Tombs in this city, arrived here today.

## FAVOR C. T. ACT IN CERTAIN CIRCUMSTANCES

[Canadian Press.]

Toronto, Feb. 26.—There was a sharp discussion by the Ontario Alliance delegates this morning as to the advisability of indorsing the Canadian temperance act or encouraging temperance workers to seek to have this law passed.

After a prolonged debate, the convention went on record as favoring the Canada temperance act when local conditions were such that local option could not be put into effect throughout a county.

## EVANTUREL BARRED FROM TAKING PART IN LIBERAL CAUCUS

### He Wanders Round Corridors While Rest of Party Confer in Leader's Office.

### ADMITS THE DOCUMENT

### Member for Prescott Says He Has No Thought of Resigning.

[Special to The Advertiser.]

Parliament Buildings, Toronto, Feb. 26.—Gustave Evanturel, Liberal member for Prescott, is not making an attempt to deny the authorship of the sensational letter read before the Legislature yesterday afternoon by G. H. Ferguson. Further than that, when seen today, he admitted that the document was written by himself. Next he declares that he has absolutely no thought of resigning his seat in the House. Thirdly, he recognizes the fact that, though a Liberal caucus was held today he was no longer taken into the confidence of his leader.

While the balance of the Liberal party conferred in the private office of N. W. Rowell, Gustave Evanturel was wandering about the corridors of the Parliament buildings, apparently the least worried man in the Liberal ranks.

Fourthly, Mr. Evanturel declares that he is still a Liberal member, that he is a supporter of the principles of the Liberal party and of the platform of N. W. Rowell, with the one exception of temperance. Further than that Mr. Evanturel declares that when the next general elections come about he will be a candidate for office, and will ask his old constituents for their indorsation of his conduct. That was what he told the press today in his usual off-hand manner, which did not attempt to minimize the situation or to elaborate upon it.

**Wanted To Be Organizer.**

[Canadian Press.]

Toronto, Feb. 26.—Gustave Evanturel, M. P. P. for Prescott, Liberal, is conscious of having done no wrong in offering his services to the liquor interests for $10,000. He says: "I have always been friendly to the hotelmen and the license victuallers, and I knew they wanted to organize the province, and I wanted the position as organizer."

Montreal, Feb. 26.—Sir Lomer Gouin, prime minister of the Province of Quebec, and Hon. Rodolphe Lemieux, M. P. for Rouville, have retired from the legal firm of Gouin, Lemieux, Murphy, Berard & Perreault. It is understood that neither will at present form any new legal alliance, their time being taken up with their duties in public life at Quebec and Ottawa.

## GRIEVING FOR WIFE, COMMITTED SUICIDE

### Aged Hamilton Man Never Recovered From His Loss of Years Ago.

[Canadian Press.]

Hamilton, Feb. 26.—Brooding over the death of his wife, Aaron Peer, 86 years of age, ended his life at Burlington today. The old man never recovered from the shock of his wife's death some years ago, and grieved constantly. He resided with his son. The latter's wife heard a noise upstairs, and when her husband went up to investigate he found his father lying dead on the floor. The old man had shot himself.

## COMMISSIONER'S SON APPOINTED ASSESSOR

### Edmund D. Grant Added to the Permanent Staff of Assessment Department.

Edmund D. Grant, son of Assessment Commissioner Stephen Grant, has been appointed to the permanent staff of the city assessment department, and will commence his new duties the first of March. The appointment has ben ratified by the mayor and board of control.

The ne wassessor has had considerable financial experience, being a former branch manager of the Crown Bank and of late district manager for the Northern Life Assurance Company.

London will have six assessors this year instead of three as formerly. The permanent officials are: Martin O'Sullivan, Alfred McCoubrey and the new appointee, Mr. Grant, and three temporary men, W. T. Peel, Archibald Black and Alfred E. Burwell.

## A MAN AS WELL AS A JUSTICE

[St. Thomas Journal.]

Some folks have an exaggerated idea of justice. A London man out of work, was arrested for stealing coal from a railway storage pile to keep his wife and child at home warm. Instead of sending him to jail the magistrate not only allowed him to go free, but saw to it that he was given assistance by a local organization. This was doubtless a source of disappointment to the man who caused his arrest. Had he not been arrested, however, the needful assistance might never have reached him; so that in one sense his prosecutor became his benefactor. Such is the strange working of the law of compensation.

## Irish Sweethearts Wedded Here

Rev. and Mrs. William Thompson, of Hunter, South Dakota. Mr. Thompson and Mrs. Thompson, formerly Miss Jennie Pollock, were married in this city yesterday at the residence of Rev. W. J. Knox, 287 Hyman street, by Rev. John Pollock, who was their pastor in Belfast, Ireland. They had arranged to meet each other at Montreal, but Mr. Thompson only came as far as London. Neither Mr. Thompson or Miss Pollock were aware that Rev. Mr. Pollock was in London until Sunday night when Rev. Mr. Thompson attended service in St. Andrew's Presbyterian Church, where Rev. Mr. Pollock preached.

## ST. VINCENT DE PAUL PENITENTIARY ON FIRE

### Hospital and Chapel Destroyed —No Lives Lost and Main Building Safe.

[Canadian Press.]

Montreal, Feb. 26.—A fire, which broke out in the St. Vincent De Paul Penitentiary this morning, destroyed the hospital annex, and did extensive damage to the surgical department. The patients in the hospital were all moved safely to the main building, and no lives were lost, thought at one time it looked as if some of the prisoners had been cut off. There are 399 prisoners in the institution, which is a state penitentiary.

The fire was first discovered at 6:15 this morning by J. B. Jardin, a watchman in the store department. The flames spread with tremendous rapidity to the hospital, and all hope of saving it was soon abandoned. The work of transferring the patients, of whom there were about a score, to the main building, was proceeded with without incident. An urgent message for help was then dispatched to Montreal, about fifteen miles away, as it was obvious that the prison fire department could not cope with the blaze.

After consuming the hospital annex, the flames travelled to the little chapel, which was soon consumed.

Fearing that the main body of the penitentiary would be fired, and that it might be necessary to move the prisoners there, the guards were notified to be ready to march the convicts out. The arrival of steamers from Montreal, however, and the enormous amount of water they were able to throw on the flames, soon checked them, and at 10:30 the fire was reported as under control.

The first estimate of the damage done was under $50,000.

## *Nocturnal Visitor Frightens Family*

### Walks Into Dundas Street Home and Lights It Up—He Was "Tight."

Returning home Wednesday evening after spending the evening out, a prominent Dundas street family were surprised to find their home brilliantly lighted and to hear in one room a voice stammering something about "Just one drink more."

"Burglars" were their first thought, but on investigating they found instead a man in a drunken stupor. The police patrol was called and at the station the nocturnal intruder managed to give his name as John J. White.

Today in police court he explained that he had thought he was in his own home, but evidence was given to show that he had made the same misake in the same house one night last week. Unable to pay a $5 fine he went to jail for fifteen days.

## BARRACKS FORCE IN SEARCH OF DESERTER

### Many Turned Out to Find the Prisoner Who Broke From Guardroom.

Wednesday afternoon and evening a large part of the force of Wolseley Barracks turned out en masse in a so far fruitless search for Pte. McCrudden, who, while being held on a serious charge, escaped yesterday. It was thought that McCrudden might attempt to get out of town by the side-door Pullmans, and the barracks men thoroughly investigated all the freight cars on the C. P. R. sidings, poking their bayonets into sacks of sugar, provisions and bales of all kinds of goods, rummaging behind piles of lumber, and overhauling any commodities behind which the refugee might find a hiding place. Up to late this afternoon no trace had been found of McCrudden, and the barracks officers had no clue as to whether he had left town or where he was headed.

A soldier who escaped last week was found at Kingston and brought back several days ago.

## FIREMAN SCALDED TO DEATH IN WRECK NEAR SARNIA

### With Foot Wedged Between Tender and Engine, Sarnia Tunnel Man Meets Awful Fate When West-Bound Freight Crashed Into Slowly-Moving East-Bound Train at Mandaumin Crossover.

[By Staff Reporter.]

Mandaumin Station, Feb. 26.—Pinned between the engine and the tender, Fireman Charles Symes, of Sarnia Tunnel, was scalded to death in a wreck at the Mandaumin "cross-over" early this morning, while Engineer Fraser and Brakeman Harold Cheshire, all of the Tunnel, had a miraculous escape from sharing the same fate.

Both east and west bound main lines of the Grand Trunk were blocked by the wreck, which occurred when a westbound freight crashed into the side of an eastbound one, backing onto the westbound track to allow an eastbound passenger train to pass.

**Occurred at 2:10 a.m.**

At 2:10 this morning extra eastbound freight 673, in charge of Engineer Duffield and Conductor Curran, of Sarnia tunnel, stopped at Mandaumin, the first station east of Sarnia, to allow a passenger train to pass. There is no siding there, and the freight was being switched to the westbound track, when 560 plowed its way into the middle of the train, wrecking eighteen cars and piling them with its own engine and tender across both tracks.

Engineer Fraser, who, with Conductor Mellick, both of Sarnia Tunnel, was in charge of the train, escaped serious injury. With Front End Brakeman Cheshire, he was in the cab with Symes, but both managed to crawl from the wreckage after the big engine had been thrown across the eastbound track. Once clear of the debris they looked for Symes, but he was missing. Search revealed his scalded body, wedged in the cab. One leg was broken, and he had sustained internal injuries, besides the terrible scalds.

**Bad Traffic Wreck.**

While the loss of life was slight the wreck, from a traffic standpoint, was one of the worst on the division in some time. The twisted piles of debris completely blocked both east and westbound tracks, and it will be hours before through service can be re-established. Three auxiliaries—the Hamilton Steam Derrick and the wrecking crews from Sarnia Tunnel and London are at work clearing the line.

According to information handed out by the railway men it will be this afternoon before even the first of the tracks is cleared and repaired, while it will be late tonight, or possibly early tomorrow morning before the two are ready.

**Says He Protected Train.**

Conductor Curran, of No. 673, in a statement to The Advertiser, declares that he sent Flagman Greenless, one of the members of his crew, down the west bound track to protect his train. Greenless, who is now with his train at Wyoming, declares that he went fifteen and a half car lengths beyond the Mandaumin semaphore, half a mile east of the station, and flagged 560 with red and white lights.

**Saw No Lights.**

In answer to these statements Engineer Fraser declares that he never saw Greenless' lights; that no torpedoes were

[Special to The Advertiser.]

Ottawa, Feb. 26.—Hon. Frank Cochrane left Ottawa today for Halifax, where he takes passage to Europe. The Minister of Railways is hunting for better health, and has planned to give the next two months to this task. He has been advised by physicians to restore the tone of his nervous system by travel and rest. Therefore, Mr. Cochrane is going to England, where he will spend a few weeks, and thereafter will journey about the continent. In spite of his trouble, Mr. Cochrane has none of the appearance of an invalid, and is the healthy looking member of the Government.

## HISTORIC CHURCH IS BURNED BY MILITANTS

### "Arson Squad" Destroys Many Relics of Cromwell's Victory in 1650.

[Canadian Press.]

Dunbar, Scotland, Feb. 26.—An "arson squad" of militant suffragettes today burned to the ground the historic church of the village of Whitekirk, near here. A large quantity of suffrage literature was left strewn about the scene. The church was erected in 1297, and contained many relics of the battle in which the Scots were routed by Oliver Cromwell's forces in 1650.

Many priceless scriptural relics and curios from the Holy Land were destroyed by the fire.

The incendiaries apparently had sprayed the interior of the church with inflammable oils. They also used explosives, as several massive slabs of stone were shattered.

Mr. Ross has been hopeful all along for the recovery of his father.

## BELFAST DIVINE DECLARES LONDON SHOULD HAVE MORE STREET SIGNS

### Is Impressed by Their Absence From City Corners—Tells of His Impressions of Canada in Interesting Chat With Reporter.

"In Canada there is not so much talk about hustle as in the United States, but there is more of it. In Toronto they do a New Yorker's day's work before dinner," said Rev. John Pollock, of St. Enoch's Presbyterian Church, Belfast, Ireland, at the Grigg House yesterdayafternoon. Rev. Mr. Pollock, who is on his fourth visit to Canada, preached Sunday in St. Andrew's Presbyterian Church, and next Sunday will preach in Windsor and Detroit.

"The Susday before last I preached in Paris, Ont.," said Mr. Pollock, "and then last Sunday in London. It reminded me of preaching on succeeding Sundays in Paris and London, in the old world, several years ago.

**No Street Signs.**

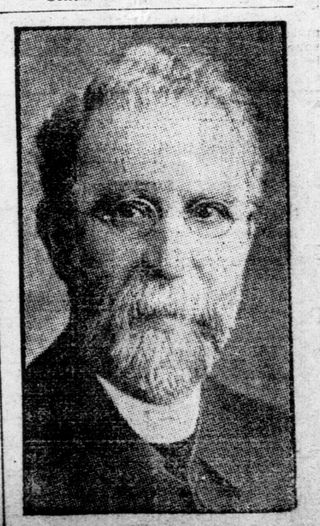

"One thing that impresses me in your city is the scarcity of street signs and numbers. This is a principal street corner (referring to Richmond and York streets). There is not a single street name there. In Glasgow, Scotland, there would have been eight street signs, two on each corner. There never was such a town, with such an absence of street names and numbers as this city. It strikes me as showing a want of enterprise, and an unbusinesslike faculty in the municipality. It is very awkward and inconvenient for strangers.

"I like your city immensely. I have never met more agreeable people anywhere. You have a lot of Scotch here; perhaps that is the reason," added Rev. Mr. Pollock, with a smile. "My previous visits to Canada were only flying visits, mainly attending Christian Endeavor conventions. I suppose I have encouraged more young men to come to Canada than any other Protestant minister in Ireland.

**More Substantiality Here.**

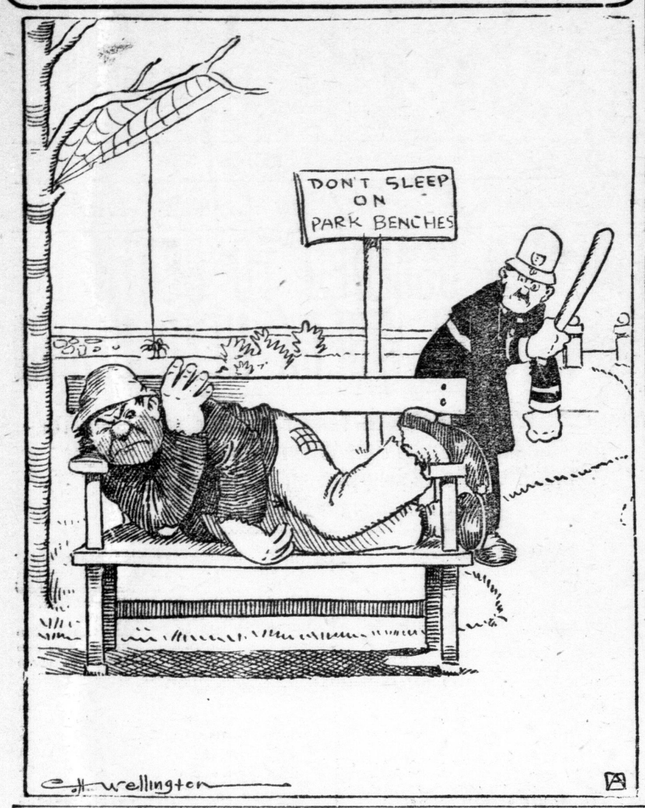

"There is more staidness and substantiality in Canada than in the United States, it seems to me," said Mr. Pollock.

## ---and the Worst Is Yet to Come

# INGERSOLL PROSPERS WITHOUT THE BAR

**Joseph Gibson Points To It as a Fine Example — Urges Toronto to Act.**

[Special to The Advertiser.]

Toronto, Feb. 25.—Speaking at the afternoon session of the Dominion Alliance in Massey Hall today, Joseph Gibson, of Ingersoll, a veteran temperance advocate, referred particularly to the excellent results which had been obtained in the town of Ingersoll where all licenses had been abolished, and where the businessmen had raised some $9,000 to maintain a temperance hotel.

Vigorously Mr. Gibson denounced the liquor traffic and called upon Toronto, in particular, to take steps to protect the young men of Ontario who came into the city, by getting rid of the saloons as soon as possible.

"The organization stands for a nobler manhood, nobler womanhood, and higher citizenship," said Ald. F. S. Spence who acted as chairman of the session. He pointed out the progress that had been made in temperance reform in Toronto from the time when with 70,000 inhabitants, there were 490 licenses, while today there are 450,000 people and only 160 licenses.

**Mayor Welcomes Delegates.**

Mayor Hocken welcomed the delegates to the city, which he regarded as a shining example of the fact that the smaller the number of licenses, the greater the prosperity of the community. Advocates of a wide-open town can easily find in Toronto evidence to show that such a thing is not at all essential.

The mayor related how, at a convention in the States a strong argument was made for the wide-open town, but that the movement had been practically defeated by a speech of ex-Mayor Joseph Oliver, who told of the attitude of Toronto towards such a principle.

## Low Spirits From Weak Nerves

Low spirits, depression, discouragement are a form of nervous disease. You worry over little things, and at the slightest ailment apprehend the gravest dangers and diseases. You form the habit of looking at the dark side of things.

Indigestion is a frequent accompaniment, and you probably do not sleep or rest well. The cause of the trouble is to be found in the exhausted condition of the nerves. To get well you must build up the feeble, wasted nerve cells by use of such treatment as Dr. Chase's Nerve Food.

This great food cure forms new, rich blood and thereby nourishes the nervous system back to health and vigor. There is nothing like new nerve force to bring back hope and confidence to the weak and discouraged. This treatment works in natural ways to restore health, and, therefore, cannot fail to prove of benefit to you. Put it to the test and you will be surprised with the building-up influence that will result.

# DELIBERATE UNTRUTH, SAYS FISHER, OF CHARGE

**Former Minister of Agriculture Answers Hon. Sam Hughes.**

[Canadian Press.]

Ottawa, Feb. 25.—Hon. Sydney Fisher, former Minister of Agriculture, tonight issued a statement in reply to the allegations made by Col. the Hon. Sam Hughes, Minister of Militia, in the House, that he (Fisher) had, through graft, obtained pecuniary advantage from the purchase of the Farnham military camp grounds.

**Calls Statement Untrue.**

"Now I want to state that there is absolutely no foundation whatever for this reckless charge against me," Mr. Fisher's statement says. "I am satisfied that the minister knew when he made that statement that there was no foundation for it. He has known me for many years, both as a private member in the House and as a minister, and knows that nobody with any regard for decency or truth has ever suggested my securing pecuniary advantages from the public positions which I have occupied.

"I do not usually pay any attention to reckless charges of this kind, but when a minister of the Crown, on his full responsibility on the floor of the House makes such a statement, I cannot allow it to pass without contradiction. I shall only add that this accusation is untrue in every particular and if the Hon. Sam Hughes will undertake to make that statement where he has not the protection of the privilege of Parliament, a criminal action for libel will be taken out against him the next day."

# WHOLESALE CORRUPTION IN N. GREY ELECTION

**Charge of W. McDonald, Centre Bruce—Hanna Intimates No Licenses For Huron.**

[Special to The Advertiser.]

Toronto, Feb. 25.—On the resumption of the debate of the address from the throne today in the Legislature, Dr. James McQueen (North Wentworth), stated that the Government was only too glad to cover up the sins of omission by referring to things it had accomplished. It continually referred to the past and failed to do anything in the present. He showed that the by-elections had not been victories for the Government. He referred to the weakness in the Government policy and work regarding good roads.

He pointed out that the Provincial Secretary does not say a word about the abolition of the treating system. "It is clearly a case of false conception and originated in the mind of some desperate, despondent, childish old mother in the present Government."

**Moves Amendment.**

In conclusion he moved an amendment to the speech from the throne expressing regret at its failure to propose legislation to abolish the bar, to prohibit treating of to otherwise curtail the evils of the liquor traffic.

A. H. Musgrove, North Huron, could see no comfort for the Opposition in the by-elections. He taunted the Liberals in their attitude regarding the three-fifths clause.

**North Grey By-Election.**

The part of the speech from the throne referring to the absence of corruption caused William McDonald, Center Bruce, to take exception. He referred to the North Grey by-election when foremost problems in Ontario politics had been relegated to the back seat and a normal school for Owen Sound and a grant for a railway from Meaford to Owen Sound put to the front by speakers for the government candidate.

"This is bribery and corruption on a wholesale scale," said Mr. McDonald. Mr. McDonald repeated his proposal that the liquor question be taken out of politics and submitting a plebiscite to the municipal electors, and that if over 50 per cent voted in favor of it to carry out the will of the majority.

**Mr. Proudfoot Speaks.**

William Proudfoot, Centre Huron, reviewed the little things done by the Government regarding the liquor traffic. He criticised the method of taking a percentage of the liquor proceeds, and advocated that license fees be higher. In 1907, he said, the Provincial Secretary had said that the three-fifths clause was an experiment, and if it was no good would be repealed. Mr. Proudfoot thought that if the three-fifths was ever required that time had long passed.

Mr. Proudfoot wanted to know if the license in Huron would be renewed next year when the Scott act came into force.

"You can take our record of the past for it," said Mr. Hanna. "You know what happened in Manitoulin," which means no licenses will be granted.

**East Middlesex Case.**

Mr. Proudfoot referred to Conservative alliance with the liquor interests. He said they went "hand-in-glove" in the Middlesex by-election. In reply to Mr. Hanna, he stated that the charge was not against the members, but against the Government.

Mr. McFarlane, the member elected in that by-election, said he was not aware that the liquor interests worked for him at that election.

Mr. Proudfoot took the charge that a man named Snyder, who styled himself an inspector from the license department, had gone into the counties where the Scott act was being tried, advocating that the Government did not want it carried, as it would be detrimental to it.

**What Was Snyder Doing?**

He read a newspaper article that Mr. Hanna had denied the Government was taking any such attitude. He stated that the House was entitled to know who Snyder was and how he came to be in the counties, that the Government might clear itself of a charge that it was working against the temperance cause.

The McQueen amendment was voted down, the vote being 52 to 15.

**Sure, Safe Way To Banish Hairs**

(Aids to Beauty.)

The electric treatment for removing hairy growths is rapidly falling into disuse since it has been found that a thick paste made with powdered delatone and water gives more satisfactory results and works much quicker. This delatone paste is applied to the objectionable hairs and after 2 or 3 minutes it is rubbed off and with it comes every trace of hair. Washing the skin to free it from the remaining delatone leaves it soft and spotless. Buying the delatone in an original package insures strength and purity.

## STEAMER HOWARD HANNA ON ROCKS AT PT. AUSTIN WITH 16,000 TONS OF COAL

# EVANTUREL IS READ OUT OF PARTY AS A RESULT OF CHARGE

### Member for Prescott Accused of Offering to Take Liquor Retainer.

### ROWELL'S FIRM STAND

### Practically Demands Resignation, and Says More Than Explanation Is Necessary.

[Special to The Advertiser.]

Toronto, Feb. 25.—The Ontario Legislature was the scene of a sensation this afternoon when Gustave Evanturel (Prescott) was charged with offering to accept a retainer from the liquor party to defend their interests in the Legislature.

The occasion occurred after Mr. Evanturel, who is seldom heard, charging a direct alliance between the liquor interests and the Conservative party in Prescott County, and offered to resign his seat if the truth of his statements were not proven.

This was followed by a speech from G. Howard Ferguson (Grenville), who produced a letter signed by Mr. Evanturel offering for $10,000 to be the special advocate of the liquor traffic in the halls of Parliament.

REPUDIATED BY LEADER.

The scene was intense and Mr. Evanturel could only stammer an incoherent reply to the charge. Later Mr. Rowell, Liberal leader, in a vigorous statement, repudiated Mr. Evanturel, read him out of the party and virtually called for his resignation as representative of Grenville.

Mr. Evanturel attempted to make a further explanation, but was declared out of order by the Speaker and he will have to bring the matter up again on the orders of the day being called tomorrow.

**Evanturel Makes Charge.**

"I have the privilege to say, and I am prepared to prove it or resign my seat in the House, that there is in the County of Prescott, which I represent, a great and a more than great alliance between the Conservative party and the liquor interests," said Mr. Eavnturel. "I call it a scandal. I call it graft. I will prove it to you today."

He stated that the only Liberal hotelkeeper in the county had his license cut off twice. Mr. Evanturel charged that one of the license commissioners had acted as bartender for a hotelkeeper who admitted paying him $2 a day for the service. The commissioner justfied himself by stating that it was "not against the rules."

**Political Pull Gets License.**

Mr. Evanturel also charged that a liquor shop in Hawkesbury, which was without such a place for two years, had been granted a license on condition that the son of George H. Pharand, a former member, was admitted as a partner, and secured half the profits. Pharand, said the Prescott member, thought he could make something of the patronage.

Mr. Hanna interrupted to state that the incident had been investigated and that Mr. Pharand had given an emphatic denial.

**Asks for Paper.**

Mr. Evanturel remarked that he would ask for the return of the report. He was not prepared to accept Mr. Pharand's denial to Mr. Hanna, and wanted to know from the Provincial Secretary who was in charge of the liquor store. Mr. Hanna did not know, and Mr. Evanturel persisted that Mr. Pharand's son was in charge.

Continuing, Mr. Evanturel said the enforcement of the liquor law in Prescott was a farce. A hotelkeeper who was second vice-president of the Conservative Association maintained a house that was only a saloon. The liquor was sold there, declared the member, at all hours regardless of the law. Neither was the prohibition of bottle trade over the bar obeyed.

**Headquarters in Bars.**

Talking again of Conservative alliance with liquor interests, Mr. Evanturel declared that the Prescott license inspector, Joseph Lemieux, had acted as Conservative organizer and that barrooms were used for Conservative committee-rooms.

Mr. Ferguson, the member for Grenville, doubted the sincerity of Mr. Evanturel's remarks, and declared the belief that Mr. Evanturel had an interest in the liquor traffic. "He offered to take a retainer from the liquor interests to defend their action, and still he has the hardihood to pose as a man supporting the policy of the Opposition," said Mr. Ferguson.

"Does he admit that he made a proposition," he pressed, "that he negotiated with the liquor interests? I would like to know."

**Evanturel Makes Denial.**

Mr. Evanturel said there was no alliance whatever between himself and the liquor interests, but that there was between the Conservatives and the liquor interests and that he had proved enough.

Repeating Mr. Evanturel's statement that there was an alliance between himself and the liquor interests, Mr. Ferguson then read the following letter to the House, which listened in intense silence:

**Evanturel's Alleged Letter.**

Ontario Legislative Assembly.

Alfred, Ont., Sept. 4, 1913.

Dear Sir,—I have written a long letter to the secretary of the Hotelkepers' Association for Ontario, Mr. Allen, 28 Wellington street, Toronto, asking him to submit my letter to the directors fo the association at their first meeting. In that letter I pledged myself as a true friend of this association, and prepared to fight in the House and vote against my leader on that question of abolishing the bars, etc.

**Opposed Scott Act.**

I have been in the past one of the speakers who has stood on the public platform in the County of Prescott against the Scott act, when it was tried some yearse ago in the county. During this last summer I have visited all my county, and I have openly declared that I would not support my leader, Mr. Rowell, on his policy to abolish the bars, and I have in my two previous sessions voted against him in that respect. I am and always have been a true friend to the liquor interests and I have been backed up by my constituents in doing so.

**Asks $10,000.**

I am a poor man, living only upon my small sessional allowance, and do expect that the association will see its way clear to help me along, and in my letter to the board I ask at least $10,000, payable $3,000 now and the balance per installments in order to support me. I am prepared for that salary to be the defender of the association and introduce before the Legislature any amendments to the Government measures to restrict the liquor traffic, etc.

**Stands Alone.**

I am the only M. P. P. in the Ontario House who will pledge himself openly against that policy of Rowell and the restriction to the trade brought from time to time by the Government. I believe that it would be useful to your association to have an M. P. P. who would be there in the House to accept and present to the House all the suggestions coming from your important body. Will you kindly support my application, which is before the board, at your next meeting? I will sign any agreement your board will require, to be sure that I am the man who will fight for your cause in the House. The newspapers of Toronto have already published my interviews with the reporters at the time I have refused to support my leader on that ground of prohibition, etc. I am the only M. P. P. who has taken the open step in the House and before the province.

**Refers to His Father.**

I would like to have the matter settled up as soon as possible as I have to be financially supported at the present time. You have known my late father, Hon. A. Evanturel, ex-speaker of the Legislature and ex-M. P. P. for the County of Prescott before me, and during his long and prosperous public life he had fought the battle for the hotelkeepers whenever he had the opportunity to defend your rights, etc. Confiding in your strong support before the next meeting. I am, very truly yours,

(Signed),

GUSTAVE EVANTUREL,
M. P. P. for Prescott County.

**Mr. Rowell Speaks.**

"The honorable member of Prescott," began Mr. Rowell when he rose to speak, "drew attention in the address he delivered this afternoon to certain grave abuses in connection with the administration of the liquor license law in the county of Prescott, abuses which if the matter stated by him be true (and he speaks from the Conservative paper in the county in support of them) indicate a laxity in the enforcement of the law in that county or a relation by the license officials to the liquor traffic which is a discredit to the administration of the liquor license law in the Province, and it is absolutely no answer to these charges to make a charge or an attack upon the honorable member himself. These statements with reference to the administration of the law are statements which must be answered by the Government and of which there must be an adequate explanation given to the House and given to the Province, and we cannot permit any other issue to divert public attention from that fact." (Conservative laughter.)

2C—

"Don't shout too soon," the Opposition leader replied.

**Attitude One of Opposition.**

"With reference to the other matter, the matter of the letter read by the honorable member for Grenville (Mr. Ferguson), I want to say this: The attitude of the honorable member for Prescott, ever since he has been in this House, has been one of Opposition to our policy of the abolition of the bar. He has never voted in favor of it. He has publicly stated his opposition to it. That is a matter known to members of this House, known to the people of this Province. That is the position which in the exercise of his judgment he is entitled to take if he thinks it right and in the public interest to take it, just as any other honorable member is entitled to take such a position that he desires to take.

**No Justification for Letter.**

"But there is more in the latter than simply a statement of my honorable friend's position on that question, and it is that part of the letter than I peculiarly regret. I have no doubt the honorable member for Prescott will make a statement to the House in connection with the matter when the opportunity offers. But speaking tonight in my position of responsibility as leader of the Liberal party in this House, I want to say there is absolutely no justification, I think, which the honorable member for Prescott can give for writing the letter, he did, and I want to take the very first opportunity to disclaim all responsibility and all sympathy with the expressions contained in the letter with reference to his attitude in the House.

**Explanation Not Enough.**

"I feel certain that my honorable friend from Prescott has done himself a grave injustice in writing that leter. I believe the honorable member from Prescott has done his constituency a grave injustice in writing that letter. I would not—I do not think I should—until we have a statement from the honorable member, reach any final conclusion in this matter. But I do feel that upon reflection both the honorable member and his constituents will feel that some further action is necessary than such explanation as the honorable member may make to this House.

"I trust I have made myself clear, and when we hear from the honorable member, when he makes his statement there may be something further to say."

**Where the Letter Came From.**

Mr. Rowell then went on to state that he did not believe that Mr. Ferguson received the letter from the man to whom it was written, but that it had been put into his hands by those who wanted to defeat the proposal to abolish the bar. (Applause).

## LICENSE REQUEST STIRS CITIZENS OF HAMILTON

[Special to The Advertiser.]

Hamilton, Feb. 25. — East end residents are greatly agitated over the effort to place a liquor shop license in that end of the city. Recently an application from a detective's son for a license on property owned by a policeman caused such a stir that the request was withdrawn.

Now Ald. Littlewood is trying to get a license in the county just outside the city limits. Several churches and societies have passed resolutions of protest and tonigit the Progressive Association had a taste of it.

W. H. Pratt, a well-known real estate man, said if the society did any protesting against the license he would resign. He declared that he was withdrawing from the Laidlaw Presbyterian Church for the same reason.

"I don't believe in churches running religion by legislation," he said.

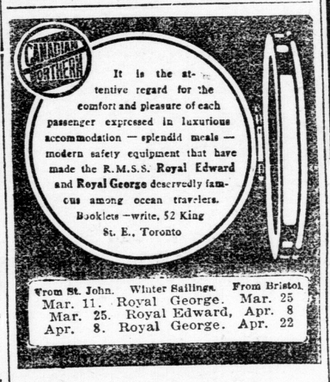

The society passed a resolution asking the council to try and get the Government to allow cities to control licenses for five miles outside the limits.

—trying to find a safe nourishing food that will agree with the baby that has just been weaned.

This is an important epoch, and on securing proper food depends the future and health of the child.

Grape-Nuts prepared as follows has often solved the perplexing problem.

Place one or two teaspoonfuls of Grape-Nuts in a cup of hot water; stir for five minutes, at intervals; pour off the liquid portion and add a little sugar. Feed this "liquid Grape-Nuts" to the child.

Milk and cream, and more of the softened Grape-Nuts may be added later on.

This food is convenient, economical and safe. It is worthy a trial, especially where other "Infant Foods" do not make good.

TORONTO REPRESENTATIVE.
F. W. Thompson, 56 Mail Building.

The London Advertiser Printing Co., Limited.

LONDON, THURSDAY, FEB. 26.

Mr. Carnegie, chain up your dog, or have him removed!

Lent is the season to hit the H. C. of L. a few lusty blows.

The Lenten season opens. It is the real time of prayer for our bountiful harvests.

The wind is getting in the south, but the fly-fishing season can scarcely be said to have opened.

It's a safe wager that General Villa barred the "movies" man from the execution of Benton.

It may be "Lefty Louie" and his crowd who will take Becker's place in the death chamber.

It is reported that Jack Johnson is to join Billy Sunday's evangelistic force. They might use him as a horrible example.

Great Britain is afraid to trust its investigating consul in Mexico. Fee! Fie! Foe! Fum! Villa smells the blood of an Englishman!

London tailors are planning blue dress suits. That's the color it makes a good many of us feel when we are compelled to don one of the black ones.

"Mr. Allan Studholme votes with the Opposition," in Ontario Legislature. The natural ally of a labor representative is the Liberal party. The workingmen of Ontario will have to look to Mr. Rowell.

An occasional Bordenite paper still keeps up a sporadic barking about the N. T. R. We know the pup that will make a noise at midnight for an hour after nothing went by. If the Liberals take the matter up in caucus, it is more to quiet the pup than to investigate the N. T. R.

Ontario education's debt to Sir George Ross is a heavy one. The doughty statesman did more to refine and advance the provincial school system than any other living man. For years he has had impaired health, and yet the stormy periods of his life have not passed. A genuine feeling of concern is felt by his old constituents in West Middlesex, and the whole country hopes for his recovery with the coming of spring.

### HOME OR FLORIDA?

IT is not often you hear of young people coming south to live. They come to die.

What a tribute to our red-blooded Canadianism is this sentence in the letter of a former resident in the south! The men of the northern zone have been sung as giants in physique and endurance, but several rather insipid winters have made us feel almost like semi-tropical denizens. It took this real old-fashioned Canadian winter to tone us up and start our whole constitutional machinery tingling.

There are few weather cowards living in Canada. From our childhood we have rushed out into the open spaces and romped with King Boreas and Jack Frost to our heart's content. Most of us have had our ears frozen, yet our longevity statistics would compare favorably with those of torpid Florida or any other invalids' paradise. You don't see many of our young people striking for Mexico or Arizona unless it's lungs, and the stronger stick it out up here in the pine woods and beat it out.

It has taken this good solid stretch of ice-bound February to make us feel right. The snow is packed until it rings like metal. There is tinsel sheen in sun or moonlight, and the merry shouts of those who are renewing the good old sleighride parties sound through the city. The hills beyond invite the blanket-coated snowshoer or tobogganist. The local color gets back to its style of twenty years ago. It is good to be alive in Canada! Much better than to die or be exiled in Florida.

### THE ART PLUNDERBUND.

A Raphael Madonna was this month bought by Mr. P. A. R. Widener, of Philadelphia, "the Trolley King," for $700,000, according to announcement. This would be the highest sum ever paid for a painting.

The "Cowper Madonna," as it is called from a former owner, was offered last September by Lady Desborough to the trustees of the British National Gallery for half the price now paid by the American. Of course, this was no "patriotism" on the part of Lady Desborough, as the amount asked was just what she had been privately offered at that time. The trustees had not the necessary funds, and did not think the picture, on the whole, worth the figure proposed.

The Philadelphia magnate will be remembered as the father of a Titanic victim, and as the purchaser of Rembrandt's "Mill," a year or so ago for the sum of half a million dollars. In that instance also he beat out the National Gallery. It would be interesting to know whether Mr. Widener would be as skilful in selecting a work of genius from an exhibition of last year's paintings as in placing the seal of his august sanction upon the works of the Renaissance. But at any rate, the world has not been so much with him that he should lose or never feel the desire of beauty and light.

The British rich who have paintings to sell may incur some criticism for exporting objects of art from their own country. But no doubt they may reflect that the masses of their poorer fellow citizens will be as much benefited by some parings from the American dollars as by a painting that only a few artists and antiquarians really can appreciate. There are as good fish in the sea of British and European art as ever were caught. The main thing is not to have a stock of ancient works in a public safe, but to continue in the power of artistic production.

By the time American princes have the paintings of older centuries corralled in their private palaces, they will have lost their market value, and the new harvest of a later age will be ready to cut. Meanwhile it is amusing that the Raphaels and Rembrandts should have toiled to fill, after many days, the pockets of titled shopkeepers, and the halls of the untitled "nouveaux riches."

### ANOTHER AUTHORITY.

THE Toronto News in a recent editorial tells us what it knows about blasting. The News has blasted at the Liberal Rock of Ages for many a day and should know something about the handling of journalistic dynamite, but when it comes to giving expert evidence such as one might expect from an engineer or a "nitro" man, one realizes that the age of specialization has been reached in newspaper work, and that if the editor of The News is not himself competent to write on the subject, he has an engineering graduate at his elbow to prompt him.

The News is talking of "overbreak" in this instance. "Overbreaking," the expert tells us, is the gentle practice of blasting out 80 or 100 feet of rock for a roadbed when the specifications say that only 65 feet should be cut through. The News says that the contractor saves time and money by cutting out more rock, and that the late Government's inspecting engineers have passed this kind of work excessively.

How much more dynamite would it take to blast out 100 feet of roadbed through rock than through 65 feet?

How much more shovelling would be required in the removal of the blasted rock where 100 feet had been blasted?

Can a contractor gauge the action of his dynamite so closely that he can keep within a ten foot limit either way?

And how does he save time by blasting out and carrying away so many extra hundred tons of rock?

The News' engineering specialist may tell us that the contractor made extra money by charging up such work as solid rock excavation, but can he expect us to believe that the contractor did it to save time?

### PUBLIC LANDS IN THE NORTH-WEST.

WHEN the provinces of Alberta, and Saskatchewan were constituted under the Liberal Government, their public lands were retained by the Dominion, as was the case with those of Manitoba. It was held that the control of these lands was necessary to the Dominion Government in carrying out its immigration policy. In lieu of these, however, the new provinces received better financial assistance than the older provinces. Objection was raised by some of the people in the Northwest to this arrangement, and that objection has been growing stronger with the lapse of time. Whether or not under present circumstances, with their great increase in population, it would be advisable to restore the public lands and other natural resources to the provinces, is a proper subject for inquiry and discussion. The Liberal Governments of Alberta and Saskatchewan, which accepted the original agreement, now think they should have the lands. The Conservative Government of Manitoba joins with them in their demand. And the Liberals in the Dominion Parliament are quite prepared to consider the question fairly, and treat the other provinces justly.

But the position of Mr. Borden and his colleagues is not creditable nor honorable. When in Opposition, in issuing what was called the Halifax platform, Mr. Borden declared himself unreservedly in favor of restoring the public lands to the provinces. During the last election campaign, in his western tour, he emphatically promised the people that if he were returned to power, the lands should be given over to them. He was very indignant with the policy of the Liberal Government. He told his hearers that they were free men in name, but they could not be really free until they had control of what was their own property. And he was the man who would give them freedom if he had the power.

This is the Conservative Government's third session, and the lands are not yet restored. There has been no proposal from the Government to restore them. And when the Liberal members from the Northwest join with the Conservatives from the same section in asking Mr. Borden to fulfil his pledge, his only answer is that Sir Wilfrid did not do it. That is a poor excuse. He condemned Sir Wilfrid for not giving the western provinces their lands, and promised he would do it. Now he does not do what he promised, and pleads Sir Wilfrid's example as an excuse. To restore these lands now, he tells the people, would not be right without a re-arrangement of the financial terms. But he did not say that when in Opposition. Sir Wilfrid said it; and Mr. Borden now says exactly what the Liberal leader said.

This is nothing new. When confronted with unfulfilled pledges, Mr. Borden has always the same plea. "I am not doing anything but what you did." It is not always easy for the man who attains power and responsibility to carry out the promises he made when in Opposition. But it is a poor plea to say that the other side was as bad. The Liberals are not now at the bar of public opinion. They were there three years ago; and if they had been guilty of any sins of omission or commission, they were condemned, and dismissed from office. Whether the verdict was just or not, is another question. They had their trial, and received sentence. Now the Conservative Government is on trial. It is asked why it does not do what it promised to do. It cannot escape condemnation by saying that it is no worse than the Government that has been condemned. If that plea is to be accepted, it can only be on the ground that the course of the Liberal Government was right, and that the censures Mr. Borden distributed so freely when in Opposition were undeserved.

### WOMAN'S WAY.
[Chicago News.]

Speaking of inconsistencies, consider the appeal for the ballot by the women of queen-ruled Holland.

### HOW SHOCKING!
[Cleveland Leader.]

"Two Philadelphia pastors have been warned by the fire and police departments that they must cease overcrowding their churches." The smelling salts, please.

### MEDICAL NOTE.
[Cleveland Plaindealer.]

Rheumatism means many things to many people. Incidentally a Chicago physician says it is a convenient dumping ground for medical ignorance.

### LOVELY!
[Chicago Record-Herald.]

Lovers of the good old-fashioned winter should take heart. Seasonable weather is now on the program.

### EASILY!
[Cleveland Leader.]

Still, the Rothschild who paid $5,000 for a flea will probably be able to get his money's worth of diversion out of it if he places it properly.

### THINK!
[Chicago News.]

Speaking of carrying coals to Newcastle and owls to Athens, consider the Americans who have started a theatre in Paris.

### RAKISH.
[New Orleans Picayune.]

Many persons who rake through another's character with a fine-tooth comb to discover a fault, could find one with less trouble by going over their own character with a horse-rake.

### DANGEROUS HINT.
[Cleveland Plaindealer.]

It is reported that the British authorities think seriously of transporting an American fighting suffragette back to her native land with orders never to return. Moral for Americans stranded in London: Break a few windows, club a policeman, set fire to a castle, and get a free passage home.

### THE WIND.
[Neale's Monthly.]

The way of the wind is a strange, wild way,
As over the clover he goes;
Listen, and you shall hear him play
Quaint ditties he only knows—
Melodies waking the clover to sway
And dimpling the pink wild rose.

For the wind is mad with the old, old spell
That was cast in the morn of time,
That poets have ever been fain to tell
In the ripple and flow of rhyme.
List, to the long sweet lisping swell,
And the sudden silvery chime.

And the wind has listened to Merlin there,
In his mystic place by the sea,
And the wild rose, blushing, would better take care.
For the wind is a lover free—
And when he sings softly beware, beware
The song and the witchery.

## Voice of the People

### A Question Answered.

To the Editor of The Advertiser:

Would you kindly answer the following query in the columns of your valuable paper?

"Do the laws and regulations governing the Presbyterian Church in Canada allow a minister of aforesaid church to canvass personally the community and adherents for votes to elect to the board of managers men who are not members of the Presbyterian Church?"

Thanking you in advance,

A CONSTANT READER.

London, Feb. 24 1914.

Answer.—There is nothing in the laws and regulations of the church to prevent a minister from conducting such a canvass, although authorities say that it would be unusual.

### KEEP SOME AWAKE.
[Guelph Mercury.]

Sunday cars were run in London for the first time this week. Some of the old boys in the churches where the cars whizzed by, found it harder than ever to get in their 40 winks during the sermon.

### WINDSOR'S LOSS.
[Windsor Record.]

Death has reaped a heavy toll of prominent Windsor citizens this winter, including J. Wallace Askin, registrar of the county; J. H. McConnell, ex-alderman; J. H. Kenning, former inspector inland revenue; J. W. Peddle, drygoods merchant, and Bruce Allison, member of the board of education. John Plimmer and Ald. Clinton are the latest additions to the list. Such men are not easily spared from a community.

### TREES WANTED.
[Brantford Expositor.]

Among the powers which the city of Brantford is seeking to obtain from the Ontario Legislature is one to enable the parks board to plant, maintain and care for trees, shrubs and plants in a street. This is authority greatly to be desired. It is high time efforts were put forth not only to prevent the ruthless destruction of trees in the public streets, which is now permitted, but also to encourage and systematize their planting and care. The sodding of boulevards is also one of the things which it is proposed to undertake, and the thought naturally suggests itself why the proper upkeep of boulevards, including watering of the same, should not be included. There is not much use in making ornamental boulevards unless their maintenance is also provided for.

### CANADA NEEDS MORE ARBOR DAYS.
[Guelph Herald.]

There is nothing that creates a more favorable opinion of a farm than to see it bordered along the roadside by a row of trees. In winter they are a protection from snow and wind; in summer the shade is a welcome relief from the glare of a scorching sun of a heated roadway.

Yet how rarely do we see any farm so surrounded; still more rare it is to see any district in which the planting of trees along the roadside has been made a system? The shaded roads and lanes of old England are unknown in Canada. Trees have been ruthlessly cut down, and no effort has ever been made to re-establish them in anything like order and system.

Even Arbor Day has been allowed to fall into disuse, with the result that it is safe to say there is less tree planting as a means of beautification and comfort today than there was some years ago. It is a regrettable oversight on the part of farmers, who would be the gainers by tree planting.

## On the Spur of the Moment

### A DREAM.

Last night as I lay sleeping,
I had a dream so fair;
Methought I owned a hundred banks,
With money everywhere,
My home was on Fifth avenue,
My servants all content;
It never strained my purse a bit
To pay for clothes or rent.

I owned all sorts of motor cars,
A nifty yacht and 'plane;
I rode where'er I pleased on earth
And o'er the bounding main,
And in the midst of all my joy,
I got an awful shock;
My banks were closed by order of
My old alarum clock.

### SOME WAITRESS.

The following story is told of a well-known New York travelling man. He went into the dining-room of a small country hotel, glanced at the menu and then looked at the pretty young waitress. "Nice day, Little One," he began. "Yes, it is," she answered, "and so was yesterday, and my name is Ella, and I know I am a peach and have pretty blue eyes, and I've been here quite a while, and I like the place, and I don't think I'm too nice a girl to be working here. If I did, I'd quit my job. My wages are satisfactory, and I don't think there's a show or dance in town tonight, and if there is I shall not go with you, and I'm from the country, and I'm a respectable girl, and my brother is cook in this hotel, and he weighs 200 pounds, and last week he wiped up this floor with a hundred-dollar-a-month travelling man who tried to make a date with me. Now, what'll you have?"

### WHAT DRIVES BOX OFFICE PEOPLE CRAZY.

"Are you sure it is going to be a good show?"

"Have you got two good seats facing the stage? Are they behind a post?"

"Do you know whether the Mr. Jones who is with this show is the same Mr. Jones who played in 'Way Down East' in 1895?"

"Are you sure I will not sit next to some man with a buffet breath?"

"Do you think my husband would like the show? If so, I have a notion to have two seats laid away and then if we don't come, you can sell them to somebody else."

"Can you hear better from the back of the house or from the side? If so, why?"

"Do you think there will be a good crowd? What did the New Yawk papers say about the show?"

"Is that lovely leading man married?"

### THE OLD HOSS.

The motor car was stalled in snow;
With all its power it couldn't go,
It wouldn't budge a single inch,
The blizzard had it in a pinch.
The car was weak and helpless, too,
But the old hoss, he pulled through.

The railroad train, a mighty thing,
Was stalled. It wasn't worth a ding.
The engineer did all he could,
The drifts had it tied for good.
To wait was all it could do,
But the old hoss, he pulled through.

The street car, crowded, jammed and packed,
Tried going ahead and then it backed.
The Snow King held it in his grip;
They tried and then gave up the trip.
One method of transit still held true,
The old hoss, he pulled through.

### SIGNS OF THE TIMES.

Now they will have dining cars in the New York subway. New Yorkers can eat soup in the gloom just as noisily as above ground.

## ENGLISH WRITER DESCRIBES LIFE AT THE HISTORIC WINDSOR CASTLE

### King Rises Early—Royal Family Breakfast on Porridge, Bacon and Eggs

[Daily Mirror.]

Now that the King and Queen have returned to Windsor, I understand that there will be a command theatrical performance in the Waterloo Chamber. Both their majesties are very fond of Windsor, and since they came to the throne the Castle has been restored to its former position as the chief residence of the sovereign. King George, with his greater domestic interests has always been influenced by the superior healthiness of Windsor, and its advantages in the way of privacy and freedom.

**The Hard-Working King.**

Her majesty's suite in the Victoria Tower, which is set apart for the Queen and the royal children, consists of five rooms commanding a lovely view of the famous Long Walk. It has a delightfully sunny aspect overlooking the sunk gardens and the slopes where the Windsor garden parties are held. In the private apartments of the King and Queen are cleverly planned wall-cases, arranged cunningly with shelves and secret springs which open at a touch, revealing the jewels and personal treasures of their majesties.

The King's work never stops. He gets up every day at from 6:30 to 7, or even earlier if occasion demands. When not going for a ride he takes a quarter of an hour's physical exercise immediately on getting up. He wastes but little time in dressing, and by half-past seven has had the important items of the day's news brought to him and mastered the contents of the private mail bag, in which his personal letters are brought by special messenger to wherever he may be residing.

**The Homely Breakfast.**

When he can spare the time for it, he devotes half an hour or so to his children before he begins the serious work of the day; the elder ones come to his room. Breakfast is a purely family function. Although there are servants in the room, it is the custom for everyone to help himself, just as in the majority of British homes. Among the dishes, the average housewife will be interested to hear, porridge and bacon and eggs invariably figure. Quantities of fruit are also in evidence.

## Cynthia Grey's Mail-Box

[Correspondents are requested to make their inquiries as brief as possible, and to write on one side of the paper only. It is impossible to give replies within a stated time, as all letters have to be answered in turn. No letters can be answered privately.]

**Where Is Indostan?**

Dear Miss Grey,—Seeing your Mail Box is getting to be so popular, I will venture to steal a space, if not cast into that great W. P. B. Please answer these questions:

Is a girl of 13 years far enough advanced in school if she is in the Senior Fourth Book?

2. Where is Indostan?

Thanking you very much,

JEFF'S LITTLE SISTER.

Ans.—1. Yes, I think so.

2. If you mean "Hindostan," it is a large district in the northern part of India. Sometimes the entire peninsula is given this name.

**Lady Whitney's Address.**

Miss Cynthia Grey,—You have helped so many, kindly help me by advice on the following questions:

Has the wife of a member of the House of Commons or Senate with the prefix of "Sir" to his name any honorary distinction in addressing by letter? Would it be correct form to address, say, "Mrs. (Hon.) James Whitney"? Does the husband's rank give his wife a distinctive recognition in correspondence? If so, please give the correct form and much oblige, IGNORAMUS.

Ans.—Simply address "Lady Whitney, St. George street, Toronto," and commence your letter with "Madam," or "Dear Madam."

**Poem to King Edward.**

Dear Miss Grey,—Your old time verse paragraphs have been read with much interest and enjoyment, and I am wondering if some one of your many readers could give the words of a poem which won the gold medal in a competition for the students of the Toronto University, written in honor of the coming of age of the late King Edward, then Prince of Wales. The author of the prize-winning poem was the late Mr. John Taylor, barrister, of this city, who at the time was a student of the Toronto university, and the opening lines are:

'Hail, hail, cherished hope of the nation!
Hail, Prince of the British domain!
At the head of proud manhood's thy station,
Before thee spreads life's verdant plain."

2. In reading Winston Churchill's much-talked-of book, "The Inside of the Cup" (page 317), I came across the expression "cards and spades." Could you give me the origin and meaning of the phrase?

Thanking you in anticipation, I am, yours very truly, A. R. B.

Ans.—The poem is not familiar to me, but I sincerely trust we may be able to procure a copy for you through some kind reader. Has anyone a copy?

2. Do you not think the expression is simply one of Churchill's creating? In the copy of the volume which I have, the phrase is not given marks of quotation, as though from an older source. I have investigated several authorities on quotations, and none of them give the phrase.

**"Just One of 'Em."**

Dear Miss Grey,—Mrs. Parker asks for days of week. November 6, 1875, fell on Saturday, and March 9, 1868, fell on Monday. Yours, JUST ONE OF 'EM.

Ans.—Your kind information is gladly passed on to our inquiring reader.

**He's a Plowman.**

Dear Miss Grey: I am sending a song to J. F. M., and as I am a newcomer I will take the opportunity to thank you for the attention you have always given to anxious boys. I am glad that you have changed the heading of your valuable column to C. G's Mail Box, as it gives the boys the same privilege, if seeking advice, as it does the girls. It always made me envious to see the "problems of the fair sex solved," while we, boys, who really require, and are desirous of much information, had to go unnoticed or intrude on as it seemed to be women's rights.

Now, Miss Grey, you have been good to us, but we want you to be better to us in the future. I suppose our questions sometimes seem foolish to you, but you will have to have patience with us, because we will have to come to you many times, before as much can be expected of us, as of those who so long benefitted by your advice. I hope your column will always be seen in this paper. Although we can get much help from it I think it just a great way of studying human nature.

Thanking you for your valuable time I will close by asking you a few questions:

1. What are the meaning of the names Irene, Bessie, Roy and Lemuel?

2. What will remove hairs from the nostrils? Is it safe to pull them out?

3. When a person can have only a limited library, what are some of the best books?

4. Do you think it is good to follow the stories that appear in the daily press?

5. Are valentines supposed to be sent to a sweetheart only, or is it proper to send one to any friend?

A PLOWMAN.

I quite enjoyed your letter, Plowman, and hope you will come again. And since you put in such a plea I shall have to try and be more lenient. But I won't make any unwise promises!

A.—1. Irene, peace; Bessie, from Elizabeth, meaning consecrated; Roy, a friend; Lemuel, created by God.

2. The hairs in the nostrils are intended for the protection of the tender lining of the nose. By no means seek to remove them.

3. If it is a puzzle for an individual to know what to purchase, and what to reject in building up a small library, it is decidedly more difficult for an outsider to know what books to advise. However, the followin are all standard works and would form a good foundation for a private library or book-shelf. You may prefer less fiction, and more of history, science or travel, but this is a list I would suggest: Carlyle's "French Revolution;" Bunyan's "Pilgrim's Progress;" Hugo's "Les Miserables" and "Toilers of the Sea"; Shakespeare's "Hamlet"; Emerson's Essays; "War and Peace" or "Anne Karenina" by Leo Tolstoy; "David Copperfield," "Tale of Two Cities," Charles Dickens; "Vicar of Wakefield," by Oliver Goldsmith [illegible] by Charles Kingsley; "Tom Brown's School Days," Thomas Hughes; Macaulay's Essays, "Kennilworth" and "Ivanhoe," by Sir Walter Scott.

In poetry you should include Tennyson's "Princess" and "Idyls of the King"; Robert Burns' "Tam O'Shanter" and "Cottar's Saturday Night;" Shelley's "Skylark"; and Longfellow's "Evangeline."

A good, up-to-date encyclopedia in handy sized volumes, such as the Everyman's, is also most invaluable.

4. It is an excellent way to obtain free fiction. In the course of a year several books are covered by the reader. And I can assure you that The Advertiser, for instance, spares no pains to obtain readable, up-to-date fiction for the serials, and only purchases from the best publishers.

5. The original idea of sending a valentine was that it be a "love favor," but in recent years it has become customary to remember not only "sweethearts" but friends as well, in this manner.

The remainder of your letter is being inserted in the "Old Song" column.

Are you using WINDSOR Table Salt? It's the best the Grocer has . . . .

DESIRABLE FOR DAY WEAR.

It is often a problem with the business girl to decide on the sort of costume that is most stylish and most economical for day use, that will look stylish on the street and neat about the office or school room. Here is a happy sugestion: Dark green mohair of the new soft sort that is part wool and part mohair, a beautiful, fashionable and durable fabric, the skirt made plain with just a touch of drapery, but the coat a bit more dressy, trimmed with velvet and a peplum in Persian material.

## Taffeta To Be Favorite Silk

Among the strongest features of the styles of the approaching season is that of taffeta silk. It is said by some manufacturers that the demand has become so great that it looks as though it would exceed the supply.

When we think of taffeta we at once remember the old-fashioned kind, thick and rustling. In fact the quality was recognized by the thickness, but with the taffeta of the present time it is just the opposite, for these are as supple and soft as the others were hard and stiff. With the styles of making gowns today the old taffetas would not be well adapted, for there were no clinging properties about them, but these which have been placed on the market to meet fashion's present demand are so soft and supple that the new designs are well reproduced by them, and drape as gracefully as the most fashionable modiste could desire.

Another favored silk is moire, which is used in a variety of ways, and is especially favored for coats and dresses. In the development of this kind of silk the new line of patterns which have been introduced in moire has been a strong factor. Moire coats are worn with plain silk skirts and those made of silk crepe and taffeta.

All crepe weaves are popular, especially Canton crepe and crepe de chine. Radiums and messalines continue in favor, and it is said by merchants that the outlook for the sale of silks has never been better, which means that women will wear many gowns of silk through the spring season.

**OLD-FASHIONED BUCKWHEAT CAKES.**

Put into a stone jar with a rather narrow neck one teaspoonful of salt, three and three-quarters cupfuls of buckwheat flour, and one teaspoonful of molasses. Then slowly mix in a quart of water from which the chill has been taken, and half a cake of compressed yeast that has been dissolved in two tablespoonfuls of tepid water. Beat the batter until smooth and very light, cover the top of the jar with a saucer and stand in a fairly warm place overnight (about 65 degrees). In the morning dissolve half a teaspoonful of baking powder in two tablespoonfuls of hot water, stir this into the buckwheat batter, beat thoroughly and bake immediately on a hot griddle. A cupful of this batter may be saved and added to the cakes of tomorrow, instead of using fresh yeast, and may be continued for a number of mornings if these cakes are frequently served.

## Songs We Used to Whistle and Sing

When Johnny comes marching home again,
Hurrah! Hurrah!
We'll give him a hearty welcome then,
Hurrah! Hurrah!
The men will cheer, the boys will shout,
The ladies they will all turn out,
And we'll all feel gay,
When Johnny comes marching home.

The old church bell will peal with joy,
Hurrah! Hurrah!
To welcome home our darling boy,
Hurrah! Hurrah!
The village lads and lassies say
With roses they will strew the way,
And we'll all feel gay
When Johnny comes marching home.

Get ready for the jubilee,
Hurrah! Hurrah!
We'll give the hero three times three,
Hurrah! Hurrah!
The laural wreath is ready now
To place upon his loyal brow;
And we'll all feel gay,
When Johnny comes marching home.

## THE HOROSCOPE

HOROSCOPE.
THURSDAY, FEBRUARY 26, 1914.

**Evil Signs Arise In Troubled Skies.**

Neptune and Mercury are in benefic aspect today and astrology finds the influences particularly favorable for many artistic vocations.

There is a fortunate sign for entering into new contracts and choosing new business associations. This is especially true, the seers believe, for persons who are to work with educators, writers and lawyers.

Mathematicians and financial secretaries should benefit by the sway of Mercury. The astral government also favors publishers, advertising men and book sellers.

Servants of the state are believed to prosper while this planetary rule prevails. There is a prophecy that danger of a bureauocracy will develop in the United States.

According to ancient lore marksmen and dice-players profited largely when Mercury held friendly sway.

Neptune is in a place believed to be helpful to reconstructive work and all enterprises tending to conserve natural resources. The planet is supposed to impart stability and permanence to measures that are established under this configuration.

There is a good augury for tasks which demand keen insight and patient research. Natural sciences, artistic endeavors and philosophical discussions are all well aspected.

Epidemics and seismic disturbances are presaged for Russia and Prussia. March will bring serious catastrophies and illnesses, the seers announce.

California is under a sign, which gives warning of tidal waves and slight earthquakes.

A London astrologer foretells some sort of "underground trouble" for Washington, D. C., and this same authority finds in the heavens a sign which is sinister for the King of Italy, who is likely to meet serious diplomatic problems next month.

Persons whose birthdate it is have the prognostication of a happy, busy year in which prosperity will come to them. Suitors will appear for young women and those who are married will be fortunate in their domestic affairs.

Children born on this day have many lucky omens. They should be bright, industrious and successful. Boys probably will be most fortunate in vocations which are associated with water. Girls have the augury of happy marriage.

**Apple Rice Pudding.**

Wash thoroughly one-quarter of a pound of rice. Drop in boiling, slightly salted water and boil hard for 15 minutes, then drain. Mix with it three cupfuls of milk, the beaten yolks of three eggs and a few drops of vanilla. Wipe six tart apples and core carefully leaving fully a quarter of an inch unbroken at the blossom end of each, like a well. Arrange in a slightly buttered baking dish and pour the rice mixture round, not over them. Bake in a moderate oven until the apples are tender and the pudding set. When cold, fill the cored apples with any kind of jelly. Whip the whites of the eggs in a soft froth, add three tablespoonfuls of sifted powdered sugar and a few drops of vanilla and whip to a stiff, glossy meringue. Heap this over the pudding, dust thickly with powdered sugar and place in a moderate oven until lightly colored.

## WOES OF MRS. NEWLYWED

3.—"Gracious, these apples don't seem to peel very well," frowned Mrs. Newlywed.

"If you will pour boiling water over them before peeling, you will find that the skins can be easily removed," was Mrs. Neighbor's helpful suggestion.

# WESTERNS WIN ROUND BUT SEAFORTH PROTESTS

## Local Varsity Team Holds Seaforth to 5 to 5 Score in Latter Town and Wins Round By Four Goals---Three O. H. A. Men On Line-Up.

[Special to The Advertiser.]

Seaforth, Feb. 25.—The Western University team of London with three of the O. H. A. intermediates of that city on the line-up succeeded in tying the local Northern League team here tonight, the score being 5 all, and thus winning the round. The game was played under protest, the locals protesting McAvoy and Dot. Reid, who played for the Westerns, claiming they were not eligible under Northern League rules.

**Game Was Fast.**

The game was a fast one from start to finish. At half time, the score stood 1 to 1, Brodison scoring the first goal of the game in 20 minutes, and Sills evening it 5 minutes later. In the second half, Seaforth took the lead when Hays scored in 4 minutes and Dick repeated a minute later. Davy Reid, the local boy on the London line-up, then took a hand and scored 3 goals. He got the first after 11 minutes of play and notched the second one on a pass from Brodison in 14 minutes. The third came after 17 minutes. The Londoners tallied again 3 minutes later, when Davy Reid passed to Schumacker in front of the nets, the latter scoring. Habkirk scored the last 2 goals and put the teams on even terms again just before full time.

**Sills Hurt.**

The last part of the contest was played six men a side, Sills getting hurt and Brodison going off to even up. One of the biggest crowds of the season witnessed the match. Martin, Davy Reid and McAvoy starred for the visitors, while Sills and Hays were the Seaforth team's best players. Jack Shea, of Palmerston, handled the contest satisfactorily. The teams were:

| Seaforth. | | London. |
|---|---|---|
| McGeoch | Goal | Chapman |
| Hayes | Point | Brodison |
| Sills | Cover | D. Reid |
| Hoffman | Rover | McAvoy |

**Best Liniment of All Destroys Every Pain But Never Burns**

"How thankful we are to get hold of such a wonderful household remedy as Nerviline," writes Mrs. E. P. Lamontagne from her home near Wetaskawin, Alberta. "In this far-away section, far away from a doctor or druggist, every family needs a good supply of liniment. Nerviline is the best of all. It destroys every pain, but never burns. We use Nerviline in a score of ways. If it's rheumatism, aching back, pain in the side, sciatica or stiff neck,—you can laugh at them if you have lots of Nerviline handy. For earache, toothache or cramps I don't think anything could act more quickly. For a general all-round pain remedy I can think of nothing more valuable and speedy to cure than Nerviline."

The above letter is convincing—it tells how reliable and trusty this old-time remedy is. Nerviline for forty years has been a household word in Canada. Scarcely a home in Canada you can find without Nerviline. Every community has its living examples of the wonderful curative properties of Nerviline which will cure pains and aches anywhere in the joints or muscles. It's penetrating, soothing, warming and safe for young and old to use. Get the large 50c. family size bottle; it's the most economical. Small trial size 25c. at any dealer's anywhere.

# STRATFORD BEAT GALT JUNS. IN A VERY TAME CONTEST

**Both Teams Lacked Ginger, But Galt Seven Were Most Ragged—Score Was 10 to 5.**

Stratford, Feb. 25.—Before a very tame crowd in a very tame game, the Stratford Midgets defeated the Galt Juniors by 10 goals to 5 in the first home and game game of the consolation series. Half time score stood 2 to 2.

Stratford emerged victorious because Galt played ragged hockey, not because they themselves were especially brilliant. On the infrequent occasions when the Midgets attempted combined rushes a score usually resulted, but on the whole, little but gingerless individual work was attempted. Back checking was almost altogether lacking. For the visitors Tremaine was easily the most brilliant man, for the locals Tobin and the Lavelle boys were effective, as were also Forbes and Burdett. Referee, Wally Hern. Teams:

| Stratford. | Position. | Galt. |
|---|---|---|
| Cornell | Goal | Winkinson |
| Forbes | Right Defence | Grant |
| Burdett | Left Defence | Dennis |
| R. Lavelle | Rover | Gossage |

# DR. YATES NAMED MANAGER OF HAMILTON'S 1914 TEAM

**Former Member of Phillies and Pacific Coast League Teams Will Pilot the Kolts.**

Hamilton, Feb. 25.—Dr. R. W. Yates, of Philadelphia, recommended by Connie Mack, manager of the world's champion Athletics, will manage the Hamilton Canadian League Club in 1914. His appointment was made at yesterday afternoon's meeting of the club directors, he being the choice of three other applicants. It was also announced that five young and speedy players had been signed, making prospects exceedingly bright.

Dr. Yates has a record that assures Hamiltonians of his ability to give this city a team that will be up there fighting all the way. He has played in the Pacific Coast League and with the Philadelphia Nationals, and is looked upon as the right man to pilot a B class club. Last year he was finishing his college course and did not play ball at all. He will report here about April 1, or six weeks before the season opens.

Mr. Stanley stated that from reports of the different magnates attending the meeting, the league is going to be a hummer this season. The Hamilton gentlemen, who took over the Lee-Robinson-Burns holdings in that town, have secured a manager recommended by Connie Mack, manager of the world's champion Athletics, and according to the Hamilton delegates Connie is going to farm out four players to the Ambitious City club for the season. From other news gleaned, he states that every club is straining every effort to get a real ball club for the race this year.

# BASEBALL MANAGERS INTRODUCED TO KING

**Royal Sportsman Warmly Welcomed to Game by American Players in England.**

[Canadian Press.]

London, Feb. 26.—Three hearty American cheers and a tiger were the welcome given by the baseball teams to King George on his arrival today on the Chelsea Football Ground to witness the game between the New York Nationals and the Chicago team of the American League. The players were grouped immediately in front of the royal box, and the rattle of the hurrahs evidently immensely pleased the royal sportsman, who repeatedly bowed his acknowledgements.

The King was accompanied by United States Ambassador Page and a full staff of the embassy, as well as a large suite of court officials.

The ambassador introduced Charles A. Comiskey, John J. McGraw, Jos. Farrell and James J. Callahan, with all of whom the King shook hands.

Five or six thousand spectators attended the game. All branches of British sports were largely represented. Many of the leading cricket and football players were on the ground taking keen notice of all the points of the game.

The Earl of Lonsdale and Baron Desborough both of whom are prominent in sporting circles were among the many titled personages surrounding the King.

The result of the game was:

# MANY MONTREAL PLAYERS JUMPED TO THE FEDERALS

Montreal, Feb. 25.—Word has been received from Manager Bransfield, who is scouting across half the continent after alleged jumpers to the Federals from the Montreal Royals, that Pitchers Jean Dale and Emil Richter, Third Baseman Boyle and First Sacker Hugh Miller will again sign Montreal contracts. Bransfield, who rounded up these holdouts in St. Louis, confirmed reports that Pitchers Frank Smith, Mattern, Mullin and Imlay; Infielders Lennox, "Runt" Walsh and Esmond, and Outfielders Almeida and Dunn can have jumped, or will jump, to the Federals. President Lichtenhein, of the Montreal Club, has had to come through with more money in nearly every case of a man signed so far, some of the men getting their contracts doubled. Outfielder Hanford, First Baseman Art Griggs and Pitcher Del Mason are among the leading holdouts on the Royals' reserve list.

# *Public School Lacrosse League Is Now Practically Assured*

*Large and Representative Meeting in Alexandra School Last Evening Discusses Question—Joe Lally and Frank Doyle Among the Speakers.*

The preliminary step toward the formation of a public school lacrosse league in this city was taken up last evening when a large and enthusiastic gathering made up of principals from many local schools and others interested in the matter heard several prominent lacrosse men and local officials discuss the question in the Alexandra School last night. Among those present were Joe Lally, the Cornwall lacrosse stick manufacturer and one of the game's greatest boosters in Canada; and Frank Doyle, secretary of the O. A. L. A., of Toronto. Both these gentlemen delivered addresses outlining the formation of such a league and telling of the present lacrosse revival which is sweeping from coast to coast.

**The Speakers.**

The meeting was presided over by Mr. A. M. Hunt, school trustee, and those who delivered addresses were Messrs. Gregory, R. Althouse, Garrett, Snelgrove, Gibbs, Kirkwood, W. B. Wyatt, G. Copeland, and Dr. Bryant, Inspector Edwards, Assistant Dick Galpin, Principal Beal, Trustees Rowe and Hunt, E. H. Johnston, A. A. Alexander, M. Collins and Messrs. Lally and Doyle.

Mr. Lally offered to supply each team with sticks at cost price. This means that the stick used in the Public School League can be secured for 50 cents each, whereas a couple of years ago they cost over two dollars. He stated that one of the things that tended to kill lacrosse was the high cost of the sticks, but now that the sticks were put down to the price of hockey sticks, baseball bats and other sport equipment, there should be an almost instant revival of Canada's great national pastime.

**Medals for Winners.**

Mr. Doyle spoke along the same lines. He showed samples of the medals to be donated to the winning club in the league and gave out many interesting statements concerning the game. The other speakers spoke strongly in favor of a local league and offered it their strongest support.

**Mike Collins Will Coach Team.**

The London Lacrosse Club will be reorganized again this season and it will also do all in its power to boost the school league. Mr. Mike Collins, who managed the local lacrosse club last season, was appointed coach of the public school teams. Eight schools were represented at at last night's meeting and they all signified their intention of entering. It is likely a couple of groups will be organized, as it is believed enough teams will be secured to have two strong groups.

## OTTAWA'S WIN GIVES TORONTOS THE TITLE

### Senators Beat Canadiens in a Strenuous Game by 6 to 5.

### GREAT JOY IN OTTAWA

**Darragh and Ronan who Were Reported To Be Laying Down, Are the Stars of the Game.**

Ottawa, Feb. 26. — After the most sensational game of the local season the Ottawas vanquished the Canadiens by 6 to 5 at the arena tonight, and thig dropped them out of the race for the Stanley cup, handing the championship which goes with the Stanley cup to the Torontos. It was not until the teams had played 15 seconds' overtime that the plucky Canadiens relinquished their claim to the championship. The teams, after the score had been tied four times, were on equal terms at 5 to 5 when the bell rang for the conclusion of the regular hour of play. They at once changed ends, and the fans sat back for a gruelling grind, but Jack Darragh, the Ottawa "pinch?hitter," who has repeatedly distinguished himself on such occasions, grabbed the puck from the face-off, swerved through the entire Canadien team, dodged out in front of the net and scored the deciding goal, while the big crowd went frantic.

**The Honesty of the N. H. A.**

The outcome certainly demonstrated the honesty of the National Hockey Association, as the Ottawas could have dropped tonight's game and thus created a tie between the Torontos and Canadiens. They worked desperately to beat out the Canadiens, however, and Darragh's winning goal caused great joy in the camp of the Senators. The Ottawa players were riled over the story from Montreal that Darragh and Ronan had been lying down. The latter two were the heroes of the big game. The ice was lightning fast and nearly 7,000 persons were in attendance, sympathy being divided evenly.

The line-up:

| Canadiens. | | Ottawa. |
|---|---|---|
| Vezina | Goal | Lesueur |
| Lavilolette | Point | Gerard |
| Dubeau | Cover | Shore |
| Smith | Centre | Ronan |
| Berlangette | Wing | Broadbent |
| Scott | Wing | Darragh |

## MATHEWSON SAYS HE IS A FREE AGENT NOW

**Giants Sent Him a Contract, But Made No Other Effort to Sign Him—Is Considering Feds' Offer.**

Los Angeles, Feb. 25. — Before signing a contract with the Giants or accepting the proposition of President Gilmore to name his own terms for managing the Brooklyn Federal club, Christy Mathewson said today that he would talk the matter over with John McGraw, the manager of the Giants, or some representative of his.

Mathewson was planning to leave today for the Giants' spring training camp at Marlin Springs, Texas, where he expected to meet McGraw or some other official of the club.

"Some people have the report that I have already signed my contract with New York," said Mathewson today. "I have not, and I am considering the offer of the Federal League. I shall decide on neither proposition until I see McGraw or someone else in authority."

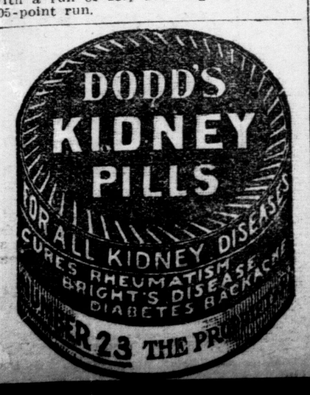

Mathewson said that beyond mailing him a contract, as required by National League laws, the Giants so far had not communicated with him nor had any of the league officials. He is therefore a "free agent," and at liberty to bargain with the Federal League.

## SAME OLD STORY—WILLIE HOPPE BEATS SUTTON

Chicago, Feb. 25. — Willie Hoppe tonight defeated George Sutton in the last 500 block of their 1,500-point 18.2 balk line billiard tournament, 500 to 160, making the total score 1,500 to 731. Hoppe's grand average was 55 15-27, against Sutton's 28 6-26.

Hoppe's average tonight was 50, his opponent averaging 17 7-9.

The ball was still in Hoppe's play last night when he reached 1,000 points after a run of 86. He took up the play tonight with a run of 119, crediting him with a 205-point run.

## ST. THOMAS STUDENTS TOOK BOTH GAMES

### Local C. I. Girls Beaten by a Score of 2 to 1.

### BOYS WERE BEATEN ALSO

**Led at Half Time by 3 to 1, But Lost Out in Second Period by 7 to 5 Score.**

The St. Thomas Collegiate Institute carried off both games in the double bill at the Princess rink last evening with the London Collegiate. The St. Thomas girls' hockey team defeated the local C. I. girls by the score of 2 to 1 and the boys handed out a 7 to 5 beating to the local Tri-County leaguers in the other struggle. Both games were highly interesting and were witnessed by a good crowd.

**The Feature Contest.**

The girls' game was probably the feature event of the night. The female of the species can certainly dish up a pretty fair imitation of the national winter pastime when they get going, and although it is not so deadly as that of the male, it is just as exciting. The local girls were outweighed by the visiting maidens, but what they lacked in size and weight they made up in aggressiveness. They played a much better game than their opponents and only hard luck in shooting and a little overanxiousness prevented them from winning.

**Tied at Half Time.**

The half time score was 1 to 1, Miss Brown notching the first goal of the game for St. Thomas. Miss Ward put the teams on even terms with a neat shot from the side a minute later, however. In the second half Miss Cameron, daughter of the famous St. Thomas curler, scored the winning goal on a neat rush and shot. The London girls tried hard to score and had several opportunities, but could not locate the nets. Miss Baker, Miss Cameron and Miss Huntley played splendidly for the winners, while the others were also good. For the London girls, Miss Ward, Miss Woolley and Miss McBride were fine, while Miss Hooper, Miss Thorne, Miss Ralph and Miss McKone were almost equally as prominent. Miss Graney, of the St. Thomas team, is a sister to the famous "Glad" of the Cleveland ball team. Eddie McKay refereed. The teams were:

| St. Thomas. | Position. | London. |
|---|---|---|
| Miss Huntley | Goal | Miss McKone |
| Miss Brown | Right defence | Miss Thorne |
| Miss Graney | Left defence | Miss Hooper |
| Miss Cameron | Rover | Miss Ralph |
| Miss Baker | Centre | Miss Woolley |
| Miss Clarke | Right wing | Miss McBride |
| Miss Porter | Left wing | Miss Ward |

**An Unhapy Ending.**

The second game was one of those surprising-ending affairs. Apparently outplayed in every department and on the small end of a 5 to 1 score, the Saints took a brace in the last minutes of play in the final period and ran in six goals in quick sucession, completely swamping the local students and walking off with the contest. Previous to that last ten minutes the game was all London.

In the initial period the L. C. I. boys ran in three goals to the visitors' one and started off in the second half by securing two more in the first fifteen minutes. After that they seemed to fade completely and what the Saints did after that is too painful for words. Starting with a lucky goal, the gents from the Railwayville high school ran in another and another with bewildering rapidity, Mr. Bell, the L. C. I. net-minder, who had been playing well up to that moment, apparently taking a relapse. Nothing was too easy to get by him, and although he tried to keep busy he couldn't prevent the score piling up. When the Saints tied up the locals apparently lost heart and they were never in the running after that.

**The Stars.**

For the winners, Kilty, Jones and Carrie were the stars, while Nelles, McCrimmon and Marsh worked hard for the locals. The former will develop into a splendid hockey player when he learns to keep after the puck all the time. If he lost the puck on a rush or was checked he always skated out of the playing zone, thereby losing any advantage he had gained. When he overcomes this habit he will be about as good as there is in London in the hockey line.

Eddie McKay kept the teams playing hockey all the time and there was little kicking on his decisions. The penalties were few and far between. The teams:

| St. Thomas | Position. | London. |
|---|---|---|
| H. Ponsford | Goal | Bell |
| K. Ponsford | Right Defence | Stewart |
| Kilty | Left Defence | Aiken |
| Jones | Rover | Nelles |
| Carrie | Centre | McGeoch |
| Horton | Left Wing | Marsh |
| Stacey | R. Wing | McCrimmon |

Referee—E. McKay.

## THE HOLLOW OF HER HAND

By GEORGE BARR McCUTCHEON

Author of "Graustark," "Truxton King," Etc.

Things went suddenly black before her eyes, but in an instant she regained control of herself.

"They have had many clues, Mr. Wrandall," she complained, shaking her head.

"I know," he replied, "and this one may be as futile as the rest. Smith appears to be absolutely certain this time, however."

"I understand that Mrs. Wrandall—I mean Mrs. Challis Wrandall—refused to offer a reward," said Booth. "These big detective agencies are not keen about——"

"There is a ten thousand dollar reward still standing, Brandon," said Mr. Wrandall.

Again the girl started.

"That isn't generally known, sir," observed the painter. "Leslie told me there was no reward."

"It was privately arranged," explained Leslie's father.

They came in sight of the house at that moment, and the subject was dropped, for Sara was approaching them in earnest conversation with Mr. Carroll, her lawyer.

They met at the edge of the lower basin, where the waters trickled down from an imposing Italian fountain on the level above, forming a deep, clear pool, to which the lofty sky lent unfathomable depths. To the left of the basin there was a small tea-house, snug in the shadow of the cypresses that lined the crest of the hill. A series of rough stone steps wound down to the water's edge and the boathouse.

"Mr. Carroll is the bearer of startling news, Mr. Wrandall," said Sara, after the greetings. There was a trace of the sardonic in her voice.

"Indeed?" said Mr. Wrandall gravely.

"I was not aware, sir," said the old lawyer stiffly, and with a positive glare, "that your detectives were such unmitigated asses as they now appear to be."

"I fail to understand, Mr. Carroll," with considerable loftiness.

"That confounded rascal Smith called to see me this morning, sir. He is a rogue, sir. He——"

"I beg your pardon, Mr. Carroll," protested Mr. Wrandall, in a far from conciliatory manner.

"It seems, in short, that he has been working on a very intimate clue," said Sara, staring fixedly at her father-in-law's face.

"So he informed me over the phone this morning," said he, rather taken a-back. "However, he did not go into the details. I am here, Sara, to tell you that he is coming out tomorrow. I want to ask you to come over to my place at——"

"That is out of the question, sir," exclaimed Mr. Carroll, vehemently.

"My dear Mr. Carroll——" began Wrandall angrily, but Sara interrupted him to suggest that they talk it over in the tea-house. She would ring for tea.

"If you will excuse me, Mrs. Wrandall, I think I will be off," said Booth.

"Please stay, Mr. Booth," she urged. "I would like to have you here."

She fell behind with Hetty. The girl's eyes were glassy.

"Don't be alarmed," she whispered.

Booth pressed the button for her. "Thank you. You will be surprised, Mr. Wrandall, to hear that the new clue leads to a member of your own family."

Mr. Wrandall was in the act of sitting down. At her words he dropped. His eyes bulged.

"Good God!"

"It appears that Mr. Smith suspects—me!" said she coolly.

Her father-in-law's lips moved, but no sound issued. His face was livid.

"The stupid fool!" hissed the irate Mr. Carroll.

There was deathly silence for a moment following this outburst. Every face was pale. In Hetty's there was an expression of utter horror. Her lips, too, were moving.

"He has, it seems, put one thing and another together, as if it were a picture puzzle," went on Sara. "His visit to Mr. Carroll this morning was for the purpose of ascertaining how much it would be worth to me if he dropped the case—now."

"The infernal blackmailer!" gasped Mr. Wrandall, finding his voice. "I will have him kicked off the place if he comes to me with—— My dear, my dear! You cannot mean what you say."

"I'd advise you to call off your infernal blackmailer, Mr. Redmond Wrandall," snarled Mr. Carroll, pacing back and forth.

"My dear sir," stammered the other, "I—I—— Do you mean to imply that I know anything about this infamous business?"

"He is your dog, not ours," declared the lawyer, pacing the brick floor.

"Peace, gentlemen!" admonished Sara. "Let us discuss it calmly."

"Calmly?" gasped Mr. Wrandall.

"Calmly!" snapped the lawyer.

"At least deliberately. It appears, Mr. Wrandall, that Smith has been working on the theory all along that it was I who went to the inn with Challis. You recall the description given of the woman. She was of my size and figure, they said at the time. Well, he has——"

"It is infamous!" shouted Mr. Wrandall, springing to his feet. "He shall hear from me tonight. I shall have him lodged in jail before——"

"You will do nothing of the sort," interrupted Sara firmly. "I think you will do well to hear his side of the story. And remember, sir, that it would be very difficult for me to establish an alibi."

"Bless me!" groaned the old man. Then his eyes brightened. "But Miss Castleton can prove that for you, my dear. Don't forget Miss Castleton."

"Miss Castleton did not come to me, you should remember, until after the—the trouble. It occurred the second night after my arrival from Europe. Mr. Smith has discovered that I was not in my rooms at the hotel that night."

"You were not?" fell from Mr. Wrandall's lips. "Where were you?"

"I spent the night in our apartment—alone." She shivered as with a chill as she uttered these words.

"What!"

"Leslie met me at the dock. He said that Challis had gone away from town for a day or two. The next day I telephoned to the garage and asked them to send the big car to me, as I wanted to make some calls. They said that Mr. Wrandall had discharged the chauffeur a week or two before and had been using my little French runabout for a few days, driving it himself. I then instructed them to send the runabout around with one of their own drivers. You can imagine my surprise when I was told that Mr. Wrandall had taken the car out that morning and had not returned with it."

"I see," said Mr. Wrandall, beads of perspiration standing on his forehead.

"He had not left town. I will not try to describe my feelings. Late in the afternoon, I called them up again. He had not returned. It was then that I thought of going to the apartment, which had been closed all winter. Watson and his wife were to go in the next day by my instructions. Challis had been living at a club, I believe. Somehow I had the feeling that during the night my husband would come to the apartment—perhaps not alone. You understand. I went there and waited all night. That is the story. Of course, it is known that I did not spend the night at the hotel. Mr. Smith evidently has learned as much. It is on this circumstance that he bases his belief."

Booth was leaning forward, breathless with interest.

"May I inquire, Mr. Carroll, how the clever Mr. Smith accounts for the secrecy observed by Mr. Wrandall and his companion, if, as he proclaims, you were the woman? Is it probable that husband and wife would have been so mysterious?"

Mr. Carroll answered: "He is rather ingenious as to that, Mr. Booth. You must understand that he does not specifically charge my cli—Mrs. Wrandall with the murder of her husband. He merely arranges his theories so that they may be applied to her with a reasonable degree of assurance. He only goes this far in his deductions: If, as he has gleaned, Challis Wrandall was engaged in an illicit —er—we'll say distraction—with someone unknown to Sara, his wife, what could be more spectacular than her discovery of the fact, and the subsequently inspired decision to lay a trap for him? Of course, it is perfect nonsense, but it is the way he goes about it. It has been established beyond a doubt that Wrandall met the woman at a station four miles down the line from Burton's Inn. She came out on one of the local trains, got off at this station, as prearranged, and found him waiting for her. Two men, you will recall, testified to that effect at the inquest sixteen months ago. She was heavily veiled. She got in the motor and drove off with him. This was at half-past eight o'clock in the evening. Smith makes this astounding guess; the woman, instead of being the person expected, was in reality his wife, who had by some means intercepted a letter. Our speculative friend Smith is not prepared to suggest an arrest on these flimsy claims, but he believes it is worth Mrs. Wrandall's while to have the case permanently closed, rather than allow these nasty conclusions to get abroad. They would spread like wildfire. Do you see what I mean?"

### BOTH LIKELY TO DIE.

[Canadian Press.]

Winnipeg, Feb. 25.—Because she refused to accede to improper proposals which he made to her, Wasil Styblj, a Galician, shot Mrs. Tekla Dmitrayszm in the breast and then turned the gun on himself, firing one or more bullets into his temple. Both are in the hospital and the man is likely to die.

*How to Make Better Cough Syrup than You Can Buy*

A Family Supply, Saving $2 and Fully Guaranteed.

Sixteen ounces of cough syrup — as much as you could buy for $2.50—can easily be made at home. You will find nothing that takes hold of an obstinate cough more quickly, usually ending it inside of 24 hours. Excellent, too, for croup, whooping cough, sore lungs, asthma, hoarseness and other throat troubles.

Mix two cups of granulated sugar with one cup of warm water, and stir for two minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a 16-ounce bottle, then add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

This is just laxative enough to help cure a cough. Also stimulates the appetite, which is usually upset by a cough. The taste is pleasant.

The effect of pine and sugar syrup on the inflamed membranes is well known. Pinex is the most valuable concentrated compound of Norway white pine extract, rich in guaiacol and all the natural healing pine elements. Other preparations will not work in this formula.

The Pinex and Sugar Syrup recipe is now used by thousands of housewives throughout the United States and Canada. The plan has been imitated, but the old successful formula has never been equaled.

A guaranty of absolute satisfaction or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

**CRAMPS, HEADACHE, BACKACHE,**

**Yield to Lydia E. Pinkham's Vegetable Compound.**

Cedar Rapids, Iowa.—"I was always tired and weak and my housework was a drag. I was irregular, had cramps so bad that I would have to lie down, also a distressed feeling in lower part of back, and headache. My abdomen was sore and I know I had organic inflammation.

"Lydia E. Pinkham's Vegetable Compound and Blood Purifier have helped me wonderfully. I don't have those pains any more and I am all right now. There are a great many women here who take your remedies and I have told others what they have done for me."—Mrs. CHAS. MCKINNON, 1013 N. 5th St. W., Cedar Rapids, Iowa.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

**If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.**

## PRICES FOR HAY ARE LOWER ON MARKET

### Good Supply, But Quality Poor —Butter Scarce and No Poultry Is Offered.

Hay was again the feature of the market today, although most of the produce offered was of rather poor quality. The price is lower than it has been for several days. The general price was $13 50, but many sold for $12 per ton. Straw has declined, and $8 per ton was the highest price paid on the square this morning.

Oats this morning were of fair quality, and the offering was larger than usual. No change in the price was noticed, most loads selling for $1 08 per cwt. A few brought $1 10.

Wheat still continues to sell for high prices, and the supply is scarce on the market at present. From 93c to 95c per bu is asked.

Eggs are rather scarce, and very few were on the square this morning. Late yesterday they were sold wholesale for 28c and 29c per dozen, which is as cheap as they are likely to go for the rest of the season, dealers say. The retail price continues at 31c and 32c per dozen.

Apples were on the square in large quantities this morning, but the price remains as quoted; $1 25 was asked for bags of good quality fruit.

Potatoes remain as quoted, and the other vegetables, of which a few were on the market today, also continue at about the same prices. Lettuce sold for 40c per dozen, and the quality was good.

Some dressed hogs were offered, but there is no change in the price. There will be less pork sold during the coming season than previously. No poultry was on the square today.

Winnipeg, Feb. 25.—The wheat market opened unchanged with an easy undertone, influenced by indifferent Liverpool cables and weaker prices at Chicago. A more bullish sentiment developed later, assisted by stronger continental markets, higher corn markets and decrease in world's stocks. Prices opened unchanged for May and July and closed unchanged to ¼c higher. Trading was light in all lines. The cash demand for wheat continues good, while offerings are scarce and consequently there are few transactions.

# WOULD LIKE TO SEE POLICE COURT FINES CUT DOWN

## Controller Says Greater Credit Would Accrue Through Reduction of Prisoners' Money.

## TAKE THE DRUNKS HOME

### Thinks Golden Rule Should Prevail—Advocates Joint Station and Registry Offices.

If a plan revived by Controller W. G. Coles is carried into effect, a new joint registry office and police station will be erected on the court house grounds and a handsome park surrounding the buildings, will be laid out.

The present city registry office at the corner of Carling and Talbot streets, and the county registry office on Ridout street, are hopelessly out of date and absolutely inadequate to meet the demands of a growing city and county. The heating arrangements are of an ancient vintage, and the appointments which should characterize buildings of this kind, are conspicuous by their absence.

Controller Coles thinks that the city and county authorities should get together soon, to try and arrive at some satisfactory agreement whereby a modern building could be erected on the ample county property to house both the city and county registrars, and their staffs. Controller Coles would also have the proposed new police station erected on the court house grounds, thus making sort of a second federal square, where all the departments concerned in the administration of justice, civil and criminal, would be centered.

**Transformed Into Park.**

"The court house grounds could be transformed into a splendid park," said Controller Coles to The Advertiser, "and the old wall at the rear could be torn down. There is no need for such a formidable-looking barricade. We have few dangerous criminals here, and such as there are, are kept in their cells anyway. There is no need for the wall.

"The time is coming, probably within the next five years, when we will be sending our prisoners into the country, to a retreat or farm, whichever you choose to call it. Instead of sending a man to jail and giving him a deep-seated grudge against society and the law, why not give him a chance to lead a better life? Most of the men who appear in our police court are arrested for drunkenness. We legislate to sell them liquor and then we fine them for taking too much of it. In this way we are getting a profit at each end, and it's not right.

**Should Take Man Home.**

"Instead of arresting a man when he takes a drink or two too much, I would like to see the police instructed to take that man home. If a carriage is necessary, charge the cost of it to the hotelman who sold him the liquor. Many men who are perfectly good citizens in every other way are unable to resist the temptation of liquor; it is a disease with them, and we should not disgrace their wives and families by sending them to jail.

"I think we have one of the best chiefs and one of the best police forces in Canada. They certainly do splendid work in keeping criminals away from London. But apparently they consider it their duty to see how many convictions they can secure in the course of a year. Instead of pointing to increased receipts in the police department through fines, I would give the magistrate the greatest credit who could cut the fines down to $500 a year."

**Golden Rule Idea.**

The idea of Controller Coles in this matter is exactly similar to that adopted by Fred Kohler, former chief of police in Cleveland, Ohio. Kohler was called the golden rule chief, for he substituted the helping-hand treatment of drunks instead of lugging them to jail. Kohler was lauded from one end of the continent to the other for his inauguration of this system.

# ARE UNANIMOUS

Continued from page one.

**Assessor Alfred McCoubrey**—Why not put the subway at Talbot street, or midway between Talbot and Richmond. Traffic south on Richmond street could turn west on York, and then through to Bathurst, in the rear of the Tecumseh House, if land could be secured. This would save spoiling the property on Richmond.

**R. M. McElheran,** secretary of the board of education—The city passed up its chance for elevated tracks some years ago, but there is no use crying over spilled milk. Subways are certainly needed.

**Q. Chartrand,** manager of the Argyle Land Company—We should certainly have subways. Why not call a mass meeting of citizens to protest against the crossing delays that we are now subjected to?

**Medical Health Officer Dr. T. V. Hutchinson**—We spend large sums of money in safeguarding the public health, why should we not spend something to safeguard the lives of the public? I suppose that on an average four persons are killed every year in London on level crossings. It is monstrous, and it is time that we should protest against the Grand Trunk being allowed its own way all the time.

**Police Strong For 'Em.**

Members of the police force, who have occasion to accompany the ambulance on its trips when the machine is called on accident cases, are strong for subways.

"On a number of occasions when we have been taking injured people to Victoria Hospital we have been held up at the Grand Trunk crossings," said one man, who has been on ambulance duty a number of times. "Some times for a couple of minutes, but other times we have had to go around out of our way a couple of blocks."

**Might Be Alive Now.**

"It was just a week ago that a freight train held us up at the Waterloo street crossing when we had a man in our ambulance who was in a dying condition. The man expired shortly after being taken into the hospital, but for the fact that we were held up at the railway crossing, the man might today be alive," stated the owner of a private ambulance to The Advertiser today.

# PARCELS POST BEING WELL PATRONIZED

## People of London and District Are Using It Freely.

## ADDING MORE MAIL CARS

### Stage Drivers Say Rural Residents Have Not Yet Fully Grasped Idea.

The recently-inaugurated parcel post is already beginning to assume considerable proportions in London and the surrounding district, and the number of parcels dispatched is rapidly increasing as people get more accustomed to sending their parcels in that way.

Railway mail clerks assert that the increase is quite noticeable in the number of parcels handled on the mail cars daily, and in some case trains which formerly carried one mail car now have two attached.

Stage drivers also are getting their share of the extra work, although the increase has been comparatively small with them, due, they say, to the fact that many people do not appear to have fully grasped the rules and regulations of the new system. The daily loads carried by the stages running out of London has been about the same since the system was inaugurated, although fewer parcels are sent in the old-fashioned way. Those that are sent by the new system just about balance the decrease in the number of express parcels sent before parcels post was started.

An interesting feature that several of the stage drivers have noticed is that many more parcels are sent by city people to the country, in proportion to the population, than are mailed to the city.

# FIREMAN SCALDED

exploded under his engine wheels, and that there was a "clear" track shown on the semaphore, the board being down. His first intimation of danger was when his headlight picked up the black outlines of the slowly backing freight. It was then too late to stop, though he reversed his engine and applied the air.

Fraser's statement is backed up by other railwaymen, who declare that the semaphore to protect the west bound track was not raised until after the crash occurred. The fact that the semaphore was not used, and that the flagman was not supplied with torpedoes seems to have been the cause of the accident. Fraser's own story of the wreck, as told to The Advertiser, is that he was looking for the semaphore at the point where Greenless claims to have been.

**Night Was Smoky.**

"The night was smoky, and I was naturally looking out pretty sharply for the semaphore," he declared. "The board was down, giving me a clear track, and I never saw any signal lights on the track, if there were any. My fireman was shovelling coal, as we passed the board, so he could not have seen any hand lights either. There were no torpedoes used or else we would have known that something was wrong."

Fraser's description of his fight for life in the debris of his wrecked engine cab, where his fireman lost his life, is a graphic one.

**Ten Minutes Battling for Life.**

"It took me ten minutes to get out of that awful hole," he told an Advertiser reporter this morning. "I couldn't see a thing for the blinding steam. It enveloped everything, and I had to claw my way through the twisted steel and wood. I thought we would have all been killed in there, but when I got out I found that Cheshire had reached safety minutes before I did. How he got out in the miraculously short time that he did, is more than I can explain. I don't see how it was possible, but he did.

**Didn't Hear a Cry.**

"We looked around for Symes and called to him, but there was no answer. Then we went back. Poor fellow. We found his body in the cab. He was scalded to death when his foot became wedged under the plate between the engine and tender. He couldn't have moved anyway for his leg was broken, but it was an awful death. I don't remember hearing him scream out or cry, and I trust that his death was a mercifully short one."

A rigid investigation is being conducted into the wreck by the Grand Trunk authorities.

**Speakers at Lambeth.**—I. B. Clark, B. S. A., J. W. Clarke, of Cainsville, and Mrs. Norman, of Toronto, were the speakers at the Farmers' Institute meeting held at Lambeth yesterday.

# TOOK SEVERE COLD.

## Left A Terrible Hard Cough And A Nasty Tickling Sensation In The Throat.

A bad cough accompanied by that distressing, tickling sensation in the throat is most aggravating.

Dr. Wood's Norway Pine Syrup is rich in the lung healing virtues of the Norway pine tree, and for this reason it will stop that tickling in the throat which causes that dry hard cough that keeps you awake at night.

Mr. Sanford Roode, Antrim, N.S., writes:—"Last fall I took a severe cold which left me with a terrible hard cough and a nasty tickling sensation in my throat. I tried many cough medicines, but they did not help me so I got a bottle of Dr. Wood's Norway Pine Syrup, and before I had used half of it the cough had left me, and the next one made a complete cure, and I will recommend it as the best cough medicine on the market."

See that you get "Dr. Wood's" when you ask for it. Do not accept any imitation. The genuine is put up in a yellow wrapper, three pine trees the trade mark, price, 25 and 50c., and manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

# VILLA TO PERMIT

Continued from page one.

**Demand Vergara's Body.**
[Canadian Press.]

Laredo, Feb. 26.—United States Consul Garrett and S. J. Hill, of Laredo, brother-in-law of Clement Vergara, were expected to reach the scene of Vergara's execution by Mexican federals near Hidalgo, Mexico, today.

The consul's visit to Hidalgo today was largely to formally demand that Vergara's body be surrendered to the family for burial. Opposition to this was not expected, for, at last reports, the body was still hanging to a tree, and the Mexican troops have not denied the manner of his death. Personal responsibility for Vergara's death, however, hardly will be fixed until an extensive investigation is made. Col. Alvarez, commander of Nuevo Laredo has assured Consul Garrett that the guilty men will be punished.

A report that rebels were responsible for the seizure of Vergara on his island pasture in the Rio Grande, and his subsequent death was not given credence by those in touch with border affairs. It was pointed out that rebels have not operated in that section of Coahuila for months, though there are several bands of federals opposite Vergara's ranch.

# HELP EUROPEANS TO DEPART FROM MEXICO

## United States Would Aid If Powers Would Warn Subjects.

Washington, Feb. 26.—The possibility that Great Britain, Germany, France, and other powers may follow the lead of the United States in warning their subjects to leave Mexico, was discussed in official circles here today as a likely effect of the execution recently by the Constitutionalists of Wm. S. Benton, a British subject. Some officials pointed out that while the United States has twice warned her citizens to leave the rebellion-torn country, European nations have taken no such precautions, making the problem of extending protection to foreigners who insist on remaining in dangerous territory a burden that is giving the Washington Government much concern.

The United States Government, it is understood, would render any assistance possible to foreigners desiring to leave Mexico, affording means of transportation or consular assistance, wherever desired.

Evidence was still being gathered by the State Department today in its inquiry into the Benton incident. The court martial proceedings which Consul Edwards mailed from Juarez have reached Secretary Bryan. The details were summarized in El Paso dispatches a few days ago.

Officials today are awaiting further messages from United States Consul Letcher at Chihuahua, as to the attitude of General Villa on the disposition of Benton's body. Though plans are being made for an examination of the corpse by an American army surgeon, the State Department early today had not been advised either of the time when the body would be exhumed or exactly where it was buried. On both these points, the American consular representatives have been instructed to seek information from General Villa.

**Where Is Benton's Grave?**

The United States Government today was exerting every influence at its disposal to obtain from General Villa the surrender of the body of William S. Benton, the British subject recently executed at Juarez. No reply has been received to the instructions sent to Consul Letcher yesterday to find Benton's grave, and Secretary Bryan was surprised by news dispatches quoting him as saying Benton was buried in Chihuahua City. There have been persistent reports here, too, that the body was cremated.

**Nothing New.**

Secretary Bryan conferred with President Wilson, and said nothing new in the situation had developed. Official denial came from the White House of one published report that Rear Admiral Fletcher had recommended the landing of Marines at Vera Cruz.

Attention was chiefly centred on the Benton investigation and high officials conceded that future development of the American policy toward Mexico hinged largely on the outcome of the inquiry.

**Who Is Chief?**

Another feature of the situation which loomed up as of commanding importance was the fact that the Benton incident promises to develop into a test of Carranza's authority and influence as chief of the constitutionalist movement. Every sort of pressure, it is understood, is being brought to bear on Carranza, both by Americans and Mexicans, who have the confidence of Washington officials, with the purpose of impressing upon him the necessity of a clear and convincing explanation of all the circumstances surrounding the death of Benton.

# EVANTUREL BARRED

Continued from page one.

**Rowell's Statement.**

In answer to an inquiry from the press at the adjournment of the Liberal caucus this morning, Mr. Rowell said:

"Mr. Evanturel came to the Liberal caucus this morning, and made a statement with reference to the letter read in the House yesterday by the honorable member for Grenville. Mr. Evanturel, after making his statement, retired.

"It was unanimously decided that Mr. Evanturel should not be again invited to attend caucus, or be recognized as one entitled to take part in the deliberations of the Liberal members in the Legislature, and this decision has been communicated to Mr. Evanturel by the chief whip of the party in the Legislature.

**May Be Sorry.**
[Canadian Press.]

Montreal, Feb. 26.—All the French papers here print the fullest reports today about the Evanturel incident in the Ontario Legislature yesterday. La Presse, editorially, contents itself, apparently temporarily, with a reference to Mr. Evanturel's attempt to show a conspiracy between the Conservatives and the liquor interests, and adds, laconically, that he may be sorry he spoke.

Nichol, pastor of Chelsea Green Presbyterian Church, spoke on the subject, "Revival Experiences," at the revival meeting held in the King Street Presbyterian Church last night. The revival was well attended, and the meetings which are being held during the week, have been most successful.

**Want Free Storage.**—The board of control will meet tomorrow morning, when more or less routine business is to be disposed of. The butchers who occupy stalls in the market house have sent in a petition asking that they be given free storage room in the basement.

**Furnace Pipes to Blame.** — Overheated furnace pipes in the cellar of M. J. Kent's residence, 270 Central avenue, filled the house with smoke, and gave the fire department a run at 10:30 this morning. The wrappings on the pipes caught fire, but the blaze was confined to the cellar, and it was not necessary for the firemen to use hose or chemicals. No damage was done.

**Blessing of the Stations.**—Bishop M. F. Fallon performed the ceremony of the blessing of the stations of the cross at St. Martin's Church, South London, last night. There was a very large congregation.

**Paardeburg Day.**—To commemorate Paardeburg Day, next Friday, representatives of the Seventh Regiment Chapter, Daughters of the Empire, Twenty-Sixth Regiment and South African Association are making arrangements to place memorial wreaths on the soldiers' monument in Victoria Park. The mayor and a number of citizens will be present and will speak. Colonel Hodgins will deliver an address. The ceremony will be held between 10 and 11 o'clock.

**Preparing Estimates.**—City Engineer W. N. Ashplant is no wmaking up the estimates of his department, which will be submitted to the board of control at an early date. Last year on six items of work the works department had an overdraft of about $5,000, while on nine other items the department succeeded in keeping well within the estimates. The fire, water and light committee of last year's council came out at the end of the year with $1,035 to the good, the saving being largely affected in the street lighting.

# BELFAST DIVINE

Continued from page one.

"One thing that saddens me in this country is the spirit of submission to the Roman Catholic Church. There is not the opposition to the aggressiveness of the Church of Rome, that we have in Ireland. There is something of the indifference here that they have in England. I have the feeling that the churches ought to speak out on the question of mixed marriages, demanding at least a common marriage law. The Protestant churches ought to advocate the ignoring of the 'ne temere' decree. There seems to be a willingness here to submit to the decree, which I think is very humiliating.

**Against Vatican Politics.**

"I would be in favor of home rule in Ireland, if it were not for the aggressiveness of the Roman Catholic Church. I believe in religious equality. I have no protest to make against the religion of St. Peter's. It is the politics of the Vatican that I quarrel with.

"I am in favor of the principle of self-government in Ireland as long as the Church of Rome is prevented from introducing foreign government.

"Canadian patriotism impresses me as an intelligent patriotism. It is more standing for a principle than mere shouting for a crown. Yes, you are demonstrative here, as we are in Ireland, more so than in Great Britain. But why shouldn't you sing 'God Save the King' more than we do? The British Isles are united by parliamentary bonds, while the crown is the only link binding Canada to the Empire.

**Fine Church Spirit Here.**

"I have been impressed with the church life of Canada. There is a fine church spirit here. I have been greatly delighted with the church attendance.

"If Canada takes advantage of her opportunities as a new country, she will have the world at her feet. Canada has opportunities that the United States did not have. I hope Canada will learn to take full advantage of the fact that she is not passing along an altogether untrodden path. The nation to the south has gone over the ground, sometimes missing her way, as was inevitable. But she has left warning signs here and there, which new nations coming after her ought to note, and can neglect only at their peril.

"One great advantage of this country is your freedom from the land laws of the old land. There are no enormous tracts of land in this country held by the dukes. You haven't the dukes here, but you have others that need watching," said Mr. Pollock.

# SCHOOL TRUSTEES TO MEET CONTROLLERS

## Will Endeavor to Show Necessity of Proposed 1914 Expenditures

## TIME IS NOW, SAYS DENNIS

### Cannot Secure Land Cheaper, Nor Can Present Collegiate Serve For Another Year.

Members of the board of education will meet the board of control, probably this week, to discuss the expenditures for high and public school improvements proposed this year. The idea is to show the controllers how essentially necessary are the projects proposed by the trustees, and to urge the acceptance of the board's request for the issue of the necessary debentures. The board of education has under consideration improvements totalling in the neighborhood of $200,000, which it is anxious to go ahead with as rapidly as possible.

"We received our government collegiate grant last year only on the assurance that something would be done this year," said Trustee E. R. Dennis to The Advertiser, "and I am inclined to believe that with the present heating system, we would be unable to operate the present Collegiate for another winter. The time to procure sites is now, before land gets any higher in price, for we are certainly up against the proposition of providing more and better accommodation."

This afternoon the building committee of the board will have a meeting to consider architects' competitive plans for the two new South London public schools. Several plans have been submitted for the new schools, which will be of the same type, and have been estimated to cost $40,000 each.

# MANN INQUEST WILL BE HELD TONIGHT

Witnesses who will be called to give testimony are the crew of engine 1317, the crossing watchman, and several of the yard employees.

Services will be held Thursday evening at 8 o'clock.

# LONDON W. C. T. U. MEETS

### To Be Addressed by Lady Holder, Australian National President.

At the meeting of the Women's Christian Temperance Union, held in its rooms, 432 Park avenue, on Tuesday, it was announced that Lady Holder, the Australian national president of the W. C. T. U., would visit London and speak here and at other women's societies.

The annual week of prayer begins on March 10, in this city, when special services will be held. The desire that the Old Boys' Reunion, to be held in this city during the coming summer, be free from all form of vice, was voiced by Mrs. West. Accounts of the lives of Frances Willard and her mother were given by members of the union. The president spoke of the reception accorded to the petition circulated by the W. C. T. U. regarding cigarettes and remuneration to prisoners, by the board of education and the pastors of the city.

A bite of this and a taste of that, all day long, dulls the appetite and weakens the digestion.

# SELECT LONDON BY VOTE OF TWO TO ONE

Arch Masons Will Hold Next Annual Convention in This City.

LONDONERS ARE ELECTED

**One Finds Place on Executive, While Former Resident Is Grand Principal Sojourner.**

It was a two to one vote that yesterday decided that London would be the scene of the next annual convocation of the Royal Arch Masons of Canada. For years the convocation has been regarded as a "fixture" in Toronto, but the determined efforts of the local delegation of Arch Masons overcame the stiff opposition put up by the Toronto men and next February will see the members of the arch from all over the Dominion making London their mecca.

London was well represented in the elections, John Graham being selected for the executive, while A. R. Orme, Saskatoon, Sask., who was elected grand principal sojourner, is a London man, having been a resident of South London until eight years ago, when he left for the West.

Right Excellent Companion John Fraser, of Petrolea, was elected grand superintendent of the London district, succeeding Right Excellent Companion Fred Palmer, of this city.

The London Masons in attendance at the convocation were: W. R. Bishop, A. E. Cooper, A. M. Trick, Fred Palmer, Whit Lancaster, J. E. Keayes, U. A. Buchner, Finlay Marshall, John Graham and Frank Millar.

# BLAMES CITIZENS FOR CAR BLOCKADES

Wholesaler Declares Question Is Now Put Squarely Up to People, Who Must Act.

"From my office window I watched the car blockade at Richmond street yesterday, and cars were stacked up from the Grand Trunk tracks almost to King street," said a well-known wholesaler to The Advertiser this morning.

"What do you think of the campaign for subways?" the reporter asked.

"I think it is the best thing a newspaper has done for London in a long time," was the reply. "You are giving the cause of the delays and putting it squarely up to the citizens to correct the condition. All the city needs to do if it wants subways in London is to go to the railway commission. The commissioners will apportion the cost between the city, the street railway and the Grand Trunk. Personally, rather than see the thing delayed longer I would be willing to see the city spend the necessary money itself. It has squandered a good deal on less worthy works.

"This blocking of crossings has been a disgrace to the city for years. Outsiders have asked why it was permitted. I do not have to use the cars, but I have often wondered why people who did were so sheepish as to allow the delays to continue. Why it puts the city back an hour or so every day. It would wonderfully improve all property on both sides of the tracks."

At the present time at the Grand Trunk crossing of the street railway two men are stationed, who cut trains in two, make engines back up, and flag cars through in a great hurry. The company is doing all it can to minimize the delays but the relief is hardly noticeable. With more than sixty trains operating over the tracks every day, all of them more than a block in length, the railway is almost helpless to relieve the condition. In fact, officials would be glad to see the work of getting subways commenced. The street railway officials are ready to take the matter up. All it appears to require is action on the part of the civic authorities.

HOMESEEKERS' EXCURSIONS AND SETTLERS' TRAINS TO THE WEST.

Those taking advantage of above Excursions should bear in mind the many exclusive features offered by the Canadian Pacific Railway in connection with a trip to the West. It is the only all-Canadian route. Only line operating through trains to Western Canada. No change of depots. Only line operating through standard and tourist sleepers to Winnipeg and Vancouver. All equipment is owned and operated by Canadian Pacific Railway, affording the highest form of efficiency.

Homeseekers' fares will be in effect each Tuesday, March 3rd to October 27th inclusive, and round-trip second-class tickets will be sold via Canadian Pacific Railway from Ontario points (Azilda and East) at very low fares—for example, from Toronto, also West and North of Toronto, to Winnipeg and return $35, to Edmonton and return $43. Other points in proportion. Fares from points East of Toronto will be slightly higher. Return limit two months.

Homeseekers' trains leave Toronto each Tuesday during March and April.

Each Tuesday during March and April, the Canadian Pacific will run Settlers' trains to Winnipeg and West and for the accommodation of settlers travelling with live stock and effects, a colonist car will be attached to the settlers' effects train. This car will leave Toronto on regular train at 10:20 p. m., and on arrival at West Toronto it will be attached to settlers' effects train as mentioned above.

For those not travelling with live stock and effects, special Colonist cars will be attached to regular trains from Toronto, running through to Winnipeg without change. No charge is made for accommodation in Colonist cars.

Tourist sleeping cars are also operated on regular train leaving Toronto 10:20 p. m.

# WESTERN OLD BOYS RESENT CRITICISMS

Felt Hurt Over Action Taken Here, Says Lieut.-Col. Abbott.

WILL CALL MEETING SOON

**Final Decision as to Fate of Reunion Will Be Settled by Home Guard Before Long.**

Lieut.-Col. Dr. Harry R. Abbott, president of the London Old Boys' Association, returned to the city Tuesday night after spending a couple of weeks in Winnipeg. Dr. Abbott would not make any definite statement as to his attitude toward the proposed reunion, explaining that he was somewhat out of touch with the local situation. A meeting of the home guard will, however, be called within the next few days when it will be finally decided whether or not plans for the reunion will be gone on with.

"I am not prepared to make a statement at the present time," said Dr. Abbott, "for the reason that my absence from the city has put me out of touch with recent events. I want to find out how matters stand before I decide definitely what I shall do.

"I attended meeting of the London Old Boys' Association in Winnipeg, of which Mr. McElheran is president, and I may say that they felt hurt and sore over the criticisms that were handed out here by the Ministerial Association, as much as to say that the visiting Old Boys were a lot of rag-time fellows. I explained to them, however, that the statement made did not represent the general feeling in the city, and after listening to my explanation they passed a resolution giving their support to the reunion, and promising to come home in a bigger and better style than ever, probably on a special train. There were between thirty-five and forty at the meeting."

"My principal object in making the western trip," said Col. Abbott, "was to attend a meeting of the Canadian Cavalry Association, and I had the honor of being elected to the executive. Commanding officers of cavalry regiments from Halifax to Victoria, were in attendance, and I was never so well treated in my life. The Daughters of the Empire gave a Rose Ball at the Royal Alexandra, at which we were the guests of honor, and the members of the Strathcona Horse also put on an entertainment for our benefit."

Col. Abbott is commanding officer of the First Hu

USE CANADA'S CATTLE FOR BREEDING PURPOSES

**Disregard of Law Causes a Setback to Importation to the United States.**

[Special to The Advertiser.]

Detroit, Feb. 25.—The importation of Canadian cattle under the new tariff law has been given a severe setback by the failure of breeders to observe the provisions of the inspection law as enforced by the United States bureau of animal industry.

It was found by the local inspectors that with the advent of the new tariff law United State farmers crossed the border and began buying up cattle and shipping them into this country.

They failed, however, to kill the cattle, as required by the law under which they were imported, and used the animals for breeding purposes, instead, because of the fine quality they were able to purchase.

This fact has induced the Government to compel all cattle bought in this country from Canada to undergo the tuberculin test if the shipments are of the breeding type.

MACCABEES HAVE A DANCE

**More Than 100 Couples Enjoy Masquerade in Lodge Hall.**

The first masquerade dance of the Knights of the Maccabees was held last night in the Dominion Savings Building, Richmond street. More than one hundred couples were present, dressed in all manner of costumes, from grand to burlesque, but all added a touch of brilliant color to the scene.

The tango! They danced it with all its dippy gaiety, and special tango numbers were played at the last. The orchestra of seven pieces played all the very latest sure-fire, red-hot hits.

Prize winners were: Miss Dorothy Sullivan, dressed as a drummer girl, first prize; Mrs. Oliver Sinclair, in Japanese costume, was awarded second prize for the ladies. Oliver Sinclair took the gentleman's prize, for a fine representation of an old man.

The organization will put on other masquerade dances, since that of last night was so successful.
