

## Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for scanning. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of scanning are checked below.

L'Institut a numérisé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de numérisation sont indiqués ci-dessous.

# REPORT

OF THE

## COMMISSIONER OF INLAND REVENUE.

To the Honorable  
The Minister of Inland Revenue.

SIR,—Herewith I have the honor to submit statements of the revenues collected by this Department during the fiscal year ended 30th June, 1881, together with the usual information as to the cost of collecting them, and statistical details respecting the sources whence the revenues were derived.

1. The following summary comparison shows the accrued revenues for the years ended 30th June, 1877, '78, '79, '80 and '81, respectively:—

Comparison  
of total  
revenue for  
five years.

|  | 1877.     | 1878.     | 1879.     | 1880.     | 1881.     |
|--|-----------|-----------|-----------|-----------|-----------|
|  | \$        | \$        | \$        | \$        | \$        |
| Excise.....                                      | 4,950,624 | 4,888,070 | 5,408,192 | 4,312,153 | 5,400,904 |
| Public Works.....                                | 547,377   | 507,132   | 450,855   | 440,814   | 481,066   |
| Culling Timber.....                              | 67,128    | 56,489    | 26,858    | 23,014    | 38,397    |
| Bill Stamps.....                                 | 208,968   | 200,614   | 185,333   | 176,115   | 193,023   |

Details of  
increase in  
1880-81.

2. By the above statement it will be seen that the revenue accrued during the year just closed was \$6,151,433 as against \$4,972,908 accrued in 1879-80, being an increase of \$1,178,525, or nearly 23½ per cent.

The increase has been as follows:—

|   |                    |
|---|--------------------|
| Upon Excise.....  | \$1,088,751        |
| do Public Works.....  | 40,252             |
| do Culling Timber.....  | 15,383             |
| do Bill Stamps .....  | 16,908             |
| do Weights, Measures and Gas In-<br>spection, and Law Stamps..... | 17,231             |
|   | <u>\$1,178,525</u> |

Summary,  
statement as  
to Excise.

3. The following Statement will show the details of Excise Revenue accrued during the past year, compared with the four years ended 30th June, 1877, '78, '79 and '80, respectively:—

|                           | 1.               | 2.               | 3.               | 4.               | 5.               |
|---------------------------|------------------|------------------|------------------|------------------|------------------|
|                           | 1877.            | 1878.            | 1879.            | 1880.            | 1881.            |
|                           | \$               | \$               | \$               | \$               | \$               |
| Spirits .....             | 2,650,852        | 2,708,585        | 3,297,382        | 2,292,974        | 3,231,482        |

| Other Receipts.....       | 5,670            | 5,468            | 4,787            | 7,571            | 13,181           |
| <b>Total.....</b>         | <b>4,950,624</b> | <b>4,888,070</b> | <b>5,408,192</b> | <b>4,312,153</b> | <b>5,400,904</b> |

## SPIRITS.

4. The following tables of quantities are given for comparison, as leading to a more just conception of the subject than a comparison of the revenues collected under rates of duty which have been frequently changed.

| 1.   | 2.                                     | 3.                            | 4.                     | 5.        | 6.                        | 7.                       | 8.                             | 9.  |
|--|--|-------------------------------|------------------------|-----------|---------------------------|--------------------------|--------------------------------|---|
| Fiscal Year.                                       | In Warehouse at commencement of period | Manufactured during the year. | Taken for Consumption. | Exported. | Used in Bonded Factories. | Otherwise accounted for. | In Warehouse at end of period. | Memo. of Revenue accrued, including License Fees. |
|  | Pf. gals.                              | Pf. gals.                     | Pf. gals.              | Pf. gals. | Pf. gals.                 | Pf. gals.                | Pf. gals.                      | \$  |
| 1876-77....  | 1,276,786                              | 3,546,878                     | 2,942,337              | 173,470   | 193,928                   | 208                      | 1,513,721                      | 2,650,852   |
| 1877-78....  | 1,513,721                              | 3,530,085                     | 3,007,870              | 164,360   | 224,746                   | 20,318                   | 1,626,512                      | 2,708,585   |
| 1878-79....  | 1,626,512                              | 3,664,131                     | 3,646,255              | 134,217   | 225,790                   | 18,404                   | 1,265,977                      | 3,297,382   |
| 1879-80....  | 1,265,977                              | 2,996,987                     | 2,290,367              | 10,266    | 240,463                   | 2,131                    | 1,719,737                      | 2,292,974   |
|  | 5,682,996                              | 13,738,081                    | 11,886,829             | 482,313   | 884,927                   | 41,061                   | 6,125,947                      | 10,949,793  |
| Annual average of four years ended 30th June, 1880 | 1,420,749                              | 3,434,520                     | 2,971,707              | 120,578   | 221,232                   | 10,265                   | 1,531,487                      | 2,737,448   |
| 1880-81....  | 1,719,737                              | 3,100,585                     | 3,214,543              | 7,879     | 227,615                   | 79                       | 1,370,206                      | 3,231,482   |

\* This quantity includes 52,440 gallons imported.

5. The above statement shows that the quantity of Spirits taken for consumption in 1880-81 exceeds the quantity taken during the previous year by 924,176 gallons, somewhat more than 40 per cent., and that it exceeds the average of the previous four years by 242,836 gallons, or about 8 $\frac{1}{2}$  per cent.

6. The statement in Appendix F. shows that twelve illicit stills were seized during the fiscal year, as compared with thirty seized in 1879-80. This fact, coupled with the greater quantity of spirits taken for consumption, justifies the inference that illicit distillation is not carried on to so large an extent as in former years.

7. It may be mentioned, however, that the quantity of spirits taken for consumption in 1880-81 falls very far short of what was taken in 1873-74, when it amounted to 4,566,508 imperial proof gallons or more than 42 per cent. greater than during the year under consider-

ation. In 1873-74 the consumption, both as to the aggregate and as regards the rate per head of the population, was the greatest of any year since Confederation.

Spirits in bond.

8. The quantity of spirits in bond at the commencement of the past fiscal year was 1,719,737 gallons, and at the end of the year the quantity was 1,370,206, a decrease of 349,531 gallons.

Spirits exported.

9. The export of spirits has fallen from an average of 120,578 gallons during the four preceeding years to 7,879 gallons in 1880-81.

Consumption of excisable goods per capita.

10. Appendices **A.** and **B.** are a continuation of similar statistics in former reports, and shew the consumption of goods subject to excise, and of similar goods imported and subject to customs duties, per head of the population of the whole Dominion. These computations are founded upon the unrevised statistics of the last census as recently published by the Department of Agriculture and Statistics, and may be accepted as correcting some anomalies in previous similar statements which, as to the new Provinces, were necessarily made on imperfect data.

#### MALT AND MALT LIQUOR.

Comparison of five years as to malt.

11. The following Statement shows the transactions in Malt during the year ended 30th June, 1881, and four preceding years:—

| Fiscal Year.                                      | 1.<br>In Warehouse at commencement of period. | 2.<br>Manufactured during the year. | 3.<br>Taken for Consumption. | 4.<br>Exported. | 5.<br>Otherwise accounted for. | 6.<br>In Warehouse at end of period. | 7.<br>Memo. of Revenue accrued thereon, including License Fees. |

| 1877-78...  | 17,791,332                                    | 48,229,293                          | 26,534,587                   | 19,151,181      | .....                          | 20,334,857                           | 538,592   |
| 1878-79...  | 20,334,857                                    | 46,291,230                          | 27,795,037                   | 18,235,790      | 687,851                        | 19,907,409                           | 462,785   |
| 1879-80...  | 19,907,409                                    | 58,940,565                          | 28,902,354                   | 37,077,709      | 743,268                        | 12,124,643                           | 298,188   |
|   | 77,048,907                                    | 192,696,386                         | 112,110,529                  | 86,042,494      | 1,434,029                      | 70,158,241                           | 1,688,822   |
| Annual average of four y'rs ended 30th June, '80. | 19,262,227                                    | 48,174,096                          | 28,027,632                   | 21,510,624      | 358,507                        | 17,539,560                           | 422,205   |
| 1880-81...  | 12,124,643                                    | 67,132,206                          | 30,798,078                   | 22,547,553      | 175,111                        | 25,736,107                           | 322,906   |

12. The quantity of malt manufactured during the fiscal year **Comparison of averages.** shows an increase over the average of the four preceding years of 18,958,110 lbs., and exceeds by more than eight millions of pounds the largest production in any previous year.
13. The quantity taken for consumption exceeds the average of **Malt taken for consumption.** the four previous years by 2,770,446 lbs. or about  $9\frac{1}{2}$  per cent., and it exceeds the quantity taken during the previous year by 1,895,724 lbs., or about  $6\frac{1}{2}$  per cent.
14. The quantity of malt exported was 22,547,553 lbs. as compared **Malt exported** with an average during the preceding four years of 21,510,624 lbs., but as compared with the 37,077,709 lbs. exported in 1879-80, there is a falling off of 14,530,156 lbs., equal to more than 39 per cent.
15. The quantity of malt remaining in bond on the 30th June, **Malt in bond.** 1880, was 12,124,643 lbs., and on the 30th June, 1881, the quantity was 25,736,107 lbs., an increase of more than 212 per cent.
16. During the fiscal year 23,395,987 lbs. of malt were used in the **Malt used for brewing and distilling.** manufacture of malt liquor and 2,541,691 lbs., were used for distillery purposes.
17. Of the whole revenue collected from malt and malt liquor, the **Net revenue from malt and malt liquor.** sum of \$1,884 was refunded as a drawback of malt duty paid on the malt used in the manufacture of 66,104 gallons of malt liquor exported, \$5,180 as the duty paid on malt contained in 172,629 gallons of malt liquor consumed by Her Majesty's Army and Navy, and \$13,728 as a drawback of malt duty on malt contained in 1,613,071 gallons of spirits exported. More than \$13,600 of the last amount had reference to spirits exported prior to 30th June, 1874, the refund of which was not applied for at the time of export. There was also refunded \$1,036 duty paid on malt used in the manufacture of 37,308 gallons of beer which was destroyed as unfit for use, and \$4,769 on 476,880 lbs. of malt which was in stock on 14th March, 1879, when the malt duty was reduced to one cent per pound, and on which duty had been paid at the former rate of two cents per pound. Add to these amounts \$1,178 duty overcharged on malt, and we have \$27,775 as the total amount refunded on account of malt and malt liquor. The net revenue, therefore, from these two sources was \$295,131.
- The average revenue from malt and malt liquor during the preceding four years was \$407,306.

**TOBACCO.**

**Comparison of five years as to tobacco.**

18. The transactions in manufactured Tobacco all descriptions, stated in pounds, during the five years ended 30th June, 1881, are shown in the following statement:—

| Fiscal Year.  | 1.                     | 2.                            | 3.                     | 4.             | 5.                      | 6.                      |

19. The production of manufactured tobacco during the past fiscal year was greater by 101,990 lbs. than in the previous year, and in excess of the average annual production of the previous four years by 410,143 lbs. Nevertheless it fell short of the production of 1876-77—the largest of any previous year—by 369,863 lbs. Tobacco manufactured

20. The quantity taken for consumption is larger than in any previous year by 130,424 lbs. =  $1\frac{5}{6}$  per cent.; the largest having been 8,494,193 lbs. in 1873-74. It was 1,049,400 lbs. in excess of the average annual quantity taken in the previous four years. Tobacco taken for consumption.

21. The stocks of manufactured tobaccos remaining in warehouse at the close of the fiscal year were less than the stocks so held on the 30th June, 1880, by 383,870 lbs., and 263,968 less than the average held at the close of the previous four years. Tobacco in bond.

22. Under the Inland Revenue Act, 1880, raw tobacco cannot be entered for duty. Before it can lawfully go into consumption it must be manufactured in some form or other, and packed so that it can be stamped as the law directs. This accounts for the small quantity both of Canadian and Foreign raw leaf which appears in columns 7 and 8 of the above tables, and renders the following statement necessary as an exhibit of the operation of the law above cited as affecting the cultivation of tobacco in Canada. Raw leaf taken for consumption.

**Cultivation of tobacco in Canada.**

23. From the above it appears that during the year the officers of this Department issued 2,407 licenses to cultivators of tobacco, and obtained returns of the cultivation of more than 1,000 acres, on which there were planted upwards of six and a half millions of plants. The quantity of tobacco resulting from this cultivation and returned as having been charged with duty is 378,215 lbs., on which there was collected of \$15,128.

**Probability of increased**

24. The late period at which the officers were appointed to survey the cultivation of tobacco made it impossible to sufficiently instruct

them in their duties in time to get returns that would be even a near <sup>revenue from</sup> approximation to a true representation of the quantity 'of tobacco <sup>this source</sup> cultivated. The summary of the returns given above is not, therefore, accepted as representing the full amount of revenue that may ultimately be received from this source. The numerous seizures of small quantities of tobacco made during the early months of 1881 evidently indicate that the law was not then very well known, and may also justify the inference that a good many cultivators would evade the law if they could. The prosecution and conviction of those who were believed to belong to the latter class will, it is believed, have the effect of bringing about a better observance of the law, and with a reasonable degree of vigilance on the part of the officers specially detailed for this duty, it is hoped that a much larger proportion of the current year's crop will be brought to account.

25. The following statement shews the quantity of Canadian grown <sup>Comparison</sup> tobacco on which duty in one form or another has been collected <sup>of six years.</sup> during the past six years, and it will be seen that the quantity in 1880-81—397,276 lbs. is more than six times as great as the largest quantity in any of the other five years.

STATEMENT of Canadian Tobacco used during the past Six Years.

| Fiscal Years. | Leaf and Twist paid Duty. | Taken for Use in Manufactories. | Total.  |
|---------------|---------------------------|---------------------------------|---------|
|               | Lbs                       | Lbs.                            | Lbs.    |
| 1875-76.....  | 11,932                    | 7,732                           | 19,664  |
| 1876-77.....  | 8,629                     | 17,253                          | 25,882  |
| 1877-78.....  | 3,202                     | 13,412                          | 16,614  |
| 1878-79.....  | 1,402                     | 7,528                           | 8,930   |
| 1879-80.....  | 43,744                    | 17,392                          | 61,136  |
| 1880-81.....  | 378,215                   | 19,061                          | 397,276 |

26. The Inland Revenue Act 1880, provides for levying a <sup>Tobacco</sup> reduced duty on manufactured tobacco made exclusively from Cana- <sup>manufactured</sup> dian leaf in manufactories where no foreign leaf is used. Dyring the <sup>wholly from</sup> past year eight such licenses were taken out, on which the license <sup>Canadian</sup> fees and the duties collected on the products of the manufactories, <sup>leaf.</sup> yielded a revenue of \$1,447.

STATEMENT of Tobacco manufactured exclusively from Canadian Leaf, and Revenue received therefrom, during the year ended 30th June, 1881.

† Taken into General Factories.

The cost of surveying the cultivation of Canadian tobacco, including travelling expenses of the officers employed in the duty, was for the fiscal year \$7,165.

CIGARS.

Comparative consumption of cigars.

27. In continuation of the tabulated statements contained in last year's Report, the following is now submitted :—

| Year.         | Total Consumption. | Customs Duty.   | Excise Duty.    |
|---------------|--------------------|---|-----------------|
|               | Lbs.               |   |                 |
| 1874-75 ..... | 488,273            | 70 cents per lb.....                                      | 40 cts. per lb. |
| 1875-76. .... | 507,866            | 70 do .....   | 40 do           |
| 1876-77.....  | 417,703            | 50 do and 20 per cent. ad valorem                         | 40 do           |
| 1877-78.....  | 496,860            | 50 do do do ...   | 40 do           |
| 1878-79.....  | 606,864            | 50 do do do ...   | 40 do           |
| 1879-80.....  | 504,231            | 50 and 60 cents per lb. and 20 per cent. ad valorem.....  | 40 do           |
| 1880-81.....  | 646,476            | 50 and 60 cents per lb. and 20 per cent. ad valorem. .... | 40 do           |

The total consumption in the past fiscal year shows an increase of more than 28 per cent. as compared with the previous year. The increase in the consumption of cigars of Canadian manufacture has been nearly  $27\frac{7}{10}$  per cent., and in imported cigars  $30\frac{6}{10}$  per cent.

Of the whole quantity taken for consumption the proportions have been:—

|                    |       |           |
|--------------------|-------|-----------|
| 1873—Imported..... | 72.09 | per cent. |
| Canadian.....      | 27.91 | “         |
| 1874—Imported..... | 64.64 | “         |
| Canadian.....      | 35.36 | “         |
| 1875—Imported..... | 36.00 | “         |
| Canadian.....      | 64.00 | “         |
| 1876—Imported..... | 38.48 | “         |
| Canadian.....      | 61.52 | “         |
| 1877—Imported..... | 23.85 | “         |
| Canadian.....      | 76.15 | “         |
| 1878—Imported..... | 27.00 | “         |
| Canadian.....      | 73.00 | “         |

| Canadian.....      | 81.50 | “         |
| 1881—Imported..... | 18.85 | “         |
| Canadian.....      | 81.15 | “         |

#### INSPECTION OF PETROLEUM.

28. In my last Report I referred at some length to the inspection of petroleum and to the endeavor of the Department to obtain such an instrument for testing it as would give uniform results. After that Report was written the subject was still further considered, and it was determined to adopt the same description of pyrometer as is used in the United Kingdom. The necessary amendments to the Inspection Act were, therefore, obtained and a number of the instruments have been made in Canada. These have been distributed at the more important places, and it is believed that a reliable and equitable system of inspection has now been established.

29. The number of packages of Canadian petroleum inspected during the past fiscal year was 157,750, and the fees collected thereon amounted to \$15,344.

The number of packages of imported petroleum inspected by the officers of this Department was 11,352, and the fees collected thereon amounted to \$3,405.

**MANUFACTURES IN BOND.**

Comparison of five years.

30. The revenue derived from goods manufactured in bond during a series of five years has been as follows:—

|              |          |
|--------------|----------|
| 1876-77..... | \$30,053 |
| 1877-78..... | 36,894   |
| 1878-79..... | 38,086   |
| 1879-80..... | 33,269   |
| 1880-81..... | 30,897   |

These duties have chiefly accrued on vinegar and methylated spirits, for although a very large quantity of shellac varnish has been made from pure alcohol, it has been manufactured exclusively for export, and has therefore paid no duty beyond the fee for the license.

**PUBLIC WORKS.**

Increase in revenue.

31. There has been an increase in the revenue from Public Works during the past year as compared with the receipts of 1879-80, especially from Slides and Booms, on which the increase has been upwards of 41 per cent. The following statement gives the general result:—

|                               | 1879-80. | 1880-81. | Increase per cent. | Decrease per cent. |
|-------------------------------|----------|----------|--------------------|--------------------|
|                               | \$       | \$       |                    |                    |
| Canal Tolls, &c.....          | 326,037  | 339,803  | 4.22               | .....              |
| Slides and Booms .....        | 56,350   | 79,849   | 41.70              | .....              |
| Hydraulic and other Rents.... | 31,164   | 30,396   | 2.46               | .....              |
| Minor Public Works.....       | 27,263   | 31,018   | 13.77              | .....              |
|                               | 440,814  | 481,066  |                    |                    |

*Canals.*

32. The following statement gives a summary of the Canal Revenue, showing the increase or decrease on each canal. Summary of canal revenue.

| Canals.                       | 1879-80. | 1880-81. | Increase<br>per cent. | Decrease<br>per cent. |

Tranship-  
ment of grain  
at Port  
Colborne.

33. The usual statement as to the quantity of grain transhipped at Port Colborne will be given with the Report on the Canal Statistics for the season of navigation, which will be submitted in a supplementary report.

#### *Slides and Booms.*

Comparison  
of revenue.

34. As above stated the increase in the revenue from Slides and Booms is upwards of forty-one per cent. over the receipts of the previous year. This is due to the increased quantity of logs and timber using these works. The amount of dues accrued was \$79,849 as against \$56,350 in 1879-80.

Outstanding  
balances.

35. The balances outstanding at the commencement of the year amounted to \$209,608. These have been reduced to \$57,393. The reduction has been mainly effected by discharging from our books certain claims against parties who had been charged with the old rate of boom dues pending a settlement respecting allowances for repairs, construction and management of the works. These claims

accrued during a period extending as far back as 1867. A final settlement was effected by an Order in Council passed June 19th, 1880.

*Hydraulic and other Rents and Minor Public Works.*

36. The balances apparently due for Hydraulic Rents have increased during the year by \$4,856, but considerable progress has been made towards a settlement of these claims. Since the close of the year a large number have been adjusted, and it is hoped that during the current year the remainder will be finally dealt with. Settlement of old balances.

37. The outstanding balances on the Minor Public Works have been reduced from \$69,853 to \$14,763. Reduction of balances.

**CULLING TIMBER.**

38. The fees accrued for Culling Timber during the year were \$38,397, and there were outstanding balances for previous years amounting to \$27,845. Of the whole amount only \$36,177 was collected, so that the balance outstanding was increased to \$30,065. Revenue.

39. The cost of culling during the year amounted to \$51,080, the business of this branch was therefore carried on at a loss of \$12,683. Cost of office.

**BILL STAMPS.**

40. The revenue from Bill Stamps has increased by \$16,908, but still falls short of the maximum amount collected in one year (1875) by \$51,569, or more than 21 per cent. Comparison of revenue.

**WEIGHTS AND MEASURES AND GAS.**

41. The revenue derived from this source amounted to \$36,795, and the expenditure to \$74,170. A special report on this service will be submitted as a supplement to this report. Revenue and expenditure.

**PREVENTION OF THE ADULTERATION OF FOOD.**

42. The expenditure under this Act during the past year was \$8,149. A full report of the work done, together with the reports of the analysts, will be found in a supplementary report. Supplementary Report to follow.

---

**OUTSIDE SERVICE.**

**Examinations** 43. The examinations of outside officers during the early part of the fiscal year to which this report refers, were mentioned in my last report, sections 57, 58 and 59, and the results were tabulated in Appendices **H, I, K**, to that report to which reference is now made.

**INSPECTION OF STAPLE ARTICLES.**

**Returns in relation thereto.** 44. Appendices **D, E, F, G**, comprise returns, so far as they have been received, in relation to the inspection of articles under the provisions of the Act of 1874.

Respectfully submitted.

A. BRUNEL,

*Commissioner*

OTTAWA, 6th September, 1881.

APPENDIX A

TABLE showing the Annual Consumption per head of the undermentioned Articles paying Excise or Customs Duties in the respective Provinces and in the Dominion, since Confederation.

NOTE.—Coal to pass up all Canals, except the Welland Canal, free of Toll, as per Order in Council, June 7th, 1869.

- Iron Ore, Kryolite or Chemical Ore, through one section, or all the Canals, per ton, 5 cents.
- Iron and Salt having paid full Toll through the whole line of the St. Lawrence Canals, or through the Lachine Canal, St. Ann's Lock, or Ottawa and Rideau Canals, shall be allowed to pass free through the Welland Canal; and if Tolls shall have been paid at the Chambly Canal, such Tolls shall be refunded at Montreal or Kingston Mills upon the Iron or Salt leaving the Canal.
- Wheat, Flour, Corn, Barley, Pease, Oats and Petroleum, having paid full Tolls through the Welland Canal, shall be allowed to pass free through the St. Lawrence Canals, or through the Ottawa and Rideau Canals, St. Ann's Lock, the Lachine Canal, and the Chambly Canal, provided always that the articles to be entitled to the exemption shall go downwards through the whole length of the Canal to Montreal, or pass upward from Montreal through the whole length of the Ottawa and Rideau Canals to Lake Ontario.
- All articles, goods or merchandise, not enumerated above, to be charged to Class No. 4.
- No Let Passes to be issued to steam tugs or other small vessels for less than 25 cents as a minimum charge, but such vessels not carrying freight or passengers can obtain, on payment of \$30, a season "Let Pass," which will pass them up and down the Canal as often as desired.
- Ice passing through the Welland Canal, per ton, 5 cents, per O. C., May 4th, 1874.
- Scrap Iron, including old Railway Iron, when going eastward (descending), and having paid Tolls on the Welland Canal, passes free through the St. Lawrence Canals the same as Pig Iron. O. C., 25th July, 1877.

  1. All through freight westwards, from Montreal to Lake Erie, shall continue to pay the existing tolls for passage through the St. Lawrence Canals, but shall pass through the Welland Canal free.
  2. All through freight, eastwards from Lake Erie to Montreal, shall continue to pay the existing tolls for passage through the Welland Canal, but shall pass through the St. Lawrence Canals free.
  3. Goods shipped to any port west of the St. Lawrence Canals, tolls upon which have already been paid for passage through such Canals, may be re-shipped from such ports and be passed through the Welland Canal free of Tolls in the same way as if they had been shipped through direct in the first instance.
  4. Whereas at present articles coming under the heading "Class No. 4," which comprises all articles not enumerated in the remaining classes, pay at the rate of 40 cents a ton for passage through the Welland Canal and 20 cents a ton for passage through the St. Lawrence Canals, henceforward these unenumerated articles shall, if in transit westwards, pay 20 cents a ton for passage through the St. Lawrence Canals and be permitted to pass through the Welland Canal free; and if in transit eastwards, shall pay 20 cents a ton for passage through the Welland Canal, passing through the St. Lawrence Canals free.
  5. All classes of goods not otherwise provided for comprised in Classes "3" and "4" with the exception of coal, shall, if using the Welland Canal only, in transit westwards, pay 15 cents a ton. Coal, however, shall continue to pay, as at present, 20 cents a ton for passage either way.
  6. Rye, buckwheat, and any other grains not enumerated, shall be classed as belonging to Class three of the existing Schedule of Canal Tolls.—O. C., 21st April, 1881.

No. 89—Continued.

| WELLAND CANAL.   |       |
| 1. From Port Maitland, Dunnville and Port Colborne, to Port Robinson or Allanburg, not passing the Lock, each way.....   | 1882  |
| 2. From Chippewa Cut, or any part thereof, to Dunnville, Port Maitland or Port Colborne.....   |       |
| 3. From Dunnville to Port Colborne.....  |       |
| 4. From Thorold to St. Catharines or Port Dalhousie.....   |       |
| 5. From Maitland, Dunnville, Colborne or Port Robinson, to Marshville and intermediate places.....   |       |
| 6. From Marshville, or intermediate places, to Port Maitland, Dunnville, Port Colborne and Port Robinson.....  |       |
| 7. From Port Robinson to Allanburg or Thorold.....   |       |
| 8. do do St. Catharines or Port Dalhousie.....   |       |
| 9. From St. Catharines to Port Dalhousie.....  |       |
| 10. From Dunnville to Maitland.....  |       |
| 11. From Port Robinson through the Lock to Chippewa Cut.....   |       |
| 12. From Port Colborne to Port Maitland.....   |       |
| 13. From Chippewa Cut through the Lock to Port Robinson.....   |       |
| 14. From Colborne, Dunnville, Maitland and Marshville to Thorold.....  |       |
| 15. do do do do St. Catharines.....  |       |
| 16. Through the Chippewa Cut only.....   |       |
| 17. Through the Port Robinson Lock only.....   |       |
| ST. LAWRENCE CANALS.   |       |
| The Navigation to be divided into four sections, viz.: Edwardsburg, Cornwall, Beauharnois and Lachine. Tolls to be levied on all vessels and property in proportion to the number of Sections passed through.  |       |
| CHAMBLY CANAL.   |       |
| Vessels and Property passing from Sorel to Chambly, to pay.....  | 1882  |
| do do Chambly to St. Johns, to pay.....  |       |
| OTTAWA AND RIDEAU CANALS.  |       |
| The Navigation of these Canals is divided into four sections, viz.: "Carillon and Grenville," "Ottawa," "Smith's Falls," and "Kingston Mills." Vessels and Freight passing one section to be charged one-fourth; two sections, one half, and so on.  |       |
| GENERAL.   |       |
| NOTE.—Any fraction of a ton freight to be charged one ton, and portions of sections to be charged as a whole section on all the above Canals.  |       |
| The passing of Saw Logs or other Lumber through any of the Canals or sections thereof, is to be at all times governed by the regulations for their management.   |       |
| HARBOR DUES.   |       |
| Vessels receiving or discharging freight at the premises of the Welland Railway, at Ports Colborne or Dalhousie, are to be free from Harbor Dues: but all other Vessels discharging or receiving cargo at Port Dalhousie, Port Colborne or Port Maitland, shall pay on every ton of freight so received or discharged—Two cents. |       |

## SUPPLEMENT No. 1

TO THE

## REPORT

OF THE

## COMMISSIONER OF INLAND REVENUE

To the Honorable

The Minister of Inland Revenue.

SIR,—The Statistics of the season of 1880 are printed with the annual Report of the Department; and comparing them with those now submitted, it will be seen that the aggregate revenue has decreased in 1881 by \$23,420.69. Decrease of Revenue for 1881.

This decrease is accounted for as follows:—

|                             | Increase.        | Decrease.         |
|-----------------------------|------------------|-------------------|
|                             | \$ cts.          | \$ cts            |
| On the Welland Canal .....  | .....            | 31,833 24         |
| do St. Lawrence Canals....  | 6,024 07         | .....             |
| do Burlington Bay Canal...  | 214 88           | .....             |
| do Chambly Canal.. .....    | 1,492 92         | .....             |
| do Rideau Canal .....       | 457 09           | .....             |
| do Ottawa Canals .....      | .....            | 1,154 83          |
| do St. Peter's Canal.... .. | 1,298 61         | .....             |
| do Newcastle Dist. Canals.  | 79 81            | .....             |
|                             | <hr/> \$9,567 38 | <hr/> \$32,988 07 |

Showing a decrease of..... .. \$23,420 69

Or about 6.96 per cent.

2. In continuation of the statistical comparisons which were given last year of the quantities of the principal articles carried through the Welland Canal, with the quantities of similar articles carried over the routes in the United States in competition with that work, similar statements will be found printed herewith. Comparison with New York Canals.

Vegetable food.

3. The increase or decrease in the tonnage of flour, wheat, barley, corn, oats, rye and other vegetable food moved through the Welland Canal, and through the Erie Canal, as compared with the movement of 1869—the year before an important reduction of tolls on the Erie Canal took place—may be summarized as follows:—

|                     | 1870.              |                    | 1871.              |                    | 1872.              |                    | 1873.              |                    | 1874.              |                    |
|---------------------|--------------------|--------------------|--------------------|--------------------|--------------------|--------------------|--------------------|--------------------|--------------------|--------------------|

Goods in transit between ports in the United States.

Transhipment  
of grain at  
Port Col-  
borne.

7. The quantity of grain transhipped at Port Colborne, in 1881 and three previous years, is given below. The total number of grain laden vessels lightened at that port in 1881 was 133, against 209 in the previous year. The number unladen, without entering the canal, was 22, as against 51 in 1880.

The quantity of grain lightered was as follows :—

| —           | 1878.    | 1879.    | 1880.    | 1881.    |
|-------------|----------|----------|----------|----------|

The total quantity of freight carried by the canals and railways was greater in 1881 by two million one hundred and fifty thousand eight hundred and eight tons than the quantity carried in 1880.

The proportion carried by canals shows a decrease as compared with the previous year.

The quantities carried are as follows :—

|              | Total Tonnage. | Proportion by Canals. |
|--------------|----------------|-----------------------|
| In 1859..... | 5,485,076      | ·6890                 |
| 1869 .....   | 12,453,174     | ·4705                 |

| 1878 .....   | 19,017,301     | ·2719                 |
| 1879 .....   | 22,590,766     | ·2373                 |
| 1880 .....   | 25,706,586     | ·2512                 |
| 1881 .....   | 27,857,394     | ·1859                 |

By reference to the figures in Statement H; as to the quantity of Vegetable Food carried to tide-water, it will be observed that the quantity carried by canals has decreased fourteen and one quarter per cent. as compared with 1869, and a decrease of nearly 53 per cent. as compared with the previous year and the quantity carried by railways has increased 358 per cent. as compared with 1869, and 5 per cent. as compared with the previous year.

9. The following figures are an abstract of the quantities for thirteen years of Vegetable Food carried by tide-water by the canals and railways of the State of New York :—

| —         | Canals.   | Railways. | Total.    | Proportion by Canals. |
|-----------|-----------|-----------|-----------|-----------------------|
| 1869..... | 1,302,613 | 1,087,809 | 2,390,422 | ·545                  |
| 1870..... | 1,295,010 | 1,766,457 | 3,061,467 | ·423                  |
| 1871..... | 1,850,198 | 2,205,589 | 4,055,787 | ·456                  |
| 1872..... | 1,674,320 | 1,870,614 | 3,544,934 | ·472                  |
| 1873..... | 1,745,171 | 2,036,992 | 3,782,163 | ·461                  |
| 1874..... | 1,767,598 | 2,791,517 | 4,559,115 | ·387                  |
| 1875..... | 1,305,550 | 2,343,241 | 3,648,791 | ·357                  |
| 1876..... | 1,064,293 | 2,875,803 | 3,940,096 | ·270                  |
| 1877..... | 1,498,984 | 2,493,683 | 3,992,667 | ·375                  |
| 1878..... | 1,912,734 | 3,695,764 | 5,608,498 | ·341                  |
| 1879..... | 1,833,399 | 4,353,617 | 6,187,016 | ·296                  |
| 1880..... | 2,371,090 | 4,732,395 | 7,103,475 | ·333                  |
| 1881..... | 1,116,561 | 4,983,722 | 6,100,283 | ·183                  |

From which it appears that the proportion of the total volume of freight of the description mentioned, carried by the railways, has increased from ·455 in 1869 to ·817 in 1881.

Respectfully submitted,

A. BRUNEL,

*Commissioner of Inland Revenue.*

INLAND REVENUE DEPARTMENT,

OTTAWA, May 1st, 1882.

**EIGHTH REPORT**  
OF THE  
**COMMISSIONER OF INLAND REVENUE**  
ON THE INSPECTION OF  
**WEIGHTS AND MEASURES AND GAS.**

To the Honorable the *Minister of Inland Revenue* :

SIR,—Herewith I have the honor to submit my Eighth Report on the inspection of weights and measures and gas, with the usual statistical statements in relation thereto.

1. The total revenue collected during the year for the inspection of weights and measures was \$34,584.55, as compared with \$17,080.04 in the previous year, the increase being 102 $\frac{4}{10}$  per cent. The expenses were \$59,270.87 as compared with \$44,623.28 in 1880, the increase being somewhat more than 32 $\frac{8}{10}$  per cent. In other words, the expenses have this year, for a full year's work, exceeded the receipts by \$24,686.32, or 71 $\frac{3}{10}$  per cent., while in the previous year the excess of expenses over revenue for eight months' work was \$27,543.24, or 161 $\frac{2}{10}$  per cent. Appendix A gives a summary statement of the expenses in each inspection division and of the revenue collected.

2. In Appendices B, C and D, will be found a detailed statement of the Weights, Measures and Weighing Machines presented for verification, verified and rejected during the year. The number of all descriptions may be summarily stated as follows:—

| —                            | Presented. | Verified. | Rejected. | Per-centage of Rejections |
|------------------------------|------------|-----------|-----------|---------------------------|
| Weights—Dominion.....        | 82,596     | 82,102    | 494       | .598                      |
| Measures—Dominion.....       | 94,520     | 94,126    | 394       | .416                      |
| Measures of length.....      | 6,052      | 5,980     | 72        | 1.189                     |
| Balances, &c.—Equal arm..... | 12,474     | 12,152    | 322       | 2.581                     |
| Steelyards.....              | 1,799      | 1,745     | 54        | 3.002                     |
| Platform scales.....         | 19,884     | 19,559    | 325       | 1.634                     |
| Irregular Weights.....       | 7,944      | 7,838     | 106       | 1.334                     |
| Irregular Measures.....      | 281        | 281       | .....     | .....                     |

Comparison of revenue and expenditure with previous year.

Weights and Measures presented for verification.

Difficulties in  
relation to  
adjustment.

3. I have, in my previous reports, directed attention to the difficulties that attach to the adjustment of articles subject to inspection, especially in the rural districts; but there is so great a disposition to magnify the inconveniences that result from the refusal of the Department to allow its officers to make the adjustments that are found necessary, and to belittle or wholly ignore the evils that would result from authorizing them to perform that kind of work, that I deem it my duty again to bring the matter under your notice, and to refer you to the paragraphs in my previous reports in relation to this difficult subject.

Case in  
illustration.

4. The following case, which is not altogether hypothetical, will illustrate one of the objections to the adjustment of weights by officers of the Government. A four-pound iron weight was submitted for verification and was found to be light by about three-fourths of an ounce. The adjustment was undertaken by the Inspector. To bring the weight up to the standard, a quantity of the iron had to be removed for the reception of a lead plug. The weight of the lead to be added was nearly two ounces. About a year afterwards the weight was re-inspected and was found to be nearly two ounces light, and on examination it was found that the lead had disappeared. No one knew how long the weight had been in use after it was adjusted before it became unjust, nor was there any possibility of determining whether it had become so in consequence of the imperfect workmanship of the Inspector who adjusted it, or by reason of its having been tampered with by the person who had it in use. But one thing was certain—an unjust weight was found in use, and had the person who was using it been prosecuted, he could have fairly laid the blame on the unskillfulness of the Government officer who adjusted it, and who thus relieved him of the responsibility.

Inspectors not  
competent to  
adjust.

5. As regards the adjustment of weighing machines, such as steelyards, platform scales, etc., I do not suppose that we have one inspecting officer who is competent to undertake such work. If this is the case, it is obvious that, while permitting them to adjust weights would have the effect of relieving the owners and users of unjust weights of the responsibility that, in the public interest, ought to rest on them, the adjustment of the large majority of machines used for weighing would still remain unprovided for.

Red Stamp  
system  
abolished.

6. Since my last report, regulations have been made, under which the "red stamp system" therein referred to has been done away with. The Order-in-Council and the regulations made thereunder

on this subject, will be found at the end of this report. It is believed that by this change a large sum in fees, hitherto lost to the revenues will in future be collected.

7. I have also to refer to the grain testing apparatus which were brought under your notice in paragraph 16 of my last report. The use of these instruments was legalized by the Order-in-Council of the 20th August, 1881, under which the regulations printed at the end of this report were issued. It is believed that these regulations will have the effect of preventing an unfair use of these instruments, and that the sellers as well as the buyers of grain so tested will be benefited.

Grain testing apparatus.

INSPECTION OF GAS.

8. The details of the inspection of gas meters will be found in Appendices F and G. The general result as compared with the previous year, with reference to the inspection of meters, may be stated as follows:—

Inspection of gas.

|               | Presented<br>for Verification. | Finally<br>Rejected. |                    |
|---------------|--------------------------------|----------------------|--------------------|
| 1879-80 ..... | 3,971                          | 147                  | General<br>result. |
| 1880-81 ....  | 2,595                          | 142                  |                    |
| Decrease..... | 1,376                          | 5                    |                    |

9. The percentage of meters rejected in 1879-80 was  $3\frac{3}{4}$  per cent., and in 1880-81  $5\frac{1}{4}$  per cent.

Percentage of rejections.

*Illuminating Power.*

10. A statement of the illuminating power and purity of gas inspected during the year will be found in Appendix H. The illuminating power where inspection has been made, has, with only three exceptions, been up to and over the legal standard. The exceptions are four times in Quebec, eleven times in St. John and once in Fredericton, thus indicating an improvement in the illuminating power at the last named place as compared with the previous year.

Generally up to standard.

*Purity.*

11. Gas has only been regularly tested for purity at Montreal, Toronto, Quebec, St. John, Halifax and Ottawa.

Tests for purity at certain places only.

- Result in Montreal.
12. In Montreal the total number of tests taken was :—
- For Sulphur, 39 tests. In excess of quantity allowed by law, 28 times.
- For Ammonia, 38 tests. In excess of quantity allowed by law, 3 times.
- For Sulphuretted Hydrogen, 49 tests. None found on any occasion.
- In Toronto.
13. In Toronto :—
- For Sulphur, 47 tests. Not on any occasion in excess of quantity allowed by law.
- For Ammonia, 47 tests. Not on any occasion in excess.
- For Sulphuretted Hydrogen, 87 tests. Found present, 4 times.
- In Quebec.
14. In Quebec :—
- For Sulphur, 31 tests. In excess of quantity allowed by law, 8 times.
- For Ammonia, 28 tests. In excess of quantity allowed by law, 28 times.
- For Sulphuretted Hydrogen, 40 tests. Found present, 20 times.
- In St. John, N.B.
15. In St. John, N.B. :—
- For Sulphur, 41 tests. In excess of quantity allowed by law, 8 times.
- For Ammonia, 40 tests. In excess of quantity allowed by law, 33 times.
- For Sulphuretted Hydrogen, 164 tests. 5 times present.
- In Halifax.
16. In Halifax :—
- For Sulphur, 44 tests. In excess of quantity allowed by law, 29 times.
- For Ammonia, 44 tests. Never in excess of quantity allowed by law.
- For Sulphuretted Hydrogen, 45 tests. None found on any occasion.
- In Ottawa.
17. In Ottawa :—
- For Sulphur, 48 tests. In excess of quantity allowed by law, 20 times.
- For Ammonia, 48 tests. In excess of quantity allowed by law, 25 times.
- For Sulphuretted Hydrogen, 96 tests. Found present, 18 times.

18. The test for Sulphuretted Hydrogen has been made at each of the places where illuminating power has been tested, and in addition to what is stated above, with the following results:—

|                           | No. Tests. | Present. |
|---------------------------|------------|----------|
| At Fredericton, N.B.....  | 74         | 4        |
| Charlottetown, P.E.I..... | 52         | 0        |
| Hamilton, Ont.....        | 47         | 0        |
| Belleville .....          | 20         | 2        |
| Peterborough.....         | 7          | 0        |
| Pictou, N.S.....          | 46         | 15       |

19. The receipts for inspection of gas for 1880-81 were \$2,210.50, while the expenses were \$14,149.72. The excessive cost as compared with the revenue is due to defects in the law, in consequence of which the Department cannot recover fees for the inspection of the gas, but only for inspection of meters. I have, in my previous Reports, directed attention to this anomaly, and I beg again to submit for consideration the necessity of amending the Gas Inspection Act, so that the Department may be empowered to collect sufficient fees for testing the purity of the gas to bring the revenue to a near approximation to the cost of inspection.

20. Since my last Report gas inspection offices have been fitted up and opened for work at Peterborough, Belleville, Cobourg, Port Hope and Kingston. The cost of these offices and the salaries of the inspectors will account for the increased cost of inspection.

All of which is respectfully submitted.

I have the honor to be, Sir,

Your obedient servant,

A. BRUNEL,  
*Commissioner.*

OTTAWA, 20th September, 1881.

## GOVERNMENT HOUSE, OTTAWA.

Thursday, 19th day of May, 1881.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

**O**N the recommendation of the Honorable the Minister of Inland Revenue,—

His Excellency, by and with the advice of the Queen's Privy Council for Canada, has been pleased to order, and it is hereby ordered, that part E of the Order in Council passed on the 6th January, 1880, making regulations respecting the Inspection of Weights and Measures, be and the same is hereby cancelled and the following substituted :

“ E. Verification and Stamping of Weights, Measures and Weighing Machines on the premises of the manufacturer, and their removal therefrom.

1. The article shall bear the name of the maker and a consecutive “ Shop number ” or other marks whereby it may be designated for identification, with the certificate of verification.

2. The verification and stamping may take place before the articles are packed for removal, and at that state of completion at which they are finally adjusted by the manufacturer, or at such future time as may be convenient.

“ 3. For the first verification and stamping of weights, measures and weighing machines at the place where they are manufactured, the fees may be paid at once, or payment may be postponed for such period not exceeding three months as the Minister of Inland Revenue may authorize, sufficient security being taken for the payment thereof at the time stated in the Departmental Regulations under which the delay is granted.

4. When a manufacturer of weights, measures or weighing machines desires to remove any of the products of his manufactory to the premises of any dealer in such articles without submitting them for verification, he may do so on the following conditions :—

“ (a) They shall bear the name of the maker and a consecutive “ Shop number ” or some other marks by which the articles may be identified.

“ (b) If packed, the package shall bear the “ Shop number ” or other marks by which the articles may be identified, the name of the manufacturer and the word “ uninspected.”

“ (c). The manufacturer shall notify the Inspector of the division from which the uninspected articles are sent of such removal, on a form which will be supplied by the Department.

JOHN J. MCGEE,  
Asst.-Clerk, Privy Council.

(Circular.)

INLAND REVENUE DEPARTMENT,  
OTTAWA, 30th May, 1881.

SIR,—1st. Herewith you will receive copies of the Order-in-Council of the 19th inst., by which you will see that the “ red stamp ” system is abolished, and that in lieu thereof the manufacturer of weights, measures and weighing machines may, under certain conditions, defer payment of verification fees for such period not exceeding three months, as the Minister of Inland Revenue may authorize.

2nd. I am directed by the Minister to inform you that when any such manufacturer desires to defer payment of inspection fees accrued on weights, measures or weighing machines inspected at the manufactory under the Order cited, it may be granted from the date of verification to the end of the then current quarter,—that is, to the 30th September, the 31st December, the 31st March, or the 30th of June, as the case may be.

3rd. The book (Form O. 19), which will be supplied shortly, is to be kept as a pass book between yourself and the manufacturer (a book for each manufacturer). You will enter in the proper columns the date, the number of each certificate and the amount of fees accrued thereon, and you will obtain the signature or initials of the manufacturer or his agent in the column appropriated to that purpose opposite each item.

4th. The particulars of each verification, for which credit is granted, must be entered in your Monthly Return in red ink, and in the return for the month ending each quarter, the total amount of such fees for the whole quarter is to be added in and remitted in the usual manner.

5th. You will be held strictly responsible for the safe keeping of the pass-book, and for the collection of the fees at the proper time, and should the person to whom credit is given refuse or fail to pay at the end of the quarter in accordance with these regulations, all credit to such person is to be discontinued until settlement is made, and until you receive written authority from the Department to renew it.

I am, &c.,

A. BRUNEL,

*Commissioner.*

GOVERNMENT HOUSE, OTTAWA,

Saturday, 20th August, 1881.

*Present :*

THE HONORABLE THE DEPUTY OF HIS EXCELLENCY THE GOVERNOR GENERAL  
IN COUNCIL.

On the recommendation of the Honorable the Minister of Inland Revenue, and under the provisions of the 48th and 49th sections of the Act passed in the 42nd year of Her Majesty's Reign, chaptered 16, and intituled "An Act to amend and consolidate the laws relating to Weights and Measures,"—

The Deputy Governor, by and with the advice of the Queen's Privy Council for Canada, has been pleased to order, and it is hereby ordered, that the following addition be and the same is hereby made to the Order in Council passed on the 14th of August, 1879:

1. Grain Testers shall only be admitted to verification, when :

1. The cup or vessel for containing the grain is cylindrical, the diameter being equal to its depth, and holds some authorized sub-multiple of the gallon not less than one quart.

2. There is marked on the cup in truly legible characters its true capacity in standard measure.

3. The counterpoise is arranged so that it can be sealed or stamped in such manner as will prevent its being tampered with or removed from the instrument to which it belongs without destroying or breaking the seal or stamp.

4. It gives true indications of weight according to the purport of the figures and divisions marked on the beam.

5. The knife edges and other working parts are in conformity with section B of the Order-in-Council of the 14th August, 1879.

6. It is accompanied by a hopper or apparatus for automatically filling the weighing cup identical as to form and dimensions with the one deposited in the Standards Department at Ottawa, of which a sketched drawing with figured dimensions and instructions for use will be given to each Inspector of Weights and Measures.

K. The fee chargeable for verifying and stamping each Grain Tester shall be one dollar.

J. O. COTÉ,

*Clerk, Privy Council.*

(Circular.)

DEPARTMENT OF INLAND REVENUE,  
OTTAWA, 8th September, 1881.

SIR,—Herewith you will receive a copy of the Order in Council of the 20th August ult., respecting Grain Testers, and the following is a description of the Automatic Apparatus referred to:—

1. The hopper or apparatus for automatically filling the cup of "grain testers," consists:

- (a) Of a substantial stand (A), so made as to carry without shaking the hopper when filled with grain. To this end the foot of the stand is filled with lead.
- (b) Of an arm (B) swinging freely on the top of the stand and carrying the hopper on its outer end.
- (c) The hopper (C) for holding a sample of the grain to be tested is an inverted frustrum of a hollow cone, eleven inches in height, seven inches inside diameter at the large end, and 1.15 inches at the smaller end.

2. The orifice at the small or lower end of the cone is exactly 1.15 inches in diameter, and is closed by a valve which can be moved to one side so as to permit the run of the grain into the tester.

3. It is essential that the orifice should be of the exact size stated, and that its lower edge be of uniform height above the top of the testing cup to be filled. The standard (A) must, therefore, be of such height that the lower end of the cone shall be exactly  $2\frac{1}{2}$  inches above the top of the testing cup, and the centre of the orifice of the hopper must project sufficiently far beyond the foot of the standard (A) to permit the centre of the test vessel to be placed directly under the centre of the hopper.

The above description and the accompanying drawings show the proportions of the apparatus when the test cup is to hold a quart; if a larger test cup is used, say half a gallon, the hopper must be proportionately larger, and the height of the standard (A) must be increased so as to bring the lower part of the hopper the required distance above the test cup.

A. BRUNEL,

*Commissioner.*

## APPENDIX A.

STATEMENT of Expenditure and Receipts for Year ended 30th June 1881.

| Inspection Divisions.       | Inspectors<br>and<br>Assistant Inspectors. | Expenditure.     |  |           |           | Receipts.          |
