The Honorable Mr. Speaker then reported, that when in attendance upon His Excellency in the Council Chamber, His Excellency had been pleased to make a Speech to both Houses, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy ; which he read to the House, and is as followeth :—

“ Mr. President, and Honorable Gentlemen of the Legislative Council,

“ Mr. Speaker, and Gentlemen of the House of Assembly,

“ ALTHOUGH the situation of the Province did not require that I should convene you before the usual period of the year, I am not insensible that there are important interests at this time depending on the result of your deliberations.

“ The birth of another Princess, since I last met you, has been a source of increased happiness to Her Majesty, and of gratification to Her loyal subjects.

“ The general tranquillity now happily prevailing and the relations subsisting between England and the remotest parts of the World, are highly favorable to British enterprize, and I congratulate you on the participation of this Province in the revival of General Commerce.

“ The severe pressure to which all classes have been so long subject, although not wholly relieved, has been materially alleviated. The favorable harvest of the last year has given occasion for renewed thankfulness, and will lead the people to regard the pursuits of Agriculture as a primary source of their prosperity.

“ Considering the vast extent of the unappropriated Lands of the Crown, I invite your attention to the means of facilitating their Settlement.

“ Some Legislative provision is also required for the management of the Indian reserved Lands, constituting some of the most valuable tracts within the Province, and from which a fund may be derived, adequate to meet all the expenses incidental to the present condition of the Indian population.

“ Looking to the claims of a new Country to support in those branches of enterprize which are essential to its prosperity, I recommend to you to afford such encouragement as may be practicable to Agriculture, the Fisheries, and to Domestic Manufactures.

“ The liberal appropriations you have made for the support of Schools, attest the importance which you justly attach to the Education of the People. As the Act for the support of the Parish Schools will expire in 1845, a careful inspection during the present year of the whole of the Parish Schools throughout the Province, would, with the aid of a Training and Model School, facilitate the adoption of an improved and comprehensive system for their more efficient management.

“ The salutary effects of the regulations which were framed in the last year for the Penitentiary at Saint John, of which the Reports will be laid before you, encourage me to recommend that they may be applied, so far as may be practicable, in the other Provincial Prisons.

“ Some alteration is called for in the Laws for the regulation of Savings' Banks, and for the due protection of the funds of the industrious classes deposited in them.

“ Her

“ Her Majesty’s Government having consented to the passing of an Act for the Consolidation of the Departments of Revenue, I recommend to you the adoption of such arrangements as will increase the efficiency and diminish the expenses of the local Establishments.

“ The Act of the last Session relating to the collection of a reduced Duty on Timber and other Lumber, will, I hope, admit of such alterations as will obviate the objection which has been found to apply to it.

“ *Mr. Speaker, and Gentlemen of the House of Assembly,*

“ I am gratified in being able to inform you that, the Revenue in the last year has materially improved, and from the revival of the Public Credit I anticipate an early relief from the financial difficulties of the Province.

“ When the Accounts and Estimates are laid before you, I hope it will appear to you that attention has been given to Public Retrenchment and Economy, and that it will be found practicable, without increasing the public burthens, to afford that support to public undertakings, and especially to the opening of Communications, which are so essential to the settlement of the Country.

“ An important Instruction from Her Majesty’s Government, on the subject of Differential Duties in the Colonies, will be laid before you.

“ *Mr. President, and Honorable Gentlemen of the Legislative Council,*

“ *Mr. Speaker, and Gentlemen of the House of Assembly,*

“ The settlement of the Boundary between the British Provinces and the United States, by the Treaty of Washington, having renewed the question of the limits of New Brunswick and Canada, a correspondence has ensued with Her Majesty’s Government and with the Government of Canada, which, it is hoped, will lead to an early and satisfactory adjustment of the claims of the two Provinces.

“ In the correspondence of Her Majesty’s Government, which will be laid before you, in reference to the measures of the last Session, you will recognize the desire of the Queen to uphold the principles of the Constitution, and I rely with confidence on your just appreciation of the blessings, which, under Providence, it has been the means of conferring on the people, for that support which will enable me to give effect to Her Majesty’s Gracious intentions for their welfare.”

To His Excellency Sir WILLIAM MACBEAN GEORGE COLEBROOKE, K. H., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

The Humble Address of the House of Assembly.

MAY IT PLEASE YOUR EXCELLENCY,

WE, the Representatives of Her Majesty's Loyal and Faithful Subjects, the People of New Brunswick, beg leave to offer our thanks for Your Excellency's Speech at the opening of the present Session.

Although this Meeting of the General Assembly is attributable to the Constitutional right of a free people, rather than the pressure of any particular emergency, we fully concur with Your Excellency, that interests of vital importance to this Colony are involved in our deliberations, in the due maintaining and advancement of which, we feel it our especial duty to co-operate with the other Branches of the Legislature.

The recent addition to the Family of our beloved Queen—a source of increased happiness to Her Majesty—is also most gratifying to Her Loyal Subjects.

As an highly favoured Dependency of Great Britain, New Brunswick rejoices in that state of external tranquillity and repose which now so happily prevails ; and we cannot doubt that the people of this Province will at all times participate in the advantages resulting from the Commercial enterprize of the Parent State.

The pressure, to which all classes of the community have been so long subjected, is now, we rejoice to say, materially alleviated ; and while we recognize, with humility and thankfulness, that Divine Hand by which the labours of the Husbandman

have been crowned with success, we feel it to be the duty of the Legislature to regard Agricultural pursuits as the primary source of prosperity, and the especial object of encouragement.

The means of facilitating the settlement of the extensive tracts of Wilderness Land in this Province, and also the Legislative measures necessary for the management of the Indian Reserves, with a view to meet the expense attendant on the present condition of the Indian Tribes, shall receive our most serious attention.

The encouragement of Domestic Manufactures, Agriculture, the Fisheries, and all those branches of enterprise essential to the prosperity of a new Country, shall also be attended to, and sensible that the very liberal appropriations, so long continued for Educational purposes, have not been productive of a corresponding amount of benefit, the House of Assembly is most anxious for the adoption of such measures as may give vigour and effect to an object so materially connected with the best interests of the present and rising generation.

We are glad to be informed that salutary results have ensued the Regulations framed last year for the management of the Provincial Penitentiary; and Your Excellency may rely on our sincere desire to support any system applicable to the improvement of the other Provincial Prisons.

We shall give due consideration to the Laws for the regulation of Savings' Banks, in order to the perfect security of the funds deposited therein; and any proposition calculated to increase the efficiency, and diminish the expense of any local establishment in the Province, shall meet our most cordial support.

We trust that the objections which have been made to the Act of last Session, relating to the collection of a reduced Duty on Timber and other Lumber, will appear to be of such a nature, as to admit of alterations for their removal.

It gives us heartfelt pleasure to learn that the increase of the Revenue and the revival of Public Credit, as well as the attention which Your Excellency informs us has been given to Public Retrenchment and Economy, will enable us, without imposing further burthens, to afford that support to Public undertakings, and more especially to the opening and repairing of Roads and erection of Bridges, which is so essential to the settlement of the Country.

The Instruction from Her Majesty's Government on the subject of Differential Duties shall be carefully considered.

We earnestly hope that the correspondence with Her Majesty's Government and the Government of Canada on the subject of the Boundary, may lead to an early and satisfactory adjustment of that question; and we trust, when it is borne in mind that this Province undertook the burthen of a heavy Civil List, chargeable perpetually upon its Revenues, without any apprehension that the sources of those Revenues could possibly be affected (as they have already been) by a Treaty reducing the extent of its area, that the present negotiation may not result in a further diminution of the Territory of New Brunswick.

In accordance with those principles of loyalty for which the People of New Brunswick have ever been so justly distinguished, their Representatives entertain the most implicit confidence in the intentions of our Gracious Queen to uphold the established principles of the Constitution; and Your Excellency may believe, that as we justly appreciate the invaluable blessings which that Constitution has conferred upon the People, so it is our steadfast determination to give such support to Her Majesty's Representative as will enable him to give effect to the Parental intentions of His Sovereign.

J. W. WELDON, *Speaker*.

And being returned—

The Honorable Mr. Speaker reported, that His Excellency had been pleased to make the following reply thereto:—

“ Mr. Speaker and Gentlemen,

“ I receive with cordial satisfaction your Dutiful and Loyal Address, and I return you my sincere thanks for the steadfast support you have expressed your determination to afford to me in giving effect to Her Majesty's Parental intentions for the welfare of Her Loyal Subjects.”

The

CURRENCY ACT.

EXTRACT FROM A DESPATCH OF LORD STANLEY TO SIR WILLIAM COLEBROOKE.

[No. 143.]

Downing Street, 15th March, 1843.

SIR,—I have received your Despatch, No. 4, of the 27th January last.

Her Majesty's Government fully concur in the views which you entertain with regard to the expediency of some definitive adjustment of the Currency of New Brunswick, and in their opinion the desired change would be most advantageously effected by the substitution of some determinate standard of value for the present Money of Accounts.

The Legislatures of Canada and Nova Scotia have taken very desirable preliminary steps in this respect, by the adoption of fixed valuations of the Currencies of Account in the respective Provinces with reference to British Sterling Money, and to Foreign Coins of recognized intrinsic value; while in several of the West Indian Colonies British Currency has been substituted for the nominal Currency of Account, and in British Guiana the Spanish or South American Dollar has been adopted as the Money of Account at its intrinsic and legalized value of 4s. 2d., as compared with British Sterling, which at the same time makes the British Half-penny equivalent to the Cent, or 100th of the Dollar.

I have, &c.

His Excellency Sir Wm. Colebrooke.

[No. 197.]

Downing Street, 14th October, 1843.

SIR,—I have had under my consideration an Act passed by the Legislature of New Brunswick, with a suspending clause, on the 11th April last, for regulating the Currency of that Province.

I have no objection to offer to this Act, except as regards the valuation assigned for some of the Coins specified in it; and as these valuations are not correctly adjusted, according to the intrinsic worth of the Coins, with reference to their contents in pure metal, and to the relative values of Gold and Silver, it appears that the object of the Act could not be obtained without some modification of the comparative Rates assigned for the Coins.

I observe that the values in the Provincial Currency of Coins mentioned in the Act are as follow, viz:—

The English Sovereign,.....	£1	4	2
" French Crown Piece,.....	0	5	6
" English Crown Piece,.....	0	6	0½
" Spanish, South American, or United States Dollar,.....	0	5	0
" Gold Eagle of the United States,.....	2	10	0

But considering the Dollar to have been the Coin principally circulating in the Province, and to be properly rated at 5s. Currency, the following should be the Rates of the other Coins:—

The Sovereign,.....	£1	4	0
" English Crown,.....	0	6	0
" Eagle of the United States,.....	2	9	3

I do not advert to the French Crown Piece, as this Coin is not now fabricated, and has consequently been omitted from the Currency Acts both of Canada and Nova Scotia.

Under these circumstances, Her Majesty cannot be advised to confirm the present Act, but you will avail yourself of an early opportunity of recommending the Legislative Council and Assembly of New Brunswick to pass another Act, in which the proper Rates mentioned in this Despatch should be assigned to the Coins of the Province.

I have, &c.

GRAND FALLS COMPANY ACT.

(Copy.)

[No. 155.]

Downing Street, 2d June, 1843.

SIR,—I have received your Despatch, No. 32, of the 17th April last, enclosing the copy of a Resolution adopted by the House of Assembly of New Brunswick, on the 11th of the same month, in which that House have expressed their desire that the Act (No. 1389) passed by the Legislature of that Province on their previous Session, for the incorporation of the Grand Falls Company, should be disallowed.

As the operation of the Act is suspended for the signification of Her Majesty's pleasure, it will not be necessary that any order of Her Majesty in Council should be made for the disallowance of it. The wishes of the House of Assembly will be fulfilled by the more simple, and in some respects, more convenient course, of dropping all further notice of this Law. It will therefore not be submitted to the Queen in Council for Her Majesty's confirmation.

I have, &c.

ELECTION LAW, AND ACT VACATING SEATS OF MEMBERS.

EXTRACT OF A DESPATCH FROM LORD STANLEY TO SIR WILLIAM COLEBROOKE.

[No. 174.]

Downing Street, 31st July, 1843.

SIR,—I have received your Despatch, No. 45, of the 12th May, transmitting two Acts passed with suspending clauses, by the Legislature of New Brunswick: the one (No. 1434) to improve the Law relating to the election of Representatives to serve in the General Assembly; and the other (No. 1435) to repeal the several Acts now in force for establishing a Legal Tender in all payments to be made in this Province, and to make other provisions in lieu thereof.

The last mentioned Act is still under the consideration of Her Majesty's Government.

The Provincial Act, 9 Geo. 4, cap. 36, sec. 4, declared that an appointment of a Member of the Assembly to the Council should create a vacancy, and that the Speaker, during the recess, might cause a Writ to be issued for a new Election. In the event of the appointment of the Speaker himself to the Council, any four Members were, during the recess, to cause a Writ to be issued for a new Election in his room. As at that time the Council was a Legislative as well as an Executive Body, an appointment to it, of course, vacated the Seat of a Member of the Assembly. But the thirty fourth clause of the present Act, which professedly revives the old Law, really goes much beyond it, for it enables the Speaker, or the four Members, as the case may be, to issue the Writ during the recess, not merely in the two cases of death or appointment to the Legislative Council, but in any case of vacancy, whatever the ground of it may be. The words are "in the event of any vacancy by death, resignation, or appointment to the Legislative Council, or otherwise."

As far as I can ascertain, this Act, by clauses Nos. 31 and 32, for the first time, introduces a Law enabling Members of Assembly to resign their Seats in that House.

His Excellency Sir Wm. Colebrooke.

[No. 182.]

Downing Street, 4th September, 1843.

SIR,—I have to acknowledge the receipt of your Despatch, No. 31, of the 17th April last, in reply to mine of the 11th August preceding, stating the objections entertained by Her Majesty's Government to the Act (No. 1408) "to vacate the Seats of Members of Assembly in certain cases."

With your present Despatch, you enclose an Address to yourself from the House of Assembly, with a Resolution passed by that Body, declaratory of their adherence to the principle which the Act is intended to establish, that Members of Assembly shall vacate their Seats on accepting appointments in the Executive Council.

The Assembly, I observe, notice but one of the three objections urged in my Despatch against the confirmation of this Act. Their Resolution and your Despatch are both silent on the subject of the disqualification of Members from sitting in the House on their becoming Contractors for Public Works not undertaken at the cost of the Government; and also on the subject of the Speaker having to adjudicate on the question, whether a Seat is vacated or not.

As no attempt has therefore been made either by yourself or by the Legislature, to vindicate the provisions of this Act, to which your own and their attention has been called in my Despatch above referred to, Her Majesty's Government have felt it their duty to recommend the disallowance of it; and I have the honor to enclose an Order passed by Her Majesty in Council on the 23d instant, disallowing the Act accordingly.

EXTRACT OF A DESPATCH FROM LORD STANLEY TO SIR WILLIAM COLEBROOKE.

[No. 204.]

Downing Street, 16th November, 1843.

SIR,—I have received your Despatch of the 29th August, 1843, No. 83.

* * * * *

I am happy to acknowledge, that, subject to one exception, the Attorney and Solicitor Generals have now satisfactorily explained and justified those innovations.

The exception relates to the power given to the Speaker to issue new Writs, not only when the vacancy is created by the death of a Member, or by his advancement to the Legislative Council, but by any other cause. I do not pause to consider whether the construction given by the Attorney and Solicitor Generals to this enactment could really be maintained. Admitting, for the sake of argument, that it is the right construction, yet, as it presupposes the existence of the Statute 5 Victoria, cap. 18, and as that Act has been disallowed by the Queen in Council, the basis on which the whole of this legal argument rests, is subverted, and therefore the argument itself must fail.

I trust that there will be no indisposition on the part of the local Legislature to narrow the Speaker's authority within its former limits. If that course be taken, Her Majesty will be advised to confirm the Act. If it be declined, I cannot undertake to say that Her Majesty's sanction will ultimately be given to it.

I have, &c.

STEAM BOAT PASSENGERS ACT.

(Copy.)

[No. 180.]

Downing Street, 24th August, 1843.

SIR,—I have to acknowledge the receipt of your Despatch, No. 54, of the 13th of June, transmitting a certified copy of an Act (No. 1454) passed by the Legislature of New Brunswick in the month of April last, intituled "An Act to provide for the greater safety of Passengers on board Steam Boats."

The 8th section of this Act, which prohibits the Customs Officer from granting a Clearance of a Steam Vessel, without the certificate of the Commissioners appointed under the Act, that such Vessel is duly equipped, appears to me objectionable, inasmuch as it is inconsistent with the duties of the Customs Officer as defined by the Possessions Act, which requires him to give a Clearance upon certain necessary formalities being completed.

You will bring this objection under the consideration of the local Legislature, and in the meantime Her Majesty's decision on the Act will be suspended.

I have the honor, &c.

ARESTOOK BOOM COMPANY ACT.

(Copy.)

[No. 183.]

Downing Street, 2d September, 1843.

SIR,—I have to acknowledge the receipt of your Despatch of the 24th June, No. 58, with its enclosures, in which, with reference to the Bill to incorporate the Arestook Boom Company, you express your desire to be made acquainted with the opinion of the Law Officers of the Crown, whether the proposed measure, if passed into a Law, would be an interference with the Treaty of Washington. I accordingly transmit to you a copy of their Report on this subject, and have to instruct you to withhold your assent to the Bill in question, as it would be at variance with the Treaty of Washington.

MY LORD,—We are honored with your Lordship's commands, signified in Mr. Addington's letter of the 9th instant, stating that he was directed to transmit to us the accompanying letter from the Colonial Office, dated the 7th instant, together with its enclosures, relative to a Bill passed in the last Session of the Legislature of the Province of New Brunswick, to incorporate the Arestook Boom Company.

Mr. Addington further states, that the object of this Bill being to carry a Boom for the preservation of Timber across the Arestook River, which passed through the American Territory, discharging itself into the St. John's, below the Great Falls, a doubt has been raised whether such a Bill, if passed into a Law, might not be construed to be at variance with the stipulations of the third article of the Treaty signed at Washington on the 9th of August, 1842, and consequently the Lieutenant Governor of New Brunswick judged it advisable to withhold his assent thereto, until the opinion of the Law Officers of the Crown should be taken upon the question.

Mr. Addington is pleased to request that we would take these papers into consideration, and report to your Lordship our opinion, whether if this measure were passed into a Law in a future Session, it could be deemed to violate the provisions of the above mentioned Treaty.

In obedience to your Lordship's commands, we have taken the papers into consideration, and have the honor to report, that for the reasons stated by the Attorney and Solicitor Generals of New Brunswick, in their additional observations upon this subject, we are of opinion, that the measure in question, if passed into a Law, might be deemed a violation of the stipulations of the third article of the Treaty signed at Washington on the 9th of August last.

TIMBER

TIMBER DUTY ACTS.

(Copy.)

[No. 184.]

Downing Street, 4th September, 1843.

SIR,—I have to acknowledge the receipt of your Despatch, No. 38, of the 20th of April last, transmitting certified copies of two Acts which had been passed by the Legislature of New Brunswick, the first (No. 1432) intituled “An Act relating to the Collection of Duty on Timber and other Lumber,” and the second (No. 1433) intituled “An Act to establish sundry Regulations for the future disposal of Timber and other Lumber cut on Crown Lands.”

Each of these Acts contains a Clause suspending the operation of it until Her Majesty’s pleasure shall have been signified.

I transmit for your information the accompanying copy of the opinion of the Queen’s Advocate, and of Her Majesty’s Attorney General and Solicitor General, in answer to questions proposed to them respecting the Act for the Collection of Duty on Timber and other Lumber.

For the reasons assigned in that opinion. Her Majesty will abstain from confirming the Act to which it refers. It will therefore not take effect, or come into operation as a Law.

The Act to establish Regulations for the disposal of Timber and other Lumber cut on Crown Lands, must of course be disposed of in the same manner as the first mentioned Act, to which it is supplementary and auxiliary. Even without reference to this conclusive objection, there would have been great difficulty in confirming this Act. Without any previous intimation of the Royal Pleasure, it repeals a part of the Civil List Act; it grants, with no sufficient reason, extensive privileges to the owners of Mills in actual operation; and it does not require the payment in ready money of the fee required for the Timber Licence.

From the statement contained in your Despatch, and in the Reports accompanying it, I however conclude, that the present system of Timber Licences requires modification; that it is expensive in its working, and that, under shelter of it, frauds are committed which reduce the actual receipts much below their just amount.

As you are fully aware of these evils, I trust that you will be able to obviate them by adopting, with the advice of the Executive Council of New Brunswick, some such arrangement as that to which you refer in the latter part of your Despatch.

I have, &c.

(Signed)

STANLEY.

His Excellency Sir Wm. Colebrooke.

ENCLOSURE OF DESPATCH, NO. 184.

(Copy.)

Doctor’s Commons, August 5, 1843.

MY LORD,—We are honoured with your Lordship’s commands, signified in Mr. Addington’s letter of the 26th ultimo, stating that he was directed to transmit to us the accompanying letter from the Colonial Department, dated the 17th of June, together with its enclosures, on the subject of an Act which was passed by the Legislature of New Brunswick in the month of April last, relative to the collection of Duty on Timber and other Lumber, and to request that we would take these papers into consideration, and report to your Lordship our opinion, whether with reference to the third article of the Treaty between this country and the United States, signed at Washington on the 9th August, 1842, there is any objection to the confirmation of the Act above mentioned by the Queen in Council.

Mr. Addington states that he is at the same time directed to transmit to us for our further information the enclosed extracts from that portion of Lord Ashburton’s correspondence with the Foreign Office and with the Government of the United States, which preceded the negotiation of the third article of the Treaty of Washington.

In obedience to your Lordship’s commands, we have taken the papers into consideration, and have the honor to report that the Act in question does not appear to us to contravene the article of the Treaty referred to, and consequently that there is no objection, in that respect, to its confirmation by Her Majesty in Council.

The construction however which has been put upon the third article of the Treaty by the British Government, is that the produce of those parts of the State of Maine which are watered by the River Saint John or its tributaries, after it is brought within the Province of New Brunswick, shall be dealt with in all respects as the produce of that Province; and it appears to us therefore that the provision at the end of the first section of the proposed Act, excepting from Duty all Timber cut on any part of the United States, and passed down the River Saint John, and there shipped to the United States, may be considered to be inconsistent with the stipulation of the Treaty, and as affording an objection to the confirmation of this Act, although it may not be a contravention of the Treaty, of which the United States would complain.

EXTRACT OF A DESPATCH FROM SIR WILLIAM COLEBROOKE TO LORD STANLEY.

[No. 38.]

Dated 28th April, 1843.

MY LORD,—I have the honor to transmit to your Lordship, authenticated transcripts of two Acts which have been passed by the Provincial Legislature, the first intituled “An Act relating to the
Duty

Duty on Timber and other articles;" and the second "An Act to establish sundry Regulations for the future disposal of Timber and other Lumber cut on the Crown Lands."

These Acts contain Clauses suspending their operation until approved by Her Majesty in Council. They are accompanied by Reports from the Attorney and Solicitor Generals, and also from the Executive Council, which have been framed for the further elucidation of these important measures.

The manner in which the Revenue on Timber has been raised since the Civil List Act came into operation, has been, on the application of parties, to put up to Public Sale the privilege of cutting a specified quantity of Timber within certain limits marked out in the Forest, and defined as a "Timber Berth." This privilege is granted only for a year, and the Government has to employ Officers, called Deputy Surveyors, to inspect the Timber, and when any had been cut in excess of the quantity licenced, it has been usual to seize it for the Crown; the Government authorising its release to the party on payment of "Stumpage," or a Duty regulated according to the fine paid for the privilege, Bonds being taken for the amount of these dues when not paid down.

The expenses attending this mode of administration have constituted a large deduction from the gross proceeds of the Revenue, and in the last two years the maintenance of the establishment to protect the Revenue, which it has not been practicable to reduce, owing to the diminished quantity of Timber cut, has been greatly disproportioned to the amount realized.

In addition to this, the effect has been to place a subordinate class of Officers throughout the Country, in the exercise of extensive powers, and subject to undue influences.

Your Lordship will observe from the Report of Mr. Wilmot, who, before he joined the Executive Council, took part in the measure in the Assembly, that the provisions of the two Bills were originally included in one, and that those of the second Bill were afterwards separated with the object of preventing the loss of the first, if the objection to the other should induce its rejection.

The first may therefore be considered to be limited to the object of raising for the purposes of Revenue, a Duty of three per cent. upon Timber exported from the Province, exempting from the operation of the Act such American Timber as might be shipped for American Ports in their own vessels.

It is very desirable that the question of Right should be definitely settled by reference to the opinion of Her Majesty's Law Advisers, in order that it may be open to the Legislature to impose the Duty upon all Timber exported, should it hereafter be found expedient so to do.

An advantage attending the proposed export Duty is that a Revenue will be equally raised on the Timber cut on private Lands heretofore exempt, and if it should be hereafter found to be practicable and expedient to impose the Duty on American Timber exported in their own vessels, it would hold out an effectual means of preventing the evasion of the present Duties on the Crown Timber, which would not be effected without a considerable augmentation of the present establishment of the Crown Land Department.

The Honorable Mr. Simonds then, by command of His Excellency the Lieutenant Governor, laid before the House—

Downing Street, 30th June, 1843.

SIR,—I have had under consideration an Act passed by the Legislature of New Brunswick on the 29th March, 1842, "imposing Duties for raising a Revenue."

My Circular Despatch of the 28th instant, will have made you acquainted with the objections entertained by Her Majesty's Government, to the enactment, by Colonial Legislation, of Differential Duties imposed on articles of import.

As therefore this Act ceased to be in operation on the 1st of April last, it is unnecessary, on the present occasion, that I should do more than call your attention to the objectionable nature of the Differential Duties imposed by this Act, especially that of 5s. 10d. per Barrel upon Foreign Wheat imported from Nova Scotia, and to express my hope that the next Revenue Act passed by the Legislature of New Brunswick, will be consistent with the principles adopted by Her Majesty's Government on this subject.

Downing Street, 30th October, 1843.

SIR,—I have had under my consideration an Act (No. 1436) passed by the Legislature of New Brunswick, in the month of March last, intituled "An Act imposing Duties for raising a Revenue."

This Act imposes Differential Duties upon almost all the principal articles of Foreign Produce, and is so entirely opposed to the Possessions Amendment Act of Parliament of 1842, and to the views of Her Majesty's Government, as explained in my Circular Despatch of the 19th August, 1842, upon this subject, that were it not for the great inconvenience which such a course would inflict on the Province, Her Majesty would have been advised to disallow this Act. But although it is not proposed to adopt that course, in the present instance, it will be necessary that you should use your best endeavours to induce the Assembly to amend this Act with the least possible delay, by the repeal of the Differential Duties in question. You will also understand, and in whatever manner may be least calculated to give offence, you will cause it to be understood, that you are not at liberty to assent to any other Revenue Act imposing Duties of a similar nature.

If any such Act should be transmitted for the sanction of the Queen, Her Majesty's confidential advisers would feel it to be their duty to recommend the disallowance of it.

Downing Street, 10th July, 1843.

SIR,—I enclose herewith, the copy of a Report from the Commissioners of Colonial Lands and Emigration, upon the claims of Messrs. Cooke, to be indemnified for the exaction of double Head Money on the Passengers conveyed to New Brunswick in their Vessel, the Londonderry, which had been levied in consequence of the omission in her clearance of the statement that the "Passengers were embarked under the sanction of Her Majesty's Government."

As it appears that the provisions of the Imperial Passengers Act had been fully complied with, in the case of this Vessel, and as I conceive there can be no doubt that the construction put by the Commissioners on the local Act is a correct one, I have to request you will take whatever steps may be in your power, for the purpose of reimbursing to Messrs. Cooke the amount which they have been obliged to pay, beyond the single Head Money, on the Emigrants introduced by them.

SIR,—We beg leave to transmit to you, for Lord Stanley's information, a copy of a letter from Messrs. Cooke, stating that their Vessel, called the Londonderry, which sailed last year with Passengers, for Saint John's, New Brunswick, was fined double Head Money on her arrival there, because it was not inserted in her clearance that the Passengers were embarked under the sanction of Her Majesty's Government; and enclosing a certificate, signed by the Collector of Customs, as well as by the Government Emigration Agent at Londonderry, shewing that she had duly cleared from that port on the 15th April, 1843.

As we have no doubt that the expression of the Passengers being shipped under the sanction of Her Majesty's Government, in the New Brunswick Act, is intended to convey no other meaning, than that the provisions of the Imperial Passengers Act have been complied with; and as the enclosed certificate from the Collector of Customs at Londonderry is satisfactory on this point, we think it would be only right that the portion of Head Money which has been levied at Saint John's, upon a different supposition, should be repaid; and we would submit to Lord Stanley, that the Lieutenant Governor be requested to take the necessary steps for the purpose, upon the application of the owners, or any parties duly authorized on their behalf.

SIR,—A Vessel of ours, called the Londonderry, cleared from this Port last April, with Passengers, for Saint John's, New Brunswick; on her arrival there, the vessel was fined double Head Money, because it was not inserted in her clearance that the Passengers were embarked under the sanction of Her Majesty's Government. We enclose a certificate signed by the Emigration Agent, and Collector of Customs here, that the Vessel was cleared out agreeably to the present Act of Parliament; and we consider it unfair the ship should be fined, when we have broken no law. Will you be good enough to give us some explanation of this business, and if the authorities on the other side have acted correctly in what they have done. We shall thank you to inform us if there are two Passengers Acts, one made in New Brunswick, and one at home; this we have reason to believe is the case, as, under the late Act, which was lately repealed, we had a liberty of taking one Passenger to fifty without any fine being imposed, and by their law the fine was double Head Money for all the passengers on board, even if there were only one passenger over, and when the home Act gave us one to every fifty to come and go on. We have Vessels in the Passenger Trade to New Brunswick and Canada every year, and we should feel obliged by your giving us what information you can on the subject, and how we are to act in future.

We certify that the barque Londonderry cleared from this Port on the 15th April, 1843, according to law, with one hundred and fifty Passengers on board, to Saint John, New Brunswick.

We did not consider it requisite, under the provisions of the new Passengers Act, as also by the form of Passenger list, furnished by the Crown, to add the usual certificate, viz., the Passengers being shipped under the sanction of Her Majesty's Government.

SIR,—I have the honor to acknowledge the receipt of your letter of 9th instant, transmitting a copy of a Despatch from Lord Stanley, dated 10th July last, with enclosures relating to the exaction of double

double Head Money at this office, in May last; on Passengers per barque Londonderry, and requiring my report thereon.

I have the honor to state, that in a letter to you on the 26th May last, I submitted the case of the barque Londonderry, for the opinion of the Law Officers of the Crown, viz., whether the full compliance of the strict regulations imposed by the late Act of Parliament respecting Passenger Ships might not be considered tantamount to a certificate from the Officers of Her Majesty's Customs at the Port of clearance, of the sanction of Her Majesty's Government to bring out Passengers, and thus relieve the Master from the extra Head Money, which, as a precautionary measure, I had demanded and received. The opinion of the Attorney General, under date of the 1st June, conveyed to me in your letter of 3d June, was that the double Head Money must be exacted in all cases where the certificate of the sanction of Her Majesty's Government is not produced, so long as the existing Provincial Passenger Act remains unrepealed.

[No. 185.]

Downing Street, 4th September, 1843.

SIR,—I have to acknowledge the receipt of your Despatch, No. 24, of the 28th of March, enclosing an authenticated Transcript of an Act, with a suspending clause, passed by the Legislature of New Brunswick, (No. 1431), entitled "An Act to facilitate the negotiation of a Loan to pay off the Public Debt."

It has not been without hesitation that Her Majesty's Government have formed the conclusion that the Queen should be advised to sanction this Law. But on the whole, we have thought that the rejection of it might be productive of greater evils than any which can result from the opposite course of proceeding. We have especially been reluctant to impede any efforts which the Local Legislature may hereafter make to extricate the Provincial Revenue from the embarrassment in which it is involved.

Her Majesty in Council have therefore been pleased to make the accompanying Order specially confirming and finally enacting this Act.

Whatever may be the relief to the Finances of New Brunswick which the present Loan will afford, that relief will be but temporary and transient. Evils of great magnitude, and of the most threatening aspect in the Financial state of the Province, will remain in full and unmitigated force, and will demand the most serious attention of the Local Government and Legislature. I do not think it necessary or desirable that I should, on the present occasion, attempt to investigate either the origin or the remedy of these embarrassments; but it will be your duty to use every effort in your power to induce the Legislative Council and House of Assembly, to institute a careful enquiry into the state of the Public Finances, with the view of regulating the expenditure with the most strict economy, and also with the view of defraying that expenditure without permitting a recurrence to those burthensome arrears and debts which have called for the present enactment.

EXTRACT OF A DESPATCH FROM SIR WILLIAM COLEBROOKE TO LORD STANLEY.

[No. 24.]

Frederickton, 28th March, 1843.

I have the honor to enclose to your Lordship, an authenticated transcript of an Act passed by the Provincial Legislature, entitled "An Act to facilitate the negotiation of a Loan to pay off the Public Debt."

This Act has a Clause suspending its operation until confirmed by Her Majesty in Council, and is accompanied by a Report of the Law Officers of the Government, and one by the Executive Council, with the Treasurer's statement of the liabilities of the Province; also a Report of the Finance Committee of the House of Assembly.

The sum to be raised under this Act does not exceed £70,000, and is urgently required to redeem the Credit of the Province; and as it is hoped, that on the confirmation of the Act, these funds may be raised without the delay and uncertainty of negotiating a Loan in England, I earnestly recommend that the Act may be passed, and that in this event, the Order of Her Majesty in Council may be sent out as soon as it may be practicable.

Downing Street, 1st October, 1843.

SIR,—I have received your Despatches of the numbers and dates mentioned in the margin, relative to the application of the House of Assembly of New Brunswick for a reduction of the charge on the Civil List, for the Salaries of the Public Officers in that Province.

Having laid before the Queen the Address from the Assembly, which accompanied your Despatch of the 15th April, I have received Her Majesty's commands to instruct you to inform the House, in answer, that Her Majesty has no other object in view, in maintaining, or in applying the Civil List of New Brunswick, than that of securing to the Province the faithful services of efficient men, and of reconciling the claims of public economy with those of justice to individuals. Her Majesty will therefore willingly consider any recommendations for prospective reductions of Salary, which may appear to be such as not to defeat the object of providing efficiently for the Public Service, and which, being effected, may leave applicable, to purposes of general interest, a larger balance of the sum granted to Her Majesty, in exchange for the Hereditary Revenues of the Crown. But Her Majesty cannot consent to purchase any such supposed advantages at the expense of those Public Servants, who now hold salaries upon the Civil List.

Downing Street 10th November, 1843.

SIR,—I have to acknowledge the receipt of your Despatch of the 15th April, No. 28, in which you transmit an Address to the Queen from the House of Assembly of New Brunswick, upon the management of the Post Office in the Colony.

I have submitted this Address to the Queen, and have received Her Majesty's commands to instruct you to inform the House of Assembly, in answer, that as the important changes which have been lately made in the Post Office arrangements in New Brunswick, and generally in British North America, were not known to them when they prepared their Address, and as it is desirable that no further alterations should be made until the effect of the late measures shall have been ascertained, Her Majesty's Government will not at present enter upon the consideration of the topics to which their attention is more particularly called in these papers. They will, however, hereafter be ready to consider any further amendments in the Post Office arrangements of New Brunswick, which may appear to be requisite and practicable, with reference to the state of the Revenue, but sufficient time must be allowed to test the effect of the recent alterations.

I have, &c.

"New Brunswick.*"Message to the House of Assembly, 6th February, 1844.***" W. M. G. COLEBROOKE, Lt. Governor.**

" The Lieutenant Governor lays before the House, a Despatch from the Secretary of State for the Colonies, relative to the proposed measures for the Consolidation of the Departments of Revenue.

" W. M. G. C."

The Document accompanying this Message being read at the Clerk's Table, is as follows :—

CONSOLIDATION OF REVENUE DEPARTMENTS.

(Copy.)

[No. 146.]

Downing Street, 12th April, 1843.

SIR,—Her Majesty's Government have had under their consideration the "Bill for the Consolidation of the Revenue Departments, and to provide for the collection and protection thereof," in New Brunswick,

Brunswick, (of which a Copy accompanied your Despatch of the 22d March, 1842,) which you propose to introduce during the present Session into the House of Assembly; and I have to acquaint you that Her Majesty's Government will not object to an Act passed by the Legislature in the terms of the proposed Bill, except as regards the provisions of the eleventh and twenty second Clauses, relating to the appointment of Free Warehousing Ports, which, in so far as they might authorize the admission of Goods at places not constituted Free and Warehousing Ports by the Imperial Parliament Act 3 and 4 Wm. 4, cap. 59, or by Her Majesty's Order in Council, under the powers of that Act, might operate in contravention of the Imperial Statute, and would therefore be inadmissible.

I have to observe, with reference to the alteration which appears to have been made in the forty fifth clause of the Bill, as originally printed, that it would tend greatly to facilitate the assessment of the Colonial Duties, and to simplify the accounts of the Officers of Customs, if they were to be rated in Sterling money, and made payable in the manner provided for by the thirteenth Section of the Imperial Act, 5 and 6 Victoria, cap. 49, relating to the Trade of the British Possessions abroad; subject to the qualification in respect to the appointment of Free and Warehousing Ports, to which I have adverted. You will be pleased to understand, that you are at liberty to introduce the proposed Bill into the Provincial Legislature.

I have, &c.

(Signed)

STANLEY.

To the Right Honorable the Postmaster General.

The Petition of the undersigned, Inhabitants of Carleton, in the City and County of Saint John, in the Province of New Brunswick,

MOST HUMBLY SHEWETH—

That Carleton is composed of the two Western Wards of the City, and is separated from the four Eastern Wards by the Harbour of Saint John; that according to the last Census, it contains a population of 1435; that two of the most important of the Great Roads pass through it, viz: that to Canada, through Fredericton, and that to the United States, through Saint Andrews; but there is no Post Office in it, and very great inconvenience is felt for want of one:—For instance, persons residing there

there are obliged to carry Letters across the Harbour, in order to their being sent by the Mails which pass their own doors the next morning, and also to go to Saint John to receive such as had been, the evening before, conveyed through the village. Your Petitioners therefore humbly pray, that this great inconvenience may be removed, by the establishment of a Post Office therein.

And your Petitioners, as in duty bound, will ever pray.

General Post Office, Saint John, 23th November, 1843.

SIR,—Representations have very frequently of late been made to me, of inconvenience felt by the inhabitants of Carleton, for want of Post Office accommodation in that Village, and as I think the increasing importance of the Settlement calls for the establishment of a Way Office, or Receiving House, I beg respectfully to bring the subject under the notice of his Lordship the Postmaster General.

This Village is situated on the Western side of the Harbour of Saint John; that according to the last Census, it contained a population of 1435; that two of the Great Roads pass through it, viz: that to Canada, through Fredericton, and that to the United States, through Saint Andrews.

Besides the applications which have been made to me, personally, for a Way Office at Carleton, I have received the accompanying Petition to forward to his Lordship the Postmaster General, and as, if the regulations for the establishment of Way Offices are to be continued, no expense will be incurred to the Revenue, by appointing a Way Office Keeper at this Village, I beg to recommend the measure for his Lordship's favorable consideration.

General Post Office, Saint John, 10th January, 1844.

SIR,—With reference to the Return which I had the honor to transmit for the information of His Excellency the Lieutenant Governor, on the 22d ultimo, I beg to state, that as the Accounts shew an annual surplus of about two thousand pounds, I consider an explanation as to the cause of this surplus necessary.

His Excellency is aware, that up to the 5th July, the Post Office Department in this Province was under the management of the Deputy Postmaster General of Nova Scotia, to whom the Revenue was paid, and by whose order the expenses were defrayed. Several of the Offices in this Province, as Dorchester, Richibucto, Chatham, Newcastle, Bathurst and Dalhousie, remitted direct to Halifax the several amounts collected, quarterly, without reference to the Saint John Office.

The Postage collected on account of the United States Government, which has averaged about eight hundred pounds annually, and which swelled materially the Revenue arising in this Province, was paid by the Deputy Postmaster General of Nova Scotia, to the Postmaster General of the United States. This will in future be paid by me.

The sum of one thousand one hundred and four pounds ten shillings heretofore paid by the Deputy Postmaster General of Canada, for riding work performed between Fredericton and the head of Temiscouta Lake, is from and after the 5th of April next, by order of His Lordship the Postmaster General, to be provided for by the Revenue collected in this Province.

These two items alone will exceed the sum which appears in the Returns as surplus for the last two and a half years, and the additional expenditure necessary for the support of the augmented establishment at this Office, will create a large deficiency in the Revenue.

I have, &c.

January Sessions, 1844. Gloucester, to wit:

The Grand Inquest of the County of Gloucester, at present in Session assembled, present: That they view with exceeding regret the suspension, during the past year, of the usual Provincial Grant for the support of a Courier between Bathurst and Caraquet, Shippegan, &c., in this County. The interests and accommodation of upwards of two thousand individuals, and several mercantile houses, are intimately involved in this measure, as the employment of this Courier affords the only means of communication to the inhabitants of the lower Parishes with the seat of Government in this Province, and with the regular mail route to Europe.

The Grand Inquest therefore would suggest to the Justices in Session, the strong necessity of representing to His Excellency the Lieutenant Governor, and the other branches of the Legislature, the great injury this County must sustain by being deprived of the services of this Courier, and the strong claim of the inhabitants of Caraquet and Shippegan, &c., that they should participate in the mail accommodation extended to other portions of the Province.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Simonds, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, delivered the following Message:—

"New Brunswick.

"Message to the House of Assembly, 9th February, 1844.

"W. M. G. COLEBROOKE, Lt. Governor.

"The Lieutenant Governor communicates to the House, a copy of the proceedings of the Commissioners appointed under the Act 6 Victoria, cap. 43, to facilitate the negotiation of a Loan to pay off the Public Debt.

"W. M. G. C."

The Documents communicated by the foregoing Message being read at the Clerk's Table, are as follow:—

LOAN TO PAY PUBLIC DEBT.

Saint John, 25th January, 1844.

Pursuant to notice, the Commissioners resident in St. John met this day to open the Tenders received for the Loan; and having first opened a Letter from H. Bliss, Esquire, received by the January Mail, in which were no Tenders, proceeded to open those received at Saint John, copies of which, with the following Letter, were then sent to His Excellency the Lieutenant Governor for his information and decision thereon:—

Saint John, 25th January, 1844.

SIR,—In submitting for the consideration of His Excellency the Lieutenant Governor, copies of our last Letter from Mr. Bliss, dated the 2d January, instant, and of three Tenders received here for the Loan, we respectfully beg leave to draw the attention of His Excellency to a peculiarity in the Tender of the Bank of British North America, which is the lowest by one per cent. per annum, as it proposes to take the Loan redeemable in London, and to pay the amount for the Debentures here, at a rate of Exchange two and a half per cent. below the present current rate of Exchange at this place, and equally below the probable rate at which the Loan, if negotiated with them, will have to be repaid in London, making a "prima facie" loss of £1,750 Sterling in the whole sum, and the possibility of a still further loss in case the rate of Exchange should at any future time during the existence of the Loan, be increased; in addition to this, there is the expense of an Agent, with the risk attending remittances to, and payment to so large an amount, through one over whom the Government of the Province can have but little, if any, control.

It is a disputed point amongst us Commissioners, whether the proposal of the Bank of British North America to pay the money here below the current rate, while it requires the payment of Interest and repayment of Principal, to be made in London, is in accordance with the tenor of the Act, or our advertisement, and whether, without this objectionable condition being withdrawn, the proposal ought to be taken into consideration.

The

The Bank of New Brunswick, by one of their Directors, has proposed to amend their Tender, by offering to take the whole sum of £70,000, instead of £50,000 only, at the rate mentioned in their offer of six per cent. per annum.

The apparent saving by taking the offer of the Bank of British North America at five per cent. in preference to that of the Bank of New Brunswick at six per cent., would be £5,250 on the whole period of the Loan, from which is to be deducted the first positive loss of two and a half per cent. £1,750, and the possibility of further loss by increased premium on Bills, the expense of an Agent, with some extra contingent expenses, which together, we estimated at the outset as equal to about a half per cent. per annum, viz: £2,625, making a sum of £4,375 to be deducted from the apparent gain of £5,250, leaving a saving of only £875 to be set off against the advantage of having the whole transactions conducted in the Province, through an Office under the direct control of the Government and Legislature.

We beg leave to draw the attention of His Excellency to the early period at which the Mail will close for England, viz: Wednesday, 31st January instant, as the Manager of the Bank of British North America is desirous of communicating His Excellency's decision to the Parent Bank as early as possible; and also, as it appears to be necessary to obtain Mr. Bliss' assent to the negotiation, whatever Tender may be accepted.

Should His Excellency conclude to accept the offer of six per cent., on account of the advantages attending the negotiation in the Province, we consider that Mr. Samuel has a claim to have his £5,000 taken in preference to the increase on the Tender of the Bank of New Brunswick.

We are assured by the Treasurer, that the Warrants referred to in the Tender of the Bank of New Brunswick, are within the numbers that must be paid off by the Loan.

Immediately on receipt of His Excellency's decision, we will have the Debentures printed, and filled up, and forwarded to His Excellency for signature with all possible dispatch.

We have the honor to be, Sir, your obedient servants,

The Hon. W. F. Odell, Pro. Secretary.

York, 2d January, 1844.

DEAR SIRs,—Before my departure from Town on the 16th ultimo, in order to attend the Winter Assizes at this place, I inserted the advertisement for the Loan in the several papers, of which copies will reach you by this Mail. I had delayed advertising till then, upon the advice of a firm thoroughly acquainted with Capitalists and the Money Market, and who hoped to induce some of his friends to take the Loan. I had also received applications for information from two quarters, one a Country Bank, the other the Trustees for the New Brunswick Bishop's Endowment Fund, who have now collected nearly £30,000, and who I thought were well disposed to invest the amount in the Loan for the Province. On leaving Town I provided for attendance to be given at my Chambers for certain hours every day, and at all other times notice to that effect was put up on the door. I am now very sorry to inform you, that no Tenders have been received, nor any further applications or enquiries made for the Loan. My last Letters from Town received this morning, give me information down to the hour of posting Letters last night, the first January, after which, of course, no Letters could be expected, making a Tender. If however any should have afterwards been received, they will be forwarded directly to you, without being sent down first to me. I feel however assured, as I have for some time anticipated, that no Tenders will have been, nor were ever very likely to be made here.

The causes of this failure I have already in my former communications alluded to; the Loan was too small to be ever known to or dealt in by the Public. Their prejudices against American securities extend to our own Colonies, on that side of the Atlantic. The Canada Loan, *unguaranteed*, has a preference on the Provincial Revenue over and before the *guaranteed* Loan, and therefore is in a measure, and to a certain extent, guaranteed also. The only chance of negotiating our Loan was by private contract with some individual Capitalist or Company, but there were no powers for doing this, and the mode by Tender was objectionable, as the person making it would be bound for so long a time before the Province was bound to accept, or before its acceptance or rejection could be known. I must add, that had all these objections been obviated, I am much afraid that when the party tendering came to be informed, that not the lowest Tender, but the Tender "most favorable within the terms of the Act," was to be accepted, and that what was "most favorable" depended upon any other considerations than the lowness of the Tender, this information might have had an injurious effect upon the negotiation. As it turns out, however, nothing is to be imputed to this circumstance. You will perceive that I have before me your Letter of the 12th ultimo, together with its enclosures, your Letter to the Secretary of the Province, and his answer.

I believe I may assure you, that this subject has, as well by private means as by public advertisement, been fully brought to the notice of Capitalists in this Country. I have never heard any other objections stated than those above alluded to. The Revenue pledged for the payment of interest and Principal is, I think, considered amply sufficient, and I am unable to impute the failure to any other causes than these I have suggested.

I have the pleasure to remain very truly, dear Sirs, and very respectfully, yours,

H. BLISS.

[Tender No. 2.]

Bank of British North America, London, 3d January, 1844.

To B. Robinson, Esquire, P. T. }
L. Donaldson, Esquire, } *Commissioners.*
John Ward, Jr., Esquire, }
Henry Bliss, Esquire, }

GENTLEMEN,—I am directed to tender, on behalf of the Bank of British North America, the Loan of seventy thousand pounds Sterling to the Province of New Brunswick, in exchange for an equal amount of Debentures (half the amount in sums of £100 Sterling, and half in sums of £500 Sterling each,) to be issued under the recent Act of Parliament, 6 Vic. cap. 43, for facilitating the negotiation of a Loan, and to bear interest at the rate of *five per cent. per annum*, the interest and principal sum of the Debentures to be both payable in London in British Sterling, and the first repayment of £5000 Sterling to take place on the 1st September, 1844.

The amount of the above Loan will be accounted for in Specie or in Bank Notes as may be required, at the Exchange of 6½ per cent. premium, on delivery of the Debentures at the branch of the Bank of British North America in Saint John, New Brunswick, together with the ratification by Mr. Henry Bliss, in London, of the acceptance of this Tender.

If any rate or duty whatever be levied on Specie which may be brought into the Province by the Bank of British North America in anticipation of, or on account of the Loan, the amount levied is to be repaid to the Bank.

In the event of this Tender being accepted, notice thereof is to be given to the Manager of the Branch of British North America in Saint John, New Brunswick, within one month from the 24th January.

I beg to subjoin copy of an opinion given by the Solicitor General Sir W. W. Follett, and by Mr. W. Bovill, by which it will be seen that the consent of Mr. Bliss, as one of the Commissioners, is absolutely necessary to the ratification of the Loan, and that he cannot legally depute any other person to execute the powers vested in him by the Act.

I am, Gentlemen, your most obedient servant,

(Signed) By Order of the Court of Directors,
G. DEB. ATTWOOD, *Secretary.*

Opinion of Counsel.

1st. Whether the three Commissioners at Saint John, whose names appear to the advertisement, have under the terms of the Act above set forth, power to negotiate the Loan in the absence of their brother Commissioner, Mr. Bliss?

Answer.—We are of opinion that the three Commissioners may receive Tenders and act in the preliminary matters, but that they have not power to conclude any arrangement for a Loan without the sanction and consent of the other Commissioner, Mr. Bliss.

2d. Should you be of opinion that the three Commissioners have not the power, whether the difficulty could be obviated by Mr. Bliss authorizing them, in writing, to negotiate the Loan upon such terms as they may upon opening the Tenders think expedient, or by the three Commissioners signifying to him their assent to the acceptance of such terms as they may have agreed on at Saint John, defining them in the communication to him, and requiring his assent thereto?

Answer.—Mr. Bliss could not legally depute any other person to execute the powers vested in him; but we see no objection to any Contract for the Loan, which may have received the sanction of the three Commissioners, and may afterwards have been submitted to Mr. Bliss, and receive his assent.

3d. And generally to advise whether the Act of 6th Victoria, Cap. 43, and the appointment of the Commissioners made under it, are valid, and the Revenues secured by the former, primarily applicable to the repayment of the Loan of £70,000, and Interest?

Answer.—We consider the Act and the appointment of Commissioners valid, and that the Revenues created by the Act will be primarily applicable to the repayment of the Loan and the Interest.

GENTLEMEN,—I herewith enclose you a Resolution of the Board of Directors of this Bank, at a Meeting held this morning, which be pleased to take into consideration.

I have the honor to be, very respectfully, your obedient servant,

THOS. LEAVITT, *President.*

At a Meeting of the President and Directors of the Bank of New Brunswick, on Tuesday, 26th January, 1844,—

Resolved, That the President do communicate to the Commissioners for obtaining a Loan to pay off the Debt of the Province, that this Bank will advance such further sum as may be required to make up the whole amount of the Loan under the Act 6 Vic. cap. 43, on the same terms as mentioned in the Tender made on the 25th instant, and will be prepared to pay such further sum in nine months from this date.

Extract from the Minutes.

Saint John, 3d January, 1844.

SIR,—I have the honor to enclose herewith for the information of His Excellency the Lieutenant Governor, copy of a further proposal for the Loan, handed to me yesterday by Mr. Paten, Inspector of the Branches of the Bank of British North America. My brother Commissioners met me this morning, and we opened it together; and by their desire, I now transmit the copy, with such remarks as my own knowledge of the facts connected with the offer would justify me in making.

Mr. Paten finding that I would not open the Tender, except in the presence of one other Commissioner, and being apparently desirous to discuss the subject, stated the purport of the letter he had given me. To my first remark, that, if the Debentures were made payable here, as I understood his new offer as stated by him to be, one great difficulty would be removed; he immediately replied that the Debentures must be made payable in London, but that the Bank would undertake the agency “gratis;” that they would not take the Debentures payable in Saint John.

The Warrants held by the Bank of British North America include many of the late issue, which, according to the tenor of the 7th Section of the Act, requiring the outstanding Warrants to be paid off in numerical order, would not be included in the amount to be paid off by the Loan.

I also asked for an explanation of the last condition of the new Tender, as to what Public Accounts were expected to be kept at the Bank, and was informed that they did not contemplate a Cash Credit Account for the Treasurer, but that the Duties collected by the Customs, the Treasury, the Receiver General of Casual Revenue, and in short, all Public Monies, should be placed to Account in their Bank.

I have the honor to be, Sir, your obedient servant,

GENTLEMEN,—On the 27th instant I had an interview with His Excellency the Governor on the subject of the Loan of £70,000, Sterling, to this Province, and left with him a proposition with reference thereto, subject to the sanction of the Board of Directors of this Branch, which in some trifling particulars has been by them modified.

I have now to inform you, that with the view of meeting your wishes, as expressed to me in our last interview, that this Bank will, on the Loan of £70,000, Sterling, allow an Exchange of eight per cent., provided that in part payment of this amount the Government are willing to receive all the Treasury Warrants which the Bank may be possessed of, and for the balance of the amount which will be then due, that the Bank will be allowed until the 1st June to import the Specie into the Province.

Also, that this Bank, at its Branch here, will receive from the Province in payment of the Debentures, and interest due thereon, dollars at 4s. 2d. sterling, being equivalent to an exchange of eight per cent., the Bank making these payments to the parties entitled thereto, and delivering to the Commissioners the debentures and coupons or receipts for interest duly discharged, and requiring no commission for these services.

The condition on which these terms are now offered is, that the interest on the Loan shall be five and a half per cent. per annum, and which will be reduced to **“not less than”* five and a quarter per cent. from the time the Executive Government may order the public Accounts of the Province to be kept at the Branches of this Bank.

The Document communicated by the foregoing Message being read at the Clerk's Table, is as follows:—

DISCRIMINATING DUTIES.

(CIRCULAR.)

Downing Street, 28th June, 1843.

(Copy.)

SIR,—I have to desire that you would call the attention of the Legislature of the Colony under your Government to the following statement and suggestions.

The imposition of discriminating Duties on Goods imported into the the British Colonies, when discrimination is made for the protection of some branch of British or Colonial industry, is an office of great difficulty. To the right discharge of it, an intimate acquaintance with the Commercial Treaties and Political Relations between this Kingdom and Foreign States is indispensable. To legislate on such a subject, in ignorance of those Treaties and Relations, would be to render inevitable much serious practicable error.

But in the nature of the case, it is impossible that this knowledge should be possessed in the requisite degree by the various local Legislatures of the Colonies of this Kingdom. They have no means of knowing the state or the objects of pending negotiations, nor even of ascertaining, with absolute precision, the terms of Treaties actually concluded. If they legislate at all on these subjects, they must do so in ignorance of some facts which cannot be safely excluded from consideration.

Neither is it possible that forty distinct Legislatures, having no means of mutual communication and concert, should act consistently with each other on such subjects. The local opinions or interests of each Colony must dictate the laws of each; and the general code of the Empire, compiled from so many different sources, must be at the utmost variance with itself on a subject on which unanimity and consistency are indispensable. In such a state of the law, Her Majesty's Government could not negotiate or treat with confidence with any Foreign State for Commercial purposes; nor could they fulfil such Treaties as might be made. Painful and injurious discussions with those States must arise, and perhaps indemnities and compensations must have to be paid.

For these reasons Her Majesty's Government decidedly object in principle to the assumption by the local Legislatures of the office of imposing differential Duties on Goods imported into the respective Colonies. Parliament having already prescribed the Rules by which such duties are to be discriminated, with reference to the place of origin or of export, to Parliament alone the power of altering those Rules must be reserved. The single exception to this general rule will occur in any cases in which Her Majesty's Government may have suggested to any local Legislature the enactment of any such discriminating Duties. If such cases should arise, the Ministers of the Crown would be able to take the necessary measures for obtaining the subsequent sanction of Parliament for any such innovation.

You will therefore exercise all the legitimate influence of your office, to prevent the introduction into the Legislature of the Colony under your Government, of any law by which Duties may be imposed on Goods in reference to their place of production, or to the place from which they may be exported. In the same way you will exert yourself to prevent the introduction of any law imposing on refined Sugar imported into this Colony, higher Duties in the case of Sugar refined in this Country, in bond, from Foreign Sugar, than in the case of Sugar refined here from British Colonial Sugar.

If unfortunately your efforts should be unsuccessful, and if any such law should be presented for your acceptance, your duty will be to withhold your assent to it. From the discharge of that duty, however unpopular it may be, you will not shrink; for by declining to undertake it, you would only subject Her Majesty's Government, and the Colony itself, to a still more serious inconvenience.

Her Majesty could not be advised to sanction any Colonial Law imposing discriminating Duties, which Her Majesty's Government had not previously recommended, or which Parliament has not expressly established, or enacting such Duties on any terms which Parliament has not prescribed.

The disallowance of any such enactments would therefore be inevitable, and that measure would be attended with far more serious inconveniences than any which could result from your own refusal to accept them. I trust however that there is no good reason to anticipate or to provide against such a contingency.

I have the honor, &c.

STANLEY.

Mr. J. A. Street, from the Committee to whom was referred the subject of the Bankrupt Laws, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Select Committee appointed on the third instant, by Resolution of this Honorable House, to take into consideration the state of the Bankrupt Laws now in force in this Province, and their present and prospective effect upon Public Credit, and the Commercial Interest of the Province, Report—

“That the Committee have had the subject under consideration, and are of opinion, that these Laws are calculated to have a highly injurious effect upon Public Credit, and also upon the Trade of the Province.

“ That

“That the present Laws are greatly in advance of any thing of the kind in the Sister Colonies, and also of the neighbouring States, and in many respects, of the Bankrupt Laws in England.

“That in Nova Scotia, an older and much more populous Colony than this, there is no Bankrupt Law in force, and the Committee cannot learn that any practical evil has resulted therefrom.

“That even in the United States, that populous and enterprising Country, the Bankrupt Acts, which were only passed a few years since, have recently been repealed, *in toto*, from having been found upon trial to be productive of evil, rather than good.

“That in England, where the extensive Commercial operations, and immense amount of capital embarked in enterprising speculations, have made it necessary for the protection of those engaged in Trade, that a system of Bankrupt Laws should be in force, it has been found extremely difficult to make them work,—or in other words, to prevent the remedy from being worse than the disease; and even there, their application is limited for the most part to those engaged in Trade; whereas in this Province they extend to all classes, and are merely limited in amount, by which means all persons owing less than £200, however unfortunate in business or indigent in circumstances, are subject to all the inconveniences of these Laws, while they are deprived of the advantages; a source of well grounded complaint on the part of the small Traders, Farmers and Labourers.

“That in this new country, where Capital is scarce and Credit is given from a reliance upon the youth, strength, and capabilities of the Debtor, rather than upon his present means of payment, the operation of the present laws is to deprive the Creditor of his legal remedy, leaving the Debtor in the full possession of all those faculties which constituted the main grounds of Credit; than which, in the opinion of the Committee, nothing can be more unjust.

“That the Committee, after giving the subject every consideration, are of opinion, that the present Bankrupt Laws, in addition to their injurious effect upon Trade and Public Credit, are calculated to have a highly immoral tendency upon the dealings and transactions between man and man throughout the Province, and to encourage, rather than check, wild speculations. In England, in order to prevent fraud, and to carry out the operation of these laws, it has been found necessary to introduce an additional system of jurisprudence, which is attended with an expense which only an old, extensive Commercial country, like Great Britain, is fit to bear.

“The Committee, under these circumstances, have come to the conclusion, that this Province is too new and too limited, in Capital, Population and Commerce, for the present operation of the Bankrupt Laws with advantage; and therefore recommend, that the Bankrupt Acts now in force in this Province be repealed, so far as relates to all future applications for relief thereunder, with a proviso, however, for allowing all those for whom Fiats shall have been granted prior to the repealing of these Acts, to carry through their proceedings in Bankruptcy thereunder; in order to which the Committee have prepared a Bill to repeal the Bankrupt Laws now in force, under the title of—“a Bill to repeal all the Laws now in force relating to Bankruptcy in this Province,”—which they now submit with this Report.

“All which is respectfully submitted:

“The Committee to whom was referred the Petition of Asa Coy, W. J. Bedell and others, Freeholders and Inhabitants of the Town of Fredericton, complaining of the present accommodation in the Gallery of the House of Assembly, Report—

“That with every wish to afford all possible accommodation to the Public, Your Committee feel themselves restrained by the size of the Assembly Room, and the difficulty which would necessarily attend its present enlargement, from making such recommendations on the subject as they could desire; but are of opinion, that the accommodation may be improved and considerably augmented by the following means, viz:—

“By making a few small openings, close to the ceiling, in the partition which separates the Gallery from the main Hall of the Building, and inserting tin pipes of about three or four inches diameter, to lead from the Gallery to within two feet of the ceiling of the Hall, a free ventilation, not only of the Gallery, but of the whole Assembly Room, will be established.

“By removing the Furniture at present under the Gallery, and erecting a double row of benches, to be of unequal height, and separated from the body of the House by a slight hand rail of rod iron, placed immediately in rear of the columns, sitting can be obtained for a considerable number of persons.

“Your Committee, in the event of these suggestions being adopted by the House, recommend that each Member be authorized to issue daily two cards of admission to the new benches.

“Your Committee would further suggest, that, in their opinion, one or more Galleries might be obtained by raising the ceiling of the Assembly Room, so as to include the
Rooms

Rooms used as Jury Rooms, above; and recommend that a Committee be appointed to receive estimates for such alterations, and report the same to the House.

“Respectfully submitted.

“From the Petition, accompanied by a document from the Crown Land Office, it appears that the Petitioner had cut 3500 tons of Sapling Pine Timber, for which he was charged at the rate of 2s. per ton, amounting to £350:—That when the Timber was carried to market, he could not effect the sale of it at a price beyond from 4s. to 5s. per ton:—That a proportion has, however, since been sold at from 6s. 3d. to 10s.; and that a large proportion remains still unsold:—That in imposing the Duty on Timber, ten per cent. on the value of the article in market appears to be the governing principle of the Legislature:—It also appears that the Petitioner is still indebted to the Crown on account of the said Duty, in the sum of £257 15s.; having, in consequence of the great depreciation in the value of the Timber, been unable to pay.

“Under all the circumstances, Your Committee conceive that relief to the extent of one third of the whole amount, equal to £116 6 8, should be made to the Petitioner; this amount to be deducted from the Bond held by the Receiver General against the Petitioner.

COMPOSITION OF LEGISLATIVE COUNCIL.

Fredericton, N. B., 15th April, 1843.

MY LORD,—I have the honor to enclose an humble Address to the Queen from the House of Assembly, which I have been requested to forward to Your Lordship, to be presented to Her Majesty.

Your Lordship is aware of my opinion, that the Composition of the Legislative Council has not given to that Body all the weight which it is desirable it should possess.

In the course of the Session, a Bill was passed by the Assembly, to establish a Property Qualification for the Members of the Legislative Council, by whom the Bill was rejected.

A Return of the Legislative Councillors will be found at page 66 of the Blue Book, for 1842, specifying the dates of their appointments, and the offices which are held by those who exercise other functions.

I have, &c.

[No. 170.]

Downing Street, 11th July, 1843.

SIR,—I have laid before the Queen the Address of the House of Assembly of New Brunswick, (enclosed in your Despatch, No. 27. of the 15th April last,) recommending certain measures for the reconstruction and improvement of the Legislative Council of the Province. Having maturely weighed this Address, Her Majesty's confidential advisers have humbly submitted to the Queen the following opinion on the subject to which it refers.

The House of Assembly insist that the Legislative Council of New Brunswick ought to be composed of persons connected with all the great Religious Denominations, and with all the more considerable social interests of the Province;—that they should be men of independent property, and of unimpeached personal reputation; that any Member becoming bankrupt or insolvent, or a public defaulter, should immediately vacate his Seat;—that some period should be prescribed, beyond which, no Legislative Councillor should be permitted to absent himself from his duties without incurring a similar forfeiture;—that of the whole Body, a decided majority should be persons exempt alike from any direct influence of the Executive Government, and from any dependence on the popular branch of the Local Legislature;—and that the entire number of Legislative Councillors holding Office at the pleasure of the Crown, should never be greater than might be necessary for the conduct of the business of the Government in that House.

From this Address, and from your own Despatch transmitting it, it would appear that there is little conformity between these principles and the existing composition of the Legislative Council of New Brunswick. It is maintained in the Address, and it appears to be virtually acknowledged by yourself, that of the present Members, an unduly large proportion are holders of Offices at the pleasure of the Crown;—that such official persons constitute a majority of the Members usually present at the Meetings of the Legislative Council;—and that there are some considerable Religious Denominations and social interests in the Province with which no Member of that Body has any immediate connexion. The absence of any provision for vacating the Seats of Members in the various cases already mentioned, is a fact which demands no proof.

Under

Under these circumstances, Her Majesty's Government have humbly submitted to the Queen their opinion that it would be proper to revise the Instruments by which the Legislative Council of New Brunswick is constituted. We have recommended that on that revision the number of Legislative Councillors should be increased to twenty one;—that of that number seven only should be persons holding Office at the pleasure of the Crown, and that the Quorum should be fixed at eight. We have further advised Her Majesty that provision should be made for vacating the Seats of Members either in the case of Bankruptcy or Insolvency, or in any case where a Member should be a defaulter, or should be convicted of any of the crimes, which in the technical sense of the word are distinguished as infamous. To these Rules we have proposed that another should be added, for rendering void the Seat of any Member absenting himself, whether with or without leave, after the lapse of a certain prescribed period.

Thus far it has appeared to us that no practical difficulty would arise in giving effect to the views of the Assembly; but it may not be equally easy to adopt their suggestions as to the qualifications which they desire that every unofficial Member of the Legislative Council should possess. To find fourteen gentlemen all at once able and willing to serve in that House, all independent in their fortunes, and all so connected with the social and Christian Denominations of the inhabitants, as that no such interest or denomination shall be without some one Patron or Representative there, is a problem of which it may not be possible to discover any perfect solution. The utmost that can be promised or attempted is, that in the selection of Members, these recommendations will be borne in mind, and will be acted upon as far as may be found practicable.

The House of Assembly further recommend that no Councillor should hold his Seat except so long as he may possess a certain Proprietary Qualification. To this recommendation the Queen has not been advised to accede. Her Majesty's Government have not thought it right that the Royal Prerogative of selecting Legislative Councillors, should now, for the first time, be narrowed by such a restriction, or that such a precedent should be established in opposition to the practice, which, during the last two centuries, has uniformly prevailed throughout the widely extended Colonial possessions of Great Britain.)

Such being the advice which the Ministers of the Crown have tendered to the Queen, I have received Her Majesty's commands to instruct you to signify to the House of Assembly of New Brunswick, that Her Majesty has been graciously pleased to approve and to adopt our recommendations; and that the necessary instruments for carrying them into effect, will be transmitted to you before the next Session of the General Assembly of the Province. The Queen further commands me to convey through you to the House, the assurance of the gratification with which Her Majesty has received the renewed expressions of loyalty and affection contained in this Address. Relying implicitly on the attachment of her faithful Commons of New Brunswick to the Constitution under which they live, it is peculiarly grateful to the Queen to find, that the changes which they propose for her acceptance are entirely in the spirit of that Constitution, and appear to Her Majesty well calculated to promote the great ends, with a view to which it was established, by Her Majesty's Royal Predecessors.

I have, &c.

(Signed)

STANLEY.

His Excellency Sir Wm. Colebrooke.

[No. 215.]

Downing Street, 30th December, 1843.

SIR,—In my Despatch of the 11th July, 1843, No. 170, I informed you that Her Majesty's Government had humbly submitted to the Queen, their opinion that it would be proper to revise the Instruments by which the Legislative Council of New Brunswick is constituted. That revision was postponed only until I should be in possession of the additional intelligence which your Despatches of the 20th October, 1843, No. 100, and of the 14th November, 1843, No. 109, have conveyed to me.

On proceeding to execute the intention which I had thus announced, aided by your two last mentioned Despatches, it has been gratifying to me to discover that it will be practicable to fulfil the pledges contained in my Despatch of the 11th of July, without incurring the inconvenience of introducing any change in the Royal Commission and standing Instructions under which you are acting.

1. The first change to be made is that of increasing, from fifteen to twenty one, the total number of the Members of the Legislative Council. In exercise of the power reserved to Her Majesty by the Royal Commission, the Queen has partially effected this alteration, by issuing, under the Royal Sign Manual, the four accompanying Warrants for the appointment of four of the additional Councillors.

2. The rule, that of the twenty one members of the Legislative Council, seven only should be persons holding office at the pleasure of the Crown, being a rule in restraint of the Royal Prerogative, and obligatory on the Crown itself, is as fully established, and is as binding when laid down in Her Majesty's name, in pursuance of the commands which the Queen has been pleased to lay on me for that purpose, as if it were incorporated in the Royal Instructions.

3. That the Quorum should be fixed at eight, is a rule, the repetition of which would be superfluous, as it is already to be found in the Royal Commission.

4. As the Commission already authorizes you, on sufficient cause, to suspend any Member of the Legislative Council, and as they all hold their offices at the Queen's pleasure, the principle that every seat shall be vacated on proof that the holder has become Bankrupt or Insolvent, or a public Defaulter, or guilty of any infamous crime, is a rule which, without any change in that Commission,

may be effectually established. If any such case should arise, you will immediately exercise the power of suspension already vested in you, nor will the Queen hesitate to confirm any such suspension, by the final removal of the person affected by it, if the fact on which your original order may proceed, shall be substantiated.

5. The last change contemplated in my Despatch of the 11th of July, regards the effect of the unauthorized or protracted absence of Members of the Legislative Council. On referring to your present Instructions, you will however see that all that is necessary for securing this object is a close adherence to the provisions of them.

Whenever a change in the office of Governor General may render indispensable the issuing of a new Commission and Instructions, care will be taken that they should be framed in strict accordance with the views and intentions explained in my present Despatch, and in that of the 11th of July. In the meantime you will find that there is nothing in the existing Commission and Instructions which could in any degree obstruct or interfere with the complete fulfilment of Her Majesty's gracious purposes. For the more complete elucidation of them, you will communicate this Despatch, and my Despatch of the 11th July, to both Houses of the Provincial Legislature, in compliance with any Address for the production of them which they may present you.

I have, &c.

[No. 102.]

Fredericton, N. B., 14th November, 1842.

SIR,—I have the honor to enclose to your Lordship copies of a Communication made to me by the Treasurer, respecting an agreement into which he had entered with Mr. Hammond of St. John, for exchanging a quantity of British Copper Coins for other Coins to be obtained in England, which will more readily circulate in this Province.

The British Copper was obtained and sent out by Mr. George Baillie, under a grant of the Provincial Legislature, but it has not been practicable to circulate it without loss to the Province, and it is now proposed to exchange it for a special Coinage at Her Majesty's Mint, Mr. Hammond having engaged to furnish a design for the Die.

With the object of facilitating the fulfilment of this contract, I have the honor to request, that authority may be given to the Commissioners of Customs for the British Coins to be landed in England for free circulation there, and for the new Coins obtained in Exchange for them, to be exported free of Duty.

The quantity shipped on board the British Queen, William Dudne, Master, for London, consigned to William Hammond, is one hundred and seventy Boxes, marked V R, containing English Copper to the value of £2,850 Sterling, for which he is to pay in new Coin, (weighing 26 to the lb.) on or before the 1st of July next, £3,420 Currency, of the proposed Copper.

I have, &c.

EXTRACT OF A DESPATCH FROM LORD STANLEY TO SIR WILLIAM COLEBROOKE.

Downing Street, 27th December, 1842.

SIR,—I have received the duplicate of your Despatch, No. 102, of the 14th of November, reporting that Mr. Hammond has entered into an arrangement with the Provincial Government, to exchange a quantity of British Copper Money for other Coins to be specially struck at the Mint, for circulation in New Brunswick, according to a design to be furnished by him, and requesting that the Board of Customs may be authorized to allow the British Money to be landed in England for free circulation, and the new coinage obtained in exchange to be exported free of duty.

Mr. Hammond has not yet presented himself at this Department, neither have the enclosures to your Despatch been received.

I lost no time, however, in referring the subject for the consideration of the Lords Commissioners of the Treasury. Their Lordships have informed me, that although any definite decision must necessarily be deferred until after the arrival of the explanatory documents to which your Despatch refers, they are by no means prepared to give any sanction to the special coinage contemplated, nor that countenance to the scheme in favor of New Brunswick, which has been refused in the cases of Canada and Prince Edward's Island.

I beg to call your attention to the precautions provided for in the General Regulations of the Colonial service, as well as in the special instructions contained in the Circular Despatch issued from this Department on the 31st August, 1836.

I have, &c.

[No. 4.]

Fredericton, N. B., 26th January, 1843.

MY LORD,—I have had the honor to receive Your Lordship's Despatch, No. 119, of December 27th, and from the objections entertained by the Lords of the Treasury to the execution of the Contract with Mr. Hammond, for the supply of Copper Coin of the Halifax value, in exchange for the British Copper sent home by him, I have judged it advisable to cancel the agreement with that Gentleman.

In strictness, the transaction would hardly have involved an infringement of the regulation to which Your Lordship has called my attention, as the Halifax Copper, as well as a variety of other Coins, are imported for circulation by the Merchants, and are necessarily received by the Public Departments.

The Assembly having granted £3000 to obtain a supply of British Coins, an attempt was made to circulate them, but it was found impossible to effect this except at the Currency rates, which would have involved a loss of one fifth, and from the inconvenience of keeping this sum out of circulation under the pressing demands of the Public Treasury, it became necessary to dispose of these Coins, which could only be done without loss, by sending them to England in exchange either for Halifax Coins in circulation, or for others of the same value.

The practice of attaching English denominations to the Spanish Coins, which were formerly the medium of circulation, having been the origin of what is called Currency in the Colonies, has left these Provinces without any Standard, and as the United States have adopted the Dollar with a Copper Coinage of Cents, (being the hundredth part of a Dollar,) the simplicity of the decimal division has recommended them for adoption as the Money of Account. Unless British Sterling were declared to be the Money of Account, a very slight alteration of the English Copper would adapt it to the Dollar circulation. It is highly important to the poorer classes, that they should not be subject to the

the uncertainty and loss to which they are at present exposed from the base and depreciated Copper in circulation, and which it would be impracticable to prohibit, until some Coins of determinate value may be obtained.

On the whole, it is much required that the subject of the Provincial Currency should be taken up, with a view to its definite adjustment, by reference either to the British or American standard.

I have, &c.

(Signed)

W. M. G. COLEBROOKE.

P. S.—It will be obvious to your Lordship, that to have issued British Copper, in the present state of the Currency, would not only have subjected the Provincial Treasury to the loss of one fifth, but have led to the immediate exportation of the coins, for the sake of the profit to be made from their sale in the United States.

Downing Street, 15th March, 1843.

SIR,—I have received your Despatch, No. 4, of the 27th January last. Your determination to cancel the Contract entered into with Mr. Hammond, for the supply of a Copper Coinage for circulation in New Brunswick, is approved.

Her Majesty's Government fully concur in the views which you entertain, with regard to the expediency of some definitive adjustment of Currency of New Brunswick; and in their opinion, the desired change would be most advantageously effected by the substitution of some determinate standard of value for the present money of account.

The Legislatures of Canada and Nova Scotia have taken very desirable preliminary steps in this respect, by the adoption of fixed valuations of the Currencies of account in the respective Provinces, with reference to British Sterling Money, and to Foreign Coins of recognized intrinsic value; while in several of the West Indian Colonies, British Currency has been substituted for the nominal Currency of account; and in British Guiana, the Spanish or South American Dollar has been adopted as the money of account at its intrinsic and legalized value of 4s. 2d. as compared with British Sterling, which, at the same time makes the British half penny equivalent to the cent or the 100th of the dollar.

Lieut. Governor Sir William Colebrooke.

Treasury, Saint John, 10th February, 1841.

SIR,—His Excellency the Lieutenant Governor having directed me to furnish him with all the particulars relating to the importation and issue of the Copper Coin for this Province, I have the honor to report, that in the Autumn of 1841, I received from on board the ship *Orbit*, from London, 200 boxes, containing each fifteen pounds of Sterling Copper Coin, supplied to George Baillie, Esquire, Agent General for Crown Colonies, by the Master of the Mint, by order of the Lords Commissioners of Her Majesty's Treasury, as appears by Mr. Baillie's Letter, dated London, 17th August, 1841. In the spring of 1842, I commenced the issue of this Coin, by the commands of His Excellency; but finding that it was rapidly disappearing from circulation, and that many were seeking for it to re-ship to England, for the sake of the profit arising out of the difference of Exchange, I suggested to the Government the expediency of disposing of it, if a premium could be obtained, to parties having remittances to make to Great Britain. Having received orders to endeavour to carry my plan into effect, I waited on and communicated to the principal dry good importers the above proposal, but the difficulty of getting so large an amount put into circulation, deterred all from making me any offer for the Copper above its nominal value in currency. About four months after this (in November, 1842), Mr. William Hammond (who was one of those to whom I had applied to purchase the Copper) handed me a written proposal to the following effect, viz., to give an advance of twenty per cent. on the amount of Sterling Copper remaining on hand, on condition that the Government guaranteed him that it should be suffered to be re-landed in England for circulation, and that he would repay the same with the advance, in a new Coin of Pence and Halfpence, to be manufactured of pure Copper, and agreeably to any design that should be furnished him. I submitted this offer to the Lieutenant Governor in Council, from whom I received directions to deliver the Sterling Copper remaining, viz., £2,850, to Mr. Hammond, on receiving from him a good and sufficient Bond, with security, for the fulfilment of the conditions stated in his proposal. The Bond was drawn by William End, Esquire, Queen's Counsel, for the payment of £3,420, (being 20 per cent. premium on £2,850 Sterling,) in new Copper Coin, of the weight of twenty six Pence or fifty two Halfpence to the pound avoirdupois, to be made of pure Copper, on or before the 1st of July, 1843. Mr. Hammond fulfilled his contract, by delivering to me 315 boxes, containing the prescribed sum, on the 1st May, 1843, at which time I delivered up to him his Bond.

As the payments from the Treasury are required by the contract with the Bank of New Brunswick, to be made by checks on that Bank, the only opportunity for issuing the Copper was in the trifle necessary for change at the counter, in taking Duties, which would not exceed ten pounds in the year; and as the Province would be losing a large sum in interest, and be obliged to pay for storage so long as the Copper remained locked up, which at the same time would defeat the object of the Act requiring

requiring the Coin to be obtained for circulation, I recommended that the holders of Warrants on the Treasury might have the option of receiving the amounts in the new Copper Coin, or of having their Warrants placed at interest, as was otherwise necessary, from the state of the Provincial Finances. This recommendation was complied with, and during the first month about £150 was paid out for small Warrants; but finding that the shopkeepers and traders generally would receive the Copper in payment of goods, groceries, &c., in large sums, (say from £10 to £30 at a time) the demand for payment of Warrants in copper became so great, as to keep me extremely busy in supplying the wants, not only of the persons in whose favor the Warrants were first issued, but of Dealers generally, who preferred taking the Copper in preference to submitting to a discount on the Warrants in their possession; the consequence was, an issue in the second month of £850, and in the third month of £900 of the Copper, and even as late as the beginning of September, I issued Copper Coin to several of the Traders in this City in payment of Warrants at their own request. The only issue since the middle of September was shipped to the Grand Lake, for the payment of Schools.

The object, as I understand, in obtaining a proper Coin for this Province, was to supercede the spurious Coinage then in use; and if this could be carried into effect by the exclusion of the Nova Scotia and other inferior Copper from circulation, it is generally admitted that the quantity of the New Brunswick Copper which has been issued would not be found to be by any means excessive.

I have the honor to be, Sir, your obedient servant,

The Honorable Mr. Wilmot, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

A Report from the Province Treasurer, relative to the means requisite for the Protection of the Revenue.

The same being read at the Clerk's Table, is as follows:—

PROTECTION OF REVENUE.

(Copy.)

Treasury, Saint John, 12th February, 1844.

SIR,—His Excellency the Lieutenant Governor having called on me to state my views, as to the necessary means requisite for the protection of the Revenue in the several Sea Ports of the Province; and also along the Boundary Line dividing New Brunswick from the United States of America, I have the honor to report as follows:—

County of Charlotte.

As this County borders on the United States, it has for many years been supplied with a large proportion of Revenue Officers, and although the amount of Revenue collected is not proportionate to the expense of collection. &c., the latter being about one third of the gross Revenue in 1843, I question if it would be safe to make any material reduction in the preventive Officers at present employed.

County of Saint John.

The Out-Door Establishment at the Port of Saint John, paid by the Province, consists of a Tide Surveyor at £150 per annum, and eight Tide Waiters, with from four shillings to five shillings each per day, making, together with the expense of wear and tear of boats, &c. about £850 per annum, in addition to those on the Establishment of the Customs. The small harbours along the coast to the East and West of this Port, render it necessary frequently to employ some of these men, in a schooner boat kept for this purpose, to visit these places in looking after smugglers. At some seasons the vessels in Port, with cargoes of dutiable goods, are so numerous, that the whole of the men in the Customs and Treasury Departments are not sufficient to afford a Tide Waiter to each vessel while discharging her cargo; this is remedied by the temporary employ of persons for the least responsible duties, but the smugglers usually take advantage of such periods to run in liquors and other dutiable goods.

If the Province duty on articles seized and sold by the Customs were again allowed to the seizing Officer, it would enable him to pay for informations which otherwise he could not obtain, as the share

of a seizure, after paying expenses and duties, would seldom leave even a trifle for this purpose. With the present moderate duty on Spirits, if this bounty were granted, the risk of smuggling would be too great to be followed with any expectation of being able to undersell the fair trader. I would therefore strongly recommend the continuance of the present numbers at Saint John, and a restoration of the bounty to the seizing Officer of the Province duty on articles seized and sold by the Customs.

County of Westmorland.

As a large portion of the trade of this County consists in the exportation of Plaister of Paris and Grindstones to the United States, and the import in return of the produce and manufactures of that Country, the want of a convenient Free Port of entry greatly increases the inducement which high duties create, to land their return cargoes clandestinely. If the Customs duties are paid at all, Nova Scotia generally receives the benefit of them, as an entry at the Free Port at Amherst causes less delay than to run into West Isles or Saint John, on the voyage back from Boston, or Ports further South. If a Free Port were established at Dorchester Island, the excuse, at least, of smuggling, would be removed, as the central and convenient situation of this place, would not cause the delay of more than a tide, to whatever part of the County bordering on the Bay of Fundy the Vessel's cargo might be destined. If this were decided on, I would recommend that the Sub-Collector should be the only Deputy Treasurer at this Out Bay, to collect Provincial duties, and that the present Deputy Treasurers, Carter at Dorchester, and M'Almon at Hopewell, be employed, with adequate salaries, as out-door Officers under the Sub-Collector, to prevent illicit traffic. They are both thoroughly well acquainted with the County, and are active zealous Officers.

Bay Verte and Shediac, in this County, are not provided with Custom House Officers, nor is there at present sufficient trade at either place to remunerate the expense of such an establishment. Still I think that if the offices of Sub-Collector and Deputy Treasurer were combined in one person, at each of these Ports, at moderate salaries, present facilities for trade would be afforded to the inhabitants, and in a few years the Province would be benefited by an increasing Revenue from this portion of the County.

Kent, Northumberland and Gloucester.

The Ports in these Counties, bordering on the Gulf of Saint Lawrence, are at so great a distance from the nearest foreign Port, that if illicit trade be attempted, it must be carried on in Vessels of considerable burthen, which so greatly increases the risk of detection, as of itself almost to afford a protection. Still I have reason to believe, that occasionally inferior French Liquors are smuggled by means of Fishing Vessels from Saint Pierre's in Newfoundland. The necessity of a legal entry in case of an importation from Nova Scotia, for the sake of obtaining the drawback in that Province, protects the Revenue from much smuggling in that quarter. I am of opinion, that two out-door Officers at Miramichi, and one at each of the other Ports of Richibucto, Bathurst and Caraquet, would, with the active assistance of the Deputy Treasurers, be sufficient to protect the Revenue along this coast.

County of Restigouche.

The want of a Custom House at Mission Point, or its vicinity, on the Canada side of the Restigouche River, affords great facilities for smuggling into Campbellton and its neighbourhood. Vessels with cargoes from the United States, lie here at anchor beyond the control of the Customs at the Out-Bay of Dalhousie, and without coming to an entry, retail quantities of Liquors and other dutiable goods, which are carried to either shore by the purchasers, clandestinely, in such small quantities, as greatly to increase the difficulties of detection and punishment. If through a representation to the Canadian Government, an arrangement could be made for the mutual protection of the Revenues of both Provinces, I would recommend merely another Tide Waiter at Campbellton, in addition to the one now at Dalhousie.

Boundary Line.

The difficulties attending the prevention of smuggling across the Line dividing this Province from the United States are very great, especially during the continuance of high duties. The numerous Roads that now branch off from the Main Road leading from Houlton to Woodstock, suggest the propriety of removing the place of entry from the Village of Woodstock to a station on the Houlton Road, contiguous to the Boundary Line. I would also recommend the appointment of an Officer at the Restook, with similar powers to the Sub-Collector and Deputy Treasurer at Woodstock, as the Road from Fort Fairfield is now sufficiently passable for the carriage of heavy loads of goods. Provision might also be made for the future establishment of a place of entry at some point above the Grand Falls, for supplies that may be brought by the way of Fish River, and a preventive Officer at the Falls to detain any foreign articles in their passage down the River, that had not been duly entered at the Office above. Two of the principal lines of smuggling are, by the Road from Saint Stephen to Fredericton, and through the Schoodiac Lakes down Eel River. I would therefore recommend that active preventive Officers be stationed on these routes; and should the additional places of entry above suggested be approved of, it will be necessary to make a trifling amendment to the 36th and 37th Sections of the Act 6th William 4, cap. 4.

I have the honor, &c.

(Signed)

B. ROBINSON, P. T.

The Hon. W. F. Odell, Province Secretary.

On

On motion of Mr. Allen,

That the House proceed to the Order of the Day to go into Committee of the whole on the Draft Address to His Excellency Sir Charles Theophilus Metcalfe, Baronet, Governor General of British North America—

The Order of the Day being read, as well as the Order enlarging the same, the House according thereto resolved itself into said Committee.

Mr. Palmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Address referred to them under their consideration, had made progress therein, and he was directed to ask leave to sit again to-morrow.

Ordered, That the Report be accepted, and that the House do to-morrow, in Committee of the whole, resume the consideration of the said Address.

The Honorable Mr. Simonds, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House the following Documents:—

Report from George P. Peters, Esquire, M. D., Provincial Vaccine Surgeon at Saint John for the past year:

Communication from Isaac Woodward, Esquire, one of the Commissioners for superintending the African School in the City of Saint John, accompanied by an Account of the expenditure of the amount appropriated for the support thereof, together with Reports shewing the state of the said School.

A Message from the Legislative Council.

Mr. Dibblee, Master in Chancery, informed the House that the Council had agreed to A Bill to authorize the Justices of the Peace for the County of Kent to levy an assessment to defray the contingent expenses of the County: and

A Bill to authorize the Justices of the Peace for the County of Charlotte to make further provision for the payment of the Treasurer of that County, Without making any amendments thereto.

Mr. Partelow, from the Committee appointed on the tenth instant to take under consideration the matters communicated to the House by His Excellency the Lieutenant Governor, relative to the Act of last Session, for obtaining a Loan for the payment of the Public Debt, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Select Committee to whom were referred the various Documents connected with the proceedings of the Commissioners appointed under the Act of Assembly, ‘to facilitate the negotiation of a Loan to pay off the Public Debt,’ having had the same under their consideration, offer the following Report:

“That they are of opinion neither of the Tenders handed in to the Commissioners on the twenty fifth January last, the time prescribed for receiving them, with the exception of that of Mr. Samuel, for £5,000, is in strict conformity with the Act.

“That the subsequent Tenders made are also not in accordance with the Act, but that the offer of the Bank of British North America, if it had been in accordance, would have been much the most advantageous to the Province.

“That by the terms of the Act, the whole authority of effecting the Loan devolves upon the Commissioners, subject nevertheless to such instructions as they may from time to time receive from the Executive Government; and the Committee therefore recommend that an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to direct the Commissioners, resident in this Province, to open a new negotiation with the Branch Bank of British North America and the Bank of New Brunswick, being the only two who have tendered for the whole sum, and to close the same on the twenty fourth of February current, accepting the Loan from the Institution making the lowest and most advantageous Tender. The debentures to be issued either in Sterling Money or Currency, and a sufficient guarantee taken, that no charge for paying them off, if issued in Sterling Money, and payable in London, be made against the Province. The interest to cease in London, on the deposits of the respective Instalments from time to time being made at some place to be agreed upon at Saint John.

" The Committee deem it proper to add, that a proposal from the Bank of British North America, in explanation of their second offer, and omitting conditions, which in the latter the Committee considered repugnant to the Act, has been laid before them; but the Committee felt themselves bound to confine their Report to the consideration of the papers specially referred to them by the House.

" The Committee, in conclusion, cannot avoid expressing their surprise at the high rate of interest demanded on so desirable an investment, even when reference be had to the lowest Tender, and they cannot but hope, that the new negotiation contemplated, will produce more advantageous results.

" Respectfully submitted.

" J. R. PARTELOW,
J. A. STREET,
JAMES BROWN,
CHARLES FISHER,
WILLIAM END.

To His Excellency the Right Honorable Sir CHARLES THEOPHILUS METCALFE, Baronet, Knight Grand Cross of the Most Honorable Order of the Bath, one of Her Majesty's Most Honorable Privy Council, Governor General of British North America, and Captain General and Governor in Chief in and over the Provinces of Canada, Nova Scotia, New Brunswick and the Island of Prince Edward, and Vice Admiral of the same.

The Humble Address of the House of Assembly of New Brunswick.

MAY IT PLEASE YOUR EXCELLENCY,

WE, the Representatives of the People of New Brunswick, in Parliament assembled, deem it a duty we owe alike to Your Excellency, and the loyal constituency of this Province, to express our high admiration of the Constitutional principles promulgated by Your Excellency in the recent memorable conflict with Your Excellency's late advisers.

If this had occurred in a Colony unconnected with British North America, we might have abstained from a declaration of our sentiments; but considering ourselves as a portion of Your Excellency's Government, we cannot refrain from offering an assurance of our firm determination to uphold Your Excellency in maintaining the Prerogatives of the Crown, invaded, as we conceived them to have been, by the extraordinary claims of your late Council.

We appreciate too highly the inestimable blessings we enjoy under our benign Government, where the rights and privileges of all are well known and defined, to disregard any attempt at infringement, whether it be aimed at the Crown or the People; and we therefore hesitate not to express our firm belief, that if the extravagant demands made upon Your Excellency had been granted, Monarchical Institutions on this Continent must soon have ceased to exist.

We

We indulge the confident expectation, that the noble stand Your Excellency has taken, will meet the approbation of our Most Gracious and Beloved Queen, and that the loyal People of British North America will be found ever ready to rally round Her Majesty's Representative, in maintaining principles so conducive to the happiness of the subject, and the safety, honor and dignity of the Crown.

EXPORT DUTY ON TIMBER.

(Copy)

[No. 119.]

Fredericton, N. B., 29th December, 1843.

MY LORD,—Referring to my Despatch, No. 103, of the 27th October, I beg leave to report to your Lordship, that the Executive Council, at their late meeting, found it to be necessary to take measures for reducing the expenses incurred in protecting the Crown Timber in the Forests.

The charges incurred in employing a number of persons to prevent trespasses on the Crown Lands, to seize the Timber cut without License, and to keep charge of it until disposed of at the Ports of Shipment, would nearly absorb any Revenue which would be derived from its sale; and from the great difficulty in discriminating between the Timber cut on the Lands of the Crown and of other Proprietors, as well as in distinguishing it from the American Timber, the prospect of being able to realize the Revenue in the ensuing Spring, will mainly depend upon the sanction of Your Lordship being given to the passing of an Act in the ensuing Session, for imposing an Export Duty on all Timber, without exception, under the provisions of the Act, No. 1432.

The practice adopted in the last season, by the American and other Lumberers, of floating their Timber down the Rivers, without making it up into rafts, has greatly increased the difficulties of inspection and control, and the Council are extremely anxious, that your Lordship's sanction to the passing of the Act in question, should be received in time to admit of its going into operation in the ensuing Spring, when the opening of the Rivers will bring down large quantities of Timber, which has been cut during the Winter, by parties who have speculated on the inability of the Government, without incurring great expenses, at present, to protect the interests of the Crown, and to collect the Revenue.

I have, &c.

[No. 222.]

Downing Street, 30th January, 1844.

SIR,—I have received your Despatches, Nos. 103 and 119, of the 27th October and 29th December last, in which you request permission to obtain the enactment, in the approaching Session of the Legislature of New Brunswick, of an Act, without a suspending clause, for the imposition of a Duty on all Timber exported from the Province.

Her Majesty's Government are disposed to regard with great jealousy, any disposition in the Colonies to levy new Export Duties upon articles which are the subjects of protective arrangements under the British Tariff, by which arrangements this Country foregoes Revenue for the advantage of the Trade and Industry of the British Possessions abroad; and this jealousy would operate with greater force, if it were to be found that the inclination to improve or augment such Duties was general.

In the present instance, however, the proposed Export Duty appears to be intended as a substitute for the Tax on Timber, now in operation under the designation of Crown Licenses, and the change

is

is expected to yield an increase to the Revenue, without enhancing the price of the article to the consumer. Under these circumstances, and advertng to the necessity of placing the Finances of the Province on a sound footing, you are at liberty to introduce into the Legislature a Bill, without a suspending clause, similar to the one which was passed in its last Session, excluding the clauses objected to by Her Majesty's legal advisers, and with a modification of the section which relates to the employment of the Customs Officers in the enforcement of the Tax. The fifth section of the Act of last year expressly prohibited those Officers from granting to any Vessel laden with Timber, &c., for exportation, a clearance to sail from any Port in New Brunswick, until a certificate of payment of the Export Duty, from the Treasurer or Deputy Treasurer, should be produced. This Regulation would be in direct contravention of the provisions in the Imperial Act of the 3d and 4th Will. the 4th, cap. 59, which requires the Officers of Customs, upon compliance with the regulations therein laid down, to issue the necessary certificate of clearance; and therefore, although Her Majesty's Government would be willing to direct those Officers to afford every proper assistance for ensuring the due collection of the contemplated Duty and the prevention of smuggling, their co-operation must be confined to services in strict conformity with the terms of the Imperial Statute.

As it is doubtful what may be the real effect of the proposed change of system, I have to desire that you would inform me, after the new law shall have been six months in operation, whether any enhancement of the natural price of Timber, which may be caused by the Export Duty, is estimated by competent judges as greater than that caused by the Crown Licenses.

I have, &c.

(Signed)

STANLEY

Lieutenant Governor Sir William Colebrooke.

"Also the Petition of James Blackhall, Acting-Sub-Collector at Shippegan and Caraquet, praying for an increase of Salary:—This Petition is not authenticated by the Collector of Saint John, and the Committee are therefore of opinion that it cannot be recommended, and for the further reason, that there should be no increase to the expense of the Custom House Establishment in the Province.

"Also the Petition of James Kirk, of the City of Saint John, Merchant, praying for a return of Duty on Rum destroyed by Fire in the Queen's Warehouse in 1841:—The Committee of Trade in 1843, recommended the prayer of a similar Petition on this case, which recommendation we concur in.

"Also the Petition of Sancton and Crookshank, of the City of Saint John, Merchants, praying a return of Duty on Wool imported by them in July, 1841, and exported to Halifax in July, 1843; and are of opinion that the Duty, amounting to £3 10s., should be returned.

"Also the Petition of R. W. Crookshank, James Kirk, and seventy three others, Merchants and Traders of Saint John, praying that the Duty on Auction Sales be repealed or reduced:—The Committee are not able to discover that the Auction Duties have any effect upon the Trade of the Province, and therefore beg to recommend this Petition to the consideration of the whole House.

"Also the Petition of Andrew Scott, Tallow Chandler, praying a return of Duty paid by him on rough Tallow imported into the Province, to be therein manufactured:—The Committee, on reference to the Journals of 1843, find that the House are pledged to return such Duties. The amount to be returned is £60 16 3.

"Also the Petition of R. Rankin and Company, James Kirk, and other Shipowners of the City of Saint John, praying for a reduction of the Hospital and Light House Duties:—The Committee recommend the proposed reduction, and beg for leave to bring in a Bill or Bills for that purpose.

To the Commissioners for negotiating the Provincial Loan.

Mr. Payne, by leave, presented a Petition from Alexander Lockhart, James Swim, and twenty two others, inhabitants of the Parish of Saint Martin, in the County of Saint John, praying for a Grant to pass in aid of individual subscription, to continue a Mail Communication between that place and the City of Saint John; which he read.

Mr. End, from the Committee to whom was referred the Petition from Lauchlan Donaldson, Esquire, Mayor of the City of Saint John, and others, relative to the retaining of Monies by John R. Partelow, Esquire, granted for the Road leading from Quaco to the Shepody Road, submitted their Report; and he having read the same, handed it at the Clerk's Table, where it was again read, and is as follows:—

“The Committee to whom was referred the Petition of Lauchlan Donaldson, Esquire, Mayor of the City of Saint John, R. W. Crookshank, J. P., Isaac Woodward, William Mackay, Moses H. Perley, Robert D. Wilmot, E. L. Jarvis, H. Porter, J. P., James Gallagher, J. P., John V. Thurgar, Thomas Harding, J. P., and one hundred and twelve others, praying a Grant of Money to be expended on a Road leading from Quaco to the Shepody Road, Report—

“That the said Petition (after describing the great inconvenience and suffering endured by the Settlers in consequence of the present unfinished state of the said Road, and the advantages expected to accrue from its completion) sets forth,—‘*That a Petition was sent to the House of Assembly in 1839, praying for a Grant of Money sufficient to open this Road, and one hundred pounds was granted; no Commissioners being appointed that year, the Money lay over in John Partelow, Esquire's, hands; a Petition was sent in 1841, or thereabouts, praying for the sum of £50 in addition to the former, which was granted; in 1843 a Petition was sent the usual way, praying for the sum of £50 more in addition, expecting to get the sum of £200, to open and turnpike the said Road, but no money granted; at the time the last Petition was read in the House of Assembly, it appeared that the said John Partelow had paid in the first sum granted, one hundred pounds, which remained in his hands, into the Province Treasurer's, about one month before, and consequently not a fraction of the Public Money has been spent on the Road; still the poor Settlers are suffering, but are in strong hopes to be relieved shortly.*’

“To this Petition, thus involving the very serious charge, against a Member of this House, of having illegally obtained money from the Treasury, (for it could not have been obtained legally) and of having kept it four years in his hands, while a number of his constituents, of the humbler classes too, for whose use it had been granted, were suffering by the want of it, Your Committee have given the most serious and deliberate attention; and on examining the Appropriation Acts of the Legislature, find that no Grant was made for the Road in question until the Session of 1841, where an appropriation appears in the following terms:—‘*The sum of £100 in the hands of the Commissioners for extending the Breakwater at Quaco, be re-appropriated, and laid out as follows: On the new line of Road from Vaughan's Creek, in Quaco, to Noah Tabor's, Shepody Road, laid out by Deputy Surveyor Kelleher;*’ and Your Committee find that the sum of £50 was appropriated in 1842 for the same Road, in precisely the same terms; and that no other Grants have been made for the same Road.

“Having thus ascertained that the monies intended for this Road were connected with the Grants made for the Quaco Breakwater, Your Committee turned their attention to these appropriations, and find that in 1835, £500, and in 1836, £400, in all, £900, were granted for that object;—that Lauchlan Donaldson, Esquire, and R. W. Crookshank, Esquire, (two of the Petitioners), John Ward, John Ward, Junior, and Thomas Barlow, were duly appointed Commissioners to expend the same;—and that an Account of the expenditure, dated 31st December 1836, and signed by all those Commissioners, was laid before this House in February 1839, shewing a balance due to the Province of £249 16 9 then remaining in the hands of those Commissioners;—Your Committee doubt not that this balance of £249 16 9 is the sum of money pointed at by the appropriations of 1841 and 1842, in aid of the Quaco and Shepody Road.

“Your Committee cannot find that the above balance, or any part of it, was either applied to the Public Service or refunded into the Treasury, until the 29th day of
December,

December, 1842; at which time, as it appears by the 'Account of the Province Treasurer of sums refunded into the Treasury from the 1st January to 31st December 1842,' the said Commissioners paid into the Treasury the sum of £156 12 3, part of the said balance; from which it may be inferred that the difference had been expended by them.

"Your Committee further Report, that the allegations contained in the Petition, 'that a Grant was made in 1839;' 'that the money lay over in John Partelow, Esquire's, hands;' and that 'it appeared that the said John Partelow had paid in the first sum granted, £100, which remained in his hands, into the Province Treasurer, about a month before the application in 1843;' are all circumstantially unfounded in fact;—no grant having been made in 1839;—none of the money ever having been in Mr. Partelow's hands, or under his control;—and no money, connected with the transaction, having been refunded to the Province Treasurer, except by Mr. Donaldson and Mr. Crookshank, (the Petitioners), and their Co-Commissioners, on the 29th December, 1842.

"Your Committee cannot refrain from expressing their surprise and regret that a Petition so eminently calculated to wound the feelings of any individual; so destructive of his character among his constituents; bearing the well known signatures of so many persons, deemed respectable, (some of whom are placed in highly responsible official stations); and yet so untrue, should have found its way into the House of Assembly.

"Your Committee, in the course of their investigation, received a letter from His Worship the Mayor, which, in justice to that gentleman, Your Committee think it right to offer verbatim to Your Honorable House.

'Fredericton, 23d February, 1844.

'HONORABLE SIRS,—Having understood that a Petition is now before the Honorable House of Assembly, connected with a Grant for money to finish a Road in the County of Saint John, and that the same does not contain facts, as respects the name of the party in whose hands the £100 there alluded to was said to have been placed, and by whom it was said to have been afterwards paid back into the Treasury, and that my name is attached to the said Petition,—I beg leave most respectfully to state, that I merely heard the Petition read over, as customary, by the party carrying the same round for names, (I believe by a very respectable man, and a Deputy Crown Surveyor,) and without any personal knowledge of, or responsibility for, the matters therein contained; and that I signed it in the customary way, adding the title of office to my signature, so as to yield it the sanction which is always required, of having the names of three Magistrates to such documents;—That, in doing so, I considered myself correct, and acting, not only in the customary, but, I believe, legal way; and with no idea of injuring the feelings of any party, but merely for the purpose of aiding the Settlers in procuring a Grant of money for the Road. Had I signed the Petition as a private individual, I should have been to blame, but I did not, nor, to my knowledge, did R. W. Crookshank, another Magistrate, who signed it in my presence.

'If the statements in regard to name are incorrect, I regret the same; but as the money was, in said Petition, stated to have been paid back, no injury to the feelings of the party can arise, but rather pride, for having done so; and if the name of Barlow should have stood where that of Partelow is found, (in sound nearly the same) as the Grant is said to be connected with the Quaco Breakwater money, I am perfectly aware, from being one of the Trustees of Mr. Barlow, (and a Breakwater Commissioner) together with an Honorable Member of Assembly, that Mr. Partelow never had one farthing of such money in his hands, but that the sum was paid by the Trustees of Messieurs Barlows into the Treasury. If the Honorable House shall consider it proper that the names of three Magistrates shall in future be dispensed with in Petitions, of course the same will be carried out by the Public, and such Officers no doubt feel gratitude for the change.

'Most respectfully, Honorable Sirs, your most obedient servant,

'L. DONALDSON.

'Honorable the Chairman, and the House of Assembly Committee, regarding a Petition for Money for a Road in Saint John County, and which has mis-stated facts on a name.'

"In conclusion—By how much the right of Petition is one of the most sacred privileges of British Subjects, (so sacred as to exonerate the Petitioner from the legal consequences of libel), by so much should its exercise be preserved from the contamination of falsehood or malice; and Your Committee cannot admit the propriety of any Magistrate putting his name as such, and thereby giving currency and weight to any Petition offered to him, without considering himself responsible for the truth of its contents.

"Your Committee are unanimously of opinion, that this Petition, by whomsoever

got up, is a gross attempt to deceive the House of Assembly, and that it should be dealt with accordingly.

“Respectfully submitted.

“WILLIAM END,
A. BARBERIE,
JAMES BROWN,
JAMES TAYLOR,
ALEX. RANKIN.

“The Committee to whom was referred the Petition of Henry Gilbert and one hundred and five others, praying ‘Legislative enactment to restrict the excessive issue of Provincial Copper Coin, and relief from the inconvenience and loss occasioned by the large amount already in circulation, and also for protection against the unauthorized use of the Dies;’ have had the matters so referred to them under consideration, and beg leave respectfully to Report—

“That it appears by returns laid before the House on 16th February instant, by order of His Excellency the Lieutenant Governor, the Provincial Treasurer, in the Autumn of 1841, received £3000 Sterling:—That to avoid the loss of paying out the Copper British Penny as Currency, £2850 Sterling was disposed of to Mr. William Hammond, of Saint John, at twenty per cent. premium; and that Mr. Hammond exported the same to the United Kingdom, and has imported a new Coin, struck from Dies prepared for the purpose, namely, £3420, and delivered the same to the Provincial Treasurer:—That as far as the Committee have obtained information, it appears the Treasurer has paid Warrants, to the extent of about £2400, in the Provincial Copper Coin:—That in addition to this large amount put in circulation, there is about £800 or £1000 of Nova Scotia and other Copper Coin, which custom has rendered current,

current, in circulation; making the present circulation of Copper Coins of all kinds, probably not less than £3500,—a sum sufficient to create the evils complained of. The least objectionable mode of relief, it appears to the Committee, will be by authorizing the Provincial Treasurer to receive back a proportion of five pounds per cent. upon Duties, in the Provincial Copper Coin, till an amount not exceeding £1000 be withdrawn from circulation.

“On the subject of Dies, represented to be in the possession of Mr. Hammond, the Committee are of opinion that the Treasurer should be instructed to procure them, by paying the cost value, or otherwise, as can be arranged with Mr. Hammond, and transmit them to the Provincial Secretary, to preclude the further use thereof, except as may hereafter be provided for by Law.

“Respectfully submitted.

“ *Committee Room, 28th February, 1844.*”

Ordered, That the Report be accepted, and the Committee continued to report from time to time upon such matters as may be referred for their consideration.

On motion of the Honorable Mr. Simonds,

Ordered, That so much of the foregoing Report from the Committee of Trade; as also of that presented from the same Committee on the twenty fourth instant, which recommend the appropriations of sums of money, be referred to the Committee of Supply.

Mr. Fisher, from the Committee appointed for taking into consideration the subject of the Acts as regards the Election of Members of the Assembly, submitted their Report, and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“ The Committee to whom was referred the Despatch of the Right Honorable Lord Stanley, relating to the Act passed in the last Session of the Legislature ‘to improve the Law relating to the Election of Representatives to serve in the General Assembly,’ have attended to that duty, and beg leave to submit the following Report—

“ It appears that the only objection to the Act in question is the power the thirty fourth section gives to the Speaker of the Assembly to adjudicate upon the propriety of issuing new Writs, in all cases of vacancy occurring during the recess of the General Assembly.

“ By

“ By the Act 9th George the 4th, cap. 36, the Speaker is authorized to issue a Warrant for a new Writ to fill a vacancy occurring in the Assembly during the recess, by the death or appointment of any Member to the Legislative Council, which provision is re-enacted in the thirty fourth section of the Act now under the consideration of Her Majesty's Government, in the terms following—‘ by death, appointment to the Legislative Council, or otherwise ;’—the words ‘ or otherwise,’ referring to the Act 5th Victoria, cap. 18, for vacating the Seats of Members in certain cases, which has been disallowed, were included in the Election Law, as it repeals all the Laws in force in the Province relating to the Election of Representatives, and to avoid any conflict with the principle of the Vacating Act, which, at the time the Election Bill was before the Legislature, was under the consideration of Her Majesty's Government.

“ As the Act for the vacating the Seats of Members in certain cases has been disallowed, it may be questionable how far the objection to the Election Law is available, particularly as the difficulty could be provided for in any Act hereafter passed for vacating the Seats of Members.

“ Your Committee being of opinion that it is very desirable to secure the immediate confirmation of the Act to improve the Law relating to the Election of Representatives to serve in the General Assembly, have prepared a Bill to narrow the power of the Speaker, which they propose shall not come into operation until Her Majesty's Royal approbation of the Election Law be had and declared.

“ Should Her Majesty be graciously pleased to assent to the Election Law, prior to the proposed Bill, its subsequent enactment will so far repeal the Election Law as to remove the objection assigned in Lord Stanley's Despatch.

“ No practical evil will ensue from the limitation of the power of the Speaker ; for by the provisions of the Election Law, it will be competent for any Member to resign his seat during the recess, and the vacancy so effected can be filled up by the Speaker's Warrant. This provision, new in this Province, was taken from the Canada Law, and has long been required.

“ All which is respectfully submitted.

“ CHARLES FISHER,
GEORGE S. HILL,
J. A. STREET.

“ *Committee Room, 28th February, 1844.*”

Ordered, That the Report be accepted.

The Bill, as reported by the Committee, under the Title of—“ A Bill relating to the Election of Representatives to serve in the General Assembly,”—was then handed in and read a first time.

[No. 71.]

Fredericton, N. B. 25th July, 1843.

MY LORD,—Having received, after the close of the last Session, your Lordship's Despatch, No. 146, of the 12th April last, on the subject of the "Bill for the Consolidation of the Revenue Departments, and to provide for the collection and protection thereof;" the measure which has received the sanction of Her Majesty's Government has necessarily been postponed till the next year; and as time will thus be afforded to obtain Your Lordship's further instructions on a subject of so much interest to the Province, I am prompted again to submit to your consideration, the circumstances which have appeared to call for greater facilities being given to the warehousing system, than are at present provided for.

In the Despatch above mentioned, your Lordship has objected to the eleventh and twenty second clauses of the Bill, as operating to contravene the Imperial Statute, for the appointment of Free Warehousing Ports, by the Queen in Council. This objection is quite conclusive, but as the introduction of those clauses was intended to remedy an inconvenience very generally felt in the Province, and one which seriously affects its Trade and Revenue, I am induced to hope that this may admit of being removed either by an alteration of the statute, or by some greater facilities in the appointment of Free Warehousing Ports by Her Majesty in Council.

The principal Ports in the Bay of Fundy are Saint John's and Saint Andrews, where goods are warehoused to a large extent; these Ports not being frozen up during the Winter, owing to the high tides in the Bay, Ships can enter at all seasons of the year; but as the Rivers are closed during the Winter, it is customary to send up in the Fall of the year to Fredericton and other places, the whole of the Winter supplies for distribution in the Country. In like manner, the northern Ports of Miramichi, Bathurst, Dalhousie and others along the Coast in the Bay of Chaleur and Gulph of Saint Lawrence being closed in the Winter, must receive all their supplies in the Autumn, and not having the privilege of warehousing, the Merchants must advance the Duties on the whole supply, for a long Winter consumption. This has at all times operated as a serious check to the Trade of the Province, obliging the Merchants to limit their importations to the smallest amount of the most necessary articles for which they can obtain ready sale during the Winter, thereby shutting out free competition and enhancing the price of Goods to the consumer.

From the inconvenience so generally experienced, a practice has grown up of taking Bonds for Provincial Duties, payable in eighteen months; but the practice has been attended with irregularity and uncertainty in the collection of the Duties, and it has been discontinued in the present year at Saint John's, though not at the Out-Ports; and from the pressure which continues in the money market, a very general complaint exists on the part of Merchants, as to the difficulty of advancing the Duty on Goods which they cannot warehouse for Winter consumption, except at the Port of Saint John's. The settlement of the Disputed Boundary has presented another difficulty in the increased opportunities of smuggling, which have always been considerable. There is a preventive establishment maintained by the Province in the several minor Ports, and along the inland Frontier; but there is notwithstanding, much illicit Trade carried on along the Coast, and from the disposition of the Frontier Settlers on both sides of the Boundary Line, and the facilities presented to them in a closely wooded country, and in descending the numerous Streams and Rivers which the fair Trader must ascend, the Revenue of the Country cannot fail to decline, while lawless habits are encouraged.

As the duties of the Officers of Customs are confined to the Ports in which they are immediately employed, and as the protection of the Revenue in all the other parts and places, depends on the

Provincial Officers, the former are less able to appreciate the circumstances which affect the Trade of the Province generally, and from the situation of Saint John's and the incessant duties devolving on the Collector in so large a Port, his visits to distant places for the purpose of acquiring the necessary information, would be attended with much inconvenience.

In supporting the application of the Merchants and Inhabitants of Dalhousie for the privilege of a Free Warehousing Port, I was influenced by the considerations which I have explained. I am not aware of the grounds on which this privilege has been withheld; but if it should have been from the quantity of Goods imported, being too limited to justify the expense of a Warehouse Keeper, I would observe, that the encouragement that would be given to the fair Trader, and the consequent check to the Smuggler would more than compensate to the Revenue for the small stipend required, and that the admission of the charges for Warehouse Keepers in all situations where Goods might be conveniently stored for Winter consumption, would not only operate to increase the Trade and Revenue of the Province, but reduce the expense of the preventive establishment now maintained, as the owner of every store licensed for the warehousing of Goods would be as much interested, and as active as the Officer in detecting the Smuggler.

As the Revenue is collected for the use of the Province, the appointments of Warehouse Keepers will constitute a local charge, which would be readily defrayed, and would be amply provided for in the consolidation of the Customs and Provincial Establishments, in which last, as I have stated, a number of officers are now maintained for protection and collection of the Provincial Duties throughout the year.

As a familiar example of the practical effect of the present restriction in the warehousing of Goods, I may observe, that while large quantities of Goods are warehoused in Saint John's, and the retail Trade is there amply supplied, the Merchants in Fredericton are obliged to limit themselves to a scanty supply of the most indispensable articles, to avoid the necessity of holding stocks on which the Duties must be paid down; and all persons who can afford to send to Saint John's for the supplies by the River Steamers, have consequently the advantage of a larger assortment. Of this, the Merchants, as well as the other inhabitants of Fredericton, not without reason, complain.

The Ports and places to which it would be of immediate importance that the privilege of warehousing should be extended, are Dalhousie, on the Restigouche, Chatham, on the Miramichi, and Saint Stephen's, on the Saint Croix, and Fredericton, on the Saint John; but it would be desirable that it should be granted to other Out-Ports along the coasts and inland places on the River where there are Warehouses fit to be licensed, and Provincial Officers who could discharge the Duties of Warehouse Keepers.

I have, &c.

Fredericton, N. B. 29th September, 1843.

MY LORD,—I have the honour to transmit to Your Lordship, to be laid before the Queen, a Petition to Her Majesty from the Merchants and other inhabitants of Fredericton, that this may be made a Free Warehousing Port and Port of Entry, which I recommend to the favourable consideration of Her Majesty's Government.

Having recently visited several of the Out Ports of the Province, I have reason to be confirmed in opinion, that an extension of those privileges on the occasion of consolidating the Departments of Revenue, which has been sanctioned by Your Lordship's Despatch, No. 46, dated the 12th April last, would be attended with advantage to the Trade of the Province, without any addition of expense; and referring to my Despatch, No. 71, of the 25th of July, I am led to repeat that a considerable extension of the system of warehousing would facilitate the Trade and improve the Revenue, by diminishing the inducements to smuggling.

Observing that since the opening of the West India Ports to the Americans, the Trade of the Saint Croix has been entirely transferred to Calais, on the American side of the River, the necessity of acceding to the wishes of the Merchants and other inhabitants of Saint Stephen's, by allowing them to import and warehouse their Goods, has become apparent; at present being unable to do so, they are obliged, as at Fredericton, either to advance the Duties or to bring up by land carriage, at great expense and trouble, their Winter Supplies, now warehoused at Saint Andrews and Saint John's, after the navigation of the River is closed, by which the legitimate Trade of the Country is much impeded.

The Merchants of Fredericton have represented, that as a Free Port, a lucrative Trade could be carried on in Vessels of from 80 to 100 tons, by which the expenses of transhipment of some bulky commodities, at Saint John, would be avoided, and by the privilege of warehousing, their Trade, which has greatly declined of late, would be materially benefitted. It would not appear to be necessary to restrict the privilege of warehousing Goods to the places where Free Ports are established, as bonds would be taken for the Duties by Collectors, previously to their removal, and such Goods would remain under controul of the Department until taken out for consumption or re-exported, when the Duties would be paid.

The applications from Saint Stephen's and from Dorchester, for these privileges, will shortly be renewed, and the Chamber of Commerce of Saint John are about to apply for the privilege of supplying

supplying the upper Saint John, on the American side of the lines, with warehoused Goods under Bond. I will take an early opportunity of forwarding, with these Petitions, the observations of the Officers of Customs at Saint John's and Saint Andrews.

I have, &c.

Fredericton, N. B. 27th October, 1843.

MY LORD,—Referring to my Despatches, No. 3, dated the 24th January, No. 71, of the 25th July, and 93, of September 29th, relative to the Trade of this Province, I have now the honor to enclose to Your Lordship, copies of a correspondence which I have held with the Collector of Customs at Saint John's. This correspondence is still incomplete, as the Collector has not fully answered the enquiries I had addressed to him, and the report of Mr. Grant, the Collector of Saint Andrews, has not yet been received by me; but as the Petition of the inhabitants of Fredericton to the Queen is before Your Lordship, to which Mr. Smith's observations chiefly apply, I will offer such further remarks on the subject as are required to remove the objections made by the Collector to the grant of the privileges of a Free Warehousing Port which the Merchants and other inhabitants have prayed for.

In the letter of the Commissioners of Customs to the Collector, of the 27th September, allusion is made to the circumstance, that it has heretofore been contrary to the policy of Her Majesty's Government to permit Foreign Vessels to proceed into the interior up navigable Rivers, or beyond the first station near the Sea at which a Port can be established. The Collector has abstained from making any observations on this point; but it appears to me that if reciprocal privileges were to be conceded by the American Government to British Vessels of ascending their Rivers to inland Ports in the United States, I should see no objection, but rather the contrary, to the privilege being accorded to American Vessels of ascending the Saint John, no practical inconvenience having arisen from the joint navigation of the Saint Croix. It is further to be remarked, that under proper Regulations, there is no more risk of Smuggling in the one case than in the other; and the Collector has overlooked the fact which I have formerly pointed out, that Smuggling to a greater extent is always carried on along the inland frontier and down the Streams and Rivers, than any which could be apprehended by admitting American Vessels to come up the River to Fredericton, and the encouragement that would be given to the fair trader by the measures which I have recommended for inland warehousing, is alone likely to arrest an evil so injurious to the Revenue as well as to the morals of the country.

The navigation of the Saint John, downwards, having been conceded to the Americans by the Treaty of Washington, it is obvious that the opportunities of illicit trade are greatly increased, and that the employment of Vessels regularly entered at Fredericton, would afford fewer facilities. There being no Custom Officers along the frontier, the extent of this illicit trade is entirely unknown to the Collector; but I have authentic information, that in the present year, the upper country has been supplied by large importations smuggled across the border, of Tea, Molasses, Flour, Boots, Shoes, Leather, and other articles, amongst which may be mentioned are importations of several hundred American Clocks, which are understood to have been sold on credit in the country, to be paid in farm produce at an average price of £3, and often higher, which is estimated at 100 per cent. in excess of their value.

The facilities afforded by combinations between the settlers on opposite sides of the frontier line, and especially where individuals possess land and houses on both sides, are very great, and no establishment which the Province could afford to maintain would be adequate to prevent this illicit traffic. To gain the trade of the upper country on the American side, and to counteract the tendency to prosecute a trade down the Rivers, the Chamber of Commerce of Saint John's has it in contemplation to petition for the privilege of supplying the upper Saint John on the American side of the lines with Goods under bonds from the Warehouse at Saint John, by which the Americans would obtain British Goods on easier terms than Her Majesty's subjects in the interior can now do, or will be able to accomplish, unless permitted to Warehouse for themselves, and I have no doubt if this privilege should be accorded, that those Merchants of Saint John who oppose it, will find it advantageous to avail themselves of the privilege by establishing depots of stores in the interior.

In regard to the admission of British Vessels at Fredericton, the Collector states, that as the navigation of the River must be carried on in small vessels, he is decidedly of opinion that it would afford unbounded facilities to Smuggling, which could not be counteracted by a large and expensive establishment; but the Collector has overlooked that if the Revenue which has deplorably fallen off, is henceforth to be protected, some means must be devised of checking the wholesale Smuggling which is now carried on either by Rafts and Boats down the Rivers and Streams, or by Carts and Sleds through unfrequented forest tracts in Summer and Winter; and I am not aware of any more effectual protection than by giving facilities to the fair trader and obtaining his co-operation against the Smuggler. In point of fact, as in the case of the petition from Dalhousie, I have mainly relied on this measure for prevention of the Smuggling which now notoriously obtains, and which measure is objected to by the Collector as likely to promote it. The Collector does not oppose any material objection to the privilege of warehousing Goods at Fredericton to be stored for Winter consumption,

he

he alludes to the expense of a Warehouse Keeper, which he considers the trade would be insufficient to defray. On this point I am led to anticipate, that if it were only in the check given to the illicit trade now carried on, ample compensation would be obtained, and the encouragement that would be given to the trade and navigation of the River by the Steamers which are employed in bringing up the Winter supplies to Fredericton, would be an essential benefit to the Province; and I would again advert to the fact, that in the warehousing clause contained in the Bill which accompanied my Despatch No. 71, of the 25th of July, it was contemplated that any additional expense from the warehousing of Goods at other places would be compensated in the reduction of the Provincial Establishment, there being two sets of Officers at every Port, and Provincial Officers at several places where there are no Officers of Customs.

As I have not yet received the Report of the Collector of Saint Andrews which I have called for, for establishing a Free Warehousing Port at Saint Stephens, I will defer any further observations till I receive it. In the meantime I transmit to Your Lordship a Petition to the Queen from the Chamber of Commerce at Saint Andrews, referring to a former one which was forwarded with my Despatch No. 3, of the 24th of January, and was replied to in Your Lordship's Despatch No. 144, of the 30th of March. In this memorial they have alluded to the depression to which their Trade continues to be subject, and which, as observed in my Despatch No. 93, of the 29th of September, has been in a great degree transferred to the American Ports of the Saint Croix, chiefly from the facilities which the Americans possess in being exempt from certain Port charges to which British Vessels are subject, and being able to dispose in their Ports, of their return cargoes from the West Indies, and from which advantage British Vessels are excluded.

On what conditions the Americans might be disposed to admit British Vessels into their Ports, and whether those conditions could be acceded to by Her Majesty's Government, are questions of general interest, affecting the Trade of the Empire at large, and I can only recommend the prayer of the Petitioners to the favorable consideration of Her Majesty's Government.

In reference to the views expressed in my Despatch No. 3, of the 24th of January, in forwarding their former Petition, I am aware that the opportunity of carrying return cargoes of Colonial produce from the Foreign Colonies of the West Indies, either to the Ports of the United States, or to those of the United Kingdom, would be regarded as alike advantageous, but as the interests of the British West Indies are involved in this question, as well as the claims of humanity, in the stimulus which might be given to the Foreign Slave Trade, I advert with greater confidence to a proposal which has been recently discussed, for the encouragement of the Inter-Colonial Trade, by a reciprocal reduction of the Duties on Colonial Produce in the Ports of these Provinces, and of the British West Indies. For the reasons explained by the Chamber of Commerce of Saint Andrew's, and from other causes, the American Export Trade to the West Indies has increased, while that of New Brunswick has been nearly superceded. In one article of production alone, a lucrative Trade was till lately carried on from Saint Stephen's, in the Export of Shingles, which furnished a source of employment to a number of poor families in the winter months; the Shingles made by hand being more durable than when wrought by machinery. This Trade is now understood to have been supplanted by the preference given to the Cyprus Shingles exported from the American Port of Wilmington. Another and more important branch of Trade has been engrossed of late years by the Americans. Previous to the encouragement given to the export of Timber from the Provinces to Great Britain, and which led to the neglect of Agriculture and other profitable occupations, the Fisheries were progressively increasing. I alluded to this subject in my Despatch No. 94, of the 24th of September, and I am glad to observe, that the Chamber of Commerce have noticed it in their Petition.

I enclose also a communication which I have received from an intelligent Gentleman, Mr. Wilson, of Saint Andrew's, who was formerly engaged in the Fisheries of the Bay of Fundy. I apprehend, that however well disposed, the Provincial Legislature will hardly be enabled, in the present depressed state of the finances, to hold out any adequate premium to the Provincial Fishermen to sustain a successful competition against the Americans, encouraged as they are by bounties and an exemption of charges which are imposed on the Provincial Vessels. The subject is well deserving of the attention of Her Majesty's Government, and I entertain no doubt, that under due protection and encouragement, the British Fisheries may be made to contribute largely, not only to the Trade of the Provinces, but to the maritime resources of the Empire.

I have, &c.

SIR,—In obedience to the directions of His Excellency the Lieutenant Governor, conveyed to me in your Letters of the 17th and 21st instant, with reference to a Petition, praying that Fredericton may be constituted "a Free Warehousing Port," calling upon me to make observations thereon:—

1st. As to any practical objection to the admission of vessels, British and Foreign, of the tonnage that could ascend the River with Goods to be warehoused in Fredericton.

I have the honor to state, with reference to Foreign Vessels, that the Honorable the Commissioners of Customs, by their Orders No. 151, dated 27th ultimo, have directed me to "bear in mind, that it has hitherto been contrary to the policy of Her Majesty's Government to permit Foreign Vessels to proceed into the interior up navigable Rivers, or beyond the first station near the Sea, at which a

Port

Port can be established." I therefore consider myself precluded from offering any further observation on this head. A copy of the Order above referred to, was furnished to His Excellency by me, in my Letter of the 19th instant. With respect to British Vessels, the subject is embraced under the second head.

2d. As to any practical objection to the admission of British Vessels as at Montreal.

I have to reply that I am not fully aware what regulations exist with respect to Montreal; but as the question applies to the navigation of the River Saint John, as far as Fredericton, which must necessarily be carried on in a small description of vessels, I am decidedly of opinion that it would afford unbounded facilities to illicit Trade, which could not be counteracted even by a large and expensive establishment of Revenue Officers, to board the Vessels and proceed in them to Fredericton from this Port, and it appears to me to be a sound and reasonable policy, that all Duties upon Goods imported should be secured (either by paying down the same or by warehousing) at the first Port near the Sea, otherwise a Vessel might proceed through this Harbour and enter the River with a full cargo, and upon her arrival at Fredericton, if she proceeded so far, be then in ballast.

3rd. As to the warehousing of Goods to be stored for Winter consumption.

This appears to me to be the least objectionable proposition, and depends much upon the necessity that may exist for establishing a Warehouse at Fredericton, and whether the extent to which it would be availed of, is likely to be sufficient to repay the outlay that would be occasioned by the necessary establishment of proper Officers to superintend its operations. My own opinion is, that it would not. The manner in which Goods are conveyed from hence to Fredericton, (particularly those of a valuable description,) is chiefly by Steam Boats, on account of the tedious nature of the navigation of the River, which in the Spring and Autumn is augmented by the increased current. During the Summer months it requires a very short time to have an order for Goods from Fredericton to this place complied with; consequently the Traders in Fredericton, who are chiefly supplied by the Merchants in Saint John, have no inducement to hold a supply of any article greater than the demand in Fredericton and the adjoining Country. The question, therefore, in my opinion, applies solely to the supply for Winter consumption. To a Warehouse being established in Fredericton for this purpose, I see little objection, beyond what I have already referred, in point of expense; although if it were established, it appears to me that it would only be available of, to a trifling extent, which would at the same time cause an increase of labour in the collection of the Revenue; as the form of Entry and Bond requisite to be given upon the removal of Goods from one Warehouse to another, together with the official notification thereof from this place to the proper Officer at Fredericton, would occasion as much labour, or very nearly so, upon a few articles of trifling value, as upon what might be properly termed a Mercantile transaction.

The foregoing remarks are respectfully submitted for His Excellency's consideration.

Should it hereafter be determined upon to establish a Warehouse at Fredericton, the appointment of a person to perform the duties of Sub-Collector, (and Warehouse Keeper jointly,) together with a Locker, supposing that the warehousing should be confined to one, or, at the farthest, two Warehouses, would be requisite, and the salary, with reference to other Sub-Collectors, should not be less than £150 Sterling per annum, and the day pay of the Locker, 4s. Sterling per diem, (working days,) which is the rate of pay to Lockers at this Port.

I have the honor, &c.

[No. 108.]

Fredericton, N. B. 14th November, 1843.

MY LORD,—Referring to my Despatch, No. 102, October 27th, I enclose to Your Lordship, copies of a further communication which has been made to me by the Collector of Customs at Saint John's, and one from the Collector at Saint Andrews.

From the tenor of these observations, I am induced to repeat, that when the Provincial Revenues may be collected by the Customs Department, there will be ample means in the reduction of the Provincial Establishment of making provision without increased expense, for the additional Officers required at those places which may be admitted to the privilege of warehousing Goods, either as Free Warehousing Ports, or otherwise.

The Collector of Saint Andrews, in his letter of the 27th July, 1842, observed, that if a suitable Establishment were provided at the "Ledge," which is an anchorage in the Saint Croix, four miles below Saint Stephen's, where Foreign Vessels discharge their cargoes, there would not be any objection to such an arrangement. The Establishment he recommends is a Sub-Collector and Boatman. The Sub-Collector at Saint Stephen's having to attend to the land route and inland navigation, I have inquired of the Collector whether, from the proximity of these places, there would, in his opinion, be any objection to comprehending the two places in one Free Warehousing Port, placing the Establishment under one superintendence; an arrangement which I am disposed to recommend.

The Collector of Saint John, in his letter of the 9th instant, has made no further observation respecting the Port of Fredericton, and the operations in progress at this season strongly indicate the advantages that would be required from the privilege of warehousing. Three Steamers have plied daily between Fredericton and Saint John's during the summer, and have continued running until yesterday, the navigation having now closed; and although it would have been the interests of the

G*

Merchants

Merchants to have taken advantage of the markets throughout the season, for laying in their supplies of Goods for Winter consumption, the Steamers obtained but little freight until within a few days of the close of the navigation, when they were overloaded with Goods; and it sometimes happens that the sudden formation of the ice obliges them to deliver their latest cargoes at Oromocto, a small Port about eleven miles below Fredericton, or at Gagetown, half way down the River. There can be no doubt, if permitted to Warehouse Goods at Fredericton, that the Merchants would import their Goods throughout the Summer, whereby the River Navigation and the inland Trade would be encouraged, and the smuggling down the Rivers would be checked. In reference to my observation, as to the sale of American Clocks in the upper Country, I enclose a letter from the Collector of Saint John's, reporting that 265 had been imported since the 5th January, of which 153 were brought by inland carriage to Woodstock, on the Saint John River, and near the American Line.

The information to which I alluded in my Despatch of the 27th October, No. 102, as to the illicit introduction of a much larger number, I received from a Gentleman who had recently visited the frontier, and who had received it from housekeepers and tavernkeepers along his route, to whom the American dealers had made the acknowledgment of the number they had sold.

I herewith enclose a Petition addressed to myself, that Miramichi may be recommended for the privilege of a Free Warehousing Port, having been for several years a Free Port. The Collector at Saint John's does not object to this measure, but on the contrary, has urged strong additional reasons for granting the privilege to Miramichi, to facilitate the supplies of the Shipping under the 18th section of the Act 6 and 7 Vic., chap. 84, and of the Fisheries, under the 8th section of the Act 5 and 6 Vic., chap. 49. I concur with the Collector, that a Warehouse should be established near the Custom House, on the Chatham side of the River; but I should see no objection to having a second Warehouse, if hereafter required for the convenience of Trade, on the other or Newcastle side. There being constant communication across at three ferries, the Warehouse Keeper could have no great difficulty in alternately attending to his duty on the opposite sides of the River, with the assistance of an additional Locker.

Referring to my Despatch of the 27th October, and to the observations of the Collector in his Letter of the 9th instant, I anticipate that if the Vessels engaged in the Fisheries in the Bay of Chaleur and along the Gulph Shores, were able to obtain their supplies at contiguous Ports, great encouragement would be given to them, from the want of which, and from the engrossing attention hitherto given to the Timber Trade in this Province, this profitable and unfailing source of industry and wealth has been chiefly encouraged on the opposite shores, where large and prosperous Fishing Establishments are in operation.

I repeat however, that were no other advantage acquired, that the opportunity of warehousing Goods for Winter consumption, in the Country watered by the Miramichi River, and of checking the smuggling Trade through the interior, the privilege sought should be accorded.

With respect to the Ports of Dalhousie and Bathurst, in the Bay of Chaleur, the Collector observes that "when the proposed Act for Consolidating the Departments of Revenue may come into operation, it may be desirable to establish Warehouses, on which point he does not at present feel himself competent to give an opinion, and should it be considered necessary to appoint Warehouses at them, this can be done without constituting those places Free Warehousing Ports."

There is no doubt that the Timber Trade has greatly fallen off within the last few years, owing to the general depression throughout the Province, and which has led to the decline of Shipping frequenting those Ports. Yet the lumbering on the Restigouche is still considerable, and is likely to be extended there and on the Nepisiquit. An inspection of the Map will show that the opportunity of warehousing their Winter supplies is as important to the inhabitants of both places, to the Fisheries of the Bay of Chaleur and to the Lumberers employed along the Restigouche and Nepisiquit Rivers and their tributaries, as in any other Ports in the Province; and I may generally observe, that the improvident habits of these hardy and enterprising people, throughout the Province, who are engaged in the laborious business of cutting and removing Timber from the forests, are mainly to be ascribed to the difficulty of obtaining the supplies for their winter operations, except from the Timber Merchants who employ them. These supplies are advanced in kind and at high rates, and accounts are kept with the people, by means of which they are retained in dependance on their employers, and are unable to make their own purchases, on favourable terms, at the best markets. From constant exposure and fatigue, the constitutions of these robust men are in a few years impaired, without having derived means for their future support. The disputes between the Merchants and Lumberers on the Restigouche, led to serious disturbances at Dalhousie, in 1841, which I had occasion to notice in my Despatch, No. 20, of the 26th of February, 1842, enclosing the report of Judge Parker. For the several reasons explained in this Despatch, and in my Despatch No. 71, of the 25th July last, I recommended that Dalhousie, which is already a "Free Port," may be constituted a Free Warehousing Port, and that Bathurst should have the privilege of warehousing, under the 55th section of the Act of Parliament, 3 and 4 William 4, cap. 59, when provision has been made in the arrangements for consolidating the Customs and Provincial Establishments.

The warehousing of a single quarter of a year can hardly afford a criterion as to the prospects of Trade, when greater facilities may be afforded. What are called the Summer and Winter Supplies are ordinarily imported in the Spring and Autumn; and from the observations I have made above, respecting the Winter Supplies brought to Fredericton from Saint John in the present month, just before the close of the River navigation, and on which, the whole of the Duties are now necessarily paid in advance, it must be obvious that to refer to the importations in the Quarter ending the 10th of October, as the Collector has done in respect to Bathurst and Dalhousie, would be no criterion; and if the supplies

supplies imported at those places, just before the close of the Ports, should prove to be less considerable than might be expected, from the demands of the population, it is a fair inference that they are supplied otherwise than through the Warehouses of Saint John, which are scarcely accessible to them.

The petition for a Free Port in the County of Northumberland, was recommended by me in 1842, and the Collector appears to have reported on the subject when in London, in April, 1842. I am recently informed, that from the privilege being withheld, the trade of that quarter is carried on across the border from a neighbouring Port in Nova Scotia, by which Smuggling is promoted and Revenue is lost to the Province; I am therefore of opinion that the privilege of a Free Warehousing Port should be granted to Dorchester, under the arrangements recommended by the Collector in his letter of the 27th April, 1842.

SIR,—I have the honor to acquaint Your Excellency that I have received directions from the Honorable Commissioners of Her Majesty's Customs, to report to you my opinion as to the expediency of constituting Saint Stephen a Free Warehousing Port, and what additional Establishment would be necessary in that event. Their Honors Letter is dated the 27th September last, No. 54, a copy of which is respectfully enclosed.

As my opinion on this subject has been fully expressed to the Honorable Board of Customs, in a Report to them, dated 27th July, 1842, No. 33, I beg to enclose a copy thereof, since which time, no change has taken place to remove the objections which I felt it my duty to represent.

The Port of Saint Stephen enjoys already the privilege of importing Foreign Goods from the United States, by Land Route and Inland Navigation; and I do not see any objection to the establishment of a Bonding Warehouse at that Port, which would enable the Merchants to assort their Cargoes for exportation, should they desire it. Should this measure be adopted, any Goods might be removed to Saint Stephen from any other Warehousing Port, under the 55th Section of the Act 3 and 4 W. 4, cap. 59.

It must be remarked, that the Port of Saint Stephen is not at all times accessible, as the River is generally frozen in the Winter, and last year the Ice extended more than a mile below the Ledge.

It is not to be denied that Saint Stephen has a greater claim to a Free Warehousing Port, than either Campo Bello or Magaguadavic, on account of its Population and Trade, and it is found that by granting a Free Port to those places, it has not brought Foreign Trade, for they remain in the same state as formerly.

Should the objections be overruled, I deem it my duty to suggest that a Sub-Collector, and a Boatman, be stationed at the Ledge, and all Goods imported from Foreign Ports be their reported and entered.

If there is any point which your Excellency may conceive I have not touched upon, I shall immediately reply to your further communication.

I have, &c.

Custom House, Saint Andrews, N. B. 27th July, 1842.

HONORABLE SIRS,—I have the honor to acknowledge the receipt of your letter, No. 26, dated 18th June last, transmitting copy of a Memorial from the Shipowners and Inhabitants of Saint Stephen, praying that that place may be erected into a Free Warehousing Port for the various reasons therein expressed, I have the honor to report—

That similar applications from the Memorialists have been made to obtain a Free Port, and it has been my duty to transmit my observations thereon in the undermentioned Reports, viz:—No. 30, dated 26th July, 1833; No. 13, dated 28th March, 1834; No. 38, dated 29th December, 1840.

After having remarked so fully on this subject, I hope the Honorable Board will not expect me to repeat all that has been already adverted to.

One of the principal objections to a compliance with the request of the Merchants is, that "The Ledge," the place where Foreign Vessels would discharge, is not within the Port of Saint Stephen, being more than four miles distant therefrom. But if the Free Port were to be confined to the Ledge, and a suitable establishment of Officers appointed, there could not be any objection; and it would be impracticable for the Sub-Collector at Saint Stephen to attend at the Ledge, as the Land Route and Inland Navigation demand of him his constant attendance, so that whatever Foreign Trade may be admitted at the Ledge, it would be necessary to place under Officers totally distinct from Saint Stephen, and if the Province Legislature will make provision for such Officers as your Honors may deem necessary, great objections would be removed.

At present the Memorialists allude to a Grant from this Legislature of £50 currency, for the Office of Warehouse Keeper and Locker. This trifling sum voted for one year, would not, in my humble opinion, be sufficient to maintain any respectable person. It is well understood that this vote was obtained to gain the object of the Memorial.

Adverting

Adverting to that part of the Memorial in which it is represented that the River up to Saint Stephen is navigable for Vessels of from three to four hundred tons,—this must mean when they have not a full cargo, but not a very ingenious method of stating the case.

It would be vain to grant this privilege to the Port of Saint Stephen, if most of the Foreign Vessels would be unable to proceed to that Port.

SIR,—With reference to a Letter from Sir George Clerk, one of the Secretaries to the Lords of the Treasury, dated the 7th instant, enclosing a copy of a Despatch addressed by the Lieutenant Governor of New Brunswick to Her Majesty's Principal Secretary of State for the Colonies, recommending that Dalhousie or Bathurst, Miramichi, Saint Stephen and Fredericton, should be constituted Free Warehousing Ports,—

I have it in command to direct you to communicate with His Excellency upon the subject, and to report your opinion as to the expediency of conferring the proposed privileges upon Saint Stephen, and what additional Establishment would be necessary in the event of that place being made a Free Warehousing Port.

And I am to apprise you, that the Collector at Saint John has been directed to report with reference to the several places, other than Saint Stephen, mentioned in His Excellency's Despatch.

Custom House, Saint John, N. B., 9th November, 1843.

SIR,—I have the honor to acknowledge the receipt of your letter, dated the 21st ultimo, containing His Excellency's directions to me, to report respecting the places mentioned in an Order of the Commissioners of Customs, dated the 27th September last, No. 151, being constituted Free Warehousing Ports, namely, Bathurst or Dalhousie, Miramichi, Saint Stephen's and Fredericton.

In obedience thereto, I have the honor to submit the following observations:—

With respect to Fredericton, I beg to refer to my letter addressed to you, dated the 24th ultimo.

With respect to Saint Stephen's, I have to state, that that Out-Bay is attached to the Port of Saint Andrews, and consequently not within my survey.

With respect to Miramichi, I am of opinion that it is desirable that it should be constituted a Free Warehousing Port, it being already a Free Port, as advantages might be derived therefrom, particularly with reference to the delivery, Duty free, of articles so permitted to be delivered under the 8th Section of the Act, 5th and 6th Victoria, cap. 49. Although the Fishery from Miramichi is at present carried on only to a trifling extent, yet the Vessels employed in its neighbourhood at Shippegan and Caraquet, could, if Miramichi were a Free Warehousing Port, obtain their supplies there, and avail themselves of the advantages offered by the 8th Section of the Act before referred to. At present, however, I believe that the Fisheries carried on at these places, is chiefly, if not wholly, a Shore Fishery, being by open boats, to which the advantages before referred to do not extend. Also with reference to the 18th Section of the Act 6th and 7th Victoria, cap. 84, (passed 22d August, 1843,) which permits Foreign Beef and Pork which shall have been Warehoused, to be delivered Duty free for Ship stores, from the number of Vessels which are engaged in the Trade of Miramichi that are now unable to avail themselves of the advantages granted by the Section of the Act last referred to, owing to no Warehouse being established. I beg further to observe that I have for some time past been of opinion that it was desirable that a Warehouse should be established at Miramichi, and that its establishment would afford all the facilities that could be reasonably required for the Out-Bays of Bathurst and Dalhousie, particularly as at Miramichi the Customs establishment is on a larger scale than at the other Out-Bays.

The great difficulty that I have considered in attaining this desirable advantage for Miramichi, is the division that exists amongst the parties interested as to the proper site even for the Custom House; and this division, I am inclined to think, would be even stronger as to the site of a Warehouse for depositing Goods; and it appears to me absolutely necessary that the Custom House and Warehouse should be contiguous to each other, as the establishment of scattered Warehouses not only materially increase expense, but would render the conducting of business under the superintendence of the proper Officers, almost impossible.

It is unnecessary for me to make any further observation upon this point, as His Excellency the Lieutenant Governor, from recent occurrences, must be fully aware of the state of party feeling at Miramichi.

With respect to Bathurst, I am of opinion, that a Warehouse is not required at that Out-Bay, owing to the trifling extent to which Trade is carried on there; for instance, during the last quarter, ending 10th October, only three entries were passed at the Custom House there, two on the 11th September, and one on the 21st September, and only one of these was a Duty Entry, which amounted to £42 2s. 5d. Sterling. The objection to its being constituted a Free Warehousing Port is therefore apparent.

With respect to Dalhousie, it appears to me that the foregoing remarks upon Bathurst also apply.

The

The number of Entries passed at Dalhousie during the same quarter, is twenty, and the amount of Duty collected by this Revenue, £83 8s. Sterling; and I am of opinion, that if Warehouses were established at these places, they would not be used. When the proposed Act for consolidating the Departments may come into operation, it may be advisable to establish Warehouses, but upon this point I do not feel myself, as yet, competent to give an opinion. Should it, however, be considered necessary to appoint Warehouses, this can be done without constituting those places Free Warehousing Ports.

I am also called upon by your Letter, before referred to, to refer again to the former correspondence, respecting a Petition in the County of Westmorland, and report again thereon; and having referred to the said correspondence, I have the honor to state, that whilst I was in London in April, 1842, the whole of the papers relating to this application were referred to me for my observations, and it appears to me, that I cannot comply with the directions contained in your Letter, to report again thereon more fully, than by furnishing a copy of my Letter to the Honorable Board, dated London, 27th April, marked D., which I have the honor herewith to enclose.

London, 27th April, 1842.

HONORABLE SIRS,—In obedience to Your Honors directions, dated the 22d instant, desiring me to Report my observations upon the several papers therewith transmitted, relative to the appointment of a Free Port in the County of Westmorland, in New Brunswick,—I have only to observe, that I see no reason to alter my opinion on this subject, as expressed in my Letter (together with enclosures) No. 140, dated 28th December, 1841, and No. 20, dated 17th February last, and that I cannot recommend the appointment of a Free Port as prayed for. If, however, upon consideration, Your Honorable Board should be of opinion that it is requisite, I beg to suggest that the landing of all Goods should be confined to the Wharf at Dorchester Island, and further to observe, that Mr. Sayre, the present Sub-Collector, will require some assistance, (particularly adverting to his advanced age,) to enable him to superintend the landing of Goods from a Foreign Country.

Fredericton, N. B. November 27, 1843.

Referring to my Despatch No. 108, dated 14th November, I enclose to your Lordship copies of the reports made by the Officer of Customs at Saint Andrews on the 26th July, 1833—28th March, 1834, and 29th December, 1840, on the successive Petitions of the Merchants and other Inhabitants of Saint Stephen's, for the privileges of a Free Warehousing Port.

In the first of these Reports, they explain the advantages which would attend the appointment of an Officer at the "Ledge" below Saint Stephen's, where large Vessels discharge their cargoes throughout the year unimpeded by the ice; they also allude to the great facilities for Smuggling at Saint Stephen's, and in their second Report (28th March, 1834,) in explaining the nature of the Trade carried on, they observe that "they have reason to believe that the greater part of the provisions required for the consumption of the poorer classes at Saint Stephen's, are smuggled."

In corroboration of the opinion expressed in my Despatch, No. 102, of 26th October, as to the extent to which Smuggling has been carried on in the Out-Ports, and along the inland Frontier of this Province, I have recently noticed that the Commissioners appointed to enquire into the state and management of the Customs in Western Canada, has reported that the several articles which were enumerated by me, as having been Smuggled, had been introduced into that Province, and that larger quantities of Tea, Leather, Boots, Shoes, Tobacco and Spirits, had been illicitly introduced into Canada, than had been admitted on payment of Duties. A reduction of Duties, as recommended in that Report, would doubtless check a contraband Trade, affecting so seriously the Provincial Revenue; and I am also disposed to think that an extension of the privileges sought, would enable the fair Trader more successfully to contend against the Smuggler than he is enabled to do.

In the third Report of the Collector, (29th December, 1840,) he alludes to the great increase in the Shipping and Trade at Saint Stephen's, to which Port, in fact, a great deal of the Trade of Saint Andrews had been transferred, and in classing it with the Free Ports of Magaguadavic and Campo Bello, he entirely overlooked the relative pretensions of those places.

In my Despatch, No. 42, of April 28th, 1842, I enclosed a Return of the Shipping belonging to the Port of Saint Stephen's. I have no later Return to which to refer, nor one from which I am able to shew the comparative Trade of the Out-Ports mentioned.

From the population Returns of 1840, 3682 are returned as the number of the inhabitants of Saint Andrews, 3405 as the number in Saint Stephen's, and 718 in Campo Bello, to which the population of the neighbouring Islands may be added. Of Magaguadavic there is no separate Return, and I concur with the Collector in the opinion expressed by him in his letter of the 1st November last, enclosed with my Despatch, No. 108, dated 14th November, that to withhold a privilege from Saint Stephen's, which has been conferred on two such minor Ports as the last mentioned, can hardly be considered just.

I now enclose copy of the Collector's letter of the 25th instant, to whom I referred for his opinion as to the expediency of comprehending the "Ledge" within the Port of Saint Stephen's.

If provision should be made for the appointment of suitable establishments at the Ledge, I consider that it would be advantageous to place the two establishments under one superintendence, on account of their proximity.

SIR,—In obedience to the commands of His Excellency the Lieutenant Governor, conveyed in your letter, dated the 7th instant, I have the honor to transmit copies of three several Reports on the applications made by the Merchants of Saint Stephen, praying the extension of the Free Port principle to that place.

I have also to comply with the requisition as to the dates of the Orders in Council, which constituted Welch Pool, in the Island of Campo Bello, a Free Warehousing Port, which was on the 1st April, 1835; and Magaguadavic was erected into a Free Port on the 10th April, 1838.

[No. 30.]

Custom House, Saint Andrews, 26th July, 1833.

HONORABLE SIRS,—The private requisition, No. 28, dated 14th May last, calling upon us to transmit our Report on the Order of the Honorable Board, No. 94, dated 7th November last, connected with a Petition from N. Marks and sundry others, praying that an Officer may be stationed at a Port of the River Saint Croix, called the Ledge, with powers to enter and clear outwards to Foreign Ports, in consequence of the inconvenience experienced by said parties in being compelled to enter on arrival at the Free Port of Saint Andrews,—

We have the honor to report, that at the season of the year when the Honorable Board's Letter was received, it was not practicable to visit the Ledge, in consequence of an extraordinarily severe Winter and heavy fall of snow, and as neither the Collector nor Controller had previously visited that place, we were unable to judge of the merits of the case so as to afford that circumstantial opinion necessary to be submitted to the Honorable Board.

A few days since we had a personal inspection of the Ledge, which is situate about four miles below Saint Stephen, certainly, in our humble opinion, more convenient for the shipment of Lumber and Timber than Saint Stephen's, for the reason that the River is deep only as far up as the Ledge, and the navigation above that point not only difficult for large vessels, but much time is lost in the endeavour to move to Saint Stephen's. That portion of the River above the Ledge is more liable, in the Winter, to be frozen over, and to confine the Vessels, frequently for the whole Winter, consequently retarding all trade; whereas below the Ledge, a Vessel is not so dependant on the casualty here adverted to.

Having perused the Memorial of the parties, also the Report of our predecessors in office, dated 20th June, 1832, No. 59, in which the several points have been fully discussed, we beg to state that we perfectly coincide in opinion with them.

As to the removal of the present Sub-Collector from his present station at Saint Stephen to the Ledge, which is the particular point on which we are directed to report, we cannot view such a measure as advisable, as it would expose the whole frontier to the incursions of smugglers to the great detriment of the interests of the Revenue, particularly as at that place there is a Bridge connecting the United States and this Province, and we make no doubt, that if such a removal were to take place, every advantage would be taken by most industrious smugglers. It ought not to be lost sight of, that if any Officer be allowed to enter Vessels from Foreign parts, and to clear them in like manner, it would be affording all the advantages and privileges of a Free Port to that station, and we humbly submit such ought not to be carried into effect, unless a suitable establishment of Customs Officers are appointed, and which the importance and general business of the place will not warrant; and we are not aware if any provision has been made for such an event, by the Provincial Legislature.

We have, &c.

[No. 13.]

Custom House, Saint Andrews, 28th March, 1834.

HONORABLE SIRS,—We have the honor to acknowledge the receipt of the Honorable Board's Letter, No. 58, dated 29th October last, referring to our Report of the 26th July preceding, No. 30, respecting the practicability of establishing an Officer of this Revenue at the Ledge, which forms part of the Out-Bay of Saint Stephens, attached to this Port, and directing us to make further inquiry on the several points alluded to in Your Honor's Letter.

In

In obedience to your directions, we report that we have made inquiry, from which we learn—

1st. The number of Merchants that reside at the Ledge ;—to which we beg to reply, that there is not one Merchant there residing ; but in order that the Honorable Board may form an idea of this place, we beg to enumerate the parties principally carrying on business as Shipowners in the neighbourhood. Their names are as under :—

John M'Allister,	Mill Town,
N. Marks,	Saint Stephens,
J. Marks,	Ditto,
J. Frink,	Ditto,
Wm. Porter,	Ditto,
R. Lindsay,	Ditto,
A. Grant,	Ditto,
W. Thompson,	Ditto,
A. & S. Hill,	Ditto.

The whole of the above parties reside about three miles from the Ledge, consequently may be said to be residents of Saint Stephen's, as the whole distance between Saint Stephen's and the Ledge is about four miles.

2d. There is only one Warehouse at the Ledge, and that of a very inferior construction.

3d. "The number of Vessels which have brought to or taken from the Ledge, cargoes, during the last year (ending 5th January, 1834,) distinguishing the Ports from whence such cargoes had been brought, as well as the Ports to which they had been exported," will be found in an account enclosed, but no Duties have been collected at the Ledge.

4th. The nature of the Trade to and from the Ledge, consists in the shipment of Lumber manufactured at Mill Town and Saint Stephen's, rafted at those places, and shipped at the Ledge, as a more convenient place of shipment. Of goods which are landed there, we beg to enumerate whatever may be brought there from neighbouring parts of British America or Coastwise, within this Province, British West India Goods, such as Coffee and Molasses, paying Crown Duties, and whatever Foreign Goods may be required to be landed at the Ledge, must take place after reporting, entering and paying Duties at Saint Andrews, or by inland navigation at Saint Stephen, but we have reason to believe that the greater part of provisions required for the consumption of the poorer inhabitants are smuggled.

At the Ledge the only buildings to be noticed are a small Tavern and a Tannery, there are also two wharves for loading Timber Vessels, and in the neighbourhood there are several small Farm Houses, besides Cabins, belonging to the labouring classes, having each about one acre of Land. These people, when Timber Vessels are at work, are employed, which appears to be their inducement to settle on that spot. We have been perhaps more minute than Your Honors might desire, but we wish to furnish every information to enable the Honorable Board to form a just estimate of the Ledge.

Custom House, Saint Andrews, 29th December, 1840.

HONORABLE SIRS,—I beg leave to enclose a copy of a Memorial from the Merchants and others interested in the Sub-Port of Saint Stephen's, to the Lords Commissioners of Her Majesty's Treasury, praying for the reasons therein expressed, that that Port may be erected into a Free Port.

It is stated in the memorial that a Free Port would be desirable, to enable their Vessels to bring direct from the United States, Pitch Pine Lumber, in order that they may assort their Cargoes for the West Indies, which they cannot at present do without being put to a heavy expense in proceeding to a Free Port, and there to land the same. They consider the list of Vessels, which I herewith have the honor to enclose, sufficient to entitle them to the privileges now requested. The number is 34 Vessels, amounting in Tonnage to 8573 Tons.

I beg to acquaint Your Honors, that on the 20th March, 1837, No. 16, I had occasion to Report, on an application from the inhabitants of Saint Stephen's, when they applied for a Free Port, and the objections which then were made still exist, particularly that the usual and the only place for landing Goods from all Vessels above 250 Tons, was about four miles from the Port, consequently, any Vessel that is to carry Pitch Pine Timber, which must be of the largest class, cannot proceed to the Port of Saint Stephen.

The list of Shipping belonging to the Out-Bay of Saint Stephen's, certainly exhibits a great increase, and there is no doubt, but the exportation of Lumber to the British West Indies is yearly increasing ; but as I have before had occasion to advert to the inland navigation and land route, which they exclusively enjoy, I respectfully submit, that as there are already three Free Ports in the vicinity, viz : Saint Andrew's, Magaguadavic and Campo Bello, that unless all Out-Bays are as a general measure to be erected into Free Ports, it would not be expedient to grant this request.

I have, &c.

Custom House, Saint Andrews, 25th November, 1843.

SIR,—I beg to acknowledge the receipt of Your Excellency's commands, through the Secretary's Letter,

Letter, dated the 17th instant, desiring me to inform you, if, in my opinion, there would be any objection to including the Ledge within the Port of Saint Stephen; and if, when a Sub-Collector and Boatman may be provided for that place, as recommended by me, it would not be advantageous to place the Establishment there under the superintendence of the Officer at Saint Stephen, comprehending the two places in one Free Warehousing Port,—

I respectfully reply, that I have always hitherto been of opinion that the Ledge should not form part of the Port of Saint Stephen, on the ground that whatever Goods may be there landed could not be attended by the Officer at present stationed at Saint Stephen, as his constant attention is required at that place by the land route and inland navigation, for Goods imported from the United States, but in the event of Officers being stationed at the Ledge, the objection would be removed. Yet as the navigation of the River for Vessels of even moderate tonnage is difficult and hazardous, I cannot help thinking that the proper place for discharging Vessels with Foreign Goods, would be the Ledge, and if there landed and warehoused, could be removed under what is technically termed a Coast Bond, from one Bonded Warehouse to another.

Hitherto the limits of the Port of Saint Stephen have been confined to as far as the Houses and Wharves of the Town extend, though should Your Excellency suggest the extension of it to the Ledge, I trust, for the safety of the Revenue, that all Foreign Goods will be compelled to land at the Ledge, so that a proper account be taken of them.

It is not common for two Sub-Collectors to be appointed at the same Port, and if the controul should be with the Sub-Collector at Saint Stephen, it might be expedient to give a different title to the Officer stationed at the Ledge, whose accounts should be sent to Saint Stephen, or it could not be viewed as one Port.

The usual place of landing Goods from the United Kingdom and the Colonies is the Ledge, as well as for shipping Goods to those places, on account of the shallowness of the River, and danger of the rocks at the Ledge, which will clearly point out where the general Foreign Trade should be carried on.

Should the Ledge be approved for the purposes of Foreign Trade, it will be essentially necessary to appoint a person who is well acquainted with the several duties of the Customs Department.

You will perceive from the enclosure to Mr. Trevelyan's Letter, that the Commissioners of Customs have instructed their Collectors at St. John and St. Andrews to confer with you on the subject, and to report to the Board the names of the places which in their opinion should be created Free Warehousing Ports, in addition to those which already exist.

SIR,—With reference to your Letter of the third of April, signifying the objections of the Lords of the Treasury to that part of the Bill for consolidating the Revenue Departments of New Brunswick, (which the Lieutenant Governor of that Province proposed to introduce into the Legislature during the last Session,) which contemplated the admission of Goods at places not constituting Free and Warehousing Ports by the Imperial Act 3 and 4 W. 4, c. 59, or by Her Majesty's Order in Council, I am directed by Lord Stanley to transmit to you the copy of a Despatch from the Lieutenant Governor, and which, regarding as conclusive their Lordships objections on this part of his Bill, he earnestly recommends the extension of a number of Warehousing Ports in the Province, either by an alteration of the Imperial enactment, or under the authority of an Order in Council. The deficiency of these Ports, having, as he states, a serious effect upon the Trade and Revenue of the Colony. Lord Stanley desires me to add, that the arguments adduced by the Lieutenant Governor appear to him deserving of their Lordships favorable consideration.

MAY IT PLEASE YOUR LORDSHIPS,

Sir George Clerk having by his Letter, dated the 7th instant, signified that he had been commanded by your Lordships to transmit to us, for our consideration and report, a Letter from the Colonial Office, dated the 26th August last, relative to increasing the number of Warehousing Ports in New Brunswick, and at the same time to enclose, for our information, copy of Your Lordships Minute of the 31st March last, on our Report of the 29th July, 1842.

In obedience to Your Lordships commands, we Report—

That previously to reporting upon the Letter from the Colonial Office, and its enclosures, which Your Lordships have been pleased to refer to us, we have deemed it expedient to direct the Collectors of this Revenue at Saint John's and Saint Andrews, New Brunswick, to confer with His Excellency the Governor of that Province, and to report to us the names of those places within their respective Districts, which should, in their opinions, be constituted Free Warehousing Ports, in addition to those which have already had that privilege conferred upon them; and we beg to add, that upon the receipt of those Officers Reports, we will not fail to report fully to Your Lordships upon the subject.

Fredericton, N. B. 24th January, 1843.

MY LORD,—I have the honor to enclose to Your Lordship a Petition to the Queen in Council, from the Chamber of Commerce of Saint Andrews, praying for protection of their Trade, which they consider will be injuriously affected by the Tariff of Parliamentary Duties, which will come into operation on the 1st July next.

With the object of obtaining the fullest information, I lately addressed a Circular to the Merchants and other Inhabitants in the several Sea Ports of the Province, to which I have not yet received their answers, but I will not delay to state my own views, and the result of my present observations and inquiries on the subject of this Petition.

Saint Andrew's and Saint Stephen's being situated on the left bank of the Saint Croix, and the latter being separated only by a Bridge from the American Town of Calais, a favorable opportunity is presented for investigating the causes which may operate to prevent the British Ports from entering into successful competition with their neighbours.

The circumstance that the latter defray all their local expenses by direct taxation, from which the inhabitants of the Province are in a great measure exempt, would be unfavorable to them, if it did not operate as a stimulus to that frugality and industry for which they are characterized. Their Vessels are equipped and navigated on more reasonable terms than those of this Province.

In Saint Andrew's the equipment of Vessels in the same manner, has, to some extent, obtained, and there is no reason why the system of navigating on shares, by which the Americans pursue so successfully the carrying Trade, would not be more generally adopted in the Provincial Ports.

There is, however, an advantage possessed by the Americans, from which, under the operation of our Laws, the British Traders are excluded. The restriction on Foreigners importing into British Ports any Goods, except the produce of the Country to which the Vessel may belong, excludes

British Vessels from the American Ports with assorted cargoes, and as the Provincial Markets are very limited, in comparison with those of the United States, the effect is unfavorable to the Colonial Traders.

If the American Traders were allowed to import cargoes of Goods of all Countries, on the same privilege being accorded to British Vessels in their Ports, the effect would be highly beneficial, and the Trade of Saint Andrew's and Saint Stephen's with the West Indies, would not be so injuriously affected by the competition of the Americans, who have the exclusive advantage of their own Ports for their return cargoes.

There is a prevailing opinion, that the general adoption of the warehousing system, would prove advantageous to the Trade of the Province. There are at present but two Warehousing Ports, those of Saint John's and Saint Andrew's, and as all the Ports, except these, in the Bay of Fundy, are closed during the Winter, it was contemplated in the Bill of last year for consolidating the Customs and Provincial Establishments, to provide for an extension of the privilege.

As the measure is likely to be revived in the ensuing Session, I am desirous that it should also be accompanied by such modifications of the Provincial Duties, as will be favorable to the Trade, and with the alteration I have proposed in the conditions of Trade with Foreign Countries, and especially with the United States, I should be disposed to anticipate that the enterprise of the people would enable them to enter into successful competition with the Americans in the carrying Trade.

[No. 144.]

Downing Street, 30th March, 1843.

SIR,—I have to acknowledge the receipt of your Despatch No. 3, of the 24th of January last, transmitting with your observations, a Petition to the Queen from the Chamber of Commerce at St. Andrews, representing the injury to the trade of New Brunswick, which they anticipate from the recent changes in the British Possessions' Act, and praying protection from the competition of the United States in the Trade of the West Indies.

You will inform the Chamber that I have had the honor to lay their Petition before the Queen, and that Her Majesty was pleased to receive it most graciously.

The attention of Her Majesty's Government has been much attracted by your statement; that the burdens under which the Citizens of the United States labor have so stimulated them to energy and frugality, that they are enabled, notwithstanding, to compete successfully with the Colonists of New Brunswick in Navigation and Trade.

The provisions however of the Laws as they stand, and as they will stand after July, added to the essential advantages enjoyed by the people of New Brunswick, as compared with the Americans, afford reasonable ground for believing that the former ought to be able, and will be able to regain the ascendancy over the latter.

Various circumstances appear favorable to the Province.

As regards the carrying Trade between the United Kingdom and New Brunswick, and between the latter and the British West Indies, the Provincial Shipping is protected by the Navigation Law from all competition with that of the United States, while with respect to the carrying Trade between the United States and the British West Indies, and the Exportation Trade from the United States to the Foreign West Indies, New Brunswick Vessels appear to be on an equal footing, as to duties and charges, with the United States Vessels, and can thus enter fully into competition with them.

In this competition too, the New Brunswick Ship owner has various practical advantages. The pressure of general taxation is admitted to be less in New Brunswick than in the United States, and the cost of fitting out ships in the United States is artificially increased by the protective Duties on Hemp, Cordage, Iron and other materials, and by the high price of labor which necessarily enhances the wages of Seamen, while in the Colony the price of labor is represented by the Petitioners to be low.

It may be further observed, that the Export of New Brunswick Timber to this Country, constituting the principle branch of the Trade of the Colony, is supported by very high protective Duties; and as to the Lumber Trade, there is every reason to believe that at this time, the United States receive wood from New Brunswick, but that New Brunswick receives none from the United States. The inference therefore to be drawn from these facts is, that, upon the whole, the demand for Colonial wood stuffs in the British West Indies, is not likely to be supplanted by supply from the United States; or at least, that the danger should not be assumed, but ought to be supported by indisputable evidence.

Under these circumstances, Her Majesty's Government trust, that, when the recent alterations in the Colonial Customs Duties shall have come into full effect, and when the present depression of Trade in this Kingdom shall have passed away, the Petitioners will find not only that their apprehensions will not be realized, but that the measure of protection still afforded to them, coupled with the advantages of abundant provisions and cheap labour enjoyed by them, will secure to New Brunswick a renewal and continuance of Commercial prosperity.

Her Majesty's Government are not prepared to adopt your suggestion, that the restriction should be removed which is imposed on Foreign Ships importing into British Ports any Goods not the produce of the Country to which they belong, and from which they are imported.

This

This alteration would involve a departure from one of the most important principles of the Navigation Law.

Neither do Her Majesty's Government think it advisable or requisite to abolish, as suggested by the Petitioners, the Duties on Importations into the Province, of the prime necessities of life ; and even if it were so, they would not feel justified in entertaining such a measure, unless it were extended to the whole of the British Colonies alike.

The later date for the commencement of the operation of the new Tariff in British North America, of which the Chamber complain, was adopted, you are aware, solely with a view to afford to the Colonial Legislatures the requisite time for the consideration and adjustment of the changes in the Colonial Duties rendered necessary by the changes introduced by the Act 5 and 6 Vic. cap. 49.

You are at liberty to communicate the substance of these observations to the Chamber of Commerce.

I have, &c.

F. P. ROBINSON.

“Your Committee have examined attentively this Report, and are of opinion, that it should be sustained, with the following exception:—A charge of £15 paid the Commercial Bank for rent of Office, and Room for holding Glasses, Wicks, &c. to 31st December, 1843. This your Committee consider inadmissible, and that £5 would be ample for any charge for storage, &c. This difference, added to the balance reported, would leave a balance in the Commissioners hands, of £143 5 9. From this balance, however, we consider should be deducted £17 7 6, surcharged by the Auditor General for defective vouchers, which will reduce the balance to £125 18 3.

“Your Committee are further of opinion, that the sum of £107 8 6, recommended by the Select Committee on Light Houses the last Session, should be granted to the Commissioners of Light Houses as a compensation for the Superintendent of Light Houses to the 31st December, 1842, and that at that period any such compensation should cease, and that the Commissioners should, subsequently to that time, receive nothing more than the usual commission of five per centum on the amount of expenditure, save and except on the allowances to the respective Keepers of the Light Houses. The balance of £119 15 10 due the Commissioners of Point Escuminac Light Houses must be provided for.

“No. 2.

"No. 2. Is the Petition of Thomas Lamb, Keeper of the Light House, Thrumb Cap, Quaco, praying an additional Grant for his services in 1842, and for damages sustained in consequence of the effects of a violent gale of wind and storm, by which he lost two Boats, &c. necessary to be kept in going to and returning from the Light House:—Your Committee are of opinion, considering the circumstances, and that he was subject, in addition to a heavy loss, by reason of having employed an Assistant Keeper for that year, the allowance for which service was not sustained by the House, that a Grant should pass to him not exceeding £20.

"No. 3. Is the Petition of John Pendleberry, Keeper of the Light House in the Harbour of Saint Andrews, praying an additional Grant for his services in that capacity:—Your Committee are of opinion, that as the Salary voted by the Legislature is only £30, and that he accepted the office under a full expectation of receiving the former allowance of £40, that the latter sum should be granted him, or that £10 additional should be appropriated for this service, as recommended by the Commissioners.

"No. 4. Is the Petition of James Munson, Keeper of the Light House on Cape Enrage, praying an additional Grant:—Your Committee are of opinion that the amount voted for this service is sufficient.

"No. 5. Is the Petition of George Lane, Keeper of the Beacon Light at Saint John, with a similar prayer:—Your Committee are of opinion, that this service is already amply provided for.

" Respectfully subraitted.

" JAMES BOYD,
ALEX. RANKIN,
J. R. PARTELOW.

Mr. Boyd, from the Committee on Fisheries, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee appointed on the first day of February, to take into consideration all matters connected with the Fisheries and to report thereon to the House, Report that they have attended to that duty—

“And having first taken into consideration the Petition of James Brown, William Ludlow, Thomas Lord, and two hundred and ninety three others, Fishermen of the Parishes of West Isles and Campo Bello, praying for Legislative enactment in the restriction of the use of Wears in the aforesaid Parishes; also the Petition of William M'Kinney, and one hundred and sixty others, praying that the prayer of the first Petition be not complied with; and after due investigation of the matters set forth in the above Petitions, are of opinion, that the several matters set forth in the first above named Petition appear to require Legislative enactment restricting the use of Wears and to remove the evils complained of.

“The Committee have taken into consideration the Petition of Sylvanus Powell, John Long and John Marshall, praying the Grant of a sum of money to aid them in fitting out Vessels from Richibucto, for the purpose of making an experimental voyage in the Seal Fisheries:—On this subject the Committee, viewing it as a very desirable object to encourage such enterprise as appears to promise increased means for profitable employment of Provincial industry and capital, recommend that a small Grant to the extent of Fifteen Shillings per ton on the registered tonnage of the Vessels so proposed to be fitted out at Richibucto, be made in Committee of Supply, to the Petitioners; not to exceed in the whole one hundred pounds.

“The Committee having given serious consideration to the Petition of William Ker, John Wilson, William Garnett, and sixty six others, of the County of Charlotte, praying that a Bounty may be granted for the encouragement of persons prosecuting the Fisheries within the Province, concur in recommending the prayer of the Petition to the favourable consideration of the House, in as far as it extends to the Cod and Scale Fisheries.

“The two several Petitions of Wilford Fisher, John M'Intosh, Esquire, and eighty nine others; Thomas Moses, James Chaffey, Esquire, and one hundred and eighty nine others, of the County of Charlotte, praying for Legislative enactment for the protection of the Fisheries, and encouragement by Bounties on these two cases, the Committee recommend, as in the case of John Wilson, Esquire, and others, provided the funds of the Province will admit of such appropriation.

“The Petition of Church Meigs, Cochran Craig, Esquire, and one hundred and seventeen others, of Grand Manan, praying Legislative enactment to protect the Spawning Ground adjacent to that Island; also to prevent the taking of Fish by Set Lines:—The Committee recommend that the space described by Petitioners to be reserved for Spawning Ground, be protected for such purpose by Law, and also that the new system adopted of Set Lines Fishing, in like manner be restricted.

“The Committee have had under consideration the Report of a Special Committee of the Provincial Association, recommending Bounties on Vessels employed in the Cod and Scale Fisheries; also on the catch in open boats engaged in the shore Fisheries. The same Committee also recommend a Bounty on the catch of Mackerel and Herrings, per barrel, according to quality. They also earnestly recommend that, in order to carry out the system of Bounties effectually, and to raise the character of the Fish of New Brunswick in Foreign ports, it will be absolutely necessary to frame a new inspection Law, and they suggest the mode adopted elsewhere of establishing an inspection department, with a chief Inspector, &c. &c. &c.

"Your Committee also recommend that application be made to Her Majesty's Government, by Address to His Excellency the Lieutenant Governor, that an armed Vessel may be stationed in the Bay of Fundy during the fishing season, to prevent the infringement of existing Treaties by Foreigners.

"Your Committee further recommend that a Select Committee be appointed to prepare a Bill to meet the views expressed in the several Petitions as heretofore recommended; also to revise and amend the Laws relative to the inspection of Fish.

"All which is respectfully submitted.

To which Mr. Brown moved as an amendment—

To expunge the whole of the said Resolution, and substitute as follows:—

Whereas it appears that James Doak and Thomas Hill, lately imprisoned for breach of Privilege of this House, are at large; therefore

Resolved, That the Sheriff of the County of York be called to the Bar of this House, to answer such questions as may be put to him regarding the release of the said James Doak and Thomas Hill.

 Scoullar,
 Gilbert.

And so it was carried in the affirmative.

On motion of Mr. Partelow,

Whereas the present legal value of the Gold and Silver Coins of Great Britain is much less in this Province than in the Provinces adjoining; And whereas Her Most Gracious Majesty was pleased in Council, on the 11th March, 1842, to assent to an Act passed in Canada, intituled "An Act to regulate the Currency of that Province," by which the British Sovereign was made thereafter to be a legal Tender for £1 4 4, Currency; And whereas in the United States of America, the value of the Sovereign has been established by Law, at £4.84, where the Dollar is fixed by the same authority at 5s., or one hundred Cents; And whereas the Dollar, although the legal value in this Province is 5s., yet by reason of its having become an article of Merchandize in the United States, and generally bearing a premium, has here almost entirely disappeared from circulation; And whereas it is considered desirable that the value of the Sovereign in this Province, (the Coin having by far the most extensive circulation on the American Continent,) should pass as a legal Tender, of a value approximating as nearly as possible, to its established value in the United States, the exchanges being regulated with reference to the rates from time to time current in the former Country; And whereas it is also requisite that a fixed value should be given by Law to British Silver as a Tender to a certain extent, having reference as near as may be practicable to the value of the Sovereign; therefore

Resolved, That in any Bill which may pass the House during the present Session, the Sovereign should be fixed at 24s. 4d., and the British Crown at 6s., and that an Humble and Dutiful Address should be presented to Her Majesty, praying that Her Majesty will be graciously pleased to give Her assent to such Act, it being the opinion of this House, that establishing the Sovereign at 24s., the rate recommended by the Right Honorable Lord Stanley, Her Majesty's Principal Secretary for the Colonies, would have the inevitable tendency to drive entirely out of circulation the British Sovereign; would derange the exchanges; would confine the circulation exclusively to British Silver, and thereby increase the price of every article of import and export, the current value of British Silver in the United States averaging from five to seven and a half per centum, less than 24s. Currency, to the pound Sterling.

Mr. W. H. Street moved as an amendment to the foregoing Resolution—

To expunge the whole thereof, and substitute as follows:—

Resolved, That the House do now go into Committee of the whole in further consideration of a Bill in amendment of and in addition to the Acts relating to the establishment of a legal Tender in all payments to be made in this Province.

Committee Room, 7th March, 1844.

The Honorable Mr. Speaker reported to the House, that Edward Winslow Miller, Esquire, High Sheriff for the County of York, was in attendance, in obedience to the Order of the House of yesterday.

Whereupon the said Edward Winslow Miller, Esquire, appeared at the Bar; when

The Honorable Mr. Speaker called upon him to state upon what terms, under whose authority, and when James Doak and Thomas Hill, the parties who were committed to the Common Gaol for the County of York for a breach of the Privileges of the House, under an Order of this House of the twenty sixth day of February last, were discharged from custody.

To which the said Edward W. Miller, Esquire, replied—That they were discharged from custody by an Order from His Honor Judge Carter, dated on the second day of March instant;—Which Order was then handed to the Clerk of this House, and then delivered to the Speaker.

Ordered, That the said Edward W. Miller, Esquire, do retire from the Bar.

The Order issued by His Honor Judge Carter, for the discharge of the said James Doak and Thomas Hill, was then read by the Clerk, and is as follows:—

THE QUEEN, *vs.* James Doak and Thomas Hill. } Upon the return of the Habeas Corpus issued in this Cause, and the appearance of the Defendants, who have been confined in Her Majesty's Gaol, in the County of York, by the Warrant of John W. Weldon, Esquire, Speaker of the House of Assembly; and upon hearing Mr. Kerr, of Counsel for the Prisoners: I do Order that the said Prisoners be discharged out of custody.

Dated the second day of March, 1844.

J. CARTER.

On motion of Mr. End,

Whereas it appears that the Prisoners, James Doak and Thomas Hill, committed by Order of the House on the twenty sixth ultimo, were discharged from the custody of the High Sheriff of the County of York, by Order of Mr. Justice Carter, one of the

the Judges of Her Majesty's Supreme Court of Judicature, dated the second day of March instant; therefore

Resolved, That this matter be referred to the Committee of Privileges to report to this House thereon.

On motion of Mr. Thomson,

The House went into Committee of the whole on a Bill to repeal all Laws now in force for the organization and regulation of the Militia in this Province.

Mr. Partelow in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill referred to them under their consideration, had made progress therein, and he was directed to ask leave to sit again.

Ordered, That the Report be accepted and leave granted.

The Honorable Mr. Simonds, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

A further Report from Doctor Alexander Key, upon the subject of Disease prevailing at Tracadie, in the County of Gloucester.

The Honorable Mr. Simonds, also by command of His Excellency, laid before the House—

Reports from the Auditor General on the Accounts of the Commissioners for the Provincial Penitentiary up to the 31st December, 1843: also

[*See these Reports in Appendix.*]

On motion of the Honorable Mr. Simonds,

Ordered, That the several Reports on the Accounts of the Provincial Penitentiary; as also the Report on the Government House Expenditures, with the various Documents accompanying the same, be referred to the Committee on Public Accounts to report thereon.

Mr. Palmer in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Bill again before them, and after going through the enacting clauses thereof, the Preamble of the said Bill, set out in the words following, was under their consideration, viz:—

“Whereas large sums of money are due by the County of Saint John, being balances remaining unpaid, for the erection and completion of the many Public Buildings and Institutions lately established by the authority of the Legislature in the said City and County of Saint John, and also for various other Public Services;” *and although large sums of money also appear to be due to the said County, the Justices of the Peace for the said City and County have been unable to compel the immediate payment thereof, and doubts are entertained whether the same will ultimately be recovered:* “And whereas it is deemed expedient, in order to keep faith with the Public Creditor, to authorize the Justices of the Peace in and for the City and County of Saint John, to borrow a sum of money for the purpose of discharging the said Debts, and to empower the said Justices to repay the money so borrowed, with interest, by an annual assessment of a proportional part thereof, instead of levying the whole Debt at once.”

To which it was moved as an amendment—To expunge the following words:—

“And although large sums of money also appear to be due to the said County, the Justices of the Peace for the said City and County have been unable to compel the immediate payment thereof, and doubts are entertained whether the same will ultimately be recovered.”

And upon this question, it was carried in the affirmative, and those words accordingly expunged.

An amendment was then moved to the said Preamble as amended—To expunge the whole of the remaining part thereof and substitute as follows:—

“Whereas it is deemed expedient to authorize the Justices of the Peace for the City and County of Saint John to borrow a sum of money upon the credit of the said City and County of Saint John to pay off the Debts due from the same.”

Upon the question for adopting this amendment, it was decided in the negative.

A motion was then made for the reconsideration of the question, upon the said last amendment.

And upon this question, the Committee divided as follows:—

YEAS.	NAYS.
The Hon. Mr. Speaker,	The Hon. Mr. Hazen,
The Hon. Mr. Simonds,	Mr. S. Earle,
Mr. Hanington,	Payne,
Allen,	W. H. Street,
End,	Jordan,
Wark,	Smith,
Barker,	Partelow.
Perley,	
Botsford.	

Whereupon it was carried in the affirmative.

The question being then again put for adopting the said last proposed amendment to the Preamble of the said Bill, the Committee again divided as follows:—

YEAS.	NAYS.
The Hon. Mr. Speaker,	The Hon. Mr. Hazen,
The Hon. Mr. Simonds,	Mr. S. Earle,

“The Committee appointed to examine the several Petitions of Schuyler P. Frink, Josephus Moore, Alexander Campbell, John Marks, Samuel Abbott and John Wilson, Freeman H. Todd, George M. Porter, Christopher C. Bradbury, and Joseph N. Clarke, praying for relief in the purchase of Crown Lands, having had the same under consideration, beg to submit the following Report—

“That between the years 1832 and 1838 numerous tracts of Land, chiefly situated in the Western part of the Province, were purchased from the Crown, payable by instalments, at prices ranging from five to nine shillings per acre:—That many of the parties, after paying large sums of money, were unable to complete their purchases, in consequence of which, these payments stood as forfeitures to the Crown:—That since that time, various applications have been annually made to the Legislature, praying for some relief in consideration of the large sums so paid; and that in several instances such relief has been granted accordingly.

“That under all the circumstances of the case, your Committee would recommend that purchasers of tracts of Land, exceeding five hundred acres, since the beginning of the year 1833, who have only paid a portion of their purchase money, be allowed to have Land at the price of their original purchases, to the extent of their several payments; the same to be laid off at their expense, under the direction of the Surveyor General, out of the Lands originally purchased, where the same still remain unsold, under the following conditions, viz:—

“Each

" Each purchaser must furnish an attested statement of the quantity of Timber or Lumber cut upon the Land by or for him, or with his sanction or knowledge, since the date of his purchase, and pay stumpage at the usual rates on a quantity proportioned to the quantity of Land resumed by the Government; and he must likewise pay all legal costs and all expenses consequent upon the reinvestment of the Land in the Crown, in cases where actions have been commenced, or where the Land has been granted.

" The Committee also recommend a deduction of twenty per centum from the prices at which the said Lands were originally sold, without interest, and that it be left to the option of the Petitioners, respectively, either to take Land under the conditions above prescribed, or to pay up arrearages that may be due, after making the said deduction, allowing also the Timber Duties, if any, which may have been paid by Petitioners since their respective purchases; and that one and two years be allowed to make such payments, without interest.

" The Committee have also had under their consideration the Petition of Thomas M'Henry, praying for an investigation of the Accounts, transactions and proceedings had between the Crown and Duncan Barber, and adjustment of the same, with a view to enable him, the said M'Henry, to redeem the Springhill Estate; and also the Petition of Isaac and Thomas Murray, praying that no action be had on the Petition of the said Thomas M'Henry.

" In regard to this case, the Committee are of opinion, that the complicated transactions alluded to, can only be adjusted on application to the Executive Government, and that by a proper representation, the Petitioner, Thomas M'Henry, will be allowed a further time wherein to redeem the Springhill Estate, should the settlement of the Crown claims against Duncan Barber require the same.

" Respectfully submitted.

TO THE HOUSE OF ASSEMBLY OF NEW BRUNSWICK.

GENTLEMEN,

I receive with the highest satisfaction your Loyal and Patriotic Address, and thank you cordially for the assurance which it conveys of your determination to uphold me in maintaining the Prerogative of the Crown, against the attempt of certain Members of the late Executive Council of Canada, to extort stipulations which would have prostrated the Authority of Her Majesty's Government, and destroyed Monarchical Institutions in this Province.

It is the peculiar advantage of the British Constitution, that the Honor and Dignity of the Sovereign are in unison with the Rights and Liberties of the Subject, and that no true Friend of the People seeks the degradation of the Crown.

I hail the sentiments expressed in your Address with the greater gratification, because I am sensible that they are poured forth from British Hearts, which would resist any invasion of the Liberties of the People, as firmly as they now reprobate a daring attack on the Royal Prerogative; and I should receive with shame the support which you afford, were I not conscious that in defending the Prerogative of the Crown, I am no less resolved to uphold the Rights of the Subject, and to maintain inviolate the Institutions established in this Province, with an anxious desire to see them accomplish the welfare of the Community.

Mr. Payne, from the Committee appointed on the twenty fourth day of February last, to examine into the matter of a Petition from James Clark and Thomas Clark, as regards

regards purchase money paid on two Lots of Land, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee to whom was referred the Petition of James and Thomas Clark, setting forth, that they had paid to Abraham Gesner, as Deputy Surveyor, the amount of purchase money on two Lots of Land in the Eel River Settlement, but that in consequence of the money not having been handed over by the said Abraham Gesner to the Crown, the Grants could not pass to them, Report—

“That they have searched at the respective Offices for an official order, authorizing the said A. Gesner to receive money from the Petitioners, on Lots numbers five and eighteen, in the Eel River Settlement, or from any other person, instead of Bonds, as required by the terms of sale, but cannot find such order.

“Your Committee find that a Legislative Grant was made in 1842, to reimburse A. Gesner for expenses incurred by him in forming a new Settlement at Eel River, but as this money appears to have been paid twelve months after that period, he may possibly have acted under direction unknown to your Committee, they therefore cannot recommend that the House grant relief in the premises.

PHILIP PALMER.

“ Also, of John Phelan, having no Certificate of the Trustees:

“ Also, the Petition of Henry Garish, it being for aid to build a School House:

The Honorable Mr. Hazen, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

A Communication from Henry W. Baldwin, Esquire, High Sheriff of the County of Gloucester, relative to the Disease prevailing in Tracadie.

The House again went into Committee of the whole in further consideration of the Messages from His Excellency the Lieutenant Governor.

Mr. Hanington in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had before them the Message from His Excellency of the twentieth day of February last, and which was communicated to the House on the twenty first of the same month, relative to the Disease prevailing in Tracadie, as also the various other Documents in reference thereto, and passed the following Resolution:—

Resolved, unanimously, As the opinion of this Committee, That immediate steps should be taken to relieve the sufferers, and check the further spread of the Disease reported to be prevalent at Tracadie and its neighbourhood, in the Counties of Gloucester and Northumberland, and that when in Committee of Supply, the House place the sum of £500 at the disposal of His Excellency the Lieutenant Governor for such purpose.

On motion of Mr. End,

Resolved, That a copy of the Resolution just passed, when in Committee of the whole House on His Excellency's Messages, which was adopted by the House, be furnished His Excellency the Lieutenant Governor; and that an humble Address be presented to His Excellency, praying that His Excellency may be pleased to take measures to carry the object of the same into immediate effect.

Ordered,

Ordered, That Mr. End, Mr. Thomson, Mr. S. Earle and Mr. Rankin be a Committee to wait upon His Excellency with the Address.

Mr. W. H. Street, from the Committee to whom was referred the subject of the Rent of the Custom House at Saint John, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Select Committee appointed on the sixteenth March instant, to report on His Excellency the Lieutenant Governor's Message, dated twenty eighth February last, on the subject of Rent of the present Custom House at the Port of Saint John, having attended to that duty, beg leave respectfully to Report—

“That on the eighteenth February 1840, His Excellency the Lieutenant Governor, by Message, transmitted to the House a Letter from the Provincial Treasurer, dated twelfth February; also one from the Collector of Her Majesty's Customs, dated fifteenth of the same month; the first setting forth that Mr. Walker proposed erecting a building of capacity to answer for Warehouses and Offices connected with the Revenue Department; and that the Offices then in use were confined and inconvenient; and for these and other reasons, recommending Mr. Walker's application to the favourable consideration of Government.

“The latter, for the same and other reasons, as therein set forth, is to same effect; and besides, sets forth, that the amount of Rent for Offices for the Customs and Treasury would not exceed £400 currency, per annum; that the then charge for inferior accommodation for the Custom House Department was £150 currency, and the Treasury £60 currency, per annum.

“At page 209 of the Journals of the same year, action appears to have taken place upon His Excellency's Message, by Resolution of the House, to effect of recommending Mr. Walker's proposal to the favorable consideration of His Excellency, and that the sum of £200 per annum be paid by the Province for the use of such Offices as may be required for the Treasury Department in the said Building.

“That it appears by the Journal of 1841, at page 92, Mr. Walker petitioned the House for a Loan of Money, to assist him in completing the Building then in course of erection.

“That it appears at page 273, a Law was passed by the Legislature for that object, authorizing a Loan of £6000 for five years, under certain conditions; the which conditions, as Your Committee understand, not having been complied with, the Law has not been acted upon.

“That after a careful examination of the Journals, and the several documents on the files of the House, connected with this subject, they are unable to discover on what grounds a claim is made upon this House to provide for the payment of the Rent of the Offices occupied by the Officers of Her Majesty's Customs, and are ignorant of any reason why the Rent of the present, any more than the former Offices, should be paid by the Province, more especially as the fifth Section of the Act 5 Will. 4, cap. 49, expressly precludes such claim.

“Respectfully submitted.

Resolved, As the opinion of this Committee, That as this Bill is aimed at the Trade of Saint John, and is professedly based upon frauds alleged to have been committed by that Trade in the mode practised in the survey of Deals, it would be both improper and unjust to legislate in the premises, until an investigation be first had touching the present system of such Survey, and the defects of the Law now in operation, sought for as such inquiry has been by those so deeply implicated in such charges, and that therefore this Bill should be postponed until the next meeting of the Legislature.”

"The Auditor General received from this Fund in 1842, for Auditing the Provincial Accounts, £166 13 5; and in addition, £186 10s. for Clerk hire, making £353 3 5. In March last he received £106 19 3 for the Quarter ending that date. Besides which, he of course was in the receipt of his annual Salary of £300 sterling, secured by the Civil List Bill. Since March, but £38 9 3 per Quarter have been paid in addition to the established Salary, bringing the expenses of the Office within the limits suggested by the House last Session.

"It will be observed that there is a large balance at the credit of the Surplus Civil List Fund, which is constantly accumulating. Your Committee recommend to the House the propriety of adopting such measures as will place the Fund in a position that will make it more productive than it hitherto has been, taking care that it may be always available for any emergency.

"Respectfully submitted.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Wilmot, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, delivered the following Message:—

“**New Brunswick.**

“*Message to the House of Assembly, 26th March, 1844.*

“W. M. G. COLEBROOKE, *Lt. Governor.*

“The Lieutenant Governor, on reference to the correspondence communicated with His Messages of the sixth and twenty seventh of February, lays before the House, copy of a Despatch he has recently received from the Secretary of State for the Colonies, and recommends that provision be made to enable Her Majesty's Government to constitute the Ports of Fredericton, Miramichi, and Dalhousie, Free Warehousing Ports.

“W. M. G. C.”

The Despatch, with its enclosures, communicated by the foregoing Message, being read at the Clerk's Table, are as follow:—

FREE WAREHOUSING PORTS.

(Copy.)

[No. 223.]

Downing Street, 22d February, 1844.

SIR,—With reference to your Despatches of the dates and numbers noted in the margin*, in which you have urged upon Her Majesty's Government, the expediency of extending the number of Free Ports in New Brunswick, I have the honor to acquaint you that the Lords Commissioners of the Treasury will cause the proper steps to be taken for making Fredericton a Free Port and Warehousing Port, for the limited purpose of importing Goods in British ships, and of warehousing such Goods in approved Warehouses; and also for constituting the Ports of Miramichi and Dalhousie Free Warehousing Ports, provided adequate provision be made for the expense in the Customs Establishment, which this augmentation in the number of Free Warehousing Ports in the Province will necessarily entail. The additional Customs Establishment, and the expense thereof, for which it will be necessary to provide, is mentioned in the letter from the Treasury, of which I enclose you a copy, and it will only remain that you should take the proper steps for obtaining authority from the House of Assembly to meet the expenditure required under this arrangement.

You will observe from the enclosure, that the Lords of the Treasury have not seen reason to change their opinion as to constituting Saint Stephen a Free Port, or for altering the existing arrangement at the Ports of Bathurst and Dalhousie.

I have, &c.

(Signed)

STANLEY.

Lieut. Governor Sir Wm. Colebrooke.

* No. 71, July 25; No. 93, Sept. 29; No. 102, Oct. 27; No. 103, Nov. 14; No. 113, Nov. 27.

(Copy.)

Treasury Chambers, 12th February, 1844.

SIR,—I am commanded by the Lords Commissioners of Her Majesty's Treasury to refer you to the several Letters from the Colonial Office, of the 26th August, 28th October, and 7th and 18th December, on the subject of granting additional privileges as Free Ports or Free Warehousing Ports to certain places in the Province of New Brunswick, and to the communication made to you by direction of this Board, on the 10th November last, on the same subject; and I am to request that you will state to Lord Stanley, that my Lords have now had under consideration Reports from the Commissioners of Customs with the information relating to the Trade and position with reference to other Ports, of the several places from which applications have been forwarded by the Lieutenant Governor; and that they will be prepared, upon arrangements being made by the Provincial Government for defraying the Salaries of such additional Officers as will thereupon be required in the Customs Department, to cause the proper steps to be taken for constituting Fredericton a Free Port and Warehousing Port for the limited purpose of importing Goods in British ships, and of warehousing the same in approved Warehouses, under the provisions of the 4th and 48th clauses of the Act 3d and 4th W. 4, cap. 59, and likewise for constituting the Ports of Miramichi and Dalhousie Free Warehousing Ports.

You will therefore apprise Lord Stanley, that the additional Salaries to be provided for as above-mentioned, will be at Fredericton a Sub Collector, Landing Waiter, and Searcher, and to act as Warehouse Keeper, at one hundred and fifty pounds per annum, and a Locker at twenty pounds per annum, and three shillings per diem when employed. At Dalhousie, an Officer to aid the Sub-Collector, and to act as Clerk and Locker, at one hundred pounds per annum.

You will therefore move Lord Stanley to instruct the Lieutenant Governor to take such steps as may be necessary in order to such provision being duly made.

You will also state to His Lordship, that my Lords have not seen reason to alter the opinion already signified in the communication made by direction of this Board to you on the — September, 1842, as to the objections to constituting Saint Stephen's a Free Port, and that there has not appeared to be any sufficient grounds for altering the existing arrangements at the Ports of Bathurst or Dorchester.

I am, &c.

(Signed)

C. E. TREVELYAN.

J. Stephen, Esq., &c. &c. &c.

The Honorable Mr. Simonds, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House the following Documents:—

Report from the Auditor General on a claim submitted by the Honorable Thomas Baillie, for sums advanced by him for preparing certain Public Accounts for the Legislature in the year 1838: also

A Communication from William H. Street, Esquire, with a Resolution from the Board of Commissioners for the Provincial Penitentiary, recommending that provision be made to Isaac Woodward, Esquire, for special services performed by him.

Mr. Allen, Chairman of the Committee of Privileges, reported to the House—That the Committee had under their consideration the subject referred to them on the seventh

seventh day of March instant, relative to the discharge of James Doak and Thomas Hill, who were committed to the custody of the High Sheriff of the County of York for Breach of the Privileges of the House, and that he was directed to submit the following Report:—

“The Committee of Privileges, to whom was referred the recent liberation of James Doak and Thomas Hill from custody, they having been committed by a Resolution of this House for a breach of its Privileges, have attended to that duty; and in making this their Report, deem it to be due to the Public, to the House, and to Posterity, to recapitulate the circumstances connected with this matter. The House of Assembly can be useful only so long as it is sustained by public opinion:—It can have no personal feelings to gratify:—Its privileges are the privileges of the People:—It is therefore responsible to the People for the proper use of those privileges.

“On the twenty third day of February last, the following Editorial appeared in a newspaper called the ‘Loyalist,’ published in Fredericton, in reference to a debate which occurred in the House of Assembly a few days before:—

‘During the debate on the Address, it was amusing to hear Honorable Members who were opposed to it, expressing their loyalty and affection for their Queen and Country. But we should have put more faith in the sincerity of their professions had they voted for the Address instead of against it. We never knew a rebel but expressed the most ardent affection for his Sovereign, until he was found in arms resisting the Sovereign authority. Papineau and Mackenzie, if we believe their own statements, were loyal to the back bone up to the very moment when the former ran away, like a coward, from Saint Charles, leaving his deluded followers to the vengeance of the British Troops, and the latter snapped a pistol at the head of his Sovereign’s representative. We shall not mince the matter, but will unhesitatingly state our opinion of these Gentlemen [the opposers of the Address]—an opinion which we know will be re-echoed throughout the length and breadth of the land—that those who opposed the Address are in their hearts rank republicans. The spirit of British loyalty does not exist in their breasts. Of the eleven Members who opposed the Address there are two whose profound ignorance may be taken as an excuse, so far as they are concerned; although it forms no excuse for their constituents. There are six other Members, who, we believe, have not deceived the expectations of their constituents, viz: Messrs. Wilmot, Fisher, Connell, Perley, Hill and Boyd; of these we may have occasion to speak again. But will the electors of King’s ever again disgrace themselves by returning a Representative from that County whose loyalty rests upon his lips? We hope not.’

“And in the same paper also appeared the following Editorial article:—

‘MR. WILMOT ON THE ADDRESS.

‘THE conduct of this gentleman during the passing of the Address to Sir Charles Metcalfe is nothing more than we expected—we know the man, and find that we had formed a correct opinion of his sentiments, his veracity, and his *honour*. We are very glad this discussion has taken place, as it must perforce open the eyes of some of the honorable gentleman’s friends. It was not enough for him to oppose an Address got up for the purpose of strengthening the hands of the Governor General in the noble stand he has taken, in refusing to surrender the prerogatives of the Crown into the hands of men who have ever shown themselves hostile alike to British supremacy, British laws, and those in whose veins runs the warm current of British blood!—into the hands of men who *plotted* the late rebellion, although cowardice prevented them committing themselves by actually taking up arms. It was not enough, we say, for him to oppose an Address which will be responded to from one end of this Province to the other, but he must do it in the most insulting manner any one could possibly imagine. He not only avowed himself the friend of the Canadian rebels, and stated what was absolutely false and unfounded concerning the oppression of the French race by the British (and which we shall refer to on a future occasion) but he gave the lie to the Governor General! What a disgraceful scene! The Council of Canada—composed chiefly of men who were more than suspected of being implicated in the late rebellion—resigns because the Governor General will not accede to their demands; compelled to defend his character from their vile aspersions, he publishes in an official form the nature of these demands, viz:—“that he should make no appointment without first consulting them, and that after having been *advised* by them he should make no appointment prejudicial to their interests;” this statement stands unchallenged and uncontradicted until an upstart who has crawled to a seat in the Executive Council of another Colony by first playing the part of a sycophant to those above him, and then pandering to the vices of the million, stands forth unblushing in the House of Assembly to which he belongs and says “Do honorable members believe the statement of the Governor General? *I do not!* * * * I will state plainly that I do not believe the statement of the Governor General, but I believe Messrs. Sullivan and Baldwin!”

‘But this is not the most disgraceful part of his conduct. After having been distinctly charged with the assertions he had made by no less than *five* members of the House, what does he do? Why turns round and denies point blank that he ever made use of the expressions, although he had repeated the words with the strongest emphasis some half dozen times!—What was the inducements

‘which

‘ which led the *honorable* gentleman to eat his own words? It is easy to divine.—Hearing of the sentiments with which the Address was hailed out of doors, and seeing like Belshazzar the hand-writing against the wall saying “*Thy days are numbered!*” like Belshazzar he trembled; and lacking the moral courage to face the matter out with his constituents, the poltroon, screening himself from all the responsibility a *true gentleman* feels, under the plea of being an anti-duelist, he had the impudence to tell the members of the House that their ears had deceived them!!

“ Once (and but once) I caught him in a lie,
And then, *muchipp’d*, he had the grace to cry.”

‘ What will the electors of York think of the conduct of the man who does not believe the statement of one of the bravest and most honorable of England’s gentlemen? How will they like to be represented by the avowed friend of Baldwin, who carried a flag of truce to the traitor M’Kenzie and encouraged him to make a descent upon Toronto! How will they like for their names to be connected with the admirers of Lafontaine, the bosom friend of Papineau, and the person who with his own hand drafted the infamous 92 resolutions!—Let them at the next election tell the hound who fawningly crept into their confidence and then bit the hand which fed him, that they have no further need of his services—that being loyal themselves they will no longer be represented by a rebel and a coward, and drive him back to the kennel, from which he emerged to poison with his fœtid breath the atmosphere of New Brunswick.’

“ Several numbers of the paper containing these Editorials were sent into the House by James Doak and Thomas Hill, the Editors; and a number was placed on the desk of every (or almost every) Member. On the 26th day of February, the following Resolution was adopted by the House:—

‘ Whereas it appears by a certain publication in a Newspaper published at Fredericton, by James Doak and Thomas Hill, called the “*Loyalist*,” under date of the 23d day of February instant, and sent to this House by the publishers thereof, that certain Members of this House have been grossly and scandalously libelled for the part taken by them in this House, when in debate upon business pending before this House; therefore

‘ *Resolved*, That the publishers of the said paper, James Doak and Thomas Hill, be forthwith taken into custody and brought to the Bar of this House, to answer the matters and things arising out of the said publication, and that Mr. Speaker do issue his Warrant accordingly.’

“ The Warrant was issued, and on the same day—

‘ The Honorable Mr. Speaker informed the House, that the Sergeant at Arms had executed the Warrant issued this day against James Doak and Thomas Hill, for a breach of the Privileges of this House, by publishing a gross and scandalous Libel against several Members of this House, and that the Sergeant at Arms had the said James Doak and Thomas Hill in custody, ready to be brought to the Bar; whereupon

‘ *Ordered*, That the prisoners, James Doak and Thomas Hill, be forthwith brought to the Bar, and that the Speaker do inform them of the offence charged against them, and that he, Mr. Speaker, do ask them if they be the printers and publishers of the Newspaper called “*the Loyalist*,” and which contains the alleged Libel; whereupon the prisoners, James Doak and Thomas Hill, being brought to the Bar and interrogated, and the Newspaper called “*The Loyalist*,” which appears to have been published on the twenty third day of February instant, and which contained the Libel alleged, being shewn to them by the Clerk, they severally admitted that they were the printers and publishers of the Newspaper thus shewn, and that the Editorial remarks contained therein were theirs. The prisoners, James Doak and Thomas Hill, were then ordered to be taken from the Bar; and it was

‘ *Ordered*, That the Speaker do issue his Warrant for the commitment of James Doak and Thomas Hill to the Common Gaol of the County of York, there to remain during pleasure.

‘ Whereupon they were committed.’

“ It having been afterwards ascertained that Messrs. Doak and Hill were seen at large, and had appeared in the Gallery of the House, the High Sheriff of the County of York was ordered to come before the House to declare by what means they had escaped. On Thursday the seventh day of March instant, the said High Sheriff appeared at the Bar, whereupon Mr. Speaker called upon him to state—

‘ Upon what terms, under whose authority, and when, the said James Doak and Thomas Hill, the parties who were committed to the Common Jail of the County of York, for a breach of the Privileges of the House, under an order of this House of the twenty sixth day of February last, were discharged from custody.’

“ To which the said High Sheriff replied, that they were discharged from custody by an order from His Honor Judge Carter, dated the second day of March instant; which order was then handed to the Clerk of the House, and is as follows:—

‘ The Queen *vs.* James Doak and Thomas Hill.—Upon the return of the Habeas Corpus issued in this cause, and the appearance of the Defendants who have been confined in Her Majesty’s Gaol in

‘ the County of York, by Warrant of John W. Weldon, Esquire, Speaker of the House of Assembly, and upon hearing Mr. Kerr, of Counsel for the prisoners, I do order that the said prisoners be discharged out of custody. Dated the second day of March, 1844. J. CARTER.’

“ To charge a person with an offence, the commission of which would subject him to the animadversion of the Law, is indictable, because it tends to provoke retaliation, or in other words, a breach of the peace. It is an offence against the public, as well as the individual. How much more then is the public offended by an attack on either Branch of the Legislature, (which is in fact a personification of the whole community,) either by a personal assault of its Members, or by scurrilous and defamatory words or writing, for any thing done by them in the discharge of their Legislative functions. If, in such cases, they are to be referred to the ordinary remedy in the Courts, they become at once divested of all protection in their Legislative character. Although invested with a public character for public purposes, that character would secure them no protection from insult. The duties and responsibilities of their position, would invest them with no power to prevent their deliberations from being overawed by the apprehension of personal violence, or by verbal or written scurrility. A Body thus left without the power of self protection, could not fail to sink into pusillanimity, and become unfit for the assertion of public rights, or the beneficial discharge of public duties. The power of summarily protecting themselves from all that impedes the due discharge of their functions, must therefore attach to all Legislative Assemblies as a necessary incident.

“ Courts of Justice possess a power inherent in themselves, of commitment for contempt of their authority, or for whatever may obstruct their proceedings; and so vigilant are these tribunals in maintaining this power, that Baron Parke, in the case of *Beaumont vs. Barrett*, reported in *Moore’s Privy Council Cases*, says—

‘ It is established by all the cases on the subject, that if one Court commit for contempt, no other Court can inquire into that contempt.’

“ It is not then to be questioned, that the Houses of the Legislature, the makers of those Laws which the Courts enforce, have the power to punish for obstructions to their proceedings, by the like summary process of commitment. If in the latter case the power is not given by the Common Law, by local usage, by Legislative enactment, nor enjoyed as a necessary incident, neither is it in the former; and in neither case can it have any legal existence. To create the power by Legislative enactment would involve an admission of its necessity, and if necessary, it must exist as a legal incident.

“ It is laid down by constitutional writers, that Colonists carry with them so much of the Common Law, as also of the Statute Law previous to the act of Settlement, as are applicable to their new condition, and this as an inherent right.

“ Lord Ellenborough observes, that Lord Coke, and all the writers on the Law, have held that the Law and Custom of Parliament are a part of the Law of the Land, in its large and extended sense, and must therefore appertain to all Colonial Legislatures, so far as demanded by the exigencies of their condition.

“ The right of Colonists to Local Assemblies, for the purpose of local self government, especially for the purpose of local taxation, and without which this right could not be exercised—is antecedent to any Royal Commission calling these Assemblies into existence. It is therefore idle to refer the origin of the right to Local Legislatures to the Royal Commissions. They merely call into existence the exercise and practical enjoyment of that which was before in abeyance. And we find the Parent Government readily carrying out this principle in all instances where the Colony has become sufficiently populous for its reception.

“ But should it be urged that the Colonies had no inherent right to Local Assemblies, this right would now be theirs as a consequence of the Statute 18 Geo. 3, c. 12, which enacts that no duty, tax or assessment should thenceforth be imposed on any North American Colony or Plantation, or the West Indies, except for the regulation of Commerce, and that the net proceeds of such Duties should be disposed of at the discretion of their respective General Assemblies.

“ The right to a Local Legislature necessarily involves every power required for the efficient discharge of the functions of its different branches, among which are, freedom of speech, unawed by the fear or the menace of insult—immunity from arrest—and the power to punish summarily for all obstructions to their proceedings. It is
the

the right of the People exercised by the aggregate body of their Representatives, and by the other Branch.

“The necessity of a power in Parliament to commit for a breach of its privileges—among which is the right to commit for contempts, whether within or without the respective places where its deliberations are holden, is admitted, and the power is well established. By reason and analogy the same power must be inherent in every Colonial Legislative Assembly.

“A Colonial Legislature stands in as important a relation to the other departments of the Local Government, as Parliament does to England. The power of commitment for contempts, which is admitted to exist, and necessarily exist in the one case, must be equally necessary in the other, and must therefore pass as a legal incident, and be independent of all precedent.

“Sir Francis Burdett, in 1811, and then a Member of the House of Commons, published, in Cobbett’s Weekly Register, a Letter, which was voted a libel on the House and a breach of its privileges. The Commons accordingly ordered the Speaker, the Right Honorable Charles Abbot, to issue his Warrant for the arrest of Sir Francis, upon which he was arrested and committed to the Tower. Sir Francis brought an action against the Speaker, in whose favor judgment was given by the whole Court. See *Burdett vs. Abbot*, 14 East’s Reports.

“The first point that arises in this case, says Lord Ellenborough, is—Has the House, of Commons a right to commit for breach of privilege?

“It was objected in argument that the right in question was contrary to Magna Charta, which sets forth, that ‘no man shall be imprisoned but by the lawful judgment of his peers, or, by the *law of the land*’;—and also to the Statute 28th Edward the Third, which provides—‘that no man shall be put out of land or tenement, nor taken, nor imprisoned, nor disinherited, nor put to death, without being brought in to answer by *due process of law*.’

‘These provisions,’ says Lord Ellenborough, ‘are satisfied, so far as they relate to this subject, if the *lex et consuetudo parliamenti* be, as Lord Coke, and all the writers on the Law have held that it is, part of the *Law of the land*, in its large and extended sense.’

“The Lord Chief Justice then proceeds in the following language:—

‘The privileges which belong to them, the Commons, seem at all times to have been, and necessarily must be, inherent in them, independently of any precedent. It was necessary that they should have the most complete personal security, to enable them freely to meet for the purpose of discharging their important functions, and also that they should have the right of *self protection*. I do not mean merely against acts of individual wrong; for poor and impotent indeed would be the privileges of Parliament, if they could not also protect themselves against injuries and affronts offered to the aggregate body, which might impede the full and effectual exercise of their parliamentary functions. The right of self protection implies, as a consequence, a right to use the necessary means for rendering such self protection effectual. Independently, therefore, of any precedent or recognized practice on the subject, such a body must, *a priori*, be armed with a competent authority to enforce the free and independent exercise of its own proper functions, whatever those functions might be. Besides having the power to remove *actual* impediments to its proceedings, it must have also the power of protecting itself from insult and indignity, *wherever* offered, by punishing those who offer it. Can the High Court of Parliament, or either House, be deemed not to possess intrinsically that authority of punishing summarily for contempts, which belongs, and is daily exercised as belonging to every superior Court of Law, of less dignity undoubtedly than itself? And is not the degradation and disparagement of the two Houses of Parliament, in the estimation of the public, by contemptuous libels, as much an impediment to their efficient acting with regard to the public, as the actual obstruction of an individual member by bodily force, in his endeavour to resort to the place where Parliament is holden? And would it consist with the immediate and effectual exercise of their important functions, that they should wait the comparatively *tardy result of a prosecution in the ordinary course of law*, for the vindication of their privileges from wrong and insult? The necessity of the case, therefore, upon principles of natural reason, seem to require that *such bodies*, constituted for such purposes, and exercising such functions as they do, should possess the power which the history of the earliest times shews that they have in fact possessed. It is therefore idle to contend, as some have done, that, as the House begun to exist separately since the time of legal memory, that is, since the return of Richard the First from the Holy Land, and on that account they cannot claim by prescription or immemorial usage, or by Act of Parliament, the power of commitment, that it cannot, therefore, legally belong to them.’

“The Committee observe, that the exercise of the power in question having thus run concurrently with the existence of the Commons, may be taken as conclusive that

that they always possessed it as an inherent and acknowledged right; and for the same reason, that it belongs to every legislative body.

“ Again, Lord Ellenborough observes—

‘ I have already said that, *a priori*, if there were no precedents upon the subject, no legislative recognition, no practice or opinions in the Courts of Law recognizing such authority, it would still be essentially necessary for the Houses of Parliament to have it; indeed that they would sink into utter contempt and insignificance without it. Could it be expected that they should stand high in the estimation and reverence of the people, if, whenever they were insulted, they were obliged to wait the comparatively slow proceedings of the ordinary course of Law for their redress? That the Speaker, with his mace, should be under the necessity of going before a Grand Jury to prefer a Bill of indictment for the insult offered the House. They must certainly have the power of self-vindication and self-protection in their own hands.’

“ In the case of *Stockdale vs. Hansard*, (9 Adolphus and Ellis’s Reports, 1839,) Lord Chief Justice Denman observes—

‘ That whatever impedes the proper action of either House of Parliament, impedes those functions which are necessary for the performance of their joint duties.’

“ Again he observes—

‘ I am far from believing that the Judges ever had or ought to have, by Law, the smallest power over Parliament, or either House of Parliament. The independence of Parliament is the corner stone of our free constitution.’

“ Again he says—

‘ If the privileges of Parliament were not the fruit of deliberation in *aula regia*, they rest on the stronger ground of a necessity, which became apparent at least as soon as the two Houses took their present position in the state.’ ‘ The privilege of committing for contempt is *inherent in every deliberative body invested with authority by the constitution.*’

“ Colonial Legislatures are deliberative bodies invested with authority by the constitution, and have, as a necessary incident and consequence, the inherent power of committing for contempts.

“ Lord Denman again observes—

‘ The privilege from personal arrest is both undoubted and indispensable. The proceedings of Parliament would be liable to constant interruption, at the pleasure of individuals, if any one who claimed to be a creditor could restrain the liberty of Members.’—‘ Their privileges,’ says he, ‘ are conferred on the ground of public policy.’

“ In *Beaumont vs. Barrett*, which arose out of a Libel by the appellant against the Jamaica House of Assembly in 1833, Baron Parke, who delivered the judgment of the Court, affirmed the judgment of the Court of Errors, and also of the Supreme Court of that Island, and the right of the Assembly to commit for Libels.

‘ The Assembly,’ he observes, ‘ is not like a corporation, which has a power to make Bye Laws for carrying into effect the purpose for which it is established; but it is the *Supreme Legislative Assembly* of the Island, authorized to make Laws for it, with the sanction of the Sovereign.’—‘ It appears, I think, to be *inherent in every Assembly*, that possesses a Supreme Legislative authority, to have the power of punishing contempts, and not merely such as are a direct obstruction to its due course of proceedings, but such also as have a tendency indirectly to produce such an obstruction, in the same way as Courts of Record may not only remove or punish persons who actually are interrupting their functions, but may also repress those who indirectly impede the administration of justice by disparaging and weakening their authority.’

“ He then quotes the language of Lord Ellenborough in *Burdett vs. Abbot*, in reference to the powers of the House of Commons, *as very apposite to the present inquiry*, and proceeds thus—

‘ Now if we apply that principle,’ (namely, the inherent right of the Commons to commit for contempts,) ‘ to this Legislative Body, which appears to possess Supreme Legislative authority over the whole Island, and its dependencies, we must in like manner say, that they had *incidentally* the power, not only of punishing direct impediments to their proceedings, but indirect obstructions, such as are caused by *Libels* reflecting on their conduct, and tending to bring their authority into contempt, and that *independently of any precedent for its exercise.*’

“ Again he says—

‘ That power has been *used* so frequently, that it would probably be too late to question its existence at this day, if it were to be determined by *precedents alone.*’

‘ The power of imprisonment,’ says Baron Parke, ‘ may be abused, as it has been by the House of Commons;’

‘ Commons; yet we may well believe that persons of the station and character, who constitute the members of such a body, (the Assembly of Jamaica,) are not likely, in these days, to abuse their privileges, and that the wholesome controul and influence of public opinion, will prevent the occurrence of such evils. But, however, with that consideration we have nothing to do, we have simply to declare what the Law is.’

“ He considers, therefore, the power in question to belong to the Legislature of Jamaica on two grounds:—first, as a *necessary incident* to their Legislative authority—and, secondly, on the ground of *usage*.

“ The same Judge, in *Keilly vs. Carson*, (the Newfoundland case) gave an opinion which has been construed to be directly opposite to that which he gave in *Beaumont vs. Barrett*. In the latter case he said the power did pass as a legal incident—in the former—

‘ That the power did not pass as an incident by the creation of such a body—and there was *no usage or custom* to support the exercise of any power whatever.’

‘ He did not consider this power necessary to the proper exercise of their functions, and therefore not incident to Colonial Assemblies.’

“ No reason is assigned for this change of opinion, and being opposed to reason and the analogy of the House of Commons, to general usage in the Colonies, and to all former precedents, it can carry with it no conviction of its soundness, and no weight, but what the accident of its being the last decision on the subject, may give to it.

“ And Your Committee cannot escape from the conclusion, that, probably, not thinking himself authorized to speak of the ‘ *station and character of the persons who constituted such a body as the Assembly of*’ Newfoundland, nor yet of the ‘ *Public opinion*’ of that Island, in those high terms of laudation, which he was pleased to express when referring to ‘ *Jamaica*’ (‘ *with which considerations*’ however, at the same time, he very properly declares ‘ *he had nothing to do,*’) His Lordship could not have viewed the Newfoundland case as a simple abstract proposition, but suffered his mind to be in some degree influenced by a preconceived notion of the inferiority of the Assembly of that Island, and the danger of trusting to the Public opinion of its Inhabitants. But the weight which he attaches to ‘ *long usage,*’ is well described in the following remarks of His Lordship:—

‘ In some Colonies’ (says he) ‘ the very exercise of the power, with the sanction of the tribunals, and the acquiescence of the public, for a long period of time, may raise a presumption that the power was duly communicated by Law.’

“ Again he says—

‘ The respondents introduced into their case various extracts from the Houses of Assembly of different Colonies—Barbadoes, *New Brunswick*, *Nova Scotia*, &c. ; but they were unable to produce any instance in which the Assembly of Newfoundland had exercised that power.’

“ Again he says—

‘ It was however argued, that in other Colonies, the Legislative Assemblies exercise the power of committing for breach of privilege without objection, and the usage in this respect was good evidence that such power was an incident attached to the Common Law, though not on the ground of necessity. And no doubt this argument would have much weight, if there had been many Legislatures situated precisely as this is, and the usage to exercise the power of committal for breach of privilege had been frequent, and the acquiescence in its exercise long and universal, and that usage could have been explained only on the ground that the power was a legal incident.’

“ If the power existed as a legal incident, it would require no explanation or assistance from usage. If it were not a legal incident, it must rest on usage alone.

“ Edwards, in his *History of the British Colonies*, (quoted in this case) says—

‘ The Colonial Assemblies commit for contempts, and the Courts of Law have refused, after solemn argument, to discharge persons committed by the Speaker’s Warrant.’—‘ Mr. Henderson, (for the appellant) replied, the power in question has not been proved to exist except in the Assembly of Jamaica, and there it seems *long usage* had established it.’

“ An admission, in argument, that *usage* alone may confer the power.

“ Martin, in his *History of the British Colonies*, says—

‘ The Assembly of Jamaica have all the privileges of the House of Commons.’

“ The same remark applies with equal force to this, as well as other Colonies.

“ It is admitted, in *Keilly vs. Carson*, that long usage may confer on a Colonial Assembly the power in question. The usage of committing for contempts has existed in this Colony since 1785, and previously, since 1755, during which time it formed part of Nova Scotia, a period in all of eighty nine years. This fact clearly distinguishes the present case from that of *Keilly vs. Carson*. In 1786, in the first Session of the first General Assembly in this Province, the power was exercised by the House in the case of George Handyside for offensive words relating to the privileges of the House, and subsequently, at different times, in the cases of William Durant, of Brown and Clinch, of William Cross, of Spearman, Pierce, Carrick, and others, and by the Upper House.

“ Usage, alone, therefore, must give a sanction to the power in this Province; and doubtless, this would be the decision of any judicial tribunal, should a case arise bringing the question before it.

“ But the Committee rest the right also on the higher ground of a legal incident to a constitutional authority. The right of a Colony to possess a Legislative Assembly is a necessary consequence of the constitutional right of self taxation. To deny the power incident to the exercise of legislative functions, is, in effect, to deny the right to those functions themselves. If, then, the right to a local Legislature be established, as unquestionably it is, the incident must follow as a necessary condition of its full enjoyment, and cannot be destroyed by the decision of any judicial tribunal.

“ The right will remain, although the means required for its practical exercise might be undermined, and for a time, perhaps, taken away.

“ All the decisions that the Committee have met with, except that in *Keilly vs. Carson*, admit the power in question to rest upon the ground of necessity, and in that case there was no usage, as here, to establish it. This decision disaffirmed the right of the Newfoundland Assembly to commit for contempts beyond the walls of the House. The contempt there was committed in the public streets by an assault on one of the Members. Another contempt, in the face of the House, is alluded to in the report of the judgment; but it was not considered therein, nor did it influence the same.

“ In the present case, the papers containing the scurrilous and defamatory Editorials were sent by the publishers themselves to the House, and presented to all, or the greater part, of the Members when in their places, and engaged in the business of the country. This circumstance also distinguishes this from the Newfoundland case.

“ In the case of the Earl of Shaftsbury, who was committed by the Lords for contempt, referred to in *Burdett against Abbott*, Lord Ellenborough remarks—

‘ Notwithstanding the generality of the commitment, which was for a high contempt, without saying when, where, or how committed, it was sustained by this Court, and Lord Shaftsbury was remanded.’

“ In *Murray’s* case, recited in *Burdett vs. Abbott*, Mr. Justice Wright said—

‘ It need not appear to us what the contempt was, for if it did, we could not judge thereof.’

‘ It might,’ says Lord Ellenborough. ‘ be a most doubtful question, whether a case coming before us directly, as on a *Habeas Corpus*, we could relieve the subject in any case whatever.’

“ These remarks imply, that no case of such relief had then (1811) occurred, or His Lordship would have referred to it.

“ We have already seen, that the Courts of Law in the Colonies have refused to discharge persons committed on a Speaker’s Warrant. In *Barry’s* case, Nova Scotia, the Judge refused to discharge the prisoner on a *Habeas Corpus*. In *Sir Allan M’Nab’s* case, Canada, against the Sergeant at Arms, judgment was given for the defendant.

“ It is laid down in *Burdett vs. Abbott*, that the privileges of the House of Commons are not examinable in the Courts, and suits are very rarely brought for the exercise of them.

‘ If they were examinable, (says Mr. Justice Bailey) in this Court, (K. B.) they would be examinable in every Inferior Court throughout the Kingdom, in which an action of trespass could be brought.’

“ Chief Justice Sir O. Bridgman, in *Benyon vs. Evelyn*, cited in *Stockdale vs. Hansard*—

‘ Avows his right and duty—if he invaded privilege of Parliament by laying down doctrines inconsistent with it, the invasion could not be less culpable, because uncalled for by the case in hand.’

“ The Committee find no case, either in Colonial or Metropolitan Parliamentary History, of the discharge by *Habeas Corpus*, of a person committed for contempt of privilege of Parliament.

“ Freedom of speech, and privilege from arrest, and indeed all the privileges of the House, rest upon no better foundation than the one in question, and are equally liable to be swept away at the pleasure of any one who may choose to assail them. A silent submission to have these privileges questioned, as they have been in the present case, is to render them useless, unavailing and contemptible.

“ The Committee cannot refrain from remarking, that a decent regard for the privileges of the Legislature, and for the exercise of a power, always acquiesced in by the country, and never before challenged from any quarter, would seem to forbid that the case should have been so hastily decided upon by a single Judge, unadvised, as it is believed, by his associates, and upon an *ex parte* hearing. They believe the discharge of the prisoners under *Habeas Corpus* to be without precedent, (except the Newfoundland case be one, which is more than doubtful,) and they cannot but consider it as treating a privilege of the House, always exercised and never before disputed, with a degree of haste and inconsideration not in any way called for by the exigency of the case.

“ The Committee, on mature consideration, do not entertain a doubt of the right of the House to commit for contempts, perpetrated as well without as within its walls; and that this power is essential to the independent exercise of its paramount duties; that it rests upon the foundation of public policy, as well as long usage, and ought not now to be called in question; and Your Committee regret that the individual views of Mr. Justice Carter, conflicting, as in this instance they do, with the opinions of all the Judges of Her Majesty’s North American Colonies, who have been called upon to adjudicate on similar questions, should have induced him to interpose, thus summarily, in relief of the avowed perpetrators of so atrocious a Libel, especially as his forbearance could not affect the ulterior remedy of the parties accused, should a Jury of the Country deem them worthy of damages.

“ The Committee having thus fully submitted their views to the House, leave the case to be dealt with as best becomes its dignity, its rights, and its duties.

“ All which is respectfully submitted.

JOHN ALLEN, *Chairman*.

.. *Committee Room, 26th March, 1844.*”

The Report being handed in at the Clerk’s Table was then again read; when

Mr. J. A. Street moved the following Resolution:—

The Honorable Mr. Wilmot, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House—

Returns in reference to instalments on Five Year Leases, and arrearages of Timber Duties, as requested by an Address of the House to His Excellency of the nineteenth day of March instant, accompanied by a Communication from the Surveyor General relative thereto, viz:—

Return of balances due as instalments on Five Year Leases to 24th June, 1843:

Return of arrearages of Timber Duties, exclusive of instalments on Leases, to 31st December 1843, where the balance due from one Individual or Company exceeds Twenty pounds.

[See Appendix.]

The Communication from the Surveyor General, being read at the Clerk's Table, is as follows:—

(Copy)

Crown Land Office, 22d March, 1844.

SIR,—Herewith I have the honor to enclose to Your Excellency, agreeably to an Address of the House of Assembly, "a Return of all balances due as instalments on Five Years Leases or Licenses, to 24th June 1843, as also a Return of all arrearages of Timber Duties to 31st December last."

In transmitting these Documents to Your Excellency, I consider myself called upon to state, with regard to the return of sums due upon Five Years Licenses, that I am under the impression the parties who have received the Licenses therein enumerated, have not in every instance availed themselves of the privilege of the Licenses, by cutting the Timber for which the Return shews them to be indebted.

The other Return I believe to be very erroneous, as it is only made up from the Reports of the Seizing Officers for the last seven years; but as I possessed no power to make any equitable settlement with the parties, or to reduce in the slightest degree the quantities represented to have been cut, I have been forced to exhibit very large sums as due to the Crown, which I firmly believe are in reality not due.

I had the honor to bring this subject under Your Excellency's consideration, by my Letter of third May last, and the order I received in consequence was to deliver all Bonds and other Securities then in my hands to the Receiver General, and I am, consequently, ignorant of what action may have been had by the Executive upon these Securities.

The Returns I now render to Your Excellency, may be therefore even more erroneous than I suppose, as sums may have been paid to the Attorney or Receiver General of which I have no knowledge; and I therefore wish to explain that these Returns are taken only from Documents in this Office, the correctness of which is very doubtful, and my object in mentioning it is, that neither Your Excellency nor the House of Assembly, may be misled on the subject.

I have, &c.

WILL. TYNG PETERS, *Clerk.*

Mr. Palmer, from the Committee to whom were referred Petitions from John C. Vail and others, submitted their Report ; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows :—

“ The Committee appointed on the twenty second day of February last, to report upon the Petitions of John C. Vail and others, having examined the several matters referred to them, offer the following Report—

“ No. 1. Is the Petition of John C. Vail, praying compensation for losses sustained in running a Line of Stages between Saint John and Dorchester. On reference to the encouragement originally offered for the commencement of this very useful establishment, Your Committee find that in 1836, the Legislature granted £250 per annum for four years, to such person or persons as should first put a proper and efficient Line of Coaches and Stages between Saint Andrews and the Nova Scotia Line. Mr. Vail, with Mr. Pitfield and Mr. Stockwell, undertook, upon the encouragement thus held out, to place an efficient establishment on the Road between Saint John and the Nova Scotia Line ; but not having put one of equal efficiency on the Road between Saint John and Saint Andrews, the House did not consider the Resolution granting £250 per annum carried out, and therefore, although the accommodation afforded the Public was acknowledged to have been very great, but a small annual Grant was given. Mr. Vail became the sole proprietor in 1841, and from the information obtained by Your Committee, they are led to understand he has been subject to great losses by the enterprize. Your Committee are of opinion that his case is a peculiarly hard one, and would recommend that such a Grant as the wisdom of the House may determine, not exceeding £125, should be made him.

“ No. 2. Is the Petition of Thomas Allan, Archibald M'Kay and Alexander M'Kay, of the Parish of Botsford, County of Westmorland, praying relief in consequence of being rendered totally incapable of performing any labour for a period of twelve months, having been badly frozen and otherwise seriously injured in conveying the English Mail from that County to Prince Edward Island, in the Winter of 1842. This Petition is very respectably certified, and Your Committee are of opinion, that considering the service in which these unfortunate people received such severe injury, some Legislative aid should be afforded them, and therefore recommend the small sum of £10 each to be granted them.

“ Nos. 3 to 11 inclusive, are the Petitions of James R. Tupper, L. L. Copeland, John Winters, W. W. Williams, L. L. Copeland, Robert Dougherty, Thomas Corrigan, James Bradley and James Hewett, Alexander Lockhart and others. All these Petitions refer to the respective Lines upon which efficient conveyances are kept up, and although Your Committee are of opinion that these establishments are proper subjects of Legislative encouragement, yet in the present state of the Provincial finances, they cannot recommend any Grants being made to the parties.

“ No. 12. Is the Petition of James Hewitt and James Bradley, setting forth, that during the last Winter, in consequence of an unprecedented heavy snow storm which entirely

entirely broke up the communication between Fredericton and Saint John, they subjected themselves to much damage and a heavy expense in clearing the same, and praying for a Grant to remunerate them for this public service. Your Committee, under the circumstances, recommend a small grant of £10 to the parties.

“ Respectfully submitted.

“ PHILLIP PALMER,
J. R. PARTELOW,
WILLIAM END.

“ *Committee Room, 28th March, 1844.*”

Ordered, That the Report be accepted; and

On motion of Mr. Palmer; further

Ordered, That so much of the said Report as recommends the appropriation of monies, be referred to the Committee of Supply.

The House adjourned until to-morrow morning at 9 o'clock.

Friday, 29th March, 1844.

The House went into Committee of the whole on the Report from the Committee on Light Houses, and which was submitted to the House on the twenty ninth day of February last.

Mr. Gilbert in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having the Report referred to them under their consideration, the following Resolution was moved:—

“ *Resolved*, That the Chairman do leave the Chair.”

And upon the question, it was carried in the affirmative.

Ordered, That the Report be accepted.

On motion of Mr. Fisher,

The House again went into Committee of the whole on the Message from His Excellency the Lieutenant Governor of the thirteenth day of February last, and which was communicated to the House on the fourteenth of the same month, relative to the Composition of the Legislative Council.

Mr. Payne in the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee having resumed the matter referred to them, a series of Resolutions were submitted for their consideration, viz:—

“ 1st. *Resolved*, As the opinion of this Committee, That the House should express their unfeigned gratitude and satisfaction to Her Majesty, for the recognition of the main principles of the Address of the House upon the subject of the Composition of the Legislative Council, expressed in the Despatch of the Right Honorable Lord Stanley, Her Majesty's Principal Secretary of State for the Colonies, of the 11th of July 1843, evincing, as it does, a solicitude truly Parental on the part of Her Most Gracious Majesty, for the welfare of Her Loyal Subjects in New Brunswick.”

To this, the third of the said series of Resolutions submitted to the consideration of the Committee, an amendment was proposed, to substitute the following in place thereof:—

" And further *Resolved*, as the opinion of this Committee, That this House ought not to refrain from expressing its surprise and regret that while several Gentlemen have been displaced, or been induced to retire from the Legislative Council, from the embarrassment of their affairs, others in the same situation have been allowed to remain, although their pecuniary embarrassments were equally notorious and well known; and also, that while others have been removed from the circumstance of holding situations under the Crown, they have been replaced by persons holding situations of a similar nature."

Wilmot, to be reimbursed sums advanced in locating Settlers upon a new Line of Road in the year 1842, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee to whom was referred the Petition of the Honorable L. A. Wilmot, on the subject of advances made by him towards the establishment of a new Settlement on the South side of the Road leading from Fredericton to Saint Andrews, having had the same under consideration, offer the following Report—

“It appears to Your Committee that this Settlement was undertaken in December 1841, a time of unprecedented Commercial embarrassment, when thousands of the mechanical and labouring population had been thrown out of employment, and this state of things had been greatly aggravated by a most destructive and calamitous fire at Saint John. Measures of relief had therefore become necessary; advances to a large extent were made to Saint John to relieve the pressure then existing; and at the same time, the sum of £200 having been placed at the disposal of Mr. Wilmot, who was appointed Commissioner for the purpose, he proceeded to form the Settlement referred to, upon an application of a number of persons so situated in and about Fredericton. The success of the undertaking is strikingly set forth in the annexed Report of Mr. Wilmot, to which Your Committee refer.

“Your Committee have carefully examined the Account and Documents accompanying the Petition; and although a large sum has been expended, they are of opinion, the results produced will more than fully compensate for the cost, particularly as they have no hesitation in stating, that if the Commissioner, in his discretion, had not made the additional advances, the £200 placed at his disposal would have been lost, and this flourishing Settlement would not have been established.

“Your Committee therefore recommend that the balance over expended be reimbursed the Commissioner.

“Respectfully submitted.

“J. R. PARTELOW,
JAMES BROWN.

“Committee Room, 3d April, 1844.”

Fredericton, 25th January, 1844.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honor of herewith laying before Your Excellency, a Tabular Return of the improvements, crop, stock, &c. of the “Tectotal Settlement,” up to the close of last year.

The results of this, the second effort in which I have been engaged in forming Settlements in the wilderness, have afforded me the most unmingled gratification.

Where but two years ago stood a dense forest, there have been gathered by thirty five Settlers during the past autumn, 7,276 bushels of Grain, Potatoes and Turnips.

The accompanying Return shews an estimated value of £1,137 in Buildings and Clearings, and when there is added to this the market value of the crop, exceeding £800, we have about £2,000 return, exclusive of the making of four and a quarter miles of Road, from a tract of Land which, in its wilderness state, would not in the same time have produced one shilling.

I cannot now consider the successful occupation of our Wild Lands by associated bodies of Settlers, having the privilege of making their own Roads at a reasonable rate, as a doubtful experiment. No antagonist theory can prevail against the practical experience which can now be referred to.

Similar management must produce similar results; and I am well persuaded, that no other system is so well calculated to promote the improvement of our millions of wilderness acres, and thus to advance the population and commerce of the Province.

I have the honor, &c.

(Signed)

L. A. WILMOT, *Commissioner*.

On motion of the Honorable Mr. Simonds,

Whereas by the Report of the Select Committee appointed in the Session of 1838, to inquire into and report upon all matters relating to the Charlotte County Election, and presented to the House on the twenty fourth February in that year, it appears that the Committee had discovered that certain erasures, alterations and interlineations had been made in the Poll Book, and that they could not escape from the belief, that they were made by Robert Thomson, Esquire, or with his privity and knowledge; and whereas from what has since transpired, there is good reason to believe that had the whole facts come before the Select Committee, they would have arrived at other conclusions, which would have exculpated the said Robert Thomson from any blame attaching to him, in consequence of those erasures, alterations and interlineations; therefore

Resolved, unanimously, That in the opinion of this House, the said Robert Thomson, Esquire, is fully acquitted from blame in this matter, and that nothing unworthy or dishonorable attaches to his character.

A Message from His Excellency the Lieutenant Governor.

The Honorable Mr. Wilmot, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, delivered the following Message:—

“New Brunswick.

“Message to the House of Assembly, 2d April, 1844.

“W. M. G. COLEBROOKE, Lt. Governor.

“The Lieutenant Governor communicates to the House, the copy of a Letter from the Province Treasurer, and recommends, for the reasons therein stated, that provision should be made for an extra Clerk in that Department.

“W. M. G. C.”

The Letter from the Province Treasurer, communicated by the foregoing Message, being read at the Clerk's Table, is as follows:—

EXTRA CLERK HIRE IN TREASURER'S OFFICE.

(Copy)

Treasury, Saint John, 25th March, 1844.

SIR,—In rendering my Accounts for the year 1813, I placed in the hands of the Auditor an Account for the employment of an extra Clerk, from October until February, agreeably to the authority of His Excellency the Lieutenant Governor upon my application of third October last.

I have now the honor to request, that, as a further increase of my duties is contemplated by the Legislature, in requiring me to collect an Export Duty on Timber and Deals, and as the new Revenue Bill will add materially to the labors of collecting, His Excellency the Lieutenant Governor will be pleased to make application to the House of Assembly to allow me to continue such extra Clerk, with a sufficient salary to enable me to secure the services of a capable and responsible person. If these additional duties could be performed by devoting a few additional hours each day to the work, I would not make this request; but the whole of the increase herein referred to, as well as that mentioned in my Letter of third October, being connected with entries at the Customs, and payments into and from the Bank, must necessarily be performed in the usual business hours.

I would further add, that our labours for some years past have not been limited to those hours, but on the contrary a great portion of the writing has been done by candle light.

I have the honor, &c.

“The Committee appointed on the sixteenth ultimo, to take into consideration and report upon the several matters referred to them relating to the preservation of the Public Peace in the County of Northumberland, Report—

“That from the numerous and voluminous documents which have been submitted to them, it appears that there were great tumults, disturbances, intimidations, riots and breaches of the Peace in the said County, connected with the two last Elections for Members to serve in General Assembly; and that in several instances these proceedings were carried to such an alarming extent as to set all law and order at defiance, rendering the presence of a military force necessary.

“That these riotous proceedings appear to have grown out of local jealousies for sometime previously existing between the inhabitants on the opposite sides of the River Miramichi, and that this spirit of strife was imbibed by several of the Magistrates and others, whose special duty it was to suppress such proceedings and to promote sentiments of harmony and good will among all classes of Her Majesty's subjects.

“It is the opinion of this Committee, that had the Magistrates and principal inhabitants done their duty, the alarming state of insubordination and anarchy which required the presence of a military force in the County, never would have arisen.

“With this view of the case, they respectfully recommend, that however the expenses connected with these unfortunate affairs, amounting to £697 4 4, may be borne in the first instance, the sum ought to be refunded by the County of Northumberland, by assessment or otherwise.

“Respectfully submitted.

A supplementary Report from the Auditor General on the Accounts of Supervisors of Great Roads for the past year.

[See Appendix.]

The Honorable Mr. Wilmot, from the Committee appointed on the fifteenth day of March last, to take under consideration a Petition from Michael Harley, praying payment of a balance due him as a Road Commissioner, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

The Honorable Mr. Hazen, a Member of Her Majesty's Executive Council, by command of His Excellency the Lieutenant Governor, laid before the House, in pursuance of their Address of the twenty eighth day of March last—

A Return made up by the Surveyor General, shewing cases in which the claims of the Crown against individuals by virtue of Timber Licenses, Bonds, Obligations or Liabilities, have been compromised, remitted or released by the Executive Government, between the 1st January 1842, and 31st December 1843.

[See *Appendix.*]

Mr. J. A. Street, from the Committee appointed on the twenty third day of March last, to take under their consideration a Petition from Sophia Owens, praying that her Property may be relieved from the operation of a Writ of Extent at the Suit of the Crown, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Select Committee to whom was referred the Petition of Sophia Owens, praying to have her Property relieved from the payment of a Bond Debt contracted by one Francis Cunningham in July 1836, for Timber Duties, Report—

“That it appears an Extent has issued upon the Bond against the said Francis Cunningham, under which the Property in question has been extended. It further appeared to the Committee, that the Property in question was originally held by the said Francis Cunningham, by Deed bearing date 1st February 1839, to one Edward Owen and Wife, the brother of the Petitioner, and by Owen and Wife to the Petitioner, by Deed bearing date the 16th July 1840; that by those Deeds it appears the Property was all sold free of incumbrances, consequently came to the hands of the Petitioner, as she had good right to suppose, free of incumbrances. It also appears to the Committee, that Cunningham is a Bankrupt, and it is therefore presumed that the Property of the Petitioner has been extended upon for the want of other Property whereon to levy the

the amount of the Crown Debt, which the Committee presume must be under £20, as the original Bond is for the penal sum of £20, and the Committee presume conditioned for the payment of half that sum. The Committee, under these circumstances, conceive that the Petitioner's case is one of peculiar hardship, and such as she ought to be relieved from, and therefore recommend that this House address His Excellency the Lieutenant Governor thereon, praying that His Excellency will direct the Attorney General to cause the Property of the Petitioner thus extended, to be discharged from such Extent; and if other Property of the said Francis Cunningham, and William Quint, the other person who it appears signed the Bond with the said Francis Cunningham, cannot be found whereof to satisfy the said Extent, that then this House will, at the next Session of the Legislature, make an appropriation to discharge the said Extent. "All which is respectfully submitted.

"J. A. STREET,
GEORGE S. HILL,
JOHN EARLE.

"Committee Room, 4th April, 1844."

Ordered, That the Report be accepted.

The Honorable Mr. Wilmot, from the Committee appointed on the first day of February last, to take under consideration all matters connected with the Agricultural Interests of the Province, submitted a Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

"The Committee on Agriculture, Report—That they had before them the several Documents and Petitions referred to their consideration.

"The first is the Petition of William Edgar and John Ross, of the County of York, praying for a remission of the purchase money of 100 acres of land, including a Mill Site on Garden's Creek, in the vicinity of the Harvey and other Settlements, on condition of erecting a Grist Mill thereon within a year.

"It appears to the Committee that there is no Mill within 25 miles of those Settlements, and they therefore strongly recommend that a Grant of £15 be made to His Excellency the Lieutenant Governor, as the purchase money of the Lot and Mill Site to be applied to the payment of the said Land for the Petitioners; provided a sufficient Grist Mill shall be erected thereon by the said Edgar and Ross, on or before the first April next; and the Committee are unanimously of opinion that all similar applications should be favorably considered by the Assembly.

"The next is the Petition of James P. A. Phillips, Printer, praying Legislative aid towards the publication of a monthly Paper on Agriculture. The Committee are of opinion, that every reasonable effort for the diffusion of Agricultural knowledge should be encouraged by the Legislature, and they therefore recommend that the sum of £60 be voted in Supply to His Excellency, to be applied towards the support of the contemplated Paper to be published by the Petitioner in Fredericton; but that the money should not be paid until the Paper has been published and circulated for a term of six months, and that in consideration of the said Grant, the Publisher be required to furnish fifteen copies of each number to every County Agricultural Society, to be by those Societies distributed among their Members.

"The remaining Petition is from William Graham and others, of the County of Kent, praying that an Act might pass, establishing an uniform Rate of Toll to be taken by Millers throughout the Province. The Committee are not prepared to recommend a compliance with this Petition at the present Session; but they would suggest that Honorable Members should make inquiry in their respective Counties during the recess, as to the existing Rates of Toll, so that, if necessary, a Legislative enactment may be adopted at the next Session.

The Honorable Mr. Wilmot, a Member of Her Majesty's Executive Council by command of His Excellency the Lieutenant Governor, laid before the House, in answer to their Address of the first day of April instant—

Copy of a Despatch from Lord Stanley to His Excellency ; together with copy of Correspondence between Lord Glenelg and the Honorable William Crane, upon the subject of Steam Communication between England and British North America.

The Documents communicated to the House, being read at the Clerk's Table, are as follow :—

STEAM COMMUNICATION WITH GREAT BRITAIN.

(Copy)

[No. 67.]

Downing Street, 2d June, 1842.

SIR,—I enclose herewith for your information the copy of a Letter from Mr. Crane, submitting to me a correspondence between himself and Lord Glenelg, relative to the exertions made by that Gentleman, to effect the establishment of a Steam Communication between England and British North America.

I have, &c.

MY LORD,—I take the liberty of laying before Your Lordship a copy of a letter which I have addressed to Lord Glenelg, and his answer thereto ; and beg leave respectfully to solicit Your Lordship will be pleased to communicate the same to the Lieutenant Governor of New Brunswick.

St. John's, Fulham, 17th May, 1842.

MY LORD,—I beg leave to trespass upon Your Lordship's attention, relative to a subject on which I wish to address a letter to the Right Honorable Lord Stanley, it having reference to transactions which took place during the time Your Lordship was Secretary of State for the Colonies.

In the year 1836, L. A. Wilmot, Esquire, and myself, were appointed a Deputation to bring to this Country a Petition to His Most Gracious Majesty King William the Fourth, from the House of Assembly of the Province of New Brunswick, and on our arrival, waited upon Your Lordship with the Petition, that it might be laid at the foot of the Throne. It pleased His Majesty to listen with a favorable ear to the prayer of his faithful subjects in New Brunswick, and the interest manifested by Your Lordship in their behalf, will be long and gratefully remembered.

As many circumstances occurred to occasion delay in the final arrangement of the matters connected with said Petition, Mr. Wilmot returned to New Brunswick after the principal objects of our mission had been attained, and I remained to finish the communications relative to that, and other affairs connected with the general welfare of the Province. The lamentable state of the British Packet Service to the Halifax Station at that time was well known ; as it often happened that a delay of three months took place during the Winter season in that line of communication to and from the British Provinces, causing, with other difficulties, a large proportion of the Public Despatches to be forwarded in Foreign Vessels ; this will explain the reason why I considered it one of those matters of public interest that I should bring to Your Lordship's attention, and as I, about this time, made a passage in the Steam Ship "Great Western," on her first voyage to America, I endeavoured to collect such information as might be useful, should it be thought advisable to forward the Mails to Halifax by Steam. From the communications I made to Your Lordship and some of the Members of the Government on the subject, you were pleased to say the plan appeared feasible and was well worthy of consideration, and shortly after, I learned the determination of the Government to give notice for Contracts to carry the plan into effect, and which resulted in the present line for carrying the Mails to Nova Scotia being established.

The part which I took in this matter, not having been mentioned in any of the public Despatches to New Brunswick, is of course not generally known ; but being desirous that my conduct in this respect should be understood, I venture to call the foregoing circumstances to Your Lordship's recollection, and respectfully beg leave to solicit a reply to this communication.

I have, &c.

Right Honorable Lord Glenelg, &c. &c. &c.

London, 26th May, 1842.

MY DEAR SIR,—I well remember the interest which you took in regard to the establishment of Steam Packets to Halifax, and your frequent communications relating to it with me and other Members of the Government, I can therefore have no hesitation in saying, that the statement on this subject in your letter to me of the 17th of this month, is, to the best of my recollection, quite accurate.

If this answer can be of any service to you, I beg you to make any use of it which you may think advisable.

I am, &c.

Mr. Payne, from the Committee appointed on the third day of April instant, to take under consideration a Petition from Lauchlan Donaldson, Esquire, and others, relative to a new Line of Road explored between Saint John and Loch Lomond, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Committee to whom was referred the Petition of L. Donaldson, George Moffit, Thomas Harding, Esquires, and one hundred and twenty seven others, praying that a line of Road recently explored from Saint John to Loch Lomond, might be established as a part of the Great Road from Saint John to Westmorland, Report—

“That Your Committee having taken the subject into consideration, regret that they have now to report against the Petition of the applicants to have the same established as a Great Road; they do this in view of the disinclination of the House to establish any more Great Roads at present.

“But Your Committee, considering as they do, that this is a Road of importance and will eventually become one of the Great Roads of the Province, recommend that a small sum be granted to improve the same—say twenty five pounds.

“Respectfully submitted.

“ROBERT PAYNE,
PHILIP PALMER.

“Committee Room, 4th April, 1844.”

Ordered, That the Report be accepted; and

On motion of Mr. Payne; further

Ordered, That the said Report be referred to the Committee of Supply.

On motion of Mr. Hill,

Whereas the House this day, when in Committee of the whole on the Messages of His Excellency the Lieutenant Governor, passed the following Resolution:—

“*Resolved*, As the opinion of this Committee, That the Parish of Saint Stephen, in the County of Charlotte, from the great extent of its manufacture of Sawed Lumber, its Trade and Shipping, which makes it an important Shipping Port in the Province, has a just claim to the privileges of a Free Port and Warehousing Port, and that the Ledge, so called, in the said Parish of Saint Stephen, should be included within the Port of Saint Stephen; and further

“*Resolved*, That the Port of Dorchester, in the opinion of this Committee, is fully entitled, from its particular situation, to the privilege of a Free Port;”

And the said Resolution having been adopted by the House; therefore

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to bring the subject of the said Resolution under the notice of Her Majesty's Government.

Ordered, That Mr. Hill, Mr. Gilbert and Mr. Barker be a Committee to wait upon His Excellency with the Address.

Mr. J. A. Street from the Committee appointed on the twenty sixth day of March last, to take under consideration a Petition from Benjamin P. Griffith, praying for relief in consequence of the seizure of Timber cut by him on the Arestook in the year 1838, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

“The Select Committee to whom was referred the Petition of Benjamin P. Griffith, praying for remuneration on certain Timber seized by the Crown in the year 1838, Report—That they have had the subject under consideration, and find the following to be the state of the case:—

“The

"The Petitioner is a Lumberer in Carleton, and in 1838, with many others, made Timber on the Disputed Territory, so called, at that period. That the Timber so cut and seized was about three hundred and seventy tons, of which three hundred tons were condemned and sold, and the seventy tons were lost to both parties. That the Timber so seized and sold, would have been worth to the Petitioner 30s. per ton; that the Petitioner consequently sustained a loss by such seizure to the extent of £496 5s. besides his trouble and loss of time about the matter. That this loss has been attended, as the Committee have reason to believe, with ruinous consequences to the unfortunate Petitioner; and as the Crown has received the proceeds of the Timber so seized and sold, and as at that time no Licenses were granted to cut Timber on the Territory in question, the Committee recommend the Petitioner to the favorable consideration of the House, in the hope that a small appropriation may be made to relieve him from the costs of the Prosecution, amounting to about £60, for which an Extent is now, as the Committee are informed, issued.

"Respectfully submitted.

"J. A. STREET,
J. M. CONNELL,
A. BARBERIE.

"Committee Room, 4th April, 1844."

Ordered, That the Report be accepted; and

On motion of Mr. J. A. Street; further

Ordered, That the said Report be referred to the Committee of Supply.

Mr. J. A. Street, from the Committee appointed on the first day of April, to take under consideration a Petition from Peter Stewart and Donald Stewart, praying relief by reason of extra Duty paid on Timber, submitted their Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

"The Select Committee to whom was referred the Petition of Peter Stewart and Donald Stewart, praying to be remunerated for extra Duty paid on Timber cut in the County of Carleton the last year on Crown Lands, which they allege was improperly seized by Bradshaw Rainsford, Esquire, Deputy Seizing Officer, in consequence of which they were obliged to pay the sum of £34 9 3, over and above what they should have paid, Report—

"That the Committee have had the matter under consideration, and upon examination of the papers, find that the Petitioners in September applied for a License and paid in the usual deposit of 45s:—That in the Spring of the year the Petitioners were called upon by the Seizing Officer to report the quantity of Timber, and to pay or secure the Duties thereon:—That the Petitioners reported the quantity as 1500 tons, for which amount, less the usual allowance of 15 per cent., the said Petitioners offered to pay or secure the usual Duty; but the said Seizing Officer refused to accede thereto, on the ground that the quantity so reported was under the real quantity, and required the said Petitioners to pay or secure Duties thereon for 1500 tons nett, which the Petitioners refused, from feeling satisfied that it was too much:—That the Seizing Officer accordingly seized the Timber, and reported the same to the Office; which Timber was subsequently released to the Petitioners on paying the said Seizing Officer his fees thereon, amounting to £34 9 3, over and above the Duty; and it appears to the Committee, by the Certificate of Jacob Allen, Esquire, Seizing Officer at Saint John, that the Timber, when brought to market at Saint John, did not exceed, on the re-survey, 1385 tons and some odd feet, and that therefore the Seizing Officer was wrong in requiring Duty upon 1500 tons, and consequently was not justified in seizing the Timber in question. Under these circumstances the Committee recommend that an appropriation be made to the said Petitioners to remunerate them for the amount they were so compelled to pay, over and above the ordinary Duty on the said Timber. "All which is respectfully submitted.

"J. A. STREET,
A. BARBERIE,
J. M. CONNELL.

And upon the question, it was carried in the affirmative, and the further consideration of the Bill accordingly postponed for three months.

On motion of Mr. Botsford,

A Message from the Legislative Council.

Mr. Dibblee, Master in Chancery, informed the House, that the Council had agreed to The Bill to afford relief to persons unfortunate in business in certain cases: and

The Bill to repeal all the Laws now in force regulating the Survey and Exportation of Sawed Lumber, so far as relates to the River and Port of Saint John, and to make other provisions in lieu thereof;

With amendments, to which they desire the concurrence of the Assembly.

And that the Council have also agreed to

The Resolutions of Appropriation dated the ninth day of April instant, with the following exception:—

To the Trustees of the Church of Scotland, in the Town of Saint Andrews, the sum of £50 in aid of individual subscription for building a Sunday School House in connection with that Church; the same not to be drawn until it is certified to His Excellency the Lieutenant Governor that a like or greater sum has been subscribed for this purpose;

In which Resolution the Council do not concur.

The Honorable Mr. Hazen moved for leave to present a Petition from Lauchlan Donaldson, Esquire, Mayor of the City of Saint John, together with Henry Porter, William O. Smith, Esquires, and three hundred and forty four others, Magistrates, Merchants and other inhabitants of the City of Saint John, praying for the removal of the Seat of Government from Fredericton to the said City, and that steps be adopted in order that full consideration of the matter, with the probable expense attendant thereupon, may be laid before the Legislature at the next Session.

The Order of the House, limiting the time for presenting Petitions, being dispensed with, leave was granted, and the Petition then read; and

Ordered, That the said Petition be received and lie on the Table.

On motion of Mr. Fisher,

“Whereas, in the opinion of this House, it is an object of primary importance to provide for an annual appropriation to the Bye Roads in this Province; And whereas the withholding of the Bye Road Appropriations previously made has retarded the settlement of the Country and been productive of great injury to the inhabitants of the Rural Districts; And whereas one of the objects the House proposed to attain in passing the several Loan Acts was to secure the Bye Road expenditure; therefore

“*Resolved*, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to issue, during the coming Season, the Bye Road Appropriations made in 1842.”

To which Mr. Partelow moved an amendment—

To expunge the whole of the Preamble to the Resolution, as also all the Resolution, after the word “Resolved,” and substitute as follows:—

“That as the Bye Road Appropriations have not been issued by the Government in consequence of the hitherto embarrassed state of the Finances, and as that state of things will be effectually relieved, so soon as the Loan, now about to be taken, be closed, it is unnecessary to address His Excellency on the subject, particularly as it is well known and understood, that it is the determination of the Executive Government to issue the Warrants for the Appropriations referred to, when the Loan is finally effected.”

Upon the question for adopting the amendment, the House divided as follows:—

YEAS.
 The Hon. Mr. Hazen,
 The Hon. Mr. Wilmot,
 Mr. Partelow,

And the division being equal, the Honorable Mr. Speaker decided it in the affirmative.

On motion of Mr. End,

“Whereas in making the appropriation of seven hundred and fifty pounds to defray the expenses incurred in the preservation of the Peace in the County of Northumberland, to be taken from the Provincial Treasury, instead of being assessed on the said County, the House was mainly influenced by a desire to avoid any measure which might tend to keep alive those angry feelings which have so long unhappily prevailed in that County: And whereas, in the opinion of this House, the further prosecution of those persons who are under Recognizances to appear, or against whom Warrants have issued for alleged riots and breaches of the Peace, connected with the recent Elections in that County, will be the means of agitating those sources of local vexation and ill will, which had much better be buried in oblivion; therefore

“Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency may be pleased to cause measures to be adopted by which those prosecutions and the execution of those Warrants may for the present be suspended.”

To which Mr. Partelow moved an amendment—

To expunge the whole of the Preamble to the Resolution, as also all the Resolution, after the word “Resolved,” and substitute as follows:—

“That it would be both unusual and improper for this House to express any opinion touching Criminal matters in this Province, while Judicial proceedings thereon are still pending.”

Mr. J. A. Street moved as an amendment to the said proposed amendment—

To expunge the whole thereof, as also the Preamble to the original Resolution, and so much of the said original Resolution, after the words “please to cause,” and substitute as follows:—

“To be immediately removed from the Commission of the Peace for the County of Northumberland all those Justices against whom Fiats in Bankruptcy have been granted, and also those Justices who it shall be made to appear to His Excellency are insolvent, there being too much reason to believe that the late disturbances in that County have arisen in a great measure from the improper conduct and want of exertions, to preserve the Peace, on the part of the Justices of the above description.”

The question being taken upon the last proposed amendment, it was decided in the negative.

The question was then taken upon the first proposed amendment, when the House divided as follows:—

“3d. *Resolved*, As the opinion of this Committee, That the sum of £106 19 3 drawn from the Surplus Civil List Fund by the Auditor General for his extra services and Clerk hire for the quarter ending 31st March, 1843, could not have been looked for by the House, making, as it does, the sum of £354 17s. for such services, for the year ending that date, independently of £346 3s. the annual charge on the Civil List, as the Salary of that Officer, and that the House should address His Excellency the Lieutenant Governor for information on the subject.”

“4th. *Resolved*, As the opinion of this Committee, That the House should adhere to the opinion expressed last Session, that the sum of £500 currency is an ample remuneration for the Auditor General and Clerk, but that the House should not assent to any greater sum being paid out of the Civil List Fund than £300 sterling, as a Salary for the Auditor General.”

The following Resolution was next moved:—

The Committee then passed the following Resolution:—

“6th. *Resolved*, As the opinion of this Committee, That the House should address His Excellency the Lieutenant Governor on the subject of the balance of the Surplus Fund, with a view of such measures being adopted as will place that Fund in a position that will make it more productive than it has hitherto been, taking care that it may be always available for any emergency.”

The several Resolutions, as reported by the Committee, being then handed in at the Clerk’s Table, were there again read.

Ordered, That the Report be accepted, and the Resolutions which were passed by the Committee, adopted by the House.

The House adjourned until to-morrow morning at 9 o’clock.

The Honorable Mr. Speaker reported to the House:—That he had received a Letter from David S. Kerr, Esquire, an Attorney and Barrister of the Supreme Court in this Province, stating that he had, in accordance with instructions given him by James Doak and Thomas Hill, commenced proceedings against him as Speaker of the House of Assembly, as also the Sergeant at Arms; and being desirous of shewing every proper respect to the House, wished to be informed which would be the most preferable mode of receiving service of the Summons.

On motion of Mr. Botsford,

Resolved, That the bringing of Actions against the Speaker of this House and the Sergeant at Arms, for acts done in obedience to the orders of this House, is a breach of the Privileges of this House, and the parties concerned in bringing such Actions might be proceeded against, by the commitment of such party, Solicitor or other persons, yet as the Court before which such Actions may be brought cannot stay the Suit, or give Judgment against the Plaintiff, until it is informed by due course of legal proceeding that such Action is brought for a thing done by order of the House, it is still expedient that the House should give leave to the Speaker and Sergeant at Arms to appear to the said Actions and to plead to the same, for the purpose of bringing under the knowledge of the Court the authority under which they acted; and further

Resolved, That the Speaker be at liberty to direct an appearance to the said Actions, and adopt such measures as he may deem advisable to vindicate the Privileges of this House.

Mr. J. A. Street gives notice:—“ That he will at an early day the next Session, move a Resolution expressive of the opinion of this House, that the Executive Government have no legal right, under the terms of the Civil List Act, to compromise or remit any debts due to the Crown, for sale of Crown Lands, or Timber cut on Crown Lands, without the sanction of the other Branches of the Legislature or of the Home Government.”

Mr. J. A. Street also gives notice:—“ That he will at an early day of the next Session, move a Resolution for an Address of this House to His Excellency the Lieutenant Governor, praying that he will break up and throw open to public competition, all Mill Reserves that have from time to time been granted by the Executive Government of this Province, for Mills situated in the Tide Way of the respective Rivers in this Province, and not upon small Streams, from the Banks of which such Mills must mainly depend for the supply of Mill Logs; such Reserves not being authorized by Law, and being in their operation partial and unfair towards others engaged in the Lumbering business of the Country, and especially towards the operative Lumberer.”

According to the Order of the Day, the amendments made by the Legislative Council to the Bill to afford relief to persons unfortunate in business in certain cases, were severally read a third time.

Resolved, That the House do concur therein.

Ordered, That Mr. J. A. Street return the Bill, with the amendments, to the Council, and acquaint them therewith.

Mr. Brown, from the Finance Committee, submitted a further Report; and he having read the same, handed it in at the Clerk's Table, where it was again read, and is as follows:—

Resolved, As the opinion of this Committee, That the Balance of £194 3 11, reported by the Honorable the Auditor General as in the hands of the Honorable William Crane, should not be claimed from that Gentleman, it having been long since settled and understood that such Balance was but a small compensation for the important services rendered by the Honorable William Crane on three several occasions in England, (for which he made no charge,) while on business connected with the Public affairs of the Province.”

To which an amendment was moved—To expunge the whole of the said Resolution, after the words “opinion of this Committee,” and substitute as follows:—

On motion of Mr. J. A. Street,

Whereas from the immense Sea Coast, the large amount of Shipping, and the extensive Commercial and Manufacturing operations on the North Eastern Section of this Province, and the consequent influx of Strangers and Emigrants from various parts of the world, as well as from local causes, it is highly necessary and desirable that a Military Post should be established at Miramichi, and that a Detachment of Her Majesty's regular Forces should be constantly stationed in that quarter; therefore

Resolved, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to cause the necessary representations to be made to the proper quarter, in order to obtain, so necessary and desirable an object.

Ordered, That Mr. J. A. Street, Mr. Allen and Mr. Scoullar be a Committee to wait upon His Excellency with the Address.

Read as engrossed,

The Resolutions of Appropriation made and passed in Supply on Wednesday the tenth day of April instant, severally granting—

To the Postmaster at Fredericton the sum of £230 0 3, being amount of Postages of the Legislature the present Session:

To the Clerk of the House of Assembly the sum of £2008 16 1, being for Contingencies of the present Session.

Ordered, That Mr. Hanington take the said Resolutions to the Council and desire their concurrence thereto.

Mr. Fisher, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the House of yesterday, communicating several Resolutions which passed in Committee of the whole House when in consideration of the Report from the Committee on Public Accounts, on the Accounts of the Queen's Casual Revenue, and which relate to the Auditor General's Office and the Surplus Civil List Fund, reported—That they had attended thereto, and that His Excellency was pleased to say, the information prayed for should be laid before the House.

A Message from the Legislative Council.

Mr. Dibblee, Master in Chancery, informed the House, that the Council had agreed to The two Resolutions of Appropriation dated the tenth day of April instant, severally granting the sum of £230 0 3 for the Postages of the Legislature the present Session; and the sum of £2008 16 1 for Contingencies of the present Session.

Mr. Fisher, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the House of yesterday, praying that His Excellency would be pleased, in his discretion, to direct proceedings to be instituted for the recovery of all amounts and balances due on Sales of Crown Lands, and Timber and Lumber, including all unsettled Excesses, reported—That they had attended to that duty, and that His Excellency was pleased to say, the wishes of the House should be complied with.

A Message from the Legislative Council.

Mr. Dibblee, Master in Chancery, informed the House that the Council had agreed to The Bill to provide for opening and repairing Roads and erecting Bridges throughout the Province: and

The Bill to appropriate a part of the Public Revenue for the services therein mentioned.

On motion of Mr. Fisher,

Whereas the practice of requiring the Purchasers of Land for actual settlement to pay for the same immediately, retards the settlement of the Province; And whereas the sale of Land for Agricultural purposes, in Lots of one hundred acres, to persons applying for said Lands for actual settlement, and who could not afford to pay therefor, except by instalments, would be a great relief to the poorer class of Settlers, and is necessary to prevent unauthorized settlement; therefore

Resolved, unanimously, That an humble Address be presented to His Excellency the Lieutenant Governor, praying that His Excellency will be pleased to sell Lands for Agricultural purposes, to such Settlers as may require allotments for actual settlement, in Lots of one hundred acres, payable by instalments, provided no Grant shall issue until all the instalments are paid.

Ordered, That Mr. Fisher, Mr. J. A. Street and Mr. Hanington be a Committee to wait upon His Excellency with the Address.

Mr. Fisher, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the House of yesterday, praying that His Excellency would be pleased, in his discretion, to direct proceedings to be taken to recover all balances due from Supervisors and Commissioners, reported—That they had attended thereto, and that His Excellency was pleased to say, the wishes of the House should be complied with.

Mr. J. A. Street, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the House of this day, relative to establishing a Military Post at Miramichi, reported—That they had attended to that duty, and that His Excellency was pleased to say, the wishes of the House in that respect should be complied with.

Mr. Fisher, from the Committee appointed to wait upon His Excellency the Lieutenant Governor with the Address of the House of this day relating to the Sale of Lands by Instalments to actual Settlers, reported—That they had attended to that duty, and that His Excellency was pleased to say, the wishes of the House should be complied with as far as practicable.

A Message from His Excellency the Lieutenant Governor by the Gentleman Usher of the Black Rod, requiring the immediate attendance of the House at Government House.

The House attended, and being returned—

The Honorable Mr. Speaker reported, that he had addressed His Excellency to the following effect :—

“ May it please Your Excellency,

“ An Act to appropriate a part of the Public Revenue for the services therein mentioned : and

“ An Act to provide for opening and repairing Roads and erecting Bridges throughout the Province :

“ And pray Your Excellency will be pleased to give Your assent thereto.”

That

" Mr. President and Gentlemen of the Legislative Council,

" Mr. Speaker and Gentlemen of the Assembly,

" The termination of the business which has engaged you, enables me to relieve you from your further attendance.

" The unremitting attention which you have given to the Public Interests, has amply realized the expectations which I was encouraged to form at the opening of the Session; and I congratulate you on the accomplishment of several highly important measures which I had recommended to your consideration, and which I confidently hope will be productive of lasting benefit to the Province.

" Mr. Speaker and Gentlemen of the Assembly,

" I thank you for the Supplies which you have granted for the Public Service, and also for the confidence which you have reposed in the Government, by liberally placing at my disposal the Funds which are urgently required for various important objects.

" The encouragement which you have afforded by Bounty to the Fisheries of the Province, will revive an important Branch of its resources.

" Mr.

*“ Mr. President and Gentlemen of the Council,
Mr. Speaker and Gentlemen of the Assembly,*

“ It is gratifying to me to reflect that the prospects of the Province are such as to hold out reasonable hope of an early relief from the embarrassments which for the last three years have tended so much to depress the energies of the people, and to retard the general improvement; and it is with the utmost satisfaction, in relieving you from your labours, that I recur to the spirit of unanimity and devotion to the Public welfare, which have characterized your proceedings at such a period, and on the continuance of which, under Providence, we must rely for surmounting the difficulties with which the Province may still have to contend.”

*“ Honorable Gentlemen of the Legislative Council,

To His Excellency Sir W. M. G. COLEBROOKE, K. H., Lieutenant Governor, &c. &c. &c.

The Petition of James Allanshaw, of Saint Andrews,

HUMBLY SHEWETH,

That in the year 1837 your Petitioner obtained from the Crown a Lease or Mill Reserve on the Digdeguash River, for Saw Logs, for the term of five years. The conditions of which were, to cut one million feet annually, and the Crown to reserve the right of selling Lots of Land within said tract. That your Petitioner's House has continued annually to employ people to Log for them on said tract, but that in consequence of the exhausted state of the Timber, they were compelled to take Logs of very inferior quality, to their great loss and damage. This arose from the Land having been previously Timbered over, and the most prime cut away and manufactured into Square Timber by the late firm of Christopher Scott & Co., upwards of twenty years ago, leaving but little else than cullings for your Petitioner as regards Pine.

Your Petitioner has also been much interfered with by Trespassers from the Schoodic waters, in cutting and carrying away from said tract large quantities of Saw Logs, part of which have been seized, but your Petitioner has not received any benefit from such seizure, but serious damage to the parties in his employ, and he has been called upon for remuneration.

Your Petitioner thinks this a very hard case in the Crown not protecting him in the Berth, or at least allowing him the double duties, (less the Seizing Officers fees,) for the injury sustained.

Your Petitioner also begs leave to state to Your Excellency that his partner, Mr. John M'Master, died in April 1838, and for the purpose of making up a correct Inventory of all the property, it was necessary to examine the Digdeguash River and Branches, to ascertain the quantity of Logs on hand, which was done, and returns made on Oath by the parties; that when said Logs were manufactured at the Mills, such was their inferior quality, that the clear, merchantable and shipping refuse, produced only or amounted to two thirds of the quantity returned, falling short over one million superficial feet on Digdeguash alone; that your Petitioner from long experience, can safely aver that the Logs do not hold out when manufactured by full 25 to 30 per cent. This is easily accounted for by the limited space for operations, and which has been lumbered on between 30 and 40 years, and we are obliged to take much unsound Timber for Board Logs, which some years ago was wholly rejected.

Your Petitioner therefore entreats Your Excellency to order him a just and equitable settlement, by having a fair and reasonable allowance made.

And as in duty bound will ever pray.

(Signed)

JAMES ALLANSHAW.

Sworn to this 10th day of April, 1843.

(Signed) THOMAS C. LEE.

Report of the Surveyor General upon a Petition of the Honorable James Allanshaw, respecting the amount due by him on his Leases.

Many of the Statements set forth by the Hon. J. Allanshaw in this Petition, are known to me to be facts, and as the Instrument is sworn to, it is reasonable to believe that they are all true.

Mr. Allanshaw's Account would appear to stand thus—Due per Statement £654 2s.

Allowing in rough estimate for rotten logs, defects, trespasses on his Reserve, by which the Crown obtained double duty on Lumber, which otherwise Mr. Allanshaw would have taken to his Mill, I respectfully submit, whether in order to settle the question in preference to legal proceedings and heavy expenses, it would not be advisable to make a deduction of 25 per cent. on the logs cut, which would leave Mr. Allanshaw indebted to the Crown in the sum of £490 11 6.

(Signed)

THOS. BAILLIE, *Surveyor General.*

10th April, 1843.

Additional

Additional Report of the Surveyor General upon the Petition of the Honorable James Allanshaw.

Surveyor General's Office, March 11, 1844.

REGULATIONS

FOR THE DISPOSAL OF CROWN LANDS IN THE PROVINCE OF NEW BRUNSWICK.

By Order of His Excellency the Lieutenant Governor in Council, 11th May, 1843.

WHEREAS it is considered that much expense and trouble will be saved by persons who are desirous of purchasing Crown Lands, especially in remote parts of the Province, by authorising Local Sales thereof to be held in convenient places; and as it is expedient to prescribe certain Regulations respecting Applications for and Sales of such Crown Lands; It is therefore Ordered,—

1st.—That in future, Public Sales of Crown Lands will be held, as occasion may require, on the first Tuesday in every month by the Surveyor General, in his Office at Fredericton, and by a Deputy Surveyor thereunto specially appointed for each County.

2nd.—That all applications be addressed by Petition to His Excellency the Lieutenant Governor, and transmitted either by the Applicant or through the Local Deputy, under cover to the Surveyor General, and accompanied by a Report from the Local Deputy, describing the Land, and setting forth whether it is required for actual Settlement, together with such other information as he may deem necessary to be communicated.

3rd.—That if the application be approved of, and the Land applied for be not already surveyed, a Warrant will forthwith issue to authorize the Survey to be executed, on guarantee to the Surveyor for the expenses of Survey, according to such Regulations and at such Rates as may be prescribed for Surveys in the Department of the Surveyor General; and where the applications for Land in any locality may be numerous, care will be taken that the charges be proportionably reduced.

4th.—That on the return of the Survey duly executed, the description of the Land, the time and place of Sale, and the upset price, will be announced in the Royal Gazette, and also by Handbills to be publicly posted in the County where the Land lies, at least twenty days previous to the day of sale; and the charges for all such Surveys shall be paid down by the Purchaser or his Agent at the time of sale, in addition to such part of the Purchase Money as will be required, or the Sale to be deemed null and void.

5th.—That if the Land applied for should have been previously surveyed, the like notice of the time and place of Sale, &c. be forthwith published, and three pence per acre, Survey money, paid down by the Purchaser or his Agent at the time of Sale, in addition to the part of the purchase money required as before, or the Sale to be null and void.

6th.—To facilitate these arrangements, outline Maps of the several Counties are to be made as soon as practicable, for the use of the Surveyor General and Deputy Surveyors, and for the information of the public, on which are to be recorded the situation and limits of the Lands when surveyed and advertised for Sale.

7th.—The upset price of all Crown Lands for actual Settlement is to be not less than three shillings an acre, exclusive of the charge for surveying the same. Twenty five per cent of the Sale price to be paid down, and the remainder to be payable in three equal annual Instalments, to be secured by Bond of the purchaser; each Instalment to bear interest at six per cent per annum, from and after the day the same becomes due. Purchasers who may pay down the full purchase money at the time of Sale will be allowed a deduction or discount of one fifth for prompt payment.

8th.—That in future no consideration or allowance whatever will be made on account of unauthorized improvements on Crown Lands which shall not have been commenced or made on or before the first day of May of this present year, but the allotments with such improvements will be sold in the same manner as other Crown Lands.

9th.—That in cases of the Sales of Land where improvements may have been made prior to the first of May, and where the occupier is not the purchaser, the Surveyor General or Deputy Surveyor will value the same, subject to an appeal by Petition to the Governor in cases of objection to such valuation; and the purchaser shall be required to pay such valuation on the day of Sale to the person entitled thereto, or in cases of appeal, to deposit the same, in addition to the Purchase and Survey Money, as hereinbefore provided.

10th.—That all Local Deputies making Sales under these Regulations be required to make a return thereof to the Surveyor General within fourteen days after such Sales respectively, and of all Bonds which he may have taken for securing the payment of Instalments.

11th.—That every such Deputy be also required to transmit within thirty days after such Sales respectively, a Duplicate of the said return to the Receiver General, and to remit to him all Monies received on account of such Sales, except the Sums paid for Surveys and deposited for improvements, of which he is to render an account; and he will be allowed to retain for his remuneration a commission of five per cent of the Purchase Money so received—such per centage in no case to exceed in the whole the sum of £100 per annum. And the Receiver General shall within six days after his receipt of such return and remittance, render to the Surveyor General a copy of the return duly authenticated.

12th.—That where the Purchase Money has been paid down under the conditions of the 7th Clause, a Grant will immediately pass to the Purchaser, but in other cases an occupation Ticket will be issued to him on the day of Sale, signed by the Surveyor General; such Ticket will not give any power or authority to the occupant to cut and remove from his allotment any Timber or Logs until all the Purchase Money is paid, but all Timber and Logs so cut shall be liable to seizure, unless paid for according to existing Regulations for the disposal of Crown Timber and Lumber; in which case the amount so paid shall be carried to the credit of the Purchaser and towards the liquidation of the Instalments which remain due or unpaid for the said Allotment.

13th.—That every Deputy authorized to perform the foregoing duties will be required to give a Bond to the Queen, with two approved securities, in the penal sum of £400, conditioned for the faithful performance of his duty.

14th.—That no Deputy shall be permitted, either directly or indirectly, during the continuance of his official employment, to purchase or be in any manner interested in any Crown Lands whatsoever.

15th.—That where large parties of Settlers may associate and make application for the purchase of Tracts of Wilderness Lands, in situations distant from any Settlements already formed or in progress, and to which communications may not have been opened through the Forest, they will set forth in their Petitions, and the Surveyors in their Reports, all such particulars; and when the difficulties to be overcome may require greater facilities than are provided for in the foregoing Regulations, the case will be reserved for the special consideration of the Lieutenant Governor and Council; and when such parties may engage to defray the charges of surveying their Locations, and also of the Bye Roads required to be opened to and through their Settlement, and to which they are willing to apply their own labour, the Deputy Surveyors will be authorized to execute such Surveys. In laying out such Locations, the Surveyors are to attend to the 6th Clause of the Regulations of the second of December last, in reserving Lines of Road, and allotments for Schools and places of Worship, which Reserves will not be allowed to be broken or sold.

By Order of the Lieutenant Governor.

HARVEY SETTLEMENT.

Report from Honorable L. A. Wilmot, Commissioner for Harvey Settlement.]

(Copy)

Fredericton, 9th February, 1844.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honor to lay before Your Excellency a Statistical Return of the Harvey Settlement for the past year, including also the new Settlers in the rear Lots.

The great success which has followed the labours of these industrious and valuable Settlers is an unquestionable proof of what may yet be done on our millions of Wilderness Lands.

The Return shews that from Land where not a tree had been felled in July 1837, there have been taken during the past autumn, 260 Tons of Hay and Straw, and 15,000 Bushels of Grain, Potatoes, and Turnips.

It is desirable that the accompanying Return may be circulated among the Settlers' friends and countrymen in the North of England, as well as in other parts of the United Kingdom, so that the capabilities of our new land soil may appear, and that it may also be made known that we have at least five millions acres yet undisposed of—a great portion of which is of better quality than the Land at Harvey—whereon the sober and industrious Emigrant may create a home under the protection of British Laws and in the enjoyment of British Institutions.

I have the honor, &c.

(Signed)

L. A. WILMOT, *Commissioner.*

The estimated value of improvements is made up exclusive of the Buildings, and no one Settler would part with his Lot at the stated value.

There is a good School in the middle of the Settlement, and the average attendance of Scholars during the past year was 30.

The Settlers accompany the original Return with the following observations :

“The Climate of New Brunswick agrees well with the constitution of Englishmen ; the air is salubrious, and the water as pure and wholesome as any in the world.

“During the six years of our location there has occurred but two deaths, while there have been thirty nine births without the presence of medical aid.

“Six years experience have convinced us that notwithstanding the privations to which new Settlers are exposed, diligence and perseverance must ensure success.”

TEETOTAL SETTLEMENT.

Report from Honorable L. A. Wilmot, Commissioner for Teetotal Settlement.

Fredericton, 25th January, 1844.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honor of herewith laying before Your Excellency a Tabular Return of the Improvements, Crop, Stock, &c. of the "Teetotal Settlement," up to the close of the last year.

The results of this, the second effort in which I have been engaged, in forming Settlements in the Wilderness, have afforded me the most unmingled gratification.

Where but two years ago stood a dense Forest, there have been gathered by thirty five Settlers during the past Autumn seven thousand two hundred and seventy six bushels of Grain, Potatoes and Turnips.

The accompanying Return shews an estimated value of £1,137 in Buildings and Clearings, and when there is added to this the market value of the Crop, exceeding £800, we have about £2000 return (exclusive of the making of four and a quarter miles of Road) from a tract of Land, which, in its Wilderness state, would not in the same time have produced one shilling.

I cannot now consider the successful occupation of our Wild Lands by associated bodies of Settlers, having the privilege of making their own Roads at a reasonable rate, as a doubtful experiment. No antagonist theory can prevail against the practical experience which can now be referred to.

Similar management must produce similar results, and I am well persuaded that no other system is so well calculated to promote the improvement of our Millions of wilderness acres, and thus to advance the Population and Commerce of the Province.

I have the honor, &c.

(Signed)

L. A. WILMOT, *Commissioner*.

No. 3.

[Extract.]

To His Excellency Sir William Macbean George Colebrooke, K. H., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

In compliance with Your Excellency's instructions, I have proceeded to explore the Restigouche River, with some of its Tributaries, and the surrounding Country, a full account of which will be contained in the general Report.

My Son ascended the Saint John to Madawaska, where he procured provisions, canoe and guides, to enable him to cross from the waters of that River to those of the Restigouche. Having ascended Grand River and one of its Branches, to the distance of twenty miles, the canoe was carried across a Portage of three miles, and launched in the Waagan, a tributary of the Restigouche, one hundred and thirty miles from its mouth. A Canal might be opened at a moderate expense in this quarter to connect the waters of the Saint John with those of the Bay Chaleur.

I ascended the Restigouche, and examined the Country on each of its sides, and met the expedition from above a short distance below the mouth of the Upsalquitch. The difficulties of descending from the sources of the River at the present time of year are very considerable; as the season had been dry, we were compelled to drag our canoes nine miles along the bed of the upper part of the stream, and so great is the difference of climate in the wilderness, that ice was frozen half an inch in thickness in the upper part of the stream on the 12th of September, while at the mouth of the River no frost had been seen, and luxuriant crops of Wheat were in full harvest.

We were surprised to observe that the stream which has been generally understood to be the Restigouche, and is so called by the English inhabitants, is only a Branch of the Main River. The Main River on some of the Maps is called the "Cadamkiswa," which the inhabitants have changed into "*Madam Kedgewick*," and "*Tom Kedgewick*." The Indian name in the Micmac language is *Pee-tam-Kedge-wee*. The Southwesterly Branch of the River, above its junction with the larger stream, is called by the Micmacs "*A-waam-jeet*." The former stream is one third larger than the latter, and is eighty yards wide where it meets its chief tributary. It may be remarked here, that where a River is forked, the Indians give a distinct name to each Branch, without reference to the name of the stream below.

One of the sources of the Main Restigouche, or *Pee-tam-Kedge-wee*, is near Temisquata Lake, another approaches the Metis Lake very nearly. If the Main Restigouche be the Boundary between the Provinces, it will be seen by reference to a good Map, that a large tract of Country will fall to New Brunswick, which has heretofore been considered to be on the Canada side, and it will also be seen that the outline of both Provinces will be very irregular, and by no means convenient.

On the Peninsula separating the River Saint Lawrence from the Bay Chaleur, there is a lofty mountainous Ridge, a Branch of a chain called the Alleghanies, which extend

extend through the United States. It was up to this Ridge that the American Government laid their claim before the question of Disputed Territory was settled, and until that period the Restigouche formed a temporary boundary between Canada and New Brunswick, but since the happy termination of that dispute, the Range of Mountains separating the Rivers that flow into the Saint Lawrence from those that flow into the Bay Chaleur, the Restigouche and Saint John, will, in my opinion, form the best divisional line between the Provinces.

Such a line would give to each Province all the Rivers that flow and open into their respective districts, and would agree with the physical Geography of the Country: or the line separating Canada from New Brunswick, might extend from Cape Rosier, as fixed by the ancient Charter of Canada.

The Restigouche River forms an inconvenient boundary between the Provinces; all the Timber cut upon the tributaries of that stream, is shipped from Dalhousie and Campbelltown, on the New Brunswick side.

The only Land communication between the district of Gaspé and Quebec, is along the Kempt or Metis Road, where a Mail passes once a week. This Road has never been opened and improved to any great extent. The Mail Carrier rides about sixty miles on horseback from the Restigouche to the Metapediac Lakes, where he feeds his horse on Wild Hay, and walks upwards of forty miles to the mouth of the Metis River. This line of Road runs through a very mountainous and broken tract of country.

The remoteness of the district of Gaspé from the Seat of Government in Canada, has an injurious effect upon its civil and moral institutions. Along the Canada side of the Restigouche, where it is inhabited, there is but one Magistrate in the distance of seventy miles. In the whole of that distance no Statute Labour nor Militia duty is performed, nor taxes paid, and every man is governed by his own opinion of what is right and wrong.

At New Carlisle and other places on the Bay Chaleur, the Laws have been so imperfectly administered, that the Government of Canada has recently appointed Commissioners to enquire into the administration of Justice in that quarter. Debtors on the New Brunswick side have only to cross the Restigouche to evade the payment of lawful demands.

All the inhabitants scattered along the Canada side of the Restigouche are English, Irish, Scotch and Provincials, except three hundred Indians of the Micmac Tribe, settled at Mission Point, near Campbelltown.

There is also a large Settlement of Scotch and Irish at New Richmond. At Nouvelle, Paspédiac, New Carlisle, Bonaventure, and Port Daniel, the population is mixed, and the greatest number are Acadian French, who in their customs and manners are like those on the North Shore of the Province of New Brunswick.

The Metis or Kempt Road extends from the Restigouche four miles above Campbelltown to the Metapediac Lakes, and from thence in the direction of the Metis River to the Saint Lawrence, the whole distance is upwards of a hundred miles.

The most direct route for the Great Road from Gaspé and Restigouche to Quebec, is from the Metapediac to Tamiscouta Lake, where it would meet the Road from Fredericton to Quebec. This line would be seventy miles shorter than the present route to the Capital of Canada.

The opening of a Road from Fredericton to some part of the Restigouche is a matter of much importance to the Province.

The Land along the District of Gaspé on the shore is generally level and fit for cultivation; a short distance Northward the country is mountainous and broken.

The lower part of the Restigouche possesses similar features, but Southward of the Pee-tam-Kedge-wee, or upper part of the Restigouche, the Land becomes level. The soil on the Restigouche is of a good quality, and produces excellent crops of all kinds of Grain.

The Restigouche is navigable for Tow Boats and Canoes one hundred and twenty miles from its mouth. The Metapediac is thus navigable fifty miles, and the Upsalquitch seventy miles. This district abounds in limestone and marl, and there is a coal field near Campbelltown.

In bringing this communication to a close, I beg to assure Your Excellency, that I shall

shall take the earliest opportunity to make up the general Report of the Restigouche, which will include a full account of its minerals, and other natural resources.

I have, &c.

No. 4.

Extract of a Despatch from Sir William Colebrooke to Lord Stanley, dated

[No. 91.]

Fredericton, N. B., 30th September, 1842.

MY LORD,—The settlement of the Boundary dispute, under the Treaty of Washington, which awaits Her Majesty's confirmation, having materially altered the relative position of this frontier, my attention has been drawn to the necessity of obtaining early information of the character of the Country.

Hitherto the jealousy of the people of Maine has prevented the Government from exploring the district to the northward of the Saint John, where the Boundary between this Province and Canada has been very imperfectly explored. The Restigouche River, regarded as the nominal Boundary, was considered to take its rise a few miles to the northward of the Great Falls of the Saint John. Dr. Gesner, whom I had employed during the Boundary negotiations, being well qualified to undertake an exploratory survey of the River, I appointed him to conduct it; he has just returned, and I enclose to your Lordship a brief report of his operations, which I have required him to make to me.

From this report, it appears that the course of the Main River has been altogether misconceived; that it takes its rise in the height of Land near the sources of the Metis Lake, which flows into the Saint Lawrence, and is navigated by the lumberers of this Province for 100 miles.

Besides the ordinary objections to a River Boundary, the Restigouche would thus constitute a very inconvenient Frontier between Canada and New Brunswick; and recurring to the natural principle of the Boundary Settlement of 1783, that of a Line along the Highlands dividing the Waters flowing in opposite directions, I am inclined to think that the most eligible Line of separation between the two Provinces would be a direct one from the Saint Francis to the Heights which formed the limits of the American claims, and which their Surveyors explored in the last year, and along those Heights to the eastward.

The intersection, by such a Line, of the Streams in the Highlands is of little consequence; but when they descend and become navigable, it is manifest that in a new country, accessible only through its Rivers, a Line either intersecting or dividing the Rivers and their Tributaries, is calculated to produce a conflict of jurisdiction, and for a time, the occupation of the intermediate Territory by a lawless population. To prevent the disputes arising from these causes was obviously the intention of the negotiators of 1783, and a departure from the principle adopted by them was the occasion of the disputes now happily terminated.

As the whole country traversed by the Restigouche and its Tributaries, and by the upper Saint John and its Tributaries, the Madawaska, the Saint Francis, and Black Rivers, has been very imperfectly explored, and as Major Graham with his Surveyors is at present engaged in making a rapid *ex parte* exploration of the new Boundary Line, I have considered it advisable to direct Mr. Wilkinson to proceed and to explore that line to the limits of this Province; and having traversed the country with Colonel Mudge in 1839, I hope that he will be able in a short time to remove all uncertainty as to the direction of the line as described in the Treaty of Washington.

It is important that this exploration should be made, as the lumberers of this Province, who have been restricted since 1839 from cutting Timber in the Disputed Territory, are anxious, when the Treaty is ratified, to recommence operations over that part of the country which is situated within the British Boundary, north of the Saint John.

I enclose a Sketch which has been made to me by Mr. Wilkinson, which will elucidate the foregoing observations, and I doubt not it will appear to your Lordship

advisable that a regular Survey of the intermediate country should be executed without delay. * * * * *

The Right Honorable Lord Stanley.

Extract of a Despatch from Lord Stanley to Sir William Colebrooke, dated

Downing Street, 25th October, 1842.

SIR,—I have the honor to acknowledge the receipt of your Despatch, No. 91, of the 30th of September, with its several enclosures, relating to the expediency of establishing a well defined Boundary Line between the Province of Canada and New Brunswick. * * * * *

I concur with you in thinking that it will be desirable to ascertain with precision, and afterwards to define in a recognized manner, the line of separation between the adjoining British Provinces; but for this purpose it will be requisite to consult, in the first instance, the Governor General of Canada.

I have therefore to direct you to place yourself in communication with Sir Charles Bagot on this subject; and to abstain from adopting any proceedings which are indicative of your intentions, in respect to a new Boundary Line, until you are fully acquainted with his views.

I have, &c.

Crown Land Office, 10th June, 1843.

MAY IT PLEASE YOUR EXCELLENCY,

Certain persons, residents in this Province, did, during last year, apply through their Agents in Canada, to the Crown Land Office in Kingston, for Licence to cut 100,000 feet of White Pine Timber from Lands adjoining the River Saint Francis, and have, agreeably (as I understand) to the regulations of that office, paid one-fourth of the Tonnage demanded by that Government.

Enclosed are copies of two Letters which have been addressed to me on the subject, with a receipt, as proving the right of the parties to bring said Timber down the River Saint John, free of any demand from this Government.

I have therefore the honor to request, that Your Excellency will inform me whether I shall permit the Timber to pass without molestation to Saint John, being satisfied, of course, as to its identity.

I have also the honor herewith to enclose an extract from an advertisement in the Quebec Gazette, by which Your Excellency will perceive that the Government of Canada are about to dispose of Timber which I should imagine ought to belong to this Province. Under these circumstances, I have to pray for instructions for my guidance in the disposal of Timber in that neighbourhood.

I have, &c.

THOS. BAILLIE, *Surveyor General.*

Extract from the Quebec Gazette.

Crown Land Office, Kingston, 15th May, 1843.

For the Territory South East of the Temiscouta Portage Road, and on the different Branches of the River Saint Francis and adjoining Districts, no regular Licences can be given at present; but persons desirous of applying for such will have to correspond with this office until that Territory has been regularly explored, and placed under the care of a local Agent.

SIR,—With reference to Timber cut by John Glazier, on the Saint Francis and Cabineau, as reported by Mr. Deputy Rainsford, I beg leave to submit the following statement:—

Mr. Glazier, in October last, made an arrangement to haul a small quantity of old Timber from the Saint Francis, part from the British side and part from the American, and was anxious to get more Timber from the British side to make a winter's work; but on application at the Crown Land Office, I found that no permission could then be given. I was then induced to ask permission from the Government of Canada, and in reply was told, through my Agent, that the subject of my application was under consideration by the Government there. About same time, the Government here came to a decision to receive applications for Timber above the Grand Falls; and wishing to make sure the grounds Mr. Glazier was then working on, I applied here; which application was received, and the Timber advertised for sale in January last, but eventually postponed until February. About the time of the sale, I received a communication from Canada, informing me that the Commissioner of Crown Lands there would receive the money and bond, on my application, which he said would authorize Mr. Glazier to go on with his work, although no formal Licence could then be granted, with which I complied; and the Commissioner of Crown Lands has since received, from my Agent thereon, the usual proportion of money for the Stumpage of 2,500 Tons of White Pine Timber, cut on same grounds as applied for here, and as reported by Mr. Deputy Rainsford; but as yet he has not sent me the Licence of permission, but I expect it every day.

Having stated the whole of the circumstances to you, I beg leave to say that Mr. Glazier is now driving the Timber down, and intends to raft the same near his own place, below the Short Ferry (so called); and I am perfectly willing that it shall be considered to be in the possession of the Government until I can make it appear that a great proportion of this Timber, reported by Mr. Deputy Rainsford, has been obtained under permission from the Government of Canada.

SIR,—With reference to my Letter of 19th May, I now beg leave to hand you a Receipt, received yesterday (through my Agent) from the Crown Land Office in Canada, for the payment of one quarter of the Stumpage of 100,000 feet of White Pine Timber, cut by John Glazier last Winter; and as I sent a Power of Attorney in March last, legally prepared, to my Agent, for to execute Bonds for the remaining three quarters, the Receipt for which has not yet been received, may I ask the favour of you, to inform me whether a Receipt of the same kind from Canada, for the remaining three quarters, with the enclosed, would be a sufficient authority for you to pass, without payment of Stumpage from this Province, the quantity named, say 2,500 Tons, of Mr. Glazier's Timber.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honor to transmit herewith, a Letter which I have this day received from Mr. Spafford Barker, with its enclosures, respecting the payment of Tonnage money to the Government of Canada, on Timber cut on the River Saint Francis and Cabineau; and as this may become a question of some importance, I have to request instructions for my guidance in the premises, as also as to the extent to which Licences are to issue in this Province towards the Land upon which the Timber has been cut, which is the subject of this communication.

SIR,—In addition to my Communications of 19th May and 10th June, (to which please refer) concerning the Timber cut by John Glazier, on the Saint Francis and Cabineau, under permission of the Government of Canada, I now beg leave to enclose you a copy of a Letter, marked A, from Mr. Bouthillier, of 10th February last, to Mr. Kerr, who negotiated the matter there for me, through my Agent, by which it would appear, that on our paying the money, and giving bonds in the usual manner, he (Mr. Bouthillier) said we would be authorized to carry on our operations, upon which Letter I acted; and accordingly, as stated by me on the 19th May, I remitted the money, and forwarded a Power of Attorney to give the necessary Bonds.

The Receipt for the payment of one quarter of the Stumpage, I enclosed to you on the 10th ultimo, but had not at that time executed the Bonds for the balance.

I also enclose you a copy of my Letter, marked B, to Mr. Kerr, of 16th June, asking in what position we would stand supposing we did not execute the Bonds, and his answer thereto, marked C, by which it appears he considered not only me, but himself, bound to complete the negotiation.

I have therefore felt myself pledged, and in honor bound, to complete the payment to Canada, and therefore executed and forwarded the Bond to that Government, through my Agent there, and trust that as the Timber so paid for to the Canadian Government is now in Saint John, that instructions will be given to Mr. Deputy Allan not to interfere or interrupt us in the disposal thereof, as any interference on his part will not only prevent our selling the same, but would thereby subject us to great loss and inconvenience.

Department of Crown Lands, Kingston, February 10, 1843.

SIR,—Your application of 2d instant, No. 620, on behalf of John Glazier, for a Licence to cut 1,000 Tons White Pine Timber on the **Laburnum River*, having been referred to the Surveyor General, that Officer reported, "That the *Laburnum River* is not known in his Office, and that the Berth asked for cannot be made out from the description given."

Your applications No. 358, and 381, are still before the Council.

No regular Licences can be granted, at present, for the different Tracts described in the above mentioned Letters, but under the circumstances stated by you, the Commissioner of Crown Lands will take upon himself to receive payments, in money and bonds, in the usual manner, for the various quantities of Timber you have applied for, which will authorize the parties to carry on their operations on what is clearly established to be *vacant Crown Land*. This however, they must be left to find out at their own risk, and they must carefully avoid entering upon any even doubtful tracts.

I remain, &c.

* MEMO.

* MEMO.—I beg leave to remark, that the River spoken of by Mr. Bouthillier, as "*Laburnum*," and not known to the Surveyor General, is the "*Cabineau*," a well known River, which empties into the Temiscouta Lake. The mistake originated with Mr. Kerr, in preparing the application from my Letter, and was afterwards pointed out and understood by the Surveyor General of Canada.

The applications 358 and 381, referred to, were the applications on the Saint Francis.

JAMES H. KERR, Esquire.

DEAR SIR,—Mr. Peniston's Letter, of 5th instant, is at hand, enclosing Receipt from the Crown Land Office in Canada, for £52 1 8; also, Bond to be executed for balance of Stumpage of 100,000 feet of White Pine.

The Receipt I have submitted to the Honorable the Surveyor General, with a request that he would inform me whether a Receipt of same kind for the balance will be sufficient for him to pass our Timber, without Stumpage from this Province.

The Surveyor General has submitted the question to His Excellency the Lieutenant Governor, and I cannot get an answer until after the next meeting of the Executive Council, which will be held on the 5th July.

Will you inform me whether, from the nature of your communication with your Government, you would consider yourself or me bound to execute the Bond to Canada.

SPAFFORD BARKER, Esquire.

DEAR SIR,—In reply to yours of the 16th instant, I am to inform you, that as you have received your Receipt from the Government of Lower Canada, for the Stumpage cut within the Territory which forms part of that Province, it is imperative you should immediately execute the Bond which I transmitted to you by direction of the Government here.

Both you and I are so compromised, that recourse will be had against us.

New Brunswick can have no claim upon the Territory; and if you have difficulties with the authorities there, I shall, on your informing me thereof, bring the matter under the notice of Sir Charles Metcalfe, for adjustment.

SIR,—I am directed by the Lieutenant Governor to inform you, that as the Boundary between the two Provinces has not yet been defined, and as under the circumstances the Governments of both have been withheld from granting Licences to applicants to cut Timber, the better course will be for the parties referred to in your Letter of the 10th instant, to make good their payments, or to leave in the hands of the Deputy a sufficient quantity of Timber to secure the amount of their Bonds.

The funds thus realized to be held to the Account of a separate fund, to be carried to the Credit of either Province within which the Lands are found to be situated when Surveyed.

Government House, Kingston, 1st August, 1843.*

SIR,—I have the honor to transmit a Copy of a Letter to the Commissioner of Crown Lands in this Province, from Mr. Kerr of Quebec, Agent of Messrs. Glazier and Barker of New Brunswick. From this it appears that the latter Gentlemen are called on by your Government to pay Stumpage dues already paid or secured to the Government of Canada, on account of Timber cut on Crown Lands said to belong to Canada, but supposing from the demand above noticed, to be also deemed as Territory of New Brunswick.

I trouble you on this subject in order to convey my request that Messrs. Glazier and Barker, and other parties in a similar position, may not be pressed for payment of dues, which they can shew to have been already paid to Canada, and I beg leave to add my assurance, that if the Lands in question be determined hereafter to be a part of New Brunswick, all sums unduly collected by Canada on Timber cut on such Lands, shall be refunded to New Brunswick.

I have nominated a Gentleman as Agent for Canada to mark out with one nominated on your part, the Boundary Line of Canada and New Brunswick. Where any difficulties exist they can report respectively for our mutual consideration.

I trust that the departure of the Gentleman appointed by me will not be much longer delayed.

I have the honor, &c.

Quebec, 22d July, 1843.

SIR,—Referring you to my several communications 358, 399, 618, 620, 10, 23, 48, 62, 103, all of them on the same subject, and relating to the Timber cut on part of what was heretofore called the "Disputed Territory," within the Province of Canada, by Messrs. Glazier and Barker, and to the fact that these Gentlemen having through me made payment to you of the usual quarter instalment, as also to their having at your desire transmitted to you their Bond duly executed, securing the remaining balance, I am now to state to you, by desire of my clients, that the Government of New Brunswick insists upon Messrs. Barker and Glazier either giving Bonds for the payment of the Stumpage, already paid and secured to you in your Office of Commissioner of Crown Lands for the Province of Canada, or delivering up a portion of the Timber cut by them, on the plea that the said Timber has been so cut within the Territory of New Brunswick, and not within that of Canada.

I trust that this matter will engage your immediate attention and interposition, for it is imperative that such a state of things should not be suffered to subsist, as that any party should be called upon to pay into the Treasury of New Brunswick those Duties which have accrued to and been already received by the Government of Canada.

I crave reference to the several replies of the Crown Land Department over which you preside, to my communications as numbered above, more particularly to that of Mr. Sancred Bouthillier, the Assistant Commissioner, of the 10th February last.

I would also very respectfully pray that you will be pleased to acknowledge the receipt of Messrs. Glazier and Barker's Bond, which I transmitted to you in mine, No. 103, of the 6th instant, if the same has reached you.

I have, &c.

*Copy Despatch from Sir William Colebrooke to Sir Charles Metcalfe, dated
Fredericton, N. B. 11th August, 1843.*

SIR,—I have had the honor to receive Your Excellency's letter of the 1st instant, enclosing one from the Agent of Messrs. Glazier and Barker of New Brunswick.

The

The application of these persons, that their Timber might be allowed to pass free of Duty, on the ground of Stumpage dues having already been paid or secured to the Government of Canada, was brought by me under consideration in Council, and it was decided, that, under the circumstances of the case, an admission of their claim would be a precedent for transactions in which the Regulations of this Government might be evaded to a great extent by other persons. According to these Regulations, the privilege of cutting Timber on the Crown Lands is not disposed of until Timber Berths have been surveyed, and their locality and limits duly ascertained;—the Timber cut on such Berths being duly inspected by the Surveyor before it is removed;—all cut in excess of the quantities for which Licences have been granted is subject to seizure, and released only on payment of double duties.

As the Boundary between the Province of Canada and New Brunswick had not been defined in that part of the Disputed Territory acquired by the Treaty of Washington, it was not considered advisable to grant the Licences which had been previously applied for by Messrs. Barker and Glazier, and other persons, at the Crown Land Office; and the same considerations may have induced the authorities in Canada to abstain from laying out Timber Berths within the undefined Territory.

In the present season numerous applications have again been made for such Licences, and much disappointment has been expressed by the parties, from the objection entertained by the Government, who have thus relinquished a considerable Revenue which would have accrued to the Province from Lands which it is considered will be found to belong to it.*

Your Excellency has requested that Messrs. Glazier and Barker, and other parties in a similar position, may not be pressed for payment of dues which they have already paid to Canada, on the assurance that the sum unduly paid to Canada on Timber cut on such Lands, would be refunded to New Brunswick. This request will be duly submitted to the Executive Council, with whom it devolves on me to consult in all questions relating to the administration of the Crown Revenues.

I may observe, however, that if parties can obtain in Canada permission to cut Timber on the undefined Territory, without defining the limits, and if this Government were to make the same concession, not only would conflicts unavoidably ensue, but the Provincial Laws for the protection of the Land Revenue would be extensively evaded.

On the other hand, no great inconvenience can result from the suspension of such Licences until the Boundary may be defined; when the Laws of Canada and New Brunswick will admit of being respectively enforced in such portions of the Territory as may appertain to them;—and from the quantities of Timber brought by the Americans to the Saint John Market, the price at present has been greatly reduced.

The Stumpage paid to Canada and New Brunswick would appear to be less than that which the Americans exact for the privilege of cutting within their Territory.

I have, &c.

SIR,—With reference to Your Excellency's letter of the 1st ultimo, I have the honor to inform you, that I have appointed the Honorable Thomas Baillie, Surveyor General, to proceed to the Frontier to meet the Commissioner appointed by Your Excellency, with the object of endeavouring to trace the Boundary between the two Provinces, as established by the Royal Proclamation, 1783, and the Act of Parliament, commonly called the Quebec Act.

Mr. Baillie, after completing his exploration, will return to Fredericton, and report to me the result of his observations.

The failure of former attempts to define the Boundary, leads me to apprehend that the present will be equally unsuccessful, and that it will devolve on Her Majesty's Government to establish such a Conventional Line as will be the best calculated for the interests of the two Provinces.

Referring to my letter of the 11th ultimo, having brought the subject of our correspondence under the consideration of the Executive Council, I now enclose an extract of their observations. I hope that their suggestion for the protection of the interests of Canada on the Timber that may prove to have been cut on the Territory of that Province, will be satisfactory to Your Excellency.

His Excellency the Right Honorable Sir C. T. Metcalfe, &c. &c. &c.

Extract from the Minutes of Council, New Brunswick, 26th August, 1843.

Having perused His Excellency the Governor General's Despatch of the 1st August, we must express our entire approbation of the seizure of Barker and Glazier's Timber, for the non-payment of Stumpage to the Government of this Province, as in our opinion, the right of Canada to the Territory off which that Timber was cut, cannot be sustained on any just or reasonable grounds.

It is much to be lamented that the Canadian Government has recently asserted any such right; as the Government of this Province, to avoid collisions, and with the expectation that Canada would adopt the same course, has refused to sell any Timber between the Madawaska and Saint Francis Rivers, while at this moment, numerous parties are proceeding to work in various quarters, on the Territory in question; some professing to have the authority of the Canadian Government, and others acting under no authority at all, but striving to secure a share of the plunder off what they now consider as neutral ground, belonging to neither Province.

Such a state of things ought not to be permitted by this Government, and prompt measures should be adopted at once to put a stop to such Trespasses, by exercising our accustomed jurisdiction, and seizing and prosecuting to condemnation all the Timber now being, or which hereafter through the Winter may be cut without legal authority.

It is proposed by the Governor General, that if the Land in question be determined to be a part of New Brunswick, all sums unduly collected by Canada, for Timber cut on such Lands, should be refunded to this Province; but as the Canadian Government is selling at 1s. 8d. per ton, subject to all the expenses of survey and inspection, which is less than the same Timber can be sold for here, we would suggest as a counter proposition; that until the question be settled, the sale and management of the Timber and Land be continued in the Government of this Province, and that one shilling per ton be guaranteed to Canada on all Timber brought from such parts of the Territory as may ultimately fall to that Province.

Should this proposition be acceded to, much expense and trouble would be saved to the Canadian Government; collisions between lumbering parties, and numerous frauds would be prevented; and the nett sum which would thus be secured to Canada, would be as great as could be realized by the exclusive control of that Province at the present

present rate of stumpage; while this Province, in the event of the Territory falling to Canada, would incur all the expense of inspection and management, and would be entitled to so much only as could be realized over and above one shilling per ton, and the expenses of supervision.

Fredericton, N. B., 13th October, 1843.

SIR,—Referring to my Letter of the 1st September last, I do myself the honor of enclosing to Your Excellency the Copy of a Report which I have this day received from Mr. Baillie, the Surveyor General of this Province, in pursuance of the Instructions under which he proceeded to the Frontier, with the object of endeavouring to trace the Boundary Line between the two Provinces.

The lateness of the season rendered it impracticable for Mr. Baillie to delay this operation in the expectation of being joined by a Commissioner from Canada, and it was desirable that his Report should be received on account of the importance attaching to the question in the estimation of the people of this Province, and the probability that the Assembly will address Her Majesty on the subject, in the ensuing Session of the Provincial Legislature.

Mr. Baillie's Report is accompanied by a Map to elucidate it.

Crown Land Office, Fredericton, 13th October, 1843.

SIR,—Having been informed by Mr. Secretary Odell's Letter of the 2nd of September last, that His Excellency the Governor General, Sir Charles Metcalfe, had appointed a Commissioner to trace the Boundary between this Province and Canada, and Your Excellency having directed me, as Commissioner on the part of New Brunswick on the same, to proceed to the Frontier, to put myself in communication with the Canadian Commissioner—

I have the honor to Report, that in obedience to your commands, I left Fredericton on the 5th September last, and reached Madawaska on the 9th. On the 11th I passed onwards to the River St. Francis, and returned from thence to Madawaska on the 13th.

On the 13th I pushed on to the Portage from the Temiscouta Lake to Canada, which I reached on the 16th; I remained at that spot until the 29th, when I proceeded to the River St. Francis where it is crossed by the said Portage Road.

Not having met with any Commissioner from Canada during the whole of the above period, I prepared to make about that tract of Country such observations as would enable me to comply with Your Excellency's instructions, by "ascertaining whether it was practicable to define the Boundary between the Provinces, and in that case, to delineate it."

With that view also I proceeded by way of the Grand River and Restigouche to the Bay de Chaleurs, and Your Excellency having directed my attention to the Royal Proclamation of 1763, the Act of Parliament of the 14th Geo. 3rd, Ch. 83, commonly called the Quebec Act; as also to Boundaries of the two Provinces as described in the Commission of Lord Dorchester; I had reference to these several Documents, and found, that by the Act of Parliament the Province of Quebec was "bounded on the south by a line from the Bay Chaleur along the Highlands which divide the Rivers that empty themselves into the River Saint Lawrence from those that fall into the Sea."

In order to survey and mark the above Line on the face of the Country, it became necessary to discover some definite point as a starting place; and on reference to the

Boundary of this Province, as extracted from Lord Dorchester's Commission as Captain General and Governor in Chief of the Province, I found the following words:—

“ Bounded on the westward by the mouth of the River Saint Croix, by the said River to its source, and by a line drawn due north from thence to the southern Boundary of the Province of Quebec; to the northward by the said Boundary, as far as the western extremity of the Bay des Chaleurs.”

Here then we find that at the western extremity of the Bay des Chaleurs, the line which divides the Rivers as described in the Quebec Act must terminate, if run from the reverse end of the Boundary; and also become the starting point, if the line is to be run from the Bay des Chaleurs.

It was therefore my object to discover what point constituted the *western extremity*, and I was glad to find that nature had so strongly marked the spot, as in my humble opinion to leave no opening for discussion or difficulty.

It is situated at High Water Mark, a little to the eastward of Mission Point, on the north side of the Bay des Chaleurs, about a mile above Campbelltown, which is on the south side of the same Bay.

From this point the line would run about north until it strikes the highlands described in the Quebec Act; thence following those highlands, which can be easily traced, till it terminates at the Boundary Line now about to be run, agreeably to the Treaty of Washington, near the sources of the St. John River.

In order to elucidate the above, I have prepared the accompanying sketch of the Country through which the line will run, agreeably to the Act of Parliament and the other Documents bearing on the subject.

It is hardly necessary for me to state to Your Excellency that if the “Atlantic Ocean” is substituted for the “Sea” as the receiver of the Rivers which do not flow into the River St. Lawrence, and that it is to be accepted in its literal sense, no such line can be found in these Provinces, but the Boundary as described by me is as capable of being discovered and marked out, as any definite line on the face of the earth, and it no doubt legally constitutes the Boundary between Canada and this Province.

As the Commissioner from Canada did not appear, it was not within the line of my duty to proceed with the exploration and survey of the Boundary, but I can at any future period attend to that service should Your Excellency require it to be done. I beg further to report to Your Excellency, that throughout the whole of my Tour in the upper part of the River St. John, I found the Inhabitants desirous of remaining under the Government and Laws of New Brunswick, and I was informed by a Magistrate of the County of Carleton, who resides at Madawaska, that a Petition to that effect was being prepared, and will no doubt shortly reach Your Excellency.

I have made this hasty Report to Your Excellency, agreeably to your wishes, but it contains the essence of what might be written on the subject, and should Your Excellency require any further information, it will afford me much pleasure to be able to render it.

All which is respectfully submitted.

Report of a Committee of the Executive Council:
Present—The Honorable Mr. Sullivan in the Chair;
Mr. Dunn, Mr. Daley, Mr. Hincks, Mr. La Fontaine,
Mr. Baldwin, Mr. Aylmir, and Mr. Morin; on cer-
tain Despatches from the Lieutenant Governor of
New Brunswick.

MAY IT PLEASE YOUR EXCELLENCY,

The Committee of the Executive Council, in obedience to Your Excellency's commands, have taken in consideration—First, the Letter addressed to Your Excellency by Sir W. M. G. Colebrooke, dated Fredericton, 11th August, 1843;—Second, the Letter also addressed to Your Excellency by Sir W. M. G. Colebrooke, dated Fredericton, 1st September, 1843;—Third, the copy of a Minute of the Executive Council of New Brunswick, accompanying the last mentioned Letter.

The Committee find in a Report of the Executive Council of this Province, dated 27th July, 1843, and approved by Your Excellency on the day following:—"The Commissioner of Crown Lands sets forth, secondly, the necessity for exploration in that portion of Canada lying west of the Temiscouta Portage Road, and the Lake and River Temiscouta, towards the River Saint Francis and Saint Johns, and the respective limits of New Brunswick, and of the United States of America, under the late Treaty. The Committee are of opinion, that the course of exploration recommended by the Commissioner should be adopted, and that he be authorized to issue Timber Licences on the said Territory, taking care that until the respective Boundaries of Canada and New Brunswick be settled and surveyed, no unnecessary interference with the authorities of the latter Province be allowed, and that in case of any unforeseen difficulty, the matter be immediately reported to Your Excellency, so that no misunderstanding may arise between the two Provincial Governments."

The Committee beg leave to assure Your Excellency, that in alluding to the necessity of avoiding any collision with the authorities of New Brunswick, they were not led by the belief that under any circumstances whatever, that portion of Territory could be found or declared to belong to the Province of New Brunswick, but by the fact, that as all Timber manufactured in those parts must be brought down to the shipping Ports, through the waters of New Brunswick, it is of course in the power of the authorities of that Province to defeat that trade, as far as Canada is concerned, by dealing with that Timber as if it had been surreptitiously cut on their own Territory. Such a course would be highly injurious to the trade, and to the interests of New Brunswick and Canada; that the Executive Council have every reason to believe that it will not be adopted, but that the proposals hereinafter contained, which are mainly grounded upon the proposals on the part of New Brunswick, contained in the communications above recited, will meet with the concurrence and approbation of the Government of New Brunswick, as a means of preserving peace and harmony with this Government, until the Provincial Commissioners, who are shortly to meet, shall have agreed upon a fixed Boundary Line, or until the matter is decided by the paramount authority of the Imperial Government.

The Committee understand, that Messrs. Barker and Glazier were not allowed to ship their Timber without paying the dues required in New Brunswick for Stumpage, although they had paid the whole of those dues, as customary, in Canada. Mr. James Tibbits, who had also paid here one fourth of the dues, and given Bond for the remainder, upon a certain quantity of Timber cut in the same way, alleges that he has been obliged to pay dues in New Brunswick, and that at the same rate as upon Timber cut without licence, although in the previous correspondence from Your Excellency with the authorities of New Brunswick, his case was mentioned, as well as that of Messrs. Barker and Glazier.

It is very questionable whether the Timber Trade can go on in those parts, if the Lumberers are to pay double dues, and take licences at the same time in New Brunswick and in Canada. Hence an obvious course is pointed out, viz: a temporary arrangement between both Provinces. That was no doubt the object of the late communication

communication from New Brunswick, and in the present instance the Committee are ready to further such an arrangement in the same spirit of conciliation. To prevent an objection to accede to it on the part of New Brunswick, upon the ground that the course intended might contain an admission on their part against their claims, the Committee are ready to record here, that nothing done in the present emergency, and in view of a temporary amicable arrangement, shall be construed on either part as part of the reasons upon which those claims may be more or less favorably viewed. With this understanding, the Committee entertain every hope that the arrangement may be effected.

The proposal not to grant any licences, but to leave the whole of that Territory furthermore open to pillage, as made on the part of New Brunswick, appears highly objectionable, the more so, that a large number of persons are known to have invaded that Territory for lumbering purposes, and that a still larger number will do the like during the next season. Independent of the waste of Timber when so cut at random, and without any authorized supervision, there would arise collisions which could not be repressed, and which would bring at issue in a much more unfavorable way, the very question of limits which is now pending.

The Committee therefore see nothing in the late correspondence from New Brunswick, to prevent the sale of licences, which was to take place on the 10th instant, in the Office of Commissioner of Crown Lands, but they, on the contrary, are of opinion, that the sale ought to take place, subject to the limitations contained in this Minute. The sale has been advertised sufficiently, and even persons from New Brunswick who had heretofore applied, have been notified of it. The fact that a number of persons from New Brunswick might have expected, as alleged in the communications above mentioned, to go there and make Timber without any licence, is not a sufficient reason to stop that sale, and throw the country open to pillage and to collision.

The sales of licences are to be limited at present to those portions of the Territory lying west of the Madawaska River, and there remains enough east of the same River of the Territory contested between New Brunswick and this Province, to allow ample field to Lumberers from New Brunswick, who may be left to carry their operations there on the trespassing system.

Under the present proposed arrangements, persons having taken licences at the same sales, will be considered as entitled to equal and conjoint protection on the part of New Brunswick and Canada, and the supervision in the Timber Berths ought to be considered as exercised conjointly on the part of both Provinces, the Surveyor's Agent, and others who may go there, on either part, being required to act in concert. The holders of the licences will have to be required strictly to confine themselves to the quantity mentioned in their licences, one fourth of the dues having been paid here to secure the fulfilment of the contract, and Bonds being taken for the rest, those Bonds, if the arrangements are acceded to, would be payable in New Brunswick at the Canadian rates, the proceeds to be dealt with as will just now be mentioned. As to the Timber cut on that portion of the Territory over the quantities mentioned in the licences, or without licences altogether, if it cannot be prevented, the authorities of New Brunswick may take the dues at their increased rates; the amount to be also apportioned as will now be mentioned.

The arrangement to be for the present season only. The one fourth paid here to belong to Canada as a compensation for the issuing of the licences and for the exploration which is ordered to take place, and for the share of Canada in the supervision next Winter, as may be agreed upon in a further correspondence. Of the three fourths remaining, one fourth to belong to New Brunswick as a compensation for the collection, and for their share in the supervision. The other half when collected to remain in the hands of New Brunswick, until the 1st day of January, 1845, unless the question of boundaries is sooner finally decided, upon which date, one half thereof, being one fourth of the whole, to be provisionally paid to Canada, and the other equal half of the one half to remain provisionally in the hands of New Brunswick, but the whole of the undistributed half to remain in abeyance until the question is decided, and then finally to go to either Province, as the Territory shall be found to belong to the one or the other. The dues collected on quantities of Timber over and above the licences, or cut without authority, to be divided in the same manner, viz: one fourth

to Canada, and one fourth to New Brunswick, for their respective expenses of management and collection, and the remaining half to be divided, subject to the final decision as above mentioned. Each Province to furnish to the other from time to time all statements connected with the matter, and Canada to send to New Brunswick a plan shewing the temporary division into Timber Berths, and a statement of the Licences given, and of the quantity of Timber contained in each Licence. The Committee earnestly hope that this proposal will meet with approbation on the part of the authorities in New Brunswick. In the bare possibility of a contrary result, the Commissioner of Crown Lands will see that the bidders for Licences be well informed how the facts stand, so that no unforeseen difficulty or claim may be hereafter raised.

The Committee will not dismiss the question of the Boundary Line, but a simple glance at any Map will show how conciliating is the policy recommended in the present instance. The boundaries of New Brunswick, both to the North and to the West are well defined, being on one side the River Restigouche, and on the other the line between the British possessions and the United States of America. It is evident that those limits must be completed at the north west angle, either by a prolongation of the line due North of the Treaty of Washington, until it intersects the River Restigouche, as put on Mr. Bouchette's Map, or by a continuation westward of the line of the Restigouche River, until it strikes the River Saint John's; any conventional line under Imperial sanction to connect the two above points, which are by no means very distant, cannot be made to widen again into a circle so as to comprehend an immense district totally disconnected with New Brunswick.

The rights of New Brunswick upon Timber coming from that Territory amount only to its being transported to the Sea on the New Brunswick waters, but the same may be said as well of Timber coming from the parts belonging to the United States under the Treaty of Washington. The Committee would respectfully recommend that no time be lost in sending to the frontier the Commissioner who is to meet the Honorable Mr. Baillie. Should nothing beyond a more ample discussion result from that conference, the authority of the Empire will have to be appealed to.

The Committee cannot close this Minute without again expressing their hopes that the provisional arrangements herein contained will prove satisfactory to New Brunswick, they being founded both on a principle of justice, and of non-committal.

All which is respectfully submitted.

SIR,—I have had the honor to receive Your Excellency's letter of the 26th October, transmitting and recommending to my consideration, a copy of the Report of the Committee of the Executive Council of Canada, relating to the Duties on Timber cut on the Lands, the appropriation of which is at present in question.

Having submitted this document for the consideration of the Executive Council of this Province, I now enclose to Your Excellency the copy of a Report of the Council

on the same subject, from which you will perceive that this Government are precluded from acquiescing in the views recommended in the Canadian Report.

Report of the Committee of the Executive Council on the subject of the provisional management of the Territory in dispute between the two Provinces of Canada and New Brunswick.

MAY IT PLEASE YOUR EXCELLENCY,—

Having attentively perused and considered the Report of the Executive Council of Canada, together with other documents submitted to us, we must express our regret that we are unable to acquiesce in the view taken by them, of the arrangement for the provisional management of the Territory now in dispute between the two Provinces, on our North Western Frontier.

The Report under consideration being professedly addressed in answer to our Minute of September last, we are sorry to find that our proposition, as therein contained, has been entirely misunderstood by the Canadian Council, and we therefore feel it our duty to submit such observations as we think are called for by the importance of the question at issue between the two Governments.

Our Minute unequivocally asserted our right to the Territory in question, on the ground of which we had recommended the seizure of Barker and Glazier's Timber.

The Canadian Council, in asserting their claim, considered it very questionable whether the Timber Trade can go on in those parts if the lumberers are to pay double dues and take licences at the same time in New Brunswick and Canada. Assuredly these consequences are to be deprecated, and there can be no doubt that in such a state of things the parties will have their remedy against the one or the other Government assuming the right to sell.

If Canada possesses this right, we can have no authority whatever to exact Stumpage; but if that right be wanting, the sale by Canada, at whatever price, can give the purchaser no better title than if he had cut without any authority at all, nor could the Government be justified in relinquishing its accustomed jurisdiction over the Territory.

On the Report of their Executive Council of the 27th July last, "the Commissioner of Crown Lands was authorized to issue Timber Licences on the said Territory, taking care that until the respective Boundaries of Canada and New Brunswick be settled and surveyed, no unnecessary interference with the authorities of the latter Province be allowed; and that in case of any unforeseen difficulty, the matter be immediately reported to His Excellency the Governor General, so that no misunderstanding may arise between the two Provincial Governments."

At the date of that Report, the difficulty in which Barker and Glazier had become involved, was known to the Commissioner of Crown Lands in Canada, as appears from a copy of Mr. Kerr's letter, dated at Quebec on the 22d July, informing the Commissioner of the seizure of their Timber; but in alluding to the necessity of avoiding any collision with our authorities, which, under their licences, had thus already occurred, the Canadian Council now state that they are influenced by the fact, that as all Timber manufactured in those parts must be brought down to the Shipping Ports through the Waters of New Brunswick, it is in the power of the authorities of that Province to defeat that trade, as far as Canada is concerned, by dealing with that Timber as if it had been surreptitiously cut on their own Territory. Now while we give to that part of the July Report, a construction exclusively applicable to the occupation and control of the Territory in question by the authorities in this Province, we feel that the observation that we could deal with Canadian Timber as if it had been cut surreptitiously on our own Territory, is inapplicable to any proceedings of the Government in this case.

The second paragraph of our Minute expressed regret at the assertion of the right of Canada to the Territory in question, and stated that the Government of this Province, to avoid collisions, and hoping Canada would adopt the same course, had refused,

refused, pending the dispute, to sell any Timber between the Madawaska and Saint Francis Rivers, and then stated the fact of numerous parties being at work upon the ground, some professing to have the authority of Canada, and others having no authority at all, observing that such a state of things should not be permitted, and that prompt measures should be adopted to put a stop to trespasses, by exercising our accustomed jurisdiction and seizing and prosecuting to condemnation all the Timber then being or which might thereafter be cut without legal authority. The course of proceeding here indicated, cannot surely with justice be considered as a proposal to leave the whole of the Territory open to pillage and collision; and we are satisfied that no part of the correspondence of the Government can have such a construction. The fact is well known, that during the dispute with America, so far as depended on this Government, we effectually prevented the pillage of the Timber on the Territory then contested, and the same restrictions are now applicable to that part of our Territory claimed by Canada. It was not proposed as a reason for the suspension of the sales that a number of persons from this Province intended to go and cut Timber without licence; but while deferring to ourselves the realization of a large Revenue, by refusing at that time to sell any Timber on the Territory in question, we did so from the single motive of avoiding a collision with the Canadian Government, and with a determination, in the event of a suspension of sale on the part of Canada, to prevent trespasses on the Land in question, as we had done on the Territory formerly in dispute between this Province and Maine, either by destroying the Timber upon the ground where it might be made, or by seizing and prosecuting the same to condemnation in our Court of Vice Admiralty; and if the course now adopted by Canada, of issuing licences to cut Timber under the doubt existing as to their title, should expose their licences to double exaction, and ultimately subject that Government to a large amount of indemnities, we must feel absolved from all responsibility for these consequences.

We had applications for Timber, and refused them in the first instance, the Country not having been surveyed; but without such necessary surveys the Commissioner of Crown Lands of Canada gave a Licence to Glazier and Barker to cut over the Territory north of the Saint John, embracing several hundreds of square miles, and extending from the Great Falls to the River Saint Francis.

Then again on the 17th May last, their Commissioner published the following advertisement in the Quebec Gazette:—"For the Territory S. E. of the Temiscouta Portage Road, and on the different branches of the River Saint Francis and adjoining Districts, no regular Licences can be given at present, but persons desirous of applying for such, will have to correspond with this Office until that Territory has been regularly explored and placed under the control of a Local Agent."—Notwithstanding this advertisement, and other acts of interference on the part of Canada, we could still have received applications and sold to a large amount, but would not do so until the conflicting claims were adjusted.

Confident in the justice as well as in the legality of our title, we have been alone anxious to take a position at once honorable and prudential, and secure of our ultimate rights, to do nothing intermediately which would bring us into direct collision upon the Territory with the Canadian Authorities: anticipating a corresponding abstinence on their part. The seizure of Barker and Glazier's Timber by our Government, induced the proposition of the Governor General of the 1st August, that if the Lands in question be determined hereafter to be a part of New Brunswick, all sums unduly collected by Canada, on Timber cut on such Lands, shall be refunded to New Brunswick; and it was in answer to this proposal of His Excellency that our Minute of September was submitted.

If it be asked why we did not accede to a proposal *apparently* so just, we answer—

1.—Because the tonnage demanded by Canada was far less than we could have obtained, theirs being 1s. 8d. per ton as a fixed rate, while we were certain of obtaining from 3s. to 5s. per ton at auction.

2.—Because we knew from the facilities which the Lumberers had of escaping detection by the Canadian Officers as to the quantities cut, that even their small duty would not be collected on a large proportion of the Timber; and

3dly.—Which in itself was conclusive, because we had no power thus to compromise the rights of this Province. Assured of our title to the Territory, we were bound to

to observe the terms and provisions of the Civil List Act in the disposal of the Timber thereon, and we could not therefore have constituted the Canadian Government our *Agents* to sell under their Laws. If Canada alone were entitled, they required no authority from us ; if we were the rightful proprietors, we could not delegate our control and authority to them.

For these cogent reasons we could not recommend a compliance with the Governor General's proposal, and therefore made the counter proposition contained in our Minute of September last, to continue the management of the Territory in ourselves, and guarantee to Canada 1s. per ton on all Timber brought from such parts of the Territory as might ultimately fall to that Province, and defray ourselves all the expenses of management and supervision.

In reply to that Minute, we have in the Report before us a proposal of conjoint protection and management, to which we are unable to accede, with a scale of participation in the proceeds at the Canadian rates,—and to continue for the present Season only.

They propose one fourth of their rate to each Province, “for their respective expenses of management and collection,” the remaining half to be held provisionally, in equal portions, by the two Provinces, until the question should be finally settled.

In this way the successful Province would be allowed only 10d. per ton, over and above the expenses, while in our Minute of September it was proposed to guarantee 1s. per ton to Canada clear of all expenses.

If no other objection presented itself to this scheme of conjoint management, it would be enough that it is limited to the present Season, which would have the effect of exonerating the Canadian Licences from any additional liability to this Province, and of securing our agency in realising the proceeds of future sales. We observe in the Report under consideration, that the Commissioner of Crown Lands is required to see that the bidders for Licences be well “informed how the facts stand, so that no unforeseen difficulty or claim be hereafter raised ;” but we would submit, that the equitable claims of the parties to indemnification would hardly be affected by such a declaration ; and if these instructions have been carried out by their Commissioner, we shall feel ourselves entirely relieved from all imputation of hardship which might hereafter be cast upon this Government, in consequence of a rigid enforcement of our Laws against the Canadian Licences.

As to the question of the Boundary ;—it may be sufficient at present to refer to Reports of the Surveyor General, based upon the Quebec Act, as to the definition of their Southern Boundary, it being manifest that this alone can be a question between the two Provinces.

In conclusion, we would recommend, that all parties now Lumbering on the Territory in dispute, be apprised that they must either come forward to make satisfactory arrangements with the Government of this Province, within a time to be limited for that purpose, or that their Timber will be seized in the Spring.

While this state of things is on every account to be lamented, it must be evident that it is in no wise attributable to this Government, for if Canada had abstained from selling until the question of Boundary had been settled, the Territory could and would have been protected from depredation by the Government of New Brunswick ; and we can only regret (as a different course has been pursued) the difficulties in which the two Provinces are likely to be involved, but which cannot absolve the Government from the responsibility in the due execution of its trust, and the enforcement of the Provincial Laws.

SIR,—I have the honor to enclose copies of a Correspondence which I have held with Mr. A. Wells, who has communicated to me the instructions under which he has visited this Province.

The

The Surveyor General's instructions were necessarily limited to the object of tracing, if possible, the Boundary between the two Provinces, in concert with the Canadian Commissioner, and although the local Government has no authority to deviate from the Line of separation, as recognized by the Quebec Act and the Royal Commission, I have not hesitated unreservedly to afford Mr. Wells such information as may be calculated to reconcile the views of the two Governments, and to promote a settlement of the question.

Albion Hotel, Fredericton, 13th December, 1843.

SIR,—Your Report, as Commissioner appointed on behalf of New Brunswick, for the purpose of endeavouring to trace the Boundary Line between Canada and New Brunswick, having been concluded, and delivered to His Excellency the Lieutenant Governor, previous to the date of my instructions for the same purpose on behalf of Canada, I have not felt myself at liberty since arriving here, to address you officially on the subject, with the object of now attempting to arrive at any common conclusion for the settlement of the question actually pending.

The views I am compelled to entertain respecting the proper construction and local application of the language used in the descriptions of the Boundaries or Territorial Limits of these Provinces, differ so widely from those expressed in your Report, and represented on the Map. accompanying it, that I can imagine no possibility of our arranging the question definitively, by virtue of any powers which could be delegated to us; and from your observation in verbal communications between us, that you considered your mission on this subject to have terminated, I presume I am not mistaken in supposing that such is your opinion also.

At the same time I would beg to assure you of my strong desire to promote a speedy settlement of the question, by ascertaining, as far as possible, on what points the views on behalf of the two Provinces respectively differ, and on which they agree; and I should always feel happy to avail myself of any suggestion from you, by which that object, equally to be desired by all the parties concerned, could be facilitated or more effectually accomplished.

I leave for the Restigouche, and other parts adjoining the unsettled Boundaries to-morrow, but any Communications sent to my address through the Post Office, will always reach me.

The Hon. Thos. Baillie, &c. &c. &c.

Fredericton, 13th December, 1843.

SIR,—I have the honor to acknowledge the receipt of your communication of this evening, stating that a letter addressed by me to the Honorable Thomas Baillie, had been placed in the hands of His Excellency the Lieutenant Governor, and informing me of the views which His Excellency had taken of the subject of its contents.

In relation to the expressions contained in your communication, that you were directed to express the Lieutenant Governor's regret that he should have received no earlier official intimation of the object of my mission, I must be allowed to remark,

F*

that

that a reference to my letter above mentioned, will show that I did not feel myself authorized to make any such official communication ; but on the contrary, in the same letter, I disclaimed having any intention of then doing so.

Mr. Baillie, as Commissioner for New Brunswick, having made his Report before my arrival in this Province, I could not, of course, request him to go over with his operations again, nor invite him to re-consider or rescind opinions however at variance they might be with my own, which were already embodied in that Report, and communicated to me subsequently to the date of my instructions.

The only alternative left me in the strict line of official duty, was that of acquiring such information as would enable me to form correct conclusions on the questions pending, and then to return to Canada and make a Report of the result for the information of His Excellency the Governor General.

I, however, deemed it right and proper to wait upon the Commissioner for New Brunswick personally, before proceeding to execute that part of my duty, as doing so, would place us in such mutual relations as would still enable him to co-operate with me should he feel himself authorized or see fit to extend his previous proceedings in that capacity.

I accordingly did wait upon Mr. Baillie at his office the morning of my arrival in Fredericton, and was informed by him at our first interview, that he considered his duties in relation to the Boundary to have terminated.

This was indeed the only conclusion he could have been expected to adopt under the actual circumstances in which the question was placed ; and of course it precluded the supposition that I could then request him to proceed in any further investigation of the question, however desirous I might be of having him act conjointly with me, should any suggestion to that effect have been made by himself.

It is a subject of much regret to me, that my letter to Mr. Baillie, in which I merely adverted to the understood and existing state of our relations on this subject, and renewed the assurance of my readiness to avail myself of any communications he might hereafter feel disposed to make for facilitating the common objects of the Commission, should have been placed before His Excellency the Lieutenant Governor as the official and first intimation of the object of my mission.

With the object of rendering this explanation as clear and explicit as possible, I now have the honor to enclose for His Excellency's perusal a copy of the letter of the Honorable D. Daly, Secretary of the Province of Canada, conveying to me the instructions of His Excellency the Governor General in regard to my present duties.

I shall be happy to comply with His Excellency the Lieutenant Governor's wish, by deferring the time of my departure, and will do myself the honor to wait upon His Excellency at any time he may be pleased to appoint.

SIR,—I am commanded by the Governor General to inform you that His Excellency is pleased to appoint you to be Commissioner on behalf of the Province of Canada, to meet the Honorable Thomas Baillie, Surveyor General of New Brunswick, who has been named Commissioner for that Province, with the object of endeavoring to trace the Boundary Line between Canada and New Brunswick.

You will be pleased to lose no time in repairing to the frontier and placing yourself there in communication with that Gentleman on the subject ; and after completing such explorations as you may be able to agree to make conjointly, and other explorations which you may judge it to be for the advantage of this Province that you should make by yourself, you will return to this place to make your report of the result of your observations for the information of His Excellency.

I am to enclose for your perusal, the accompanying copy of the confidential Despatch of Sir George Murray, of the 8th April, 1830, relative to the claims of the two Provinces to jurisdiction within the Territory in dispute ; and also, a paper by Mr. Bouchette, in support of the claims of Canada to the Territory, and a copy of so much
of

of a Report made to Sir William Colebrooke by Mr. Wilkinson, Deputy Surveyor General of Crown Lands in New Brunswick, as embodies his arguments in favor of the claims of that Province.

You will consider it to be a main object of your mission to ascertain on what points the views in behalf of the two Provinces respectively differ, and on what points they agree, so as to promote as far as possible a settlement of the question.

Downing Street, 8th April, 1830.

SIR,—With reference to my Despatch of the 7th instant, "Confidential," transmitting the first statement on the part of Great Britain of the disputed points under the fifth Article of the Treaty of Ghent, I have now the honor to acquaint you that in order that our conduct may be consistent with our arguments, it is necessary that the Province of Lower Canada should continue without interruption to exercise actual jurisdiction over the Fief of Madawaska.

This Fief covers the whole of the Temiscouta Lake and nine miles in length down the River Madawaska, which issues from that Lake. The Province of New Brunswick, as proved on the trial of John Baker, exercises actual jurisdiction over the Madawaska Settlement, but this Settlement extends along the Main River Saint John, both above and below the confluence of the Madawaska River; and no jurisdiction appears *de facto* to have been exercised by New Brunswick on the Madawaska River, above its mouth, where a Grant of Land was made by the Government of that Province to Simon Hebert in 1825. Under these circumstances, therefore, it is advisable for the Government of Lower Canada to maintain and exercise its jurisdiction over the Lake Temiscouta and the River Madawaska, quite down to the aforesaid grant to Simon Hebert, at its mouth, which will include the whole "Fief of Madawaska;" and the Government of New Brunswick to maintain and exercise its jurisdiction as heretofore in other parts of the Disputed Territory, including the Madawaska Settlement on the Main River Saint John, but not to extend it up the River Madawaska.

I have communicated corresponding instructions to Lieutenant General Sir James Kempt, the Governor of Canada.

Extract of a Despatch from Sir William Colebrooke to Lord Stanley, dated

[No. 112.]

Fredericton, N. B., 14th November, 1843.

MY LORD,—I have the honor to enclose to your Lordship the copy of a Letter received from Sir Charles Metcalfe, with a Report of the Committee of the Executive Council of Canada, and copy of my reply, with a Report of the Committee of the Executive Council of this Province.

I regret that it is impracticable to reconcile the views of the two Provincial Governments; but as a decided opinion is here entertained, that Canada possesses no claim whatever to any Territory South of her Southern Boundary, as defined in the Quebec Act, by the range of Hills extending Westward from the Head of the Bay of Chaleur; and there being in fact no other line of Hills Northward of the Saint John, or which could by any possibility constitute her Southern Boundary, the intermediate Territory in question, which was claimed by the Americans, necessarily reverted to this Province when that claim was relinquished by the Treaty of Washington.

As Canada had asserted an undefined claim to the Territory North of the Saint John, and as any Timber cut on it could not be removed from the jurisdiction of this Province, it was not considered necessary to anticipate the final settlement of the question
by

by disposing of Licences to the Lumberers; but in observing this moderation it was nevertheless deemed to be incumbent on the Government to protect the interests of the Province, where 60,000 Tons of Timber were expected to be cut during the Season, and sent down the Saint John in the next Spring.

Government House, Kingston, 2d February, 1844.

SIR,—I have the honor to transmit to your Excellency, for your information, the accompanying copy of a communication, with the documents referred to therein, which I have received from the Officer in charge of the Crown Land Department of this Province, containing information relative to permission granted by my orders to certain parties to cut Timber North of the Saint John and West of the Saint Francis River.

I have the honor, &c.
(Signed) C. METCALFE.

His Excellency the Lieutenant Governor of New Brunswick.

Crown Land Department, Kingston, 1st February, 1844.

SIR,—I have the honor to transmit herewith, various documents connected with the Public Sale of Licences to cut Timber on the vacant Crown Lands of this Province, North of the Saint John and West of the Saint Francis Rivers, effected in this Office on the 10th April last, viz:

No. 1.—List of Purchasers of Timber Licences, shewing the quantities purchased, and amount paid by each on the same.

No. 2.—Map of the Territory on the Saint John and Saint Francis Rivers, laid out in Timber Berths, exhibiting the names of the parties to whom each Berth has been designed.

No. 3.—Copies of Conditions of Sale, signed by all the parties who have been authorized to cut Timber.

No. 4.—Copy of Letter of authority granted to Purchasers.

No. 5.—Copies of various private agreements between Purchasers, entered into with the consent and approval of the Commissioner.

In consequence of the conflicting pretensions of the Province of New Brunswick to the Territory in Question, no regular Licences were granted on the above stated occasion; but parties were allowed to bid for the Berths and quantities of Timber they required, and made to pay for one fourth of the same at the time of Sale, on the express condition, however, that in case of difficulty, they would comply with whatever might be required of them by the New Brunswick authorities on the passage of the Timber down the River Saint John, and that under no circumstances whatever they would be entitled to claim from this Province any thing more than their actual deposit.

These terms were adopted under an expectation that the Government of New Brunswick would accede to a proposition made or intended to be made to them, that they would assume the collection of the remaining three fourths of the dues on the passage of the Timber down the Saint John, and after deducting a reasonable charge for that service, retain the balance in their hands to be paid over to the party who would be considered entitled to it on a final settlement of the question of Boundaries.

It was intended from the first to furnish New Brunswick with copies of Licences granted and other particulars of the sale, and some of the parties interested having lately complained to this Office of threats of molestation on the part of New Brunswick, I would beg leave to suggest that the enclosed documents be forwarded to that Government with as little delay as possible, with such explanations as it may be deemed necessary to add.

I have, &c.
(Signed) T. BOUTHILLIER.

The Berths are to be taken as described on the Map, the purchasers running the risk of all deviations from the lines laid down, should the face of the Country differ from the Map. They will also have to submit to any restrictions or limitations in their boundaries which may be found necessary by the Department, in order to apportion the Territory equitably among the different parties according to the extent of their purchases.

Whenever disputes arise as to limits, the party conceiving himself encroached upon, will notify the other of the fact, and apply to the Department for protection. If found necessary to send a Surveyor, the expense thereof will be charged either to the one of the parties or to both of them equally, as the Office may see fit. The Timber cut to be liable for the reimbursement of all expenses incurred, in addition to the regular dues.

In all cases of dispute the parties to submit to the decision of the Department.

All Licences will expire on the 1st May next, and all rights and privileges acquired under them will cease on that day.

Licences are not to be transferable either directly or indirectly, under pain of cancellation and forfeiture of Timber.

No written Licence will be given at present, but purchasers after they have paid down their Deposits and given the Bonds required, will be suffered to commence their operations, and during the Winter they shall be furnished with the necessary documents, provided they shall have strictly conformed to the present conditions.

Parties encroaching upon their neighbours' limits, or creating any other difficulty, in addition to forfeiture, will be refused all protection, and be made subject to the payment of whatever dues may be exacted by the New Brunswick authorities, which shall not be less than 4s. per Ton.

All Timber cut over and above the amount applied for, will be liable to the payment of double Duties, and subject the party so cutting to forfeiture of Licence.

It must be understood that holders of Licences must submit to whatever may be required of them by the New Brunswick authorities on the passage of the Timber down. In the event of any difficulties between the two Provinces, they shall in no case be entitled to claim from this Government any thing more than the amount of their deposits.

The Bonds will be made payable either in Canada or New Brunswick, at the option of Government.

Right of charging by the Log or Square Foot reserved.

The amount of Timber cut will be calculated by actual measurement, or by the average adopted on the Ottawa River, at the option of the Government.

Purchasers will furnish to the Government returns of the quantities and qualities cut, sworn to by their Foreman or principal man, and by themselves, if required.

PROVINCIAL LUNATIC ASYLUM.

Report from Doctor Peters, Medical Superintendent of Lunatic Asylum.

MAY IT PLEASE YOUR EXCELLENCY,

It becomes my duty as Medical Superintendent of the Provincial Lunatic Asylum, to make a Report to Your Excellency, for the information of Your Excellency and the Legislature, of the number of cases which have been admitted into the Asylum during the last year, with the result of the Treatment adopted; and I am happy to have it in my power to shew that this Institution, though exceedingly limited in the means for the proper treatment of the Insane, will bear no mean comparison with others more highly favored.

On the 31st December, 1842, there remained in the Asylum—

Males,.....	29
Females,.....	23—52

Admitted in 1843,—

Males,.....	29
Females,.....	18
	—47

Remaining at 31st December, 1842,.....	52
--	----

Total in the Asylum in 1843,.....	99
-----------------------------------	----

Of these 99—39 were recent cases, and 60 were old cases. By recent cases, I mean cases in which the Insanity had not been of more than six months standing previously to their being admitted into the Asylum. The following Table will shew the result of the Treatment :—

Classification of Cases.	How Dismissed.				State of the remaining.		Total of the several Classifications.
	Cured.	Much improved.	Died.	Escaped.	Improved.	Continuing the same.	
Maniacs,	29	3	2	3	23	7	67
Maniacs Furious,.....	7	1	2	0	6	7	23
Melancholics,.....	1	0	0	0	2	0	3
Imbecile,.....	0	2	0	0	0	3	5
Fatuous,	0	0	0	0	0	1	1
TOTAL,.....	37	6	4	3	31	18	99

Of the above cases, 60 were old (or more than six months standing previous to their admission) with 12 cures.—39 were recent cases with 25 cures.

Of the deaths, one was the result of organic disease of the heart induced by long intemperance, causing Dropsy, &c. Another was in articulo mortis when admitted, and lived but a few hours afterwards.

Of the other two, one was an old man, and was carried off by a severe attack of Fever; the other died from long continued Diarrhœa.

One patient jumped from a third story window, fractured both arms and dislocated the elbow joint, but we managed to keep her quiet afterwards, although she had previously been exceedingly violent, and made a good cure of her case in a few weeks.

A young lad of 16 came to the gate and demanded admission, followed by his father, who grieved exceedingly at his determination to go to the Asylum, from a very common but false impression that confinement there was rather a disgrace. He was in hopes that his son would relent and wish to go home with him so soon as he had seen the interior of the establishment, but in this he was disappointed; he persisted in staying there, as he said he knew it was the only place where he had a chance of recovery, and he felt quite sure that if he remained out he would destroy himself, as he had several times threatened to do already.

One, incurable, belonging to Scotland, we sent home, as the cost of his passage was a small amount compared to what his maintenance would have been here for years.

We have one deaf and dumb Lunatic who gives us a good deal of trouble in consequence of the imperfect education he has received.

Much work has been done by the inmates during the past year for the Institution. We have had a Tinsmith who has made Tin Ware enough to last us for a year to come. Indeed, whenever we get a Mechanic we make the most of him for the benefit of the establishment, as his occupation is not only useful to us, but also the best means of promoting his own recovery.

I cannot close this Report without complaining of the common custom of sending Patients to the Asylum without any clothing but that on their backs. I can make no exception in favor of any of the Counties, for they come to us in this state from every part of the Province, and sometimes in perfect rags. Where a Parish is relieved from a charge of this kind, care should be taken that the unfortunate Lunatics have at least a change of clothing, but the general practice of neglecting to do so, very materially increases our expenses for clothing.

I have, &c.

GEORGE P. PETERS, M. D.

St. John, 1st February, 1844.

His Excellency Sir Wm. Colebrooke, &c. &c. &c.

Report from Commissioners of Lunatic Asylum, with Estimate for current year.

(Copy)

Saint John, 31st January, 1844.

SIR,—We now beg leave herewith to submit for the information of His Excellency the Lieutenant Governor, agreeably to request, Estimate of the amount of Supplies, &c. required for the support of the Provincial Lunatic Asylum in Saint John for the year in prospect,—say from the 1st January to the 31st December 1844,—the whole, including allowance £100 to the Commissioner immediately superintending, &c., which we trust will not be considered an unreasonable compensation for the service, amounting to the sum of £1385 13 4.

This statement would have been sent forward at a more early period in the month, but for the indisposition of one of the Commissioners, and the absence from the City of another of their number for a time.

Having already transmitted before in this month (by the hands of our Doctor Peters) the Account and Vouchers for the Quarter ending at 31st December last, shewing Balance £93 16 6 then due to the Commissioners, we would now respectfully urge attention to this peculiar state of the Accounts of the Institution, presently subjecting the Commissioners to the necessity of raising means on their own private account, not only for paying off a considerable portion of the Bills of the last Quarter, but also to meet the current expenses of the present. Not doubting, however, but that an early remedy will be found for this inconvenient state of affairs, we have the honor to remain, &c. &c.

F. P. ROBINSON.

PROVINCIAL PENITENTIARY.

Report of the Commissioners of the Provincial Penitentiary for 1843.

Report of the Commissioners of the Provincial Penitentiary for the Year commencing 1st January, and ending 31st December, 1843.

The Accounts submitted herewith exhibit an expenditure amounting to the sum of one thousand five hundred and seventy seven pounds three shillings and five pence, the details of which, with Vouchers, have been transmitted quarterly to His Excellency the Lieutenant Governor; a reference thereto will shew that a very considerable portion of this expenditure has been applied in discharging all, except ninety eight pounds, of the unpaid Accounts of the preceding year, and in repairs and expenses connected with the improvement of the buildings and grounds, as also in the purchase of Looms and apparatus for the manufacture of Clothing for the use of the Prison, and only in so far as yet productive as prospectively to provide to a considerable extent for the wants of the Prison, and in the purchase of Seed and Manure, which have produced a quantity of Vegetables equal to the years consumption, according to the present number of inmates, and sufficient Seed for a succeeding years crop. Nearly three hundred thousand Bricks have been manufactured in the year, and about two hundred and eighty thousand, of the estimated value of £350, remain unsold, and may be made available for the expenses, in part, of the year entered upon.

The receipts from sources as detailed in the Account annexed, amount to the sum of one thousand five hundred and seventy seven pounds four shillings and one penny halfpenny, leaving eight pence halfpenny only of funds in the Commissioners hands; while there remains unpaid Accounts, for want of funds, of not less amount than £130, of which, ninety eight pounds are of the previous years expenditure, and remainder for the year now ended.

The Commissioners beg to refer to their last years Report of the insufficiency of the wooden pailing with which the Prison is enclosed. Several Prisoners have at different periods during the year made their escape, and recaptured at considerable cost. The importance, in case it be intended to continue the Prison as a Provincial Institution, of having the whole grounds enclosed by Stone and Brick Walls, induce the Commissioners to suggest, as the least inconvenient means of accomplishing it, that a grant of a not less sum than £300 per annum for five years, be made to be specially expended for that purpose; this united to the Prisoners labour, would, notwithstanding the great extent of Wall required, probably effect the object within the period named.

The Commissioners have given much consideration to the importance of rendering the labour of the Prisoners more productive, and thus gradually reduce the charge upon the Public Revenue. The following considerations present themselves:—

The fact of similar institutions in the United States supporting themselves by the profitable employment of the Convicts, has induced, on the part of the Commissioners,
the

the utmost desire of placing the Penitentiary in like circumstances. It must however be borne in mind, that in every case of such desirable results the inmates of the Prison are very numerous, and no inconsiderable number committed for a term of years, or for life. That such institutions are complete in the appointed means of employing to the best advantage each Prisoner at such trade as he may have acquired a previous knowledge of, or if not in possession of such previous knowledge, ample means exist for his acquiring it. How widely different is our infant institution circumstanced—the inmates so limited in number as to make the cultivation of the grounds and manufacture of Brick the means of full employment for at least two thirds of the year. The time of commitment never for life, rarely for more than one year, and the majority from one to six months. Not more than two or three are at any one time in confinement, possessing a knowledge of any trade, and quite as limited a number only, are committed for a sufficient period to admit of instruction, did the means exist. The constantly increasing population of a new country, will most likely unhappily remove the first disability, of want of numbers, at but too early a period. If then, in anticipation of events which experience renders so certain, the Legislature make provision for gradually surrounding the grounds with sufficient Walls, and thus preserve the establishment in improved efficiency, it cannot be otherwise than a public benefit, and operate as a check upon crime.

By order of the Board.

LIGHT HOUSES.

Report from Commissioners for Light Houses residing in Charlotte County.

To the Honorable the Legislative Council of the Province of New Brunswick in Provincial Parliament assembled.

The undersigned, Commissioners of Lights for the Bay of Fundy, residing in the County of Charlotte, beg leave to make their annual Report.

The different Establishments under their more immediate supervision, have had their particular attention during the past year, both as regards the supplies for the Lights, and the necessary repairs required on the Buildings.

On the Machias Seal Island, the Stone Foundation on which the Light Houses stand, had to be almost wholly rebuilt in a more solid and substantial manner, to render them more stable and secure against the action and the working of the Buildings in violent storms during the Winter months; they have now reason to hope that the work done will stand for years without any further outlay of consequence. The undersigned thought it better to defer the painting of the Buildings, which is much required, until next season, and for the present only to examine and make good the usual yearly repairs, which has been done.

Head Harbour Light House has been visited, and another Wharf of greater strength has been built where the former one stood; that was swept away by the severe storm in March last. The placing of a Storehouse thereon, as formerly contemplated, will take place in the Spring, when it can be done in a proper manner for its future security. The Landing Place has also been made safe by the removal of large stones and rocks thrown in by the surf, which will always be the case more or less every season until a sufficient Wharf or Breakwater is built for its protection.

All other alterations and repairs have been made about the Burners, Lanterns and Buildings, where found requisite and necessary.

Indian Point Light House, at the entrance of the Harbour, required a Storehouse of a moderate size, which has been built, together with a few feet of fence, which was much required. At a small cost, a small but safe boat has also been added, to enable the Keeper to render prompt assistance, in cases of distress, to persons on the water; instances having occurred in the day time of the loss of life by the upsetting of boats near the station, which might have been averted had a boat been available; and it is much to be regretted so necessary addition had not been made before. The usual trifling expenditure for alterations and repairs will appear in the Accounts.

The undersigned have, in consequence of the great reduction of Duty on Foreign Oil by the Imperial Act, made a trial of Sperm, and although the cost is somewhat more, still it affords them much satisfaction in stating the gratifying accounts they receive of the brilliant appearance of the Lights, and the greater range of horizon from which they can be seen, in contrast to the former view, when lighted with common Oil, advantages to the commerce and navigation of the Bay of Fundy, far overbalancing the trifling additional expenditure, without taking into view that the said excess in value actually goes into the Public Treasury in shape of Duty.

All which is most respectfully submitted.

JOHN WILSON,
J. ALLANSHAW,

Saint Andrews, December 30, 1843.

Report from Commissioners of Bay of Fundy Light Houses.

To His Excellency Sir W. M. G. COLEBROOKE, K. H., Lieutenant Governor and Commander in Chief of the Province of New Brunswick, &c. &c. &c.

MAY IT PLEASE YOUR EXCELLENCY,

The Subscribers, Commissioners of Light Houses in the Bay of Fundy, beg leave to present to Your Excellency, Accounts herewith, shewing the amount expended for the support and maintenance of the different Light House Stations, also the amount paid in aid for the support of the Light Houses at Brier Island and Cape Sable Seal Islands in the Province of Nova Scotia, viz: Keepers' Salaries at 9 Stations, £820; Contingencies of the same, £1,230 5 5½; in aid of Nova Scotia Lights, £290 13 2; making in all, £2,340 18 7½; being the whole expenditure for this service in the year ending 31st December, 1843; the same having been duly expended as will appear by the Accounts and Vouchers, leaving a balance in favor of the Province of £94 15 9. The contingencies for the six Stations heretofore under the especial charge of the Commissioners residing at Saint John, were last year £851 10 2, and this year £728 3 3, being a decrease of £123 6 11, and £100 less on Salaries of the Keepers; making a saving and reduction on the expenditure of £223 6 11. The expense of supporting the Machias Seal Islands, Campo Bello, and Saint Andrews Light Houses, exceed the last year £38 14 5, with a reduction on the Keepers' Salaries of £70, makes a saving in the expenditure of 1843 of the whole establishment, as compared with 1842, of £254 12 6.

The amount of collections from Shipping for the Light House Fund in the Ports of the Bay of Fundy is £3,576 3 8, leaving a surplus on this part of the service for the year 1843 of £1,232 5 2, but the balance of the General Fund is, we believe, over £1,800. If we take the collections of 1843 as a basis for coming seasons, which we presume may be done with safety, we would respectfully recommend that the suggestion made in our Report for 1842, that a reduction might be made in the rate now levied of 25 per cent. or 1d. per ton, should be carried into effect. In the present state of trade such a reduction would be felt as a relief and boon to the Shipping interest, and when it is recollected that the erection and maintaining of the different Light Houses has been effected by a direct tax on tonnage, it would only appear reasonable that relief should be given as soon as possible. One quarter from the collections in the Bay of Fundy, say £3,576 3 8, would leave £2,682 2 9, a sum which your Commissioners think, with the balance now in favor of the Fund, would be ample to meet the ordinary expenditure for that service.

The various Stations are in good order, and will require nothing more for 1844 than the ordinary wear and tear of Lamps, Machinery, &c. unless the Government should think proper to direct that the Block recommended by us on the 8th June last, to be added to the foundation of the Beacon Light House in the Harbor of Saint John for its protection; also a Granite Wall, which is thought necessary for the security of the Light House on Gannet Rock, and for the greater safety of the lives of the persons in charge of that Station, should be completed. These objects your Commissioners think necessary, and in thus again bringing them under the notice of Your Excellency, they leave them for the action of the Government.

The only expenditure in addition to the ordinary disbursements of 1843 was for the covering the roofs of the two Lanterns at Point Lepreaux, and the one at Quaco, with Copper, and the Lead with which they were originally covered being worn out; a new Chimney and some repairs on the Keeper's House at Point Lepreaux.

The Commissioners residing at Saint John have been anxious to carry out the views of the Executive with respect to the whole management of the service being arranged by one Board, but they regret to say that the Commissioners residing at Saint Andrews, have not altogether come into the arrangement, but consider themselves only "*Commissioners for Machias Seal Islands, Campo Bello, and Saint Andrews Light Houses,*" as appears by their Accounts marked H herewith. The appropriations having been made to the *Commissioners for Light Houses in the Bay of Fundy*, as one Board,

Board, the Commissioners at Saint Andrews could not receive any particular of the same, and in consequence of which, Commissioners Wilson and Wyer met the Board at Saint John on the 10th August last, with a requisition for £430 14s. to pay for Oil, for which they had contracted and for other contingencies; an order was made on the Treasury for the same. A further requisition was made by the three Commissioners at Saint Andrews on the 18th October, which was also complied with on the 26th, for £35; these two sums, with the Salaries, make up the expenditure for the said three Stations, less a balance in the hands of the said Commissioners of £2 4 6, as per their General Account H.

All which is respectfully submitted.

REPORTS ON ROADS AND BRIDGES.

CANADA LINE.

Report of James A. Maclauchlan and James Ketchum, Supervisors of the Canada Line of Road between Fredericton and the Grand Falls.

MAY IT PLEASE YOUR EXCELLENCY,

With reference to the Reports we had the honor to lay before Your Excellency in May and August last, we now beg to state, for Your Excellency's information, that the appropriation of the Legislature placed in our hands has been principally expended in rebuilding and repairing the Bridges carried away or injured by the ice jams and freshet of last Spring; but, owing to the limited appropriation on this extensive line of Road, there are still several Bridges to build and many minor ones to be repaired; and the Road, from not having funds at our disposal for making the necessary repairs through the Season—which has been exceedingly unfavorable, from the frequent and heavy rains—is now in many places almost impassable for wheel carriages, and therefore we feel it our duty to state to Your Excellency that unless a sufficient appropriation is made by the Legislature at the next Session, we are of opinion that the Mails, as well as the accommodation Stages, must be seriously inconvenienced and delayed upon the line.

Having carefully examined the Road under our supervision during the last month, (October) we beg to lay before Your Excellency a Schedule of Sums which we consider necessary to have expended during the next Season: and before closing this Report, we are again anxious to bring under Your Excellency's notice the urgent necessity of enclosing that costly frame Bridge at Sullivan's Creek, in the Parish of Dumfries, County of York, which we have reason to fear is already injured by being exposed to the weather.

All which is respectfully submitted by

Your Excellency's most obedient humble servants,

Report from James Ketchum, Supervisor, on destruction of Bridges.

Woodstock, 28th April, 1843.

SIR,—I wish to report, for the information of His Excellency, that three of the large Bridges on the line of Road between Fredericton and Woodstock, are carried away by the ice, or rather I may say removed, for the materials are all not far from where the Bridges originally stood, jammed up in the ice.

I wish to state further that it will be impossible to do anything towards the repairing of those Bridges until the water falls.

I have not seen or heard from my associate Mr. Maclauchlan, but for my part I shall be ready to proceed with the repairs of those Bridges as soon as the water is down sufficiently to go on with the work, as far as the money appropriated for the Road will expend.

I have the honor to be your most obedient humble servant,

JAMES KETCHUM, *Supervisor.*

Report by James A. Maclauchlan, Supervisor, on Road from Grand Falls to Canada Line.

Fredericton, 24th February, 1843.

SIR,—In answer to your Circular of the 20th instant, calling upon me to report for the information of His Excellency the Lieutenant Governor, the state of the Road under my charge, and also the sum which in my opinion will be required to provide for the ordinary repairs during the current year, I have the honor to state that on the line of Road between the Grand and Little Falls on the left Bank of the River Saint John, a distance of thirty seven miles, there is as yet only nine miles turnpiked; another ten miles has been grubbed and made fit for Winter travelling; and the remaining eighteen miles, between the Quisibis and Grand Falls, is still unopened; so that to complete the whole line, exclusive of the Bridge over the Grand Falls, an expenditure of at least four thousand pounds will be required; but from the number of persons without employment in the Province, and the great scarcity of money, I am of opinion that the sum of two thousand pounds will put the Road in a passable state for the conveyance of Her Majesty's Mails during the ensuing year.

I have the honor to be, Sir,

Your most obedient servant,

J. A. MACLAUHLAN, *Supervisor.*

Report on Boom and Bridge at Restook, by James Ketchum, Supervisor.

*To His Excellency Sir William Macbean George Colebrooke, K. H. Lieutenant Governor,
&c. &c. &c.*

MAY IT PLEASE YOUR EXCELLENCY,

Having received a Letter from the Secretary's Office, dated the 3d of May, 1843, directing me to proceed to the Restook River, to inspect a Boom which has been constructed across the said River, in order to ascertain if the navigation is obstructed by it; and at the same time to ascertain whether the destruction of the Bridge has been in any manner occasioned thereby, and if by any precaution this accident could have been prevented,—I beg leave to state to Your Excellency, that on the receipt of the letter, and in obedience to the instructions therein contained, I proceeded to the Mouth of the Restook River, and find that a Boom has recently been placed across it; and in order to ascertain if the navigation was obstructed by it, I made the requisite enquiries and inspection, and so far as the driving of Timber is concerned, the Boom may be considered an obstruction to those who wish to drive their Timber out and down the Main River Saint John, and there are now one or two persons who prefer doing that to having it rafted at the Boom. The Restook River may not be considered navigable for Boats until you get above the Falls, and in this respect the Boom cannot be considered as any obstacle; but to persons wishing to drive their Timber to market without rafting it at the mouth, I must give it as my opinion that the Boom is a decided obstruction to the free navigation of the River.

In regard to the destruction of the Bridge having been in any manner occasioned by the Boom being placed across the River, is a matter rather difficult to decide. I was not present myself when the accident occurred, and so many conflicting opinions being entertained by the inhabitants of that neighborhood upon the subject, it is almost impossible to arrive at the fact; but all parties admit that had the Bridge been about four feet higher, so as to have allowed the drift stuff to pass under it, it would have been perfectly safe. By what I can learn, every precaution was taken to preserve the Bridge, and every exertion was made by the inhabitants and by the proprietors of the Boom to save it.

Shortly before I arrived at the Restook River, the Boom, which contained a large quantity of Timber, gave way, and let the whole body of Timber and Logs down against the pieces of the Bridge; the water was very high, and running out with the greatest rapidity. These are circumstances which cannot fail to impress any disinterested person that a Bridge must always be in danger from such a mass of Timber being lodged above it.

I have the honor to be

Your Excellency's most obedient humble servant,

JAMES KETCHUM, *Supervisor.*

FREDERICTON TO NEWCASTLE.

Reports on Road from Fredericton to Newcastle by Alex. Goodfellow, Supervisor.

*To His Excellency Lieutenant Colonel Sir WILLIAM MACBEAN GEORGE COLEBROOKE,
Lieutenant Governor and Commander in Chief of the Province of New Brunswick,
&c. &c. &c.*

MAY IT PLEASE YOUR EXCELLENCY,

The late heavy rains have caused much damage to the Road between Fredericton and Miramichi, particularly at Tay Creek, and where the Road passes along the face of a steep hill near M'Nab's, on the Nashwaak; the former having the Bridge slightly damaged,

damaged, and the Road at the southwardly end of the same, which passes over a low intervale for a distance of about forty Rods, gullied out in many places to a considerable depth, so as to render travelling difficult and dangerous, and at the latter place the embankment on the lower side of the Road has given way, carrying down part of the Road and the Trees in its course to the foot of the hill, rendering travelling very precarious; and should any additional part of the Road give way, the travelling will be stopped, as there is no way of passing at that place but on the present Road.

As the grant for that line of Road has already been expended, there are no means at my disposal to meet the expense of the repairs that are indispensably necessary, and will cost from £100 to £150.

I have therefore the honor to represent these facts to Your Excellency, in order that I may be furnished with instructions how to proceed, in restoring the Road to a serviceable state.

I have the honor to be,

Your Excellency's most obedient humble servant,

ALEX. GOODFELLOW, *Supervisor.*

Fredericton, 24th August, 1843.

Miramichi, 30th June, 1843.

SIR,—In reply to your Circular of the 8th May last, I beg leave to Report for the information of the Lieutenant Governor, that on hearing that damage had been done to the Road and Bridges under my care, I proceeded along the whole line to Fredericton, and had such temporary repairs made as was necessary to re-establish the public communications, which cost £6 5s.

On the 21st instant, I commenced taking Contracts by Public Auction, for the necessary repairs, and find the damage done by the Spring freshet to cost as follows:—

To a piece of Road below Mr. Sterling's that had a facing of Timber, taking in part of the Nashwaak Stream to obtain width for the Road,.....	£48	0	0
To repair the Road near Martin M'Bain's, two Contracts,.....	16	10	0
To repair the small Bridges and the Road across the intervale near the Tay Creek,.....	16	5	0
To repair the Tay Creek Bridge,.....	37	15	0
To repair the Road near the Nashwaak Bridge, and place a quantity of brush and stone to preserve the banks above the Bridge, &c.....	11	10	0
To replace a Bridge at the residence of Robert Doak, Esquire, South West,	27	10	0

Amounting in all, with the temporary repairs, to £163 15; in addition to which, a Contract was entered into for a new Bridge across Gardner's Creek, on the Nashwaak, which cost £59 10s. These amounts, with the over expenditure of last year, when deducted from the appropriations for this line, will leave but a small sum for the ordinary repairs, a sum entirely insufficient for the requirements of the Road.

Since the close of the sale of the repairs by Contract, I have employed an overseer with a small party of men and a horse and cart, which will commence near Fredericton and proceed along the line, removing any obstructions that may be on the Road, filling up the ruts, and otherwise repairing the Road so far as the remaining means at my disposal will permit.

The Bridges across the Nashwaak and Renous Rivers, have received no damage during the Spring freshet, beyond the ordinary wear and tear of the Ice.

I have the honor to be, Sir,

Your most obedient servant,

ALEX. GOODFELLOW.

Fredericton, 26th October, 1843.

SIR,—I have the honor to acknowledge the receipt of your letter of the 27th ultimo, by command of His Excellency the Lieutenant Governor, apprising me that the Nashwaak Road is reported to be in a dangerous state from the falling in of the Cliff where the Road overhangs a Precipice.

I beg leave to state for the information of His Excellency, that I have again examined the Road referred to, and found it nearly in the same state as when reported on by me on the 24th August and 11th ultimo. From inquiry which I made yesterday I am inclined to believe that the expense of the repairs will not exceed £70 instead of £100, as stated in my last Report.

I have the honor to be, Sir, your most obedient servant,

ALEX. GOODFELLOW, *Supervisor.*

The Honorable Wm. F. Odell, &c. &c. &c.

Secretary's Office, 27th October, 1843.

GENTLEMEN,—I am directed by the Lieutenant Governor to refer the enclosed Reports of the Miramichi Road, and to request to know whether you concur in opinion with His Excellency in the course proposed by him as stated in the Memorandum.

I have the honor to be, Gentlemen, your obedient servant,

WM. F. ODELL.

The Honorable J. S. Saunders and L. A. Wilmot, &c. &c.

We concur in the opinion of His Excellency.

L. A. WILMOT.
J. S. SAUNDERS.

Miramichi, 30th January, 1844.

SIR,—The damage done by the heavy rains of last Summer having rendered it necessary to bring the state of the Roads in my charge frequently under the notice of His Excellency the Lieutenant Governor, it enables me to trouble you with a less lengthy communication than usual.

On receipt of your letter of the 27th October last, conveying His Excellency's instructions to take a Contract to the extent of fifty pounds for the repair of the falling of part of the Road on a hill near M'Nab's on the Nashwaak, on proceeding to the place and convening a number of the most intelligent inhabitants, a careful examination of the place was gone into, when it was deemed advisable to postpone any permanent repairs until next Spring, the season being too far advanced to do justice to the work unless at a great extra expense. I therefore made arrangements for placing some Timber cross and lengthwise as a protection to travelling during the Winter, at a cost of three pounds, to be paid for. The Tay Creek Bridge, formerly referred to, and the intervale on the South side of the Stream, will require considerable repairs in the Spring.

The Road although passable for travelling at the setting in of Winter, had generally received much damage from the heavy rains of August and October; in many places the entire formation of the Road has been carried away, Water Courses removed, side Drains filled up, &c. &c. in addition to which, the repairs for the last two years have not been equal to the ordinary tear and wear, owing to the very limited grants from the Legislature for that period. These grants were chiefly expended in the repairs of Bridges and other damage caused by the freshets last Spring.

In my Report of 9th February and 16th March, I alluded to Renous River Bridge, and to the state of the Bridges from Renous River to the Miramichi Point at the mouth of the South West Branch, and as nothing has yet been done, I again beg to bring under His Excellency's notice the state of this important part of the line of Road on which the Bridges are daily becoming more dangerous.

I have the honor to be, Sir, your most obedient servant,

ALEX. GOODFELLOW, *Supervisor.*

NEWCASTLE

NEWCASTLE TO RESTIGOUCHE AND RICHIBUCTO TO CHATHAM.

**Reports on Road from Newcastle to Restigouche, and Richibucto to Chatham,
by David Crocker, Supervisor.**

Miramichi, 29th January, 1844.

MAY IT PLEASE YOUR EXCELLENCY,

As my operations as Supervisor of the Great Road from Newcastle to Restigouche have been suspended for the year 1843, it becomes my duty to report to Your Excellency my proceedings, and would further submit such suggestions as the present state of the Road warrant me in doing.

The sums appropriated at the last Session of the Legislature for that line, were £800 from Bathurst to Campbellton, all of which was to be expended in the County of Restigouche, and the sum of £220, of which £116 were due me on a previous Contract, and ordered to be paid out of the latter grant, and the balance was to be applied in repairing the Road and Bridges between Newcastle and Bathurst.

That previous to commencing my operations in the spring of 1843, I received intimation that in consequence of an unparalleled freshet the Bartibog and Eskedellick Bridges on the line from Newcastle to Bathurst had been carried away, and the Road seriously injured in consequence, my attention was immediately directed to the line, and ordered the necessary arrangements for the temporary passage of the Roads to be made.

In June following I entered into Contracts and expended the balance of the Grant, say £100.

That from the injury the Bartibog Bridge, and approaches thereto, received from the freshet, I was obliged to expend about one third of the Grant on the same, and after repairing the Eskedellick Bridge, injured by the same freshet, a very small sum remained to repair and keep up a line of Road of over 50 miles through a forest, it having received trifling repairs the year previous.

That the Grant of £300 was expended as ordered, in the County of Restigouche, from Armstrong's Brook to Nash's Creek. That this was a completely new explored line and made through a wilderness, in which distance two important Bridges were erected, one across M'Nair's Mill Stream, the other over Jacquet River, 300 feet in length, with substantial Treaters to two of the abutments. That over a Mile of distance was saved, and the most expensive part of the Road completed, together with the savings of the Ferry across Jacquet River, render the completion of this part of the Road of the greatest advantage to the inhabitants and accommodation to the Public, all of which were completed at a moderate expense.

As the foregoing embrace my doings on that line of Road for the past year, I would now call Your Excellency's attention to what I consider advisable in the further prosecution of this Road. The Road from Bathurst to Elm Tree, a distance of 15 miles, is thoroughly completed, (except Tattigouche Bridge,) and from thence to John Chalmers', a distance of seven miles along a Beach, and almost impassable, and I would consider the working of which of paramount importance to that part of the Province, as no part of the line from Newcastle to Restigouche should require more immediate attention for the convenience of travellers and the inhabitants than that part of the line; I should therefore recommend that a Grant of £1000 be appropriated to complete it; this sum Your Excellency may consider large, but as four miles of this distance is composed of huge cliffs of Limestone and Bog, the working of the Road will be very difficult and expensive.

The Bridge across the Belldune River, which divides Restigouche from Gloucester, is in a very dilapidated state, and requires either to be rebuilt or repaired; I should recommend the former, as the old Bridge is built of bad materials and scarcely worth repairing. The cost of a new Bridge and approaches would be about £80.

Before closing this Report I must again bring under Your Excellency's consideration the Bridges between Newcastle and Bathurst. The first is the Bridge of French

Fort

Fort Cove, equidistant between Newcastle and Douglastown, and on the great Road of communication to Restigouche. The Bridge at present standing is in a very dangerous state, having been built on posts and caps, and from its long standing the joints are completely decayed, and unless renewed or repaired will in my opinion give way. And even the travelling across at present is very unsafe, and the Bridge if not immediately repaired, must for the safety of the Public, be thrown down. The Bridge is a very important one, as travellers from Restigouche to Fredericton must necessarily pass that way, and the communication between Newcastle, Douglastown and Chatham, is kept up by that route, consequently the Bridge cannot be dispensed with. A new Bridge across this Stream, or the one standing to be repaired, is absolutely necessary. The approaches to the Bridge on either side are very steep and rugged. The Legislature had at a former Session granted £150 to repair the Bridge, but I believe the Warrant never issued, and should £150 more be granted, a safe Bridge could be completed.

There is also another Bridge of importance on this line that was carried away in August last by the Freshet, situated near Messrs. Gilmour, Rankin & Co., Stone Mill, and which at the time I brought under Your Excellency's consideration. This Stream has high Hills on either side, and a Bridge is absolutely necessary and cannot be dispensed with, and will require Legislative aid to rebuild it; a temporary way was made by Statute Labour, but not sufficient to allow a loaded team to pass, I should therefore recommend the sum of £80 be appropriated for this purpose.

Many of the Bridges on this line to Bathurst require new covering, for which purpose I should recommend that appropriations be made.

All which is respectfully submitted.

DAVID CROCKER, *Supervisor.*

Miramichi, 29th January, 1844.

MAY IT PLEASE YOUR EXCELLENCY,

I have to Report for Your Excellency's information, my proceedings in reference to the line of Road under my supervision from Richibucto to Chatham, for the past year, and the manner in which the grant placed at my disposal was appropriated.

The grant amounted to £160, of which I paid £60 to the Contractor for the balance due him for building a Bridge across Davidson's Creek. This amount was expressly ordered to be thus appropriated by the grant, and the balance was expended as follows:—

That from the unprecedented freshet last Spring, about 80, feet including one block, of the Kouchibouguac Bridge, was carried away, which rendered the travelling difficult and impeded the progress of the Mail.

I immediately repaired to the place, and entered into a Contract for repairing the same, the expense of which amounted to over £18, I paid of the grant, and the balance I expended in repairing the Road and Bridges generally; but the unexpected injury to the Kouchibouguac Bridge necessarily took away a portion of the grant which I intended for other purposes. For Your Excellency's information, I would beg further to state, that on this line there are a great number of Bridges, and some very long, which require more means to keep in repair than the ordinary Roads, and some of the Bridges on this line require to be newly covered to keep them passable. Among these Bridges, however, the Kouchibouguasis is at present in a most dangerous and precarious state; I should recommend that something be done with it even before the Ice goes, as from its shattered state the breaking up of the Ice might render it impassable; however, extensive repairs will require to be put upon it in the Spring. Some of the blocks are thrown out of their places by the Ice, and from the length of the Bridge, over 800 feet long, and the covering seriously damaged and decayed, a considerable repairs must be made to make it safe. That after I had expended the grant of last year, I found that the Bridge across Cafley's Brook required to be repaired, as the covering was in that state that it would not stand over the season, which I ordered to be done at the expense of about £8, which will require to be provided for.

From my supervision of this line, and care in taking pains to ascertain what will be required to keep it in thorough repair, including the great extensive Bridges, I should recommend that at least £300 be appropriated for the repairs of the Road and Bridges on this line.

All which is respectfully submitted.

DAVID CROCKER, *Supervisor.*

Miramichi, 5th April, 1843.

SIR,—In reply to your Letter of the 17th of March, which this day came to hand, I beg leave to state for the information of His Excellency the Lieutenant Governor, that the Road from Newcastle to Bathurst, distance fifty miles, had last year a Grant of eighty pounds; that only thirty pounds was for the repairs of the Road, the balance principally for Bridges. There are some parts of this Road between Miramichi River and Bathurst, that have had only temporary repairs since the first Contracts, consequently they should be attended to early in the Season, and in my opinion, will require from one hundred and fifty to two hundred pounds, including some repairs to the Bridge across Tabusintac River, which is near two hundred feet in length, and should have new covering.

The distance from Bathurst to Campbelton is seventy miles, and if two hundred pounds could be obtained for the purpose of repairs, it would be very desirable, as the Bridge across Nash's Creek was taken away by the North East Gale in November last; and the old Road or Pathway on Eel River Bar completely stopped up with drift Logs from the Sea. There are many miles of the recently explored line recommended by me between Bathurst and Dalhousie yet to be opened up, for which the greater part of the Grant for the present year, if possible, should be applied, as it would be a waste of money to repair any part of the old Road further than to keep it passable.

The Road from Richibucto to Chatham, distance forty miles, is one of great importance, and there being no Statute Labour ever applied to the Great Road, it will in my estimation require two hundred and fifty pounds to keep the Road and Bridges in a safe state for travelling for this present year.

Respectfully submitted.

DAVID CROCKER.

Hon. W. F. Odell, &c. &c. &c.

Miramichi, 18th May, 1843.

SIR,—I beg leave to state for the information of His Excellency the Lieutenant Governor, that notwithstanding the unprecedented great Freshet this Spring, damages to the extent anticipated has not occurred on the line of Road entrusted to my Supervision. The most material damage has been sustained by the Bridges of Bartabog and Kouchibouguac, immediately on being apprised thereof, I proceeded to the former, and at the expense of about four pounds, succeeded in getting it repaired in such a manner as to ensure a safe transit for Her Majesty's Mails, and to convenience the public in general, until such time as the same can be repaired by Contract, when a sum of from twenty five to thirty pounds will be required to ensure its efficiency. I then proceeded to Kouchibouguac, where I found the water very high and about eighty feet of the Bridge carried away, (this Bridge is upwards of 200 feet in length.) I immediately entered into an agreement with an inhabitant there, to thoroughly repair and put the Bridge in as good a state as it was before the Freshet, the expense of which will not exceed eighteen pounds; there was also some damage done to the Road and small Bridges, all of which has been attended to, and the Road made passable for the present.

I have the honor to be, Sir,

Your most obedient servant,

DAVID CROCKER.

Hon. W. F. Odell, &c. &c. &c.

Miramichi,

Miramichi, 10th July, 1843.

SIR,—I beg leave to state for the information of His Excellency the Lieutenant Governor, that as early as the season permitted, I proceeded to take Contracts by Public Auction, for the repairs of the Road from Richibucto to Chatham, and from Miramichi River to Bathurst, all of which was let in small Contracts, and in a short time will be completed.

The grant of eight hundred pounds to be expended in the County of Restigouche, has also been let by Public Auction, which were all taken at unusually low rates, and will be finished about the fifteenth of September next, which I trust His Excellency will anticipate by ordering all Warrants in my favour to issue, so as to enable me to pay off a number of Contracts which are now finished.

I have the honor to be, your obedient servant,

DAVID CROCKER, *Supervisor.*

NEREPIIS AND SAINT ANDREWS ROADS.

**Report of Damages sustained on Nerepis and Saint Andrews Roads, by
George Anderson, Supervisor.**

Saint John, May 18, 1843.

HON. W. F. ODELL,

SIR,—I have the honor to acknowledge the receipt of your Circular, dated the 8th instant, requesting me to Report to His Excellency the extent of any damages sustained by the Roads and Bridges under my supervision, and in reply thereto, I beg to acquaint you, that on that part of the Nerepis Road entrusted to my care, it will not in my opinion cost a sum beyond £20 to put the Bridges on that line in as good a state as they were previous to the late Freshet, and that the Road, so far as I can learn, (not having until the present season taken any particular view of the same,) has not received any injury.

With respect to the Saint Andrews Road, I had the honor of stating for the information of His Excellency in my communication of the 4th May instant, that no damage had occurred by reason of the Freshet to any of the Bridges, which Report I now confirm; but on that Road one of the principal Bridges (over the Bockabeck Stream, in the Parish of St. Patrick's, County of Charlotte,) is in a very bad state from natural decay, and that it will require a sum of money to the extent of £200 to erect a new one; I can however make it last until the next year by some temporary repairs at a small expense. Referring His Excellency to my Report of the 4th instant,

I have the honor to be, Sir,

Your most obedient servant,

G. ANDERSON, *Supervisor.*

Provincial Secretary, &c. &c. &c.

FREDERICTON TO SAINT ANDREWS.

Reports on Road from Fredericton to Saint Andrews by L. B. Rainsford, Supervisor.

Fredericton, 17th October, 1843.

SIR,—I have the honor to acknowledge the receipt, on my return from a tour of official duty, of your Letter of the 26th September last, calling upon me by the direction of His Excellency the Lieutenant Governor, for a report of the Road from Fredericton

Fredericton to Saint Andrews, under my supervision, and I beg leave to state that I have expended the £400 appropriated at the last Session in the following manner:—

I have opened one and a quarter miles of new Road mostly at the Greenock Settlement, raised the ends of the Magaguadavic Bridge which were found to be too low, repaired serious injuries sustained by the Digdeguash Bridge during Freshet time, built a new Bridge two hundred feet long across a Ravine near Turner's, skirted over twelve miles of Road, and made divers minor repairs throughout the whole extent of the Road.

In my Report of the 23d February last, I stated that the sum of £830 would be necessary to skirt the Road and keep it in a good state of repair, and having received less than half that sum, I have been unable to do all I should wish to have done; what is now chiefly wanted is to complete the skirting, to gravel a very stony piece of Road between the Magaguadavic and the Harvey Settlement, to make some repairs to the Bridge across the Magaguadavic, which can be done only in the Winter; and to place the Road generally in repair the next Season, after the Fall and Spring wear and tear upon a new Road, and one which is much travelled upon, and although I could expend seven or eight hundred pounds advantageously upon the line, I cannot, in the present state of the Provincial Finances, think of requiring more than £430, the difference between what I considered necessary and what I received this last Season, and with that sum I consider that the above named works could be performed, and the Road kept in a good and passable state throughout the season.

I have the honor to be, Sir,

Your most obedient servant,

L. B. RAINSFORD.

The Hon. Wm. F. Odell, Provincial Secretary.

MAY IT PLEASE YOUR EXCELLENCY,

I beg to make to Your Excellency in according with your wishes, a statement of the situation of the Road from Saint Andrews to Fredericton, having travelled it with Your Excellency the preceding week. Upon entering the Grimmock Settlement, it is not fit or safe from the short turnings of the Road, mud, roots and stones, for a carriage; at a place beyond Ephraim Turner's, it is also unsafe, from the turn beyond the Bridge into the Road being so precipitous; from this point to Brockway's, the Road is passable; at the Bridge at the Mill, which has been burnt down, a Plank has been wanting the whole Summer, and also last Winter; and from the top of the hill to the twenty mile spring, the Road is not fit for a double or covered carriage loaded to travel; besides very many impediments from windfalls. From Coburn's to Fredericton, I was under the necessity of cutting out eleven windfalls across the Road, which a single waggon had been going round; at the Baillie Hill a very dangerous and unsafe pitch from a mound of earth remains.

All which is respectfully submitted.

L. L. COPELAND.

Saint Andrews, 27th September, 1843.

To His Excellency Sir William Colebrooke, &c. &c. &c.

Kingsclear, 17th October, 1843.

SIR,—I have the honor to acknowledge the receipt of your Letter of the 10th instant, covering the copy of a representation from L. L. Copeland to His Excellency the Lieutenant Governor, respecting the state of the Road from Saint Andrews to Fredericton, and calling for my Report thereon, and in obedience to His Excellency's commands, I beg to Report as follows:—

Mr. Copeland is correct in stating that a portion of the Road near the Greenock Settlement, as lately travelled "was not fit or safe from the short turnings, and roots, and stones, for a carriage," but he should at the same time have stated other facts which cannot be unknown to him.

The Road so travelled was part of an old Bye Road which was kept open until the
new

new Road should be completed; this has been done the present season, but as the new line runs through the Contractor's arable land, he conditioned that it should not be opened until his crop was harvested, not being able to haul new fencing in Summer; the Road Commissioners promised me to keep the Bye Road in good travelling order in the interim, but this, I regret to say, they failed to do in a satisfactory manner; the new line is however finished and opened, and is straight and clear of roots and stones.

At the turn beyond the Bridge near E. Turner's, the Bridge is a new one made across a ravine and only just finished; in the mean time travellers were obliged to cross the ravine by a way certainly not equal to the highway, but which I should not have thought any driver would have deemed unsafe; the inconvenience was however temporary, and the Bridge and approaches being now completed it no longer exists.

I am much surprised to hear that a Plank has been wanting the whole Summer at the Burnt Mill Bridge, as if such be the case, it has entirely escaped my notice during the many times I have crossed it this season, and no other person has ever named it to me; when the Mill was burnt the fire ran to the Bridge and burnt the ends of some of the boards which form the covering, but as it was only an eye sore and my means were very limited, I did not feel myself justified in going to the expense of having them replaced to the exclusion of repairs of a more pressing nature; if, however, a Plank be missing, I will lose no time in having it replaced.

I agree with Mr. Copeland in the opinion that a portion of the Road between the Magaguadavic and Harvey Settlement is hard for carriages, the foundation is a bed of rocks, and the only effectual remedy will be to coat it with Gravel, which I will be glad to have done when funds are placed at my disposal for the purpose.

The obstructions which travellers have experienced on this Road from windfalls immediately after the Equinoctial Gales, can only be remedied by opening a wide skirting through the woods. I requested to be furnished with funds for the purpose in my Report of the 23d February last, but did not obtain them, and I in consequence requested Mr. Copeland, Chasse and Clarke, to remove the windfalls as often as they fell in with or heard of any, promising to pay them liberally for so doing; and excepting for a few days during and immediately after the heavy Gales in the latter part of last month the public have been but little incommoded by the windfalls during the season, and from the appropriations of last year I managed to skirt part of what required it.

A Contractor who was cutting away a bad pitch on the Baillie Hill a few weeks since, did not take all the precautions he should have done pending the progress of the work, to facilitate the safe passage of travellers; the evil existed but a few days, and was promptly remedied on my perceiving it.

Having answered all Mr. Copeland's complaints consecutively, I beg Sir to add, that the Road in question is a new one, and has had less money expended upon it than any other Mail Road of equal extent in the Province; that in common with all Roads, particularly new ones through the Forest, considerable improvements and repairs are necessary from time to time, which during their progress must in a greater or less degree inconvenience the traveller; but it has always been my instructions to Contractors and Labourers to obstruct the travelling as little as possible, and to afford every assistance to the passer by in their power when laboring on the Highway.

I have the honor to be, Sir,

Your most obedient servant,

L. B. RAINSFORD.

Hon. Wm. F. Odell, Provincial Secretary, &c. &c. &c.

Fredericton, 10th May, 1843.

MAY IT PLEASE YOUR EXCELLENCY,

I have the honor to acknowledge the receipt of a Communication from the Provincial Secretary, bearing date the 8th instant,—in reply thereto, I have to inform Your Excellency that no injuries of any consequence sufficient to obstruct the travelling has occurred in any of the Roads under my supervision. Mr. Copeland, the Mail

Contractor between Fredericton and Saint Andrews, informed me had driven through in a day. Any slight repairs are now being made on parts of the Roads where they are required.

I have never employed any persons to take charge of the Bridges on my Road, not feeling myself authorized to incur an expense of this nature; in fact, no necessity existed, with the exception of the Digdeguash Bridge; in this case I employed Mr. Hill, a Settler there, to look after it, in order to prevent damage accruing through persons driving Timber and Logs down the Stream over which the Bridge is placed.

Not having inspected all of the Roads under my supervision, I am unable at present to report more fully.

I have the honor to be

Your Excellency's most obedient humble servant,

L. B. RAINSFORD.

His Excellency the Lieutenant Governor, &c. &c. &c.

NEREPIS ROAD AND OROMOCTO BRIDGE.

**Report on Road from Fredericton, Nerepis Line, and Bridge at Oromocto,
by William Foshay, Supervisor.**

Waterborough, Queen's County, 19th May, 1843.

SIR,—I have the honor to acknowledge the receipt of your communication of the 3d of April last, which however I did not receive until a few days since, as also that of the 8th instant. In reference to the former, acquainting me of my appointment of Supervisor, for the information of His Excellency the Lieutenant Governor I have to reply, that in no instance have I pursued any other practice than to pay the persons employed by me as Supervisor or Commissioner, in money, except on some few occasions, when at the request of parties, and when no money could be obtained at the Treasury, I have at my own expense and inconvenience procured for them matters of necessary supplies.

As regards the instructions received by me of the 9th March last, I have to state that previous to the receipt of such communication, I had rendered to the Auditor General a specific statement in full detail as such instructions would require, which was duly audited and approved.

By reason of the unusual freshet of the present season, my attention has been called to the repairing and securing of several Bridges on the Road under my supervision. To repair and secure the Bridge at the Oromocto, I have already had to incur an expense of £11, and in order to put that Bridge in a proper state a further sum of from £20 to £30 will have to be expended. On some minor Bridges, and on the Nerepis Road, which was greatly injured, I have had also to expend between £50 and £60.

Previous to the receipt of your last communication, I had employed proper persons to superintend the safety of the Bridges, and who discharged their duty to my entire satisfaction.

In the future discharge of the duties with which I am intrusted, I shall endeavour to comply with such instructions as I may receive, and I hope in such manner as will afford satisfaction to His Excellency and the Public.

I have the honor to be

Your most obedient humble servant,

WILLIAM FOSHAY.

The Hon. William F. Odell, Province Secretary, &c. &c. &c.

FREDERICTON

FREDERICTON TO FINGER BOARD.

Report on Road from Fredericton to Finger Board by N. Hubbard, Supervisor.

Burton, 8th July, 1843.

SIR,—In compliance with your Circular, I now make the following Report for the Lieutenant Governor's information:—Part of my Road runs through Maugerville, Sheffield, and the upper part of Waterborough to the Jemseg, all of which is intervale Land; the Road through Maugerville was very much injured by the last freshet, but the Statute Labour has now got it in a tolerable state of repair; the other two Parishes the Land is much lower, the small Creeks which are not Bridged, and two of the Bridges in the lower part of Sheffield are carried off by the last freshet, which rendered it impossible for me to visit my Road until the water was sufficiently down to travel it, therefore I beg to be excused in not giving His Excellency the information required at an earlier day. The Road through the above mentioned Parishes is now in as good state of repair as in former years, with the exception of Maugerville, and the two Bridges spoken of above, one was very old and the other a new Bridge, which was put up by the Statute Labour, after the materials was procured at the expense of the Province; the said Bridges being gone, it makes it rather inconvenient for travellers, being obliged to go some little distance round. The Road from the Jemseg to the Finger Board is much out of repair, not having had much money expended on it for the last five years, and the last season there was not one farthing laid out on it, having to pay the balance due on the Floating Bridge at the Jemseg, which took all the Grant, £50, made Session 1842, and the money that has been granted annually for the Road under my supervision has been chiefly expended on the new line of Road which is not as yet finished, therefore it is only a benefit to a few inhabitants that live near it, and those that may want to travel from the Bellisle to the Grand Lake, and from the Grand Lake to the Bellisle and Saint John. The old Road from the Jemseg to the Finger Board is through a rough stoney Country, and two large Bridges to be kept up, consequently it requires not a little labor to keep the Road in travelling order. There is not much Statute Labour to work the last mentioned Road if the inhabitants were so inclined, and it is thirteen miles, which is fully half the way through Wilderness Land unsettled, being about twenty six miles from the Jemseg to the Finger Board. Out of the £100 Grant made last Session, I had over £60 to pay for old Contracts made in 1841, and after paying the expense of getting the Restook Bridge placed at the Easty Creek, I had not much money left to improve the Road, but what was left, I have laid it out to the best advantage. The Commissioners of Highways for Maugerville and Sheffield have always took it upon themselves to look after the Bridges in the said Parishes during the freshets, therefore it was not necessary for me to employ any one to do so; but those more immediately under my care, say Bellisle and Big Brook Bridge, I have often spoken to the people living near the said Bridges to attend to them during the Spring Freshets, but never promised them any pay for their trouble, as they always appeared to take an interest for the safety of the said Bridges. The probable amount necessary now to repair the Road and Bridges under my supervision to make it passable for the present year, I should say £100 at least, but to make it a good Road, it would take a very large sum, as it has been so neglected, the money as I have already stated, having been expended on the new line of Road.

All of which I respectively submit.

I have the honor to be, Sir,

Your most obedient servant,

NATH. HUBBARD.

SAINT JOHN TO HAYWARD'S MILLS AND BELLISLE.

**Report on Road from Saint John to Hayward's Mills, and to the Bellisle,
by Robert S. Matthew, Supervisor.**

Hampton, K. C., 16th May, 1843.

SIR,—I have the honor to acknowledge receipt of your Circular of the 8th instant, and for the information of His Excellency the Lieutenant Governor, beg leave to make the following Report on the state of the Roads and Bridges under my care:—

The Roads, as might have been expected from the great body of snow lying on the surface of the ground till so late a period, are very considerably out of repair.

The Bridges I am pleased to say have sustained but trifling injury. I was promptly on the line, and saw that proper precaution was taken to prevent damage to the latter, by loading them with stone, &c. to prevent their being carried away by the back freshet. Many of the Bridges were covered to the depth of from two to three feet with water, and the Road has likewise been considerably injured by the same cause.

The following is a list of the principal Bridges on the Great Road leading from Saint John to Hayward's Mills, shewing those that will require repairs, the cause, and probable amount of costs, &c. &c.—

Bridge over the Hammond River, not injured as far as can be seen.

Bridge at Groom's, not injured.

Bridge at Hampton Ferry. Probable injury, or what it will cost to put the same in as good order as before, £5: caused by the back freshet.

Bridge at Baxter's requires to be new floored, and have new stringers, probable cost £5: cause, decay of age.

Bridge at Mill Stream, not injured.

Bridge at Roache's, not injured.

Bridge over Trout Creek, require to be brushed and loaded with stone around the principle abutment, probable amount of cost from £25 to £30: cause, not having a proper foundation of brush and stone under and about the abutments when the Bridge was originally built, the abutment resting altogether on a bed of gravel.

Bridge at Cleveland's Mills considerably out of repair, and liable to be so every heavy rain, owing to improper construction of this Bridge in the first place. I have, however, sold the repairs of same for three pounds, to be kept in order besides for twelve months, at the end of which time it should undergo thorough repair, or be replaced with a new one.

The remainder of the Bridges on this Road are in good repair.

Road leading from Saint John to the Head of Bellisle. The small Bridges on this line lying on the Bellisle Bay have sustained some trifling damage by the back freshets, but are now all made passable, and I trust can be made as good as ever again by a few days of statute labour. I shall, however, be able to make a more full report when the water falls off, if you should deem it necessary.

At present I have men employed by days' works', making temporary repairs on such parts of the Roads as most require the same, the remainder of the small sum at my disposal I will endeavour to lay out to the best advantage.

I have the honor to be, Sir,

Your obedient servant,

ROBERT S. MATTHEW.

Hon. W. F. Odell, Provincial Secretary, &c. &c. &c.

Saint John, N. B., October 18, 1843.

SIR,—I herewith enclose my Accounts with Account Current of monies expended by me on the Great Road leading from the City of Saint John to Hayward's Mills, &c., shewing a balance in my favor of eight pounds two shillings and nine pence.

This

This balance was created in consequence of having to repair the Bridge over the Salmon River, which if not attended to promptly, would have placed the Public to a great inconvenience.

I am pleased to say that the Great Roads under my supervision, (with the exception of that part over the great Marsh leading from the City of Saint John to Robinson's Farm, a distance of five miles,) are in as good order as can possibly be expected, considering the very small amount that have been expended upon the same for the two last years. I regret however to say, that the Road leading over the before-mentioned Marsh is in a very bad state, requiring a thorough repair, and unless done early next season, will be almost impassable. I have further to state, that the small amount granted of late years for keeping in repair the Great Road leading from the City of Saint John to Hayward's Mills is not sufficient; the great increase of travelling on that Road can only be known to those who daily witness the same; it is my firm belief that there is more travelling on that line than all the other Great Roads of the Province included.

The Great Road to the Head of the Belisle is now in very fair order, and a small grant would be sufficient to keep it so, and finish out a small alteration made on the same this year, (particulars of which I will forward next week.)

The small amount expended by me on the Hammond River Old Road has done a great deal of good, and a similar sum would put said Road in good repair.

I trust that the Accounts accompanying this Report may be found satisfactory, and if re-appointed to the Supervisorship, the experience had in Road making this year will enable me to get on more systematically.

I have the honor to be, Sir,

Your most obedient servant,

ROBERT S. MATTHEW.

Hon. Wm. F. Odell, Provincial Secretary.

HAYWARD'S MILLS TO NOVA SCOTIA LINE, &c.

Report on Road from Hayward's Mills to Nova Scotia Line, &c. by Bliss Botsford, Supervisor.

Bend Petitcodiac, 18th May, 1843.

SIR,—I have the honor to acknowledge the receipt of your communication of the 8th instant, (which I did not receive until the 17th instant by the Halifax Mail,) "desiring me to Report to His Excellency the Lieutenant Governor the nature and extent of any injuries which may have occurred towards the Roads and Bridges under my supervision," and in compliance therewith, beg leave to submit the following Report for the information of His Excellency:—

That upon examination of the Roads, I found them in a much better state than could have been expected, considering the quantity of Snow, which occasioned great freshets, and the consequent injuries sustained by the frost throwing them. I employed a suitable person to repair these injuries as soon as the state of Roads admitted of it. The damages to the Bridges on the Great Road leading from Hayward's Mills to the Nova Scotia Line, are the principle injuries sustained. Upon receipt of your communication "requesting my immediate attention to the repairs of the Tantamar Bridge," I have to state that I have attended to that duty, and am happy to inform His Excellency that the communication over that River is re-established, and the Contract for the completing and finishing the same was let on the 15th instant at Public Auction. I cannot now say with certainty the exact amount that will be required for the repairs, as part of the work was performed by Statute Labor,

Labor, and having become personally accountable for the Lumber furnished, the importance of re-establishing the communication rendered it imperative on me to do so instead of letting it at Public Auction. The injury to this Bridge was occasioned by an immense mass of Ice freezing solid to the Piles on the North bank of the River and the first Pier in the Channel to which the truss work is secured, so that it did not float until the Spring Tides of last month, and as the mass raised with the Tide it drew two tier of Piles from their places, carrying the Stringers and covering with them, and the weight of Ice pressing against the first Pier caused it and the adjoining one to settle towards the centre of the River, and the truss work to extend about ten inches over the two Piers. The Bridge over Jonathan's Creek was totally carried away by the freshet; a temporary one has been erected to suit present purposes. Several other smaller Bridges, Causeways, and Water Courses, have been more or less injured by the action of the frost and freshet. The probable amount, as far as I can ascertain, required to repair the above injuries, I herewith subjoin in the following estimate:—

Probable amount for repairs Tantamar Bridge, including Contract to complete same,.....	£125	0	0
Probable amount re-building Bridge Jonathan's Creek,.....	35	0	0
Probable amount repairing smaller Bridges, Causeways and Water Courses,.....	40	0	0
Wages of Man employed, say 2 months @ £7 10s. per month,.....	15	0	0
Total,.....	£215	0	0

The Bridge over Hall's Creek on the Road leading from Hayward's Mills to the Nova Scotia Line, ought to have a thorough repair this season, but having no adequate means I do not feel authorized to undertake it without instructions from His Excellency, as the above estimate required for the present emergencies will nearly absorb the whole grant on that line. This Bridge is built on Piles, and since its erection the Creek has widened and the banks cave or fall in, consequently has settled, and about two years since one tier of the Piles was carried away, and the other tiers have become loosened by the mud washing away; from enquiries and personal observation, I conceive the probable cost to repair it would be from sixty to eighty pounds.

I have further to state for the information of His Excellency, that no precautionary measures were taken by me to prevent the damage done to the Tantamar Bridge, as the accident happened before my appointment as Supervisor; and I conceive that no precautionary means could have been adopted to prevent the damage occasioned to the other Bridges, &c. by the freshet, as its rise was so sudden no person could be aware what Bridges or parts of the Road it would effect. I have also employed a skillful person to superintend the Tantamar Bridge during my absence.

I am informed by the Honorable A. E. Botsford, late Supervisor, that when his Warrant is paid at the Treasury, there will be a balance due by him to the Province of fifty or sixty pounds; and as the balance of the amount granted for the Great Road is so small, I beg leave to call His Excellency's attention to the subject, and that he will be pleased to order the said Supervisor to pay whatever balance may be due by him into my hands, to be expended on the Road leading from Hayward's Mills to the Nova Scotia Line.

I have the honor to be, Sir,

Your obedient servant,

BLISS BOTSFORD, *Supervisor.*

Hon. Wm. F. Odell, Secretary.

FREDERICTON TO PETITCODIAC.

Report on Road from Fredericton to Petitcodiac by Geo. Hayward, Commissioner.

Lincoln, 20th February, 1844.

MAY IT PLEASE YOUR EXCELLENCY,

Having been honored with the appointment of Commissioner for the Road from Fredericton to the Petitcodiac, by Salmon River, last year, I have now to Report, that as early as practicable after receiving my appointment, I visited the Road in question, to ascertain its state and condition.

Departing from Fredericton, I proceeded towards Salmon River, and to Bartlett's Mill Stream, nine miles from Fredericton, I found the Road turnpiked; thence to Little River, thirteen miles further, the Road has been cleared, by taking out the trees. At Little River there is a considerable Settlement and a Saw Mill. The Bridge formerly erected over Little River having been partly carried away, I deemed it necessary to repair it by taking down those abutments that had been undermined, and placing new ones where they had been wholly taken away. From Little River to Newcastle, nine miles further, the Road has been cleared by taking out the trees; thence to Salmon River, six miles, the Road has been turnpiked, and is passable for waggons. From Salmon River to Coal Creek, 6 miles, the Road has been opened and well grubbed. From Coal Creek to New Canaan, a distance of eighteen miles, the Road, with a few exceptions, has been opened by taking out the trees by the roots, and the work has been well done. Here the land is very poor, swampy, and not fit for agriculture. At the large and populous settlement of New Canaan, I found the Bridge over the New Canaan River falling down, and finding this a Bridge of importance, I expended fifteen pounds towards repairing the same, the inhabitants completing the work by voluntary labor. From New Canaan to the Great Road between Saint John and Dorchester, about fifteen miles, the Road is passable for a carriage, and is much travelled, there being a number of settlers; the land on this portion of the Road is tolerably good.

I would further beg leave to report to Your Excellency, that from Fredericton to Little River, the land is poor; the only settlers being those on the rear of the front lots in Saint Mary's and Maugerville; this part of the Road is not worth completing. From Little River to Salmon River, the land is somewhat better; and to keep up the communication between these two settlements, it would be advisable to improve this section of the Road, and the sum of three hundred pounds would be required to complete it. I have made five miles of this Road sufficient for Winter travelling, by taking out the roots and levelling it twelve feet wide, at an average of £8 10s. per mile. From Salmon River to New Canaan, the land is miserably poor, there are no settlers upon it, and no probability of there ever being any. I cannot recommend any further expenses on this portion of the Road, as it could not be kept in repair in Summer, nor kept open in Winter without a heavy expense to the Province.

From New Canaan to the Post Road, the present Road may be kept in repair by Statute Labor, there being a sufficient number of settlers to do so.

All which is respectfully submitted by Your Excellency's very obedient servant,

GEO. HAYWARD.

To His Excellency Sir Wm. M. G. Colebrooke, Lieut. Governor, &c. &c. &c.

DORCHESTER TO RICHIBUCTO.

Report on Road from Dorchester to Richibucto, by William Chandler, Supervisor.

Richibucto, 18th May, 1843.

SIR,—I have the honor of acknowledging the receipt of your Circular of the 8th instant, which only this day reached me. I have to Report, that no particular injury has

has occurred to the Roads and Bridges under my charge, (since I last reported,) to interrupt the communication. The frost and snow this season has left the Roads in an unusual good state. Last month I expended a small sum in the temporary repairs of the Cocagne Bridge, which renders crossing safe, and which I think will stand until it can be completed. I have let the repairs of this Bridge to be done by the first day of July next, which is as soon as materials can well be got ready and the work performed; the contract was taken at £68, which is extremely low.

I have not any person immediately in charge of any of the Bridges, as I am very frequently on the Road, and immediately on hearing of any accident, I repair to the spot.

I have expended some few days labour in such repairs as required immediate attention, and have advertized the letting at a Public Sale on the first day of June next, (which is about the time the public will have finished planting, and more at leisure,) the building of several new Bridges, and the widening and turnpiking of several lots, which is very much required on a great portion of the Road between Richibucto and Cocagne.

I have the honor to be,

Your obedient servant,

WILLIAM CHANDLER, *Supervisor.*

Hon. Wm. F. Odell.

SALISBURY TO HOPEWELL.

Report on Road from Salisbury to Hopewell, by James Wallace, Supervisor.

Coverdale, June 26, 1843.

SIR,—The Bridges on the Road under my charge has during the last Winter and Spring received but little damage; and the Road I have never known to have received less damage by the Winter and Spring freshets, so that twenty five pounds will repair all damages. We are in much need of money to make and improve our Road, as a great part of it is in a backward state, the former grants having mostly been laid out in building Bridges.

I have no Commissioners under me, consequently I have no Report to send from them, as required in your last Circular.

I have, Sir, the honor to be,

Your most obedient servant,

JAS. WALLACE, *Supervisor.*

A charge of 25s. for the Supervisor's personal services, staking turns in the Road, &c. is allowed, although the Auditor considers it not sufficiently explicit. When Supervisors charge for services beyond their Commissions, they should append full, clear and detailed Accounts of the services for which the extra charges are made. The Voucher from Mrs. Charlefour is not entirely satisfactory, herself and the witness both subscribing their marks.

The Account is satisfactorily made out and attested, and is supported by proper vouchers.

The charge for per centage includes the Grant to John Wilson for running a Steam Ferry Boat across the Miramichi, and although by established usage the Supervisors are in such cases allowed the per centage, the Auditor does not consider it, in his opinion, borne out by the 7th William 4, relating to Great Roads; he therefore refers it specially for consideration, and respectfully solicits an expression of opinion on the subject.

The Account is correctly made up and attested, and is supported by satisfactory vouchers, with the exceptions named in this Report.

Due the Province per Account,	£1 1 11

This Road has not been recorded as a Great Road, but 10 per cent. has been allowed on former expenditures.

The payment to Mr. Miles, and charge of per centage thereon, is of a like nature to the payment to J. Wilson, remarked upon No. 13, of this Report.

The Account is attested to, properly vouched, and correctly made up.

After having inspected the Road Accounts, the Auditor placed himself in communication by Letter or otherwise, with those Supervisors whose Accounts required amendments or explanations, by which means errors have been corrected, explanations furnished, and defective vouchers corrected in a number of cases.

The attested Accounts or the vouchers certify in all cases that the payments have been made in cash.

The Accounts of George Anderson and William Foshay, have not yet come to hand; when received and audited they will be included in a Supplementary Report.

In the Report upon Great Roads, dated 9th January, 1843, several deductions were made of the per centage charged in the Accounts for 1842, for over expenditures of the previous years, and which expenditures had been provided for in Special Appropriations, wherein the per centages were not included; and the Supervisors having in some instances re-introduced those charges into their Accounts for 1843, and in others appealed by Letter against the Auditor's decision, an expression of opinion on the subject is requested.

F. P. ROBINSON, Auditor.

The Account is attested, properly vouched, and correctly made out, but the Supervisor having omitted to certify that the payments were made in money, he has been written for a Certificate to that effect; of the £90 18 6 expended, £71 17 6 was expended in day's works; a Report accompanies the Account, wherein he states that much labor is required on the Road to make it good, and that several of the Bridges require repairs.

Mr. Anderson has not furnished his Account of Expenditures on the Road from Saint John to Saint Andrews, but in a Report from him dated the 26th of February last, he states that the Road is in good repair, and that he thinks £150 judiciously expended will keep it so, if the present line be adhered to; that in addition a new Bridge 300 feet long is wanted over the Bocabec, and several others want repairs; and that he has been prevented from preparing his Account by a tedious sickness, that he is much better, and hopes in a short time to be able to attend to it.

AUDIT OFFICE, APRIL 4, 1844.

Report upon the Account of John Jordan, Esquire, of Monies expended by him by order of the Executive, under a Resolution of the House of Assembly of the 23d of March, 1841.

By the Resolution of March 1841, as communicated to Mr. Jordan by the Executive, he was required to ascertain the balances due to certain parties on the Great Road from Saint John to the Nova Scotia Line, under their Contracts with B. L. Peters, Esquire, and to pay such balances from the Road Appropriations of that year for the same Road; he has produced an attested statement of the payment under the said Resolution of...

John Drummond's attested Account is furnished for the outlay of £14 17 6 by him under Contract with Mr. Peters, but the Account is not receipted,.....	14 17 6

	<hr/>
	<u>£119 17 5</u>

Mr. Jordan, in answer to an enquiry made of him, stated that the payments made by him on Account of the above were not charged by him in the Road Appropriations of that year, as he was led to believe that Mr. Peters would pay them; and when it was ascertained that such would not be the case, he had made Contracts that required the whole of the Appropriations to satisfy, and that he is in consequence lying out of the money; and the Auditor cannot find that those sums have ever been charged in any Account or Accounts rendered by Mr. Jordan or Mr. Peters.

			<u>£200 0 0</u>
Credit is given for amount of Warrant for Grant of 1843,.....	£200	0	0

The Commissioners must be surcharged with the sum paid for printing, which as the Law stands is inadmissible, and leaves this sum due by them—£1 13 6.

The charge for superintendence made by one of the Commissioners, is, in the Auditor's opinion, of an objectionable nature, and he refers it for special consideration, calling attention at the same time to the Letter of the Commissioners of the 10th January, 1844, explanatory of this charge and of the charge for printing. The Account is attested and properly vouched.

No. 2.	WILLIAM GARNET AND PETER SMITH,

When he shall have substituted satisfactory vouchers for the defective ones which accompany his Accounts, and until when he will stand charged with the whole amount of advances made to him, viz:—£123 12 6.

The receipts he furnished to support the Account are the receipts of the parties who performed the work, that they had received from the Supervisor his order on John R. Partelow, Esquire, Chamberlain, for the amount of their respective demands, without shewing that those orders had been either accepted or paid. One of the receipts is signed by D. C. Perkins, who acknowledges receiving an order from the Supervisor for £12 10s. on account of work performed by Richard O'Neil; to all which the Auditor solicits special attention, the procedure being, in his opinion, irregular, and the receipts defective without some further data to support them. The Account is attested to.

--	-----	----	---

The Account is correctly made up, and attested, and is accompanied by forty vouchers, forming a full statement of the items of expenditure in detail, duly receipted, and by reference to them the making, painting, and principal repairs to the Fences, and the painting the Roof of Government House, have been done by Contract; the balance by private agreement; and in all cases the labor and materials have been furnished at very reasonable rates. No charge is made by Mr. Wolhaupter for Commission.

The Account is accompanied by a Report from the Commissioner, to which special reference is particularly requested; and by an Account from Messieurs James Taylor and Company, for Discount paid by them to the Bank of British North America in July 1843, on the Warrant for £237, issued to pay their advances in 1842 and previously, as Commissioners of Government House: 5 per cent. discount on £237, amounting to £11 17s.

This Account is not vouched or attested, but the charge appears, under the circumstances of the case, to be an equitable one.

REPORT

Upon the Account of Benjamin Wolhaupter, Esquire, Commissioner for Public Buildings in Fredericton, for work done at the Public Buildings under his Superintendence during the year 1843.

This is Mr. Wolhaupter's Account for work done at the Province Hall during the past year, comprising a new Roof on one wing, Venetian Blinds, and fittings to the water closets, and sundry other repairs, &c., together with some small repairs to the Surveyor General's and Prothonotary's Office, amounting to the sum of £84 6 7

The Account is made up as follows :—

No. 1. James Ashfield, Bill for Carpenter and Joiner work, &c.,.....	£59	1	6	
2. A. Block, Plaisterer's Bill,.....	9	12	11	
3. Thos. Stewart, Hall Stove,.....	7	0	0

8. Edward O'Brien, Labourer,.....	0	15	0

Mr. Wolhaupter's Account, and Nos. 1 and 2 are sworn to, Nos. 3 to 8 inclusive are certified by the Commissioner to be correct and reasonable, and the Commissioner's Account, together with all the Sub-Accounts are correctly made out, and the charges for labour and materials are reasonable.

In Report A, the Commissioner states that he has not incurred any expense beyond what was absolutely necessary, and that reference to an accompanying Letter from the Clerk of the Assembly, Mr. C. Wetmore, will shew the necessity that existed of shingling the wing, and that the rottenness of the roof on the front part of the Building prevented his Painting the Roof of the Province Hall, and that the appropriation made for that purpose has not been drawn; he adds that it will cost about one hundred pounds to new shingle and paint the roof, and that this must soon be done, as the roof is in a leaky state.

The Commissioner also furnishes and calls attention to an Estimate and the copy of an Order of Council, respecting Tinning the roof of the Crown Land Office, which he states to be leaky, and apparently incurably so, with the present slate roof.

Total charge for Printing, &c. in 1843, per Account,.....	£1,305 5 0	

The Accounts are correctly made up, and the charges are much lower than last year; Mr. Simpson's Accounts for similar services in 1842, amounting to £1,998 9 4½. A large proportion of the saving is effected by the decreased number of official publications in the Royal Gazette; and of the residue, the lower rates at which the Royal Gazette and the Public Printing are charged, account for the greater portion.

The charge for printing Daily Journals is confined to the extra copies published over and above 400, viz: 200 to the House, and 200 to the Council; and in answer to a query put to Mr. Simpson on the subject, he states that £275 was appropriated for publishing the Daily Journals; and from former practice he states that the appropriation was intended to pay for the 400 copies; that in the years 1841 and 1842, £75 extra was paid for 200 extra copies; in 1843 the same sum is charged for 300 extra copies, leaving the appropriation as an offset against 400 copies of the 700 furnished; he also refers to the Report of the Select Committee of the 21st March, 1842, wherein the charge of £75 for 200 extra copies is stated to be in the opinion of the Committee a reasonable one.

Barker, and Medicines to the sick by Mr. Gale; that the Account for Medical attendance was chiefly incurred during the Summer of 1842, when from the prevalence of the Scarlet Fever among the Indians, his almost daily attendance at the Village in Kingsclear, and to an Indian Settlement in Saint Mary's, became absolutely necessary from the middle of June to the end of August, he having at times over forty Patients on his hands; and he adds, that the most equitable distribution of provisions, &c. has been made to the sick and aged, to the best of his belief, but that the strictly attending to their wants and investigating all demands for assistance to prevent imposition, causes much trouble and the sacrifice of considerable time.

This Account is correctly and methodically made up, and is supported by satisfactory vouchers.

No. 2. Is an Account from A. Reade, Esq., of the sums paid in 1843, for the conveyance of Expresses to and from Miramichi in connection with the disturbances in that quarter, and the move of Troops to Chatham and Newcastle, amounting to.....

	£49 15 0
--	----------

This Account is correctly made up, and properly vouched.

	£30 5 0

He credits,

--------------------------------	---------

Balance unpaid,.....	£0 5 0
----------------------	--------

This Account is signed by Mr. Robinson, and is correctly made up, it is unaccompanied by any vouchers, and in answer to the Auditor's enquiries he stated that he had not taken any.

No. 4. Is the Account of Lieutenant Colonel John Allen for expenses incurred in his mission to Miramichi in August and September, 1843, amounting to

	£34 2 5
--	---------

He credits,

This sum received from A. Reade, Esquire,.....	£34 2 5

No. 5. Is a farther Account of Colonel Robinson, for similar expenses, amounting to.....

	£18 18 9
Which is made up in like manner with the two preceding Accounts, and payment is acknowledged in the same manner,.....	£18 18 9

No. 6. Is the Report of John T. Williston and William Letson, Esquires, Commissioners of Sessions, upon six accompanying Accounts of expenses incurred to the

26th

26th December, 1843, in accommodating a Detachment of Her Majesty's Troops stationed at Chatham, made up as follows:—

Joseph Cunard,	No. 1,.....	£17	5	9
Wm. Letson,	“ 2,.....	20	3	6
George Kerr,	“ 3,.....	3	0	0
Gilmore, Rankin & Co.	“ 4,.....	8	4	0
Charles Carter,	“ 5,.....	3	18	0
George Johnston,	“ 6,.....	28	12	3
		<u>£81 3 6</u>		

The Committee state, that being appointed by the Sessions of the Peace for the County of Northumberland, a Committee to procure accommodation for Her Majesty's Troops stationed in Chatham, they undertook the duties required of them, procured commodious quarters of George Johnston, and as far as they could with a due regard to economy made the Troops as comfortable as possible.

That many of the Accounts may appear extravagant, but that in their opinion nothing unnecessary was procured, that the charges are as reasonable as the articles could be procured for, and that the charges hereafter will be much reduced as the principal articles of Furniture remain, of course, on hand.

That they refer George Johnston's charge for furnishing Officer's quarters and boarding them before they were prepared to furnish themselves, to be dealt with by the authority to whom the Auditing of the Accounts would be left, they not wishing to dispute the Account.

That they are about Tendering for Coal, Wood and Candles, for the Winter, or until the Troops may leave, should they leave before Spring.

They state farther in a Letter accompanying the Report, that the House they have for Barracks would accommodate three times the number at present quartered in it, and that the extent of the expense during the Winter will, they think, be from 80s. to 85s. per week.

The Accounts referred to in this Report are annexed to it, they are not receipted and do not appear to have been paid; they are correctly made up, and the supplies have, generally speaking, been laid in at reasonable rates; the supply of many of the articles appear however to have been profuse, among which class may be named Fuel, Candles, and Barrack fittings and Furniture; the charge of £4 17s. for furnished apartments and board for two Officers, appears to the Auditor to be a matter between Mr. Johnston and the gentlemen for whom the accommodations were furnished, and quite inadmissible in those Accounts.

No. 7. Is an abstract of expenses incurred for the accommodation of a detachment of Her Majesty's Troops while stationed at Newcastle, in the year 1843, as follows:—

John Nesmith,	Account No. 1,.....	£26	7	7
Thomas Drinan,	“ 2,.....	4	7	2
John Wilson,	“ 3,.....	5	16	6
Crane and Allison,	“ 4,.....	6	2	11
John Gifford,	“ 5,.....	0	11	6
Patrick Morrisey,	“ 6,.....	0	14	0
George Johnston,	“ 7,.....	29	12	3
James Ledden,	“ 8,.....	10	5	7
Daniel Witherell,	“ 9,.....	1	16	6
Peter Mitchell,	“ 10,.....	2	6	0
Duncan and Loch,	“ 11,.....	6	13	3½
Patrick Wall,	“ 12,.....	0	3	0
John M'Lauchlan,	“ 13,.....	2	18	6
T. C. Allen,	“ 14,.....	1	1	10
Thomas M'Mahan,	“ 15,.....	1	10	0
		<u>£100 6 7</u>		
	<i>Carried forward,</i>	£100	6	7

<i>Brought forward</i> ,.....		£100	6	7
From which deduct,				
Error in making up No. 2,.....	£0	3	9	
No. 7, twice charged, being the same as No. 6 in the Chatham Report,.....	29	12	3	
				<u>29 16 0</u>
Amounting, as corrected, to.....		£70	10	<u>7</u>

The abstract accompanying these Accounts is unsigned, and no Report has been furnished in explanation of them, although Messieurs John Fraser, James Nesmith and T. C. Allan, were a Committee to arrange for the reception of the Troops; the Accounts came under cover from Mr. T. C. Allan, whose Letter on the subject accompanies them, the Accounts are correctly made up to the extent of £70 10 7, and the same remarks as to profusion made respecting the Chatham Accounts apply to those; and although the Auditor does not feel himself competent to say what should be allowed and rejected, he solicits particular attention to the charge of 31s. No. 10, for the hire of a Feather Bed, and to the greater part of No. 2, for ferrying the Men to and fro across the Miramichi River by twos and threes, as particularly objectionable items.

No. 7½. Is an Account of Gilmore, Rankin & Co. for Provisions furnished the Soldiers on their arrival at Miramichi, amounting to..... £6 7 3

This Account is correctly made up, and Messieurs Allen and Robinson certify that the supplies were procured for the Troops on their arrival, and were, they considered, necessary for their subsistence.

No. 8. Is an Account of Henry Wallis for 1½ month Boat hire for the use of part of the 30th Regiment stationed at Newcastle, and amounts to..... £6 5 0

Colonel Allen certifies that the charge is correct, and that the hire of the Boat was authorized.

No. 9. Is an Account of A. Reade, Esquire, Private Secretary, giving the particulars of payments made by him from the Contingent Fund, connected with the move of Troops to Miramichi, and the Special Commission, and is as follows:—

Payments to Couriers, No. 2,.....	£49	15	0	
“ Colonel Robinson, Nos. 3 and 5,.....	48	18	9	
“ “ Allen, No. 4,.....	34	2	5	
“ Commissary Inglis, No. 1,.....	223	18	3	
				<u>£356 14 5</u>

No. 10. Is a statement furnished by Thomas C. Allan, Esquire, of Barrack Furniture, remaining on hand at Newcastle.

The apparent discrepancies and omissions in No. 1 Audit of 1843, were brought under the notice of the Treasurer, and have been either explained away by him or corrected in the entries of 1843. The Accounts of specific and ad-valorem Duties, and of other Receipts at the Treasury during the year 1843, have been furnished to, and checked by the Auditor, Quarterly. Remarks upon the two first Quarters' Accounts have been transmitted to the Treasurer, and he has answered them, and made corrections where necessary. The third and fourth Quarters have been checked, and the Auditor's remarks will be brought under the Treasurer's notice at an early day.

In reference to Report No. 2, on Auction Duties, the Queries put to the Treasurer and Deputy Treasurers, in a Circular from the Audit Office on the subject, appear to have been attended with beneficial results, as the arrears due from Auctioneers at the close of the year 1842, have been very generally paid up, and the returns and payments for the year 1843 have in general been punctually made.

The balances of the Treasurer's various Accounts are fully explained in his Balance Sheet, No. 146; a large amount still appears to be in the Attorney General's hands for collection, although it is materially reduced from the sum reported in the Audit of his Accounts for 1842, by the decision of the Courts respecting the bubble strength of Rum, as will be more fully shewn when reporting on his Accounts for 1843.

The Interest on Bonds given for Loans made by the Province to the Bridge Company,—the sufferers in the Burnt District,—to the Saint John Water Company,—and for the relief of the suffering Poor,—continues to be greatly in arrears, and is annually increasing in amount; some action of the Government on the subject appears to be imperatively called for.
