For U.S. President?

When Henry Ford was asked by Montreal reporters if he would run for President of the United States, he said, "I am not running for or against anything", but when asked if he would accept nomination if proffered, the motor car king replied: "No one knows what they will do from one day to another."
Mr. Ford is here seen in conversation with Mr. Grant Hall, vice-president of the Canadian Pacific Railway, at Windsor Station, Montreal.

A DISINTERESTED OPINION

Saturday's World contained an article concerning the new creosoting industry which is contemplating coming to Newcastle, and stated that a former resident of Newcastle had informed the "World" that he had come from a town in the United States where such plants are operated and that the air for miles around was polluted by the fumes of such plant, which was unpleasant and injurious to the health of those employed and also that the class of labor was of the lowest type such as Russians and Slavs. Alderman John Russell, manager of the Maritime Produce Company of Newcastle, which is a branch of the Maritime Hide Co., whose head office is in Victoriaville, Que., wired the President, Mr. A. A. Parody, who has furnished many railway ties to the same company (which purposes coming to Newcastle) at Trenton, Ontario, and who has personally been over their plant at that place, asking him to advise him immediately by wire if the report contained in the "World" was correct, and Mr. Russell has received the following telegram in reply:

"Creosote cannot be much nuisance; labor employed should largely be yours."

(Signed) A. A. PARODY
No doubt Chatham would have liked it had been selected for the location of this new industry. Had such been the case, a great whoop would have gone forth from that community. If the proposed new creosoting plant becomes a nuisance, Newcastle will take care of that when the time arrives, and Chatham need not worry. We have yet to learn of a creosoting plant being ordered out of any community.

SEWING CIRCLE GOSSIP

There was some discussion at the Circle this week as to the time of day when a cup of coffee tastes best. Some said one time and some said another, but we were all agreed that a good, strong cup of LUXOR coffee was more than acceptable at any time. LUXOR seems to be growing in favor among "circle" members every day. We circle members do love our coffee.

A FLAT CONTRADICTION

The following telegram received by us today is Self-explanatory and strongly refutes Chatham "World's" statement.

Toronto Oct. 9th 4:45 p. m.
Union Advocate
Newcastle, N. B.

Our attention has been called to Editorials in Semi-Weekly "World" of Chatham dated October Sixth in which it is stated that operations on Creosoting Plant pollutes the air by reason of the fumes from Plant and otherwise intimating that plant would be a nuisance and that only foreigners of the lowest class could work in same.

There is absolutely no truth in such allegations made in Editorial.

No objections or complaints of any kind have been made as a result of our plants operating in Trenton, Ontario for upwards of eleven years and in Sudbury, Ont. for three yrs. and North Transcona Manitoba for two years, all plants immediately adjacent to municipalities.

Would ask you to give publicity to this communication and would be glad to have you make enquiries of above places which will fully substantiate all statements.

(Signed)

Tid-bits on the Tip of Everybody's Tongue

Vol. 1 No. 8 NEWCASTLE, N. B. OCT. 9, 1923 FREE

London, via Liverpool:

The S. S. Digby carried with her when she sailed a substantial shipment of Moir's Chocolates for the Motherland. Which is quite in keeping when you remember that mothers like Chocolates.

But sometimes we forget.

That's a good idea of the Mission Priest's—he advises the men folk to bring home a box of chocolates to their wives occasionally, just as when they were sweethearts.

If Cleopatra lived up to her press notices she was a beauty. That's why, perhaps, Moir's Cleopatra Biscuits are so named.

Say it with sweets.

PROF. LISCOMBE ENTERTAINED LAST EVENING

Last evening in St. James' Hall the congregation of St. James' Presbyterian Church entertained and made presentations to Prof. F.J. Liscombe, on the eve of his departure to New York City. During a raising program, the Professor was presented with a purse of gold by Mr. J.M. Troy, on behalf of the Church Board of Trustees and with a silk umbrella by Mrs. Annie Sweezy on behalf of the church choir.

Mr. Liscombe, who has been organist and choir Master of St. James' Church for the past two years, has resigned his position and left for New York this morning. Personal business interests in New York City has reluctantly called Mr. Liscombe from Newcastle and his loss will not only be keenly felt by St. James' Church, but by the entire community. Since his coming to Newcastle, the musical atmosphere of the town has had a pronounced tendency upwards and being a gentleman of high musical attainments was always ready and willing to assist in uplifting the musical standards of the town.

It is possible that Mr. Liscombe may again return to Newcastle during the winter months and resume his position as organist of St. James' Church and also his class of pupils.

If such occurs Mr. Liscombe will again be heartily welcomed in our midst.

The following is the program carried out last evening:

Remarks—Mr. J.M. Troy, Chairman.
Duet—E. Ryder and D.J. Gulliver.
Violin Solo—Mrs. Codner.
Solo—C.M. Dickison.
Duet—Prof. Liscombe and C.M. Dickison.
Solo—D. J. Gulliver.
Presentation and address by Mr. J.M. Troy on behalf of the Board of School Trustees.
Presentation—Mrs. Sweezy and address by Mr. D.J. Gulliver on behalf of Choir.

Remarks—Prof. F.J. Liscombe.
Remarks—Rev. L.H. MacLean
Solo—Mrs. L.H. MacLean.
Refreshments.

God Save The King.

BIG MONEY IN CRANBERRIES

Cape Cod's champion cranberry picker is Everett Cahoon of West Dennis. One day recently he picked 25 barrels of berries in four hours and 50 minutes. Other expert pickers are earning from \$75 to \$100 a week. The average day's work is about five barrels per day.

GOING TO QUEBEC WITH PREMIER

Hon. J.E. Michaud, member of the government without portfolio, and T.P. Regan, K.C. of St. John's president of the N.E. Automobile Association, will accompany Premier Veniot to Quebec this week for an interprovincial conference to be attended by Premiers and ministers of public works of the various provinces.

Following the meetings in Quebec the Provincial Premiers, ministers and others are to motor to Fredericton via River du Loup and Edmundston. The trip will cover 372 miles and upon arrival on October 12th the New Brunswick government will host a luncheon.

YOUNG - ADAMS CO. HERE NEXT WEEK

At The Opera House, Newcastle Monday Tuesday and Wednesday, Oct 15 th, 16 th & 17 th.

The most popular show to visit Newcastle, headed by H. Wilmot Young and Marjorie Adams, known to all will be here and give us a real treat. Mr. Young has long catered to Newcastle and has never failed to please his hearers and patrons. Marjorie Adams this year has a wonderful play in the opening play, particularly Dora Dean, after the book, perhaps a more appropriate title would be, modern Cinderella, for that is just what she is.

Miss Adams has some wonderful dress creations as usual. This always appeals to the gentler sex and we notice that the men, too, are good lookers when something nice appears.

There will be six vaudeville acts this year, and all new. No tiresome waits between the acts. Mr. Young promises something doing all the time.

Tuesday night will be thrill night when New York's latest sensation "Spooks" will be presented. There perhaps is no one but what is interested in ghosts or haunted houses or fortunes and wills. Spooks is a revelation and the audience are requested to be in their seats when the curtain goes up as none will be allowed to enter during the first act, but no matter what happens during that act you are requested to keep your seats.

Look out for thrills on Tuesday night. On Wednesday night "The Girl Without a Chance" Marjorie Adams biggest hit in years will be presented. This play was especially written for her and is considered the most wonderful of all melodramas, brim full of comedy and reeking with sensation.

Popular prices will prevail during the three night engagement with a complete change of play and vaudeville each performance.

Remember the dates—Oct. 15, 16 and 17th.

Picture Is Thrilling

"The Pride of Palomar" Has Theme of General Interest

Here's a thrilling motion picture story. A young American returns from the war expecting to be welcomed to the family ranch in California only to find that it has fallen into unscrupulous hands. What would you have done in his place? What did he do? Well, he had Irish blood in him, so you can undoubtedly imagine that he made things mighty interesting for those who opposed him. Perhaps you've read of it. You have, if you've read "The Pride of Palomar," Peter B. Kyne's great story, which appeared serially in the Cosmopolitan magazine. Now it has been adapted to the screen by the Cosmopolitan Productions for Paramount. Forrest Stanley and Marjorie Daw are the featured players in this big production, which is coming to the Opera House Wednesday and Thursday next. Frank Borzage, creator of "Humoresque" directed.

Big Harvest Festival and Auction, Newcastle Rink, on Thursday October 18th. Games and amusements of every description. Everybody welcome.

There's Danger IN THE SIMPLE CUT

Your injury may be just a simple scratch, a cut, bruise, burn or scald; but it needs prompt treatment with zam-buk. Neglect and delay leaves broken tissues open to dangerous germ infection and ulceration, blood-poison or even chronic eczema.

Keep zam-buk always handy! This powerful herbal antiseptic applied to broken, chapped, burnt or lacerated skin is instantly effective. It ends all smarting pain and inflammation, makes tissues germ free and germ proof and ensures rapid perfect healing.

Mrs. Valmor Savaria, Moreau St., Montreal, writes:—"I cut my finger to the bone while working an electric machine. The wound went the wrong way and became badly festered."

"It was surprising how quickly zam-buk stopped the pain. I persevered with the balm, and the wound which for weeks had denied all other treatment was healed perfectly. I shall never forget how zam-buk saved my finger."

In a hundred other emergencies of skin disease or injury, you will find zam-buk invaluable. Alchemists 50c box.

EMBARGO OR HARD TIMES

Sir,

So much valuable space has already been given up by the press of Canada to the cause of forest conservation that I shall refrain from attempting to answer the columns of specious and factitious statements that have recently appeared in some newspapers in opposition to the proposed embargo on the exportation of unmanufactured wood. These so-called arguments have been answered time and again in the press. If their authors have not been convinced there is nothing that anyone can say at this time that will convince them. I will, however, ask your indulgence to put two or three questions that will perhaps do more to make the matter clearer to the people than any long columns of statistics could do.

In one of my recent letters that

ONE 50c BOX BROUGHT HEALTH

Years of Constipation Ended By "Fruit-a-lives"

The Wonderful Fruit Medicine

Anyone who suffers with miserable health; who is tortured with Headaches; and who is unable to get any real pleasure out of life; will be interested in this letter of Mrs. Martha de Wolfe of East Ship Harbor, N.S.

Mrs. de Wolfe says, "For years I was a dreadful sufferer from Constipation and Headaches and I was miserable in every way. Nothing in the way of medicine seemed to help me. Then I tried 'Fruit-a-lives' and the effect was splendid; and after taking only one box, I was completely relieved and now feel like a new person."

50c a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-lives Limited, Ottawa, Ont.

has been printed in practically every leading newspaper in Canada. I asked this question: "Is there a man or woman in the whole Dominion who will say that it would not be better for the country to have our pulpwood manufactured at home, thereby leaving \$50 in the country for every cord of wood instead of having it exported and leaving only \$8 to \$15 per cord which is now being obtained?"

Despite the very wide publicity given to this question no has yet undertaken to answer it.

I will now further ask? Is there a man or woman in Canada who is satisfied with living and business conditions as they now exist?

What is being done by the Provincial or Dominion authorities to bring about any improvement?

The next question naturally suggested is, "How can such a change be brought about?" My reply is that such an improvement can be brought about by increasing the number of our industries thereby providing employment to a larger population and creating better markets for agricultural products.

In building up manufacturing industries we build up the agricultural industry as well, which is of greater importance now than ever since the United States has placed an embargo on our farm products, cattle, fish, etc.

The next question is "How can we secure these additional industries?" The answer to this is that they can be secured in no earlier, quicker or less expensive way than by the very simple process of the government at Ottawa passing an Order-in-council to prohibit the export of unmanufactured wood from Canada.

I personally know of at least three pulp mills that would be built in one of our provinces if such an embargo was put in effect and other pulpwood provinces would doubtless fare as well. This would lead not only to still other pulp mills being built but also to the establishment of additional industries which would necessarily follow in their wake.

Competition for the purchase of pulpwood under these circumstances would become so keen among the home mills that such wood would advance in value and not decrease as some of the American interests are trying to make the farmers believe. If there is a farmer in Canada who really believes that such an embargo would not add to the

AUGMENTED LOAN FULLY SUBSCRIBED

Ottawa, Oct. 2.—The amount of the Dominion of Canada loan has been increased from \$172,000,000 required for refunding purposes to \$200,000,000. In a statement issued, Finance Minister Fielding announced that he had decided to accept the offer of the Canadian syndicate which has been in charge of placing the bonds, increasing the amount by \$28,000,000. The additional amount is to be used for the repayment of certain temporary loans.

The full sum of \$200,000,000 has been subscribed and the books for applications have been closed. Mr. Fielding says in his statement, "Apart from the war loans, this is the largest piece of Government financing ever carried on successfully in any of the British Dominions."

He regards the success of the loan as evidence of the stability of Canadian institutions and the determination of Canadians to prove their faith in Canada.

THE HOME BANK

It is announced that the depositors of the defunct Home Bank of Canada will shortly receive an initial payment of 25 cents on the dollar. In all they may receive a total of forty cents. The double liability will be collected from all of the stockholders. The failure of this bank is one of the worst in history of Canada, and it looks as if the directors and officers must have spent some sleepless nights while the Bank Act was under consideration during the last session of Parliament.

It has been shown that the president unloaded 1000 shares of stock between January and May and the \$1,000,000 belonging to the C.N.R. was deposited on May 25th and with drawn on June 2nd. It now turns out that the Bank owed provincial governments \$2,276,538. In May an increase of over a million dollars within a month. A thorough investigation of the affairs of this bank would seem to be in order.

value" and demand for his timber land and his wood then that man is lacking in the acumen that should characterize the average Canadian farmer.

When Canada is still called a "young country" it reminds me of the man who raises a colt and begins by calling it "the colt" and the animal continues to be called "the colt" as long as it lives. Canada has been settled just as long as has the United States. The U.S. has a population of one hundred and twenty million people while Canada has less than nine million. We have been largely exporters of raw materials which they have manufactured and grown rich on. Americans to-day are operating nearly fifty pulp and paper mills in the U.S. with a daily capacity of one hundred tons newsprint each, wholly on Canadian raw wood. We supply the U.S. with the most precious of all raw materials. We are used as a dumping ground for their surplus products and have an embargo placed by them against our farm products, cattle, fish and in fact everything that we would really like to export.

Verily, "Yes, we have no brains to-day."

If the people of Canada are satisfied with present business and living conditions and do not want any change for the better then there is nothing more to be said, but unless my hearing has become defective and my eyesight is failing this is very far from being the situation.

Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes:

"I had trouble with my kidneys and very frequent urination. This was followed by pains which at times were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. To this I refused, and began using Dr. Chase's Kidney-Liver Pills. From the first few doses I felt the benefit. The pains left, urination was corrected, and I have had no recurrence of these ailments."

For the Best Titles to This Picture A. D. Farrah & Co. will Award Four Prizes \$15, \$10, \$5, \$3.

CONDITIONS:

(Please read these conditions carefully and conform to them exactly)

By "Best" is understood that title which most cleverly and briefly describes the picture above.

The contest is now open and open to everybody, and will close Saturday, November 10th, at ten o'clock in the evening.

Titles may be original, or may be a quotation from some well known author. They should not exceed twenty words each. Contestants may send more than one title but not more than four.

Name of paper or circular number in which you read this advertisement must be mentioned.

All titles should be addressed Advertising Manager A. D. Farrah & Co. Box 115 Newcastle.

Envelopes should contain nothing but the competing titles plainly written. Using one side of paper only, the date, name and address of the sender on opposite side.

Should we have duplicates of any of the winning titles priority of date of receipt will be given precedence.

Titles are judged by Messrs G. P. Burchill, Leonard O'Brien, R. P. Giberson, David Ritchie, and Eugene Connelly.

Final award will be announced as early as possible after the close of the Contest.

The members of A. D. Farrah & Co. staff will not compete.

(Mail Your Title To-Day)

Dazzling Values For Fall Wear

Boys Mackinaw Coats \$4.95

All wool mackinaw cloth in brown, dark blue and olive check. Sizes 26 to 35.

Women's Stockings \$1.25

Low Shoes demand not only stylish stockings but warm ones as well. These beautiful ribbed wool stockings answer both purposes. They are shapely and comfortable and reasonably priced

PREJUDICE, JEALOUSY OR WHAT?

After reading the article in the Chatham World, which condemned the new creosoting plant which has decided to locate in Newcastle, and which also stated that the property owners who had given options to the company were intending to have same cancelled, one of the residents of Newcastle who has given an option on a portion of his property to the new company made a trip to Chatham yesterday morning to interrogate the "World" as to the source of information and the correctness of same. He was informed at the World Office that they had nothing to say regarding the matter excepting that it was a rumor and were unable to give any information regarding the source of such rumor or its authenticity.

This is surely a case of knocking without justification, except it be jealousy and newspapers which resort to such tactics cannot expect to be regarded seriously in the future. There is so much of this kind of work going on now-a-days, that it is no wonder many people are becoming disgusted with modern journalism. The spreading of such propaganda is deplorable and any paper which does so, should have no difficulty in solving the reason, why its circulation, instead of increasing, is steadily on the decline. It is little wonder that the Miramichi district is standing still in almost every particular when one section is actuated by prejudice, jealousy or something akin, against the other, instead of working in harmony and assisting one another in every respect. What is helpful to one section is helpful to all and until this fact is recognized by our sister town, (which appeared to be so extremely sorry in the "World" article for Newcastle, because there was a possibility of losing the industry) the Miramichi will continue to remain standing still, and the ambitions of our progressive people will be thwarted by the knockers. It is much more creditable to assist than to injure.

CARTOONIST DEAD

Mr. J.W. Beggough, the noted Canadian cartoonist, and once publisher of "Grip" a humorous paper which, in the days of Sir John Macdonald, devoted much attention to public men, died last week at his home in Toronto.

PILES

Do not suffer from PILES. Dr. Carter's Ointment will relieve you in 30 days. It is the only medicine that cures PILES. It is sold everywhere.

Let Us Keep What We Have And Be True To Ourselves, And The Empire.

At various times, in recent history efforts have been made, in some way or other, to exploit Canada for the benefit of the United States, and to bring us under control of commercial interests in that country, with the plea that it would be to the mutual benefit of both nationalities.

Now, shipping and other United States concerns, have cast a long eye upon our waterways, and it is boldly hinted that it would add to our friendly relations, if we would denationalize our St. Lawrence River and give at least a joint control to the power to the South of us!

The gall of the idea is so stupendous, that it cannot be taken for "Yankee bluff." They mean it, and their press is not slow to emphasize it, while State commissions have given voice to their desires in the matter. The St. Lawrence River is among the most valuable of our national assets, it is all Canadian leading to our greatest ocean terminal, the city of Montreal, and great industrial power can be developed along its route, almost equal in value to its wonderful capacity as a waterway for ocean going vessels of heavy tonnage, and it should be remembered that great as the present traffic is, even with present facilities, there is every provision, for still larger business by way of the St. Lawrence. It is to gain possession of this, that Americans have launched a waterways scheme, under the high sounding claim of "international development."

New York is principally concerned in the States end of the question or scheme. That city not satisfied with having the broad Atlantic at its front door, would like to have a deep waterway at its back door, to add to its greatness as an ocean port—the greatest in the States. A canal deep enough for ocean going vessels, which would utilize various other States, waterways, make interlake channels, deepen various rivers, and finally reach the St. Lawrence, which is to be newly canalized and used by American interests as well as Canadian, thus giving in fact, a joint ownership of the St. Lawrence to the States. That is just what the whole American idea and scheme amounts to. For aught they care, the vast expenditure of Millions of Dollars which Canada has lavishly and patriotically spent; the immense canals we have created, and the expenditures of year after year, ungrudgingly voted to maintain the superb position of our noblest river, as a great trade route, may all go to the scrap heap, and America is to be accommodated with a new ocean route, a new canal system, use of our River, to help out which scheme, Canada is to pay out more millions of dollars and heap more taxes upon an already heavily taxed people. Of course the disinterested folks across the border, kindly say they will pay for their end of the scheme and Canada can pay for her end. The Canadian end would be something like five hundred million dollars, the giving away of part of our national heritage, and an absolutely false step, the sacrifice of our national and natural rights. "Come into my parlor, says the spider to the fly," but Canada is not ready to commit that species of suicide. To allow the St. Lawrence to be used for such a scheme, would be an abandonment of commercial independence and national ownership.

Newspaper reports clearly enough indicate, that our government at Ottawa, is to be approached in favor of the scheme. We should never think, that our Dominion government would show any favor to the United States. On the contrary, we fully hope

and expect, that they will not even afford it the "scant courtesy" of consideration. Governments are only human, and do many things sometimes which may cause discussion and antagonistic feelings, but it is impossible to believe that our representatives could become so idiotic as to abandon every instinct and inspiration of true Canadianism and yield to, or support such a project of national destruction, as this abominable waterway project would inevitably carry out.

As a sample of American desires in the matter, we quote the following:—From New York we have the following declaration. "There should be a cession of territory the entire length of the St. Lawrence River, five to ten miles back from the river. Under American Control, and with the power of the St. Lawrence made available, the area would become one of the greatest industrial districts in the world." To use a little American slang, we might add, "You don't say! but that strip will never be ceded, and it will not come under American control, not for Joe," while Canada retains her senses. We have full ownership, and we will keep what we have.

From all over the States, words to the same effect, ideas of the same import, have been expressed. Chicago, by the American scheme—in which they ask Canada to assist, would be another great seaport on the St. Lawrence, or just as favorably placed by their proposed canal system. Then a blow would be struck at Montreal, and our two splendid Atlantic ports, St. John and Halifax would feel the effects, as Chicago boasts, she would be able to have ocean going vessels from all nations coming up the St. Lawrence, through the new deep canal, as the Canadian river would become an American route, by the proposed waterway system.

We trust the day is forever distant, when any government in our Dominion, would dare to enter into any international intrigue with the States, which would in any way give the Americans what they want in this case. The huge expense of it, is something which Canada cannot undertake and even in a partnership affair, our ten million of a population would have a poor show with the hundred and ten million who call themselves "the biggest nation on earth, able to lick all creation." This is not partyism; it is not party politics; but it is true Canadianism, which should govern the hearts and administration of our people from the Atlantic to the Pacific. If Canada is millicent of money to spend on great national undertakings, plenty of opportunity can be found all over our wide national domain, and not only Montreal, but other great Canadian seaports should be fairly dealt with, to the benefit of the whole country. As Atlantic seaports, open the whole year round, St. John and Halifax should be assisted and developed to the fullest extent of our power and Quebec should not be neglected. They are the most important eastern gateways to this Canada of ours capable of vast improvement and all this is Canadianism, not party politics. We care not whether the party in power be Conservative or Liberal, the people of Canada, should rise in their might and hurl their ballots against any government supporting or favoring any other waterway system, than what is our own. We want no joint ownership, no joint control, no international development, which will in any way interfere with our absolute and uncontrolled ownership. On this question, our only reply should be Canada for Canadians, true to our own national interests, and the welfare of the great Empire of which we form an Imperial part.

"Corona" Ranges

Built Stronger to Last Longer

The "CORONA", an all Steel range constructed of extra heavy material and with all modern conveniences. It has a large roomy oven, extra long fire box, a heavy steel plate between back lining and oven and the folding hot closet door, something not found on any other range and a great convenience to the house wife.

The Reservoir is made of heavy tinned copper, which cannot rust, and is enclosed thereby allowing the water to heat quicker and stay hot longer, in fact, the Corona is a "Better Built Range" than the ordinary and if you are thinking of buying a Range, we kindly ask you to call and let us show you why the Corona is better.

We also carry a complete line of Fawcett Heaters in all sizes, styles and prices.

Mr. and Mrs. Mauns Aitken, who were guests last week of their brother, Mr. Ira McAfee, returned to their home in Toronto on Saturday. They were accompanied by Miss Viva McAfee, who will be their guest in Toronto for a few weeks.—Woodstock Sentinel.

WEDDINGS

MASON-BERNARD

In St. Mary's Presbytery at 2:30 o'clock on Wednesday afternoon Miss Clare Quinn Bernard, daughter of Mr. and Mrs. James Bernard, and George Milton Mason, son of the late Mr. and Mrs. Frank Mason were united in marriage by Rev. P.W. Dixon.

The bride looked lovely in a travelling suit of blue pique twill, black velvet hat with ostrich trimmings and squirrel choker. She was attended by her sister, Miss Ella Bernard, who wore a blue serge suit, black hat and squirrel choker. The groom was supported by Wilfrid Roman. After the ceremony, dinner was served at the home of the bride's sister, Mrs. Frank McNeil, to the immediate relatives. The happy couple left on a trip to Montreal, New York and Boston, and on their return will reside on Highfield St. Moncton.

The bride was the recipient of a large number of beautiful gifts. She has been for the past few years on the clerical staff of the J.D. Creaghan Co. Ltd., and was one of Newcastle's most popular young ladies. The groom is a conductor on the C.N.R. The groom's gift to the bride was a string of pearls, to the bridesmaid, a gold chain and pendant, and to the groomsmen gold cuff links.

STEWART-HUBBARD

On Thursday evening, Sept. 20th, the home of Mr. and Mrs. Joseph Hubbard, Redbank, N.B., was the scene of a very pretty wedding, when their daughter Mary E. was united in marriage to Albert A. Stewart of Sunny Corner, in the presence of many immediate relatives. At five o'clock the bride entered the parlor on the arm of her father, to the strains of Lohengrin's wedding march, played by Norman Sutherland. The ceremony was performed by the Rev. Wm. Girdwood. The bride looked charming in a dress of white satin and wore a bridal veil and white roses and carried a bouquet of sweet peas and maiden hair fern.

The presents were numerous and beautiful, consisting of silver, cut glass, china and many other useful articles. Their many friends wish them happiness in their new life. Mr. and Mrs. Stewart will reside in Redbank.

W.C.T.U. Open Cam- To Rout Tobacco

Chicago, Sept. 23—Leaders of the Women's Christian Temperance Union announced today at the annual Cook County convention here that they planned to launch a national campaign to rout tobacco.

"The next job for the women now that the question of prohibition is settled is the fight against tobacco," said the Rev. M.P. Boynton. "Nicotine poisoning is killing thousands and ought to be opposed as vigorously, intelligently, scientifically and courageously as alcohol has been opposed in the past.

A heart retaining nicotine cannot resist ptomaine poisoning."

Baby's Own Tablets An Excellent Remedy

When the baby is ill—when he is constipated, has indigestion; colds, colic or simple fever or any of the other many minor ills of little ones the mother will find Baby's Own Tablets an excellent remedy. They regulate the stomach and bowels, thus banishing the cause of most of the ills of childhood. Concerning them, Mrs. E. D. Duguay, Thunder River, Que., says:—"My baby was a great sufferer from colic and cried continually. I began giving him Baby's Own Tablets and the relief was wonderful. I now always keep a supply of the Tablets in the house."

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

COMPLAINTS RE BURNT LANDS

From a number of parties complaints were received by the Government that operators holding these leases on lumber lands which had been burned in the forest fires of last spring and summer, although not in position to operate them selves in salvaging fire-killed timber, also had refused to sell stumpage to other who were desirous of operating. The decision reached some time ago was that operators unable to get out the timber must let some one else do it. The Government will give consideration to the matter.

C. N. R. TIME CHANGES EFFECTIVE SEPT. 30TH.

Changes In Schedules on Loggieville Branch and on Fredericton Sub Division.

Changes in time schedules on C.N.R. lines affect some of the train services in and out of Newcastle. No. 4 Ocean Limited will arrive at 2:15 p.m. and leave for Moncton at 2:20 p.m.

On the Loggieville Sub Division trains will leave Loggieville for Chatham and Newcastle at 6:40 a.m., 9:40 a.m., 12:45 p.m., 3:35 p.m., and 11:20 p.m. daily except Sunday. Trains will leave Newcastle for Chatham and Loggieville at 12:40 a.m. (daily except Monday) and at 7:45 a.m., 11:05 a.m., 2:30 p.m. and 4:40 p.m. daily except Sunday.

No. 27 train will leave Newcastle for Fredericton at 8:05 a.m. No. 28 will leave Newcastle at 6:35 p.m. and arrive Newcastle at 12:20 a.m. These trains will run into Stanley and the motor car service on the Stanley Branch is discontinued.

Trains 237 and 238 will run on Tuesday Wednesday and Saturday instead of on Tuesday, Thursday and Saturday as at present. The time of these trains remains unchanged.

The Junior Women's Club of St. James's Church will hold a BEAN SUPPER in St. James Hall, on Hallow E'en Night, October 31st, from 5 to 7 o'clock. Admission 35c.

The public is cordially requested to attend. This will be an excellent opportunity to procure your supper on this evening, thus saving time for the usual sports held on Hallow E'en

NEW LAMP BURN 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean safe. Burns 94 p c air and 6 p c common kerosene (cool oil). The inventor, J. M. Johnston, 216 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Wonderful Tea!

Users of KING COLE Orange Pekoe are frequently heard to remark: "It's really wonderful tea." This is not particularly in reference to its outstanding quality although that is necessarily included, but is due to the wonderful way it "spends." For KING COLE Orange Pekoe is a rich liquoring tea as well as a deliciously flavorful one. Skillful blending combines these two great tea qualities for your enjoyment.

"The Extra in Choice Tea."

MRS. ANDERSON TELLS WOMEN

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

Leslie, Sask.—"For about a year I was troubled with a distressing down-bearing pain before and during the periods, and from terrible headaches and backache. I hated to go to a doctor, and as I knew several women who had taken Lydia E. Pinkham's Vegetable Compound with good results, I finally bought some and took four bottles of it. I certainly do recommend it to every woman with troubles like mine. I feel fine now and hope to be able to keep your medicine on hand at all times, as no woman ought to be without it in the house."—Mrs. OSCAR A. ANDERSON, Box 15, Leslie, Sask.

Mrs. Kelsey Adds Her Testimony
Copenhagen, N. Y.—"I read your advertisement in the papers and my husband induced me to take Lydia E. Pinkham's Vegetable Compound to get relief from pains and weakness. I was so weak that I could not walk at times. Now I can do my housework and help my husband out doors, too. I am willing for you to publish this letter if you think it will help others."—Mrs. HERBERT KELSEY, R.F.D., Copenhagen, N. Y.

Sick and ailing women everywhere in the Dominion should try Lydia E. Pinkham's Vegetable Compound before they give up hope of recovery.

ALL OPPOSED TO PLACING EMBARGO ON PULPWOOD

Halifax, Oct. 2—Eight Nova Scotia witnesses who appeared here today before the opening sitting of the Royal Commission on pulpwood declared themselves opposed to any thing in the nature of an embargo against the export of pulpwood to the United States.

The witnesses were C.W. Anderson, M.P.P., Sherbrooke, Guys-boro County, Thomas C. Bateman, Annapolis; Ralph Bell, Halifax; Davidson Hill and Alfred Dickie; Mr. Boutilier, Tusket; B.E. McDonald, Margaree Forks, Cape Breton; Donald McDonald, Briton Cove, C. B.; Ralph Bell, Halifax; gave the following as reasons: pulp mills were not erected in Nova Scotia—Total stand in Nova Scotia was too small. 2—Water powers were inadequate. 3—Timber was scattered and not enough in definite localities to make operations profitable.

4—It was more profitable to maintain plants close to market than to the wood. Mr. Bell suggested for conservation purposes a Dominion forestry commission composed of practical men within the industry and similar controlling bodies in each province with wide powers and scope, the industry paying for the conservation and protection, and having a direct voice in the administration. The commission will sit in Halifax most of this week and will open sittings in New Glasgow, October 8th, in North Sydney; Oct. 11, in Digby; Oct. 13, in St. John; Oct. 15, and in Fredericton Oct. 17.

COMPLAINTS RE BURNT LANDS

From a number of parties complaints were received by the Government that operators holding these leases on lumber lands which had been burned in the forest fires of last spring and summer, although not in position to operate themselves in salvaging fire-killed timber, also had refused to sell stumpage to other who were desirous of operating. ELECTRIC CURRENT AS CURE FOR CANCER

High frequency electric currents have been developed as a positive cure for cancer of the head, neck, face, nose, throat, mouth and other orifices of the body, where the knife is of no avail, it was announced at the opening of the Central Society of Physical Therapists, at the Hotel Lasalle, Chicago.

Dr. T. Howard Plank, opened the convention with his paper, in which he told of numerous cures. Members of the organization from all sections of the country eagerly discussed his success with the Chicago physical and watched with intense interest his slides demonstrating it.

APPEAL IN EXPORT LIQUOR CASE

Hearing of the appeal which has been instituted by the province from the decision of the Supreme Court of Canada in the case of the Provincial Secretary Treasurer vs. the Security Liquor Export Co., Ltd., will not take place before the Privy Council until February.

This appeal which has been brought in order to determine the validity of the New Brunswick Liquor Export Tax Act, and resulted from an action involving some \$60,000, was expected to be heard next month, but owing to the necessity of obtaining the respondent's consent and other delays, the Privy Council hearing will stand over until the February term.

The case has already been tried in the Supreme Court of New Brunswick and the Supreme Court of Canada, and a dissenting judgment was rendered in the latter instance.

Dr. T. Carleton Allen, K.C., Deputy Attorney General, expects to go to London, when the appeal comes before the Privy Council.

DIRECTORS OF HOME BANK UNDER ARREST

Toronto, Oct. 3—P. J. Daly, president of the Home Bank warrant for whose arrest was issued following the presentation of the report by Curator A.B. Barker is in the custody of a provincial officer at his summer home on Lake Simcoe.

His physician advised the authorities that Mr. Daly was too ill to be moved. The warrant for the president's arrest was taken out by the federal finance department. His bail has been fixed at \$100,000.

R.P. Gough, vice-president of the bank for whose arrest the provincial authorities produced a warrant gave

Relived Rheumatism Too, Says Contractor

Thousands of people everywhere have learned of Tanlac through the statements of others and have taken the treatment with such splendid results that they in turn deem it only fair to relate their experiences for the benefit of suffering humanity. Such is the case with L. Desormeaux, well-known Electrical Contractor, living at 1006 Berri St., Montreal, who says:

"I couldn't do otherwise than publicly endorse Tanlac for I am lucky to find out about the medicine the same way myself. For nearly a year I suffered from indigestion, and also rheumatism in

my legs. About a month ago I was laid up in bed for two weeks with this rheumatism and a bad case of grippe. I lost about eight pounds and felt miserable.

"Three bottles of the Tanlac Treatment, besides greatly improving my eating and digestion better than they ever were. I have regained my lost weight, and am feeling extremely well. Tanlac is great."

"Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold."

Take Tanlac Vegetable Pills.

FORM SAFETY LEAGUE IN NINE PROVINCES

Dr. P. E. Doolittle of Toronto, Vice president of the Canadian National Safety League and past president of the Ontario Motor League, who has just returned from Quebec and the Maritime Provinces states that a Provincial Safety League is shortly to be organized in every province in the Dominion.

While in the Maritime Provinces, the doctor discussed the organization of a safety league there with the Premier of New Brunswick, who expressed himself as heartily in sympathy with the project and steps are to be undertaken to bring such into being.

Steps toward the organization of a provincial league were also undertaken in Quebec and a meeting is shortly to be called in Montreal to bring about the formation of what will be known as the Quebec Safety League.

Dr. Doolittle further intends to tour the Western provinces from

C.N.R. Our people are from Missouri, Manitoba to the Pacific Coast this fall, with the object of bringing into existence a safety league in each of those provinces before the motor tourist season reopens next spring.

He points out that when the Ontario Safety League was organized in Toronto in the year 1913 the number of motor fatalities totalled 6 per thousand and that despite the large increase in the number of motor vehicles which had taken place since that date the figures had now decreased to the comparatively low standard of 1.6 per thousand. One of the leading factors in bringing about this decrease was to be found in the fact that the Safety League, in co-operation with the O.M.L., had a corps of instructors visiting the schools throughout the province giving safety talks supplemented by moving pictures and lantern slides. The school children's essay contest held on the subject of avoiding motor accidents also had a great bearing on the result so far achieved.

SOME DIFFERENCE

The people of Truro and Bridgewater, N.S., backed by their representative, Messrs. Patnam and Duff, have been able to secure from Sir Henry Thornton a suspension of the order for the removal of the C.N.R. Staffs at these places to Halifax. This is quite a contrast with the treatment extended the city of Moncton when large numbers of railway employees were removed from that city. The cause is apparent. Truro told Sir Henry that they would route freight over P.R. and their representatives also had something to say. Mr. Copp, the representative for Westmorland sat quietly by and did not open his mouth. There was reason for Mr. Copp's silence and time alone will divulge that reason, although it would not be a difficult matter to make a guess. And still they claim that there is no politics in the

BRITISH TAXES TOP THE LIST

At current rates of exchange taxation in Great Britain is almost three times as heavy per capita as in the United States according to official figures compiled in London. Latest figures drawn up show that in Britain the taxation is \$72.44 a head, in the United States \$25.70, in France \$24.39 and in Italy \$11.31. In issuing these comparisons, the British have challenged as a complete misrepresentation of their own official figures the scale which M. Dimnet of France presented to the Institute of Politics at Williamstown, Mass., recently. He was quoted as saying that Prime Minister Baldwin had given figures showing the taxation in France was \$88 a head, in Great Britain \$83, and in the United States \$28 a head.

U. S. INSISTENT ON WATERWAY SCHEME

Washington. —Although there has been a comparative lull in the discussion of the St. Lawrence waterway project since Congress adjourned last spring, the movement for it is by no means dying out in this country. In the middle west, regions where the sentiment for it is apparently strong as ever, and when Congress convenes again, more will be heard of it. This promises to be the more true because of the activity now of the advocates of development of inland waterway transportation. They are usually aggressive and purpose to insist on favorable action on a great scheme of waterway improvement at the coming session.

A meeting here this week of a special committee on waterway development of the United States Chamber of Commerce indicated the wind was blowing. This committee contained many of the prominent advocates of waterway development in this country. It also included some railroad men, despite the fact the railroads have fought waterway development and expansion of waterway traffic.

This committee discussed various plans of waterway development and expansion of water traffic and will favor action. One of the propositions it is considering with a view of adoption by Congress of a big and comprehensive scheme of waterway improvement. The idea would be to make big appropriations for this work and expedite the improvement of such leading rivers as the Mississippi and Ohio. Part and parcel of the plan would be the improvement of the

Local and General News

TEACHER'S INSTITUTE
Teacher's Institute will be held in Harkin's Academy, Newcastle on the 18th and 19th inst., and not in Chatham as previously reported.

CHALLENGE
For the second time the Rambler's Club of Newcastle hereby challenge the Harkin's Academy Athletic Association to a game of football to be played at an early date.

EXTRACT RE. CREOSOTE ODOR
The following is an extract from a letter received by Mayor D.S. Creaghan from the Canada Creosoting Co., Ltd., dated Toronto, Oct. 2nd, 1923. "We desire to say that this plant is not objectionable as far as odor or anything else in concerned."

The best tea in the world can be spoiled in the making, so do not take any chance when brewing a pot of MORSE'S. First you must be sure that you have fresh water and then you must be equally sure to pour it in the teapot just as it comes to the boil. Some people think that when water is steaming it is boiling—water is not boiling until it bubbles.

CITIZENS WANT FACTS GIVEN
The Town of Newcastle is from time to time receiving certain unauthentic publicity in the provincial daily papers, no doubt contributed by some local correspondents, which is being strongly censured by many citizens. These citizens object to publicity of this nature, and consider such to be harmful rather than beneficial to our town.

TRUE TO FORM
Hon. W. S. Fielding, Finance Minister, when interviewed about the deposit of one million dollars in the Home Bank by the National Railways, said he knew nothing of the matter, except what he had seen in the newspapers. This appears to be a know nothing as well as a do-nothing government—if we expect increasing the taxes and the debt.

STANDING TIMBER SOLD
At the public auction held last Wednesday at 3 o'clock p.m. in front of the post office the timber standing on the Peninsula Lot, Northwest Miramichi, owned by St. James' Presbyterian Church, Newcastle, N.B., was sold to Mr. William Sullivan at an upset price of \$1000.00. The sale of the Renous Lot, the Harkin Lot and the Gillen Lot was withdrawn and will likely be put up for sale at auction at a later date.

ESTATE TO BE SOLD
In the matter of the estate of William A. O'Donnell, Bathurst, a meeting of the creditors was held, and R. E. Crawford, of J.M. Humphrey & Co., was appointed inspector. The trustees and the inspector were authorized to dispose of the assets to the best advantage by sale. W.A. O'Donnell conducted a cobbler shop at Bathurst and sold shoes. The liabilities are approximately \$4,000 and the assets, \$1,500.

LABELS WILL TELL WHEN YOUR SUBSCRIPTION IS DUE
A large number of subscriptions to the Advocate are now due. That we may be saved the trouble and expense of mailing a notice of arrears, we wish to direct your attention to the label on your paper this week. It shows the month and year to which your subscription is paid. If you are one of those in arrears, you will confer a favor by attending to the matter within the coming few days.

The date of the expiration of your subscription appears on the colored label on your paper. For instance Aug. 22, means that subscription terminated August, 1922. Look at your label and see if you are in arrears. If you are, we would

Miss Mixed by the Wrong Mix Kisses

Tom Mix mixed miss' kisses because of a double, in name at least. Under the title of "She Got Mixed on the Two Mixes and Kissed the Wrong One by Mistake," the New York American recently printed the following article:

"The White Star liner Cedric, arrived in New York yesterday, two days later after a stormy voyage from Southampton.

"Among the passengers was Tom Mix, a wool merchant of Toronto, who was mistaken for Tom Mix, film actor, by several young ladies on the ship.

"One young woman kissed Mix when he was under a sprig of mistletoe, and was much embarrassed when told he was not the cinema star."

His latest William Fox picture is "3 Jumps Ahead," which will be shown at the Opera House next Friday and Saturday.

Rheumatic Sufferers

May Obtain Relief by Enriching the Blood Supply

In the days of our fathers and grandfathers, rheumatism was thought to be the unavoidable penalty of middle life and old age. Almost every elderly person had rheumatism, as well as many young people. It was thought that rheumatism was the mere exposure to cold and damp, and it was treated with liniments and hot applications, which sometimes gave temporary relief, but did not remove the trouble. In these days there were many cripples. Now, medical science understands that rheumatism is a disease of the blood, and that with good, rich, red blood any man or woman of any age can defy rheumatism. There are many elderly people who have never felt a twinge of rheumatism, and many who have recovered it by simply keeping their blood rich and pure. The blood enriching qualities of Dr. Williams' Pink Pills is becoming every year more widely known, and the more general use of these pills has robbed rheumatism of its terrors. At the first sign of poor blood, which is shown by loss of appetite, dull skin and dim eyes, protect yourself against further ravages of disease by taking Dr. Williams' Pink Pills. They have helped thousands—if you give them a fair trial they will not disappoint you.

You can get these pills from any dealer in medicine or by mail, postpaid, at 50c a box, from the Dr. Williams Medicine Co., Brockville, Ont.

Frightful Destruction of Salmon at N. W. Miramichi Hatchery

Newcastle, N.B., Oct. 8, 1923.

To the Editor of the Advocate Newcastle, N. B.

Dear Sir:— Kindly allow me space in your valuable columns concerning a report, regarding the destruction of salmon at the North West Miramichi Hatchery.

I have been informed by several reliable parties that about nine hundred salmon held in the ponds at the Hatchery, have died from some cause, unknown to the public, and also that from 300 to 500 more are likely to die from the same cause.

This great destruction of the parent fish (if true) should cause an immediate investigation, by the Fishery Department to ascertain if this loss is caused, whether by impure water going into the pond, the incompetency of the official in charge, or the manner in which the fish are handled before being delivered at the pond.

It is said that the Department is paying the munificent sum of fifteen cents for each salmon delivered alive in the pond. It does appear to me, that for the small sum of fifteen cents each, it is impossible for the fishermen to give the fish the proper care in handling and probably this is the cause of the destruction. This pond has been used for over twenty years and I have never heard of any loss previous to this one.

It is also claimed by those who should know, that the Department is taking spawn from salmon, that only comes into our river, late in fall—September and October—and while they increase the fall run of salmon, do not increase the summer runs of fish. This wholesale destruction of salmon at the Hatchery

ery Pond, (if such has occurred) is deplorable and should engage the attention of the Fishery Department at once. It would be much preferable to allow the settler's along the river, to catch a few fish for their winter's use and not to persecute and prosecute these people for so doing. I do not advocate poaching, but it seems to me that it would be more advantageous for the community at large if more attention was paid to the important matters pertaining to our fishing industry and less attention to the minor ones. After the important matters are fully and satisfactorily dealt with, the minor matters, could then be attended to. Thanking you for courtesy of space,

Respectfully yours,
A LOVER OF FISH
