PRICE—TWO CENTS.

The Military Court is Trying to Get at the Facts

French Take Hun Cities With No Opposition

Another Officer Turns Up Whose Name Was Drawn on Pay Sheets But Who Didn't Get the Money

W. A. Stevens "Drew" \$135 For August, 1914, But Didn't Get It—Down For Horse Allowance and Had None—Former Paymaster Examined To-day.

This morning's session of the military enquiry developed another name, Capt. W. A. Stevens, who had received pay in August 1914 and whose name was down as having drawn \$135.

When shown the pay sheets the signature was not his and he had never authorized anyone to draw for him. Horse allowance was claimed for him but he had no horse.

W. A. Stevens, who acted as paymaster early in the war for the 19th, was called to the stand next, questioned closely as to the finances of the unit. Although cut off strength, he had continued as paymaster and kept control of the account, Sergt. Turnbull being assistant. He said Turnbull had no access to the bank book, but had no reason why Turnbull had not kept an accounting of the funds.

TRAIL'S PAY

Asked about the \$155 down for Col. Trail, Patterson said he had no recollection as to why he and others were down on the pay sheets. The only explanation he could think of was that the names were probably submitted by Col. Burleigh.

S. B. Scobell, the adjutant, applying to Col. Young, Patterson said the pay sheets were open in the adjutant's room and anyone could see them. But he knew of no one particular who would have access to the sheets but himself and Turnbull.

When you tell the court candidly that these signatures were placed?" "I can tell you absolutely nothing," said the witness. There was a possibility that someone had written the names at the order of someone. "I have paid the officers by cheque," said General Crickshank.

"You tell me why Trail's pay was not paid by cheque?" "I received a cheque for \$100 I understand," was the reply.

But that was subsequently, and a cheque should have been \$155 instead of \$100."

something to go on," said Patterson grimly.

He said there was a possibility that this unclaimed money had gone into the general fund of the regiment. "Do you remember taking up this question of unclaimed pay with Scobell or Burleigh?" asked the General. "No recollection."

"Of L. A. fines etc." "No sir."

LOOKED LIKE DISHONESTY

The General put the straight question to the witness. Did it not look in the light of the Trail and Stevens affair that there was dishonesty on the part of someone?

He admitted that the thing did look a little queer. But he had kept no accounts of the money he had received.

"It seems utterly incredible that you did not keep some memoranda or date of the money that came into your hands or paid out," remarked the General.

"Incredible as it may seem, it is true," said Patterson, "and why were not these forms supplied us by headquarters?"

"You could have had this by incident," said Col. Young.

Civic Employees and Civic Finances

While deeply deploring the precipitate action taken by the firemen who have offered their resignations in a body because they were not granted an increase in wages of twenty-five per cent, there are phases of the controversy that are worthy of review and also, in justification of the cause, though not of the method, of the men.

In dealing with the matter The Journal desires it to be understood that it has little sympathy with "en masse" action by any group of public service employees because of the peculiar position they occupy toward their fellow citizens, lives and property. More than this now that the estimates have been struck there is only one way of paying out money to the men, regardless of how deserving they may be, and that is by overdraft at the bank, which while not good business has often been resorted to by Councils for other purposes. For the whole body of firemen to resign though at a given hour differs slightly indeed from a strike, and this procedure might well have been prevented.

At the same time there are always two sides to a question and we must in all fairness try to look for a moment through the glasses of the men.

They see that out of the people's taxes year after year well over a hundred thousand dollars has to be paid out in interest on debentures, bank borrowings, etc. that are put on in that circuitous way of borrowing against the future.

They see civic boards engaging two medical officers of health when one could and should do everything that is required.

They see memberships taken out by the Council for civic officials in a public organization, excellent though it may be, but which costs money and are not absolutely essential.

They see the Board of Education casting its net for an expensive site for a new Collegiate, a site that may cost \$75,000 and another \$300,000 will be required for the building itself, and yet there is never money enough to give increases to employees consistent with the increased cost of living.

They see, as any intelligent reader can see, that scores of thousands of dollars are found year after year for all kinds of public work and civic improvements.

They see that considerable increases are given to officials, who however capable and useful they may be are in a fairly comfortable position in the world.

We are all human, all more or less critical and all selfish enough to want to look after our own individual interests and those of our families when we know such things go on, and recognizing this it is not difficult to understand, if prejudice be banished for a moment that men who are drawing less than a hundred dollars a month feel that they must take arbitrary means of securing a wage they consider adequate to meet the ever advancing cost of living.

In this respect The Journal does not hesitate to say that the firemen and other employees are right. Let what will be said about the ease of the position, about the lack of technical knowledge or about the readiness of the men to accept civic positions, there is nevertheless an unanswerable argument belonging to the firemen, and other municipal employees when they contend that when many thousands of dollars can be found one way and another for all other enterprises a couple of thousand could be found for them.

As against the present Council, however, it would be equally unfair to hold that they have not tried hard to make a little money go a long way. Two and two make only four and the extravagances of previous Councils are falling like the sins of a father upon the present occupants of office. This year's council as frequently pointed out through the columns of this paper, and as stated during the municipal elections last December, is crippled. The borrowing power of the city is gone and the law requires that it do not exceed twenty five mills on the dollar for general purposes. Regardless of how just or how strong the demands of the firemen may be a Council cannot exceed the law and therefore we sympathize with the dilemma in which the Council finds itself, not through any wanton waste of its own, but by reason of the extravagances that have been carried on in the past, and the firemen while feeling aggrieved and resentful should not withhold from the Council the same fair consideration that they themselves demand now by compulsory methods.

Continued on Page Eight

Sept. 18th, he gave the balance on hand to Capt. S. B. Scobell, the adjutant, in the absence of Col. Burleigh.

It was under \$1,000.

He, could not recall signing the pay sheet for any officer or man on anyone's instructions. He said however every paymaster in the old militia used to do this but Turnbull did not think he would have signed for an officer's pay. Sometimes the company commander or the colonel would sign for a man in hospital.

The Lotbiniere & Megantic Railway is said to be the latest addition to the Canadian Government Railway system.

Sergt. Turnbull said when shown the pay sheets for Sept. 1914 on which he was down for 18 days pay drawn that he had not signed the sheet and had he got the money it might be he said the orderly sergeant had signed it.

FRENCH STEP IN QUIETLY AND TAKE POSSESSION OF FRANKFORT AND OTHER GERMAN TOWNS

Put Questions To Mr. Rollo

MEMBERS ASK HIM TO EXPLAIN HIS STATEMENTS AT LONDON CONVENTION

TORONTO, April 7—Echoes of the London Labor Conference sounded in the Legislature yesterday, but died down after Hon. Walter Rollo had answered a series of questions from members of the opposite side of the House. The Minister of Labor was more at home in his replies than he was when worried about the One Big Union some days ago.

The Premier gave his Government an aibi on the reported London remarks of his Labor Minister by stating that the Minister was "speaking as a private citizen, without the knowledge, approval or consent of the Government."

R. L. Brackin (West Kent) brought the matter to the attention of the House by reading a report which stated that Mr. Rollo said that the Labor group was the only group in the House heartily in favor of the Mothers' Pensions Bill.

Premier Drury explained that personally he was heartily in favor of the bill and thought the Farmer members were.

Hon. G. Howard Ferguson wanted to know if the bill was discussed clause by clause, as it had not yet been discussed in the House. The Premier didn't know, and Mr. Rollo said that it was not. He saw nothing to warrant any suggestion that it was. Mr. Dewar pressed still further into the matter, and wanted to know if there was a draft of the bill at the convention or one of the Minimum Wage Bill. He was informed that there was no draft. Mr. Rollo explained that a few weeks ago a draft of the bill had been published in all the papers, and that it was from that published report that the convention got its information.

P. Heenan, (Kenora) caused laughter when he denied that he had made the remark credited to him that the "Labor group was the brains of the Government." He didn't even think so, he declared.

Son Declares Briscoe Summers 103 Years Old

The funeral of Briscoe Summers, supposed to have been 103 years old, took place this afternoon at Victoria Lawn.

According to Charles Summers of Niagara Falls, N. Y., son of the deceased, Briscoe Summers was a veteran of the Civil War, and was born in Atlanta, Ga. When ten years old he was separated from his family and sold into slavery in the South. He never saw any of the members of his family after that.

Briscoe Summers had lived in St. Catharines for 27 years. His wife died three years ago at the age of 98. Besides his son Charles, Mr. Summers leaves another son, W. J. Summers of Cleveland, Ohio.

Stratford's tax rate has been struck at 39½ mills, one mill higher than last year.

Population Offered No Objection, But Rather Showed Disposition to Assist the Invaders—Done Because of Violation of Treaty in Ruhr District.

FRANKFORT, April 7—At dawn yesterday the French tri-color flew over the town halls of Frankfort and Darmstadt. During the day the French troops occupied the towns of Homberg, Hanau, and Deisburg.

This operation was one of the most quietly conducted and most wonderful ever carried out by one army in another country. The march from the outposts of the Bridgehead into Frankfort is not long but it occupied some time as cavalry screens were at the same time being sent north, south and east of the city. It was still dark when the outskirts of the city were reached and the houses were still shuttered and the people asleep. The rolling of the tanks may have awakened the mob but they gave no sign.

Undisturbed and impertrubable, the Moroccans marched down the long Mainzerlandstrasse in full fighting kit, with helmets and rifles ready for action. Once inside the city the column began to break up some men being told off to occupy the Town Hall, others the postoffice, others the station and barracks.

As quietly as they had entered troops carried out these operations, and Frankfort woke up to find itself in French hands.

It was not long however, until the news of what was afoot spread, and by 8 o'clock the streets were crowded with inhabitants. For the most part they were very indifferent. There were neither scowls nor cheers. Just as the Rhineland people did when the march forward took place after the armistice, they crowded around tanks and field kitchens, examining everything and commenting. The children liked it all and marched in front of the companies of soldiers everywhere, shouting.

Among the working people there is an element which seems considerably relieved rather than otherwise, for they hope that the move of the French will check any danger of a massacre of the Ruhr Reds in the Ruhr Basin.

No Hostility Shown

There was no hostile demonstration of any kind whatever and the people seemed anxious to be helpful, acting as guides to the French officers and troops. By 10 o'clock the walls of the city were picketed everywhere with General De Goutte's proclamations, explaining that France's advance was the result of the infringement of the treaty in the Ruhr district by the German Government and the Reichswehr.

THE WEATHER

TORONTO, April 7—The Barometer is now lowest in the St. Lawrence Valley and New England and relatively high south and west. The weather continues cold throughout the Dominion and snow flurries are prevalent in Ontario and Quebec.

FORECASTS—Fresh westerly wind mostly fair today and on Thursday, not much change in temperature.

Michigan motorboat men are secretly building a challenger to send to England in quest of the Harmsworth Trophy.

The Tecumseh of Toronto have applied for membership in the National Lacrosse Union, and are willing to post a forfeit to finish the season.

COST CANADA \$270,000 FOR THE L. OF N. EXPENSES

OTTAWA, April 7—According to estimates which have been received here it will cost Canada \$270,000 a year to enjoy membership in the League of Nations. The total cost of that organization is estimated at \$4,600,000 of which 900 0 is chargeable to capital.

Suggestion That Busses Be Used to Serve the Northern Sections of the City

The Municipal Voters' Association held a successful meeting last night at the central school. The President P. G. Wilson was in the chair.

Addresses were given by Aldermen Graves, Riffer, Dakers, Veale and Murphy, Vice-President White and others.

Aldermen Graves and Veale explained the financial situation in St. Catharines giving a clear idea of how the city stands.

Ald. Dakers gave a history of the controversy with the firemen, giving the meeting the true facts.

Ald. Riffer made the suggestion that there be a line of motor busses run to the northern section of the city to make up for lack of railway extensions. They could be carried on either by the city or a private corporation.

The meeting seemed to approve this idea but no resolutions were passed.

Remains of Edwin J. Blanchard Were Buried With Full Military Honors on Tuesday Afternoon

The funeral of the late Edgar J. Blanchard took place yesterday from his late residence, 34 St. Paul street west to Victoria Lawn cemetery. Rev. Dr. G. H. Smith conducted service at the house and also officiated at the graveside.

A large number of members of Union Lodge I.O.O.F. of which deceased was a valued member attended in a body and accompanied the remains to the grave where Dr. Smith read the committal after which the

Rev. A. H. Priest, Chaplain of Union Lodge assisted by the Noble Grand, Fred Carley read the Odd Fellows ritual.

After this three volleys were fired by his comrades of the G.W.V.A. as the conclusion the last post was sounded by comrade Stanley Smith.

The remains were conveyed to the cemetery on a gun carriage. The numerous floral tributes from sympathizing friends were very beautiful.

ROOM FOR IMPROVEMENT

The Toronto Globe in an editorial today on "Public Service Strikes," comments as follows regarding the firemen's difficulty in St. Catharines.

The firemen of St. Catharines, discontented with the wage increases granted by the City Council, which, they assert, are less than they have been led to expect, announced their intention of resigning on forty-eight hours' notice if additional increases are not given.

Between resignation en masse and a formal strike there is little to choose in either case the citizens who have entrusted the Council with the protection of their property from fire are left without any protection save that which may be provided by hastily-organized volunteer fire companies.

There must be vigorous protests on the part of the municipalities of Ontario against the use of the strike weapon in the public service. The arbitration of all disputes as to wages and conditions of employment between the municipalities and employees engaged in the operation of services of a vital nature—such as police, fire, and water supply—should be made by law a condition of employment.

Unless some measure is adopted which will substitute arbitration for strikes in these services, thieves and property of all city dwellers may be imperilled at any time on the whim of a few members of the civic departments. Such a condition of affairs cannot be permitted if we are to have orderly and responsible administration.

WE HOPE SOMETHING HAPPENS

A London despatch states that Sir Adam Beck has left for Ottawa to negotiate for the transfer of the N. S. and T. Ry. to the Hydro Electric Power Commission. The Journal hopes that something definite one way or the other comes of the mission. This is what we have been pressing for and if Sir Adam can convince the Dominion authorities that they should turn the road over to become part of the Hydro system and if the purchase price can be agreed upon, then what this paper has been asking for may be brought about soon, namely, the extension of the N. S. and T. lines to serve those sections of the city not now favored with close railway accommodation. The Railway, as things now stand, is helpless and cannot give the service because the Council of last year refused to permit franchises, in fact refused to allow the ratepayers of the city the privilege of voting as to whether they were willing to grant the franchises or not.

So far the information goes which the Journal has been able to secure there is not much likelihood of any early sale of the N. S. and T. to the Hydro but in this there may be a change of opinion on the part of the Dominion authorities.

In any case what we urge is something progressive to get railway fa-

SHE SUFFERED FIVE YEARS

Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Key West, Fla.—For five years I suffered from irregularities, with terrible pains and an awful weakness in my back. The doctors gave me different medicines but they did me no good. A friend asked me to try Lydia E. Pinkham's Vegetable Compound and I found it to be the best medicine I ever tried, because it made me well, and I can now do my housework. I am telling my friends about it.—Mrs. J. M. Casars, 728 Caroline St., Key West, Florida.

Many women at some period in their life suffer from ailments peculiar to their sex and which in most cases may be readily relieved by this famous root and herb medicine, Lydia E. Pinkham's Vegetable Compound, just as Mrs. Casars found it helped her after suffering for years and trying everything else in vain.

If you have any annoying symptoms you fail to understand, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The results of the 40 years experience in advising women on this subject is at your service.

ailments not now enjoyed. We do not care much how they come about as long as the best interests of the greatest number are served.

SOVIET REFUSES FINLAND'S DEMANDS

WASHINGTON, April 6.—The Russian Soviet has refused demands that the Bolsheviks evacuate the Petchanga district as a condition for the suspension of hostilities, a State Department despatch from Helsinki today said.

A FRIEND OF THE POLICEMAN

Continually on their feet, the "Pedlers" are invariably troubled with corns and bunions—but not for long, because they know of a quick cure, Putnam's Corn Exeractor, it cures painlessly in 24 hours; try "Putnam's" 25c at all dealers.

EDITORIAL NOTES

Regret will be felt in the city that Rev. Mr. West is leaving between now and June for other fields of ministerial labor. As rector of Christ Church he has been most active and successful. The parish has grown considerably under his direction and the best wishes of many friends will go with him to what ever work he enters.

Ald. Avery in contending for the rights of the Firemen estimates that increases given to well paid officials of the city, who can get along nicely on what they were drawing, plus the amount saved from a wage that would have gone to Fireman Black who is no longer on the department and a little saving here and there in other civic expenditures would have permitted the council to make up the 25 per cent increase which the men hold they are entitled to as a living wage.

He takes the logical view that there is a difference between the ability of an official to live well who is earning \$2,500 to \$3,000 a year and the man who is drawing less than a hundred dollars a month, with living costs as they are today.

The Building Permits For the Month of March

During the month the following building permits were issued:
R. B. Williams on Queenston street, factory to cost \$7000.00
Mrs. Osborne, on St. Paul street, alter store front \$800.00

GOMPERS PLEADS FOR A MINIMUM WAGE TO WORKERS

NEW YORK, April 7.—Samuel Gompers, president of the American Federation of Labor, pleaded for a minimum wage for workers in an address at a ten-day conference of New York trade and technical papers yesterday.
"No employer should be allowed to continue unless he is in a position to pay his employees a minimum standard wage," said Mr. Gompers. "Such an employer ought to get out at once and give someone else a chance who can put the business on a paying basis."

COURTS ASSISTING 1,000 N.Y. TENANTS UNDER NEW LAWS

NEW YORK, April 7.—Nearly 11,000 evicted tenants were assisted by courts in this city yesterday under new laws against rent profiteering. In most cases either the landlords agreed to delay evictions until the tenants could find other apartments or the magistrates summarily granted stays of eviction varying from one to six months.
Many courts would handle nothing but rent cases. Streets in front of some courts were blocked and police reserves were called to handle the crowds, for whole families went to court, baby carriages and all.
Justice Morris of the Westchester court told a landlord that \$10 a month was too much to pay per room for basement quarters and informed the tenant he could remain until the lease expired in October and pay only \$6.
Seattle and Toronto All-stars played an exhibition game Saturday night. The score was 9 to 9.

SPRING CALF FEEDING

How to Feed and Handle the Young Arrival.

The Dam's Milk the Best First Food — Skim Milk Should Gradually Replace Whole Milk — Grass or Stable for Calves?
(Contributed by Ontario Department of Agriculture, Toronto.)
THE calf that comes in the spring, comes just at a time when everybody is so busy getting the spring work done that he is very liable to be neglected to a certain extent. Young calves are very susceptible to disease on account of young-cattle and a little lack of attention to spring calves is liable to cause serious trouble to them.
There are two menaces to calves in spring and summer, and those are extreme heat and flies, and one is on a par with the other. Arrangements should be made whereby the calves are kept in during the day and allowed to run out in a paddock at night. By this means they are afforded a liberal amount of exercise and good pure fresh air, and also they are allowed to get some of the nice juicy green grass, which is the nearest thing to a complete and balanced ration that can be found outside of milk.
When the calf is dropped it may be well to leave it with the dam for a few hours in order that it may get the first milk (or colostrum) which is so necessary on account of its actions on the digestive tract. When the calf has received sufficient colostrum to set up the necessary action it should be removed from its mother into a separate stall, or it may be put into a stall with other calves of the same age or nearly so. If, by any chance, the cow's milk is infamated, the calf may be left for a few days because of the beneficial effect that the calf's punching has upon it.
For a few days the calf should be fed whole milk, but when it is two to four weeks old a change should be made, skim milk gradually replacing the whole milk, from eight to ten days taken for the change. When the whole milk is totally replaced the milk may be increased to eighteen or twenty pounds per day for a calf six weeks old. The best kind of skim milk is warm, just when it leaves the farm separator. However, everybody may not have a separator, and then this is not possible. In any event the system started with the calf should be followed as nearly as possible at all times, because radical changes in diet are sure to cause severe digestive troubles. This milk all feeding utensils should be kept very clean to eliminate any danger of disease from bacteria that might be lurking within. Skim milk feeding may be continued on as long as the calf is visible, up to eight or ten months old. Good thrifty calves may be weaned as early as three months old, providing good substitutes for the milk are used.
The most frequent trouble in raising calves is indigestion or common scours. This trouble is usually caused by overfeeding, feeding milk too cold, feeding milk heavily laden with disease germs, or by keeping the calves in a dark, dirty, poorly ventilated quarter. The calves should be watched carefully, and if they show signs of scours, immediate steps should be taken to effect a cure. The ration should be reduced and a little lime water put into the milk. If immediate action is needed, about one-half cupful of strong black tea or some castor oil should be given. As for meal for the calves, rolled oats are good, and if they are getting no whole milk, a little linseed oil cake should be added. The oil cake has a laxative property as well as supplying a little fat to the ration. A good meal for calves, 100 lbs. of ground oats, 50 lbs. of bran and oil cake (nutted) 25 lbs. Good clover hay is essential at all times, giving enough to allow the calves to pick out the nice succulent parts, and still not be wasteful.—J. G. McBeath, O. A. College, Guelph.

Where You'll Find Fire Boxes

- The latest revised list of the number and location of fire alarm boxes is given below. Residents are advised to clip the list and keep it for reference in case of fire:
- 3—Packard Electric Works, Race Street.
 - 4—Central Fire Hall
 - 5—Police Station, Park Street
 - 6—Catharine and Edmund Sts.
 - 7—Pelham Road and Chetwood Street
 - 8—Brewery and St. Paul Sts.
 - 9—Neptuné Hose Hall, St. Paul St. West
 - 12—Yate and Trafalgar Streets
 - 13—Yate and Ann Sts.
 - 14—Church and Ontario Sts.
 - 15—Queen and Duke Sts.
 - 16—Welland Ave. at Lake Sts.
 - 17—Ontario and Welland Ave.
 - 18—Lock 2, Welland Vale
 - 21—St. Paul and Geneva Sts.
 - 28—Queenston and Calvin Sts.
 - 24—Queenston and John Sts.
 - 25—Thorold Road at Whitman & Barnes plant.
 - 26—Queenston St. and Westchester Avenue
 - 27—Queenston St. and Vine St.
 - 28—Vint St. at Railroad Crossing
 - 29—Page and Davidson Sts.
 - 31—King and Academy Sts.
 - 32—Church St. near Court St.
 - 34—Welland Ave. and Court St.
 - 35—Church and Geneva Sts.
 - 36—Welland Ave. and Geneva St.
 - 37—Welland Ave. and Niagara St.
 - 38—George and Derby Sts.
 - 39—Lyman and Raymond Sts.
 - 41—Niagara St. and Canal Bridge
 - 42—Wiley St. and Russell Ave.
 - 43—Geneva and Daotah Sts.
 - 45—Russell Ave. and Rodman St.
 - 46—George and Albert Sts.
 - 47—Lake Ave. and Dufferin St.
 - 48—York and Louisa Sts.
 - 51—Ontario and McKinnon Dash
 - 52—York St. and Lowell Ave.
 - 53—Lake St. Fire Hall.
 - 54—Thomas and Louisa Sts.
 - 56—Henry and Elizabeth Sts.
 - 57—Queen and Currie Sts.
 - 62—Paer and King Sts.
 - 62—St. Paul and Queen Sts.
 - 63—Maple Leaf Milling Co's. Office, St. Paul St.
- In case of a general alarm the city bell will ring as follows: 1—12—123 twice, followed by the number of the box from where the alarm is being rung.

What Makes a Good Hardware Store?

Not alone the large plate glass windows on the main street, nor the fine showcases inside, nor even the genial, friendly proprietor.
The QUALITY OF THE GOODS sold is what really tells, and brings you back again next time.
That's just the case with the famous Hobbs Gold Medal Lines. The store that carries goods bearing this mark is a good store to trade at.
Look for the Gold Medal label on Harvest Tools, Garden Tools, Lawn Mowers, Sewing Machines, Washers and Wringers, Refrigerators, Cutlery, Binder Twine, Roofing, Saws, Sporting Goods, etc.

All Sensible Farmers Insist Upon "GOLD MEDAL" Harvest Tools

For Sale by All First-class Hardware Dealers

ANOTHER GOLD FIND LIKE THAT AT ALASKA
CALGARY, April 5.—Discovery of gold similar to that made at Alaska last week was made late Thursday nine miles north Okatopa, about 30 miles south of Calgary, and since then many claims have been staked.
CONVALESCING FROM INFLUENZA
The bracing atmosphere found in Algonquin Park is just what is needed for those convalescing from influenza or those who are in need of a rest and recuperation. The Highland Inn offers comfortable accommodation at reasonable rates. Apply any Grand Trunk Agent for descriptive booklet, or write Mr. N. T. Clarke, Manager, Highland Inn, Algonquin Park Station, Ont. A-3-516.

Do not forget to file your

Income Tax Return

on or before the 30th of April, 1920.

Dominion of Canada
Department of Finance
ALL persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:—
1. Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year 1919 received or earned \$1,000 or more.
2. All other individuals who during the calendar year 1919 received or earned \$2,000 or more.
3. Every corporation and joint stock company whose profits exceeded \$2,000 during the fiscal year ended in 1919.

Forms to be used in filing returns on or before the 30th of April, 1920.

ALL INDIVIDUALS other than farmers and ranchers must use Form T 1.
FARMERS AND RANCHERS must use Form T 1A.
CORPORATIONS and joint stock companies must use Form T 2.

Penalty

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of Twenty-five per centum of the amount of the tax payable.
Any person, whether taxable, or otherwise, who fails to make a return or provide information duly required according to the provision of the Act, shall be liable on summary conviction to a penalty of \$100 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding \$10,000, or to six months imprisonment or to both fine and imprisonment.

General Instructions.

- Obtain Forms from the Inspectors or Assistant Inspectors of Taxation or from Postmasters.
 - Read carefully all instructions on Form before filling it in.
 - Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.
 - Make your returns promptly and avoid penalties.
- Address INSPECTOR OF TAXATION, HAMILTON, ONT.

R. W. BREADNER, Commissioner of Taxation.

THE universal desire to make Easter breakfast a really delightful meal, is easily fulfilled by housewives who use

Swift's Premium Hams and Bacon

A few slices of this mild, delicately-cured ham or bacon—cooked to a tempting brown—served sizzling hot—make a meal the whole family will enjoy. For Swift's Premium is outstanding in excellence: the Ham because of its extra mild cure and juicy tenderness; the Bacon because of its succulent fat and enticingly flavored lean; and both because of their characteristic savouriness due to the exclusive Swift process of selection and curing.

Serve Swift's Premium on your Easter breakfast and we know you will insist on this brand in future.

Order today from your Butcher or Grocer.

Swift Canadian Co., Toronto, Ontario, Canada

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Rheumatism, Aching Joints, Lumbago, Sciatica, Neuritis, and for Headache, Neuralgia, Toothache, Earache, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over ninety years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer, Manufacturer of Monoacetic Acid Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Growth Shows Desire To Extend Army Work

Commissioner W. J. Richards, chief of the Salvation Army in Eastern Canada, has completed his fifth year in that capacity. During that time the Army has seen one of its greatest periods of usefulness. This period takes in the "war years." The great war had been under way since August and new problems presented themselves to the organization when he assumed command. These problems required a large measure of initiative to overcome. The task of rendering the highest and most efficient service was shouldered and Canada paid tribute to the success which attended those efforts by over subscribing the amount asked for during the Red Shield Drive.

Commissioner Richards is a forceful man. He is a man of few words. He believes in doing things. During the five years, more than 11,000 persons are recorded as having sought salvation. Notwithstanding the losses due to war, there are today nearly 2,000 more names on the Membership Roll than there were in this territory five years ago.

In July, 1915, Canada East was separated from Canada West, the dividing line being Port Arthur. Even in view of this, there are now only

forty one fewer officers in active service in the Eastern territory alone than there were in the combined territories five years ago.

In the Field Report two very striking indications of financial growth are given. In 1914, the Self-Denial total for the combined territories was \$43,726. In 1919, for Canada East alone, it was \$75,591. Harvest Festival returns have been doubled.

Shows Solid Growth. In all the various departments the record. This shows that as often as humanly possible every opportunity has been seized for the advancement of every branch of the organization. Inasmuch as every act of service means the welfare of somebody, the same rate of growth has been reposition which the Salvation Army occupies today indicates tremendously increased service to the community.

This service has been rendered under the leadership of Commissioner W. J. Richards. His five years in Canada have been five big years for the Salvation Army in Canada, and five great promises for the future.

Each Capsule bears the name MIDY. Beware of counterfeits.

LIFT OFF CORNS!

Doesn't hurt a bit! Sore corns lift right off with fingers. Magic!

Costs few cents! Drop a little Freezone on that touchy corn, instantly that corn stops hurting, then you lift it right out with the fingers.

Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without soreness or irritation. Freezone is the much talked

LEGLESS MAN JARS COURT, FAILS TO OBEY "HEAR YE"

CHICAGO, April 6.—George Donnelly, bailiff in Judge Hugo Pam's court is a stickler for court etiquette. It comes next to his religion and he insists upon strict observance. Wherefore he was vexed when, in calling upon all present to arise as court opened, he spied a man still sitting.

He rapped sharply with his gavel and called attention to the fact that the "honorable court was about to open," but the man remained sitting. "Hey you back there—stand up!" shouted the bailiff.

All eyes turned to the culprit. Then some one vouchsafed the distressing information. "The pore little feler ain't got no legs," and the angry bailiff subsided. The case in hand was that of Frank Piano, who shot his son to "save his soul."

The boy died recently and his father was arraigned on a charge of manslaughter. He was released under \$10,000 bail provided by four of his relatives and a "friend of the family." Prediction are freely made that the father will not be indicted for the shooting.

Ocean steamer rates have been increased by 10 per cent.

ABOUT THE SEED DRILL

What Is Considered to be the Most Efficient Type.

The Feeding Device Is the Heart of the Drill—Seed Should Be Dropped Directly Under the Axle of the Disc—Give the Bearings Careful Inspection.

(Contributed by Ontario Department of Agriculture, Toronto.)

As the drill sows, so shall the farmer reap, is no fallacy. It is as true in its content as the maxim "As a man sows so shall he reap." Given the right kind of a grain drill, the seed is all planted at a uniform depth, evenly covered; the earth compacted just enough to retain the moisture around it. These conditions mean that the young plants will all come up at the same time, that the roots will be well protected, and that the grain will ripen uniformly. As the grain ripens, so will it stay and ripen. If some of the seed is planted too shallow, and some too deep, the seed that comes up first, ripens first. Thus it is that some of the grain is ready to harvest while other patches are still in the milk stage.

The feeding device is the heart of the grain drill. Upon its reliability depends the accuracy of sowing the seed. The drill scale is computed for the average sized seeds, and therefore cannot always be depended upon when the size of them varies from the normal. If the grain is oversized or undersized the required amount per acre may be shown by setting the seed lever at a point slightly greater or slightly less than shown on the indicator. There are, in common use, two different forms of feeding devices. The fluted-cylinder-force feed, and the double-run-force feed. The amount of seed sown by the fluted-cylinder-force feed may be regulated by a lever which changes the size of the orifice, but it does not always handle all classes of seed without breaking them, as can be done with the double-run-force feed, which necessarily requires for driving it a disc wheel or a cog wheel with from nine to fifteen sets of cogs that make as many speeds or feeds.

In the most efficient type of grain drills the seed should be deposited as nearly directly under the axle of the disc as possible, as this is the only place where the seed can be dropped directly on to the bottom of the trench without hindrance. By this method the disc is not run deeper than the seed is deposited, thus the draft is reduced to a minimum. If the seed is deposited in the rear of the centre of the axle, the rotation of the disc tends to carry earth and seed up with it, causing the seed to be unevenly deposited. In operation, a properly angled disc opens a trench about two inches wide. The falling seed strikes the concave side of the shield and the convex side of the shield and is scattered evenly over the entire width of the trench.

Grain seed drills are divided into four kinds, according to the type of furrow opener—the open delivery single disc and the closed delivery single disc, the double disc, the shoe, and the hoe drills. The open delivery single disc furrow opener deposits the seed between the shield and the convex side of the disc. The space is open from the end of the boot between the disc and shield to the bottom or lower end of the shield. The shield prevents the falling seed from becoming mixed with the loose earth and surface trash and insures its free passage to the bottom of the trench made by the disc. It will also do excellent work in highly cultivated soil that is free from trash.

The closed delivery single disc furrow opener has a closed boot, similar to a hoe furrow opener, which comes down at the rear edge of the disc and deposits the seed about two inches back of the disc. It does not plant the seed at as even a depth as either the open delivery single disc or the double disc, but deposits it at least eight inches in rear of the disc hub, and wherever it meets with an obstruction, root or hard frozen soil the disc rises up and carries the boot with it, broadcasting the seed on the surface.

There are many styles of double discs, but the one that plants the seed under or slightly back of the disc axle, or hub, is the one to use, for that point is the deepest part of the furrow. The furrow opener that shoots the grain forward of this centre is to be avoided, for the reason that the seed reaches the ground before the furrow is fully formed, and it is, therefore, mixed with the soil as the seed trench is being made, causing what is termed "wavy" sowing. The double disc type of opener tends to spread out the seed more than other kinds, so that each seed has a somewhat greater area from which to draw moisture.

The hoe furrow opener or shoe opener does not penetrate the ground readily and clogs easier than any of the other types. The shoe opener does no better work, and rather than clog will run over trash and thus plant the seed at varying depths.

In selecting a drill the bearings should be given careful inspection. They should be dust proof. The hard roller must be considered superior to all others for this kind of work, as the oil can be forced into the bearing from the centre, and as it works out it carries all the dirt with it. It should have a well-bred seed box with steel honed bottom to allow the seed to pass freely into the cups; strong frame and substantial wheels are important features. The distance between the furrow opener varies to some extent but six inches is the usual spacing. The seed tubes may be of rubber or of steel ribbon. The rubber tubes give good satisfaction, but are not durable if exposed to the weather. The steel ribbon tubes serve the purpose well, and if painted will last as long as the drill.—Jno. Evans, O. A. College, Guelph.

Canada's population is now placed at 9,000,000 by the Dominion Government.

THE TORTURES OF RHEUMATISM

Happily Stopped When He Began To Take "Fruit-a-tives"

8 OTTAWA ST., HULL, P. Q.

"For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying in bed, I read about 'Fruit-a-tives' the great fruit medicine; and it seemed just what I needed, so I decided to try it. The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

LORENZO LEDUC.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

DUBLIN IS CUT OFF FROM BELFAST

DUBLIN, April 6.—Shots were fired during a raid late this afternoon in Findlater street, turning off Sack-

ville street. In lorries and an armored car, a party of about fifty soldiers entered the narrow thoroughfare and raided a public establishment from the window of which a Sinn Fein flag hung.

With fixed bayonets the military guarded both ends of the street watched by a large crowd. Suddenly isolated shots rang out and the crowd stampeded to safety, flattening itself against the walls or rushing into convenient doorways.

It is stated a mysterious shot was fired in the street and the soldiers responded by discharging a number of rounds into the air. One or two arrests were made upon the premises raided, and the flag was removed and taken away by the soldiers, one man trying in vain to wrest it from them.

In only one instance, at Ballinakil the police barracks was successfully defended the sergeant in charge battling off the attacking party after a severe struggle.

WIRES CUT

Telegraph wires were cut in various parts of the county and at the

moment of writing Dublin is still isolated from Belfast.

HIS FACE DIRTY, BOY GIVEN WEEK IN JAIL TO CLEAN UP

CHICAGO, April 6.—Herein is a lesson for boys who are careless about their personal appearance and who have a violent aversion to soap and water especially when applied to their necks and ears.

Charles Kirk, who is somewhere between nine and nineteen years of age, neglected his toilet and Judge Jarek today gave him seven days in the county with rigid instructions that he must use that time in applying soap and water.

Kirk arrived in Chicago last night from St. Louis via the bumper and "side door pullman" route, and the police picked him up they were certain whether he was a human being or a bag of coal.

Ample toilet facilities were provided in the detention room where he languished for two hours awaiting his call in court but he clung to his dirt.

"It will take you at least a week to clean up," said the court. "Beating I want to notify your parents. Seven days in the county jail and death afraid of the soap."

Making a purely vegetable Medicine

1875 — 1919

In 1875, Lydia E. Pinkham of Lynn, Mass., gathered and dried the roots and herbs which she used in the now famous Lydia E. Pinkham's Vegetable Compound, from the fields and forests, — then steeped them on her kitchen stove and filled a few bottles at a time, to alleviate the suffering of her women friends, neighbors and acquaintances, and the success of this medicine was unparalleled.

After 44 Years

These illustrations show the present method by which vast quantities of this well-known remedy are produced and from exactly the same kind of roots and herbs used by Mrs. Pinkham in the beginning.

First—The various herbage used are of the finest quality, and gathered at the time their medicinal strength is the highest.

Second—After the herbs are properly ground and mixed, the medicinal properties are extracted by soaking in large stone jars, covered.

Third—Then the extract is drained through percolators, acting somewhat like a coffee percolator.

Fourth—To insure a thoroughly pure medicine, it is carefully pasteurized by heat in special apparatus, and bottled hot.

Throughout the entire process, from the crude herb to the finished medicine in bottle, cleanliness and exactness are the watch-words.

The Reliability of Testimonials Guaranteed

The testimonials published by the Lydia E. Pinkham Medicine Company come to them unsolicited. Never knowingly have they published an untruthful letter, never is a letter published without the written consent of the writer. The reason that thousands of women from all parts of the country write such grateful letters is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives, once burdened with pain and illness. It is easy to realize how these poor, suffering women feel when restored to health; and their keen desire to help other women who are suffering as they did.

Ailing Women Should Try

Lydia E. Pinkham's Vegetable Compound

One of the SIX
Dominion Tires

DOMINION TIRES

are **GOOD** tires

Why shouldn't they be good? They have behind them the greatest Rubber System in the Dominion, if not in the Empire. They are planned to fill every need of the motorists of Canada. They are built by experts in a great modern factory.

DOMINION Inner Tubes

fit all Dominion Tires and ensure perfectly balanced tires. To add comfort to your car and mileage to your tires, always insist on having Dominion Inner Tubes.

And their dependable quality and workmanship are proven by the fact that Dominion Tires have the largest sale in Canada among experienced motorists. They have proved their economy, their easy riding, their long mileage on every road in Canada.

Dominion Tires, Inner Tubes and Accessories are distributed through Dominion Rubber System Branches and sold by the best dealers throughout Canada.

DOMINION Tire Accessories

include everything you need to close a hole, plug up a bruise, or heal a cut in your tire. These helps will make your tires last longer. Carry a supply in your car.

**AN AIRSHIP TO
SUBMERGE IS THE
LATEST NOW**

LONDON, April 7.—"The airship
which could fly and in fact float and
submerge," is, in the judgement of
Sir Portescue Flannery, M.P., "no im-
possible dream of the future."
This statement is quoted from a
speech made at a banquet held re-
cently by the Society of Consulting
Marine Engineers and Ship Survey-
ors, of which Sir Portescue is Presi-
dent.

**AN AEROPLANE
IS SMUGGLING
BOOZE OVER LINE**

WASHINGTON, April 7.—Prohibi-
tion agents have been asked by the
Washington officials to keep a sharp
lookout for a mysterious airplane,
which flies over the Canadian border
every night into Montana, and drops
a parachute. The information is that
the parachute carries a quantity of
whiskey which is disposed of by boot-
leggers.
After dropping the parachute, the
airplane goes back into Canada with-
out landing.

THOMAS CHURCH FOR
MISSION PURPOSES—
SALARIES INCREASED**

The annual Vestry meeting of St.
Thomas was held last night with the
Rector, Rev. A. H. Hewitt in the chair.
Owing to the inclement weather the
attendance was not as large as usual.
After the opening prayers the Rector
read his annual report, remarking on
the various features of the past year's
work and paying his tribute of thanks
to the officers and members of the
church who had done so much to make
the year a successful one. Col Thairs
then read the Warden's report which
showed a credit balance of some \$800
in the bank after all expenses had
been paid. Mr. G. F. Ecclestone then
read the report of the various socie-
ties commenting on the fact that
they all showed a substantial balance
on the right side of the ledger.
The Rector then appointed Mr. F.
Coy, Jr. as his Warden and on motion
of Col R. W. Leonard, and Col. Mer-
ritt Mr. G. F. Ecclestone was re-elected
Peoples' Warden. The Select Vestry
was then elected consisting of
Messrs. Lt.-Col R. W. Leonard, Lt.-
Col. Merritt, Lt.-Col. Thairs, Capt.
Bishop, W. B. Burgoyne, N. J. M.
Lockhart, A. H. Wallace, E. W. Smith,

DOCTOR WARD, The Specialist

**SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION,
BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DIS-
EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS**

The knowledge gained from many years' experience in treating diseases just like yours is of much benefit
to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that
he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient
the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered
specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICAN EXHAUSTION MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man
BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.

Treatment Without Operations
DR. WARD
Buffalo, N. Y.

**BIG EATERS GET
KIDNEY TROUBLE**

Take Salts at First Sign of Bladder Irritation or Backache.

The American man and woman must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

"When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach or you have rheumatism when the weather is bad get from your pharmacist about four ounces of Jad Salts; take a teaspoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

**LLOYD (HAM) HAMILTON
AND VIRGINIA RAPPE
IN "A TWILIGHT BABY"**

At the Grand Opera House, Friday and Saturday, with an all-star cast of evilie show.

and the United States. Canada has already given generously and is still giving with a liberal hand. Last year the Sunday Schools of Canada gave \$100,000. This year the goal is placed at saving the lives of twenty-five hundred, which will cost \$60 a piece, making a total of \$150,000. It is expected that every Sunday School in Canada, will on that date make an offering and it is to be hoped that every school will become responsible for at least one orphan at \$60.

This means a small sacrifice for a great service, but all working together can accomplish great results.

The contributions should be sent to D. A. Cameron, Canadian Bank of Commerce, King street west, Toronto, Ontario.

SPANISH BARBERS WON'T REST UPON SUNDAY

MADRID, April 6.—A general strike of Madrid barbers began Saturday.

Several arrests were made today as the strikers visited all barber shops and threatened to "climb" the union workers. The barbers are demanding higher wages and no Sunday work.

MY LADY

Tobacco culture in Canada industry of comparatively recent date. Extensive development taken place in the past twenty or thirty years, and recent years have proved the adaptability widely separated sections of Dominion to this very profitable of agriculture. Since the production of 28 cents per pound has produced on all foreign leaf tobacco the Canadian industry has received a yet greater stimulus, and in the culture is becoming wider more diversified yearly.

The two principal provinces where tobacco has been successfully grown for many years are Ontario and Quebec. Very successful results have been obtained also at Kelowna, the Okanagan district of British Columbia, and the growing of becco may be said to be firmly established as an industry there. Experiments in the Letbridge and Prince Edward, Elgin, and Lincoln counties have also been made. A total of 9,226 acres among these counties was devoted to the cultivation of the tobacco plant in 1919, producing a yield of 1,790,000 pounds, or an average of 192 pounds per acre.

The Burley variety, suitable seed leaf in Essex, Kent and Lincoln and Havana in Lincoln. Many tobacco has been introduced into Prince Edward County with success during the past few years the growing of bright tobacco (the one which has extended rapidly on the sandy loams near the shores of Ontario, and some gravelly hills) is now being raised in the West. The annual production of this variety is now 1,000,000 pounds, with the yield steadily increasing. A limited amount of Seed Leaf and Fire cured leaf, the heavier type is grown in certain sections. The cost of cultivation of the grower has been estimated from \$50 to \$75 per acre, and average yield about 1,300 pounds per acre.

MY LADY NICOTINE IN CANADA

Tobacco culture in Canada is an industry of comparatively recent date. Extensive development has taken place in the past twenty-five or thirty years, and recent seasons have proved the adaptability of widely separated sections of the Dominion to this very profitable line of agriculture. Since the protective duty of 28 cents per pound has been imposed on all foreign leaf tobacco, the Canadian industry has received a yet greater stimulus, and interest in the culture is becoming wider and more diversified yearly.

The two principal provinces where tobacco has been successfully grown for many years are Ontario and Quebec. Very successful results have been obtained also at Kelowna, in the Okanagan district of British Columbia, and the growing of tobacco may be said to be firmly established as an industry there. Recent experiments in the Lethbridge irrigation district in Southern Alberta, would indicate great possibilities for the growth in the prairie province.

Tobacco, in Ontario, is grown in the counties of Essex, Peels, Kent, Prince Edward, Elgin, and Lincoln. A total of 9,226 acres among these counties was devoted to the cultivation of the tobacco plant in 1919, producing a yield of 10,769,400 pounds, or an average of 1,150 pounds per acre.

The Burley variety, suitable for chewing, is grown in five counties: Essex, Kent, Peels, Prince Edward and Lincoln. Maryland tobacco has been introduced into Prince Edward County with success. During the past few years the growing of bright tobacco (fine cured) has extended rapidly on the right sandy loams near the shores of Lake Ontario, and some gravelly hills with good drainage. The annual production of this variety is nearly 1,000,000 pounds, with the yearly demand increasing. A limited amount of Seed Leaf and Fine cured leaf of the heavier type is grown in certain sections. The cost of cultivation in the province, including the labor of the grower has been estimated at from \$50 to \$75 per acre, and the average yield about 1,300 pounds per acre.

The increased demand, and higher prices of recent years have given tobacco growing in Ontario a considerable impetus. The provincial Board of Agriculture, realizing this, instituted a tobacco station at the Harrow experimental farm, which has done valuable work in proving species of plants adapted to the various soils of the province, and encouraging limited production and improvement in quality rather than a large acreage and mediocre quality, by improved methods of culture.

The tobacco production of the Province of Quebec for the year 1919 was about 10,000,000 pounds and there were 22,404 acres under cultivation. As a tobacco growing area, the French Canadian province has been coming more to the fore every year. This is illustrated by the fact that in 1911 there were only 12,134 acres devoted to this culture. In the counties of Berthier, Joliette, L'Assomption, Montcalm, Portneuf, Richelieu, Rouville, Terrebonne, Verchères and Yamaska the industry is carried on a very large scale. There are federal government stations at Saint-Jacques de Lachapelle county of Montcalm, and at Saint-Cesaire, Rouville. In many counties the tobacco plant is grown for cigar manufacture, the principal species grown being Havana, Connecticut, Pennsylvania, Ohio, Wisconsin, Comstock, Simmers Spanish, Genesee, and Persian Rovers, but greater success is achieved with pipe tobacco, such as white burley, red burley, blue prior, yellow prior, better yellow mammoth and Tennessee Red.

The planters of the Yamaska Valley have formed a co-operative society and established at Saint-Cesaire a large warehouse for the curing and sale of Comstock Spanish tobacco as fillers and binders for cigars. The society sells annually from 600,000 to 800,000 pounds of

- (1) White Burley Nearly Ripe, in Ontario.
- (2) A Good Type of Curing Barn.
- (3) Fermented Cigar Leaf from Quebec.

prices of recent years have given tobacco growing in Ontario a considerable impetus. The provincial Board of Agriculture, realizing this, instituted a tobacco station at the Harrow experimental farm, which has done valuable work in proving species of plants adapted to the various soils of the province, and encouraging limited production and improvement in quality rather than a large acreage and mediocre quality, by improved methods of culture.

The tobacco production of the Province of Quebec for the year 1919 was about 10,000,000 pounds and there were 22,404 acres under cultivation. As a tobacco growing area, the French Canadian province has been coming more to the fore every year.

This is illustrated by the fact that in 1911 there were only 12,134 acres devoted to this culture. In the counties of Berthier, Joliette, L'Assomption, Montcalm, Portneuf, Richelieu, Rouville, Terrebonne, Verchères and Yamaska the industry is carried on a very large scale.

In many counties the tobacco plant is grown for cigar manufacture, the principal species grown being Havana, Connecticut, Pennsylvania, Ohio, Wisconsin, Comstock, Simmers Spanish, Genesee, and Persian Rovers, but greater success is achieved with pipe tobacco, such as white burley, red burley, blue prior, yellow prior, better yellow mammoth and Tennessee Red.

The planters of the Yamaska Valley have formed a co-operative society and established at Saint-Cesaire a large warehouse for the curing and sale of Comstock Spanish tobacco as fillers and binders for cigars. The society sells annually from 600,000 to 800,000 pounds of

tobacco at from 30 to 40 cents per pound. The purchase of tobacco according to quality has greatly improved methods of cultivation and treatment.

The growing of tobacco in British Columbia is practically confined to the area surrounding Kelowna in the Okanagan Valley. The total 1919 output, which amounted to about 120,000 pounds was sold at 20 cents per pound to a Quebec manufacturer. Interest in tobacco production in the Pacific province is on the increase, and in many sections of its area can be found warm, sunny, well-drained slopes of sandy deposits well adapted to the cultivation of tobacco plants of the heavier type.

The possibility of successfully growing and curing tobacco in Southern Alberta has been clearly demonstrated by the experimental farm at Lethbridge. Sixty plants, grown in the season 1919, produced prolific foliage, which was cured on the farm and made into cigars. Experiments will be carried on a more extensive scale with a view to establishing the industry as a commercial proposition in the irrigation belt.

The successful growing of tobacco calls for rich and light soils containing a good supply of vegetable matter, and will yield the best results. Soils deprived of humus, however, rich in mineral elements, are not suitable for its growth. Good drainage of the subsoil water is essential. The soils of hill-sides, with a gentle slope, generally give excellent results, mainly on account of the rapidity with which an excess of water drains off. The best soils for successful growing are those which contain a sufficient proportion of clay and humus to enable them to retain a good supply of moisture, known as "loamy soils." Stiff clay soils are the least suitable.

FIGHT SMUT AND SCAB

Treat Wheat, Oat and Potato Seed Before Planting.

A Dilution of Formalin or Formaldehyde Recommended, by Immersion or Sprinkling—Copper Sublimate Also Used for Potato Scab.

(Contributed by Ontario Department of Agriculture, Toronto.)

GREAT losses frequently occur through the prevalence of smuts in the grain crops. Numerous experiments have been conducted in the Field Husbandry Department at the College in years past in making a practical application of the treatments recommended for killing the smut in grain. As the result of five years' experiments with five treatments with wheat and seven treatments with oats it was found that very complete work was obtained by immersing the grain for twenty minutes in a solution made by mixing one pint of formalin or forty per cent formaldehyde in forty-two gallons of water.

In preparing wheat for treatment care should be taken to separate the broken smut balls from the wheat, either by cleaning the grain or by placing the seed in water and removing the smut balls as they float on the surface. Not only is it necessary to treat the grain but the formalin solution should be used to kill the smut spores which are lodged in the bins on the barn floors, on the bags, in the grain drills or wherever the living spores have an opportunity of again coming in contact with the grain.

The immersion process is so complete in its results that it does not need to be repeated every year, providing care is exercised to prevent a further introduction of the smut spores.

The sprinkling process was also used in the test, and this method is followed by some farmers. It needs to be conducted with great care, however, for the smut will not all be destroyed, and as a result it is frequently necessary to treat the grain every year. One of the best sprinkling methods is to carefully moisten twenty-five bushels of wheat or of oats and by shovelling the grain over on a barn floor when it is being sprinkled with a mixture of one pint of formalin and from fifteen to twenty-one gallons of water. When the grain is uniformly moistened it should be covered with bags or blankets for three or four hours and then spread out to dry. Varying quantities should be treated proportionately.—Dr. C. A. Zavitz, O. A. College, Guelph.

Control the Potato Scab. For seed select smooth, sound potatoes, as free as possible from scab, and disinfect by soaking in a solution made by adding half a pint of commercial formalin to 15 gallons of water. A couple of barrels with plugs in the sides are best for this purpose to advantage in treating the seed. The potatoes can be placed directly in the solution or first put in crates or coarse sacks and then immersed.

After treatment spread the potatoes out on a clean floor or on the grass to dry. Wash all crates, bags, etc., which are used in handling the potatoes with the formalin solution. The same formalin solution can be used to treat successive lots of potatoes. Fifteen gallons is sufficient to treat from 20 to 25 bushels if ordinary precautions are taken not to waste too much of the fluid as each lot of tubers is dipped. If the potatoes are not all treated the same day it is advisable to make up fresh formalin for each day's work.

Corrosive sublimate (mercuric chloride) can be used also to treat potatoes to prevent scab. Soak the uncut tubers for three hours in a solution of two ounces of corrosive sublimate to 25 gallons of water. Corrosive sublimate is a deadly poison, and potatoes treated with it are rendered unfit for food for man or beast. Formalin is a clear liquid disinfectant. It is a 40% solution of formaldehyde gas and water. It can be purchased from almost any druggist. It is sold under the names of formalin and formaldehyde. It is important that the purchaser, whatever name he buys it under, secured a guaranteed solution of 40% formaldehyde. The stock solution should always be kept in a well-corked glass bottle, and should not be allowed to freeze.

If possible plant the treated seed potatoes on clean soil, that is soil that has not produced a crop of scabby potatoes. Practice a rotation of crops. If scab is very bad it is not advisable to plant potatoes on the same land oftener than once in five years. Heavy applications of barnyard manure should not be made to the potato crop, but if necessary given at some other point in the rotation. Plant potatoes after clover sod if possible. Avoid alkali fertilizers such as lime and wood ashes.—Prof. J. E. Howitt, O. A. College, Guelph.

Planting the Cultivated Crops.

To ensure good crops of carrots, mangels, sugar beets, potatoes and corn, the land should be well prepared and seed should be secured of the highest quality. Under average conditions the Irish Cobbler variety (early potatoes) and the Green Mountain (late potatoes) are recommended for Ontario. To secure best results with the potato crop, it is always better to plant them not later than the 15th of May. This year plant half your seed ten days earlier than you have been accustomed to doing, and plant the other half at the usual time. The experiment will prove to your satisfaction the value of early planting. If a potato planter and pruner has not already been overhauled, a rainy day may be very profitably employed in this work.

Official denial is given to the published report that Viscount French would likely come to Canada as Governor-General.

AFTER CLOUDS COME SUNSHINE. AFTER DESPONDENCY COMES JOY. AFTER SICKNESS COMES HEALTH. AFTER WEAKNESS COMES STRENGTH.

In the spring when you're "all in"—fagged out—blood thin, if you will turn to Nature's remedy, a tonic made from wild roots and barks, which has stood fifty years as the best spring tonic—you will find strength regained. No need to tell you it's Dr. Pierce's Golden Medical Discovery, put up in tablet or liquid form, and sold by every druggist in the land. After a hard winter—shut up indoors, your blood needs a temperance tonic, a tissue-builder and blood-maker such as this "Medical Discovery" of Dr. Pierce's.

SARINA, ONT.—"I was in a very bad condition. I could not eat without feeling distressed. Had indigestion so badly I was always in misery. I had liver trouble as well, and the two just put me 'down and out' for about five years. I had many good doctors but got no relief. I took Doctor Pierce's Golden Medical Discovery and before I had taken two bottles I was much improved, and in less than six months I was well. I could eat anything and do my work with pleasure. —Mrs. ANNE BACON, 326 Burand St.

PROTECTING HUMAN LIVES

The Ontario Safety League continues to place a large amount of literature in the hands of motorists, school children, industrial workers, and others throughout the Province. In the first three months of 1920 the League has distributed an enormous amount of safety material, including 35,000 industrial safety bulletins; 32,400 school safety bulletins; 8,500 special bulletins; 8,500 traffic bulletins; 2,700 electric railway bulletins; 150,000 motorist's safety book-marks; 10,200 health bulletins; 6,500 news letters; 9,000 safety calendars; 12,000 leaflets to the "new man"; 125,000 gummed seals; 3,000 safety cards and posters.

The League will hold an annual meeting in Toronto, beginning Tuesday, April 13th at the King Edward Hotel.

Canada's National Biscuit

THE soda biscuit is a Canadian institution—it is found on the big majority of Canadian dinner tables. And of soda biscuits, McCormick's Jersey Cream Sodas are the leaders in Canada. They have a reputation of sixty-one years' standing. What a test of the value of a food product! Every one of the hundreds of thousands of Canadians who eat them know that the high quality is consistently maintained.

McCormick's Jersey Cream Sodas

Sold fresh everywhere. In sealed packages. Factory at LONDON, Canada. Branches at Montreal, Ottawa, Hamilton, Kingston, Winnipeg, Calgary, Port Arthur, St. John, N.B.

The Telephone Situation

What We Get For the Money!

On January 1st this year our total investment in telephone property—buildings, equipment, tools and supplies, plus what it has cost in actual cash to put this working equipment into service—was \$51,458,806. On the same date we had in operation 337,476 telephone instruments.

This means an investment of \$152 for each telephone instrument in service.

What has been provided for this investment of \$152 per telephone?

Here are some of the things:

An exchange telephone system in thousands of cities, towns and villages in Ontario and Quebec with substantial fire-proof buildings the last word in sanitation and convenience; 96,750 miles of Long Distance wire on 9,500 miles of poles; 587,000 miles of wire in underground cables; many hundreds of miles of wire providing party service to rural communities besides exchange and pole line facilities to give exchange connection to 720 local telephone organizations serving over 103,000 subscribers, mostly farmers.

It takes some 11,800 telephone workers to operate the system and their wages in 1919 totaled \$9,400,000.

This goodly band of faithful workers, with those dependent on them, are a substantial element in the community. They are intimately concerned in its welfare—concerned most of all that the telephone service shall be adequate to its needs. They appreciate, just like the rest of humanity, the kindly co-operation of the public.

Jack Livingstone, of Ridley College, St. Catharines, is spending his Easter vacation at his home here.—Welland Press.

Declaring that he cannot live respectably on \$1200 a year and refusing \$2000 as inadequate, Assessment Commissioner Preck of St. Thomas threatens to resign.

"The Prodigal Wife," is the big attraction at the Grand for the half week and will be seen again tonight together with good vaudeville. Tomorrow night Manager Odium puts on his all-star vaudeville show with screen acts which is said to be exceptionally good.

W. A. Phillips, bandmaster of the Thorold band writes:—The Thorold band has \$3,600 in the bank, which was collected to erect a monument for the heroes of the great war. A committee of thirty-five citizens was appointed to choose a suitable monument and see that the same was erected. Will that committee kindly see that this work is done this summer.

A University of Toronto graduate, Dr. James C. Beatty, a Thorold old boy has been appointed pathologist of the Regina general hospital. The hospital board has ratified an agreement by which he is to receive a salary amounting to a maximum of \$6,000 per annum, and an excess of all profits over \$5,000. Dr. Beatty had fully decided to locate in Regina and build up a pathological department, with ramifications through out the province, when he read the Regina hospital advertisement for a pathologist, and decided to make application, receiving the appointment.

WANTS \$15,000 FROM BILLIE BURKE, ACTRESS

NEW YORK, April 7.—Billie Burke, actress, and her husband, Florenz Ziegfeld, jr., were in Justice McCook's part of the supreme court today to defend a suit for \$15,000 damages brought against Miss Burke by John A. Hall, who alleges that on June 1, 1917, he was injured by her automobile. The case was put over until tomorrow. Mr. Ziegfeld said his wife sold the automobile in question six months before the accident.

Any Woman's Struggle For Good Health Quickly Rewarded

A SIMPLE HOME TREATMENT NOW ADVOCATED THAT GIVES FINE RESULTS.

When a woman's face grows haggard and pale, when she is tired all day and ready to cry when night comes, she ought to know something is wrong.

Putting off only makes matters worse. The best advice we can give any sickly woman is to test out the following treatment.

At the close of every meal, with a sip or two of water, take two chocolate-coated Ferrozone tablets. This seems to be the best thing going for folks that are tired out, run-down and in need of a strengthening, building-up medicine.

Ferrozone's action aids the three principal functions of the body—digestion, assimilation, elimination.

By strengthening digestion it forms an abundance of rich, red blood—this gives good color.

By perfecting assimilation, Ferrozone supplies nutrition—this gives strength, vim, stability.

Elimination is assured because Ferrozone quickens the action of the liver, kidneys and bowels—this guarantees the maintenance of vigorous health.

Ferrozone puts you on the right road—the one that leads to health.

Not a man, woman or child needing blood, vigor, endurance—not a person who is weak, nervous or sickly, not a person in ill-health who won't receive immediate help from Ferrozone.

As a tonic and restorative, as a health-bringer and body-builder, Ferrozone is unrivalled. It cures because it feeds and nourishes, because it contains the element that build up and strengthen. Try it yourself—sold everywhere in 50 cent boxes, 6 boxes for \$2.50 or by mail from The Cattarhozone Co., Kingston, Ont.

STUFFY HEAD CLEARED OF CATARRH GERMS BY "CATARRHOZONE"

To catarrh victims, we have just one word of advice—sure it now. The remedy is "Catarrhozone." That it will cure permanently you cannot doubt. Catarrhozone has cured thousands; it will cure you too.

It acts in two ways: First, it destroys the germ—that checks the progress of the disease. Its second action is to heal the sore places—the germs caused. Nice to think of breathing little drops of healing to every part of the lungs, bronchial tubes and nasal passages. It is such absolute thoroughness that makes Catarrhozone so effective in grippe, catarrh, and colds. Then by its sedative influence upon the mucous surface it clears away the cough and throat tenderness very quickly. We owe something to a science that has given us Catarrhozone—that wonderful remedy which so surely enables us to permanently cure disease of the breathing apparatus. We all know that stomach dosing is useless, and this departure in the mode of treatment is an advance in medical science that everybody can appreciate and value. Complete outfit of Catarrhozone, which is guaranteed to cure any case of catarrh, asthma, bronchial or throat troubles, lasts three months, price \$1.00, smaller size, 50c; trial size 25c, sold everywhere.

W. A. Phillips, bandmaster of the Thorold band writes:—The Thorold band has \$3,600 in the bank, which was collected to erect a monument for the heroes of the great war. A committee of thirty-five citizens was appointed to choose a suitable monument and see that the same was erected. Will that committee kindly see that this work is done this summer.

SERVICES FOR ITS EMPLOYEES

BENEFIT FUND OF BELL TELEPHONE CO. PROVES HUMANITARIAN WORK—STATISTICS OF SICK, DEATH ACCIDENT AND PENSION DISBURSEMENTS

Sickness Disability Benefits \$111,065.68; Death Benefits \$19,991.97; Accident Disability Benefits \$15,016.53; Pensions \$6,109.28—these are some of the payments made for the year 1919 from the "Employees' Benefit Fund of the Bell Telephone Company. The Benefit Fund Committee's report just published is an interesting document. It shows gross payments to employees from the benefit fund in 1919 of \$158,602.02.

"During the year," says the report, "there was a total of 1,665 sickness cases in which benefits were paid. This is 523 cases less than 1918. The total days of disability was 68,488 days during 1919—only 274 days less than 1918—which indicated that the sickness cases of 1919 were of longer duration, and that in the large number of influenza cases which helped to swell the total in 1918, the absence was of very short duration. In 1918, with 2,188 sickness cases, \$102,962.67 was paid in benefits. In 1919, with only 1,665 sickness cases, \$111,065.68 was paid in benefits. The increase is due to the higher average wage of employees."

In accordance with the recommendation of the committee, the company has established a Medical Department in connection with the "Employees' Pension and Benefit Plan," and Dr. G. A. Winters has been appointed to take charge of it as "Medical Advisor," with headquarters at Montreal, Da. Winters will review all medical certificates and medical examination forms.

If it is the intention of the company to inaugurate some form of physical or medical examination of new employees. It is considered that such procedure is very desirable, both for the protection of the employees already in the service and to ensure new employees being given work for which they are physically fitted. Should such examination disclose minor ailments of tendency thereto, the new employee would be made aware of the condition and advised to consult his or her physician, in order that early treatment might prevent the ailment becoming serious. Valuable and disinterested advice has already been given to employees through this channel.

The fund, which now stands at \$500,000, is maintained by the company without contributions of any kind from the employees.

Civic Employees and Civic Finances

(Continued from page 1)

What the Journal believes is that the attention of the public should be drawn to an economic condition that has grown up not only in this city but in others under which the large projects are always financed and the little asked by men and women in wages is not available.

In explanation, also, of the position of the Council it may be said that as a body it has little or no control over the expenditures of the Board of Education, which seems to have opened the civic purse during the last two years with indeed a ready hand. The present Council has spent many long hours, of that we feel confident as a result of experience, in paring down expenses to keep the general rate as low as they have had to strike it, but an outside Board under power of the law conferred on it by the Legislature seems to have no compunction whatever in adding on expenses that run their rate for the schools up three and a half mills over last year. All the people's taxes go into one funnel but they come out through different hoppers and the new Board of Education is an expensive hopper. But to these citizens who do not know the intricacies of civic finance it is hard indeed for them to appreciate that out of the \$800,000 or \$700,000 a year taken into the city in taxes, there is not enough left to give every man who is employed by the corporation a wage of \$100 a month.

It is the system that is wrong, not the few men who happen to be holding office this year and are more or less helpless. It is a system under which the average ratepayer has voted for every by-law brought up nearly that meant expenditure of money until the time has come, as the editor of this paper when Mayor last year pointed out, that the governors of the municipality have come to the end of their financial tether.

When we pointed out last December that the city had been too extravagant in the past and was facing a financial problem The Standard and the present Mayor spread the theory that Mayor Elson was talking "blue ruin." It has not taken long for the Council and for the public to find out that what the then Mayor said was correct and more than that, the errors foretold of factional representation in municipal councils has come true.

What The Journal would advise in all kindness is that the firemen recognize the handicap under which the Council is required to administer affairs and having received an increase, though below what they expected, draft out a schedule for the following year based on sound economic statements of costs, etc., and place the ultimatum before the whole public in such a definite way that it will prepare an yman who runs for office next year for the inevitable task of providing that wage and let the whole matter be clearly and thoroughly understood during an election period.

A Happy Family

One need not be an over-discerning student of facial expression to be impressed with the joy that has come to the young boy of our picture as he listens to the music from a

Heintzman & Co., Art Piano

played by "big sister" whilst the other children show their pleasure down to their toes. It's a pretty home scene—but more. One can hardly fully estimate the education, culture and refinement that comes to anyone who possesses one of these instruments—not a mere medley of noises—for a piano that an artist like Tezzazzini and many others insist on using, necessarily and obviously is a different and superior instrument—and it is.

HEINTZMAN & CO., Limited

66 St. Paul Street, St. Catharines, Ont

SEE END OF PAPER CONTROL IN CANADA

SUPREME COURT OVERRULES COMMERCE BOARD ACTION

OTTAWA, April 7.—A decision which was regarded as meaning the end of government control of newspaper in Canada was rendered by the supreme court today when it overruled the action of the board of commerce in ordering Price Brothers & Co., to ship about 15 per cent of its product to specified Canadian consumers, instead of the United States, where the higher prices could be obtained. The court holds that newspaper is not a necessity of life in the sense that it is essential to physical life of the individual.

The order was issued on February 6 last. The company has been shipping all of its product to the United States for \$90 a ton, and after the ruling

was made sent part of it to Canadian consumers at \$80 a ton. A sum representing its loss by the ruling was deposited in the bank pending the decision of the supreme court.

In Welland police court on Saturday James Robertson of Fenwick was assessed \$42.50 for driving a car during the season of 1919 without a license. The charge was laid by officials of the Provincial Secretary's Department, acting upon information supplied by neighbors of the accused.

They were told by the firemen that they had promised the Mayor to hold a meeting until 6 o'clock. They were the Fire and Light Committee to meet this afternoon and they

Chamber of Commerce Has New Qu Take Inte

The Board of Directors of the St. Catharines Chamber of Commerce held a special luncheon meeting at the Welland House at 12 noon yesterday and got through with a number of important items of work.

The special committee on Headquarters made a further report of its investigations into available quarters for the Chamber and the Board finally decided that the new home of the Chamber of Commerce shall be in the south wing of the Welland House.

Mr. A. H. Malcomson is having the necessary alterations made immediately which will provide adequate quarters for the Chamber with plenty of room to expand as the Organization grows. It is planned, when the alterations are completed to have in addition to the offices, a meeting room and reading room for the convenience of the members, and visitors. These facilities will be provided for free. Obtain for information regarding the city and vicinity and holding business meetings. The rooms on the ground floor, and have the advantage of central location and excellent hotel accommodation.

The Chamber is taking steps to obtain with other Chambers of Commerce to obtain an act of Incorporation from the Dominion Government and Mr. E. H. Lancaster was appointed as a delegate to attend an interview with the Secretary of the Dominion Government in the matter.

Recommendations from Forum meetings, held recently were taken by the Board, and the Committee on Committees was authorized to select a committee on Town Planning to thoroughly investigate the needs of St. Catharines in this important work with the view of urging the appointment of a Town Planning Commission.

A sports committee was also authorized to be formed to go into details of improving facilities for, and encouraging various forms of sports. A committee was also appointed to present the Chamber of Commerce
