WHY WE ARE ABLE TO SAVE YOU SO MUCH MONEY. We make the Ranges and place them in your Kitchen. There's only one transaction and one reasonable profit made on the whole transaction. You don't have to pay a factory profit—then a jobber's profit—a retail a profit—store rent and clerk hire—and expenses of travelling salesmen. Our great "Factory to Kitchen" Plan enables you to buy the lest Range for the same price that the wholesaler and jobber would have to pay-and LESS than the retail dealer could get it for-and on better terms too. "DOMINION PRIDE" RANGES would cost from \$69 to \$78 if sold by retail stores. Our square deal way of dealing direct with you—and saving you all the profits made on ordinary ranges—enables you to have a "Dominion Pride" Range for Dominion Pride" Ranges are made of best Blue Polished Steel and Malleable Iron. Polished steel does not need blacking - simply go over it with a cloth and it will stay fresh and bright. Malleable Iron will NOT warp, crack or break, as cast iron-will. Malleable Iron is used by railroads for car castings, and by Farming Implement Makers, because of its superior strength. Cast Iron Ranges are cheap—even at their best—and expensive for you at any pride. because they soon go to pieces. "Dominion Pride" Ranges will last a lifetime ecause they are built right, of the right materials, by people who know. SAVE OVER 30% OF YOUR FUEL Dominion Pride" Ranges have proved this by actual tests. Whether you us coal "Dominion Pride" will cut down the cost of fuel by almost one-third. COLD rolled steel plate ovens, sectional iron lining Fire Box with air chambersinterlined with asbestos-extra heavy grates-all help to make "Dominion Pride" the WE GUARANTEE THEM-ABSOLUTELY Over 6,000 of our RANGES are in use in Toronto alone, and many thousands more in other parts of Canada. You get a Range that has proved its superiority in every way when you buy a "Dominion Pride," and our guarantee nolds good for a year. This guarantee means everything to you—because you have an enormous factory and an old established Canadian Company back of the guarantee. Here's another point about "Dominion Pride" Ranges that is missing in Ranges bought at retail stores. You can always get new parts if you need them. WE PAY THE FREIGHT-RIGHT TO YOUR STATION Our price-direct from our Factory to your Kitchen is this-a "Dominion Pride" Range 8-18

"THE KLONDYKE'S MOTHER LODE"

The storehouse from which the famous placer creeks, Bonanza and Eldorado, received their fabulous wealth, have been uncovered on the claims of The Victoria Guich Mines, situated on the ridge at the head of Victoria and Gay guiches. The company's holdings consists of four-quartz claims of about 200 acres 14 miles from Dawson, on a good wagon road and two miles from the Klondyke Mines R.R. There are two true quartz veins, between perfect walls 6 and 10 feet wide on the property, the free milling ore from which is literally encrusted with the yellow metal. Read what some of the world's greatest authorities say:

orities say:

R. G. McConnell, B.A., of the Geological Survey, says in his report
on the Klondyke Goldfields: "A sample in which no free gold could be detected with the naked eye, or an ordinary magnifying glass, was assayed in the laboratory of the survey and gave 2,625 oz. of gold and 3,267 oz. of silver to the ton."

of the survey and gave 2,629 02. of gold and s,221 02. of silver to the ton."

Pro. Henry A. Meirs, D. Sc. F.R.S., Waynflete, Professor of Mineralogy in the University of Oxford, in collaboration with Professor A. P. Coleman in a report to the Minister of the Interior says: "At the head of Victoria Gulch which runs into Bonanza, a creek opposite Gay Gulch, a tributary of Eldorado, and at a height of about 2,300 feet above Dawson, has been opened, what appears to be a true quartz vein, showing nuggety gold in abundance. The gold is distinctly crystalline in character, and the crystals are of a peculiar form having a triangular outline due to the fact that they are octahedra, and in particular a remarkable variety known as "spinel twins." Now it is significant that the gold found in Victoria gulch is also crystalline and has the same characteristic outline, here then we have fairly convincing evidence that the gold found in a stream gravel is identical with that found in situ in a quartz at the head of the valley and in this instance there can be little doubt as to the origin of the gold."

Dr. Eugene Haanel, Director of Mines, a noted authority on min-Dr. Eugene Haanel, Director of Mines, a noted authority on mineralogy in a report to the department in 1902 says: "Masses of quartz were seen protruding from the surface all about the locality, and it needed only to wet the surface of the quartz with water to reveal the bright specks of gold adhering to their surface.

"Gay gulch and Victoria gulch, the former a tributary of Elderado creek, the latter of Bonanza creeks. Imit Victoria Hill toward the sources of Bonanza and Eldorado creeks. Above Victoria and Gay gulches, Bonanza and Eldorado creeks. Above Victoria and Gay gulches, Bonanza and Eldorado creeks. Above Victoria and Gay gulches, Bonanza and Eldorado creeks. Above Victoria and Gay gulches, Bonanza and Eldorado creeks. Above Victoria and Gay gulches, Bonanza and Eldorado creeks are rich. It seems a rasonable conclusion that the gold in these creeks, at least as far as they flank the side of Victoria Hill, was derived from Victoria Hill.

Mr. R. W. Brock, Director Geological Survey, says: "The district is not glaciated. Gold in the recent gravel freshly derived from its original source is similar to gold in the corresponding White Channel gravel. Many of the gold grains and most of the nuggets, enoise quartz. Quartz pebbles are found containing gold, some at least very fich in gold. The quartz of the houlders is similar to the nuartz of the veins, and gold of the veins to gold of the gravels. From the foregoling and other facts, it is obvious that the gold is absolutely local in origin, derived from the basins of the pay gulches and creeks.

Fred T. Congdon, Member for the Yukon, stated on the floor of the

igin, derived from the basins of the pay gulches and creeks.

Fred T. Congdon, Member for the Yukon, stated on the floor of the House of Commons last January that some of the richest gold quartz in the world was being mined close to Dawson.

Just step and think of the immense possibilities of rich returns from the development of the claims of The Victoria Gulch mines, when two miles of the Mother Lode reas through the property from which the \$55,000,000 in placer gold has been already won from Eldorado and Bonanza creeks, the one-third the Klonydke's entire cutput. 169,660 shares of treasury stock of the par value of \$1 is now offered for public subscription at 25 cents per share fully paid and non-assessible.

It is not expected that any further issue of treasury stock will to be made. Write today for prospectuses and maps giving full information

The opening services of the new McDougall Church were very largely attended and the spacious auditorium made a very favorable impression upon all who saw it. Its capacity was taxed to the utmost at the evening service. The pastor conducted the cervices, assisted by Dr. Riddell and Mr. Herbert Booth. The choir rendered special music, and for the first time appeared in their new gowns. The effect was very pleasing. The services were distinctly evangelistic in character as they were also intended to inauguarte the mission which Mr. Booth has come to conduct. He will speak each evening of the week, the addresses being preceded by stirring ficance and omniscience pleading with song services.

The financial appeal in the services yesterday realized over \$2,700. This brings the total amount reported to gelist closed with a strong appeal for date up to over \$25,000, and the com- men to give God a place in their partment unless provided with either hearts. mittee are confident that by tonight the full \$30,000 they set out to raise NEW FISHERIES REGULATIONS

will be on hand. There are points of similarity between Herbert H. Booth and his ia mous father, but unlike some sons of great men he has not to depend upon

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of

bed, and you have heat while you dress. Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off. The girl who practices on the piano

in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off. The member of the family who has to walk the floor on a cold winter's night with a restless baby can get

then turn it off. The PERFECTION SMOKELESS OIL HEATED Absolutely smokeless and odorless

temporary heat with an oil heater, and

is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly rewed for rewicking. Finished in japan or nickel, strong, durable, wellunscrewed for rewicking. made, built for service, and yet light and ornamental.

the Premier had said, then Clarke and is needed not the province was liable. He could 110 did not see why the larmers of that province should contribute to that

125 126 128 The banks were quite capable of 140 looking after themselves. R. B Bennett throught the provisions of this bill should have been incorporated in the foreclosure one 110 This bill was to recognize injury done by the foreclosure one. It would allow the House to sit on legal claims, which he thought was a most dangerous principle to introduce. For the next twelve months every member would be bothered by those who had 115 claims or supposed that they had. 110 He objected to the bill on three counts: (1 It was a recognition of con-95 fiscatory legislation; (2) it placed in 100 the Legislature judicial functions which should be delegated to law courts alone; (2) it made the Legisla-

A bill introduced by Mr. Boudreau to ratify a certain agreement between Raymond Brutinel, the premoter of the Edmonton Interurban Electric Railway and the Town of St. Albert, provoked some criticism. Messrs. Boyle and Bennett took the ground that in the interests of the town the agreement should not be ratified unless it were referred to the ratepayers, to be endorsed by a two-thirds vote This amendment may be made.

mond. He said that it would be so much the worse for Ireland if she rejected the ofter made to her. The Liberals, he asserted, could not alter their terms to appease anybody.

An editorial in the Morning Post, the chief tariff reform organ, characterizes Balfour's referendum as impracticable. The Post says: "The faction at the behest of which a fair chance of victory for tariff reform was thrown away, is not worth a hundred votes in a single constituency. The Unionist party must retrace its stead of the Morning a clear understanding with the Unionist party must retrace its stead on the Morning a clear understanding with the Unionist party."

Will Force an Appeal.
