

ABOUT THAT COUGH? LOOK AT THIS & THINK!

THIS diagram of the human body shows you that there is absolutely no connection between the stomach and the lungs. When for a cold, a cough, or any chest complaint, you take medicine which goes—not to your lungs, but to your stomach, you are wasting time. You must BREATHE IN healing for the lungs.—you can't take it in by dosing your stomach with sickly mixtures and cough drops!

Peps provide the new "breathing treatment" for coughs, colds, bronchitis, and all lung troubles. Peps bring lung-healing pine fumes to your home, instead of you having to go to the pine forest. Peps are pine fumes, and certain highly-beneficial medical essences condensed into tablet form. You put a Peps on your tongue and let it dissolve. As it does so, the healing volatile essences are liberated. You breathe them DIRECT TO YOUR LUNGS. Whether you breathe deeply or easily, these healing essences pass down your breathing tubes, bathing all the inflamed surfaces, which no liquid or solid matter can ever reach, in health-giving pine fumes, and carrying health and healing wherever they penetrate.

The tissue-strengthening, pleasant fumes, so liberated from the dissolving Peps, are not only healing in their operations. They are highly antiseptic. They kill the germs of consumption, catarrh, and those many and varied throat and lung troubles so common to-day.

You have a nasty night cough? Take a Peps before going to bed—your cough will not trouble you! Your lungs are a little weak, and going from the warm house into the cold air outside makes you cough? Just before going out put a Peps in your mouth—there will be no coughing! Your throat feels "stuffed up." Your chest feels tight, and your breathing troublesome? Peps will put matters right for you very quickly.

Peps are excellent for children. They contain no opium, morphine, or any other poison. Test them by getting free sample!

Peps cure coughs, colds, bronchitis, asthma, catarrh, sore throat, and all ailments of lungs, throat and chest. 50c. box all druggists, or Peps Co., Toronto.

To-Day's Messages.

10.00 A.M.

THE REBEL AURORA.
PETROGRAD, To-day.
The Russian cruiser Aurora is a vessel of 4,730 tons and has a complement of 573 men. She was built in 1900, and carries 10 6-inch guns, 20 12 pounders and 8 4.7-inch guns. She also is armed with 10 torpedo tubes.

BERLIN CLAIMS HUGE BAG OF PRISONERS.
BERLIN, To-day.
Italian troops to the number of 17,000 were cut off from Tagliamento and captured, an official statement says. The total number of prisoners taken by Austro-German forces is now more than 250,000, it is asserted.

ITALIANS RETREATING.
ROME, To-day.
The withdrawal of the Italians was continued yesterday, the War Office announced. To-day larger units retired unmolested. The Italian troops fought numerous rearguard actions, in the course of which they succeeded in holding up the Austro-German advances temporarily. Italian aeroplanes continued bombarding the hostile forces along the Tagliamento and brought down five enemy aeroplanes.

FRENCH REPORT.
PARIS, To-day.
The War Office announces to-night that spirited artillery actions occurred along the front north of the Aisne in the sector south of Corbeny and in Upper Alsace in the region of Sepers.

THE GAZA VICTORY.
LONDON, To-day.
Midnight, Tuesday: Our troops assaulted the Turkish works south of Gaza and captured them, finding them lightly held. The advance was continued on the right to Alimuntar, the hill dominating the town on the south and southeast, and on the left to the Skrek-Redman fortifications about a mile outside the town. During the day we pushed forward through the town and advanced to the mouth of Wadi Hesi, eight miles north of our original lines. In the area east of Gaza the Turks still occupy some trenches, but there are indications of a general retreat northward. Our aeroplanes inflicted losses on the troops retiring on our right. The enemy has not renewed his counter-

attacks. General Allenby reports there were considerable captures of prisoners, guns, ammunition and stores, but no details are yet available.

THE AUSTRALIAN REFERENDUM.
MELBOURNE, To-day.
The papers warmly applauded the Government's decision to take another referendum on conscription, but deplore the delay which it involves. The newspapers declare that the Government should stake its existence and the life of parliament on the success of the appeal. It is stated that the soldiers at the front will again have a vote. The official labor party, which bitterly opposed the last referendum, is not able to fight strongly against the coming referendum owing to lack of funds. Over twenty million pounds sterling have been subscribed to the Liberty Loan.

THE MENACE IN VENETIA.
Italian Army Headquarters, To-day.—The enemy territorial occupation in Eastern Friuli presents a sinister aspect far beyond its military purport. The Alps heretofore have been the traditional boundary between the Northern Teutonic and Southern Latin races. The Austro-Germans recognized the Alpine boundary except for Trent and Trieste. Now for the first time the Teutons are occupying territory in the Friuli Plains, which are the easternmost part of Venetia and the age-long possession of the Latins. Such an invasion strikes at the very heart of the principle of nationality, and also thrusts a Teutonic wedge southward along the Adriatic. This brings up the grave question of whether Germany will finally secure a territorial lodgment with posts and naval bases on the Adriatic Sea, thus realising her aim to become a Mediterranean as well as a North Sea power. Unless the Allies turn them back from the Friulian Plains this would seem to be a warning to the Allies that no time is to be lost in reinforcing, concentrating and co-ordinating.

TRAITOROUS BOASTS.
PETROGRAD, To-day.
Lenine was introduced in Troetzky's speech as "an old, old comrade whom we welcome back." Lenine said, "now that we have the revolution, the peasants and workmen control the Government. This is only a preliminary step towards a similar revolution everywhere."

THE RUSSIAN SITUATION.
PETROGRAD, To-day.
Petrograd is again in turmoil. The Provisional Government has been thrown out of power by the extreme radicals. Several of his ministers have been placed under arrest and the Winter Palace, the seat of Government, has been bombarded by the guns of the cruiser Aurora and the St. Peter and Paul fortress and forced to capitulate to the revolutionists. A Congress of Workmen and Soldiers' Delegates of all Russia has convened and will discuss questions of organization, of power, peace and war and the formation of a constituent assembly. A delegation has been named to confer with other democratic organizations with a view to initiating peace for the purpose of taking steps to stop the

bloodshed. As yet details of the disorder which followed the assumption of power by the radical element are meagre. Fighting took place at various points inside the city, the revolutionaries capturing vantage points along the Nevsky Prospekt and various bridges over the Neva. It is possible that the casualties among the citizens were slight, as the delegates took precautions to warn the people to take refuge in their homes. Reports as to the whereabouts of Kerensky are various. Some of them say he has sought safety in Moscow, while others assert he has gone to the front to endeavour to obtain a backing of troops to forestall his debacle. The Cossack Regiments are declared to have announced their readiness to support the Government on condition that no compromise with the revolution is made.

SUCCESSFUL TRENCH RAID.
LONDON, To-day.
A War Office communication issued to-night says: A successful raid in which we captured 21 prisoners and a machine gun was carried out to-day by the East Yorkshire troops north of Fresnoy. The hostile garrison was caught by a machine gun fire while endeavouring to escape from our artillery barrage. Many casualties were inflicted in the course of the raid. The enemy's support troops attempted an advance, but were engaged with direct machine guns and suffered heavily. On the battlefield enemy artillery has been active in the neighbourhood of Passchendaele.

NEWS SHOULD BE TAKEN WITH RESERVE.
LONDON, To-day.
The Russian Embassy in London was without official news this evening from Petrograd. The Russian Charge d'Affaires declared meanwhile that the world must regard with a certain amount of reserve the news, which was evidently coming from a

2227—Private Albert Spooner, 79 Gower Street.
R. A. SQUIRES,
Colonial Secretary.

controlled source. It should be borne in mind, he said, that the Petrograd garrison by no means represents the whole Russian Army.

2.00 P. M.
GERMAN WIRELESS OUTFIT FOUND.
NORWICH, Conn., To-day.
A complete wireless receiving outfit has been discovered by Federal agents near here, it became known last night, and has been confiscated by the Government. The owner and operator of the wireless outfit, Charles Troland, was not arrested. A code book was found in his possession containing a number of messages concerning the movements of ships sent out from Berlin, Germany, and also contained messages sent.

CANADIAN V. C.'S.
LONDON, To-day.
The London Gazette announces the award of the Victoria Cross to three Canadians. They are Sergt. Major M. Hanna, Pte. Jas. O'Rourke, Infantry, and Major O'Kill Massey Learmont, M.C., of Quebec.

LAW PRAISES CANADIANS.
LONDON, To-day.
Bonar Law, speaking at Manchester, paid a tribute to the gallantry of the Canadian troops at Passchendaele. He declared in broken tones that when the empire came successfully through the conflict, Gallipoli would be sacred ground because of the dead who were there. The English were a generous race; he could say that because he had no English blood in his veins. The English had magnanimously given the highest praise to the courage of the Dominion soldiers. Such magnanimity always came of the consciousness of strength. Law said that the number of aeroplane engines turned out last month was "thrice the output of October last year." As regards the submarine campaign, the enemy had not been able to keep up the October average, and so far the November results were less favourable to the Germans than those of October.

RUSSIAN REBELLION ENGINEERED BY GERMANY.
LONDON, To-day.
That the Russian Coup d'Etat was engineered and subsidized by Germany for the purpose of eliminating Russia from among her enemies is virtually the unanimous opinion expressed in newspaper editorial comment. A despondent view of the outlook is taken by some commentators, while others claim that the triumph of the Maximalists is probably a passing phase, and refuse to believe that they represent Russia or that Russia will agree to a separate peace. The Times partly blames the Kerensky Government for tolerating anarchy.

City Council Will Discuss Building of Workingmen's Homes

On Monday night next a special session of the Civic Board will be held for the purpose of discussing the erection of workingmen's homes. As outlined by Mayor Gosling at the regular weekly meeting of the Board last night, a building site of 138 feet frontage and rearage of from 32 to 60 feet has been offered at a reasonable figure, providing space for several dwellings, in the eastern section of the city, a few minutes walk from the street car line and where there is a scarcity of houses. If the site and plans are approved, the Mayor intends to build seven dwellings and, if the expenditure prove justified, operations will be continued more extensively. Already the Mayor has the assurance that there is no cause for worry over the financial aspect of the project.

GIRLS! MAKE A BEAUTY LOTION WITH LEMONS

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen and bring out the roses and beauty of any skin. It is truly marvelous to smoothen rough, red hands.

Imperial Red Cross.

In Petrograd.

It is just as well to be accurate. If we form our opinion of Russia from what goes on in Petrograd, we make a great mistake. The two names stand for very different things, as the traitors in the capital will very likely soon discover. All we need say with regard to the whole dark situation in Russia is a word or two deprecating undue pessimism. Whatever happens there cannot do the Allies much more harm than they have already suffered. Russia has been a passenger in the war for a year. She will never go over to the enemy, and the worst that can happen is that Germany may be encouraged by the reign of anarchy which she has established there to deem herself safe in removing still more troops to the other fronts. And there must be a limit to that process. The truth is, Kerenky, great as he has shown himself, has failed to handle what must be confessed an almost impossible problem. His fundamental mistake has lain in an attempt to reconcile incompatible elements. He is a Socialist, and the Socialists have been mainly responsible for what has happened. They have never subscribed to the policy of the anarchists who now rule in Petrograd, the Bolsheviks, pro-Germans, Workmen and Soldiers and the rest, but by inaction and acquiescence have allowed them to go to the greatest lengths, including the worst thing of all, the corruption of the army. They have now, of course, got out of hand—in Petrograd. Kerenky made another mistake in not moving the Government long ago to Moscow, the true heart of Russia and not rotten, like Petrograd, with spies and traitors. And he made the worst mistake of all in suppressing Korniloff, with whom he might have made, and may yet

make an alliance which could have wrought Russia's salvation. What will now happen? It is not difficult to predict at least the broad consequence of the rebellion, civil war. Everything depends upon the extent of the hold which the rebels have gained upon the army. It is inconceivable that a party headed by Lenin and Trotsky, men in the pay of the German government, will be permitted to hold undisputed sway for long. They will disclose themselves at once by negotiating with Germany for peace, and that even hopelessly disorganized Russia will not tolerate. If Kerenky is in Moscow, he will rally around him loyal statesmen and troops, that is, if his leadership is accepted and he is not replaced by some stronger military spirit. The Cossacks are loyal and will fight Lenin to a man. If the great body of the nation, the peasants, prove loyal also, the situation will be redeemed. It may be all for the good that matters have come to this head at last, and that Russia should be purged by the blood-letting which seems the only chance of the her recovery.

Undoubtedly, Russia and Italy today present pictures that are none too bright to our eyes. But they are far from hopeless and there are others which can be set over against them. In Flanders the British are ready to drive Germany from the Belgian coast, nothing less. They may attempt to do so at once, as soon as the weather permits; or, as is more likely, they may make the life of the enemy opposite them an inferno through the winter and crush in the battered lines like an eggshell in the spring. Success follows success in the minor theatre in Asia, where the British are extending their arms simultaneously up the coast of Palestine and the banks of the Tigris. And there is another picture which we are not permitted to see, but from which the veil is lifted now and then to reveal some of its terrible details. It is the picture of famine, gaunt and horrible, stalking through the Central Empires. There are many who do not believe it, but they are those who do not believe anything until it happens, when they are usually the first to say that they knew it all along. Germany and Austria are starving. Such a mass of evidence reaches the outer world through neutral channels, Holland, Switzerland, and Scandinavia, as it is impossible to dispute. The starvation is not yet apparent, because the civilian populations are being first drained and sucked dry that the armies may be sustained. Germany's small supply of vital necessities like oil and fats, cotton, rubber and leather, is being rapidly consumed and there is absolutely no further source to draw upon. The theory is held by many that famine, not strategy, has impelled the excursion into Baltic Russia and the tremendous drive into Italy. If it be so, the end is near. Nothing Germany can do in Russia will help her in her need. As for Italy, when Mackensen reaches the Piave River he will have shot his bolt. He will be held there. If he is held in a deadlock, he will have done tremendous harm. But it is not likely at this stage. He will either win outright or lose outright. It matters not that he has prepared the line of the Tagliamento behind him. If he is driven back upon it he will never stand there. Germany may well experience another Marne; she has not the strength to sustain another Aisne.

Tough Assaults and Robs Invalid.
Last midnight Constables Vail and Green arrested one John McManus for a dastardly deed committed by him the previous midnight. McManus is a tough, hard-looking citizen, who bears an unenviable reputation in police circles and who is better known for attacking people of inferior physique to himself. On this occasion he assaulted a man named Reid, who is feeble and cramped up from rheumatism. After beating him and knocking him down, McManus ransacked the invalid's pockets, getting away with some change. The helpless victim screamed, as McManus fled, later being captured by the officers mentioned. This morning he appeared before Judge Morris, who scathingly denounced the conduct of the rascal and sentenced him to six months imprisonment in default of paying a fine of \$100. He went down.

Several Moose Seen.
Geo. Snooks and party hunting on the Upper Humber saw a bow moose on a marsh above Willow Steady on Thursday and that night seven others were on the marsh. On Sunday they saw another moose on the north side of Deer Lake.—Western Star, Nov. 7.

Stafford's Prescription "A"—Cure for diseases of the Stomach: Indigestion, Dyspepsia, Catarrh, Gastritis and Nervous Dyspepsia.—no 6, if

Major Walter Rendell
ADDRESSED LARGE AUDIENCE AT LLEWELLYN CLUB.
"The making of a Soldier in the Newfoundland Regiment" was the subject chosen by Major Walter F. Rendell, who delivered last night one of the most interesting lectures ever heard at the Llewellyn Club.
Rev. Dr. Jones, President of the Club, presided and introduced the gallant Major. The latter on stepping to the platform was given a right royal reception, and in his opening remarks expressed the pleasure it gave him on being privileged to speak to so large an audience. Almost everybody, he said in this city has somebody who is now or has been at Ayr and no doubt they had heard of the wonderful kindness extended our fighting men in all parts of Scotland. So numerous were the invitations to the men to attend concerts, sociables, theatres, etc., that the men felt a kind of bashfulness in attending them, and if given their choice preferred paying their way to a show and taking a friend along with them. At Fort George they were entertained by parties who came from miles away for the purpose.
Physical training has a wonderful effect on the recruit and after three weeks of training the results are surprising. In route marching, one of the principal things is care of the feet, which must be bathed on the return, and on one occasion at Ayr following a tramp, some of the boys not only bathed their feet but unstuffed and bathed, despite the fact that it was February. Their physique was so admired at Edinburgh that the battalion had to parade for physical drill in Prince's Street Gardens three times a week to attract recruits to the Scottish regiments. Another proof of the physique of Ours was demonstrated by a volunteer, who was formerly a sailor, who howled over the big Scottish policemen who attempted to arrest him for being drunk. When the Commanding Officer apologized for his conduct to the Brigadier, the latter only expressed the opinion that "if we had more like him in the army we would clean up the Hun in quick time."

Another sample of the kind of stuff "Ours" are made of was shown in the big storm at Gallipoli, when other regiments suffered hundreds of casualties and "Ours" had none. It was here that C. Co. held the whole brigade line and it was through this that Major Bernard won his Military Cross.
The Major then spoke of the development of character or personality, which word describes the difference between the British and German soldiers. The former is trained to use his own initiative, while the latter has no individuality and has to fight in masses. Discipline is really a moral force, which makes the difference between a crowd of armed men and an army. The measure and worth of discipline was strikingly illustrated by "Ours" on July 1st, 1916, when they went forward as on parade, knowing as they did that the advance guards had been wiped out. This is the kind of discipline that is needed for victory.
At Gueudecourt on Oct. 12th, 1916, the wounded man of "Ours" was making his way back when he came across a German who was there for no good purpose, and not being able to take him along was about to bomb him when stopped by an officer. On returning with help, the latter was informed by the Private that he had thrown the bomb, but the Hun was now quiet—and he wiped his bayonet. The gas used by the British is the best in the world, being more deadly than any gas but mine gas, and as that cannot be collected we have beaten the Germans at their own game. The liquid fire used by the Germans can only be thrown about 40 yards while ours carries 200 yards and also drops an inflammable substance, one drop of which consumes anything it touches. So terrible is the effect that the military authorities only use it on special occasions. Gas is effective for eight miles when blown by a favourable wind.
Life at the front is not so bad as it is made out to be, as some interesting and enjoyable times are spent in billets. The spirit of our men was once clearly demonstrated when, on

WAR NEWS

Messages Received Previous to 9 a.m.

WITH THE ITALIANS.
Italian Army Headquarters, Nov. 8. (By Associated Press.)—The bulk of the Austro-German invading forces today presents a mass frontage of about thirty-five miles back of and along the Tagliamento River with parties thrust forward eight or ten miles west of the river for the purpose of feeling for points of least resistance. This is producing detached engagements, but no battle in force has yet occurred. The Livorno River, to which the Italian withdrawal is now progressing, is only one of a series of successive defence parallels. The Italian army still has in reserve large bodies of troops.

AUSTRO-GERMAN FORCES CROSS LIVIZNA RIVER.
BERLIN, via London, Nov. 8. The Austro-German forces in Northern Italy have crossed the Livorno River, the army headquarters announced to-day.

CORN CROP.

WASHINGTON, Nov. 8.
The corn crop is larger by more than 66,000,000 bushels than ever grown in the history of American agriculture. The Department of Agriculture in its preliminary estimate of the crop, placed the quantity at 3,910,083,000 bushels. Conditions since the October forecast caused a reduction of about 19,700,000 bushels in the indicated output.

Weekly Session OF CITY COUNCIL.

On behalf of Mr. Fred Fitzpatrick, Hon. M. P. Gibbs answered Council's letter regarding Franklin Ave., where the Council offered to open a street at an expenditure of \$4,540, giving the owner a building frontage of 1870 feet, the Council holding itself responsible for 835 feet and Mr. Fitzpatrick for 935 feet and pay proportionate share of opening, namely \$2,295. Mr. Gibbs offered a payment of \$1,500, holding that his client has the right to lease or sell the land and that the lessees or owners have the right to build thereon. The Council contends that, under the Municipal Act, the City may open any new street and charge cost of improvements to the property, or that they may open such street on terms agreed upon by the Council Board. Councilor Morris considered Mr. Fitzpatrick's offer a generous one and moved that the city accept \$1,800 as a compromise. Councilor Vinicombe seconded the motion, which was lost on division. Mayor Gosling held that the generosity was on the City's side, as with the improvements Mr. Fitzpatrick's land at \$1 per foot, 20 years valuation, would be worth \$37,000. Lawyers Squires and Winter acquainted the Board that they were not agents for the Wickford St. property where there were dangerous chimneys standing. They were, however, arranging to have the danger removed. Mr. J. S. Ayre asked for compensation for damage done his lawn by Council employees while laying water pipes. Dr. Tait said he had received a letter stating that a young man named Albert King, of Duckworth Street, was digging a sewer for the Council with a portion of the King's uniform on. The Dr. opined that this employe should be digging trenches at the Front. After the disposal of a lot of Postline business the meeting adjourned.

City's Health.

A nurse at the General Hospital who was found to be suffering from diphtheria was removed to the Fever Hospital yesterday. Within the past week three cases of diphtheria were reported in the city. There are now at the Fever Hospital 18 cases of diphtheria, 4 of typhoid fever and one of infantile paralysis.

Still Holding Gun When Plane Alighted.

London, Oct. 22.—Among the Imperial casualties is reported as killed Second Lieut. John Percy Fitzherbert Adams, of the Durham Light Infantry, attached to the Flying Corps. Second Lieut. Adams was for two years curate at St. John's, Newfoundland. He was killed in an air fight and was still holding the gun when the machine descended.

KERENSKY FLED; HIS ARREST ORDERED.

Premier Kerensky has fled from the capital, the semi-official News Agency says. Orders, it states, have been issued for his arrest. Petrograd, Nov. 7.—At the Winter Palace to-day it was said that Premier Kerensky had gone to the front, delegating his authority to M. Kishkin, Minister of Public Welfare.

THE PROGRAMME OF THE REVOLUTIONARIES.

PETROGRAD, Nov. 8.—The text of the proclamation of the Military Revolution Committee reads: To the Army Committees of the active army and to all Councils of Soldiers' and Workmen's Delegates and to the Prison and proletariat of Petrograd, we have deposited the Government of Kerensky which rose against the revolution and the people. The change which resulted in the deposition of the Provisional Government was accomplished without bloodshed. The Council of Soldiers' and Workmen's delegates solemnly welcomes the accomplished change and proclaims the authority of the military revolutionary committee until the creation of a Government by the Soldiers' and Workmen's Delegates. Announcing this to the army at the front the Revolutionary Committee calls upon revolutionary soldiers to watch closely the conduct of the men in command. Officers who do not join the accomplished revolution immediately and openly must be arrested at once as enemies.

The Council of Workmen's and Soldiers' Delegates considers this to be the programme of the new authority: First, the offer of an immediate democratic peace; second, the immediate handing over of large proprietorial lands to the peasants; third, the transmission of all authority to the Council of Soldiers' and Workmen's Delegates; fourth, the honest convocation of a Constitutional Assembly. The national revolutionary army must not permit uncertain military detachments to leave the front for Petrograd. They should use persuasion, but when this fails they must oppose any such action on the part of those detachments by force without mercy. The actual order must be read immediately to all military detachments in all arms. The suppression of this order from the rank and file by army organizations is equivalent to a great crime against the revolution

and will be punished by all the strength of the revolutionary law. Soldiers for peace, for bread, for land, for the power of the people. Signed by the Military Revolutionary Committee.

PETROGRAD RAILWAY COMMUNICATION INTERRUPTED.

LONDON, Nov. 8.—Railway communication with Petrograd is reported to have been interrupted, the Copenhagen correspondent of the Exchange Telegraph Co. cables.

PROBABLY AT MOSCOW.

LONDON, Nov. 8.—The opinion is expressed in Russian circles in London that Kerensky, who early was advised of the intentions of Lenin to grasp power, has removed the seat of government to Moscow, and from there will endeavor to unite the moderates against the Maximist and rally to his support the Cossacks and such other troops who have not gone over to the extremists.

GOVT. FORCES CAPITULATE.

PETROGRAD, Nov. 8.—Government forces holding the Winter Palace were compelled to capitulate early this morning under fire of the cruiser Aurora, and cannon of St. Peter and Paul fortress across the Neva River. At 2 a.m. to-day the Women's Battalion which was defending the palace, surrendered. The Workmen's and Soldiers' Delegates are in complete control of the city.

RUSSIAN MINISTERS ARRESTED.

LONDON, Nov. 8.—The Russian semi-official News Agency gives the names of the Cabinet Ministers in Kerensky's Government arrested as follows: M. Alkonovoff, Minister of Trade and Industry; M. Kishkin, Minister of Public Welfare; M. Miterstchenko, Minister of Foreign Affairs; M. Malynovitch, Minister of Justice, and M. Nikellin, Minister of Interior.

IN CONGRESS.

PETROGRAD, Nov. 8.—The Workmen's and Soldiers' delegates of Russia convened here last night with 540 delegates attending. The chairman declared that the time was not propitious for political speeches, and the order of business of the Congress was approved as follows: First, organization of power; second, peace and war; third, a constituent assembly. The officers elected comprised fourteen Maximists, including Nikolai Lenin, the Radical Socialist leader, and Leon Trotsky, president of the Central Executive Committee of the Petrograd Council of Workmen's and Sailors' Delegation. In addition seven Revolutionary Socialists were appointed. A delegation was named to initiate negotiations with other revolutionary and democratic organizations with a view to taking steps to stop bloodshed. The official News Agency to-day made public the following: The Congress of Councils of Workmen's and Soldiers' Delegates of all Russia, which opened last night, issued this morning the three following proclama-

tions: "To all Provincial Councils of Workmen's and Soldiers' and Peasants' Delegates, Power lies in the Workmen's and Soldiers' Delegates. Government Commissioners are relieved of the functions. Presidents of Workmen's and Soldiers' Delegates are to communicate direct with the Revolutionary Government. All members of agricultural committees who have been arrested are to be set at liberty immediately and the commissioners who arrested them are in turn to be arrested." The second proclamation reads: "The death penalty, re-established at the front by Premier Kerensky, is abolished. Complete freedom of political propaganda has been established at the front. All revolutionary soldiers and officers who have been arrested for complicity in so-called political crimes, are to be set at liberty immediately." The third proclamation says: "Former Ministers Konovaleff, Kishkin, Terestchenko, Malynovitch, Nikitin and others have been arrested by the Revolutionary Committee. Kerensky has taken flight. All military bodies have been empowered to take all possible measures to arrest Kerensky and bring him back to Petrograd. All complicity with Kerensky will be dealt with as high treason."

PETROGRAD NORMAL.

LONDON, Nov. 8.—It is officially announced from Petrograd, through wireless press that no headquarters communication was issued to-day. The city presented a normal aspect to-day, even the noonday band accompanying the guard relief under previous administrations, continued its function. There were customary lines in front of provision stores and children played in the parks. There was even a notable lessening of patrols, only a few armed soldiers and sailors moving about the streets.

GENERAL RETIREMENT.

LONDON, Nov. 8.—There are indications of a general retirement northward of Turkish forces in Palestine, the war office announces.

TEKRIT OCCUPIED.

LONDON, Nov. 8.—Tekrit, on the Tigris, in Mesopotamia, 90 miles northwest of Bagdad, was occupied by the British on Nov. 6, the war office announces to-day.

PUSHING BEYOND GAZA.

LONDON, Nov. 8.—The British, says the official statement issued to-day with reference to Palestine, pushed beyond Gaza on the right to Mukham-el-Muntar Hill dominating the town, and on the left of Sheik Redman fortifications a mile to the north. The advance also penetrated as far as the mouth of Wadi Hesi eight miles north of the original

positions. "To all Provincial Councils of Workmen's and Soldiers' and Peasants' Delegates, Power lies in the Workmen's and Soldiers' Delegates. Government Commissioners are relieved of the functions. Presidents of Workmen's and Soldiers' Delegates are to communicate direct with the Revolutionary Government. All members of agricultural committees who have been arrested are to be set at liberty immediately and the commissioners who arrested them are in turn to be arrested." The second proclamation reads: "The death penalty, re-established at the front by Premier Kerensky, is abolished. Complete freedom of political propaganda has been established at the front. All revolutionary soldiers and officers who have been arrested for complicity in so-called political crimes, are to be set at liberty immediately." The third proclamation says: "Former Ministers Konovaleff, Kishkin, Terestchenko, Malynovitch, Nikitin and others have been arrested by the Revolutionary Committee. Kerensky has taken flight. All military bodies have been empowered to take all possible measures to arrest Kerensky and bring him back to Petrograd. All complicity with Kerensky will be dealt with as high treason."

CARE OF THE NAILS.

No hand will present the well groomed and cared-for appearance that good form demands, if treated only to a casual soap and water washing several times a day with an accompanying hasty use of a nail stick, and though, more than mere time, must be given to the subject if one is to make the very best of one's hands. Cultivate the habit of turning the orangewood stick about whenever its point has been used, and to push back the cuticle around the edge of the nail with the blunt or rounded end of the stick. If this is done systematically, several times a day, the valuable half-moon at the base of the nail will always be in evidence, and the nails will maintain their correct shape. Then, when a sudden invitation comes to "fill in" at a friends' afternoon bridge, you will not have to spend a frantic half hour pushing back the hardened cuticle, and perhaps acquire a sore finger into the bargain, trying to put the nails into presentable shape. Never clip the nails into shape unless you want them to become thick and coarse at the edges. Clipped nails also break off more readily, especially in cold weather. Every woman should have a pair of curved manicure scissors on her dresser, but they should be put to use seldom, and then only for clipping a hangnail, or for cutting off the ends or sides of an over-long nail.

Fads and Fashions.

Tail, crowned models with narrow brims are favored among hats. A costume of white and black velvet is effectively trimmed with jet. Frequently one side of a wide sailor hat is wider than the other. There should be a touch of white about the blouse to make it becoming. Some mole scarfs are trimmed with rows of tiny white ermine tails. Sealskin and beaver are very attractive as trimmings on pile fabrics.

Stock of

LADIES' and MISSES'

Winter COATS.

These Coats are all this season's styles and
all British made. This means that they are
made of woollen materials, which signifies more
warmth, and that they will hold their colour bet-
ter than American made Coats, which as a rule
are made of at least 75 per cent. cotton, but
which are now being introduced on this market
owing to the difficulty of getting British made
goods.

However, we have been fortunate in getting
a big stock of British Coats, but owing to their
late arrival and our being very much pressed
for room, we have decided to offer them

At Reduced Prices,

Thus giving our Customers some

Bargains.

This lot of Coats is absolutely and by far

The Best Value

of any Coats now offering the Newfoundland
public. Do not delay making your purchase as
bargains are few and far between these days,
and as our Retail Prices are now less than the
Wholesale Prices of those of the Wholesale Coat
Men, this lot may not last long.
